VOL. VI. NO. 43. TEN PAGES. WEDNESDAY MORNING, MAY 13, 1914. PROBS—PARTLY FAIR. PRICE TWO CENTS

ASQUITH'S BILL IS

Only Way to Reach an Agreed Settlement of Home Rule, He Believes.

REDMOND AGAINST MORE CONCESSIONS YET Nationalist Leader Has Little Faith in Proposal — Balfour and Lloyd George Cross Swords.

London, May 12.—That the House of Commons had and would maintain complete and ultimate mastery of the situation, and also that the only way to carry out any agreed settlement of the original measure, were two of the outstanding points in Premier Asquith's speech yesterday when moving the procedure resolution in the Commons.

Although the resolution covered a trip of bills to be forced through under the operation of the Parliament Act, general interest centered in the Irish bill.

The Prime Minister rather adroitly turned the tables on the opposition in pointing out that the Unionists had washed their hands of responsibility for the Irish government bill and hence any suggestion stage or debate in committee must prove entirely futile and a waste of time. He reiterated his desire never to close the door on a settlement, as a proof of which he intended to introduce amendment proposals, although the government would ask the house to give third reading to the original bill before the Wiltshire recess.

Home Law Minister, the Prime Minister with admitting that the Home Rule bill as it stood was unsatisfactory since he had found an amending bill necessary, while with regard to parliamentary procedure he charged that the government was encroaching on the privileges of the opposition to such an extent that in any other parliament it would have provoked violent scenes.

The statement of the prime minister has nevertheless relieved the tension. The opposition, seeing that the bill must become law, realize that their best course is to fight to secure special treatment for Ulster, and that even more generous terms will be offered by the government than those held out at the time of the second reading, providing for temporary exclusion, is now regarded as almost certain.

The premier's proposals displeased not only the Unionists but also the Nationalists. The House was astonished at the spectacle of John Redmond turning upon the government with threatening language. The Irish minister approved the amending bill if it was an agreement, but if not, he would hold himself absolutely free to deal with the bill when it arrived. He had not much faith in an amending bill. The cheers following his eloquent reiteration of the ultimate triumph of the Irish cause indicated that the rank and file of the Liberals sympathized with the uncompromising spirit of Redmond rather than with the conciliatory attitude of the premier.

The latter part of the sitting was marked by stormy passages, in one of which Lloyd George and Balfour crossed swords. The chancellor of the exchequer accused Balfour of meeting the conciliatory efforts of the government with an attempt to provoke civil war, because the occasion of this charge being the amendment of the bill in charge being amended, the amendment at the amending bill as being involved in mystery.

The conclusion of the debate found no improvement in the situation. The suspicion is now gaining ground that Redmond will seize the earliest opportunity, once the amending bill becomes law, of breaking with the government.

The third and final reading of the Home Rule bill will be taken up before the end of May, it was announced in the House of Commons this afternoon.

FLOREAL TRIBUTE FOR BURIAL OF MRS. PUGSLEY, FROM LIBERAL MEMBERS

Ottawa, May 12.—The Liberal members of the Commons through Chief Whip Pendergast arranged for a beautiful floral tribute to be placed on the bier of the late Mrs. Wm. Pugsley.

J. H. PLUMMER DENIES HE INTENDS TO RESIGN

Sydney, N. S., May 12.—President J. H. Plummer of the Dominion Steel Corporation when seen at his residence tonight respecting the report emanating from Montreal that he was about to resign the presidency of the company gave it a flat denial. He said the matter had not been discussed.

SOME IMPROVEMENT IN CONDITION OF AUSTRIAN EMPEROR

Vienna, May 12.—An official bulletin tonight says that the condition of Emperor Francis Joseph is stationary, except that there has been some improvement in the condition of the bronchial tubes.

INCREASED SUBSIDY FOR DRY DOCKS

Hon. Mr. Rogers Gives Notice Resolution to Raise Grant From 3½ to 4 P. C. Per Annum.

Ottawa, May 12.—The house had its working clothes on today and cleaned up a considerable number of the less contentious government bills on the order paper. Proceedings were quiet. The attendance small, the speeches brief and the legislative programme unexciting. The amendments to the grain act were passed after a couple hours discussion by the western members. First reading was given to Hon. Louis Coderre's bill respecting the manufacture, sale and handling of explosives, the amendment to the Canada Temperance Act were put through the final stage and Hon. Dr. Roche's bill to amend the Irrigation act was advanced to third reading.

Hon. Rodolphe Lemieux asked Hon. A. E. Kemp this morning whether the report was correct that he had attended the anti-home rule meeting in Toronto last Saturday. Mr. Lemieux said he had no fault to find with the sentiments expressed by Mr. Kemp. "I do not think the honorable gentleman is serious," remarked Mr. Kemp.

"Most serious," replied Mr. Lemieux. Mr. Kemp said he represented himself and not the government. He was glad that Mr. Lemieux agreed with the sentiments he had expressed.

Increased Subsidy for Drydocks.

Hon. Robert Rogers has given notice of a resolution providing for an increase in the subsidy provided by the government to encourage the construction of drydocks of the first class. The present act provides for a subsidy of three and one half per cent. per annum of the cost of the drydocks for 25 years over \$1,000,000. The government now proposes to increase the subsidy to four per cent. per annum.

During discussion tonight of Hon. C. J. Doherty's resolution respecting increased salaries of judges in the Quebec Superior Court, Mr. J. W. Fowler, Kings-Albert, N. B., advanced the opinion that ninety per cent. of the judges in Canada are paid more in salaries than they earned in private practice at the bar. Fifty per cent. of the judges, he added, are not required to work as hard as they did when practicing barristers.

The discussion took up a couple of hours and ranged practically from coast to coast. In addition to Mr. Fowler's comment there was an interesting opinion from H. B. Murphy, who took the ground that all Superior Court judges should be compelled to retire when they reached seventy-five years.

Mr. W. F. Carroll, Cape Breton; F. B. MacCurdy, and E. M. MacDonald urged more generous treatment for the judges and a general increase in salaries.

Eventually the resolution was passed and the bill based upon it given its first reading.

The house rose at midnight.

PASSED ABANDONED STEAMER; MAY BE HULK OF COLUMBIAN

The Karamea Passed Vessel in Mid-Atlantic—The Director Was Without Funnel.

Sydney, N. S., May 12.—The steamer Karamea, Captain Moss, which arrived at Sydney yesterday from London to load rails for Sydney, Australia, was seen by the steamer La Touraine to the effect that the latter had passed the vessel the day before in latitude 44.17, longitude 59.12 west, and that it was considered dangerous to navigation. The abandoned steamer had no funnel and shipping men are unable to make any conjectures as to her identity.

T. G. Tickler, the Unionist candidate, polled 5,471 votes to 5,193 for a Banister, the Liberal, giving the former a majority of 278 as against the majority of 608 for Sir George Doughty in the December election of 1910. The total vote polled today was 15,684, or 1,556 greater than at the last election.

The Liberals won the seat at the January election of 1910, T. H. Wing securing a majority of 322 over Doughty when the appeal was made to the

NOT SO MANY COMING FROM EUROPE THIS YEAR

Number of Immigrants to Montreal from Great Britain will be About Normal, However.

Montreal, May 12.—The falling off in emigration has not been so pronounced as most shipping men anticipated, apparently considering the depressed trade conditions here. It was stated at the Canadian Pacific offices today that bookings from Great Britain were about normal, though there was a marked difference in the number of passages booked from European places.

Unionists Retain Seat in Great Grimsby

T. G. Tickler Has Majority of Nearly Three Hundred Over Liberal Opponent—Total Vote of Winner Greater Than in Last Election.

London, May 12.—With a majority decreased by 420 votes in a greatly increased poll the Unionists today retained the parliamentary borough of Great Grimsby, Lincolnshire, in a bye-election necessitated by the death of the late member, Sir George Doughty.

T. G. Tickler, the Unionist candidate, polled 5,471 votes to 5,193 for a Banister, the Liberal, giving the former a majority of 278 as against the majority of 608 for Sir George Doughty in the December election of 1910. The total vote polled today was 15,684, or 1,556 greater than at the last election.

ST. JOHN'S CLAIMS WILL RECEIVE THE CAREFUL CONSIDERATION OF GOV'T

Delegation to Ottawa Well Pleased — Receive Satisfactory Assurance that No Agreement Will be Entered into Until Whole Situation is Dealt With by Cabinet.

HALIFAX NOT TO BE NAMED IN NEXT MAIL CONTRACT; COMPANIES WILL BE FREE TO CHOOSE

Hon. Mr. Hazen Assures Delegation New Wharves Under Contract to D. C. Clarke Will be Rushed Along and Ready in Time — St. John to Receive a Fair Show.

Special to The Standard

Ottawa, Ont., May 12.—Halifax will not be named in the next mail contract, and steamship companies will be given a free hand in the selection of their own port. Hon. Frank Cochrane, Minister of Railways, will give his attention to the question of the Gutelius agreement on his return, and it is likely that before it is renewed it will be under the consideration of the full cabinet.

This was the effect of the statement made to a strong delegation from St. John which met several of the ministers today to discuss the local situation. The delegation expressed themselves as thoroughly satisfied and well pleased with the reception given them and the interest taken in these matters.

Another important matter affecting St. John was assured by Mr. Hazen. He announced that he was in a position to say that the completion of new wharves under contract to D. C. Clark and the Kidd Company for use during next season would be hurried on as speedily as possible and would be finished in time.

The delegation included E. A. Schofield in addition to the St. John and Fairville representatives. The ministers who received them were Hon. J. D. Hazen, Minister of Marine and Fisheries, Hon. Geo. E. Foster, Minister of Trade and Commerce, Hon. Louis Coderre, Secretary of State, Hon. Robert Rogers, Minister of Public Works, and Hon. J. D. Reid, acting Minister of Railways. Hon. Mr. Pelletier, Postmaster General, Hon. Mr. Poirer, Minister of Agriculture, and Messrs. Fowler, Robitson, McLeod and Hart with Senators Daniel and Thorne also were present. The delegates were entertained at luncheon by Mr. Hazen.

Mayor Frink

Mayor Frink gave an exhaustive review of the part which St. John had played in providing wharf facilities for the C. P. R. and the understanding that these would always be maintained at least \$250,000. In view of the loss of the revenue from these wharves, showing that the city and port had lost \$250,000 in revenue as well as the cost of the wharves, he stated that the city and port would be free to choose the wharves they desired to build, and that the city and port would be free to choose the wharves they desired to build, and that the city and port would be free to choose the wharves they desired to build.

Mediators Working on Plan for Temporary Government Composed of Representatives of Both Factions.

Washington, May 12.—Elimination of General Huerta and the establishment of a provisional government in Mexico in which both the Huertista and the Constitutional faction would be represented is contemplated in a plan which the three South American mediators are now working out to be proposed for the solution of the entire Mexican problem.

This, the first intimation as to the details of the mediation plans, became known tonight, though neither the mediators nor the state department officials would make any statement as to how nearly complete is the plan to be submitted to the American and Mexican delegates when they meet the South American envoys at Niagara Falls, Canada, next Monday.

It was learned that the proposal might be that the setting up of a temporary government be undertaken by a commission composed of five persons, two of them to be named by Huerta, two by the Constitutionalists and the fifth by the mediators.

Vera Cruz, May 12.—Tampeco was under bombardment by the Constitutionalists the entire day. Admiral Mayo, commanding the United States ships lying off that port, reported that artillery fire had been in progress from nine o'clock this morning. Whether the rebels were gaining or not is not known. The British government, who are heavily interested about Tampeco, during the day ordered another warship to reinforce the British squadron in Mexican waters. The light draft cruiser Bristol received sailing orders for Tampeco. The ship carries a crew of nearly four hundred men and her draft working permit her to run up the Panuco river to Tampeco, and if necessary land men to protect British oil wells.

Mr. Pigeon also presented the case of St. John and answered a number of questions addressed to the delegation by the ministers. Hon. Mr. Hazen, Minister of Public Works, and Hon. J. D. Reid, acting Minister of Railways, Hon. Mr. Pelletier, Postmaster General, Hon. Mr. Poirer, Minister of Agriculture, and Messrs. Fowler, Robitson, McLeod and Hart with Senators Daniel and Thorne also were present. The delegates were entertained at luncheon by Mr. Hazen.

NEW BRUNSWICK FAVORS CANADIAN BAR ASS'N

J. A. M. Aikin, K. C., M. P., of Winnipeg, Host to Barristers.

PLEASANT FUNCTION IN THE UNION CLUB

Distinguished Host Tells of Objects of Association — Meets With Approval of All Present.

