

65 PER CENT OF VOTE CAST ON DECEMBER 6

Figures Show Conservatives Had Larger Popular Vote Than the Progressives.

POPULAR VOTE BY PROVINCES

Liberals Had 76,653, in This Province, Conservatives 61,172 and Progressives 17,447

Ottawa, Feb. 6.—In the general election on Dec. 6, a total of 3,131,844 votes was cast out of 4,736,722 the electoral lists, or about 65 per cent. In the general elections of 1917 the total vote cast was 1,855,239 out of 2,893,799 on the electoral lists. The increase is due chiefly to the extension of the franchise to women, and to the fact that there were no acclamations in December last.

The official computations, issued this afternoon, do not give the vote obtained by each party in the field, but calculations made at the instance of Canadian Press, Limited, give the totals cast for each party as follows: Liberals—1,286,723; Progressives—709,267; Conservatives—611,742.

The figures show, rather curiously, that while the Progressives elected 56 members in comparison with the election of 59 Conservatives, the Conservatives had a larger popular vote than the Progressives. It is calculated that each Liberal member elected represents 11,109 voters, each Progressive 11,806, and each Conservative 18,400.

Vote by Provinces

By provinces the popular vote was as follows: Ontario—Liberals, 351,717; Progressives, 229,602; Conservatives, 445,150; Independents, 9,008; total, 1,135,477. Total on voters' list, 1,368,599.

Quebec—Liberals, 558,056; Progressives, 317,900; Conservatives, 153,745; Independents, 29,478; total, 759,066. Total on voters' list, 1,141,220.

Nova Scotia—Liberals, 136,064; Progressives, 85,741; Conservatives, 87,782; total, 259,793. Total on voters' list, 385,027.

New Brunswick—Liberals, 76,853; Progressives, 17,447; Conservatives, 81,131; total, 195,431. Total on voters' list, 241,243.

Prince Edward Island—Liberals, 23,850; Progressives, 9,990; Conservatives, 19,904; total, 63,444. Total on voters' list, 86,239.

Manitoba—Liberals, 29,225; Progressives, 33,950; Conservatives, 46,488; Independents, 13,351; total, 172,722. Total on voters' list, 254,541.

British Columbia—Liberals, 46,249; Progressives, 21,781; Conservatives, 74,228; Independents, 12,739; total, 154,000. Total on voters' list, 228,619.

Alberta—Liberals, 33,404; Progressives, 194,819; Conservatives, 26,181; Independents, 6,024; total, 179,904. Total on voters' list, 271,309.

Saskatchewan—Liberals, 46,447; Progressives, 156,486; Conservatives, 87,245; Independents, 3,810; total, 223,888. Total on voters' list, 322,566.

Yukon—Liberals, 658; Conservatives, 797; Independent, 18; total, 1,473. Total on voters' list, 1,632.

Sir Robert Borden En Route To Ottawa

Left Washington Immediately Following Adjournment of the Arms Limitation Conference.

Washington, Feb. 6.—Sir Robert Borden, Canadian delegate to the arms conference, left for Ottawa this afternoon within two hours after the adjournment of the conference. He will travel as far as New York with other members of the British delegation. The party included Mr. Balfour, Lord Lee of Farnham, Senator George F. Peck, of Australia, Sir John Salmond of New Zealand, and Sir James Stuart of India. Mr. Hughes and officials of the United States department were at the station to bid the British delegates farewell.

Moonshine Outfit Discovered in The Sydney Academy

School Board Says It Was Not Part of Curriculum to Teach How to "Brew."

Sydney, N. S., Feb. 6.—As teaching the young idea how to "brew" is not a part of the regular curriculum, the school authorities, tonight, are somewhat at a loss to account for the discovery in the Sydney Academy of a copper "worm" and certain materials such as are used in the manufacture of moonshine whiskey, which were seized by J. W. Kennedy, inland revenue officer, and Amos Martin, Nova Scotia Temperance Act Inspector, in a raid there yesterday. The school board has ordered an investigation.

Congregation Given Time to Think It Over

London Minister on 'Strike' Against Empty Pews in His Church.

