

The Colonist.

FRIDAY, SEPTEMBER 29, 1893.

THE CARIBOO CAMPAIGN.

Judging by the tone of the newspapers of the Opposition the Premier must have made an excellent impression on the electors of Cariboo. They are evidently disappointed and out of humor. Consequently they give vent to their obliquity in abusive paragraphs and foolish editorials. The News-Advertiser having nothing truthful or rational to present to its readers about Mr. Davis's visit to Cariboo, insults their intelligence by setting before them some silly chaff and a description of the Premier's addresses, evidently intended to be sarcastic and witty, but which the nearest tyro can see is nothing better than a farrago of falsehood and foolishness. The editor alludes to reports of the speeches made by Mr. Davis "which came to hand yesterday," but takes good care not to publish any of them. If those reports were fit for publication, and if what they contained was in any way calculated to injure Mr. Davis politically and to damage his Government, they would certainly have been published in full and given a prominent place in the paper. As they were suppressed and as the editor's distorted version of them was given instead, it is quite certain that they contained nothing that any sensible man would regard as injurious to either the Government or its leader. The suppressed reports would most probably, like Mr. Borland's alleged contradictions, which were published with such parade by both the Advertiser and the Times, show that the speeches contained undeniable truths that exposed the insincerity and the trickiness of the leading members of the Opposition.

THE RIGHT VIEW.

The Toronto Telegram puts the faculty of discussing the Manitoba school question in its present phase in a strong light. It says: It is a pity that their audiences should expect the Premier and Mr. Laurier to continue telling them that the other party has acted unpatriotically and irrationally in respect of the Manitoba school question. The matter has gone beyond the purview of the politicians. What they can say or do will have no effect upon the Supreme court judges who are to pronounce upon the question of remedial legislation. Sir John Thompson's Government availed itself of a provision of the British North America Act when it referred the question to the highest court in the land, and if there be any objection to be made, it should be against the constitution of the Dominion, an instrument which has proved wholly acceptable to nobody.

LOOK AT HOME.

It is a pity that the Americans who so bitterly denounce the British House of Lords do not pause a moment to contemplate the position now occupied by their own Senate. That body has put itself in opposition to the will of the nation, and has deliberately placed obstructions in the way of legislation which the American people consider necessary. The Senators cannot make any mistake as to what are the wishes of the people with respect to the repeal of the Sherman Act. Seldom in any nation has the popular will been so strongly and so generally expressed as it is and that has been for a long time in the United States with respect to the silver question. Yet the Senate has disregarded the popular voice. It has permitted the legislation demanded by the people to be delayed by devices of parliamentary obstruction, to which it would have been shameful to resort had the measure been one of no more than ordinary importance. Thinking and patriotic men in the United States are indignant at the contempt of the people's wishes displayed by the Senate, and express themselves strongly on the subject. The Philadelphia Inquirer, after denouncing the Senate as a nuisance, goes on to say: The time has come to speak plain words. When a legislative body persists in laying waste the interests of thousands of citizens of Pennsylvania, but voices their sentiments when it arranges the management of the Senate of the United States as a menace to business and financial stability.

A HEARTY WELCOME.

The Vancouver World thus describes the reception given to the Premier in Chilliwack and the New Westminster district generally: Mr. Davis received such a welcome as never before was accorded any Prime Minister, not even his predecessor in office who was there held in the highest esteem. He marched through the valley like a conqueror receiving assurances on all sides that his Government held the confidence of his fellow men. Such demonstrations of affection and sympathy go far to make up to Ministers of State the legal coldness in the last resort half gold and half silver. This would be real bimetalism, but what shall have the option of paying the debt in gold or silver. This is surely not fair. Of course they would refuse, and rightly refuse, to give the creditor any such unfair advantage. But then how can they reasonably claim it for the debtor?

A DISHONORABLE OPPONENT.

The Vancouver Advertiser does not attempt to defend the sectionalism which it is doing its best to foster and disseminate. Knowing that its cause is so bad that it is useless to attempt to advocate it by fair means, it resorts to foul—the meanest and the most contemptible. Its editor leaves the fair field of argument to state what is utterly false about the propriety of the COLONIST. He says broadly that it is "chiefly owned by Mr. Davis," and then states what he believes to be the consequences of such ownership. In all this the editor of the News-Advertiser states as facts what is grossly untrue, and what, besides, he knows nothing about. The man who can descend to such a dirty trick as this to gain what he believes to be an advantage over political opponents places himself beyond the pale of fair controversy.

INDIGNANT DEMOCRATS.

The San Francisco Examiner, though a Democratic paper, is in revolt against the Democratic President. The course which the Administration is pursuing with respect to the Geary law is the cause of the Examiner's discontent. That paper believes that it is the duty of the President to do all in his power to enforce that law, and that when he takes upon himself to allow it to remain inoperative, he acts the part not of a constitutional ruler, but of a dictator or a irresponsible despot. It is, our San Francisco contemporary contends, the duty of every member of Congress, whether he approves of the Geary law or not, to withhold the President in his attempt to override the law. After asserting that Mr. Cleveland's conduct is an "involuntary violation of his oath of office and in contempt of the legislative and judicial arms of Government," it goes on to say that the Geary law "now represents the assailed principle of constitutional government." The members of the Pacific Coast will not be alone in their battle for the maintenance of the requirements of law.

THE ARBITRATORS AWARD.

The opinions of competent men as to the nature of the Award of the Behring Sea Arbitrators does not differ greatly. They believe that the question of international law is not settled by the British contention, but that the regulations are favorable to the United States. Judge H. W. Blodgett, who was one of the representatives of the United States before the Behring Sea tribunal, when asked, "Do you think that the decision of the tribunal was more favorable to the United States than to Great Britain?" said: "The points of law were decided in favor of Great Britain, yet the United States practically got all for which it contended. The decision, however, was not all that I hoped it would be. I thought that the United States should be protected in its property rights in the seal as well as in territorial rights. I believe that the decision will be set aside by the International Law Commission."

ABOUT BANKERS.

