

### LABOR BADLY USED AMONG THE SOVIETS

Russian Working Classes Suffering Acutely Under Present Regime.

### LIVING CONDITIONS SIMPLY HORRIBLE

Are Being Exploited by Both the Government and Their Employers.

By ALEXANDER BARKSS. (Copyright, 1920, by Cross-Atlantic.)

Rajskol, Finland, Sept. 25.—The Russian working class is suffering acutely. Any notion held to the contrary in other countries is false. I have heard that workers in other countries envy the Russian workers, but they have no reason to be envious for they share in the universal misrecognition concerning the condition of Russian labor. The Russian working class is suffering, first as a result of the economic conditions of the country and, secondly, from governmentally imposed restrictions and conditions of work which would not only be unacceptable to workers in England, France, America or other similarly constituted countries, but which also would be almost inconceivable.

Here is an official report on the conditions in the building trade in the Moscow district. It is signed by Labor Inspector I. Bjakov and is printed in the official news organ "The Pravda," issue No. 161:

#### Living in Hovel.

"The Moscow Labor Union of bricklayers and masons is composed of 24,750 men, scattered over the province of Moscow where ever there is any building in progress. On a tour of inspection I came across the most appalling conditions. The bourgeoisie still living in fancy healthy apartments and houses, while the workers who built these apartments and houses are living in dark and dirty cellars, backyards and tents where they sleep on the bare ground or on hard wooden benches under the worst possible conditions.

"Most of the men have been driven to accept these conditions by sheer force of necessity and have become the easy prey of contractors who trap the men as a spider does flies. These contractors have absolute power over the men, and ignore their complaints. They have increased the pay according to the rates, but they also have raised the working hours from eight to fourteen a day, and they are working everywhere against the union. It is still more shameful when the work leader, in charge of a party of workmen, loudly professes himself to be a communist, but does not show the least interest in or care for his men. I will not mention facts which are against all existing regulations for the protection of labor and workmen."

#### Violate Labor Law.

Mr. Bjakov continues, giving instances of violations against the labor law. The first has to do with the construction work on the railroad station in Kasan.

"What is happening in Kasan is simply beyond description," he reports. "The management will have no dealings with the committee of workmen and tries to avoid them by all means. The Commissioners of the Railroad cooperate with the management and order the workmen arrested and jailed for the least resistance. Some of the supervisors and engineers are guilty of cruel treatment and they are indirectly responsible for frequent accidents.

#### Sleeping Accomodation Bad.

"The sleeping accommodation provided for the workmen is in the most appalling condition. Dirty asphalt floors, no ventilation, no drainage, no sanitary conveniences. As a consequence the adjacent rooms and spaces are in a state of the most indescribable filth. There are no beds, but only rows of hard benches without even a blanket for covering. There are all kinds of ailments. Children and half-grown boys and girls are working under the same conditions as the men."

In the second instance the Labor Inspector refers to the work in connection with the repairs of the Kremim in Moscow. There are the workmen compelled to live in the dark cellars of the Techno-machinery. Conditions in the small arms factory in Myticy are the same as those in Kasan. In Ljublin the workmen prefer to sleep in the streets rather than in the places provided. There are about 4,000 workmen at Ljublin and they are being driven by the engineers to a state of revolt. In a brick factory, the Inspector reports, the men were sleeping in the kilns.

W. H. MORSE, of Seattle, Wash., who says he can now turn out as much work as he could thirty years ago, in spite of his age. Gives Tanlac credit for his splendid health.

"I am in my eighty-fifth year, but since taking Tanlac I am as hale and hearty as I ever was and can do as much work as I could thirty years ago," declared W. H. Morse, of 62 Blaine St., Seattle, Wash. Although in his eighty-fifth year, Mr. Morse is still daily to be found engaged in hard work down at the Ames Shipyard and is remarkably well preserved for his years.

"Last spring I had an attack of the flu that left me in a very badly run-down condition and so weak that I could hardly get around. For a long time I had a very bad cold that I couldn't shake off and my bronchial tubes were so choked up that I was coughing all the time. I had no appetite and in fact ate so little that I was steadily losing weight. I couldn't sleep at nights and became very much worried about my condition, because I couldn't find anything to straighten me up and restore my lost strength.

"I saw by the papers what fine work Tanlac was doing for other folks, so I got some for myself. It did me good right from the start, for in a very short while my cough left me, and I was eating fine and sure did enjoy every mouthful. I slept better at nights and was soon feeling much better in every way. I have gained seven pounds in weight and am so much stronger that I can turn out about as much work as most any other man, in spite of my years. Tanlac certainly must be a great medicine to put me on my feet like this, and I'm glad of the chance to tell everybody about it."

### "POP" WALTERS DEAD IN WEST

Winnipeg, Sept. 28.—Staff Sergeant Paul Walters, better known as "Pop" Walters, for 30 years a member of the Royal Northwest Mounted Police, as well as Indian fighter in the United States, is dead. He died at the Old Folks' Home here, aged 74 years. "Pop" Walters had a checkered career," said Col. Knight, speaking of it at the Mounted Police headquarters here. "He served in the 7th U. S. Cavalry at the time of the 'Great massacre' in 79. He happened to be in a reserve squadron of the regiment that was wiped out by the Sioux. After leaving the U. S. service he joined the Mounted in April, 1891, at Regina. In 1896 he served with the 1st Canadian Mounted Rifles in South Africa, where he received the South African medal and four clasps."

