CHRISTENING

Quite an interesting event took place at the residence of Mr. and Mrs. Thos. McIntyre, Salkirk street, last evening, when their infant daughter was christened. Letts Eloise. Rev. A. H. MacGillivray, pastor of the First Presbyterian church, officiated, and a number of the friends and relatives of the proud parents were present. An unique feature of the christening was the fact that the robe worn by the little one was the same as that which was worn by her father and grandmother on similar occasions.

ALD AUSTIN MAY RUN

Another Probable Candidate In The Mayoralty Field

Is it too Early For Him to Give out Definite Information

The chances are that the mayoralty campaign for 1908 will be one of the most keenly contested in years, and there appears to be all kinds of good material willing to come out. The candidature of Ald. Potter and ex-Ald. Scullard, as announced in last evening's issue of The Planet, is now looked upon as a certainty. These two gentlemen with the field to themselves should put up an interesting contest. But it is understood that should Mayor Stone drop out, as he has once or twice hinted at, Aldermen Hensen and Austin will be seen in the running.

A Planet reporter met Ald. Austin in City Treasurer Fleming's office in Harrison Hall this morning, and asked him what truth there was in the rumor that he would be a candidate.

"It is too early for me to say anything with regard to this matter yet," replied the Civic Finance Minister. "The fact is that I have not yet even given it a thought, though I must admit that a number of friends have approached me with regard to it. At present I am too busy at my store to divide my attention with anything else."

Ald. Austin hinted that a little later on there might be something definite to give out with regard to the mayoralty campaign.

A COUNTY PIONEER

Death Claims Mr. Samuel Fleming, One of The County's Most Esteemed Farmers

After an illness extending over a period of seven months, Mr. Samuel Fleming, one of Kent's most highly respected farmers, passed away yesterday at his home on Park avenue. Deceased was 73 years, 7 months and 13 days old, and had lived in this County for the most of his life. The immediate cause of death was heart failure.

The late Mr. Fleming was born in Moss Township, in the County of Middlesex, and came to this County when he was a young man 25 years of age. At that time he settled down on a farm on lot 19 of the 2nd concession, Chatham Township, and there he worked for the greater part of his life. Four years ago he retired to enjoy the fruits of his labors, and he purchased a home on Park avenue. He enjoyed fairly good health until he was taken ill about seven months ago. Since that time he has been quite poorly, and he gradually got weaker until his illness resulted in death.

Besides his widow, who herself is not at present in the best of health, three children survive. They are Mrs. Wellman of Racine, Wisconsin, Miss Alice at home, and Wilfrid M. Fleming of the Sutherland-Innes Company, this city. He is also survived by one brother, J. B. Fleming, of London, and one sister, Mrs. John Pearce, of this city.

The funeral will be conducted by Rev. Dr. Daniel, pastor of the Park street Methodist church, of which church deceased was a staunch member. Interment will be made in the Maple Leaf cemetery. The service will be conducted privately for the immediate friends and relatives at the late home of the deceased gentleman on Saturday afternoon at three o'clock.

PRIEST'S SOLEMN ADMONITION.

Diphtheria Epidemic in Quebec Village Caused by Negligence.

Ottawa, Sept. 25.—An epidemic of diphtheria is raging at Quebec, Quebec, near here. There have been two deaths there in a week. Three families are now down with the disease, the schools and churches are closed. The provincial health officer was asked to go there, and the village may possibly have to be quarantined.

At the Kennedy Hotel, the whole family of 13 had it. Miss Nellie Casey, a relative who was there on a visit, contracted the disease. She came down to the Water street Hospital, but it was stated at the institution that she was immediately sent to the Isolation Hospital, where she died.

There appears to have been gross negligence somewhere, and it is alleged, Rev. Father Kiernan, Sunday, said that whoever was responsible for handling death to his neighbor was equal to a murderer.

The disease has been in the village for five or six weeks. Life may be short, but there is always time enough for courtesy.

IT SHOULD BE STOPPED

Petty Thieving Said to be Prevalent on Residential Street

Immigrant Children Are Blamed—Source of Nuisance

Thieving is daily going on on one of our residential streets. Several houses, it is claimed, have been entered, and a great deal of outside property has been lifted.

The disappearance of many articles is attributed to the work of a number of young children, the oldest not more than twelve years, who are daily seen carrying things that it is claimed do not belong to them, to their home. It is claimed they belong to an English family who came out lately through the immigration agencies. They may see no harm or crime in lifting other people's property, but surely their parents do. The parents in allowing the children to carry stolen articles, home are, in accepting them, committing a greater crime than the youngsters are in taking them.

A certain lady on the street who is away from home on holidays is one to whose property the youngsters are said to have made themselves known. They have it is claimed, carried away all the wood they could find, and it is estimated that there was a couple of cords. A neighbor told some children he saw in the yard to stop taking the wood, but his remark was unheeded. The lady next door has an apple tree, heavy laden with fruit, and the fruit has disappeared in the same manner.

Another resident who had a fine garden of tomatoes is lamenting over the loss of his fruit. Several neighbors are greatly in sympathy with the youngsters, as it is claimed they are really in need of the things they have taken, while others state that if such work has commenced this early in the fall, what will be the result when the cold weather comes on.

SHOOTING IS GOOD

Indications Point to a Most Successful Duck Season—Birds are Plentiful

The present indications go to prove that the duck shooting this fall will be exceptionally good. Wild duck are more plentiful this year than they were last year, which is due to the abundant amount of feed which is to be seen this year in the marsh and low lands. Wild rice and wild celery is to be seen in large quantities, and this is the main food of the wild duck. The carp season has been very late this year, the spawning season not beginning until along in the summer, on account of the late spring. As a result, the carp, which usually rooted out and destroyed the rice and celery, when in their infantile stage, were not large enough to do so this year before the herbs got a good start. The northern ducks are coming in fast, thus indicating an early fall. The breeding season has been very good on account of the fine weather. The gray, blacks and teal, which breed in the marshes here are very numerous this year. The duck season opened on September 1st, but as yet little has been done in the shooting line. The season will undoubtedly be a good one.

PARK—CARRY

A very pretty event was solemnized yesterday afternoon at the residence of Mr. and Mrs. Carry, concession 2, Harwich township, when their youngest daughter, Miss Grace, was united in marriage to Mr. William E. Park, city editor of the News.

At six o'clock the bride entered the drawing room, leaning on the arm of her father, by whom she was given away. The ceremony was performed by Rev. Robert McCosh, rector of Christ Church. Miss Fanny Carry, sister of the bride, was bridesmaid, and Mr. S. F. Park, brother of the groom, was best man. The bride was becomingly attired in cream silk and carried white roses, and the bridesmaid looked charming in white silk organdie, and carried a bouquet of pink roses. The presents were numerous and costly, showing the high esteem in which the young couple are held.

