### HALLS HARBOR

May 12th, 1901.

Dear Madge,—You asked me to write and tell you what I am doing and how I am thinking of spending my summer. I cannot say yet where I will go. After the many miles I have travelled within the last three years, usually I often feel a little unsettled in my quiet home. I felt so a couple of weeks ago and having a young lady friend, a girl with me from the old country, and one who has travelled a great deal, I made up my mind to take her and show her one of the most picturesque places I know of in Nova Scotia (Hall's Harbor).

Well to begin, one leaves Kentville and after driving on a good road of about six miles, you reach the mountain which is very steep, but from which one can see the most lovely scenery imaginable, in fact, looking back towards Kentville and down upon Billings, you can fancy you are in Switzerland. When the top of the mountain is reached, there is a most lovely forest of spruce and fir, with a view not to be equalled anywhere, for before you are in the sea in the distance, with the Cape of Haste ahead, Spence's Island and Cape Split on the right and several other places of interest, before you reach the simple, pretty little fishing village.

You can hear the sound of the blastings in the new copper mines, which are about 10 miles out across the sea at Cape Dore, now being worked by an American syndicate and doing good business. Then one comes to the beach and sea, where at once all care seems to depart. I speak from my own experience, the moment I put my foot on the shore I feel that I am 30 and that I cannot be serious any longer, although I shall never get my 30th birthday again.

The people are so courteous and hospitable, they seem as if they cannot do enough to make one feel at home with them. Several people take in boarders for the season and as I have stayed for several years in many of the houses at different times, I can vouch for the good treatment visitors receive when they come here.

There is one at least most enterprising man here, Mr. J. Watson, who has a weir and a general store, where you can buy from a lady's wrapper to a silk suit in the dry goods line and then for hardware he has one of the best assorted variety of goods and some of the best imported brands of groceries I have seen in this county. He also has good accommodations for man and beast. There is also another general store, combined with post office, kept by Mr. John Neville, which is quite an attraction in the place.

Anyone visiting this quiet, quaint little spot may be sure they will be made comfortable and receive every attention from the folks over here. I spent months in many of the English watering-places, also in many continental and colonial ones, but there are none more secluded and quiet, where one can purchase at a reasonable price too, any article that can be bought in Halifax in the hardware line. I think you must come over and see for yourself what a quiet, quaint little spot this is.

Now they are having the telephone connected, one will be able to talk or telegraph to all parts and then there will be nothing more to be desired, unless it is a few bathing machines and these I am persuading the afore-mentioned, enterprising man to build and if needed, later on to enlarge his hostelry. I hope you will follow my example and come over soon, although you may think it is rather early in the season, it is quite warm and pleasant.

Affectionately yours,  
WANDERER.

Imperial Moving Pictures

One of the most perfect moving picture entertainments before the public will be held in Kentville next Thursday evening, May 23. It will consist of scenes of British Boer War, Paris Exposition, King Edward VII at Kensington, Galveston, Texas, Cinderella and the Glass Slipper in 5 acts, Mrs. Carrie Nation and her hatchet brigade and a series of wonderful, mysterious and comical pictures, recently imported.

The scenes of the funeral of Queen Victoria is worth more than the price of admission. Music Hall, next Thursday evening. Reserved seats 25 cents, admission 20, cents children 15 cents.

The public of late have had the idea that small pox was quite a serious thing in Kentville as the Halifax papers had stated that there were 7 or 8 new cases here. The only sickness we now have near the town, which has any symptoms of small pox is in the family of Mr. Frank Webster who are isolated on their farm. The son who was first taken sick has been working on the farm for several days. (Where in the family have been sick in a very mild way, not even as bad as a light case of measles, in fact some of the children have not been in bed an hour on account of their illness. All are well and, around the house as usual except two and one of these is on account of nervous trouble. These are facts we can give to the public as we went as near as it was prudent to the house of Mr. Webster yesterday and the above is the substance of what Mrs. Webster told us. The people who have had much sympathy for Mr. and Mrs. Webster, will be pleased to know that they are getting along so well.

Cold Brook

May 9th 1901.—It has been quite a long time since this place has been heard from, so a few items may be of interest.

The farmers are all very busy getting in their crops.

Miss Georgie Felton returned to Aylesford last Tuesday.

Mrs. P. Innis, who has been very sick this last winter, is able to be out again.

The lecture given by D. E. Woodman was very much enjoyed by all those present.

Mr. Perry Huntington purchased a very fine pair of cattle from parties out South.

Miss Blanche Sanford is spending a few weeks in Port Williams.

Miss Gracie Marchant spent a week with friends in Alton.

Mr. Hayes intends building this summer he is now putting a rotary in his mill when complete, he will saw his own lumber.

We are sorry to learn that our popular Station Agent, R. A. Chute, intends to leave us.

Once more we welcome back our Sunday School Supt. Mr. W. Bill; owing to the cold and bad roads he is unable to be with us through the winter months.

WATERVILLE

May 15th.—With the returning warm spring showers everything is springing from its winter sleep.

The farmers expect large crops of plums and cherries this season, if Jack Frost will only keep to himself.

Mr. Arthur Marchant who was spending the winter at Halifax, is home on a visit.

A number of the young people attended the Billtown Division last Thursday night, it being an open evening.

Quite a large number of the young people gathered at the depot on Wednesday last week to say good bye to Mr. Ellis. As a token of their friendship he was presented with an elegant gold ring.

Mr. Sydney Young, who has been doing garrison duty at Halifax returned home last Friday.

The Salvation Army barracks has been resounding with voice and drum. Lieutenant Hamilton conducted the meeting Saturday night and Sunday, and assisted by Captain Ritchie, on Monday night.

Mr. N. T. Bowles has been having some changes made in his house.

Mr. and Mrs. Wilson Sanford of Billtown spent Sunday in town the guests of Mr. and Mrs. Henry Bond.

Mr. Roy Wilson had the misfortune to get his hand badly crushed while laying stone last week.

We are glad to learn that Mrs. C. I. Wolfe, who was quite ill, is slowly recovering.

Mr. C. O. Cook owner of the White Store, Waterville, has added to his staff a lady clerk.

Mr. Wesley Mahar spent Sunday at Kentville, attending the baptising of his two daughters.

The members of the Presbyterian Church at Kentville are glad to give it to me for love of me and also

choir were glad to have their organist, Miss Lida Woodroffe, back with them last Sunday.

Mr. Marshall and Miss Cropley of Kingston, spent Sunday with Mrs. W. O. Graves.

The South Waterville schoolhouse, which is now in course of construction, when complete, will form another section. Mr. Walter Skinner has the contract of the building.

F. W. Bird, our jeweler and watchmaker, has removed from his former shop opposite Mr. N. T. Bowles' to the front window of D. G. Hattie's Harness shop, which he intends using for the present.

Mr. Arthur Veinot has removed from the house by the brook and has purchased the Mrs. Grandison Forsyth property.

Mr. Ross M. Shaw is busy cleaning up the forty-four acre block, to the east of the house, bordering on the mountain road. There is a beautiful building site at the junction of the two roads, which we believe, will soon contain a fine house.

No doubt two of our town sports are glad to see a good strong bridge on the road going north.

Mount Denson

We advise a certain young lady to wear glasses so she can be sure who she is talking to.

Miss Florence Hopkins spent Sunday with friends in St. Croix.

Miss Delma Stoddard spent Sunday with friends in St. Croix.

Mr. James Rose returned home from Halifax on Saturday evening.

Mrs. Edmund Jackson returned from Yarmouth on Monday of last week, her husband having sailed for Buenos Ayres.

Capt. T. E. McDonald and Mr. J. A. Pentz returned from Mount Uniacke on Saturday evening, where they had been on a routing excursion.

Misses Ada Pentz and Sadie Sutherland spent Friday in Falmouth.

AVONPORT

Mr. and Mrs. Wm. Suedlon are at present in Digby.

Messrs. David Lockhart and John Selby, who have been employed on a vessel running between Windsor and New York, arrived home on Saturday.

Mrs. Joseph Allen of Long Island was a guest this week at Mr. Brenton Jordan's.

Mr. Ney "Woodth" of The Wedge staff, Kentville, was in Avonport on Sunday.

