GERMANS ARE DRIVEN BACK

FRENCH COMPLETE CONQUEST OF MASSIF OF ST. THIERRY

Make of Rheims Salient Another Pocket Where Germans Will Find It Difficult to Make Exit.

With the French Army in France, Oct. 2.—General Berthelot's forces in the course of the night and this morning completed their conquest of St. Thierry massif, northwest of Rheims, occupying Foulion and taking the Fort of St. Thierry.

Further slight advances by both Gouraud and Berthelot in those regions will make of the Rheims salient another pocket where the Germans will find an exit with difficulty.

Desperate Defences. The Germans are expected to make a desperate defence in that sector in order to facilitate their retirement to a secondary position behind the Hindenburg line.

Taken by Assault. General Gouraud's men this morning burst thru a very deep line of wire defences and captured the Bois de Liry and took a formidable position by assault.

In the wooded valley of the Aisne east of Liry and northeast of Bouconville, which has been transformed into a series of centres of resistance, a hard struggle took place, ending in the occupation of the most important positions by General Gouraud's men, who at the same time took a great amount of booty.

ALLIED LEADERS HINT ANOTHER DEVELOPMENT

London, Oct. 2.—With the capture of St. Quentin, an enemy retirement on a fairly large scale is being contemplated, according to battlefield despatches received here this afternoon.

Military authorities hint that an "interesting development" is about to happen.

CHICAGO PACKERS EXPLAIN SOURCE OF ENEMY MEATS

Chicago, Oct. 2.—According to officials of the big packing companies, the tinned meats of American manufacture which the victorious allies have found in possession of the Germans are doubtless remnants of the booty captured by the Germans in the spring advance before Marshal Foch stopped them at the Marne. It is said that the blockade against Germany since the United States entered the war has become practically air-tight.

TURKEY MAKES FURTHER APPROACHES FOR PEACE

Financial Channels Used, and British War Cabinet is Considering Proposals.

London, Oct. 2.—Turkey has made further indirect approaches to the allies through financial channels which are being considered by the British war cabinet. The Standard says it learns on good authority. Important developments, the newspaper adds, are expected.

Progress Made By the French Is Set Out in Official Report

St. Quentin Completely Occupied and Nine Villages Taken in Successful Advance.

PARIS, Oct. 2.—Many towns and villages were carried today by the French troops on the various fronts, according to the war office announcement tonight. Especial progress was made north of the Vesle.

"The enemy has been ejected from St. Quentin, which we completely occupy. We hold Fambourg d'Isle.

"To the south we have advanced to Hancourt and are holding Moy.

"North of the Vesle River we captured Rency, Guyencourt, Bouffignereux, Villers-Franqueux and Cauroy and carried our lines to the border south of Cormicy and Loivre.

"In Champagne, in the course of the afternoon, we eased our positions southwest of Orfeuil and gained a footing on the heights south of Monthois."

CANADIANS GRADUALLY GAIN MASTERY IN HEAVY ASSAULT

Twenty-Four Thousand Fresh German Troops Fail to Hold Ground, Despite Furious Fighting.

At British Army Headquarters (Evening), Oct. 2.—Reuter's correspondent cables: Altho the fighting blazed up this morning with great intensity, later the infantry fighting increased along the Cambrai-St. Quentin front. We are busy engaged in mopping up and consolidating our gains.

The enemy is unquestionably beginning to feel the heavy losses sustained in war materials. He has for some time now employed liquid air as a substitute for high explosive.

The department of public information has received the following cable from the Canadian overseas military authorities:

Lieut.-Col. W. A. Bishop, V.C., D.S.O. (with bar), M.C., D.F.C., Canada's greatest fighting aviator, was today made a chevalier of the French Legion of Honor of the first class and awarded the Croix de Guerre with palm leaf for his distinguished services in the zone of the French armies.

AMERICANS HOLD OUT FOUR DAYS

Contingent That Was Surrounded by Germans Has Been Rescued.

British Headquarters in France, Oct. 2.—The contingent of Americans, who had been holding out since Sunday in a far advanced position between Cambrai and St. Quentin against greatly superior enemy numbers, have been rescued.

In our attack around Vendhuile yesterday we were able to fight thru and relieve this party, numbering some hundreds, who having taken up their position Sunday night, were surrounded by the Germans early Monday.

Notwithstanding that they were opposed by such superior numbers and only possessed the ammunition and rations which they themselves were carrying, the Americans made a magnificent resistance, and the ground was strewn with German dead.

BERTHELOT'S ARMY NOW ON THE AISNE CANAL

Progress of Allied Armies in Flanders is Continuing Unchecked.

Paris, Oct. 2.—General Berthelot's army this afternoon reached the Aisne Canal at several points. The Germans are retiring all along this front. The progress of allied arms in Flanders continues unchecked, notwithstanding the stiffening resistance of the Germans.

BULGARIAN STATEMENT

Sofia, Oct. 2.—King Ferdinand's speech to the Sobranie, announced that the national assembly would be convoked and that the Sobranie would be adjourned until Friday in order that a complete statement of Bulgaria's situation might be laid before the representatives of the nation.

Victory Looms Bright! Prepare by Saving Every Surplus Dollar

EVACUATION OF LILLE BEGUN BY GERMANS

Even Wheelbarrows and Baskets Commanded to be Taken Away.

Paris, Oct. 2.—The Matin announces that the Germans are evacuating Lille and that the commander there has requisitioned all means of transportation, even wheelbarrows and baskets, to take away the booty. The newspaper adds that the evacuation of the townspeople to Belgian towns near the German border is being pursued hastily.

GROUND TAKEN NEAR CAMBRAI

Australians Drive Germans From Positions Important for Future Operations.

With the British Army in France, Oct. 2.—The Australians south of Cambrai, in hard fighting, gained considerable ground today, but more important than the extent of territory is the fact that they took positions which would have been of much importance to the Germans for future operations.

Patrols have penetrated further into burning Cambrai. Generally speaking, the battle today has not been progressing with the same vigor as recently, inevitable pauses here and there serving to give the impression of a lack of speed in the movement.

The artillery has again been moved up all along the line, and is hammering away at the German rear in a continuous roar.

DEFEATS AID REFORM IN CENTRAL EMPIRES

Both Emperors Hasten to Conciliate Population With More Liberal Governments.

Washington, Oct. 2.—Signs are multiplying of the rapid weakening of the despotic control which the military elements in Germany and Austria imposed upon the civilian population. Since the military and consular are the cents quickly following one another in Berlin and Vienna the military officials are becoming convinced that imperial rulers have been forced to the conviction that, if they are to preserve their dynasties from destruction, they must yield to the growing demands of the civilian elements for the right of participation in the government during this crisis.

The military parties have retained their control only because of their asserted ability to secure a military decision that would confirm German supremacy over continental Europe and the British Isles.

Since the German armies are being defeated and driven into Germany, and the million confronted with the painful certainty of an invasion and contributive justice for the wrongs inflicted upon the French and Belgians, the influence of the Pan-Germans and military parties is waning and it is believed that the emperor officials have decided that they must turn to the civilian parties that have been demanding a voice in affairs.

MENACE TO OSTEND IS NOW INCREASED

Belgians and British Have Taken Important Town of Thourout.

With the British Army in France, Oct. 2.—Again there has been brisk fighting both in the regions north and south of Cambrai and in Flanders. The Belgians and British in the north have made progress in the direction of Thourout, and rumors have reached headquarters, but as yet they are unconfirmed, that this town has actually been reached.

