Polish Drive Continues With Success Against Reds

Push Now on in Full Swing—Ten Thousand Prisoners and Much Equipment Captured

Warsaw, Aug. 20.—The Polish offensive is now in full swing. More than 10,000 prisoners, thirty cannon, 300 machine guns and thousands of supply carts have been captured from the Bolshevik army.

According to reports the Poles have almost reached their objective—the course of the middle Bug, below Brest-Litovsk. Once this is attained, it is believed the retreat of the Bolsheviks concentrated in the Siedle region will be cut off and they will be left with only one way to retire beyond the Bug.

North of the Narew River, the Poles left wing is continuing to advance and is now well up in the fork between the Narew and Bug Rivers, making a converging attack on the Polish bridgehead. In the centre the Poles are rapidly driving the Reds back on the Upper Bug between Chichebanow and Brochyn.

London, Aug. 20.—Evacuation of Vilna by the Bolsheviks, under the terms of the recent Russo-Lithuanian agreement, is reported in official dispatches.

FISH MEN ASKING FOR HIGHER PRICE

Toronto, Aug. 20.—An appeal for a higher price for their fish has been made to Hon. Mr. Biggs, minister of public works, by the fishing contractors operating on Lake Nipigon. They contend that an increase should be allowed them to meet the added cost of labor and equipment, particularly since the government sales branch is not ready to do this, then the contractors propose that the province take over the present equipment at a fair valuation.

290 INSANE ALIENS SENT HOME IN YEAR

New York State Hospital Commission Caused Deportation of 148, According to Report.

During last year 290 insane aliens were sent from New York State institutions to countries from which they came.

The immigration authorities deported 147, and 148 were sent back at the instance of Dr. Spencer L. Dawes, medical examiner of the New York State Hospital Commission.

The foregoing figures were taken from the annual reports of the Ellis Island Immigration Station and the New York State Hospital Commission for the year ended June 30, 1920. A year ago there were 800 deportable insane aliens in the asylums of the State, but this number was reduced to about 600.

The reports, which will be issued later, will show that there are 80,000 insane persons in State institutions. There is now room for only 28,000 in the hospitals and sanitariums for the proper care and treatment of the victims of insanity," it is said. Forty-eight per cent. of the insane in this State, or about 19,000, are foreign-born. Both parents of 60 per cent. of the State's insane are of foreign birth. Of the 17,000 foreign-born insane in New York State institutions, all except about 800 are not deportable, having been in the country longer than the five-year limit for deportation proceedings.

Dr. Dawes says:—"In addition to the task of deporting our alien insane the State Hospital Commission has been active during the last year sending back to other States insane persons who have fallen victims of insanity here and were confined in our State institutions. During the year we have removed 414 of these insane persons from New York State hospitals to the States from which they came. Some of these were aliens, some were citizens, but all were residents of the States to which they were sent. We have encountered a little difficulty in getting the States to take back their insane, with the exception of the State of Connecticut. We have written agreements with Massachusetts, Ohio, Illinois, Wisconsin, Iowa, Washington and several other States. We not infrequently send parties of insane persons across the continent to States on the Pacific Coast. The last shipment consisted of eleven insane persons.

The Ellis Island Immigration Station is not to blame for New York having so many insane aliens who are no longer deportable. Commissioner Wallis M. Uhl and Superintendent Baker have been anxious to aid us, but they have not had sufficient appropriations from Congress to do all they wanted. We believe all the States should unite in asking Congress for a larger appropriation for the immigration authorities so that the country might be freed from this great burden of caring for the thousands of insane aliens who become afflicted after their landing here."

THE DISCOVERY OF "VITAMINES"

The study of beriberi and pellagra led to the discovery of a group of food essentials known as "vitamines." They are necessary to normal nutrition and to normal growth. They are found in the whole wheat grain. In making Shredded Wheat Biscuit all the vitamins are retained—all the elements that are needed for building a perfect body. Two of these little loaves of baked whole wheat with milk or cream (or hot water) make a nourishing, satisfying meal for a few cents.

RAILROADS BLAMED FOR HOUSE SCARCITY

Embargoes and Freight Rates Delay Building, Says Adviser to Senate Committee.

(N. Y. Times.)
 The hearings of the Senate Reconstruction Committee, of which Senator W. M. Calder is chairman, have developed that the chief cause of the nation-wide housing shortage is transportation, particularly embargoes on building material, the large increases in freight rates, and other discriminations against it, according to Franklin T. Miller, advisor to the committee.

The people are eager to buy houses, the builders are eager to build, the producers of building material are doing their utmost to sell their products, but the transportation middle and the shortage of facilities prevents them from getting together, said Mr. Miller.

Some improvement has been noted since the Interstate Commerce Committee in July turned over 104,000 freight cars for the transportation of building materials, but the outlook is still bad for the builder, according to Mr. Miller, because it is believed likely the embargo will be continued on building materials in favor of coal and crops. The railroads are making coal and food shortages, so Mr. Miller said.

"The country has the building sites, which have shown the effect of inflation less than anything," Mr. Miller said.

