

THE ACADIAN

WOLFVILLE, N. S., OCT. 12, 1894.

Oliver Wendell Holmes.

Oliver Wendell Holmes, famous as a poet and author, died at his residence, Boston, on Sunday, from a complication of diseases. Dr. Holmes has been in feeble health for a long time, and although an iron constitution, has long labored with disease, it was at last shattered. The last hours of Dr. Holmes were passed quietly, with his family at his bedside.

Oliver Wendell Holmes was born at Cambridge, Mass., in 1809. At the age of 20 he graduated at Harvard College and began the study of law, which he abandoned for that of medicine. In 1847 he was appointed to a professorship in the Massachusetts medical school, from which he retired in 1862. As early as 1836 his contributions in verse appeared in various periodicals, and his reputation as a poet was established by the delivery of a metrical essay entitled Poetry, which was followed by others in rapid succession. As a writer of songs, lyrics and poems for festive occasions he occupied the first place. For many years he was a popular lecturer, and contributed largely to current medical literature, as well as literary journals and reviews.

Prohibition Convention.

A Prohibition Convention for the Maritime Provinces will be held at Annapolis Royal, on Wednesday and Thursday, Oct. 17th and 18th. The first session will be called to order at 2 p. m. on Wednesday. All Churches, Lodges, Divisions, Councils, W. C. T. U.'s and Religious and Temperance Societies of whatever name, are requested to send representatives. The prominent temperance workers in the three provinces are expected to be present. W. W. Buchanan and other temperance leaders from Ontario and Quebec have announced their intention of attending. The objects are stated to be to prepare the temperance forces for action in view of the near approach of a general election to prevent the supreme issue from being ignored in the coming campaign. To consider the advisability of putting independent candidates in the field in certain constituencies; and to complete the formation of a central bureau on political action, thus securing uniformity of method and effect in the various provinces. The main object of the convention is to secure all railway and steamship companies for the transportation of delegates. Hotel accommodation can be had at very reasonable terms. Delegates will be met at all trains.

According to the Ottawa Bureau of Industries' latest report there is a noticeable disposition on the part of the farmers to improve away the "snake" fences which so greatly mar our landscapes. On a few farms experiments with hedges have been tried, especially with the locust, but the comments made upon it are not favorable. Barbed wire, however, is finding favor, which is perhaps but a qualified blessing. Woven wire is not so bad, and the use of that is likewise increasing for fencing agricultural improvements. But the farmers say prices are poor and they do not feel justified in going to greater expense in their devotion to beauty.

Between 1870 and 1880, says the London Times, Danish agriculture was on the brink of ruin, but the establishment of agricultural schools, the abandonment of wheat growing for dairy work and the establishment of cooperative factories converting the milk of a score or two of farms into butter for the English market, have given the Danish farmers prosperity amid universal depression. Canada has been following the same policy and is reaping the same reward. Thanks largely to the energetic policy of the Dominion department of agriculture.

The nomination of Senator Hill by the Democrats, for the governorship of New York state, is evidently but a stepping stone to his appearance in the list of presidential candidates two years hence. His nomination will bring out the fighting Democracy in full force, but it will also bring to the front that is objectionable in the Democratic party organization in the empire state. His defeat might not be a mishap to the future and permanent interests of the Democrats.

The opening lecture of the College year was delivered in Assembly Hall on Monday evening by Prof. D. F. Higgins, Ph. D. There was a good attendance of students and townspeople. The address was an able plea for the College as a means of equipment for the duties of life. It was heard with close attention and received applause at several points.

We understand that the Brown, Munro & Co. building, on the corner of Main and Chapel streets, has been purchased by Messrs T. L. Harvey and Watson Duncan. The building will undergo some changes at once. Mr. Harvey will occupy the corner store and Mr. Duncan the one next to it.

Fall Races at Kentville.

The managers of the Kentville Driving Park have the best list of entries for the races next Wednesday, Oct. 17th, that has ever been offered at one meeting in this county. Seven of the fastest trotting and pacing stallions in Nova Scotia are entered in the 2.29 class; and eight of the fastest trotters in this county are entered in the 2.35 class. All that is needed to make the meeting a grand success is a fine day. There will be an excursion from Lunenburg to Kentville on the 17th, and from 800 to 1000 people are expected to take advantage of the cheap fare to Kentville. The secretary has engaged the Lunenburg Brass Band to play at the trotting park, in the afternoon. This Band is one of the best in the Province, and all lovers of good music and fast trotting should make an effort to attend this, the last trotting meeting of the season.