Heavy mud resulting from the recent rainy weather has somewhat slowed up the movement, but in spite of the difficulties the Belgians and British have pushed their way forward bit by bit. The taking of Thourout would still further increase the menace to Ostend.

TURN DOWN AUSTRILIANS

Amsterdam, Oct. 2.—Czech-Slovak leaders have sharply rejected an offer made to them to enter an Austrian coalition government, and a Vienna despatch printed in The Frankfurt Gazette.

RETREAT ON WIDE FRONT ALONG LA BASSEE CANAL

Canadian and British Troops Close on Heels of Fleeing Enemy, With Canadians Holding St. Remy and High Ground Near Ramillies.

LONDON, Oct. 2.—The Germans are in retreat over a wide front north and south of La Bassee Canal, with the British closely following them, according to Field Marshal Haig's report from headquarters tonight.

The Germans have lost further ground to the British in the outskirts of Cambrai and northwest of that city, but northeast of St. Quentin the British, under a violent counter-attack, have been forced from the village of Sequehart, according to Field Marshal Haig's communication issued tonight.

The text of the communication follows: "This morning the enemy attacked strongly north-

east of St. Quentin with fresh troops from his reserves, and succeeded in pressing back our troops from the village of Sequehart, when his progress was stopped.

"Local fighting has taken place today north of Greuvot (south of Cambrai) and west of Cambrai, but without material change in the situation. As a result of their operations yesterday and last night in the neighborhood of Cambrai, Canadian troops now hold the suburb of Neuville St. Remy and the high ground west of Ramillies.

"Early this morning the enemy commenced to withdraw on a wide front south and north of La Bassee Canal. Our troops are following the withdrawal closely and have taken prisoners."

CANADIANS GOING ON; SO ARE OTHER TROOPS

Whole of Hindenburg System Below Bellcourt Tunnel is Now in British Hands.

British Headquarters in France, Oct. 2.—The whole of the Hindenburg system below the Bellcourt tunnel is now reported to be in British hands. Strong patrols are working cautiously into the tunnel and its many lateral galleries.

The Australians are exploiting their gains of yesterday. In the terse language of the only report thus far received they are "going on." So likewise are the Canadians and English forces between La Cotelet and the Vesle River.

PRUSSIAN LORDS PASS EQUAL DIRECT SUFFRAGE

Amsterdam, Oct. 2.—Berlin advices received here say that the Prussian upper house has rejected the motion to introduce suffrage based on vocations, and passed an equal direct suffrage measure in accordance with the government bill, with the addition of an extra vote for persons over fifty years of age.

GERMANS STIFFEN UP RESISTANCE TO ALLIES

Enemy Engages in Most Desperate Attempt to Hold Vital Positions.

London, Oct. 2.—The consensus of opinion among the correspondents is that the German resistance has stiffened during the past week by the American troops advancing between the Meuse and Arzonne Rivers shows 120 guns of all calibres, 750 trench mortars, 800 machine guns, 100 heavy tank guns, thousands of artillery shells and hundreds of thousands of rounds of small arm ammunition.

SEVEN THOUSAND TURKS TAKEN WITH DAMASCUS

All Allied Troops Except Guards Have Been Withdrawn From the City.

London, Oct. 2.—More than seven thousand Turks were taken prisoner when General Allenby's forces occupied Damascus, the war office announced tonight. The statement says: Troops of an Australian mounted division entered Damascus Monday night. At 6 a.m., Oct. 1, the city was occupied by the British forces and by a portion of the Arab army of King Hussein. Over 7000 prisoners were taken.

After its surrender, with the exception of necessary guards, all the allied troops were withdrawn from the city for the time being. The local authorities remain responsible for its administration.

PACIFISTS AT VIENNA

Washington, Oct. 2.—An official despatch from France today says the Austrian newspapers announce the arrival at Vienna of Count Tisza, Apponyi and Andrássy, leading Hungarian peace advocates, who have gone there in response to telegrams from Emperor Charles.

FIVE-MILE ADVANCE WILL SECURE OSTEND

London, Oct. 2.—The Germans are making a determined effort in Flanders, as everywhere else, to stop the onrush. They realize that if the allies push even five miles farther eastward on the Belgian front Ostend will become untenable, while an advance of ten miles would jeopardize the entire coast line.

SIXTEEN DEATHS IN BERLIN IN SEVENTEEN CHOLERA CASES

Amsterdam, Oct. 2.—On the first day of the outbreak of cholera in Berlin, according to reports received here, there were seventeen cases. Sixteen of these proved fatal.

CENTRAL CONTROL OF ALL RESOURCES

Allies Set Up Councils to Govern Economic Forces.

ORGANIZATION READY New System Will Prevent Duplication of Productive Effort.

Washington, Oct. 2.—The long-planned centralized control of all the economic forces of the nations fighting Germany is at last a fact.

It applies the principles of the unified military command to raw materials, manufactured products, shipping, finance, food and the export and import relations of the United States and the co-belligerents.

The plan was worked out by President Wilson's war cabinet and the allied nations.

Co-ordination of effort, in addition to military and naval activity, is built around the five inter-allied councils—war, shipping, munitions, food and finance. Under these special bodies completion of a common economic and industrial program is now being undertaken, principally in London and Paris, and limited to the following cases:

Where Principles Apply. Where two or more governments are interested in supplies which must be transported overseas or where several sources of supplies should be agreed on, together with the allotment and method of their distribution and utilization; or where there might without agreement be competition between governments in procuring supplies or a wasteful duplication of productive effort.

Commodity committees are to be subordinate to the inter-allied councils. At their heads will be experts. These will deal directly with commodities necessary to prosecute the war, including nitrates, tungsten, tin, iron, steel, hides, leather, rubber, wool.

President Wilson and the allied premiers will settle any differences that may arise between the inter-allied councils.

The first effect of this new policy has been the centring of food control in London.

SECOND GOLD SHIPMENT OBTAINED FROM RUSSIA

Amsterdam, Oct. 2.—The second shipment of gold from Russia to Germany has arrived at the German frontier, and has been taken over by an official of the Reichsbank, according to a Berlin despatch today.

Despatches on Sept. 11 reported the shipment of the first portion of the Russian war indemnity to Germany and its receipt by a Reichsbank representative at the German border line. It was stated in an agency message from Copenhagen that the shipment amounted to 250,000,000 rubles, one-half of which was in gold and the remainder in notes.

TWO THOUSAND TAKEN IN FRENCH ADVANCE

London, Oct. 2.—Two thousand prisoners have been taken by the French between the Vesle and the Aisne in their operations of the past two days. On the Belgian front, the Anglo-Belgian troops have been subjected to violent counter-attacks. Neither these nor the bad weather, however, have stopped the advance, although the combination has had the result of slowing down the allied progress.

BRITISH GAINS ENABLE TAKING OF ST. QUENTIN

With the British Army in France, Oct. 2.—British forces, breaking thru the German line on the Beaurivier-Wiancourt front and capturing both these villages together with Sequehart, created a salient which added materially in the capture of St. Quentin by the French.

The capture of Beaurivier cleared up the situation on the Gouy salient, to the north.

The British fourth army took these places, while the third army captured Crevecoeur and Rumilly, south of Cambrai, and the high ground east and north of these villages.

The Canadians had a hard day yesterday north of Cambrai, the Germans making a determined stand around the burning city.

SHIPBUILDING GAINS; LOSSES AT SEA DECLINE

London, Oct. 2.—The British admiralty announces that the tonnage of merchant vessels completed in the United Kingdom shipyards during September amounted to 144,722, which is 20,000 tons in excess of the figures for August, and has only twice been surpassed in any month of this year.

