ANOTHER NEW YORK TENEMENT HORROR

Crowded Building Holding One Hundred and Ninety-five Inmates Takes Fire at Night and Lives Are Lost.

FATHER AND CHILDREN PERISH

Inmates Take Fright and Huddle Like Sheep Around Fire Escape Which Had Not Been Lowered--Police Club Them Back and Many Lives Are Saved.

NEW YORK, Sept. 8.—While trying to save his two children, a son and a daughter, both under ten years of age, from a fire in a crowded tenement building in East 74th street early today, Antonio Coletto and both children were suffocated by the smoke. The body of the father was found lying in the hallway of the fifth floor with the children clung to his arms, where he had fallen in an effort to reach the window where the firemen were taking others down their ladders. Coletto had already helped to carry his invalid wife to the roof, where she escaped to an adjoining building. There were 14 Italian families, numbering 100 persons, in the building, and all were asleep when the fire broke out. It started in the basement and spread to the hallway of the first floor, cutting off all escape from the floors above. A policeman among the sleeping tenants, who then awakened down the building, those on the front became panic-stricken when they reached the first floor above the street, where the ladder reaching to the sidewalk had not been lowered. None had presence of mind sufficient to drop the ladder, and a policeman climbed to the lower platform of the fire escape and with his club drove back the frightened men, dropped the ladder and permitted the women to descend first. Michael Astary and wife, Mary and daughter Nova, were badly burned in a hurried flight from their rooms on the upper floor to the roof. In their haste the Astary family left three of their children in their rooms, and the firemen who went up on scaling ladders found the two boys and one little girl perished in a smoke-filled room from which they were unable to reach the fire escape. They were removed in safety and passed down the scaling ladders. At the height of the noise of screaming and shouting crowds the firemen found an Italian family sound asleep in their tenement, where the flames had not yet reached. The fire was quickly extinguished.

ENRAGED JAPANESE FILL TOKYO STREETS; MANY ARRESTS MADE

Serious Rioting Occurred on Wednesday--Rioters Burned Street Cars--Eight Hundred Arrests Made and Six People Killed--Tokio Rapidly Becoming as Bad as St. Petersburg--Comments of the Press.

TOKIO, Sept. 8.—Last night's disorders were not particularly serious. Thirteen cars and one railway truck were destroyed. Thirty persons were restrained during the clashes with the police and many others were slightly wounded by stones and the crushes of the crowds. The disturbances in the Kanda district of the city proved not to be serious. The crowd first threatened to burn the Russian cathedral but a sergeant of the guard cleverly prevailed upon them to desist by telling the crowd that if the cathedral were destroyed he and the guard would commit suicide. The crowd agreed not to touch the cathedral. There was considerable disorder and noise in the district but there was no destruction of property and no serious clashes between the crowd and police. Demonstrations against the metropolitan police headquarters continued until a late hour. Crowds swarmed around the jail and hooted and threatened. The newspapers generally assailed the police authorities for withdrawing street patrols and leaving the city unprotected. Soldiers are proving to be more effective than the police in handling the crowds. The soldiers are popular and the crowds generally obey their orders. Accompanying the ordinance declaring martial law is an urgency ordinance increasing the restrictions on the press and giving authority for the suspension of papers guilty of increasing the excitement and other breaches of order. Under this ordinance the government has suspended the publication of the Miyako, the Yurum and the Moku. The Tokyo municipality has passed a resolution denouncing the terms and favoring the abandonment of the peace treaty. The municipality had planned a mass meeting at Hibuya Park today, but on account of the rioting, it was cancelled. The rioting in the streets. TOKIO, Sept. 6, Wednesday, 9.30 p. m.—(Delayed in transmission).—The city was in a state of excitement and a feeling of uneasiness prevailed. Rioting broke out in the center of the city, the rioters filling the streets. The rioting was confined to the vicinity of the residence of Minister of Home Affairs Katsuno. A mob, again attempted to fire the structure, but were restrained by the guards. Considerable roughness and fighting followed, resulting in the destruction of the residence of the metropolitan police headquarters. They refrained from attacking on account of the presence of a strong police reserve. The passage of street cars through the crowded streets angered the people and they began attacking and destroying the cars. They drove off the crews and passengers and set fire to the cars. Ten large cars were speedily destroyed. Later an outbreak occurred in the Kanda district of the city, where a fire was started by a crowd of rioters. The rioters were directed towards the police, street patrol cars and the fire station. The withdrawal of the patrols has left the streets unguarded and has given license to such minor disorders. Up to tonight the number of arrests totalled 80. They are on charges generally of rioting and inciting riot. The rioters' association has resolved to defend all arrested from charges. The number of persons known to have been killed thus far is six.