Mr. William Holmes and family are now residents of Avonport.

Miss Effie Cox entertained a number of friends on Friday evening.

Mrs. Benjamin Newcomb of Hortonville passed away on Monday May 6th. She was sixty eight years of age. Mr. Langille being ill the funeral was conducted by Rev. Donkin of Wolfville. The remains were interred in the Methodist cemetery, Cornwallis.

SCOTCH VILLAGE

May 10.—Splendid fine warm day. Vegetation is fairly cracking and snapping. Quite a contrast to Saturday last, with snow on the ground. Farming is progressing slowly. Yet some have finished sowing.

Mr. Robert McInnis has purchased a farming outfit from J. Armstrong Esq. agent for Massey-Harris Co., including Bain wagon, reaper, rake, mower, etc.

Mr. Henry Wier has sold his farm to Mr. Dan Anthony. Possession given at once.

On Saturday last during the freshest of Mr. Putner's R.R. ties came down the Kennetcook. It kept quite a number of hands busy day and night during the next three days to corral them by booms. A few were lost.

Mr. Wilfred Cochran is home from Halifax Medical College.

The Baptist S. S. is about opening for the summer.

Mr. Robert Cross whose death appeared in last week's Advance, lived on the road leading to Walton for quite a number of years. His son is on the farm at present.

The measles still lurk in a few families.

Estelle, seeing the pelican for the first time,—Gracious! If ma had a mouth like that, couldn't she hold a lot of hair pins.

You know Will was just crazy to marry me! said the young bride. Yes; that's what everybody thirka, replied her jealous rival.

Mamma, an I descended from a monkey? I don't know, she answered; I never met any of your father's people.

THE DANGER OF PILES

Piles are usually caused by constipation lack of exercise or sitting on wet seats or cold stones. They frequently develop into tumors of tissue or rupture of the intestines. Dr. Chase's Ointment has never failed to cure piles and put an ending to the wretched itching and uneasiness. It is truly a wonder to all who have used it and is guaranteed to cure every case of itching bleeding or protruding piles.

Abrasion of Gold.

The loss in value to gold coins through abrasion has been the subject of a profitable investigation recently conducted by government officials. Two lots of gold coin valued at \$50,000 each and consisting of eagles and double eagles were taken at random from the vaults of the subtreasury at New York and carefully weighed. It was found that the loss on double eagles through abrasion amounted to .05 of 1 per cent. This would be a serious matter in the case of large shipments of coin to foreign countries, where the value is determined by weight instead of by denomination. On \$1,000,000, for instance, the loss in the first case would be \$500 and in the second case \$700. This investigation will tend to encourage the shipment of gold in bars, as they lose practically nothing by abrasion in transport and can be easily packed. The government has assisted in the development of this form of shipment by reducing the charge for furnishing bars from 10 cents to 4 cents per \$100.

Naming Country Roads.

The proposition to name the country roads meets with considerable favor in this section. A number of farmers have already expressed their willingness to name their farms and post the names in conspicuous places at the roadside near their homes. This plan would prove of great convenience to travelers as it has been introduced where rural delivery has been introduced.—Indianapolis News.

Do you attach any credence to the theory that men are developed from monkeys? B. I rather think that some are; the rest appear to have remained stationary.

It has been. In the new century no one will walk—all will have wheels. Some people will be doing the town on their ear.

As a Food For the Skin

Powders may cover up the disgusting eruptions, but can never cure them, and are positively injurious, because they clog up the pores of the skin. Dr. Chase's Ointment is a food for the skin. It is readily absorbed, thoroughly making the skin smooth, soft and clear. No woman's toilet is complete without Dr. Chase's Ointment, for best of being the most perfect skin beautifier obtainable. It can be used in a score of different ways. It absolutely cures eczema, salt rheum and the itching which women are especially subject to. When the feet are sore and chafed with walking an application of Dr. Chase's Ointment takes out the smarting and allays the inflammation in a surprisingly short time. Then for burns, scalds and every sort of chafing, irritation or eruption of the skin, Dr. Chase's Ointment affords a safe and certain cure. It has come to be indispensable in scores of thousands of homes; 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

A New Industry.

After extracting a nail from the stomach of a child, where it had remained for about a week, a Turin surgeon remarked that the iron had become reddish in some places and corroded in others, in exactly the same way as ancient Greek and Roman coins.

These observations, communicated to his colleagues, spread abroad and quite a new industry has sprung up lately in Italy. Traders manufacture spurious coins with the effigy of Trajan and others and force them down the throats of turkeys. They kill them after a few days and withdraw the coins, which thus acquire an appearance of antiquity which deceives the most experienced numismatists.

Cancer.

Sir James Sawyer, M. D., writes in The Lancet that he has studied cancer for a third of a century and has come to the conclusion that one of the predisposing factors is the excessive consumption of meat. He thinks it is among the men of the masses in England and Wales that the progressive increase in cancer in the period under consideration is mainly to be found. Steam appears to have brought us cheap food, and cheap food has multiplied our cases of cancer by two.

Don't Cough

Stop it with SCOTT'S EMULSION of Cod Liver Oil.

A little coughing is nothing—the tickling, that makes you cough once, is some dust; not the least harm. You scratch an itch, and forget it. This cough is scratching an itch.

But the cough, that hangs on and comes back, is a sign of an itch that hangs on and comes back. There is something that makes that itch.

Inflammation: a germ; it's alive; like a seed in moist warm ground; it will grow if you let it, even in children.

Take SCOTT'S EMULSION of Cod Liver Oil, and the germ will die.

If you have not tried it, send for a free sample, its agreeable taste will surprise you. SCOTT & BOWNE, Chemists, Toronto, Ont. and 21, rue St. Nicholas, Montreal.

OIL IN CALIFORNIA

continued from first page

sell their stock for from 10 to 300 times what they paid for it. Ten dollar bills have been changed to hundreds, hundreds to thousands, and thousands to hundreds of thousands.

There is no coal mined in California, and the price of imported coal is from \$7 to \$15 a ton. Two and one-half barrels of oil, worth about \$2.50 will make as much heat as \$7 to \$15 worth of coal, so everybody in the State who can get oil uses oil.

In no other industry or section of the world is there an opportunity to make money, as in California oil.

It costs but five or ten cents a barrel to produce oil after the well is dug, as the oil either pours out of the well, or can be pumped very cheaply. There is therefore, about 90 to 95 cts. profit per barrel. A well that produces 100 barrels per day, will therefore earn about \$95 a day profit. As it costs but about \$5,000 to bore a well, it will be seen that profits are enormous, as wells last for 25 years.

Fortunes are made by securing stock in companies that hold this producing land before it has advanced to the high prices at which many of the stocks sell.

The best time to buy stock is before oil is struck. When oil is struck, stocks go very high, and are usually withdrawn from the market.

Hon. W. Fielding has given notice in the house Comms of the following resolution: That after the first day of July, 1902 there shall be paid to the Province of Prince Edward Island in addition to all sums now authorized by law an annual allowance of \$30,000 which allowance shall become payable and be paid to the Province half-yearly, on the first day of July and January of each year beginning with the first day of July next such allowance to be paid and accepted in full settlement of all claims of the Province against the Dominion on account of the non-fulfillment of the terms of union between the Dominion and the Province as respect the maintenance of efficient steam communication between the Island and the mainland.

The Indian's Opinion

In "Travels in New England and New York," President Dwight, of Yale College, tells a good story of Indian wit and friendship.

In the early days of Litchfield, Conn., an Indian called at the tavern and asked the landlady for food, frankly stating that he had no money with which to pay for it. She refused him harshly, but a white man who sat by noted the red man's half-famished state and offered to pay for his supper.

The meal was furnished, and the Indian, his hunger satisfied, returned to the fire and told his benefactor a story.

You know Bible? said the red-skin.

The man assented. Well, said the Indian, the Bible say, God made world, and then He took him and look at him and say, 'He good, very good.' He made light, and He took him and look at him and say, 'He good, very good.' Then he made dry land and water and sun and moon and grass and trees, and took him and look at him and say, 'He very good, good.' Then he made beast and birds and fishes and took him and look at him and say, 'He good, very good.'

