CREW TAKEN OFF SAFELY IN BOATS

Steamer River Wye, From Swansea, Loses Bearings on Atlantic.

LOST IN FOG

Wireless Messages Send for Immediate Help to Save the Vessel.

(By Canadian Press.)

Halifax, Nov. 24.—The British steamer River Wye, from Swansea to Boston, lost her bearings in the dense fog off the Nova Scotia coast and piled up on Port Mouton Island, Queens county, at five o'clock this morning.

The crew was taken off safely and brought to the mainland in small boats that put off from the shore. The scene of the stranding is about ten miles from Liverpool and nearer the village of Port Mouton. Few particulars have been received, but it is believed the River Wye is not in a hopeless position.

Has Coal Cargo

She is a steamer of 2,258 tons and is believed to have a cargo of Welsh coal. She sailed from Swansea November 6. Wireless messages from the steamer sent out soon after stranding asked for immediate assistance, as it was feared the steamer was on the coast guard.

Goes to Assistance

Boston, Nov. 24.—A radio message received here today by the agents of the steamer River Wye said that she was ashore off the Nova Scotia coast and that a Canadian Government vessel was proceeding to her assistance. The vessel was due here tomorrow from Swansea, with 5,000 tons of Welsh coal. A message to the coast guard gave the location of the wreck as latitude 44 north, longitude 64-20 west, which would place her between Halifax and Cape Sable, and said the steamers Matrar and Ripple were going to her aid.

Sentence Will Be Announced Monday

Halifax, Nov. 24.—Robert Theakston, former city collector for Halifax, who was convicted of theft of some thirty thousand dollars from civic funds, is to appear in court Monday for sentence. He was to have been sentenced October 31 but medical evidence was produced by his counsel stating that the convicted man was in such a precarious state of health that to take him into court for sentence might result fatally.

Deceased lived in Westville and had a wife and family. An inquest will be held this afternoon.

IRISH FREE STATE LOAN IS A SUCCESS

Ten Million Pounds Is Assured By the Protestant Church in Ireland.

Dublin, Nov. 24.—The first loan floated by the Irish Free State raised entirely as a domestic loan has proved an unqualified success. The full ten million pounds was assured when such a conservative body as the Protestant church in Ireland subscribed a quarter of a million sterling to the loan.

No matter how much the average class of persons more conservative than the lead owning squires who rarely make a mistake with regard to investments of their funds the Anglican Church of Ireland is representative of the most conservative of elements.

Nothing would more readily induce the Protestant church to subscribe to the loan than the fact that the announcement made early in the campaign for subscriptions that the great firm of Guinness had subscribed and when the famous London brewers announced that they would take up three million pounds of the loan President Cosgrave had nothing to worry about.

Wire Briefs

Montevideo, Nov. 24.—Advice from Melo, Uruguay, say that a peace treaty has been signed between the revolutionary forces in the Brazilian province of Rio Grande, Do Sul and the State authorities.

Halifax, Nov. 24.—In the Supreme Court this morning decision was given in the case of H. A. Dickie, Truro, convicted on a charge in which a young girl was the plaintiff, an appeal being granted and a new trial ordered.

Whale on Bow of Ship Stops Speed

San Francisco, Nov. 24.—When officers of the navy transport Argonne found difficulty in keeping up speed off the coast of Lower California they discovered they were carrying a whale on the bow of the vessel. The ship had to be backed to get rid of the creature.

That was the story told by Lieutenant Commander L. W. Johnson, surgeon of the transport, when she arrived at Fort Mason yesterday from New York. The ship had rammed the whale and broken its back.

TWO LIBERALS TO SPEAK TONIGHT

Herbert Asquith and David Lloyd George to Address Electors at Paisley.

(By Canadian Press.)

London, Nov. 24.—The opportunity of having Herbert Asquith and David Lloyd George speak from the same platform for the first time since the great Liberal split falls to the electors in Mr. Asquith's Paisley district tonight, when the two champions of Liberalism stand side by side in the interests of the reunited party. The demand for tickets to the meeting has been unprecedented.

Mr. Asquith until yesterday, favored the possibility of a Liberalism in Paisley, but a Conservative candidate has now appeared in the person of Col. Shaw. Perhaps there may even be a four-cornered fight, as two Labor men have claimed the privilege of trying to out Mr. Asquith in his seat in the House of Commons. One of these is J. M. Biggar, whom the elder Liberal statesman defeated in the last election by only 216 votes in a total poll of 2,026.

The other Labor candidate, named Cormack, is being run by the local Socialists, but may withdraw. Mr. Asquith's entry has complicated the Liberal campaign, and the outcome cannot be foreseen.

Says Stowaway Causes Explosion

Marseille, Nov. 24.—Astowaway is said to have caused an explosion aboard the British steamer Otterburn just after the vessel left here for New York yesterday with a cargo of potatoes, corn and beans. Tugs from this port, towing the blazing steamer into the roadway where she burned to the water's edge.

The captain and four of the crew are known to have lost their lives, and eight persons were injured, seven of whom are believed to be seriously injured, as the number of stowaways in the Otterburn has not been determined.

Spanish Royalty Ends Rome Visit

Rome, Nov. 24.—King Alfonso and Queen Victoria of Spain ended their visit to Rome last night. With General Rivera, president of the Spanish military directors, they took a train at midnight for Florence.

King Victor Emmanuel and Queen Helena, the Prince of Piedmont and members of the Italian cabinet had the sovereigns farewell at the station.

Eight Injured In N. Y. Hotel Fire

New York, Nov. 24.—Inadequate water pressure last night was blamed for total destruction of the three upper floors of the Hotel Margaret, a Brooklyn landmark on Columbia Heights, while the rest of the building seemed likely to be razed by the flames which broke out in a sun parlor on the twelfth floor.

Eight persons were injured, seven of them firemen who practically fought the blaze from a narrow ledge surrounding the roof of the hotel.

AUTO DRIVER KILLED NEAR ST. STEPHEN

William Kelly, of Calais, Meets With a Fatal Accident.

TEAM SUBMERGED

Two Fire Alarms Rung in as Many Rush to the Pit.

(Special to Times-Star)

St. Stephen, Nov. 23.—William Kelly, of Calais, about 40 years of age, and unmarried, met with a fatal accident yesterday. Kelly was driving a double truck team for Chas. Cone and hauling gravel from the Calais pits, about four miles from St. Stephen on the Canadian side. He had gone after a load in the afternoon and while darkness came had not turned up.

Searching parties were sent out and finding the team at the pit half submerged with gravel which had caved in but there were no signs of Kelly. Both Calais and St. Stephen fire alarms were rung in and a large number went out to the pit where Kelly's body was completely buried. It is supposed that he had been buried for four or five hours.

