TEAMSTER WANTS TRIAL BY JUDGE

Clifford Cotterill Bailed For \$300—C. H. Webster Complainant.

Clifford Cotterill was charged in police court this morning with assaulting C. H. Webster with an iron crowbar. He was bailed for trial by Judge, at 2 o'clock in the sum of \$300 to appear on Friday for examination.

On Monday morning the two men, who are teamsters, had an altercation at the corner of Wortley road and Bruce street. It is claimed, Webster, who, it is said, had two ribs broken and his shoulder dislocated, came to the police station and laid an information. About 2 o'clock in the afternoon the defendant was arrested in Chelsea Green.

At first he elected trial by jury, but afterwards desired to change this election. After pleading not guilty he asked for an adjournment in order to get counsel.

CHARLES ALFORD INJURED

Line Supt. of Public Utilities Fell From Top of L. and P. S. Car.

While repairing the London and Port Stanley Railway wires which, it was alleged, had been cut by someone, Charles W. Alford, line superintendent of the public utilities commission, fell from a car and suffered several bruises on Saturday. He has been resting for a few days, but will return to work soon. The car on which he was standing was the one which ran into the wires which were down.

MAKES FOOD TASTE

Good-Hood's Sarsaparilla Creates an Appetite.

Aids digestion and promotes assimilation, so that the body secures full nutritive value from the food. It makes the weak strong and gives the vitality of health. This great medicine enables the digestive organs to perform their functions easily, keeps the stomach sweet and relieves or prevents indigestion and other digestive troubles.

When your food does taste good it is a sign of good or returning health; shows that the blood is becoming richer, more active, and that the system is being built up to overcome the effects of disease. Good-Hood's Sarsaparilla, if a mild laxative is needed, takes Hood's Pills; an active cathartic, make Hood's Pills.

CIGARETTE HOLDERS

In genuine ivory—to be had in several lengths, with or without ferrules.

Also fine enamelled holders for Milady—priced very moderately from three-fifty upwards.

BARNARD'S

Diamond Merchants and Jewelers, 399 Richmond Street, London.

To Ladies!

Anaemia
This is a result of the lack of the ordinary red corpuscles in the blood. The too frequent neglect of this complaint, especially in the case of growing girls and young women, is fraught with the greatest danger.

Poorness of the Blood
must lead to weakness of the body. General Debility and such a run down condition that the sufferer falls a prey to almost any epidemic disease—especially Influenza, Colds and La Grippe.

Fainting, Palpitation
general disturbance of the bodily functions, headache, hysteria, pale and sallow complexion, pallor of the tongue and lips, puffiness under the eyes and Heart Murmur are generally associated with Anaemia.

Hackings Heart and Nerve Remedy

is the most reliable medicine to use. It will bring back the rosy cheeks and restore vitality and vigor. Do not be discouraged and do not worry for you will only get worse. Place your confidence in Hackings Heart and Nerve Remedy for it is a complete tonic that will bring back the happiness of good health that you so much desire. Buy a box to-day. Price 50c a box, 6 for \$2.50. Sold by all dealers or by mail, postpaid. Hackings Limited, Listowel.

The Standard Drug Stores in London and St. Thomas.

SITE IS CHOSEN FOR S. A. C. CAMP

Fifty Families Will Enjoy Outing At Port Stanley This Summer.

A site at the rear of Erie Rest, Port Stanley, has been picked as the location for the fresh air camps which will be held by the Soldiers' Aid Commission in July and August. The S. A. C. will give between forty and fifty families an outing in a model camp which will be entirely under canvas.

Four camps will be held, two in July and two in August, twelve days being spent by the families in the open. Secretary Ed Lances of the Soldiers' Aid stated that everything would be done to make the children and their mothers comfortable. All members of the camp will eat in a central dining-hall, the children eating at a different time from their parents.

Brig-Gen. H. A. Panet, D.S.O., C.M.G., C.B., commanding the 1st Military District, is highly enthusiastic over the camp, and will do all in his power to help the camp along. Gen. Panet will make application to the quartermaster-general at Ottawa for the use of government tents for the camp, and he will also view the location with the senior engineer officer of the district to decide on the laying out of the camp, which will be done by the S. E. O.

The location is one of the finest in Port Stanley; the lot which has been taken over by the commission is some ten minutes walk to the west of the L. and P. S. rail head, and is on the top of a high hill overlooking the lake.

The original plan for the outing only called for one camp, but owing to the large number of families which have been located by the welfare committee, it was decided that four should be held.

BUILDING TOTALS FOR MAY WILL EXCEED \$200,000

Ninety-Five Permits Issued This Month by Building Inspector Piper.

Building this month is certain to exceed \$200,000, Building Inspector A. M. Piper said today. The total reached to date is already \$157,740, and as this represents only about half the month, the building during the latter part is certain to bring the total much higher.

Ninety-five permits have been issued thus far. The only large one today was to James H. Chalmers for a one-story brick veneer dwelling on Windsor avenue, to cost \$5,000.

REV. C. A. MALCOM FOR COWAL CIRCUIT

The London Presbytery Holds Monthly Meeting.

At the monthly meeting of the London Presbytery held today it was announced that the Rev. C. A. Malcom, who had accepted the charge of the Cowal circuit, his induction will take place on May 27.

W. J. Peterson, moderator of the presbytery, will preside. Rev. J. M. McMillan, secretary, will read the report of the presbytery for the month of May.

The place of retreat was not determined for an exact date, but an evangelistic campaign was discussed at some length, and committees were appointed to make plans for the campaign.

In the absence of the moderator, Rev. Dr. D. L. McCrae presided. Resolutions of sympathy were read to Professor Patterson in the death of his wife, and Mrs. S. H. Eastman in the death of her husband, who was one of the most active members in the presbytery.

Another piece of business which the department has been ordered to commence immediately is the paying of Waterloo street from Harvard to Grosvenor. This contemplated work is the subject of hot debate in No. 2 committee, and the council last year a bylaw was passed to have the street paved, but a number of residents immediately got busy and secured a petition against this, asking for a gravel roadway instead, because it was cheaper. The council repeated the paving bylaw. Later, a more thorough investigation of the condition of affairs was made, and some of the aldermen reversed their decision and put through a resolution to have the street paved.

Majority of the council. It was too late to undertake the work by that time, and it was left over until this year. Application will be made immediately to Noel J. O'Leary, chief of the geodesic survey department of the Dominion Government to commence a survey here. The city has made an appropriation of \$5,000 to commence the work. It is estimated the complete survey will cost \$125,000, of which the government will pay \$120,000. Work undertaken this year will proceed only so far as the city appropriation and the corresponding government grant permits.

The survey will result in a map which will give not only the ordinary details but also the land levels.

This will make it possible to determine sewer and water main levels before actual construction is commenced on a street. At the present time it is not always possible to tell at what depth water pipes should be laid to comply with all requirements when a street has been properly graded.

SHARP CORNERS TO BE DONE AWAY WITH

Dangerous Intersection in London South To Be Remedied.

Elimination of sharp corners at Elmwood avenue and the Wortley road will be commenced at once by the city engineering department. All the corners except the south-east one, on which stands the Normal School, will be affected. The curbs and gutters will be moved back and the sidewalks will be altered to correspond. The changes will give a clearer view to motorists of the two thoroughfares and will help to prevent accidents, it is expected.

A Great Sale List For Wednesday Morning

These events will be welcomed, beginning a month earlier than last year. With much of your summer shopping yet to do, and will be more significant than in other years, when they commenced a month later.

A Full Day's Business in Four Hours Tomorrow

Wednesday morning sales have a different meaning and carry a stronger message than the ordinary sale. They would not occur and the prices would not be altered but for the one object, as stated above, to crowd a full day's business into the forenoon. This will be your weekly shopping opportunity during the summer months, and don't overlook the first of the 1920 series. This store should be filled at the opening hour.

"KEEP HER SMILING" CONTEST BRINGS OVER 300 REPLIES

Miss Annie George, 477 Waterloo Street, Wins Box Seats Prize.

That the Advertiser subscribers are most careful readers of The Advertiser was forcibly emphasized by the 300 or more replies which were forwarded in reply to the "Keep Her Smiling" contest page, which appeared in The Advertiser Saturday last. Some 400 errors appeared, but only a small percentage of contents were correct. The contest was won by Miss Annie George, 477 Waterloo Street.

The following names receive a pair of archaic seats: Mrs. C. J. Miller, 433 Central Avenue; Mrs. McQuillan, 383 Globe Street; Frank E. Ball, 168 Adelaide Street; Mrs. K. L. Griffin, Earl Dickson Street; Mrs. J. P. Line, Mrs. W. J. Leclerc, 20 Blackfriars Street; Mrs. F. C. Wilson, 153 College Street; Mrs. Margaret McIntyre, 178 John Street; Miss Margaret Day, 187 John Street; S. I. Morin, 66 Palace Street; Miss Gertrude Hayden, St. George's Apartments; Mrs. J. L. Collier, 187 Trafalgar Street; Miss L. D. Collier, Mrs. H. L. Milligan, 165 Waterloo Street; Mrs. E. L. Linnell, 185 Central Avenue; Miss Grace Gibbard, 32 St. George Street; Mrs. J. H. Heng, 20 Oxford Street; William H. Morgan, 112 Wharfedale Road; Miss Velma Perry, 304 Waterloo Street; Mrs. J. Heng, 20 Oxford Street; Miss Lucy Jackson; William A. Patterson, 306 Maitland Street; Mrs. J. H. Heng, 20 Oxford Street; H. McFadden, 308 Oxford Avenue; and Charles T. Tomlin, 23 London Street.

The successful contestants will receive their tickets by applying to the business department of The Advertiser.

MYSTERY STILL SURROUNDS CASE OF AMBROSE SMALL

Toronto, May 18.—The Toronto police do not admit that bonds are missing and a warrant is out in connection with the mysterious disappearance some time ago of Ambrose Small, millionaire theatre owner. Local authorities will not make any statement regarding it.

DEATHS AND FUNERALS

AGED RESIDENT DIES.
The death of Gerald Joseph Fitzgerald, for many years a veterinary surgeon in this city, was announced at St. Joseph's Hospital on Monday. Deceased was 83 years of age and was widely known as Dr. Gerald Fitzgerald. Besides his wife, Mrs. Fitzgerald, he is survived by a son, Chris, J. of New York, and a daughter, Mrs. Philip McGinnis, 452 Piccadilly Street, this city. The funeral will be held from his daughter's residence on Wednesday morning. Requiem high mass will be sung in St. Michael's Church, and interment made in St. Peter's Cemetery.

DEATH OF ROBERT KINGSMILL

By the death of Robert F. Kingsmill, at his residence, 332 Queen's Avenue, on Sunday, London loses one of its oldest and best-known business men, who for 25 years has been connected with his brother, Thomas F. Kingsmill, in the firm of T. F. Kingsmill, drygoods and clothing, and interment made in St. Peter's Cemetery.

WILL APPOINT NURSE

Appointment of a public school health nurse will likely be made at a meeting of the board of health this afternoon. Miss Friend, who held that position for some time, resigned recently. The board has received a number of applications for the position, it is understood. From this it is expected that only routine business will be conducted.

HOUSING BY-LAW

The by-law authorizing a debenture issue of \$100,000 as collateral security for the money received from the government by the housing commission, was given its third reading by the city council Monday night. The bill was deposited with the provincial government, and will be sold in the event of the city failing to make payment of the full amount due the government.

RECOVER AUTO

The manager of the Canada News lunch counter in the local G. T. R. station, has recovered his automobile which was stolen from the yard behind the station on Sunday night. The car was found in Toronto by the police, standing abandoned on the street. No arrests were made, as the person who left the car there could not be found. Mr. Knowles left for Toronto this morning to bring the car home.

SPEEDERS FINED

Citizens still persist in violating the motor vehicle act. The following were caught in the police net and fined today: Thomas Lacey \$5, Arthur Wilkes \$5, W. L. Lacey \$5, W. J. Shaber \$5, L. R. Renwick \$5, William Watson \$5, W. Flynn \$2, W. J. Elliott \$2, and C. W. Riley \$5. H. M. Samuel, who was charged with a violation of the act, failed to make an appearance. Unless he comes to court soon a warrant for his arrest will be issued. Fred Hunter, Alfred Abbott, H. R. Cullis, H. R. Griffith, Arthur Noble, and J. R. Campbell each paid \$2 to Police Court Clerk John Monte because they had failed to observe various city ordinances. George Grant was charged with being disorderly. The case was adjourned until Friday.

WESTERN AIR EXTENSIONS TO START AT ONCE

Frannie Houses Net the Board \$4,300—Live Stock Arena Planned.

Work of clearing the property west of the cattle sheds at Queen's Park, which has been purchased by the Western Fair Association for an extension, will be started at once, and it is expected that within three weeks the seven houses now on the land will have been removed. The houses were sold by auction on Saturday afternoon, \$4,300 being the highest bid. The franchise house netted \$1,000, while two others were sold at \$200 each.

The two-story brick dwelling at the corner of Campbell Street and the lane through to King will be retained by the Fair board for use as an emergency office during sessions of the exhibition. It will be rented during the remaining periods of the year. The lane at the rear of the cattle sheds will be closed, and the acquired property will be used this year for judging and for cattle, a door having been cut through the stable, communicating with the ring. Later it is the intention of the officers to erect a large live stock arena on the land.

Secretary A. M. Hunt informed the Advertiser this morning that the deal secured to the sale of the property was completed last week and the seven houses were immediately ordered sold. The land and eight houses situated upon it, about \$27,000 was paid, and with the removal of the dwellings an area 300 by 100 ft. will be added to the fair grounds. As seven dwellings netted the board \$4,300, the actual cost of the land was about \$22,000.

LONDON MEMBER'S BILL IS REJECTED

Dr. Stevenson's Plan Fails To Meet With Approval.

Toronto, May 18.—The municipal committee of the Legislature today rejected the bill of Dr. Stevenson, M.P. for London, providing that representatives of employees on the advisory board of the board of education should be nominated by the local trades and labor council, and that the board of education should be composed of representatives of the local manufacturers' association.

CONVOCAION WEEK HAS FULL PROGRAM

The Western University Commencement Doing Many and Varied.

Arrangements have been completed for Western University's convocation week, which will be held from May 21 to May 25. Dr. J. P. Whidden, M. P., of Brandon College, has been secured as special guest for the convocation in Wesley Hall on Friday evening, May 28, at 8 o'clock.

Monday, May 24, the program will be opened at Queen's Park, where an indoor athletic meet will be held at 1 o'clock. At 6 o'clock luncheon will be served to the contestants in the gymnasium. On Wednesday the inter-year track and field meet will be held at Queen's Park at 1 o'clock in the evening. The alumni and student banquet will be held at the Grand Theatre on Wednesday evening. The program will present Oscar Wilde's play, "An Ideal Husband," at the Grand Theatre on Wednesday evening. The graduates and all former graduates attending will wear their gowns to the convocation in Wesley Hall, where the degrees will be conferred.

NEWS

THIEVES BUSY.—Thieves entered the transportation building at Queen's Park during the night and stole a 1918 automobile. They are the property of the Reliance Garage. The police have been notified and are investigating.

WELFARE FUND.—A meeting of the United Welfare Fund Association will be held at the Elcom Hotel on Tuesday evening, when final reports of the recent campaign will be received. The fund is understood that during the campaign by the drive will be present.

COUNTY CASE.—Wesley Smith is being heard before Squire Chittick in the phreos and grossly insulting language, which was held to be a violation of the act. The case was adjourned until Friday.

MISS NASH EXPLAINS.—Miss Nina Nash, landlady at 124 Bathurst Street, which it is understood that during the arrest of ten G. T. R. porters, no trouble took place at the porters' quarters. The arrest of the men and the seizures of liquor took place in the dining cars.

WILL APPOINT NURSE.—Appointment of a public school health nurse will likely be made at a meeting of the board of health this afternoon. Miss Friend, who held that position for some time, resigned recently. The board has received a number of applications for the position, it is understood. From this it is expected that only routine business will be conducted.

HOUSING BY-LAW.—The by-law authorizing a debenture issue of \$100,000 as collateral security for the money received from the government by the housing commission, was given its third reading by the city council Monday night. The bill was deposited with the provincial government, and will be sold in the event of the city failing to make payment of the full amount due the government.

RECOVER AUTO.—The manager of the Canada News lunch counter in the local G. T. R. station, has recovered his automobile which was stolen from the yard behind the station on Sunday night. The car was found in Toronto by the police, standing abandoned on the street. No arrests were made, as the person who left the car there could not be found. Mr. Knowles left for Toronto this morning to bring the car home.

SPEEDERS FINED.—Citizens still persist in violating the motor vehicle act. The following were caught in the police net and fined today: Thomas Lacey \$5, Arthur Wilkes \$5, W. L. Lacey \$5, W. J. Shaber \$5, L. R. Renwick \$5, William Watson \$5, W. Flynn \$2, W. J. Elliott \$2, and C. W. Riley \$5. H. M. Samuel, who was charged with a violation of the act, failed to make an appearance. Unless he comes to court soon a warrant for his arrest will be issued. Fred Hunter, Alfred Abbott, H. R. Cullis, H. R. Griffith, Arthur Noble, and J. R. Campbell each paid \$2 to Police Court Clerk John Monte because they had failed to observe various city ordinances. George Grant was charged with being disorderly. The case was adjourned until Friday.

LEAVING LONDON

GEORGE BURGESS, for the past six years inspector for the London Humane Society, has resigned his position, owing to the fact that he is leaving the city. Mr. Burgess was appointed inspector for the Humane Society shortly after coming to Canada from England, where he served 25 years on the metropolitan police force.

He also served in the Imperial army as a farrier for seven years, and took part in the Nile expedition in 1884 and 1885.

The popular inspector is the possessor of the Jubilee Medal, Coronation Medal and other honors. He was also awarded the George, all three being obtained during his service on the metropolitan police force.

Mr. Burgess wishes to thank all the friends who co-operated with him while he was inspector for the society. He did not believe in prosecuting people being to warn them, and by this means he settled many cases outside of the police courts.

BOARD OF EDUCATION BUILDING PROGRAM IN NEBULOUS STAGE

Will London Have One, Two or Even Three High Schools?