Then he made man, and took him and look at him and say, 'He good, very good.' Then he made woman, and took him and look at him and say, 'He no dare say one such word!'

This last conclusion was uttered with a meaning glance at the landlady.

The Boers, it is said, talk of breaking again. That seems to be exactly what they've been doing all the time.

Mr. H. H. McNutt, of Lower Truro, on May 4 shipped over the Midland Railway from Truro to Princeport, one carload of home meal. This is first real freight which has passed over the new line of railway, and for which a receipt for freight has been issued and signed by H. V. Harris, General Manager of the Midland Railway Co.

AN OBLIVIOUS CASE.

So Oblivious That a Tragedy Was Clearly Imminent. Going up town from the depot, I saw a young colored man cautiously peering out from an alley and also noticed that he had a razor in his hand. As I reached him I asked if he was in trouble, and he flourished the razor about and replied:

"I specs to be purty soon, sah. Yes, sah, I specs to meet a young man who'll jump fur me wid all de felicity of a tiger."

"What's the trouble between you?" "It's an oblivious case, sah—werry oblivious. I'se dun engaged to a gal, an de weddin day am set. He knows how dat gal lubs me an how we's gwine to be fined, but he deatin in prognosticatin aroun an deatin he can't jist lib widout her; jist goes ober to her house an cries like a chile, an ebry day he sends me word dat he's gwine to inastuate my anatomy."

"What does he mean by that?" I asked. "Why, to carve me up wid a razor, sah—carve me up wid two razors mebbe. I'se on de lookout fur him right dis minit. Yes, sah, when we turn de nex' co'ner we may run right into dat specifical individual, but deax' yo' be skeert if we do. Yo' jist take yo' satchel an stand one side an witness de tragedy."

"Then ther'll be a tragedy?" "Here will!" he shouted as he jumped around. "Sah, don't yo' make no mistake on me. If dat reprehensiv pussion comes along yere, dar will be de mos' tragical tragedy yo' ever heard tell of, an wile he will be left lyin dead on de fiel' I shall hold my head up an glide away wid an asperity of pomposity to astonish yo' fur de nex' fe' weeks to come." M. QVAD.

He Has New Moon Spells. The investigation made by Humane Inspector Wilson in the case of Edward Kennedy, a colored man found bound hand and foot to a stake in the rear of his father's home, 1518 Asbury street, has brought to light a strange condition.

Edward Kennedy was born an idiot. He is harmless until a new moon appears in the sky. Then his quiet nature becomes demoniacal, and he can only be controlled by being tightly bound. His "new moon spells," as his father calls them, have increased in violence and duration during the last few years, and his father, a North Carolina negro, feared he would kill the family by the sudden change in demeanor. It was for this reason that Edward was placed in bondage.—Indianapolis Press.

The Age We Live In. Gerald (aged 4)—Gwendolen Green is just 3 years old today. His Mother—How do you know that? "I called to see her." "And did you find her at home?" "No. She said she was only receiving on Mondays."—Brooklyn Life.

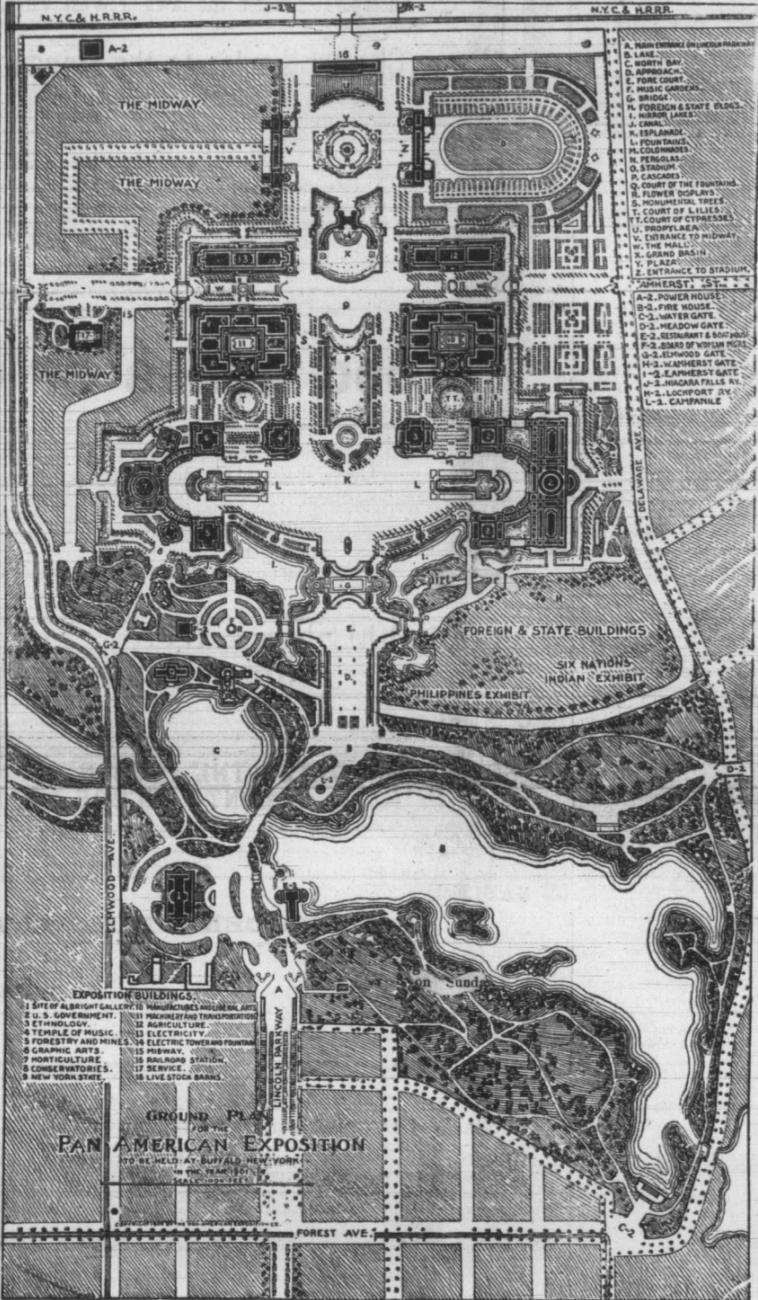

In Her Line. The Bearded Lady—I don't see how she could marry him. Why, he drinks terribly and is subject to delirium tremens. The Circassian Girl—It would take more than that to scare her. Isn't she an experienced snake charmer?—Philadelphia Bulletin.

Anything For Facilitation. "Regina, cook says dinner was late because the kitchen clock is out of order." "Well, lend her your gold watch, Rodney. We can't have her getting mad and going off right in the middle of house cleaning!"—Chicago Record.

Her Idea of It. "What is your idea of an egotist?" asked Willie Washington conversationally. "An egotist," answered Miss Cayenne thoughtfully, "differs from the rest of mankind only in one respect. Every person feels at heart a certain sense of superiority. But the egotist has sufficient courage to publicly admit his opinion."—Washington Star.

His Other Name. New Teacher—Next boy, what's your name? Boy—William, ma'am. "What is your other name?" "Scrappy Bill."—Philadelphia Record.

Reasonable Hope. Minnie—I want to introduce you to a young lady—a very nice young lady—and she's worth her weight in gold. Bob—Stout girl, I hope.—Tit-Bits.

## OIL IN CALIFORNIA

A Review of the Progress in the Greatest Oil Region of the United States.

The possibility of making a safe investment, with exceptionally large returns, has not been greater in the last 20 years than is found just now in the California oil fields. Recent reports from experts in the various sections show that there is, without question, more oil in California than in the States of Pennsylvania, West Virginia, Ohio, and Indiana combined. The industry in California is in its infancy, and yet millions of dollars have been paid in dividends, stocks have more than doubled in value over the purchase price, and thousands have become independently rich by early and judicious investment.

