### MEN PECULIAR IN MATTER OF DRESS

Wear Winter Suits in Scorching Sun and Then Complain of the Heat.

TOO CONVENTIONAL

If They Would Be Cool in Warm Days, Let Them Imitate the Women.

Why don't men wear lighter clothes in summer than is at present their custom? With the exception of the overcoat, they are garbed in the middle of July pretty much the same as they are in mid-December. During the sweltering heat of the past few weeks men have gone to and from their work, whether that work be in the bank or in the ditch, seeming to the ordinary observer, pretty much the same as in the days of early spring.

The black cloth or tweed coat is common property. Every man over the age of 21 wears it, and it is not black the material of which it is made is so dark a grey or brown that the amount of heat conveyed in on one's back is pretty much the same as in the other. The light tweed suit is rare enough to be the exception, but even this does not give evidence of the sanest sort of clothing for Toronto's dog-days, which have been this season, and in certain other seasons, just as trying from humidity and an ever ascending mercury as may be found in the lands which lie within the tropics.

In the matter of dress men might take a leaf from the code adopted by women. As soon as old Sol begins to pour down his molten reminders, the girls and women send out a counter challenge. They garb themselves in clothes which are light, both in color and texture. For the most part white is used, white frocks, white skirts, white hosiery, white shoes—hats, gloves—everything of the same cool, clean, unabsorbing hue. So pronounced is the change from winter to summer wear that the "summer girl" is an altogether different creature to the temple-dame her sun-laden sister of the mid-winter period.

In countries recognized as tropical persons make just its summery appearance as do the women of the land. Linen suits are the choice par excellence. Or it may be duck or drill trousers and the light alpaca or lustre coat. White shoes are worn by everyone, and the wide Panama hat or helmet-shaped headgear is often furnished with a curtain-like scarf called a puggaree, which protects the neck and back of the wearer, almost as much as would an umbrella. The radical change which this form of dress would necessitate for all, perhaps scarcely feasible for all, on account of the laundry bills which would follow in its wake, but there is no doubt but that the adoption of light, loose, unlined coats, a lighter weight of trouser, white shoes and the soft sunned back collar, would be more general acceptance of straw hats in the street, who makes his home in the city during the months of the "good old summer-time."

### MORE TORONTO MEN IN CASUALTY LIST

Fourteen From the City Mentioned in Yesterday's Honor Roll.

THREE WERE KILLED

Three Others Reported Wounded and Eight Are Missing.

Yesterday's casualty list was larger than that of the previous day, containing the names of 14 Toronto men. Three were reported killed in action, three wounded and eight are reported missing and believed wounded.

Fte. J. E. Aspinwall, 18 Midland place, was killed in action on July 15. He was the eldest of a family of seven. He went overseas with the 38th Battalion and was drafted to a fighting unit of the second contingent.

Fte. Angus Martin, 64 Kippendavie avenue, has been reported killed in action. He enlisted with the 74th Battalion and had been in the trenches scarcely a month when he received his mortal wound. He was well known in sporting circles and was employed by The Toronto Saturday Night.

Fte. R. A. Willcock has been killed in action. He enlisted with the first contingent. He was a native of Scotland, being born there 17 years ago. A brother lives on Pan avenue.

### WHY SUFFER FROM HEAT IN THE CITY WHEN YOU CAN COOL OFF ON THE GREAT LAKES?

Take the Canadian Pacific Steamship Express from Toronto any Tuesday, Thursday or Saturday at 2.30 p.m. for Port McNicoll, where direct connection is made with either the "Assiniboia" or "Keewatin" for Sault Ste. Marie, Port Arthur and Port William.

Particulars from any Canadian Pacific ticket agent, or W. B. Howard, district passenger agent, Toronto.

**REMANDED FOR SENTENCE.** Alleged to have obtained naturalization papers by untruthfully stating that he had been a resident of Canada for three years, Nykyle Puslock was remanded for sentence when he appeared in the police court yesterday. Evidence showed that Puslock was an Austrian and had only been here two years.

### AMERICAN OFFICERS VISIT VALCARTIER

Make an Inspection of Canada's Method of Training Troops.

VISITORS PLEASED

Particularly Interested in American Legion and Its History

Captain Edwin Bower Hesser, brigade publicity director of the American Legion, returned to Toronto yesterday after a trip to Valcartier Camp, Quebec, where he welcomed half a dozen officers from the United States Military Training Camp, at Plattsburg, who came to make an inspection of Canada's method of training troops.

