

HAMILTON HAPPENINGS

TO MAKE SURVEY READY FOR EXPROPRIATION

Parks Board Considers Merits of Several Sites For Park and School Purposes.

HAMILTON, April 12.—(Special.)—Expropriation of some property owned by J. J. Scott, which the city desires for park and school purposes, was again defeated by the parks board at its meeting to-night. A conference with Mr. Scott will be sought, at which he will be asked to set a price on his land.

In the meantime the survey preliminary to expropriation will be proceeded with. A letter from Thomas Patterson, offering a parcel of land at the beach for park purposes, was taken over by the board. Chairman Lees pointed out that this was the city's last chance to acquire park property at the beach, but in view of the other park proposition now under consideration, the board would take no definite action in the matter.

A possible solution of the hospital site question was considered in the suggestion of Commissioner John Allen that the new hospital but built on the present location of the city's quarry, on the mountain brow. This property meets all the requirements laid down by the doctors, except accessibility, and that could be arranged by means of an incline railway at small cost.

A three-wheeled tandem cycle, ridden by Wm. Carson and Harvey Tolson, this evening attracted the attention of Detective Coulter and Bleakley. The cyclists claim Missouri as their home, but as they could give no satisfactory account of their recent movements they are being shown the interior of No. 3 police station tonight, and tomorrow will face the magistrate on a charge of vagrancy.

Deputy Chief Whaley to-night out short the adventurous careers of Jrs. Frost and Arthur Gray, two Bradford runaways, aged 11 and 13 years respectively. Parental roofs will shelter them to-morrow night.

The electrical workers' union to-night again discussed the wage question and decided to stand by their guns at their demand for an increase of pay.

The public exhibition of the work of the students of the Hamilton Technical and Arts School opened this evening, and in spite of inclement weather many visitors attended the interesting exhibition.

D.D. NOT THINK NOISE WAS MADE BY MURDERED GIRL

Several Witnesses Testify to Sounds Heard by Them on Night of Tragedy.

COBourg, April 12.—(Special.)—Lorenz Macdonald, hoster at the Hotel Bristol, was an important witness for the crown at to-day's sessions of the Matthews murder trial. An effort was made to get him to imitate the sounds which he alleged he heard after retiring to his room on the evening of Dec. 17. His answer was that it was a sound of someone in distress, a whining or choking sound. He had known Johanna Brimacombe ever since she was born. He did not think it was "Joey" when he heard the cries.

Macdonald said he saw Matthews in the kitchen with Miss Brimacombe that night. Matthews was standing by the stairs and the girl was about two feet from him. Witness came from the bar into the kitchen. Soon afterwards he went to his room on the third floor, shut the door and bolted it. After he was in bed he heard whining or groaning. He got up, opened the door and stuck his head except for three months, when he told her as there was no money coming in she had better sell books, and finally they separated.

He and his children have been trying to put me in the insane asylum," she said. "He threatened me, and said he would have my name in all the papers. I left and went to 26 George-street."

A document was produced in which Mrs. Buskin, aged 56, told his honor that she had married Buskin in March, 1909, then being a widow. After they were married he had supported her except for three months, when he told her as there was no money coming in she had better sell books, and finally they separated.

He borrowed money from two gentlemen, as I told them. If I could get proofs of my first husband's death Mr. Buskin would settle up everything. She added that his children told him he was living in bigamy and he would not give her money. After further examination his honor said the charge did not come within the statute, and dismissed the case.

JURY DISAGREED.

BARRIE, April 12.—A disagreement on two of three counts in the indictment charging Edward Chapman of Altondale with indecent assault on a girl under 14 years of age, brought about the dismissal of the jury after nearly five hours' deliberation. All stood for acquittal on the first count, and on the other two counts the case will come up again at the fall hearing.

HIGHER PAY GRANTED IN POLICE DEPARTMENT

Chief Grasett Gets \$250 Advance and Men \$50—Numerous Promotions.

Increase of pay for the entire force and a large number of promotions occupied the attention of the police commissioners at a special meeting yesterday afternoon. The increases ranged from \$50 in the case of Chief Grasett to \$250 in the case of the men on the force. Deputy Chief Sisk and Inspector of Detectives Duncan, with Chief Inspector Archibald were advanced \$250. Inspector McClelland of the orderly room was given a boost of \$100, while Staff Inspector Kennedy, with inspectors of divisions were advanced \$100. Sergeants, detectives and patrol sergeants are advanced \$50, while the men are advanced \$50 per year.