Great fortunes have been made in oil that in any other kind of investment. During the last 12 months the Standard Oil Company alone has declared dividends to stockholders, amounting to over \$46,000,000. Oil, not gold, or copper, or lead, or zinc, is the money-making commodity of the country, because it is at the base of everything we possess of value to-day. Oil has purchased control of our largest railroads, and owns many of our largest banks and trust companies. It has made fortunes which have built palaces in our cities, and laid our tropical gardens covering square miles in Florida, California and other places. It is enriching our tropic gardens covering square miles in Florida, California and other places. It is enriching our colleges with princely endowments, and has made hundreds of men here before poor and obscure, our wealthiest citizens.

It is a common error that the Standard Oil Company has a considerable monopoly of the oil fields, but in truth it confines its business chiefly to refining. It does not attempt to control the price of crude petroleum, nor does it enter the market of fuel oil. This great company is a creature of by products, with oil as the great central factor. It is a consolidation of hundreds of successful companies, and individuals who have become a part of it, or who have sold out to it at enormous profit. It has recently purchased stock in some of the Pacific Coast Companies at many dollars per share.

The Standard Oil Company paid its stockholders in dividends for the year 1900 more than the combined dividends of the New York Central, Pennsylvania, Great Northern Railway, Illinois Central, Chicago, Milwaukee & St. Paul, Chicago & North Western, and the Chicago, Rock Island & Pacific Railroads, together with the American Sugar Refining, American Tobacco, and the American Cotton Oil Companies. The par value of the company's issued stock is \$97,500,000, and although not a listed security, it is selling at from \$800 to \$815 per share on the open market, or at a valuation of over three quarters of a billion dollars. These excessive dividends being earned, and enormous values created solely from profitable operations in oil products.

Scores of fortunes have been made in the fields during the past year, stock in one company advancing from a few dollars a share, to nearly \$5,000 a share in one year. Other companies paid double their capital stock in dividends.

A little more than a year ago, a young man, a resident of Bradford, Pa., came to Southern California for his health. He had very little money, but having had some experience with the Oil Well Supply Company, of Bradford, and reaching Los Angeles at the time he did, he secured employment with R. H. Herron & Co the local representatives of the Oil Well Supply Company. After working with this firm for a time at its Los Angeles branch, they sent him to their Chicago branch; after remaining in charge there for a short time he branched out for himself. About this time the Home Oil Company's (of Fresno) stock was selling at a bout \$10 a share, paid value \$100. The young man, whose name is Richard Ellis, purchased 10 shares of this stock; after holding it a little while the price advanced to about \$40 per share. He then disposed of three shares, which about returned him his original investment; the remaining seven shares he held. In a short time the noted well of the Home Oil Company was acquired; the stock then began to jump with great strides, and

when Mrs. Phoebe Hearst entered the field to buy up the controlling interest in the Company, the stock advanced from one point to another until it reached \$4,993 a share in the open market. When it reached the \$1,500 mark, Richard Ellis sold his seven shares, receiving therefor \$31,500. Adding to this the amount he received from the three shares previously sold, his original investment brought him a return of \$51,520.

Classelor & Canfield started with \$3,000 two years ago. They sold out for \$3,000,000. The Union Oil Company started 15 years ago in Ventura with limited means; sold out a few weeks ago for \$15,000,000. The Reed Oil Company started November, 1899; sold out a few weeks ago for \$1,750,000. Every dollar invested there before they had the oil yielded \$400 in 13 months. This is how some stocks have advanced in value within three to eight months' time. They are only a few among a great many.

Oil is the equivalent of gold in commercial value, one barrel of crude oil will bring \$1 and a fraction in gold, all over the country, and it is easier to get 20 barrels of oil from the earth than to get \$1 in gold.

A good oil well will pay \$500 a day, net, to its stockholders, and they are 10,000 such wells in operation.

A gold mine that pays \$500 a day, net, is a very large affair, and such mines are very few in number. The reason for my statement is plain to a business man. Oil is a destructible commodity. As fast as it is received from the earth, it is burned for the uses of man. Gold is practically indestructible, and is preserved through the ages.

The Pacific Coast Oil Company has paid profits in the neighborhood of \$14,000,000. Few gold mines do as well as this. The Home Oil Company has made over \$5,000 per share profit. No gold mine equals this showing. The San Francisco Petroleum Company paid \$27,000,000 in dividends, and the Selma Oil Company yielded \$1,200 per share to its stockholders. The Sunset Oil Company, with an investment of only \$50,000, is making regularly over \$500 per day net profits. The St. Lawrence Oil Company, whose stock at late quotation was in the neighborhood of 200, advanced from 15. The Kern Oil Company advanced from 20 to 1,700, and the Central Oil Company from 15 to 350, to which list might be added scores of others equally successful.

The oil fever now on has resulted in increasing the personal fortunes of several persons, more or less well known, in amounts estimated at from \$50,000 to \$500,000.

Enormous fortunes, greater by far than those made by gold in its brightest days—are now being made by thousands in California oil. Few in the East can appreciate the stupendous nature of this great industrial awakening, and the unparalleled opportunity it affords for the enormous profits on even limited investments. Jewett & Blodgett, who discovered the Sunset District of California and took the land from the Government under the mining laws, costing about \$1.40 per acre, are now from 20 to 30 times millionaires. Chandler & Canfield (Canfield was a grocery clerk five years ago, at \$600 a year) the owners of the Coalings District are now worth \$40,000,000. Stockholders in the original companies all have been able to

## 16,000 ACRES OF OIL

Lands were purchased in the Midway District (one of the promising oil fields) of California recently by The Union Consolidated Oil Co., and as large producing wells have recently been struck on adjoining lands, probabilities are that this land alone will be worth more than the entire \$5,000,000 capital stock of the company. The company has also acquired two large producing propositions with an aggregate of 5000 barrels per month, insuring large dividends on the stock by May 1st.

Options have also been secured on fifty promising oil properties now under examination by three eminent experts.

## Over 500,000 Shares Were Subscribed for in Two Weeks

The Company Reserves the Right to close Subscription List Without Notice.

### SUBSCRIPTIONS DATED THE PRESENT MONTH SECURE THE MAY DIVIDEND

Present price 20 cents (par value \$1.00), fully paid and non-assessable, but subject to an advance at any time without notice. **PRICE ADVANCES TO 25 cts. A SHARE ON MAY 25th.**

### 3 PER CENT. MONTHLY

On the entire amount invested in its stock, with most excellent prospects of doubling the production in a short time, and the opening up of several of the valuable non-producing properties acquired. Regular monthly dividends on the stock of **NOT LESS THAN 1 PER CENT.** on the present price will begin in May, to be continued permanently thereafter, and the financial affairs of the company are in a most satisfactory condition.

Harper's Weekly of March 23rd, 1901, speaking of the California Oil Fields, says:

"In spite of the great inundation of boomers and fortune-seekers that has swept over this region within the past twelve months, scarcely more than a beginning has been made in tapping the vast oil reservoirs of the State. The present production is at the rate of about 300,000 barrels per month, but this probably will be tripled before the close of the year. Even within the brief period since the field was opened a number of fortunes have been made, and men who were glad to secure employment at day wages a few months ago have found themselves suddenly transformed into millionaires."

Mrs. D. W. Crossberry, 128 Richmond street west, Toronto, Ont., states: "My daughter, who was in a white goods manufactory, got completely run down by the steady confinement and close attention required at her work. Her nerves were so exhausted, and she was so weak and debilitated, that she had to give up work entirely, and was almost a victim of nervous prostration."

"Hearing of Dr. Chase's Nerve Food, she began to use it, and was benefitted from the very first. It proved an excellent remedy in restoring her to health and strength. After having used four boxes she is now at work again, healthy and happy, and attributes her recovery to the use of Dr. Chase's Nerve Food."

HANTSPOINT

Swallows have come again. Rev. W. F. Gaetz, pastor of St. Stephen's Methodist church, Kentville was in town Friday.

The W W Club were very pleasantly entertained at Mrs. A. Houghton's last Tuesday.

A. Morrison, employed in the retail department of A. & W. MacKinnay, Halifax, is stopping a couple of weeks in town.

Our jolly mayor and S H Mitchell, two genuine sports, went a fishing Friday at Davison Lake. Got a good haul of "speckled beauties."

Mr Michael Davison accompanied her husband in barge No. 20 on his last voyage to New York. Leaving here May 1st, they returned on Saturday last.