In the second quarter of 1917 the world's merchant shipping suffered a loss of 2,236,824 tons, but in the last three months for which figures are available, June, July and August, the total was 822,556 tons—a reduction of 67 per cent.

CHOLERA HITS VIENNA.

Madrid, Oct. 2.—Several cases of Asiatic cholera have been discovered in Vienna and deaths have occurred from this disease there, according to official news received here from the Austrian capital.

TO RECOGNIZE ARABS.

London, Oct. 2.—The allied governments have decided formally to recognize the belligerent status of the Arab forces fighting as auxiliaries with the allies against the common enemy in Palestine and Syria.

suburb of Neuville St. Remy and the high ground west of Ramillies. Their patrols are pushing further into Cambrai. In the region northeast of St. Quentin, a stronger Germanist than usual blew, and the British troops engaged fell back from Sequehart Village, but the enemy could advance no further. Local fighting of indeterminate character is proceeding on other portions of the Cambrai-St. Quentin battlefield. It is now generally east of the Hindenburg line.

After the capture of St. Quentin, the French pressed on into the eastern suburb, the Faubourg d'Isle, and swinging their right on these points as a pivot, they advanced to Hancourt and carried Moy. This represents about all the progress which they made eastward. Their progress to their old positions of last year. In the Champagne they attacked and gained a footing in the heights south of Monthois. They took about 3000 prisoners in yesterday's operations.

The five or six battles which began in France the other day have already resulted in as many important allied victories, and the operations are shortening the day. The Germans began a retirement the other day, but the rains and the mud encouraged them to delay and perhaps to countermand the orders for this operation, and the consequence has been the further reduction of their effectiveness at a rapid rate. This suits Marshal Foch, for it is best for the allies to have the enemy almost to exhaustion, and then give the German troops time to realize their fatigue. The allies in the fighting press the enemy almost to exhaustion, and then give the German troops time to realize their fatigue. British arms have had another day of excellent progress in the four-hundred-mile sweep from Damascus to Cambrai. In their march thru Syria, the British and Arabs entered the city, Damascus, at 3 o'clock yesterday morning, made prisoners of 7000 Turks, left the city to its own municipal control, and then resumed their march northward. The swift advance of General Allenby against the fragments of the Turks, left leaderless by the flight of their German commander to tremble and to feel like siding with the victors, so Turkey has made further indirect approaches to the allies and the British war cabinet is considering the offer. The Rabbi and the Cross

During the terrific fighting along the Yser a Rabbi stumbled upon a dying soldier—a Catholic. By signs the soldier made known his need for the Last Sacrament. But no Priest was near and the man was fast nearing the Valley of the Shadow.

The Rabbi (all honor to him) took up two small twigs, fastened them together, in the form of a Cross, and held it to the dying man's lips.

To Answer a Reasonable Query

Workers have been asked this query:

"Why in this fifth year of war are we only just hearing about Catholic Army Huts?"

The Answer is Simple:

"75% of the men I found using Catholic Army Huts were not Catholics."
—Bishop Fallon.

"If there were four times as many more Huts as there are there now, there would not be a sufficient number to adequately take care of the requirements of our soldiers."
—Lt.-Col. Noel Marshall.

Catholic Army Huts Are No New Thing

Catholic Army Huts were established early in the war. Money to keep them going was donated by Catholics in Great Britain, supplemented by a fund quietly raised among Catholics here.

As the war progressed more and more Huts have been needed. As the Huts have been used by all soldiers, regardless of creed or nationality, it is felt that all classes should be given an opportunity to contribute to their maintenance, especially now when the need is greater than ever.

That is the Reason for this, the First Catholic Appeal for Funds in Toronto

And that is why the whole Community of Toronto, irrespective of creed, has aligned itself for an enthusiastic and whole-hearted support of the campaign.

Huts Are Now Maintained at

Bramshott, Purfleet, Bexhill, Seaford, Witley, East Sandling, West Sandling, St. Martin's Plains (Shorncliffe), Gooden and Buxton in England, and at Le Treport, FÉtaples and Joinville in France.

In addition, Movable Chapels and Marquees are maintained with every Canadian Division.

Four Assembly Tents are with the Canadian Railway Troops. Tents are maintained at every Casualty Clearing Station and at two Canadian Stationary Hospitals.

Recreation Marquees are operated at the Canadian Corps' Reinforcement Camps and with No. 12 Infantry Brigade.

Two Welcome Clubs for ALL SOLDIERS are open Day and Night in London, accommodating 125 men.

Everything is THOROUGHLY ORGANIZED AND OFFICIALLY RECOGNIZED.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

Shaking of the German plum tree still continues to yield some good windfalls in their march into the low countries the Belgians have approached Thourout, and perhaps have even captured it, further prying the German hold from Ostend. The British on the left wing in Flanders are steadily converging on Menin. The French have inserted an army between the British and the Belgians for the purpose of feeding the gradually lengthening battline, for if the allies proceed with their enveloping movement they will stretch their lines for many a mile longer than these lines at present run. Further south in the Armentieres region the Germans have begun a retirement on a wide front on both sides of La Bassée Canal. The allied advance on the north flank had covered this sector into a salient too sharp for German holding. In the region of Cambrai and St. Quentin the battle has become stale. Foch had mainly designed this engagement for the holding of the Germans and the further decimation of their ranks, while his enveloping movement in Belgium obtained a good start. On the French front, St. Quentin now entirely belongs to the French, and from the Vesle they have pushed up to the Aisne River and are on the point of depriving the Germans of the heights from which they have bombarded Rheims for four years.

British arms have had another day of excellent progress in the four-hundred-mile sweep from Damascus to Cambrai. In their march thru Syria, the British and Arabs entered the city, Damascus, at 3 o'clock yesterday morning, made prisoners of 7000 Turks, left the city to its own municipal control, and then resumed their march northward. ALLIES OCCUPY POINTS UPON BANKS OF DWINA

British, French, Americans, Russians All Advance on Archangel Front.

Archangel, Oct. 2.—British, French, American and Russian troops today occupy villages on both banks of the Dwina River to a point 125 miles north of Koluta, in the Government of Vologda. They have advanced 75 miles in the past two weeks and they are now about 375 miles southeast of Archangel. The river is blocked further south by Bolshevik mines and barges which have been sunk in the channel. Up the Vage River, however, progress is unobstructed and the allied forces are occupying the important town of Erekursk. The Aurora Borealis is already flaming in the northern sky.

In their advance upon the Dwina the land forces have met with virtually no resistance since Sept. 21, when the Americans were subjected to a heavy machine gun fire for five hours at Selrako.

North of Berenskaya, which is near the confluence of the Dwina and Vaga rivers, villages had not been molested by the Bolsheviks in their flight from Archangel. They fled so fast that they did not stop anywhere until Moscow halted them at Berenskaya with an imperative demand to make a stand. Villages south of that point suffered heavily. There were executions and depredations committed, and when the allies arrived they were given a hearty welcome.

The Bolsheviks took from Archangel the best passenger boats, leaving the allies an odd collection of craft, which is doing splendid service against the faster vessels in command of the enemy.

BEYOND ST. QUENTIN, FRENCH GOING STRONG

Paris, Oct. 2.—The French troops have now passed beyond St. Quentin. Northeast, east and southeast of the town, according to the Havas Agency, they hold a line running along the Somme from Tronquoy to Rouvroy, and then along the St. Quentin-La Fere road to the River Oise at Venduill.

The towns of Menin and Roulers, railway junctions in Flanders, have been set on fire by the Germans in face of the advancing Belgian, British and French troops. French guns now control the railway line running from Ostend, thru Thourout and Roulers, to Courtrai.