LOYD GEORGE TO BE NEW PREMIER?

Conservatives Reported to Admit Cause is Hopeless in the Elections.

(British United Press.) London, Nov. 24.—On the eve of nominations which takes place on Monday all the newspapers and scores of political observers are in the field with predictions as to the result.

The majority of these courses are based largely on the personal predilections of the prophet but the British United Press has secured one estimate from a statesman high in the councils of his party which is somewhat fantastic in appearance is the considered thought of one of the shrewdest observers in England and a man who at the same time has been over a quarter of a century in politics, he declares that Conservatives realize that their position today is an impossible one and that they have been forced into the ranks of a revolution in the country's affairs.

The Conservatives, therefore, admit that victory is out of the question and they expect that after the polling the King will send for Lloyd George to form a new ministry while Mr. Asquith will become the new Lord Chancellor. Labor apparently does not want to succeed to office just now and has made a pact with a certain section of Liberals to support the Liberal party in order to prevent the return of the Conservatives.

Baby Is Tagged With Names of Cities Visited on Honeymoon of Parents

New York, Nov. 24.—Francisco, D'Sole of 114 Fourteenth avenue Newark, who described himself as professor of tailoring, holding the chair of pants pressing and button sewing in a Newark tailoring school, yesterday filed with the City Clerk three a birth certificate of his youngest son, born November 15. The name of the child is Francisco Washington Boston Stop Newark D'Sole.

The clerk at first refused to accept the certificate, but the father assured him that a joke was the last thing he ever thought of, so the certificate was filed. Prof. D'Sole explained that when he and his wife were married about a year ago they went on a honeymoon to Washington and Boston and stopped in Newark. A desire to perpetuate the memory of the trip inspired the baby's name, he said.

Prof. D'Sole told the City Clerk he has six other children by a first wife the eldest bearing the name of Tosca Aemata Eva. The child got the name because shortly after his birth the father saw the opera, read some Greek mythology and witnessed a test performance of "Uncle Tom's Cabin" in Hoboken. The other children are Anna Philomena, Orlando Kinaldo, Eleonora Ersilio Sarah, Ida Eleonora Ligia and Anthony.

SHOOT SELVES DEAD

Baron and Baroness Lay Dead Across Grave of Aviator Son.

Berry Au Bac, France, Nov. 24.—Baron and Baroness Emmanuel de Montigny, shot themselves dead yesterday on the grave of their aviator son Pierre, who was killed here in an air flight in 1915.

The couple attended, as was their custom, the anniversary mass in the parish church for the repose of their son's soul. They told the deputy mayor, with whom they were to lunch, that they were going to visit the grave, and when they failed to arrive at his home at the designated hour he went in search of them.

Baron and Baroness lay dead across the grave. There were bullets in the head of each and beside each body lay a small pistol.

Lady Astor Makes Election Appeal

Plymouth, Eng., Nov. 24.—Lady Astor in an election appeal issued yesterday declares that the Communists have joined her opponent in the race for her parliamentary seat and that she advocates the principle that a Labor Government should take over business. A capital levy such as her opponent seeks is described by Lady Astor as tax on thrift and on investments in factories, shops and stock in trade which would shatter credits and dislocate trade and cause fresh unemployment.

"Will you help me to fight Socialism?" asks Lady Astor in her appeal. "Your support will be appreciated, not merely on personal grounds but for the welfare of the country. This is the moment to look for points of agreement, not for minor points of difference."

CHANCELLOR ANNOUNCED ON MONDAY

German Ship of State Walks in Stormy Political Sea.

SHOW DOWN FAILS

National Dictator May be Given Greater Powers, is Report.

(By Carl D. Groat (British United Press.)

Berlin, Nov. 24.—The German ship of state walked rudely in a stormy political sea today as President Ebert resumed his deliberations with party leaders in the hope that somehow he will be able to find a workable combination for support of a cabinet.

The expected coup d'etat last night, following resignation of the government of Chancellor Gustav Stresemann, did not materialize. It was not believed that the new cabinet head would be announced before Monday and that the government would be entrusted to a right wing leader at that time.

It was anticipated that General Von Seeckt would retain his post as national dictator, possibly with stronger powers. Stresemann's resignation late yesterday came after he had failed to obtain support for his coalition cabinet, a result of strong opposition principally by Socialists.

The Chancellor demanded a "show down" on his policies, and a vote of misconfidence followed, 280 to 155.

BOMB EXPLOSIONS

Two Terrific Blasts Rattle Many Buildings in Downtown District of Philadelphia.

Philadelphia, Nov. 24.—Two terrific explosions in foreign consulates in the downtown district early today injured a score of people, damaged many houses and caused the southern section of the city into wild excitement. No one was seriously hurt, so far as the police could learn.

The first explosion occurred at the Spanish consulate on Pine street, about 1 1/2 miles from the center of the city. It was followed by a second explosion at the Italian Bank, Broad and Tasker streets, an hour later. The Italian consulate is located in the bank building and the bomb was placed on the door leading to the consulate's offices.

Both blasts shattered windows and shook houses within a wide range. The force of the explosion at the Spanish consulate was so great that many persons were hurled from their beds, some being cut and bruised by flying glass. The bomb, concealed in a wooden box, was found on the doorstep by Emilio De Motte, the consul, when he returned from the theatre. He placed it inside the hallway, but after retiring, he told the police, he had concluded that a passerby had left the bomb on the doorstep temporarily and might return for it. Without a thought of the deadly bomb concealed within a box, he got out of bed and replaced the box on the doorstep.

A few minutes after returning to his room the explosion occurred, tearing out the entire front of the building and wrecking the consul's room and the second floor. Mr. De Motte was badly shaken up.

Windows Shattered. Both blasts shattered windows and shook houses within a wide range. Drummondville, Que., Nov. 24.—Right Hon. Arthur Meighen, leader of the federal opposition, discussed the Halifax speech of Finance Minister Fielding at a meeting here last night. Mr. Meighen said the trouble with Mr. Fielding's speech was that it was not all according to fact.

MAY NOT DISCUSS TRAFFIC IN DRUGS

Ottawa, Nov. 23.—Unless American representatives to the smuggling conference which opens here Tuesday, raise the question of the narcotic drug traffic, it is not likely that it will be discussed, according to those in touch with arrangements for the party.

In Canada enforcement of the laws governing improper use of narcotic drugs lies with the federal, provincial and municipal authorities in charge of the administration of criminal justice.

FOR ST. JOHN'S BENEFIT.