An interesting function took place at the Union Club last evening when J. A. M. Aikin, K. C., M. P., of Winnipeg, entertained the members of the St. John Bar, and spoke of the importance of the Canadian Bar Association in maintaining the dignity of the profession, and utilizing the influence of the bar in moulding public opinion and promoting progress and prosperity.

Interesting speeches expressing the spirit of Canadian unity were also made by M. G. Teed, K. C., J. B. M. Baxter, M. L. A., H. A. Powell, and others.

The Guests.

Mr. Aikin's guests were: Chief Justice McLeod, Hon. A. St. White, Hon. H. A. McKeown, Hon. W. C. H. Grimmer, H. A. Powell, K. C., J. R. Armstrong, K. C., E. T. C. Knowles, K. C., W. B. Chandler, K. C., M. G. Teed, K. C., C. B. R. Armstrong, J. A. Sinclair, T. A. M. Skinner, E. C. Weyman, G. H. V. Belyea, S. B. Euston, H. A. Porter, J. F. H. Teed, H. W. Robertson, T. P. Regan, W. A. Ewing, C. A. A. Wilson, K. C., J. King Kelley, K. C., L. P. D. Tilley, K. C., F. H. Taylor, A. W. Baird, C. H. Ferguson, B. S. Smith, J. A. Barry, H. B. Keith, S. W. Palmer, H. O. McInerney, K. J. Maclean, R. G. Murray, J. D. P. Lewis, B. L. Galloway and C. F. Sanford.

The menu was as follows:

Grape Fruit Cocktail.
Consomme Royale.
Boiled Harbor Salmon. Sauce Tarrar.
Sweetbreads and Mushrooms.
Creamed.
Roast Spring Lamb, Mint Sauce.
Roast Ribs of Beef, Dish Gravy.
Asparagus, Boiled Kidney Potatoes.
Champagne Punch.
Russian Salad.
Frozen Pudding, Charlotte Russe.
Bar-Le-Duc Jelly.
Celery.
Cream Cheese.
Union Club, St. John, N. B., May 12th, 1914.

C. F. Sanford.

ARCHBISHOP OF MEXICO CITY ON WAY TO ROME TO DISCUSS SITUATION WITH POPE, SAYS RIOT OF LOOTING PROBABLE.

Vera Cruz, May 12.—The Most Rev. Jose Flora Del Rio, Archbishop of Mexico City, and the Right Rev. Jesus Maria Eschavarria, bishop of Saltillo, reached here today on a train board which were eighty American refugees, eighteen of whom came from Saltillo. Most of the refugees had spent two or three weeks in prison.

The archbishop and bishop are on their way to Rome to see the pope. Whether he will recommend to the pope any line of action is considered doubtful, but he is convinced that the pontiff would use his high office to effect a lasting peace.

The archbishop let it be known here that he has grave fears regarding the fate of thousands of non-combatants in the capital, and he expressed his belief that should the Zapatista forces enter the city there would be a riot of looting, especially of the cathedral and the churches, which are popularly supposed to be filled with treasure.

Frederick Adams, confidential man of Lord Cowdray, accompanied the party, but his interest, he insisted, was merely to look after the church men in his capacity as a British subject.

Archbishop Del Rio, whose appearance was more that of a Spaniard than of a Mexican, was a picturesque figure as he alighted from the train. He wore a linen duster and cape cut along the lines of the clerical garb. He was accompanied by a number of interested about Tampeco, during the day ordered another warship to reinforce the British squadron in Mexican waters. The light draft cruiser Bristol received sailing orders for Tampeco. The ship carries a crew of nearly four hundred men and her draft working permit her to run up the Panuco river to Tampeco, and if necessary land men to protect British oil wells.

Mr. Pigeon also presented the case of St. John and answered a number of questions addressed to the delegation by the ministers. Hon. Mr. Hazen, Minister of Public Works, and Hon. J. D. Reid, acting Minister of Railways, Hon. Mr. Pelletier, Postmaster General, Hon. Mr. Poirer, Minister of Agriculture, and Messrs. Fowler, Robitson, McLeod and Hart with Senators Daniel and Thorne also were present. The delegates were entertained at luncheon by Mr. Hazen.

NEW BRUNSWICK FAVORS CANADIAN BAR ASS'N

(Continued from page 1) promoting Canadian unity and aiding in the development of a national spirit...

He said the meeting of the American Bar Association at Montreal last year, which was attended by Lord Haldane and other distinguished jurists afforded the inspiration for the movement to form a Canadian Bar Association...

Prominent in All Communities.

Mr. Alkin observed that members of the bar were prominent in all communities, and by forming a Canadian association could do much to influence the opinion and will of the people...

The objects of the association were to promote the administration of justice, advance the science of jurisprudence, work for uniformity of legislation in the provinces and promote the honor of the profession.

This last object was of special importance. In order to achieve these objects there was need of cordial intercourse between members of the bar in the different provinces and an association would be an important means of developing such intercourse.

A good deal of the provincial spirit still prevailed even among lawyers, but we are all Canadian. We had a big country, but bigness is not a cause of pride, our ambition should be to make Canada great.

In Sir John A. Macdonald's day there were men who said the only hope for Canada was annexation to the United States or a large population in the west. Canada's great problem was that of promoting solidarity among her people.

A small proportion of the western people came from eastern Canada, and the problem of assimilating the newcomers was difficult, if not impossible.

Manitoba had taken its jurisprudence from eastern Canada, and proclaimed the reign of reason, justice and truth. By the aid of Canadian jurisprudence much could be done to amalgamate, if not assimilate, the various peoples pouring into the west.

Sentiment Binding

"We talked about binding the provinces together by railways. What would bind us together was a community of business interests and a community of national sentiments. Sentiment would hold us together when our railways were rusting.

Speaking of the problem of establishing cordial intercourse between east and west, Mr. Alkin said: "You have your commercial and other organization extending over the Dominion. But the lawyers who belong to the most public spirited association are still provincial. If as Lord Haldane said the legal profession can mold public opinion and forge the general will, then the powers of an association embracing all the bar societies are such as to appeal to the imagination and inspire a sense of new possibilities and responsibilities.

MR. WALKOLA Y.M.C.A. ANNUAL MEETING HELD

Receives appointment at meeting of Presbytery, yesterday - Celebrate Seventieth Anniversary.

The presbytery of St. John held a special meeting in St. Andrew's church yesterday afternoon. The members of the presbytery present were Dr. J. H. McVicar, moderator; Rev. Wm. Townsend, Rev. T. A. Mitchell, Rev. J. A. McKelgan, Rev. F. W. Thompson, Rev. W. W. Malcolm, Rev. Gordon Dickie, Rev. J. H. A. Anderson, with elders S. R. Jack, W. C. Whittaker, Robert Scott and A. McAfee.

The first matter dealt with was the resignation of Rev. W. W. Malcolm from the pastoral charge of Lorneville, Messrs. A. McAfee, T. J. Balbrath and Mr. Kearns, representing the congregation spoke in very high terms of the work done by Rev. Mr. Malcolm during his ministry there.

Dr. Smith presented a call from the congregation of Prince William to S. S. Thompson, a recent graduate of the Halifax Presbyterian college. The call was signed by 100 communicants and 102 adherents and was accompanied by a guarantee of a thousand dollars annual stipend, with use of manse and vacation, Robert Scott, elder, read the call and expressed the strongest sympathy of the presbytery.

Dr. Smith presented a call from the congregation of Lorneville to Rev. Mr. Malcolm was appointed moderator of Lorneville section during the vacation.

The resolution regarding the death of Mr. Fairweather was moved by J. Roy Campbell, K.C., and seconded by F. R. Taylor. It was as follows: "Resolved that the members of the St. John Law Society place upon record their sense of deep regret at the death of Mr. Stewart Lee Fairweather, formerly a member of the society."

"He was a member of the society for several years but devoted his attention rather to the business of insurance which was carried on by his father, the late Mr. Arthur C. Fairweather, in partnership with his sons, rather than to the practice of his profession. For some time past, owing to ill health, he was not actively engaged in business.

"In his business associations he was highly esteemed by all with whom he came in contact, and in his social relations his engaging and genial disposition secured for him the esteem and regard of his many friends; and his death will be sincerely mourned.

"And further resolved, that a copy of these resolutions be forwarded to the members of his family with an expression of sympathy of the members of the society."

The meeting last evening was the fifth annual meeting since the new building was erected. In the opening paragraph of the report the directors state: "The senior membership and activities have never developed as we expected they would in the new building, but the physical work continues to grow, and the boys' division is now larger, and the detailed report will show more active than last year which

The immediate future the appropriation must be considerably increased if the appearance and value of the building are to be preserved. The trustees' account shows an outstanding liability on the cost of the property of \$4,850.00. The building and contents are insured for \$35,000.00.

Port of Spain, Trinidad, May 12.—Venezuelan revolutionists, who are believed to have made their way down from British Guiana frontier, have seized the small towns of Imataca and Tucupita on the Orinoco river. The collector of customs at Imataca is a prisoner; one official at Tucupita was shot. There are both United States and Canadian interests at Imataca.

was one of the most successful we ever had. We are glad of this as we exist largely for the boys and only as we succeeded here, so will the future of the Y. M. C. A. develop in St. John.

The report showed that the decline in senior membership reduced the influence of the association among the men of the city. A paragraph on the financial standing read: "Your directors regret that they cannot give as favorable a report on the state of your finance as the result of last year's transactions as we can in your other departments of work. Your income is reduced and the expenses have increased. We have closed the year with a deficit which will be given you in detail in the treasurer's statement. The question of ways and means of increasing income from the various sources to meet the running expenses of the association is a serious problem and it will be necessary for the incoming officers to immediately grapple with this problem."

An itemized account was given of the work carried on during the year in the religious, educational and physical departments showing what success had been met with. The work in the boys' department was also shown. It was reported that the directors had made extensive repairs to the building and that it was realized that in

the immediate future the appropriation must be considerably increased if the appearance and value of the building are to be preserved. The trustees' account shows an outstanding liability on the cost of the property of \$4,850.00. The building and contents are insured for \$35,000.00.

An Author's Experience WITH DR. CHASE'S NERVE FOOD

Shock and Overwork caused Nervous Breakdown—Never found anything to compare with Dr. Chase's Nerve Food as a Restorative.

Miss Innes is widely known in New York, Toronto and other large centres as a Teacher of Dressmaking and as author of the most complete work on this subject: "Scientific Dressmaking and Millinery." This book has been ordered by the government for use in Women's Institutes throughout this province, and is being put into practically all Public Libraries. The experience which Miss Innes has had with Dr. Chase's Nerve Food is told in such an interesting manner in her letter that we shall quote it in full.

Miss I. Innes, 245 Huron St., Toronto, writes:—"I have a strong constitution and do not neglect the health as many do whose strenuous lives of overwork lead to breakdown of the nervous system. Consequently when, on receipt of a telegram announcing the death of a brother who was very dear to me, the nerves failed me, I went to my doctor and his prescription acted beautifully and restored the nervous system for a time. Again in New York I felt the need of a tonic and had the doctor's prescription filled but to no avail, and just here I want to emphasize the necessity of going to a reliable druggist who you know will use only the best and purest drugs. I was benefitted to some extent by trying a prescription which is used extensively by stock brokers on Wall Street, where fortunes are made and lost in a day, and the nerves give way under the enormous strain.

This helped me but I am writing this letter to say that nothing I used could for a moment be compared to Dr. Chase's Nerve Food. This treatment restored my exhausted nerves, gave me new vigor and energy, and banished the many distressing and disheartening symptoms which only nervous people will understand. I know there are authors, journalists and business men with whom I come in contact daily who should know about this great nerve restorative. I know there are women in the home straining the last nerve to make the best use of the income in these times of high prices and whose nerve cells have been sapped by worry and anxiety until they live in misery and do not understand the reason. It is because I know this that I want to tell these nervous, worn out people about Dr. Chase's Nerve Food. From my own experience I know just how they feel and just as certainly know that Dr. Chase's Nerve Food will prove a wonderful blessing to them."

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50, all dealers or Edmanston, Bates & Co., Limited, Toronto. Ask your druggist for three months' treatment. 12 boxes for \$5.00

SWP

Economy in painting results from the maximum of good looks, and reliable protection for the longest possible length of time, at a minimum cost per year.

Cheap paint doesn't cover as well or wear as long as SWP—figure this out yourself

SWP, \$2.50 per gal. covers 425 feet 2 coats—cost per 100 sq. feet, 58c.
Cheap Paint \$1.75 per gal. covers 280 feet 2 coats—cost per 100 sq. ft., 63c.
SWE, \$2.50 per gal. lasts 6 years—cost per gal. per year, 42c.
Cheap Paint \$1.75 per gal. lasts 3 years—cost per gal. per year, 58c.
Leaving out the fact that SWP covers more surface, you find that its durability alone makes it the most economical paint.