### FREEDOM SLEW PRISONER.

Ossining, N. Y., Sept. 28.—Isidore Borman, twenty-one, an inmate of Sing Sing prison, died of heart disease last night when informed he had been pardoned by Governor Smith. He had been in prison since December, after conviction for assault in New York city. The pardon was recommended by the prison physician because of Borman's illness from heart trouble.

### PLENTY OF WORK TO DO YET IN FIXING ROADS

Not Safe After Dark is View of Gagetown Man Describing His Highway.

Special to The Standard. Gagetown, Sept. 28.—Hon. Mr. Veniot may, he claims, have made the province of New Brunswick a paradise insofar as the roads are concerned, but he has not yet been able to make all of the people who have to use them believe it, as was amply proved at the convention held Monday in Gagetown.

Hon. Mr. Baxter, in his discussion of the road policy of the government, spoke of the work which had been done on the Marsh Road between the one mile house and Rousesay, which had cost over \$140,000. This drew the attention of a prominent farmer of the parish of Cambridge, who was present, and he wanted to know how to get the same kind of pull with the "master of the administration" in order that the road he was compelled to travel over might be improved.

He stated the road to McDonald's corner was in the worst condition it had ever been in the memory of the oldest inhabitant of the district, in fact it was so bad that it was no safe for a person to travel over it after dark and anyone doing so took his life in his hands, and he was inclined to think the best thing for the people in that section of the country to do was to move down near St. John for the sake of having a decent road to travel on.

Unless a man can see a slight improvement in himself it's impossible to convince him that the world is growing better.

### RHUR MINERS TO DEPRESS THE OUTPUT

Aim to Do Away With All Overtime and Thus Frustrate Spa Arrangements.

(Copyright, 1920, by Cross-Atlantic.) Berlin, Sept. 28.—At a meeting of the "Free Miners' Union" (a league professing communist tendencies), which was held at Essen in the Ruhr district, plans were discussed for abolishing overtime in the whole Ruhr country. It was pointed out by the speaker urging this course that the output from the mines would thus fall by 100,000 tons daily and the Spa arrangements would remain a dead letter. "This would then be a step in the right direction—revolution," the speaker said, "but there would not be such differences. 'Martial law' will

certainly be reintroduced in measurable time, and it will be all the same, whether we are under French military rule or under German government troops."

### SIGNS INDICATE BIG FUR CATCH

Edmonton, Alta., Sept. 28.—Fur in the north country will be more plentiful this season than for some years, according to reports received here. Positive signs show, it is claimed, that a large catch is assured of. "There was a large increase in the number of wild rabbits and mice this year. Coupled with the same increase, it was irrefutable evidence that the country was on the eve of a great fur-trapping season. It has always been the case that when rabbits and mice, which with game birds, constitute the main food of foxes, coyotes, lynx and similar animals, are numerous, a big fur catch results.

REV. C. S. DEEPROSE DEAD. Ottawa, Sept. 28.—Rev. Charles S. Deeprose, a prominent Methodist minister, who founded the MacLeod street Methodist church here in 1890, died suddenly at his summer home near Knaabans, Que., yesterday. His last pastorate was the Fairmount avenue Methodist church, Montreal, from which he was supernumerated a year ago, owing to ill-health.

CROOKED WHITE SOX PLAYERS THREW GAMES TO CINCINNATI

President Comiskey Suspends Seven Players—Cicotte Engineered Deal to Lose World's Series for \$10,000—Joe Jackson Received \$5,000—Willing Tools for Professional Gamblers.

Chicago, Sept. 28.—Indictments were voted against eight baseball stars today and confessions obtained from two of them. When the old Roman, Charles A. Comiskey, owner of the oft-time champion Chicago White Sox, smashed his pen and ink, he was not only a player but a gambler.

Seven Sox regulars and one former player comprised the players against whom true bills were voted by the Cook County Grand Jury, and the seven were immediately suspended by Mr. Comiskey. With this first only one game behind the league leaders, Cleveland Indians, the White Sox owner served notice on his seven stars that, if they were found guilty, he would drive them out of organized baseball for the rest of their lives.

Officials of Chief Justice Charles McDonald's court, desirous of giving the national game the benefit of publicity in its pending, filed the charges on the grand jury proceedings sufficiently to show a great hitler, Joe Jackson, declaring that he deliberately let the ball, a picture of one of the most famous of pitchers, Cicotte, in tears and glimpses of alleged bribes of \$5,000 or \$10,000, disconcerting pitchers, or on bids of famous athletes about to retire.

At the court room at one time or another was some of baseball's greatest leaders, among them John J. McGraw, manager of the New York Giants, availing a call to testify to McGraw, and John Hayler, president of the National League, who, before the grand jury this afternoon.