Building programs for the board of education are very much in the nebulous stage, the members of the board not yet having fully recovered from the overturning of their building plans by the big Collegiate fire. Routine work is largely occupying the office of the school board architect, additions being contemplated to Victoria and Worley Road School in South London and Ealing School in the southeast suburban section of this city. A four-roomed school is required in the northeast section, near Knollwood Park, or somewhere in the vicinity of Quebec and Oxford Streets. In addition to these public school requirements, sanitary improvements and additions are to be made at Colborne Street School.

The proposed \$150,000 high school for South London is all up in the air as a result of the old Collegiate Institute, which was burned, and a good deal of housing for other centralized high schools for the whole city is being quietly carried on. Newspaper propaganda has been lent to the project, and the cry that is calculated to swell the ranks of the thirty ratepayers of the big saving that will be effected by it, is being put forward in other sections of the city, that concentrated around the Collegiate Institute.

These are quiet days in Secretary R. M. McElther's office, and no special meetings of the school board or any of its committees are in prospect until the regular monthly meeting in June. By that time public opinion will have either been sufficiently strengthened in favor of a centralized school, to go ahead with the project or the attempt to stave off the inevitable will have failed.

A new idea in high schools is being tried out by Cleveland, and is informally being discussed in school board circles. The higher grades from the public schools and the lower grades from the high schools are being transferred to a newly-organized junior high school, branches of which are located in every section of the city. The plan works out, it is said, with the greatest advantage of keeping the average public school pupil in school a few years longer. The new branch is being sent a delegation to Cleveland to look over the proposition, but it would be a pleasant little trip for the season after the Port Stanley strike is settled, and the Cleveland boats start keeping good schedule time.

ROY TUTT'S CONDITION.—Roy Tutt, who was seriously injured when he was knocked from his bicycle last week by a motor truck, is still in a critical condition in Victoria Hospital. The attending physician, however, says that he is out of danger.

COMMITTEE DESIRES INFORMATION HOW \$350,000 WAS SPENT

\$230,000 of Patriotic Fund Said To Have Gone For Bonuses.

Toronto, May 18.—How \$350,000 authorized last year by a special warrant for patriotic Red Cross and organization of food resources, was distributed was the chief item of contention at today's meeting of the public accounts committee in the Legislature. According to Mr. Jennings, the auditor of the committee, which had the spending of the money, that of the lump grant, more than \$230,000 had gone to the payment of bonuses to civil servants and only a fractional sum had gone to active patriotic work.

The committee decided to call upon Dr. A. H. Abbott of Toronto, who will explain the manner and reasons for the various expenditures made. The dispute arose originally over the fact that this item has not been audited by the provincial auditor, who was prevented from doing so under the act.

LOCAL YOUTHS FOR AIR FORCE

Fifty Aviators Residing in London At Present.

Although London is a prospective field for the newly-organized Canadian Air Force, the number of recruits obtained locally to date is not known. There are over fifty veteran aviators residing here at present, and while they are not members of the Canadian flying service at present, they need not become active fliers except in case of war.

On May 22, the application list closes for the newly-organized corps, and it is predicted that about thirty local youths will have their names posted for flying at Camp Borden after that date. The type of machine to be used has not been announced, but it is stated on good authority that English machines will be forwarded to Canada for the annual training to be inaugurated this year.

PASTOR, ORGANIST RECEIVE INCREASES

Annual Meeting of Hyatt Ave. Methodist Church Held Monday.

At the annual meeting of the Hyatt Ave. Methodist Church held on Monday, Rev. George McKinley was extended an invitation to remain for another year as pastor. He was given an increase in salary of \$100, and granted three months' leave of absence during the summer.

Excellent reports of the various departments of the church were given, showing that the missionary giving department had increased 20 per cent, the total amount contributed by the congregation during the past year amounted to \$10,000. Reports of the Ladies' Aid Society were also given, showing that the society were all encouraging. The organist, Clarence Gilmour, also received an increase in salary. During the year 70 persons joined the church.

MORE MEMBERS FOR THE SPRINGBANK ZOO

Utilities Commission May Decide To Purchase Polar Bear.

Routine business is about all that is scheduled so far for the public utilities board meeting Thursday afternoon at 3:30 o'clock. Reports on the excavation work for the new reservoir and parks improvement will, however, receive some attention. About fourteen men are steadily working to improve the condition of the parks, and these will be employed on full time until the end of the summer season.

Further attractions for Springbank Park were discussed. The addition of a polar bear to the zoological garden has been suggested, and somebody away from the city is being sought to acquire one. The bear is being sought for because of the unfavorable climate. However, it is feared that the cost of the bear, and the cost of the department feels inclined to pay, so there is no definite assurance as yet that the bear will be acquired.

Two more black bear cubs are being added to the bear garden at Springbank, and with the pheasants, the seals, the porcupines, cows, ewe and porcupine still alive and healthy. Springbank zoo is by no means the least important zoo on the continent.

NO HELP FOR NEEDY CHILDLESS FAMILIES

C. A. S. Answers Many Appeals Where Children Are Concerned.

Maybe it's difficult to get a flat or attractive apartments if you have a large family of children, but on the other hand there is one organization in London that can't and won't do anything to help you unless you have children. The Charities' Organization Association has never been formally disbanded in London, but to quote one of its former active supporters, still interested, it has just become "non-operative."

A large number of applications for help from poor families, intended for the erstwhile Charities' Organization Association, come to the office of the Children's Aid Society, which used to jointly share premises with the other organization.

Wherever there are children in the families applying for help, investigation and assistance is readily given by the Children's Aid Society, but where only adults are concerned, the applicants are notified that the Children's Aid Society cannot do anything to assist them.

Part of the work formerly handled by the Charities' Organization has been taken over by the local Social Service department, but the frequently apparent, and there is a possibility that the Charities' Organization may be re-formed in some form, in order to respond to appeals for relief, advice and encouragement that are made from time to time.

NO COAL CROSSING BORDER TO CANADA

Fuel Situation in Western Ontario Becoming Acute.

No coal has crossed the border into Canada for several days as the result of an embargo put on Canadian coal at the mines, and by the railroads connecting at the border. Unless a settlement is reached in the dispute of the railroads over the prepayment of freight charges on goods shipped from the United States to Canada, almost immediately the situation will become acute throughout Western Ontario, according to William Martin, a local coal dealer.

Within the last few hours an official statement has been received from the authorities and the railroad officials in the United States to the effect that if the railroads continue to insist on the payment of freight charges on goods shipped from the United States to Canada, almost immediately the situation will become acute throughout Western Ontario, according to William Martin, a local coal dealer.

The situation has been made acute because none of the Canadian coal dealers have been receiving their full quota of coal, and they all are a long way behind in their orders. The production of the mines has been away below normal because of the strike of the miners. The coal dealers have only produced enough coal to keep the mines operating. As the coal dealers have been unable to get their orders filled, they are all a long way behind in their orders. The production of the mines has been away below normal because of the strike of the miners. The coal dealers have only produced enough coal to keep the mines operating. As the coal dealers have been unable to get their orders filled, they are all a long way behind in their orders. The production of the mines has been away below normal because of the strike of the miners. The coal dealers have only produced enough coal to keep the mines operating. As the coal dealers have been unable to get their orders filled, they are all a long way behind in their orders. The production of the mines has been away below normal because of the strike of the miners. The coal dealers have only produced enough coal to keep the mines operating. As the coal dealers have been unable to get their orders filled, they are all a long way behind in their orders. The production of the mines has been away below normal because of the strike of the miners. The coal dealers have only produced enough coal to keep the mines operating. DOES HE SEE THE POINT?

George Matthew Adams Service

Marriage Is Civilization's Way of Remaining Civilized; Divorce Against God's Law

Rev. Dr. Thomas Manning, Sarnia, Regrets Bishop Fallon's Reported Utterances As Tending To Cause Bigotry and Hatred Among His Own People—Declares Protestant Churches Should Be Commended.

SARNIA, May 17.—"Marriage is civilization's way of remaining civilized, and divorce at any time is against God's law and Christ's teaching," said Rev. Dr. Thomas Manning of the Central Methodist Church here in an interview on "Divorce, a Matter of National Importance," and he added: "Thou shalt not commit adultery," marks divorce as at any time against God's law and Christ's teaching.

Speaking of the observations of Bishop Fallon upon the various organizations for social service of the Protestant churches, Mr. Manning declared they were very wrong and would tend to increase prejudice and undesired dislike against Protestants. "These organizations are," he said, "quite within their rights, creating public opinion by appealing to reason and conscience and if they succeeded in carrying with them a preponderance of public sentiment concerning drink and gambling and Sabbath observance they should not be sneered at by anyone who is a professed leader in all that makes for a country's good. The less drinking and gambling, etc., the better for the country. Fairness requires that those who are doing good should be commended for it."

"The degree," continued Mr. Manning, "to which legislation should go in enforcing moral convictions upon a nation is an unsettled and difficult problem. Bishop Fallon would enforce it in the matter of divorce, but sneers at it in the matter of gambling and drink. No church has ever enforced its convictions into national laws to the same degree as the Catholic Church, and if this be to make people holy by law, why speak contemptuously of the Methodists, etc., because they seek legislation according to the

public sentiment. When a high dignitary of the church speaks as Bishop Fallon is reported to have spoken he does very wrong. He misrepresents, and thereby increases bigotry and hatred among his own people."

SEVEN CENTS FARE ON STREET RAILWAY ADOPTED BY SARNIA CITY COUNCIL

Resolution Adopting Municipal Housing Act Is Also Approved.

SARNIA, May 17.—A recommendation was brought into the city council tonight by the railway committee that the following schedule of street railway fares be adopted: Single trip tickets, 7 cents; four tickets for 25 cents; workmen's tickets, six for 25 cents; children's fares, and fares to the beach to remain as at present. The recommendation was adopted practically unanimously. Ald. Carlton and Ald. McAdams, however, demanded that if the scale be put in force, a better service be given. At a later stage of the meeting Ald. Parsons gave notice of moving a by-law at the next meeting of the council incorporating the new schedule. In asking for the increased fares, the street railway company stated that the increase asked for by the employees would require \$12,000. Ald. Kerby presented a resolution calling on the city council to arrange a conference with the different building and allied trades for the purpose of revising the building bylaw. A bylaw was passed by the council adopting the municipal housing act of 1920 to the municipality.

DEATH OF JAMES GRUNCEL.

OWEN SOUND, May 17.—In the death of James Gruncel today this section of Grey County lost one of its most prominent and highly-respected citizens. He was born 74 years ago in Port Hope, and came to Sidney Township at the age of 26. He is survived by his wife, three sons and two daughters.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

ENGLAND, JAPAN SUFFERED DAY TO RENEW PACT

Will Continue Treaty With a Slight Change.

London, May 17.—The Anglo-Japanese treaty will in all probability, the correspondent learns, be renewed shortly without material change.

It will not expire until July 20, 1921, but under its terms either government must give notice on July 20 next whether it wishes to continue or terminate it.

Little doubt is entertained in well-informed circles here that England will renew it, as it is understood Japan is anxious to do so.

As regards Anglo-American relations, it was pointed out today that the present treaty specifically relieves either party from the obligation to go to war with any state with which it has an arbitration treaty.

As England and the United States are signatories of the peace commission's treaty of September 1, 1914, Japan never would ask England to side with her against America.

MOTHER TRIES TO LURE DAUGHTER AWAY FROM A LONDON INSTITUTION

Advises Girl To Smash All The Dishes In The Place

CHATHAM, May 17.—Mrs. Helen Smith, of Prairie Siding appeared before Magistrate Arnold in the county police court today on a charge of attempting to entice her daughter away from a London institution, where she had been lawfully placed by the Kent Children's Aid Society. She was allowed to go on suspended sentence on payment of costs, with a warning not to communicate with her daughter in any way. The charge was laid as a result of a letter the defendant wrote to her daughter in the London institution, advising her to leave, and if she could not, to smash all the dishes in the place. The letter was read in court.

BREAD GOES UP

The price of bread advanced today from 13 cents to 14 cents a loaf. Bakers give the reason of the advance as due to increased cost of flour.

AN INTERESTING RELIC

An old sword, believed to have been used in the war of 1812-14, was found by laborers excavating near the sedimentation basin of the local water-works plant. It measures 21 inches in length, one and a half inches wide, and was apparently handmade. It is significant, some believe, that it was found close to Gen. Proctor's old line of march to Moraviantown.

CLOSE D. S. OFFICE

Official notice has been received by J. J. Evans, in charge of the information and service branch of the department of soldiers' civil re-establishment, that the local office will be closed on May 31.

CHINESE MASONS

An ancient meeting of Chinese Masons was held in the city Saturday night, when five of their fellow-countrymen were initiated by the grand master, Tom Yee, who came especially from Toronto. It is two years since such a meeting was held. About thirty were present.

WINGHAM AUTOISTS

BLAME DUST CLOUDS

Collision Damages Two Autos, But Passengers Escape Serious Injury.

WINGHAM, May 17.—The dust raised by the numerous autos out on Sunday is blamed by both drivers for the collision of their cars at the corner yesterday afternoon, when a car driven by Mr. Hunt was struck by Mr. Adair's car. Both cars were badly damaged, that owned by Mr. Hunt having both front wheels torn off and the axle broken, while that driven by Mr. Adair came off a little easier and was able to reach a garage under its own gas. Mr. Hunt's family, who were riding with him at the time, were all thrown out of the car, but fortunately escaped serious injuries.

EVEN A DOG IS USEFUL

A new method of diverting attention from a raid is being made on a vegetable garden appears to have been discovered by some small boys here, who have been on the point of beds of citizens and selling the produce in town. The lads are alleged to have taken a dog with them on their visits to the gardens and looting some body's cat have set the dog on it, the barking of the dog at the cat guaranteeing to the lads sufficient freedom from observations to secure their supply of young onions.

METHODIST DISTRICT MEETINGS BEGIN TODAY

Ministerial Session at Askin Street Church Opens at 2 p.m.

The annual district meeting of the London district of the Methodist Church is open today, when the ministerial session will begin at 2 p.m., and not earlier. The general session, with laymen in attendance, will begin on Wednesday morning at 9 o'clock.

PRICE OF BREAD IS 200 PER CENT OVER

THE PRE-WAR PRICES

GUELPH, May 17.—Local bakers boosted the price of bread another cent today, and blame the increased cost of flour for the advance. Bread now sells here for 14 cents a small loaf, which is a 200 per cent increase over the retail cost in pre-war days.

ENGINEER RESIGNS

J. A. Tom, assistant engineer for the last year, has resigned and will leave Guelph at the end of the present month. He has been appointed resident highway engineer by the Provincial Government, with headquarters at Toronto. He will be succeeded here by S. Nicklin of the department of soldiers' civil re-establishment, a former member of the city engineer staff.

COAL SHORTAGE

Local coal dealers report that there is very little coal coming into the city at the present time, and the situation is regarded as serious. It was stated today it was almost impossible to secure soft coal, and only very small quantities of anthracite were arriving.

BRANTFORD REALTY CO. OFFICERS ARE ELECTED

BRANTFORD, May 17.—Officers of the Brantford Realty Company have been chosen as follows: President, Joseph Ham; vice-president, A. G. Ludlow; directors, F. W. Ryerson, S. P. Pether, A. K. Bunnell, A. E. Tomlinson and A. B. Burnley.

The M. O. H. reported today that for several weeks there had been a general epidemic of measles in the province and Brantford was evidently getting the tail end of it. Several cases were reported over the week-end.

It was announced at the health office that there will be at least one source of supply for certified milk for the city. A tuberculin test of a special herd of cattle was made last week as the first preliminary in this regard, and the owner proposed to carry out all the other regulations and supply raw milk.

The contract for the building of the new Pantages Theatre opposite the terminal at Hamilton, has been secured by Secord & Co. of this city at a cost of \$350,000.

AND NIGHT

The Tortures of Dyspepsia Relieved By "Fruit-a-lives"

Little Bras D'or, C. B. "I was a terrible sufferer from Dyspepsia and constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-lives.' In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous." ROBERT NEWTON.

50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives, Limited, Ottawa.

CANADIAN CREDIT SYSTEM CRITICIZED

Government Lags Behind Britain and U. S. in Fostering Export Trade.

London, May 17.—Mr. F. H. Kapp, secretary of the Canadian Woolen Manufacturers' Association, has returned to Canada after securing orders for some \$8,000,000 from Rumania for Canadian woolen mills. It is understood, however, that though the order has been obtained, it has been found so far impossible to finance it. Your correspondent has been informed that the Canadian Government will not advance any more money to Rumania, where a \$25,000,000 risk has already been taken, and consequently the order cannot be financed under the new scheme of specific government credits, which was inaugurated this year.

It is said Mr. Kapp endeavored to have the credit arranged in London, but financiers would not entertain it unless the trade was divided with British manufacturers. Proposals are now being made to Belgian interests. The difficulty met with in this case is an object lesson of the need of some satisfactory system of Canadian credits for export trade. Two systems have now been tried by the Dominion, and neither has proved entirely satisfactory. The main objection is that they provide only for transactions between government and government, whereas what is required is accommodation for ordinary trading between private individuals. The former class of transaction is a relic of the war, and will soon become obsolete. Both the United States and Great Britain, with whom Canada is now competing for foreign trade, have credit systems. The new British plan is considered to incorporate many superior features, and a full outline of its modus operandi has been forwarded to Sir George Foster by the overseas branch of the department of trade and commerce. Instead of tying up \$100,000,000 of public money, as Canada has done, Britain will vote a fixed sum of £26,000,000, which is to be used over and over again as it is repaid, and will be employed to insure through banks, underwriters and insurance companies such transactions as are made under it.

Panks backed by the Government finance advances to British exporters and underwriters, and insurance companies take the risk involved in possible refusal by the foreign consignee to meet the bill of exchange for the cost of the goods. The bill of exchange falls due at the end of the period, and at that time it is expected exchange will be normal again. The plan thus provides credit and also insurance against risk.

VESSEL PASSAGES.

SHORT OF BREATH

Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?" Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N. S., writes: "I suffered for five years with heart trouble, I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Company, Limited, Toronto, Ont.

---and no one could tell the difference

Claire Lillian Peteler.

Sibyl Sanderson Fagan.

Drawn from actual photograph.

