The material is now ready to make up, and it was for the purpose of instruction that the staff had assembled. Mr. Marks briefly outlined the idea embodied in the inaugurating of the work.

Rely Upon Loyalty.

For success the management relied apon the honor and loyalty of the men to be employed. They had no idea of failing in the work that had been undertaken, and he hoped that next winter the factory would be in a posi-tion to employ 50 or 60 men. It was no light task for the Trades and Labor Council to assume, and the committee of management were well aware of the magnitude of the task it had under taken. It was necessary that the fac tory be operated in a businesslike man ner, there was a place for every tool and machine, and it was expected that when an employe had used them they would be nut back

LAKE INTER. INSURANCE

Formed to Lower the Present Rates on Inland Marine Insurance.

New York, Feb. 16. - Representatives of lake steam vessel owners and underwriters met yesterday and formed an organization to safeguard lake navigation, and to put into operation a plan of inter-insurance. The new organization is the Lake Vessel Owners' Association. It was formed to lower the present rates of marine insurance on vessels plying on the lakes, which of late years have jumped from 2% to 51/2 per cent.

It was explained to the underwriters present that the owners will take over per cent of the insurance as an evidence of their faith. The new association represents a capital of about

RADIUM FOUND

Reluse Heaps of Tin Mines Contain Thousands of Tons of Pitchblende.

London, Feb. 15. - The Phoenicians appeal to everybody. Romans who went to for their tin many centuries ago could not guess that they were handling ore worth many times their weight in precious metals Their disused copper and tin mines have been found to contain deposits of pitchblende, from which can be extracted radium worth \$5,200 a grain, or thereabouts

The Cornish miners of even half a century ago sought for what are known as simple ores and threw aside the complex ones as refractory. In this way they found urandum ore and sent it to the smelters as "black copper," only to have It returned on them as rubbish, and so some 40,000 tons of ore containing perhaps 10 per cent of pitch blende, estimated to be worth \$2 50 a pound, has been found dumped at the head of the Wheal Trenwith mine near St. Ives. How much more remains underground uptouched by the pick of the miner it is impossible to estimate. This Cornish ore is considered by experts to be richer than that from Bohemia, from which M. Curie first extracted radium, and Mme. Curie, who has been experimenting with samples, declares herself as thoroughly satisfied with its rare quality.

Chemists have concentrated attention on the production of radtum from the uranium ore, but up to the present those researches have been almost purely for scientific purposes, and it is only comparatively recently that the production has been conducted on a clal basis. Sir William Crookes was one of the first chemists to extract radium from pitchblende on the lines laid down by Mme. Curie; Richard's rheumatism was caused by that is, first of all uranium was extracted, and from the residue the radium was obtained by means of acids after a great deal of

A new rapid mode of extracting radium has just been announced by a young English chemist, whose process is to separate radium as a primary' product, leading uranium as a by-product, instead of the other way about as hitherto. From a ton ef ore containing 20 per cent of pitchblende, he secured one and a half of radium-barium-chloride. THEN DODD'S KIDNEY PILLS CURED MRS. RICHARD'S DIABETES.

Her Rheumatism Also Vanished When Dodd's Kidney Pills Put Her Kidneys in Condition To Do

East Chezzetcook, Halifax Co., N.S., Feb. 15.—(Special)—Cured of diabetes and rheumatism from which she had suffered for six years Mrs. Boniface Richard, well known here, is joyfully telling her neighbors that she owes her health to Dodd's Kidney Pills and to no other cause.

'My rheumatism and diabetes were ought on by a cold and a strain, and though I was attended by a doctor he could not help me. After suffering for six years I made up my mind to try Dodd's Kidney Pills and to my surprise they did me good almost at once. Two boxes cured me completely. I recommend them everybody as a sure cure for diabetes backache and all other kidney dis-

eases.' Dodd's Kidney Pills cured Mrs. Richard's diabetes because diabetes is a kidney disease, and Dodd's Kidney Pills cure all kidney diseases. Mrs. her diseased kidneys failing to take the urle acid out of her blood. When her kidneys were cured they strained the uric acid out of her blood and her rheumatism vanished.

Exemption Bylaw Was Finally Mayor Stevely addressed cil, Ald. Ferguson presiding. Adopted By Council.

