CONDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.
 The limits will be adjudged to the highest bidder, on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank. Failing payment, they will immediately be re-offered for sale.
 The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.
 Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter.
 Plans of limits offered for sale are pen for inspection in the Department of Lands, Forests and Fisheries, in this city, and at the offices of the Crown lands and timber agents in the different agencies in which said limits are situated, up to the day of sale.
 N. B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.
 S. N. PARENT,
 Commissioner of Lands,
 Forests and Fisheries.

CURRENT TRADE CONDITIONS.

ONTARIO.

The month of April, although not characterized by unusual activity, witnessed the movement of considerable lumber by rail, chiefly to local points and the Eastern States. If the predictions of the trade are to be realized, a much larger volume of business will be done during May. Everybody seems hopeful of a prosperous season, and this confidence alone will serve as an inspiration towards the placing of orders. The hopeful feeling which pervades the trade is based on a solid foundation, enquiries for stock are becoming more numerous, building is brisk, and manufacturers are fully employed. There is also a better inquiry for export stock. Before the new cut is in shipping condition, the stocks that were carried over will have become greatly depleted; in fact, it is now difficult to purchase any large quantity of certain grades of pine. The fact that early shipment of lumber purchased in the winter and spring is being urged, shows that stocks are low and that buyers are in need of the lumber. Several large lots are about to be shipped from the Georgian Bay to Michigan points. There seems to be more call for mill culls than for the lower grades generally. Hemlock is getting very scarce and higher prices are being asked. In hardwoods there has been only a slight improvement. Mills are planning to reduce the output this season, so that there is not likely to be any difficulty in maintaining the present prices. The statement that lath will advance has been further evidenced by the transactions of the past week.

QUEBEC AND NEW BRUNSWICK.

Vessels are now loading lumber at Quebec for the United Kingdom, and a number of charters have been effected for loading at St. Lawrence ports during May and June. Spruce deals seem to be a little firmer and in somewhat better demand. In square and waney timber the only change to note is a slight advance in Michigan waney pine, which is now quoted at from 48 to 52 cents per cubic foot. The reports from the drives in Quebec and New Brunswick are very favorable,

although all the logs will not be in safe waters for some time yet.

MANITOBA AND BRITISH COLUMBIA.

The weather throughout Manitoba and the Territories has not been favorable for outdoor work. The farmers are in the midst of seeding, and the lumber trade, consequently, is rather quiet. Large building operations, however, are contemplated, and an early improvement in the demand for lumber is looked for. Railway and bridge timber is in good enquiry. A better demand for shingles is reported by British Columbia dealers, particularly for shipment to the east. Band sawn shingles are quoted at \$3.35 in Victoria, dimensions at \$2.85, No. 1 at \$2.35, and No. 2 at \$2.10. Lath is quoted at \$4 for 3-8 x 1 3-8 in. x 4 feet.

UNITED STATES.

The past week has not witnessed a large movement of lumber, but transactions have taken place which show that the tendency of the market is upwards. Sales of mill culls have been made at \$12.50 at the mill, and it is generally conceded that the lower grades of lumber are not as strong as the better qualities. At Buffalo and Tonawanda stocks of white pine are badly broken, and buying among dealers for assortment purposes is quite common. There is a scarcity of the best grades. The call for building lumber is improving, and it seems likely that this year will be a banner one in building construction. Spruce is showing exceptional strength. An anticipated shortage in the eastern log crop has advanced the price of logs to \$15 per thousand. The present selling price of spruce lumber is, therefore, much too low, and an advance must be made if the manufacturers are to make a living profit. The hardwood trade is rather disappointing. Consumers, for some reason not easily explained, are pursuing a hand-to-mouth policy, and are purchasing, it would seem, only for im-

mediate requirements. As the general condition of manufacturing industries is prosperous, it is believed that this policy will shortly give way to one of more liberality, particularly as hardwood prices are not likely to decline. Lath continues to be scarce, and higher prices are almost certain to rule in the near future. In our Buffalo price list the price of black ash has

GREAT BRITAIN.

Business in British timber circles is proceeding very slowly. Buyers are exercising what seems to be unnecessary caution, as there are many indications that prices have reached the bottom. Notwithstanding, the recovery is likely to be very gradual. At recent auction sales prices generally have declined, but it is significant that the best class of deals have held their position with a marked degree of firmness. The spruce trade is showing more life. Dealers who have purposely delayed buying in the expectation that shippers would accept reductions from the fixed first-open-water prices, are now offering £8 10s and £8 per standard c.i.f. London for 3x9 second and third quality. At these figures they have been unable to effect purchases, an advance of 5s on these prices being asked by shippers, while £8 10s c.i.f. is predicted for third quality within a short time. Charters effected in Great Britain show a lower tendency of freights, 41s being the average for large vessels from the Maritime provinces, 42s 6d from the St. Lawrence to west coast of Great Britain, and 46s 3d to east coast.

