SCOTT WILL CASE RESOLVED IN LONDON

Letters Written by Lady Sackville, Who Was Left Five Million Dollars by Sir John Scott, Read in Court and Greatly Enjoyed by Society Audience.

Special Cable to The World, Copyrighted by The Toronto World and N. Y. World.
LONDON, June 26.—Counsel resumed today the opening statements in the suit contesting the will of Sir John Murray Scott, who bequeathed about \$5,000,000 to Lady Sackville. It is becoming a cause celebre of the first order.

Numerous letters from Scott to Lady Sackville were read. In them he addressed her as "Dear Old Jones" and they were written in familiar style. In one he said:
"I got a rather short letter from you today. I hope you are not going to be a naughty girl. I am very glad you are coming next Saturday."
Then he went on to plead with her to forgive Sir Benjamin Franklin, Scott's doctor and intimate friend, for refusing to allow her to see him (Scott) when he was seriously ill. But Lady Sackville was inexorable and insisted that Franklin must leave the house before she would enter it.

In another letter the testator asked Lady Franklin to request his (Scott's) sisters not to come to his town house on Connaught place, because Lady Sackville and her daughter were there. Plattery is alleged to have been Lady Sackville's trump card in getting influence over the testator and family. In their correspondence they referred to the Sackvilles as "The Locusts" and to Lady Sackville as "The earthquake."

The first \$1,000,000 advanced by the testator to Lady Sackville was on a mortgage, but the testator abandoned the security and gave her a release for the entire sum.
Needs explaining.
"I venture to suggest," commented counsel, "that treatment so wholly unprecedented in the common experience of life seems to require some far-reaching explanation."

Counsel said Lord Sackville got the testator's lawyers to advise him about the form of codicil Scott should have drawn, and that in one case where the testator agreed to advance Lady Sackville \$5000 by Feb. 1, she drew against it beforehand, whereupon he complained of her unbusinesslike conduct.
Another letter from him contained a poetic quotation beginning: "My dear, my chosen, but not mine, I send my whole heart to thee in these words. I let the blood of my veins, my soul's friend, lie upon thine, and thus be blest at night."

They had a dispute about a bill of lars that had been sent to him, and she wrote complaining of his nagging letters, declaring also:
"I haven't the slightest intention of giving your Rue Lafitte House a bad name. Don't let me hear any more of my letter. Take care yourself dear Cheryl, and be a good boy."
"Woman is mad."

When Scott's two sisters were to be presented at court they were to wear two splendid necklaces belonging to him, but Lady Sackville objected, and they went without them. Once when Scott was giving a musical party, Lady Sackville took control, spoiled the whole entertainment and the testator complained:
"An helpless, the woman is mad."
On another occasion when Major Arbuthnot was shown into the library on Connaught Place, he found Lady Sackville just shutting a drawer and she left the house hurriedly with her daughter. When he mentioned to Scott that he had seen Lady Sackville in the library, Scott fell into a perspiration, and exclaimed: "My God, I thought she was at Knole."

The Sackville Seat in Kent.
Lady Sackville wrote a remarkable letter to Scott in 1911, when she feared he would cut her out of his will.
"It is not fair," the letter reads, "to promise a friend as you did, keep the promise for twelve years and then break it. As for my part, I am playing the game. You need not be afraid. I shall start a great friendship with anyone else. You are absolutely the only person I have trusted in that way in my whole life. I am well repaid for it now, alas."

Used Last Stamp.
They made up and then she wrote: "You are an angel and you shall see how I receive you tomorrow. I have only one stamp and am using it for you, wretch."
In another letter she said she liked to have him call her "little rascal."
Miss Alicia Scott, one of the testator's sisters, gave evidence of Lady Sackville's disruptive influence on the Scott family.

WELLAND, June 26.—(Special).—The Welland County Liberal-Conservative today held a large and enthusiastic meeting. E. E. Fraser, M.L.A., received a warm welcome. W. M. Munroe, Thorold, and others spoke.
The following officers were elected: President, Donald Sharp; Thorold Township; first vice-president, George Green, Stamford Township; second vice-president, Hersey Learn, Bertie Township; third vice-president, Albert Scott, Humberstone; fourth vice-president, Col. Raymond Welland; secretary, L. B. Duff, Welland; treasurer, Alex Griffiths. A county executive was also chosen.
A motion that the patronage of the county be placed in the hands of the executive was withdrawn.

To Explore Northern Canada

OTTAWA, June 26.—(Can. Press).—Christian Leden, a Norwegian explorer, is in Ottawa today, preparing for a two-year journey in the northern Hudson Bay region, where he will conduct an ethnographic study of the Eskimos, and endeavor to secure traces of Andre, the Swedish explorer, whose balloon journey for the North Pole is supposed to have ended somewhere in northern Canada.
Leden is securing all available information on the northern country for the Canadian Government. He goes via Winnipeg.

ADOPT NEW PLAN TO STOP HYDRO BREAKDOWNS

Commission Decides to Maintain Staff of Inspectors on Constant Duty Traveling From End to End of Transmission Line — Insulators Not Wholly to Blame.

The Hydro-Electric Commission has adopted new means to eliminate the possibility of any power breaks in the future. The whole inspection staff has been reorganized, and in the future a large number of men will devote their whole time to periodically inspecting the line sections in more thorough fashion than before. The insulators and settings will be subjected to very severe tests, and any which fail will be discarded at once. This means that a staff of men will be on the road at all times, traveling from end to end of the transmission lines.

