## OVER THIRTY KILLED DURING RIOTS IN FRONT OF THE REICHSTAG BUILDING

### Chancellor Bauer Springs Sensation by Accusing Independents of Giving Signal for the Mob Rush.

### POLICE COMPELLED TO THROW BOMBS

### Minister of Defence Prohibits the Sale of Bolshevik Papers Throughout Territory Where State of Siege Exists

Paris, Jan. 14.—Thirty-one persons were killed during the riots in front of the Reichstag building in Berlin yesterday, according to Berlin advices reaching here today.

The cabinet of the National Government, together with the Prussian cabinet, has issued a statement in which the members declare unanimously for the maintenance of order by all means available.

### Appeal to People

Berlin, Jan. 14.—The Social Democratic Party has issued an appeal to its members not to allow themselves to be provoked by independent and Communist "wire pullers" who are directly responsible for the bloodshed and want to continue to playing an unscrupulous game with human lives.

The appeal asks whether the workers will permit national representation to be placed under terrorism, and tells them that the German nation can be saved from complete destruction only by work.

Level minded citizens of Berlin call for government measures to prevent further rioting, especially those directed in connection with the anniversary of Dr. Lehnrecht and Rosa Luxemburg. The Vorwarts, editorially declares that according to all reports, the police showed the utmost patience in the rioting of Tuesday and did not fire until ten police men had been seriously wounded. It points out that Dr. Heine, Prussian Minister of the Interior and Chief of Police, Ernst personally controlled the police.

"The aim of the criminal elements, however," it said, "was achieved and the workers were increasingly stirred by the bloodshed. The responsibility will be on the heads of those who senselessly led innocent people into danger of destruction."

All the Rightist papers also support the Government and welcome the proclamation of martial law. The Conservative papers regret that the measure was not applied sooner by way of precaution, and for this reason shift the responsibility for the bloodshed to the Government.

London, Jan. 14.—A Berlin wireless despatch, under date of Wednesday, says that Dr. Kaas, Prussian Minister of the Interior, speaking in the assembly today on Tuesday's disorders, assumed full responsibility for the protective measures adopted and accused the Independents of having incited the masses to disorder. The speech was notably interrupted by the Independents.

Chancellor Bauer: "I regard it my duty to express, in the name of the Government, my thanks to the safety police. They opened fire only after they had been attacked by criminal elements in the crowd and brutally maltreated and killed with their own arms. Signals were given to storm the Reichstag building by the Independents who had succeeded in getting in the building, serious trouble would have taken place."

### Threw Bombs

London, Jan. 14.—Eye witnesses estimate the casualties in Berlin on Tuesday at fifty killed and one hundred wounded, according to the Reuters correspondent. The police were finally compelled to throw bombs among the rioters, causing a panic in which many were struck by bullets, and numbers, including many women, were trampled under foot.

### Subdue Red Flag

Berlin, Jan. 14.—The German Government has asked the Federal Council of Switzerland to make representations to the British Government with regard to propaganda in favor of Poland, which is reported in progress among the German prisoners interned in England. The Government complains that an endeavor was made to enlist by force 210 of the prisoners in the Polish army to prevent the men from voting in regions where plebiscites are to be held to determine whether they shall be Polish or German territories.

Berlin, Jan. 14.—Minister of Defence Noeke, has prohibited the sale of Di Freihelt and Red Flag throughout the territory where a state of siege has been proclaimed.

He pleaded not guilty to the charge of conspiracy to rob the car and was remanded to jail, as he was unable to furnish \$25,000 bail.

## Two Americans Killed In Clash With General Semenov's Troops

London, Thursday, Jan. 15.—Two Americans were killed and three wounded in a clash with an armored train of General Semenov, Commander in Chief of the All-Russian armies, between Lake Balkal and Verkhneudinsk, in the Province of trans-Balkala, according to the correspondent of the Daily Mail at Harbin. The Americans were reported as having captured the train. Other clashes were reported between the Czech Slovaks and General Semenov's troops. A Moscow wireless despatch says the majority of the Cossacks in the Amur region, and also the Buriats and the Kirghizes of the trans-Balkal region have revolted against the massacres of General Semenov and repudiated his representatives.

## Social Workers Are In Conference At Montreal

### Federal Children's Welfare Bureau Advocated by One of the Speakers—Minimum Wage for Minors Considered.

Montreal, Jan. 14.—At the Congress of the Social Service Council of Canada which opened here today, Professor MacMillan, of Toronto, advocated the establishment of a Federal Children's Welfare Bureau in the course of an address on standards in child welfare work. As to education, he held that there should be compulsory school attendance up to sixteen, with continuation schools up to eighteen, study to be reckoned on the forty-four hour week. Other speakers on the same topic in the afternoon were J. B. Dawson, secretary of the Charity Organization Society, who opened the session; Dr. Styles, who spoke on infant mortality; Miss Mary Power, Chief of the Child Welfare Bureau of Ontario, and Miss Charlotte E. Whitton, assistant editor of "Social Welfare," Toronto.

At the evening session, J. N. Barrs, Superintendent of the Boys' Farm and Training School, Shawbridge, said that prison cells and specific sentences of a given term for adults were "criminally stupid and barbarously atrocious."

Professor MacMillan, of Toronto, also addressed the session on minimum wages for women and minors, and Rev. Dean L. Norman Tucker, President of the Council, briefly reviewed the relations of the churches and of ministers to social service.

The program for tomorrow will deal with problems of the modern industrial order. At night Hon. Arthur Meighen will preside, and Premier E. C. Drury, of Ontario, will speak.

## CLOTHIER LOSES IN DAMAGE SUIT AGAINST THE CROWN

### Court Decision Holds No Minister of Crown Can Bind Gov't to Legal Contract Unless it is Ratified by Cabinet.

Special to The Standard.