The immediate local remedies, which have recommended themselves to the committee, are the exemption of new building from local taxation; the exemption of profits on building sales from income taxation; provided the returns are reinvested in building; the exemption of mortgages from the income tax.

"The railroads have shown a willingness to rush building materials where specific cases of hardship and necessity are brought to their attention," said Mr. Miller. "The committee has been deluged with requests from builders, whose work has been held up by the non-arrival of materials. We had one case of a man named Martini at Coney Island, who had been building three houses at Coney Island which would have been finished eight months ago, except for the refusal of the Pennsylvania Railroad to deliver brick, in view of the priority orders. The committee has obtained relief for him and for many others in similar predicaments."

President Willard of the Baltimore and Ohio Railroad admitted that the coal situation could have been anticipated and avoided by foresight, and it is the coal situation which is largely responsible for

THE END OF UNION.

Premier Meighen's recent speeches remind the country sharply that his government is dominated by Conservatives. He himself is a partisan Conservative. His ministry and his views are Conservative, and Liberal newspapers which supported Union government during the war and until demobilisation are now outspoken against the proposals of the Conservative party.

The Conservatives represent a minority party, and presumably they are agreeable to Hon. Mr. Meighen's offer of Liberal support under false pretences. But the Liberals are not deceived. The Toronto Globe tells Hon. Mr. Meighen that both in the east and the west of Canada he will find the doctors in revolt against his Conservative policies.

There are great sections of the industrial population engaged in natural industries all over Canada who cannot possibly be given any advantage by protective tariffs in the selling of their products, but who are compelled to pay tariff-inflated prices for everything they buy to supply their business and domestic needs.

The proclamation of high protectionist views by the prime minister is for less an expression of his fiscal creed, for less an expression of all sorts go together. But it is probably also an expression of his belief that the interests still control the biggest battalions and the longest purse, and that the hope of Toryism is to stay within hall of the Red Parlor.

The premier's challenge cannot be evaded even were the opposition parties desirous of doing so. The issue of the next election must be high tariff for the benefit of a privileged few or revenue tariff for the benefit of all.

Union government is no longer an issue. The questions which divided Liberals in 1917 no longer exist. Premier Meighen has served at least one good purpose in drawing the line clearly between the two old parties. The nature of his speeches does that. While he invites Liberal support he condemns Liberal policies and enunciates only the old Conservative doctrine.

A HUNGRY WORLD. While Canada is congratulating itself on the prospect of a large wheat crop and while the United States is expecting a mighty crop of corn and a big yield of foodstuffs generally, with the possible exception of wheat, Sir George Paish, one of the leading political economists of the day, is warning the world that its food outlook is gloomy.

It is true, of course, that the Brotherhood of Railroad Trainmen has headquarters in Cleveland, Ohio, and that I happen to be the Canadian vice-president of that organization since 1907.

CANADA—EAST AND WEST

DOMINION HAPPENINGS OF OTHER DAYS

FORT ERIE.

August 20, 1814, found the English in Canada smarting under the defeat that had been inflicted upon them at Fort Erie a few days earlier.

On the 18th he opened fire on the fort with his cannon. But they were few and the weapons were small, so although they poured for two days all the time, they produced little effect upon the Americans.

At that moment an explosion occurred and many of the English were killed. A panic was started among the assailants and the confusion followed the Americans rallied and drove General Drummond from the ground with a total loss of 803 men.

At the first lurch the strap gave way and she landed in the mud. She scrambled off and grasped the rail. The rail came down with a crash.

Perhaps, ma'am, he murmured, "you'd like the seat." "You are very kind, sir!" she gasped, breathlessly.

It wasn't the loss of the quarter, neither was it the fact that the palmist had said frankly that he would never become wealthy that made Hadkins look so solemn as he left the magician's tent.

As we are all aware, we have now an enormously greater number of women than men in Britain. Even before the war English women outnumbered English men by nearly a million.

Matters are not quite so bad in Canada, but even there 180,000 women are required to even up matters. Smaller dependencies are in a worse way.

The fact is that in almost every part of the British Empire, except in Britain itself, there are more men than women. There is no other country in the world which has so great a preponderance of women as has England today.

SIXTY MILES AN HOUR.

(Montreal Star.)

"The survivors stated last night that the machine was traveling very fast. One of the victims, in fact, said he thought the car was doing eighty miles an hour."

What is this insanity that impels people to use powerful machines along country roads, up and down hills and around unknown and often dangerous curves at a rate faster than that attempted by railway trains?

RECENT DEATHS

Many friends in the city have learned with regret of the death of Mrs. Catherine Oram, which took place about 6.30 o'clock last evening, in the sixty-fourth year of her age, at her late residence, 68 Somerset street. Mrs. Oram was the widow of James Oram and she had been ill for several months, being confined to her bed since early in July. She leaves six sons and two daughters. The sons are Rev. Simon Oram, of the Cathedral parish, and Lawrence Oram, also John, George, Leo and Gertrude Murphy, all of this city. The daughters are Elizabeth and Veronica. The funeral will take place at 9 o'clock on Saturday morning from her late residence to Holy Trinity church for requiem high mass.

