Ladies' Tweed Dress Skirts

We have just received, from one of the best makers, a big shipment of the latest styles of Ladies' and Misses' Tweed Dress Skirts. The designs are the newest, the materials come in light shades, many of them with overchecks. They are the correct thing for summer wear with the popular White Shirt Waists. Call and have a look at them. You will be pleased.

\$3.98—Ladies' Grey Tweed Dress Skirts, nine gores, trimmed in strapping and box pleats. This skirt comes in two shades of light grey, with blue and green overchecks. They are well tailored, and pressed, good styles, and very cheap at \$3.98.

\$6.00—At this price we are showing two very new and stylish circular skirts. Both numbers have side seams, and we guarantee they will not sag. One style is trimmed with two rows of strapping around the bottom, and trimmed with buttons covered with same material as skirt. The other style is a plaited skirt, trimmed with scalloped strapping, and buttons. The materials in both styles are new designs of grey tweeds. They are beautifully tailored, and equal to any ordered skirt you can get.

\$3.50—Misses' Tweed Dress Skirts, to fit girls from 13 to 18 years of age, made after style of our Ladies' Skirts at \$3.98. They come in the same designs of Tweeds, too. The larger sizes we have to ask \$3.75 for—they take more material.

A Silk Special at 73c., Worth \$1

73c.—There are only 3 pieces of them, in shades of brown, navy and green, Shot Louise Silks. They are a splendid line for Shirt Waist Suits, or drop Skirts. Guaranteed not to cut, and wear like leather. While they last we'll sell them at 73c.

THE GAS SUPPLY PROOF FROM

MR. FORBES

Citizen Thinks City Should Purchase Gas From Tilbury Oil Field

"I see," said a business man to a Planet reporter this morning, "that a Tilbury oil company is going to petition the Council next Monday night to grant them a franchise to supply gas in the city."

"There is a great deal of gas going to waste in Tilbury, enough to supply all Chatham, and people are becoming alive to the fact that this gas should be used up. Experts declare that the supply is permanent, chiefly on account of the great depth at which it is found, and it is a good idea for the city to entertain to have the gas piped into Chatham and supplied at a cheap rate."

"I don't think the franchise proposition is an acceptable one, however. It would pay the city to buy the gas from the company and retail it to the citizens."

Gas men would sooner sell the gas than have it wasted, and there is little doubt that it could be obtained as low as 20 cents per 1000 feet or, perhaps less. The city could make a contract with the company to supply the gas for so long as a certain figure and could then retail it at a low fixed rate. This means that the city would clear \$500 to \$1,000 per day as middleman's profits, as soon as the scheme was in working order. Another thing, it would assure the people of fixed rates, and would not leave them, as they now are, at the mercy of an independent concern.

"This scheme is quite practicable and should be a good thing for the city, for it is the next best thing to municipal ownership."

BARBERS EXPLAIN

Tonsorial Artists Tell Why They Cannot Cut Hair For Fifteen Cents

Some of the local master barbers in an interview with a Planet reporter this morning, made reference to the item appearing in Saturday's issue of this journal regarding a raise in tonsorial prices. They thought the article dealt a little severely with them, as their side of the case was not gone into. The proposed raise in prices is for hair cuts, which the men of the shears intend to raise to 25 cents, the price charged in many other cities.

The barbers claim that they have to compete with other cities where the prices are higher. The hardship effects the master barbers, who have to pay the same wages as the barbers of other cities where the prices are higher. One Chatham shop now charges 25 cents for hair-cutting, and it is claimed that by charging this amount, better satisfaction in the way of work can be guaranteed. The barbers claim that prices in almost every other line have gone up, and that it is impossible at the present prices of wages, shop furniture, rent and other expenses, to make a fair margin from their work unless a raise is made in the price of cuts.

The proposal to charge for extras will not be considered. The only change which it is proposed to make, is with regard to hair cuts. The master barbers will hold a meeting shortly to consider the matter.

SHOULD BE CAREFUL

An unfortunate blunder appeared in the London Free Press this morning credited to the Chatham correspondent. It was stated in a despatch from Chatham, that the Grand Jury in session at the Court House last week were at one time thinking of striking. It should be stated in all fairness to the gentlemen serving on this jury, that the report is perfectly groundless and untrue. Correspondents should be very careful in sending news to outside papers as otherwise they may unwittingly do considerable harm to innocent people. It is always well to verify the facts before they are published, and it is only in this way that accuracy can be maintained.

It might be stated in explanation that in connection with the paying of the petit jury, some of them thought that they should receive two days' pay as they had sat longer than eight o'clock on Thursday. The paying of the jurors, however, is governed by statute, and is out of the hands of the sheriff. They were unable to get home that day, and were called the next morning so that they secured their extra pay and went home satisfied.

At the last session of the legislature the statute was amended giving the county council power to increase the pay of the jurors if they see fit from \$2.00 a day to whatever amount they see fit to pay them. The jurors then have to look to the council for redress if there is any complaint. The Grand Jury performed their duty in a creditable manner and were discharged without the least sign of trouble.

Liberty means responsibility, and responsibility tests the man and the race.

Men of character are the conscience of the society to which they belong.

He Says he Can Produce it to the Clerk at Any Time

CEDAR SPRINGS LICENSE

Almost as much interest has been aroused over the attempt to cut off the Forbes hotel license at Cedar Springs as was evidenced at the time of the famous squabble over the license for the Rankin Hotel of this city. The action of the Clerk in withholding the names struck off upon as very peculiar, and those most interested are anxiously looking forward to influence being brought to bear to induce him to change his mind with regard to his remark that the names withheld will remain a secret. It is not a time for dramatic effect, but a case where a man is threatened with having his license taken away from him, without being shown the cause for such action. At least such is the light in which the matter appears before the public at the present time.