Capt Edward Davison has been confined to his house with sickness for a few days, but is now better. Everybody will be glad to see the pleasant old gentleman out again.

We are pleased to be able to state that Mr. Martin, who has been very seriously ill, is recovering and is thought to be out of danger. Dr. Margeson is in attendance.

Miss Sadie Dickson, the popular telegraph operator in the D. A. R. office here, is taking a well earned rest for a few weeks. A. Guest, Yarmouth, is filling her place.

Post Office Inspector McDonald was in town Saturday. He spoke very highly of the way the postal business was performed by the efficient and obliging postmistress Miss Burgess.

Dr. Margeson of this town has a French White cherry tree which is in full bloom on the 11th inst. This is exactly two weeks earlier than last year. The grass is a month earlier and fruit trees at least two weeks ahead of last season.

Fred Lake, one of Hantsport's most pleasant young men, left last Monday for Springhill, where he has a position with Rhodes, Curry & Co. He will be much missed by members of the W W Club, and towns people generally.

Miss A. C. Jewett who has been stopping with Rev Mr and Mrs White for some time returns to her home to St John today. Mrs Jewett speaks in glowing terms of Hantsport's beauty and the hospitality of its people.

Mr Esdale, Dominion engine and boiler inspector was in Hantsport Wednesday looking at boilers of the steamers Falmouth and Avon at the wharf. Capt Hill, government inspector, the same day inspected the hulls of the above vessels.

The Cricketers are practising on the school grounds here nearly every fine night now. They are expecting to get on a match with some outside team for Victoria Day. They have some crack players among them, so you green outsiders, look out.

The Newport Nursery Co. have finished shipping their nursery stock from this station. This hustling firm have done a lot of work here in comparatively short time. The crop put out is said by good judges to be the finest ever seen here.

Mrs J F Rockefeller (a daughter of the late Walter Davison of this town) whose husband died recently in New York, arrived by tug Gypsum on Saturday. She was accompanied by her two children and will reside in Hantsport. Mrs Rockefeller's husband was a relative of the oldard Oil magnate.

John Churchill, one of Hantsport's worthy shipowners, takes just pride in his beautiful premises. The Cedars on the grounds I have seen either in Yankeeland. The lands are lovely now, and as the summer season comes, on the beauty will be enhanced.

Dr. Oscar Dorman of this town, of David Dorman, is now with cable steamer Minia, off the coast of Newfoundland, repairing a break in cable. The job will probably last six or eight weeks, and the doctor will come to Halifax and probably take a run up home. This writer man and Oscar were chums when we acted the "devil" in a Kentville printing office, and in fact have been friendly ever since.

Four of our young men went out trouting in the Lake last week. In reply to my request as to the length of the best fish, one said a certain measure, the next fellow replied by measuring out with his hands, about six inches longer than the first. Now boys, whatever you say, you should all stick to the same measure. Agree beforehand on the length of the biggest and tell the truth.

It Makes Weak Women Strong.

"I suffered from female weakness for five months," writes Miss Belle Hedrick of Nye, Putnam Co., W. Va. "I was treated by a good physician but he did me no good. I wrote to Dr. R. F. Pierce, Buffalo, N. Y. for advice, which I received, telling me to take his 'FAVORITE PRESCRIPTION.' When I had used the medicine a month my health was much improved. It has continued to improve until now I can work at almost all kinds of house-work. I had scarcely any appetite, but it is all right now. Have gained several pounds in weight. I would advise all who suffer from chronic diseases to write to Dr. Pierce."

It Makes Sick Women Well

On Friday evening, May 10th, just at sunset, Rev. Geo. Wethers passed peacefully into the "rest that remaineth to the people of God," the eternal sabbath. He was thirty four years he has labored faithfully among the people of this shore, only missing two appointments in thirty years. Now at the age of 68 years he has laid aside his earthly work for "the Mansion above."

A little over a year ago he contracted a heavy cold, followed at length by hemorrhages and a gradual decline. A good friend and neighbor is gone from our midst. No more will he go in and out among us, no more unite our people in marriage bonds, no more bury our dead, no more the ready sympathy in joy or sorrow. A good life is ended, but of him it may truly be said, "Blessed are the dead which die in the Lord--they rest from their labors and their works do follow them." And although we shall miss him from life's pathway, yet in the Sabbath still live and his teaching bearing forth fruit.

The burial services on Sunday afternoon were conducted by Rev. Mr. Hutchings of Canning, assisted by Rev. Mr. White of Hantsport and Rev. Geo. Whitman of Burlington.

Minard's Liment Cures Diphtheria

A 100 Yard Dash. Quick Time. A very exciting race took place at Mt Denson on Monday morning last between a special on the D A R and S P Schurman's horse "Black Ben."

At two yds from McKinlay's crossing the starting signal was given by the engine of the special blowing two sharp toots. The horse at this time was about the same distance from the crossing in MacKinlay's race yard harnessed to a cart. The race then began in earnest and was neck and neck until just as the crossing was reached when "Ben" displayed an extra burst of speed and cleared the crossing about two yards in advance of the engine, winning the race. Bet were two to one against the horse.

Prof. Robertson's Advice

Ottawa, May 4.-Professor James W. Robertson, commissioner of agriculture, says he is receiving letters from a good many farmers which say he endorses the Canadian Dressed Poultry Company, Limited, represented as about to be incorporated which a capital stock of four hundred and fifty thousand dollars. Professor Robertson has not in any way endorsed the company nor is he in any way position to express an opinion for the purposes mentioned in the prospectus of the Canadian Dressed Poultry Company Limited a company with a capital stock of \$450,000 is likely to be on too extensive and expensive a scale to carry on business economically in the interests of the producers of poultry in Canada. He does not recommend farmers to invest in the stock of the company.

Annie Dale

The editor was handed the following bit of poetry the other day. It was written by a Hantsport man, who afterwards moved to New York, where he lives and is enjoying married life.

We went to play at the old crossway Along the banks of a limpid brook, Where many a warbler chanted his lay Mung the willows that shaded his way.

And slier bushes and thistles high Grew thickly round a little bridge And the brook flowed merrily, merrily by Through meadows of flowers and a Thorny ridge.

We used to play at the old crossway, We lads and lassies of Hantsport Dale, And one joyous maiden was sweet as sweet May;

A winsome wee lassie was sweet Annie Vale, With sparkling eyes and lips cherry red And hair that was drossy and silken and long;

A bonnie hood carelessly crossed her head And the birds flew down to hear Her sweet song. Long years are past and the old crossway Is there, and so is the singing brook, And the willows so green and the birds so gay;

But where are the children that played at this nook? My winsome wee lassie loved Annie Dale, Is absent now near Avon's tide And the little birds chant a sorrowful wail.

For Annie asleep by the river's side, J. N. W.

The Canadian Order of Foresters

This popular fraternal insurance society was organized in November 1897, and is now 21 years old, and each succeeding year it has been growing stronger numerically and financially. The society has a membership of upwards of 40,000 in the Dominion of Canada, to which its operations are confined. On Feb. 1, 1901, it had \$1,001,057 on hand to pay death claims, which is invested as follows:

Table listing investments of The Canadian Order of Foresters across various provinces and cities, including Ontario, Quebec, and New Brunswick.

Table listing various towns and their debenture amounts, such as Town of Strathroy, Town of Tilsonburg, etc.

Since its inception the order has paid to its members and their dependents upwards of two million and a half dollars in insurance and sick and funeral benefits. The society issues policies for \$500, \$1000, \$1500 and \$2000 the latter sum being the limit on any life, and the premiums for the same are as follows, payable monthly in advance:

Table showing death rates per 1000 of membership in 1899, 1900, and the average death rate since the organization of the society was 4.92.

The death rate in the society was only 4.43 per 1000 of the membership in 1899, 4.88 in 1900, and the average death rate since the organization of the society was 4.92.

The Sick and Funeral Benefit Branch, though an optional feature, is very popular among the membership upwards of 22,000 being enrolled in that department. The benefits are \$3 per week for the first two weeks of illness and \$5 per week for the succeeding ten weeks, or \$56 during any year, besides a funeral benefit of \$30.