SOME SPECIFICATIONS FOR GOOD PAINTING

Proper Covering, Painting, Enameling and Finishing of Woods, essential to good Workmanship—How to cover Brick and other surfaces in an Up-to-date manner—Other Useful information.

HELPFUL HINTS FOR PAINTERS.

Painting New Exterior Woodwork.

Medium—All knots, resin and sap portions shall be properly shrouded. Paint one coat white priming brushed well into the wood, after which all nail holes, open joints and other imperfections shall be closed solid with putty containing 20 per cent. white lead, then apply two coats of paint, colors to be selected. Each coat must be thoroughly dry before the application of another. Paint the back of all window and door frames one coat before setting, sash runners of window frames to receive two coats of oil stain, if required, the last coat to be applied at completion. No paint to be applied during wet or foggy weather.

First Class—Wood work should be painted as above specified, using one additional coat.
Repainting of Exterior Woodwork. Remove such old paint as may be necessary from exterior wood work by scraping, burning or with paint remover as conditions may require. Sandpaper and touch up with putty one or two coats as found necessary all of that portion from which the old paint has been removed. Paint all wood work two coats, colors to be selected. Do all necessary sandpapering and puttying.

Staining of Exterior Woodwork.

Medium—All exterior wood work (or a portion as the case may be) to receive one coat of linseed oil stain, brushed well and uniformly into the wood. Color to be as required. Fillets to be selected for their permanency of color. Vehicle to consist of 40 per cent. of 160 degrees benzol and 60 per cent. raw linseed oil, all nail holes and other imperfections to be closed with lead putty colored to match stain, then apply one good coat of raw linseed oil containing 10 per cent. turpentine.

First Class—Specify one additional coat of oil containing 10 per cent. turpentine.

Staining Shingles—Dip shingles two thirds their length in stain specified as above to color to be determined. After shingles are in position touch up and apply one coat of linseed oil containing 10 per cent. turpentine.

Repainting of Exterior Woodwork.

Prepare and retain all of such portions of exterior wood work as may be found necessary, color conforming closely to original stain. Coat all stained wood work with two coats of linseed oil containing 10 per cent. turpentine. Between first and second coats close up all imperfections with putty colored to match stain.

Painting New Exterior Brick Work.

Paint all new exterior brick work two good coats of Venetian Red containing about 20 per cent. white lead, the vehicle to consist of 80 per cent. linseed oil and 20 per cent. turpentine, after which apply one coat of flat brick color, shade to be selected. Care must be exercised to cover thoroughly and cut in neatly each stretch so as to produce a uniform flat surface. This color must not be worked to thin.

Repainting Old Exterior Brick Work.

Close up all open joints and other imperfections. Touch up with paint all such places including any portion

from which the paint has been badly worn. Paint all exterior brick work one coat of Venetian red containing about twenty per cent. white lead, the vehicle to consist of eighty per cent. linseed oil and twenty per cent. pure turpentine, after which apply one coat of flat brick color, shade to be selected. Care must be exercised to cover thoroughly and cut in neatly each stretch so as to produce a uniform flat surface. This color must not be worked to thin.

All authorities agree that pure raw linseed oil and pure spirits of turpentine are the best vehicles for exterior paints. The vehicle of first or priming coat on new wood, also second coat should consist of eighty per cent. pure raw linseed oil and twenty per cent. pure spirits of turpentine, the first coat ninety per cent. pure raw linseed oil and ten per cent. pure spirits of turpentine, and the second coat to contain necessary fillers. When four coats are used, the first, second and third coats should be composed of eighty per cent. oil and twenty per cent. turpentine, the fourth coat ninety per cent. oil and ten per cent. turpentine.

There exists some diversity of opinion as to the best paint pigment pigments in combination. How necessary it should be that the construction of a paint film be as near perfect as possible. The necessary of this should be apparent to us all, especially when we are confronted with the fact that the average paint coating is only three one-hundredths of an inch thick, and yet this thin coating is required to withstand expansion and contraction of the underlying surface, abrasion or wear from storms, dust and sand, or rain, sleet, hail, and absorbing, drawing and expanding influences of the sun's rays and contraction from the cold of winter. It must have both hardness to withstand to reasonable extent this surface wear, and yet enough elasticity to meet the internal strain and to conform to changes in the underlying surface, and must penetrate and cling to the surface upon which it is applied. It must also retard and prevent from access to the underlying surface, the moisture and atmospheric gases which cause decay, and, if possessing the virtues of a good paint, it must in the course of time, when repainting becomes necessary, present a suitable foundation for the new paint coating.

It is generally accepted that a white or tinted base paint containing about seventy-five per cent. white lead and twenty-five per cent. zinc oxide is of a high standard. White lead, near or at the sea shore, also in the southern states it can be improved by a chance to the following: sixty per cent. white lead and forty per cent. zinc oxide. The purpose in combining these two best paint pigments is, that the one makes strength of the other, giving us an ideal paint coating. The zinc makes the film stronger and harder, also practically non-absorbent by reason of those qualities and its fineness of texture, fills up the voids caused by the coarser pigment. After a most thorough and practical investigation as to results, I recommend the above combinations, having used them in my practice for years. I have the manufacturer combine and grind the two pigments together,

law to become law was moved by Councillor Bryant and seconded by Councillor Black.

In speaking of the bylaw Warden McLellan said that he had recently visited the works at Courtenay Bay. The cut for the dry dock had been cut down a considerable distance but there was fifty feet yet to dig away. The cut had the same effect as the barrel of a gun and the force of the explosions was directed against the city and for this reason were felt in the city. During the last few days, however, the explosions had been less violent and the warden thought that the matter would no longer cause any great annoyance.

Boiled Frosting. One cupful sugar, whites of two eggs, one half cupful water, one teaspoonful vanilla or one half table-spoonful lemon juice. Make the same as White Mountain Cream.

Heart and Nerves Were Bad.

Could Not Sleep.

To the thousands of people who toss on a sleepless pillow night after night, or who pace the bedroom floor with nerves on the jump, the heart action all wrong, and to whose eyes sleep will not come, Milburn's Heart and Nerve Pills offer the blessing of sound refreshing slumber, as they restore the equilibrium of the deranged nerve centres and correct the wrong action of the heart.

Mrs. Charles Teel, Horrocastle, Ont., writes: "Just a few lines to let you know what Milburn's Heart and Nerve Pills did for me. My heart and nerves were so bad I could not sleep, and the least noise or excitement would make me feel so that I used to think I was going to die, and I would tremble until I could hardly stand. I had a doctor, but he said it did not do me much good. At last I tried Milburn's Heart and Nerve Pills and can certainly say they did me a great amount of good. I can recommend them to anyone who is suffering as I was."

Milburn's Heart and Nerve Pills have been on the market for the past twenty years, and have done more to steady shaky nerves and strengthen weak hearts, than any other known preparation.

Price, 50 cents per box, or three boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

PORTAGE VALE NEWS

Portage Vale, May 12—The ladies of the Baptist Missionary Aid Society that held a public meeting in the church Sunday morning which was largely attended. The president, Miss Davidson in the chair. A splendid programme was carried out which was very much appreciated. The address of the morning was given by Mrs. M. S. Cox, who told of the early history of the Women's Missionary Society in the Maritime Provinces and also spoke of the great need of mission work. Mrs. Cox, who is a former school teacher of this place, has many friends here who hope that the day is not distant when she shall return and speak to us again.

On the north slope of the hills some snow can still be seen, but a little spring work is being done. A few potatoes have been planted and some seed sown.

Miss Ena Hunt and Mrs. R. H. Gifford spent the week-end at Miss Hunt's home at Anagnone Ridge.

Mrs. Geo. Teakles, Boston, is the guest of friends here.

Albert Davidson and Mr. Goddard found a den of five young foxes a short time ago, they also captured the old one.

In St. Stephen.

"The new boot and shoe factory in St. Stephens is coming along in fine shape," said C. H. Maxwell, of St. Stephens, who was in the city yesterday. "About 75 persons are now employed in the factory and Mr. Clark, the manager expects to employ 100 hands before very long. Many of the people at work in the factory came to St. Stephens from the States where Mr. Clark formerly was engaged in the manufacture of shoes." Mr. Maxwell said business conditions in St. Stephens appeared to be good, and everybody was much interested in the possibility of harbor development at Oak Point where government engineers are now making a survey.

LIFE INSURANCE FOR YOUR HOUSE

A TREE often lives several hundred years. Nature has protected the wood by covering it with bark to shield it from the elements.

When trees are sawed into lumber, Nature's protection is lost. Therefore, the wood used in your house must be paint protected to insure it against wear and weather.

"100% Pure" Paint is a good life insurance policy on your house. It protects against decay—pays for itself, over and over again, in the repairs it saves—adds value and beauty to the building as well as long life to the wood.

Martin-Senour "100% Pure" Paint

is what we recommend for all outside and inside painting. "100% Pure" is genuine White Lead, Oxide of Zinc, purest Colors, and Linseed Oil—ground to extreme fineness by powerful machinery—the combination of which produces a paint that is greatest in hiding, covering and wearing qualities—and makes it the cheapest to use as well as the most satisfactory.

Let us help you in selecting colors for your spring painting.

ST. JOHN, N. B., WEDNESDAY, MAY 13, 1914.

THE PROBLEM OF CANADA.

It was an earnest and illuminating address that Mr. J. A. Alkin, K. C., M. P., of Winnipeg, delivered to members of the legal profession who were his guests at dinner in the Union Club last evening. While its purpose really was to point reasons why the barriers of the various provinces of Canada should be removed, to some extent at least, at the expense of the older eastern provinces. The Westerner, strong, virile, rejoicing in the optimism of the west, is apt to regard the eastern provinces with a feeling almost akin to tolerant contempt; we are unprogressive, we are provincial, we lack the broader vision that comes with the prairies. Consequently there is reason for the fear expressed by Mr. Alkin last evening that the great problem of Canada of the future is that of the consolidation and solidarity of the Dominion.

The thought which gave birth to the Canadian confederation was a noble inspiration. The men who framed the articles of Confederation had their vision of the future, possibly saw in their minds' eyes the day, now not far distant, when the west country would dominate the other portions of Canada. One of the ideas of the Dominion Government soon after Confederation was to link the Maritime Provinces to Ontario and Quebec by the steel bonds of the I. C. R. Later it was decided to link the West to the rest of Canada by the C. P. R.; still later by the Transcontinental and Canadian Northern. These have served their purposes but will they suffice in the future?

At the rapid rate of growth of the western provinces and the great influx of new settlers, not all of them British or Eastern Canadian, it may not be long before there is a new spirit in the West and it is this spirit that such movements as the formation of the Canadian Bar Association can help to check. There should be all encouragement to any plan which will aid in the closer cementing of the bonds between Eastern and Western Canada. The people should be kept together by ties of business interest and national sentiment, and all projects having for their purpose the uniting of business or professional men into Dominion-wide organizations with common interests are to be commended.

The barristers of New Brunswick have done well to join with their colleagues from the other provinces of Canada in the Canadian Bar Association. Not only will such an organization naturally bring to its members benefits in the line of their own profession, but it will be of the greatest use in bringing all parts of Canada into closer touch with each other. In this way it may be of much service in the solution of what Mr. Alkin states will be one of the great problems of the Canada of the future.

CONCERNING MR. CARVELL

The bought-and-paid-for-Telegraph rushes to the defence of Mr. Frank B. Carvell, K. C., M. P., who it claims has been made the subject of "juvenile abuse" by the Standard. It is also kind enough to assert that the reason his newspaper is criticizing Mr. Carvell at this time is found in the fact that he is to be counsel for Mr. Dugal in the charges to be heard before the Royal Commission and concerning Premier Fleming and Hon. Mr. McLeod.

If the Telegraph intends to convey that because of Mr. Carvell's connection with the Dugal charges he is entitled to immunity from criticism it should suggest to the member for Carleton that with the added dignity of counsel for Mr. Dugal which has come to him it is unbecoming for him to make such statements as he has been indulging in in the House of Commons. It might also suggest to his Liberal colleagues from Nova Scotia that as he is now a mighty man in the land it is hardly the correct thing for them to object to the trade of abuse he launched at the heads of the Fenian Irish veterans of the sister province. In the course of that debate

Mr. Law, Liberal member for Yarmouth, intimated that the member for Carleton was hardly clothed in his right mind. Surely this was almost a criminal offence if it is to be judged by the Telegraph's conception of the course to be adopted when dealing with that gentleman.