After the marriage ceremony was completed, all sat down to a sumptuous wedding dinner. The immediate relatives of the contracting parties were all that were present. A most enjoyable time was spent during the evening and the happy couple received many good wishes and congratulations.

They will take up their residence on McKeough avenue and will be at home to their friends after November 5th.

THE ZOO BY NIGHT.

Gleaming Eyes in the Blackness Give a Flavor of the Wilds.

The average grownup who visits the zoo thinks it rather a dull sort of show, for the fact that the animals are captive robs them of all the romance that would attach to them in their native forests.

But let the blaze sightseer obtain permission to visit the zoo at midnight, and his impressions will be very different. Darkness hides the bars and the boards, and the eyes of some wakeful creature gleam maliciously at you. For the moment you imagine that you are in the wilds, on equal terms with the creatures around.

Poised on the swings and platforms at the top of their cages sleep the monkeys, instinct surviving their loss of freedom, for in the forests they had to sleep thus to avoid the beasts of prey.

Here rests a lioness, prone upon her back, her legs rigid in the air and her paws hanging limply down. There reclines her lord, asleep upon his side, his paws turned in and his general pose not unlike that of a dog.

The more cunning and more cowardly of the animals do not seem to sleep at all, for as soon as they hear our approaching footsteps they give us their greeting with snarl and malevolent growling and watch us suspiciously till we depart.

TEPEE ETIQUETTE.

Never Pass Between an Indian and the Fire—The Seat of Honor.

"If you should ever go into an Indian tepee," said John H. Seger, "remember they have rules of etiquette that are more rigidly adhered to than in our parlors.

"Do not think they are not sensitive, for they are more so than the Japs. If you make fun of his layout the whole family will remember the insult for a lifetime.

"The seat of honor is just opposite the door, across the fire pit. Wait until you are invited before you take that seat.

"If you go bolting into an Indian's tepee and rush over and take this vacant seat he may not take you by the nose of the neck and throw you out, but he would like to if he thought it could be done, without cutting off his rations.

"In leaving the tepees never pass between any one and the fire. An old chivalric warrior will crawl around the side of the tent and kick a hole in the wall on the north side in a blizzard before he would violate this rule of etiquette and pass between his guests and the smoking embers."

Soldiers and Schiller.

The Germans are notoriously a well educated people, but the popular English belief that every German knows everything would appear to be exaggerated, if we may judge from a German officer's account, published in one of the German reviews, of an examination in general knowledge to which he submitted his company. "Who was Schiller?" was one of the principal questions. Ten soldiers replied that, though they fancied they had heard the name, it suggested nothing to them. Of those who went into details, one said that the author of "William Tell" was the "inventor of printing," a second described him as "a man who knew everything," a third put him down as "a man of science," a fourth as "a poet who wrote Scripture history," a fifth as "a musician of great celebrity," and a sixth as "a manufacturer of bells." One wonders what Thomas Atkins would answer if invited to state what he knew of Shakespeare.

He Didn't Dine.

Mr. Brown had just had a telephone put in connecting his office and home and was very much pleased with it. "I tell you, Smith," he was saying, "this telephone business is a wonderful thing. I want you to dine with me this evening, and I will notify Mrs. Brown to expect you on this evening." Speaking through the telephone—"My friend Smith will dine with us this evening." Then to his friend—"Now, listen and hear how plain her reply comes back." Mrs. Brown's reply came back with startling distinctness: "Ask your friend Smith if he thinks we keep a hotel."

Didn't Want Much.

Here is an advertisement from an old copy of an English provincial journal: "Wanted, for a sober family, a man of light weight, who fears the Lord and can drive a pair of horses. He must occasionally wait at table, join the household prayer, look after the horses and read a chapter of the Bible. He must, God willing, arise at 7 o'clock in the morning and obey his master and mistress in all lawful commands; if he can dress hair, sing psalms and play at cribbage, the more agreeable. Wages, 15 guineas a year."

Nerve.

"By the way, Jinks, can you pay that hundred I lent you last week? I just lost all my ready money at bridge."

"Look here, Binks, I hope you don't think I'm going to pay your gambling debts."

His Mistake.

Gallyer—What mistakes men do make! I was just reading that Columbus thought he had discovered the Indies. Aspley—There are worse mistakes than that. When I married first I thought I had discovered paradise!

There are so many kinds of mistakes that a man can go through life without repeating one and yet never do right.

YORKSHIRE PIES.

Here is the Way They Were Made in the Olden Days.

The delicacy of the Yorkshire pies of olden days may be judged by the following recipe from an old fashioned cookery book: "First make a good standing crust, let the wall and bottom be very thick; bone a turkey, a goose, a fowl, a partridge and a pigeon; season them all very well; take half an ounce of mace, half an ounce of nutmegs, a quarter of an ounce of cloves and half an ounce of black pepper, all beat fine together; two large spoonfuls of salt, and then mix them together. Open the fowls all down the back and bone them, first the pigeon, then the partridge; cover them; then the fowl, then the goose and then the turkey, which must be large; season them all well first and lay them in the crust so that it will look only like a whole turkey; then have a hare ready caud and wiped with a clean cloth; cut it to pieces—that is, joint it; season it; and lay it as close as you can on one side; on the other side woodcock, more game and what sort of wild fowl you can get. Season them well and lay them close, put at least four pounds of butter into the pie, then lay on your lid, which must be a very thick one, and let it be well baked. It must have a very hot oven and will take at least four hours." It is not surprising to find that a footnote adds that the crust requires a bushel of flour.—Chambers' Journal.

ASK MORE PROTECTION

Canadian Manufacturers' Association Meets at Toronto.

President Cockshutt Says Manufacturing Is Not Gaining in Home Market—Advocates Export Duty on Pulpwood—References to Labor Situation and the Transportation Question.

Toronto, Sept. 25.—A plea for more adequate protection was the keynote of the address delivered by Mr. H. Cockshutt, the retiring president of the Canadian Manufacturers' Association, at the opening of the 31st annual convention of that body in the King Edward yesterday. Nearly 300 delegates registered in the course of the day, and others are expected later. Shortly after 10 o'clock a beginning was made with the business of the convention, five different sections, the manufacturing grocers, furniture, engine and boiler, manufacturing jewelers and agricultural implement manufacturers, holding meetings to discuss their respective interests. At noon the woolen, stove and paper box sections met, and at 2 o'clock the first general meeting was held. After reports had been submitted by the secretary and treasurer, an address on "Progress of Canada in the Twentieth Century" was delivered by Mr. Archibald Blue, chief officer of the Dominion census.

President's Address.