It has been said that the present crisis in the United States has been brought on by a conspiracy of the bankers and other "gold-bugs" to drive silver out of the field as a money metal. Sir John Lubbock, in an article in the September number of the North American Review, shows the unreasonableness as well as the groundlessness of this accusation. He says: It is often said that bankers have special interest in raising the value of the standard. It is not to be expected that these good people, and millions of others like-minded, will be very exact on the President for setting any pretext that presents itself to prevent the law being put in full operation.

U. S. LOAN COLLAPSE.

PARIS, Sept. 23.—The negotiations started by the United States to raise a loan of \$50,000,000 in gold, at 3 1/2 per cent, have collapsed through the demands of the syndicate and the intervention of the French Government. The Government wanted reductions made in the McKinley tariff on French goods imported into the United States in return for permitting the official listing of the proposed bonds at the Paris Bourse. The United States Government refused to treat on that basis. Overtures have since been made to London for raising the loan.

IRELAND AT CHICAGO.

The Mayor of Dublin and his wife have arrived to celebrate. New York, Sept. 23.—The Right Hon. James Shanks, Mayor of Dublin, accompanied by Mrs. Shanks, Town Councillor Mayo, his wife and others, arrived today on the Campana. They came to America at the invitation of the Mayor and will take part in the Irish Day celebration next Saturday.

IRELAND AT CHICAGO.

The result of my visit has been to satisfy me of the baseness character of the representations that have been made, and that the statements as to the failure of the colonization scheme are quite unwarranted, and it would be impossible, I think, for any person who knows the condition from which the board were taken by the colonization officers were taken by the colonization officers, that they have caused for the utmost thankfulness that the means were provided by the Imperial Parliament to enable the colonization board to change their condition from one of great poverty to that of present comfort and future independence. This is what might have been expected. It is not folly to suppose that these officers placed together different conditions of life are also different from those in which they were reared, would all at once adapt themselves to their new circumstances and prosper as rapidly as would a colony of settlers from Ontario or the Maritime Provinces. But they belong to a race which, as has already been proved in every Province of the Dominion and in every State of the Union, does not take long to conform to changed conditions, to endure hardships patiently and to face difficulties bravely.

KAISER AND BISMARCK.

How William Came to Write to the Ex-Chancellor, Offering Hospitalities.

BERLIN, Sept. 23.—One of the principal topics of conversation in Berlin during the past few days has been the probable outcome of Emperor William's seeming attempt to effect a reconciliation with Prince Bismarck. The latter, it will be remembered, was taken seriously ill at Kissingen, some time ago. It is said that Emperor William telegraphed the Prince expressing sympathy for him in his illness, and offering him one of the Imperial castles as a residence, it having been said that the sanitary conditions of Prince Bismarck's residence were not what they might be. This incident, under ordinary circumstances, would not have been scarcely more than noteworthy, but in view of the existing relations between the Emperor and the ex-Chancellor, it has assumed important proportions in the political world. The advisers of the Emperor are reported to have been so much surprised by the Emperor's telegram to Bismarck without Count Caprivi's knowledge. This is strongly denied by the Chancellor's friends.

DISAPPOINTED.

The Cherokee land-grabbers are terribly disappointed. The land which they were so eager to occupy they find, on examination, to be the reverse of what they expected. They are leaving it in droves, reproaching the United States Government with having cruelly deceived them, and with endeavoring to get money from them for worthless land. "Uncle Sam," growls one of the disappointed grabbers, "has turned dunce since he was a boy. He has given me a lot of land of no value to poor people, and if they ever able to pay for it he will be receiving money under false pretences. Railroads and newspapers are in the play too. I predict this winter there will be more sickness, suffering and death among the people who have gone to this 'promised' land than ever has been seen in any pioneer settlement."

CANADIAN NEWS.

His Excellency's Reception in Montreal—Several Serious Fires.

A Merchant Commits Suicide—Fires—Going for the Ritualists.

(Special to the Colonist.)
The Millery Fire. QUEBEC, Sept. 22.—The fire at Millery, five miles up the St. Lawrence river, destroyed two grocery stores and twelve dwelling houses. Loss, \$25,000; insurance small.
Against Ritualistic Practices. TORONTO, Sept. 22.—A sensation has been created in Anglican church circles here by the discovery that some persons or persons had entered St. Thomas and St. Luke's churches and destroyed the candles and turned the crosses upside down. The ministers of the destroyed churches are inclined to ritualistic practices.

Fires at Southampton. SOUTHAMPTON, Sept. 22.—Fires completely destroyed the Commercial block yesterday.
A Town in Danger. GLASGOW, Sept. 22.—A fire broke out here this morning which, for a time, threatened to destroy the business portion of the town. It is now under control, however, after having destroyed the town hall and lock-up and a number of stables and barns.
Charged With Seduction. TORONTO, Sept. 22.—James Wells, 49, was arrested to-day charged with seducing Jessie Hammond, a 17 year old girl.
Come Into Liquidation. TORONTO, Sept. 22.—The firm of C. M. Taylor & Co., wholesale stationers, have gone into liquidation.
Board of Trade Banquet. MONTREAL, Sept. 22.—The Montreal Board of Trade banquet here on the 27th promises to be a big affair. Applications for tickets have been received from representatives of Boards of Trade in the United States, while representatives will be present from Ontario and Manitoba.

His Excellency in Montreal. MONTREAL, Sept. 22.—His Excellency the Governor-General and Lady Aberdeen are expected to arrive here on Tuesday evening next. The Montreal troop of cavalry will form the escort, the Windsor and Victoria Rifles will form the guard of honor at the civic reception on Wednesday morning, and the Royal Scots will form the guard of honor at the Board of Trade opening in the afternoon, and the banquet at the Windsor in the evening.

The Dog Fish Fisheries. HALIFAX, Sept. 22.—Cape Breton fishermen, as well as their brethren in Nova Scotia, find the prosecution of the fisheries difficult this fall owing to the immense schools of dog fish, which frighten other fish, destroy their nets and ruin the fishing. Forty years ago dog fish were plentiful and fishermen with a suitable kind of hook, not available to-day, captured immense quantities of them. The oil taken from them was worth 40 cents a gallon, mainly used for illuminating purposes. To-day it is not worth more than 20 cents a gallon, therefore the fish are not sought after.