ENTRIES IN 2.29 CLASS: "Rowdy" 2.30 1/2, by Alright, Frank Hill, Halifax. "Sir Brenton" 2.31, by Grand Sentinel, R. E. Felton, Lunenburg. "Sir William" 2.35 1/2, by Messenger Wilkes, Hugh Fowler, Bridgetown. "Rampart Jr." 2.29, by Rampart, A. L. Slipp, Amherst. "Resolution" 2.28 1/2, by Rampart, James Gibson, Brooklyn. "Cushing's Pilot" 2.34 1/2, by Black Pilot, Porter & Cushing, Wolfville. "Nellie Bly" 2.33 1/2, by Alright, Newton Lee, Truro.

ENTRIES IN 2.35 CLASS: "Lakeville Girl" by Zenith, F. L. Robinson, Lakeville. "Machinist" by Alright, J. P. Jordan, Kentville. "Sealette" by Zenith, Geo. Wood, Wolfville. "Kingbird" by Rampart, E. P. Bowles, Wolfville. "Kentucky Prince" by Lambert, H. C. Lydiard, Kentville. "Vera Wilkes" by Mambino Wilkes, J. L. C. Car, Canning. "Little Tiger" by Frenchman, F. W. Rand, Canning.

A Declining Industry.

According to present indications the Gloucester fishing fleet, once the pride of New England, will soon be a thing of the past. The number of vessels engaged in this branch of industry has been steadily decreasing and the operations of this year have been very unprofitable; indeed, a Gloucester despatch says, scarcely a firm has paid expenses, while profit there is none. The mackerel fishery, once a profitable industry employing a thousand sail and twenty thousand men, is almost extinct while halibut and cod are rapidly disappearing from waters at all convenient to New England fishermen. The disappearance to disintegration among those interested in the fisheries and this in turn led the United States government to abrogate the fisheries treaty with Canada. It was purely selfish policy but instead of helping the Gloucester industry it has but hastened its ruin. The government of Canada, seeing that our fishermen were to be placed at a disadvantage in disposing of their catch, took the only sensible course and adopted measures for protecting our vastly richer fishing grounds from the ravages of the fisher men of the United States; the fishing industry was assisted in every possible way and the result is that our people, being able to build and fit out vessels cheaper than those of Gloucester, have reaped a benefit and not an injury from the hostile policy that was intended to take us on our knees to Washington begging for favors. Thus it is that while the fishermen of the maritime provinces are fairly prosperous, the hardy sons of New England dependent upon a once prosperous industry are now in sore straits and see their great source of employment gradually slipping from their grasp.

New Hall at Port Williams.

During the past summer the members of "Lily of the Valley" Division, S. T. of Port Williams, have erected a commodious and comfortable hall, which is an ornament to the place and speaks well for the enterprise of the members. On Friday evening last the hall was dedicated in regular form. Besides the members of the division there were present a goodly number of persons interested in the cause of Temperance, among whom were several members of the Grand Division. The Division, clothed in regalia, occupied seats on the platform. Excellent addresses were given by James Dempster, G. W. P.; W. S. Sanders, G. S.; J. E. Butler, (representing the Grand Division), Rev. E. C. Ford, Rev. Mr. Axford and Professor Keirstead. While all the addresses were good, that given by Prof. Keirstead was especially so, and was listened to with close attention. The speaker said that the building of a temperance hall in a community was not, as many supposed, a small matter. The influence of a good temperance society is of value to every citizen. The prosperity of a county depends upon its land, its capital and its citizens. What ever tends to build up a strong, moral manhood should receive the encouragement of all. During the evening an excellent programme of music was rendered by a choir from the Division, and a well-written poem, appropriate to the occasion, was read by Mr. E. Blackadder, of Wolfville Division. We wish the members of "Lily of the Valley" Division a successful and useful career in their new hall.

Members of the Winnipeg grain exchange are enthusiastic over this season's prospects of two rowed barley grown in this country. It weighs 56 lbs. to the bushel and is equal to English grown barley in quality of making white flour.

