SOME LIQUIDATION IN GOOD SECURITIES — MONEY AT 6 AND AT 7 — CABLE STRONG — THE LIST GENERALLY WEAK.

Montreal, Nov. 13.

Some liquidation today owing to the tighter money. Six per cent is what the banks are charging, and seven per cent is being charged by some of the brokers and the consequence is a somewhat weaker market. Cable was strong. Such was substance of the replies to enquiries: One explanation, that, viz., Of money is given with unvaried sameness by each one asked. In to-day's weak market there were profitable returns of course, as there were, and as there will be in the stronger markets. With occasional rallies, the course of the market since September 1st has been a descending one. Mining stock, notoriously War Eagle, has fallen far, it being nearly a hundred points lower. Few of the prices over par but have lost from 10 to 20 points since September 1st. To-day's break goes still further in the same direction, and spread a number of bargains which bought in upon a bargain basis will be sold later according to merit. It is given out that the last of the bad bank statements has been issued and that a new order of things will begin. Money is returning to the centres, more slowly than usual, indeed, but it is returning and gives indication in other directions that it will grow easier. Meanwhile a good many houses have been compelled to charge their customers the market rates for money lately, and this has led to the reducing of lines by customers and fully accounts for some liquidation even in good securities.

Commercial Cable was strong, advancing $\frac{1}{2}$. Bank of Montreal gained 2 $\frac{1}{2}$ points, and Bell Telephone gained 1 point.

The following six sold at last previous values, Can. Pac., Payne, Twin City, Dominion Cotton, Com. Cable, Coupon Bonds, Bank of North America.

The following eight sold on recessions. Montreal Gas, 2 lower. Toronto Ry., $\frac{1}{2}$ lower, Richelieu & Ontario, 1 lower, Montreal Street Ry., 2 $\frac{1}{2}$ lower, Virtue, 1 lower, War Eagle 5 lower.

STRAWS.

Higher rates for life policies in Canada are reported.

English cotton buyers are said to be busy in New Orleans.

The Chicago post office will experiment with automobiles.

On Friday Bay State Gas was weak and about 3000 shares changed hands from 2 to 2 $\frac{1}{2}$, and closed offered at 2 $\frac{1}{2}$.

The Great Lakes Towing Co. is having built an ice breaker designed to break 12 inches of ice at the rate of 6 and 7 miles an hour. By this means it is hoped to keep navigation on the lakes open all winter.

Imports into Canada for the fiscal year 1898-99 were \$87,536,085 of dutiable goods, \$64,484,973 free, total \$152,021,058. Total of imports and exports \$306,104,708, and the duty collected on these amounted to \$25,157,930.77.

Chicago—The Western Electric Mfg. Co., the manufacturer of material for the Bell Telephone licensee companies, is mailing notices to all the sub-companies that all royalties heretofore paid on switchboards and bells would be cancelled beginning with October 31.

A new company, the National Tin Plate Co., hopes to interest the American Tin Plate Co. in a process of preparing plates to be tinned which dispenses with the use of acid. The saving thus effected is \$10 a ton. The process is the invention of Mr. William Rogers. It has been tested at the Whittaker Iron Works in Wheeling, and pronounced a success, and Vice-President McDowell of the Philadelphia, says the new tin plate process is a go.

It is announced that the Dominion Iron and Steel Co. will have a rival in the Nova Scotia Steel Co., which, prior to the formation of the Dominion Coal Co., was the largest steel and iron producing company in Canada. It is said that the Nova Scotia company will absorb the General Mining Association of North Sydney, having large coal deposits in Cape Breton. The capital of the company will be increased, the financing to be done in Boston and Canada.

Boston—The U. S. Leather Co. and outside houses have advanced prices of hemlock leather 1c per pound all round. The reason given is the scarcity of leather and the high prices for hides. All the outside houses with one exception are now asking 36c for union leather, which is the highest price union leather has sold at since 1879, although it reached 36c in 1895. The U. S. Co. in selling Union at 34 and 35c for No. 1 grade. Predictions of 1c for union leather are made by trade authorities on the ground that stocks of leather are very light and consumption throughout the country is very large.