Last night's audience mystified

Tries vainly to detect difference between art of famous artists and RE-CREATIONS by Edison's new phonograph

Those present at the Y. M. C. A. Auditorium last night saw Claire Lillian Peteler walk onto the stage. They saw her take her position next to a beautiful cabinet. They saw her lips give voice to the opening lines of Coming Home. Then suddenly her lips were still—but the song kept flowing on.

How came this? They were hearing Miss Peteler's voice, yet Miss Peteler was not singing. The entire audience gasped as it slowly realized that it had been unable to distinguish between Miss Peteler's voice and the RE-CREATION of that voice by the New Edison.

This was the daring test undertaken last night at the Y. M. C. A. Auditorium by Thomas A. Edison.

He sought to prove that no difference exists between the voice of the living artist and its RE-CREATION by the New Edison. The musically cultured of London were invited to pass judgment. No test could have been more exacting.

Miss Peteler made comparison after comparison. Sibyl Sanderson Fagan, who appeared jointly with Miss Peteler, also made tests with her whistling selections. The mystified audience tried vainly to catch a difference between the original rendition and its RE-CREATION by the New Edison. No one could tell one from the other.

It was a triumph whole and complete for the New Edison.

The NEW EDISON

"The Phonograph with a Soul"

The instrument used in last night's Tone-Test is a regular model. It is an exact duplicate of the Laboratory Model which Mr. Edison perfected after spending Three Million Dollars in experiments.

The New Edison alone of all phonographs

is capable of sustaining this test. Until Mr. Edison knew it would do so, he regarded his work as unfinished.

Ask some one who was present last night. Learn the amazing truth. Then come in and let us prove it personally to you.

Kingsmills
FAMOUS FOR QUALITY, STYLE AND VALUE.

HOUSING CASE MAY BE SETTLED AMICABLY

Commission Attempting To Meet the Wishes of the Soldiers.

Speaking to The Advertiser last night, F. B. Lavender, a member of the central soldiers' council delegation, which met the housing commission, expressed the opinion that the commission was doing everything possible to meet the wishes of the soldiers. Referring to the Harvey matter, Mr. Lavender said he "felt sure that an amicable settlement would be reached." In the conference with the commission relative to this matter, the delegation learned that the house in which Mr. Harvey is was one of the first erected under the housing scheme by a former commission, and that it was built on the day-labor system, so that until it was actually finished the commission had no real knowledge of its cost, although an estimated price had been named.

A conference between the central soldiers' council and the housing commission will be held on Thursday for the discussion of the required ten per cent deposit.

Mr. Lavender was of the opinion that the soldiers' council would be satisfactory to the soldiers. The central council would appoint a committee, who would recommend or otherwise any soldier making application to the housing commission for this special consideration.

THROW GAS FIELDS OPEN TO COMPETITIVE EXPLOITATION

Demand of Councillor Ferguson Before Ingersoll Town Council.

INGERSOLL, May 17.—The Natural Gas Company tonight served notice on the town council that beginning with the July bills the price of gas will be 50 cents per 1,000 feet.

After considerable discussion of the situation it was decided that all members of the council should go to Toronto on Thursday to join the other municipal delegations that are protesting against the proposed increase.

Councillor Ferguson contended that if the gas companies desire the privilege of cancelling existing contracts they should also be deprived of all their privileges and the gas fields thrown open to competitive exploitation.

The following members of the council were appointed on the board of resolution: Mayor Anderson, Councillors Sutherland, Gibson, Ferguson and Scott.

At The Theaters

AT THE ALLEN.

The Inferior Sex. At the Allen Theatre, a picture filled with delightful people, chief among whom is the little wife, played by Mildred Chaplin, whose playful scheming with back the love of her husband, is but one aspect of this picture, which is filled throughout with interest.

There is a villain, of course, and a faithless wife, who is brought back to her senses and wifely responsibility by the noble sacrifice of the heroine. The final scene is staged in a great seaside hotel where to watch the bands, wives and villain meet, the innocent little wife being the centre of the difficulty without laying blame alone due to her extreme cleverness. And she was but one of the "inferior sex" at that.

Mildred Chaplin is a clever little dresser and greatly to her credit, she alone would be enough to make the picture a success.

The picture is quite a lengthy one and absolutely devoid of any crudities, so that it is a most enjoyable treat. It is supplemented by very fine comic film and some news reels of exceptional interest. Chief among these is one which has been taken from the moving picture world at Hollywood, California. Mary Pickford, beautiful residence is shown, and the beautiful Mary herself, drinking tea (milk really) with her tiny niece of three or four years. Mary's studio is shown, and the picture is a most enjoyable treat.

ventional shame of it from the girl's father and others, the gay, glad-about-roulette-loving mother, takes her daughter secretly to the physician who does anything for money.

The man in the case is the usual conventional type of gentlemanly young rake who takes women's hearts lightly, utterly negligent of any consideration of the heavier risk and deeper shame the woman invites in all cases of illicit sex relations. There are worse types, for the hero of this drama appears to have been unmoved rather than immoral. When he meets his sweetheart's cousin, he simply forgets his first love, gets engaged to a new love, and is being feted by the boys of his club on the eve of his marriage. When word comes of the girl who died for being his plaything of a passion-crazed moment.

Such incidents as the play presents, do happen in real life in this very city and other cities. They should not happen and the message of the play is that girls must be enlightened to guard against the treachery of unscrupulous young and old Lotharios, whose moral creeds appear to be built out of Hunnish frightfulness.

AT THE PATRICIA.
Shirley Mason has abundant opportunity to demonstrate her personality and prettiness in the comedy drama, "Molly and I," being shown at the Patricia Theatre the first half of this week. The film is adapted from R. Adams' novel, "Molly and I," and is a most enjoyable treat.

In this picture, which is a romance of wartime, Shirley Mason as Molly, a poor but ambitious girl, engineer, and her husband, who is a millionaire, are shown in a most enjoyable manner. The picture is a most enjoyable treat.

THE SUGAR SITUATION.

Are we or are we not paying more for sugar than we should? The member for Halton, speaking on the subject in the House of Commons a few days ago, declared that the soaring prices of sugar were not warranted by the cost of production. The fact seems to be that sugar refineries in this country are unable to secure an adequate supply because of the great shortage in the East Indies and Jamaica, where they lack labor, and in the beet sugar field of Central Europe which are still far from their normal production. So the supply has kept on shrinking and the prices mounting.

Much has been made of the fact that Cuba has an unusually heavy crop this year, and that as a consequence prices are about to drop, but it is well not to be too confident of this. Giving evidence before the federal railway board in Washington, W. Jett Lauck, a noted American economist and former secretary of the war labor board, declared that the tremendous increase in the price of sugar in the United States was due to the "unbridled exploitation" by the twelve leading sugar producers of the country, who increased their net profits in three years of war from an average of \$11,000,000 to \$37,000,000. In many American cities sugar prices have reached the retail figure of 30 cents, and many expect to see it go to 50 cents.

"The sugar profiteers are preparing for their annual canning season raid," Senator Capper recently declared on the floor of the Senate.

"For years the sugar interests have openly and shamelessly robbed American housewives during the canning season," he charged. "They have, with their extortionate charges, regularly blighted the poor families' hope of putting up and storing away a cheap and wholesome supply of fruits and vegetables. . . . It is piracy so colossal and criminal that Captain Kidd and all the famous pirates of history become Sunday school characters by comparison."

At the same time that prices are soaring and these charges being made, the Foreign Trade Record, issued by the National City Bank of New York, declares:

"With sugar prices the 'highest ever,' the quantity being brought into the United States is the 'biggest ever.' Official figures of the movements of sugar into the United States, including that from its own islands, indicate that the quantity entering the country in the fiscal year of 1920, which ends with June, will apparently approximate 9,000,000,000 pounds, as against 7,750,000,000 in the former high record year—the fiscal year of 1919."

With the other sugar fields underproducing, Canada will have to depend largely on the Cuban crop and with this controlled by the American sugar interests the prospects for an early drop in this country are not too bright.

MUCH-NEEDED LEGISLATION.

Under the name of fair rentals act, a measure has been brought down in the Ontario Legislature that will be of assistance to the renter in his struggle with the high cost of renting. The demand for a remedy for some of the prevailing conditions is widespread and clamorous. For instance, many a renter has in the course of a year been obliged to submit to a number of increases, sometimes as high as four. That a lot of this renting has been made at exorbitant prices there is no question. In order to meet this the fair rentals act calls for the following procedure:

In cities towns and villages the court of revision upon application of any person complaining that the owner of any tenement or building demands an unjust or excessive rental therefor shall have power upon a summary hearing of the parties and their witnesses upon oath or otherwise as the court may deem advisable to make an order fixing a fair, just and proper rental for such tenement or building and the owner thereof shall not be entitled to collect or receive more than the amount fixed.

Any order or judgment of the court shall be final and binding upon the parties, but such order or judgment may be rescinded, altered or varied by the court at any time upon the application of any party interested.

Any person violating any of the provisions of any order or judgment of the court shall be liable upon conviction thereof before any magistrate to such a penalty as the convicting magistrate shall in his discretion impose, not exceeding \$100, exclusive of costs, and may, in addition to such penalty, impose a penalty of \$5 per day for each day while the said violation continues.

THE SALVATION ARMY'S JUBILEE.

Fifty years ago General Booth organized and set marching the Salvation Army. That it has given the world half a century of splendid service will be admitted by everybody. No single organization has accomplished more, and few as much, in relieving human misery. Countless thousands have been lifted from the gutter to cleaner, happier lives. Thousands have been rescued from circumstances that would have inevitably pulled them down to the lowest social levels. It is difficult to say just how much the Salvation Army's activities have contributed towards the advance that has been made socially, industrially and religiously amongst the Christian peoples, but that it has been great is not to be questioned. Few well-known names have so sincerely earned the

support of Canadians, and it is hoped that self-denial week, which started yesterday, will add to the funds of the army a substantial sum.

ROMANCE OF THE AUCTIONS.

There is no better place to learn history than attending a morning auction sale on the Market Square. For one thing, history textbooks appear to predominate among the large supplies of used school books which are auctioned off there. But more interestingly to the reflective mind, the various periods of history flash with panoramic effectiveness before one's imagination as relics of various ages and epochs in the line of furniture, painting, bric-a-brac and household utensils are cried in turn by the auctioneers.

A stereoscope and a set of views—they do not recall the wonderment with which you first looked through the magic lenses and saw lovely landscapes magnified long ago, when as a boy your brightest ambition was to possess a magic lantern, but you had never, never heard of a motion picture show!

Here is a large, lifelike rocking-horse hitched to a little wickerwork carriage that thirty odd years ago delighted some boy or girl as a splendid birthday present. Now the boy is probably engaged in further raising the high cost of living by cornering foodstuffs, and the girl is worrying most likely over the approaching marriage of her daughter in June.

The furniture offered dates from the earliest Victorian periods to the styles offered in the twentieth century by the big mail order stores, bought on the installment plan by hopeful couples, now obliged to give up housekeeping because of the scarcity of residences, and to sacrifice their neo-mahogany household effects because of the exorbitant rates charged by the storage warehouses.

Here for the artistic mind waits a torn painting of the battle of Waterloo and a landscape in crayons of "Cows in a Pasture at Sunset."

For the mysteriously inclined, there are two ouija boards and a copy of Napoleon's "Book of Fate."

For the music lover there is an old autoharp, on which some romantically-inclined youth of yesteryear no doubt strummed out his love-songs to a grandmother of today.

THE RIGHT OF DISMISSAL.

The critical situation that recently developed at the registry office of North and East Middlesex, London, through the appointment of a deputy, under the hand and seal of

Registress Miss Walker, without consulting the provincial authorities, recalls a similar situation happening at the St. Thomas registry office. The deputy and the representative of the riding clashed over some trivial troubles, and the member directed the premier then to have the deputy dismissed. The registrar was ordered from Toronto to have his subordinate discharged. But he refused, giving as a cause for his refusal that the Government had nothing to say, nor would he brook any interference from the premier or any of his associates in the appointment of the deputy. The registry act gave him the sole right in the selection of a deputy, and did not direct him to submit his name to the Government for its indorsement or not. The registrar was the only person who might name his own deputy. To have one forced upon him by the Government or any other person would be, said the registrar, intolerable, and he would resign first. The premier acknowledged the plea of the registrar as both statutory and reasonable, and withdrew his order for the deputy's dismissal.

EDITORIAL NOTES.

The trouble about common sense is that it isn't common.

The Allies' bill for 30 billions will make Germany bilious.

Spring is here. The Thames has now taken on the coloring and dimensions of Carling's Creek.

The Left Wing of the Socialist Party of the United States demands the subservience of everybody to the socialist workman. Modest!

Danish potatoes are being shipped to Canada. It is to be hoped that potatoes were not among the things Hamlet found rotten in the State of Denmark.

THE TREND OF THOUGHT.

When such problems as reconstruction, labor disputes, business difficulties, high prices, trade expansion, social readjustment and many others of the same kind, are so much before mankind, the material side of life seems all-important. Yet on every hand there are indications of such a spiritual longing, so deep an interest in exploration and study of those things beyond this human life, and outside this bodily existence, that they cannot but cause consideration and speculation.

The most apparent indication of this trend of thought is the sudden popularity and prominence of spiritualism. The librarian of a leading reference library in the United States declared the other day that the demand for books on spiritualism exceeds that for works on any other subject. Newspapers and magazines bristle with stories on the subject. Nor is the spiritualist religion the only field of mental, spiritual and metaphysical study which is engaging investigators and winning converts.

No one can say today what belief is correct and what is wrong; whether there is any basis of fact to popular theories or whether the world has gone off on a tangent. But there is evidence of a world-wide longing to know the truth.

The belief in a soul or other being, the hope of a life eternal and the conviction that there exists a Supreme Power, are natural attributes of many, found in the lowest stages as well as the highest. Since the earliest times man has puzzled over these questions.

THE CAVENDISH MARRIAGE.

From the new point of social history the really interesting thing about the marriage of Lady Dorothy Cavendish to Mr. Harold Macmillan was the marriage of a duke's daughter to a publisher's son struck no one as being the least remarkable. Twenty years ago such an event would have been hailed as a sign of the passing away of caste distinctions at the top; today nobody notices it; a yet more exalted marriage, that of the Princess Patricia to Commander Ramsay, did not bring a heading of "The Stopping Lady" to any newspaper, and the present wedding is seen by even the most old-fashioned inmates of Mayfair as quite an ordinary, suitable match, as indeed it is. The April sun shone on the marriage, and the affair was both grand and pretty. Marriage presents in a big marriage nowadays mean mostly to take the form of old furniture, old glass, old china, old jewelry, old lace, old mirrors, old silver and old lacquer. There were many useful things, such as umbrellas, dressing-cases, lace doilies, cloaks of all kinds, enamel buttons and clothes brushes. There were very few books, unless address books and manuscript books are counted. Sir Sidney Lee presented his life of Shakespeare, Mrs. Drew her life of Mrs. Gladstone, and the Misses K. and J. Parrose two Irish books. There were a number of pictures, mainly etchings and prints.

From Here and There

FALSE NEWS.

The Legislature of New York has passed a bill making it a misdemeanor to furnish false news to a newspaper. The new law reads: "Any person who knowingly and wilfully states, delivers or transmits by any means whatever to any manager, editor, publisher, reporter or other employee of a newspaper, periodical or serial, any false and untrue statement of a fact concerning any person or corporation, with intent that the same shall be published, is guilty of misdemeanor." The law becomes effective September 1.

SHOULD MAKE PROVISION.

In the matter of hospital accommodation, the Drury Government should take some steps to have the counties and towns make some provision for their sick. They should not be allowed to fust on them on to the cities.

IN KEEPING.

From being commander-in-chief of Canada's greatest army to being commander-in-chief of Canada's greatest university is a natural step after all. Sir Arthur will continue in close touch with the finest brand of young Canadianism.

NOT BRITISH.

Sir Adam Beck's friends would be well advised to cease their cry of "Trust Beck." The people of Ontario are willing to follow a wise leader with their eyes open but they are not yet trained to idolatry. Let Sir Adam announce his policy. Let it stand or fall in frank public discussion. That is the way of British civilization. But to kiss the hand that blindfolds them was not the practice of our forefathers, nor shall it be ours.

THE RUSSIAN O. B. U.

The supporters of "the one big union," with the communists that is the honest purpose of the leaders to bring about, may well take a good look at the present status of Trotsky's "one big union," a conscripted labor army under military discipline, ruled on the one principle of "no dissent," and as for subalterns under the soviet cannot choose their jobs, cannot change them, cannot quit them, and cannot move without a pass book containing every item of their history. Leading means a firing squad, and as for subalterns striking, that is to laugh. A pleasant detail is that the worker's wife and children are made hostages for his good behavior. If he runs away they are shot.

THE GREASE OF THE SOCIAL WHEELS.

Tact is a whimsical visitor in this complex world, and more often snubs the homes of the rich than of the poor. For it holds a close affinity to selfishness. Tact—what countless pinpricks could have been avoided if only it had been present! Who enters life's lists armed with tact has a finely tempered rapier that will penetrate the thickest armor of smug complacency.

THE FILM AND THE DRAMA.

Even for the dramatist, the vast pictorial resources and devices of the cinema theatre suggest wide possibilities and help to unclose the springs of human nature. We may see new varieties of interest it may furnish to the dramatist? It is a little weak, perhaps, on the educational side, for the majority of us go to cinemas—if we do go—to see a story and learn a moral maxim. Its humor, too, is of somewhat primitive type, being more often than not rude and boisterous, of the nature of a knockabout farce. But its enormous success, and the wide range of activity, prove that it is to be reckoned with in the modern world by the social philosopher and student of our times as a potent instrument of good or of evil.

CREATURES OF DARKNESS.

The Bolsheviks protest that they are no longer murdering wholesale. Perhaps not. The "terror" may have done its worst, but the people may be overawed. But manifestly they have a good deal to hide, or they would not be so anxious to shut out credible and competent witnesses of their rule, and of the moral and material consequences of that rule. They shun the light, because their deeds will not bear the light. They sorely want supplies, but Kraasin and his colleagues acknowledge that, while they are ready to purchase, they are not ready to pay. They are ready to transport with gold, they will not open up Russia to ordinary trade. The reason is simple: they dare not reveal to the world the state of misery to which the "dictatorship of the proletariat" has reduced the obedient empire of six years ago.