"We are still prepared to prove that we have a majority on the petition," said Hotelman Forbes Saturday, "and we can prove it, if the Clerk will divulge those names he is withholding."

Mr. Forbes after reading Mr. Wilson's legal opinion in The Planet, said he had no complaint to make with regard to it, and he is prepared to stand or fall by the said opinion as to whom of the petitioners is qualified to vote. Mr. Forbes states, contrary to the assertions made in Mr. Kennedy's letter, that Mr. Roseborough did appear at the original meeting of the License Commissioners, and that at this meeting the Clerk apparently was opposing both the Walker and Forbes certificates.

What Mr. Forbes objects strongly to, is that the Clerk finds nine names of unqualified voters on his (Forbes) certificate, while at the previous meeting at which Mr. Roseborough was present, only six names were objected to by the temperance people. The hotel faction think that when Mr. Kennedy says that there were other names objected to, he does not put it fairly. Other names were objected to, only as to residence in the division, and not as to being unqualified voters, so as to count in the majority.

With regard to the withholding of the names, Mr. Kennedy says in his letter that only the hotel faction have asked to have these names disclosed. They are, of course, the only persons vitally interested, and they are anxious to see whether they have been treated fairly or not. It is understood that Clerk Roseborough will be asked by influential outside parties to disclose the names taken off the Forbes petition.

THE ART OF PIANO BUILDING

The History of the Piano-Foret is a History Of Individuals

Since the early establishment of the first principle of the instrument in the twelfth century, the record of its progressive development will be found to be embodied in the lives of a comparatively small number of men. At infrequent intervals some individuals have come to the front who by the creation of a distinctly new thought, or by the successful application of a new principle of construction, have demonstrated their right to the title of geniuses. This particularly applies to the history of the Goulay Piano.

Mr. Robert Goulay, after whom the piano is named, and Mr. J. E. Hoare, factory superintendent, have spent years in the piano industry both as manufacturers and dealers, and have by experience acquired a knowledge of scale drawing and construction that has enabled them to produce what is recognized among the musical class of people to-day as the standard in piano building in Canada.

The Goulay Piano is built in the Goulay factory, Toronto, and bears the distinctive marks of their thought, individuality and pianistic genius in the originality, richness and approximate perfection of its music scale, as well as in the solidity of its construction, symmetry of its design, beauty of its tone and elegance of its appearance and finish. The Goulay is spoken of by musicians everywhere as the best produced in the art of piano building.

Mr. E. W. Exley, superintendent of the sales department of Goulay, Winter & Leeming, is in Chatham and has decided to hold an exhibition of Goulay pianos for two weeks to enable the people of this vicinity to see and hear the Goulay Piano.

The groom is a brother to ex-Mayor Geo. Sulman, of this city.

HE GOT HIS BOOZE THE FORESTERS

AT CHURCH

A Splendid Sermon Delivered by Rev. F. E. Malott

A VERY LARGE PARADE

The members of Court McGregor, No. 6, Independent Order of Foresters paraded to Victoria avenue Methodist church Sunday evening, where they attended divine service and listened to an eloquent sermon, preached by Rev. F. E. Malott, B. A. The Foresters' parade for numbers and appearance was the best church parade this season. The brethren were led by the 24th Regiment band, and were marshalled by Bro. Peter Dezella. The procession extended the entire length of Victoria avenue from the Methodist church to Fifth street bridge. There were upwards of 200 members in attendance.

The services at the church were conducted by Rev. Mr. Malott, assisted by Rev. Dr. Hannon. During the service a duet was rendered by Messrs. Horstead and Bushell, and at the offertory a solo was rendered by Miss Jackson.

Rev. Mr. Malott preached a powerful and instructive sermon, taking for his theme, 'Brotherly Love.' The preacher drew attention to the fact that the apostles Peter and Paul, and many of the early Christian writers, laid special emphasis on this great virtue. In the worldly struggle of to-day, as in ages gone past, there was much need of benevolence and charity among men. Encouragement and assistance to needy brothers, was the mission of the Forester, and the motto was a noble one. But there was great need that this same spirit should be exercised not only among fraternalists, but outside the lodge-rooms as well. The Christian faith taught that man must love his brother, and all men according to the good book are brothers. He exhorted his hearers to cultivate brotherly love, and as a Brother Forester, he welcomed the members of Court McGregor to Victoria Ave. church.

CHURCH PARADE

The officers and members of the 24th Regiment, headed by their bands, held church parade to William street Baptist church Sunday morning. There was a splendid turnout, and the Regiment is to be complimented on the marked improvement evidenced at each succeeding church parade. The band also under the able leadership of Bandmaster Harry Thrip is progressing most favorably.

Service at the William street church was conducted by Rev. J. W. Hoyt, who preached a powerful sermon to the military, taking for his text the words 'Who is on the Lord's side?' The address was an appropriate one, and proved most instructive and interesting.

During the service a solo was rendered by Miss Carter, the new choir leader of William street church.

At this point the lawyer appealed to the court.

Oh, well, resumed the witness, smarting under judicial rebuke, the whole truth is considerable, and I began at the handiest place.

UNMANLY CONDUCT

Some of the Boys on Emma St. Should be Heartily Ashamed of Themselves

Attention has been called to the action of a number of bad boys residing in the vicinity of Emma street who are causing considerable annoyance to the residents of that and the neighboring thoroughfares.