SIX HUNDRED MEN MADE FROM RUINS

Widespread Destruction and Great Loss of Life From Earthquakes in Italy--Many Victims Sent to Sudden Death.

SEVERAL VILLAGES DESTROYED

Loss of Life May Reach One Thousand--Feared That One Hundred People Are Under the Ruins in One Village--Six Hundred Bodies Removed from Another.

CATANZARO, Calabria, Italy, Sept. 8.—A violent earthquake at 3.35 o'clock this morning caused serious loss of life and widespread destruction in Calabria. Towns of Calabria and Martirano were almost entirely destroyed. At Monte Leone di Calabria seven persons were killed outright, and many were injured by the collapse of the prison there. The Pizzo district is said to be almost entirely destroyed. Locally the shocks lasted eighteen seconds. The walls of the hospital here collapsed and some of the patients were injured. The inhabitants of this city fled panic-stricken from their houses. All the houses at Ste Fiacchi have been wrecked by the earthquake. It is feared that a hundred persons are buried in the ruins. The villages of Piscopio and Tripani are also destroyed. Troops are helping in the work of salvage. ROME, Sept. 8.—Light earthquake shocks are reported to have occurred at Castellamare, Naples and Florence. Grave news continues to arrive from Pizzo, Monte Leone di Calabria and Martirano, which have been almost destroyed. There are numerous victims. It was hoped that the district of Nicastro had escaped, but that also has been seriously affected. At Martirano all the buildings collapsed, including the barracks of the gendarmes. Six hundred men have thus far been taken from the ruins. There are other victims. At Ste Fiacchi all the houses have fallen and it is feared that a hundred people are under the ruins. The villages of Piscopio and Tripani are also destroyed. Troops are helping in the work of salvage. ROME, Sept. 8.—Light earthquake shocks are reported to have occurred at Castellamare, Naples and Florence.

THE CARLETON ELECTION CASE

Judge Barker Opened Court at Woodstock This Morning--Arguments of Counsel.

WOODSTOCK, N. B., Sept. 8.—(Special).—Justice Barker opened his court at the court house, Upper Woodstock, this morning at 10 o'clock in the election case against Hon. W. P. Jones as a member for Carleton. Attorney-General Pugsley and F. B. Carvell represented the respondent, and J. B. Connell, K.C., the petitioner, L. R. Simms, Fred Dennis and the attorney-at-law, Mr. Connell addressed the court and Attorney-General Pugsley replied. In reply to his honor Mr. Connell quoted several authorities to prove that the 6th section of the election act was not imperative but simply directory and that the sheriff could receive nominations after 12 o'clock. The substance of these decisions was that the people should have every opportunity to vote on the names of candidates and they should not be deprived of that right through any technicality. Attorney-General Pugsley replied that the authorities quoted did not bear on this case, as the former cases were where the act had been done, but in the case at issue the sheriff had not received Mr. Simms' papers, and no act had been committed. The law says the sheriff shall not receive nomination papers after 12 o'clock. Your Honor is asked by the counsel for the petitioner to place yourself in the place of the sheriff and to say whether you would, in such circumstances, receive the nomination papers after 12 o'clock? In the matter of the disappearance of the Bible, the sheriff and other officers had no part in the disappearance of the Bible and it was not their duty to have the Bible present if he knew that his papers had been stolen. He suggested that the copies of proof was that Mr. Simms' papers had been stolen. He suggested that the copies of proof was that Mr. Simms' papers had been stolen. EXTRA SUICIDE!

Street Railway Man Was Found Dead This Afternoon.