Suicide of a Montreal Merchant. MONTREAL, Sept. 22.—Fred Campbell, of Boyd, Byrie & Campbell, wholesale stationer and paper dealer, killed himself last evening. He was 47 years of age. The firm was seized by a special officer of the Canadian customs. The charge was that the firm had been smuggling steel pens into the United States from Montreal, Quebec, near the border. Several thousand dollars' worth were said to have been supplied to New York and Boston dealers. The U.S. Government found that they had been bought from this firm. Mr. Campbell had been dependent over the difficulties his firm was in with the customs. Last evening he went to his home in company with John Robertson, who was called upstairs to his brother's room. In a few minutes a report was heard, and on investigation Mr. Campbell was found dead in a closet. Beside him lay a breech-loading shotgun, the charge from which had passed through Mr. Campbell's heart.

To Edit the "Free Press." WINNIPEG, Sept. 22.—It is announced to-night that M. St. John, of Montreal, has been appointed by the directors of that paper to be editor-in-chief and managing director of the Free Press, to succeed W. F. Luxton, who founded the paper twenty years ago.
Grist Mill Burned. COMBER, Sept. 22.—M. Creighton's five-story roller grist mill was destroyed by fire this morning. It was built at a cost of \$120,000.
Sales on Lake Superior. FORT WILLIAM, Sept. 22.—The s.s. Melbourn, loaded with wheat, ventured out in the gale yesterday and before reaching the Cape last four life boats was otherwise damaged. Her cargo was all right.
VANCOUVER MEETING. The Constitutional League Divided Among Themselves—Their Meeting a Failure. VANCOUVER, B. C., Sept. 22.—(Special).—The Constitutional League meeting was attended by 150 people to-night. The members of the league were divided against themselves, and the meeting was rather flat. The speakers were General Twigg, Rev. Mr. Maxwell, E. Fowter, Wm. McCraney, J. M. Duval, J. B. Kerr and F. C. Cotton. General Twigg stated that Mr. Kitchin had said the opinions of the voters on the country were unanimously against the Parliament Buildings Act. Rev. Mr. Maxwell delivered a violent and most unclerical speech.

The following were proposed as delegates: Major-General Twigg, J. B. Kerr, J. M. Duval, George Walker ("Working Walker"), Geo. Magee, A. H. B. MacGowan. J. M. Duval picked up Mr. Cotton for his alleged lukewarmness, and was called down by the audience and taken off the list of delegates for his presumption. Mr. Kerr had his name withdrawn from the list of delegates after telling the audience that the possibility of Provincial ruin was awaiting them. Chairman Wm. McRaney said there was division at home and he did not believe they were doing right. Half the people on

PAPAL ENCYCLICAL.

The Latest Deliverance by His Holiness on Educational Matters. NEW YORK, Sept. 22.—The Rome correspondent of the Catholic News sends a synopsis of the recent encyclical from the pope to the bishops of America, a copy of which was delivered by Rev. Dr. Roeker to Mr. G. Fallon at Pittsburgh on Thursday. His Holiness urges concord and union among Catholics and instructs the bishops to promote the holding of congresses. He calls their attention to the importance of nailing and urging that the clergy should no longer compromise too much with civil and political matters.

STRIKING MINERS. Serious Fighting at the Mouths of Pits in Staffordshire—A Car Fired. LONDON, Sept. 22.—A dispatch from Hereford, Staffordshire, where the striking miners become riotous last night, says that a mob of men and women attacked a train laden with slack which arrived during the evening, with stones and other missiles. The engine-driver and firemen of the train seemed to be the special mark for the volleys of the crowd. The mine agent after considerable trouble succeeded in persuading the rioters to disperse. In a short time however, the strikers again gathered and once more began their rioting demonstrations. They released the brakes of several cars which were standing on the track near the pit, and caused the cars in motion. Fortunately they ran upon a siding and no damage resulted. Later the mob set fire to a car containing sixteen tons of slack, and before anything could be done to extinguish the flames the car and its contents were consumed. The police arrived on the scene at midnight, and this morning a hundred officers are on guard at the mouths of the pits. The damage done by the rioters is not so great as was at first supposed.

AMERICAN NEWS. U. S. Pacific Squadron. WASHINGTON, Sept. 22.—Secretary Carlisle has decided to send the revenue cutter Grant, now at New York, and the Pacific cruiser Albatross, to the Pacific. The vessels will leave within the next month for their destination. They will go round by way of Cape Horn and the voyage will occupy three months.
More Arrests of Defaulters. SEATTLE, Sept. 22.—Considerable excitement was occasioned to-day by the arrest of Fred E. Sander and L. H. Griffith. They are accused of diverting the funds of the city to their own use by borrowing city money from City Treasurer Krug, which is contrary to law. Krug is a defaulter to the extent of about \$160,000, and is at present under arrest at St. Paul, Minn., and Griffith are the chief promoters and builders of several lines of street railway in Seattle, and stand well in the community.
Defaulter Burwell. ST. PAUL, Minn., Sept. 22.—Business and social circles were shocked last evening on learning that Jules H. Burwell, vice-president, treasurer and general manager of Mann, Burford & Berwell Carriage Co., was charged with misappropriation of \$70,000 from an assignment on Monday by the financial methods of Mr. Burwell, it is alleged.

BRAZIL'S REVOLUTION.

The Rebel Vessels Off Rio Have Their Decks Cleared for Action. Latest News Not So Favorable to the Opponents of the Government. LONDON, Sept. 22.—A private telegram sent from Rio this morning, which reached London at noon, says the government troops still hold possession of the city. The vessels of the rebel fleet in the harbor cleared their decks for action and the drum beat to quarters early this morning; but the bombardment had not been renewed up to the time the dispatch was sent. The telegram adds that an enormous number of messages are passing from Brazil to Europe. All outward dispatches are closely scanned in order to prevent the use of any code. NEW YORK, Sept. 21.—The Herald's Montevideo special says news received here yesterday is not so favorable to the cause of the revolutionists as heretofore. The rebel squadron, of which the Republica is the flagship, which sailed for the south intending to bombard Santos, Fortes, Alegre and Rio Grande do Sul, has been defeated. When they arrived off Santos the guns of the Republica and Pallas were trained on the city. The land forces were awaiting the attack and the shore artillery applied with vigor. The fight was kept up for two hours, when the rebel fleet hoisted anchor and sailed southward. Desertions from the ranks of the revolutionists are closely reported. The federal troops in Rio Grande do Sul have abandoned the siege of the city of San Eugenio, which they found was too strongly defended to attack with any hope of success. There was considerable skirmishing but no decisive result. Two thousand federals, under command of General Penna, were encamped near Bantista, intending to attack San Eugenio, which was defended by 600 Castellinas, commanded by General Tigre.