MULTUM IN PARVO.

The parliamentary correspondent of the Ottawa Citizen states that, in reply to an inquiry about his health and condition, Sir Robert Borden said: "I have come back to work." Multum in parvo.

DISCREDITED SCIENTIST.

Professor Frank Allen of the Manitoba University has a poor opinion of Sir Oliver Lodge. Speaking to the Grace Church Forum last Sunday, he said that Sir Oliver was not in the first rank as a scientist, and that he was an over-advised scientist. He added that "anyone who teaches there is no death is nothing more nor less than a public humbug." There can be no camouflaging the fact of death, and the better people realize what it means the more will be the health of the living. The Christian spirit in every sphere of life. The witch of London, praised so highly by Sir Oliver Lodge, is no better than the witch of Endor, and the witches of Winnipeg can be put in the same category.

SURPRISING STATEMENTS.

In a talk before a church forum in New York last Saturday night, Frank I. Cobb, editor of the New York World, made the surprising statement that the foreign language papers of New York exceed in circulation the New York Times, the New York World and the New York American, the three great papers in point of circulation. No doubt the majority of those who read the foreign language publications could not read the English language papers if they tried. There is apparently much need to Americanize the foreigner.

THE BLUEBIRD.

[John Burroughs in Field and Study.] "The bluebird is a bird without fault. All its ways and sounds and habits and looks are pleasing. It neither eats your fruit like the robin, nor daubs its porch with mud like the toad, nor brings a plague of bird lice as the latter often does. It is half domestic like the robin and phoebe, without any of their vices. It does not awake you in the early morning, nor tease your ear at any time of the day with its persistently reiterated notes. As an insect destroyer it must equal any of them, and as a harbinger of spring it is the most welcome of them all. It comes to its nest and young in the hollow of the limb on the corner of my porch as softly as a shadow, and when feeding its young it comes about every minute nearly all day, till the twilight deepens. All its ways are ways of gentleness. It is a bird without snap or emphasis or sharpness of any kind. I always visualize its note as blue like its back. Its wing gestures are as pleasing as its note. The bird has the quality of the thrush, with a touch of something serene."

Certain of our familiar birds, like the wren, get on your nerves. Even the darling song sparrow will, at the height of the season, go through its repertoire of five songs before your door till you are fairly to cry out, "Oh, do take a rest!" But, from the first to last, from April to October or November, the presence and the voice of the bluebird has the effect of harmony and repose—soothing, tranquilizing, restful. It is a song-bird strictly speaking. It does not strike an attitude and lift up its voice in a definite series of notes, like the song sparrow, yet its every sound and call is musical, and its every movement harmonious. The bird's songsters play their parts well, but their period of song is brief, while the bluebird—well, it is always the bluebird. It keeps its tone and quality the whole season. How engaging is the habit it has of its deserted nesting-places and lingering fondly about them! One cannot be sure whether it is the parent birds or some of the young that return. They peep into the cavity, warble softly to each other, and then take turns in entering it briefly. It is emphatically a home bird. In my bird heaven the bluebird shall occupy the nearest porch, and shall always comfort me with his gentleness and composure. The bluebird is as soothing as the

Poetry and Jest

SONGS OF THE SEA CHILDREN.

[Miss Carman, in "Pipes of Pan."] The day is lost without thee, The night has not a star; Thy going is an empty room, Whose door is left ajar.

Depart: It is the footfall Of twilight on the hills; Return: and every road of ground Breaks into daffodils.

Thy coming is companioned By presences of bliss; The rivers and the little leaves All know how good it is.

You pipers in the swales, Tune up your reedy flutes, And blow and blow to bring me back My little girl in spring!

Take all the world beside, And flute it far away For less than nought, but give me back One sleepless night in spring.

Noon on the marshes and noon on the hills, And joy in the white sail that shivers and fills, Gold are grain lands, and gold is the sea, And gold is my little love maid to me.

ALL EXCEPT—

Shie—A woman can do almost anything a man can nowadays. He—I've never seen one who could spike a worm on a fish-hook or let a mouse out of a trap.

THE PAISLEY SHAWL.

[Wilfrid Wilson Gibson, in Fortnightly Review.]

What were his dreams who wore this colored shawl? The grey, hard-bitten weaver, gaunt and old, Out of whose grizzled memory, even as a flower Out of black winter at young April's call In the old tradition of flowers breaks Into bloom, Blossomed the ancient intricate design Of softly glowing hues and exquisite line.

What were his dreams, crouched at his cottage door?

What were her dreams, the laughing Who first in flowering of young delight, With parted lips and eager, tilted head And shining eyes, about her shoulders white, Drew the soft fabric of kindling green and red, Standing before the candle-lighted glass?

FOOLISH QUESTIONS.

Patient—Do cucumbers really affect all people?

Doctor—No; only those who eat them.

THE HAWTHORN LANE WAS FULL OF FLOWER.

[A. Mary F. Robinson.]

The hawthorn lane was full of flower; Across the hedges, the apple-trees Sent down with every guest of breeze A light, loose-petalled blossom-shower.

The wide green edges of the lane Were flung with wedged flowers, and white Archangels tall, the bees' delight, Sprang lustier for the morning's rain.

The scent of May was heavy-sweet; The noon poured down upon the land The nightingales on either hand Called, and were silent in the heat.

FOR SOMEONE ELSE.

Johnson—What kind of a girl is she? Jones—The kind that everybody says make a good wife for somebody some day.

THE CALL OF SPRING.

[Sarajini Naidu.]

Children, my children, the spring wakes anew And calls through the dawn and the day-time For flowerlike and fleet-footed maidens like you To share in the joy of its playtime.

I know where the ivory lilies unfold In brooklets, half-hidden in sedges, And the air is set with the blossoming gold Of thickets and hollows and hedges.

I know where the dragon-flies glimmer and glide And the plumages of wild peacocks are gleaming; Where the fox and the squirrel and timid fawn hide, And the hawk and the heron lie dreaming.

The earth is ashine like a humming-bird's wing, And the sky like a kingfisher's feather; O, come and let us go and play with the spring, Like glad-hearted children together.

IN CASE—

It was an Irish lawyer who put this note on his door in case any clients should call: "I am gone to dinner and won't be back for an hour, and if you can't read this, take it to the fellow across the hall, and he'll read it for you."

JUST TO BE GOOD.

[James Whitcomb Riley.] This is enough—enough! O we who find sin's billows wild and rough; De we not feel how more than any gold Would be the blameless life we led of old? While yet our lips knew but a mother's kiss? Ah! though we miss All else but this, To be good is enough.

It is enough—Enough—just to be good! To lift our hearts where they are un-derstood; To let the thirst for worldly power and place Go unappeased; to smile back in God's face.

With the good lips our mother used to kiss, Ah! though we miss All else but this, To be good is enough.

Why Husbands Wait. "Aren't you ready, dear?" called hubby from downstairs. "As soon as I fix my hair, Henry," came the reply.

"Haven't you fixed your hair yet?" came from Henry an hour later. "Picked it out the female voice. I haven't found it yet."

To a Pair of Scarlet Tanagers in the Square. Two spirits in the city square—Fire-breathed for our eyes are they, Who flung you, flocks of Eden hue, To paint up Paradise.

To make a little Eden patch, Where tolling Adam stays to watch Tired Eve forgets the apple! From "Songs From the Journey," by Wilton Agnew Barrett.

TENDER HEARTED.

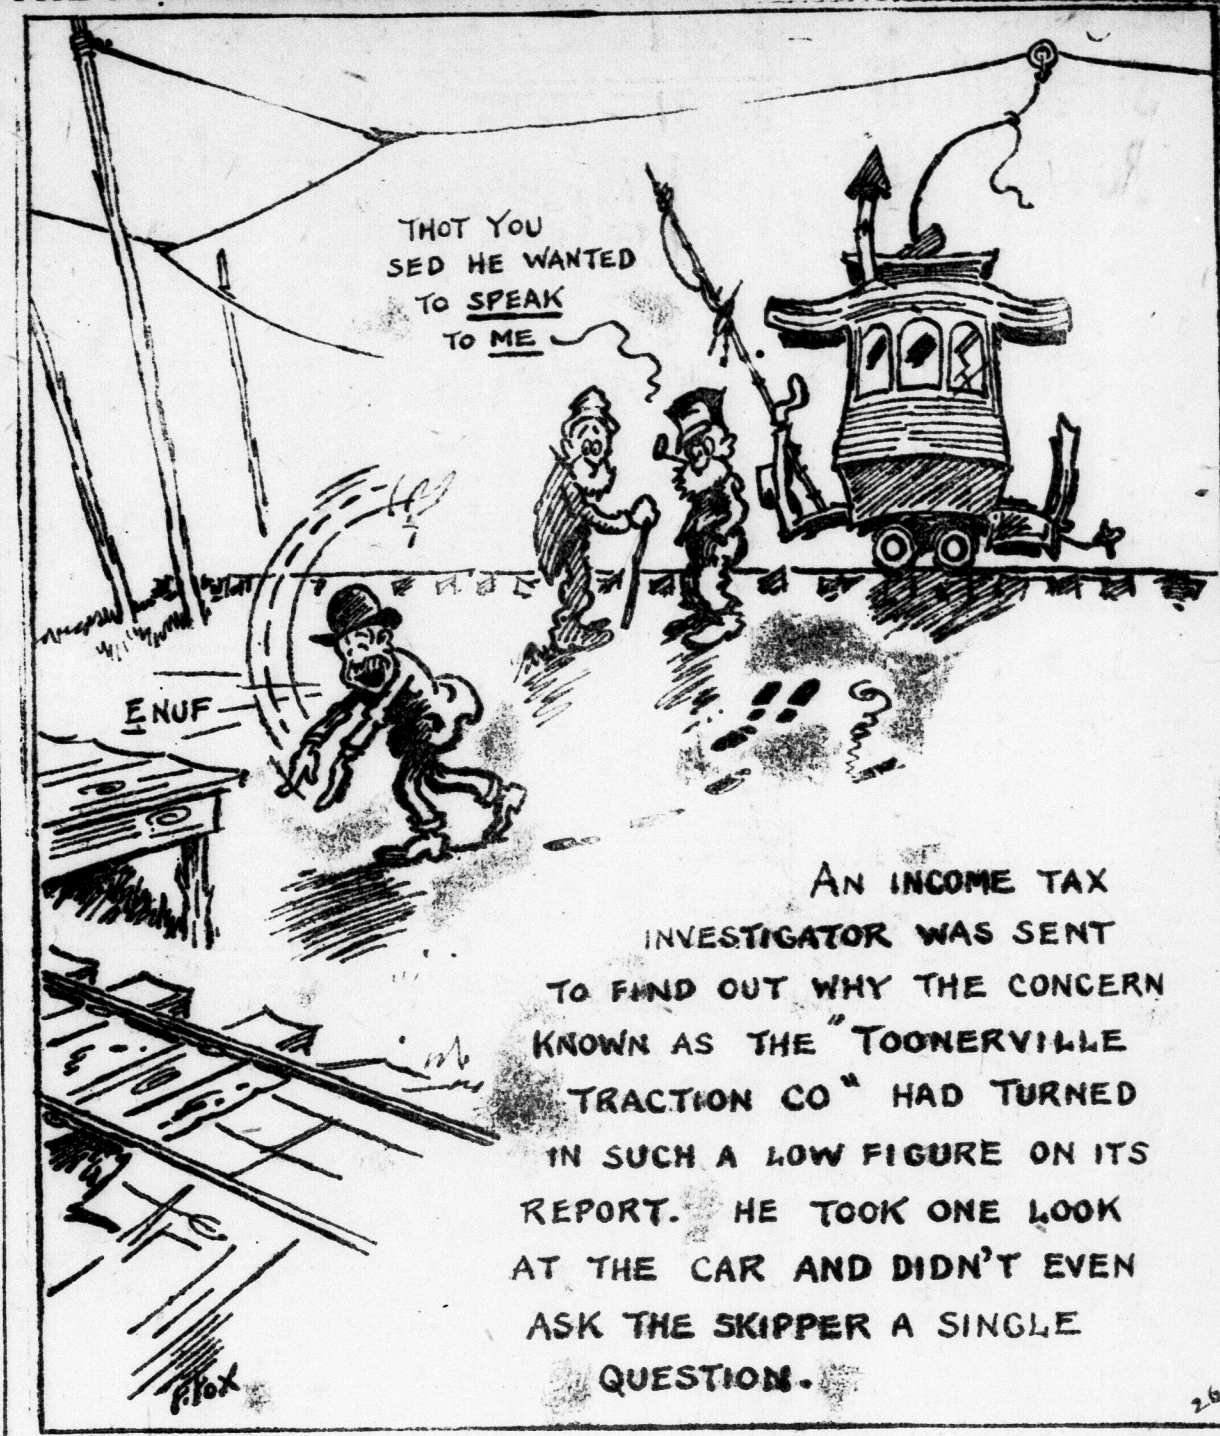

[Tit-Bits.]

"He is the most tender-hearted man I ever saw." "Kind to animals?" "I should say so! Why, when he found the family cat matted on sleeping in the coalbin he immediately ordered a ton of soft coal."

AN OUTRAGE.

Life used to be just one darn thing after another, but nowadays they don't even wait their turn.

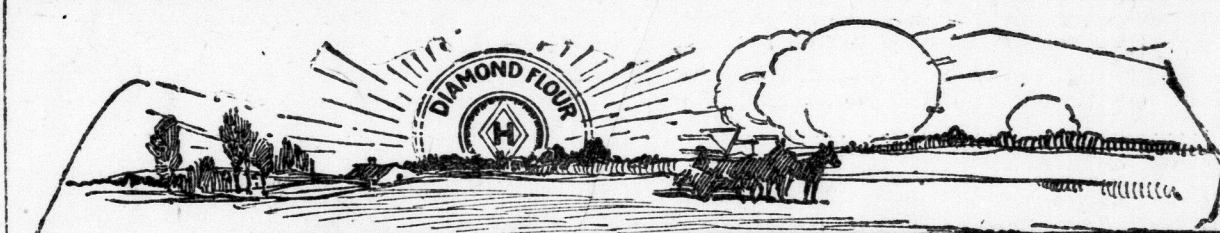

THE TOONERVILLE TROLLEY THAT MEETS ALL THE TRAINS

AN INCOME TAX INVESTIGATOR WAS SENT TO FIND OUT WHY THE CONCERN KNOWN AS THE "TOONERVILLE TRACTION CO." HAD TURNED IN SUCH A LOW FIGURE ON ITS REPORT. HE TOOK ONE LOOK AT THE CAR AND DIDN'T EVEN ASK THE SKIPPER A SINGLE QUESTION.

By FONTAINE FOX

What is Gluten? Do you know?

Food experts talk of food in terms of gluten, proteins, carbohydrates, fibre, heat, etc. These are important food properties. Reduced to simple English, they mean nutriment.

Gluten is one of the important nutritives of flour. It is the organic compound that forms tissue. Therefore it is a very important body-builder.

Manitoba No. 1 Hard and the best Ontario Soft Wheats contain very generous portions of gluten. When ground and baked into cakes, pies, etc., these two varieties of wheat provide a goodly share of gluten broken up into its most digestible form.

Therefore for body-building value and for digestibility you cannot do better than have bread, cakes, pastry, etc., made from a perfect blending of these two qualities of grain. That is why

MUTT AND JEFF—There Are Exceptions To Every Rule.

(Copyright, 1920, by H. C. Fisher. Trademark registered in Canada.)

BY BUD FISHER

London Loses Kennedy by National
Commission's Ruling Says ReportMoline, Where He Was Suspended, Wants Him Back Now
Wetzel Has Been Notified of Farrell's Decision.

PLANT, Mich., May 17.—George H. Moline, president of the National League, has ruled that henceforth there must be no coaching from the benches. Ban Johnson gave the same order last week in the American League. Kennedy, London right fielder, must go back to Moline, Ill., where he belongs, says a telegram from J. H. Farrell to Moline tonight. Wetzel has been notified. It seems that Moline suspended him, but now

wants him back again. Carroll and Doolan will umpire at Saginaw on Wednesday and Thursday; Shuster at Battle Creek; Brichter at Bay City; and McKee and Fyfe here. Fyfe and Shuster at Saginaw on May 21, 22 and 23; Brichter at Battle Creek; Carroll, Bay City, and McKee and Doolan here. Knott's boys are here today ready for the first break with Flint tomorrow. Rain prevented a game today. Hump Pierce is confident that he will take every single game here this week.

FIVE HOMERS, FOUR
TRIPLES AND THREE
PAIRS IN TIGER WINFlagstaff Returns To Detroit
Team—Schalk's Wild Throw
Lost Chicago Game In
Eighth.

PHILADELPHIA, Pa., May 17.—Five home runs, four triples and three doubles enlivened Detroit's 9 to 7 victory over Philadelphia today. Ira Flagstaff returned to the Tigers' lineup and knocked out two home runs. The score: R. H. E.
Detroit 4 30010100-9 3 3
Philadelphia .. 0 00011023-7 10 2
Daus and Stange; Kinney, Rommel, Moore and Perkins.

SENATORS LOSE CLOSE ONE.

WASHINGTON, D. C., May 17.—St. Louis took a closely played contest from Washington, 2 to 1 today. Zachary proving effective except in the second inning. The score: R. H. E.
St. Louis 0 30000000-2 2 2
Washington .. 0 10000000-1 6 2
Shocker and Severid; Zachary and Erickson and Garrity.

RED SOX TOOK ONE.

BOSTON, May 17.—Boston took the second game of the series from Chicago 2 to 1, today. The winning run came in the eighth inning as a result of Schalk's wild throw to catch Menckway going to first on a bunt. Menckway reached third and scored on Reddy's single to left center. The White Sox scored in the eighth on McDermott's double and Schalk's single. The score: R. H. E.
Chicago 0 00000001-1 3 3
Boston 1 00000001-2 7 0
Wilkinson and Schalk; Jones and Walters.

INTERESTING NEWS
FOR WORKING MENAn Article Well Worth Your
While To Read.