London, Feb. 6.—A minister on strike against empty pews in his church is the latest little event interesting England. Rev. Adam Hamilton, of the Baptist Congregational Church, has informed his congregation that as will not occupy his pulpit for the next two Sundays as he desires to determine whether he or his flock is at fault. "Those must be something wrong either with me, my sermons, or the church," he said in a message to the congregation. "I shall not occupy the pulpit for the next two Sundays and will give the church a fortnight to pull itself together."

CONFERENCE OF WAR VETERANS AT WINNIPEG

Representatives of Various Organizations Meet to Discuss Amalgamation or Federation.

MANY SUGGESTIONS FOR GOOD OF ORDER Differences in View Indicate Line of Demarcation That Might Cause Enmity.

Winnipeg, Feb. 6.—(By Canadian Press)—A discussion which lasted nearly three hours, covering many phases of the proposed federation as against complete amalgamation, delegates attending the conference of war veterans' organizations deputed late this afternoon to appoint a committee to bring in concrete proposals on both schemes, to be presented to the conference tomorrow morning.

The whole point of difference this afternoon seemed to be concerning instructions given delegates representing the various organizations prior to coming to the conference. A motion was put forward by C. G. MacNeill, of the Great War Veterans' Association, calling for immediate action in forming a federation, having in view ultimate amalgamation, and an amendment was introduced by J. H. Craig, of the Canadian Legion, asking for two committees to investigate the merits of each form of unity. Both were tabled and substituted by the motion as indicated above.

In backing up his claim that a federation with a view to ultimate amalgamation was the only feasible object at the present time, Mr. MacNeill said there were many vital points, such as political action, the union, re-establishment and membership that must be carefully considered. Experience had shown that such a momentous question could not be decided in a few hours with anticlimax for the future. In Great Britain it had been accepted only after eighteen months' negotiation. Major M. J. Crepan, of the Army and Navy Veterans, said there must be no line of demarcation; if an amalgamation scheme was endorsed every member of his association must accept it without question. In opposing this suggestion, Captain W. Langford, Imperial Veterans in Canada, said imperial soldiers must belong to an association in which Anatics participated. Sergeant W. L. Rayfield, V. C., did not agree with this remark. Their services had been utilized in defense of the Empire and they should not be discriminated against.

H. H. A. Jones, Winnipeg, representing the Army and Navy Veterans' association, in outlining the scheme of organization in his own association, stated federation and confederation had both failed, and it had been found necessary to allow each unit to retain local autonomy, with a governing body at the head.

Collie Dog Dies of Broken Heart

Death Attributed to Pining Over the Passing of His Pal.

Toronto, Ont., Feb. 6.—"Colonel" a collie dog died of a broken heart at the headquarters of the Toronto Humane Society. Strange as it may seem, officials of the Society who have various experiences with all kinds of dogs attribute the dog's death to pining over the passing of his pal, Andrew Boyle, fourteen year old son of Mrs. Panna Boyle, who died a week ago today.

MONTREAL PARENTS ARE TERRORIZED

Veritable "Reign of Terror" Exists Over Increasing Boldness of White Slavers.

PARENTS FEAR TO LEAVE DAUGHTERS

Obscene Offers Daily Made to Attractive Girls by Strange Men.

Montreal, Feb. 6.—A veritable "reign of terror" is terrorizing Montreal's East End citizens owing to the ever increasing boldness of white slavers, who are daily making persistent efforts to entice young girls to leave their homes for a life of "luxury and ease." Parents who are compelled to leave their daughters alone, do so with the greatest reluctance, for scores of instances of strange men entering homes in which attractive girls reside with their obscene offers are being daily reported. In some cases, it is said they attempt to literally kidnap their intended victims.

Runaway Horse Causes General Mix-up at Calais

Several Teams in Collision and Little Girl Receives Severe Injury.