The Men Involved
This afternoon most of the information, Mr. Comiskey put before the grand jury, was not disclosed. The men whom the jury involved as a result of testimony uncovered by their owner were:

Babe Cicotte, star pitcher, who waived immunity and confessed according to court attaches, that he took \$10,000 to lose.
Arnold Gossett, former first baseman, "Shoestring Joe" Wagner left fielder.
Oscar "Hop" Felsch, centre fielder.
Charles "Sweet" Shim, shortstop.
Claude Williams, pitcher.
George "Buck" Weaver, third baseman.

Comiskey Dismissed
While the grand jurors voted their true bills, the old veteran stepped in the midst of his unraveling empire cut at White Sox park issued the telegram suspending those involved, paid off Weaver, Cicotte and Jackson on the spot, and announced checks for \$5,000 to the others would be sent them at once. With his voice trembling, Mr. Comiskey, who has owned the White Sox since the inception of the American League, said this was the first time he had ever touched his "family," and that it distressed him too much to talk about it.

Cicotte Wept
The rush of players to bare their parts in the affair, started today when Cicotte appeared at criminal court, heeded and asked permission to testify. Cicotte wept, court attaches said, and exclaimed in anguish his sorrow for his two great children, as he told how he did his utmost to lose rather than win the 1919 world's series after he had "found" \$10,000 to reach his pillow where it had been placed by professional gamblers.

He said he lobbied the ball to the plate so slowly "you could read the time-mark on it" in the first game at Cincinnati, when he was taken out of the box after three and two-third innings had been played.

Cicotte Confessed
Babe Cicotte confessed that he engineered the deal by which the White Sox lost last year's world's series, an official of the court announced this afternoon. The details of Cicotte's confession are closely the story told in Philadelphia last night by Billy Maharg, former prize fighter, it was stated.

Cicotte told the grand jury, it was announced, that he received \$10,000 for his part in losing the series. He never saw the man who paid the money, he said. He was told he would find the \$10,000 under his pillow in his hotel room on the night before the first game at Cincinnati, and when he returned to his room the money was there.

He never did anything I regretted as much in my life," the witness added, according to the state official. "I would give anything in the world if I could undo my acts in the world's series. I've played a crooked game and have lost, and I am here to tell the whole truth."

Did Not Try to Win
In the fourth game played at Chicago, which I also lost, I deliberately pitched a throw from the outfield to the plate which might have cut off a run. I nudged the ball on purpose. At another time in the same game I purposely made a wild throw. All the runs scored against me were due to my own deliberate errors. I did not try to win.

A court official who was present when Cicotte went on the stand, described the scene when the star pitcher broke down and cried as he told the jury of his part in the series "fixing."
"By God, think of my children," he cried. Cicotte has two small children. "I've lived a thousand years in the last year," the court official quoted him as saying.

Grand Jury Investigate
The investigation by the Grand Jury will continue until all phases of the baseball gambling have been heard, it was said by officials.

Only One Stake Event Contested Will Paris Become The Olympic City?

Grand Circuit Track in Bad Shape at Columbus After Rain. Question Being Discussed by The Parisian Press—Paris Every Four Years.

Columbus, O., Sept. 28.—But one of the stake events on today's Grand Circuit programme was contested, the Grand of Trade 2.05 Pace, Purse \$3,000, racing over as part of Wednesday's big programme in which \$15,500 will be distributed.

It was impossible to get the track in shape, for morning today with a deluge. It was a few seconds slow than, which accounts for the slowest time of the meeting, and the fine finishing of only two events, the third best of the 2.15 trot going over to 12 o'clock Wednesday.

Peter Coley proved the best mud horse and completed the 2.06 Chamber of Commerce Trot. He dropped the third heat to Millie Irwin, the original favorite when he broke in the stretch. This race was a big betting event, Millie Irwin selling for \$400; Peter Coley \$300; Cornelia \$250; Peter June, \$70; Dr. Nick, \$60, and The Toddler, \$40.

In the first heat W. R. Fleming being Millie Irwin, claimed Valentine interfered with him and cursed the judges to break the chain. In the second heat both Peter Coley and Millie Irwin, stayed on the trot, the former winning by a scant length. Bonnie Bar, on the G.I.T. Pace after finishing ninth the first heat, Dan Elger, the favorite, never had a chance.

In the untried 2.11 trot, Patrick Todd, the favorite, and Mightier won a heat.
Summaries:
2.17 Class Pace—Purse \$1,000 (3 heats)
Bonnie Bar, b. m. by Oxford Prince (Falm) ... 1 1 1
Jefferson, b. g. (Valentin) ... 1 9 9
Banner M. b. g. (Perry) ... 2 3 3
Dan Elger, br. g. (Vance) ... 5 4 2
Gay Eagle, b. g. (Mallow) ... 4 2 6
Rolla Chimes, Katchisco, Parker Bay and Allie Clair, also started.
Time—2:06 1/4; 2:06 3/4; 2:08.