British monitors are co-operating actively in bombarding the German lines on and near the coast.

NEW ADVANCES GAINED IN REGION OF RHEIMS

Paris, Oct. 2.—The French war office reports: "In St. Quentin lively fighting took place in the course of the night. The enemy, who was thrown back to the east bank of the canal, continues to resist with marked energy."

"Between the Aisne and the Vesle the French troops gained new advances west of Rheims. The French hold Poulillon and Thil and the southern outskirts of Villers-Franqueux. The mass of St. Thierry is now in the hands of the French. We also gained ground north of La Neuville, and carried our line to the southern outskirts of Betheny."

"In Champagne the night was without change."

DAMASCUS TAKEN BY GEN. ALLENBY

Chief City of Syria Passes Out of Turkish Possession.

London, Oct. 2.—Damascus, the capital of Syria, was occupied by General Allenby's forces on Tuesday morning, according to an official statement issued today by the British war office.

Damascus is the Turkish base in Syria and Palestine, and its reported fall probably means the end of all Turkish resistance to General Allenby in Palestine and Syria. The city, which dates back to the dawn of history, is the junction point of railroads leading to the Port of Beirut and Aleppo, 150 miles northeast.

Aleppo is the most important Turkish base in this region of Asia Minor, as it is a junction point of the railroads from Palestine and Mesopotamia.

Damascus is the capital of the Vilayet of Syria and has a population of about 150,000. It is one of the holy cities of the Mohammedans, and the Arabs regard it as one of the "four paradises on earth."

The capture of Damascus marks an advance of 120 miles by Gen. Allenby's forces since Sept. 20, the day he launched his victorious attack north of Jerusalem. In that time the British have captured more than 50,000 prisoners, destroyed at least three Turkish armies and driven the enemy from Palestine and a great part of Syria.

BRITISH DETACHMENTS MAKE CROSSING OF LYS

London, Oct. 2.—The statement regarding Belgian operations reads: "On Oct. 1 the operations in Flanders, under the command of the King of Belgium, developed favorably despite the resistance of the enemy. The energetic Belgian and French troops made new progress in the direction of Hoogbilde and Roulers. South of Roulers the British troops captured Ledeghem on the Roulers-Menin railway. British detachments crossed the Lys between Wervicq and Comines."

"British aerial squadrons bombarded Lichtervelde, causing a fire at the railway station. They also broke up several enemy convoys."

SERBIAN DISTURBANCES FOMENTED BY AUSTRIA

London, Oct. 2.—News has reached the Serbian army in Macedonia that revolts have broken out in Serbia and other regions where there are Serbians, Croats and Slovenes.

This announcement is made in a Serbian semi-official note dated Tuesday, which says the reports should be received with great reserve. "It is feared," the note says, "that the Austro-Hungarian Government purposely is arranging with the police authorities to excite the peaceful inhabitants and then, on the basis of such facts, confiscate their property and imprison them in camps. It is declared the camps are in a terrible state because of infectious diseases and dirt."

CORNER STONE LOST IN GERMAN FRONT

Quickness of British Manoeuvre Prevents Destruction of Cambrai.

Paris, Oct. 2.—St. Quentin is taken and the corner-stone of the Hindenburg system has fallen. The city is burning at several points, according to Premier Clemenceau, and French aviators have great difficulty in flying over the city because of the smoke rising from it.

Cambrai has been mined, but the British forces have fought around the town and thus have foiled the plans of the enemy. The Germans decided on Sept. 1 to burn Cambrai, and forced the civilian population to leave.

"Thanks to the prodigious and unrelenting efforts of the armies of Gen. Debeney and Gen. Rawlinson, under the general direction of Gen. Fayolle, that fine soldier who commands the group of armies in that sector, the capture of St. Quentin is a most resounding triumph. But it is not the only place where victory smiles upon the allied arms."

Belgian forces, strongly opposed, are making headway toward Roulers and Menin. The Germans are preparing to evacuate the Lille region. British armies around Cambrai are successfully fighting one of the fiercest battles of the war. Gen. Berthelot is driving the enemy back between Rheims and the Aisne, and Gen. Gouraud has reached Challerange, the important railroad centre at the western opening of Grand Pre gap.

St. Quentin's fall shakes the whole German system. Its effect will be widespread. This will be accentuated by the strong push that is being made in the upper Oise valley. The allies here are across the multiple waterway upon which the enemy so largely based his defences. Before them lies the open country, which is ideal for tanks.

RUMANIANS TO SPRING TO ARMS ONCE MORE

When Allied Troops Approach Danube, Country Will Throw Off Shackles.

Paris, Oct. 2.—"If the allies have succeeded in ending hostilities in Macedonia, it is to be hoped that we will also succeed in reaching an agreement which will bring about lasting peace among the Balkan nations," was a statement made to newspapermen last night by Take Jonescu, former minister of the interior of Rumania, who is visiting allied countries in the interests of his country.

"Rumania must get back the territory on the other side of the Danube now occupied by the Bulgarians," he continued. "It is indispensable to our economic life, and would in no wise be a Bulgarian capitulation. Bulgaria would have other advantages which would more than counterbalance the mere withdrawal of her armies from this territory."

"Allied troops will approach the Danube and the Rumanian army will take up the arms wrenched from it by the so-called peace of Bucharest. The handful of Germanophiles who sought to dishonor their country will scatter like chaff. The new Rumanian army will exceed in valor the old one. It is as a belligerent that I am speaking to you, and I am proud of it. Above all, there should be no peace until the allies enter Germany."

BRITISH TAKE TOWN.

With the British Armies in Flanders, Oct. 2.—Field Marshal Haig's forces today captured Roulehennacq and advanced for a distance of 3000 yards southeast of Roulers.

"Fresh as new, my dear—and I washed it myself"

"It's my old georgette—another tussle with the washer-woman and I believe it would have fallen to pieces. So, of course, as we must all make the old things do and save our money for Victory Bonds, I thought I'd wash it, myself, with Sunlight. Or rather—let Sunlight wash it, for there's no need of any rubbing—just soaping and rinsing. And see—isn't it just lovely? Fresh as new, isn't it? I'm delighted."

Sunlight Soap

The purity of Sunlight is such that it will not fade or discolor anything washable—it contains absolutely no fillers or adulterants—it is the most economical soap your money can buy. It's all soap.

LEVER BROTHERS LIMITED, TORONTO

COUNCIL MAKES GRANT FOR CATHOLIC HUTS

By Vote of Twelve to Six, an Appropriation of \$45,000 is Made.

A grant of \$45,000 was made by the city council yesterday to the Catholic huts campaign committee by a vote of 12 to 6.

Protests were read from Lansdowne and Metcalfe Lodges, I.O.O.F., against granting public money to any secret society at this time. All creeds were represented on the deputations which came to ask for the grant, and among the speakers were Lieut. Col. Dinick, Noel Marshall, M. J. Haney, Norman Sommerville and G. A. Warburton.

"I would like to know," asked Ald. Cowan, "if we are within our legal rights in granting money for sectarian purposes."

The city solicitor, "If it admitted this is for sectarian purposes? I understand not, and I think the grant is therefore legal."

Controller McBride: "This is not an application from the Knights of Columbus, but from representative citizens for aid for soldiers."

Ald. Plewman opposed granting the money, but in view of the forthcoming tag day and of the campaign now being waged, he wanted council to defer action for the present.

Ald. Beaman favored the grant, and Ald. Blackburn resented any intimation that he would be actuated by questions of religion. He was opposed to all grants of this nature, as his record showed, and would oppose the present application, too.