Mrs. Robinson, an old and respected resident of this city, who lives on the corner of Louise street, complains that these boys are constantly troubling her. This lady keeps a cow and has a considerable amount of hay lying on her lot and the youngsters take great delight in scattering her hay about the lot and making other depredations on her property.

On Saturday afternoon a Planet representative found Mrs. Robinson in a state of great distress. She stated that the boys had taken advantage of the fact that she was left alone in the house, and had been running wild all over her property, causing much damage. When she remonstrated with them they called her names and subjected her to insult.

It is regrettable that such a state of affairs can exist in a place like Chatham. Boys will be boys the whole world over, but there is a great deal of difference between a tolerable 'scholar' and intolerable 'rascals.'

A gentleman living over the river has promised Mrs. Robinson that if the boys continue to annoy her he will see that the police are put on their track.

"I think," he said in speaking to the Planet, "that the exercise of the parental slipper on many of our boys would be a good thing for them and a better thing for the community. Spare the rod and spoil the child! Hold good to-day as it did in Solomon's time, and parents should make every effort to combat the 'Americanizing spirit' of the youth which made an eminent Canadian divine once say that the 'curse of Canada's social life is her boys.'"

SULMAN--PRINGLE

Belleville, June 14.—A fashionable wedding took place this afternoon at two o'clock, when Mr. Charles N. Sulman, Mayor of Belleville, was married to Miss Clara I. Pringle, daughter of Mr. John N. Pringle. Rev. J. P. Wilson, pastor of Bridge street church, performed the ceremony. The bride looked very handsome in a gown of white silk tulle, trimmed with baby's hair lace, with veil and orange blossoms. She carried a bouquet of white roses. The only attendant was a maid of honor, her cousin, Miss Hattie Pringle, who wore white silk tulle over white silk taffeta, and carried pink and white roses. After the ceremony a reception was held and a wedding breakfast served.

Among the presents was a pearl-handled and gold inlaid fish set, from Mayor Sulman's colleagues in the City Council, a handsome clock from the employees in his store, and a handsome tribute from his Masonic brethren. Guests were present from Montreal, Niagara, Chatham, London, Vancouver, Toronto, and Los Angeles, California. The groom's present to the bride was a pearl pendant with gold chain, and to the maid of honor a pearl pin. Mayor Sulman and his bride will leave by the five p.m. train for a two weeks' wedding tour in the Eastern States and Canada.

The groom is a brother to ex-Mayor Geo. Sulman, of this city.

THE NEW RAILWAY

The following is from the Canadian Electric News, published at Toronto, Ont.

The construction work on the Windsor, Essex and Lake Shore Electric Railway is being rapidly pushed on. The first section from Windsor to Kingsville (27 miles) will be in operation by the first of July.

The next section to Wheatley (15 miles) will be finished by the end of the year, and the final section to Chatham, will be built next year. The promoters are adopting the high voltage direct current system (for which the Canadian Westinghouse Company have three contracts), which will be the first in use in Canada. The entire equipment of the line will be thoroughly up-to-date and the Company will provide a fast service. As the line will tap the tobacco and fruit belts of Essex and Kent its success ought to be assured.

PUBLIC OPINION.

During a flying visit made to Chatham on Saturday, Mr. H. S. Clements, West Kent's wide-awake young representative in the Dominion Parliament, received many flattering compliments upon the manner in which he is conducting himself during the present session. This unanimous expression of approval on the part of his constituents, has been creditably won, and is highly deserved by Mr. Clements. His speech in the House the other day on the greatly needed and much neglected revision of the tariff is only one of the incidents which have stamped him as the farmers' friend, and one who has the courage of his convictions, and who never misses an opportunity to advance the interests of the people he serves, as against the actions of a government which plays into the hands of personal friends. It is to be hoped that after the Laurier Administration has got through offering excuses for the graft that has prevailed at Ottawa for the past

TENDERS AWARDED

The members of the Public School Board held a special session this morning to consider tenders for improvements to be made to the city schools. Those present were Chairman Paxton and Trustees Draper, Robertson, Andrews, Morley and McArthur. The tenders were awarded as follows: Painting, Tilt & Hildreth; shingling roof McKeeough school, Jas. Sparks; old iron, Park Bros.

POLICE COURT

At the police court this morning William Baby was fined \$3.00 and costs for assault. The Judge thought that the complainant was not entirely free from blame. John Reeve defended Mr. Baby.

A colored man named Holden was tried on a charge of beating his wife who is a white woman. The Judge found him guilty, and in future the defendant will stay away from home and will contribute \$2.50 towards the support of his wife. He said that all that happened was that he went home and quietly spoke to his better half, saying that she was cold towards him. He claimed that he did not strike her. His little daughter gave evidence against him in court.

PAVING MATTERS

Chatham is acknowledged to be one of the best paved cities in Ontario. Visitors from many places have commented upon the fine pavements from time to time, and other cities have not been slow in sending deputations here to "see how it's done."

St. Thomas has heard quite a lot about the Maple City pavements and the spirit of emulation has taken the Saintly City. Paving matters are looking up and Mr. Simmonds and ex-Ald. Brechin were in Windsor on Thursday and Friday last acting as a committee for the residents of Horton street, St. Thomas, to enquire into the different systems of street paving supplied by Windsor and Walkerville firms.

NEW PROPOSITION

It is stated by certain influential gentlemen in the city that Captain Davidson, the best sugar magnate, in talking with certain Chathamites some time ago, stated that he would be willing to erect and operate a sugar factory in Chatham, on condition that the city annex the factory and exempt it from taxes for a term of years.