Observations of Mars. Among the achievements of the twentieth century it is not impossible will be the ascertaining of whether Mars is or is not inhabited. It is now agreed with tolerable unanimity that it has an atmosphere. "If it did not have, then it could scarcely have snow, ice and water and the melting every summer of the ice-belt around the South pole, which is observed through modern telescopes every year. There are marks and lines upon the surface which indicate an intelligent agency, human or otherwise. These marks are the double line of canals across the middle of the planet and a number of mysterious geometrical figures around the South pole, etc. Dr. Dick, the astronomer, more than sixty years ago, suggested immense mathematical figures (square and triangle) on the earth, the moon and Mars as a means of communication between these spheres in case they were inhabited by intelligent beings. The planet Mars is now near to us this summer and fall that these strange geometrical figures have been visible from both Australia and America. Professor Holden, Lick Observatory, observed in the summer of 1892, when Mars was so near to us, three prominent spots, or points of light, in a triangle of regular shape. What these spots of light may be is one of the great questions concerning Mars. Camille F. Flammarion, the celebrated French writer, who has so vivid an imagination, and is also of a scientific turn of mind, believes that the opinion that Mars is inhabited, and that her people are much more advanced thinkers than we are. He has even propounded the theory that the strange figures are not the only things that make Mars intensely interesting to astronomers at this time. July 19th of this year, Prof. Lowell saw the red planet with a decided nick in its circumference, as though a wedge had been cut out of it. This disappeared, but July 23rd, Prof. Jewell saw, instead of a nick, a sort of luminous horn standing out from the edge of Mars. Another astronomer has found—or he thinks he has—a gigantic pyramid of artificial construction on the surface of the planet. The strange black marks shift from time to time, and the three luminous points have now disappeared. When it is considered that Mars is 40,000,000 miles distant from the earth this pyramid which is spoken of must be of immense size to be seen from here.

Prof. Salton, of the Kew Observatory, says that a flashlight from a mirror 25 yards long and 14 wide could be sent on Mars through telescopes as large as that at the Lick Observatory.—Ez

Our Sunday Schools. Mr. J. W. Caldwell, President of the Kings' County Sunday School Association, informs us that two days, Sunday and Monday, Oct. 21st and 22nd, have been selected as days of universal prayer for Sunday schools. The following topics have been suggested: 1. The Sunday School Teachers of the Whole World—that they may be led to a more constant faithful study of God's Word, and increase in love and sympathy for their scholars. 2. The Sacerdotal Scholars—that they may be preserved from the dangers to which they are exposed, especially the prevailing vices and sins of the present day, and be speedily brought to decision for Christ. 3. The Junior Scholars—that they may early in life be brought to listen to the Saviour's gracious words, "Suffer the little children to come unto Me." 4. The Officers of Our Schools—that they may be wise in counsel, energetic in action, consistent in conduct, and examples in all good works. 5. The Sunday School Unions, and other Organizations seeking to promote the efficiency of Teachers, and the prosperity of the Schools—that their efforts may be crowned with enlarged success. 6. Sunday School Missions on the Continent of Europe and in India—that their influence may rapidly extend, and contribute mightily to the overthrow of the superstition and infidelity which so largely prevail. 7. Missionary Sunday Schools in the Heathen World—that they may increase and multiply, and help to bring about the period when all shall know the Lord from the least unto the greatest.

Rev. D. M. Gordon was elected last week, almost unanimously, to the professorship of Systematic Theology in Pine Hill Presbyterian College, Halifax.

Ambert-made Long Boots at Borden's.

The members of Maple Leaf Division held a very successful Pic Social in their hall at Greenwick on Monday evening.

The object was to raise funds to purchase a new organ for the Division.

The recent exhibition at Halifax proved a great boon to the merchants of that city, as the sum of thirty thousand dollars is said to have been left by visitors from various parts of the province.

One of Prof. Robertson's assistants, J. R. McEwan, a Canadian, has received a lucrative appointment from the New Zealand government as an expert in dairying. He leaves for the antipodes in a few days.

Ladies' Opera, Common Sense, and Storm Rubbers, at Borden's.