List of Promotions.

Chief constable	4,200	4,000
Deputy chief constable	3,750	3,500
Chief inspector	2,500	2,000
Inspector Duncan	2,250	2,000
Inspector McClelland	1,750	1,500
Staff inspector	1,450	1,200
Inspectors of divisions	1,650	1,500
Sgt. Mackie, detective	1,450	1,250
Detectives	1,200	1,150

First-class constables	950	900
Second-class constables	850	800
Third-class constables	750	700
Stenographers	750	600

The following promotions were also made: Detective McKinlay will be promoted to second in charge of the staff inspector's office. The title will be sergeant of the staff office, while his pay will remain the same as the rest of the detectives.

Acting Detective Montgomery will be asked to take the vacancy in the detective force and Acting Detective Miller of No. 3 division, and Charles Taylor of No. 1 division, will be made permanent detectives to fill the positions made necessary by the day off per week.

In the mounted department the only change is in the addition of Constable Tucker, who will be taken from the ranks and made patrol sergeant. He is at present attached to No. 5 division.

Six patrol sergeants have been raised to the rank of sergeant. They are: Taylor, Bond, Johnston, Dynes, McArthur, and Guthrie of divisions 2, 3, 4, 5 and 6.

To fill these six vacancies and five others required on account of the extra relief duty, there will be 11 new patrol sergeants chosen from the first-class constables. They are: Constables McNeil, Egan, Hutchins, Phelan, Duggan, Trapp, McAllister, Sutton, Grimshaw and Hoag. The promotions from the lower ranks to fill these vacancies will be made later.

Distinguishing Style and Superior Quality Have Made Our Men's and Boys' Clothing Popular

Where do you buy your clothes? Any man feels complimented on being asked that question. That feeling of satisfaction that comes to a man who knows that his clothes look well on him will be felt by the man who puts on one of these new spring suits we are showing. A man who puts on one of these stylish suits will know by the glances of approval of those with whom he associates, that his clothes appear to good advantage and will feel that satisfaction that comes with full value.

"EATON BRAND" Suits

There's double Satisfaction in every "EATON BRAND" Garment that leaves the Store

STYLE—The season's new ideas in clothing brought from New York by our own designers, who are closely in touch with the fashions of the great metropolis.

FIT—There are sizes to fit almost any man. If it is not correct in any particular it is altered before it leaves the store.

QUALITY—Only good quality materials are used. The linings, trimmings and staying materials are also of high grade.

A few price examples—
"EATON BRAND"—A suit in a single-breasted model in an English worsted of fine texture in a black and grey pepper and salt pattern in a fine diagonal twill—also in the new olive and brown fancy weaves, with self or colored stripes; sizes 36 to 44. Price 18.00
Single Breasted Suit—An English worsted in a pencil width stripe of mid-grey, with green thread stripes, one inch apart 22.50

CONSTRUCTION—That pleasing style, fit and shape possessed by "EATON BRAND" clothes is because the materials are all cold water shrunk. The shoulders of the coats are moulded by hand to give them a permanent, natural shape. The lapels and collars are cut to fit closely and the fronts are reinforced with haircloth interlining that extends right to the bottom. The pockets are built on a new plan to prevent sagging. All the essential parts of the making and finishing are hand-work.

In Navy Blue there are both single and double-breasted models, made of Clay's English worsteds of fine twill—clean wearing, serviceable materials 16.50

Another Line in navy blue is in a worsted material, made from pure Botany yarn, of soft, smooth finish, and in a fine twill 20.00

In a Scotch Worsted there is a double-breasted model in a small check pattern of grey, with self and colored stripes 18.00

A Boy's Suit in "EATON BRAND" Quality

Tailored in the famous "EATON BRAND" style! A suit in three pieces, made in double-breasted style from an imported worsted material in a beautiful golden brown shade in a fine weave, with self stripes one inch apart—knee pants, with loops for belt and watch pocket; sizes 29 to 33. Price... 12.50

There's Dash and Go to These Young Men's Suits

These small touches that mark the spirit of youth and light-heartedness have been developed to good effect in these suits:

One popular idea is an English worsted, with a smooth surface, in a nice light grey, with alternate herringbone and straight-weave-stripe pattern. The coat is made in the single-breasted model, with medium length lapels, close fitting collar and nicely shaped shoulders. The trousers are neatly cut and have side straps at the waist; belt loops and cuffs on the bottom; sizes 32 to 37. Price..... 12.50

A Navy Blue Suit shown is a Clay worsted, fine twill fabric that has a soft finish that will wear clean and not easily gloss; double-breasted three-button sack coat; trousers are in new fashion with belt loops and cuffs at bottom 14.00

Another Smart Spring Suit in a dark fawn shade worsted, tinged with grey, in a pin check weave, with self-colored stripes; smart semi-form fitting coat, in a single-breasted model; vest has five buttons and is without collar; trousers in prevailing style, with cuffs at bottom and belt loops 16.50

These Spring Overcoats Are Classy Garments

Those herringbone or diagonal striped patterns in tweeds and worsteds have attained a wide popularity as materials from which the new spring overcoats are made and one of the coats we are showing brings out that weave to good effect. The material is a finished tweed of good quality. The coat is made in the single-breasted model, 44 inches in length; fly front or with buttons showing through; nicely shaped shoulders; close-fitting collar and medium length lapels; good quality twill linings; sizes 34 to 44 10.50

It's to Your Advantage to Buy Your Boy's Suit Here

It's value that counts in buying clothing, and that's why the Store has become the favored shopping place with mothers of small boys, who dress their families out of a limited appropriation and who are always on the lookout for the biggest value they can get for their money.

It is well known to mothers that in the matter of boys' clothing "EATON BRAND" offers big value in style, quality of materials and workmanship.

In the Bloomer Suits that are just now the "right thing" for boys' wear, we show a suit in a small size that is just what the mothers are looking for. It is a very neat and stylish looking suit, and, besides, is a suit that will stand a great deal of the rough usage to which boys' clothes are subjected. It is a sturdy tweed material, in a mid-grey shade, through which a parallel green thread stripe runs at intervals of about an inch apart. The coat is a double-breasted model, and the bloomers are in the new style, with straps and buckles at the knees. The linings and trimmings are high class 4.25

CHURCH IS STILL ON TRAIL OF WORKS DEPT.

Impertinent," He Says of Randall
Letter—Mayor and Controller
Spence Wrangle.

Controller Church at the meeting of the board of control yesterday stated his opinion regarding newspaper criticism of the actions with reference to the conduct of the waterworks department, and declared that while he had made scathing remarks as to the manner in which the repair work on the intake had been conducted he had not exceeded his rights. He had no desire to harass the department, but thought that if the newspapers took the trouble to investigate deeply enough they would find that there was reason for his various criticisms.

The controller reopened the question of the letter sent in by W. H. Randall, complaining of remarks made by him and characterized it as "a piece of gross impertinence and impudence," which should not be permitted to come from any "mere foreman of a city department." He accused Mr. Randall of spreading the newspaper offices, and wanted to know where it was going to end if the members of the board could not discuss matters without being called to account by employees of the departments thru the newspapers. It was impudent of Mr. Rust to forward Mr. Randall's letter to the board. He had never seen Mr. Leslie, although gentleman had been engaged to superintend the laying of the extension to the intake, and he did not see why he had not been brought before the board.

If the papers were disposed to be unfair to him he wished that they would at least be truthful. They were championing the cause of public ownership and at the same time defending public inefficiency in the waterworks department, which was mismanaged in a manner to give a black eye to public ownership.

He was not to be blamed from doing his duty by any member of any department.

He then introduced a resolution of four typewritten pages and some 25 clauses with questions as to the conditions of the intake before and after the break, the reasons for the break, etc., that he wishes the board of experts, of which J. G. Sing is chairman, to answer.

Controller Spence declared he would under no circumstances support the board of the motion which asked the board of experts to make a report, but he was not opposed to the information

being secured in another way. Engineer Randall had been indiscreet in writing the letter which precipitated the argument. The resolution will be further considered to-day.

Over-Police
The mayor and Controller Spence had a short interchange as to the conduct of the police department. The controller wanted to know why there were so many men leaving the force and why the day-off had not been put into operation. If it had not been put into operation, he said, it would have been a great deal better for the police department.

The mayor was of opinion that as the police commissioners were an independent body, the request was out of question and that the controller had no right to ask it. The chief was doing all that could be done and the day-off would come.