The visitors included Colonels Murray and Ketchum, and Majors Wells and Lawton, of the regular United States army. They were the guests of Brig.-Gen. Wilson, Col. McEwan and the headquarters staff at Valcartier.

Naturally, the American officers were interested in the American Legion and its history. They learned that the American Legion was composed exclusively of Americans (many of whom had served in the United States army and navy), who are fighting for Canada, because they firmly believe that it is the duty of every man to take part in the fight for civilization. Many Americans enlisted in the Canadian army at the outbreak of the war, but had to give Canadian residences. To remedy this condition,

### SPECIAL PROGRAM FOR ORANGE DELEGATES

Toronto Orangemen Will Turn Out En Masse Tonight at Scarborough Park.

It is expected that Toronto Orangemen and their families will turn out en masse to welcome the visiting grand lodge delegates at the official entertainment in Scarborough Park tonight.

Special programs will be rendered by the Toronto Symphony Band, augmented, and the Saxofour. The Tailors' Brotherhood and open air movies complete the bill. All kinds of carnival devices will be on sale, and Orange-remembered by the visitors and the public. Notwithstanding the intense heat upon last night, it was delightfully cool and pleasant at the park. Mothers and children seeking relief should shut up the house and go down to Scarborough Beach. Boating and bathing facilities, and cool, shady groves add to the many conveniences of this park.

Saturday will be American Legion day, with Matt and his band of New York as the principal attraction, and a canoe regatta, aquatic sports, wax films and other attractions, winding up with a grand carnival at night.

**RETURNED PROFITS ON CARTRIDGE CONTRACT**  
F. W. Baillie, Hamilton, Turns Over to Government Three Quarters of Million Dollars.  
F. W. Baillie, manager of the Canadian Cartridge Co., the man who handed over to the government a cold three quarters of a million dollars profits on a cartridge contract, refuses to say anything at all about it to the press.

**WANTED—WORKERS IN THE EMPIRE'S GRANARY.**  
Thousands of men will be required this year to harvest the western crop, which, from present indications, will be the biggest in the country's history. Now is the chance for every man, more especially those with farming experience, that are not at present, and who do not purpose carrying arms in defence of their country, to avail themselves of this opportunity to increase their earnings by working a few months at good wages.

Take advantage of the cheap rates and special excursion trains which will be run via Canadian Pacific from Toronto early in August. Date to be announced. Fare to Winnipeg \$12.00

**W. J. DOUGLAS,** Issuer of Licenses. Office, July 26th, 1916, 111 St. Toronto.

**VIOLATED LIQUOR LAW.** Charged with selling liquor to soldiers without a license, Frank Steinhilber was fined \$100 and costs for three months when he appeared in the police court yesterday.

THURSDAY MORNING

ALD. S. W. BRIDE MAY FIGHT IN S. W. TORONTO

Stated He Will Contest Seat as an Independent Conservative.

CHANCE FOR ANOTHER

Cabinet Not Anxious, But Liberals Confident—F. Armstrong Won't Run.

Heads of the Ontario Cabinet say there is no chance of a turnover in the coming election in South-west Toronto; Liberals, unanimously predict a win for their candidate, especially if Major Hunter will accept the nomination, while the Conservatives themselves seem to be somewhat divided in opinion.

Wards four and five held their pre-election meetings last night and the appointment of delegates came off smoothly without anybody launching into any criticism of the present government. After the six meeting the night previous, this was somewhat surprising, too. Ward four is conceded to be anti-prohibition.

It is certain that Fred Armstrong will not accept the Conservative nomination for the riding. Speaking to inaction for the riding. Speaking to the ward four meeting last night, he said he had no doubt about being elected at the coming nomination meeting if it was for that he wanted him to run because ward four always got what it went after. But he was not going to make up his mind just now. There were matters which might make it advisable for him to accept, and on the other hand there were considerations which might make it to the party's interests that he decline. He made it plain that if he runs it will be as an independent candidate.

A. H. Birmingham delivered an organization speech in which he called upon the south-west Toronto Conservatives to stand by the government. "Leave nothing to chance," he said. "It would be a crime if wards four, five and six should allow this seat to go by default to anybody but a Tory standard bearer."

At ward five there was no discussion or speech-making. The meeting merely appointed delegates to the Conservative convention and adjourned.