MONTREAL MINING EXCHANGE

MONTE CHRISTO AND CANADIAN GOLD FIELDS ACTIVE — BIG THREE SELLS AT 10 — DEER TRAIL AT 20 $\frac{1}{2}$.

Montreal, Nov. 13.

The demands for Can. Gold Fields and Monte Christo continued brisk at the opening session of the week, 19,000 shares changing hands, both selling at 8.

New from the Monte Christo mine has been of a most favorable nature of late, consequently the renewed activity and firmness exhibited in this stock.

Canadian Gold Fields has likewise enjoyed popularity of late and is looked upon as a good thing by its many friends, it was offered at 8 $\frac{1}{2}$ at the close.

Big Three needs better support before it can hope to do better, it sold at 10 and 11 this forenoon, closing at 10 bid, 1500 shares being sold.

Deer Trail was a little off color, selling at 20 $\frac{1}{2}$, 5000 shares changing hands at this price; at the present selling price it yields a substantial return to investors.

There is to be a meeting of the Noble Five Consolidated Mining and Milling Company to-morrow, it will then be decided what steps are to be taken in regard to the reorganization.

Golden Star was offered at 34; 33 being freely bid; it should be cheap enough at current prices.

It is expected that the general manager of the Winnipeg, Mr. Duncan McIntosh, will visit Montreal shortly; he speaks in glowing terms of the future prospects of the mines, large bodies of ore for shipping being in sight.

The demand for Rathmullen remains firm. Development work on the Maple Leaf, a property belonging to the Rathmullen Company, is progressing apace, new compressor plants have been installed.

Work on the Giant is being resumed. Like California, its neighbor it is a stock selling cheap and should be bought.

Mr. Tregear, formerly of the Le Roi mine, and now managing the Giant, asserts that shipping will commence before the end of the year.

The remaining business was transacted in Payne, which sold at 110, and Virtue, which sold at 43 and 44, the demand at the close of the session being in the latter case firmer, 44 being bid and 45 offered.

NEW YORK EXCHANGE.

SO. PAC. LEAD AMERICAN STOCK IN LONDON — HEAVY BUYING FOR LONDON ACCOUNT HAS A GOOD EFFECT ON MARKET — LOANS AT 10, 12 AND 6 PER CENT

Broadway house. The persistent strength of So. Pac induced purchases of the balance of the market and the whole railroad list may be called remarkably strong.

Telegram to Telfer & Ruthven — Leading foreign house says Europe bought to-day about 60,000 shares of different stocks and in last ten days has bought upwards of 250,000 shares of different stocks leading trust company in last hour loaned 2 millions on call at 6 p.c.

New York, Nov 13

Cables from London are rather of a more cheerful nature. Americans show fractional gains. Most of writers of financial articles in Saturday's and Sunday's papers naturally treated on financial situation and stated that relief might be expected either from Treasurer or else from gold imports.

The sharp break in Sterling Exchange Saturday encouraged the idea that the situation in London is such that it may be safely asserted that Bank of England will do all in its power to keep gold from coming this way.

Taking these facts into consideration it seems to be clear that we shall have to wait for return of currency from the West before much relief can be afforded. The return of currency from the West is likely to be smaller than usual on account of the extraordinary activity in trade.

The financial situation is treated at length because it is the key to the whole situation, everybody admits that if the banks were well supplied with loanable funds, nothing could prevent a strong upward movement in prices all round, but with the banks nearly \$3,000,000 below legal requirement, not only is an expansion of loans an impossibility, but a contraction is a necessity.

New York (noon), Nov. 13.

Official quotations from London showed that the markets there were buoyant and that Americans were strong under the lead of So. Pacific.