Special to The Standard.—Another accident took place in Calais, Saturday afternoon, when a horse, running a heavy sled, took fright at the train passing under the railroad bridge and ran down the main street towards the International Bridge. Three teams, seeing the runaway coming towards them, tried to get out of the way, but the horse entered into them and struck the first team, which had two little girls, by the name of McVicar, as occupants. One of the little girls had her collar bone broken, the other, occupied by a child, was badly injured. A significant point about the letter is that it involves the Government of Ireland Act as governing boundary disputes, and falls to allude to the Treaty which provides for a boundary commission.

Little Drunkenness Known in Newcastle

Chief Inspector Hawthorne Says Prohibitory Act is Being Well Enforced.

Special to The Standard.—Chief Inspector J. B. Hawthorne has returned after an official visit to Newcastle, where he was on Saturday. The chief of police himself was a prohibitive police books there and from them learned that in the town of Newcastle between August 1, 1921, and February 4, 1922, but seven arrests for drunkenness had been made by the police. The Chief Inspector says that the record speaks well for the enforcement of the Prohibition Act in Newcastle.

Police Searching For Former Butler of William Taylor

Bullet That Killed Taylor Fired Point Blank, Very Few Inches Away.

Los Angeles, Feb. 6.—Efforts of the police department to solve the mystery of the shooting of William Desmond Taylor were concentrated late today on the search for Edwin F. Sledge, former butler for Taylor. It was determined by police investigation today that the bullet that killed Taylor was fired point blank, that is, from a distance of a very few inches. This was taken as a hint that the assailant did not conceal himself in some other part of the room, and it was also taken to indicate that the overturned chair might have been upset in a brief struggle between Taylor and his slayer.

Seduction Charge Laid Against Gov. of Mississippi

Governor Brands Act as Conspiracy Engineered by His Political Enemies.

New Orleans, Feb. 6.—Governor Leo M. Russell, of Mississippi, over long distance telephone, declared today that he was a representative of the Associated Press here, today, that the filing of a \$100,000 damage suit against him by Miss Frances Burkhart, charging him with seduction, was "most damnable blackmail conspiracy over attempted in the history of Mississippi politics." Further comment was refused by the Governor.

Montreal To Find Out Value of Milk Diet For Children

Montreal, Feb. 6.—To ascertain how much benefit children derive from the consumption of milk, twenty-five scholars have been selected from six of the city's schools who, beginning March 1, will daily be given a pint of milk for a period of three months. The milk is being supplied free of charge by various milk companies at the request of the Milk Committee of the Child Welfare Association, which wishes to prove that the milk diet makes children fat, healthy and strong.

500,000 More Women Than Men in Paris

Statistics Show That the Women Live Longer Than the Men.

Paris, Feb. 6.—The feminine population predominates in Paris by almost 500,000, according to statistics which show there are 1,511,000 women against 1,011,000 men. At the same time it is shown that the women live longer than the men because while there are on an average 2,000 men over sixty years of age, there are 165,000 women above that age.

FACTIONS IN IRELAND ARE STILL APART

Number of Important Conferences Yesterday Failed of the Desired Results.

ULSTER BOUNDARIES CONTENTIOUS POINT

Craig Being Urged to Have No Further Conferences With Sinn Feiners.

London, Feb. 6.—After a number of important conferences in London today between the Southern Irish leaders, Premier Lloyd George and members of the British Cabinet, the Ulster Premier and the members of his cabinet, and finally late this afternoon between Sir James Craig, the Ulster Premier, and Mr. Lloyd George, a solution of the difficulty over the question of fixing the Ulster boundaries apparently had not been found. Statements issued tonight by Michael Collins, head of the Provisional Government in Ireland, and the Ulster Premier, indicate that they still are far from an agreement.

Sued His Mother For \$5,000 For Work Done On The Farm

Court Dismisses Case in Keeping With Principle of Quebec Law.

Montreal, Feb. 6.—Mabel Brassard, court of appeals here today for \$5,000 claimed for five years' work on the home farm. The court upheld, as a principle of Quebec law, that a son working on his father's farm, living in the paternal home and sharing in the rest of the family the benefit of the revenues of the farm, was no right, to claim wages unless he has made a special contract with his father or mother.

General Higginson Attacked in Cork By Band of Armed Men

British Commander and Fellow Officers Repulsed the Assaults.