Ald. Ramsden: "Any man who voted for the other grants for patriotic purposes is in duty bound to vote for this application."

W. T. Kernahan, in answer to the mayor, said that municipalities all over the Dominion had or would contribute to the hut fund.

Ald. Honeford opposed the grant on principle, while Ald. McMillin favored it. Controller Maguire, Ald. Ball, Sykes, Graham, Birdair and Hillz all spoke for the grant.

How They Voted. The vote, which was upon the adoption of the board of control's report, was as follows: For the grant—Mayor Church, Controller O'Neill, Controller McBride, Ald. Beaman, Ald. Graham, Ald. Sykes, Ald. Beaman, Ald. McMillin, Ald. Birdair, Ald. Ball, Ald. Ramsden, Ald. Hillz—12.

Those against—Controller Robbins, Ald. Honeford, Ald. Blackburn, Ald. Plewman, Ald. Cowan, Ald. P. W. Johnston—6.

WORK ON TAYLOR'S HILL. Contractor Law has been delayed in his work of laying the crushed stone on the Don Mills road at Taylor's Hill, which has been cut down, on account of difficulty in securing teams. However, he has the promise of several today. He intends to first lay a bed of stone down the middle of the roadway so as to make the going easier for motorists and others. The road will not be closed to traffic during the progress of the work, which will take about three weeks to finish.

CITY ARCHITECT TALKS ON FIRE PREVENTION

City Architect Pearce addressed 75 members of the Kiwanis Club at the King Edward Hotel yesterday on fire prevention. In comparison with other countries Canada's fire losses are high, and these are largely results of carelessness. He explained in detail the many city bylaws and regulations, with a view to some progressive steps that might be taken in the future.

HELP NEEDED AT ONCE.

The University Women's Club are asking for assistance in the making of sphagnum dressings, a hurried call having come for 10,000. HOT CAMPAIGN OFF WITH GOOD DASH

Workers Are Unified and Returns Are Most Gratifying.

Reports from the captains and team workers in the Catholic hut campaign all show that never has there been such kindness of spirit and sympathy exhibited in any campaign as that manifested in the present appeal. The enthusiasm brought some of the workers to headquarters, 14 East King street, Thursday at 11 a.m., and throughout the day the crowds and buzz indicated that business continued brisk. At 9 p.m. the total amount that had been received was \$77,000.

At the noon luncheon 270 workers met, and reports of the morning showed that more than \$37,000 had been collected. A list of prominent commercial and professional life were represented, and enthusiasm waxed high as the returns were read by Colonel Dinick. The quality of the workers was referred to in a brief address by Archbishop McNeil. "We are playing for a better spirit of unity," he said. "The message will go out to the other provinces, which will open their eyes when they find that Toronto and Ontario are the only places where people would have to 'loosen up' if they would interpret the spirit of the boys at the front, where all fought shoulder to shoulder. An officer of the first contingent—a non-Catholic—came in with \$10. He said he would not be here were it not that a priest had saved his life."

John Firstbrook had a message well worth while. He said: "It is a great pleasure to have the opportunity to secure money for Catholic army huts. I think the result will be the unity of the whole country, and it will bless the whole Dominion."

"Friday will be 'Mopping Up Day.' In other words, a tag will be conducted by the boys for many whom the canvassers cannot reach to have opportunity to help the soldiers and share in the Community spirit."

Among the contributions yesterday was that of the Bank of Commerce for \$2500.

An Advertisement by Charles Dickens

CHARLES DICKENS is one of the world's great teachers. Here is what he has to say in one of his books:

"My other piece of advice, Copperfield," said Mr. Micawber, "you know, Annual income £20, annual expenditure £19.19.6—result, happiness. Annual income £20, annual expenditure £20.0.6—result misery. The blossom is blighted, the leaf is withered, the God of Day goes down upon the dreary scene, and—in short, you are forever floored. As I am."

The saving of a part of one's income was always a good policy.

Prudent men and women have always maintained a margin of saving.

But to-day we must go farther in our efforts to save than ever before.

To-day it is a matter of the gravest importance that each Canadian seek ways and means to economize by cutting down expenditures for unnecessary things, saving the money he spends on things he could do without, so that when the Nation needs to borrow money he will be in a position to do his full duty.

There is war-shortening work waiting for every dollar that can be saved.

If CHARLES DICKENS were writing to Canadians to-day he would probably give us advice to this effect:

"My other piece of advice, Canadians, you know. No matter what percentage of your annual income you have previously saved, your efforts to-day should be to save more. The advantage of so doing is threefold: By the practice of economy you conserve the material and labor which must be devoted to the grim task before us; you cultivate the priceless habit of thrift; you gather more and more money to lend to the Nation for the prosecution of the war to a quick and certain Victory."

THURSDAY MORNING, OCT. 3.

How Shall the End Be?

Trembling in the balance these days is the military decision in France and Belgium. There is scarcely a doubt what the result will be, but as we said a few days ago, there is nothing incompatible with a prolongation of the war in a great victory on the present lines.

A return to the small and independent states system which existed prior to the Prussian hegemony would probably satisfy the entire alliance, and it would be in line with some of the best international thought of the day.

It Was a Proper Vote.

It would have been most unfortunate for the public spirit of Canada and for the reputation of Toronto had not the city council voted the sum—a comparatively small one—requested by the association interested in the erection of the "Catholic huts" at the front.

Women's Fine Effort.

The Women's Century has issued a special number which may take rank with anything of the sort ever published. It celebrates not only the extension of the franchise to the other half of humankind, but the fifth anniversary of the founding of The Women's Century.

BIGGER SUGAR BEET CROP.

New York, Oct. 2.—The sugar beet crop of the United States for this year shows an estimated increase of 378,621 tons over that of 1917, but the general condition of the crop on August 1 was below that of the ten-year average, the federal food board announced here today.

STILL ALIEN ENEMIES.

Ottawa, Oct. 2.—Citizens of Bulgaria residing in Canada will still be regarded as alien enemies by both the Dominion police and the city police, and will continue to be regarded as such until some order is issued by the government classing them as otherwise.

A KNOCKING AT THE DOOR

Triumphant Autumn Gales

By William Henry Taylor, Author of "Canadian Seasons," etc.

On the gales of this Autumn triumphant there swells Thrilling notes now vibrating from Victory's Bells. And from centre to surface, the old trembling earth, Feels relief from the pain of a New Era's birth.

Now the old shapes are passing, like spectres they glide, And Destruction's fell besom sweeps tyrants aside; They are weighed in the balance, and headings they go, To a place long provided by demons below.

But the pen is feather, the voice is a sigh, And for four weary years we have seen victims die 'Neath the heel of the THING that has dared to profane All the Works and the Name of the God who mark'd Cain.

Yet our prayers and our faith may have strengthened the hands Of the Heroes of Action in those glorious bands, Who were born of the Spirit that never can die, Whilst the Great God of Battles guides them on High.

Do we dare to assert that the finger of God Is now upon our soldiers as His mighty rod? Yes, the Tables of Stone given Moses of yore Will be borne in the ark by our men evermore.

In this Autumn of Glory forget not the spell, When defeat and despair rang a funeral knell, For the world sacrificed of its heart's blood the best, On the Altar of Freedom, where sleeping they rest.

'Midst the throng of the heroes who hurl back the foe, It's bad form to compare, when each warrior's blow, Is for one and for all, and for children unborn, So all races of men may salute the New Morn.

At this turn of the tide there's a jubilant chord In the bulletins flashing bright sparks from the sword, Of fair laurelled France, and of Belgium brave, And their chivalrous Allies, now smiting to save. The Toronto World, October 3, 1918.