Cheap dinner sets at Chesapeake.

CAPITAL NOTES.

Government Boyd, of New Brunswick, Sworn In—Trade Returns for August. P. O. Savings Bank Deposits—Sealing Arrangements With Russia Officially Gazetteed. (From Our Own Correspondent.) OTTAWA, Sept. 22.—Senator John Boyd, of St. John, N.B., was to-day sworn in as Lieutenant-Governor of New Brunswick by Mr. McGee, clerk of the Privy Council. Mr. McGee telegraphed last evening to the Senator, who was in Montreal, that he could either be sworn in at Ottawa or Quebec, and Mr. Boyd decided to return to Ottawa, where the ceremony was consummated to-day. The new Lieutenant-Governor left for home this evening to assume his new position.

The trade returns for the past month were issued to-day. The exports are valued at \$13,572,317, an increase of a quarter of a million, and the imports \$11,575,862, or a decrease of two millions and a quarter. July showed an increase of a million and a quarter for the corresponding month last year, the net decrease for the year is a million dollars. The duty collected to date of August amounts to \$2,745,834, an increase of \$55,591.

ASIATIC CHOLERA. The Latest in Regard to Its Appearance in Hamburg and England. HAMBURG, Sept. 22.—During the twenty-four hours ending this morning nine fresh cases of cholera and two deaths from the disease were reported to the health authorities here. Eight of the cases previously reported as cholera are, on investigation, shown to have been attacks of a cholera-like disease, but not of the Asiatic scourge as a cholera is reported in Altona, a suburb of the city. LONDON, Sept. 22.—The recent death of a man at Gorton, county of Lancaster, of a cholera-like disease, has been pronounced by the authorities to have resulted from Asiatic cholera.

CABLE LETTER. What Will Gladstone Do?—Will He Abolish or Reform the Lords? Arrests of Austrian Anarchists—Yachting—Brazilian Rebels Submitting to the Government.

Abolition of the Upper House. The Earl of Rosebery, Secretary of State for Foreign Affairs, advocates the abolition of a single senate, in which the hereditary element of the House of Lords shall be preserved as a subordinate chamber, and a conference on the subject with Mr. Gladstone at the Black Crags Castle, yesterday, with the Queen. It is not possible that he took to her the intelligence of any new plans of Mr. Gladstone against the Upper House. Such a declaration would have had a disastrous result, in the disestablishment in Wales and Scotland. It would undoubtedly have strained to the utmost the relations between Her Majesty's Ministers and the Prime Minister. The campaign against the Lords has caused several English bishops to propose to the leaders of the Church in Scotland that they ally themselves with the reformers and the fight disestablishment in Wales and Scotland. However, received the proposal so coolly that it has been abandoned. The Scotch clergy seem to regard the Welsh disestablishment as inevitable and almost justifiable. They did not wish to link the fate of the Church in Wales with that of the Church in Scotland.

BRAZILIAN AFFAIRS. The Brazilian secretary of legation here, Dr. Dos Santos, said in an interview this morning that official advice from Rio although meagre, contradicted many of the sensational reports, and were favorable to the cause of the government. The telegraphic service present under the Naval Code of the country, he said, was still in the Government hands. The legation, he added, had reason to consider the alarmist cables about rebel successes along the coast sent out by the rebel agitators. Minister Corea emphatically stated that there was a panic in Rio. Bad advice from Rio about the Admiral Mallo, commander of the revolutionary squadron, is an ambitious scheme, whose greatest desire is to secure for the navy and at the same time for himself a predominant influence over national affairs.

THE ARGENTINE COUP. In a leader on the coming race for the America's cup, the Field says: "We should not be surprised if the Valkyrie should be beaten in the event of anything like a heavy wind and sea, for the Vigilant is a more powerful boat than the Valkyrie." The Valkyrie was not tried at home in anything like a heavy sea. In the sturdy blow of August 3 she sailed round the Royal Yacht's square, and then rounded the point of the harbor, and nobody knew about it until the result of the race was known. It was really the merits by wind in a reefing breeze. It is astonishing to see the holding odds in New York, no longer in favor of the Vigilant.

ARGENTINE REVOLUTION. Government Troops Defeated—The National Guard to be Mobilized. BURNES AYRES, Sept. 22.—The national troops in Corrientes have joined the revolutionary movement. The crews of the gunboats Republica and Beresajo have also declared sympathy with the Tucuman rebels. The Argentine government has ordered the National Guard to be mobilized throughout the country, and it is determined to put down the rebellion if possible. Everything is quiet in the capital. The authorities continue to arrest all persons who are suspected of giving aid to the revolutionists. The

THE RING.

Corbett and Mitchell—Solly Smith and Dixon. NEW YORK, Sept. 22.—Charlie Mitchell's last public appearance will be at the feather-weight championship battle next Monday night, between Solly Smith and Geo. Dixon. From that time out Mitchell declares he will shirk publicity as much as possible and pay more attention to his condition and general health. Mitchell will have a special box reserved for himself and friends at the fight on Monday night. Jim Corbett will also be on hand, and, as in Mitchell's case, will have a private box for himself and friends. Corbett will not leave Anheuser Park for the scene of the great battle until Monday, while Mitchell will remain in the vicinity of the Metropolis until Sunday, when he will visit the club house as a guest of the seaside organization. In speaking of the seaside organization, Mitchell said that he was in great shape for the big battle, and feels as confident of winning as any fighter here. Corbett is expected to weigh 116 pounds, and will keep himself in that shape until Monday afternoon. Dixon is also in the picture of good health. He has a splendid fall prospect, which has been unusual with him for some time back.