This is a nerve-racking age—not a time in an office or behind the counter, striving hard to get on in the world, that does not feel the strain. If a nerve is in order, a man is nervous, eats and sleeps well. Unstrung nerves means weakness, worry, sleeplessness and a general decay of bodily strength. Most men are careless of their health. They trust to luck and that kind of thing, instead of taking Ferrone's for a few weeks when they feel dull in the morning, or when they sleep poorly or lose appetite. Ferrone's quickly brightens up the mind. It creates an appetite, improves digestion. Ferrone's makes blood, quiets the nerves, makes muscles like steel and induces refreshing sleep. Ferrone's is a body builder, though. It has proved it. If you are sick or out of sorts, use Ferrone's and enjoy the splendid health it so surely brings. Permanent in its results, the greatest health-giver in the world is Ferrone's. Because nourishing and perfectly harmless, all can use it. Children. Get Ferrone's today, 50c per box, at all dealers, or by mail from The Catterhouse Co., Kingston, Ont.

AS YOU WERE

The loss of Kennedy will be keenly felt by the London team if the reports of Secretary Farrell's decision regarding the player are correct. His suspension by the Moline Club was known by the local club, but they got the gardener under a temporary arrangement. Kennedy has been hitting at a .360 clip and was getting better all the time. He shows a nice judgment of his work out in the right garden, too.

However, his going won't cripple the team at all. Critchlow, the Texas Leaguer, who has been carried along waiting for the winter weather to show, will probably be shoved into the game right away now. This southern boy, who has played all his ball in sunnier climes and to whom the cold weather is stiffener, is said to be a tremendous hitter and also covers a lot of ground in the outer works.

WORK FOR THE HUMANE SOCIETY.

Sam Langford, who fights in Windsor tonight, and who holds the long distance fight record, opines he would like to have a crack at Dempsey. The Boston Tar Baby is a wonderful old ring general and keeps going beyond the powers of ordinary endurance, but even if Jack Dempsey has been let down by the whole Yank population, you'd have to hand him ability enough to pound the flabby one to quick submission.

Not Much Chance.

As brunettes don't register any too well in the fill-ums, Sam hasn't got much chance to meet Dempsey.

SOME MORE CHATEAU CHEER US.

A Detroit paper has found out that Jack Munro was one fighter that went to France and fought. Most of the Canucks will remember that great fight at Chateau Thierry.

"That one man is Jack Munro, who dropped into Chicago the other day minus a right arm, which he left on the field at Chateau Thierry in the fighting in France."

WAR'S AWFUL CHANGES.

Captain McCormick of the United States Olympic hockey team, charges that the manager lost the championship because he made the players sore putting them in third-rate hotels, while he stopped at the first-class hotel.

MONEY ENOUGH FOR POLLO.

Although the English Olympic teams had almost to go begging for money enough to send them across the channel to Belgium, word comes through that the English team has been able to repeat their trick of a few years ago in buying up all the best ponies and leaving the English team to use what they could muster in the way of mounts. The purpose of the fund is all right, but it serves as rather a contrast in sport and finance.

SEEMED ALWAYS SO.

Headline: "Italy is Enjoying Boxing Boom," judging by the private names of most of the fighters, Italy has always enjoyed a boxing boom.

Manufacturers Athletic Assoc.
Is Revived After Five Years
and Will Hold Meet on June 22

All Industrial Heads Are Enthusiastic Workers in Reorganization of Old Association—May Run Road Race in Conjunction.

The old Manufacturers' Athletic Association was reorganized at a meeting held last night in the Y. M. C. A. A number of the men from the different factories were in attendance. The meet will be held this year on July 26. It was suggested at the meeting that the Free Press five-mile road race could be held in conjunction with this. The meet will be held this year on July 26. The meet will be held in Queen's Park, thus giving plenty of room to the events off in the afternoon. The officers that governed the last one five years ago were: President, J. P. White; first vice-president, E. J. O'Rourke; second vice-president, W. Williams; treasurer, S. H. Westbury; secretary, David Allan; and finance, H. B. Aspland; publicity, J. Delaney; grounds, J. C. Ross; sports, Dan Falcous. The officers for this year will be chosen at the meeting which will be held in the Y. M. C. A. next Tuesday.

Sox Get Two New Players
First and Third Sackers

BRANTFORD, May 17.—Announcement was made at headquarters of the Brantford club this morning that two new players had been secured over the week-end, and should join the club by Wednesday at the latest. The players in question are Werre, first baseman, just released by Syracuse of the International League, who last year played in the Eastern League and was batted .274 and who is said to have been anxious for his release from Syracuse, and Cunningham, third baseman from Oil City. He was recommended to Brantford by Micky Lalonde, the manager, and is said to be hot on the trail of a first string catcher.

BRUSSELS SPORTS.

BRUSSELS, May 17.—Brussels intermediate football team will play their opening game of the series at Ethel on Thursday, May 27.

The bowling club has reorganized for the season with the following officials: President, D. White; vice-president, B. S. Scott; secretary-treasurer, A. Strachan; committee, R. F. Downing, D. C. Ross, S. T. Plum and A. L. Stewart. The lawn is in good shape, and a series of games will be planned. Brussels is associated with Kincardine, Ripley, Lucknow, Wingham and Tecumseh in a baseball league for this summer, and some rare sport is expected on the diamond.

GIBSON'S MEN GO TO
15 CANTOS TO WIN
FROM GIANTS 7-6

McGraw's Men Got Two Runs in 15th, But Pirates Drove in Three in Same Spell.

PITTSBURG, Pa., May 17.—Pittsburgh defeated New York by a score of 7 to 6 in 15 innings today. Cooper and Toney were both hit hard, and gave way to Carlson and Douglas, they in turn retiring in favor of Ponder and Barnes. With the score a tie in the 15th inning, New York scored twice on a hit and wild throw by Grimm and Ponder. In the last half of the fifteenth inning Pittsburgh scored three runs on Buehr's triple, a pass to Cargy, singles by Whitted and Caton and a long hit by Grimm. Toney was good for three bases, but counted as a single only, as the winning run was driven in from third base. The score: R. H. E.
New York 0 01 020 000 002-6 12 3
Pittsburgh 0 00 040 000 003-7 13 2
Toney, Douglas, Barnes and Snyder; Cooper, Carlson, Ponder and Schmidt.

Pigeon Racing Club
Plans Big Program
Flights This Year

600-Mile Flight To Maysville, Illinois Is Longest One On Schedule.

The Forest City Racing Pigeon Club announce their 1920 schedule for young and old birds. The pigeon fanciers have some good sport in store this summer with the program laid down. The schedule is as follows:

First race, May 23—Chatham to London, 65 miles.
Second race, June 5—Stoney Point to London, 80 miles.
Third race, June 12—Windsor to London, 110 miles.
Fourth race, June 19—Britton, Mich. to London, 156 miles.
Fifth race, June 26—Montpelier, Ind. to London, 112 miles.
Sixth race, July 3—Peru, Ind., to London, 300 miles.
Seventh race, July 10—Danville, Ill., to London, 400 miles.
Eighth race, July 24—Deatur, Ill., to London, 500 miles.
Ninth race, August 7—Maysville, Ill., to London, 600 miles.
Young Birds.
First race, August 14—Thamesville to London, 50 miles.
Second race, August 21—Chatham to London, 65 miles.
Third race, August 28—Stoney Point to London, 85 miles.
Fourth race, September 4—Windsor to London, 110 miles.

Leafs Shut Out Skeeters At
Island 1-0 With Shea in Box

ORIOLES 9 to 5 Win Over Rochester Resulted From Poorly Played Game—Losers' Five Errors.

TORONTO, May 17.—Toronto defeated Jersey City here today by a 1 to 0 score. The Leafs scored the winning tally in the third inning when O'Rourke singled, stole second, and advanced to third on Ben Miller's ball, scoring on Spencer's single to right. Shea pitched steady ball for the winners.

ORIOLES TAKE POOR GAME.

ROCHESTER, May 17.—Baltimore

BACK AGAIN

and welcome to the heart of every lover of sport is the opening of the baseball season.

O'DOWD GETS NEWSPAPER
DECISION OVER BRITTON

CANTON, May 17.—Mike O'Dowd, former middleweight champion, won the newspaper decision over Jack Britton, welterweight champion, in a twelve-round boxing contest here tonight. O'Dowd was the aggressor, practically throughout. Britton contenting himself with remaining on the defensive.

O'Dowd's weight was announced at 168 pounds and Britton's at 148.

Discontinue Answering
Phone Queries On Ball
Games At Advertiser

The Advertiser announces from this date no baseball scores will be given over the telephone. This step has been found necessary owing to the increasing number of baseball phone inquiries, which have interfered to a great extent with the business phones of the office. The bulletin service, however, of the games in all leagues, inning by inning, will as usual appear in the front boards.

SMITH, UNKNOWN, WINS
ENGLISH BILLIARDS PLAY

LONDON, May 16.—The final heat of the professional billiard championship, 16,000 up, was won by Willie Smith, who had not previously competed for the championship. The previous holder, Imman, did not enter.

BISONS WIN IN TEN FRAMES.

BUFFALO, N. Y., May 17.—Buffalo defeated Reading 3 to 2 in a ten-inning

SARNIA C. I. TRACK
TEAM WINS INTER-
SCHOOL MEET

Johnston in Jumps Overcame
Lead of Pt. Huron Colleg-
ians—49-41 Final
Totals.

SARNIA, May 17.—Sarnia Collegiate, after being seven points down at one stage came back strong and won today the Port Huron track team here today 49 to 41. The work of Johnston in the jumps being one of the big factors of the local win. Johnston won first in the broad jump with 18 feet 11 inches. His mark for the pole vault was 9 feet 3 inches, clearing the second try with inches to spare. He added points in the relay, coming in behind Sproule on the other Sarnia entry.

Milton Middleton, a Crosswell, Mich. runner, cleaned up the half-mile and the mile, Williams and Mann giving him a hard run in the events. The winners in the different events were as follows: 100-yard dash, Lennox, Port Huron; 220-yard dash, Lennox, Port Huron; 440-yard dash, Lennox, Port Huron; 880-yard dash, Lennox, Port Huron; 1,760-yard dash, Lennox, Port Huron; 3,520-yard dash, Lennox, Port Huron; 7,040-yard dash, Lennox, Port Huron; 14,080-yard dash, Lennox, Port Huron; 28,160-yard dash, Lennox, Port Huron; 56,320-yard dash, Lennox, Port Huron; 112,640-yard dash, Lennox, Port Huron; 225,280-yard dash, Lennox, Port Huron; 450,560-yard dash, Lennox, Port Huron; 901,120-yard dash, Lennox, Port Huron; 1,802,240-yard dash, Lennox, Port Huron; 3,604,480-yard dash, Lennox, Port Huron; 7,208,960-yard dash, Lennox, Port Huron; 14,417,920-yard dash, Lennox, Port Huron; 28,835,840-yard dash, Lennox, Port Huron; 57,671,680-yard dash, Lennox, Port Huron; 115,343,360-yard dash, Lennox, Port Huron; 230,686,720-yard dash, Lennox, Port Huron; 461,373,440-yard dash, Lennox, Port Huron; 922,746,880-yard dash, Lennox, Port Huron; 1,845,493,760-yard dash, Lennox, Port Huron; 3,690,987,520-yard dash, Lennox, Port Huron; 7,381,975,040-yard dash, Lennox, Port Huron; 14,763,950,080-yard dash, Lennox, Port Huron; 29,527,900,160-yard dash, Lennox, Port Huron; 59,055,800,320-yard dash, Lennox, Port Huron; 118,111,600,640-yard dash, Lennox, Port Huron; 236,223,201,280-yard dash, Lennox, Port Huron; 472,446,402,560-yard dash, Lennox, Port Huron; 944,892,805,120-yard dash, Lennox, Port Huron; 1,889,785,610,240-yard dash, Lennox, Port Huron; 3,779,571,220,480-yard dash, Lennox, Port Huron; 7,559,142,440,960-yard dash, Lennox, Port Huron; 15,118,284,881,920-yard dash, Lennox, Port Huron; 30,236,569,763,840-yard dash, Lennox, Port Huron; 60,473,139,527,680-yard dash, Lennox, Port Huron; 120,946,279,055,360-yard dash, Lennox, Port Huron; 241,892,558,110,720-yard dash, Lennox, Port Huron; 483,785,116,221,440-yard dash, Lennox, Port Huron; 967,570,232,442,880-yard dash, Lennox, Port Huron; 1,935,140,464,885,760-yard dash, Lennox, Port Huron; 3,870,280,929,771,520-yard dash, Lennox, Port Huron; 7,740,561,859,543,040-yard dash, Lennox, Port Huron; 15,481,123,719,086,080-yard dash, Lennox, Port Huron; 30,962,247,438,172,160-yard dash, Lennox, Port Huron; 61,924,494,876,344,320-yard dash, Lennox, Port Huron; 123,848,989,752,688,640-yard dash, Lennox, Port Huron; 247,697,979,505,377,280-yard dash, Lennox, Port Huron; 495,395,959,010,754,560-yard dash, Lennox, Port Huron; 990,791,918,021,509,120-yard dash, Lennox, Port Huron; 1,981,583,836,043,018,240-yard dash, Lennox, Port Huron; 3,963,167,672,086,036,480-yard dash, Lennox, Port Huron; 7,926,335,344,172,072,960-yard dash, Lennox, Port Huron; 15,852,670,688,344,145,920-yard dash, Lennox, Port Huron; 31,705,341,376,688,291,840-yard dash, Lennox, Port Huron; 63,410,682,753,376,583,680-yard dash, Lennox, Port Huron; 126,821,365,506,753,167,360-yard dash, Lennox, Port Huron; 253,642,731,013,506,334,720-yard dash, Lennox, Port Huron; 507,285,462,027,012,669,440-yard dash, Lennox, Port Huron; 1,014,570,924,054,025,338,880-yard dash, Lennox, Port Huron; 2,029,141,848,108,050,677,760-yard dash, Lennox, Port Huron; 4,058,283,696,216,101,355,520-yard dash, Lennox, Port Huron; 8,116,567,392,432,202,711,040-yard dash, Lennox, Port Huron; 16,233,134,784,864,405,422,080-yard dash, Lennox, Port Huron; 32,466,269,569,728,810,844,160-yard dash, Lennox, Port Huron; 64,932,539,139,457,621,688,320-yard dash, Lennox, Port Huron; 129,865,078,278,915,243,376,640-yard dash, Lennox, Port Huron; 259,730,156,557,830,486,753,280-yard dash, Lennox, Port Huron; 519,460,313,115,660,973,506,560-yard dash, Lennox, Port Huron; 1,038,920,626,231,321,947,013,120-yard dash, Lennox, Port Huron; 2,077,841,252,462,643,894,026,240-yard dash, Lennox, Port Huron; 4,155,682,504,925,287,788,052,480-yard dash, Lennox, Port Huron; 8,311,365,009,850,575,576,104,960-yard dash, Lennox, Port Huron; Worth Every Cent
of its Cost

"SALADA"

Black, Green
or Mixed....

Sealed Packets Only.
Never Sold in Bulk.

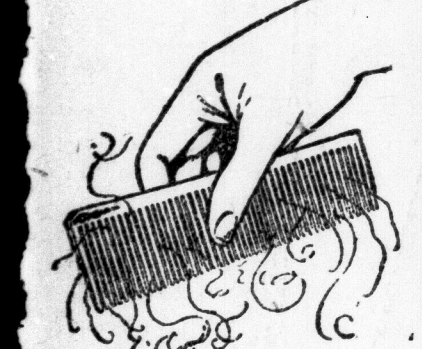

No Trouble To Keep
Skin Free From Hairs

(The Modern Beauty.)

There is no need for any woman to
suffer from unsightly hairs, because
with a paste made by mixing some pow-
dered delatone with water it is easy to
get rid of them. The paste is applied
for 2 to 3 minutes, then rubbed off and
the skin washed. This treatment will
rid the skin of hair without leaving a
blemish, but care should be taken to
see that you get real delatone.

"DANDERINE"

Stops Hair Coming Out;
Doubles Its Beauty.

A few cents buys "Danderine." After
an application of "Danderine" you can
not find a fallen hair or any dandruff.
Besides every hair shows new life, vigor,
brightness, more color and thickness.

CUT YOUR HAND?

Heal It—Prevent Infection by
Using "ABSORBINE JR."

The same liniment that takes the
soreness out of sprains, bruises and
rheumatic joints is equally effective
in healing cuts and lacerations.
Apply a few drops full strength
"ABSORBINE JR." to the raw
surface. It will promptly stop the
pain and bleeding—keep the parts
surrounding the wound healthy—kill
germs—prevent infection and proud
flesh—and promote rapid healing.

Wherever there is pain—in head or
body—rub in "ABSORBINE JR."
Only a few drops at a time, for it is
concentrated. It is a vegetable gen-
uine; absolutely safe; may be used
illicitly as a mouth wash. Pleasant
odor; no stain or grease.
\$1.25 a bottle—at most druggists or
sent postpaid by W. F. Young, Inc.,
Lyman Building, Montreal.

BRANTFORD PRODUCES CHEAPEST BREAD IN NATION, SAYS BOARD

Cost To Canadian Bakers Rose
One-Fifth of One Cent
a Loaf.

OTTAWA, May 17.—Average cost to
Canadian bakers of production of
bread during the month of March in-
creased one-fifth of one cent on a
pound and a half loaf, due to an in-
crease in the cost of flour of 24 cents
per barrel. In publishing its monthly
statement on the production and cost
of bread, the board of commerce states
that this item of flour is the only one
in which returns show any particular
increase during the month.
The board of commerce report states
that representative firms in Montreal,
Toronto, Winnipeg and Vancouver are
furnishing the board with satisfactory
and reliable reports of their operations.
"Certain firms having discontinued re-
porting," concludes the statement,
"they will be prosecuted."

ENGLAND MOVES TO CONTROL OIL SUPPLY

WASHINGTON, May 17.—Great
Britain's policy with reference to world
petroleum supplies is reported to be
to exclude aliens from control of petro-
leum supplies within the Empire and
to endeavor to obtain some measure of
control over oil properties in foreign
countries. The Senate was informed to-
day in a state department report trans-
mitted by President Wilson.

UNION GOVT. TO TRY TO SURVIVE, SAYS LOUGHEED

After Fatal Delay, Unionists
To Have Brand New
Platform.

WILL BUILD MACHINE

Albertan Senator Hopes To
Use Same Organization
As in 1917.

