S. R. FOSTER & SON.

FROM THE SON: "28 Cedar St., New York, Oct. 28, 1882. "Gentlemen: My father resides at Glover, Vt. He has been a great sufferer from Scrot-ula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which ap-peared at that time, it gradually spread so as to cover his entire body. I assure you he was serribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons

who would testify to the facts in his case.
Yours truly, W. M. PEILLIPS. FROM THE FATHER: "It is both a duty for me to state to you the beneds I have derived from the use of Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and
I tell them, as I have here tried to tell you,
AVER'S SARSAPARILLA. Glover, Vt., Oct.

AYER'S SARSAPARILLA cures Scrofuls and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all imputhe bowels, and thus restores vitality and strengthens the whole system

It was to hear the judgment of the higher court that the

Conference now assembled.

The Rev. John Read, ex-President. was well discussed, the opinion generally prevailing that such a mood would result in good, if it could be done, and the right man employed.

With reference to the spiritual condition of this resolution takes the Chair, and President Shenton reported from the special Conference that the court of appeal had ordered a new trial, for which there appears to

have been legal ground.

The Conterence decided to grant a new trial, and directed the President to appoint a committee of investigation before whom the case shall be tried, the

THE CHOLERA IN SPAIN. NEW YORK, June 25 .- A special from Spain, who attach little value to the conons of the medical commission, cor firm the Asiatic nature of the epidemic now raging in Spain and recommend a further trial of Ferrans' inoculation system. The investigations of the com mission were conducted in such a careless unscientific way that they prove nothing. Before forming an opinion re-garding Ferrans' claim it would be adto await the result of the fresh series of enquiries now being made by Dr. Gibbier, representing France, Dr. Van Ermenger, representing Belgium, and Dr. Mendor, ex-member of Royal on. Doctors Gibbier and Van Ermenger, after a careful microscopic examination of dejections taken from the sick bed of a patient, for the first time discovered the bacillus of Dr. Kock, and convinced themselves of the presence of real Asiatic cholera at Valencia, where the disease is most virulent. They have not yet made up their minds as to the merits have any scientific importance. The cholera statistics are deliberately falsified; the number of deaths and cases is larger

Among the saved are the captain, first officer and about 7 passengers, including one woman. About 25 children were drowned.

LIMA, June 25. The steamship "Puno" arrived here yesterday with 53 survivors from the wreck of the "Italian." There are 40 ersons missing. As far as known only passengers were saved while only one of 8 passengers were saved while only one of the crew was lost. The shock strained the vessel so that the doors of the cabins could not be opened, thus imprisoning the passengers. The captain was not on deck at the time of the accident. The disaster was due to wrong orders given by the third officer who has since committed suicide. The passengers who escaped to land underwent fearful sufferings before they reached an estate where succor was they reached an estate where succor was promptly afforded.—Times.

MORE TESTIMONY. Rev. T. DeWitt Talmage says his experience s that there is nothing that so loosens the hinges of the tongue, soothes the temper, exhilarates the diaphragm, kindles sociability and makes the future look promising, like Tea. His great aunt who used to come from town with the pockets of her Bombazine dress standing away out with nice things for the children. with the pockets of her Bombazine dress standing away out with nice things for the children, would come in looking like a thunder cloud until she had got through with the first cup of tea when she would empty the right pocket. After finishing the second she would empty the second pocket, and an extra third cup as she felt so very chilly. It then took all the sitting room, parlor, kitchen and part of the woodshed to contain the exhilaration.

When used, the conversation at the tea table will be explosive, and somebody's reputation will be killed. The effect of Lie Tea; as seen by Lucy Ann Stretchitlong, who was there herself—a woman of good parts, fine open gait, good knee action, head erect, could walk faster, step lighter, and talk louder than any Boss on a river drive. She always wore her oversocks so she could make good time when she attended the Dorcas sewing circle. At one of these meetings away.

sewing circle. At one of these meetings away down river where this Lie Tea was served it resulted in four black eyes, and I have no reason to doubt it, for Mary Ann's sister heard Jemima's oldest boy say John French heard—Well, I aint agoing to say, it will make trouble in the paighborhood aint agoing to dely, an aighborhood.

HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparal. leled success can be attributed to but one cause: the entire fulfilment of its promises. The proprietors have often been surprised tries, where they had never made an effort for

The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic prepara tions, but remain a long time, which makes its use a matter of economy.