The Planet was told this morning that the Chatham Board of Trade were considering the advisability of writing Captain Davidson regarding the matter, but the replies made by members of the Board of Trade to queries since made, would indicate that the Board know nothing whatever about any such proposition, and had never heard of Captain Davidson's alleged offer.

ANOTHER BIG OIL STRIKE

"Fin" Robertson Has A Gusher On His Farm Near Stewart

IT IS THE TWELFTH WELL

A mild sensation was caused in the Tilbury oil fields on Saturday when was found that a gusher had been struck on the "Fin" Robertson farm. It is one of the best wells that have been put down in the field.

Late Saturday night the men who were drilling on this farm got down a distance of 1390 feet where the pay rock was struck. There was a showing of oil and about a bucket full was taken out. During the night the oil broke through the thin crust at the bottom of the well and commenced to gush up. The oil was thrown up away above the derrick, and continued to flow all day Sunday. It will be capped as soon as it is possible. The oil is now flowing all over the fields in that vicinity.

This new well is on the farm adjoining the Smith farm where there are now two wells, both good producers. Another well is now being put down on the Smith farm with a good show of success. The Smith wells are down a distance of 1433 feet, and it is thought that the Robertson well will be just as good as these when it is put down to the same same depth.

This new strike shows that the field does not run north as was thought. This well, being west of the Smith property, enlarges the field considerably.

This is the 12th well put down in the field, and all of the finished wells are producers. Not a dry hole has been put down.

HE USED A RIFLE

C. P. R. Contractor Who Defied Him Gets Bullet In Side.

Bracebridge, June 18.—John Kilty, of Foote's Bay, is in jail here, charged with shooting with intent to do bodily harm to William Scott, a C. P. R. contractor, engaged on construction work near here and on Kilty's farm.

Kilty forbade Scott crossing a certain part of his farm, and when the work was continued according to plans, Kilty went to his home and returned with a rifle, with which he deliberately shot Scott. The bullet pierced Scott's side and for some time he was in a precarious condition, but he is now considered out of danger.

Kilty will appear before Judge Mahaffy for trial.

CORONATION FESTIVITIES.

Trondhjem Converted From Fisher Village to Capital.

Christiana, June 18.—Trondhjem, a city of fishers, was yesterday a capital. Many of those who will participate in the coronation of King Haakon have already swelled the population, and others are crowding north by steamers and trains.

The gaily over the confirmation of the country's new independence will reach its full tide Tuesday, when King Haakon, Queen Maud and the baby Crown Prince Olaf reach Trondhjem. All over the country floats the flag of Norway—the white bordered blue cross upon a field of red—testifying to the fealty of the people.

THOUSANDS HONOR SEDDON.

In Spite of Late Hour, Gather to Witness Arrival of Casket.

Wellington, N. Z., June 18.—The steamer Owestry Grange, bearing the body of Premier Seddon, who died on board the vessel shortly after it left Sydney, June 10, for New Zealand, arrived here at 11 o'clock Saturday night. Despite the lateness of the hour thousands of persons were at the wharf and witnessed the landing of the casket.

Yesterday the body was lying in state in the Parliament Building.

The funeral will take place here next Thursday.

REVOLUTION IS CRUSHED.

Bambaat's Followers All Killed—Sigananda's Sons Surrender.

Durban, Natal, June 18.—Two of the Chief Sigananda's sons have surrendered to the Natalian forces, and nearly all of Chief Bambaat's followers were killed in the recent fighting.

Col. Mackenzie of the Natalian contingent has given the rebels, who are leaderless and scattered, far and wide, until June 19 to surrender, saying that otherwise they will be shot if captured.

Earl Grey's Son Weds.

London, June 18.—Two of England's leading families were united Saturday afternoon by the marriage at St. Margaret's Church, Westminster, of Viscount Hawick, eldest son of Earl Grey, Governor-General of Canada, to Lady Mabel Palmer, only daughter of the Earl of Selborne, high commissioner for South Africa.

Japan Won't Pay.

Tokio, June 18.—The Nichi Nichi reports that the Government recently received a detailed statement of the cost of the quartering of the Japanese prisoners in Russia during the war and declines to settle on the ground of the exorbitance of the charges. The negotiation of the matter is likely to prove difficult.

A Lumber Fire.

Quebec, June 18.—A despatch from Montreal says that fire broke out here at 6 o'clock last evening on the Bros' wharf, and before it was gotten under control about 75,000 feet of deals were consumed. About 60,000 feet were thrown in the water, but most, if not all, of this will be recovered.

Adam Lloyd Insane.

Belleville, June 18.—A report has reached this city that old Adam Lloyd, who was tried at the last Assizes for the murder of his wife, and acquitted, has gone violently insane. He is now in his son's near detention, who took charge of the old fellow after the trial.

For Twenty-One Years.

Owen Sound, June 18.—Albert Stewart, who shot James Morrison with intent to kill and rob, was Saturday sentenced to 21 years imprisonment. He made a full confession.

Queen Victoria of Spain Ill.

London, June 18.—According to news given out by a member of the royal household the Queen of Spain is in a state of complete nervous breakdown.

Barn Struck by Lightning.

Wingham, June 18.—Saturday night the barn of Edmund Teskey, com. 1 barrie township, was struck by lightning and entirely destroyed.