A "Red" scouting among the Conservative members themselves disclosed the fact that there are strong possibilities of an independent candidate taking the field.

"I only control one vote," one man said. "And I know how it will go. Mr. Hearst or any other man has no right to take away privileges from free born Canadians. If an independent candidate comes into the field he will be elected."

"We all may not agree with some of the government's policy," said another, "but I do not think there is any doubt but what the Conservatives in this riding will stand behind the government."

And still another said: "I'm waiting for that independent candidate to come out."

FIRE DAMAGED STABLES OF QUEEN ST. FIREHALL

Blaze Originated in Lane at Rear of Empire Clothing Company.

Fire which broke out in a lane at the rear of the Empire Clothing Company, 156, 158 and 160 John street, last night was responsible for \$350 damage to the Queen street fire hall stables, Queen and John streets, \$200 damage to the stock of the Empire Clothing Company and about \$100 loss to Victor Finstein.

The blaze originated among a number of packing cases and is believed to have been caused by a lighted torch thrown by boys. The cases were piled near the wall and the heat from the fire broke a window in the factory and singed the ends of a few pieces of cloth. The rest of the fire hall stables was damaged the most and a quantity of hay destroyed. Insurance covers a loss in each case.

SCORE'S TALK ON SUMMER CLOTHES.

The Scotch homespun is the most porous cloth manufactured, therefore it makes up in a very cool coat and trousers for the hot midsummer days.

With absolutely no lining and four out patch pockets, the wearer experiences summer comfort indeed. Either the Oxford or Cambridge gray are the most favored shades.

As a special price we offer a coat and trousers for \$20.00.

HUN NAVAL EXPLOIT TRULY MINOR AFFAIR

LONDON, July 26.—With reference to the German statement that a German submarine had torpedoed a British dreadnought off the Orkney Islands, July 20, the British admiralty stated that the actual facts were as follows: "A small auxiliary off the north of Scotland was attacked by an enemy submarine on the date mentioned. She was not hit."

CHARGED WITH THEFT.

Charged with stealing a number of brass gear fittings from the Berg Manufacturing Company, Bathurst and Niagara streets, Slicker Easternman, 12 Turner avenue, was arrested last night by Detective Taylor.

PLAYS, PICTURES AND MUSIC

GOOD BILL AT HIPPO.

De Wolfe Hopper, idol of theatre-goers the world over during the past two decades, will be featured at the Hippodrome next week in the five-part Triangle release, "Mr. Good, the Samaritan." In the supporting cast of capable stars is Miss Fay Tincher.

AT THE ALEXANDRA.

For the 14th week of their summer engagement at the Alexandra Theatre, Edwards H. Robins has obtained, at what is said to be the biggest royalty ever paid for the stock play in Toronto, the sensational police-detective play of mystery and thrills, "The Conspiracy," by Robert Baker and John Emerson.

HAL CRANE AT LOEW'S

The wonderful juvenile emotional star, Hal Crane, a boy of 22, will be seen as the star in a tense drama entitled "The Lash" at the Loew's at Yonge St. Theatre the coming week.

William Morrow and company offer a dainty little skit entitled "Along the Country Road" in which Morrow appears as a flippant traveling salesman who meets a simple country girl in front of her cottage.

Sally Fields, a big favorite in New York will bring to Toronto the latest New York song-hits, most of them absolutely new in this city.

Nelson Slaters, two charming little ladies who are making their first tour, will appear in a musical and singing production which will be treated to lovers of the artistic. Both sing well, one plays the violin and the other the piano. Other acts will be added, including another chapter of the popular "Iron Claw" serial.

THE STRAND.

An exceptionally fine bill will be presented at the Strand Theatre for today, and for the following week. It should not be forgotten that the Strand with its magnificent new stage setting, with its delightful effect of coolness is one of the pleasantest places in town in this sweltering weather. The bill for a "double header," Edmund Breese will be presented in "The Spell of the Yule," a picture-story of Robert W. Service's poem. This is a strong photo-drama with a powerful human appeal, and Edmund Breese has peculiarly suited him. The funny comedy, "Artie, the Millionaire Kid," will also be presented. Dorothy Kelly has the leading role in this, and fairly surpasses herself in ingenuity and charm.

MADISON THEATRE.