Cork, Feb. 6.—When General Higginson, British commander of the Cork District, was returning here this evening after superintending the embarkation of the British troops at Queenstown, his automobile was attacked by armed men. General Higginson and his fellow officers repulsed their assaults and gave pursuit.

London Plans An Air Port On The Thames

Aerial Passengers Will be Able to Land in Heart of The City.

London, Feb. 6.—This city is to have an air port on the Thames. That decision of the air ministry, after consultation with city authorities, means that aerial passengers will be able to land in the heart of the city, and the probabilities are that the river just beyond the Westminster bridge and right by the House of Parliament, will be selected. It is understood here that Paris authorities have given tentative approval to the use of the Seine for a similar purpose, and in that event it is estimated the trip from London to Paris will be shortened by about three-quarters of an hour.

ARCHBISHOP OF MILAN CHOSEN HEAD OF CHURCH

Cardinal Ratti Becomes Supreme Pontiff of Roman Catholics After Five Days' Balloting.

CORONATION AS PIUS XI. FEBRUARY 12

Universal Pacification is Key-note of New Pope's Policy, Indicated in Statement.

Rome, Feb. 6.—Cardinal Achille Ratti, Archbishop of Milan, has been chosen supreme Pontiff of the Roman Catholic Church to succeed the late Pope Benedict XV. His coronation as Pius XI will take place February 12.

After the announcement of his election the Pope appeared on the outside balcony of St. Peter's and bestowed the benediction on the thousands who had waited patiently in the rain in St. Peter's Square—the first time this has occurred since the breach between the State and the church in 1870; for 52 years the blessing had been bestowed from within the basilica.

The election was completed with American participation in the Conclave Cardinal O'Connell, Archbishop of Boston, arriving at the moment the new Pope was blessing the multitude.

Delorme Case May Become Another of The Mystery Cases

Montreal Citizens Have Little Faith in Police to Solve It.

Montreal, Feb. 6.—No arrests were reported today at detective headquarters, or at the provincial police bureau, in connection with the murder of Isaac Delorme, the 24-year-old Ottawa College student, found dead in the snow in the North end of the city on January 6. Despite rumors current in this city that two men had been arrested, no information to that effect could be obtained here.

St. Stephen Woman Frightfully Burned

St. Stephen, N. B., Feb. 6.—A very serious accident took place this morning at the residence of James Inches when his mother lit a match to see the time from her bed in some way the match caught in the bed clothes and in a very short time the whole room was in a blaze. Her son and his wife were aroused by the noise and were forced to go through the flames in order to reach Mrs. Inches, who was carried out and soon wrapped in quilts and other clothes to extinguish the fire which had caught in her night clothes. Mrs. Inches was very badly burned on the arms and legs, in some places right through to the bone. She was taken to the Chipman Hospital, and although suffering very much, it is hoped that she may recover. The fire was confined to Mrs. Inches' room, although it burned carpets, curtains and nearly everything in the room, including the wall paper.

THE BRITISH PARLIAMENT OPENS TODAY

The Session Likely to be Over-shadowed by Prospects of General Election.

HOUSE OF LORDS REFORM DEBATED QUESTION

Believed Deal Has Been Made to Reduce Chamber to Fifty Members.

London, Feb. 6.—(Canadian Press Cable)—The forthcoming session of the British Parliament, the opening of which takes place tomorrow, is generally regarded as likely to be overshadowed throughout by prospects of a general election. This event, however, will probably not happen until May. The future, which arose recently on the subject, is now declared to be a false alarm, and the recent speech, delivered by ministerialists, show that whatever branches in the coalition had been revealed have been temporarily smoothed over.

U. S. ATTORNEY GENERAL WARNS MINERS AND RAILWAYMEN

Department of Justice Considers Possibility of Joint Strike by Two Unions to Resist Wage Reductions as Threat to Supplies Necessary to the Public.

Washington, Feb. 6.—The proposal of John L. Lewis, president of the United Mine Workers of America, that the miners and railroad workers, the two largest and most influential groups of organized labor, should join forces in order to resist the lowering of wages which is being urged by business men, has led the government to take under consideration the situation which would arise if there should be a strike of such formidable proportions as would be possible with such a combination, which would not only bring all business to a standstill, but would threaten the supplies essential to ordinary domestic life.