"With all deference to you, Mr. Spence," said the mayor, "the chief knows more about it than you do. I might suggest that while you may be inclined to criticize Controller Church for discussing works department matters too freely, you are doing a lot of unnecessary talking about the police department."

"I wish no rebukes from you, Mr. Mayor, for doing my duty," retorted the controller. "I am within my rights and will not accept censure for that."

"I am not rebuking you," replied the mayor. "You think you are right. I think I am right, so we will let the matter stand at that."

"I am quite content that it should," responded the controller.

Fruit Men's Grievance.
Ald. McBride and Ald. Maguire introduced a large deputation of wholesale fruit commission men from the city's property on Front, Church, Colborne and Jarvis streets, who protested against proceedings taken against them in police court for obstructing the streets because they placed their goods out as provided for in their agreement with the city. It was decided to have the bylaw amended to permit of their displaying their goods, and in the meantime an attempt will be made to have the police court proceedings delayed for two weeks.

The recommendation of the civic works committee, that the teamsters two weeks' extra pay in lieu of two weeks' holidays, was referred back and the opinion was that it should be two weeks' holidays instead.

Services at St. Alban's.
Good Friday services at St. Alban's Cathedral will be as follows: 10 a.m., prayers; service, 12 to 3 p.m., conducted by Canon McNab; 8 p.m., evening prayer, Rev. S. W. Hornbrook, preacher.

LOTS OF IMMIGRANTS

But They Don't Like Country Air, Preferring Whirl of City Life.

It looks as if the newly arrived emigrants in Toronto much prefer to be hangers-on in the city than workers in the country. When over 900 husky Scotchmen arrived on the Grand Trunk special yesterday, farmers came in droves asking for help, but were very frankly turned down. Not that many of them looked to be of the trained artisan class, for they were all poorly attired, but apparently city life goes better than driving "Sis' hosses" in the country air.

Appropriate and seasonable will describe, but will not convey to you the beauty of the page of Easter Lilies that reflect this glad Easter-tide from the front page of the Art Section of this week's Sunday World. Another charming Easter offering is a four-color grouping of some city churches, with the Metropolitan Church as the centrepiece, massed about with a multitude of eight-seers, together with Old St. James' Cathedral, St. Michael's Cathedral, Bloor Street Baptist Church and Knox Church—all suitably draped, and the whole forming a pretty and attractive ensemble. For a souvenir Easter number you will not find anything superior. For sale by all newsboys and newsdealers. Only five cents per copy.

KILLED BY STREET CAR.
PRESTON, April 12.—This afternoon when the 4 o'clock car on the G. P. and H. was going to Gait, little Willie Wagner, aged 8 years, was crossing the street and was caught and pinned under the car for some time before he could get out, when he died.

PORTABLE SCHOOLS FOR CITY LIMITS.

Two portable schools will probably be built to accommodate the 100 pupils who come from outside the city limits to attend the Coleman school. The city gets \$150 per month from each of these pupils, and Inspector Campbell of York County has decided on this action on Inspector Hughes' recommendation in order to economize.

DECLINED TO REDUCE RATES.

WASHINGTON, April 12.—In a decision to-day the interstate commerce commission declined to make any reduction in what are known as ex-lake export traffic. The Chicago Board of Trade maintained the present rates of grain rates from Buffalo, N.Y., to eastern destinations, either on domestic or export traffic.

Want C. P. R. Connection.

THURSDAY MORNING, APRIL 13, 1911. CANADA THE BONE OF CONTENTION.

The more the question of reciprocity is discussed in the United States, the more unsatisfactory must it appear to Canadians. The parties are lining up in the United States, namely, the Democrats and Republicans, on this issue. AND CANADA IS BEING MADE THE CAUSE OF BATTLE BETWEEN THESE TWO PARTIES.

Does it not strike you as a most dangerous position for Canada to occupy, that she should be the cause of discord and disagreement between the politicians and the parties of the United States? We have been suddenly forced into that most dangerous position, and we shall continue to be in that position as long as our tariff policy is to be in any way subject to consideration in the United States.

Let us pull clear away from all these complications; let us withdraw the offer of reciprocity, and let the people of the United States make their own tariff. There is trouble ahead for us every day in the year, and every year in the century, if we occupy any other position.

Canada cannot afford to be the rag doll of American politics, and that is what she is to-day.