Further, whereas inspection in the past has practically been confined to superficial observation and determining of faulty construction discernible to the eye, each part of the mechanism will be placed under high voltage on varying occasions to prove their worth. Contrary to general opinion, all the German insulators to which the trouble was traced in recent instances, are not being removed. W. K. McNaught, of the commission stated to The World last evening that a large number had been removed and replaced by others, but that the balance of them, not he wholly with those that make. Others of a different manufacture had proved quite as faulty.

A letter had been received from the German manufacturers, expressing surprise at such a situation. The same material had been used in all parts of the works with no such mishap.
The commissioner stated further that the most expert evidence obtainable could not find reasons for the trouble. In the meantime, however, the re-employment of the system was under way as rapidly as possible.

A party of county representatives for the riding of Sir James Whitney spent a short time in conference with the commission on the possibility of a transmission line thru their district. No definite action was decided upon.

CORN GROWERS TO UNITE.

The Ontario Corn Growers' Association has requested to unite with the other organizations that will exhibit at the National Fat Stock Show which will be held in November in Exhibition Park. The request was granted at a meeting of the executive.

NOT A FUGITIVE, SAYS JOHNSON WILL STAND TRIAL AT CHICAGO AFTER TWO BATTLES IN EUROPE

Negro Pugilist, Now in Montreal, Says He Collected Money Due Him in Toronto and That He Sails Next Tuesday—Chicago Authorities Think Canada May Deport Fighter.

MONTREAL, June 26.—(Can. Press).—Jack Johnson, the negro pugilist, accompanied by his white wife, arrived in Montreal early this morning, having come there direct from Chicago. During the day he moved six times from houses where he had engaged rooms, in an effort to evade newspaper men and the possibility of a clash with the immigration officials. Tonight, however, he called at The Montreal Gazette office and made the following statement:
"I will remain in Montreal until next Tuesday, when I am booked to sail for Europe. I intend going direct to St. Petersburg, where I have a contract to fight Sam Langford and Gunboat Smith. These fights will be pulled off some time in September."
Back in November.

Johnson said that the immigration authorities made no effort to stop him at the Canadian line. He claims there is \$23,000 due him in Toronto and it became this way to collect it before leaving for Europe. He also says he does not forfeit his bail bond, as it only requires his presence in court in Chicago next November. He declares he has no intention of forfeiting this bond, but will return to the Windy City on the date set for the hearing of his appeal from the conviction in the white slave case.

DYNAMITE BAST KILLED TEN ITALIANS

Explosion at C. P. R. Construction Camp Near Parham, Frontenac County, Buried Workmen Under Tons of Debris — Italian Consul to Be at Inquest.

KINGSTON, June 26.—(Special).—Ten Italian workmen were killed this morning in the construction camp of the Canadian Pacific Railway, ten miles out of Parham, on the line of the railway, and 46 miles from Kingston. They were working in a cut when a premature explosion of dynamite occurred.

Michael Gurrey, foreman of the Michael Bros. contractors assisting, had all preparations made to let off a heavy blast, when in some unknown way a spark was generated, causing the explosion. Some of the bodies were buried under tons of debris, and searching was continued all day. Tonight all but two had been recovered.
Johnston Bros. contractors, stated that the exact cause of the accident would never be known, as the foreman had met death. The names of the Italians could not be secured.

Toronto Consul Interferes.
One of the Italians who had a narrow escape went temporarily insane, and it required three workmen to keep him from doing himself bodily harm.
Dr. W. W. Sands, coroner of Kingston, will hold an inquest. It had been the intention to open it this afternoon, but owing to the instructions of Dr. Harley Smith, the Italian consul at Toronto, it was held over. Dr. Sands conferred with J. L. Whiting, the county crown attorney, who instructed him to comply with the Italian consul's instructions. The firm of Denton, Grover & Field, Toronto, will conduct the inquest. The firm of Denton, Grover & Field, Toronto, will conduct the inquest. The firm of Denton, Grover & Field, Toronto, will conduct the inquest.

W. D. CARGILL WILL
RUN IN SOUTH BRUCE

Nominated Yesterday by Conservatives of Riding at Convention in Bolton.

BOLTON, Ont., June 26.—(Special).—W. D. Cargill, son of the late Henry Cargill, M. P. for East Bruce, was nominated as the Conservative candidate in the by-election to be held in South Bruce next autumn at a convention held here this afternoon. The vacancy in the riding was caused by the appointment of J. J. Donnelly, M.P., to the senate. Mr. Cargill, who is a young and very popular member of the district, is considered a strong candidate. He will be opposed by Reuben Traux.

At the meeting today short speeches were made by several prominent speakers, and resolutions were passed endorsing the Borden naval policy and congratulating Mr. Donnelly on his appointment.

FARMER ROBBED ON TRAIN.

Brockville, June 26.—(Special).—Coming to the Barnum & Bailey circus today on a crowded train from Youngsville, Arthur Purvis, a farmer, was relieved of his pocketbook containing a cheque for \$140 made out for Leeds County Cheese Factory. The loss is attributed to pickpockets.

HERE IS A REAL WESTERN OPTIMIST

Andrew Kelley of Winnipeg Says Conditions Were Never Better.

"I have been in the west since '81, and I don't think that conditions were ever as good as they are today," said Andrew Kelley of Winnipeg, one of the big men of the prairies to The World last night at the King Edward Hotel. He is president of the Western Canada Flour Mills and the Winnipeg Grain Exchange.