FRUIT FULLY UP TO OTHER YEARS. Apples, perhaps, struck one as being even better than usual, while the plums, owing to the late season, had ripened slowly and, consequently, were far richer in point of numbers. One new feature was the ticketing of each variety of fruit with its proper name. This was the work of Messrs. E. Hutchison and A. H. B. MacGowan, as members of the B. C. Fruit Growers' Association, who intend carrying out this plan at every exhibition in the Province as a means of instructing farmers in the true names of different varieties of fruit. As usual the Fraser Valley Canning Co. and J. S. Smith and striking exhibits, the former of canned fruits and preserves, the latter in honey. Mrs. Campbell had also tempting looking preserves on view, and was successful in securing prizes.

SWITCHMEN'S STRIKE.

The Men of the Rock Island Railway Go Out and Tie Up the Yards. TOKPEA, Sept. 22.—A meeting of the grievance committee of the Switchmen's Union of the Rock Island railroad was held yesterday afternoon at Harrington, and a demand was made for an increase of wages. The demand was refused and a strike was ordered. The night force at Harrington refused to go to work at six o'clock and day force kept their places. At eight o'clock the day men were driven out of the yards. Orders were sent out by the committee to tie up all the switch yards on the Western division; and the force in Tokpea declined to obey, and is still at work. The officers of the railroad company say that they have a written contract with all classes of their employees, which makes it impossible for the road, or any part of it, to be tied up on such short notice as was given by the union yesterday. The Harrington yards are today in charge of the chief detective of the company. No trouble is reported from any other point.

WELL SATISFIED.

Francis Joseph Has Complete Confidence in the Austrian Army. VIENNA, Sept. 22.—Emperor Francis Joseph has issued an order which declares that he is entirely satisfied with the way the army manoeuvres near Güns, Hungary, which were concluded yesterday, were carried out. He praises the efficiency of the regular troops, and expresses his gratification at the good discipline shown by the soldiers and their manifest appreciation of the objects of the manoeuvres. The Emperor concludes by declaring that he has complete confidence in the army. Emperor William reached Mohacs last night, to which place the Imperial army has gone on a shooting expedition. After a short stop made at Boglok, the royal sportsmen will proceed to quarters during their shooting excursion.

AN AMERICAN SWINDLER. LONDON, Sept. 22.—George Perkins, a self-styled American barrister, son of Judge Perkins, was charged in the Bow Street Police court to-day with obtaining goods and money by false pretences from Page & Co., printers, and another firm. In the former case Perkins said the goods were for Lord Compton. He was remanded pending Lord Compton's appearance in court. Perkins is also charged with stealing certain deeds relating to property in California owned by a man named Thompson, which he sent to America.

Arrest of Anarchists. BARCELONA, Sept. 22.—The police here raided the Anarchist club to-day, and seized two dozen pistols and several large packages of tracts and placards. All the members found in the building were arrested.

CHILLIWACK FAIR.

The "Garden Valley" Makes a Fine Display of Its Farming Products.

In Exhibits and Attendance the Numbers Prove Greater Than in Previous Years. (Special to the Colonist.) CHILLIWACK, Sept. 22.—The way the exhibit opened into the fair grounds yesterday morning fully proved that the success of the fair was well assured. Glorious weather succeeded the rain of the previous night, and everybody was in good spirits and bound to enjoy the annual exhibition to the utmost. Wagon after wagon drove up to the hall and discharged its contents of all kinds of exhibits, and it was fully noon before everything was in position in the hall. The Secretary, Mr. G. W. Chadsey, was kept very busy filling in entry tickets and attending to the wants of the exhibitors, while Mr. Mallard, the energetic treasurer of the association, and the other officers had their hands full preparing for the formal opening by the Premier. The hall presented a pretty sight when all was arranged, as it was, with the products of garden and field. In the front of the hall, bearing a wealth of beautiful flowers and foliage plants. The exhibits in this line were finer than last year. Madams Ahwell, Evans, Webb, Wells, Stevenson, Henderson, Denholm, Nelson and Kennedy were the leading winners.

The fair was fair and the passengers were enjoying themselves in the cabin. Suddenly the vessel began to sink. The officer of the watch ordered the men to pass the word in the cabins and forward to the vessel quickly and jump overboard. It was accordingly to late. There was terrible confusion in the cabin as the panic-stricken passengers struggled to reach the deck. In a minute from the time she began to sink the vessel was entirely under water. The one sailor on the ship sank under him, snatched a pair of oars from a lifeboat and threw himself into the water. He caught a plank on which he drifted for thirty-six hours, with nothing to eat or drink. He was picked up about fifty miles southeast of Port Harriet. For a long time the castaway was unconscious and could not speak. The lost vessel was doubtless of the mitsralensis type of gunboat so popular with the Haitians.

THE BELLEVILLE MEETING.

Enthusiastic Conservative Demonstration on the Bay of Quinte—Address to the Premier and Government. BELLEVILLE, Sept. 22.—(Special).—The first of the public gatherings which Sir John Thompson is to address during his tour in this province was held here yesterday. The weather was fine. The city was gaily decorated and the streets thronged with a great crowd which included Senators, Members of Parliament and leading politicians of the district. Sir John Thompson, Sir Adolphe Caron, Sir C. E. Tupper, Hon. Messrs. Haggart, Angers and Daly, with Messrs. Wallace, Wood and Curran, were present. Addresses were presented to the Premier from the City Council, the Conservatives of the Bay of Quinte district and the Young Men's Conservative Association of Belleville. Natchez Fairbanks, president of the West Hastings Conservative Association, presided, and about 10,000 people were present.

SWITCHMEN'S STRIKE.

The Men of the Rock Island Railway Go Out and Tie Up the Yards. TOKPEA, Sept. 22.—A meeting of the grievance committee of the Switchmen's Union of the Rock Island railroad was held yesterday afternoon at Harrington, and a demand was made for an increase of wages. The demand was refused and a strike was ordered. The night force at Harrington refused to go to work at six o'clock and day force kept their places. At eight o'clock the day men were driven out of the yards. WARSHIP FOUNDERED.

A Haytian Vessel Goes Down with Eighty Men on Board.