Ottawa, Jan. 14.—Sir Walter Casse, Chief Justice, Exchequer Court, has decided that no Minister of the Crown, except statutory powers has been conferred upon him, can enter into a legal contract without its ratification by the Cabinet. This decision was made in the case of Livingstone versus the Crown. The plaintiff, a Kingston clothier, entered into a contract in 1911 with Sir Frederick Borden, Minister of Militia, for a supply of uniforms for the Royal Military College Cadets. The agreement was to run until June, 1915, and was then subject to cancellation on six months' notice. After the change of the Government the contract was cancelled in 1912 without notice. The plaintiff claimed damages which have been disallowed on the ground that the original contract was not ratified by the cabinet.

## MACKENZIE KING GIVEN GOOD TIME ON THE ISLAND

### Had Nothing New to Tell Those Who Gathered to Hear Him at Charlotte-town Yesterday.

## STILL SILENT ON PARTY'S POLICIES

### Presented With Bouquets in the Form of An Armful of Memoranda from Visiting Delegations.

Charlottetown, P. E. I., Jan. 14.—In the capable capacity of leader of the Liberal party, and representative, by acclamation, of the constituency of Prince, Hon. W. L. Mackenzie King had a strenuous time at the hands of demonstrative, enthusiastic and hospitable Prince Edward Islanders during his present visit. The reception tendered him last October, on his first visit to Summerside, was repeated on a magnificent scale on his present tour. Tonight he addressed two crowded meetings in the Prince Edward and Strand Theatres.

His speeches, in the main, apart from special references to conditions in this province, were along the lines of those delivered at Newmarket and Halifax. He rang the changes on stability and unity as the great needs of Canada, and on Liberalism as the solution of the problems confronting Canada. He was frequently interrupted by applause, and at the close was greeted with prolonged cheering.

On reaching the island last night he held an informal conference with several hundred representative constituents whom he thanked for returning him by acclamation. He was then presented with bouquets in the form of an armful of memoranda from various delegations regarding freight rates, erecting coal storage plants, branch lines of railway, etc.

Immediately after reaching Charlottetown, he was tendered a luncheon at which one hundred representative men, including the Premier and members of the legislature, were present. He announced that he intended to contact North York at the general election as he had been invited before receiving the invitation from Prince, and he did not wish to stand in the way of local aspirants of the latter constituency.

Mr. Lapointe also spoke at the luncheon, which lasted three and one half hours. A public reception in the Legislative Assembly chamber, followed by the invitation from Prince, and he did not wish to stand in the way of local aspirants of the latter constituency.

Mr. Lapointe also delivered two speeches here tonight, was warmly received, making a most favorable impression. This forenoon he was honored with an invitation to sit with the judges on the bench of the Supreme Court and, on the invitation of the Chief Justice, addressed the court.

The party leaves tomorrow for St. John.

## LETTS HAVE WIPED OUT THE FIRST PETROGRAD COMMUNIST BATTALION

London, Jan. 14.—A despatch from Riga under date of January thirteenth received by the Lettish legation here says through the capture of Korsovka the railway between Dvinsk and Phkov was cut. The Bolshevik forces of Rzezytsa were thereby separated from their northern front, leaving Rzezytsa on the Moscow railway the only avenue of retreat for the Soviet forces.

With troops from the Estonia front, the telegram stated, the Bolsheviks attacked the Lettians, but were repulsed. In two days of fighting the Letts wiped out the first Petrograd Communist battalion, capturing a brigade commissary and its commander, together with several hundred prisoners.

## The Railway Men Are Very Carefully Guarding Details

### The Results of Last Friday's Negotiations Only Made Known Yesterday—Wednesday's Discussion Well a Secret.

London, Jan. 14.—The Executive Committee of the Union of Railwaymen, throughout the present railway dispute, has preserved what is considered a rather unwelcome secrecy in the progress of the negotiations, secrecy which has provoked adverse comment as inconsistent with the modern desire for "open negotiations."

Only tonight is an official account available of last Friday's proceedings, and the grounds on which the men rejected the government's offer. The official report shows the men accept the principle of standardization, but want it based on the highest rate of wages instead of the average rate. They rejected the sliding scale on the ground that other factors are involved besides the cost of living. They also demand increases retroactive to August, and the inclusion of the Irish railwaymen in the settlement. Likewise, nothing was divulged tonight as to the nature of the government's concessions, except that they concern the anomalies which would not meet the demands of their branches, and that only acceptance by the Government of the full terms would justify them in voting for a settlement. The fact, however, that there was no abrupt rejection of the Government's compromise, was considered a hopeful sign.

## JUGO-SLAVS FAILED TO SHOW UP AT CONFERENCE

### Premiers Believed the Fiume Question Was About Settled When Slovans Side-stepped.

The council will consider the Turkish question tomorrow.

## TO FIND REMEDY FOR FINANCIAL CHAOS IN WORLD

### A Call for One of the Largest International Conferences of Financial Figures Ever Assembled Has Been Issued.

## BUSINESS MEN OF U. S. AND EUROPE

### Join Simultaneously, in An Effort to Bring Leaders Together in An Effort to Solve Problems.

New York, Jan. 14.—A call for one of the largest International Conferences of commercial and financial figures ever assembled, in an effort to find a remedy for the financial and commercial chaos in which the world has been left by the war, was issued here today, following the meeting of a coterie of nationally known financiers.