WARM DEBATE AT LAST NIGHT'S MEETING

Ald. Rose and Ald. Cooper Said Heated Things-Mayor Calls Them to Order.

At the meeting of the council last vening an agreement was reached by which the Globe Casket Company will remain in the city.

Mayor Stevely had to give the cast ing vote, and it looked at one time as if the bylaw would be defeated, but after an hour or more debate an arrangement was effected to which the company agreed, and the matter was satisfactorily settled. There was no difficulty about open

ing up the question. Ald Saunders gave notice at the last meeting that he would move for a reconsideration and when the motion was put it carried 10 to 2. When the bylaw came up, Ald. Rose opposed any exemption except on the present premises.

The Company's Position. Mr. C. H. Ivey addressed the coununder the impression at the last meeting that the company intended buying up large tracts of land and holdlumber on. They desired to have the at 92 cents. privilege of purchasing it where they them to the present site it was tanta- he mount to saying to the adjoining property owners, "Charge as much as Paragon and Keystone companies company had not made large profits

One Year Exemption Proposed. Ald. Cooper moved that exemption for one year be given the company, and Ald. Gerry seconded the motion. Ald. Ferguson thought it unfair to grant exemption for one year only, when the buildings were erected the citizens would vote down any exemption bylaw. He thought that a clause might be inserted in the agree ment stating that when, in the opinon of the assessment commissioner, any land was not being used directly

in the company's business, it could be taxed. To this Mr. Ivey agreed. Favored 20-Year Exemption. Ald. Stevenson and Ald. Beattie pointed out that the principle of exmption was wrong, but the city was

say that this was a bad bargain. Ald. Rose's Peculiar Views.

Ald. Rose returned to the attack on the exemption, and pointed out that the carshops were of little benefit to the city. "There are a lot of men working

there who would get better jobs if the shops were out of the city," said Ald. Rose. 'Some of the industries here now are no good to us. The men found on the M. C. R. tracks near are out of work in these slack times, and the burden of taxes is on poor man, who must pay taxes. Mayor Interposes.

"I do not think any alderman has the right to say that any person could get behind the assessment commissioner, said Mayor Stevely. "I have known him for many years, and I have known no person who could get behind him. He has full control of the city's assessment, amounting to over \$25,000,000 and I do not think he would do any. thing wrong in the matter of a vacant lot 150 by 100 feet." Ald. Parsons pointed out that he was willing to do anything to help the com-pany. If it were definitely stated in

the agreement that a lot 150x100 should be purchased he would support it. To this Mr. Ivey agreed. Ald. Cooper Insinuates. "Those in favor of this bylaw seem

tied hand and foot with strings to the ompany," said Ald. Cooper. Then Ald. Beattie flayed him. "I think it a very improper charge bring against any alderman about this board," said Ald. Beattie. "Ald. charge. Some people may think he is

ied by strings to other people." "You took a wrong meaning out of what I said," broke in Ald. Cooper, and ne colored up. "I think an apology is due this counil," said Ald. Beattie.

Mayor Addresses Council

Ald. Cooper subsided for the rest

Mayor Stevely addressed the coun-"I do not think Ald. Cooper should insinuate that the other aldermen are tied by strings," said his worship. 'Ald. Cooper says he will take stock in some new casket company in the city and I know he would not allow that matter to influence him in driving the Globe Casket Company out of the city. We are starting a campaign for new industries, and I do not know how we shall get them if we lose what we now

The vote was taken on the second reading, standing as follows: Yeas-Ald. Ferguson, Beattie, Parsons, Stevenson, Stewart, Fitzgerald, and Mayor Stevely. Nays-Ald. Gerry, Cooper, Rose, Saunders, Moorhead and Garratt. The company agreed to employ 75

Will you kindly state in The Adertiser what are the eastern and western terminals of the Grand Trunk Pacific Railroad; also, about what degree of latitude it will run on? JOHN J. SLEEMAN,

Linden, Mich. The eastern terminus is Moncton, N. B., and the western terminus, Prince Rupert, B. C. The line cuts across New Brunswick to Quebec City, and from there goes northwest until it crosses the 50th parallel of latitude at about longitude 86. From this point it turns a little north of the 50th parallel for many miles to Winnipeg. From Winnipeg it runs northwest via Sas-Battleford and Edmonton, crossing the Rockies at about the 56th degree of latitude, its northernmost