New York, Sept. 22.—The steamship Prince William I, from Port au Prince, brings news of the foundering off Cape Tibaroc, of the Haytian warship Alessandre Pottion, with a crew of eighty men and the following Haitian diplomats en route to Santo Domingo to negotiate a treaty: Gen. Molina, M. Cohen, Haitian ex-ambassador to Mexico, and M. de Jeans, Haytian consul-general. One sailor was saved. The disaster occurred September 6 about fifty miles south from Cape Tibaroc. The cruiser had just been put into commission. She left Port au Prince September 4, bound for Santo Domingo. The suddenness and completeness of the disaster, and the mystery attending its cause, makes the affair most mysterious. It is probable the real cause of the wrecking of the ship will never be known. According to the testimony of the sole survivor there was absolutely no warning. Neither collision with another vessel, a submerged coral reef nor storm can account for the occurrence. The day was fair and the passengers were enjoying themselves in the cabin. Suddenly the vessel began to sink. The officer of the watch ordered the men to pass the word in the cabins and forward to the vessel quickly and jump overboard. It was accordingly to late. There was terrible confusion in the cabin as the panic-stricken passengers struggled to reach the deck. In a minute from the time she began to sink the vessel was entirely under water. The one sailor on the ship sank under him, snatched a pair of oars from a lifeboat and threw himself into the water. He caught a plank on which he drifted for thirty-six hours, with nothing to eat or drink. He was picked up about fifty miles southeast of Port Harriet. For a long time the castaway was unconscious and could not speak. The lost vessel was doubtless of the mitsralensis type of gunboat so popular with the Haitians.

The Colonist.

FRIDAY, SEPTEMBER 29, 1893.

THE PREMIER IN CHILLIWACK.

Those who were led to believe that the inhabitants of the New Westminster District were almost on the verge of rebellion against the present Government must have been greatly surprised to find that its Leader, the Hon. Theodore Davis, was heartily welcomed in Chilliwack, Surrey and other parts of the Fraser River valley.

The people of those municipalities did not act as if they believed the Premier to be their enemy bound to deprive them of their dearest rights and privileges. They evidently looked upon him as a friend who was prepared to do all he could to further their interests and to promote their prosperity. And they were right. Sensible men in Chilliwack, as well as elsewhere, know that it is in the interest as well as the duty of the gentlemen who form the Government of the Province to do all that lies in their power to second their efforts to make the most of the resources of every section of the country.

How best to do this is their sole object. They think of little else and all their energies are directed towards the accomplishment of this object. The small politicians who represent the Government as the enemies of the people, who care nothing about their welfare and who are only intent on advancing their own private interests, are either shallow fools or artful knaves. The men in whose hands the people have placed the management of their affairs know that their reputation depends upon the way in which they do their duty.

If the country prosper under their administration they are entitled to credit, and if it does not prosper they are certain to be saddled with a large share of the blame, so they have every motive to do their very best to advance its interests.

The yeomanry of the Fraser River valley showed that they possess intelligence and good sense when they turned a deaf ear to the slanders so freely uttered by the Premier's enemies, and treated him as if they knew he wished them well, and was both able and willing, to the full extent of his ability, to lend them a helping hand.

We are quite sure that those who conversed with Mr. Davis, and who heard or read his speech at the Chilliwack banquet, must have been convinced that he is earnestly desirous of knowing what the wants of the country are, and of doing what he can to supply those wants.

The Government is in a sense fortunate in having for opponents men who are so ready to speak ill of them and to put the very worst construction on all their acts, for when they meet its members face to face and hear what they have to say for themselves, the people will see how greatly they are misapprehended and how faulty they have been slandered.

We trust that the members of the Government will give the electors of the greater part of the Province opportunities of hearing from themselves what they have to say in defence of their policy and what they propose to do in the future. The consequences of such intercourse will, we are convinced, be of the greatest benefit, both to the Government and the people.

THE VANCOUVER MEETING. The meeting of the Constitutional League held in Vancouver on Saturday evening, judged by the report of it that appeared in the News-Advertiser, does not appear to have been by any means a brilliant affair.

THE "VICTORIA" ARRIVES.

A Good Trip and a Full Cargo—The "Crown of England" Still at Yokohama.

After a pleasant fourteen-day passage the steamer "Victoria," of the Northern Pacific line, arrived Sunday evening, proceeding to the Puget Sound ports yesterday morning. She brought two first-class passengers for this city—Mr. W. Harrison and Mr. A. R. A. Heath—besides 100 Japanese and Chinese in port, representing the "Crown of England," which had been chartered for a single trip by the Great Northern Railway.

The meeting appointed its delegates. Are they representative men? Will they be acknowledged as such by the majority of electors of Vancouver? When they go to Kamloops will they speak and act for them or for a few of those who attended Saturday night's meeting?

THE WORST YET.

The civilized world has of late been horrified by the lynching outrages of the United States, and they have been indeed horrifying. They show that there is a class in many of the communities which is hardly a degree above barbarism. But for sheer savagery, an outrage that was committed near New Orleans, not long ago, cannot be outdone. It was not a lynching; there may be the shadow of an excuse for such crimes.

These are the facts: A negro, who had been arrested for some slight offence, shot the judge who was trying him. He made his escape and took refuge in a swamp. Search was made for him, but he could not be found. The disappointed mob, however, found three of the murderer's brothers who had not been even accused of having committed a crime. They were harmless, law-abiding citizens, but their relationship to the murderer was by the mob looked upon as a crime, and they were deliberately murdered.

REASONABLY INDIGNANT. The dawdling of the United States Senate has exhausted the patience of sensible and patriotic men. They know that the financial danger is not yet over, and they fear a recurrence of the stringency, if the bill to repeal the Sherman Act should miscarry.

FRUITS AND HOPS. An Encouraging Report on the Capabilities of This Province. Prof. Saunders, director of experimental farms, who has returned to Ottawa after an official visit to British Columbia, gives an encouraging report as to the results of his observations in the Province. Fruit-growing is a branch of industry to which he has attracted attention, and he has seen a very much enlarged during the past year and the number of varieties of fruit now under test is over 1,100.

LOOKED LIKE A SKELETON. GENTLEMEN—Last summer my baby was so like a skeleton. Although I had not much faith in it, I took a friend's advice and tried Dr. Fowler's Kidney & Bladder Pills. It soon got better. I truly believe it saved his life.

Mrs. HARVEY STEVENSON, Hillsborough, N. B.

THE "VICTORIA" ARRIVES.

which is unfit for general agricultural work that the success of this experiment has weakened much interest among the fruit-growers of the Province.