The appeal was issued simultaneously with similar proclamations put forth in Great Britain, France, Holland, Switzerland, Denmark, Sweden and Norway. In each case the documents were signed by business, financial, political and educational leaders in their respective countries. In the case of the European countries the appeal was addressed to the respective governments. In the United States the Chamber of Commerce of the United States was asked to arrange the preliminaries of the conference, while the appeal was addressed jointly to that body, the American government and the Reparations' Commission in Paris. While Germany and Austria are not included in the original call, it was announced that delegates from those countries would be invited to attend the conference.

## What is Planned.

"To sum up the document," says the official announcement of the conference, "it is a call to the people to return to pre-war standard of reason—an appeal to the reparations' commission for wise moderation as to the best business policy for all concerned—an appeal to governments to arrest inflation and meet inevitable hardships by increasing their revenue rather than by increasing their debts—an appeal to the people to work and serve—an appeal to leaders of commerce and finance to get together in order to study the problems dispassionately and take it up as a business proposition, relying on independent action rather than government intervention. Governments can be relied upon, however, to remove, as rapidly as possible, the obstacles that impede such a course."

In addition to the European countries who have united in the movement, the Chamber of Commerce of the United States is asked to invite delegates from Japan, the other countries of Europe and the principal exporting countries of South America.

### Plans For The Help Of Ex-Members of Canadian Forces

#### Procedure Necessary for Eligibles to Secure Assistance in Taking up Their Work in Industrial Lines.

Ottawa, Jan. 14.—(Canadian Press)—Instructions have today been issued regarding the procedure to be taken by eligible ex-members of the forces in applying for loans to enable them to secure tools and equipment on completion of course, or to proceed for such training assistance of industrial or school training under certain conditions. There are two classes of loans, the maximum of each being \$500. In the first class a disarmed man, who has received re-training through the vocational branch of the Department of Soldiers' Civil Re-establishment may apply for the purpose of purchasing tools and equipment necessary to enable him to follow an occupation or trade along the lines for which he has been re-trained. The applicant must prove the necessity for such training assistance and must offer recommendations from two responsible business men who will sign the application form. When this has been done, and loan approved, the tools and equipment required will be purchased by the department. No money will be issued to the applicant and the latter will execute a chattel mortgage in favor of the Department of Soldiers' Civil Re-establishment. Repayment of such loan will be made by means of five personal notes, not bearing interest, one being repayable each year during a period of five years. For the second class, a loan not exceeding \$500, free of interest, may be granted to a man suffering from a disability which prevents him from doing any college year, or loss of at least one year from industrial or other training. Substantial interruption is interpreted to mean loss of at least one school year or college year, or loss of at least one year from industrial or other training.

### FLYNN SLANDER CASE ON TRIAL

#### Demonstration in Court Room During Testimony of President of United Veterans League.

Toronto, Ont., Jan. 14.—An outburst of applause and cheering that shocked the court and caused Mr. Justice Ross, who presided at the Assizes here today, to threaten to have the courtroom cleared followed a statement of J. Harry Flynn, President of the United Veterans League that he was not born in Canada but was educated in Canada and fought for Canada. Mr. Flynn was in the witness box at the time, testifying in his defense in a slander suit for \$40,000 damages brought against him by officers of the West Toronto branch of the G. W. V. A. Just before the court was adjourned for the day, with the case unfinished, Mr. Justice Ross announced that a settlement would probably be arrived at before the resumption of the case tomorrow morning.

### U. S. FINANCIER TAKES EXCEPTION TO PAISH REMARKS

New York, Jan. 14.—Sharp exception to the views of Sir George Paish, on the possibilities of assistance for Europe on the part of the United States, was taken today by Eugene Meyer, Jr., managing director of the War Finance Corporation, at a luncheon of the American Manufacturers' Export Association here today. His address followed one made to the same audience by the British economist, who reiterated his opinion that it was the duty of America to give Europe enormous credits to aid in its rehabilitation. The policy, Sir George said, would be loss of foreign trade.

### Stiff Neck, Lumbago

#### Aches and Pains of Rheumatism Sometimes Almost Unbearable. There are weak and strong remedies that make rheumatism worse. They are not the same in the cases of all persons. Some victims of this disease suffer more in dry warm weather than in moist cold weather, but all suffer more or less all the time.

The cause of rheumatism is an excess of uric acid in the blood, affecting the muscles and joints. Hence the blood must have attention for permanent results in the treatment of this disease. Hood's Sarsaparilla has given entire satisfaction in thousands of cases. Do not fail to give it a trial. If a laxative is needed, take Hood's Pills—they don't gripe.

### If Thin And Nervous Try Bitro-Phosphate

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of phosphorus in the human system is very largely responsible for this condition. It seems to be well established that this deficiency in phosphorus may now be met by the use of Bitro-Phosphate, which can be obtained from any good druggist in convenient tablet form. In many instances the assimilation of this phosphate by the nerve tissue soon produces a welcome change—nervous tension disappears, vigor and strength replace weakness and lack of energy and the whole body loses its ugly hollows and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing. CAUTION.—While Bitro-Phosphate is unadversely for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

EX-SERVICE MEN IN STRAIGHTENED CIRCUMSTANCES Some Who Took Their Discharge in England Need Assistance to Reach Home.

Ottawa, Jan. 14.—By Canadian Press—Questioned as to a report that provision was being made for bringing back to Canada some three thousand Canadians who had taken their discharge in England and were now in straitened circumstances, Hon. A. J. Calder, Minister of Immigration and Colonization, who is also Acting Minister of Militia, stated this afternoon that no such wholesale action was being taken. Members of the C. E. F. who were discharged in England, he said, had entered into an undertaking that there was to be no further provision for their repatriation, but it was now found that many of them were in serious circumstances. Each individual case is being considered on its own merits, but where it is thought that a man would be better repatriated, he is being brought to Canada. The minister could make no estimate as to the number who would be brought across in this manner.