2.06 Trot, The Chamber of Commerce, (3 heats)—Purse \$3,000.
Peter Coley, b. g. by Peter the Great (Valentin) ... 1 1 2
Millie Irwin, b. m. (W. R. Fleming) ... 5 3 1
Peter June, ch. h. (Stokes) ... 2 2 4
Dr. Nick, blk. h. (Cos) ... 3 5 6
Cornel, ch. m. (Hamm) ... 4 6 6
The Toddler also started.
Time—2:06 1/4; 2:06 1/4; 2:06 1/4.

2.15 Trot (3 heats)—Purse \$1,000 (Unfinished).
Patrick Todd, blk. g. by Jim Todd (W. R. Fleming) ... 1 1 3
Mightier, b. m. (W. Fleming) ... 1 3 3
Trumpler, b. h. (Macey) ... 2 3 7
Wagner, ch. g. (Hedrick) ... 3 2 2
Dorothy Day, b. m. (Hall) ... 3 10
Van Wood, Hillall Fletcher, Grace Deane, Dr. Hoffman, Hester Brown and Alben Dillon also started.
Time—2:09 1/4; 2:08 1/4.

Bowling League Draws Schedule First Game in Wellington League Next Monday on Veterans' Alleys.

Representatives of the teams comprising the Wellington Bowling League met last evening in the Trocadero pub rooms and completed arrangements for the establishment of a new American League when W. J. Brown, president of the league, presided.

The first game takes place on the G. W. V. A. alleys, Monday, October 4th, when the G. W. V. A. meets J. & A. McMillan, Ltd., last year's champions. The schedule of games for the remainder of the week is as follows:
Oct. 5 Customs vs. Trocadero Club.
Oct. 6 C. N. R. vs. orona.
Oct. 8 Nashua Pup and Paper Co. vs. Schofield Paper Co.
Mayor Schofield has accepted the invitation of the executive to officially open the league.

"PUSSYFOOT" STARTS DRY LONDON FIGHT Johnson, American Prohibitionist, Confident Europe Will be Dry in Ten Years.

(Copyright, 1920, by Public Ledger.)
London, Sept. 28.—Convinced that prohibition has come to stay in the United States, "Pussyfoot" Johnson began his work in London today to make Europe dry in ten years. That he intends to accomplish by the simple process of telling the people of Europe what prohibition has accomplished for efficiency and good in America.

The plan of campaign is to be similar to the prohibition campaign in America. Harry S. Warner, of Chicago, secretary of the Intercollegiate Prohibition Association, is here after a visit on the continent for the purpose of organizing students in English universities in prohibition societies. Mr. Johnson has had some interesting things to tell the British press, which welcomed him with long interviews on his opinions about America. Johnson said sentiment was against the peace treaty, but that the United States would join the league with modifications. He thought that while every one was seeing red in America, today, the time was coming when twirling the lion's tail would be a lost art in American politics. Speak-

PERFORMANCE BEFORE PROMISES

Every fair-minded man and woman can appreciate "BUSINESS GOVERNMENT." Small wonder is it that the fair-minded men and women of New Brunswick, irrespective of federal politics, stand firmly behind the Foster Government, now appealing to the people on its record of the last three and one-half years. A very large majority will surely agree that the following summary of concrete accomplishments warrants an extension of power to this business-like government:

- 1. The government has maintained the financial credit of the province in the markets of the world, reduced the debt on the Valley Railway by \$685,412.66 through sound financing and introduced an independent system of audit which does away with political juggling of financial statements.
2. The revenue from Crown Lands has been increased from \$544,191 in 1916-17 to \$1,425,000 in 1919-20 and vigorous steps have been taken to prevent the forests from fire destruction and the game from extermination.
3. By funding from motor vehicle licenses sinking fund and interest for Bond Issue for permanent highways were provided and stretches of durable road have been completed, this plan also relieving the ordinary road expenditure and making possible attention to many branch roads and roads leading to remote settlements, hitherto long neglected.
4. Agricultural education has been greatly encouraged through increased grants and the provision of special courses and the dairy industry aided by the establishment of co-operative creameries.
5. Through providing credits and conducting an educational campaign the number of sheep has been increased from 140,000 in 1917 to 280,000 in 1920; in fact during the last five years New Brunswick led all Canada in the increase of live stock and this was largely due to the policy of the present government.
6. The government has provided for the erection of a modern limestone powdering plant with the object of making available at a price lower than from any other source ground limestone which is greatly needed on many farms of the province.
7. Through the creation of the Workmen's Compensation Board the laborer is no longer obliged to seek redress in the courts in case of injury and free hospital and medical treatment are also assured him.
8. Far-reaching benefits have been secured through a new Jury Act and amendments to the Succession Duties Act, County Court and Probate Courts Acts.
9. Through the addition of a Department of Public Health, the government has brought New Brunswick from a backward position to the very forefront of Canadian provinces as respects the combating of social disease, the gathering of vital statistics, medical examination in schools, has cleared the province of smallpox, rendered nearly the whole school population immune to the disease and established public health as a most important and vital interest of the people.
10. Government grants to teachers have been increased in the interest of education and a vocational Board created, making possible the opening of Vocational schools in different centres throughout the province.
11. The water powers of New Brunswick have been investigated by a government-appointed commission and tenders for the work on the Musquash and Shogomoc have already been advertised. Reports on other water powers are already available.
12. The government has put in force the Prohibition Act of 1916 and, as provided for by that Act, granted a plebiscite, the result of which may be construed as warranting only changes which make the Act more effective.
13. The government has granted the full provincial franchise to women and has kept in touch with the progressive labor legislation of the present day.
14. The Valley Railway has been completed from Centreville to Westfield and handed over to the C. N. R. for operation according to agreement, the government, however, pressing upon the dominion government their duty to take over this burden upon the province as a federal undertaking in the same way that Nova Scotia and the western provinces were relieved through the absorption of the Canadian Northern into the government system.