At the regular monthly meeting of the Wolfville Fire Co., last Friday evening, Mr. J. F. Herbin was elected captain in place of Mr. G. W. Munro, resigned. Mr. F. W. Woodworth was elected Vice-captain in place of Mr. Herbin.

Rev. Mr. Brown, an evangelist, has been holding meetings in Wolfville during the week. He has been engaged by the College Y. M. C. A. On Sunday morning he occupied the pulpit of the Baptist church, and in the evening spoke in College Hall.

A number of changes in real estate are reported this week. We are glad to see it on the move. Wolfville is recognized throughout the Province as a good place to live in, as is evidenced by the increased number of people who are making their homes here.

The Dom. Atlantic Ry Co., have come out strong on the temperance question. One of the rules reads thus: "Any employee of the Railway, who is known to be intoxicated, either when on duty or when off duty will be at once dismissed from service.—Ez.

The synod of New Westminster met on the 4th inst. to select a successor to the late Bishop Silton, and it was decided that Rev. W. Hibbert Binney, vicar of Wilton, Cheshire, England, receive the appointment. Rev. W. Hibbert Binney is a son of the late Bishop Binney.

Look at our 50c, 75c, and \$1.00 Underwear, in Canadian and Scotch all wool C. H. Borden.

The lecture given by Rev. W. T. D. Mox, on Wednesday evening, drew but a small audience, owing probably to the disagreeable state of the weather, but those who braved the storm were richly rewarded. The lecturer had a thorough knowledge of what he was talking about, and interspersed his very interesting lectures by some laughable experiences, thus both amusing and instructing. Rev. D. J. Fraser presided. At the close of the lecture, Rev. E. C. Hind, in a brief speech expressed his appreciation of the lecturer, and moved a vote of thanks, which was seconded at some length by Prof. Tufts.

Foot Ball Jerseys and Bicycle Sweaters, at Borden's.

Donahoe's for October.

One always is sure to find something timely in Donahoe's Magazine. The October number, coming out in the midst of the political campaign, has for its leading features, three articles in answer to the question, "Which Party Should Be Supported?" Josiah Quincy, ex-assistant Secretary of State of the United States, answers the question for the Democrats, Elliot Lord, the journalist, for the Republicans, and George H. Cary, Populist candidate for Governor of Massachusetts, for the People's party. The articles are strong and good tempered.

Dr. Thomas Dwight, in a striking article on "Sham Science," attacks Prof. Drummond; and Rev. John Talbot Smith analyzes the character and works of Archbishop Corrigan, in the first of a series of articles on "Eminent Americans." "All things considered, this is probably the most brilliant paper in the Magazine. It is clear and fearless, yet careful and just. The other articles, by Father Smith, will be greeted with interest. Next month he will consider Archbishop Ireland. If Father Smith keeps up the standard set in this article in his treatment of the other prelates, he will, as a critic, take a place among American Catholic ecclesiastics, much the same as Sainte Beuve occupied in the French literary life of the last generation. Donahoe's Magazine will be eagerly read by Catholics and Protestants for these articles, if for nothing else. In this October number, there is also a complete story by the English novelist, Robert Barr, and many other artistic attractions, stories, poems, and pictures.

REV. T. W. LEGGOTT, BROOK-LIN, ONT., writes: After giving the K. D. C., a fair trial, I am satisfied it is the best remedy for Dyspepsia ever brought within my reach. I have found it all that it is claimed in its behalf, and have much pleasure in recommending it as a most excellent remedy.

Free Sample of K. D. C., mailed to any address. K. D. C. Co., New Glasgow, N. S., or 127 State St., Boston, Mass.

Married.

R. E. HARRIS.

Wolfville, Aug. 22.

The "New Silver Moon" Base Burner Still Leads. It has no Equal.

So great is the popularity of these Stoves that a large number of imitations have been put upon the market. The difference is so great that none should be deceived, but strange to say they have been. We therefore caution all who want the genuine article to see that the Stove they buy has the UPPER AND LOWER FIRE POTS and the name "NEW SILVER MOON" cast in the Stove.

Also in Stock and to arrive the celebrated MODEL GRAND RANGE, twenty in operation in Wolfville, giving perfect satisfaction.

Full Stock Stove-pipe Elbows, Coal Hods, Etc. Plumbing and Furnaces are a Specialty. We guarantee satisfaction.