## LIBERALS AND FARMERS.

While Hon. Mackenzie King is telling awestruck audiences of the faithful that the Farmers party stands for the same things as the Liberals do, it is not on record that he has told them it would make no difference whether they voted the Farmers' or Liberals' ticket, though it is his premise is accepted the conclusion follows as a matter of course. Strangely enough on the very day Mr. King made his speech at Newmarket, claiming that the Farmers' party was twin brother to the Liberal party, a convention of the supporters of the Liberal Leader of Ontario decided to oppose the new Farmer-Labor Government of the Province from the start. Mr. Dewar's Liberals decided that when the three ministers in Mr. Drury's Cabinet, who have yet to find seats, stood for election they would find Liberal candidates in the field against them. The official report of the proceedings of the Liberal gathering referred to the Farmers' Government in the following brotherly terms:

"The extraordinary spectacle of the appointment of the rulers of the Province of Ontario resting upon the decision of a committee largely composed of men who have not been elected by the people of the Province of Ontario is one without precedent in the constitutional history of any British Dominion."

Mr. Dewar proposes to be the recognized leader of the Opposition when the Legislature convenes, and meantime is busy making ammunition against the Ministers. Already he appears to have frightened the Ministers over a proposed sale of timber lands in the north country.

Whether Mr. Dewar will be persuaded to change his attitude remains to be seen. At present he shows no inclination to accept the views of Mr. King or the other Liberal oracles, and attempt to establish brotherly relations with the Farmers.

Mr. Dewar does not even heed the Toronto Globe, a greater oracle of Liberalism than the new leader himself. The Globe sees no hope for the Liberal party unless it can form an alliance with the Farmers. It says: "Mr. King must be aware that the Liberal party, as a party, will not go back to Ottawa strong enough to form and sustain a Government opposed by the Farmer and Conservative groups. There must be, therefore, between official Liberalism and the great progressive forces of the West, which are fighting for Liberal principles, a rapprochement in politics, if not in organization, so that they may work together consistently." Then the Globe advises Mr. King that he is not really regarded as a prophet of progressive Liberalism. It thinks his views are colored by the character of his chief party support, which comes from Quebec and is not in accord with the progressive sentiments of the West, which is strong for direct taxation, public ownership of railways and water powers, and the co-operation of the Provinces with the Dominion to make prohibition effective. In effect the Toronto Globe warns Mr. King that his obsolete attitude to the questions which interest the West has "hindered thousands of former Liberals, many of them not farmers at all, to join the farmers' political movement in the West."

## CALLING THE LEAGUE.

The action of President Wilson in issuing a call for the first meeting of the Council of the League of Nations at Paris while the Senate withholds its assent to American participation in the League is an extraordinary procedure. The President says that he is "acting on behalf of those nations which have deposited their instruments of ratification in Paris as certified in a process verbal, drawn up by the French Government, dated January 10, 1920." Presumably he is issuing the call at the instance of or at any rate with the assent of the French Government, though his penchant for proceeding on his own motion appears to be his greatest fault in the eyes of his political fellow-citizens, and the fact that he "ventures to hope that the British Government will be in a position to send a representative" does not look as if Lloyd George had been consulted. There is something in the situation that suggests the sardonic attitude of Clemenceau to the League of Nations.

President Wilson by this action places himself in a peculiar position towards his Senate, and towards the constitution of the United States. He has issued the call as President of the United States; that is to say he enters into foreign relations on his own motion and his own responsibility, though Article Two of the constitution, dealing with the powers and duties of the President, says: "He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur." There are those who claim that the President's great mistake all along has been his schoolmaster attitude to the Sen-

ate, to Congress, and, for that matter, to the whole nation. He did not recognize the co-ordinate powers of the Senate; he did not consult the Senate about the Peace Treaty and the League of Nations; he returned from Paris, and ordered the Senate to ratify the Treaty without the dotting of an i or the crossing of a t. This autocratic attitude naturally piqued the Senators; being human they asserted their prerogative and held up the Treaty.

The President's appeal to the people over the head of the Senators was no doubt a bold action, but it was scarcely tactful. His latest action in appealing to the nations of the world to get together and launch the League with regard to the Senate of the American constitution is also bold; but whether it is tactful at a time the Senators were showing signs that they were beginning to recognize that the importance of the League of Nations transcended their personal pique or political prerogatives is another matter. It may be supposed that the prospect of the League of Nations holding a meeting with the United States unrepresented will pique the national pride of America, and that the President hopes that thus pressure will be brought to bear upon the Senate. Possibly the League of Nations would be able to function without President Wilson on deck, but it would be a come down for him and the American people if the United States does not qualify for charter membership.

## EAGER FOR VOCATIONAL EDUCATION.

An enrollment of between 600 and 700 for the evening classes opened by the St. John Vocational Training Committee is ample evidence of a desire on the part of the young people of the city for instruction of a kind calculated to help them in the pursuit of a livelihood. When Halifax years ago started evening technical classes it had the advantage of a fine technical college erected by the Nova Scotian Government, an institution which offered much greater facilities for making the instruction interesting and practical than St. John possesses at the present time. Yet with this fine plant available the Halifax evening classes started with an attendance of a hundred or so, and it was several years before the enrollment reached 600.

The St. John Vocational Committee are evidently not able at present to give instruction in as many lines as they would like to do, or to satisfy in a comprehensive manner the demand for technical instruction which exists here. To accommodate all who wish to take advantage of the opportunities offered, day classes will apparently have to be organized, as the enrollment has evidently been much greater than was expected. This is a healthy sign, and indicates that the public authorities have been slow in meeting a public requirement. In other cities manufacturers and employers generally attach great importance to technical education, and give prizes to encourage the students, believing that technical knowledge and industrial training have an important bearing upon the success of local industries. St. John has doubtless suffered to some extent from the fact that ambitious young people have not been able to acquire at home the training they felt to be essential for their advancement. At one time it used to be a complaint that local manufacturers looked for foremen and men of special technical skill outside the city, a procedure that had a tendency to discourage their employees, and was no doubt largely responsible for the exodus of young people, especially those who had passed through the High School, and realized the value of opportunities for further education.