BREAKERS AHEAD!

Hon. George P. Graham, ex-Minister of Railways and Canals, struck a snag the other night at the Montreal Liberal Club in the course of his speech condemning the Borden Government for exposing the National Transcontinental scandal. He struck a snag in the shape of a prominent Liberal member of the club, Mr. A. K. Cameron who gave as his belief after Mr. Graham's two-hour speech, that the Liberal party had not been making progress since 1911, and that he did not see any immediate evidence of hope for the future.

After reviewing the political events of the last thirty years to show what influences had led to the rise and downfall of the Conservative party and the succession of a Liberal party that in its turn had, after fifteen years, gone down to defeat, Mr. Cameron presented a resolution for the club to consider, and accept if they would, that in the present condition of affairs the time was ripe for the Liberals of Canada to have a great convention, in which every part of the great Dominion would have a voice, and in which the voices of the people could be heard and their desires translated into planks of a platform on which the Liberals would appeal to the public on the occasion of the next election.

While Mr. Cameron presented his idea that the Liberals, during their tenure of office, had been gradually getting further and further away from the people whom they were supposed to represent, and that after 1896 they had lost many old friends because they had failed to implement pre-election promises, some uneasiness was displayed among the members, but an occasional "hear, hear," showed that there were some who agreed with the speaker.

Such a scene as described above is an evidence of the disintegration of the Laurier party. It is looking around for a remedy, which is hard to find. Its friends are leaving it because the leaders of the party have been false to their promises. Mr. Cameron showed courage in hearing the lions in their den, but he must know that it will take more than a convention to restore the shattered Liberal party to its former position. It can't be done, and his resolution was not accepted.

LIBERAL PREMIERS ON C. N. R.

There is a sting in the correspondence that the Government has had with the Liberal premiers of Canadian provinces that the Opposition at Ottawa will hardly fail to notice, says the London Free Press.

Here were leaders in their respective provinces—east and west—who were in a position to know the vital character of the situation, and who, because of their knowledge, urged upon the Government that the necessary aid should not be withheld.

One may scrutinize the correspondence from beginning to end in vain to discover one word that harmonizes with the position of the Ottawa opposition, which is that better terms should have been made with the C. N. R. In fact, terms were not the point at all with the provincial premiers.

The saving of the transcontinental railway from ruin was the stake. The Government policy provides for the completion of the Canadian Northern. But it goes much farther. While it lends the security of the country, it demands in return the security of the railway. More than this, the country is given possession of one-tenth of the common stock of the whole enterprise, and has an active voice in the management of the road.

Diary of Events

THE PASSING DAY

FIRST U. S. WAR AGAINST MEXICO Sixty-eight years ago today, May 12, 1846, the United States formally declared war against Mexico, and Congress authorized President James Polk to raise 50,000 men and \$10,000,000 to carry on the conflict. It was only after a bitter and acrimonious debate, during which the war passions had become so violent that Congress took this action. A boundary dispute between Mexico and Texas was the cause of this appeal to force, although the immediate cause was the invasion of Texas by a Mexican army and the capture of a small body of American troops. The news of this ambush reached Washington on the eleventh day of May, and President Polk issued Congress the "Mexico has passed the boundaries of the United States" and "shed blood upon American soil" and issued a formal declaration, the conflict had actually commenced with the battle of Palo Alto, in which the American army of Gen. Zachary Taylor was completely victorious. Before the thirteen Mexicans had been driven out of the disputed territory and across the Rio Grande, although, in the absence of telegrams, Congress had no knowledge of the fact.

The American army of invasion, the President wrote, "fought men as brave as themselves, a subtle, spirited race, tenacious to the last." In his history the President referred to the boundary disputes of the United States with Great Britain, but he added, "The Texas boundaries were another matter. Here the government dealt with a rival and neighbor with whom no conflict was necessary." He relates how the United States "seized not merely the disputed territory, but the whole country of the Pacific slope beyond, from Oregon to the Gila River, to which the United States had a considerable right except that of conquest."

For the 700,000 square miles of Mexican territory, the Washington government agreed to pay Mexico \$15,000,000, or a little over twenty cents for the whole. But that sum did not represent the entire cost of the acquired territory. Over \$10,000,000, or other incidental expenses of the war cost about a third more. The loss of American lives was about 15,000, of whom a third were killed in battle and the remainder succumbed to disease.

The death roll of the Mexicans, although not exactly known, probably numbered about 40,000. President Polk, who settled the Oregon boundary dispute with England by compromise and the Texas boundary controversy by war, was succeeded as President by General Zachary Taylor, whose victories over the Mexicans had made him a popular hero.

FIRST THINGS

The first meeting of the Society of the Cincinnati, the oldest patriotic of the United States, was held in the Verplanck House, the headquarters of Baron Steuben, on the Hudson near Piquette, on the 23rd of May, 1783. The founders were the officers of the American and French armies stationed at the Hudson at the close of hostilities in the American revolution. The society was named after the great Roman warrior, Lucius Quinctius Cincinnatus, and the Imperial eagle was chosen as its emblem. Membership is hereditary, and the rolls of the society now include about a thousand names. George Washington was the first president-general, and his successors were Alexander Hamilton, Charles C. Warren, Thomas Pickens, Aaron Ogden, Morgan Lewis, William Popham, H. A. Seaman, Dearborn, Hamilton Fish, William Fay, and Winous Warren.

From its birth the society was denounced in many quarters as being undemocratic, aristocratic and snobbish, and among its early critics were Thomas Jefferson, Benjamin Franklin and John Adams.

HISTORIC DAYS IN CANADA

Sixteen years ago today the Earl of Aberdeen's resignation as Governor-General was accepted, and one of the most brilliant administrations in Dominion history came to an end. Few statesmen of the crown have attained so wide a popularity among Canadians as Sir John Campbell Gordon, seventh Earl of Aberdeen. He came to Canada in 1895, being at that time in his forty-sixth year, and was accompanied by his charming and gifted wife, daughter of Lord Tweedmouth and a direct descendant of Robert Bruce. Lady Aberdeen was an accomplished orator, an able worker in the movement for promoting the welfare of women, and possessed of many talents, and she soon endeared herself to all Canadians. In 1898 she organized the Irish Village at the Columbia Exposition in Chicago. She was at that time president of the International Council of Women, and held that position throughout her stay in Ottawa. She was interested in many Canadian charities and humanitarian movements, and founded the Victorian Order of Nurses in the Dominion.

Photography was one of the many accomplishments of the Countess, and with camera and pen she produced one of the most interesting Canadian travel books, "Through Canada with a Kodak." The Earl became Lord-Lieutenant of Ireland in 1905. The earldom dates from 1681. Other titles held by the family include Vis-

Little Benny's Note Book

BY LEE PAPE.

The fellow was awl standing around after school this afternoon, sundring wat to do, and Sam Krawas sed, I so warn thurs a lot of loose wood around the kornir, lets go around and get it and bld a bon fire. Which awl the fellow startid to go around to do, and wen we wa haft say dwn to the kornir Puds Simkins sed G, wat if Flatfoot sees us, Flat-foot being a pieceeman, wich we call him that bekause we dont no his reel nam on even if we did we wood properly call him Flatfoot jest the saim.

Wat if he duz, sed Sam Krawas, I aint afrayed of him. I can beet him running eny day, sed Sid Hunt. G whose afrayed of him, I sed.

If he sed anything to me, sed Reddy Merly, Id jest tell him to his face I was going to bld a bon fire and then Id go ahead and bld it. We aint afrayed of him, awl the rest of the fellos sed, and Puds Simkins sed, I aint afrayed of him elthir.

Then wat are you talking about, sed Reddy Merly. I jest sed, Wat if he sees us, thats awl, sed Puds. And we kepp awn going and Sam Krawas showed us ware the wood was, being a hole lot of little brantches out awf of a tree, and we awl picked up awl we wood hold, and as soon as we terned around the kornir agin to take it back who was leaning aginst a telegraf pole bot Flatfoot, and sum of us startid to stop and Reddy Merly sed, Go awn, go awn, wawk rite past him, wats you afrayed of, he wont say anything.

Wich we startid to wawk rite past him, and he sed, Hay, wat are you kids doing with awl that wood. And we awl stoped but nobddy sed wat we was doing with it, and after a wile Sam Krawas sed, Tell him Reddy, tell him.

Well, wat are you doing with it, sed Flatfoot, orill hold. Well, we're going to bld, sed Reddy Merly. Bld wat, sed Flatfoot.

A bon fire, sed Reddy Merly. And he kwick dropped the wood he was carrying and ran like the dickins, and the rest of us awl dropped our wood and ran after him, leaving Flatfoot standing there with awl the wood as if he was going to bld a bon fire himself.

with his parents, Mr. and Mrs. J. Wesley Newcomb. Friday the 15th will be observed as Arbor day in the public schools here.

Mrs. Warner Douthright is suffering with a slight attack of appendicitis. Dr. Carvath is in attendance. Mr. and Mrs. John L. Peck and Mr. and Mrs. C. Allison Peck and son of Hillsborough and Charles L. Peck of Hopewell Cape spent Sunday at Hopewell Hill with relatives.

A basket social will be held in the public hall at Hopewell Cape on Thursday evening. Aubrey Fales, the eldest son of James Fales is quite ill and is under the care of Dr. Carvath. Owing to a run-off on the Salsburg and Albert Railway the incoming train on Saturday was delayed over eight hours and no mail was delivered here until Monday morning.

Dr. and Mrs. S. C. Murray and Misses Ethel and Lillian Peck attend the funeral of Miss Wilfred Murray in Sackville on Friday last.

The funeral of the late Arthur Bishop who died on Friday at his home in Riverside was conducted by the Rev. David Jenkins on Monday afternoon, service being held in St. Alban's church previous to the interment in the Hopewell cemetery.

Arthur Russell returned on Friday from a visit to his sister, Mrs. Gordon Starratt of Mills, Mass.

Henry Newcomb returned to Moncton on Saturday after spending a week

HOPEWELL HILL

Eye Comfort

Means better work—better health—better fun. Wearing glasses does not necessarily bring eye discomfort. Improper lenses, wrongly adjusted frames—or both—bring eye distress. But wearing glasses made for you at Sharpe's insures eye comfort. When glasses are fitted here, the lenses are accurately ground to give the greatest possible benefit to your sight, and the frames are shaped to hold the lenses in the proper position without even slight annoyance. Your nose and ears are unaware that you have a pair of Sharpe's glasses on—but your eyes are very happy over that fact.

IMPROVEMENTS AT THE UNION STATION
LUMBER DRIVES ARE WELL ADVANCED NOW
R. S. Richardson, acting superintendent of the Standard at the depot last evening Mr. Richardson said that his visit to the city had no special importance but that he was merely on a tour of inspection with an eye open for improvement work. As the result of his visit to the city yesterday the station and train shed will be put in trim for the summer and a general house cleaning plan will be carried on. Both the lobby and train shed will be brushed up and the ceilings will be freshly painted.

STIFF, ENLARGED JOINTS LIMBER UP! EVERY TRACE OF RHEUMATISM GOES!
Even Chronic Bedridden Cases are Quickly Cured.
Rub On Magic "Nerviline"
Nothing on earth can beat good old "Nerviline" when it comes to curing rheumatism.
The blessed relief you get from Nerviline comes mighty quick, and you don't have to wait a month for some sign of improvement.
You see Nerviline is a direct application; it is rubbed into the sore joints, thoroughly rubbed over the twitching muscles that perhaps for years has kept you on the jump. In this way you get to the real source of the trouble. After you have used Nerviline just once you'll say it's amazing; a marvel, a perfect wonder of efficacy.

WANTS FROM WIGGONER TO ST. JOHN
W. H. Adams, in City, after 4000 mile jaunt - will receive \$50,000.
Completing a tramp of about 4,000 miles, W. H. Adams of Vancouver, arrived in the city yesterday and registered at the Victoria. He walked every mile of the way, and with a stake of \$50,000, according to his story told a reporter last evening. He is sixty-six years of age, but though as hickory and arrived here, as he says, in the pink of health. He looks very hale and hearty for his age. A man of thirty-five started out on the trip with him, but only got as far as Winnipeg where he gave out and turned back to his home.
Mr. Adams had left August 31st to complete his tramp across continent, and therefore wins by good margin. He was one year and twelve days on the trip, having left Vancouver on May 1st of last year. It is about 5,500 miles by rail from Vancouver to St. John, but Mr. Adams says that by the route he followed which was mapped out before he left, the distance is 4,000 miles.
Followed by Automobile
On the trip he was provided with money for his expenses and has been followed across the continent by an automobile of one of the men who put up the stake of \$50,000. After coming into New Brunswick Mr. Adams stripped the automobile, leaving it stalled by water by the wayside.
On arriving here the long distance traveler went to city hall and had the Mayor's clerk sign his itinerary papers certifying to his arrival. He will remain till May 21st, returning from Ottawa in order to secure his worship's signature to his papers.