The "Salamander," a story of the longing of a happy and well placed country girl for the lights and life of the city, with the results of her desire to satisfy her longings, also compelled to leave her beautiful country estate, is shown at the Madison Theatre, starting this evening. An all star cast of unusual strength and exceptionally well chosen for their ability to act the parts they are peculiarly fitted for, gives us some acting that with the strong and thrilling plot of the play makes an exceptionally powerful production. The comedy feature and topical weekly have also been chosen with the usual discretion.

HANLAN'S POINT.

Mlle. Labelle and Dare Devi Hurley are giving their wonderful performance twice daily at Hanlan's Point, Canada's favorite summer resort. The feat is a dangerous one and the least miscalculation means a calamity. Of course, the protecting net is ever there, but then if Hurley falls to catch Mlle. Labelle when she is thrown from the flying automobile it is hard to say what will happen. Boats run every few minutes.

LIEUT. DINEEN "DOING WELL."

William Dineen has received a cable from his London agent that Lieut. Dineen had been wounded with a piece of shrapnel shell in the right shoulder and is doing well. His condition is not considered serious.

MEAL LOOKED GOOD TO BELATED SOLDIERS

One hundred men of the 186th Battalion, who were on their way to Kent County to share in the harvest for a month, arrived in Toronto yesterday a hour too late to catch their train. They reached the city at 4 o'clock in the morning and their train did not leave till 1:30 p.m. The majority of the men were without money and had not dined for some time. Prospects for the next meal were not very bright, but C. J. Kavanagh, C.P.R. superintendent of the Ontario division, ordered the men to be taken to a restaurant and given a meal.

TWENTY-EIGHT MEN JOINED YESTERDAY

Forestry and Construction Units Shared Honors for First Place.

RAISE POLISH PLATOON

Two Hundred and Thirty-Eighth Will Enlist Men of Polish Descent.

The same number of recruits were obtained yesterday as for the day previous, 28 being attested out of 50 who came up for examination. The number offering themselves was two greater than for the day before. The 238th and No. 1 Construction Battalion shared the honors for first place, each securing 28 recruits. The 76th Battery was second with four. The other units added the following numbers to their strength: 166th 3, 291st 1, 268th 2, 218th 2, 216th 1, 196th 1, and the 69th Battery 2.

The Army Service Corps require the following number of men and will receive them at the training depot as follows: Carpenters 4, teamsters 10, blacksmiths 4, saddlers 4, teamsters 75, bakers 10, office clerks, stenographers 10, butchers 3, storeroom clerks 6, loaders 6, cleaners 16, chauffeurs 36, fitters and turners 4.

Units Unity Work Toggery. An evidence of co-operation existing between the two York County units was shown yesterday when a draft of fifty men from the 220th Battalion, the York Rangers, went to the 127th. The 127th has been ordered to proceed overseas within a few days, and as the unit was slightly over strength, the officers of the 220th resolved to sacrifice their battalion in order that the sister unit might be at full strength. The sacrifice was no small one, especially at this time when recruiting is so difficult. It was interesting when the call for volunteers was made to see the enthusiasm shown by the men. Although the unit goes overseas very shortly, more than the required number of men offered to go and no difficulty was experienced in choosing the fifty men.

The 220th Battalion band, which is recognized as one of the finest military bands, is receiving many engagements. Yesterday the band accompanied the Orange Grand Lodge to Niagara by special request. The leader is Geo. Sainsbury and his assistant Sgt. Tunikow.

Bridge Superintendent Enlists. One of the latest recruits to join No. 1 Construction Battalion is Sergt. J. A. Hamilton, of the Dominion Construction Company, with which he held the position of bridge superintendent. Sergt. Hamilton is a valuable addition to the Construction Battalion, as his long experience in construction work will give him particular knowledge of the work done by this unit.

He built the Dixie and Whitty bridges and later completed a bridge at Mud Lake worth \$1,000,000. Prior to this he was employed by the G. T. & C.P.E., working from Port Arthur to Edmonton. He built the first bridge on the Grand Trunk Pacific at Gladstone, and was in Canada, twenty years at railroad construction.

The 238th Forestry Battalion will raise a platoon of soldiers of Polish birth, to be commanded by Sgt. Andrew Street. He is of high Polish birth, his grandfather having held the position of senator for the City of York. He has been in the city three years. He will take up his new work with the rank of sergeant.

A particularly fine opening has just been made for men to catch a place as non-commissioned officers with the 238th non-fighting Forestry Battalion, starting this evening. Of men to catch a place as non-commissioned officers with the 238th non-fighting Forestry Battalion, starting this evening. Of men to catch a place as non-commissioned officers with the 238th non-fighting Forestry Battalion, starting this evening.