The winter season, the season of long evenings, is at hand. That which the individual does for the general welfare must be done largely in leisure time. The business men of St. John are aware that this city has declined somewhat in population this year as a result of the lure of steady work and high wages in the United States. What can be done to keep more of our people profitably employed and keep them at home? The question is one for business men. What can be done to get larger returns from tourist traffic? The question is one for business men. There are other questions of moment which deserve the attention, not of a few business men, but the whole business community. Some years ago, when it was felt that a change in the form of civic government was needed, a large number of men, young and old, gave up for a winter season a great deal of time to the study of systems and the choice of one for St. John. Cannot the same degree of interest be aroused in the city's industrial and other problems during the coming winter? There are many young business men who hope to succeed in St. John. They have a stake in the city and will benefit from increased general activity and prosperity. There can be no difference of opinion among them regarding the need of greater industrial activity, and if they get together and give the matter earnest study, comparing notes and exchanging views, some definite results of a beneficial character would surely result. The rooms of the Board of Trade should have their lights burning a great deal, during the winter, with earnest citizens taking counsel regarding ways and means of making the city more prosperous. We have come through the depression better than many cities, but should not be content with that reflection.

AN INSPIRING EXAMPLE.

The Times-Star commends to the men of the Maritime Provinces the example set by Miss Rosamond Archibald, idealist and crusader. Her faith, her willingness to make a personal sacrifice and her devotion to the Maritime Provinces are surely an example that should commend itself to other citizens, in other fields, and encourage and inspire them to make a contribution along their own lines of effort to the general welfare. Miss Archibald believes in an English speech that is worthy of the English language and British traditions. She would have the language so taught that the student would be trained in correct speech without having his or hers twisted by comparisons between the correct and incorrect. She would have the instruction begin if possible as soon as the child begins to gather a vocabulary and give verbal expression to its thoughts. The rules of grammar would come later, but before that period arrived the pupil would be using correct English as a result of careful drill in its use. Miss Archibald has found its value. Nova Scotia has approved of the very simple and effective system. Ontario and the west have heard about it, and the news has gone to the United States. Miss Archibald has had offers that promised financial returns. She has, however, set out herself to convince the Maritime Provinces and Ontario that the headquarters of a movement destined to be recognized wherever English is spoken. The all-Canada campaign will be begun next year, and it will be another contribution by the Maritime Provinces for the benefit of the whole Dominion. Miss Archibald is loyal to her own part of the country, and having faith goes forward in a crusade that has no mercenary aspect. She wants the language, that has leaved tribute through the centuries upon every other language, so prized by all the people that they will resolve to give it correct expression. Yesterday St. John took this gifted woman to its heart. To crowd the imperial in the late afternoon to hear a woman speak in its midst a triumph, and the reception given Miss Archibald during her address and the demonstration of her method of teaching better English must have given her fresh courage to go on with her self-imposed task. With the skill of an inspired teacher, and with sustained eloquence, she developed her theme in such a manner as first to impress upon every mind the treasure we possess in our English tongue, and the reasons why it should never be lightly regarded. Possessed of that consciousness, every listener was alert and sympathetic while she went on to demonstrate her method of teaching, and thereafter to drive home a sense of the handicap ignorance of pure English is to many a man and woman who in other respects may excel.

Success to Miss Archibald, and may her example be an inspiration to any and all who may be able to make a contribution in any field of effort to the betterment or the fame of the Maritime Provinces.

Press Comment

REPATRIATION.

La Patrie applauds the Hon. Mr. Fernand's proposal for a Federal grant of \$10,000 monthly to be spent on the repatriation of French-Canadians who have emigrated to the New England States, and adds: "As regards the province of Quebec especially, no immigration could be better than the bringing back of French-Canadians to their native land, for they would be at once acclimated and assimilated, and, provided we avoid the errors of the past, they would remain here."

BABYLON AND HER DOCTORS.

(Vancouver Sun.) Ancient Babylonians, says a prominent archaeologist, used to pay their surgeons only one dollar for an operation, and fifty cents apiece for fixing fractures.

THE PERFECT SCHOOL.

Winnetka, a small town in Illinois, this autumn has announced that it has discovered the perfect school. Every child receives individual attention and takes up such studies as he is able to pursue. He does not pass from class to class at stated times, but stays with one subject until it is mastered and then takes up the next.

COMPARISONS IN TARIFFS.

(Toronto Globe.) As a matter of fact, the Baldwin tariff proposed before the House of Commons, Bright and Peel, but of later date, especially Gladstone. The tariff's budget, and the duty on the soap tax, reduced the duty on tea and removed the taxes from more than a hundred articles.

WANT TAXES ABOLISHED.

(Montreal Gazette.) At the recent meeting of the Ontario Associated Builders held in Hamilton, the Toronto board recommended the abolition of the present and the proposed taxes, and the special sales tax. It was held that the sales tax, as at present administered, was a burden on the consumer, and did not produce the revenue that it should. The personal income tax was also criticised on the grounds that it was "unduly onerous and complicated," especially the case of large incomes it practically resulted in confiscation. The stamp taxes were also criticised as being a source of annoyance and irritation.

POINTS OF AGREEMENT.

(New York Times.) The divergencies of view between France and the Allies keep to the fore in the dispatches of the past few days. For the time being, the considerations which still make strongly for agreement and co-operation have dropped out of sight. The chief of them are insistence that Germany be made to pay to the limit in order to make good as much as possible of the losses which she has caused. The right of France to ample security for the future, British and Italian and American opinion is just as resolute on these points as is French. Even in the terribly frank speech of General Smuts there was no failure to demand that due penalties be exacted from Germany and that everything reasonable and feasible be done to cause France to feel secure. Though the allied motives for sticking together and working together are still stronger than those pointing to a break, it is plain that there is danger of the latter. The peep only be heightened by indirect speeches designed to win applause from the House of Commons or the Chamber of Deputies, or to arouse and inflame popular sentiment. Precisely because France is in a strong position from which she cannot be driven the ought to be moderate and conciliatory. Knowing that he has a good case under the Versailles Treaty, M. Poincare should be induced by that very fact to avoid challenging and bitter language. It is eminently a time for all the statesmen concerned in the European turmoil—and our Government is increasingly concerned in it—to concentrate their thoughts upon the things where-in they are of one mind, rather than upon unhappy differences. It is not a question where sympathies lie. President Coolidge has not it is known, by his declaration of unwillingness to see the Hohenzollerns restored, that there is no hint of pro-Germanism in his desire for a European settlement. This can yet be had if the preponderance of arguments for united action be allowed due weight.

THE LAND OF LORNA DOONE. Where the winds sweep o'er the moorland, Where the mountains meet the sea, Where, in words of flaming splendor, Nature speaks to you and me; There the breath of romance lingers Sweeter than the flowers of June, O'er the hills and vales of Devon, In the land of Lorna Doone.