WANTS FROM WIGGONER TO ST. JOHN
W. H. Adams, in City, after 4000 mile jaunt - will receive \$50,000.
Arrangements were completed for a re-valuation of the property in the county, the site of the tuberculosis hospital was approved and other matters connected with county business were dealt with at the spring meeting of the Municipal Council yesterday afternoon.
Commissioners Russell and McLellan were the only city representatives present. The others in attendance were Councilors Howard, Stewart, Black, Shillington, Stevens, Carson, Thompson, Bryant, Golding and Dean. The minutes of the last meeting were read, and approved.
The certificates of J. H. Frink, R. W. Wigmore, J. V. Russell, P. L. Potts and H. B. McLellan as members of the council were read.
The report of the finance committee to go ahead with the work. The bill of Dr. Gilmour in connection with the proposed tuberculosis hospital was ordered paid.
Dr. Roberts, who was coroner, requested an inquiry into the cause of the Grand Union Hotel fire was granted \$48 for extra services in connection with the work of the investigation. The warden explained that he had considered the matter of vital importance and believed that the best interest of the community would be served by having a rigid investigation and he had given the coroner instructions to go ahead with the work.
A bill of \$70.50 for surveying a site for the proposed tuberculosis hospital was ordered paid.
Discount on Taxes
It was decided to allow 5 per cent discount on all taxes paid before August 5, 1914.
The Board of Health asked for a grant of \$500 for the inspection of milk in the city.
Councillors Howard and Dean objected to the county paying the whole amount, but on the matter being explained the resolution was adopted.
The warden and secretary were authorized to secure steel filing cabinets for county papers at a cost not to exceed \$300.
The site for the St. John Tuberculosis hospital was selected on the Municipal Home property was approved.

PROTESTS AGAINST THE BAGGAGE EXAMINATION
St. John citizen objects to being pulled out of berth at two a. m.
A prominent resident of St. John who does considerable travelling between here and Montreal last evening drew the attention of a Standard reporter to the liberties which are taken by the United States customs officers on the way to the C. P. R. train bound for St. John.
The citizen says that he was pulled out of his berth at two o'clock in the morning to have his baggage examined. He says that he was awakened while the men are examining the baggage.
The idea of the officials is that someone might take the opportunity to smuggle stuff across the border. It is not the examining of the baggage, he says, that is objected to but the time it is done. If as in other trains the customs men went along with the train and examined the baggage in the morning, he says, he would not object to it.
We trust that you may long be spared in health and strength to enjoy the honors of your high office, and that, at all times, you shall have our strongest support and co-operation in everything that pertains to the discharge of your judicial duties, and the fair and proper administration of justice in the Courts over which you shall preside.
Through Your Honor, we would also beg to be permitted to express our sincere wish that she, too, may long be spared to share the honors and rewards that have been so worthily bestowed upon you.
Dated at the Court House, St. John, N. B., May 12th, 1914.

PRESENT AN ADDRESS TO JUDGE CROCKET
Congratulated by Barristers of Charlotte County on occasion of first official visit since elevated to Bench.
Special to The Standard
St. Andrews, May 12.-At the May sitting of the Charlotte County Circuit Court, which met here at this afternoon Mr. Justice Crocket was presented with an address by the barristers of this county. In the absence of barrister the presentation was made by Mr. George H. L. Cockburn, "acting clerk." His Honor made a very pleasing reply expressing his appreciation and thanks in the course of which he congratulated the people of the county upon the absence of crime and mentioned the fact that it was not an uncommon thing for a Judge to find the white gloves on the bench in this county.
The address was as follows:
To His Honor Mr. Justice Crocket:
We, the members of the Bar, living and practicing in Charlotte County, desire to extend to you a most cordial and hearty welcome upon the occasion of your first official and judicial visit to this county since your elevation to the Supreme Court Bench.
In one way, it is a matter of regret that you find a blank calendar, and nothing to command your judicial attention at this sitting of the Charlotte County Circuit Court, as we cannot enjoy your distinguished presence among us for any length of time, but we feel sure Your Honor will rejoice to find that evidence of peace, morality and good will, for the time being, at least, among the people of our county.
We desire to assure Your Honor of our unqualified approval of the action of our government in selecting you for the exalted and responsible position to which you have been appointed, and from our knowledge of your ability, your industry and your unflinching regard for the principles of

CHILDREN'S AID SOCIETY GETS GRANT
Secures \$1500 from County Council with which to carry on work - Speak in favor.
The warden of the county and the secretary are to find, if possible, the sum of \$1,500 which is to be given as a grant to the Children's Aid Society for carrying on its work during the year. If the amount cannot be taken from any of the present appropriations the matter will be considered again at the next meeting.
A. M. Belding, president of the Children's Aid Society, and Rev. R. A. Armstrong, secretary, were present at the meeting of the Council which took place at the City Hall last evening.
The Children's Aid Society has been carrying on its work since 1885, and has been successful in securing for the care of neglected and dependent children in a small way and learn their needs by experience in the work.
In Alberta, Mr. Belding said, the whole care of neglected and dependent children is assumed by the province and municipalities, and it is not necessary to appeal to the people for subscriptions. That is the ideal condition. In Manitoba there is a Children's Aid Society which receives \$1,000 from the province, \$1,200 from Winnipeg and over a thousand in grants from other municipalities, but it also appeals to the citizens and expends \$5,000 to \$10,000 per year. It has assets valued at more than \$15,000.
In Toronto the city granted in 1911 the sum of \$4,000. Last year the total expenditure from all sources was about \$20,000. Hamilton in 1912 presented its Children's Aid Society with a shelter for the children. In Ottawa there is a juvenile court with judge, detention home and three probation officers, but there is also a Children's Aid Society to which the city grants \$200 and which spends annually \$1,000 or more. The little city of Guelph grants \$700.
Mr. Belding gave other instances and expressed the view that as there is no shelter in St. John a grant of \$1,500 would be considered large. He had inquired if the Municipal Home could take care of some children for the society, but was told they had forty or fifty children there now. If this were true, surely most of those children should be made wards of a Children's Aid Society and sent to foster homes in the country, and this would not only benefit them but save the municipality several thousands of dollars per year. The speaker stated that much had been said about getting 450 immigrants in April, but the province surely had more to gain by converting its own neglected children into good citizens.
Rev. Mr. Armstrong.
Rev. Mr. Armstrong said that the council had already given its approval to the Children's Protective Act, and it now only remained to have its provisions carried out. He knew that the law had the approval of the council and that they recognized the need of conserving the childhood of the city and county. He felt very strongly that the expense of caring for these children should be met out of public funds, and that it should not be necessary to go from door to door asking for assistance.
One of the things that had unfavor-

MUCH ACTIVITY IN MILITIA CIRCLES
Armories and parade grounds present busy scenes - Many recruits joining.
The armories and parade grounds are now the scene of considerable activity almost every evening. Although the building is by no means completed in so far as its furnishings are concerned, there has been set apart for the use of the different companies and there remain to be installed the small fixtures necessary for the work of the companies including rifle racks and uniform lockers.
The 62nd Regiment will march out on this evening. The men will meet at the armory not later than 7.15 p. m., together with both regimental bands and will march out at 7.30 p. m. sharp, passing through the principal streets in the centre of the city.
The regiment is yet in hope of receiving a visit from the 8th Massachusetts Volunteers, which had been planned some time ago. On account of the trouble in Mexico the plans for the trip were deferred, and Col. J. L. McAvity was notified that all arrangements would have to be put off for the present. It is hoped that the original plans may be still carried out.

CHILDREN CRY FOR FLETCHER'S CASTORIA
The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Dr. J. C. Fletcher, and is guaranteed to give you just what you need. It is the only preparation of its kind that has been made under his personal supervision since its infancy.

Consumers' Coal Co. Ltd.
331 Charlotte St. Phone M. 2670

WANTED. Energetic young salesman, good position for the former to act as agent and open an office, and they could not say offhand just how much \$1,500 would be expended or how much more they would need to raise by subscription or otherwise the first year.
The ideal plan would be to have a man and wife, the former to act as agent and the latter as matron of the shelter, but this and the cost of keeping the children temporarily placed in the shelter would involve much more than \$1,500. Given the grant they would do their best. There were five officers, fifteen ladies and fifteen gentlemen on the board, thoroughly representative and worthy of the full confidence of the council.

All the Latest News and Comment From the World of Finance

WALL STREET BACK IN THE OLD RUT

Interest Lagged Again Yesterday and Market Dull.

PRICES MOVED WITHIN A NARROW RANGE.

London a Buyer for First Time in Several Days, but Purchases were not very large, however.

New York, May 12.—Interest in speculation died away today and the stock market reverted to the state of abnormal dullness which prevailed last week.

The government's weekly weather report showed a continuation of conditions favorably to the growing crops. The usually good crop prospects and the expectation of an early decision in the freight rate case are strong factors on the constructive side.

A few stocks pulled away from the narrow movement. Some of the specialties advanced. Harvesters, which had been in demand for the last week, made another gain, being bought in the belief that the company would benefit from the large crops now expected.

Foreign exchange rates, which yesterday touched the highest level in four years, held up firmly today. The supply of gold bars here being exhausted the question of further exports of the metal in the immediate future depends on whether foreign bidders are willing to pay premiums to make it profitable to ship coin.

CLOSING STOCK LETTER FROM RANDOLPH

New York, May 12.—The market opened moderately active and generally higher with M. O. P. the center of attraction. After opening at 17.54, this stock declined sharply to 16.18, but soon recovered about half of this loss, and after that fluctuated within narrow limits around 17 all day.

QUOTATIONS ON CHICAGO MARKETS

Table with columns for Cotton, Wheat, Corn, Oats, and Peas, listing prices for various months and grades.

EXTREMELY DULL IN WHEAT TRADE

Trading, this month more limited.—The general tone in corn has continued firm.

Chicago, May 12.—Wheat—Extreme dullness has been the chief characteristic of the wheat trade today. May delivery has again shown strength but trading this month is even more limited than in the new crop.

Corn—Has been fully as dull relative to wheat but the general tone has been firm. Cables higher, weather wet in the corn belt and will delay planting a little and slow western markets higher with receipts light.

Oats—Dull, the May delivery showing a little more strength than the new crop futures. One of the local elevators and a few of the shipping houses bought May oats moderately.

IS SUCCESSOR TO SIR WILLIAM WHYTE

Montreal, May 12.—One of the two vacancies on the board of directors of the C. P. R. was filled yesterday by the appointment of Mr. A. M. Nanton, of Winnipeg, who will fill the place left open under which it is proposed to extend the company's \$25,000,000 notes.

Foreign exchange rates, which yesterday touched the highest level in four years, held up firmly today. The supply of gold bars here being exhausted the question of further exports of the metal in the immediate future depends on whether foreign bidders are willing to pay premiums to make it profitable to ship coin.

HAVE'NT MADE MUCH DIFFERENCE YET

Montreal, May 12.—It is difficult to discern as yet any pronounced trend in business matters from the weekly return of traffic earnings of the three big railway corporations.

WILL REPRESENT J.M. ROBINSON & SONS

Montreal, May 12.—Mr. Robert H. Reid was elected a member of the Montreal Stock Exchange today and will represent J. M. Robinson & Sons on the floor.

PRODUCE PRICES IN CANADIAN CENTRES

Table listing prices for various commodities like Corn, Oats, Flour, and Millfeeds in Canadian centers.

BOTH REPORTS ARE DENIED IN LONDON

That J. H. Plummer is to resign, and that Banks insisted on passing Dom. Steel Preferred Dividend.

London, May 12.—Twenty thousand ordinary pound shares of the Teck Lebel syndicate have been introduced by the Kirkland section of the market at par for cash. The capital of £240,000 is to acquire a claim, ten of which are in Bursfield Mine.

FINANCIER IN LIEU OF RAILWAY EXPERT

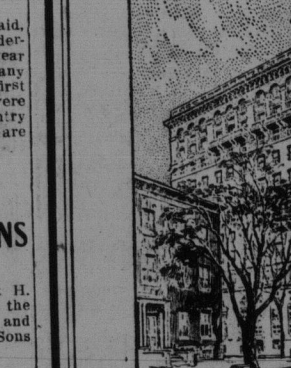

Montreal, May 12.—A financier has been appointed to fill the vacancy on the C.P.R. board, caused by the death of a railway expert.