Word of a suicide in one of the cars in the I. C. R. yard has reached this city as the paper goes to press. The body was discovered in the closet of a second-class car on the Sussex express train which was standing on the tracks near the round house. It could not be learned what his name was, but he was an employee of a conductor in the St. John Railway Co. Coroner Roberts has been notified and Chief Clark is now at the scene of the tragedy. It is not known what prompted the rash act, but an investigation will be made at once by both the police and coroner. The street railway officials have sent a man down to see if they can identify him. Later. Further particulars of the tragedy in the I. C. R. yard have been received. The young man's name is said to be Manfred Golding, who lives at the Perth Hotel, Lindsaiton. He is about 20 years of age. The body was found in the toilet room by one of the car cleaners who was making his rounds. He tried the door of the closet which was found to be fastened. He then procured a ladder and got in through the window. When he had opened the window a man lay on the floor. Crouched on the floor of the box like room, was the body of a man, white on the floor at his side lay a deadly looking Colt's revolver. Clambering in through the window he was able to make a close examination of the man. He found that the man had shot himself through the head. He was attired in the uniform of a conductor on the St. John Railway Co. The official who made the discovery immediately gave the alarm, and word was sent to Coroner Roberts, who arrived shortly after.

DIPHTHERIA IN THE SOUTH END

Four cases of diphtheria have been reported to the board of health since yesterday, three of which are in the house of Michael O'Leary, on Britain street, and it is rumored that there are several other cases in the same locality. There is also a case in a house on Germain. No case for the outbreak has as yet been discovered. Two of the cases have been sent to the hospital. Physicians say that the type of the disease varies. Some cases are pretty bad, while others are very mild. According to scientific men, the disease is contracted very largely by contact. The board of health have been investigating the matter, but up to the present time no definite cause can be assigned. Some think the disease spread from one family by the intermingling of the children, and authorities say that this would not be improbable. This same district had a scourge of the disease last year, and the authorities should look very carefully into the matter. Veterans, having gone out with the second contingent, he was a son of Gilbert Golding of Wickham, a well known and respected farmer. He also leaves one brother at Wickham. Previous to engaging with the Street Railway Company, he was employed as a spare driver with the American Express. An inquest will be held by Coroner Roberts tonight.

DOES N. B. TELEPHONE CO. SEEK TO HAVE MONOPLY?

Said to be Trying to Keep Union Co. Out of Fredericton--American Sportsmen Arrive--The Papal Ablegate's Visit.

FREDERICTON, N. B., Sept. 8.—(Special).—Monsieur Sarette, papal ablegate, will arrive here by boat from St. John this afternoon, and will be the guest of Mr. Father Curney. This evening he will hold a public reception at the Presbytery. The Fredericton Brass Band has been engaged for the occasion. He will leave by the Gibbon train tomorrow for St. Basil, Malawaska. Non-resident sportsmen are beginning to arrive here en route to the hunting grounds of the Miramichi. Frank Trump, of Jersey Shore, Penn., came in by late train last night, and Arthur Robinson of New York arrived at noon today. A large number of others are expected early next week. The New Brunswick Telephone Company has applied to the city council for permission to use the city electric light poles on Government Lane. The company now have their wires strung on Western Union poles in that section of the city, and are about to make a change with the object, so it is said, of shutting out the Union Telephone Company, which is now constructing a line to the city from Woodstock.

THE TIMES NEW REPORTER.