RETURNED FROM COBALT

Dave King returned from Cobalt last evening after spending nearly three months in "the land of sunshine and silver." Dave is looking remarkably well on the strenuous life of a silver miner. He says that Cobalt is a great place to live although the country is of a wild description. The property in which Dave and Charlie have shares is increasing in value and pays better all the time. The samples and photographs which the two partners have brought back to Chatham, give a good idea of the value of the Cobalt silver mining industries.

They will have again for Cobalt this week, the increasing importance of the partners' holdings in that place necessitating his speedy return.

BIALISTOK NOW QUIET

Christians Calmed By The Government And Clergy

EVIL RUMORS DENIED

St. Petersburg, June 18.—The pitiable affair at Bialistok apparently has burned itself out. No further bloodshed was reported yesterday, and no more is expected, even by the Radicals, who are satisfied that the authorities are now in control and will do everything possible to prevent a renewal of the excesses. This confidence is based on the action of the Governor of Grodno, who is hated and distrusted by the bureaucrats, and who, after investigating the situation at Bialistok, took the unprecedented step, in order to stop the spread of the massacres, of telegraphing the authorities of all towns within the Jewish pale, denying the alleged official reports that the disorders were due to the wanton throwing of bombs at a Christian procession by Jewish revolutionists.

This measure, aided by the Catholic clergy, who yesterday throughout Russian Poland addressed their congregations, imploring them not to believe reports spread broadcast for the purpose of stirring up bloody excesses, was efficacious in calming the agitated spirits among the Christian population. The Catholics of Warsaw echoed a great religious procession which was to have been held yesterday in order to avoid the chance of a conflict.

Grows Grim.

The general situation, however, is hourly growing more disquieting, and the country seems to be on the verge of another gigantic upheaval. In St. Petersburg and Moscow, the populace is greatly excited, and nothing is talked of except a general political strike, which would bring the Government to its knees. The proletarian leaders, who have been preparing for months for a blow, believe the moment has come to strike; and that the agrarian troubles now are sufficiently extended, and that the disorders in the army are ripe. The Government has openly refused to accede to the demands of Parliament, and a rupture is imminent there.

Victims Number Hundreds.

London, June 18.—The Times St. Petersburg correspondent cables this morning: It is difficult to estimate the number of victims. The total is placed at several hundred, and according to one account six hundred Jews were killed or wounded. Whole families were murdered and their bodies thrown out of the windows. The hospitals soon were overcrowded and the wounded had to be sent to neighboring towns. Six thousand Jews are said to have taken refuge in the forests. Continuous butchery lasted for eight hours, and neither soldiers nor police interfered. Five infantry regiments, one of dragoons, with artillery, and a strong force of mounted police had been concentrated in the town. The troops appear to have done nothing the first day except patrol the streets, firing at random at fugitives or into houses. The second day, when many streets were in flames, they seem to have done nothing to help the fire brigade, which abstained under the pretext that the houses contained explosives.

Attack Military.

Warsaw, June 18.—A band of 30 revolutionists Saturday attacked a branch postoffice which was guarded by a small detachment of military, killing several of the soldiers and wounding two of them. One of the wounded soldiers succeeded in escaping and summoned help. After a further fight the band was driven off, but seven of its members were captured.

A second sergeant of police was killed in the streets here Saturday, and a policeman and a soldier were wounded.

Fear Peasant Uprising.

Odesa, June 18.—Instructions have been issued to the effect that all the infantry regiments and army reserve men in the southern and southwestern provinces are to be temporarily placed on a "home war footing," in view of the possibility of the peasants rising against the nobles. The Cossacks are to be mobilized into flying brigades.

An Organized Slaughter.

London, June 18.—The Daily Telegraph this morning prints a telegram received in London from Helmsforfs. It is dated Sunday afternoon and is signed by M. Vinaver and four other Jewish members of the Russian Parliament.

M. Brando, Schosberg, Katzenelson and Lewin. The telegram says: "The outbreak at Bialistok clearly was the beginning of an organized massacre, similar to the bloody October days. Only energetic intervention can prevent a terrible catastrophe. Peril is imminent. Appeal to all influences to help us."

Czar to Tempt Fate.

St. Petersburg, June 18.—The Associated Press is reliably informed that Emperor Nicholas has definitely decided to declare a recess of Parliament June 28, and that his majesty and the royal family will immediately thereafter leave on a cruise of the Finnish fjords on board the imperial yacht Standard, which is being fitted out for that purpose.

Such a decision seems to tempt fate, for if it is executed it will be almost certain to be the signal for an immediate and bloody struggle.

The group of toll as an outcome of its open declaration against a recess passed a resolution declaring that neither now nor in the near future can Parliament be recessed, that at no time will the members leave the posts, and that so long as the arbitrariness and outrages of the Government continue and the sufferings of the peasantry and workmen reign, Parliament must continue to work until it has achieved "A land of freedom" or exhausted all means to that end.

100 Killed or Hurt.

Vladivostok, June 18.—A passenger train was derailed at Progranitschnai station on the Chinese Eastern Railroad yesterday, and 100 persons are said to have been killed or injured.

HO'D YOU LIKE TO BE ME?

(By The Khan.)

I'm a bride, O girls, a bride;

Hither quick, and see me.

I'm a bride, I'm a bride, I'm a bride!

How'd you like to be me?

Fate—he's painted yellow.

Tried to twenty-three me.

But Cupid (dear old fellow)

Came one night to see me.

O, Girls!

I'm a bride, I'm a bride, I'm a bride!

Hither quick to see me.

I'm a bride, bride, bride, I'm a bride—

How'd you like to be me?

Here's roses white and red,

Here's roses pink and creamy,

Their odors wet and dreamy.