SUDBURY PROSECUTES A DAIRY COMPANY

Sudbury, Oct. 2.—A unique prosecution has been launched in the local police court by the chief constable, charging the Amalgamated Dairies of Sudbury with a contravention of the Canada Food Board regulations in charging 16 cents a quart for milk, alleging that the company is purchasing a large portion of its milk from farmers and others at 9 cents, and taking a spread of 7 cents a quart, whereas the food regulations permit a spread of only 5 cents.

INFLUENZA TIGHTENS GRIP ON MONTREAL

Montreal, Oct. 2.—With a total of 24 deaths from Spanish influenza and 745 cases from St. John's and Montreal barracks alone, it is evident that the epidemic is a reality. Reports received by General Wilson of the spread of the disease among the soldiers of this military district are: 10 deaths from St. John's, reported today; 23 deaths to date from St. John's; 596 cases altogether reported from St. John's; 13 new cases reported from St. John's today; 1 death in the Montreal barracks; 150 cases reported from Montreal barracks to date.

TO OBSERVE ARRIVAL

Ottawa, Oct. 2.—Canadian military headquarters in London has completed arrangements properly to commemorate Oct. 14 next, the fourth anniversary of the arrival of the first Canadian contingent in England on that date in 1914. The functions will include a commemorative service in the afternoon, followed by a dinner in the evening, when Lieut.-General Sir Richard Turner, V.C., will preside over a reunion of upwards of 600 Canadian officers, representing every department of activity in the Canadian overseas forces.

WITHDRAWAL ADMITTED.

Berlin, Oct. 2.—Parts of the German lines near St. Quentin, northwest of Rheims and west of the Argonne forest, yesterday were withdrawn to positions in the rear, says the official statement issued today by the German army headquarters staff.

SERBO-GRECIAN TERMS OF PEACE FOR BULGARS

Washington, Oct. 2.—Serbia and Greece today announced their peace demands on Bulgaria. They are: 1. Reparation for all damages in occupied territory.

BULGARIAN SOCIALISTS SUPPORT ARMISTICE

Paris, Oct. 2.—The unified Socialist deputies of the Bulgarian parliament have issued a declaration supporting energetically the proposition for an armistice and peace, says a Sofia despatch. They insist on a reasonable ending of the war by Bulgaria, and condemn anarchy of any description.

GERMANS AIM TO HOLD KRIEMHILD SYSTEM

Paris, Oct. 2.—The developments in the situation on the American front northwest of Verdun tends to confirm the opinion that it is the enemy's apparent intention to hold on to the Kriemhild-Steeling system of trenches running from Brioules to the Bois de Cuneil, thence south to Genesee, then south along the ridges in the vicinity of Exermont, crossing the Aire River, one kilometre north of Apremont. The American line broadly conforms to this, developing a situation similar to that after St. Mihiel, with a broad outpost zone.

INFLUENZA DECREASING IN THE POLISH CAMP

Niagara Camp, Oct. 2.—The fight against the Spanish influenza in the Polish camp is progressing favorably, and today the number of cases in hospital was down to 146, the lowest in a couple of weeks. There were only seven admissions yesterday, and the discharges numbered 32. There have been 14 deaths so far.

IDA AT THE POLICE INQUISITION

BY IDA L. WEBSTER.

The third week of the police investigation finds the assault and battery charges in the same class which the first day placed them. That is, there is absolutely no doubt but what they happened, but there is not a man on the force who is giving the offence, and we feel safe in saying that every officer has been called to the witness stand, and in some few cases they have been there more than once.

Citizens were hit, and hit hard in numbers of cases, and what is more they were hit by police officers, but at the same time the policemen were being struck by various citizens; so that from a perfectly human standpoint it was not of one side or a dozen of the other. But that does not mean that they were performing their duty in an official way, because they were not hit by them, but by other officers to tell them what to do, very naturally they were going to take vengeance on the man who had hit them, if they killed one-half the population in the attempt.

So far it has not been possible for the officers in authority to say that any man was at any particular point during the entire siege. Does not that prove most conclusively that the system of "carrying on" on the Toronto police force, it would be merely matter of minutes before every officer would be accounted for, and in a city as large as this one, it is simply what the ordinary citizen would expect would be the position.

With the passing of every hour in the police investigation it becomes more apparent that the police commissioners should not have been permitted to sit on their hands. They are the people who are guilty of whatever charges are being made, and surely it is not their place to judge their own members. If the authorities at Ottawa and those in the parliament buildings here are not sufficiently interested in the welfare of the citizens of Toronto, they should at least get a fair deal, then indeed it is high time for a change in governments, or at least in government officials.

THE WIFE

By JANE PHELPS

Kenyon Roberts and His Wife Call Upon Ruth and Brian.

CHAPTER LIII. That very night Ruth had her wish. Mr. and Mrs. Roberts called about eight o'clock. They were both delighted, as Ruth afterward said to Brian, and that she had not been mistaken in believing they would be pleased her immensely.

It was fortunate for Ruth that she formed Mrs. Roberts' acquaintance just at this time. It kept her from thinking too constantly of Mollie King, as almost immediately she and Clara Roberts planned to spend considerable time together. They would play bridge twice a week, once in Ruth's apartment, and once in that of Mrs. Roberts.

"I will make a rarebit or some little thing," Mrs. Roberts had flushed a bit as she spoke. "Kenyon is trying hard to work himself up, and we have to be most economical," she had explained. "So do we!" Ruth had rejoined. "But I'm doing housework, so I am doing something I love to do, and paying for the work." "Your husband must be awfully proud of you. I couldn't earn a penny to save my soul. But I love to cook and keep house. We couldn't afford this apartment if I didn't do every blessed thing except the washing. But it is necessary for a professional man to live in a good locality, and I can't afford the rent."

With the passing of every hour in the police investigation it becomes more apparent that the police commissioners should not have been permitted to sit on their hands. They are the people who are guilty of whatever charges are being made, and surely it is not their place to judge their own members. If the authorities at Ottawa and those in the parliament buildings here are not sufficiently interested in the welfare of the citizens of Toronto, they should at least get a fair deal, then indeed it is high time for a change in governments, or at least in government officials.

A Line of Cheer Each Day of the Year

By John Kendrick Bangs.

BLIND CYNICS.

The Cynic cries that "nothing's sure." That all of life is insecure— Poor blinded soul who cannot see The marvelous assuredly That day is full of golden light, That stars and dreams bewitch the night. That love is sweet as sties are blue, That faith is strong and hearts are true. And everywhere we seek we find Strong souls resolved to free their kind. And steeled to every sacrifice That Freedom over Wrong shall rise.

HURRIED FALLING BACK BEFORE FRENCH ATTACK

Paris, Oct. 2.—The armies of Generals Debut and Berthelot on the fronts east and west of Rheims continued to advance today against the Germans, who appeared to be falling back more hurriedly than at any time since Sept. 24. Gen. Berthelot's army is making good progress between the Vesle River and the Aisne Canal. The French troops have captured five or six villages, and their advance at some points has reached a depth of from five to six kilometers.

BIG SAVING IN FLOUR.

Ottawa, Oct. 2.—It is announced that conservation measures and voluntary saving in the home have reduced Canadian consumption of flour from 400,000 to 400,000 barrels per month, as compared with pre-war consumption. This means a saving at the rate of 2,400,000 barrels per year, or, counting the saving by lengthened extraction of milling, of 2,400,000 barrels per year. This is equivalent to a saving of nearly 12,000,000 bushels of wheat.