AN INTERESTING SUIT. An interesting case will come before the courts at an early day, as a result of a paragraph in yesterday's Sun. That journal charged a lady with wearing a number six boot. This is a very serious charge to make against a lady, and it is held by eminent jurists that unless such a charge is supported by positive evidence and is made under circumstances of the gravest character, the culprit should be severely dealt with by the courts. In the present case the plaintiff's counsel denies the charge in toto, and will demand the proof, but only the Sun prove that the lady in question wears a number six boot, but it must tell how it got the information. AID TO HALIFAX. Newfoundland is angry because Prince Louis intends to stay only one day in St. John's. Foggy town, any way--Toronto News. The news makes the not uncommon mistake of confusing St. John's (N.B.) with St. John (N.S.). Halifax Echo. The fog does come around here from Halifax occasionally, but not the real Sambre article, which is too bold to be affected by the wind, and is with difficulty pierced by vessels. The federal public works department is considering plans for a fog-breaker, to pilot ocean vessels into Halifax, and tenders will be called for next week. The clamor for a new steamship berth is very absurd. The city fathers are already out of breath because of the speed with which they have progressed in this matter. They require at least six more. Besides, there is no mahogany piling on hand at present. ST. PETERSBURG, Sept. 8.—(Special). The Car has caught a Tartar. The outbreak of yellow fever in New Orleans and of cholera in Germany had led to the impression that the Emperor would have completely burned out after the Tartars had plundered it of everything valuable. Although shot down in masses by the artillery the Tartars were not deterred from their work of wrecking and looting. The necessary documents this morning and will be sworn in probably tomorrow. The salary attached to the position is \$300 a year. Merchants on Water street, between Princess street and Market square, are complaining about the disgraceful condition of the street. The mud heaps should be taken away. It was stated some time ago that the Tartars would be paved. SAVAGE FIGHTING AND GREAT SLAUGHTER Maddened Crowd Charges and Captures the Guns and Deluges Gunners With Burning Oil--Cossacks Driven Back--Hospital Wrecked. BAKU, Caucasus, Sept. 9.—Street fighting continued last night. The consulates, banks and government buildings are guarded by troops. The commander thereupon ordered the troops to fire. The first discharge of the three guns misdirected, the shells falling into the sea, but the second sent shells crashing into the hospital, where they exploded killing an immense number of men and wrecking the building. The maddened crowd charged the guns and captured them, after deluging the gunners with burning oil. The latter then fled. Cossacks and infantry reinforcements attempted to rescue the abandoned guns but were driven back by the suffocating smoke.

The C. P. R. ticket office here was burglarized a few nights ago, but the burglars failed to secure anything of value. The outer door was forced, and the office entered through the side door. The cash box was smashed and found empty. Since the safe was not being deemed secure, the agent here made a practice of taking all moneys, cheques, and valuable home with him every night. A caption attaches to a number of traps who have been lurking in town.

A large number of American sportsmen are expected here at the opening of the big game season. It is generally admitted that the best hunting grounds in the province are in the vicinity of Grand Falls. The numerous hunters on the Toibique scare the moose in this direction and here they find a forest range extending to the St. Lawrence. There are localities within ten miles of Grand Falls which have never been hunted. Sportsmen are, however, discovering the attractions of the Salmon River country. The fall, larger number than ever will hunt on Salmon River and Salmon branch.

Joe Walker and J. McMillin, who have been watching Donald Fraser & Son's camps during the summer, report that on several occasions a number of wolves visited the camps. Their howling at night could be distinctly heard. Undoubtedly wolves are returning in small numbers.

**DURHAM**

DURHAM, Me., Sept. 7.—Not one of the Shiloh children were in attendance at the Durham town schools, which opened Tuesday. Furthermore, it is learned from an authentic source that "Moses" Holland, ruler at Shiloh in the absence of "Eljah" Sandford, has issued orders that the Shiloh children shall not attend any school off Beulah Hill. Therefore, it would appear that Shiloh children will not be allowed to enjoy general education; an advance notice of the conditions, and will be instructed only in Bible study by teachers who employ Sandford's methods. This act, which defies the state school law, has created considerable talk in town today. The state superintendent of schools has been notified of the conditions, and will, it is understood, take immediate action to see that children at Shiloh attend school, as required by law.

DRUKEN LOGGER TERRORIZES SETTLEMENT FOR THREE DAYS

Joseph DeMars, Bad Man With a Gun, Shot up a British Columbian Hotel, Put a Bullet Through the Bartender and Made Citizens Lock Their Doors in Terror.

(Vancouver World, Sept. 1.) This is the story of how Joseph DeMars, a bad man, shut up the Waverly Hotel, at Shoal Bay, on Sunday night, put a bullet through the back of the bartender into his lungs, and terrorized the settlement for three days, during which time men sat up all night with loaded rifles across their knees guarding their women. It is also the story of the cowardice of ten men who left two women and several children to the mercy of a drunken maniac. Further, it is an authentic account of the various incidents which are not unlikely to have occurred in the case of the three British Columbian ladies who are spending the summer at Shoal Bay and who are now being taken home for the winter.