The foregoing is the record of performance; what of the future? The platform of this capable government is briefly set forth in the concluding paragraphs of Premier Foster's manifesto as follows:

To give the greatest possible assistance to agriculture in every shape and form: To lend most vigorous support to hydro-electric development and to further the same by using the credit and resources of the province in order that the people may have the cheapest power and light for their use:
To continue our policy for the improvement of all the roads of the province, back roads as well as front, farmers' roads as well as those for the use of automobiles, giving an equal policy of fair play to everybody no matter where they live:
To give further encouragement to education, not only in the common schools of the province, but to vocational education and to agricultural education, so that the young people of New Brunswick will have equal opportunities with the youth of any other province:
To provide such labor legislation within provincial jurisdiction as may be called for by the findings of the National Industrial Conference and the International Labor Conference:
To conserve energetically and carefully our timber resources and to give every encouragement to the development of mining areas:
To continue our policy of protection of public health and give such assistance as we can to hospitals and institutions necessary to provide for those unable to fend for themselves:
To guard the interests of the people at all times:
To maintain provincial rights:
To inquire into the best methods of inducing immigration to the province and to make such arrangements with the maritime provinces as will be conducive to this:
In appealing for your support, I do so, confident that the record of the government will meet with your approval. I have endeavored to carry out every promise made to the people and have carefully guarded the interests of the province, administering its affairs prudently, honestly and with such impartiality as will, I hope, commend itself to you.
It was necessary, because of some transactions during the period of the preceding administration, to hold certain inquiries and investigations. The findings, so far as possible, were dealt with by the legislature and actions arising out of the findings are still before the courts of the country. I hope the days of investigations and royal commissions are over in New Brunswick and the fair name of our province will never again be smirched in the eyes of the rest of Canada.
Reconstruction is going on here as well as in the rest of the world. All must do their parts as best they can. Good government is essential; honest government imperative; economical government necessary. It will be the aim of my colleagues and myself to carry out these ideas and so administer provincial affairs as to win your approval.
I am, yours respectfully,
W. E. FOSTER.

Truly This is a Government Worth While

The St. John Standard.

THE STANDARD IS SOLD BY: Windsor House, Montreal; Ottawa; H. A. Miller, Portland; H. A. Miller, New York; Grand Central Depot, New York.

THE FOSTER GOVERNMENT PROGRAMME

The Standard is publishing today what we are informed is the first of a series of advertisements that is intended to be run daily in the interests of the Foster Administration until polling day.

The Premier takes great credit on behalf of his Government for its enforcement of the Prohibition Act. In view of the fact that it is the law of the province, they could scarcely do anything else than enforce it.

THE STUMPAGE

Says the Globe: "The Foster Government, under Hon. Dr. Smith's administration of the Crown Lands, inaugurated not only an honest collection of the stumpage, but took the first steps in the direction of a progressive policy aimed to make our forests play their full part in meeting provincial obligations."

WHAT OTHERS SAY

The Frank Lenins. (Detroit News.) "Belgium's socialists have always excused the terrorism and tyranny in Russia on the ground that it was necessary there owing to peculiar conditions growing out of the Russian revolution."

**Robinson's Clothes Shops To Open Saturday, October 2**

Robinson's Clothes Shops, Limited, the pioneer upstarts clothes shops of Canada, with branches in Halifax, Montreal (Three Shops), Ottawa, Toronto, Kingston, Hamilton, Windsor, Regina, Moosejaw, Saskatoon, Calgary, Edmonton and Vancouver, have secured the entire second floor of the McPherson building and will open, as soon as alterations are completed, with the largest exhibition of men's clothes ever seen in St. John.

**H. RUTENBERG**  
Location Manager of the Robinson Chain

Mr. Merton C. Robinson, the president of the company, started his first store in Montreal seven and one-half years ago in a small upstairs room, fifteen feet square, his idea being that by low rent and low operating costs to sell the latest and best in men's clothing from \$10 to \$20 less than the downstairs stores could with their higher rents, charge account losses, delivery service, etc.

This policy of selling clothes for \$10 to \$20 less being steadily adhered to, in a short time the business outgrew the premises, and since then has developed until the present Montreal "Head Office" occupies a floor space of 8,900 feet and shops extend from Halifax to Vancouver in all the larger cities.