Mrs. Abbie Potter, formerly of this city, died recently at El Paso, Texas. She was the widow of Allan Potter. Mrs. Fred Sears of Moncton is a sister, and Frederick Williams of the same place is a brother.

PRAIRIES A BLAZE OF COLOR

Myriads of Peonies Grown on Banks of the Red River.

The Canadian prairies, toward mid-Summer, became a glowing field of peonies, reports a Winnipeg newspaper, and recalling Wordsworth's daffodils, beautiful as they were along the margin of Ullswater, writing from the post the exclamation, "Ten thousand saw I at a glance," the newspaper writer asserts that they could not compare with the field of peonies that W. G. Scott cultivates in luxuriant flowering acres on the banks of the Red River, where the poet might exclaim "A million saw I at a glance."

Before the Summer was well advanced far more than ten thousand peonies had actually been cut, and thousands upon thousands remained in their glory of color and exquisite perfume. Myriads there were, large and white, as cumulous clouds in a sunny sky; myriads in lovely shades of pink and of darkly rich red, making an unforgettable flower show.

SAVES 7 LIVES

Standing on Last Rung,
Hands Against Wall, 200-
lb. Woman Slides Over
Him to Safety—Dismissed
Fireman a Hero.

(New York Times)
A bonfire fireman who was dismissed from his battalion of fire fighters eight months ago, last night won his reinstatement in the department by saving seven persons in a tenement fire by an exploit that was described by Deputy Chief "Smoky Joe" Martin as "the most heroic he had seen in thirty years of fire fighting."

By turning himself into a human extension to a dizzy ladder that fell six feet short of the fifth story ledge where the seven persons were perched, this fireman enabled an entire family to scramble to safety over his back, and then, by a gymnastic feat rivaling a circus thriller, he tumbled to safety on the topmost rung of the swaying frame. "Smoky Joe" was at the foot of the ladder when the bonfire fireman, who was dismissed after he reached the ground, saying: "My boy, in forty years of fire fighting I've seen a lot of human flies and a lot of rescues, but what you've done to-night beats any hero stuff I've ever seen. You ought to be in the fire department."

When the fire department was notified of the fire, the fireman was dismissed after eight months ago, the ex-fireman replied, "but I was busted for punching my battalion chief in the nose, and I want to get back."

Eight months ago Fireman Louis Tischler of Truck 9 was dismissed after trial on the charge of striking his battalion chief. His plea before the trial commissioner was extreme provocation and, although he was advised several times to ask for a rehearing he was never able to get any action. Giving up all hope of being restored to an occupation that he liked above all others and of redeeming a former good record, Tischler took a job driving an automobile.

He was driving his automobile through Forsyth street last night when he saw flames coming from every window clear up the face of a five-story tenement building at 122 Forsyth street, and a group of screaming women and children clinging to a wide ledge belting the structure on the level of the fifth story window. There was not a piece of fire apparatus anywhere in sight.

Tischler said that "something squirmed" in him and before he knew it he was running up the stairs in the tenement adjoining, at No. 124. He said he knew the fire department would be there in a few minutes and that he saw that the children of the family had to be taken from their perilous perch before they lost their heads and fell off.

Works in Dense Smoke.
Kicking open the door of a flat on the fifth floor, Tischler worked his way around the ledge to the adjoining building, but he found that he was five feet below the ledge where the family was grouped with their Sunday guests, waiting for rescuers.

"I knew then that I ought to have gone to the roof," said Tischler, "but there wasn't any time to go back. One of the kids was about to fall."

By wild gymnastic Tischler managed to make Vincenzo Gangi, the fire-

head of this perching family, understand that he wanted to carry the smallest child along the narrow ledge to safety, and not Gangi's 200-pound wife, Josephine, Vincenzo finally managed to swing his eleven-year-old niece, Ida Delassandro, down to the waiting fireman on the narrow ledge.

The former fireman was going back along the ledge to rescue another child, when a shout from below told him that Truck 9 was on the job and Captain Francis Roller was shouting up his longest ladder. Tischler was waiting for the ladder, although he could hardly see the working firemen through the smoke and flames that were now roaring through the entire building.

When its top pierced the smoke screen, Tischler saw that it was waving perilously and that it was at least six feet short of the ledge. Seeing that there was no time to wait for another ladder, he dexterously swung himself to the top rungs and, as the frame swung back toward the building, he leaped upward and caught the ladder. The ladder slipped from his feet and for an instant it seemed as if it would crash back to the ground, but it rebounded and Tischler hanging only by his hands, caught the frame with his feet.

Rivals a Circus Stunt.
Firemen working below shouted instructions to this "novice" in civilian clothes on the top of the ladder, who seemed, like the clown rider in the circus, about to crash to death in the midst of his tremendous efforts to save the group on the ledge. But the giant on the top rungs gathered his strength and pulled the heavy ladder close to the wall, where it slipped again and again as he struggled to hold it with his feet.