The explanation for dividing the battalion up into six small companies, rather than the four of regular size, is in order that they may be spread around the various forests of England, for active lumbering operations, rather than be kept together as a battalion in any one district. The battalion have taken a full equipment of axes, steam engines, saw-mills and all other supplies required for forestry work.

BIG RECRUITING MEETING HELD AT CENTRE ISLAND

Under Joint Auspices of York Rangers, Canadian Buffs and Divisional Cyclists.

A large crowd attended a recruiting meeting held at Centre Island last night under the joint auspices of the 220th York Rangers Battalion, the 189th Canadian Buffs and the Divisional Cyclist Corps. Music was provided by the bugle bands of the former units and Capt. McEachren, of the Buffs, occupied the chair. Speeches were made by Miss Wiseman, Lieut.-Col. A. Fraser, Capt. T. R. Pickup, Capt. W. F. G. Frisby and Lieut. J. L. Lowry, while Miss Anns Rodding sang a number of solos.

No recruits were secured, but a number of names were made in as "possibles," and these will be followed up by the sergeants.

Warshaw and Constantinople. The Bible and Archdeacon Westcott, is the reason why England could not torpedo neutral vessels.

You men who like an occasional night-cap

Do You Realize That You Must Now Foresee Your Requirements?

You grasp the fact that after September 16th there will be no more stepping into a liquor shop and buying a bottle as you need it? Size up your requirements for the next year or more—and buy now.

Your sale is proving a more complete success than we expected. The goods are going fast and it is now essential that you ACT QUICKLY IF YOU WANT TO GET IN ON THIS OPPORTUNITY.

So rapidly are conditions changing, that it is difficult for us to quote definitely from day to day. But of one thing you may be sure—our prices on any brand is the lowest at which you can buy that brand. If you are quoted elsewhere a lower price on any line than the price given in this advertisement, come to us frankly and tell us—We promise you we will quote still lower.

You see, we must be the lowest; because, unlike most other firms affected, we are not going to open up in another Province.

We are going right out of business so far as Wines and Spirits are concerned. So we must get rid of our stock.

YOU DO NOT HAVE TO BUY A WHOLE CASE OF ANY ONE LINE

We will sell you an "assorted case"—made up in any way you choose—at the prices here quoted. If you doubt that our prices are lowest, just try to get a line like Mack's White Horse Scotch Whisky at as low as \$1.00 a bottle. That's our price—\$12.00 per case—for a brand you usually buy at \$15.00 a quart.

Then there's the Walker's Imperial Rye. Try buying it at anywhere as low as \$8.00 per case. That's our price.

These are just a few of the noteworthy reductions. Come and see us, for quotations on anything you may need, and that you do not see listed here.

BEAVER AND TIMISKAMING DOING PIONEER WORK

In Proving Existence of Values at Lower Contact Will Do Great Service.

OTHER MINES WATCHING

Beaver Has Deepest Shaft in the Whole of North Country—Timiskaming Still Sinking.

Probably at no time during the comparatively long life of the Cobalt camp has interest been so centered on one or two mines as at the present time.

By diamond drilling it was learned that the lower contact was at approximately 1670 feet from the surface.

PIKE LAKE GOLD MINES WILL REOPEN SHORTLY

SWASTIKA, July 26.—It is understood that the Pike Lake gold mine will shortly be reopened.

WEST DOME CON. IS MAKING HEADWAY

Dominion Drills Have Indicated Ten Millions in Ore on Property.

In the opinion of a large number of men interested in mining and who have been thru the north country recently one of the most promising of the coming gold mines in Porcupine is the West Dome Consolidated.

This property is situated west of the Big Dome and a considerable amount of diamond drilling has revealed the fact that the formations on the two properties are very much the same.

Another there is at present in the neighborhood of \$10,000,000 worth of ore in sight and this tremendous amount has been discovered in a few months' time.

OPHIR WORKING AGAIN

Silver Found in Big Vein on Gifford—Adanac Gives Promise.

The most active district in the whole of Cobalt as far as development is concerned is centered in southeast Coleman.

In the Porcupine Newray was a strong active feature on a reported strike of some importance on the property.

There is little news coming from the Rochester, but it is unofficially reported that a big ore body has been found.