Where the gaily-leaping Lyn stream Dashes through its valley's gloom, Where the gorse in golden glory Lights the hills with radiant bloom; There, it seems, again she wanders, And beneath some waning moon Softly from the gathering shadows Comes a whisper, "Lorna Doone."

Falls the twilight haze on Exmoor, Fades the golden afternoon, Pure the breeze across the moorlands As the soul of Lorna Doone. And her voice's music lingers Like the nightingale's own tune, O'er the hills and vales of Devon, In the land of Lorna Doone.

IN LIGHTER VEIN Not So Bad. A motor car, driven by a girl, in trying to avoid a collision ran over a man. The girl rushed to his side. "Poor man!" she said, stooping over the victim. "Have you a wife?" "No," he groaned. "This is the worst thing that has yet happened to me."

Got the Toll-keeper's Goat. A Dutchman riding a little cart drawn by a goat was stopped at the bridge by the toll-keeper. "I got to pay toll!" said Hans. "Yes; five cents to cross the bridge." After an argument he paid the toll.

LUMBERMEN LOOK FOR WOODSMEN

Otherwise Labor Demand Slack—Winter Outlook Reported Good.

Employment conditions in St. John just now are not sufficiently satisfactory to warrant workers from outside places coming to the city as some have been doing of late. Many of the industries here are operating cautiously; most building operations have been completed and the winter port will not be in full swing for nearly a month.

The only real demand for men at the employment service office is from lumbermen. There are plenty of opportunities for those who care to go to the woods for the winter.

General business here is reported by the mercantile agencies as fair to good, but there is a surplus of labor in the city.

Many Enter Woods
Hundreds of men had gone to the woods along the upper St. John river and tributaries, said Harry McDonald, of Shediac, last evening at the Victoria Hotel. Mr. McDonald has been in the upper river country for nearly three weeks. He says that the outlook for general business in that section of the province for the winter and spring is good.

In the potato belt of Carleton, Victoria and Madawaska counties he found a more cheerful feeling, the price of tubers having risen to \$1.60 a bushel, although more or less uncertainty exists as to the future state of the markets.

The weather has been generally mild all the fall. This has favored the lumbering. The break condition of lumbering, Mr. McDonald thought, would be of great benefit to all classes of business.

Mr. McDonald is a first cousin of Hon. Senator J. A. McDonald, of Shediac. He leaves for home today.

There arrived this week in the province several squads of men from Maine who engaged to go to work in the lumber woods of New Brunswick for the winter. The men from across the border said that wages and conditions here exceeded those of Maine.

A dozen or more workmen have arrived from Portland, Me., where they were engaged in C. N. R. yard construction. Operations in the big Grand Trunk extension projects at that port are being wound up for the season.

Indigestion Gas On Stomach Pains After Meals

Many people suffer terribly from gas and pains in the stomach after every meal, and are kept in constant misery. For the past 44 years Burdock Blood Bitters has been bringing hope and joy to thousands suffering from various forms of stomach trouble, helping them to eat three square meals a day, helping them to eat anything they wish, without having to suffer for it after.

Mr. Fred Nielson, Moose Jaw, Sask., writes:—"All last summer I was troubled with stomach trouble and indigestion, and also gas on the stomach. I could not eat anything except some light food and even then I would be bothered with pains after each meal. I could not work a whole day without being done out. I had tried everything: doctors, medicines and pills, until I read about Burdock Blood Bitters. I have taken four bottles and it has nearly, if not completely, restored me to health again."

DEATHS
Thomas Graham
Very many will learn with deep regret of the death of Thomas Graham which occurred at his residence, 89 Hazen street, yesterday afternoon after a short illness. Mr. Graham was a man of sterling character who had been prominent in the business and church life of the city for many years and is esteemed by all who knew him. He had suffered from chest trouble during the last two months but his illness was

only considered serious in the last two days when pneumonia developed. Death came as a great shock to the community and sincere sympathy has been extended to the bereaved. Mr. Graham was of Scotch descent, a son of the late James and Jane Graham and was a life-long resident of St. John. For the last sixty years he was in the carriage business in the city and he was the senior member of the firm of Graham, Cunningham and Hayes, whose factory is on Peter street. For many years Mr. Graham was associated in business with Samuel Crozier. He had been an elder in St. Stephen's Presbyterian church for a number of years and at the time of his death was senior elder of Knox church. He always took an interest in the Sunday school of the church and was one of those most active in the work of the school. He was a member of St. Andrew's Society and was a member of the Seaman's Mission Association. Two daughters survive. They are Miss Margaret, who is a teacher in the city schools, and Miss Laura, who is secretary for the local office of the Dominion Archives. The funeral will take place on Sunday afternoon from Knox church at 2:30.

Home-made, but Has No Equal for Coughs
If you have a family supply of really dependable cough medicine, you are prepared, and save about 5¢.

If you have a severe cough or chest ailment accompanied with soreness, throat tickle, hoarseness, or difficult breathing, or if your child wails during the night with croup and you want quick relief try this reliable old home-made cough remedy. Any drug-gist can supply you with 2½ ounces of Pinex. Pour this into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes 16 ounces of really remarkable cough remedy. It tastes good, acts in spite of its low cost, it can be depended upon to stop quick and lasting relief. You can feel this take hold of a cough in a way that means business. It stops throat tickle and soothes and heals the irritated membrane that lines the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing. Pinex is a specific and certain concentrate compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds. There are many worthless imitations of this mixture. To avoid disappointment, ask for 2½ ounces of Pinex, with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

Widow Carries on Spirit of Poverty's Friend

MRS. JACOB A. RISS GIVES ADVICE FOR INTELLIGENT INVESTMENT OF HARD-EARNED INCOME

(By Marian Hale) New York.—The widow of the greatest friend the poor people of New York—and elsewhere—ever had is persisting in his ideas, but in a far different way. She is Mrs. Jacob A. Riss. For the last seven years Mrs. Riss has been manager of the woman's department of a New York bond and stock company, and has striven to keep many women from chancing all their savings on some doubtful enterprise. Now she is conducting a course in the principles of investment to women attending Columbia University.

MRS. JACOB A. RISS.

As financial adviser, Mrs. Riss hopes to help those poor people her husband had so long been befriending, to get them out of the rut of poverty and into a more independent life based on thrift and intelligent investment. They had known her husband, he who had held the title of "The Other Half Lives," and had held perfect faith in him. Now they know that same faith on his part was well placed, and they are glad that advice she passes on to you, recipient of many congratulations for her illuminating address.

"The first step toward the economic independence of women," she begins, "is a bank account. There's no amount too small to begin with. The smallest one will grow if you tend it regularly. As soon as you have accumulated one hundred dollars it doesn't need to be more—you are ready to make your money work for you."