The president, Mr. H. Cockshutt, in his address dwelt on the importance of manufacturing, giving statistics to show its growth and pre-eminence among the industries. Substantial as the growth had been, however, Canadian manufacturers had no more than kept pace with the expansion in other directions. At any rate, they had not materially strengthened their hold on the home market. Relatively speaking, they were in the same position to-day that they were five years ago. Their capital had increased, their wage-bill had increased, but their share in the Canadian market had remained practically at a standstill. The trade and navigation returns gave further evidence of the fact that they were not progressing as they should. Ever since 1901 their imports had been increasing much more rapidly than their exports, with the result that a balance of trade in their favor that year of \$6,072,100 had for the twelve months ending June last been converted into an adverse balance of \$104,476,142. By the adoption of a policy sufficiently protective, such as the association had always advocated, capital would be irresistibly attracted by the opportunities afforded in Canada. Their home market would be supplied by home industries, manufacturing would become more specialized, the cost of production would be reduced, and a substantial beginning would be made towards the development of an export trade that would successfully carry them over any ordinary period of domestic depression. He regretted that the significance of the figures did not appeal to the Government when making their revision of the tariff. They asked for a tariff whose minimum protection would be high enough to reserve the home market for the Canadian manufacturer. They realized, however, that there were many articles they did not and could not produce in Canada, and when it became necessary for them to go abroad they believed in a preference which would give the Mother Country and their sister colonies the refusal of their trade before passing it on to foreigners. Their motto was: "Keep your money in circulation at home by buying goods made in Canada, and when you cannot get what you want at home buy within the British Empire."

The Labor Situation.

A further obstacle to natural expansion of the manufacturing enterprises was the scarcity of skilled labor, and to solve the difficulty they must either import more artisans from other countries or provide educational facilities whereby young Canadians would be able to qualify themselves for the most important positions in their factories. He regretted that the Government had not seen its way clear to meet the wishes of the association in regard to the immigration of skilled mechanics and had hesitated to act in the matter of technical education. One of the most regrettable features of the labor situation was the steady growth in the number and importance of industrial disputes, and the association would be undertaking a noble work if it would devise means of reducing the number of industrial disputes.

Transportation Question.

The president then emphasized what he regarded as the inadequacy of their transportation facilities, contending that the present equipment of Canadian lines was far from sufficient to meet the demands made upon them by the Canadian shipping public. He quoted figures to show that the companies were making little progress towards taking care of the growing volume of traffic on the older portion of their lines, and regarded the condition of affairs thus created as a national calamity. Railway companies had spent their money in building new lines through undeveloped country when they should have spent it in properly equipping the ones already in operation.

Asleep on Track.

Brookville, Sept. 25.—In an intoxicated condition, Nelson Blair, a local character, laid down on the tracks in the G. T. R. yards here and fell asleep. A light engine crashed his two limbs, and amputation was made. He is a middle-aged man and will likely recover.

Killed by a Train.

Peterboro, Sept. 25.—James Kelly, a G. T. R. sectionman, aged 33 years, was killed Monday night about a mile east of Birdall's station. He left Hastings early in the evening to walk home and was struck by an express.

GEN. FRENCH'S NEW POST.

Brilliant Cavalry Leader to Be Inspector-General of the Forces.

It has been officially announced by the War Office that Gen. Sir John French, on relinquishing his command at Aldershot, will succeed the Duke of Connaught as Inspector-General of the Forces, Sir John's post at Aldershot being occupied by Lieut.-Gen. H. L. Smith-Dorrien, commander of the 4th (Queen's) division of the army in India.

Gen. French served in the royal navy for four years before receiving a commission in the 8th Hussars in 1874, and transferred to the 19th Hussars, in which regiment he served in the Sudan campaign in 1894-5, and in the actions of Abu Klea, Gubat, and Metemneh. He commanded the regiment from 1899 to 1903, was employed as assistant adjutant-general

of cavalry on the staff 1893-4, appointed assistant adjutant-general at headquarters 1895, and served there until 1897, when he was appointed brigadier to command the 2nd cavalry brigade.

He was transferred as temporary major-general to the first cavalry brigade at Aldershot in 1899, and appointed major-general to command the cavalry division in Natal in the same year, and subsequently had charge of the cavalry division in Lord Roberts' forces throughout the operations ending in the capture of Bloemfontein and Pretoria.

Lieut.-Gen. Smith-Dorrien served in the Zulu war (1879), the Egyptian war (1882), the Sudan campaign (1885), and the Sudan Frontier Field Force (1885-6). He was in the Chitral Relief Force in 1889, served on the northwest frontier of India (1897-8), and in the Nile expedition (1898). He was major-general commanding the 19th brigade in South Africa in 1900, and was adjutant-general in India from October, 1901, to May, 1903.

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. E. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merit, and made them remedies of known composition.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the closest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomachs, torpid liver or biliousness, and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter to Dr. E. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents, and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's medicines are the same as those of the most valuable medicines contained in the "Favorite Prescription," a most efficient remedy for regulating all the womanly functions, correcting all the various troubles, antenatal and postnatal, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

WAS. PRESENTED PANDER TO THE UNIONS

Daniel Bardwell Receives Gift From Employees of Gray's Carriage Works

At six o'clock last evening, the fellow employees of Mr. Daniel Bardwell, of this city, an employee of the Gray & Sons' factory for 26 years, called a meeting of the workmen of the factory and presented him with a purse of gold as a remembrance. He has resigned his position at the factory and in the future will live retired, with his daughter in Detroit.

The following address was read by F. C. Knight, and the presentation was made by W. A. Moore:

Mr. Daniel Bardwell, Chatham, Ont.: Dear Sir,—We learn with regret that you are about to leave the employ of the Wm. Gray & Sons Co., Limited, and while it gives us pleasure to infer that in so doing you are to realize the benefits accruing from a life of industry and thrift, we cannot but regard with concern the separation it involves.

Since your entry into the Company's service, more than 26 years ago, you have made many friends in the offices and works, who will miss your presence more than perhaps they now realize. In your experience in the factories you will have seen many changes, which, no doubt, called forth from you the mechanical efforts which have marked you as a wagon builder of the first degree. It has always seemed to be your aim to treat everyone with courtesy and respect, carefully guarding such interests as were committed to you, and performing your duties pleasantly and with a kindly regard for those with whom you came in contact. These qualities are always appreciated in every position of life, and cannot fail to make friends with their possessor. They have made many for you, who are sorry to learn that the pleasant relations of years gone by are to be interrupted.

Having said this much, however, we have no thoughts but pleasant ones, as we picture you in the enjoyment of that rest which a busy life well spent, merits, and this we feel is your just reward.

We know that you will not forget old friends, and as a memento of bygone days, we ask your acceptance of the accompanying purse of gold, which, we trust, will be received by you as a slight token of the esteem in which you are held by your fellow employees and associates. Allow us to express our best wishes for yourself, Mrs. Bardwell, and your family, and best wishes for all happiness and prosperity in your new home, together with good friends and agreeable associates.

Yours faithfully,
Signed on behalf of the employees,
HUGH OARR,
F. C. KNIGHT,
W. A. MOORE.

A suitable reply was made by Mr. Bardwell, in which he thanked his friends for their kind remembrance. The meeting closed by the singing of "He's a Jolly Good Fellow."