The enormous number of suits sold in their chain of stores has materially reduced the cost of manufacture, and today the Robinson Chain stands as the largest men's clothing establishment in Canada. It has always been a policy of Mr. Robinson's to have every one of his customers entirely satisfied with his purchases, and the Robinson Shops at all times advertise the guarantee to return the purchase price of any suit that could be bought in downstairs stores for less than \$10 more.

The wonderful growth of the Robinson Chain and the increasing demand for Robinson's clothes have been entirely due to maintaining the idea of selling clothes \$10 to \$20 less than the downstairs clothing stores.

Mr. Rutenberg is now in St. John supervising the remodeling of the new location which they have secured, and will personally promote the opening Saturday, October 2nd, and also wishes to extend a personal invitation to the men of St. John to come up Saturday and inspect their merchandise. Every courtesy will be extended to you, whether you come to purchase or not.

**WEDDINGS.**

**Clark-Campbell.**

The marriage of Miss Constance Elson, daughter of Mr. and Mrs. G. Wilford Campbell, and Harold Olive, son of A. R. C. Clark, took place yesterday afternoon at St. David's church, Rev. A. J. MacKeigan officiating. The groom is a returned soldier, who is a present successful contractor and builder. A full surplice choir was present, and a solo, "Because," was rendered by the bride's friend, Miss Jean Anderson. Mrs. H. N. Stevens came from Amherst, N. S., for the ceremony. Mr. and Mrs. Clark, on their return from New York, will reside on Crown street, corner of Elliott Row. The wedding presents were of an elaborate character.

**Sanderson-Wilson.**

Miss Gertrude C., daughter of Mr. and Mrs. A. O. H. Wilson, 208 Chesley street, and John W. Sanderson, Prince Albert, Sask., were married yesterday afternoon at 3:30 o'clock in the Coburg street Christian church by Rev. F. J. M. Appleman. Following the wedding, a reception was held at the home of the bride's parents, and Mrs. Sanderson left last evening en route for Prince Albert on their honeymoon to Montreal, Toronto, Niagara and other points. Out-of-town guests included: Miss McVry, New York; Miss McJunkin and Miss Bessie McLunkin, Brooklyn. The bride is a graduate nurse of the Public Hospital and served as a nursing sister during the war in the St. James street military hospital and later at Fredericton. There were many beautiful gifts.

**FUNERALS.**

**FUNERALS.**

The funeral of Mrs. John Daley took place Tuesday afternoon from her late residence, Pleasant Point, to St. Rose's church. Service was conducted by Rev. Dean Collins. Relatives were pall bearers, and the funeral was attended by many friends. Many beautiful floral offerings were received.

The funeral of Archibald F. Diblee took place yesterday afternoon from his late residence, 116 Broad street, to St. James' church. Service was conducted by Rev. H. A. Gody, and interment was in the Church of England burying ground.

The funeral of Mrs. F. H. Cunard took place yesterday afternoon from her late residence, 82 Marsh Road. Service was conducted by Rev. G. P. Dawson and interment was in Fernhill.

The body of Marcus W. Cox was taken to White's Cove on the steamer Champlain yesterday, and interment will take place this afternoon. Service was conducted Tuesday night at the residence of his daughter, Mrs. T. E. Robinson, 36 Kennedy street.

**Eat Less and Take Salts For Kidneys**

Take a Class of Salts if your Back hurts or Bladder bothers.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid, which the kidneys strive to filter out. When overworked, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

**THE CIRCUIT COURT.**

The September session of the Circuit Court opened yesterday morning with Justice Crockett presiding. While the docket does not contain one single criminal case, it shows an unusually long list of civil actions entered for trial. None of the cases being ready to be proceeded with, the court adjourned to October 19th next.

**Civil Docket—Jury Actions**  
Hattled & Scott Co., Ltd., vs. The Canadian Government Merchant Marine—F. H. Taylor, K.C.  
Leaman vs. Jacob Jacobson—F. H. Taylor, K.C.  
McKinney vs. The Sun Insurance Company of England—F. R. Taylor, K.C.  
Allan vs. Brown—Toad & Teed.

**EIGHT HOUR DAY FOR HOUSE MAIDS**

Calgary, Sept. 29.—An eight-hour day for household workers is recommended by the Local Council of Women of this city. It is further suggested that great discretion be used in the selection of girls to come to Canada. "We have enough labor unrest in this country without adding to it," said one of the speakers at a recent meeting.

**Will Hit a Snag.**  
Italian printers have seized a newspaper and declare they will run it themselves. Just wait till they bump up against the office boy.

**Why Stay Fat?**  
The answer of most fat people is that exercise and dieting is too hard, too troublesome and too dangerous a method to force the weight down. However, in Laxolva Prescription Tablets, all these difficulties are overcome. They are absolutely harmless, entail no dieting or violent exercise, and have the added advantage of cleansing. One little tablet after each meal and at bedtime—as please—will reduce your weight two, three or four pounds a week, and leave no bad results such as wrinkles or flabby skin. A good size box is sold by druggists at the reasonable price of one dollar, or if preferable they may be obtained by sending the amount to the Laxolva Co., 91 Grenfell Building, Ottawa, Ont. They will reach you by mail prepaid, in plain, sealed cover.