STOCKS AND PRICES.

The str. Heighington is about to load a cargo of deals at Quebec for London.

The barque Bahama is loading box shooks at Hall's booms, Quebec, for the Canary Islands.

The tender of D. E. Sprague has been accepted for the annual supply of lumber to the city of Winnipeg.

The ship Roland sailed last week from Chemainus, B. C., for Greenock, with 834,560 feet of lumber.

Short hemlock is selling in the Chicago market at from \$9.25 to \$9.50, and long hemlock about \$1 higher.

At Buffalo staves and coiled hoops for slack barrels are selling at \$8 to \$8.25, and

first-class basswood heading at 6 to 6 1/4 cents.

Purcell & Kelly, of Port Arthur, Ont., have purchased from Seaman & Company all the lumber cut by them at Shebandowan during the past winter.

Michigan white pine is quoted in Saginaw at \$20 to \$24 for log run, Canadian at \$17 to \$21; box lumber at \$14 to \$14.50, and special bills from \$14 upwards.

At the Crown Lands office, Fredericton, N. B., two timber berths were sold last week. as follows: Head of Young's Brook, branch of Caraquet River, two miles, to W. T. Whitehead, at \$9 per mile; Big Sevoгле River, 3 miles, to E. Sinclair, at \$133.50 per mile.

Tenders are invited for the Department of Interior at Ottawa up to May 13th for licenses to cut timber on Berth No. 971, situated on the south side of the Saskatchewan river, and Berth No. 972, containing one and nine square miles respectively, both in the district of Alberta.

The Central Lumber Company, of Saginaw, Mich., have sold all their mill culls of the coming season's run, estimated at about 3,500,000 feet, to local dealers at \$12.50 a thousand. A few years ago mill culls were a drug at \$6. E. Nelson has sold 3,500,000 feet of Michigan white pine stock, cut at Cheboygan, to eastern parties, at between \$22 and \$25 per thousand for log run.

The following export shipments of lumber from Vancouver, B.C., were made during the week ending April 20th: Barque Anna, for Valparaiso, Chili, with 1,332,873 feet rough lumber, by Robert Ward & Company; barque Passepartout, for Sydney, Australia, with 401,801 feet rough lumber and 35,090 pickets, by North Pacific Lumber Company; barque Antuco, for Callao, Peru, with 1,225,458 feet lumber by B.C. Mills, Timber & Trading Company.

Do not neglect to read the advertisements in each issue of the WEEKLY LUMBERMAN. They contain much of interest.

LITTLE CURRENT, ONT.

THE LOG DRIVES.

FREDERICTON, N. B., April 25th.—The news from the Upper St. John log drives is encouraging. W. H. Cuniff & Sons, who operate on the Allegash, have all their logs out of the small streams. They will take out about 14,000,000 feet for W. H. Murray and Andre Cushing & Sons. Charles E. Jones is out of Little Black river and into the main St. John with 3,000,000 feet for W. H. Murray. Neil McLean, who operated on Big Brook for W. H. Murray, is into the main river with 2,000,000 feet. John Sweany has 2,500,000 feet out of Brown Brook and into the main river. He operates for Andre Cushing & Son. R. A. Estey is through with driving on the Tobique after only eleven days' work. This is the quickest driving ever known on the Tobique for the amount of lumber which Mr. Estey brought out, three million feet.

McCollum, who operates on the Tobique for Hilyard Bros., is also out with his drive. Hale & Murchie's drive at the headwaters of the Tobique is coming along well.

Gilman Bros. and Burden, who operate on the Upper St. John, have their lumber all in the main river except about 1,000,000 feet, which is coming along nicely.

On the Nashwaak the drives are getting along better than for many years, the conditions being exceptionally favorable.

James Hallet, who operates on the Grand River for Randolph & Baker, has his cut of 2,000,000 into safe waters. Jacob Hazleton, who has 3,000,000 on the Restigouche, expects to finish stream driving about the middle of next week. Daniel Nixon, who cuts about 1,500,000 for the William Richards Company, will be out next week with all his cut.

Jas. Burgess & Sons, who cut 2,000,000

for their mill on Little River, already have their logs in boom limits; and the same is true of J. A. Patterson, who has a cut of 4,000,000 on Salmon River.

Bank logs are now coming freely to Springhill, four rafts having arrived down to-day. The lumber is being purchased chiefly by John Campbell and Wilmott Guion. Good spruce logs are selling at \$9.50 per thousand feet.