While with the facilities at their disposal the St. John Vocational Committee cannot be expected to obtain any notable results this winter, it is to be hoped the interest shown in their classes will awaken the public authorities to the need of establishing an up-to-date system of technical instruction in this Province.

## ASSISTING RETURNED MEN.

The announcement that the Government will open one of the largest schools for the technical education of returned soldiers in Eastern Canada at St. John under the direction of a local man, Lieut. J. Royden Foley, has been received with interest, especially in view of the announcement of Mr. Peacock that the evening classes opened by the St. John Vocational Training Board will be overcrowded. The Government has been carrying on a system of technical instruction for disabled men, which has produced excellent results, and has attracted the attention of other nations concerned in re-establishing their wounded in civil life. The new school to be opened at St. John will offer technical instruction and vocational training to all returned men.

The need of such schools has been recognized by the employment agencies established by the Government,

and doubtless their representations have had much to do with the decision to make provision for the training of returned soldiers other than those disabled in the war. Men who were serving their country for three or four years naturally lost their aptitude for their trades, and without some special training could not be expected to resume their occupations where they left off. Besides there have been changes in industrial processes during the time they were away, to which they have to adjust themselves. Then there were a large number of young men who joined up before they had learned much of any trade or employment. When they returned as grown men they naturally expected a man's wages, though in most cases they had no technical proficiency which entitled them to demand a man's wages. At the best they were only fitted for unskilled labor, and had no prospects. To the employment agencies the young soldier has presented a serious problem. Naturally he did not wish to begin at a boy's job and with a boy's wages.

The extension of technical educational opportunities to all soldiers will be a big help in enabling the soldiers to find their place in civil life.

### THY MERCY ON THY PEOPLE.

God of our fathers, known of old—  
Lord of our far-flung battle line—  
Beneath whose awful hand we hold  
Dominion over palm and pine—  
Lord God of Hosts, be with us yet,  
Lest we forget—lest we forget!

The tumult and the shouting dies—  
The Captains and the Kings depart—  
Still stands Thine ancient sacrifice,  
A humble and a contrite heart.  
Lord God of Hosts, be with us yet,  
Lest we forget—lest we forget!

Far-called, our navies melt away—  
On dune and headland sinks the fire—  
Lo, all our pomp of yesterday  
Is one with Nineveh and Tyre!  
Judge of the Nations, spare us yet,  
Lest we forget—lest we forget!

If drunk with light of power, we lose  
Wild tongues that have not Thee in awe—  
Such boasting as the Gentiles use,  
Or lesser breeds without the Law—  
Lord God of Hosts, be with us yet,  
Lest we forget—lest we forget!

For heathen heart that puts her trust  
In reeking tube and iron shard—  
All valiant dust that builds on dust,  
And guarding calls not Thee to guard—  
For frantic boast and foolish word,  
Thy mercy on Thy people, Lord!

—Rudyard Kipling.

**THE BRANE.**  
The brane is the part of the body you think with, and the bigger your brane is the more you think, and the smaller it is the more you think you think. The easiest way to tell if a persin has a big brane is to look how high their forked is, men with bald heads not counting.

There are many expressions about branes meaning a persin hasn't got much sense, some of them being as follows:

- 1. Haven't you any branes? Meaning, Haven't you any sense?
- 2. Hay, your branes must be in your feet. Meaning there don't seem to be any in your head.
- 3. You haven't got the branes you were born with. Meaning wen you was born you had more branes than wat you got now.

Some branes are better at some things than wat they are at others. A persin mite be the best ope in the class at arithmetic, but if you asked him the boumry of Asia he mite not even answer. This proves it takes all sorts of people to make a world. Boys think they have more branes than girls, and vice versa. Boys says girls have long hair insted of having more branes, but girls say they have long hair besides having more branes. Both may be rite in some cases.

Animals have branes but they dont know the reason. Animals think because they cant help it and not because they want to and know its a fine thing to do. Horses and dogs have the most branes of all the animals, and cats and insects have the least.

A poor man can have as much branes as a rich man, being a little consolation but not enuff.

church. The assembly room was filled by representatives of the various churches participating in the movement.

Bishop Richardson presided and reports of the progress made by each church were given by the several organizers. Rev. Dr. Hutchinson, of St. John, reported for the Baptists; Rev. H. B. Strothard, for the Methodists; Bishop Richardson, for the Anglicans, and Rev. J. S. Sutherland, for the Presbyterians, while Rev. Edwin McL. Smith reported for the principal organizations generally. The reports were most encouraging, and the communions then met in separate apartments to deal with their own denominational work and to plan for the financial canvas in February when the aims of the several denominations will be: Baptists, \$150,000; Anglicans, \$90,000; Presbyterians, \$93,000 and Methodists, \$107,000. This evening, Bishop Richardson presided at a mass meeting at the Methodist church at which Rev. Dr. Hutchinson and Canon Armstrong, of St. John, were the speakers. Addresses were delivered on the objects and necessity of the Inter-Church Forward Movement.