TWO GO TO GALLOWES.

Winnipeg, Oct. 2.—Frank Sullivan and Philip Johnson, sentenced to death for the murder of Constable Bernard Snowden, April 3 last, were hanged this morning at sunrise. The men went to the gallows without a tremor.

WE ARE PROVING IT CAN BE DONE

Men and women are daily discovering a most delightful beverage in the Imperial brew! They have found that, while meeting all legal requirements, a well-brewed hop and malt ale, lager or stout is pleasantly invigorating, stimulating and agreeable. Only sufficient alcohol is present to keep it from going flat.

It was thought at first that the delightful flavor of O'Keefe's beers, famous for over 60 years, could not be retained without a higher percentage of alcohol. We have proved it can be done. Every bottle of Imperial Ale, Lager or Stout is embodied evidence that we have actually produced brews just as delicious, just as sparkling, just as refreshing as the old-time beers, yet absolutely harmless and in every way ideal for family use.

Order a case from your grocer. At hotels, cafes or restaurants, ask for O'Keefe's. O'Keefe's also make the very finest Ginger Ales, all flavors. For sale at your grocer's.

Vancouver, B.C., Oct. 2.—President Frank Patrick of the Pacific Coast Hockey Association stated today that, so far, no plans had been made for the coming hockey season on the coast. "It is a little too early to discuss hockey," he said. "Until we have had a meeting, there is nothing to announce, and so far as offers of trades from the east are concerned, we will do nothing until we have official information."

New Irish Amateur Running Record

An Irish amateur running record for three miles is believed to have been made at Dublin on August 10, 1918, when F. J. Ryder, starting from scratch, won a handicap by 80 yards in 15 minutes 27 1/2 seconds. The Irish Amateur Athletic Association has no record for three miles, and it will be claimed for Ryder, unless bettered when the association resumes business after the war. Ryder won the three miles in 1915 in 15 minutes 48 seconds, which was the best Irish time up to his performance of August 10. ARTILLERYMEN NEXT. The 69th Battery will meet Ellerslie in the third round of the Ontario amateur championships on Saturday in Toronto.

Any German Weakening To Court Instant Disaster

London, Oct. 2.—The Daily Mail editorial says: "The Germans cannot withdraw any large force without incurring instant disaster in the west. The allies are everywhere in contact with them and at first sign of weakening we have generals who would go thru the German line. Nothing can stop such troops as the Devons, who died to a man, and the Canadian and Australian, who made the world ring with their glory. French, Americans and Belgians are of the same stuff. Fortifications are powerless against them, and the Huns know it well."

Two More Flanders Towns Taken in Belgian Attack

British Headquarters in Flanders, Oct. 2.—The Belgians today continued to work forward thru a sea of mud, and have taken Hoogde and Handzeem, northeast of Roulers. They are also closing in on Roulers.

One Child Burned to Death And Others Injured in Fire

Chatham, Oct. 2.—Six-year-old Clarence Lenson, son of Bolton, farmer, was burned to death in a fire which destroyed the home at Congession 11, Dawn Township, last night. Three other children were badly burned and it is feared one may die. How the fire started is not known.

WILL NOT BE TRIED. No Bill in Case of Policemen Who Shot Drifter

Victoria, B.C., Oct. 2.—Dan Campbell of Victoria, the police officer who shot and killed Albert Goodwin, the draft evader, while Goodwin was alleged to be resisting arrest near Cumberland some months ago, is not to stand trial on a charge of manslaughter, on which he was committed. The grand jury in the assize court this morning returned a no bill, and Campbell accordingly was discharged by Mr. Justice Murphy.

CHARGE MILK COMBINE. Chatham, Oct. 2.—The Chatham Mechanics and Workmen's Board of Trade have decided to oppose the raise in price of milk by the local dealers, and have requested the co-operation of the Canada Food Board.

BRIDGE BURNED NEAR CHATHAM. Chatham, Oct. 2.—Fire completely destroyed the Pere-Marquette Railway bridge at Ennets, a few miles from the city, late last night. A special bridge gang worked all night and erected a temporary structure so that traffic was not held up today. The cause of the fire is unknown. A bridge half a mile away was destroyed by fire three months ago.

AMERICANS TELL NEWS OF ARMISTICE TO FOE

American Headquarters in France, Oct. 2.—News of the Bulgarian armistice has been received with rejoicings by the troops, who shouted it across to the enemy lines, where the Huns were near enough. The change in the weather to cold and dry has made the roads again available for traffic. The enemy opposition continues, but there are indications that the fighting is of a covering character and that the enemy contemplates a withdrawal to a more distant line of defence.

RECONSTRUCTION PLANS OF GERMAN MINISTRIES

Amsterdam, Oct. 2.—At a sitting of the committee of the German Reichstag on Monday, Vice-Chancellor von Payer read a decree from the emperor announcing the resignation of Imperial Chancellor Von Hertling. He announced that the former chancellor had called a meeting of party leaders to discuss the situation. An indefinite adjournment was then taken by the committee. Plans are under consideration for the reorganization of both the Imperial German and Prussian ministries on the lines of a parliamentary system, according to articles nine and 21 of the constitution. Friedrich von Payer, the imperial vice-chancellor, to this effect.

ENVELOPMENT PROCEEDS IN WESTERN FLANDERS

Paris, Oct. 2.—A semi-official announcement, after confirming the news that all the communications between western Flanders and Lille have been cut, speaks of an enveloping movement in the north against Turcoigne, Doubaix and Lille becoming accentuated, and incidentally mentions that the French army under General Degeant is now operating in the vicinity of Roulers. Apparently it was sent north from its old positions on the left of General Mangin after the Belgian British break thru was definitely established.

Twenty German Patients Killed by German Shell

Woodstock, Ont., Oct. 2.—Gen. Pearson, aged 82, and Fred Ellis, two lifelong residents of Zorra, are reported dead today. Mr. Pearson had been living in the city for the past few years. He leaves a widow, three daughters and one son. Mr. Ellis is survived by his widow and five daughters.

GERMANY WANTS BACK COLONIES WITH PEACE

Dr. Solf Declares, Otherwise She Will Have Insufficient Raw Materials.

Amsterdam, Oct. 2.—Dr. Solf, German colonial secretary, lecturing before an audience in Munich, said the national importance of Germany regarding her colonies was unsurpassed by any other task. Substitutes for raw materials could not suffice for peace requirements. For wool alone Germany would have to keep fifty million sheep, which was practically impossible. The supply of raw materials was the weakest point in Germany's world economy. Hence the need for colonies. Dr. Solf agrees that Germany must have colonies to prevent her commercial isolation. He said the policy of the open door must be one of the most important demands at the conclusion of peace. Germany had no thought of militarizing. An indefinite desire to prevent the employment of colored men in Europe. The Imperial German Government adhered firmly to its demand for the return of its African and South Sea possessions, as well as fresh partition of Africa, so as to consolidate Germany's scattered possessions. The colonial secretary added that Belgium, Portugal and France possessed excessively large stretches of territory, but added that Germany did not want the lion's share.

IS AN ABSURDITY AND EXTRAVAGANCE

Montreal, Oct. 2.—The Montreal Gazette will comment very favorably on the government newspaper, which has just made its appearance, in an editorial that will be printed under tomorrow's date. The editorial is in part as follows: "The government has begun the publication of a weekly newspaper. This is coincident with, if not in response to, the appeal of the government's commissioner for the conservation of the medium of the daily newspapers, that no new newspapers be established. The thing is, of course, an absurdity and an extravagance. The government cannot hope to reach all the people, or even a majority of the people, except thru the medium of the daily newspapers. The government can hardly go into the business of publishing a newspaper for the purpose of covering the field indicated in the terms of the order-in-council. That can be done only, if at all, thru the combined circulation of the daily newspapers, and it is upon the daily newspapers that the government must rely."