"The west does not show any great signs of financial stringency," he said. "We are going to have an AI crop this year. Every indication points to that. Farmers say that if the weather remains as favorable the yield this year will be larger than ever before."
Naturally Mr. Kelley is a great western booster, but unlike some, he calls a limit. Wild real estate speculation is something to which he strongly disapproves. He said that the west today was chiefly knocked in other countries because of the juggling of town sites by real estate sharks.
"However, this method of getting-rich-quick is dying," he said. "The banks are shutting down on promoters. It is true that there has been a great want of money, but this was not always the case if it was needed for legitimate business. Money can be obtained if the business is proper, but if it isn't it cannot. That's the reason shady real estate deals are becoming a thing of the past."
COULDN'T FACE TRIAL.
Welland Farmer, Remanded on Bail, Ends Life.—Robert Nugent, a farmer who lives near here, committed suicide early this morning by slitting his throat with a razor. On Tuesday he was remanded on \$4000 bail on a charge of concealing the birth of an illegitimate child, of which he was the father, and a domestic in his employ the mother. Today he went to a small building on his farm and cut a deep gash in his throat. He was dead when found.

LOST BALANCE FELL TO DEATH

Frank Smith Slipped While Working on Telegraph Pole and Fell Forty Feet.

Losing his balance while working on a pole on Poplar Plains road, near Davenport, about 5.30 yesterday afternoon, Frank Smith, aged about 25, fell to the ground and was almost instantly killed. The wires over which the man was working were not live ones. It is thought that they may have become charged by a short circuit, thereby causing a current to pass thru Smith's body. His head was crushed by the fall of 40 feet. Smith was employed by the Toronto Power Company. He had worked on the line all the way from Burlington to Toronto. All that is known of him is that he originally came from 114 Christina street, Cleveland, Ohio. An inquest will be opened at 2 o'clock this afternoon by Coroner Dr. Hopkins.

The Liquor Laws and the Illicit Traffic of the Maritime Provinces

Special to The World. MONCTON, N. B., June 24.—The Scott Act is in operation in nine New Brunswick counties, including the City of Fredericton. Prohibitionists sadly admit that the results are by no means what they had predicted and hoped for. Convictions for drunkenness are going on at the rate of about 2000 a year, which, considering New Brunswick's population of only 360,000, is a truly enormous proportion. With one-seventh the population of Ontario, New Brunswick's convictions for drunkenness are relatively far higher than the yearly number in Ontario. The rate of increase for convictions for drunkenness in New Brunswick has been about 40 per cent. during the last decade.

As for convictions of blind piggers and pocket peddlers in New Brunswick, they number about 237 a year. There is not a prohibition city or town in New Brunswick in which drunkenness is not increasing, and in which blind pigs and pocket peddlers do not profitably ply their traffic. Moncton is the seat of Westmoreland County, a Scott Act county. With a population of about 12,000, Moncton is a city in which nearly all the residents, including the working class, own their own homes. It is an attractive place, considering that it is a railroad centre and its people are disposed to be peaceable and law-abiding in every respect but one. This one exception is the operation of the Liquor Act.

Instead of decreasing drunkenness and abolishing liquor, prohibition has increased both, and with this increase has come an increase of other crimes. During the last three years alone there have been 633 arrests for drunkenness in Moncton—the number rising from 153 in 1910 to 293 last year. The total number of arrests for all offences in these three years have been 1244, including no less than the large number of 249 convictions of blind piggers and bootleggers for violation of the Scott Act.

Arrests Increase. Moncton has a good chief of police, who has enforced the law rigidly, and doubtless it is this circumstance that accounts for the great and increasing number of arrests. Yet it is admitted that these arrests for drunkenness comprise those only of persons making themselves offensive on the streets. They do not include the "home drunks," as they are called, who are not detected; the arrests manifestly do not cover the whole of those engaged in the traffic.

Chief of Police George Rideout is one of those officials who try to do their duty honestly and conceal nothing. "Notwithstanding the Scott Act," he said, "there were 23 open bars and 40 drunks in Moncton some years ago. We began to enforce the act sternly, and have continued to do so. There are now no open bars, but blind pigs and pocket peddling are industriously going on in restaurants, private houses, kitchens, shops and stores. You'd be surprised at the extent of the traffic. Shoemakers, butchers, grocers, live stable men, drug stores, poolroom proprietors and others make profit out of the liquor selling and drygoods and other delivery drivers do a regular business peddling liquor, white on their routes. We have found liquor being peddled in baby carriages.

Many Blind Pigs. "There are at least ten blind pigs here that we know about, and there are undoubtedly many more of which we have no knowledge. The liquor sold here is largely gin. All of the mild drinks, such as beer and light wines, have been completely driven out, and the cheapest and most interesting kind of gin is sold. The blind piggers and pocket peddlers buy it for 40 cents the bottle, and sell it at \$1 the bottle. Fully 65 per cent of our drunks come from the Scott Act rural districts where there are open bars in the towns."

In the Town of Shediac, 18 miles west of Moncton, in Westmoreland County, there are eight wide-open bars, and this in a population of 2000, making an illicit bar for every 250 inhabitants. In license Toronto, it may here be parenthetically explained, the law at present allows one bar for every 3750 inhabitants. In the Town of Sackville, 38 miles east of Moncton, in Westmoreland County, there are five or six illicit wide-open bars. Sackville has a population of 3000, and it may be remarked, is a college town. All of these and other conditions prevail in the Scott Act County of Westmoreland. Along the north shore, under the Scott Act, conditions are even worse. The north shore region is a lumbering and pulp and paper manufacturing district.

Dozen Open Bars. In both the towns of Chatham and Newcastle in the principal places in Northumberland County, there are open bars, fully a dozen in both places, as is authoritatively reported. Both places swarm with blind piggers and pocket peddlers. Of the 25 convictions for drunkenness a year and the liquor in Northumberland County nearly all come from the north shore and they represent only a fraction of the total traffic. Much of the drunkenness and liquor selling takes place in the sparsely settled lumbering districts out of sight of enforcing officials, and consequently seldom figure in the arrests.