WE ARE inclined to think that the members of the city council who opposed the appointment of Mr. Ellis to the city's electric commission did not fully appreciate the situation that existed, and that with fuller knowledge of all the circumstances they will see the advantage, and, indeed, the necessity, of delaying not a moment in the organization of the body which is to direct the important enterprise of the city thru its early stages.

Now that the Toronto Electric Light Company has changed hands, and the city is aware that competition has to be met, no time should be lost in getting to work to supply the waiting consumers from the city sources. The city has a duty and a responsibility to the other municipal members of the Power Union, and there must be perfect unanimity among all the parties concerned.

Now that the issue is defined and an early delivery of cheap power is the aim before the city, we have confidence that the intelligent members of the council will waive any objection they may have entertained, and by appointing Mr. Ellis, get the commission into action at the earliest possible moment.

INCACCURATE CRITICISM. As the syndicate's offer was \$10 a share better than the city's, and carried no prospect of litigation, the stockholders' unanimous acceptance of it is no surprise. The city's expert, who had examined the offer of \$10, perhaps the city council will regret that it did not take his advice.

Mill generously went the extreme limit without any bagging, and waived the question of the floating assets, bringing the offer practically to \$10. Perhaps the shareholders will regret that they did not accept the offer. The city itself is well out of the business. We do not mind in the least the opposition of The London Advertiser to hydro-electric power, but why is it necessary to invent bases for argument? Why not stick to facts?

OLD SAWS AND MODERN INSTANCES. Much fun has been poked at the Hindus for their caste practices, their use of separate dishes, cooking utensils, drinking vessels, and their reluctance to touch clothes with other people. Students of ancient Hindu literature are inclined to seek the origin of these customs in the hygienic methods of a remote past, such as dictate the kosher customs of the Jews, and the various taboos regulations of many native peoples.

Dr. Hastings, following the principles laid down by medical health officers elsewhere, is gradually introducing some of the old ideas once more. We are no longer to drink out of the same cups. They convey germs. In fact, germs are the modern substitute for the Adversary, or the Destroyer. We must not dream of kissing each other. The germs are too dreadful. We do not wear each other's clothes. We may still sit at the same table, but separate tables are growing in favor at the restaurants. Individual pies are a modern innovation.

In the sleeping car we have still to use the same blankets, but we insist on a clean sheet. We have been drinking out of the same cup, but now there is an end to that. We must pledge each other in separate beakers henceforth. Perhaps the Hindus were not so far wrong after all, and science has come along to restore to them the reason of a custom that had grown religious, as old customs are apt to do from age. Dr. Hastings says we must not eat with unwashed hands.

Dr. Hastings may be laying the foundation of a religious cult whose followers a thousand years hence will carry their own plates, cups and spoons. The laws of survival will have it so, since only those who avoid the germs can live.

POWER FROM OUTSIDE. Some doubt has been expressed as to the wisdom of going outside Ontario to purchase power for the Ontario Hydro-Electric Commission. Hon. Adam Beck has made the best bargain he could for the eastern townships, and only went to New York State when the Ontario Power Companies declined to do business with him. The United States manufacturers make no bones about using Canadian power. If they take it out at Niagara, it will do no harm to bring it in at Waddington.

If the increase in street railway receipts for March is not proportionately as great as usual, the fine weather and earlier bicycle opportunities this year may have had something to do with it. There is of course no actual decrease, but an increase of \$30,000 a month.

There is a fortune in store for the man who can invent a game to supplant baseball; a better game; a more attractive game; a game that will give a better excuse for leaving the office in the afternoon, and which the newspapers can give half their space to without regret.

Please, Mr. Mayor, will it be possible to get around to those round corners right away? Time is the essence of this business. The house-wreckers are on the southeast corner now.

SHELDON SENT FOR TRIAL. Damaging Evidence of "Blind Pool" Man's Former Office Manager. MONTREAL, April 12.—C. D. Sheldon appeared before Judge Leet this morning on three charges of embezzlement, aggregating \$5,000. Crown Prosecutor Walsh elicited from witness Sheldon's acceptance of their money and this was not questioned. Judge Leet announced that the evidence was sufficient to warrant commitment for trial.

MAJ.-GEN. FRED WILSON SUGGESTS TO ILLNESS One of Canada's Most Distinguished Soldiers - Served With Waiseley in the Sudan.