The fees for the same, payable monthly in advance, are as follows: Between 18 and 25 years 25 cents, 25 and 30 " 30 " 30 and 35 " 35 " 35 and 40 " 40 " 40 and 45 " 45 "

During the year 1900 over \$63,000 were paid out in Sick and Funeral benefits, and \$195,000 in insurance.

There are now about 760 subordinate branches, or units as they are called, throughout Canada, and the order is now well established in all the provinces and territories of the Dominion.

All physically and mentally qualified males, between the ages of 18 and 45 years, who are not debared on account of occupation, are accepted for membership.

For further particulars enquire of any of the officers or members of the Order, or address: R. Elliott, H.C.R., Ingersoll, Ont.; Thos. White, High Secretary, Brantford, Ont.; Ernest Gartman, S. O., Brantford, Ont.

W. J. Borden, Avonport, has a ewe which has raised eight lambs in the last three years. She has three of them, the last arrivals, with her this spring.

A CERTAIN REMEDY FOR CORNS

And one always to be relied upon is Putnam's Painless Corn Extractor. Safe sure and always painless. Nearly fifty imitations prove its value. Beware of such. Get putnam's at drug gists or if you cannot get it we will send it to you by mail upon receipt of 25c, post paid to Canada or United States. N. C. Polson & Co., Kingston, Ont.

H M Keddy, grocer, of Berwick, has moved his house and will build a new residence soon.

It is said that a crack regiment will come to Halifax this summer to take part in the reception of the Duke and Duchess of York in September.

PAIN IN THE BACK

Life miserable. Can it be cured. Yes in one night. Polson's Nerviline gives a complete knockout to pain in the back for it penetrates through the tissues, takes out the soreness and pain invigorates tired muscles and makes you feel like a new man. Nerviline cures quickly because it is stronger more penetrating more highly pain-annihilating than any other remedy. Don't suffer another minute get Nerviline quick and rub it in for sure as you were born it will cure you. 25c.

**EMPIRE DAY**

Next Thursday will be Empire Day, the day set aside on which to speak to the children on the British Empire and interesting facts in connection. The subjects already mentioned on which to speak to the children are the important events of Victoria's reign, the progress of the Empire and her great men. We have not heard whether the Kentville schools will celebrate it or not, but we hope they will and will also have a good program. If not preparations should begin right away. A good program should be made out, to consist of songs, choruses, etc., all by the scholars, addresses by the teachers and prominent men in the towns and districts. Every scholar and teacher should be brimming over with loyalty. Let the young be taught their duty to their country and its institutions and the necessity of learning more about it, and doing what they can to make it better. In the course of a few years these Empire Day celebrations when regularly conducted and properly managed will be the means of doing an immense deal of good.

**The Agricultural College**

The matter of an Agricultural College for the Maritime Provinces seems to be dormant at present. Although it has been two years since our government at Halifax decided that the crying need of the province was a thoroughly equipped college in the interests of the agricultural class yet nothing definite has been done as regards the selection of the site for the college and the erection of the buildings.

If the province requires such an institution what is the need of further delay? Premier Murray and his associates will lose much of the respect of the large farming class if they permit this matter to hang over until fall and then allow it to become a political football in the elections that are expected at that time.

The law of Shakespeare time is applicable to the legislators delay in the present age. The public have given the Provincial governments plenty of time to mature plans and now action is demanded. They will lose prestige by waiting until the press of the country and the people force the governments to action.

**NEARING THE END**

Such seems to be the situation of the Boer war. Nothing of any importance has happened. The enemy who are now under arms are merely bandits, train wreckers and such like. At the rate prisoners and ammunition have been captured the war is becoming a wearing down resistance.

The English people regard it as a bit of rough work and mechanical means must be applied. Cattle and ammunition are now scarce and at the rate these have been captured of late it would indicate that the enemy cannot stand it much longer. The war has existed too long and has cost too much and the time for drastic measures has come.

The British War Office has officially given out the total number in the deaths in war at 714 officers, and 14,264 men, 4 officers and 314 men have been invalided home and subsequently died; two thousand four hundred and ninety three non commissioned officers and men have left the service unfit for duty.

**Dr. Borden and his Fiddle**

Toronto, May 13—Hon. Dr. Borden, Minister of Militia, and his beloved fiddle, were the guests of honor at the banquet of the North-West Field Force on Friday night. The Minister made an eloquent speech, in the course of which he praised the spirit of the Canadian militia and expressed the belief that the sending of the African contingents had been an epoch making event. During the evening the Minister, to the delight of the banquetters, played some lively airs.

[Was this the same fiddle he used, to charm the dogs with, when he took Hon. Mr. Fisher through Greenwich? It is noted that he still plays "lively airs."

**EDUCATIONAL NOTES**

**FOR TEACHERS AND TRUSTEES**

The Journal of Education for April brings its usual quota of new and interesting material for those connected with the Public Schools. To some of the most important items I wish to direct attention and advise the careful perusal of the Journal.

**I. IMPORTANT DATES**

May 23rd, Empire Day. 24th, Anniversary Queen's Birthday (holiday) 24th, last day to apply for Provincial Examinations. June 24th, Regular Annual Meeting of School Sections. July 1st, Dominion Day (holiday.) 6th, Public Schools close for Summer Vacation. 8th, County Academy Entrance examinations begin. 8th, Provincial Examinations, Grade A. begin. 10th, Examinations for Grades B, C, and D begin. August 19th, Public Schools open.

**II. SUPERIOR SCHOOLS**

It is important to know that any school, whether graded or miscellaneous, by the employment of a Class A teacher and the compliance to the requirements as regards equipment, buildings, etc., may be classed as a superior school and receive the grant for this kind of school. To be ranked as a superior school, it must be superior, particularly in the following respects: cleanliness and beauty within, ventilation, warming, seating, blackboards, maps, charts and apparatus required for the grade of work, school library, and work bench. The teaching and management of course, must be superior. It is hoped that all sections that can fairly compete for the distinction of having a superior school will prepare for it by a liberal vote of money to equip, and then by securing the services of a good Class A teacher. Be sure and find out by the Journal what is required.

**III. THE TEACHERS' PASS**

Notice the difference between the High School, and the Teachers' Pass. At present and up to Dec. 31st, 35 is required on each imperative subject to make a teachers pass. Beginning with January 1st, 1902, 40 will be required on each imperative.

The trustees should pass the Journal over to their teachers as soon as they read it.  
Colin W. Roscoe,  
Supt. of Schools.

**School Commissioners' Meeting**

The Board of School Commissioners met on Tuesday, 14th inst. in the Court House Kentville.

Commissioners West, McDonald, Strong, Hiltz, Shaw and Pizeo were present.

Henry Shaw was elected chairman for the ensuing year.

The Inspector reported 129 schools in operation, taught by 133 teachers, classed as follows: A. B. 8, 25; C. 45, D. 45. Male 20, Female 113.

The Poor Section list of last year was amended by adding South Waterville and then the list adopted for another year.

The School Land Fund of Cornwallis was reported as consisting of \$6678 in mortgage \$600 in land, total \$7278. The accrued interest and rent amount to \$693. From this \$90 were voted to aid South Waterville to build a school house. The vote of \$50 made to Pine Woods last year was reaffirmed and \$25 more put at the disposal of the Inspector in case it shall be found necessary to expend it for the interests of this school. The balance of the \$693 was placed in the hands of the Inspector to be expended in such a way and in such amounts, as in his judgment will best benefit the schools in Cornwallis.

Some of the inhabitants of Prospect and South Waterville petitioned to have these sections reunited. As one of the sections had just built a school house and the other had one in course of erection, it was deemed best not to grant the prayer of the petition and it was not granted.

The trustees of Upper Church St., presented a petition stating that they had failed to meet and vote money for school purposes and asked the Board to approve of the assessment of \$200 upon that section under Section 50 School Act. The Board voted its approval.

George R. Power was upon petition, transferred from Grafton, to Waterville Section.

Petitions from Hugh McGarvey and G. W. Bolser to be set from Australia, to Brooklyn section, and from Mrs. A. Amos, and Joseph Morley to be set from Australia, to Morden Section were granted and a committee appointed to decide into what section Amos should be placed. These men are to be asked to state their preference, if any, of the adjoining sections. In case this is not done without delay, the committee will decide and notify them in what section they will have their school privileges. The disruption of this section was decided upon because the assessable property is only \$2300., the number of children is very small, school house has been burned and the section is not able to build one and the majority prefer to be attached to the adjoining sections.