O, Girls!

O, girls, the world is bummy.

Full of rays of light.

Crazy do not deem me.

I'm wild with sweet delight.

A little band of gold,

A kiss, a hug, did fee me;

Ladies, young and old,

How'd you like to be me?

O, girls, girls, girls.

Girls, girls, girls, girls.

Girls, girls, girls, girls.

Hither come and feel me.

His hoop of gold did fee me.

Here he comes to steal me—

How'd you like to be me?

—The Khan.

AN EFFECTIVE CURE

Canoing on the picturesque Thames in the vicinity of Chatham is rendered perilous by the conduct of young cubs bathing in the river, who surround and rock the cranky craft to the terror of the occupants. These hoodlums cannot be shot or clubbed, but a spraying bulb filled with the ordinary commercial ammonia of the stores will do the trick effectively. A slight discharge will induce such a fit of sneezing as will drive a cub of the canine or human variety to shore in short order, and the experience remains in the memory.—Windsor Record.

NOTICE

To the Officers and Members of Chatham Tent No. 8, K. O. T. M.: You are requested to meet at your lodge room at two o'clock sharp, Sunday, June 24, to attend memorial services at the cemetery. The procession will march to the cemetery headed by the Regimental Band. There are fifteen graves to be decorated. An invitation is extended to all visiting brethren.

IN THE SENATE.

Ottawa, June 16.—In the Senate yesterday, on motion for the third reading of a bill to incorporate the Pacific & Eastern Railway Co., a line from Victoria, B. C. to Port Churchill, on Hudson Bay, Senator McMillan moved in amendment that the portion of the line from Edmonton to Port Churchill should be dropped. After some discussion, the amendment was defeated by 23 to 15.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reliable physicians, as the damage they will do is ten-fold to the good they possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the seat of the disease. It cures catarrh of the nose and throat, and all mucous surfaces of the system. In buying Hall's Catarrh Cure, you get the genuine. It is sold internally and made in Toledo, O., by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c. per bottle.

Take Hall's Family Pills for constipation.

Two Conservatives Unopposed.

Rumors Why Sir Wilfrid Threw Him to the Lions.

Did the Premier Threaten to Resign if the Quebec Members Voted Against Him?—Something Was Said Between 6 and 8 o'clock Thursday Which Caused the Premier to Support Hon. Geo. E. Foster.

Ottawa, June 16.—Rumors of all kinds are flying about to explain why Mr. Cinqmars was thrown to the lions Thursday. Followed as it was by the abrupt turn-down of the Minister of Justice in the Brother case, it is difficult to see how Mr. Aylesworth can save his face, except by resignation.

Quebec Liberals are, of course, incensed, but not more so than some of the far western members.

It is claimed that Sir Wilfrid Laurier retreated on account of a threat to summon the owner of La Presse. There are reasons why the Government prefers to have that ownership remain a mystery.

One thing is certain, something was said or done between 6 and 8 o'clock Thursday night with the result that Cinqmars was put to the sword, although the Premier in substance endorsed and repeated the concrete charges of his abusive publications.

Threatened to Resign.

Ottawa, June 16.—(Toronto News Special.)—The impression prevailed yesterday morning that Sir Wilfrid Laurier faced a sharp little crisis Thursday over the Cinqmars case.

As the debate went on it got abroad in the Government ranks that the Premier had decided to support Mr. Foster, and there was intense indignation, especially among the Quebec Liberals. A hurried caucus of French-Canadian members and one or two others, it was understood, was held, and it was decided to see the Premier, and inform him of their determination to support Mr. Cinqmars.

This was done, but Sir Wilfrid Laurier was not to be coerced.

The threat had no effect at all on the Premier beyond making him more than ever determined to persevere in his course. His reply was that if they voted against his resolution he would resign and appeal to the country.

WHAT WOULD ANSWER BE?

A Disallowed Query to the Doctor of the "Arctic" Expedition.

Ottawa, June 16.—Before the "Arctic" committee yesterday afternoon, Dr. Flood said that only one tribe of Esquimaux came on board the Arctic. Another tribe went on board the U. S. whaler Era. Only the women danced, as a rule. Mr. Northrup asked if the Esquimaux women went on board ship at night on occasions other than the dances, but R. S. Macpherson, who was in the chair, disallowed the question.

As regards the champagne, Dr. Flood said it had only been given out at first for medical purposes, but it was afterwards used for christening "Laurier Cape" and "Prestonville Bay."

The medical appliances which had been purchased were still at Sorel, he said. Some of the medical supplies had been left for the mounted police.

The witness said it was almost a necessity to have natives around a vessel in the north. Particularly for a whaler, it was desirable to have them, for they knew the waters better than the white men. He said, in reply to Mr. Carvell, that they found the natives extremely honest.

M. H. Weeks of Newport, N. S., purser on board the Arctic, said his duties at Quebec were to check the goods as they were received at the ship. The pads on which he jotted down the supplies were handed over to the Government.

Mr. Bennett pointed out that he had signed for goods which had been placed on board before he arrived.

Mr. Weeks replied that his superior officer, Captain Bernier, had said the goods had come, and told him to sign.

There were invoices for goods amounting to \$11,120, which he had signed under these conditions. He could not swear to quantities, though he believed the different varieties were on board.

FIELDING'S FAIR WARNING.

Insurance Bills Subject to Changes Following Commission's Report.

Ottawa, June 16.—When the committee on banking and commerce met yesterday to consider an act to incorporate the Sherrill Life Assurance Co., Hon. W. S. Fielding made an announcement in regard to the policy of the Government in affecting insurance bills.