Chatham, Ont., Sept. 25th, 1907.

SPORT

CRICKET

BRUNDAGE WINS BAT.

The Cleveland Leader of last Monday gives a picture of the D. A. C. cricket team, in which Messrs. Claude Brundage and Chum. Aiken are to be seen in the front row.

The game which was played on Saturday in Cleveland was between the D. A. C. team and Pittsburgh, the latter team winning by 38 runs.

This places the Pittsburgh team at the head of the league, who are thus the winners of the trophy. During the game Detroit had 20 runs up with a loss of only one wicket, and at the end of the 34th run they had lost eight wickets. Brundage was not in very good form and failed to connect with the bowlers. He is, nevertheless, the winner of the bat given for the highest batting average. His score was 25 runs per innings. In the game Saturday, L. Hibbard topped the score with 22 runs and Mr. Aiken followed with a score of 16 runs, and not out. This completes the series of games in the Middle West League and places Pittsburgh at the head.

Charge is Levelled Against The Dominion Government

Revised Tariff Turns Out to be Entirely Unsatisfactory

Toronto, Sept. 26.—The Canadian Manufacturers' Association believes that the powers that be show a great deal too much consideration for the Labor party. At least, this sentiment was very strongly expressed by speakers who participated in the discussions on the various reports presented at the convention yesterday. It cropped out when the meeting was considering the report of the Parliamentary committee, and it was also in evidence as the tariff committee's report was being dealt with.

The discussion on the latter document, which was presented by W. K. George, centred round a motion of E. G. Henderson of Windsor, that the report be amended by striking out the sentence, "We believe that, as in the past, our attitude on this question should be entirely outside party politics." He believed that it was better to eliminate all reference to political issues. This brought several members to their feet and for some time the debate was quite lively.

In the end the amendment was lost and, on motion of W. K. George, chairman of committee, the report was adopted as a whole. The report contained the revision of the tariff as entirely unsatisfactory and declares the aim of the association to be to secure first, a tariff which would furnish relief to industries now suffering from unequal competition, and second, one which would protect the position of life, and cannot fail to make friends with their possessor. They have made many for you, who are sorry to learn that the pleasant relations of years gone by are to be interrupted.

"We believe that the country, as a whole, is imbued with the idea that Canadian industries must be protected against the products of cheap foreign labor and specialized industries. We also believe that the public realizes more than it has ever done before, that the industries of Canada are providing a large and valuable home market for the products of the farm, and that this feeling should be fostered, and in this reason which will develop them."

Is Labor Favored?

Strong protests against what was termed the indifference of legislative bodies to the interests of manufacturers and their careful consideration of all the demands of organized labor were also voiced in the discussion of the various recommendations of the Parliamentary committee and the report of the British office. The latter was presented by G. M. Murray. It showed that 70 applications had been received to date, coming from 61 different members of the association and asking for 440 workmen. The case was practically operating on a self-sustaining basis. Complaint was made that the Government had declined to recognize the London office, to the extent of referring to it all applicants for information regarding the employment of skilled labor in Canada. This brought forth a vigorous protest from E. G. Henderson of Windsor, who thought it time that a body of so much importance as the association should receive a little better consideration at the hands of the Minister of the Interior.

The first clause dealing with the labor situation, and stated that trade unionism had continued to follow an aggressive course in seeking to further its interests at the expense of the community at large.

The committee contended that the Government's immigration policy against bringing in skilled labor was conceding too much to organized labor, which, it was pointed out, represented less than 10 per cent. of the workers in industrial establishments. It was recommended that the resolution urging the Dominion Government to encourage the immigration of skilled artisans should be reaffirmed.

MYLAND—REID

A pretty wedding took place at the residence of Mrs. J. R. Reid, Stanley avenue, last evening, when her daughter, Miss Edythe Mae, was united in marriage to Mr. George Leslie Myland, a former member of The Planet staff and late of the Wallaceburg Herald-Record. Rev. Dr. Daniels, pastor of Park street Methodist church, tied the nuptial knot.

The wedding was of a private nature, only the immediate friends and relatives of the bride and groom being present. The bride was becomingly gowned in brown. Miss Jennie Reid acted as bridesmaid, and Mr. J. E. Livingstone was groomsmen. The wedding march was rendered by Mrs. George H. Bell, sister of the groom. Guests were present from Mull, Detroit and Cleveland.

The happy couple left on the 9.38 Wabash for points west amid the congratulations of their many friends. On their return they will take up their residence in Chatham.

The Gay Mr. Dooley—Sept. 26.

COMING TO-NIGHT—YOU CANNOT AFFORD TO MISS IT.

It is to laugh. There was a sore man. He was the sorest man in Boston. For his mother-in-law came to visit him. And then he broke his favorite fishing rod. And he cut himself shaving. And he lost at the club four nights running. And someone broke his dog. And his office boy got away and he had to fire him and break in a new one. And a law suit was decided against him, because 'tother chap's lawyer was smarter than his'n. And he missed the train to his office that day. And when he got there he found he had missed an important appointment. And just then notice came in that he was drawn on a jury. And then he passed it all up, yelled "wow, wow, wow!" three times and fled to the water front. He meant to jump off the pier. But he happened to get on a Nantasket steamer and went down to Paragon Park. He said: "I'll jump into the lagoon and drown in sight of the horrified multitude." But he didn't. For as he went by the Opera House he saw the laughing faces in the theatre and he decided to go in with the rest of the crowd. And he laughed and he laughed. Mr. how he laughed. And when he came out he was laughing and decided that he could still buck his troubles for another week. Do you feel blue? Then go to the Opera House to-night.

Executors' Notice to Creditors

In the matter of the estate of Thomas Bennett, late of the Township of Raleigh, in the County of Kent, blacksmith, deceased.

Notice is hereby given, pursuant to section 38, chapter 129, R. S. O. 1897, and amendments thereto, that all persons having claims or demands against the estate of the said Thomas Bennett, deceased, who died on or about the 2nd day of July, 1907, are required to send by post, prepaid, or to deliver to the undersigned, solicitors for Frederick Leslie Bennett and Louis Bennett, both of the said Township of Raleigh, executor and executrix of the estate of the said deceased, or to said executor or executrix, on or before the first day of November, 1907, their Christian and surnames and addresses, with full particulars in writing of their claims and a statement of their accounts and the nature of the securities, if any, held by them, duly verified by statutory declaration. And take notice that after the said first day of November, 1907, the said executor and executrix will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims of which they then have notice; and the said executor and executrix will not be liable for the said assets or any portion thereof to any person or persons of whose claims notice shall not have been received by them at the time of the said distribution.

CRAZY MOTHER'S DEED

Murders Her Three Babies as They Were Sleeping.

Strangles Little Ones With Clothes-line—Then Calmly Told Her Husband to Come Home and See What She Had Done—Had Sudden Attack of Insanity—Does Not Realize End of Her Crime.