The quoted price for So. Pac was 40 $\frac{1}{2}$, but there must have been a further material advance just before our opening, as London bought all they could get at 40 and 4 and then continued buying all the morning, paying as high in some cases as 40 $\frac{1}{2}$, they were not only heavy buyers of So. Pac, but also took considerable quantities of other industrial shares, more especially Atch. pfd, of which they bought at least 10,000 shares, in fact their total purchases were not less than 50,000 and probably more. This buying came as a complete surprise to the Street and caused a considerable change of sentiment which on Saturday afternoon was undoubtedly bearish. The change is based not only on the actual buying, but also on the probable effect which it would have on Sterling Exchange. The effect was quickly noticeable, as Sterling Exchange yielded, and is now reported to be weak.

The Room is full of stories of engagements of gold in England for shipment to this country, but so far no authentic announcement has been made and possibly none will be made till Tuesday when engagements, if any, will have to be made for shipment on Wednesday's steamer. Outside of the Sterling there seems to be a good deal of skepticism in regard to gold importations, and one foreign banker of prominence states that in his opinion they are an impossibility.

Money at opening loaned at 10 and 12, and subsequently \$1,000,000 was loaned at 6 p.c. by an institution which never accepted high rates. Subsequently rates have varied from 8 to 10 p.c.

A.M.T. declined on sales of 2500 shares by Keene and 5000 by the specialist, the latter sale being attributed to a prominent

ROSSLAND ORE SHIPMENT.

Rossland, B.C., Nov. 11.—Last week's shipments of ore from Rossland exceeded 6,000 tons, the greatest output for any one week from the camp. During the week just closed 5,536 tons were sent down, making a daily average of over 790 tons. A detailed approximation of the camp's output for the week ending November 11 and year to date is as follows:

WINNIPEG.

Duncan McIntosh, president and general manager of the Winnipeg, was in the city today, en route for the east. He informed the press representative that on the 300-foot level, at a point 100 feet north of the shaft, a body of ore 45 feet in width had been met. This had been crosscut for a distance of forty-five feet when he left, and there was no sign of the other wall.

"It is the largest body of clean ore I ever saw," said Mr. McIntosh. "There are now 100,000 tons of ore in sight in the mine for shipping, which will begin shortly."

GIANT PROPERTY.

Nick Tregear, formerly of the Le Roi mine, and now in charge of the Giant property, on Red Mountain, stated yesterday that he would have 1,000 tons of ore ready for shipment by the end of the year.

OKANOGAN.

A \$4,000 gold brick, representing the October cleanup of the Okanogan Free Gold mines has been on exhibition all day at a local store, creating a good deal of interest.

CHICAGO MARKET.

CABLES DELAYED BY STORM — NO NEW FEATURE IS IN SIGHT TO STOP DECLINING PRICES. — FREIGHT CHARGES EAST FROM CHICAGO LOWERED.

Chicago, Nov. 13.

One farthing lower is the Liverpool cable about wheat, the prices being 5-9*1*/₂, 5-10*1*/₂, and 5-11 this morning for December, March and May.

December wheat at New York opened $\frac{1}{4}$ lower today than last closing at 71*1*/₂, March $\frac{1}{2}$ lower at 71*1*/₂, May $\frac{1}{2}$ lower at 75*1*/₂.

The Chicago market opened with December wheat $\frac{1}{2}$ lower at 66*1*/₂, May $\frac{1}{2}$ lower at 70*1*/₂. Corn and oats opened $\frac{1}{2}$ lower and in the grain market there were in the earlier sales no indication that there would be any advances today.

Provisions opening showed weakness and inactivity. There is little of a bullish nature in sight except the small winter wheat receipts. The damage reported to have been done to the Argentine crop having been denied by later accounts. Towards the close on Saturday the market hardened a little on some export business, coverings of shorts and clearances of wheat and flour exceeding four and a half millions for the week. The demand for export is not large or the decline of 2 cents in freight rate on corn east from Chicago, and weak ocean freights would not have occurred. It is said that foreign houses have been moderate sellers of wheat of late. Without some impairment of the next season's crop outlook professional traders can scarcely avoid bearish anticipations.

The wheat market rallied in the afternoon and closed strong, $\frac{1}{2}$ higher than the opening.