CALGARY, May 17.—"The Union
Government has a platform, and now
that the prime minister, Sir Robert
Borden has returned to Ottawa, that
platform will be announced at an early
date," declared Sir James Lougheed,
federal senator from Alberta, to the
Canadian Press Monday morning. Sir
James made the foregoing statement in
reply to a question as to what were
the prospects of the Union Government
continuing its career as a party.
Sir James further said that the an-
nouncement of the platform "will be
followed, it is hoped, by an effective
political organization."
When asked what would be the at-
titude of this Unionist campaign or-
ganization towards present political
organizations, Sir James replied that
"the Union Government should have
and will doubtless have a thorough
understanding with the organization
that returned it in 1917. That or-
ganization was a fusion of the Conservative
organization with the Liberal-Unionists
who at that time joined it, and the
large percentage of whom are its sup-
porters now."

INTERSTATE BODY IN EFFORT TO RELIEVE FREIGHT BLOCKADE

Cars of Food and Perishables
To Have Full Preference.

WASHINGTON, May 17.—Members
of the interstate commerce commission
today met with representatives of the
railroads to discuss means of breaking
the freight blockade. Primary con-
sideration will be given to the or-
ganization of a "freight clearing house"
to meet current requirements. Cars
for food and perishables, however,
would have full preference over all
others under the railroadmen's plan.

WATERWAYS HEARING IN NORTH DAKOTA

GRAND FORKS, N.D., May 17.—The
international joint waterways commis-
sion, which is holding hearings in Can-
ada and the United States on the
question of providing a deep water-
way from the Great Lakes to the
Atlantic Ocean, will be in Grand Forks
tomorrow to hear interested persons
from North Dakota and northwestern
Minnesota.
Among the North Dakotans heard
will be Governor Lynn J. Fraser.

OUTLOOK BLACK ON HYDROCANAL; WORK SLACKENS

Reports From Chippewa Pes-
simistic, Many Quit, Opera-
tions Disorganized.

SOME ARE LAID OFF

Reports That Commission Will
Stop Work Make Situa-
tion Bad.

NIAGARA FALLS, Ont., May 17.—
Reports coming from the hydro works
tonight are very pessimistic. Appar-
ently many laborers have quit, and the
work is disorganized.
Many men have been laid off by the
commission. It is stated, the commis-
sioners, mechanics, steam shovel
men and all the repair gang. It was
said that about 150 have been laid off.
There has been a large number of
foreign laborers in this city today, and
they have been drawing money out of
the banks. Federation officials are
discouraged, and fear that an attempt
is being made to discredit the labor
organization.
Unconfirmed reports that the commis-
sion will stop the construction work
the middle of this week are also a cause
of much unrest. Local people frankly
admit that the situation is bad.

BRIGHT FUTURE FOR HYDRO, SAYS REPORT OF BECK

Chairman of Commission Is
Likely To Submit Power
Report To Legislature
Today.

TORONTO, May 17.—Sir Adam Beck,
chairman of the Ontario Hydro-
Electric Power Commission, in his an-
nual report on hydro, which will prob-
ably be submitted to the legislature
tomorrow, is very optimistic as to
the future of the hydro movement in On-
tario. He tells an interesting story of
the hydro commission's recovery from
the slump following the signing of
the armistice, when the munitions
plants suddenly closed down, as well
as factories making war supplies, en-
tailing a serious reduction in the
loads on many of the hydro systems.
The decrease in revenue which im-
paired the financial operations of the
municipalities on the hydro sys-
tems, caused a considerable slump in
the hydro's business, but the following
August the hydro began to recover, and
by the end of 1919 practically all of its
available power was being used.

Prior to the signing of the armistice,
the report states, there were over 4-
000 plants engaged on munitions and
war supplies, these using seventy per
cent of the total power available by
the hydro. When the slump came most
of these establishments were idle, and
in some of the municipalities there
was a decline of twenty-five per cent
in the amount of power required.
During the period of readjustment
the hydro had been very successful,
according to the report, notwithstanding
that much of the material had to be
purchased in the United States, and
the commission had to pay \$25,000 in
duties and war taxes.

The continued success of the hydro
enterprise is confidently predicted by
Sir Adam Beck. "The revenue of the
commission, in the main," Sir Adam
states, "has been sufficient to meet all
the operating expense and necessary
fixed charges, practically the only
exemptions being those municipalities
in which large blocks of power were
supplied for their manufacture of mu-
nitions, and which, after the cessation
of hostilities were not replaced by com-
mercial loads until late in the year. In
these municipalities the building up of
loads during the coming year will
place them on a paying basis and
where such is not the case a read-
justment of rates may be necessary."

TWO FINED \$1,000 FOR ILLEGAL LIQUOR SALES

One Man Admits Having Sold
300 Cases Per Month
Since March.

WINDSOR, May 17.—Fines of \$1,000
and costs each were levied in police
court today against Herbert Drouillard
and Oscar D. Drouillard, both of Louis-
ville, who pleaded guilty to the illegal
sale of liquor. The latter admitted
that since March he had sold an aver-
age of 300 cases a month. They were
arrested today by officers of the provin-
cial license board operating in this
district, on information sworn out by
Inspector Moushey.

GETS THREE YEARS FOR ROBBING MAILS

Burton Edwards of Watford
Also Admitted Charges
of Forgery.

SARNIA, May 17.—Burton Edwards of
Watford was today sentenced to three
years in Kingston Penitentiary by
Judge Taylor, when found guilty of
theft from his master's mail, and
two charges of forgery. He was given
a year on each count.
Edwards' arrest in Petrolia followed
his cashing of Dominion Express money
orders stolen from the mail on a route
on which he was rural mail driver. The
orders were reported missing. Taken
into custody Edwards admitted he had
stolen and cashed them after forging
names on both orders.

DRURY OPPOSED TO SHORTER HOURS' MOVE

TORONTO, May 17.—At a banquet
given by the Independent Labor party
of this city and the Toronto District
Trades and Labor Council in the Prince
George Hotel tonight, Premier E. C.
Drury was a guest and spoke against
the movement tending toward shorter
hours. John W. Buckley of the In-
dependent Labor party, expressed a
strong conviction that the eight-hour
day should be made operative through-
out the Dominion.

FORMER RESIDENT OF PARKHILL IS DEAD

WINNIPEG, May 16.—Elizabeth Mc-
Innis, pioneer of Manitoba, widow of
James Hutson, died Sunday morning at
the family residence here after two
week's illness. In her 76th year. She,
with her late husband, came west in
1877 from Parkhill, Ontario, and
settled in the Boyne River district, now
known as Carleton, where they resided
until the death of Mr. Hutson twenty
years ago. Since then she has been a
lifelong member of the Presbyterian
Church. She leaves two sisters, Mrs.
P. E. Stevens and Mrs. J. A. Carry of
this city, and one son, A. Hutson, of
Protest, Alberta. Interment will be
made in Winnipeg.

KING ASKS NITTI TO FORM NEW CABINET

ROME, May 17.—Signor Nitti, whose
cabinet resigned last week, has ac-
cepted an invitation by King Victor
Emmanuel to form a new ministry.
The invitation was extended today af-
ter the king had conferred with
former Premier Tittori and Orlando.

A real cough remedy

Don't surrender to an obstinate cough.
There's a remedy that will help you
conquer it—a remedy that speedily re-
lieves all irritation of the respiratory
organs and gives bodily strength for
permanent cure. Try it—ask your
druggist or dealer for—

Robert's
Cod Liver Oil & Tar

Remarkable Home-Made Wrinkle Remover

A wrinkle-removing preparation
which acts powerfully and quickly may
at the same time be entirely harmless,
as has been amply demonstrated in the
case of the now famous axolite solu-
tion. While acting so marvelously on
wrinkles of every sort, the lotion is
really beneficial to the skin itself, giv-
ing the latter tone and improving its
texture. In the case of baggy cheeks
or chin, also, more than mere tempo-
rary results are obtained.
One ounce of pure powdered axolite
dissolved in a half pint of witch-hazel
(obtainable at any drug store, of
course), makes this most effective
wrinkle-remover. Use as a wash lotion.

Stop Tobacco

Stop tobacco for a month and see how
much better you feel. You can stop
without suffering any inconvenience or
feeling the usual craving. Simply get
a box of Nicotol from any druggist, use
as directed and the habit quits you.
Your health will be better, your resist-
ance to disease will increase and you
will cease to be a slave to nicotine. Read
what Dr. Conner, formerly of the Johns
Hopkins Hospital, says about the evil
effects of tobacco in an article soon to
appear in this paper. Nicotol is dis-
pensed by all good druggists in this city.

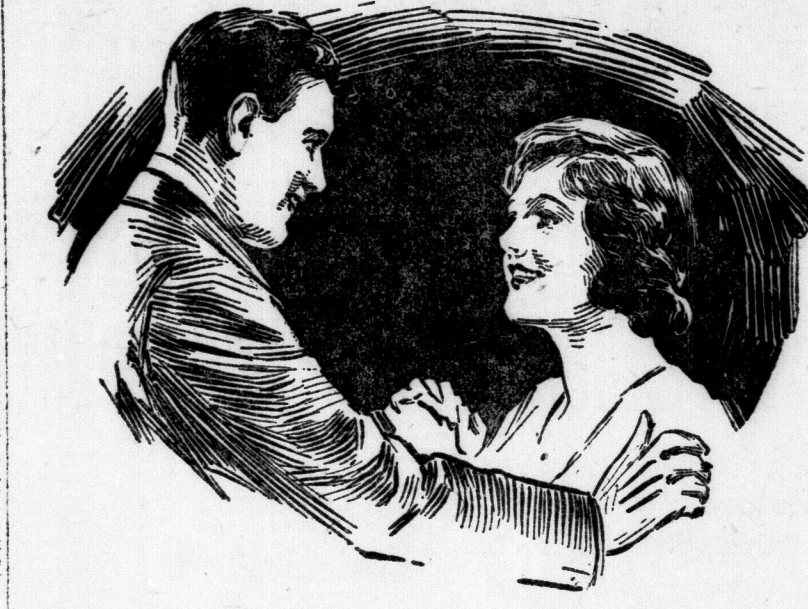

COMB SAGE TEA INTO GREY HAIR

Darkens Beautifully and Re-
stores Its Natural Color
and Lustre at Once.

Common garden sage brewed into a
heavy tea, with sulphur and alcohol
added, will turn grey, streaked and
faded hair beautifully dark and luri-
dant. Mixing the Sage Tea and Sulphur
recipe at home, though, is troublesome.
An easier way is to get the ready-to-use
preparation, improved by the addition of
other ingredients, a large bottle, at little
cost, at drug stores, known as "Weyth's
Sage and Sulphur Compound," thus
avoiding a lot of muss.
While grey, faded hair is not sinful,
we all desire to retain our youthful ap-
pearance and attractiveness. By dark-
ening your hair with Weyth's Sage and
Sulphur Compound, no one can tell, be-
cause it does it so naturally, so evenly.
You just dampen a sponge or soft brush
with it and draw this through your hair,
taking one small strand at a time; by
morning all grey hairs have disappeared.
After another application or two
your hair becomes beautifully dark,
glossy, soft and luxuriant and you ap-
pear years younger.

SOME FOLKS ARE DISAPPOINTED

They read or they hear about Jiffy-
Jell desserts. They want these real-
fruit dainties, but they get something
else.
The trouble lies in a like-sounding
name. Be careful. The name is Jiffy-
Jell.
Jiffy-Jell is the only dessert with
real-fruit flavors in liquid form in glass.
The fruit is crushed, then the juice is
condensed and sealed in glass vials.
There is a bottle in each Jiffy-Jell
package.
So Jiffy-Jell is real-fruit dessert,
healthful and delicious. It supplies
the fruit which everyone needs daily.
It brings you fruit at trifling cost in
winter.
But you will miss that bottle of fruit-
juice essence if you get something else.

This 10-Day Test

Has shown millions the way to white teeth

All statements approved by high dental authorities

This is how millions have found the way to
whiter, safer teeth. You see the results on every
hand—perhaps in teeth you envy. Send now for
this simple ten-day test and see what your own
teeth show.

Why teeth discolor

There is on your teeth a viscous film. You can
feel it with your tongue. It clings to teeth, enters
crevices and stays. That film is the teeth's great
enemy. It dims them and destroys them.

The tooth brush fails to end it, for the ordinary
tooth paste cannot dissolve it. So for months be-
tween your dental cleanings it may do a ceaseless
damage.

It is the film-coat that discolors, not the teeth.
Film is the basis of tartar. It holds food substance
which ferments and forms acid. It holds the acid
in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar,
are the chief cause of pyorrhea—a trouble which
few escape.

Dental science has for years sought a way to
fight that film. Five years ago the way was found
and convincing tests have proved it. Now leading
dentists everywhere advise it, and millions of
people have been led to employ it.

Suits For The Bigger Boys

Wednesday Morning

\$8.75

We cannot announce a big range of patterns,
but we consider this to be the best value we
have yet offered in Boys' Bloomer-Pant Suits
for ages 8 years to 17 years. The models are
the belted and waist-seam styles, our own pro-
duction. At the price, \$8.95, they should cer-
tainly make you think you need a suit for your
boy. Regular values, \$12.00 to \$18.00.

WEDNESDAY MORNING

\$8.75

OAK HALL

Make Peanut Butter Sandwiches

They Are Delicious, Appetizing and Nourishing

Peanut Butter sandwiches for afternoon teas, buffet
luncheons, church teas and social events, are quite the
vogue. Thin slices of white, evenly-textured bread spread
with peanut butter, sprinkled with salt and garnished
with lettuce, make sandwiches that for taste-tickling
cannot be equalled.

But the peanut butter must be pure, must be made
from the finest of peanuts and have the hard, bitter germ
removed or the sandwiches are spoiled.

"Sweetheart" Brand Peanut Butter

"Made From the Sweetheart of the Nuts."

is the ideal peanut butter for sandwiches, for cooking
and all table uses. Made from the sweethearts of large
No. 1 Spanish and No. 1 Virginia nuts, with nothing
added but a dash of salt. It makes a nature food that for
tastiness and nourishment is hard to beat.

KEEP POLITICAL RIVALRY OUT OF MEXICO, IS PLAN

Gonzales' Withdrawal From Presidential Contest Indicates Government Move.

WASHINGTON, May 17.—Pablo Gonzales' withdrawal from the contest for the presidency of Mexico, news of which was received by the state department here today, was regarded as the best indication that the de facto government desired to eliminate the danger arising from political rivalry. Further evidence of co-ordinate action was seen in the announcement that Manuel Palaez, to whom oil producers have paid tribute for several years, had been appointed chief of military operations in the state of Tamaulipas.

BROWN FEARFUL OF VIOLENT DEATH IS TESTIMONY AT TRIAL

Mrs. Gordon Marian Says He Appeared Depressed On Fatal Night.

MOUNT CLEMENS, Mich., May 17.—J. Stanley Brown appeared depressed and apprehensive of a violent death the night of December 23, last, a few hours before he was shot to death on a country road near here, according to testimony today by Mrs. Gordon Marian* and other witnesses. Mrs. Marian* said that her husband, a cousin of Lloyd Prevost, who is on trial for the alleged murder of Brown, Brown had left his home shortly after 10 o'clock, she testified, driving in the direction of the place where his body was found. The following morning, he had previously told her, Mrs. Marian testified, that he and Prevost were going into the country where he had secured a quantity of liquor.

GALT WILL PROTEST RAISE IN GAS RATES

Council Will Send Delegation To Toronto On Thursday.

GALT, May 17.—The council tonight was notified by the Dominion Natural Gas Company that with the bills sent out in July the price of gas would be 45 cents a thousand cubic feet, with a discount of 5 cents a thousand cubic feet, if bills are paid by the tenth instant. The council, while receiving the communication, appointed Mayor A. W. Mercer and Aldermen Taylor, Clark and Hunter to go to Toronto Thursday to wait upon the Government to protest against the increase in the price of gas of 10 per cent.

LIQUOR THEFTS ARE NUMEROUS AT SARNIA

Police Are Conducting An Investigation To Round Up Culprits.

SARNIA, May 17.—Sarnia police and provincial authorities are conducting an investigation in which they hope to round up whiskey thieves who have been busy of late and who are reported to have stolen some thousands of dollars worth of liquor during their campaign in this city.

ROUND UP OF LIQUOR SMUGGLERS IS PLANNED

Over \$500,000 Worth of Liquor Reported Cashed in Detroit.

WINDSOR, May 17.—As the result of information gained by federal prohibition agents in Detroit today among men thought to be engaged in the liquor smuggling business, a round-up will be made by the Government of as many alleged smugglers as possible, it was announced in Detroit tonight.

REFUSES TO REMAIN IN FOUL COURT ROOM

WINDSOR, May 17.—Refusing to remain longer in the courtroom to hear evidence in an assault case preferred by Mrs. Tony Ignatz against her husband, because of what he termed "the vile, foul air in this place," Magistrate Miers created a precedent today when he adjourned the case until the end of the month. Mrs. Ignatz claimed she supported her husband for years, that he buried her over a stove and struck her with a piece of wood when she finally refused any longer to be the bread-winner, and refused to prepare him a meal, threatening to institute separation proceedings.

NEURITIS

So many have Neuritis, that it is a common ailment. It is a painful, paralyzing inflammation of the nerves. Do not suffer another attack. If you are a victim, try

MACREADY PROMISES TO GET SOLDIERS TO ASSIST THE POLICE

Military Commander of Ireland Addresses Constabulary.

LONDON, May 18.—Gen. Sir Cecil MacReady, military commander of Ireland, addressing a parade of the Royal Irish Constabulary and the City of Dublin Police at Dublin Monday, enlisted their services and courage, and added, according to a dispatch to the London Times from London: "Everything that is possible for the military to do to assist the police shall and will be done."

That the burning of the police barracks are really acts of war, and that the taxpayers ought not to be held responsible, but any compensation awarded for damages should be provided for by Parliament, was the kernel of a resolution passed Monday by the County Clare executive committee of the Farmers' Union.

CABINET-MAKERS TO STRIKE AT OTTAWA

OTTAWA, May 17.—Within the next three days there will in all probability be a strike of cabinetmakers and millmen in the city, affecting 300 men and fourteen employers, including the big lumber mills of Hull and Ottawa.