Joseph DeMars is a hand-logger of Phillips' Arm. On Sunday evening he arrived from Shoal Bay and went up to the Waverly Hotel. He was armed with a revolver and a Winchester rifle, and after fortifying himself with several drinks, proceeded to take charge of the bar. "Come up, you ---," he shouted, "come up, everybody, and drink with me." The ten men present in the bar declined the invitation, whereupon DeMars pulled out his revolver and forced them to accept his hospitality. The men lined up and drank. Then they drank again. DeMars pointed his revolver at them all at the same time. Ed Berger, one of the company, took advantage of a moment's distraction to make a move for the door. DeMars followed him and struck him over the head with the butt-end of the revolver, inflicting a nasty cut. Berger hurried his place at the bar, and for the time being there was no further attempt to break up the festive gathering.

The bartender, Thomas Dunbar, meanwhile, was going on with his work. DeMars engaged him in conversation for a moment, and then he turned around to his bottles, wistfully shot him through the back. Dunbar fell to the floor behind the bar and the other men broke wildly for the door, while DeMars discharged his revolver and ran in every direction, smashing windows, mirrors and furniture, and not ceasing until he had emptied both chambers and magazines. One bullet, passing clear through the wall, struck the head of a bed in an adjoining room in which Mr. and Mrs. John Ward were lying, terrified by the noise of firing and the crash of broken glass.

SLACK TIMES ON THE I. C. R.

Little Freight Moving and Special Men Are Earning Small Wages.

MONCTON, Sept. 7.—Railway men report business exceptionally quiet on the I. C. R. at the present time. Very little freight is moving and special men are making very poor time and consequently small wages. The Moncton yard has not been so free of traffic in transit for some time and the same state of things is reported to exist at Springhill. The falling off of traffic is materially felt on the northern division. The changed timetable next month is expected to loosen the work for train men still more, as a number of summer passenger trains will be cancelled. The Ocean Line will be taken off between Montreal and Halifax the 16th inst., and the Boston express, 2 and 4, will quit the Boston line. Up to the present the only summer trains cancelled are suburban expresses out of Montreal and the Pugh's train west of Springhill.

Rev. Mr. Whitestone, of East Milton, Mass., the new pastor of the First Baptist church, is expected here on Sunday to take charge. He will probably be formally welcomed and inducted some time next week.

Fred Lockhart, son of William Lockhart, I. C. R. trackman, arrived home today from New Mexico on a visit to his parents. Mr. Lockhart is a former I. C. R. boy and now holds the position of night chief dispatcher on the Santa Fe Railway at Raion. He was accompanied from Montreal by Lorne Lynch, a former Moncton boy, who is now established in business in Brandon, Man.

Rev. Father Savage, who has been ill ever since his arrival in Moncton to take up his new duties as pastor of St. Bernard's church, is able to be around again and is expected to soon be able to enter upon his pastoral work.

DORCHESTER NEWS

Dorchester, N. B., Sept. 7.—(Special)—The circuit court is still in session, but two trials having as yet been disposed of. In the case of King vs. Armstrong brothers the jury today rendered a verdict of guilty. It will be remembered that this was the case in which a lady passenger on a train from St. John to Sydney was robbed of her purse and pocketbook. The prisoners, who are ex-convicts, were known to be on said train and were known to be without money when they entered the train at Moncton. They were ordered off at Colborne's but then decided to pay. With these clues the I. C. R. police set to work, resulting in the apprehension and subsequent conviction of the fellows in question.

aged to burn the rope through and release himself. A number of men were in the bar discussing the affairs of the night before when DeMars suddenly appeared among them armed with a club. He promptly cleared the premises John Ward who had come so near being shot the night before, being the only man left. Threatening the old man with the club, DeMars made him give up the rifle and then demanded cartridges. Ward knew nothing about the cartridges, but DeMars said that that did not matter, and produced a number from his pocket, handing down to the water front, rifle in hand, he demanded a boat from its owner and started off for Phillips' Arm.