## J. B. GREGORY LEFT AN ESTATE VALUED AT \$40,620

Fredericton, Jan. 14.—The will of J. Brunswick Gregory, manager of the York and Sunbury Milling Company, who died suddenly from a paralytic stroke at Chicago recently, has been proved in the York Probate Court. The estate was valued at \$40,620, largely personal property. The executors of the estate are Geo. A. Taylor, manager of the Royal Bank of Canada, and Albert J. Gregory, K. C., brother of the deceased. J. J. F. Winslow, the proctor, said this morning that the late Mr. Gregory in his will provided an annual income of \$1,500 for his son Ralph, who has not been in good health, and made several other bequests for his sisters, as well as his daughter, Mrs. Kaufman, of Chicago, to whose family the estate will eventually pass. In the event of death of either of the executors, Luke S. Morrison is named to succeed.

## HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Yateman, Krugersdorf, Ont., writes:—"I feel that I must write and tell you of the great benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, wherever was that it was not safe to leave me alone at any time. At last I decided to resort to proprietary medicine and took several different kinds, but seemed to receive little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will find relief."

Milburn's Heart and Nerve Pills are 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

**Was Afraid To Go To Sleep At Night**

Mrs. O'Neil Almost Desperate from Ill-Health, But Tanlac Soon Restored Her.

"I am just so happy over what Tanlac has done for me that I can't find words that will express my gratitude," was the cheerful statement made recently by Mrs. John O'Neil, who lives on Victoria Road, Sydney, Nova Scotia.

"For three years I have been troubled with indigestion so bad that I thought I would have to give up entirely," continued Mrs. O'Neil. "I was in such misery after nearly every meal the pains in my stomach and across my chest would almost draw me double. Gas bloated me up until I simply had to fight to get my breath and my heart palpitated something terrible. Night after night I sat up in bed afraid to go to sleep, and often the choking spells were so bad that I would have to get up and walk the floor. When I got up of mornings I felt so weak and had so little energy that my house-work was a burden. Life was no pleasure and I worried so much all the time that I was almost desperate.

"When I began taking Tanlac I had already taken so many medicines that did me no good at all, that I had but little faith in anything to help me. But I quickly changed my mind because I started to improve in almost no time after I began taking it. I took five bottles in all and today I am in better health than I have been in many years. I can eat just anything I want now and digest it perfectly. The gas does not trouble me any more and I never have a pain of any kind. As my breathing is free and easy I am no longer afraid to go to sleep at night and I fall asleep just as soon as I go to bed. I never once wake up till morning and when I get up I am feeling full of life and energy. At times it seems so wonderful the way Tanlac has built me up that I can hardly realize myself what perfect health I am enjoying."

Tanlac is sold in St. John by Ross Drug Co. and P. W. Irons, under the personal direction of a special Tanlac representative.—Adv't.

Kearns' action follows adoption by various posts of the American Legion of resolutions condemning Dempsey as a "slacker" and "draft dodger."

## Flyweights Have Not Signed Up

Toledo, O., Jan. 14.—George Biemer, of Fort Wayne, Ind., manager for Frankie Mason, announced here tonight that a boxing bout for the flyweight championship of the world between Mason and Jimmy Wilde reported from Milwaukee, has not been closed. Biemer is negotiating with Ad Thatcher to stage the match here. Biemer declared that the only point agreed upon between himself and the Milwaukee promoter was the matter of weight.

## Wrestling Matches And A Speech By Com. Thornton

One of the most successful entertainments ever held by the New Brunswick Kernel Club, was given last evening in the Moose Hall, Charlotte street. A large number of members were present. The feature of the entertainment was two wrestling matches given by Taylor and Yeomans and Donovan and Howard.

The first to go on the mat were Taylor and Yeomans, the former winning in a one fall match. The Donovan vs. Howard contest was won by the latter, after a very close and interesting conflict. The splendid condition which the four contestants were in, showed that their training was not futile, and their trainers are to be congratulated on the remarkable showing the boys made.

A very interesting address was made by Commissioner Thornton, on the benefit received by boys taking physical exercises, and the advantages to them if trained for various sports. Joseph McNamara, physical instructor of the Y. M. C. I., also made a brief address, explaining the benefits of the various sports.

The programme for the evening was as follows:

Male quartette: Novelty Orchestra; Mandolin and Banjo, Messrs. Orr and Cain; Violin and Banjo, Baxter and Cain; Back and Wine Dancing, Mr. Nodden; Reading, F. Boyer; solo, Mr. Nodden; Accordion and Banjo, Nodden and Cain; Solo, Mr. Cain; Song and Dance, Merritt Brothers.

At the close of the above programme refreshments were served to the audience.

## SOCIALISTS BOOM DESCHANEL FOR PRES. OF FRANCE

### His Candidacy Promises to Live up to the Congress of Versailles and Clemenceau Walkover May Not Materialize.

Paris, Jan. 14.—(By Associated Press)—Paul Deschanel was suddenly thrust forward as a candidate for the Presidency of the Republic in the Chamber of Deputies last night, seemingly by spontaneous impulse on the part of members of the Radical Socialist groups. The candidacy of M. Deschanel promises to live up to the congress of Versailles which will meet Saturday to elect a president, and the expected walkover for Premier Clemenceau, which was regarded by everyone as a foregone conclusion, may not materialize.

Immediately after M. Deschanel was re-elected president of the chamber by 445 votes out of the 455 ballots cast, some 150 to 200 deputies, led by former Premier Briand, Edouard Herriot, Camille Lenoir and Andre Lefevre shouted:

"Now to Versailles!" These and others crowded around M. Deschanel, urging him to stand as a candidate. The Left groups of the Chamber will meet in plenary session tomorrow, will formally choose M. Deschanel as their candidate and inform him of their choice the same evening.

M. Deschanel's acceptance is expected to force Premier Clemenceau to announce whether or not he is a candidate.

## United States To Compete At Henley

### Union Boat Club of Boston to Send Crew—Harvard and Yale May Send Eights.

Boston, Mass., Jan. 14.—The United States probably will be represented at the Henley rowing regatta in England next summer by a crew from the Union Boat Club of this city, but the selection of June 20 to July 2 as dates for the meeting which was announced today, is expected to restrict American entries.