Buffalo, Sept. 25.—Early yesterday morning, Mrs. Bertha Mund, aged 37, strangled her three children, Christopher, aged 8 years; Helen, aged 2 years; and Freda, aged 8 months, to death at their home, 925 Clinton street.

Immediately after committing the deeds, she went to the Pennsylvania Railroad yards, where her husband is employed, and informed him of her action.

The children were all sleeping when their mother killed them. She murdered the boy, Christopher, first. He was asleep on a mattress in the parlor. She wrapped a blanket about the boy's head, covering his face, and then tied a clothes-line about his neck, turning it around three times and then drew it tight and fastened it by tying several knots.

The girl, Helen, was asleep in a crib in the parlor. Mrs. Mund wound a clothes-line around the little one's neck twice, and, after strangling the child, she carried the body into the bedroom and put in on the bed, covering it with a quilt.

Freda, the baby, was her next victim. She was asleep in a baby carriage in the kitchen. Mrs. Mund tied a piece of clothes-line about the little one's neck once and fastened it in two knots.

When Mrs. Mund met her husband, she said: "Fred, I have made away with the three children; come home and see."

Mund hurried home, taking his wife with him. When they reached the house, Mrs. Mund sat down at a table and began to cry. Mund notified the police, and the woman was taken into custody. To Superintendent of Police Regan Mrs. Mund made a statement, in which she said: "I killed the children because I did not want them to grow up and be crazy like me."

The police say the woman does not realize the enormity of her crime, and that she killed the children while suffering with an attack of insanity that suddenly seized her. She had been ill with nervous trouble for about six months, but had never, prior to yesterday morning, manifested signs of mental derangement.

Interviewer—I have come to get your views on the proposed change in the curriculum of the school.

Mr. Swelhead—Curriculum! What's that mean? I'm against it, whatever it is.

Mr. Swelhead (reading the report of the interview in the next morning's paper)—"Our distinguished townsman, Mr. M. T. Swelhead, was found at his charming home, surrounded by abundant indications of ripe scholarship and sturdy common sense. In reply to our representative's questions he said, 'I do not desire to force my opinions upon the public, but this I will say, that I have given to this question long and studious attention, incidentally examining upon the curricula of institutions of learning, both at home and abroad, and although I found in the existing course of study not a few matters for condemnation, still I cannot say that I should advise any radical change until I have further time to examine into the subject.' By George, that fellow's got my exact language word for word. And he didn't take notes neither. Jimmy, but what a memory that fellow must have—London Telegraph.

LONDON, Sept. 24.—London cables are firm, but the 1 1/2c per lb. dressed weight; refrigerator best is quoted at 10c per lb.

Toronto Live Stock.

TORONTO, Sept. 24.—Receipts of live stock at the city market since last Friday, as reported by the railways, were 90 carloads, composed of 1251 cattle, 470 hogs, 2123 sheep and lambs, with 186 calves.

Exporters. Few exporters were on sale, but there was one lot of 14, the best on the market for some time, brought in by the Canadian Pacific, his own feeding, weighing 1200 pounds each, that were bought to fill a special order by the Canadian Pacific. Export bulls were quoted at \$3.25 to \$3.50 per cwt. It must be remembered that this sale is no criterion to go by, as there were no other cattle on the market approaching them in quality.

Butchers. Picked lots were quoted at \$4.75; best, \$4.25 to \$4.50; medium, \$3.75 to \$4.15; common, \$3.25 to \$3.50; cows, \$2.75 to \$3.75; canners, \$1 to \$2.

Feeders and Stockers. Few feeders or stockers are being offered. There is a demand for distillery cattle, steers at \$3.25 to \$3.50, bulls at \$2.25 to \$2.50.

Milk Cows. Several Montreal buyers looking for choice and sprightly cows, but common, inferior cows were slow of sale. Prices for the best ranged from \$40 to \$50, while common to medium ranged from \$25 to \$35 each.

Veal Calves. There was a good demand for the best calves of veal calves; prices ranged from \$3 to \$3.25, with a few choice new milk-fed calves at \$7 per cwt.

Sheep and Lambs. Receipts were large, export ewes selling at \$4.25 to \$4.50; rams at \$3 to \$3.50; lambs, \$4.50 to \$5.75 per cwt.

The run was light. Mr. Harris reports prices unchanged at \$1.12 1/2 for select and \$1.07 1/2 for lights and commons. Packers are complaining of the quality of hogs being marketed. There are far too many light pigs, and pigs with coarse heavy frames, that are unfinished, coming on the market. Packers are determined to remedy this by discriminating in price against both these classes. Drovers will do well to leave all such hogs with the farmer to finish.

East Buffalo Cattle Market.

EAST BUFFALO, Sept. 24.—Cattle—Receipts, 250 head; slow and a shade lower; prime steers, \$10 to \$12.50.

Hogs—Receipts, 300 head; active; pigs steady; others, 5c to 10c higher; heavy, \$8.50 to \$9; mixed, \$8 to \$8.50; Yorkers, \$8.50 to \$9; roughs, \$7.25 to \$7.50.

Sheep and lambs—Receipts, 500 head; sheep active and steady; lambs slow and a shade lower; lambs, \$5 to \$5.15.

New York Live Stock.

NEW YORK, Sept. 24.—Beef—Receipts, 1440; no trade reported; feeling steady to firm; exports to-day, 400 quarters of beef; to-morrow, 400 quarters of beef.

Calves—Receipts, 80; market steady, but westerns slow; \$5.50 to \$5.75; culls, \$4 to \$5; light westerns, \$5; grassers, nominal.

Sheep and lambs—Receipts, 234; steady; good lambs in fair demand; sheep, \$3.50 to \$5.50; lambs, \$3.50 to \$7.50; no prime lambs offered; culls, \$4.25 to \$5.25.

Hogs—Receipts, 320; steady at \$6.50 to \$7 for state and Pennsylvania hogs.

Chicago Live Stock.

CHICAGO, Sept. 24.—Cattle—Receipts, estimated, 10,000; market best steady, others lower; steers, \$5.75 to \$7.50; cows, \$3.50 to \$5; heifers, \$3 to \$5; bulls, \$2.50 to \$3; calves, \$3 to \$5; stockers and feeders, \$2.50 to \$3.50.

Hogs—Receipts, estimated at about 14,000; market weak to 5c lower; choice heavy shipping, \$6 to \$6.75; light mixed, \$5.25 to \$5.40; choice light, \$4.25 to \$4.50; packing, \$3.40 to \$3.50; pigs, \$4.25 to \$4.50; bulk of sales, \$3.50 to \$3.75.

It's so easy to Cure Rheumatism.

Such a simple treatment. So absolutely certain to cure. Just take Bu-Ju. Not a few doses—don't stop even after a few boxes. Give Bu-Ju a fair chance—take it faithfully, carry out the directions exactly; and Bu-Ju will cure you as surely as 2 and 2 make 4.