Remember that you know this you have no excuse for being too fat, but can reduce two, three or four pounds a week without fear of bad after-effects.

HUNGRY VIENNA WOULD MIGRATE TO THIS LAND

Once Brilliant Social Centre of Europe, Now Reduced to Poverty, Would Start Afresh

By LEON SCHALIT. (Copyright, 1920, by Cross Atlantic.) Vienna, Sept. 28.—Vienna is a city that wants to emigrate. It is physically possible for the inhabitants of this unhappy place to do so, they would pack and go tomorrow, leaving behind their empty houses and deserted streets, inhabited by only the rats, the cats and the dogs. By choice they would go to the United States of America.

Conditions have become intolerable in this once brilliant capital. It is a city of 2,000,000 people, and it is believed in the future may have 3,000,000. Starved by the peasants who should be feeding it, it is accosted the same treatment by surrounding provinces for reasons political and economic. It has lost none of its former beauty, it is as fair to the eye as ever; the casual stranger sees little that is abnormal. But the people who live together with their optimism, altogether gone.

Want To See America. Especially eager in their desire to go to America, these women of a prolonged land, are the women—school girls, governesses, typists, teachers, and others.

Because the upkeep of all establishments has become very expensive and salaries have risen beyond all expectations, there is great danger of socialist, anarcho, etc., having to close down. Vienna, famous for its excellent medical men, may soon lose the best of them; they cannot make a decent living here, and prefer to practice in Germany, where the conditions are so much better.

The old Austrian monarchy was ridden by officialdom; and the new Austrian republic, where an army of officials, every tenth person being in the employ of the state, so that the little country has to feed about 500,000 government families. They cannot live on their earnings, and are continually agitating for increased pay. The weak authorities have to give in each time, which means a terrible burden to the taxpayer, who is already taxed to its utmost capacity. The Damocles' sword of increased taxation hangs above it, and a hope that deficit of more than 37 million kronen (nominally about three and one-half million dollars) does not tend to ease the financial situation.

An Awkward Situation.

An awkward condition was created the other day, when all the employees of the telephones and telegraph offices, after six months' fruitless endeavors to get a raise, came out on strike, and unfortunately the member of the cabinet was present in the capital to negotiate with them. For more than 48 hours, Vienna was cut off from the outer world. Dr. Mayr, the official head of the present "business government" (which, it is to be feared, means very little business), had gone to the country for a few days, and remained untraceable. Those cabinet ministers who could be discovered were brought to Vienna in automobiles, and after much exertion, six of them formed a cabinet, and the time being satisfied the urgent demands of the strikers. This the republic at a critical moment was left without its political head.

BATTLESHIP RAN BY RADIO WAVES WITHOUT A CREW

Washington, Sept. 28.—Tests of radio control navigation on the old battleship Iowa, just concluded by the United States Navy Department at the Virginia Capes, were declared to have fulfilled the highest expectations of naval experts. The 12,000-ton battleship was navigated with precise accuracy, it was said, solely by means of radio waves, emanating from a control station on the battleship Ohio. The control was found thoroughly efficient up to a maximum distance of ten or twelve miles. Plans are being made to use the Iowa in target practice for the United States Atlantic fleet. It will be the first time in naval history that a battleship moving under full speed has been used as a practice target.

"FREEZONE" Lift Off Corns! No Pain!

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting. Truly! Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to remove every hard corn, soft corn, corn between the toes, and the calluses, without surgery or irritation.

NEW YORK GIRLS CARRY LUNCHES TO CUT COSTS

Hard Winter Ahead Makes Shop Girls Anxious to Save Now.

New York, Sept. 28.—The leading contender for early autumn attention in the great city is economy—making the shabby over the week. It has been a spendthrift summer and back from vacation everybody is faced by higher prices for rent and food, towers of unpaid bills, and bills of arrearages dwindled to pathetic reminders of the golden pre-war days.

The New York that lives in flats has never been so far from the ground. Scarce a week off is the official "moving day"—October 1—and it is estimated that over 200,000 families in the five boroughs will change their homes, most of the people coming down the coast ladder by moving into cheaper and smaller flats. Fortunately the strike of the moving men has not ended and household goods are certain of prompt transfer even if at greatly increased rates.

Cutting Down Bills.

A cold and most expensive winter appears to be ahead. Go where you will and the absorbing talk is not only curtailment in home living expenses but retrenchment in outside expenses. The "bring-your-lunch" movement has already caught on at the office buildings as a reproach to public lunchroom prices that have mounted until a glass of milk and a sandwich costs what one used to pay for a hot luncheon of soup, meat, vegetables, coffee or tea and dessert. Investigation of many offices in which large numbers of girls are employed reveals that 75 per cent have joined the lunch-carrying contingent. The others would do so but for the present some cannot for the reason that they live in boarding houses unwilling to supply the lunches or they themselves are sufficiently attractive to attract some dapper friends to alternate as regular mid-day providers for the six working days of the week.