The Finance Minister said that owing to the enquiry which was now being made into insurance he intended asking Parliament to make whatever bills were passed this session subject to any general legislation that may be necessary as a result of the investigation.

"I think it is best to take the course," said Mr. Fielding, "than to prevent the bills going through. I will make a statement in Parliament to this effect. It will not do for these companies, which we are chartering this session, to come here, and say that they have certain rights which will not make them come under whatever general legislation may be found necessary."

The Sterling Life Assurance bill was then reported.

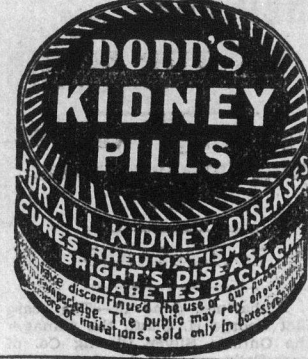

Pentitentiary Revision.

Ottawa, June 16.—Mr. Lennox (S. Simcoe) presented his bill in the House yesterday respecting the judges of provincial courts. It forbids the judges to act as arbitrators.

Mr. Aylesworth opined that the bill, as drawn, would add nothing to the law of last session.

The other part of the afternoon was consumed in discussing Mr. Aylesworth's bill respecting penitentiaries. It seeks to modify and revise the existing statutes relating to the various penitentiaries.

At the evening session the House passed the penitentiaries bill and considered at length the provisions of the Immigration Act. The proposed heat tax of \$2 assessed some attention. Mr. Oliver insisted that he would bring

down legislation at a later date in the shape of a separate bill.

Mr. Oliver has amended his Forest Reserve Act so as to bring the timber berths heretofore granted under better control of the Government.

The Railway Committee.

Ottawa, June 16.—The first bill considered by the Commons railway committee yesterday was an application for renewal of the charter rights of Southern Central Pacific Railway Co., which was given the right three years ago to build from Vancouver to Hudson Bay. The measure was held over till the next meeting.

A bill to incorporate the Cobalt Range Railway, which is promoted by the Lake Temiskaming Co., was then reported. The company is given the right to build a 75-mile line from Haliburton southward to connect with the present terminus of the Lake Temiskaming Railway.

The James' Bay Railway Co. (MacKenzie & Mann) asked power to build from the main line connecting with Key Inlet on Georgian Bay, and for power also to follow the west instead of the east side of Lake Winipic.

Mr. Moore, secretary of the James' Bay Co., explained that it had been found impossible to get a suitable grade through Sudbury. Mr. MacKenzie insisted that MacKenzie & Mann's promise should be kept by compelling them to build a loop. Mr. Moore opposed this, and was upheld by the committee.

SELL YOUR COULD FOR \$1?

You surely won't stop at a dollar bill to cure that horrid, sniffling cold. Go to any drugist and get "Catarrhizer" and your cold will be a thing of the past. There is almost nothing in the swift way Catarrhizer kills colds. But when you consider the penetrating, healing and antiseptic qualities of Catarrhizer, perhaps it's not so wonderful. Certainly there is no remedy half so prompt for colds and catarrh as Catarrhizer. Refuse a substitute and insist on having only "Catarrhizer."

Sue For Smoke Damages.

Winnipeg, Man., June 16.—Seven property owners of Mainway avenue have entered action for \$5,000 damages each from the Winnipeg Street Railway on account of the smoke nuisance and damage in the operation of the company's power plant. They have also asked for an injunction against the company.

WHY DO WOMEN SUFFER?

Such pain and endure the torture of nervous headache when 25c buys a sure cure like Nerviline. A few drops in sweetened water brings un-failing relief. You feel better, and, once you're braced up, invigorated, headache goes away, after one dose. The occasional use of Nerviline prevents indigestion and stomach distress. Every woman needs Nerviline, and should use it, too. In 25c bottles, everywhere.

It May Be Dr. Osler.

Toronto, June 16.—It is rumored here that Dr. Wm. Osler, regius professor at Oxford University, has been elected to the presidency of the University of Toronto, and that only the matter of salary and a few minor conditions stand between his acceptance of the post.

Admitted to English Bar.

London, June 16.—Hamar Greenwood has passed the final examination for admission to the bar. W. O. Malcott, Toronto University, has passed the examination, and is admitted a Fellow of the Royal College of Surgeons.

"Have by some surgeon, Shylock, on this charge to stop his wounds, lest he do bleed to death." People can bleed to death. The loss of blood weakens the body. It must follow that gain of blood gives the body strength. The strengthening effect of Dr. Pierce's Golden Medical Discovery is in large part due to its action on the blood-making glands and the increased supply of pure, rich blood it produces. It is only when the blood is impoverished and impure that disease finds a soil in which to root. The "Discovery" purifies the blood and makes it antagonistic to disease. When the body is emaciated, the lungs are weak, and there is obstinate lingering cough, "Golden Medical Discovery" puts the body on a fighting footing against disease, increases the vitality that disease has taken off, and physical health perfectly and permanently restored. It has cured thousands who were hopeless and helpless, and who had tried all other means of cure without avail.

Thirty-one one-cent stamps to cover expense of mailing and customs will obtain a copy of Dr. Pierce's Common Sense Medical Advice, 106 pages, in paper cover. Send 50 stamps if cloth binding is preferred. Address Dr. R. V. Pierce, Buffalo, N. Y.

CONTROL OF ENERGY.

Is It Possible For the Human Race to Avert Extinction?