How WESTER EIGHTEEN EST Including New Expropriation Will Be E Be Closed The agreement Trunk Railway, the Railway, the City of Toronto Harbor Co has been arrived at posted conferences representatives of the authorities, provides that of which the principal points: A viaduct from street to the Union straight line about 5 present viaduct and the viaduct to be built from Yonge street, and bank bankment from the walls from Yonge All Street Every street now waterfront to remain as it is. The purpose of the viaduct is to provide for the right-of-way 23 street from York street to the waterfront by means of the viaduct. After deducting a harbor commission of the balance of the cost of expropriation, or as an alternative, the lands south of the waterfront, which are owned by the harbor commission, shall be paid for on the same basis as the other properties. A New Lake street from York street to the waterfront, to be closed and the street to take the place of the old street. The Grand Trunk Railway harbor commission rights in front of Berkeley street from the waterfront to be laid out south of the waterfront, and the new agreement bearing the whole cost of the viaduct, one-third under the Grand Trunk Railway, and the other two-thirds under the city. The viaduct will be built on an elevated level, and the street will be widened and the harbor commission will be required to provide for an extension of the railway company to fill the entire 23 street to the waterfront level at the same time being constructed. All parties to the agreement have agreed to an extension of the harbor commission.

How Toronto Harbor Front Will Look When the New Ten-Track Viaduct Is Built

EIGHTEEN MILLION DOLLARS ESTIMATED COST OF VIADUCT

Including New Station and New Dockage Facilities and Expropriation of Land East of Yonge Street—Viaduct Will Be Eighty Yards Wide and Only One Street Will Be Closed.

The agreement between the Grand Trunk Railway, the Canadian Pacific Railway, the City of Toronto and the Toronto Harbor Commissioners which has been arrived at as a result of repeated conferences between the representatives of the railways and the city authorities, provides in brief for a viaduct of which the following are the principal points:

A viaduct from the foot of Cherry street to the Union Station, following a straight line about 500 feet south of the present esplanade.

The viaduct to be in form of an earth embankment from Cherry street to Yonge street, and a combination of earth embankment and concrete retaining walls from Yonge street west.

Every street now running thru to the waterfront to remain open, with the exception of West Market street, and subways of concrete construction to be provided.

A new viaduct to be constructed on the right-of-way 230 feet wide, which will give room for from eight to twelve tracks instead of four tracks as provided for on the viaduct originally ordered.

The viaduct to be constructed by the two railway companies and the city to contribute towards the cost a sum not to exceed one-third of the total, and in any case, not to exceed the amount which the city would have contributed to the viaduct as originally ordered.

York street to be opened thru to the waterfront by means of a subway.

For the purpose of acquiring the right-of-way from Cherry street to Yonge street, all the lands between those two streets and extending south from the esplanade to the new windmill line, to be expropriated by the railways and the harbor commissioners.

After deducting a strip 230 feet wide as a right-of-way for the viaduct, the harbor commissioners are to retain all the balance of the lands expropriated for the purpose upon payment of 50 per cent of the total cost of expropriation, or as an alternative, to retain all the lands south of the new viaduct location upon payment of one-third the cost of expropriation after deducting the amount received for the sale of the lands north of the viaduct. The properties in the area to be expropriated, which are owned by the city, the harbor commissioners or the railways, are to be paid for on the same basis as private properties.

A New Street.

Lake street from Yonge street east to be closed and the laying out of a new street to take the place of Lake street and other streets to serve the waterfront to be left in the hands of the harbor commissioners.

Eight Feet High.

The railway companies are required to fill the entire 230 feet right-of-way to an elevation of eight feet above mean water level at the time the viaduct is being constructed.

All parties to the agreement join with the harbor commissioners in applying for an extension of the pier head line

ONLY TWO OCEAN PORTS IN AMERICA AND NO LAKE PORT IN THE WORLD WILL EQUAL TORONTO'S NEW HARBOR

Next to the settlement of the viaduct controversy and the resultant assurance to the public that the long-talked-of Union Station and separation of grades along the waterfront will actually be commenced within a short time, the most important result of the agreement arrived at is in the shape of the development of the waterfront on the inner harbor.

When this agreement is carried thru the harbor commissioners will become the owners of the entire inner waterfront from Cherry street to Yonge street and as a result of other agreements with the Grand Trunk and Canadian Pacific Railway companies which the commissioners have negotiated during the past year, the waterfront now in possession of the railroad now will also pass into the possession of the harbor commissioners, and as they already own the waterfront from Yonge street to York street, the result will be that the entire waterfront of the city, from Woodbine avenue to the Humber River, will be in possession of the commissioners and available for development.

The magnificent plans made public by the harbor commissioners in November, 1912, provided for, but a small central dock development, and it was explained at that time that no general scheme for the improvement of the inner waterfront could be made public until some arrangement had been made with the private owners.

East of Yonge street the commissioners owned about 40 per cent of the waterfront property, the balance being owned by various private owners and some parts by the railway companies, and it was impossible to work out a plan which appealed to all the different owners.

The commissioners felt that the only way in which the waterfront could be adequately handled was by having it all under public control and leaving the eastern section in abeyance for the time being, and concentrating their efforts on an endeavor to secure control of the western section from York street to Bathurst street.

In this work they were ably seconded by the city, thru Works Commissioner Harris and Corporation Counsel Geary, and an agreement was made between the commissioners and the city, the C. P. R. under which the latter railway gave up to the commissioners the riparian rights belonging to its property from York street to John street.

In return for this, Lake street, from York street west, is to be closed and the C. P. R. is to be afforded every facility in establishing a freight terminal yard. For this purpose the water lot owned by the company in front of their present freight yard, from York street west, will have to be filled out to the new windmill line, and the company is to construct a crib across the front of this property, under the direction of the harbor commissioners, for the purpose of retaining this filling.