MARK HARRIS ON MINES

Every listed stock has two values—intrinsic and market value. The intrinsic value is the real value, that is, it represents what the property could be sold at.

The market value is the price or quotation value and represents the figure that the stock can be bought or sold at.

Very often you will see stock selling at several times its intrinsic value and at other times you will find shares selling far below intrinsic value, all of which goes to show that the market price of a security is not a true barometer of its real value.

The successful investor always ascertains the true or intrinsic value of a mining stock before he makes a purchase and only in exceptional instances will he buy when he finds the market quotation above the intrinsic worth.

It is not always an easy matter to place an intrinsic value on a mining stock, as a new find such as a big vein of rich ore may change the intrinsic value over night.

It is far easier to fix the intrinsic value in a gold camp like Porcupine than it is in a silver district like Cobalt, because the ore in Porcupine is mostly low grade and a producing property with efficient management always endeavors to block out sufficient ore to insure a mill supply for several years and one can place a value on blocked out ore as easily as a manufacturer can take an inventory of raw material.

For instance, Hollinger, the greatest gold mine in this world, has more than 5,000,000 tons of ore valued at more than \$40,000,000 in sight, while the secretary of the company in his last yearly report estimated the ore above the 1400 foot level at over 10,000,000 tons valued at more than \$80,000,000.

The original capitalization of the Hollinger was \$3,000,000, but when it was recently merged with the Acme and Millerton, it was taken in on a \$12,000,000 basis.

The total value of the new Hollinger Consolidated is \$25,000,000, all of which was issued for properties with the exception of \$1,000,000, which was left in the treasury.

As the company has more than \$40,000,000 worth of ore in sight, it is easy to see that the intrinsic value of the \$5.00 shares is close to \$8.00, so that the present market quotation of \$7.50 is very near the intrinsic value of the mine.

Hollinger Consolidated is to pay dividends of 12 per cent, yearly on its \$25,000,000 capitalization, so a purchase of stock at \$7.50 a share would mean a return of 8 per cent.

The original Hollinger paid dividends of 52 per cent, yearly on a \$3,000,000 capitalization and as the \$5.00 shares were quoted at \$30.00, the return was about the same.

I do not expect to see the Hollinger Consolidated earn its full dividend until the big addition to its new mill is completed, for whereas it required only \$120,000 a month to pay the dividend on the old Hollinger, it takes just double that amount, or \$240,000 a month, to pay the full dividend on the Consolidation, and although the company has made arrangements to more than double the mill capacity, it will take time to effect this improvement.

In the meantime the dividend is safe, as the company has a big surplus to draw from and investors who hold this excellent security should not be frightened into selling, should some one show them a statement showing a deficit.

Hollinger Consolidated is intrinsically worth its present selling price and as a safe and permanent investment it is in a class by itself.

On the other hand, it would be a hard matter to figure the intrinsic value of Newray, because the company has no demonstrated ore values.

It has, however, plenty of assets and I have no doubt you will agree with me in saying it is worth more than 40 cents a share.

In the first place, look on the map and see where Newray is located. You will find it right in the Hollinger zone, where all the big producers are located. It is a well-known fact that all true fissure veins traverse northeast and southwest, and Newray is in a direct line northeast of Hollinger.

In addition to location, look at the acreage of Newray—320 acres—which is a remarkable acreage in the Porcupine district.

The original Hollinger had only 160 acres and by looking at the map you will see that Newray is larger than any of the producing properties.

In spite of this large acreage, Newray is capitalized at only \$1,000,000. You will realize that this is a small capitalization when you look at the figures of other properties.

For instance, McIntyre is capitalized at \$3,000,000, McIntyre Extension at \$2,500,000, Jupiter at \$2,000,000, Vipond at \$1,500,000, Schumacher at \$2,000,000, West Dome at \$3,000,000 and Porcupine Crown at \$2,000,000.

**HERE'S NEWS!** "Despite the reports of Furniture throughout the country being scarce," said our furniture buyer, "we have gathered a harvest of furniture values for this sale, the like of which we've never been able to offer before. Our only fear is they'll be appreciated too fast! This sale usually lasts a month—but, I think, with these values, the first week will see as much furniture sold as ordinarily moves out in the month."

This sounded like tall talk—until we went and looked at the furniture, with the sale prices attached. Then we were convinced; and that's all we ask of our customers—except to warn them that the best things will certainly go with a rush—so that if you want to make sure of anything mentioned here, come at 8.30 Thursday.