The idea of giving the pronuncia tions in the Standard Dictionary's scientific alphabet was wise, for this system of notation is now well nigh uni versally recognized as the only one based on sound historic, as well as sci entific, principles-every letter in this system has its own sound and every sound its own sign throughout the alshow that the Standard Bible Dictionary is a unique example of up-to-date bookmaking. Whoever wishes to know the Bible he reads will find this dictionary an invaluable guide, full of painstaking elucidation and instruction. For all practical purposes this work is particularly a Bible dictionary for all classes. It is designed for the (1) ministers and especially educated laymen, who desire a usable book of Bible reference with up-to-date information; (2) intelligent and cultured lay workers, who wish reliable statements on Bible subjects; (3) the theological student; (4) the superintendent of the Sunday school and teachers associated with him; (5) the members of the adult Bible class, and (6) the general Bible reader, to whom the Bible presents many things which need ex.

THE GOD-GIVEN CURE FOR ALL DISEASES OF BOWELS, LIVER, KIDNEYS AND SKIN.

Few people seem to realize how important-how absolutely necessaryit is to keep the bowels, kidneys and skin in proper working order. They wonder why they have sallow complexions - indigestion - headaches - rheumatism-while all the time their systems are clogged and

should have removed. What they need are fruit juicesnature's provision for keeping the eliminating machinery of the body working right. "Fruit-a-tives" are the concentrated juices of fresh, ripe fruits, combined in such a way that their medicinal action is greatly intensified. They stimulate and regulate the action of liver, bowels, kidneys and skin, thus clearing the system of the accumulated waste and poison, purifying the blood, and banishing those distressing troubles that make life miserable. No other remedy has ever been dis-

Had Given up all Hope of Living. Heart Trouble was Cured by Milburn's Heart and Nerve Pills.

Mrs. Andrew Savoy, Grattan's, N.b. writes:-"In the year 1905 I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the very best doctors but they could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world can believe how I felt. I had given up all hopes of living and had given my little girl to my sister in-law.

"One day a friend came to see me, and eailing me by name, said, 'Lizzie, if I were you I would try a dose of Milburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better, but on the fourth day my husband said, 'I believe those pills are doing you good.' The annual competition for the lawn tennis championship is carried out upon the popular knock-out plan, where the losers retire and the winners are again paired until by such process of elimination the survival of the fittest is elected to meet last year's champion to battle for the championship. When sixteen players compete, and the winner must then play with the old champion, it is evident that he must win five straight games, suggesting the simple problem which has given rise to considerable discussion. Before commencing play, what are the chances of getting the first prize, if all are assumed to be of equal strength?

COMPLETELY RUN DOWN Lost Appetite Restored by Psychine.

Mr. Geo. Pratt, of Clarkson, Ont., says: "Four years ago my son Wilbert was so run down, thin and emaciated, that we thought he was going into a decline and feared he would never pull through the severe cold of the winter months. The boy had no appetite and seemed to have lost all energy and interest in life. He was altogether in terribly bad shape. His condition

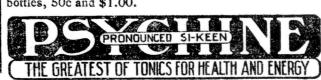

caused us the gravest anxiety. "Fortunately I procured PSYCHINE for him and this soon gave him a new lease of life. It is really remarkable how rapidly this splendid medicine brought about a change. After taking one or two bottles he was hardly recognizable as the same youth. PSYCHINE effected a speedy cure and he was soon able to work about on the farm again. To-day he is a robust young fellow, and if anything stronger than his brothers. Nothing in the way of hard work seems to affect him. I cannot speak too highly of PSYCHINE. It certainly saved our boy and made a man of him,"

NO HOME SHOULD BE WITHOUT PSYCHINE. As a builder-up of the system it is unequalled. It prevents the children taking cold, wards off that terrible malady La Grippe and completely fortifies them against disease. WHAT every cook should know is, which wheat makes the best flour, and why.

Winter wheat is put into the ground in the fall, but does not ripen until the following July. It matures slowly, is soft and very starchy.