Part of the agreement made with the company provides that this crib, instead of being placed directly on the new windmill line, will be placed further out on the south line of the new street which will replace Lake street, and the harbor commissioners will reimburse the C. P. R. for the difference between constructing this crib on the south line of the C. P. R. property and constructing it at the south side of the new street.

Second Agreement.
A similar agreement has been made with the Grand Trunk Railway, which is the owner of all the property from John street to Bathurst street on the waterfront. The railway has agreed to construct a crib along the face of its property in similar position and under similar conditions to those made with the C. P. R. The harbor commissioners will fill in the water lots lying between the wharves on the Grand Trunk's property, and in return the railway transfers to the commissioners its riparian rights on the wa-

terfront. It was during the negotiations for these agreements that the appeal of the railways against the viaduct order was heard by the privy council at Ottawa, and at that time the C. P. R. suggested the new line, which has now been adopted for the construction of the grade separation works. The great bulk of the advantages of this new line is for the railways, thru simplifying the method of construction and also operation when the work is completed. The city's object of securing access to the waterfront without the interruption of level crossings would be equally well served by either scheme.

Two Inducements.
The new scheme, however, held out two great inducements to the city and the harbor commissioners. These were: in the first place, that a wider viaduct, capable of accommodating a much heavier traffic, could be constructed for the same amount of money which would have been needed for the erection of a four-track viaduct along the Esplanade, and secondly, the acquisition of the property necessary for the new line would result in a transfer of ownership all along the waterfront from Cherry street to Yonge street, which could be worked out to the benefit of the public in the way of harbor development.

This great advantage was seized upon at once by Messrs. Harris and Geary and representatives of the harbor board and the board of trade, and it was made one of the principal conditions of the agreement, from the city's point of view, that in carrying out the work the entire property south of the Esplanade to the new Windmill line, and from Cherry street to Yonge street should be purchased, and that after the necessary 230-foot strip had been taken out for the purpose of constructing the viaduct, the harbor board should be given an opportunity of securing all the remainder. When this was agreed to by the railway, there only remained the working out of the details of the agreement in order to pay any more, under the new scheme, than it would have paid under the old one, in order to have the matter settled and an order issued for the commencement of the work.

New Windmill Line.
What the acquisition of this entire waterfront by the Harbor Commissioners means to the city generally is illustrated on the accompanying plan. The commissioners propose to abandon the present pierhead line (which is known as the Windmill line), for two reasons: First, because the depth of water at the present docks along the waterfront is not sufficient for a vessel drawing more than 14 or 15 feet of water, and additional depth could only be secured by means of blasting the rock from the bottom of the bay, which is a very costly method of obtaining deep water, which can readily be obtained by carrying the pierhead line farther out where there should be a wide street under the control of the commissioners, running across the entire waterfront from the east end, and where it would connect with the industrial district, to the west end at Bathurst street and the Lakefront driveway, which is to be constructed, from which any street access could be obtained to all the docks and from the docks to any street at present leading to the waterfront.

By moving the pierhead line farther out into the bay this new street can be constructed and new wharves built, and the entire cost of the necessary cribbing and filling in is estimated by the Harbor Commissioners' engineer at five million dollars, for which the City of Toronto will have two and one-half miles of modern docks completely un-

der public control, a condition which does not exist in any other lake port, and in only two ocean ports in North America. This estimated cost of five million dollars does not include the construction of freight sheds or other appliances for the handling of freight, which would have to be met later as the demands of the business require.

In addition to the absolute control of the entire waterfront and the ability to construct new docks and a new public street along the waterfront, the Harbor Commissioners will, as a result of the viaduct agreement, own all the land between this new street on the south and the Esplanade on the north from Yonge street to Cherry street, excepting the strip 230 feet wide which will furnish the site for the viaduct itself. This will add to the commissioners' ownership 180 acres of land in the very centre of the city, available for industrial purposes, and will be of immense value in the shape of the revenue it will furnish to aid in carrying out the complete plans of the commissioners.

TRAFFIC ENQUIRY STANDS TILL FALL
Ontario Railway Board Held Final Summer Session Yesterday.

The examination of the Ontario Railway Board into the street traffic conditions of Toronto stands over until Sept. 15. This was the decision of Chairman McIntyre yesterday when both city and railway lined up witnesses to give evidence. H. S. Oiler, K.C., for the company, claimed that data at his disposal was too meagre to admit of procedure as yet. He urged postponement because their system of checking was so thorough as to demand more time. Assistant City Solicitor Fairly, on the other hand, argued for the continuance of the case at once, but in view of the approaching vacation season the board decided to hold the matter over.

This concludes the outstanding work of this tribunal for the summer months. Within a short time, however, the intention is to visit the Chats Falls district near Ottawa, and obtain a practical knowledge of the value of the islands in question. The position of the hydro-electric commission and the owners will then be taken before the board in September.

AGREEMENT WAS REACHED AFTER MUCH HARD WORK

After several months of negotiations between the representatives of the G. T. R., the C. P. R., the city and the Toronto Harbor Commissioners, an agreement has finally been reached and approved by the board of control for the construction of a viaduct which will elevate all the tracks along the waterfront of Toronto, with the exception of certain tracks which will be left on the level east of Church street and west of York street for team track purposes, over which level tracks cars will be moved only during certain restricted hours.

RESULT OF HARD WORK.
The agreement is the result of a great deal of hard work on the part of Mayor Hocken, the board of control, Works Commissioner Harris and Corporation Counsel Geary, who have carried on the negotiations for the city, and as completed, it will give Toronto a much more satisfactory separation of grades along the waterfront than would have been possible under the viaduct as originally ordered.