MONTREAL, April 12.—The death occurred today of one of Canada's most distinguished and experienced soldiers, in the person of Major-General Fred Wilson. He was 83 years of age. He had been in feeble health for a very long time it was only during the previous few weeks that he was confined to his house.

The deceased had practically devoted his life to military affairs, and had fought in the Crimea in two campaigns, the Gordon relief expedition to the Sudan and the Northwest rebellion in 1885-89.

He was born in Kingston in 1827. After education at Trinity College School and Trinity College, Toronto, when 19 years of age he joined the 47th Battalion as an ensign. The following year, 1872, he was appointed 2nd Lieutenant in the Kingston Field Battery. He was promoted lieutenant in 1875, and in 1878 he was promoted captain and won his majority in 1883.

In 1884 he was transferred to the infantry and was sent to Egypt, where he served under Viscount Waiseley in the expedition in Khartoum. He was promoted lieutenant in 1887, and in 1888 he was promoted captain and won his majority in 1891.

An Unrivaled Holiday in Europe, including the Coronation. An excellent opportunity is afforded of seeing the coronation pageants to the Canadian Travel Club, sailing from Montreal June 2. This unrivaled tour includes accommodation for ten days the festivities and the special arrangements for each member of the great coronation pageants without additional cost to those who join.

Sheldon will appear again on Thursday and elect whether he will stand trial before a judge of session or go before a jury in the King's bench. The principal witness heard was David Burnside, Sheldon's office manager. The damaging side of Burnside's evidence was that Sheldon furnished him with brokers' accounts showing the day's profits, which he had since ascertained were false.

Episcopal Threats. JOLIETTE, Que., April 12.—Much comment has been caused here by the announcement of Bishop Archambault giving formal notice to the faithful that he will publicly excommunicate all who are known to belong to any secret organization condemned by the church.

Shorts in Foley-O'Brien Run In--Stock Up 50 Points

Sharp Advance in Foley-O'Brien But General List is Sluggish

Further Evidence of Weakness in Porcupines, But Signs of Strength Are Not Lacking--No Feature to Dealings in Cobalts.

World Office.
Wednesday Evening, April 12.

The mining markets to-day were in the main of a dull and sluggish character, but in special instances, where certain issues were marked out for specific attention, there were indications of activity. The Porcupine stocks were irregular, with recurrent signs of weakness in most of the leaders, though the downward tendency was not so apparent as to call for comment.

What was taken as the real cause for the recent violent selling movement in the gold mining stocks was given publicity to-day, and a pronouncement by various brokerage houses, that they had been forced to throw securities on the market owing to the speculative operations of a Northern Ontario firm of traders, was taken as the culmination of the backward movement. The speculative orgy which was indicated by the sorry tale, and which is discussed elsewhere in these columns, is by no means a precedent in mining market circles, but it is considerable of a stranger in Toronto, and for a time the operations met with a degree of success.

About the only feature worthy of comment in the market was the movement in Foley-O'Brien. These shares have undergone an almost steady decline ever since their underwriting, but the turn occurred to-day, and with a suddenness that took the breath away from those who had gone short of the stock. The price at one interval was down to \$120, but was noted 50 points in quick order when New York began buying the stock.

Lower prices were current in the other Porcupine issues, and West Dome, Pearl Lake, Dome Extension, Preston and Vipond were all below yesterday's levels. Coronation came in for more than usual prominence, and registered an advance of four points at 47.

There were no material changes in the Cobalts, and outside of a point advance in Beaver and a slight upward movement in La Rose, the market did not show any decided trend.

Nipissing Output.
During March the Nipissing Company, mined ore containing 327,700 ounces of silver, having estimated value of \$185,557, and shipped ore of estimated value of \$165,689.

REA MINE DIRECTORATE.
A Montreal wire reports that the Rea mine directorate is as follows: President, C. P. Hill, president of the Hillcrest Collieries; vice-president, W. Butler, vice-president, Canada Car Co.; directors: H. Lockhart, Jr., representing Messrs. Timmins, C. J. C. Goldfields, of South Africa; J. B. Holden, of Toronto, solicitor for Timmins-McMartin; Daniel G. Richards, representing the Bewick-Moreing Co., and L. C. Thompson.

TIMISKAMING FINANCES
Surplus of \$377,165 on April 1--Ore From 575 Foot Level.