Up rushed Fireman Steve Mivovsky, closely followed by the men of Truck 9, and their weight seemed about to cause the flimsy structure to collapse, but the "novice" held fast. Then followed a long dialogue while Fireman Welby and Mivovsky tried to make Gangi, Vincenzo and his relatives understand that they were to slide to the top rung of the rickety ladder over the broad back of the "novice."

I Simply Feel Like Tanlac Has Added Years to My Life, States Halifax Woman—Twenty Years of Trouble Ended.

"I simply feel like Tanlac has added years to my life, and I just can't praise it enough for all it's done for me," declared Mrs. William Morris, formerly of Picton (N. S.), but now residing at 20 May street, Halifax.

"I suffered from a chronic case of stomach trouble for more than twenty years and was simply in a miserable condition. My appetite was so poor I scarcely ate anything at all, and I had such dizzy nauseating spells I could hardly see. Everything I ate seemed to go down my sides and back and was so nervous on my sides and back, and I was so nervous the least little noise of any kind would upset me. Then night after night I could scarcely close my eyes, and was just tired and worn out all the time. I never felt rested, and all I could do was

to sit around the house as I didn't have strength or energy enough to stand on my feet.

"Well, about a year ago I came to Halifax, and one day my son-in-law brought me a bottle of Tanlac so that's how I got started on the medicine. I'm of considerable age now, and I want to say that I never expected any medicine to help like Tanlac has. My appetite is so splendid I eat three good meals every day, and I don't suffer a particle with indigestion. I'm entirely free from those dreadful nauseating spells, and am no longer troubled with dizziness. I haven't slept so well in the past twenty years as I do now, and I've regained all my strength. I can conscientiously say that Tanlac has no equal, and I'm only too glad to recommend it to anyone suffering as I did."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro, by G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Parsons, Highland; John F. Meagher, Debec; W. H. Levesque; E. L. The animal is pure white in color and has a habit of kicking its most intimate friends with both feet in a manner that is as painful as it is unpleasant. There are also some specimens of black fuzzy bats from the Hindu temples of Tanjore in Southern India, which fly at a swift speed calling out "Gurroo-Gurroo." This has given rise to the rumor that the bats were imported into India from Ireland during the time of the Mogul Emperors.

Thin People Need Phosphate

Most in Hot Weather

Apt to Take on Good Healthy Flesh Even on Sweating Days Phosphate is Taken With Meals.

Druggists Dispense Bipro-Phosphate because it is Real Organic Phosphate.

Thin men and women, nervous and constantly out of sorts, who want nerve force, energy, ambition and power of endurance, are just the people who will find a helpful friend in Bipro-Phosphate which is undoubtedly just what your nerve, blood and bone cells are begging for.

Phosphorus is a very important element of every living cell in your body. Without the necessary supply, keen mind grows dull and often stupid; old-time ambition vanishes and a wretched feeling of exhausted power supplants that once-indomitable spirit so necessary to success in these strenuous times.

Bipro-Phosphate feeds the nerves direct with the phosphorus food elements they crave for.

As evidence of results in cases of thin, exhausted people, clinical tests in St. Catherine's Hospital, New York, showed that two patients gained in weight one 28 pounds and the other 27, while organic phosphate was administered, and both patients claim they have not felt so well and strong in the past twelve years.

Such tests as these led Frederick S. Kelle, M. D., Editor-in-Chief of Physicians' "Who's Who," an author of medical text books and member of Authors' Committee of America, Health League, Physicians' Legislative League, N. Y., to remark: "If I had any way Bipro-Phosphate should be prescribed by every doctor and used in every hospital."

And Joseph D. Harrigan, former Vice-Specialist to North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anaemic or run down, take a natural, unadulterated substance such as Bipro-Phosphate and you will soon see some astonishing results in the increase of nerve-energy, strength of body and mind and power of endurance."

British Expeditionary Force.

"I had a severe breakdown which resulted in a long spell of Nervous Debility. I tried several remedies, without avail, until I was recommended by a friend to try Phosferine. In June of 1917 to the end of September I was in Lewisham Hospital suffering from a weak heart and nervous debility, and was getting on fairly well until the Gothas started the daylight raids. I started to take Phosferine again, and I have much pleasure in recommending Phosferine as a sure cure in all cases of shell shock and nervous breakdown."

This grateful despatch rider realizes that it is entirely due to Phosferine he owes his recovery from Nervous breakdown—Phosferine replenished his system with the vital force to regain its former energy and power of resistance.

Healthy Mothers
Healthy Babies

Every true mother realizes the fact that her baby's health depends upon her own. That the very vitality of her child is influenced by her own physical condition. How important it is, therefore, to guard against any derangement of the female organs, which induce general weakness, nervousness, constant fatigue and utter inability to properly care for her child. Please remember, that Lydia E. Pinkham's Vegetable Compound has brought health and strength to thousands of such mothers.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia. I had gained in strength and was able to go around and do all my housework. My baby when I delivered weighed 10 pounds and I feel better than I have for a long time. I would like to see you and your medicine do me so much good."—Mrs. Frank A. Mitchell, Ind.