PLAYS PICTURES AND MUSIC

"A Tailor-Made Man." Seats for the engagement of Cohan and Harris' scintillating musical success, "A Tailor-Made Man," will be placed on sale at the box office of the new Princess Theatre this morning. Richard Sterling plays the role of John Paul Hart, a presser in an tailor shop, and with ambition "to do the things that Napoleon left undone." The way he does them forms a composite picture of native pluck and perseverance. There will be the usual Wednesday and Saturday matinees. Second Week for "Over There." "Over There" the timely war play, which is being presented at the Grand Opera House, will be continued another week, so great has been the demand for seats for all the performances this week. Captain G. F. Campbell, the noted aviator, besides portraying one of the principal roles, gives a short talk between the acts and tells some of his experiences at the front, all being of a humorous nature. "Over There" is called the victory play, and, besides telling an interesting story of the war, is given scenic equipment that allows for a realistic reproduction of an airplane bringing down a zeppelin. The sale of seats for the second and last week is now open.

ENEMY WITHDRAWING UPON AMERICAN LEFT

With the American Army, North-west of Verdun, Oct. 2.—The enemy today appears to be withdrawing upon the American left. Broadly speaking, he is going in the direction of the juncture of the Brunhild and Kriemhild systems. In the Argonne forest, Americans made progress today. East of the forest he is operating north of Clerges and south of the road from Clerges to Esmermont. In this district there has been stiff fighting, local positions repeatedly changing hands until the Americans today established their supremacy. The excellence of the American aerial force is being demonstrated by a total bag since Sept. 26 of 100 hostile planes and 21 balloons. German efforts to penetrate or bend the line between the Meuse and the Aisne dwindled rapidly. One minor counter-attack, some outposts scrimmaging and a half-hearted bombardment characterized the enemy's activity.

WARDS IN ST. QUENTIN BREAK OUT IN FLAMES

With the French Army near St. Quentin, Oct. 2.—Entire sections of St. Quentin are in flames, and explosions are heard in the city continuing. Fighting continues north of the town, where the French have made progress. French have gained the tunnel of the St. Quentin Canal at Troquey, and continue to advance eastward. The city hall of St. Quentin appears to be intact, but it is believed to be mined.

FIREMEN AT GUELPH FORM ASSOCIATION

Guelph, Oct. 2.—A branch of the International Fire Fighters' Association has been organized at the Guelph fire hall, which will continue to be a becoming manner, who know the value of a cheery smile and snappy limbs. Big Crowd at Strand. Geraldine Farrer is drawing big crowds to the Strand Theatre in her great Goldwyn photodrama. The turn of the wheel which will continue to be shown at the Strand for the balance of this week. Nobody who can appreciate photoplay perfection should miss seeing this striking and splendid picture. Those two prime popular favorites, Francis X. Bushman and Beverly Bayne, will be seen at the Madison for the latter half of this week, starting with their latest Metro picture, "A Pair of Cupids."

CAUGHT WITH LIQUOR. Two Austrians Return to Belleville With Nine Cans in Valises.

Belleville, Oct. 2.—On Saturday last John Mudruk and Edmond Sheynay, Austrians, who are employed at Point Anne, received police permission to visit Montreal on a plea that a relative was seriously ill there. At an early hour this morning the two men, accompanied by a woman named Tozbek and a little boy, returned to this city and were met at the station by two police officers. Three valises were searched and revealed the large tin cans filled with liquor. At the police court they pleaded guilty and were fined \$200 and costs.

PLAYS PICTURES AND MUSIC

"A Tailor-Made Man." Seats for the engagement of Cohan and Harris' scintillating musical success, "A Tailor-Made Man," will be placed on sale at the box office of the new Princess Theatre this morning. Richard Sterling plays the role of John Paul Hart, a presser in an tailor shop, and with ambition "to do the things that Napoleon left undone." The way he does them forms a composite picture of native pluck and perseverance. There will be the usual Wednesday and Saturday matinees. Second Week for "Over There." "Over There" the timely war play, which is being presented at the Grand Opera House, will be continued another week, so great has been the demand for seats for all the performances this week. Captain G. F. Campbell, the noted aviator, besides portraying one of the principal roles, gives a short talk between the acts and tells some of his experiences at the front, all being of a humorous nature. "Over There" is called the victory play, and, besides telling an interesting story of the war, is given scenic equipment that allows for a realistic reproduction of an airplane bringing down a zeppelin. The sale of seats for the second and last week is now open.

ENEMY WITHDRAWING UPON AMERICAN LEFT

With the American Army, North-west of Verdun, Oct. 2.—The enemy today appears to be withdrawing upon the American left. Broadly speaking, he is going in the direction of the juncture of the Brunhild and Kriemhild systems. In the Argonne forest, Americans made progress today. East of the forest he is operating north of Clerges and south of the road from Clerges to Esmermont. In this district there has been stiff fighting, local positions repeatedly changing hands until the Americans today established their supremacy. The excellence of the American aerial force is being demonstrated by a total bag since Sept. 26 of 100 hostile planes and 21 balloons. German efforts to penetrate or bend the line between the Meuse and the Aisne dwindled rapidly. One minor counter-attack, some outposts scrimmaging and a half-hearted bombardment characterized the enemy's activity.

WARDS IN ST. QUENTIN BREAK OUT IN FLAMES

With the French Army near St. Quentin, Oct. 2.—Entire sections of St. Quentin are in flames, and explosions are heard in the city continuing. Fighting continues north of the town, where the French have made progress. French have gained the tunnel of the St. Quentin Canal at Troquey, and continue to advance eastward. The city hall of St. Quentin appears to be intact, but it is believed to be mined.

BLOODHOUND TO TRAIL MISSING CHILDREN

Further Search Yesterday Round Garson Mines Has Revealed No Trace of Them.

Sudbury, Oct. 2.—Searching parties have scoured the country for two nights and a day in the district surrounding Garson Mine in an endeavor to find two little boys, aged four and five years, children of a Finnish settler, who have been missing since Monday afternoon. Another searching party with a bloodhound will cover the ground again today. The children were out in the fields with their mother, who was digging potatoes on Monday afternoon, and the mother left the children in the field while she returned to the house to light the fire for the evening meal. She returned to the field in less than an hour and the children had disappeared. There is a good-sized clearing in the neighborhood, and the mystery is how the children strayed so far in the course of an hour. The country is very rugged except for the small clearings and has been the scene of several people being lost in recent years, no trace ever having been found. A bloodhound arrived from Preston, Ont., to take up the trail this morning.

Young Man! Are You a Simpson-Clothed Man or "Just an Ordinary Clothed Man?"

There is a difference. Just this, the former always presents a natty, dressed-up appearance---his clothes are in press. They hold their shape because of the sound, dependable material in every garment, and the honest, thorough workmanship that is stitched right into every seam and welt.

The Simpson-Clothed man chooses the products of the world's best Canadian and American makers---he chooses from stocks which are first carefully chosen by our clothing experts, who go into the world's markets with the personal tastes and requirements of men and young men of discrimination only.

If you for a moment imagine that it costs any more to be an out-of-the-ordinary-genteel-dressed man you will have all your doubts eradicated by making a comparison today---now!

Slip into the Men's Store (semi-private entrances) and let us show you some of the new Suits and Overcoats for this fall and coming winter.