The men demand an increase of 10 to 20 per cent in wages and closed shops.

This morning over one thousand members of the electricians, painters and carpenters' unions, who have been out on strike since May 4, returned to their work, pending a settlement by arbitration. The bakers' strike will also be settled by arbitration.

WEDNESDAY MORNING IS THE BEST MORNING IN THE WEEK TO MAKE MONEY EASILY. THESE OFFERINGS ARE GENUINE, AND ON JUST THE GOODS YOU NEED RIGHT NOW.

Men's Fine Merino Socks, with close-ribbed top, for every-day wear; 4 pairs 35c value **\$1.00**

BOLS HEVIK

HEN-ER-EE

LEGISLATURE TO DEBATE ON TROUBLES OF HYDRO TODAY

Labor Members Move For Appointment of Commission of Inquiry On Chippewa Canal Trouble — Drury Intimates Board Will Be Named.

TORONTO, May 17.—Carrying out their promise to the hydro workers at Niagara Falls, Ont., on Sunday night, when a strike of about 2,000 men was averted, at least for the time being, C. F. Swayze, M. P. for Niagara Falls, and M. M. MacBride, M. P. for South Brant, moved in the Legislature this afternoon for the appointment of a commission to inquire into the grievances of the employees of the Provincial Hydro-Electric Power Commission on the Chippewa-Chippewa development work. A commission of nine members was asked for, to sit after the House prorogues and to fully into all questions affecting wages and conditions of employment on the big development undertaking.

Shortness of Notice. Owing to the shortness of the notice a decision was not reached today, and the debate on the motion was adjourned until tomorrow. Premier E. C. Drury intimated that a commission of some nature would be named to deal with the situation, but he gave no inkling as to whether it would be composed of members of the Legislature, or men outside the House.

Suggestion of H. H. Dewar, Liberal leader, with the concurrence of the Premier, was that a day's delay would do no harm, the question was sent over to Tuesday in order that the members might be duly enlightened as to the whole situation.

Hon. Lieut.-Col. D. Carmichael, minister without portfolio, who represents the Government on the Provincial Hydro Commission, stated that the commission in the offer it had made to the men, had gone as far as it could go in justice to the municipalities.

Hon. Thomas Crawford expressed doubt as to the wisdom of appointing a commission to investigate the trouble, as, in his opinion, this would be practically serving the cause of the hydro commission that it had not properly conducting its business.

However, the House decided to debate the matter tomorrow.

With reference to the Great Lakes Pulp and Paper Company's desire for the Government to grant it a flat to go into court for an interpretation of the company's agreement with the Ontario Government and its obligations with respect to the purchase of power, Attorney-General Hanes, announced while the House was in committee on the estimates, that the Government itself had decided to refer the matter to the courts. He stated that the Government, upon the application of the Great Lakes Pulp and Paper Company, had approved of the Mission site, upon which the company will erect its big pulp and paper plant. The Mission site is near Port William. The new site will necessitate an extension of hydro lines and extra expenditure.

FORCE OF TROOPS REACHES LONDONDERY

LONDON, May 17.—A large force of troops arrived on Monday in Londonderry, says a special dispatch to the Daily Mail. The disturbed areas of the city are well cordoned and crowds are not allowed to assemble. The dispatch adds that the magistrates have decided to proclaim a state of martial law.

LAW TO SEND MORE TROOPS TO IRELAND

LONDON, May 17.—Questioned in the House of Commons today on the number of troops being sent to Ireland, Andrew Bonar Law, Government leader in the Commons, replied: "I have no information to give on the subject, but we are sending and shall send whatever troops are asked for by the Irish executive."

FOUND BABE'S BODY IN HEAP OF RUBBISH

Sarnia and Port Huron Police Are Working On the Case.

SARNIA, May 17.—The finding of the body of a baby girl in a pile on a rubbish heap at the foot of Clyde street, Port Huron, Mich., gave the Michigan city, Sarnia police and immigration authorities a mystery.

The gruesome discovery was made by two men who were looking over some old boats near the river shore, and tonight it was stated that a clue picked up late this afternoon brought the authorities to the Imperial City, but no trace of the persons alleged to be wanted was discovered. The Port Huron authorities tonight are attempting to locate the parents of the child, whom Dr. H. H. Cooper and Dr. J. McKenzie state was dead when born.

STRATFORD TEACHERS AND PUPILS PURCHASE MOVING PICTURE MACHINE

Hamlet School Takes Lead In Novel Educational Scheme.

STRATFORD, May 17.—Moving pictures are being introduced into the churches and schools in some centres, and in Stratford Hamlet school has taken the lead, a machine having been installed today, purchased by the teachers and pupils of the school.

POLICE GO FARMING

Two members of the local police force, Sergeant Peter Altheimer and Constable J. Hutchinson, have handed their resignations to the police commission. Both men will engage in farming, the former taking over the farm of his brother, who died a few weeks ago.

THREE MEN STRIKE

Handman Harry Duplock, 455 Albert street, arrived in the city today from overseas after five years' service. He enlisted with the 34th Battalion, and since the armistice has been attached to the salvage corps in England.

TO SPEND \$400,000 FOR NEW HOMES

WINDSOR, May 17.—In order to expedite the erection of homes for workmen in the border cities, the Border Housing Company, consisting of local industrial leaders, who have banded together to utilize the Government loan to build houses here, following a meeting in the Chamber of Commerce today, wired Chairman Ellis of the provincial housing commission, asking that an engineer be sent here immediately to approve of the lots purchased for the undertaking. Application will be made by the company to the Walkerville Council, its governing body, to turn over \$400,000 of its \$500,000 allotment under the act to the company.

AIRPLANE ALTITUDE RECORD IS BROKEN

MINNEOLA, N. Y., May 17.—The airplane altitude record for a pilot and three passengers was broken here today by Clarence E. Coombs, who ascended to the height of 17,150 feet. This is 50 feet higher than the altitude reached by Captain Lowell H. Smith, commanding officer of Puryear, Fla., at El Centro, California, last Monday.

HAMILTON INDUSTRIAL SITUATION BETTER

HAMILTON, Ont., May 17.—The industrial situation here has improved somewhat. Several firms of machinists have agreed to pay their men 90 cents an hour. Two building contractors have agreed to pay their engineers \$1.25 an hour. Six engineers who have been on strike from the steel company's plant returned to work today. So far there is no sign of a general strike being precipitated among the engineers of this city.

RECORD BUILDING PERMITS.

SARNIA, May 17.—Up to date for May 43 building permits issued total \$17,927, which is a record. Twelve of the permits were for workmen's homes.

BURST OF SPEED PROVED EXPENSIVE

SARNIA, May 17.—Margaret Kell, who came over from Port Huron to show the residents on this side during the week-end how to make a burst of speed, came to grief in the police court today, when Police Magistrate Gorman asked her to pay a fine of \$10 and \$5 costs.

PASSED HALF OF OBJECTIVE.

GALT, May 17.—A campaign in behalf of the Salvation Army Jubilee Self-Denial Fund was held here today. Tonight Ald. S. L. Clark, chairman, reported that \$2,600 of the \$4,000 objective had been subscribed, and the canvass is not over. He is confident that the objective will be reached.

A KIDNEY REMEDY

Kidney troubles are frequently caused by badly-digested food which overtakes these organs to eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Founts, sold as Mother's Seigel's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

FOR THE PICNIC take along a bottle of

MONTSERRAT Lime Fruit Juice

Cold drinks for everybody—satisfying and healthful—that's what a bottle of MONTSERRAT Lime Fruit Juice means on the picnic.

Don't bother with lemons. Most people prefer limeade, and it's so easy to make. Sugar, cold water and "MONTSERRAT", and you have a drink that everyone enjoys.

Best possible beverage for children, because it is pure and wholesome. "MONTSERRAT" is the snappy, fragrant juice of choice West Indian limes—the ideal thirst quencher for hot days.

MONTSERRAT Fruit Saline

keeps the liver active—the stomach sweet and the whole system right.

UNION GOVERNMENT ESCAPES DEFEAT AND ELECTION BY A BARE MAJORITY OF FIVE

Premier Borden's Refusal To Produce Correspondence Nearly Swamps Union Regime—Premier Stands For Secret Diplomacy About Washington Ambassadorship.—Narrow Majority Saves Government From Annihilation and Impossible Appeal To Country.

OTTAWA, May 17.—The House divided at midnight on Hon. W. S. Fielding's resolution calling on the Government to submit the matter to Parliament before proceeding with the appointment of a Canadian ambassador at Washington. The amendment was defeated by a majority of five. The vote was 63 for the amendment and 68 against.

Mr. Fielding received an ovation as he rose to record his vote. It was a straight party vote. The six members of the Progressives present voted with the Opposition. They were Messrs. MacNutt, Thompson, Qu'Appelle, Reid (MacKenzie), Knox, Kennedy (Glenagarry) and Johnston (Last Mountain).

The Opposition greeted the reading of the vote with such enthusiasm that the Speaker with difficulty brought the House through the formal process of going into committee. Mr. Fielding asked if the Government could not adjourn the House.

"We shall all want to reflect on the situation," he remarked. Sir George Foster moved the adjournment and the Opposition immediately gathered in groups celebrating the narrow Government majority with songs and cheering on the floor of the House as soon as the speaker had left the chair.

BORDEN WANTS SECRET DIPLOMACY
(Special To The Advertiser.)

OTTAWA, May 17.—After long negotiation Canada is to have a plenipotentiary at Washington. But with regard to the negotiations which led to that important departure, Canada is to know nothing. The new minister is to represent Canada at the United States capital. But no definition as to his status or functions or responsibilities is to be given to the Canadian people.

The negotiations, declared Sir Robert Borden tonight, in a sombre voice "were of a highly-secret nature," especially those with the United States. "They simply could not be made public. In fact, it would be highly detrimental to the public interest that they should be. He knew, for he had read all the correspondence, and he could vouch for its deadly secret character. But he was the only member of the House who would have the pleasure of reading it. The other representatives of the people could take his word for its nature."

That is about the conclusion to be derived from a full-dress debate, which took place tonight round a motion of Hon. W. S. Fielding to the effect that before any arrangement for the appointment of a representative was consummated the public should have full information regarding the negotiations between the Dominion, Great Britain and the United States, and that all correspondence and orders-in-council regarding the subject should be tabled.

The Canadian Parliament has, however, one prerogative in the matter. It will be called upon later on to vote the sum of \$40,000 for the upkeep of the new Washington establishment. "It is the prerogative of the crown," said Hon. N. W. Howells, "to deal in all matters of foreign relations. All the legislative sanction needed is the voting of the money."

King, in the course of a striking and eloquent speech, replied, "The president of the privy council tells us that he will give the House a chance when it comes to voting the money. That is the only way in which the House can get rid of the money."

While the skin appears to be the cause of the irritation, the real disease is rooted in the blood, and to get rid of these painful pests it is necessary to get right at the seat of the trouble.

When the blood is purified, cleansed and vitalized, by Burdock Blood Bitters, the boils will quickly disappear, your misery is at an end, and health and strength come back again.

Mr. Robt. Johnson, Barkway, Ont., writes: "I have suffered very much, during the last five years from boils, having as many as five at once. I tried different remedies without any relief. I was advised to try Burdock Blood Bitters, which I did, and after taking just one bottle I have had no more boils."

B. B. B. has been on the market for over 40 years, and is manufactured only by the T. Milburn Company, Limited, Toronto, Ont.

deal with all questions of British diplomacy. The desire is not so much for information regarding the actual negotiations as for a fuller and freer statement as to what the Canadian Government accomplished through them.

PROVINCES TO HAVE CONTROL OF ROADS

OTTAWA, May 17.—(By Canadian Press.)—First reading was given in the Commons this afternoon to a bill which seeks to bring the control of electric roads under the jurisdiction of provincial governments rather than under the control of the railway commissioners. Last year a clause was put in the railway act placing the Quebec Central road under federal control, but it was found later that the clause took in all electric lines. This new bill, Hon. J. D. Reid explained, was to place electric lines back under the jurisdiction of provincial governments.

Replying to W. F. McLean, Toronto, Mr. Reid said no provision had been made to extend the jurisdiction of the railway commissioners with regard to telephone companies.

DRAYTON TABLES FURTHER ESTIMATES

OTTAWA, May 17.—Supplementary estimates to cover expenditures made during the last fiscal year were tabled in the House of Commons today by Sir Henry Drayton, minister of finance. The total \$19,061,139, and include a vote of \$8,998,867 for soldiers' civil re-establishment (outside service), \$400,000 for reconstruction of the Port Colborne elevator, \$392,000 for restoration of the Parliament Buildings, \$4,550,000 for arts and agriculture and \$159,400 for charges of management. There is also a vote of \$600,000 for salaries and contingent expenses of the pensions board.

FLEET PUTS TO SEA.
NEW YORK, May 17.—The United States Atlantic fleet, which has been at anchor in the Hudson River for the past two weeks, put to sea today.

ATTACK UNIONISTS.

BELFAST, May 17.—While Unionist workers were leaving the Londonderry gas works this evening they were attacked by a mob and maltreated. The magistrates have advised all public

houses to close from 4 o'clock in the afternoon to 10 o'clock at night and have warned citizens to remain indoors at night.

DESIGNER INSPECTING SHIP.

CITY Island, N. Y., May 18.—Charles E. Nicholson, designer of Shamrock IV, who arrived from England on the Mauretania, had his first thorough inspection here yesterday of the yacht

with which Sir Thomas Lipton hopes to win the Americas cup off Sandy Hook in July.

At the end of the inspection, which lasted several hours, Nicholson stated he was satisfied with the way his plans had been carried out. He suggested one or two minor alterations.

Supremacy of Parliament.

"It is not a question of the wisdom or the unwisdom of having a representative at Washington," declared Hon. W. L. Mackenzie King, emphatically. "What we want to bring concretely before this House is the question of the supremacy of Parliament or the autonomy of the cabinet. That is what is involved. A week ago we were promised that all available papers would be brought down. We expected at least some information. But the prime minister says we cannot get any more. He has gone through the files himself, but the representatives of the people cannot have access to these files. It is a mighty bad beginning of a new departure. If our foreign policy is to be bound up in secrecy, then we are traveling toward that vortex which led to the present European situation. What are we to expect from what follows?"

The president of the privy council has told us that he will give us a chance when it comes to voting the money. That is the only time the Government comes to Parliament when money is to be voted, and then it says to its followers: 'You vote the money or we will go to the people and you will lose your seats. Either you give us your support or we have an election, and out you go.'

There were two extreme views of Canadian representation at Washington, said Mr. King. One was that Canada should have nothing whatever to do with the British embassy; the other was that her representative should have full charge. There was, however, a middle view, namely, that Canada should manage her own affairs so far as possible, and Great Britain the same. He did not believe that the people desired that their representative should go to Washington and

ESSEX TEMPERANCE WORKERS BREAK FROM DOMINION ALLIANCE

Officers Elected—Greater Economy Claimed As Result of Action.

WINDSOR, May 17.—Breaking away from the Dominion Alliance to conduct their own work in Essex County, exclusive of the border cities, temperance forces meeting at Essex organized their own association, believing that the work can be carried on here much more economically and thoroughly than has been the case in the past through the general organization. The local secretary and representative, preferably an Essex man, will be named to take charge of the work.

Officers elected included: Honorary president, Dr. J. W. Brien, M.P., for South Essex; president, Dr. H. McKee, Kingsville; first vice-president, C. E. Taylor, Essex; second vice-president, Miss Jane Ritchie, Arden; third vice-president, Charles Collins, Malden; secretary, Rev. W. D. McKee, Essex; treasurer, L. W. Allison, Essex. It will be known as the Essex County Temperance Association.

Members of the local referendum committee met Tuesday night in the assembly room of the public library, Windsor, to draft plans for the campaign in the expected election, in which Ontario will vote on the inter-provincial liquor traffic question. The local officials of the referendum committee are of the opinion the election will be held in October, and in preparation of it, officers will be elected at Tuesday night's session, and preliminary plans drafted for a vigorous fight.

GERMAN'S MISTAKE IN FAILING TO CRAB PORTS ON CHANNEL

Lord French Says They Might Have Prolonged the War.

LONDON, May 17.—(By the Canadian Associated Press).—With full civic ceremonies Admiral Jellicoe and Viscount French today received swords of honor and the freedom of the city of London. The Duke of Connaught and Marshal Haig attended. Admiral Jellicoe, returning thanks, paid a great tribute to the Dominion's naval and air services. Their gallantry, sacrifice and endurance had made the British mercantile marine famous throughout history, he said.

Lord French, replying, said when he went to France he hoped to remain until "we had won the victory," which he never doubted would be "ours." "It is too early to pronounce a verdict on the great factors and characters of the war," he proceeded. "Our deeds will be judged calmly and faithfully at the bar of history. To that great tribunal I am only too willing to leave the duty of assessing our merits and demerits. The great lesson is that in decision and vigilance always and in disaster."

Lord French added that the Germans made a cardinal mistake in failing to seize the channel ports, which might have prolonged the war.

RUSSIA DENOUNCES POLAND, ENTENTE, FOR ASSISTING OFFENSIVE

Moscow Wireless Says Entente Urging Poles To Attack.

COBLENZ, May 17.—A Moscow wireless message picked up by the American station at Coblenz denounces Poland for its offensive and charges the Entente powers with encouraging and assisting Poland.

"It would be impossible for Poland to wage war against Russia without the help of the Entente," says the message, which concludes: "Patek (Polish foreign minister) visits the European capitals and at the same time Poland begins an offensive. Evidently the Polish adventure is the last hope of the interventionists. It is their work; it is another wave of intervention in the attempt to hamper Russia's economic reconstruction."

BIG BOULDER SAVES QUARRYMAN'S LIFE

Elgin Whaley, of Centreville, Caught Under Ton of Limestone in Quarry.

INGERSOLL, May 17.—That Elgin Whaley, of Centreville, employed by Downing's quarry, near Beachville, was not killed outright this afternoon was entirely due to the chance which came with the descent of a huge bucket filled with more than a ton of limestone. The bucket was being hoisted by a derrick directly under Whaley, who was working. He watched the bucket begin its upward course, and as it descended he stepped back. He was with his back to the bucket when it began to drop slowly, but Whaley did not get sufficient warning to get out of its way before he was caught and gradually crushed down. Finally the bucket came in contact with a projecting boulder, which prevented its entire weight from resting on Whaley, who was pinned under the ground under the bucket. He was extracted as quickly as possible by his fellow-workmen and physicians summoned. It was found that his back was seriously injured, and that only the fortunate presence of the big stone had prevented him from being instantly killed. He was rushed to the hospital.