Meanwhile two men had gone to Val-des-Lacs to notify Constable Jones, while two others were on their way to Rock Bay with Dunbar, who was dangerously and probably fatally wounded. The night there was no sleep for anybody at Shoal Bay, for it was known that he might return at any minute. All night the men of the settlement mounted guard over their homes. Mr. Pritchard, whose wife and three children from England were spending the summer at Phillips' Arm, scarcely taking his rifle off his back for three nights.

On Tuesday DeMars returned to Shoal Bay, this time about apparently with some sense of the enormity of his position. He went to Postmaster Forrest and proposed to give him \$100, but as he was still carrying his rifle, Forrest got inside the office as quickly as possible and locked the door. Nothing was done to effect DeMars' arrest until Wednesday, when the Cassiar arrived, people meanwhile remaining in their homes with doors locked and windows barred.

GETS THE I. S. O.

Arthur Newberry, Assistant Provincial Secretary Treas.—Thrift Cases.

Charlottetown, P. E. I., Sept. 7.—(Special)—This afternoon in the executive council chamber of the provincial parliament Arthur Newberry, assistant provincial secretary-treasurer, was presented by Lieut. Governor McKinnon with the badge of the imperial service order. Mr. Newberry has been thirty-two years in the civil service, the greater part of that time as clerk of the executive council. The police tonight captured George Lawler, aged 22, and Joseph McKeever, aged 19, two young men of this city who were wanted for the past fortnight. They first stole a mare and wagon from Lawrence Morris, Charlottetown, and drove to the country, exchanged their wagon and swapped horses. The new arrival proving too slow they let him go and went to other. Last night they broke into A. D. Ross' store at Elton, helping themselves to what money was in the cash box to provisions, clothing, etc. Arriving this morning at Southport Ferry they left their car on the other side of the river and came to the city on foot. They were taken 20 miles from town.

McKeever served one term in the penitentiary and Lawler has also a bad record.

NAVIGATION RETURNS

Montreal, Sept. 7.—So far this season the navigation returns for the port of Montreal show a decline of ocean business compared with the previous year. Neither in the number of ocean vessels from the opening of navigation to September 1 nor in the amount of tonnage does 1905 equal the figures for the corresponding period of last year.

There is a decrease of ten vessels and of 26,081 tons. In 1905 the vessels numbered 834 and the tonnage totalled 1,222,207. This year the vessel numbered 524 with a tonnage of 1,190,228.

HE ATTACKED ORONHYATEKHA

Delegate A. W. Blouin, of Montreal, Makes Charges That Foresters' Supreme Chief Ranger Used Bad Judgment in Investments—The Other Side of the Story.

Montreal, Sept. 7.—(Special)—At the convention of the Independent Order of Foresters at Joliette, today, a sensation was caused by Delegate A. W. Blouin, of Montreal, who in a carefully prepared statement made an attack on the administration of Dr. Oronhyatekha, claiming that the supreme chief ranger had had investments with the funds of the order.

He reproved him particularly with the investments in the Union Trust and the tax imposed on the members for the orange at Desrochers. The Temple building at Toronto he also declared had cost the order \$834,100 and after having returned 75 per cent in 1900, 79 per cent in 1902, and 80 per cent in 1903 it gave today only 80c. on \$100. On the other hand the government cannot recognize today under the law a property of more than \$300,000. The Temple building while returning only one per cent per annum had cost the order more than \$900,000.

Delegate Blouin also declared that from Dec. 31, 1904, the supreme chief ranger had paid the deposits of \$87,743 in the general funds of the order with money taken from the mortuary fund. The I. O. F. Blouin also declared, had bought lands in the Northwest which it would to manage, who desired to settle in that part of the country, only to sell them at a profit. There were some Blouin said who compared the administration of the I. O. F. with that of the Equitable of New York, but he said that he made no reflection on the value and stability of the order, which was very strong, despite the conduct of Dr. Oronhyatekha, only if he had done well up to now that was no reason that he should not be asked if he could not do still better. It was for that reason that he wished to protest strongly against the administration of the supreme chief ranger, Dr. Oronhyatekha, who was apparently much chagrined at the attack, complained that he had not been given notice of Delegate Blouin's intention to bring such a matter up, but Blouin claiming to have given notice at a previous session.