Not Aspirin at All without the "Bayer Cross"

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That lumbago, sciatica or maybe from a strain, and you'll get blessed relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin.

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

IN SING SING A YEAR, INNOCENT OF CRIME

Prosecutor Finds Two Convicted Croats Were Not Implicated in Holdup.

(Bangor Commercial)
Two men innocent of the crime for which they were convicted have been for 14 months in Sing Sing, it was announced Thursday by Owen Bohan, assistant district attorney, who prosecuted the case before Judge Mulqueen in General Sessions in June of last year. The men are Frank Peczulich and Frank Spillirach, Croats, and are serving terms of from eight to sixteen years after having been convicted of participating in the hold-up of a sailor's boarding house on March 22, 1919.

As the first legal step looking to their release, an application for a certificate of reasonable doubt was filed in the Supreme Court by K. H. Rosenberg, an attorney. The application will be heard by Justice Burr and if granted the two men may obtain their liberty on bail pending a decision by Judge Mulqueen on a motion made by Mr. Rosenberg for a new trial on the ground of newly discovered evidence.

Judge Mulqueen, in a letter written from Lake Placid to District Attorney Edward Swan, said he had no objec-

tion to the granting of the certificate of reasonable doubt by Judge Burr, provided Mr. Swan thought it should be done.

Seven masked men armed with revolvers took part in the hold-up of the boarding house and robbed the nine occupants of various sums of money. The robbers were in the rooms six or seven minutes and separated immediately after leaving. One of the victims pursued them, overtaking and causing the arrest of Frank Strolich at Canal and Vartek streets. Strolich was identified as one of the robbers. He told detectives that his companions could be found at 408 West Twenty-fourth street. Peczulich

and Spillirach were arrested at that address, though Strolich maintained that they had no part in the crime.

Peczulich and Spillirach, supported by several witnesses, claimed they had not left the house on Twenty-fourth street on the day or night of the robbery. Several of the victims of the hold-up identified them, however, and claimed that while the robbery was in progress the handkerchiefs dropped from their faces. Mr. Bohan said that these mistakes were honest. The two men were convicted on June 17, and sentenced on June 29, 1919. Strolich was not called during the trial. Mr. Bohan said, as he had already denied the men were in the robbery.

Last January Tony Blazok, Frank Pratar and John De Franca were arrested in Milwaukee and sent here to be tried for alleged participation in the hold-up. Tony Blazok jumped his bail and is now a fugitive. The other two were convicted and sentenced to Sing Sing for terms of from eight to sixteen years. In confessions which they repudiated before they came to trial, Pratar and De Franca said that Peczulich and Spillirach were not guilty.

After Judge Rossiter sentenced Pratar and De Franca to Sing Sing, Mr. Bohan asked Father Cashin, the Catholic Chaplain at the prison, to urge them to tell the truth about Peczulich and Spillirach. They again insisted Peczulich and Spillirach had no part in the robbery.

Harry Cormier, of 67 Mill street, an employe of Murray & Gregory, had one of his toes smashed while working yesterday. A heavy chain fell on his foot. He was taken to the General Public Hospital and the toe was amputated.

CITY MARSHALS MAKING FORTUNES ON EVICTIONS
Queens and Brooklyn Officers Get \$100 to \$500 a Week as Result of Rent Cases.

(N. Y. Times)

Among candidates for places in the ranks of new millionaires are the city marshals in Queens and Brooklyn, whose incomes from the dispossession of families and piling of furniture in the streets have been ranging from \$100 to \$500 a day, according to the best estimates available.

These earnings have been reaching the main figures in the last few days, as evictions have been more numerous than in any similar period since the tide in the war between landlords and tenants began to turn in favor of the landlords.

"When we organized the courts here in Queens," said one of the Queens Judges yesterday, "we could scarcely find a man to take the position of marshal. Now I know of cases where marshals have made more than \$400 a day. Since this became known we have had applications for the post from some of the men who had previously refused it."

The marshals receive \$7 for each dispossession warrant they serve. The only work the marshals had to do is to see that the furniture of the evicted one is not hurried out of a window, but is carried down stairs with more or less care and placed on a sidewalk. Some of the marshals now travel in automobiles and sit fanning themselves while the "marshals" make the proper clean-up of the furniture.

At the Brooklyn courts it was reported yesterday that dispossession warrants were being executed at the rate of 1,000 a week, while the average in Queens was between 400 and 600.

TO MARK LINCOLN HIGHWAY.
Steel Signs to Be Placed at Every Confusing Turn.

Detroit, Mich., August 20—Before next winter comes enamelled steel markers will have been placed at every confusing turn and cross-road on the Lincoln Highway from New York to San Francisco, making what is said to be the longest highway in the world with such guide marks, according to announcement from headquarters of the Lincoln Highway Association here. The road

has such markers, and work of marking the highway from New York to Omaha is now in progress.

The Lincoln Highway is 2,828 miles long. It passes through Philadelphia, Pittsburg, Canton, O., Fort Wayne and South Bend, Ind., Clinton, Ia., Omaha, Salt Lake City, and Carson City, Nev., among other points. The highway never has been permanently marked between South Bend, Ind., Omaha, New York and Omaha.