Yale and Harvard Universities, it was learned today, have had under consideration a proposal to send their varsity eights across to compete for the grand challenge cup, now held by Harvard. With the annual Yale-Harvard regatta to be held at New London on June 25, however, selection of June 30 as the opening Henley date was said by Harvard rowing authorities to make it doubtful whether either University would be represented.

Postponement of the New London regatta is considered impracticable because the date is governed by Commencement, and arranged for the benefit of graduates. The possibility of sending a second or special crew will be considered, but decision would not come for some time.

The Union Boat Club already has set about preparation of a crew to challenge for the grand cup, and may also send individuals as competitors in the diamond sculls event.

## AFTER 50 BLAZES, BOY HAD PLANS TO "SET WORLD AFIRE"

### Master of Brooklyn Firebugs Says He Meant to "Branch Out" in Philadelphia.

New York, Jan. 14.—After being questioned for five hours, John Meyers, fifteen years old, of No. 144 Holl street, Brooklyn, who was arrested Saturday night after a \$6,000 fire in boxes 424 and 426 Kickerbocker Avenue last night completed his narrative of more than fifty incendiary fires, and accompanying petty thefts.

"You can't expect me to remember all the numbers of the houses," the boy said, "but I always attended to the thefts myself. My method, he said, was to take only one of his pals with him on any 'job' and that he always insisted that his companion act as lookout. "I was the torch and made all the hauls myself."

Although the boy and his companions confined their activities chiefly to Brooklyn, they did set three fires in Manhattan and one in Hoboken. Meyer said he was arrested while on the Hoboken job, but that the police did not suspect him of setting the fire, and picked him up only on a robbery charge. He said he was on parole in Hoboken and reported there regularly.

The boy announced he intended to spread his activity to Philadelphia going there to set a fire and getting back to New York before those at his home would suspect him of the crime. He said he was on parole in Hoboken and reported there regularly.

He never took jewelry because of the danger in pawnshop articles. His scheme was to take only ready cash, "because you can spend that easy."

The boy is undersized and is backward in his studies. In the opinion of the Fire Marshal he is undeveloped mentally.

"But in all my thirteen years ox-

Halifax, N. S., Jan. 14.—(By Canadian Press).—That all facilities required for the Olympic games to be held at Halifax in 1924 will be provided is the guarantee which the Executive Board of the International Exposition for Nova Scotia has cabled to the authorities in Europe who are in charge of the greatest of the world's sporting events. Plans for a great athletic convention, with representatives of athletic associations from other parts of Canada invited, are being pushed forward immediately. ## Athletes To Take Physical Test

### New Ruling by Montreal Amateur Athletic Association Made to Protect Members.

Montreal Que., Jan. 14.—At a meeting of the Board of Directors last evening it was decided that all members of the Montreal Amateur Athletic Association must undergo a physical examination before participating in any games. This decision was largely due to the discovery of Dr. A. A. MacKay that two members, who were taking a continual interest in sports, were suffering from much enlarged hearts, and if these boys had been permitted to continue they would have undoubtedly killed themselves.

## Canadiens Win Over St. Patricks

### Flying Frenchmen Played Rings Around the Locals During First Half Hour.

Toronto, Jan. 14.—That one saying, "He who hesitates is lost," was forcibly impressed upon the St. Patrick's team here tonight by the Canadiens of Montreal. The flying Frenchman aided by the poor play of the locals, played rings around them during the first thirty minutes and tallied four goals. In the last thirty minutes, St. Patricks returned the compliment, but they fell short by one goal of tying the score and lost four to three.

As the result of the victory the Canadiens are in a good position to win the championship of the first half in the N. H. L. race.

McMANUS. HELLO-JIGGS! WELL-WELL-HOWDY OLD TOP!

DON'T BE A "MISERY-FACTORY" Stop Headaches, Bilious Spells, Colics and Constipation with "Cascarets"—Ideal Physic!

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach and colic.

Cascarets work while you sleep; they cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels which is now keeping you in constant misery.

Financial Geniuses. (The Gleaner.)

Members of Government, with one accord—and in so saying we trust we are not revealing any State secrets—decided to use the alleged unexpended balance of the Patriotic Fund, \$75,000—boldly and improperly "swiped" from the people a year or so ago through the process of direct taxation.

The A. R. Gould Claim. (The Gleaner.)

If the A. R. Gould claim of \$63,000 against the St. John & Quebec Railway Company is before the Company or the Government today, it will, according to a despatch from Ottawa published in these columns a few weeks ago, meet with a friendly response.

British Columbia has disposed of an issue of \$2,500,000 five-year 5 1/2 per cent. bonds at 97.84. New Brunswick's 5 1/2 per cent. sold recently, brought 96.12.

P. E. Island Car Ferry. (Charlottetown Guardian.)

Our evening contemporary can never discuss a public question without introducing politics and partisanship and the car ferry is no exception.

Yesterday the Patriot challenged the Guardian to disprove it, since October 1st no freight trip has ever been made by the car ferry after the arrival of this side of the passengers and mails.

We have pleasure in assuring the Patriot on no less authority than that of Captain Read that the car ferry has been making such trips regularly in October, November and December, weather permitting.

We sincerely trust that with this reliable information the Patriot will now desist from its uncalled for attacks on the car ferry service and join with the other newspapers of the province in endeavoring to get an improved service between Sackville and Tormentine and the fulfilment of the promise of a second car ferry.