Since the new line was first suggested by the C. P. R. during their appeal to the privy council early in January, numerous conferences have been held in Montreal between the parties interested, for the purpose of working out a basis which would be satisfactory to all parties for the construction of the viaduct on this new line. Chief Commissioner H. L. Drayton of the Dominion Railway Board, who was instrumental in securing for Toronto, as counsel for the board of trade, the original viaduct order, has been very much interested in working out a satisfactory basis for the new line, and has presided at each of the conferences held, and it is owing largely to his interest and hard work that an agreement satisfactory to all parties has been reached. This agreement will be signed by the mayor and Works Commissioner Harris for the city, and by the executives of the Toronto Harbor Commissioners, the C. P. R. and the G. T. R., and will then be incorporated in an order of the railway board.

The act empowering the railways and the harbor commissioners to expropriate all the lands south of the Esplanade, from Yonge street east to Cherry street, was passed by parliament and the senate shortly before the close of the last session in order that there might be no delay in proceeding with the work when the agreement was finally ratified.

AUTO POLO WILL START TOMORROW
Exciting Games For Exhibition Park Saturday and Next Week.

An evidence of the popularity of auto polo is the interest taken in it by horse polo enthusiasts. A local man who has been interested in horse polo for years, and who has a wide reputation as an expert, returned a few days ago from New York and in an interview expressed himself as amazed at the wonderful speed of the cars and the skill of the driver. He said that he had always been under the impression that horse polo was about the fastest thing in sport a person could wish for, but when he witnessed a game of auto polo he was thrilled beyond expression. The wonderful speed of the cars and the use and the dexterity of the driver and the mallet man was even difficult to imagine. How these men managed to get around one another going at such a terrific rate of speed was beyond comprehension. Some of the best auto polo teams in the world will be

ANOTHER GERMAN SPY SENTENCED.
LEIPZIG, Germany, June 26.—The imperial supreme court today convicted a former policeman named Jaehnick of Wilhelmshaven, on the charge of espionage, and sentenced him to six years' imprisonment. Jaehnick, with two other policemen and a German naval warrant officer, obtained possession of a navy signal book, which they sold to England or France.

SEEK SUCCESSOR TO MISS ROGERS

School Management Committee Eulogize Services of Superintendent of Nurses.

Miss Rogers' resignation as superintendent of nurses was accepted yesterday afternoon by the school management committee.

The committee will also deal with the recommendation of Dr. Struthers in relation to supervision in the schools.

Dr. Struthers, chief medical inspector, called attention to the fact that the department had been in operation for three years. Experience showed a lack of correlation, altho the teachers, practically without exception, had heartily co-operated.

He recommended that bylaws to cover medical supervision be prepared on a broad and scientific basis.

CAN BUILD ARMY SCHOOL ON JARVIS ST.

Officers of the Salvation Army put it up to the board of control yesterday to decide if their training school could be built on Jarvis street.

"There is nothing in the bylaws to prevent it, and you have a building permit," said Mayor Hocken.

"I have no objection to the building," said Controller McCarthy.

"Come back in two weeks, and if the property owners are not prepared to buy your property for the suggested extension of Earl street, we will tell you to go on and build," Mayor Hocken said to the officers, and they were satisfied.

"I have no objection to the building," said Controller McCarthy.

THE GUARANTEED IRON

Why stick to the old-fashioned and iron with its accompanying troubles and money, too?

The C.G.E. electric iron is the most economical because correctly made to hold an even heat when doing different kinds of ironing—from heavy damp pieces to the most delicate lingerie, laces and embroidery.

The weekly ironing of an average family will require about 10 cents' worth of electricity when C.G.E. irons are used.

C.G.E. irons are for sale by local lighting companies and by all dealers.

FRIDAY MORNING, JUNE 27

ONLY ONE KIND OF PAPER MONEY.

The strongest point taken against the new United States currency bill was that it permitted three separate kinds of paper money to be in circulation at the same time.

But now word comes from Washington that the national bank notes will be retired from circulation, and provision made for a greater issue of national currency.

The people of the United States have never realized their tremendous financial strength, but ever since the civil war, have permitted their banking and currency policies to be dictated by Lombard street and Wall street.

When the contents of the forthcoming bill were first made known, several national bank magnates announced that the national banks would surrender their charters and retire their circulation.

That the Telegram was fully justified in coming to the conclusion that it was unable to think (albeit we believe) of our amiable contemporary could keep Mayor Hocken's head out of its petitions it would be able to overcome the kindergarten questions it asks about the proposed street railway purchase agreement.

One reason is that the whole is greater than the part. We admit that this is a difficult axiom and will cause a severe strain on the mentality of a journal which has long been accustomed to conceive of the part as greater than the whole.

What is needed is the foresight to prepare to keep abreast of necessary requirements and not to remain several years behind the requirements.

CANUCK KNOCKING CANUCK IN LONDON.

The case of Mr. Horne Payne is not the first one of one man seeking to sell a Canadian security by knocking another Canadian security; in fact, for many years now, this has been a common practice.

WORKS OF IMPERIAL SERVICE.

Unusual attention is being given to a scheme proposed by Mr. Harold Beauchamp, acting chairman of the Bank of New Zealand, having as its object the encouragement of empire-development.

A NEW HAY PLANT.

In a pamphlet issued last month by the United States Department of Agriculture an account is given of a new drought-resisting hay plant which it has been experimenting.

The Philosopher of Folly

Ten thousand feet tramp down the street to where the owners work each a.m. in serrated ranks they the planks as turn about their owners sway 'em.