"Good progress has also been made in the forestry work, especially in the planting of hardwood trees. During last winter the Department of the Interior transferred to the Experimental Farm 800 acres of additional land for this special work. During the spring over 5,000 young trees were planted on the hill side, mainly black walnut, ash, hickory, cherry and other valuable hardwood timber trees of the East.

After a pleasant fourteen-day passage the steamer "Victoria," of the Northern Pacific line, arrived Sunday evening, proceeding to the Puget Sound ports yesterday morning. She brought two first-class passengers for this city—Mr. W. Harrison and Mr. A. R. A. Heath—besides 100 Japanese and Chinese in port, representing the "Crown of England," which had been chartered for a single trip by the Great Northern Railway.

THE PHYSICAL FORCE MEN EXPULSED From the Revolutionary Clubs of England. LONDON, Sept. 26.—Members of the Communist workingmen's society here ridiculed the reports that the Vienna dynamite plot, for which many Austrian anarchists were arrested, was hatched in London by the members of the society.

EUROPEAN POLITICS. Rumored Trouble Among British Liberals—France and Russia. NEW YORK, Sept. 26.—Harold Frederic's cable to the Times from London says that the month ago Mr. Chamberlain was rash enough to declare that this year the apertures should be obstructed, inch by inch, and the discussion of them extended indefinitely, but the Tory members quietly notified Mr. Balfour that they would not follow him and not Mr. Chamberlain, and, unless he said so, they would not remain in London during September.

OTAWA, Sept. 26.—(Special)—The Ottawa defeated us three games to two. Our boys put up a very poor game. Cullin's knee gave out in the second game. Some of the boys leave for home to-morrow.

OTAWA, Sept. 26.—(Special)—The Ottawa defeated us three games to two. Our boys put up a very poor game. Cullin's knee gave out in the second game. Some of the boys leave for home to-morrow.

REINDER BRAND. DON'T CRY OVER SPILT MILK. BUT PURCHASE FROM THE NEAREST GROCER A CAN OF THE WELL-KNOWN REINDER BRAND CONDENSED MILK.

For infants, invalids, and many household purposes it's much better than cow's milk in the natural state. The REINDER BRAND CONDENSED COFFEE AND CONDENSED COCOA are deservedly popular too. In home life or camp life they are equally useful. To prepare either for use you require only water. Each contains milk and sugar. Think of a cup of good Coffee or Cocoa in a Second for a Cent!

SPORTS AND PASTIMES.

The Victoria Team Play a Close Match With the World's Lacrosse Champions.

Marching Orders for the Wanderers—Footballers Preparing for the Season.

Tuesday's match between the Victoria team and that of the Capitals of Ottawa closed, for the Victorias, the most successful year that any team of athletes have ever enjoyed in Canada. The Victoria team won the championship of British Columbia, traveled three thousand miles to Montreal, and, on Wednesday, the 13th inst., defeated the Montreal six to nothing in an hour and a half's play.

THE PHYSICAL FORCE MEN EXPULSED From the Revolutionary Clubs of England. LONDON, Sept. 26.—Members of the Communist workingmen's society here ridiculed the reports that the Vienna dynamite plot, for which many Austrian anarchists were arrested, was hatched in London by the members of the society.

In home life or camp life they are equally useful. To prepare either for use you require only water. Each contains milk and sugar. Think of a cup of good Coffee or Cocoa in a Second for a Cent!

SPORTS AND PASTIMES.

The Victoria Team Play a Close Match With the World's Lacrosse Champions.

Marching Orders for the Wanderers—Footballers Preparing for the Season.

Tuesday's match between the Victoria team and that of the Capitals of Ottawa closed, for the Victorias, the most successful year that any team of athletes have ever enjoyed in Canada. The Victoria team won the championship of British Columbia, traveled three thousand miles to Montreal, and, on Wednesday, the 13th inst., defeated the Montreal six to nothing in an hour and a half's play.

THE PHYSICAL FORCE MEN EXPULSED From the Revolutionary Clubs of England. LONDON, Sept. 26.—Members of the Communist workingmen's society here ridiculed the reports that the Vienna dynamite plot, for which many Austrian anarchists were arrested, was hatched in London by the members of the society.

EUROPEAN POLITICS. Rumored Trouble Among British Liberals—France and Russia. NEW YORK, Sept. 26.—Harold Frederic's cable to the Times from London says that the month ago Mr. Chamberlain was rash enough to declare that this year the apertures should be obstructed, inch by inch, and the discussion of them extended indefinitely, but the Tory members quietly notified Mr. Balfour that they would not follow him and not Mr. Chamberlain, and, unless he said so, they would not remain in London during September.

OTAWA, Sept. 26.—(Special)—The Ottawa defeated us three games to two. Our boys put up a very poor game. Cullin's knee gave out in the second game. Some of the boys leave for home to-morrow.

WESTMINSTER'S EXHIBITION

Normally Opened by Lieut-Governor Dewdney—An Exceedingly Successful Enterprise.

His Honor's Reminiscences—Who Were Present—Some of the Victoria Exhibitors.

Special to the Colonist.—New Westminster, Sept. 27.—At noon to-day His Honor Lieut-Governor Dewdney stood on the balcony of the Exhibition Building at New Westminster close to the railing and lifted his hat. At a prearranged signal, Lieut. Cowper in command of 150 men of H.M.S. Garnet and Nympha shouted "present arms" to his line of marines; the regulars moved like machines and came to the present with a decisive combined front while the boom-boom of a mounted Nordenfolt in the charge of the detachment seemed to give vent to the pent up desire of the citizens to demonstrate their enthusiasm on the successful opening of the third annual agricultural exhibition of the municipality of Westminster. The cannon does not cease to boom, ere the band plays the National anthem, and every head is uncovered. As the last strains die away, Mayor Curtis waves his hand and all noises cease but the Nordenfolt. The civic magistrate extends a greeting to the visitors and in eloquent speech, in which he refers romantically to the pioneer days of our Lieutenant-Governor on the banks of the Fraser, introduced his Honor to the assembled crowd, and on behalf of the citizens of New Westminster, many of whom were formerly fellow citizens of His Honor in old days, he bids the Queen's representative welcome to the Royal City.