Communists Still Barred

It transpires that even the Labor Party has not sufficient faith in its composition to admit affiliation to the Communist Party, which has recently applied again for admission. Despite resolutions from local Labor groups and with the support of the Daily Herald, the Reds have been politely informed that their avowed aims and objects are inconsistent with the pledge of loyalty to the Constitution which is demanded from all individual laborers and organizations who seek admission.

Trade Goes On

Whatever else suffers, the weekly ramp against the Labor Party, the trade union leaders, and any others of prominence will go on; what the Communists are pleased to term their educational propaganda might be denied its usual columns, but the organ would find in its duty if it failed to remind its readers of the "treachery" of J. H. Thomas, Robert Williams and Mr. Clynes. There are other indications of distress; the "official organ" has changed editorial direction; A. E. Francis Meynell is no longer connected with it, he having relinquished his duties in consequence of divergence of opinion.

THE WASHINGTON CONFERENCE. THE MYSTERY OF EPIDEMICS.

After labouring hard for a couple of months, discussing various projects having for their object the maintenance of world peace, the delegates of the various nations assembled at Washington yesterday formally concluded their labours by signing the various agreements arrived at. These agreements have now to be ratified by the legislative bodies of each of the nations concerned, and when this has been done the documents will become binding treaties.

It is hardly likely that there will be any hesitation in the various legislatures in speedily agreeing to ratification. The destruction of the work of the Conference would be calamitous in the sense that the world would have been far better off had the Conference not been convened. This is true regardless of the permanent value of the treaties themselves. It is doubtless easy by sharply critical analysis to show that their importance is overstated. One may readily agree that the limitation on capital ships will merely save the taxpayers' money from the bottomless pit of competition on vessels almost obsolete. It is a fantastic exaggeration, of course, to claim that a naval holiday is placed months, with no restriction in speed on the construction of auxiliary craft, or submarines, or aircraft, insures the peace of the world. No one is obliged to believe that the reaffirmation of old prohibitions against the use of submarines in commerce, or the destruction of poison gases on land or sea would stand a week if subjected to a strain similar to that of the World War. Still, it is better to accept these treaties as the best attainable under the circumstances than to face the revival of international suspicion, fear, hate and rivalry in armaments that would necessarily follow the casting of them to the legislative dump heap.

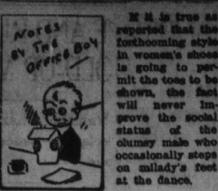

A BACKWARD STEP.

Ottawa dispatches indicate that the Government has decided to discontinue the services of Dr. W. J. Black, Deputy Minister of Immigration. If this is correct, then it means that the new Cabinet has yielded to the influence of the army of patronage hunters who have invaded Ottawa in the past month. Dr. Black is the first man marked; others will follow. It is alleged by a contemporary that during the ten years that the Borden and Meighan Governments were in power not a solitary Deputy Minister was dismissed, although most of them had been appointed solely for their services to the Liberal party. If this assertion is correct then today, as a result, Dr. Black is about the only Conservative Deputy Minister at Ottawa. Yet his head is to go. Dr. Black is one of the best posted men in Canada on agricultural and immigration problems. He was at one time principal of Manitoba Agricultural College. He was Canadian Commissioner of Agriculture and the Chairman of the Soldiers' Settlement Board. He is an ideal man for the post, one of the most important today in the Government service.

The most serious feature of the proposed dismissal of Dr. Black is not that a Conservative official will be dismissed and patronage will be restored, but that it means a reversion of the immigration policy for which he has stood. The chief demand for Dr. Black's head has come from Liberal members who represent ridings with a large foreign population. Dr. Black has determinedly and courageously opposed lowering the immigration bars. By this stand he has incurred the antagonism of these members, and they have sought to secure their ends through his dismissal. The question is infinitely bigger than the mere fate of Dr. Black. The problem involved is whether Canada is to be made the dumping ground for millions of economic refugees from Russia, Roumania, Poland, the Balkans and Central and Eastern Europe. Banned out of the United States, they are working, not by thousands, but by millions, to pour into Canada. Every possible pressure is being brought to have the bars lowered. It is a serious menace to the future of the Dominion, and every patriotic organization in Canada should use its influence to prevent any change of policy at Ottawa.