"When you are ready to invest, get in touch with a thoroughly established house—your bank will usually suggest safe ones. Don't answer the most tempting advertisements or allow yourself to be influenced too much by the personality of a salesman. Look for sound judgment rather than personal attention."

"If you invest in real estate, be sure it is not based on inflated values. Fix in your mind the difference between stocks and bonds. A bond is really a convenient form of mortgage on property too large to be owned by an individual. When you buy a bond you have loaned money on security for which you are to receive interest and the full amount on a given date."

Don't answer the most tempting advertisements or allow yourself to be influenced too much by the personality of a salesman. Look for sound judgment rather than personal attention."

"No matter how prosperous a corporation is, it is well not to put all your money into it," she says. "Also throughout the country, so that if a slump hits industries in the east you have a chance of a boom on your western stock."

"These are factors to watch out for, she concludes: "Society, that is the prospects and standing of a company; yield, which includes the return on your money; appreciation, the prospect of gain in value; marketability, the ability to turn it into cash immediately and advantageously, if necessary, and diversification."

A bond is really a convenient form of mortgage on property too large to be owned by an individual. When you buy a bond you have loaned money on security for which you are to receive interest and the full amount on a given date."

"When a girl tells a man she likes him better than ever it is sign Christmas is coming."

Mrs. George Murray entertained at a delightful bridge of four tables at her residence, 61 Pitt street. Yellow and bronze mums were used in decoration on the tea table, where Mrs. George Nixon presided. She was assisted in serving by Miss Jean Nixon and Miss Marjorie MacIntyre. Mrs. Charles Miller, Mrs. William Robson and Mrs. Sidney Jones were the fortunate prize winners.

25 OPERATED ON AT TRAVELING CLINIC. When Dr. King inspected the schools of the parish in October, so many children were found in need of medical attention that the Women's Institute took the matter up with Hon. Dr. Roberts, Minister of Public Health. He responded at once to the appeal. R. F. Walton, health officer, with Miss Jones, R. N., president of the Institute, visited the parents of the schools at Brown's Flat, Central Greenwick, Oak Point, and arrangements were made for holding the clinic on Saturday, Nov. 17, in the I. O. F. Hall. Dr. T. E. Bishop, of St. John, Miss Campbell of the Health Centre, Miss Smith, health nurse at Sussex, Miss Belyea, Mrs. McAlister and Miss Jones comprised the staff at the clinic. Mr. Walton and Mr. Burpee Belyea were of the greatest assistance during the stay of the children in the hall. Twenty-four operations for adenoids and diseased tonsils were performed. The parents of the children are very grateful to all who helped. Too much praise cannot be given to Miss Jones, R. N., president of the Women's Institute for the way in which she organized the work.

PLANS FOR ORPHANAGE FUND DRIVE ARE FURTHER ADVANCED

Town Committees are Organized in Big \$250,000 Campaign.

A campaign to raise \$250,000 for the new building for the New Brunswick Protestant orphanage is being launched with much enthusiasm throughout all sections of the province at the present time and it is a significant fact that never has there been any campaign undertaken when there has been a more willing response of workers. Without a single exception up to the present time there has been immediate acceptance on the part of those who have been approached and asked to head up the workers and engage in enrolling volunteers. The need of the campaign is fully realized yet the Protestantism of the province have been somewhat surprised to learn of how far they have been remiss in caring for the helpless little ones of the community. They have been told for the first time that the Roman Catholics with a population of 170,000 have provided accommodation for 2,000 orphans while the Protestants with a population of 215,000 have only accommodation for 188, including the Wiggins orphanage. It is estimated that only a little over \$1.00 is required from every Protestant in the community to bring in the complete total. Organization for the campaign is to be thorough, brisk and enterprising. Judging by what has already been accomplished. A central committee in St. John is acting as the chief organizing body and sending out its leading members to address gatherings in local centres. The committees in charge in each locality are to be residents of that locality and many such committees have already been formed. E. A. Schofield is the chairman of the general committee and L. P. D. Tilley is the chairman of the executive committee. The treasurer is H. Usher Miller.

Grand Lodge of the Knights of Pythias and by the Grand Orange Lodge, both of which grand lodges have been generous supporters of the orphanage work. The work of the new building is going forward speedily. The architect,

Garnet W. Wilson, has prepared a very effective perspective drawing which shows the whole layout of the buildings which will be erected in the course of time, as the extension of the work is required and as funds will permit. The perspective layout shows the former Manchester residence in the foreground. This original building will be used as the administrative quarters and the new wing which is now being constructed will be slightly to the rear as is shown in the plan. A second wing will be undertaken later and in time a separate residence for the infants will be built in the front area of the property and a school house erected in the rear. These buildings are shown in the perspective plan as is also the barn of the Manchester residence. The barn was moved to the rear of the site shortly after it was purchased by the orphanage directors.

Brooks Ward Organizes. At a well attended meeting of workers of Brooks ward held in the Carleton Curling Club rink last evening with C. B. Lockhart presiding, organization for assisting in the drive for funds for the N. B. Protestant Orphanage was completed. Team captain and teams were selected as follows: Team No. 1, Elmer Ingraham, captain, F. S. A. McFarlane, G. E. Lee, R. H. Smith, H. C. King, J. W. Fillmore; team No. 2, Joseph Smith, captain, Lieut.-Col. N. P. McLeod, P. J. Legge, W. Macaulay, Oscar Ring, Walter Baginall; team No. 3, C. Kohn, captain, G. A. Fowler, A. F. Wright, H. T. Sheffield, W. H. Price, Leonard Adams; team No. 4, Leonard Wilson, captain, T. M. Murphy, A. Dodge, Charles Hare, J. Harry Robson, F. M. Stanley; team No. 5, Richard Lee, captain, W.

G. Haslam, W. Hamon, F. Perry, E. J. Puddy; team No. 6, C. Brennan, captain, J. S. Williamson, Fred Wilson, T. M. Barnes, C. H. V. Wright, R. J. Anderson.

SMUGGLING PARLEY IS TO BE SECRET

Washington, Nov. 23.—The conference scheduled for next week between representatives of the United States and Canada on the border liquor and smuggling problem will be formal and secret, it was said here today. The Canadian Government, it was explained, made such a suggestion to the United States through the state department and this Government agreed to the procedure. Discussion of the problems, which embrace the whole category of border smuggling and ship liquor questions, will begin at Ottawa Tuesday instead of Monday. Members of the United States Commission, headed by Assistant Secretary Moss of the treasury, therefore, will delay their departure from Washington until Sunday.