Commissioner Harris' statements in connection with the desire of the residents of Moore Park to obtain a sewerage system are a complete justification of all that has been said for some years of the necessity for looking ahead and providing for the growth of the city.

LOOKING AHEAD.

What is needed is the foresight to prepare to keep abreast of necessary requirements and not to remain several years behind the requirements.

CANADIAN PACIFIC TO DOUBLE ITS TRACK ACROSS CONTINENT

Managers Will Have the Main Line Completed as Soon as the Panama Canal Is Open to Business.

The following Hip-Hip-Hurrah article—apparently more or less inspired by headquarters in Montreal—will be singularly interesting reading to the Canadian public.

Montreal—Awarding of a contract for building a double track five mile tunnel thru the Selkirk Mountains nearly five hundred feet below the tracks of the present main lines thru Rogers Pass is a clear indication that the Canadian Pacific Railway is going full steam ahead with its double tracking scheme.

By that time the Canadian Pacific will have already thru line from Montreal to Vancouver. This line will run thru Toronto and the Soo and thence thru the Kootenays and Okanagan to Vancouver.

This fall will see the completion of the Canadian Pacific South line from Montreal to Toronto and the construction of terminals at Toronto that will rival those of Montreal.

There is no way now foreseen to stop the swelling tide of Canadian Pacific prosperity. The organization is so perfect, so complete, so supreme and so marvellously smooth that its accumulations of wealth cannot be halted or marred by anything now in sight.

Joe Wright Likes Chances Of Butler and the Argonauts

ENGLISH OARSMEN REALIZE CALIBRE OF THE ARGONAUTS

Leanders Are Picked From Best of Oxford and Cambridge —Butler Is Rowing Much Better Than Last Year —Mr. Wright Writes on the Training of His Men.

According to the cable despatches, the Argonauts are in fine fettle for their race next week. A letter from Mr. Joseph Wright, honorary coach, to a member of The World staff, sent two days after the arrival of the crew at Henley, will prove interesting at this juncture. He writes:

"We arrived at Henley on Wednesday at 4 p.m., and were out rowing at 5 p.m. We had a good trip over. Butler met us. He looks in fine shape, and is rowing well.

"Guy Nickalls is going to, or is coaching Leander. They have picked a crew from this year's Oxford and Cambridge crews, stroked by Tower, stroke of Cambridge. The stroke of Oxford is rowing No. 4. I have not seen them yet. They will be here Monday. New College and Thames R. C. are very good, I am told. So, you see, we are up against the best. Our new four is a very fine boat, and suits the crew. We will have three weeks' work before the race, and should be in the best of shape. They must be a bit afraid of us after last year, as Leander have been rowing for the Grand Challenge only every Olympia year. In fact, they have only rowed once in the last five years.

"Butler is rowing much better than last year, and if he can stand the heavy course will have a good chance, as he has the speed."

RAIN INTERFERES WITH AYLMEY RACES

Two Heats in Each of Three Events—Big Program For Today.

AYLMEY, June 26.—(Special).—On account of heavy rains the races carded for today had to be held over till tomorrow, after two heats had been pulled off in each race. The first race was \$1000 stake for 230 pacers, with eight starters. Belle E. and Walter F. were split favorites, each selling at \$20 and the field for \$3. Victoria Poem, owned and driven by R. Scott of Toronto won the opening heat. She drew the pole and was never in trouble. Abby A. B. Rochester's mare, led in the race, when Scott pulled out and in a splendid drive finished first at the wire, with Walter F. fourth and Belle E. eighth. Time 2:16.00. Miss Brownlee was the favorite in the 230 trot, and won the first two heats, with King Jubilee, owned by R. Benson and driven by John Mead, second each heat.

In the 214 pace, Minnie Hall, owned by J. Black of Ferguson won the opening heat in 2:18.4, with Fred Kanno second and Belle B. third, time 2:18.4. The second heat was won by the favorite, Myla H. in 2:17.4, Kanno second and Syka D. third. The races are called for one p.m. Friday, when the three unfinished will be the first races called, together with the day's program.

BOILERMAKERS GO BACK TO WORK

Strikers Have Compromised With Employers After Long Struggle.

After several weeks' struggle for their rights the local union of boiler-makers has made a compromise with their employers and agreed to return to work at once. The men tied the Polson and Berg boilers up so badly that they soon conceded to the men's demands, and over a hundred returned to work, but the remainder stuck out till the last, trusting to the big International Union across the line for funds. Not receiving any, however, they had to go to work.

FIFTEEN YEARS FOR MCGREGOR.

SAULT STE MARIE, Ont., June 26.—(Special).—Fred McGregor, found guilty at the Sault Ste. Marie of manslaughter in the killing of the man Morla at Blind River, was this morning sentenced by Justice Britton to fifteen years at Kingston. The prisoner took the sentence philosophically.

CELEBRATE GOLDEN WEDDING.

A large number of friends and relations were present on Wednesday evening at the home of Mr. and Mrs. W. H. Gourlie, 509 Dovercourt road, on the occasion of the fiftieth anniversary of their wedding. A purse of gold was presented to Mr. Gourlie, while his wife was the recipient of a handsome gold-headed umbrella. Amongst those who were present were E. H. Gourlie, wife and daughter, Woburn, F. Gourlie and wife, New York; Robert Greer and Mrs. Greer, Toronto; J. Gourlie and Mrs. Gourlie, Winnipeg; Clarence Gourlie and Miss M. Gourlie.

SATURDAY'S LACROSSE GAMES AND REFEREES

Official Information From the O. A. L. A.—A New Intermediate District.