Bu-Ju The Gentle Kidney Pill

cures Muscular Rheumatism, Inflammatory Rheumatism, Sciatica, Lumbago, because it removes the CAUSE of these troubles.

YOUNG'S POINT, P. O.
"Have tried your Bu-Ju Kidney Pills, and found them very beneficial for Rheumatism and pain in the back. They are certainly a blessing. My husband is also receiving great benefit from Bu-Ju. He has had great pain in the small of his back, but is so much better now."

MRS. A. C. KIDD.

Rheumatism, in any form, means irritated nerves, and is caused by uric acid being deposited in the blood stream. The only way uric acid reaches the blood is through weakness or disease of the kidneys. The only way to cure weak, diseased kidneys, and thus cure Rheumatism, is to take Bu-Ju.

The Contractor Killed.

Parry Sound, Sept. 25.—On the Canadian Northern Ontario Railway at Fooths Bay on Monday, Alexander Fraser, a tie contractor, was killed. The man, who had been drinking some, was walking along the track, and when overtaken by the train attempted to get out of the way, but stumbled and fell in front of the engine, both legs and an arm being picked up and placed on the train and an effort made to get him to Parry Sound for treatment, but he died there. He was conscious to the time of his death, and told of his attempt to escape.

What a splendid type of tireless activity is the sun as the psalmist describes it issuing like "a bridegroom from his chamber and rejoicing like a strong man to run a race." Every man ought to rise in the morning refreshed by slumber and renewed by rest, eager for the struggle of the day. But how rarely this is so. Most people rise still unrefreshed, and dreading the strain of the day's labors. The cause of this is deficient vitality and behind this lies a deficient supply of pure, rich blood, and an inadequate nourishment of the body. There is nothing that will give a man energy and strength, as will Dr. Pierce's Golden Medical Discovery. It does this by increasing the quantity and quality of the blood supply. This nourishes the nerves, feeds the brain, builds up enfeebled organs and gives strength and vigor of life a joy. The "good feeling" which follows the use of "Golden Medical Discovery" is not due to stimulation, as it contains no alcohol. The ingredients are plainly stated on the bottle-wrappers. It does not "brace-up" the body, but it up to a condition of sound and vigorous health.

CALGARY GETS GRANT.

Dominion's \$50,000 Will Go to Western City.

Ottawa, Sept. 25.—Ottawa has lost its chance of securing the Federal grant of \$50,000 for the Dominion exhibition next year. Calgary, Alberta, was beforehand and as recently as the 17th inst., secured a promise from Hon. S. A. Fisher, that the grant would be given to the Calgary Exhibition Company for 1909.

This year the Dominion exhibition grant was secured by Sherbrooke, and the Minister of Agriculture was very glad when the occasion offered to arrange that it should next year go to the west. That has been the arrangement for some years past. After Toronto came the turn of Winnipeg. Last year it went to New Westminster, and as stated, this year Sherbrooke had it.

It is expected the formal order in council will be passed in a day or so.

Weak Kidneys

Weak Kidneys, surely point to weak kidneys. The kidneys, like the heart, and the stomach, and their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is futile. It is a waste of time, and of money as well.

Your back aches or is weak; if the urine is scanty, or is dark and strong; if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative. Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell.

WIFE MURDERER INSANE

Adam Lodwick Saved From Gallows, Will Go to Asylum.

Little Daughter Gives Evidence in Whitty Court—Father Had Been Injured and Was Never Right Afterwards—Pitiful Scenes at Trial—Child Tells How She Discovered the Awful Crime.

Whitty, Sept. 25.—Adam Lodwick is saved from the gallows, but adjudged insane, for shooting his wife last July, as a result of the finding of the jury at the Assizes here yesterday.

Two talemen from Brock Township, where the tragedy occurred, were challenged and relieved from service during the enervating of the jury. Many witnesses were relatives and neighbors of the prisoner. All agreed that since last March he had become a changed man, despondent, morose and fearful of dying.

The evidence of Mrs. Blanchard and Boynton, who attended prisoner last spring, was very clear that he was suffering from melancholy. The latter advised then that he be sent to a sanitarium if a recovery was to be expected.

Dr. Warren, jail surgeon, under whose care Adam Lodwick has been since the shooting, pronounced him insane, and Dr. Bruce Smith, inspector of jails and asylums, and Dr. Beemer of Mimico asylum, agreed in the view of the local physicians.

The whole mass of evidence was so clear as to insanity that Mr. T. C. Robinette, counsel for prisoner, did not think it necessary to address the jury. Mr. Arnold also refrained from doing so, and Judge McMahon charged strongly in favor of finding the prisoner insane, which the jury did after being out half an hour. It now remains for the Lieutenant-Governor-in-Council to dispose of his custody.

Tells of Murder.

Alma Lodwick, the fifteen-year-old daughter of Adam Lodwick, was the first witness called. She wept previously upon going into the box. Mr. Arnold in lieu of examination read the young girl's evidence at the preliminary trial. Then Mr. Robinette asked a few questions. The facts elicited were that the daughter last saw her mother alive on the night of the 19th. Both father and mother were in the kitchen. In the morning she was awakened by a sound like a door slamming. When she came downstairs she found her mother lying upon her bed, dressed, with the baby on her arm, the top of her head shot off, blood and brains scattered over the bed, and even blood over the baby's face. The latter was crying.

She carried the baby to the kitchen, where her father sat. She saw the shotgun, which was usually kept over the cellar door, lying on the table. She said nothing to her father about her mother, being afraid. She gave baby to father to hold and went out. In a few minutes she returned and saw the gun in its place.

Took Shells From Gun.

The previous day her father had taken the gun down and asked her mother to go into the yard to see him shoot a bird. She expressed the opinion that there was something up. She succeeded in getting the gun and her father told her to keep it. She afterwards told her daughter she was afraid.

Last January Mr. Lodwick had been injured by a tree at Mr. Thompson's, a neighbor. Since the accident her father had said queer things and her mother had desired to keep the fact from the neighbors. For weeks her father had not gone to bed at night, fearing to die. Often he said he was going to die.

True Bills Returned.

Whitty, Sept. 25.—The grand jury returned true bills against Conductor Cook and Engineer Kyle for criminal negligence in the Myrtle railway accident case, and are likely to do the same for Train Despatcher Wilkinson. The hearing opens this morning.

General Booth at Halifax.

Halifax, Sept. 25.—General W. S. Both of the Salvation Army was accorded a reception in the City Hall yesterday afternoon. Lieutenant-Governor Fraser, Premier Murray, Judge Longley and other prominent citizens were present.

A special meeting of the city council was called, and an engraved address presented on behalf of the city corporation.

The general, in reply, outlined the work of the Army, after reading of an address and reply, a largely attended informal reception was held.

General Booth addressed a large public meeting last night.

Trouble at New York Primaries.