The C. P. R. has postponed its large construction programme and like outlook for traffic improvement becomes better. The instant demand on all sides for reduction of railway rates, especially on heavy or bulky commodities, is bound to have an important bearing on railway economy.

One reason, says the Montreal Gazette, why our forefathers were able men was because they had to depend on their own abilities instead of press agents and other folks, as is so much the vogue in these latter days.

WORLD PEACE NOW BECOMES REALITY, SAYS SEYI HUGHES

Treaty Just Consummated Absolutely Ends All Naval Competition, as All Nations Will Stop Bankrupting Ship Programmes.

Washington, Feb. 4.—Limitation of naval armament has been translated from a dream into a reality. The world's principal five sea Powers proclaimed at the fifth plenary session of the Washington Conference their readiness to annihilate bankrupting naval programmes and abandon aggressive preparations for war. "This treaty ends—absolutely ends," declared Charles Evans Hughes after formally reporting the pact to the Conference, "the race and competition in naval armament. We are taking perhaps the greatest forward step in establishing the reign of peace." This Feb. 1 of 1922 marked forth other achievements of hardly lesser magnitude than the curtailment of major naval armament. It witnessed along with the limitation treaty, the proclamation of the Five-Power Treaty among the same signatories whereby submarine warfare, as Germany waged it, is outlawed to the realm of assassination and piracy. It witnessed within the confines of the same treaty a solemn agreement among America, Great Britain, France, Italy and Japan to relegate the use of poison gas in future wars to the category of inhumanity and lawlessness.

For more than an hour before the American Secretary of State delivered his epilogue of the Washington Conference's triumph he electrified the session, delegates and spectators alike with a graphic explanation of the treaty's contents. Little or nothing in his exposition was new, yet each classification, reflecting in itself a vivid objective definitely achieved, evoked enthusiasm.

Scrap Hundreds of Thousands of Tonnage.

Mr. Hughes told of the Five-Power Pledge to cancel all existing programs for new naval construction. He told how America, Great Britain and Japan would scrap hundreds of thousands of tons of existing capital-ship tonnage. He told how no nation in future would ever launch a ship greater than 35,000 tons.

He told how the five warring nations would mount a gun of greater than sixteen-inch calibre. He told how for at least ten years to come no new capital-ship would be built except in replacement of the old.

He told how a limit of 10,000 tons and a maximum armament of eight-inch guns had been imposed on non-capital ships. He told how, in telling these things—each, despite its matter-of-face pronouncement, of epoch-making import—he reminded the Conference and the world that had been accomplished without raising any nation's defenses.

"This treaty," he said, "arrests the building of capital ships. It effects an enormous saving of money. At the same time it leaves the relative security of the great naval Powers unimpaired."

Then the leader of the Conference, whose driving force has ushered in an era at the end of barely three months' endeavor, coined one of the happiest maxims of the time. "The significance of our treaty," declared Mr. Hughes, "lies in the spirit manifested throughout our negotiations. We are talking of arms in the language of peace."

It fell to Elihu Root's lot to present the separate treaty of submarine warfare and poison gas. Unfortunately the hour was late, thanks to the monopoly of a large segment of the previous proceedings by M. Sarraut of France, and Mr. Root's exposition was obviously cut short. With the poison gas section of the treaty he did not take time to deal at all. On the question of submarine warfare Mr. Root, while brief, was characteristically forceful. He declared roundly the purpose of the code of the limitation which the world's chief naval Powers had subscribed was to abolish the possibility of any repetition of the crimes with which Germany's staged mankind. "The object of the treaty," said Mr. Root, "is simple; it aims to make sure there shall never happen again what happened to the women and children of the Lusitania—murder on the high seas." A salvo of applause rolled across Continental Memorial Hall as that fabled affirmation of policy was made. It distinctly one felt that the men and women who joined in the demonstra-

Offers Reward for Information That Will Lead to Conviction of Guilty Parties.