TIA JUANA, BETTING TOWN, IS BURNED

San Diego, Cal., Nov. 23.—Tia Juana, Mexico, a famous gambling town, just across the border from here, virtually was wiped out by fire late today, according to word received here. Hurried calls have been sent for ambulances from San Diego. Early reports mentioned no loss of life. SHOWS TALENT DECLAMATION. The recitation of Rudyard Kipling's poem, "The Explorer" which was given by Donald Rice at the mass meeting in the Imperial yesterday afternoon has called forth very many commendatory remarks. Donald Rice is the son of Rev. J. M. Rice, pastor of the Fairville Methodist church. He has just passed his fourteenth year and is already a High School pupil. Yesterday he made his first appearance on a public stage as a reciter and he won golden opinions. He has a remarkably clear voice, splendid enunciation and a genuine appreciation for dramatic The New Building.

The Poster-Judging Competition now being conducted in Canada for the benefit of the Veterans' Associations is one of the most fascinating of games. On the ticket-folder which donors of \$1.20 are presented with, sixteen of the most famous posters of BOVRIL are reproduced in colors.

Which are the 12 best, in order of merit, is what you must decide. The folder shows just what you must do and how to do it. It is an interesting trial of taste and judgment to class these posters in the order which popular fancy will endorse. It is a real game which can be played over and over again, and in which all the family can join and which will interest visitors, be they young or old. And just think of the possible reward? A Prize which is a real fortune—and you help an excellent cause. You can make as many trials as you like—for every donation of \$1.20 one ticket-folder is presented, thus \$12.00 secures 10 folders—though only one prize will be given to one person. Yours to Enjoy "Thank God for Tea! What did the world do without it—how did it exist? I am glad I was not born before Tea." This was the brilliant Sydney Smith in the early days of the nineteenth century, and countless thousands have echoed his sentiments since. But if Sydney Smith could so enthuse over Tea as it was then, what would he say of it to-day, when science in growing and art in blending have brought your cup of Tea to such a high point of perfection. And what would he think of to-day's cost? At an incomparably lower price you are able to enjoy Tea of a deliciousness Sydney Smith never knew or imagined. There are a few well-known makes of automobiles which every man or woman, about to buy a motor car, should see and carefully consider.

Of these, Studebaker is one.

The size of an automobile manufacturer's output may not in itself indicate quality. But it is certain that those companies which produce one hundred thousand cars or more per year could not do so unless their cars were satisfactory.

During the first nine months of 1923 Studebaker produced 124,155 cars.

The lowest priced automobile is not always the cheapest. A saving of \$100 in the purchase of an automobile may be wiped out by one repair bill.

Nor is outward appearance an assurance of service. You can't ride on the paint!

Viewed from every angle, the 1924 Studebaker cars measure up to the qualifications demanded by the careful buyer. In fairness to yourself, we believe that you should see and consider Studebaker cars before making a decision.

COMPENSATION BOARD WILL APPEAL TO OTTAWA IN BATHURST CASE

Imperial Packed to Hear Speaker on Praiseworthy Subject.

J. A. Sinclair, chairman of the Workmen's Compensation Board, said last evening that the board would carry its case against the Bathurst Company, Ltd., to the Supreme Court of Canada. The hearing in Ottawa would come up probably in January.

The judgment, which was read by Sir Douglas Hason, Chief Justice, was prepared by Mr. Justice Chandler, who sat with the appeal division in hearing the case, which was an appeal from the judgment of Mr. Justice Girman sitting in the Chancery Court. Sir Douglas concurred in the judgment, and, after reading it, declared the appeal was lost. Mr. Justice White dissented.

The company declined to make an estimate as required by the act, and they contended that since they had not submitted an estimate to the board the effect was to remove them from being an industry under Part 2 of the act, and would not be liable to an assessment by the Workmen's Compensation Board but would be liable to the ordinary law of negligence in case of accident.

The compensation board, claiming to the contrary, made their assessment and brought action to enforce payment.

The ruling of the appeal court in the case will be of widespread interest to labor employers generally, the lumber interests in particular having recently voiced their protest against what they contended were the arbitrary assessments permitted under the act.

Question of Interpretation.

The court finds that the respondent company had no opportunity of being heard before the board when the assessment was made and that they had a right to be heard before a judge of chambers; and also finds that under the circumstances of the case they had no jurisdiction over the respondent company.

The question mainly was over an interpretation of the act, principally over sections 57 and 61. The court found that these sections were consistent, if not irreconcilable, and followed section 61 rather than 57. In effect the judgment decides that if a company neglects to give the estimate and information required by the board, that company really passes from the jurisdiction of the board in regard to an assessment.

WHARF FEE HOLDS UP WAREHOUSE

Government Objects to a Clause in Lease, Says Caldwell.

T. W. Caldwell, M.P. for Carleton Place, came to St. John a few days ago to find out what was holding up the erection of the potato warehouse which the Government had agreed to build at West St. John. He found that the Government had refused to accept the lease because of a provision, inserted by the city, to the effect that the revenue from a vessel lying at a Government wharf and overlapping a city wharf should belong entirely to the city. He found that this clause was inserted by order of the City Council and after holding a consultation with Commissioner Bullock, J. C. Chesley, agent for the Marine and Fisheries Department, and R. E. Armstrong, secretary of the Board of Trade, he went to Ottawa on Thursday night to use his influence in getting the lease accepted.

An inquiry last evening elicited the information from Mr. Caldwell that the Government absolutely refused to accept the lease with the proviso referred to above. His telegram also said that the Minister of Public Works, while in St. John, had refused to accept it, but "still the Harbour Commissioners, on advice of the city solicitor, persists in putting it in lease. Addition to potato warehouse held up on this account."

The proposed lease, as submitted to the Government by the city, provides that while the revenue from vessels lying at a city wharf and overlapping a Government wharf shall belong entirely to the city, vessels lying at a Government wharf and overlapping a city wharf shall belong wholly to the Government. It is contended by the Government that, while on the face of it this would seem to be a fair proposition, in reality, so far as it would affect dock 14 which is the property to be leased, it would work to the disadvantage of the Government and wholly in favor of the city.

OFFICER YOUNG AIDS LOST ONES

Officer Harry Young was seen yesterday afternoon about three o'clock in King Square in company with two very small boys, much begrimed, but happy wihals. They were found by Mr. Young at the Market Slip. They were making a noise much greater than seemed warranted from such small persons, not more than four years old, for one had two small cans and the other a very large one, upon which they were beating to make what to them was music, but failed to impress the bystanders. They went cheerily to the police station, one claiming the name of Midhugh, the other too modest to disclose his identity, but too much information spoll the great adventure.