New York, Sept. 25.—Two men, one of them a policeman, were hurt in West 57th street, just before the polls opened at the primaries. In this district there is a hot contest for the primary leadership. A number of shots were fired, a great crowd gathered and for a time the police were unable to restore order. The injured men were taken to a hospital with scalp wounds.

No Naval Station.

London, Sept. 25.—(C. A. P.)—Asked by the Canadian Associated Press if the report was true that the Admiralty had decided to re-establish a naval station at Esquimaut, the Secretary of the Admiralty replied, "Absolutely untrue."

ON VERGE OF MADNESS.

Terrible Experience of Nova Scotia Fishermen—Drift Four Days.
North Sydney, Sept. 24.—The schooner Muriel M. Young, arrived yesterday morning from the Banks, having on board Benjamin Gerrier and Patrick Nolan, two of the crew of the schooner Judique, who strayed from their vessel. For four days and nights the men were buffeted by fierce seas. When picked up they were exhausted and on the verge of madness.
The tale of hardship told by Nolan was one of the most trying heard for many days. "From Wednesday until Saturday," says Nolan, "we had no food or water. On the second day, during an awful rain, thunder and lightning storm, Gerrier ate rotten squid which he found in the bottom of the dory. Immediately he took sick and that night became delirious. The sail was carried away. Believing all hope was gone we lay down, not knowing what our end might be. This continued until Saturday noon when we were picked up and taken helpless from the bottom of the dory and put on board the schooner."

RESIGN FROM THE WORRY CLUB.

Life is a rush, but we can't all get there together. In consequence, we worry—can't help it because nerves are weak, vitality is burnt up and there's no staying power left. Cut out the worry part, and Build Up! Let Ferrozone help you. It's a most strengthening, nutritive tonic. It's the blood with iron, supplies building material for worn out organs, generates the sort of vitality that makes you want to do things. No medicine more helpful for men, women and children who need strength and staying power. Try Ferrozone, 50c. per box at all dealers.

JAPS FLOCKED TO SHIPS.

Attorneys Said to Be Acting For Canadian Employers.
Winnipeg, Sept. 25.—"I know of two attorneys, residents of Hawaii, who have gotten up shiploads of Japanese for emigration to British Columbia. It was supposed and understood in Honolulu that these attorneys were acting for parties who would be employers in Canada. There were also a general understanding among the Japanese that work would be provided for them on reaching Canada. They therefore flocked in large numbers to those who were organizing the shiploads, and they had no trouble whatever in filling their vessels."
This was the statement made yesterday by J. G. Kingsbury of Honolulu, who will be married to-day at high noon to Miss S. Jones, sister of the American consul, Dr. Jones.

A QUESTION OFTEN ASKED.

Why so many people feel worse after taking pills than before? Trouble is that drastic pills are used. No remedial action is obtained, the bowels are irritated and dreadful constipation follows. In using Dr. Hamilton's Pills you're actually curing the ailment of having taken medicine. Although very mild, Dr. Hamilton's Pills do regulate the bowels, stimulate normal action of the glands, and create neither nausea, griping or violent action. Positively guaranteed for biliousness, indigestion, stomach, liver and kidney ills. For a safe family pill rely on Dr. Hamilton's. 25c. per box, at all dealers.

John Redmond Will Not Retire.

Boston, Sept. 25.—John O'Callaghan, secretary of the United Irish League of America, states last night that there was no ground for the report published in certain newspapers in this country, that John Redmond had decided to retire from public life and that John Dillon had joined the Sinn Fein movement. Mr. O'Callaghan received cable from Mr. Redmond late yesterday, stating that the report was a "ridiculous fabrication."

Minard's Liniment Co., Limited.
Dear Sirs,—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disgraced for a couple of weeks. I was advised to try your Liniment to allay the irritation, and did so. The effect was more than I expected, a few applications completely curing the irritation, and preventing the bites from becoming sore. MINARD'S LINIMENT is also a good article to keep off the mosquitoes.
Yours truly,

QUEBEC BRIDGE ENQUIRY.

Mr. Hoare Says He Had Faith In His Assistants.

Quebec, Sept. 25.—The Royal Commission on the Quebec bridge collapse completed its enquiry here yesterday and left for Ottawa.

Mr. Hoare emphasized the fact that if he did not personally examine the defect to chord 9 it was because of his confidence in his assistants. Mr. Deans, chief engineer of the Phoenix Co., again gave interesting evidence, showing that he had talked over the phone to Mr. Birks, who went down with the bridge, only a few hours before the disaster, and Birks had said that later examinations showed no movement in the chord, that the spliced member was unchanged and that in his opinion the defect must have existed at the time the members of the chord were erected.
Mr. Deans said he believed Mr. Birks was right in his opinion, though three others thought differently. The fact that nearly three million pounds of extra stress had been added since the spliced member had been placed in position without affecting the relative position of splice and rivets bore out Mr. Birks' idea.

Bridge Investigation.
Ottawa, Sept. 25.—The members of the Royal Commission who have been investigating the collapse of the Quebec bridge are on their way here to hear Collingwood Schreiber, Messrs. Douglas, Johnston and others. They will go direct to New York to question Mr. Theodore Cooper, the engineer who made the plans, and from there they proceed to Philadelphia, Pa., to examine several witnesses relative to the steel portion of the bridge.

HUSBAND'S BRUTAL ATTACK.

Strikes His Wife With Shovel—Woman In Critical Condition.

Montreal, Sept. 25.—A new point of law was laid down yesterday evening by the chief of police of Longueuil, just across the river from Montreal, to the effect that if a man assaults his wife and nearly kills her, but does not make any apparent mark upon her, no arrest can be made.
Early in the evening John Lapointe loaded up on whisky and then proceeded to correct his wife with a shovel, and caught her a blow on the back of the head that laid her out apparently dead.
Lapointe then jumped into a neighbor's rig and drove off, evidently thinking he had killed his wife. The chief of police was called and found the woman still alive, after which the children accompanied him back, telling him that their mother was not going to die.
The chief of police declined to arrest Lapointe, claiming that as he could not find any marks upon the woman's head he was not justified in making an arrest.
In the meantime at a late hour last evening Mrs. Lapointe was still lying unconscious, and her physician states that she is very likely to die. Lapointe is being watched, and if his wife should die, he will be arrested on a charge of murder, otherwise he will probably go scot free.

AIMED AT CHINESE.

Kingston, Jamaica, Asks Government to Keep Out Undesirables.
Kingston, J. A., Sept. 25.—The influx of Chinese here is a serious matter. One section of the press is urging the Government to take steps to prevent their landing here as being detrimental to local traders.
Kingston's city council has adopted a resolution calling on the Government to amend the pauper alien immigration law so as to prohibit the entrance of undesirable foreigners.
The resolution is aimed at the Chinese, who, it is said, are over-running the island.

Assist White Immigration.