His Honor said it was not the first time the citizens of Westminster had shown their appreciation for what they were good enough to term his valuable services in the past. Looking back, events had proved his course the right one. He has aspired to the honorable position he now held, as he believed the sentiments expressed to-day would be those expressed by his old friends in British Columbia. He was, indeed, an old pioneer, having the honor to have been the first settler on Sea Island, at the south bank of the Fraser.

"I first set foot," said His Honor, "in B. C., early in June, 1859. I camped upon the bank of the Fraser within the limits of Queensborough, then Capital of B. C. I accompanied Col. Moody, commander-in-chief of the British Columbia, to the mainland. We crossed from the island on the old steamer Beaver, and I was appalled at the immensity of the forest I gazed from the deck of the steamer."

He gave his peculiar pleasure, he said, to see the wonderful change so beautifully expressed in the address of the citizens of New Westminster. The Royal City had a noble history; its people had been energetic and cautious and have manifested the clean and healthy town adjoining the forest from which its site was born. He trusted he might be of use in the province owing to the knowledge he had acquired from his experience and knowledge which was at the service of any one and every one who desired it.

His Honor, in conclusion, on behalf of Mrs. Dewdney and himself, thanked his old friends and everyone present for their most gratifying and enthusiastic reception. Some of the happiest days of his life had been spent in Westminster, and they would always have for the Royal City a warm spot in his heart.

The periods in His Honor's speech were punctuated by minute gusts of marines still firing with periodical precision on the outskirts of the crowd. President Traub, in his turn, greeted the people and invited the Lieut-Governor to open the fair.

His Honor says: "I declare the Exhibition open." The crowd cheer, the cannon cease, and the people swarm into the buildings, the bright uniforms of H. M. S. officers lending color to the pretty scene.

Among the sightseers were: Mrs. Dewdney, Mrs. Curtis, Mrs. Brown, Mrs. Corbould, His Hon. Lieut-Governor Dewdney, President Traub, Mayor Curtis, H. M. S. Corbould, ex-Mayor Townsend, Hon. C. E. Pooley, Hon. J. H. Turner, James Punsh, M. P., P. J. W. Horn, M. P., D. O. Oppenheimer, Vancouver, Ald. Mackenzie, Vancouver; Ald. Sinclair; D. R. Ker, Victoria; John Hendry, Reeve Kelly, of Quictum; W. H. Laddner, the officers of H. M. S. Garnet and Nympha, Capt. F. Hughes, Hallett, Commander Huntingford, Lieut. Cowper and Muntz in charge of the men; Lieut. Chambers, Chief Engineer, R. G. S. Norgate, Assistant Engineer, J. O. Jamieson.

The fine old city by the Fraser presented a beautiful sight in its holiday attire, its artificial decorations putting the finishing touches on nature's magnificent gifts of sublime scenery and charming situation. Conspicuous notices were the "The Royal City extends welcome to all," "Welcome to the Knights," "Greeting to the Whitehead of the Pacific," "Welcome to the Knights of Pythias, Nanaimo; Sons of England, Foresters and Odd Fellows made an effective display, and the excellent music of the Indian band from Burrard's Inlet was favorably commented upon. The Westminster city band "Pride of the Province," also sustained the proceedings. Inside the building everything went smoothly.

Even nature refrained from sprinkling the crowd of interested spectators around the football field. During the first half Vancouver had rather the best of it, scoring two goals. Sankler got a try; Woodward got a drop kick from the field. In the second half the Royal City team held down their visitors and did some very brilliant playing, but failed to score. The teams were evenly matched and the game was closely contested and interesting.

J. H. Falconer's Victoria Vinegar Works has a very fine display next to the Colonnade exhibits. It is well sprinkled with red tickets, Mr. Falconer carrying off first prizes in pickles, vinegar and cider. Close to Mr. Falconer's creditable exhibit is Brockman & Co's, Victoria Red tickets decorate their magnificent sample of red oysters, display of split peas, barley, oatmeal and flour, which are very fine.

M. R. Smith received a diploma for his magnificent exhibit of biscuits, crackers, etc. Other Victoria exhibitors came high above the standard. The schedule lacrosse match between Victoria and Westminster was played in the rain. Westminster won in four straight games from a hurriedly put-together team from the Capital in seventeen minutes.

The Ladies Aid Society, of the Presbyterian congregation at Cedar Hill, will give an At Home at the residence of Mr. Benjamin Marr, Cedar Hill road, on Tuesday evening next. A cordial welcome and a pleasant evening awaits all who may attend.

FROM ARGENTINE.

The Government Recaptures Tucuman—Fought With Torpedo Boats.

New York, Sept. 27.—A Buenos Ayres dispatch says: Gen. Pellegrini, at the head of the Government troops, has recaptured the city of Tucuman. Pellegrini and staff and 1,500 infantry marched to the building where the Junta was sitting. All the members were taken prisoner and locked up under strong military guard.

On April 12 last the U. S. steamer Ranger left this harbor for Port Townsend in command of Captain Nichols and manned by a complement of men. On October 13 next the Ranger will probably return to San Francisco minus a number of the crew and bearing the reputation of having lost most of her men because of too rigid discipline.

From a private source of information it is learned that one of the principal complaints made by the men of the Ranger is that ordered by the surgeon to wash their hands in a manner that no seaman shall be allowed to put his hands in his pockets while on duty. It is not presumed that poor Jack is prohibited from reaching after his knife, or prevented from diving into his pockets for a chew of tobacco, but it is stated that under no circumstances is a Ranger seaman allowed to pose meditatively with his fists covered by trouser cloth and not ready for immediate action.

Again doth Jack complain and say that on board the Ranger the men are forced to do double duty. Watches have been changed so as to force every seaman to make and apprentice to sleep with one eye on dream-land and the other on the ship's officers. No man is allowed to close both eyes at once, nor to use capillary tubes or other Mess-table rules are still more offensive, declare these victims of the Ranger.

It is thought that the larger half of the vessel's crew will leave her when she arrives at Port Townsend. The Ranger is always experienced with crews shipping on the Behring Sea patrol fleet. The men seem to have an aversion to shipping to the North Pacific, and Port Townsend is a port of call for those who desire to get out of the service. The men seem to have an aversion to shipping to the North Pacific, and Port Townsend is a port of call for those who desire to get out of the service.