DISCUSS FORMING KIWANIS CLUB HERE

L. A. Parr, an organizer for the Kiwanis Club, an international organization, similar to the Rotary and Gyro Clubs, with headquarters in the United States, was in the city yesterday. He interviewed several citizens, which led to the holding of a meeting at the Union Club, to ascertain if there was a desire to start the organization in this city. The meeting was merely of a preliminary nature and no plans were outlined. Mr. Parr told of the aims and objects of the Kiwanis. Opinions were expressed by individual citizens who attended, some of whom favored starting the club here, while others thought that there already were sufficient clubs of that nature in existence here at the present time. Mr. Parr left for New York last evening.

MOST SIGNIFICANT STORY IN YEARS; VAN LOON'S VERSION OF THE BIBLE

DEAN REVIEWS THE STORY OF THE BIBLE, by Hendrik Van Loon (Boni, Live-right)

BY JAMES W. DEAN.

New York—Hendrik Van Loon's "The Story of the Bible" within a few weeks probably will be the most discussed book in America.

Indeed, Van Loon says his book is "a strange piece of work" and that he is "afraid of it."

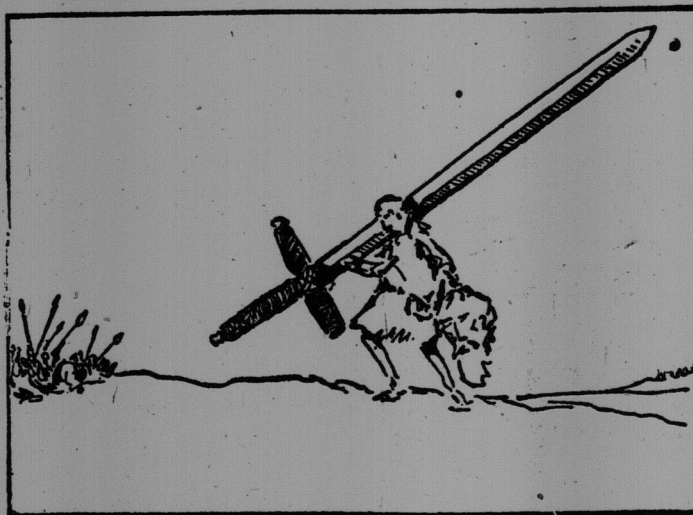

"I have patiently read all of the modern Bibles," he says, "and the almost endless children's Bibles of the last 30 years and none satisfied me for my own needs or for those of my sons."

Thus Van Loon sits down to write the story of the Bible as he has memorized it from many readings. He addresses it "Dear Boys" and then proceeds to tell the story as a patient parent would, seeking familiar words and phrases to bring the children into an intimate touch with Biblical characters.

This sense of intimacy is heightened further by 168 drawings which Van Loon drew. They are very simple things, like the crude drawings Roosevelt made to illustrate his letters to his children.

Undoubtedly Van Loon's story will be analyzed and through this scrutiny will come charges that he has colored certain passages to meet his own interpretations. Others will say that Van Loon has made an honest effort to tell a story unaffected by any cast or creed.

To this reader it seems that Van Loon must be taken at his word. He is telling the story of the Bible in the way which he believes will bring a better understanding to his boys. If his story contains any propaganda it is propaganda for the reading of the Bible. The first reaction on reading his

DAVID BRINGS BACK GOLIATH'S HEAD VAN LOON'S OWN SKETCH OF DAVID BRINGING BACK GOLIATH'S HEAD.

He picked it up and carried it back to the jubilant soldiers. I doubt if Van Loon's description is nearly so effective as the original. The impression has prevailed since boyhood that David put all his power into the slinging of that stone and crashed his foe to earth.

Now Van Loon would have me believe that it was only a small pebble that David cast and just through fortuitous circumstances it struck Goliath in the eye, causing the big fellow to stumble.

Any small boy might take a chance shot with a small pebble and hit a big brute in the eye. That is only a matter of luck. But David, according to the Bible, bravely went forth to meet his towering adversary. There was precision and force in the slinging of a stone of sufficient size to knock the big fellow unconscious. That is a matter of heroism. Van Loon robs David of the romantic glimmer that has encompassed him for centuries.

Even though Van Loon has lessened the noble attributes of some of the Biblical characters he has at the same time lessened the vice of others. Lot's wife, for instance, didn't look back repeatedly. "She peeped just once." And of Joseph's affair with Potiphar's wife, he says she thought him "much better company than her own dull Egyptian husband" and discreetly adds that Joseph "kept at a respectful distance." He charitably refers to Rahab as one who was "not particular in her choice of friends."

The chief importance of Van Loon's story, it seems to me, is that he invites interest in the Bible. His book is not written for Protestants, Catholics or Jews. It is written for boys and for the parents of boys. Considered in that attitude, it is probably the most significant story that has appeared in America in years.

the equipment and considerable stock were destroyed. Several dwellings and smaller buildings belonging to the firm were damaged. MISS R. D. ARCHIBALD EXPLAINS METHODS FOR CORRECT SPEECH

Assessment Matter, Decided Against Board, Likely Up in January.

The Imperial Theatre was practically mobbed yesterday afternoon, mobbed in a very orderly but quite determined fashion, by the eager throng who wished to gain admittance to hear Miss Resamond DeWolfe Archibald, M.A., tell of her new methods for teaching the use of better English and to see the methods demonstrated. Within a very few minutes of the opening of the doors every seat in the large building was occupied. Mayor Fisher was the chairman and the hearty vote of thanks extended to Miss Archibald was moved by W. J. B. Miles, principal of the St. John High School, and seconded by Mrs. E. Atherton Smith, national vice-president of New Brunswick, of the Women's Council. Miss Bernice Mooney, of St. Vincent's High School, sang delightfully and Donald Rice, a young High School student, recited with splendid effect. The orchestra of the Imperial Theatre provided the music for "O Canada" with which the meeting opened and the High School orchestra gave some very fine instrumental music during the programme. Those on the platform were Miss Archibald and her mother and Mrs. W. J. B. Miles, W. T. Denham, president of the Teachers' Association, Rev. O. S. Morse, editor of the Maritime Baptist; A. A. McIntyre, school trustee of St. John; Rev. H. A. Godwin and Rev. H. A. Cody.

Miss Archibald was given closest attention and she carried her audience to high enthusiasm as she explained the positive method of teaching English by means of the repetition of the correct forms as a kind of drill and by a system of marks for the detection of incorrect English in daily intercourse. She is an able exponent of how to make good use of the king's English to best advantage and her address was both eloquent and enlightening.

Mayor Fisher spoke of the size of the audience as significant of the interest which the people of the city took in so important a subject.