Every Month a Special Need

SUMMER or winter—day or night—you will constantly find the necessity for two electric sockets in places where you now have only one.

You can provide these with the Benjamin Two-Way Plug—and you can use your electric fan or your electric heater, or any other electrical appliance, just where you want it, just when you need it. For, the

"TIZ" FOR SORE, TIRED FEET—AH!

"Tiz" is Grand for Aching, Swollen, Tender, Calloused Feet or Corns

Ah! What relief. No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions. No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt one get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a 25-cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for only 25 cents. Think of it.

Don't Spoil Your Hair By Washing It

When you wash your hair, be careful what you use. Don't use prepared shampoos or anything else that contains too much alkali for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain multi-sifted coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Why August is a month of Fur Opportunities

MANY people wonder how we can make such remarkable concessions in the price of furs. The unheard of cost of "green" furs would almost seem to make price reductions an impossibility.

But have you ever thought of "idle sales periods?" Think of the "overhead expense" when clerks aren't busy, and yet there must be a sufficiency of clerks to meet "rush season" needs.

One step toward the efficient is to spread the load evenly over the entire season, equalizing the dull periods with the excessively busy ones.

Our August Fur Sale

helps to eliminate the costly "idle periods" and reduces the "overhead" expense. This benefit goes to our customers in lower prices.

Don't be misled into thinking that prices will drop later in the season. That is an impossibility. No new furs are coming in and present demands exceed the supply.

Your only chance for realizing "fur economy" is to buy now. Many choice pieces of wonderful beauty and luxuriousness are offered here at prices that will be impossible later.

The Name behind the Plug

For years we have been building a reputation for the dependability of Champion Spark Plugs. To-day "Champion" on the insulator of a spark plug is the world's synonym for dependability.

dependability is based on thousands of experiments and tests, resulting in our famous "3450" insulator, which, because of its indestructible quality, gives exceptionally efficient service in all types of gasoline motors and engines.

No matter what makes of motor you own, there is a "Champion" that will give efficient service under any condition the motor itself will stand.

Look for "Champion" on the insulator as well as on the box.

WEST AGAINST HIGH COAL RATE

Calgary, Aug. 20 - Protests against the proposed general increase in freight rates, insofar as they apply to coal, were voiced at a convention of western Canada coal operators and retail dealers from Winnipeg west, here yesterday afternoon. The convention passed a resolution asking special consideration of the coal tariff "that the same may be equitably adjusted in proportion to other commodity tariffs and to the comparative service received and required."

Mr. Fairbairn, chairman of the Canadian Trade Commission, suggested that arrangements might be made for a rate which would compete with the rate on the American coal coming into the Manitoba market. He said there was no possibility of securing a special summer rate on coal.

Adirondack and Catskill
Parks Within Twelve Hours

Equal National Preserves —
Care of Vacationists Now
a Vast Industry — Their
Number Rapidly Growing.

(N. Y. Times)

The people of New York State own a forest preserve which, in size and beauty, is comparable to any of the national parks. The Adirondacks and Catskill State Parks, which now aggregate approximately two million acres in extent, are as important and as interesting as any others in the broad scheme of parks and recreation centres which are being rapidly developed in all parts of the United States.

In one respect they are far more so. They are within twelve hours' journey of twenty million persons, and constitute the wildest and most beautiful region that will ever be accessible to most of them. Everywhere throughout the forest preserve region, in both Adirondacks and Catskills, the use of this great recreation ground is increasing at a tremendous rate, until now the most important business of the region is that of caring for vacationists.

More money is invested in hotel and other properties, more workers are employed, more wages are paid, and the annual turnover is greater, than in the entire lumber business, which once figured as the most important activity of the mountains. State roads and auto-roads are largely responsible for this increase in the number of vacationists. The wonders of the forest preserve are thus described in "The Conservationist" by Warwick S. Carpenter, secretary of the Conservation Commission:

World's Oldest Peaks.
In the Adirondacks are the world's oldest mountains. Far back in the aeons of unrecorded time, beside which the longest periods of history and tradition are as fleeting moments, the great crest of the Laurentian system of rocks, the Adirondacks, thrust its peaks above the primordial ocean. They were rough and jagged—the world's first Rockies. Geologists can even now trace out their extent and locate the approximate shore line of the Appalachians and Rocky Mountains. These latter are veritable newcomers. Through all of the ages that intervened the rough peaks of the Adirondacks have eroded and rounded, mellowed by time, and covered with the finest forests of the East.

The lapse of time, however, has not destroyed the primal grandeur of the Adirondacks. One need not go to the West for rugged mountains to climb or deep passes to tread. Mt. Marcy called by the Troquois "Tahawuc," the Cloud Splitter, rises 5244 feet above sea level, high enough to cleave the clouds on all but the most perfect days. In every direction are peaks of only slightly lesser height that, taken together, constitute the finest climbing country in the East.