Sixteen of the ratepayers of Tremont, Harmony, Greenwood and Kingston sections petitioned for the formation of a new section to include parts of each of these sections. This was referred to a committee composed of C. J. West, Nelson Paterson, William Magee, and the Inspector to report at the next meeting of the Board.

L. de Y. Chipman, A. S. McDonald, and S. S. Stroz were reappointed a committee under section 9 School Act.  
Colin W. Roscoe,  
Clerk of Board.

Rev. A. T. Kempton of Fitzburg Mass., will deliver his lecture on Evangeline illustrated with over one hundred diopticon views in College Hall on June 1st. The pictures were taken in Kentville, Wolfville and Grand Pre and the characters shown in the pictures are all well known people of those places.

Everywhere throughout the Valley the different papers are chronicling signs of early spring. We should judge by what we have seen from papers published outside the valley, they do not believe that the season is an early one. Well, it is. It is nearly two weeks earlier than last year. One of our Truro exchanges says "never halloo until you are out of the woods." We are not doing that but it is an early spring in Kentville at least. On the mountains there may be snow but that doesn't effect us. The grass on many lawns have been mown, the trees fast leafing out, and the yellow head of the dandelion in view, the cherry trees in blossom, the streets in their summer condition, and the weather something glorious. Any one doubting this are welcome to come and see for themselves. We can boast of being two weeks ahead of our cousins across the border.

If you want your bicycle cleaned and put in good running order for the season take it to COX'S, CANNING. Any part you want for your wheel, he can get it for you if it is to be had. And you will not have to loose the use of your wheel either, as is often the case. He is also satisfied with a reasonable price.

A needed service is steamboat connection with Wolfville. The traffic during the summer is sufficiently large to make such a connection profitable and N. N. Bentley will make the venture. The Susie is a neat little craft, safe and speedy and comfortable and with her Mr. Bentley will maintain a weekly or perhaps semi-weekly service. She will be run so as to make her trips convenient to the travelling public and in this way the annoying round about route via Kingsport and Kentville can be avoided. Mr. Bentley has not yet made any definite announcements as to days of sailing, etc., but it is safe to predict that the people of Parrsboro and Wolfville will appreciate the service and will do everything in their power to make it profitable. During the tourist season the trips of the Susie will be patronized for Wolfville is a tourist centre and direct connection with Parrsboro will induce many a traveller to come over and see us.—Parrsboro Leader.

HER STORY.

A whimsical herb, contented just to grow,
New buds and trim within a wilderness.

She Tried to Be True.

But Found It Difficult to Keep Her
Promise Since She Loved
Another.

Although the little village of Olden
was beginning to look bright with the
green of early spring, down here by the
cove all was gray—sand, rocks, sky, even
the water had the same dreary tint—not
a gleam of other color, except that of the
crimson shawl which the girl, sitting on a
ledge of rock, had wrapped around her.

Laurence Dare, cousin of the girl,
which ran above the beach, saw the
patch of red and paused.
"Is it Monica," he muttered.

He made a few long strides and
stood "Monica," he said softly.
The girl turned her head with a quick
movement.

"Oh, Laurence!"
There was a displeased tone in her
voice and her brows came together in a
wrinkle as she regarded him.

"He did make no answer."
Monica, last summer you gave me
such hope that in time you would listen
to me. What have you to say to me
now?"

He turned around to him, her eyes
were wet with tears.
"Was wrong to let you think you
at hope, Laurence, for I can't do as
wish. Don't you understand? It is
wrong for me to listen to you; I
belong to Allen. I was to have
his wife. He was always talking
of you. You seemed Cousin
Laurence to me too. Don't you see? I
am not free. I can't marry you."

He interrupted him quickly.
"Monica, we don't know; he must be
gone."
"Monica," he said, with great
gentleness of voice, "think! It is four years
since you have returned in ten months."

"I must be faithful to him."
"Monica," she said, with a
sigh, "this is nonsense. Monica,
he said half angrily. "If Allen is
gone, he went on, "why have we not
heard from him all these years? Are
you going to waste your life in this little
village and give up all chance of happi-
ness for a faithful idea of being bound
to him? And think of me! I have loved
you so long. Come to me. I shall love
you as much as you must love me in
me. Come, I swear that you shall
regret it, Monica."

"Will you spoil both of our lives?"
"Monica, you must not listen, Laurence. I wish
you did not care for me. I wish
you could not care for me. I think I
loved you since the first day I saw
you and now that you are free—"

"Monica, listen!"
"Monica, listen!"
"Monica, listen!"
"Monica, listen!"

"I must not, Laurence,
forget me. I am going home. Do
come."
"Monica, before he could stop her she had
run away.

She went along swiftly until she knew
she was out of view from the cove.
Thoughts were in a whirl. Why
did she not yield? She knew that her
husband would be secure with this
young tender man. How little he guess-
es her struggle to resist his pleading!
If thought she did not care. In the old
days she had compared Allen with him,
and always to the former's disadvantage.
For after the first glamour of their en-
gagement she had seen the shallowness
and selfishness of Allen's nature, and in
the close relations into which through
her engagement she was brought with
Allen's cousin Laurence she had recog-
nized the strong and noble character of
the latter.

And these last years how the tenderness
of his nature had shown out! What
care he had given to Allen's desolate
mother! He had almost filled the place
of her son. Still at first her feeling for
him had been only a strong admiration.
In spite of her recognition of Allen's
weak nature, the fascination of his glance
and soft voice had held her a captive.
But now! When Allen had gone west
on the prospecting tour, which was to
occupy ten months, she had promised
to be ready to marry him upon his re-
turn. But the ten months had passed
and other months had grown into years,
and he had not returned. They had no
news of him after that last letter, writ-
ten seven months from his departure.
Laurence had employed every means at
his command to find some trace of him,
but in vain. He appeared to have van-
ished utterly. The only reasonable solu-
tion of the mystery was that he was
dead. His mother believed it, but Mon-
ica did not. She could not. She had
promised to wait for him. She dared
not break that promise. Allen had loved
her. She must—she would—be faithful.
She would not yield to Laurence!

She felt that she would run no risk of
meeting him this afternoon, he having
visited his aunt the previous week. On
reaching the house she found the hall
door open. She knocked lightly and
without waiting for a response walked
into the little parlor, where she knew
Mrs. Dare was in the habit of sitting.

"But at the threshold Monica paused.
For there stood Laurence by the window,
an open letter in his hand. His aunt
sat near him, apparently in a state of
great excitement.

"As she saw Monica she cried out:
"Monica, my own Allen is living! Come
in and hear the letter!"
Then she fell to weeping and repeating
over and over, "My boy is living!"

"Monica looked from her to Dare in be-
wildered. She had turned very white.
Laurence went up to her and drew her
to a chair. He, too, was pale.

"Is it true?" gasped Monica at length.
"Yes," but he did not look at her.
"Then?"
"I received the letter this morning and
came down by the first train."

"Where is he? I don't understand."
"Is he well?"
"Very well, I don't understand."
"Is he in California?"

Monica looked at him confusedly.
"Where do you have him? I—but I have
been out all afternoon. I suppose that I
shall find a letter at home."

Dare did not reply. His aunt was still
crying. She now looked up at Laurence.
"Blush the letter, Laurence. Listen,
Monica; our Allen is still living."

Dare had folded the letter and was
putting it into his pocket.
"Is there a little more of importance,
dear aunt?"
"Monica must hear it, Laurence.
Monica, dear child, we'll be happy now.
Read the letter for her, Laurence."

"My dear aunt, you must try to calm
yourself or you will be ill."
Monica was puzzled by Dare's evident
desire not to read the letter to her. She
went over to Mrs. Dare and embraced
her.

"Laurence is right; you must try to be
calm, dear Mrs. Dare."
"Joy never kills, child. I must cry for
pure happiness."

"I shall go home now," said Monica.
"Perhaps there is a letter for me."
"Will, child, but come early tomorrow.
We'll count the days now till we see the
boy."