O. A. L. A. games and referees for tomorrow are as follows:
—Senior—Ottawa at Carleton Place; J. H. Martin, Young Toronto at Lansdowne; Frank Doyle.

—Junior—Maitlands v. St. Helens. Both these games are at Lambton Park, with B. Hocking as referee. The St. Helens-Markham game has been postponed to a date yet to be determined.

A new and strong intermediate district has been formed to include Ferguson, last year's champions, Oranville, Hespeler and Guelph. They will draw the schedule next.

The Tecumseh of London are doing fine under Mike Collins, who they have suffered by the loss of players. They will be heard from before the season is over.

Maitlands and University Settlement meet tonight at 6.45 on Cottingham square in a juvenile B. C. League game. All players are asked to be there promptly.

Lansdowne and Young Toronto have arranged to play their Senior O.A.L.A. game at the Island Stadium on Saturday before the Tecumseh-Toronto game, and will start at 1:30 sharp. Lansdowne will use a team picked from the following: Torrey Long, Sheardown, Conley, Bennett, Bannister, Fortney, Elton, Ripley Bros., Higgins, Irwin, Farr, Dunn and Arkins.

Fred Wagmore refereed an exciting and interesting game of lacrosse played Thursday yesterday. Collingwood defeated Thornbury by a score of 4 to 2. He gave the utmost satisfaction.

PROTECT RIGHTS OF POLICY-HOLDERS

Union Life Superintendent Goes to New York to Arrange Matters. The draft agreement for the assumption of the policies of the Union Life by the Metropolitan Life, which was by the Metropolitan of New York, has resulted in the uncovering of a number of technical difficulties as regards the insurance statutes of Canada and New York State. To clear away some of these Mr. Cavanah, superintendent of agencies in Canada, has gone to New York. The matter is extremely urgent, for the majority of the policies to be taken over are industrial ones which are maturing from day to day. C. A. Masten states that the main concern for the moment is the protection of the policyholders. The difficulties that had to be overcome, he said, were extremely technical, but he expected that they could all be met and that the policyholders would be amply protected.

From enquiries made yesterday it appears that the shareholders will lose practically all they put into the company. English capitalists have from \$500,000 to \$700,000 invested and will probably lose all.

CLEVER PLAN AIDS JOHNSON

Continued From Page 1. At Windsor Station he waited until the crowds had left the train before he alighted. None save the porter and the conductor knew that Johnson was riding in a stationer, and probably no one saw him leave his place of hiding when the train ended its journey to Montreal. Johnson was not in Toronto for more than 20 miles. No one knew he was in Toronto except possibly the persons who were sent on ahead to make arrangements for the journey to Montreal.

How It Was Worked. For three weeks a party of sporting men were planning to get the fighter out of the country. Several schemes were mapped out, and the big idea which caused Johnson to hid himself in Chicago and the United States was clever indeed. A gang of about a dozen colored men were picked up from the streets of Chicago. They were organized into a make-believe baseball team. Chances are they had never seen a game except thru a knot-hole. Bats and gloves were purchased to make the outfit look genuine. Johnson joined the party, and tickets were purchased on the Michigan Central train for Canada via Port Huron to Buffalo, where the team was supposed to play a game.

Johnson was not the nifty-looking customer as of old. He had shed his flashy clothes and sparkling diamonds for cheap raiment and a slouch hat. A fake mustache adorned his upper lip. He was known as "John Johnson."

He met no trouble at the border, the immigration official evidently not being a good judge of fake and genuine mustaches. It is said, however, that he was never so scared in his life, even in the time when he was riding from Michigan to the land of freedom.

When the train passed thru the tunnel at Port Huron he was a changed man. Lucille Cameron did not accompany the "baseball team." She took an earlier train and rode direct to Montreal with one of the white men of the party. She trailed at a house in that

SOME BIG PRICES AT A SHORTHORN SALE

Robson Spring Grove Herd Auction Attracted Wide Attention. DEALERS WERE PLEASSED Stock in Fine Condition and Sale Realized Over Four Thousand.

LDERTON, June 26.—(Special.)—The growing popularity and importance of the shorthorn was very manifest at a very successful sale here today. T. E. and H. C. Robson sold their entire Spring Grove herd, to which were added a few females from the herd of Harry Smith, Springhurst Farm, Exeter.

The buyers know what they wanted and by comments they made after purchase got what they wanted. Captain T. E. Robson auctioned the cattle himself to great advantage, he being able to give useful characteristics of each animal and the pedigree. Buyers gave preference to any milking strain animals. Those white in color were not popular.

Chief Buyers. Edward De Gix of Kerwood, Ont. gave the highest bid of the sale for Lady Butterfly, \$470. Lady Butterfly is a young cow of good individual merit and has produced some good ones. Princess Butterfly also went to the same buyer at \$175. C. F. Wilcott bought Mayflower Gift (imp.) for \$310, the second price of the sale. Joseph White bought Belle of the Morning for \$200 and Miss Mayflower for \$185. Tom Robson paid \$210 for Orange Blossom VI.

WANT ADS.

WANT ADS. If you have something for sale you stand a good chance of selling it if you let the people who want to buy it know about it. That's good logic, isn't it? If you place your Ad in these columns you are going to get the attention of the people. You are going to get the concentrated attention of people who want to buy. And this concentrated attention is what brings results. A small Ad will sell whatever you have to sell, and sell it quickly. The Want Ad is the modern selling agent. People who want to buy have come to rely on these Want Ads to tell them just what is for sale. These people wouldn't even think of buying anything for their homes, or their offices, or their business, without first going through these Want Ads to find out if they can get what they want at a big money saving. Use these Want Ads when you want to make a quick sale, and read and answer them when you want to make a good buy. And every time you answer an Ad, please mention this paper.