Rev. Osgrade Morse, editor of the Maritime Baptist, introduced Miss Archibald, whom he has known since her first year as a teacher and spoke of her disinterestedness in the campaign which she had undertaken as a free lance and during which she had made a triumphal progress through the Maritime centres. He paid a tribute to her rare qualities as a teacher and told of her success in carrying out her method with her own pupils.

The singing of "O Canada," Miss Archibald said, always recalled to her mind the incident in the Great War when, as Canada's armada was nearing the shores of England the guardian dreadnoughts of the British fleet played "O Canada" as a never to be forgotten tribute from the Motherland.

She wondered if Canadians realized that if the Allies had been defeated the German language would be the first language in Canada? To support her assertion she told of the ridicule heaped by German newspapers on the English language and the manner in which it was spoken by British subjects.

Adopted Drill Methods. For two years she put all her energies into teaching English by the old method with discouraging results and then, one day seeing the recruits at drill, suggested to her mind that constantly drilling in correct ways might

Lloyd Hughes Differs From Average Movie Actor—Is Popular.

(BY JACK JUNGMEYER)
Hollywood, Nov. 24.—When a director hires an actor, to paraphrase an old news dictum, it isn't news in Hollywood; nor even good feature copy. But when an actor hires a director—hot publicity!

The History Class Does Itself Proud

"Who was the Humboldt of Notre Dame?" The dear little teacher cried.

"And Peter the Great, what good little boy can tell me about his sad fate?" "I can," piped a freckled-faced kid in the class.

The teacher was vexed as she sternly inquired, "Tell me now, who was Richard the Third?" "Oh teacher, I know," came a voice from the rear.

"Wallace Beery, and say, he's a bird!" "Why and what are the Ten Commandments, pray tell?" Said teacher. The reply was on a mumble.

"They're by Cecil de Mille. It's a great film they say." They all went to the head of the class! —DOROTHY DAY.

Many Thrills In "Famous Mrs. Fair"

Spectacular Scenes in Fred Niblo Production of Stage Success.

Although Fred Niblo's picturization of the great American play, "The Famous Mrs. Fair," to be shown at the Palace Theatre, Monday and Tuesday, deals with the lives of persons moving in the highest social circles, this Metro-Louis B. Mayer production has more than enough thrills and good, fast action to keep it from being confused with the ordinary tea party plot.

A Scene from "THE FAMOUS MRS. FAIR"

Probably the most spectacular event in the Fred Niblo production is a race in the dead of night between a through passenger train and high-powered roadster. Cullen Landis, at the wheel, took several chances in getting real close to the screen.

Flirting again with fate in his romantic, Mr. Landis, in another episode of the picture, slides his car on a wet pavement at a forty-mile rate, making a sharp hairpin turn in his pursuit of the despicable Dudley Gillette.

Frances Marion adapted "The Famous Mrs. Fair" to the screen in the past year. The original story was by the author, Marguerite De La Motte, Cullen Landis, Ward Crane, Carmel Myers and Helen Ferguson.

O'BRIEN FACING DIFFICULT ROLE

Must Appear in "Secrets" at Various Ages—Grows Side-lights.

Eugene O'Brien, championing a pair of luxurious side-burns of the 1865 English design, has returned to Los Angeles to resume the role of leading man to Norma Talmadge, an association termination when O'Brien deserted films for the stage.

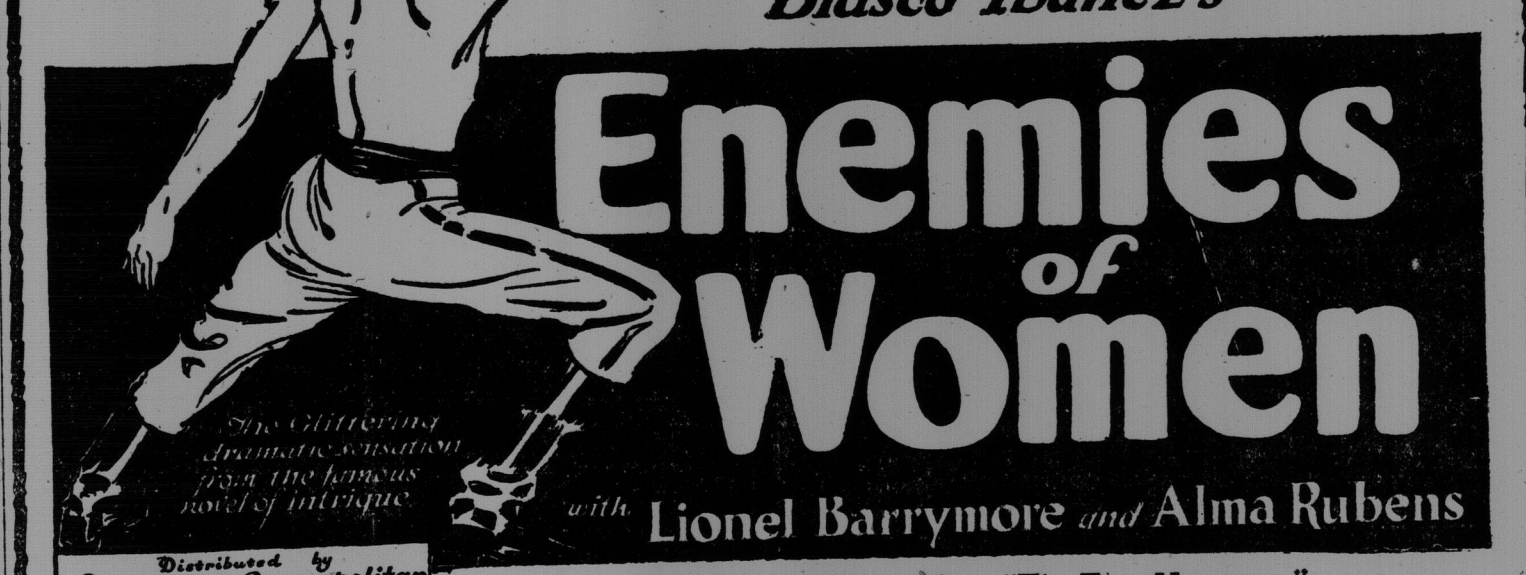

The side-burns, O'Brien explains, are being cultivated for his part in "Secrets," the Joseph M. Schenck-First National screen adaptation of the stage drama which will bring the screen's most popular combination together for the first time after an interval of a year.

"The script, which I have been studying, says that part of the time I have to appear 77 years old. A man must do something to look his age, hence the side-burns. I saw 'Secrets' played on the stage in New York. Really, I think the screen portrayals are going to be difficult. Because of the ferret eye of the camera, it will be no simple matter to look a convincing 40 or more and then jump to 77 and continue further backward along the course of time to 20. On the stage almost any kind of a makeshift will do, but on the screen the slightest imperfection will spoil the whole effect."