Immediately under the east foot of March is Panther Gorge, of wild and rugged beauty. A little to the west, between Mt. Golden and Mt. McIntyre, is the deep cleft of Avalanche Pass, with the precipitous sides of the mountains rising on either hand, so that the only passage is over the water of Avalanche Lake itself. Avalanche Lake is the highest lake of any size in New York State, and in its deep mountain setting is one of the most secluded and inspiring pictures of the wilderness.

Rich in Indian Lore.
Still further west is Indian Pass, highway of the Troquois in their pre-historic journeys north and south. Their superstition is said to have peopled it with staghorn giants, supernatural beings, who lived upon human flesh. If one looked upon them, he immediately turned to stone, after the manner of the old Greek legend of Medusa of the snake locks. This one tradition alone, with its striking similarity to that of ancient Greece, is enough to hold the interest of any student of folk lore, as he stands on the

old Indian trail at the summit of the Pass and looks back over one of the most beautiful scenes in the Adirondacks. The deep gorge of the Pass, the dark, sweeping, tree-covered slopes of McNaughton, Henderson and Santanoni, and immediately at hand the thousand-foot precipice of Wallace, make it a spot of singular interest and appeal. The entire lake region the forests are carefully guarded as the heritage of every succeeding generation of citizens, and be made accessible to them to the fullest possible extent.

Further west is the lake region of the Adirondacks. Beginning with the Fulton Chain of Lakes, at the south, it swings in a long series of lakes and rivers, broken only by short carries, to the Saranac and St. Regis Lakes on the north. Through these lakes trips of more than one hundred miles can be made in guide boats or canoes, with mountain climbing trips on either side that are of only slightly lesser interest than those of the great peaks around Marcy. Throughout the entire lake region the forests are among the finest in the Adirondacks.

Como of the Wilderness.
Of all the 1,500 lakes, set within nearly 2,000 peaks, there is none more beautiful, either in the Adirondacks or elsewhere, than Lake George, which Father Isaac Jogues first saw in 1646. He called it the beauty of the lakes so impressed him that he christened it Lac du Saint Sacrament. It has been likened to the lakes of the Swiss Alps, and called "Como of the Wilderness." In early Colonial history it was an important link in the highway of travel north and south which include the Hudson River, Lake George, and Lake Champlain, and has thus been inseparably associated with some of the most vital and picturesque incidents in early American history. More than one hundred of its islands are part of the Chasm of the Forest Reserve.

An Sable Chasm has been called a veritable miniature of the Grand Canyon. While not state property, it is an important scenic feature of the mountains of the Catskill are younger, but none the less beautiful and interesting in their different way. There Rip Van Winkle had his long sleep and there each Summer hundreds of thousands of tired city dwellers now find whatever rest and relaxation they ever get from the driving pace of city life.

In all parts of the Catskill Mountains the scenery is justly celebrated. Slide Mountain, the highest mountain in the region, raises its majestic form to an elevation of 4,204 feet, surrounded by a multitude of lesser peaks. Here are deep, cool valleys, rocky gorges and cascades or by murmur of woodland sounds. Indeed, on every side the eye is greeted by an array of scenery not surpassed throughout the state. Flat Clove, Katerskill and Stony Clove contain views as wonderful as any in the mountains, with forests that in many respects are comparable to those of the Adirondacks.

A NEAR ONE

An auto truck belonging to the Cornwall and York Cotton Mills, and driven by Leonard Shea, narrowly escaped being demolished on Wednesday while going to the mill via Brunswick street. The driver eased his truck down going over a bad bump and was just crossing the track when a C. N. R. shunter came along and side swiped the truck sending it shooting to one side. Fortunately no one was hurt and little damage was done. The driver maintained that he could not hear the bell on his engine, and considers himself fortunate that he was not injured and his truck more seriously damaged.

MARRIED IN DETROIT

A wedding of much local interest took place in Detroit, Mich., on August 7, at 7:30 p.m., when Rev. T. W. Beich of Highland Park, Presbyterians church, united in marriage Ethel V. Dunlop, only daughter of Mrs. Annie Dunlop of this city, and Byron Hilton Crowley, son of Mr. and Mrs. William Crowley of St. John, and a popular member of the C. P. R. The bride was becomingly attired in a traveling suit of navy blue with hat to match and wore a corsage bouquet of crimson roses. The chief witnesses at the wedding were Miss Maude Reed and Edwin Willis, also of St. John. Mr. and Mrs. Crowley will reside at 465 Hubbard avenue, West Detroit.

BASEBALL

A fast game of ball was played on the Robthey diamond last evening between the Furness Withy Company nine and the Fair Vale team, the former winning by a score of 12 to 8. The batter were for the winners, Conlon, Thomson, Hansen and Gibbons, and for the losers Higgins brothers. A feature of the game was a three base hit by Gonnell of the Fair Vale nine with the bases full.

A ball team from the Furness Withy office will play a nine from R. P. & W. F. Starr's on St. Peter's diamond this evening at seven o'clock. The batter will be Thomson and Harrington for the Furness Withy team, and Starr and Till for their opponents.