Brookville Ont. Feb. 4.—Hon. G. Howard Ferguson leader of the Conservative party in Ontario has offered to donate to any charitable object the sum of \$100 for every evidence that will enable him to prosecute any person guilty of circulating slanders in and about Kemptonville regarding his personal and public affairs. Hon. Mr. Ferguson in a statement which he has issued, says that "for the past couple of years certain persons have sought to discredit me personally and politically by maliciously circulating false statements regarding me and my public actions." In this connection, he mentions the assertions that he is possessed of immense wealth as the result of his public services as a Minister of the Crown, that he ran away from the sessions of the Timber Commission, and that he made a lot of money by purchasing a block of land from the Government in the vicinity of North Bay and selling it to American tourists. All these Hon. Mr. Ferguson brands as calumnies.

"Congress will in the act now being considered give us an entirely new code," he prophesied, "which will not include separate naturalization for women; which will provide for full rights of American women married to aliens, for an English reading, writing and speaking test; for citizenship and probably for a form of registration as part of the naturalization process."

"The present 2 per cent act will be continued until June 30, and the new act will be announced in simple time so that the naturalization process, which had sold out passage before they knew of the restrictions. If I am any judge, Congress will let go a law which in eight months has reduced immigration to 187,129, not counting 1,712 persons who have been temporarily admitted on bond for humane reasons. By the end of June it will hardly run over 275,000 for twelve months."

"The new bill provides the nationality of a minor child shall be determined by the country of the birth of either parent that shall have the custody of the child. This provision is especially for war mothers who are ignorant of the nationality of their child's father."

Wife Becomes Target For Book Fusilade In Freudian Arguments

Water Bucket Struck Her at Close of Discussion on Egg's Life Vibrations.

Bridgeport, Feb. 4.—Nina Lane McBride, illustrator and author, charged her husband today in a divorce suit against Isaac McBride, writer, that he had made her head target for heavy books, the household cat and water buckets.

Following their marriage in New Orleans in 1912, the couple lived for a time in Washington, D. C. In 1917 Mrs. and Mrs. McBride moved to Bethel, Me. Mrs. McBride testified that she and her husband argued for seven years because she stubbornly refused to read the fourth chapter of Deuterius. She said she threw the book at her head as the "only way to make an impression on her."

"It was always his favorite pastime to throw books at me," Mrs. McBride testified. "This particular volume was a book for the developing of individual character." The plaintiff testified her husband charged her with having an "inferiority complex."

Some More Truths. WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.

Children Cry For Fletcher's CASTORIA Your Friend, the Physician. The history of all medicines carries with it the story of battles against popular beliefs; fights against prejudice; even differences of opinion among scientists and men devoting their lives to research work; laboring always for the betterment of mankind. This information is at the hand of all physicians. He is with you at a moment's call be the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you can always look for advice, even though it might not be a case of sickness. He is not just a doctor. He is a student in his last and final call. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—as he will—that Fletcher's Castoria has never harmed the fattest babe, and that it is a good thing to keep in the house. He knows.

GENUINE CASTORIA ALWAYS Bears the Signature of *Charles H. Fletcher*

Listen! Have you heard about Peps? Peps is a scientific preparation, put up in pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.

Peps contains certain medicinal ingredients which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.

FREE TRIAL. Cut out, write across it the name and date of this paper, and mail it (with 1c stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c box.

C. P. R. System Giving Hook To Americans

Carries More American Goods to and from U. S. Across Pacific Than American Lines.

Chicago, Feb. 6.—The Canadian Pacific and its steamship lines carry more dollars' worth of American goods and more passengers to and from the United States across the Pacific and over Canadian lines than is carried by all Japanese and American steamship and American roads combined.

One reason is that Canadian Government allows the Canadian Pacific to run its own affairs. United States roads are doing everything in their power to hold and increase as far as possible Oriental trade for American interests as a matter of protection as well as business.