With the three per cent. dividend payable April 10 is being sent out, statement of the affairs of the Timiskaming Mining Company, representing the financial condition of the company on April 1, it reads as follows:

Cash in bank \$270,126.16
Owing from smelters 42,418.73
Ore on hand 41,872.50
Accounts receivable and stocks 29,452.82

Accounts payable 430,667.24
2,501.96

Surplus \$377,165.23

Excellent ore is now being raised from the 575-foot level of the Timiskaming, showing a value of at least one of the veins holds the values has been explored, and as far as below the 500-foot level, the company is of course, mining ore from far the deepest level in the camp to-day.

Porcupine in London
Bewick-Moreing to Put Out Another Flotation After Easter.

A London cable states that interesting developments will take place after Easter regarding Porcupine. A new company will be floated, called the Ontario Porcupine Goldfields Development Co., under the auspices of Bewick-Moreing & Co. The capital will be \$500,000, the whole of which will be offered at par.

The company will acquire 50 claims, covering 2,000 acres, the purchase price for which, with the plant, will be \$180,000.

Serious dealings have begun in the shares of the Northern Ontario Exploration Co., which have acquired a half share in the Timmins-McMartin group of 50 claims, and also own 44,000 shares of Hollinger stock.

The Consolidation Gold Fields Porcupine shares were dealt in yesterday in a small way at 1-1/4 to 1-3/8.

BOSTON AND NEW YORK UNDERWRITE THE GILLES

Investors in Copper Properties Become Interested in Prominent Porcupine Gold Claim.

It was announced yesterday that the underwriting for the Gilles Lake Mines, Limited, had all been arranged, the offering having been taken by prominent financial houses in New York and Boston. Those who have taken the same interest in the Gilles mine have hitherto been large investors in copper properties, and after careful advisement from their various agents they are satisfied that the Gilles will be one of the important mines of the camp.

The properties owned by the Gilles Lake Mines, Limited, adjoin the famous Miller-Middleton, owned by the Timmins syndicate, and also the Hollinger, the value of which has already been proved.

Shares in the Gilles are at present held above par, at a share of \$100, and the equity for stock is already well spread. The capital of the Gilles Co. is \$2,000,000, and 1,500,000 shares are left in the treasury.

A SPECULATIVE ORGY.
It was learned yesterday that the disruption in the prices of several Porcupine stocks was due to a speculative debauch of a Northern Ontario brokerage house. This firm tried the "get rich quick" proposition with numerous Toronto brokers, buying shares which they had no intention of taking up and trusting to the market to go up so that they could make money. Drafts were made against these purchases, but these were returned and the brokers to save themselves had no recourse but to throw the shares on the market. Foley-O'Brien and West Dome were the issues mostly dealt in by these speculators, and the aftermath was recorded in yesterday's market. The weakness in Porcupines the last few days is attributed to this knowledge, and now that the matter is ventilated the situation has been cleared up, and the way paved for a responsible and natural recovery in prices.

Porcupine Tisdale
This Company has:
120 acres in Tisdale, adjoining the claims, and near the Hollinger, 50 acres, Tisdale, near the Armstrong-McCibbon.
100 acres of Delco, cornering on the Timmins group.
These properties are owned outright and are being developed to carry on development work for a year.
600,000 shares are still in the treasury.
Camp buildings erected on the Delco property and the big vein stripped for about 300 feet--striking on this vein will be started this week.

Buy this stock at the market. We advised the purchase of Great Northern around ten cents. It has since advanced above twenty. We expect Porcupine-Tisdale to double its present price.

The Opportunity is Now

You must agree with us that for sixteen years we have on this page been advising you against buying stocks after they have had good advances. Don't give too much credence to what appears on the surface as weakness. We know the market and are confident higher prices are only a matter of time. Whether you are interested in Porcupine or Cobalt stocks you know you can always have a frank unprejudiced opinion for the asking.

UNUSUAL OPPORTUNITIES

The market for the Porcupine stocks will offer unusual opportunities for making profits. Porcupine is yet in its infancy, and during the constructive stage many stocks will be thrown over by those who do not know their intrinsic value. I have my own mine on the ground. I have a knowledge of all the good properties, and my clients can rely on the facts I supply. **PORCUPINE GOLD REEF**, under development, will make one of the camp's big mines. I recommend these shares while they are to be had cheap. Get my Porcupine Map free, and write for any information on any of the stocks now on the market.