Vancouver, B. C., Sept. 25.—At the banquet of the Board of Trade Monday night to commemorate its 20th anniversary, Hon. J. Bowser, Attorney-General, announced that the Government had in hand a policy to bring white immigrants from the old country by assisting them, and that all possible work would be done without the Japs or Chinese.
Another announcement was made by Dr. Marpole of the C. P. R., that that railway was going ahead with development in all parts of this province, and especially in the port of Vancouver.

Ready For War Again.

Berlin, Sept. 25.—According to information received here yesterday from President Davila of Honduras, Guatemala will support ex-President Manuel Bonilla of Honduras in the latter's effort to regain the Presidency of Honduras.
This is taken to mean that war between Guatemala and Honduras is likely to begin immediately.

Suicide at Winnipeg.

Winnipeg, Sept. 25.—From long brooding over injuries received to his leg from an accident at the Grand Trunk Pacific construction camp, and his subsequent incapacity for work and ill-health, Louis Olsen, a Norwegian, committed suicide yesterday morning about 8 o'clock in the Seaside Hotel by shooting himself in the mouth with a revolver.

GENERAL TO CHASE TRIBES.

French Soldiers In Morocco Have Orders to "Sleep Out."

Paris, Sept. 25.—The Matin yesterday says it understands that Gen. Drude received instructions which permit him to "sleep out." This means he is not to return to the main camp at the close of each day of operation, as the tribes, who have not accepted the French terms of peace, have retired to such a distance that it would be impossible to reach them otherwise.

The correspondent of The Matin at Casablanca telegraphs that the delegates, at the conference on Monday, refused for a long time to surrender their arms. They urged that they would be at the mercy of the other tribes, but finally their objections were overcome by a few judicious concessions. M. Malherphy, the French consul at Casablanca, is of the opinion that the three tribes may be allowed to retain their arms provisionally to preserve order in their territory and force the other tribes to submit. After the conference, which lasted three hours, M. Malherphy gave a banquet to the delegates and lodged them in the city.

The correspondent of The Matin at Tangier telegraphs that the famous consignment of rifles at Measagan has been carried off and that the weapons are now on their way to Morocco City. The governor will be held responsible for the disappearance of the weapons.

Magnifying Choir Leader's Voice.

In the old village of Braybrook, in Northamptonshire, is a monster trumpet, 5 feet 6 inches in length, and having a bell-shaped end 2 feet 1 inch in diameter.

The trumpet is made up of ten rings, which in turn are made up of smaller parts. The use of this trumpet—only four of the kind are known to exist at the present day—was to magnify the voice of the leader in the choir and to summon the people to the church service.

At the present time neither the chair nor the service is in need of this extraordinary "musical instrument," but the vicar of the church takes care of the ancient relic and is fond of showing it to all visitors.

Humor and Philosophy

By DUNCAN M. SMITH

TALK DOES IT.

You often see a fairy queen, A maiden more or less sixteen, Who ties up with some ugly guy, A man who doesn't take your eye, And for a space you wonder why The girl should pick this mother's son. But maybe he's the only one Who ever poured into her ear The things a lady likes to hear.

And one not overhard to please May wonder what in him she sees, While other fellows much more swell In single blessedness may dwell Whom she could capture just as well. The reason from the wise is hid, But maybe he's the only chap Who ever had the nerve to say, "How very fine you look today!"

No one can understand just why It is one fellow stands so high, And able with such ease to reach The handiest and ripest peach And faster to it like a leech. You wonder how he beats his trap, But maybe he's the only chap Who ever looked into her eyes And whispered, "You're about my size."

Outsiders, though astute and wise, Cannot behold him through her eyes. To them forever is unknown The line of talk in tender tones He hands her when they are alone. It isn't all in looks and dress, In wit and learning, you can guess. It's only what he has to say That makes her follow him away.

Plenty High Enough.

Tommy made himself the hero of a story, which the Boston Record prints, when he called for "that one about the boy who ate the ribbons and it made him sick."
Aunt Ethel was puzzled. "I know of no such story," she said, after searching her memory vainly.
Nothing she could suggest answered the description. Tommy cannot read, but he thought he could find the book. He found it. They read one thing after another, until in the midst of the "Night Before Christmas" Tommy gave a whoop of glee. Aunt Ethel was reading:
"He rushed to the window and threw up the sash."
"That's it! That's it!" cried Tommy. "You see, it's just as I told you!"

A Sample of What V.S.C. does—Mr. Merrifield, I was so severely stricken with Joint Rheumatism that I was confined to bed for a long time with swollen and stiff joints; it even affected my stomach. I gave up all hope of ever being cured. The doctor finally told me he could "ease my pain but could not cure me." My sister heard of your Veteran's Sure Cure, and sent for a bottle. I took half of a \$1 bottle. This enabled me to walk about as usual. This was about six years ago, and I have had no return of Rheumatism. Mrs. H. Pravat, Williamsford, Ont., Sept. 11th, 1907.

A Poser For Him.
"Ma, did your slipper grow on you?"
"No, child. I bought it at the store."
"It isn't a part of you, then?"
"Certainly not."
"Does it have feelings?"
"No; it is inanimate."
"Then, ma, how did it happen that it hurt you worse than it did me the other day when you spanked me?"

What Cheered Him.
"It must have been a terrible ordeal on the witness stand with all of them lawyers trying to tangle you up."
"They didn't bother me much. I kept thinking about the witness fees I was going to get."

Explained It.
"Sorry, young man, but my daughter is out."
"But I told her I would call."
"She probably heard you."

HORSE AVENGES LOSS

ROMANCE IN CAREER OF RIGHT HON. HENRY CHAPLIN.

Returns to House of Commons—Marquis of Hastings Stole His Lady-love—Squire Was Jilted In Heartless Fashion—Hermit Wins Derby In Snowstorm and Brings Ruin to the Reckless Nobleman.

One by one the stricken warriors who fall in the rout of the Tory forces at the general election are returning to the House of Commons. The last to get back is the Right Hon. Henry Chaplin, who was recently elected for Wimbledon.

Everybody is glad to see Mr. Chaplin back in the House, which he has entered nearly 40 years ago, for he is among the most popular, as he certainly is one of the most picturesque figures in English politics.

He has gone through some extraordinary ups and downs in political and private fortunes, but it was through a love affair that he helped make social history that will be remembered long after his political triumphs and defeats have been forgotten.

His Great Romance.
In his younger days he was accounted one of the handsomest men in England, and he fell in love with the loveliest woman then in England, Lady Florence Cecilia Paget, daughter of the second Marquis of Anglesey. Known as the "Poetess" and as "Ladybird," she was dainty as a fairy in figure and with a face so beautiful that she could hardly venture out of doors without being beset by a small crowd. Many a wooer sought her hand, but the young squire's only serious rival was the fourth and last Marquis of Hastings, the richly gowned young nobleman who for a few mad years dazzled the world by his prodigality and made it gasp by his recklessness, only to perish in early old age, ruined, discredited, and disgraced.

It was nip and tuck between these two suitors for a while. Then Lady