Traffic of such volume cannot be built up in a day. Osaka Shosen Kaisha's 127 steamships have a service that would take years and millions to build up and which Japan subsidizes. We are doing all the traffic possible with the Admiral Line, mostly passenger. Japanese boats cater more to freight.

Rain and snow over the greater part of the Southwest helped the winter wheat crop, says the Atchafalaya. Farmers market little wheat or cotton, but interior elevators sell and ship wheat. Final figures on California's freeze may show damage to citrus crops only 30 to 35 per cent in all.

Revenue freight loadings last week were 24,921 cars against 23,788 last year. Details follow: Grain, 2,350; against 1,820; oil, 51,485, against 2,350; refrigerator, 1,378; against 1,402; coal, 1,645, against 2,068. Total loading this year to date is 26,438, off 7 per cent.

Indications are that oats supplies will decrease moderately from now on, but there will still be a liberal amount available. The Eastern trade is taking to anticipate requirements.

REAL CANADIANS RESENT PLAN TO EXPLOIT LIQUOR TRAFFIC

Prohibition and Temperance People of Quebec Denounce Policy Recently Laid Down by Taschereau Government.

Montreal, Feb. 6.—Prohibition and temperance people in general throughout the Province of Quebec view with strong disfavor the policy recently announced by L. A. Taschereau, Provincial Premier, in regard to applying the liquor traffic to the elimination of the public debt, the maintenance of good roads and development of colonization, and the improvement of the secondary, classical and primary schools.

When H. L. Werry, secretary of the Anti-Liquor League of the Province of Quebec—a worker who has been long in the forefront of the battle for temperance and clean government in this part of the Dominion—commented to discuss the new situation created by the recent speech of Mr. Taschereau announcing an expected profit of \$4,000,000 a year from the operations of the Quebec Liquor Commission.

"You can quote me as saying that the temperance people of Quebec are disappointed," said Mr. Werry. "Yes, they are boiling. The temperance people are working in city and country. The liquor law is bad enough, but the attitude of Premier Taschereau on the subject is inexcusable."

"The Washington conference, viewed as a whole," he said, "achieved its object. It has made a great contribution to the cause of peace and humanity. It is unreasonable to expect perfection and we should judge the results as they are in proximity to the realization of the ideal."

"There are at least two wings to the temperance forces. One's slogan is 'Prohibition or nothing.' They are asking for no liquor at all. The other wing wants it wiped out of the starboard bow at once and a prohibitory law enacted in its place. The other's attitude is moderate and conciliatory. They realize that antipathy of the French-Canadian mind to the word 'prohibition' and they would be gratified, if not quite satisfied, with a reasonable measure of local option."

"The program of the 'moderationists' is this: They consider the licensing system as a fundamental evil and the element of personal profit twin evils to be eliminated."

Alternative. "There are a number of minor suggestions that will be proposed if the above are not accepted as a basis for the government," Mr. Werry went on to explain. "These would restore the right of which the citizens were deprived when the commission was set up. Naturally opposition will be made to the extension of selling hours or any additional privileges being granted to the trade. Among the grievances which the temperance people have against the government's policy is the power...

300,000 Methodists Pay Tenth of Income For Christian Work

Most Expensive Campaign Ever Attempted—Undertaken by Church in United States.

Chicago, Ill., Feb. 6.—The most extensive and thorough-going campaign ever attempted by any religious denomination, in the interest of Christian Stewardship, has just been launched by the Methodist Episcopal Church.

"The plan is for a great thing demonstration to be completed on Easter Sunday. After a period of intensive preparation through February and March every member of the church and Sunday school will be asked to lay aside one-tenth of his or her income, for this week beginning Palm Sunday and Easter, and bring it to the treasury of the church on Easter Sunday, as a part of the programme for that day."

"Already indications of a church-wide response are coming in. A locomotive engineer, a New York lawyer, a shirt manufacturer, a furniture dealer, a musician, and a Missouri farmer will present a tenth of their profits for the week."

"The Washington conference, viewed as a whole," he said, "achieved its object. It has made a great contribution to the cause of peace and humanity. It is unreasonable to expect perfection and we should judge the results as they are in proximity to the realization of the ideal."