Laurence had left the room and stood
at the entrance door.
"I am going with you," he said as
Monica came out.

Dare regarded the girl stealthily as
they walked along. He marveled at the
unrestrained manner in which she had
received the news of Allen's being alive.

She was still very white, and there was
a strained look in her face—not the ex-
pression of joy he would have expected
to see. She walked rapidly, paying no
heed to Dare.

He put his hand gently on her arm.
"Do not walk so fast, Monica. You
will tire yourself out."
She did not reply, but went more
slowly.

Dare stood looking at her sadly, cur-
ing Allen in his heart.
"Monica, if I could have spared you
this," he said.

"Laurence, I tried all along to be faith-
ful to Allen, but—"
"But what, Monica?"
She stood up and looked into his eyes
a fleeting glance, but it was enough for
Dare.—Chicago Record.

The Noise of Pavements.
Which is the noisier pavement—granite,
cobble or asphalt? Observations made
in Philadelphia show that a horse's
hoofs make practically the same noise on
granite and asphalt, but the sound is
rather sharper on the granite. On granite
and cobbles the noise of wagon wheels
drowns that of the horsehooves. It
amounts to about 90 per cent of the
whole noise, and as it is practically sup-
pressed on asphalt it follows that asphalt
is the quietest. It is also the best for
motor cars.—London Globe.

The CANADIAN
DRESSED POULTRY
COMPANY, Ltd.
EMPLOYEES WANTED.

Station Managers, Inspectors, Buyers, Butchers, Egg Handlers,
Pluckers, Dressers, Packers, Shippers, Agents, Book-
keepers, Stenographers, and General
Clerks for Twelve Stations.

This Company is formed to advance Canadian trade with England in dressed poultry,
turkeys, ducks, geese, dressed meats, eggs and other farm produce, and is now arranging
to establish

Twelve or More Receiving and Shipping Stations in Canada
in the Province of Ontario, Quebec, New Brunswick, Nova Scotia and Prince Edward
Island, where the poultry and other produce the Company will deal in, will be gathered
together from the farmers and prepared for export to England.

Each station will be fitted
with the necessary plants to make the exported articles as perfect as possible, and will
have its own local manager, inspectors, buyers, butchers, egg handlers, pluckers, dressers,
packers, shippers, agents, bookkeepers, stenographers and clerks, and as this Company is
designed to carry a considerable part, if not all, of the future export trade of Canada with
England and other countries in dressed poultry, turkeys, ducks, geese, dressed meats,
eggs and other farm produce, it will be readily understood what a great host of employes
it will find it necessary to engage, and as it is a purely Canadian enterprise for the ad-
vancement of the agricultural business of the country, it has been decided to make the
Company "for the people, and to promote an enthusiastic and patriotic interest
in it."

With This Object, Stock in the Company
has been set apart for subscription by applicants for positions. It is agreed if the appli-
cants as stockholders it will prove a bond of faith and unity of interest between the
Company and its employees, a standing reference of honesty and integrity. The stock sub-
scriber for applicants for positions will be in the same class as all other stock in the
company. The Company has no preference shares. The net profits or dividends will be
divided among all the shareholders alike.

Applicants for Positions
may hold as many shares of the capital stock of the Company as they wish, but not less
than ten shares, which cost fifty dollars. (The shares are five dollars each.)

Applications for Positions
will be entertained first from those who have secured shares. Shareholders will at all
times be the first considered, and as it will likely take a month or more to investigate the
qualifications of the large number of applicants, and the final organization of the Com-
pany must not be delayed. The subscription list for position seekers will close promptly
at six o'clock, afternoon, on the 25th May, 1901.

Salaries and Wages Paid
The local managers will be paid a salary of \$1,200 a year each, the inspectors \$800 a
year each, and the other employes will be paid salaries or wages fitting the dignity of the
positions they hold, and equal to the salaries paid for similar services in other companies,
and having regard to the experience and ability of the employee and the demands of the
concern.

The Capital Stock
of this Company is divided into shares of five dollars each, and of this only a limited
number of shares are offered for subscription by position seekers, but no subscription will
be accepted for less than ten shares (\$50). The stock will be allotted in the order in which
the applications are received, and no stock will be held open for anyone. Fill out the
application form given below, be careful to state how many shares you want, and the
amount of money you enclose. Sign your name to it, and fill in your address, and send
it to Mr. Gibson Arnold, the President of the Company, 9 Toronto Street, Toronto, On-
tario, accompanied by a marked cheque, post office order or express order for the full
amount of your subscription, payable to the order of Mr. Gibson Arnold, President of
the Company.

## A Farmer's Trials

A SUFFERER FOR YEARS, THE RESULT OF A FALL

In His Weakened Condition La Grippe Fastened Itself Upon Him, and Brought Him Near the Grave.

Mr. William Silver is a well known farmer living near Hemford, N. S. During his life he has passed through much sickness, but now, thanks to Dr. Williams' Pink Pills, he is again enjoying vigorous health. To a reporter who recently interviewed him Mr. Silver said: "I am now in my 62nd year, and may date the beginning of my trouble to my sixteenth year when I was thrown from a horse's back and had my spine somewhat injured. This was always a weak spot and it seemed to leave me more susceptible to other trouble, as it grew worse as I advanced in years. As a farmer I always had to work hard, and often to expose myself to inclement weather. My back trouble was finally aggravated by indigestion, and as this affected my appetite, I was much run down. Finally a few years ago I was attacked with lagrippe, which developed into pneumonia. My family doctor succeeded in conquering this trouble, but for six months I was not able to leave the house, and all that he could do for me did not bring back my strength. Finally I consulted another doctor, but with no better result. In fact before I stopped doctoring I had tried four different physicians and all the time instead of getting better I was growing weaker. Some eighteen months had now elapsed since my attack of lagrippe, and during that time I was not able to do any work. My whole system seemed exhausted, and my nerves shattered. On fine days I would go out for a while, but often I would become so weak and dizzy that I could scarcely get back to the house. One day a neighbor asked me why I did not try Dr. Williams' Pink Pills. I thought the advice might be worth taking and I sent for a half dozen boxes of the pills. Before they were gone there was no doubt I had found a medicine that was helping me, and I got a further supply. I continued taking the pills for about three months, and before I quit using them I was feeling better and stronger than I had done for years. Every symptom of the weakness that had followed a grippe was gone and my back which had bothered me for so many years was almost as strong as in boyhood. I have since done many a hard day's work, and been exposed to bad weather, but without any evil effects, and I can truly say Dr. Williams' Pink Pills have restored me to vigorous manhood.

Dr. Williams' Pink Pills cure such cases as the one noted above because they create new, rich, red blood, thus strengthening weak and shattered nerves. They do not purge and weaken like other medicines, but strengthen from the first dose to the last. Sold by all dealers in medicine or sent post paid at 50 cents a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville.

The New York Herald says there is a whisky famine in that State. This is the only sort of famine that can be regarded with distinct and benevolent approval.

Last week "The Irish People" a weekly paper published in Dublin Ireland was seized by the police for publishing an article which was such a filthy and scurrilous attack on King Edward. Cardinal Vaughan was also attacked for having presented the King with an address. The Irish Nationalists objected to the seizure saying that it was illegal and was a violation of the liberty of the press. A vote was taken in the Commons and the article was condemned.

The following resolution was passed recently by the Nova Scotia Tourist Association. "RESOLVED—That in the opinion of this association, the time is ripe for the organization of local tourist associations throughout the Province, and that the Secretary of this association is hereby instructed to write to prominent people in the various Provincial towns, offering to send a delegate from the Halifax Association to inaugurate the work.

Mr. Woolsey Bingay, late of the first Canadian contingent, is about to return to the front, this time, however, in the peaceful capacity of an employe in the Cape Government Railway general offices at Cape Town. While on service Mr. Bingay made the acquaintance of parties to whom he has since obtained the position. He will leave for Cape Town on the new steamer Usher, which loads here at St. John for that port.—Yarmouth Ex.

A meeting of the Maritime Prohibition Association held in Truro last week was not largely attended. The convention was in favor of amendments to the Scott Act and was against the Gothenburg system.