OUR OWN SALT

Forty Tons a Day at Malagash Mine — To Increase Output.

That salt produced in the maritime provinces will in a few years replace that imported from foreign countries and from other places in Canada was a prediction made by C. E. King, a representative of Chambers & MacKay, of New Glasgow, owners of the recently discovered Malagash salt mine, who was in the city today.

The mine was discovered about four years ago but active operations were commenced only a year ago and about forty tons are now being mined daily. Additions to the present plant now under consideration will give a daily output of about 100 tons. The installation of refining machinery is being contemplated for next year.

The limits of the Malagash mine are indeterminate, Mr. King said. Salt was discovered at a depth of eighty feet and borings to the depth of 600 feet have failed to find the bottom of the deposit. The area of the vein is thought to be at least twenty-five square miles.

MONTREAL FINANCES

Montreal, Aug. 20.—The first full report of the newly created finance department established by the administrative commission of the city for the year 1919, was issued yesterday and shows a balance of \$800,296, against a balance of \$203,969 at the beginning of the year. Assistant City Treasurer Collins utters a warning that it is necessary to continue the policy of economy so that the city's credit may be maintained and says that more than \$18,000,000 will have to be refunded between December 1, 1922, and September 1, 1923.

King Square Fountain Adds Another One To Its Attractions

The people who have had the contract for the amusements at the St. John Exhibition will be compelled to look to the fountain under the band stand in King square as a keen competitor, if it continues to wax in popularity as it has recently. Miniature yacht races and sailing, marine manoeuvres gave way to wading children and splashing dogs and they in turn politely assumed the background on the advent of the latest attraction which made its appearance this morning.

A young crane, evidently deficient of extended experience in the art of flight found its way to the square and this morning stalked about on its long, stilt-like legs, in the shallow waters of the basin, or rather contented snail under the cooling spray from the fountain. The usual curious and interested crowd of all ages, sizes and descriptions, gathered.

One tender hearted citizen tied himself to a nearby fish store and procured some pieces of fish which were thrown to the strange visitor and he youngsters in the crowd looked on with delight as they watched the pieces disappear through the long beak and followed their way as they progressed way-like down the bird's great length of throat. At noon the strange visitor had a big gallery, but soon afterwards he was taken away and his destiny may be Rockwood Park.

TRAIN CHANGES IN C. P. R. SERVICE

The C. P. R. have drawn up a temporary schedule, which will become effective on August 29. A change was found necessary owing to the large grain movement impending. On the date mentioned train No. 30 leaving St. John for Montreal at 6:45 p. m. and No. 40, arriving here at 6:20 a. m. will be cancelled. At 11, at present leaving at 3:30 o'clock will, on that date, leave at 4:30 p. m., and is due to arrive in Montreal at 8:30 a. m. instead of 7:20 a. m.

On the branch lines train No. 133 will leave our station for Woodstock at 8:05 instead of 8:05 p. m. After September 19 the Sunday train from Adam to St. Andrews will be cancelled. The train that leaves Edmundston at 9:45 a. m. will be changed to 10:40 a. m. and is due to arrive in McAdam and St. Stephen one hour later than at present. All the trains will be run on standard time.

The suburban service will continue as at present until September 18, when the 9:15 a. m., 1:23 p. m. and 10:15 p. m. departing and the 11:50 a. m., 4:25 p. m., 7:55 p. m. arrivals will be cancelled except on Saturdays, which service will operate until October 3. There will be no non-suburban train leaving at 1:30 p. m. and 10:15 p. m., but there will be none departing at 5:10. The balance of the service will remain as at present until October 8. All suburban trains are on daylight time.

THE SARDINE FISHERMEN DOING BETTER

After a slack and rather unpromising season up to the beginning of this week local fishermen are now facing a period of prosperity which if it continues will net them a neat return. For the last few weeks there have been plenty of sardines and herring running, but the market was very inactive. However, within the last few days the demand has opened and today six schooners, loaded to capacity, cleared for Eastport and Lunenburg.

One of the local fishermen, in conversation with a Times reporter this morning, said that if the present run of fish continued and the demand was sustained as at present until the end of the season, which is about the last week of September, the fishermen would have had a prosperous season. The indications, he said, were optimistic.

CEMENT PRICES

One of the city departments this morning, in trying to procure some cement from local dealers, was informed that there was none of the Canadian product on the market and was quoted English cement at \$8 a barrel and American manufacture at \$10. The last quotation on Canadian cement on the St. John market was \$5 a barrel, but quantities were small and delivery very uncertain.

Some contractors said that large stocks are on hand in some of the western warehouses. One of the city commissioners said this morning that he had heard considerable talk of a move on foot to commence the manufacture of cement in the maritime provinces.

GERMANY AND THE TREATY

Berne, Aug. 20.—Asked by Swiss newspaper men for his opinion on Germany's attitude today toward the peace treaty, while he was passing through Basel on his way to Lucerne, Lloyd George replied:—"Well, when the Germans have to choose between Bolshevism and the treaty of Versailles they certainly will choose the latter as the lesser evil."