Naturally a big corporation like the C.P.R. needs expert financial advice, as well as railway knowledge, in its deliberations. However, from the receipt by the International markets of the past year's financial operations of the company, a cog slipped somewhere.

FREIGHT RATES CUT CAUSES UNEASINESS

London, May 21.—The financial Times editorially names the freight reduction proposals by the Railway Commission as among the causes of the uneasy feeling among British investors, but quotes the Honorable Mr. White's assurance as evidence of the general outlook being now much clearer.

THE RITZ-CARLTON HOTEL

Sherbrooke Street, Montreal, offers the Comfort, Service and Cuisine of the famous Ritz chain of Hotels and Restaurants round the world, at similar rates to those of other leading hotels in Canada.

R. J. & W. Securities

Our Statistical Department has just completed a special report on Robin, Jones & Whitman, Ltd., which should be received by the investing public with considerably more than usual interest in view of this Company's recent Common Stock dividend announcement.

Common Stock Bonus

This Common Stock is still offered as a bonus with the Preferred, on a basis of one-quarter share of Common with each full share of Preferred. The Preferred is 6 p. c. Cumulative and sells for \$5 p. c., at which attractive price the yield is 7.67 p. c.—to which should be added the dividend on the Common Stock.

Strength of Both Stocks

The remarkably strong position of both Preferred and Common may be judged by examining the summary of the Company's operations for the past four years, which is included in our report. This summary shows that the average yearly net earnings for this four-year period represented almost six per cent. on the Common Stock.

J.C. Mackintosh & Co.

Members Montreal Stock Exchange. 88-90 Prince William Street, ST. JOHN, N. B. Also at Halifax and Montreal.

THE COMMON STOCK OF THE INTERNATIONAL MILLING CO.

was paid for in cash and is held by the operating officials of the Company. This stock is equal to more than half of the amount of the Preferred Stock outstanding. Thus it can be readily seen the strong position in which the Preferred Stock stands.

Pater, M.A., LL.D. 4 p. m.—Alumni oration by President A. Stanley Mackenzie, Halifax, C.L., Dalhousie University, Halifax, N.S. 4.30 p. m.—Valedictory address by Robert L. Simms.

The graduates-to-be are: George Burpee Alexander, Julian James Andrews, Earl Gustaf Asker, Albert Foster Baird, Edward Otis Bender, John Lottimer Brewer, Charles Walter Beckwith, Charles Louis Dougherty, John Arthur Duffy, Frank Parkin Gilbert, Lemuel Allan Gilbert, Edna Beatrice Jewett, Kathleen Kilgour Kirk, Gertrude Mary Leckie, Harry Sheldon Laughlin, Donald Angus Macdonald, Donald Kerr MacLeod, Walter A. S. Melanson, George Payson Melrose, John Innes Morrison, Emerson Clarence Rice, Harold Clyde Robinson, Robert Leslie Simms, Horace Hume Vanwart, Mildred Estelle Walker, Frank McLeod Whippley, Samuel Raymond Weston, Freda Mary Wier.

OBITUARY.

Alfred F. Baxter. News which reached the city yesterday caused regret amongst a large circle of friends as it told of the death of a former resident, Alfred F. Baxter, after an illness of about two weeks in Lynn, Mass., where he had gone only a short time ago. He was seventy-two years of age, and a native of Norton. For thirty-eight years he was a member of the public school teaching staff of the province, and had taught in many places through this country and in Lynn, Mass. He retired after an honorable career as a school teacher and amongst those who will learn of his passing away, with sorrow, and feelings of old ties severed, will be his former pupils. His body will be brought to Norton for burial. He had resided there for many years. Mr. Baxter is survived by four sons and one daughter, Mrs. C. F. Poland, of Lynn, Mass. The sons are Henry, of Lynn; Herbert M., of Sharon, Mass.; Dr. G. O., and Dr. A. E. Baxter of St. John.

Mrs. Cora Belle Heine.

After an illness lasting only since last Friday evening the death of Mrs. Cora Belle, wife of Rev. J. Heine, Ph.D., occurred yesterday morning at her home, 133 Prince street, West St. John. She was a bright, amiable woman, greatly esteemed by many friends to whom the news of her death has caused sincere sorrow. She was forty-two years of age, and besides her husband is survived by two children, Miss Bessie and Wilkins, and four step-children. Three sisters also survive.

A particularly sad feature in connection with the death is that Mrs. Heine was not thought to be seriously ill until Monday evening, and word was sent to her husband, who on Monday left for Sydney, C. B., in connection with his Bible Society work. He will be unable to reach home until today. It will be a sad home-coming for the minister. Mrs. Heine was an active member of Charlotte street Baptist church, and was a valued member of the choir. Her death will be mourned by a large number of friends.

Transferred to West

Rev. E. Holland, C. S. R. of St. Peter's church, has been transferred to Yorkton, Saskatchewan, where he will be attached to one of the Redemptorist houses. Father Holland left for Boston Monday evening on a visit to his people before leaving for the west. For several years Father Holland was stationed at St. Peter's church here.

This Frees the Skin Of Hair Or Fuss

(Beauty Topics.)

A simple paste made with some powdered melon and water and applied to superfluous hair on the lip, cheek or chin for about two minutes, then rubbed off, banishes every trace and when the skin is washed to remove the remaining delonate, it will be left smooth, firm and entirely free from spot or blemish. This method of getting rid of objectionable hair or fuzz is unailing and is entirely devoid of pain. Be careful to see that you get real delonate.

SOUTHAMPTON RAILWAY INQUIRY IS BEGUN

Opened yesterday by R. A. Pringle, Commissioner, and will be resumed July 7th.

Fredericton, May 12.—The investigation into the cost of the Southampton Railway, which has been ordered by the Dominion government, will be resumed here on Tuesday, July 7th. R. A. Pringle, K. C., of Ottawa, the Commissioner appointed to conduct the inquiry, held the first session of his court this morning for organization purposes, and, after an order had been made for the production of the documents required, adjournment was made until the above date.

Mr. Pringle declared it to be his intention to have evidence produced on each of the thirty-five items contained in the report which was made by E. V. Johnson, the inspecting engineer, who has since been suspended by the Department of Railways, and the enquiry will be of the most thorough character throughout. T. J. Carter, K. C., of Amherst, appeared for the Department of Railways, and the enquiry will be of city, was present for the Southampton Railway Company. Mr. James E. Pinney, M. L. A., and Dr. H. H. McNally, of this city, the controlling interests of the Southampton Railway Company were also in attendance.

In opening the enquiry Mr. Pringle said that it was brought about as a result of a speech made in Parliament on March 9th by Mr. F. B. Carvell, M. P., during the course of which he said that "a great wrong had been done," and which was followed by a speech by Hon. H. P. McLeod, M. P., which substantiated to some extent the statements contained in the report of the inspecting engineer, and that there were padded items in the accounts.

Mr. Pringle then went on to make comparison of the cost of the road as shown by Mr. Johnson's report, and as brought out in evidence taken in the case of Stewart vs. the Southampton Railway Company, referring to the many discrepancies.

News to most women!

Oven-tested flour is for sale. Instead of buying ordinary flour you can buy flour whose baking ability has been proven in an oven: A ten pound sample is taken from each shipment of wheat at the mill. This is ground into flour. The flour is baked into bread. If this flour bakes into bread high in quality and large in quantity we keep the whole shipment of wheat and grind it. Otherwise we sell it. More bread and better bread from this flour is a certainty!

"More Bread and Better Bread" and "Better Pasty Too"

LARGEST MOTOR BOAT EVER LAUNCHED ON THE NORTH SHORE

Built at Douglastown for Miramichi Lumber Company - Is forty-eight feet long.

Newcastle, May 12.—Councillor H. H. Lamont launched this morning from his shipbuilding yard in Douglastown the largest motor boat ever built on this river. It is for the Miramichi Lumber Co. and is forty-eight feet long, ten one-half feet beam and has two cabins, is handsomely finished and will be driven by kerosene oil. The new town club has been built on the same yard this spring to be sent to Gaspe, P. Q. The new town assessment is about completed. Very little reduction has been made in the rate of taxation which is 2.70 per cent. within the police and fire district and 3.10 outside. Last year's rates were \$3.80 and \$3.20 respectively. This year's assessment reports a taxable valuation of real estate \$65,600; personal property \$139,325; and income \$155,500, total \$960,325 of which \$35,650 is taxed for schools only. Last year the taxable property and income totalled \$921,000. There are this year 644 polls of which fourteen are for schools only, while the polls for the other sixteen were for schools only. The assessors this year are Geo. McWilliam, J. H. Pinney and Chas. E. Fish. The poll tax is \$5.00. Extensive improvements are promised this summer for the I. R. C. station and other buildings belonging to the new town club, has been in operation since Saturday.

FINGER NAILS DROPPED OFF

Skin Beneath Lifeless. Fingers Painful. Sleepless Nights. Used Cuticura Soap and Cuticura Ointment. Complaint Gone.

70 Agricola St., Halifax, N. S.—"Some time ago my finger nails began to drop off, the result it was believed of lead poisoning. The nails themselves were brittle and dry, the skin beneath being itchy and sore. My fingers were extremely painful causing sleepless nights. I was treated for about three months and the nails grew again but they were so weak and brittle that they fell off again. "Having heard a great deal of Cuticura soap and ointment I sent for a sample of both in the hope of their healing my fingers which were very painful. At night after washing my hands well with the Cuticura Soap I rubbed the Cuticura Ointment all around the finger ends and was glad to prevent the Ointment from being rubbed off. A single set in the morning washed my hands with the Cuticura Soap. The Cuticura Soap and Ointment had a cooling effect and began to soothe my sore and inflamed skin. My nails began to grow and in a few days they were well formed. This trouble had lasted about eighteen months before using same for three months my finger nails had grown strong and complaints had entirely gone." (Signed) Ernest Stewart, 70 Agricola St., Halifax, N. S.

FUNERALS.

E. B. Reid.

A very largely attended funeral took place yesterday afternoon when E. B. Reid was buried from his late residence, Douglas avenue. The funeral services were conducted by Rev. B. H. Nobles. Interment was in Cedar Hill cemetery.

Stewart L. Fairweather.

From his late residence, Robesay, the funeral of Stewart L. Fairweather took place yesterday afternoon. The funeral services were conducted by Rev. W. R. Hibbard and Rev. A. Dunlop. Interment was in Fairhill cemetery.

BEECHAM'S PILLS

Sold everywhere, in boxes, 25 cents.

BOYS WERE HIDDEN IN BELLAR OF HOUSE

Two of the four boys who escaped from the Boys' Industrial Home more than a week ago have been accounted for, but the others are still absent. Joseph Wallace returned to the home on last Friday and told Superintendent McDonald how he made his escape with Victor Cobham. The arrest of the latter followed yesterday and he was brought before Magistrate Ritchie yesterday morning.

According to the story told by Wallace, the two boys, after they got away from the home hid in a yard near Cobham's home and after dark the Cobham boy went up to his home and told his mother he had escaped. They had the entrance to the house made for them in the woodhouse which is behind the main part of the house and the entrance through two trap doors. Here the two boys were given a bed consisting of a piece of old wood and unknown to Mr. Cobham, the two were kept there for a week or more. Foreman Saunders on information received went to the house and arrested the Cobham boy.

ADMINISTRATORS' NOTICE.

HOW MEN SHOULD BE TRAINED

By Mac Levy, of Babylon

(Mac Levy, the famous Long Island "Health Farmer," has been engaged for eighteen years in the training of athletes and the building up of run-down people, and is a recognized authority on all subjects connected with athletics, physical culture, and scientific exercises.)

Not long ago Dr. William G. Anderson, director of Yale University Gymnasium, was quoted in the newspaper as advocating the substitution of dancing for the exercise of the gymnasium.

Although I have been a physical trainer for nearly a score of years, I would hesitate to take issue with Dr. Anderson, who stands second to none among the gymnasium directors of the world. At the same time, the allegation that dancing, valuable as I know it to be, can take the place of gymnasium work was considerable more than could swallow it. It was disconcerting to be asked to believe that a life-time of effort had been wasted, and that I might better have been a dancing master.

At the time I wrote that such a substitution as was attributed to Dr. Anderson was "akin to the substitution of chocolate creams and pickles for humble roast beef and potatoes," and suggested the substitution of fiction for text books at Yale.