Start Lunch Rooms.

All through the Lower Broadway district the larger corporations, recognizing the seriousness of the situation are more and more adopting the plan in putting in lunch rooms which furnish employees with the necessary meal at cost price. This is the ideal plan and bosses who have done it say that the outcry is more than reflected in a better service from well-organized employees when back at work. The stewards of some of these inside enterprises have pooled for buying from the markets which is the same occupation that gives the hotel man running a chain of hotels an advantage over the proprietor of a single hostelry. Guns of all bores and calibres will cut loose on the Iowa, which will be given the fair chance, however, of smoke screens and other simulated battle conditions. The practice probably will be held the latter part of this month.

VICTORY BOND RULE EXTENDED

Montreal, Sept. 28.—At a meeting of the Montreal exchange it was decided unanimously to extend the victory bond agreement to the end of the year as suggested by Sir Henry Draxton, Dominion minister of finance.

GREAT FUR PRESERVE.

Regina, Sask., Sept. 28.—The vast hinterland of northern Canada should be preserved in its entirety, a sanctuary for wild animals, a trapper's and hunter's paradise, in the opinion of H. A. Conway, inspector of Indian agencies in the far north. Mr. Conway recently returned from a trip through the North West Territories that took him 1,300 miles north of Edmonton, or 1,500 miles north of a railway line.

Big money in Cellar Digging if you use a

PRACTICALLY no end to the digging and excavating work the Keystone Excavator Model 4 can do. Cellar digging seems to be "just made" for it. Many other uses, too.

The Keystone travels under its own power. Weighs only 12 tons, so it can go almost anywhere a dump wagon can.

Has 32 h.p. steam engine, special steel frame construction and sturdy ground-digging outriggers. Its 20 feet of working range gives it a

capacity of 150 to 300 yards per day in any sort of ground. In cellar digging it stays on the level. Backs up and "takes the back with it" in "drag-line" fashion. Works fast. Easily handled. No teams needed in the excavation. Big money earner.

Write us today for Bulletin. Six years in use. Price—moderate. Made and guaranteed in Canada. ENGINEERING & MACHINE WORKS OF CANADA, ST. CATHARINES, ONT.

Chained To His Work, Many A Man Lets Health Slip Away

Says Physician, Telling How Gruelling Strain of Business Life Saps the Iron from the Blood of Thousands, Breaking Down Their Health, Strength, and Vitality—Explains How Organic Iron—Nuxated Iron, Helps Make Men Strong, Sturdy and Successful.

Commenting upon the appalling number of men who are every day breaking down under the nervous and physical strain of business life, Dr. John J. Van Horne, formerly Medical Inspector and Clinical Physician on the Board of Health of New York City, says:

"Over and over again I see in my practice men in the prime of life who are rapidly breaking down under the grueling strain of business cares. Like shackled slaves they are chained to their work while their health is slowly but surely slipping away, and each man seems to think that he is strong enough to get by somehow though the other fellow may break down. But not until the overworked body and tired brain rebel and he suffers a nervous or physical collapse does he realize that he has squandered his health and strength, often by simply neglecting to meet all business strains and stresses and gain success in every undertaking by sheer force of splendid vitality."

"Iron is the red blood food, iron is Nature's means for carrying the life-giving oxygen we breathe to the body and brain cells. Without iron the blood could not change the food we eat into living tissue, and could not carry off the poisonous waste matter. Overwork, worry and the increasing strain and struggle of present-day high-tension business life, sap the energizing iron from the red blood corpuscles, leaving the blood in an anemic condition, only capable of half nourishing the brain and body. With only 50 per cent energy a man can do only 50 per cent efficient and I believe there are thousands who can attribute their failure to get ahead in life to nothing more or less than lack of iron in the blood. I advise all men who are working long hours and drawing heavily upon their nervous

ARE YOU A SHACKLED SLAVE TO BUSINESS Being Robbed of Your Health, Strength and Endurance? A Physician Tells How You Can Build Up Red Blood, Strength, and Energy by Means of Organic Iron—Nuxated Iron.

vitality and physical endurance, to three times per day after meals for keep their blood rich in iron, and for two weeks. Then test your strength this purpose. I always prescribe and see how much you have gained. This short course of organic iron—Nuxated Iron—will increase the strength, power and endurance of iron. By creating thousands of new red blood corpuscles, building up strength and energy and enabling the organs to function normally, Nuxated Iron can help a man to bear up under business strain and gain that tireless vigor and masterful vitality that bring success.

Nuxated Iron For Red Blood, Strength and Endurance. MANUFACTURER'S NOTE: Nuxated Iron which is recommended above is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, and does not injure the teeth, make them black nor upset the stomach. Each tablet of genuine Nuxated Iron is stamped and the words Nuxated Iron are stamped into each bottle, so that the public may not be led into accepting inferior substitutes. The manufacturers guarantee satisfaction or entire satisfaction. If you are not satisfied, you may return your money. It is dispensed work or how far you can walk without becoming tired. Next take two by all good druggists in tablet form.