The contract is over \$200,000. This does not include any thing but the machinery. The mill will have a capacity of 4,000 barrels a day and can be increased by 2,000. The president of the Kewanee Milling Company is John Mather, of Ottawa, who is the other party to the contract.

DROWNED IN MAINE

Ossipee, N. H., Sept. 7.—While shooting the falls in Ossipee river at Cedar Falls (Me.) this afternoon, Robert Jacobs, aged 21, of Detroit (Mich.), was drowned. Jacobs was spending his vacation at Camp Tabor, in Freedom, and with a companion was making a canoe trip from Freedom to Cornish. The two canoeists were shooting some of the falls on their way down the river, but did not intend to take the dam where they met with the accident. The swift current of the river, however, took up their frail craft and they went over the falls. Jacobs went down and did not appear again. His companion was saved.

"Well, sir, what can I do for you?" "I called sir, to see if you would give assent to my marriage to your daughter." "Assent? Not a cent, sir, not a cent. Good day."

HUMORS OF HISTORY---139

Matrimonial Differences. A.D. 1554. Mary, the daughter of Catherine, Henry VIII's first wife, succeeded to the throne in 1553. She was a Roman Catholic, and during her reign 288 persons were burned to death for their Protestantism. In 1554 she married Philip, Prince of Spain, he being eleven years her junior; their married life was the reverse of peaceful, Mary being bad tempered and jealous. They separated within a year of their marriage.

THAT TARTAR CHALLENGE

FREDERICTON, Sept. 7.—The Tartar baseball team has been practically disbanded for the season, and therefore is not in a position to enter upon a series of games with the St. John's for a hundred dollars a side. One of the members speaking to the Times correspondent this morning stated that had the St. John's been up to accept the challenge, they would have been accommodated, but it was too late now as the team had been disbanded for the season and most of the members had gone away.

YACHTING

Sir Ernest Cochrane of Dublin is to challenge for the America's Cup in the country. Secretary George A. Cornack of the New York Yacht Club states that the club has received no challenge and no intimation of a challenge before it would be acceptable to the New York Yacht Club. Sir Thomas Lipton is anxious to make another attempt to lift the cup, but is having trouble in finding a designer to turn out a boat for him. After the last series of races there was some bitterness between Pige and Sir Thomas, and Pige has declined to have anything more to do with the Irish baronet, who would do until some club issued a challenge. It has been an open secret for some time that the New York Yacht Club would rather not have to meet a boat owned by Sir Thomas Lipton, and so would put every obstacle in the way of accepting a challenge from him. There has also been a disposition in the club to have some other yachtsmen enter the list and it is said that if Sir Ernest Cochrane or any other British yachtsman would challenge through some recognized club the club would meet the challenger fairly, and that a match could easily be arranged under the new rules of some modification of them.

YACHTING

Have Gone to Sydney. The Balzer brothers, Elliot and George, well known local battery, left this morning for Sydney, where they will play with one of the teams in the Cape Breton League, in their capacities as pitcher and catcher. These two players have done splendid work this year in the Moncton League, and will doubtless make good in the Cape Breton outfit. Besides being a first-class battery, both the Balzers are hitters of the first water.—Moncton Transcript.

Caribou Beat Presque Isle. PRESQUE ISLE, Sept. 7.—The game of ball between Caribou and Presque Isle teams yesterday was one of the best of the season. Caribou winning in the eighth inning by bunting three hits. Both Upton and Thompson pitched a first-class game and the fielding of both teams was very fast and bordered on the professional. Scores by innings: Caribou . . . 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31 32 33 34 35 36 37 38 39 40 41 42 43 44 45 46 47 48 49 50 51 52 53 54 55 56 57 58 59 60 61 62 63 64 65 66 67 68 69 70 71 72 73 74 75 76 77 78 79 80 81 82 83 84 85 86 87 88 89 90 91 92 93 94 95 96 97 98 99 100