Through the medium of a communication to the New York Times I learn that Dr. Anderson was misquoted, and that he advocates no such substitution of dancing for other exercises as he was alleged to be responsible for.

"Dancing alone will never take the place of gymnasium drill," declares the Yale gymnasium director; "the two should be wisely combined. Formal gymnastics have so much in their favor that they should not be entirely eliminated from our system of bodily development, but the love for dancing should be utilized by teachers of gymnastics. Pupils from schools where dancing is the only form of bodily development often stand badly, walk poorly have flat chests, round or stooping shoulders, but their bodies are unsymmetrical, the arms neck, and chest falling to show the sturdiness of the legs. The teacher of dancing should adopt gymnastic movements, and the director of physical training should teach dancing movements that have for their object poise, balance, and grace.

This is excellent advice. Every athletic, or person who wants to become an athlete, should take up dancing provided they share the almost universal enjoyment of that adequate substitute for other exercise, there are plenty of sports which serve as substitutes for dancing.

It is true that "poise, balance and grace" may be obtained from dancing. They may also be had from boxing which has the added advantage of building up the muscles and the development of courage, while the boxer must also learn to control his temper, in itself a valuable moral victory.

I don't want to be understood as condemning dancing. It is natural and right that young people should indulge their inborn desire for rhythmic motion—and by "young people" I mean those who are youthful in spirit, though they may have known a hundred summers.

While admitting the merits of dancing as a mild form of physical exercise, I would urge young men to learn boxing rather than dancing, provided they get as much pleasure from it. Other things being equal, I will wager that "poise, balance and grace" can better be attained from boxing than from dancing.

By boxing I don't mean fighting. One can get all the benefits from boxing without developing a knockout punch. Of course the regular first baseman can get all the benefits from boxing without developing a knockout punch. Last will occasionally connect with a stinging blow, but if it does no more than sting, it is good for what ails him. Among the Sons of Old Bill there are doubtless many perturbed and pampered youths who would derive lasting benefit from the boxing gloves. Boxing bouts between gentlemen should not be neglected.

HALIFAX BALL TEAM LINE UP

The city council in Moncton voted the use of grounds at a nominal rental to its local club, and the citizens subscribed one thousand dollars towards the support of the team.

The Halifax lineup will be as follows:—Meegan and Kennedy, catchers; Carney, Cjnas and Martin, pitchers; Perry, first base; Kenney, second base; Walsh, third base; Maloney, shortstop; Collins, Keefe and Ryan, outfielders.

"Cy" Perry the former big league star, is the playing manager and captain, and the other members are all well known in baseball circles.

It is so strenuous as to raise bumps, but it is highly useful in reducing the bump of conceit and self-pride.

As for the alleged "brutality" boxing, the chance of suffering a serious injury in a friendly bout with the gloves is no more than the hazard of dancing. Dancers occasionally slip and fall but dancing is not condemned as "brutal" on that score.

In the course of his letter Dr. Anderson makes an interesting point. "There are roughly speaking, two brains—one for movement, the other for intellectual activities. These are closely correlated, are interdependent, and the development of one will materially assist when the other is being trained."

The muscle brain is called the motor area, the Rolandic division, and like its sister brain, is made up of millions of cells. Just as soon as a definite circuit can be made among the cells and energy is liberated skilled movement is the result. The muscle is not a scintilla of skill in itself, it is merely a servant.

The greater the number of circuits the greater the muscular education of the person and the more reliable is the physical basis of poise and grace. Pupils from schools where dancing is the only form of bodily development often stand badly, walk poorly have flat chests, round or stooping shoulders, but their bodies are unsymmetrical, the arms neck, and chest falling to show the sturdiness of the legs. The teacher of dancing should adopt gymnastic movements, and the director of physical training should teach dancing movements that have for their object poise, balance, and grace.

This is excellent advice. Every athletic, or person who wants to become an athlete, should take up dancing provided they share the almost universal enjoyment of that adequate substitute for other exercise, there are plenty of sports which serve as substitutes for dancing.

It is true that "poise, balance and grace" may be obtained from dancing. They may also be had from boxing which has the added advantage of building up the muscles and the development of courage, while the boxer must also learn to control his temper, in itself a valuable moral victory.

I don't want to be understood as condemning dancing. It is natural and right that young people should indulge their inborn desire for rhythmic motion—and by "young people" I mean those who are youthful in spirit, though they may have known a hundred summers.

Among the Sons of Old Bill there are doubtless many perturbed and pampered youths who would derive lasting benefit from the boxing gloves. Boxing bouts between gentlemen should not be neglected.

JOHNSON RELEASED ON BAIL

Chicago, May 12.—The United States Circuit Court of Appeals today granted a petition of District Attorney Wilkerson for a re-hearing on several of the counts in the indictment against Jack Johnson, negro pugilist, convicted of violating the Mann White Slave Act. The argument was set for May 19—Johnson was convicted a year ago, and while the higher court is held a number of the counts in the indictment it reversed and ordered that the negro be re-sentenced. Mr. Wilkerson asked for a new trial on the grounds that the findings of the lower court against Johnson should be upheld in every count.

Pending his appeal Johnson was released from custody on bail and fled to Canada, from whence he sailed for Europe.

BREEZY GOSSIP OF BIG ONES

John McGraw, whose fame through being hit "from behind" has almost overshadowed the fact that he's the \$50,000 manager of the Giants, boasts of the greatest collection of base stealers in captivity.

Hock, the new third sacker, stole forty-three bases while with Mobile last year, and is running wild this season; Merkle pilfered 35 sacks in 1913; Decher, 28; Murray, 25; Burns, 40; Doyle, 25; and Fletcher 27, which gives McGraw seven regulars with a grand average of something like 38 bases.

Jim Coffey, the Irish White Hope, who soon journeys to England to scrap with Bombardier Wells, the oft-battered English heavy, entered the ring through accident.

He harpooned a job as subway guard soon after arriving in New York from Erin. One day some rowdy youths boarded his train. In the polite, refined manner that subway guards use (at times) Jim asked the youths to desist. They desisted—Not Whereupon, Jim waited or a station stop and then began heaving the youths off his train. He did it with such ease and dispatch that he won the admiration of Mike Donovan, the old middleweight fighter, who was on the train.

Mike walked to the vestibule and engaged Jim in combat. Mike told Jim that he thought he had the makings of a fighter in him. Jim wasn't sure. "Come up to the New York Athletic Club and I'll give you a tryout," invited Mike.

Jim came. Mike showed him a few tricks in the fighting game and then matched Jim with a husky person who had "white hope" hopes. Jim knocked all the hope out of that fellow in two rounds. Then he went home, wrote out his resignation from the subway job and has been keeping his huge frame within the pugilistic spotlight most of the time since.

THE ENGLISH POLO TEAM MAY NOT PLAY

London, May 12.—Upon the result of the meeting of the Hurlingham club's committee tomorrow afternoon will depend the decision as to whether the contest for the international challenge cup will take place in the United States this year. Baron Wimborne who yesterday announced the names of the members of a team which he expected to take to America, had another stroke of bad luck today, in consequence of which he was compelled reluctantly to acknowledge that he was now unable to make up the team and had appealed to the Hurlingham club, in whose name the challenge was sent to the American team to decide what is to be done.

Lord Wimborne received the following telegram from Major C. F. Hunter who had been announced as the back on the English team: "Exceedingly sorry that the condition of my wife is such that I find myself compelled to abandon the idea of going to America. This answer must be considered final."

London, May 12.—Major C. F. Hunter, the back on the English polo team, challenging this year for the international Polo trophy, today informed Baron Wimborne, the manager of the players, that he would be unable to take his place on the team owing to a relapse in his wife's health.

Lord Wimborne so far has been unable to find a substitute for Major Hunter, and until he does he cannot carry out the challenge for the cup now held by the Meadowbrook Polo Club, of Long Island, N. Y.

LEAGUE MEETING POSTPONED

The meeting of the Maritime League representatives which was called for last evening at the Dufferin Hotel, when the officers were to be chosen, bonds put up, and the adoption of a schedule, etc., was to have taken place, was postponed until this evening.

BRITISH AMATEUR GOLF CHAMP.

Sandwich, England, May 12.—The entries for the British Amateur Golf Championship, the first round of which will be played next Monday, reached a total of 242 tonight, and it is possible that additional entries may arrive by mail tomorrow. The previous highest total was 200. Ten American players are among the entrants.

THIS DATE IN RING ANNALS

1905—James J. Jeffries, having defeated Fitzsimmons, Corbett, Sharkey, Rhalms, Munroe and all other good heavyweights, and finding no other antagonists in the field, announced his intention of quitting the ring. Jeffries expressed the opinion that his vacated title should go to the winner of the battle between Marvin Hart and Jack Root, to take place in Reno the following July. Hart was the victor, but he soon went down to defeat before Tommy Burns, and the Canadian held the honors against all challengers until his defeat by Johnson in running a third parlor in Los Angeles since his retirement, then decided to "come back" and recover the title for the white race, with what result the gentle reader wots of.

1910—Joe Rivers, Mexican, knocked out Red Corbett in 11th round at San Diego.

1913—Mike Gibbons defeated Gus Christie in 12 rounds at Boston.

LUDECKE VS. ZBYNSKO

Harry Ludecke, the wrestler, called at The Standard last evening and stated that as there appeared to be a slim chance of him obtaining a match with Dan McDonald, he was quite willing to wrestle Young Zbynsko, who is rated as the middleweight champion of the world. Zbynsko had issued a challenge to wrestle for the sum of five hundred dollars aside. Ludecke says that he will not agree to wrestle for the five hundred but will meet Zbynsko on the terms that the winner take all the net receipts of the house.

SPORTOGRAPHY

Jake Daubert, Star First Baseman, starts 30th Year.

Jake Daubert, the great Brooklyn first baseman, will begin his thirtieth year tomorrow. Daubert put Llewellyn, Pa., on the map by choosing that town as his birthplace on May 14, 1885. In his youth something happened to stunt his growth, and he reached an altitude of only one inch over six feet. Last summer Jake led the National League in batting, among those who took part in over a hundred games, with an average of .350. Daubert has swatted over the 300 mark since 1911, when his average was .307. In 1912 he made it .308.

Daubert wore his first professional uniform in Kent, in the Interstate League, in 1907. The club disbanded after a couple of months, and Jake went to Marion, in the Ohio and Pennsylvania circuit. At the close of the season he was swapped to Cleveland, and the Naps turned him over to Nashville, in the Southern League. The next season he started in a Memphis uniform, but the Tennessee metropolis lost his services when a Brooklyn scout saw him in action. At Memphis Daubert batted .314. In 1910 he became the regular first baseman of the Dodgers, and he has been on the job ever since. Besides leading the league in batting, Daubert stood second among the circuit's first basemen in fielding last year.

Daubert is undoubtedly the star first baseman of the game since Hal Chase hit the slide. Hal could pull off more sensational plays than Jake has ever accomplished, but the Californian was erratic, while Jake is highly dependable. Daubert is a better wrestler than Chase at his best, and as good in run-

SPORTOGRAPHY

Jake Daubert, the great Brooklyn first baseman, will begin his thirtieth year tomorrow. Daubert put Llewellyn, Pa., on the map by choosing that town as his birthplace on May 14, 1885. In his youth something happened to stunt his growth, and he reached an altitude of only one inch over six feet. Last summer Jake led the National League in batting, among those who took part in over a hundred games, with an average of .350. Daubert has swatted over the 300 mark since 1911, when his average was .307. In 1912 he made it .308.

Daubert wore his first professional uniform in Kent, in the Interstate League, in 1907. The club disbanded after a couple of months, and Jake went to Marion, in the Ohio and Pennsylvania circuit. At the close of the season he was swapped to Cleveland, and the Naps turned him over to Nashville, in the Southern League. The next season he started in a Memphis uniform, but the Tennessee metropolis lost his services when a Brooklyn scout saw him in action. At Memphis Daubert batted .314. In 1910 he became the regular first baseman of the Dodgers, and he has been on the job ever since. Besides leading the league in batting, Daubert stood second among the circuit's first basemen in fielding last year.

Daubert is undoubtedly the star first baseman of the game since Hal Chase hit the slide. Hal could pull off more sensational plays than Jake has ever accomplished, but the Californian was erratic, while Jake is highly dependable. Daubert is a better wrestler than Chase at his best, and as good in run-

Ford

Out-of-date and out-of-use—the heavy cars—but the light, strong Ford is sold in ever increasing numbers the world over. It's the "survival of the fittest" and the Ford has proven itself a better car.

Six hundred dollars is the price of the Ford runabout; the touring car is six fifty; the town car nine hundred—f. o. b. Ford, O. E., complete with equipment. Get catalog and particulars from Ford Motor Co., St. John, N. B. Branch, Telephone Main 2806.