Spring wheat is sown in April or May, and ripens in August. It's a flinty, translucent wheat, rich in gluten and contains nearly twice as much nutriment as winter wheat.

CHAIR OF AERONAUTICS

German University Is First to Recognize New Profession.

Berlin, Feb. 15. - Germany's remarkable progress in aerial navigation is shown by the establishment of aeronautics of the University of Gottingen. The first occupant of this chair is Dr. Prandtl, who will lecture on all branches of aeronautics. This is the first professorship of aeronautics established in Germany or any other country. The necessary funds for the estab-

lishment of this chair have been provided by the Gottingen Association for the Promotion of Applied Physics and Mathematics. Privy Councillor Bottinger, a National Liberal member of the Reichstag, has taken a leading part in bringing about this interest ing innovation. It is noteworthy that cific for bronchitis because it is so the Prussian Minister of Education successful in loosening up the cough, aiding expectoration and preventing the inflammation from reaching the fessorship of aeronautics. fessorship of aeronautics.

Company Contemplates Installing a Sprinkler System in South End.

That the McClary Company are taking immediate action to prevent any conflagration sweeping through their big plant in the south end was shown by the following letter read at the meeting of the water commission ers yesterday afternoon:

"We have in contemplation, the in stallation of a sprinkler system of fire protection in a portion of our plant on Adelaide and Trafalgar streets comprising our powerhouse, mounting and finishing shops on the north east corner of Adelaide and Trafalgar streets, and storage warehouse on the southeast corner of the same streets

the latter being outside the city limits. To enable us to complete this installation it is necessary that we have connection with the 6-inch main on Adelaide street. We would like to have permission to connect with this main as a primary supply for our system. As a secondary supply, we are contemplating putting in a 1,000-gal on underwriters' pump between the powerhouse and the river, the pump to operate in a well fed by gravity from the river. We would like to commence this work this winter and larged to have nowled and which is alwould be glad if you would give the matter your prompt consideration.'

STORMY WEATHER AND POOR MARKET

Hay Prices Took a Rise Today Oats Were Also Scarce.

Owing to the stormy weather and the heavy condition of the roads, this morning's market was a very small About ten butchers, as many farmers with small stuffs, and a quan tity of oats and a dozen loads of hay, comprised the market. Hay was picked up very quickly, the prices ranging from \$10 to \$11 25, ac-

cording to quality, while oats were also somewhat high in the majority cases, selling from \$1 17 to \$1 25. Eggs are selling this morning from 26 to 27 cents a dozen, although they were plentiful Saturday at 25 cents. There was a good demand this morning and the prices were probably

boosted on account of the scarcity. Dressed hogs are quoted at \$9 per hundredweight.

36TH ANNUAL REPORT

Of the Dominion Savings and Investment Society.

The thirty-sixth annual report of the Dominion Savings and Investment Soiety, which appeared in yesterday's Advertiser, is another evidence of the prosperity and advancement of Lonon's solid financial institutions. Undoubtedly the past year was one of pleted by the end of the year. Within in this fact, the company is able to show a statement of net earnings for the year of \$50,236. And in addition there was the sum of \$17,211 70 to the credit of the contingent account, mak-

ing a total of \$67.447 70. Two half-yearly dividends at the rate of 4 per cent per annum were paid. The sum of \$20,000, being \$10,000

serve fund, making that fund been carried forward as contingent

The Dominion Savings and Investment Society grows in favor with the people of Western Ontario as the years roll on, for the very good reason that its dealings are always fair and equitable, and its word is as good as its bond. London has reason to be proud seeing, sane management of the directors and officers.

Cablegram Announces Appointment by Royal Warrant of Steinway & Sons as Piano Makers to Her Majesty.

A cablegram received at Steinway Hall this week announced the appointment by royal warrant of Steinway & Sons as piano makers to her Majesty the Queen of Norway, one of the most popular royalties in the world, and who was the former Princess Maud, third daughter of King Edward of

Great Britain. This is the latest chapter in the in teresting history of the relations between the great Steinway house and the courts of Europe. One honor after another has come to the house from European courts. The prestige of the Steinway piano in Europe has for years been brilliant, and on Steinway pianos many queens have perfected danos many queens have perfecte hemselves in the study of music. N less than seventeen of the reigning courts of Europe have appointed Steinway & Sons their piano makers

by special warrant.