AUSTRIAN DECLINES TO RECEIVE VISITORS, FIRES AT PERSISTENT CALLER

Bullet Missed Head of a Fellow Countryman by Narrow Margin.

QUELPH, May 17.—George Karanovsky, a local Austrian, with a big week-end supply of booze in his house, was not at home to callers late last night. A compatriot named George Nestrek persisted in attempting to enter the Karanovsky domicile and had a narrow escape from violent death, when Karanovsky fired at him with a 22-calibre revolver, the bullet passing within a few inches of his head. Constable Howatuk, on duty at the time, a block away, heard the shot fired, and after breaking into Karanovsky's house placed him under arrest. At today's Keesler court Karanovsky was charged with shooting with intent to do bodily harm, and was remanded until Friday in order that the whole affair can be investigated.

HELENE'S MARRIED LIFE

BY MAY CHRISTIE
Copyright, 1920, by the McClure Newspaper Syndicate
LXXV.—What Does It Mean?

Mr. Anstruther and I stared hard at the butler. The latter, evidently enjoying the situation just a little, added sagely:

"There's rumors in the neighborhood, sir—and has been for many a day. Strange that you never heard 'em. But it's not my place to gossip—"

We did not press the matter further. And after a time the butler and the cook retired, leaving Mr. Anstruther and myself alone in the dining-room.

"I was too frightened to be left alone and Mr. Anstruther particularly desired that no one else should be aroused in his household. Enough excitement had occurred already."

"I'm sorry, Alice, but," stronger nerves," he said apologetically, "otherwise, you could have gone to her room. But she wouldn't be a bit of good as a soothing influence for you—or a companion."

He broke off rather moodily. How long we sat "there by the fire" I do not know. Mr. Anstruther wrapped a rug about me. And then the cook came in with a strong cup of tea—dear, kindly soul—and made me drink it.

"She drew a sofa up to the electric heater, and insisted that I lie down there, and sleep."

"And let me have your chair," she said, "I can sleep anywhere. And I don't leave you."

"Dawn found us there—a queer tale—Alice's husband, cook and I. It was a relief to hear cook's snoring, and watch her normal, rosy face in the relaxation of slumber."

But I—Helene—was wide awake, and full of wretched forebodings for the future.

I thought of many things as I lay there. And, after a time, my thoughts naturally reverted to Jim, my husband. Why when he most needed me, did I have to play the part of outsider in his life?

The memory of his letter—ardent, genuine, full of love—swept over me. I was going to win him back again.

A second courtship! Perhaps even a second marriage with the man I loved! It was wonderful—but too absurd, I told myself.

Cook—dear, kindly soul—was slumbering peacefully, her mouth wide open, and the muscles of her rubicund countenance sagged with the relaxation of sleep.

She was middle-aged and married—and no doubt some one or other had loved her in her day. Regarding her general homeliness, I began to speculate on the nature of this thing called love.

Meh! I felt that love and married even the ugliest women—yes—and kept

right on adorning them to the end of the chapter. Love was really unaccountable. One could lay down no hard and fast rules for its adequate understanding.

"On the other hand, some of the loveliest women in the world failed utterly to keep their husbands' affections. Some of the best women, too, had been abandoned by their men."

It was all very odd and puzzling. But I—Helene—once I had won him back to me, I'd never let my husband go again. That was one thing sure and certain. I had learned my lesson, and would profit by it.

How jealous and unreasonable I had been! How quick to anger, and how unforgetting!

Well, I would change all that. I'd be a better woman for the future. Life had taught me some hard things.

At long last, I fell asleep, utterly worn out by the thrills of the evening. The clock was striking seven when cook awoke me. She was fully dressed now in her morning wrapper and her cap. Mr. Anstruther had disappeared.

"Get up, miss, and don't worry—though I do say it's been an awful experience that you've gone through. She patted me on the shoulder as she handed me an early-morning cup of tea. "The latter beverage is cook's panacea for all ills."

"I was along listening at the door of the poor, mad creature—and I think she must be sleeping—for the place is as quiet as the grave. Or maybe she's done away with herself. And a good riddance to society, too—that's what I say."

I shuddered. Cook's words frightened me.

"Now won't you go up to your own room, and try to get more sleep?" the latter coaxed me. "You look peaked and tired, and there are big shadows under your eyes, miss. You need more rest."

I shook my head. "I'm all right, thank you, cook. I'll have a warm bath, and then I'll dress. Remember, Mr. Anstruther goes away today. There's lots to do. I can't lie abed, dreaming."

I got up from the sofa, wrapping my kimono tightly round me.

I went upstairs, and in half an hour was down again, and feeling a different being.

My thoughts were all on the poor, mad creature who was even now tied hand and foot, and hung in a distant apartment of the house. What would they do with her? "Phone the police, or the nearest lunatic asylum?"

And what was it some one had said, about Mr. Travis Lloyd being able to throw light on the subject?

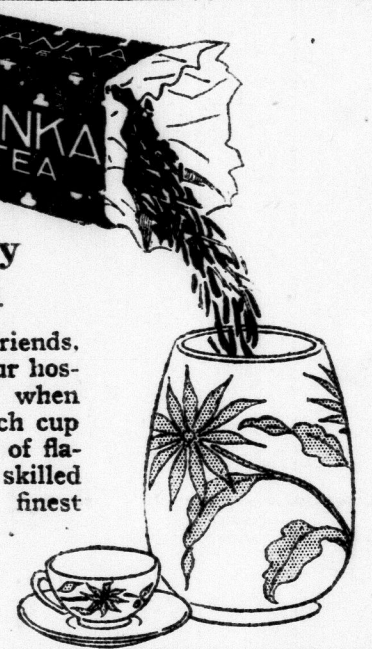

What had Travis Lloyd to do with the affair?

Tomorrow—A Mad Family Servant.

Has the Secret of the Romans Been Re-Discovered?

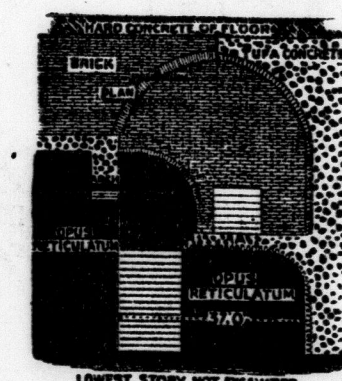

English Engineer Has Discovered a Cement With All The Qualities of The Famous Roman Cement That Made The Ancient Buildings of Old Rome Last for Centuries

THE ancient buildings of Rome are one of the wonders of the world. How marvellously they have stood the test of centuries of time.

The result of the Roman system of concrete building was a very superior permanence and durability of structure. For instance, the cantilever stair on the Palatine Hill near the south west angle of the Wall of Romulus, overhangs a distance of approximately 10 feet and supports a very heavy load. No reinforcement was used in the construction of this work.

A Striking Example

LOWEST STORY NOT EXAMINED
Illustrating Wonderful Strength of Roman Concrete Vaulting.

The Secret Perished

The secret of the time-defying strength of these ancient Roman buildings was in the composition of the cement used in their concrete construction. This secret perished with the fall of the Roman Empire.

For years and years, scientific research work and endless experimenting has been undertaken in the endeavor to discover the secret of Roman cement.

Invented in England

Just previous to the war, a prominent English Engineer announced the discovery of an ingredient that when added to the cement before the process of final grinding, gave to the cement the very qualities of density, imperviousness to moisture and marvellous strength that made Roman cement concrete one of the world wonders.

Used for War Purposes

The breaking out of the war temporarily prevented the importance of this discovery being realized the world over. However, the British Government investigated the new cement and recognized the value of the discovery. The British Admiralty, War Office, Royal Air Force, Board of Works, Home Office and Public Works used the new cement—Super Cement as the inventor appropriately named it—in large quantities where absolute waterproofness and great strength were required of the concrete construction. It proved its superiority under the severe tests of war usage.

The importance of the discovery of Super Cement was realized in Germany. During the war the German Patent Office endeavored to obtain intimate details of its manufacture, but without success.

Since the war there have been world-wide enquiries for Super Cement. It is being manufactured on a large scale in England. It is now patented all over the world.

Tested in Canada

The inventor was invited to make tests of it in Canada. Under his supervision some remarkable tests were made at the plant of the St. Mary's Cement, Limited, St. Mary's, Ontario.

The Canadian tests proved the truth of the British tests. They demonstrated that the new Super Cement was far superior to ordinary cement in:—

- 1—Imperviousness (waterproofness)
- 2—Tensile strength
- 3—Compression strength
- 4—Adhesion and Tenacity

The tests are too elaborate for detailed descriptions here. Briefly they showed that a mortar made of river sand and Super Cement was impervious

Ireland. He was credited by the Daily Sketch with having for years been "the power behind the throne" at Dublin Castle, and it was said his life had been in constant danger. The Daily Sketch added that it was reported Sir John had not left the castle in six months until a month's leave of absence was given him in April.

DESTROY IRISH BARRACKS.

DUBLIN, May 17.—Two police barracks in Limerick and one in Devon-

shire were destroyed today. Another barracks in Meath was damaged.

RAPID WHEAT GROWTH.

Regina, May 18.—Wheat measuring eight inches from root to tip was brought to the city by Thomas Watt of Port Qu'Appelle. He says that he sowed it two weeks ago on summer fallow, and that in all his experience in farming in the west he never saw wheat make such rapid growth in that period.

Whatever you do, eat Krumbles
W. K. Kellogg

NATURE puts plenty of body-building, strength-making elements into wheat. Nature makes wheat taste good, so that we will eat it and get its benefits.

"Whatever you do, eat Krumbles," has a definite meaning. We use all the wheat grain for Krumbles. We grind it, we cook it, we shred it, we toast it—

And we better it with a flavor that makes it doubly good.

A lawyer, for example, like all men whose work is largely indoors and calls for much mental activity, needs just such a food as Krumbles. Easily digested, nourishing, it helps keep you fit and fine.

Ask your grocer for Kellogg's Shredded Krumbles—the only Krumbles made.

Krumbles is made in the same kitchens at Toronto as Kellogg's Toasted Corn Flakes and Kellogg's Krumbled Bran—Always wrapped "Waxtite."

KELLOGG TOASTED CORN FLAKE CO.
BATTLE CREEK, MICH. TORONTO, CAN.

under a water pressure of 200 lbs. per square inch. It was impervious under a gasoline pressure of 130 lbs. per square inch. This is a higher degree of imperviousness than has ever before been obtained with Building Cements.

No Smell of Gasoline

More phenomenal still, is the fact that no smell of gasoline could be detected on the outside of a concrete container made of Super Cement, which proved beyond question that Super Cement is non-absorbent.

Unlike Any Other Cement

It cannot be stated too emphatically that Super Cement is NOT a cement to which a mere water repellent, or pore filler has been added. The only true method of waterproofing is to make the cement itself do all the work instead of part of it. Super Cement does all the waterproofing itself. While it is entirely different from any other cement in the world in this respect, in making mortars and concrete, it is used just as is Portland Cement.

Combines Thoroughly with Water

Super Cement combines more thoroughly with the mixing water than does Portland Cement. This ensures a denser and stronger concrete. It increases its ability to adhere to other surfaces. It adheres to steel, brick, stone, glass, etc., to a degree that no other building cement has ever approached.

Architects, Engineers, Contractors, Builders and all others interested in learning more about Super Cement are invited to write for complete information, details of tests made by well-known English Engineers and experts, and tests made in Canada, etc. Address:—

them. A demand for a payment
on the house is made the day of
the party—the bill for the entertain-
ers, etc., presented about the
same time amounts to over \$5,000.
Henry's entire funds total about
\$500.
How does he escape the sheriff
or suicide?
Can't tell you for laughing.
Only one satisfactory way—
go and see Henry.
Keep Her Smiling
amid shrieks of laughter,
side-splitting, eye-streaming,
cyclical laughter, of a
comedy-intoxicated audience.
The play is presented with
strikingly beautiful stage
settings and played by 25
excellently clever artists,
including the noted
English comedian, David Miller,
brought over from London by
Mr. Tully for this engagement.
Then there are
De Witt C. Jennings
and Isabel Withers.
You will always regret it
if you don't see

KEEP HER SMILING

You know how many were
disappointed in getting
seats for Mr. Tully's
"The Bird of Paradise,"
and "The Masquerader,"
so don't risk another
disappointment.

SEAT SALE TODAY

DRINKING FOUNTAINS SOURCES OF WORRY TO COMMISSIONERS

Considering their small size, drinking fountains cause more trouble for the public utilities department of the city than anything else under the sun, with the possible exception of reporters. For some days now the general manager has been bothered with complaints about dogs performing "physical impossibilities" and drinking at places which were only intended for human beings.

Now the department is installing a bright new fountain right in front of the offices for the use of its four-footed friends and the public in general. Of course, it isn't intended that the canines should use this, but it is more or less of a concession to them, because last year right in this same spot there stood a dog-proof fountain.

The only trouble with making it "dog proof" was that it was almost "human-proof" too. The fountain was installed as an experiment. As a combined shower bath and stationary street sprinkler it was a decided success, but as an honest to goodness drinking fountain its battling average was about .021. It had a patent lever which had to be operated before water was obtained and, of course no dog but a "Keystone Teddy" or some canine movie actor could manage this, and it was quite safe from that point of view. The trouble was that whenever a human being operated it there was always a near drowning accident. The water flowed forth copiously and clearly demonstrated that the pressure in this part of the city was up to snuff. Even some of the dignified members of the utilities commission had narrow escapes.

Naturally after playing funny tricks on the utilities commissioners the fountain was doomed. Today it was dug up and respectable little "bubblers" was put in its place.

PARIS STRIKERS UNABLE TO REACH AGREEMENT

Paris, May 17.—At yesterday's meeting of the administrative committee of the general federation of labor the question of resuming work in all the trades affected by strikes was debated, but no agreement could be reached, according to newspapers. Another meeting will be held on Wednesday. In the meantime public services continue in spite of the strike.

BISHOP WILLIAMS WILL LEAVE FOR ENGLAND JUNE 5

To Attend World Conference in Lambeth Palace.

His Lordship Bishop David Williams of Huron leaves on June 5 for England to attend the Lambeth conference of the Anglican Church throughout the world, to be held in Lambeth Palace in July. The bishops and archbishops from the Anglican Church the world over, will be in attendance. Because of the absence of the bishop during the summer months all confirmations in this diocese have been postponed, and will be held early in the fall.

PREPARING RECEPTION

For Michigan Hikers Coming Here on July 19.

Members of the local Chamber of Commerce are preparing for the reception of 350 Michigan hikers, who will include London on their auto tour of Western Ontario on July 19. Accompanying them will be about 45 motorists from the border cities. Permission has been obtained for the tourists to park their cars and camp for the night inside of the race track at Queen's Park. The special committee to deal with the visit is headed by T. W. McFarland, while George M. Reid will act as chairman at the "Good Roads Rally," which will be held on the night of the hiker's arrival. The committee, which also has in charge here, Aid E. H. Bridge is convenor of this committee, while gasoline and lubricant needs will be dealt with by C. W. McQuinn. The party will be met outside the city by Londoners, Arthur Keene and C. E. Bernard will perform the welcome ceremony.

BIRD NOTES

(Contributed by McIlwraith Ornithological Club.)

The continued backward weather and particularly the cold nights have caused a lull in the movement of birds. Very few new species have been noted recently, and those which have arrived are not present in large numbers. The warmer weather and the accompanying increased growth in vegetation, for the state of development of birds, flowers and leaves is closely related to bird migration.

One of the new arrivals is Lincoln's Sparrow, a bird somewhat resembling the Song Sparrow, but with more of an olive tinge to the back, and with finer streaks on the breast and sides. A buffy band across the breast also serves as a distinguishing mark. It is a quiet, unobtrusive and rather rare little fellow, and one that is not often heard in song. It is therefore easy to overlook and its recording always gives us a feeling of satisfaction.

The Wood Pewee arrived on the 17th exactly on time. This is a bird of the city and may be heard along our avenues and in the parks even during the summer days when bird voices are seldom noticed. It is one of the Flycatcher family and has received its name from its rather plaintive call "Pee-wee, Pee-a-wee."

The speed at which birds fly is always a subject of much speculation, but the other morning we had an opportunity to judge the rate of a pair of Great Blue Herons with some degree of accuracy. These birds never seem to be going very fast, their big wings flapping lazily but they easily overtook our car and sailed left us far behind, as they flew into the rays of the morning sun. As we were travelling at some 20 or 21 miles per hour, the Herons must have been going at least 40, which seems quite fast for such large ungainly birds. E. M. S. DALE.

CLEANLINESS IS HEALTH
By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.
"GILLETT'S LYE EATS DIRT"
Made in Canada.

WAGE DEMANDS OF 2,000,000 MEN NOW BEING CONSIDERED
U. S. Railroad Labor Board Is Hearing Arguments.

Chicago, May 17.—Hearings on the wage demands of 2,000,000 railroad workers were opened here today, with representatives of the railroad managers and employees expressing confidence that the board will arrive at a just decision with all possible speed. E. T. Whitney, chairman of the conference committee of the rail must-ers of the executive's association, told the board that some part of the wage demands being made by 2,000,000 railroad employees probably would be found to be justified by the rise in the cost of living. Agreement of the railroad men should have more money, is expected to go far toward expediting an early settlement of the controversy, which culminated last month in strikes by thousands of the employees. The demands now before the board aggregate more than a billion dollars a year, in addition to a billion-dollar advance during the war, and a \$300,000,000 advance in the two years prior to Government control, according to Mr. Whitney. He presented figures to show that the railroad payroll had increased from 35.5 per cent of the gross earnings of the roads in 1915 to 43.5 per cent last year.

CONDITION IS IMPROVED.

Vancouver, B. C., May 17.—The condition last night of Archbishop Timothy Casey of the Roman Catholic Diocese of Vancouver, was reported slightly improved. Hope for his recovery was given up on Saturday evening, but yesterday he rallied somewhat.