One Extra Tire

One Can Get Four Goodyears, with All-Weather Treads, for What Some Charge for Three

Today's great question among tire users is—What is the proper price?

Goodyear No-Rim-Cut tires used to cost one-fifth more than others. Yet they gained top place because of extra merit.

Now 18 American and Canadian makes cost more—up to one-half more. Of several makes, three tires will cost as much as four No-Rim-Cuts.

Are They Worth It?

Are they better tires?

They can't be. We have tried for years to improve these tires—have spent \$100,000 yearly on research and experiment. Yet we've found no way—nor has anyone else—to show lower cost per mile.

Do they lessen trouble?

That is unthinkable. Not one contains our No-Rim-Cut feature, which has ended rim-cutting entirely. Not one gets, as ours do, the "On-Air" cure. This extra process adds tremendously to our own costs—to prevent wrinkled fabric, the main cause of blow-outs. Not one does what we do to prevent loose treads. Our method is patented.

THE GOODYEAR TIRE & RUBBER COMPANY OF CANADA, LIMITED
Head Office, Toronto

St. John Branch, 83 Prince William Street Phone Main 1241

Get the best tires made, but get them at Goodyear prices. Skipped tires are costly at any price. But it also is wasteful to pay \$5 to \$15 per tire more than we now ask you. Any dealer will supply you with Goodyear tires.

When we made fewer tires, it was Goodyears that cost the extra price.

When we made fewer tires, it was Goodyears that cost the extra price.

When we made fewer tires, it was Goodyears that cost the extra price.

THE WEATHER.

Maritime—Mostly fair and cool, but some local showers in the Bay of Fundy district.

Toronto, May 12.—The north-western cool wave is centered tonight over the Dakotas, while the disturbance mentioned last night has moved to the middle Atlantic states. Heavy rain has fallen today in the Lake Erie region of Ontario and showers have also occurred in the Lake Ontario region. Warmer weather is setting in in the west.

AROUND THE CITY

Fourth Generation.
On Saturday a daughter was born to Mrs. A. L. Mason (nee McKinney) of Ruth Station, bringing the family tree to the fourth generation. Mrs. Mason is a daughter of James McKinney, appraiser in the customs house, whose father, James McKinney, Sr., is still living. James McKinney is receiving congratulations from his many friends on being elevated to the grandfathers stage at such an early age.

Highlanders Meet.
The fifth annual meeting of the St. John Pipe Band, Highlanders, was held last evening at the residence of the president, H. P. Cruikshank, who presided. Addresses were delivered by the president, Rev. Dr. Morrison, Vice-president, McDonald, J. D. McDonald and Piper John McDonald. Major Alexander C. Cruikshank read a paper on The History of the Band. Refreshments were served and the evening closed with the singing of the National Anthem.

Railway Commission.
The Railway Commission of Canada will meet in St. John on Thursday morning to consider the matter of protection at the crossing of the Street Railway and the C. P. R. at Fairville. The commission will endeavor to find out just what protective devices are needed at this crossing. It is expected that the members of the commission will arrive in the city this evening. The session will take place in the court house beginning at 10:30 o'clock tomorrow morning.

Labor Fair.
The Trades and Labor Council fair was opened in the York Assembly rooms last evening. The City Cornet Band was in attendance, and the rooms and booths were prettily decorated. The usual games and attractions were in evidence, and afforded a good deal of amusement to the patrons. The door prize, which was presented by W. F. Hatheway, was won by Mrs. Morrissey. The prize for the gent's bean toss, an umbrella, presented by Vassie & Co., was won by W. Wallace. The prize for the ladies' bean toss, a dish, was won by Mr. Wm. Monahan; the bowling alley prize, a bill folder, presented by J. & A. McMillan, was won by John Corbett, and the ladies' prize, a pair of girls' boots, presented by Waterbury & Risling, was won by Mrs. J. L. Sgrues. The fair will be continued during the week.

Imperial Attracting Crowds.
The singing of Arthur Haskins and Helen Atkins is making the Imperial musical headquarters these days. Furthermore the run of pictures is unusually good. Today for instance the bill is changed again and the three-part Indian classic "The Death Sign at High Noon" is the big number, supplemented by two roaring comedies. Tomorrow (Thursday) the splendid Irish story "The Colleen Bawn" — pictured in Ireland — will be presented along with the Indian feature making a six-reel show. On Friday "The Colleen Bawn" will be continued along with the No. 5 chapter of the "Adventures of Kathlyn," which are creating such a furore of interest.

You Can Do It.
It takes a good man to make \$1.00 a minute, but you can save that at Gilmore's when you buy one of their \$15 overcoats for \$10. The sale began on Saturday, May 9th, and they're moving fast. Come in at the first opportunity as sale closes Saturday the 16th inst.

Housecleaning reveals a lot of wants. Why not satisfy these wants by patronizing F. A. Dykeman and Co.'s alteration sale. You can save a lot of money by so doing. White cotton quilts on sale at \$1.68 and \$1.80. These are generous sizes and of a fine quality. A lot of pillow shams finished with torchon lace, are very attractively priced at 35 and 45 cents. They are also showing a lot of the celebrated defender pillow slip; these have embroidered scalloped edges made from the best of cotton and usually sell for 40 cents; the sale price will be 22 cents each, 42 and 45 inches wide.

The very shortest distance between two points is a straight line. — F. is the straight line—that's why the straight-line complete-keyboard Smith Premier is the speediest and most responsive typewriter on the market. A. Milne Fraser, (J. A. Little, Mgr.), 37 Dock St., St. John, N. B.

LOGS OF DEATH SHEETS ANVUL DEATH SHIP

Joseph Gaudet fell thirty feet into hold of New Zealand liner Southern, Breaking his Neck—At Work with Brother.

A man named Joseph Gaudet was killed by falling into the hold of the New Zealand liner Southern about half past ten last evening. Gaudet belongs to Tignish, Prince Edward Island, but has been in St. John for some time. He occupied a house at the corner of Charlotte and Britain streets, and leaves a wife and two young children. He was about thirty years of age, and was employed as a longshoreman on the boat. Gaudet had been sent with his brother into No. 2 hold to get some crockery left by one of the longshoremen's gang when he fell from the 'tween decks into the lower hold and broke his neck. Although his brother was going down first he was not certain just how the accident occurred. It is supposed the unfortunate man was crossing the hatch in the 'tween decks when he stepped through an opening—some of the hatch covers in the 'tween decks were off—and falling to the bottom of the hold, a distance

FIRE DESTROYS THE CORNMEAL MILL

Manager places damage at \$7,000 — Insurance \$4,000 — Ring in second alarm.

Fire and water caused about seven thousand dollars damage to the Maritime Cormmeal Company's mill on the corner of Hanover and Eln streets last evening. C. W. Stewart, the manager, last night said there was about four thousand dollars insurance on the building and contents. He expected the machinery, the belt and the corn in the building would be totally destroyed and that his loss would greatly exceed the amount of insurance. The fire was discovered about 7:45 o'clock and an alarm was immediately sent in from box 63. When Chief Blake arrived on the scene a few minutes later, flames were roaring through the windows and roof of the mill, and the fire had not been discovered as soon as it was, the loss would have been much greater.

VOTE \$80,000 FOR THE EAST SIDE HOSPITAL

Will erect Tuberculosis Institution on Municipal Home property — Thirty patients now ready to enter, and building is a real need.

The site for the new Tuberculosis Hospital, on the property of the Municipal Home, was approved and the land required was set aside for this purpose at the meeting of the Municipal Council yesterday afternoon. The location of the building will be on the property directly across the road from the Municipal Home and consists of about ten acres. The directors of the hospital requested that a grant of \$80,000 be made for the erection of the building, furnishing the equipment and conducting the institution for a period of three months. There was some discussion in regard to the increase of the request from \$50,000 to \$80,000 but the grant was finally agreed to and it was ordered that the former order-in-council authorizing the issue of \$50,000 of bonds be rescinded and that bonds to the amount of \$80,000 be authorized. The council went into committee on the matter. Councillor Carson thought that the council should go slow. The building was not to be a large affair and he thought that \$50,000 was enough. In a few years he believed that the hospital would be required at all; \$50,000 was enough.

A Real Need.
The County Secretary explained that the building would be erected for about \$50,000, but the equipment must be secured and the extra \$30,000 would do this and keep the institution going for three months. Councillor Dean: "It has been said that we wanted no fancy work on the building. There will be no fancy work, but the hospital will be needed as long as the building will stand. If half the reports we hear are true, it is almost compulsory that we have this hospital at once. There are patients at the present time ready to go into it and it is a real need and we must have it. I could cite an instance concerning which I know personally and there are many other instances where an institution of this kind would be of great assistance." Councillor Shillington thought that \$50,000 was sufficient if a building could not be secured for the amount the project should be given up. Councillor Black could not see why after voting \$50,000 the council should not grant the additional amount. Warden McLellan left the chair and spoke on the resolution, when the committee had been resolved into council.

INDIANTOWN TO BURN DOWN SAYS SQUAW
A squaw, who is credited with possessing inside information on the movements of the elements and being able to correctly predict events that are to happen, has caused no little amount of terror among the residents of Indiantown, and a recent prediction of hers has set the women thinking and has given them an opportunity of worrying the life out of the less credulous men. It appears that some time previous to the great conflagration that demolished the town of Campbellton this particular individual predicted that the event was to happen and named the time that it would occur. Little attention was given to the prophecy at the time but, if she made it, it came true. Women of the North End allege that this squaw predicted that Christy's mill would burn, and that her prediction came true. This individual has now struck terror in the hearts of residents of the North End by predicting that during the present month of the present year Indiantown is going to be wiped out by fire.

WORKING FOR DEVELOPMENT
Board of Trade is intimately connected with interests of province at large.
The St. John Board of Trade is pushing forward its various schemes of commercial and industrial development. Though the major part of the board's work has special interest to St. John, it is also intimately connected with the interests of the province at large. Scarcely a day elapses that the board is not called upon to reply to some enquiry from abroad with respect to farm lands, mineral prospects and other industrial features of the province, so that its activities take a wide scope and exert a great influence.

INDIANTOWN TO BURN DOWN SAYS SQUAW
The water at Indiantown reached the highest point during the freshet yesterday afternoon when it completely covered the car tracks and reached within some inches of the square. It began to fall in the evening and continued to do so until about midnight, when it again started on the up grade. Yesterday's highest point was three inches above the highest point reached on the previous day. As they could not turn on the loop, the street cars travelling towards Indiantown had to motor into the Indiantown wharf and turn the trolly there for the return trip. The greater portion of the freight in the sheds at Indiantown has been removed or placed on staggings so the water should reach it. The warehouses near the wharf are flooded. The landings along points on the river are covered, and consequently the river boats are suffering. A prominent North End merchant said yesterday that the Otonabee which arrived at Indiantown at noon had not in a team load of freight. The passenger list on all the boats is also light. The D. J. Purdy came down river yesterday afternoon about 4:30 from her first trip of the season up the Washademoak. She brought to the city fairly heavy cargo of freight. The Victoria left for the capital at 8:30 a. m. yesterday. As the freshet may cause the mills at Indiantown to close, naturally all those living in the vicinity have their eyes focused on the river.

H. W. Redman, of the National Cycle Company of Toronto, arrived in the city yesterday.

FRESHET MAY FORCE MILLS TO CLOSE DOWN

A few inches more and water will reach boilers — Cars cannot turn on loop.
The freshet continues to arouse the anxiety of the river men and the situation may become serious, as if the water crawls up a few inches higher the mills at Indiantown and vicinity will be obliged to close down, and possibly hundreds of men without a day's work. While reports were circulated about the city that the mills had already closed down, this is not the case, but it was learned from some of the mill owners last evening that the situation was a rather bad one. If the water rises seven or eight inches would cause a stop of the mills and generally hamper business on the river. In conversation with The Standard last evening A. H. Randolph said that the water up river, while it had risen into the big mill race, it did not appear to be rising. If it was not falling, he said, it seemed to remain at the level. At that section, however, he said, the tides caused a rise and fall of as much as a foot, and as the highest tides had passed at the first while he was looking for a fall in the water, he thought it possible that it would rise still further. He said that the high water was at present interfering with operations, and that if it should rise eight or ten feet more it would get into the boilers and oblige them to close down the mill. J. Fraser Gregory said that the mills in the vicinity of Indiantown were continuing in operation, but that if the water rose a few inches higher the logs could not be rafted through the Falls, and that consequently some of the mills would have to shut down.