In April, 1908, Steinway & Sons were appointed by royal warrant "pianoforte manufacturers to her Royal Highness the Princess of Wales." This followed a visit by her Royal Highness to Steinway Hail, London. She ordered a Steinway Vertegrand for Marlborough House.

We have just received a duplicate of the plano purchased by H. R. H. the Princess of Wales.

People sometimes think, he said, that poetry always calls for rhyme. This is not quite correct, as it depends upon rhyme, alliteration, rhythm and the choosing of pleasing words to express pleasing ideas. Sometimes harsh words are used to express harsh ideas, but in good poetry pleasing words are usually found. Professor Stevenson read many passages during the evenation in connection with a fracture of dence of her daughter, Miss Marion ing to illustrate his points. At the conclusion of the lecture a hearty vote by Rev. D. S. Hamilton.

Ald. Stevenson Charges the Medical Health Officer With Suppressing Facts Re Smallpox.

The smallpox hospital charges will not be investigated.

At the council meeting last night, it was decided by a vote of 9 to 3 that there was no need of going further into the matter. The board of health will make all the improvements necessary to put the hospital in first-class con-

There was quite a debate over the question. Some of those who favored stifling any investigation, hinted vaguely at personalities being behind all the talk, and refused to discuss the question on its merits.

Charge Against Dr. Hutchinson. Ald. Stevenson and Ald. Beattie in sisted upon an investigation. Ald. Stevenson, in particular, made strong statements, and declared Dr. Hutchinson had kept quiet cerning one case of smallpox in Vic toria Hospital, refusing to isolate that institution, and many other things. Ald. Beattie declared that the public had lost all confidence in the hospital, and only an investigation would clear the There was a deputation consisting of

Dr. Niven, chairman of the board of health, Harry Clarke and J. H. Mc-Mechan.

Conditions at Hospital. Mr. McMechan first addressed the council, and told of conditions he found there. He stated about the same as at 908 the meeting of the board of health last Tuesday. According to his story, he found everything clean and in good ondition, and said that there was no foundation to the charges so far as he could see Mr. McMechan admitted that the closet needed fixing, and that there were additions necessary to the place, but the board of health intended making the necessary improvements, Miss Maude Law, Harrietsville.. 11,539 and he considered an investigation a waste of money. He commenced certain charges against Dr. Stevenson. but any such line of argument was objected to. Mr. McMechan then took up the hospital, which, he declared, had been built in ignorance and nurtured in poverty. He did not object to an 410 investigation, but when it was over the council would discover just what was 90 known at the present time.

Harry Clarke stated that there for an investigation. Dr. Niven's Statement. Dr. Niven addressed the board brief-

y. He declared that the council had not given enough money to properly equip the building. It was only inended for female patients, the tents being reserved for male patients. However, the cold weather came on, and out of the goodness of his heart, he advised that the boys be admitted t the building, with the result that all this trouble arose. He had no objection to an investigation, but what was the need of it, when the board acknowledged their shortcomings, and would endeavor to make the necessary

been said by Messrs. McMechan and Clarke that there was personal animus against the medical health officer. Demanded Investigation, Ald. Beattie declared that he second ed the motion for an investigation, because it was in the best interests of

the city. The citizens had read so much and heard so much that public confidence in the institution had been cleared, and the only way to do that was to make all the facts known. If there was no wrongdoing, there should be no fear of an investigation. As for personalities entering into the ontroversy, he denied it altogether, as he had no knowledge of it at all. there is an officer of the board of health who feels that he has been attacked, he need not fear an investiga tion if he has been doing his duty faithfully and well. If he has not, then it is in the interests of the public to know if he cannot fill the position sat isfactorily, the citizens should know Matters have assumed such proportions that the only way to stop any further trouble would be to make an inquiry into the place. It would be money well spent. The city had re ceived a great deal of notoriety throughout the country, and they "Music in Poetry" was the subject looked for us to do something.

Ald. Stevenson reviewed the meetings of the board of health, in which he pointed out that his motion would have carried had they known their ground sufficiently.