The only conceivable way in which the human intelligence can ever succeed in averting the "procession of the great year" is not by postponing the issue, but by reversing the process. The question is this: While energy is being dissipated in accordance with the natural law, can we so manipulate things as to accumulate energy, making the unavailable available—notwithstanding the fact that cosmic processes seem to be essentially irreversible? Now there is assuredly no inherent reason why we should not accomplish this. It is true that hitherto all the atomic evolution that has been observed is atomic disintegration. We may speak now, indeed, of the analysis of the elements. But so it was, we may remember, that the older chemistry began, and yet analytic chemistry was the precursor of synthetic chemistry. We began by breaking up compounds, but now we can make them—can, indeed, make compounds hitherto unknown in nature. Similarly, it is more than probable that we shall eventually learn to achieve the synthesis of the elements as well as their analysis. No energy is ever lost. Even when the radium atom, itself the child of the uranium atom, breaks down and dissipates its energy, ending, it is supposed, as the dull atom of lead, the original energies are not destroyed. Why should they not be gathered up again and thus again become available? Are matter and energy to go pa their way, ultimately destroying the human race? For myself, I incline to the view that victory will rest at last with "man's unconquerable mind."—C. W. Saleeby, F. R. S., in Harper's Magazine.

LIZARDS OF BARBADOS.

They Can Change Color and Drop Their Tails at Will.

The green lizards which swarm on every tree certainly have the hardest life of any creatures in Barbados, since their flesh is so delicate that everything eats them which can catch them. Cats, fowls, birds, monkeys and snakes all devour the poor lizards, which have only two methods of defending themselves, both very inadequate for the purpose. One is their power of changing their color, whereby they can appear bright green at one moment on the leaf of an aloe and then dark chocolate brown on a piece of damp earth. If this does not conceal them from their enemy they drop their tails. The caudal appendage jumps from the ground and makes a frantic dance all by itself, and if the pursuer is deluded into seizing it the lizard avails itself of the chance to escape and grow another tail.

For the rest the poor lizards are harmless things, with pathetic eyes, in which lurks an expression of weariness and disillusion, as though they were as old as the world itself and had found it all vanity and vexation of spirit. They are fond of plaintive music and will enter at the open windows when a piano is playing and sit listening and nodding their queer flat heads and looking up at those wistful eyes at the player till he ceases, if of an imaginative temperament, might fancy they were playing to an audience of transmigrating souls.—Chambers' Journal.

Cigar Smoke and Love.

In Spain the lighting of a cigar indicates a betrothal. In that country a person wishing to become betrothed to the girl of his choice offers her a dowry or takes a light from a cigar or a cigarette if she happens to have one in her mouth, and thereupon, provided there is no impediment in the birth months and years of the respective parties, steps are at once taken to arrange for the payment of the dowry. The families of the bride and bridegroom have each to provide at least \$1,000. In California, as in certain parts of India, a lighted taper or a lighted pipe betokens the acceptance of the suitor for the hand of a lady in marriage. In Siberia it is the custom by a girl to present him with a box of cigars and a pair of slippers as a sign that he is to be master in the house.

An Oddity in Toes and Digits.

There is one curious fact respecting the animal creation with which you will never become acquainted if you depend on your text books for information. It is this: No living representative of the animal kingdom has more than five toes, digits or claws to each foot, hand or limb. The horse is the type of one-toed creature; the camel of the two-toed; the rhinoceros of the three-toed and the hippopotamus of four-toed animal life. The elephant and hundreds of other animals belonging to different orders belong to the great five-toed tribe.

Useless Labor.

Teacher—Johnny, I don't believe you have studied your geography. Johnny—No, mmm. I heard pa say the map of the world was changin' every day, an' I thought I'd wait a few years till things get settled.

Six Months in "2 in 1."

A Consulting Chemist Makes a Novel Experiment. An Unsolicited Letter that Explains Itself.

"I write to state that on account of your '2 in 1' Shoe Polish being criticized, and the charge made that it injured leather, I made this test as follows:

I mixed the contents of a box of '2 in 1' Shoe Polish, bought at a retail store from regular stock, with four ounces of water and into this mixture put a kid glove, and left the said glove in the mixture in a bottle from June 15th to December 15th, 1905—a full six months. I then took the glove out, washed it and examined it. The fine leather of the glove was not affected in the least. It was as pliable and soft as when new, and was not altered in condition, nor were the stitches affected in any way. This test, I consider, proves that '2 in 1' does not injure the finest leather.

I hereby state that these facts are correct and true.

FUNERAL OF SIR HECTOR.

Hundreds of Old Friends and Admirers at the Grave.

Quebec, June 16.—The funeral of Sir Hector Langevin took place at 9.15 o'clock yesterday morning to the basilica, with great pomp. The interior of the sacred edifice had been magnificently draped, the decorations being the most lavish since the funeral of the late Cardinal Taschereau.

The remains were accompanied to the church by hundreds of old friends and admirers of the late distinguished statesman. Among those who attended were: Sir L. A. Jette, Lieutenant-Governor of the Province of Quebec; Sir C. P. Pelletier, chief justice; F. Langlois, Sir Adolphe Caron, Sir Mackenzie Bowell, Senator Jules Taschereau, Hon. L. P. Pelletier, Hon. E. J. Flynn, ex-chief justice; A. B. Douthett, Hon. Lomer Gouin, Prime Minister of the Province of Quebec; F. D. Monk, M. P.

In the absence of His Grace, Archbishop Begin, Mgr. Marois, V. G., officiated. The remains were interred in the Hotel Dieu Chapel.