In response to an inquiry from the studio of George Grey Barnard, American sculptor, asking if any of the young women in "The Greenwich Village Follies," a musical comedy now running in New York, had a figure suitable as a model for a statue of Eve, the management wrote Mr. Barnard that Miss Virginia Lee would undoubtedly do.

Albert

Albert, Jan. 13.—Ideal winter weather has prevailed here for upwards of three weeks, and since the roads have become good enough for heavy teaming, sawn lumber is arriving here from mills in the New Ireland district, and is being loaded into box cars and shipped by rail to St. John to serve as ballast in the ships going overseas from the Winterport.

Charles T. White & Sons, Ltd., are having their large piles of sawn lumber of last year's cut, which were stuck up at Waterside, hauled by teams to Albert, a distance of twelve miles, and forwarded to St. John by rail. This is a lot of very extra special lumber which is being forwarded to the British Government. Six fine double teams are engaged in the work at present, and several more will be on the work in a few days. The teams go each a round trip per day, and the load average two thousand feet of two-inch lumber, at the price five dollars per thousand feet.

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrhal Deafness, or noisy catarrh at the ear, try at once this formula and hand it to them and you may have the means of saving some poor sufferer perhaps from total deafness.

In England this formula has been used for many years and has been recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalants and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages to irritate the lungs, which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your druggist 1 ounce of Permut (Don't's strength). Take this home and add to it 3/4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Permut used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is harmless to take. Every person who has tried.

SHARP DECLINES HIT NEW YORK

(McDOUGALL & COWANS.) New York, Jan. 14.—The midday recovery was only slight and temporary and was succeeded by lower prices in the early afternoon.

Declines from previous closing level ranged from 1 1/2 points in U. S. to 7 1/2 points in the more volatile issues.

Directors of the Federal Reserve Bank here, according to custom, postponed any announcement they might have to make regarding reduction rates till after three o'clock.

Call money advanced to 3/8 per cent in the early afternoon and later to 1/2 per cent.

Clocks rallied slightly about the beginning of the last hour, but soon turned weak again and most of them closed at or near the lowest prices of the day.

S. & C. RANDOLPH. Advice. Don't wait for any year my boy To bring you glad tomorrows.

Just hope for strength to earn your joy And faith to bear your sorrows Just pray that from the deeds you do Real happiness may come to you.

Larochelle, France, Jan. 14.—More than 400 persons are believed to have lost their lives in the wreck of the steamer Afrigue on Roche Bonno Shoal, Bay of Biscay. Only fifty-seven survivors are known to have been landed. Hope for the rest of the passengers and crew faded during the night as hour after hour passed waiting for tidings, and seventy-two hours after the vessel foundered many feared one of the greatest marine tragedies of modern times had been enacted off the coast before dawn Sunday morning. Sailors and French colonial soldiers are the only persons known to have reached land in safety.

Sydney, N. S., Jan. 14.—Steering with unique arrangements of pipes, the whole operated by a steam winch on the after deck, the steamer Canadian Splinter arrived at North Sydney yesterday afternoon in tow of the Canadian Government steamer Montcalm. The Splinter had been drifting for over a month in the ice of the Gulf of St. Lawrence. The Splinter's rudder stock had been twisted, but the jury rudder rigged up worked very well. The ice about the ship was packed so firmly that the members of the crew were able to stand on it to work on the damaged rudder.

**ELLIS ISLAND'S LONGEST VISITOR DEPORTED TUES.**

Has Been Detained as Undesirable Since the Beginning of War.

New York, Jan. 13.—Ellis Island's most protracted visitor Miguel Cogie, who has been detained there since August 3, 1917, is on his way home to Austria, immigration authorities reported today. Cogie, who received the Soubriquet of "cognac al" arrived here upon the outbreak of the war but was found to have defective vision and was ordered deported as an undesirable alien. War caused a suspension of sailing to Austria, and he was forced to wait until conditions became normal. His board cost the government \$2,046, according to immigration officials, and in addition he took away with him \$405 earned doing hair cutting, shaving and tailoring for immigrants. Cogie was 48 years of age when he arrived here in 1914.

The Women Lead In Enrollment

Vocational Classes Most Popular and Many Students Last Evening Had Their First Lessons in Sewing, Millinery or Cooking.

It was stated last evening at the office of registration for the Vocational Classes that up to date seven hundred applications had been made.

Women are far in advance of the men in their thirst for knowledge along their particular lines and inquiries are being made as to which of the other classes they will be allowed to enter. One member of the committee stated last evening that she had received inquiries for the motor mechanical class from two women, and another had entered for the architecture drawing. Still another inquiry was made regarding the electric wiring course by a woman who thought she would like to be independent.

The Standard representative visited the rooms in Oddfellows' Hall, where dressmaking and millinery are being taught, and saw large classes of pupils intent on puzzling out the intricacies of a pattern, or filled with wonder over the ease with which a hat foundation can be manufactured when you are shown just how by one who knows.

The dressmaking students, under their capable teachers, were learning to make night dresses, aprons and dresses, starting out from the beginning, cutting out the garment and putting it together with the help of advice from the instructor.

In the millinery department headgear was being constructed from buckram, and soon it will be necessary, the reporter was informed, to purchase mirrors in which the effect of the finished articles may be viewed.

ST. JOHN DELEGATION GOES TO OTTAWA ON HARBOR QUESTION

Federal Government Making Appropriations for Harbors Wants to Hear About St. John—The Mayor, B. of T. and Commercial Rallies to Support of St. John—Commissioner of Harbors Ignored.

The Commercial Club have not been long in getting action on the harbor question. Yesterday A. P. Barnhill, the St. John Director of the Canadian National Railways, wired the Commercial Club, the Board of Trade and the Mayor that a delegation was wanted at Ottawa to explain the situation here, and there was some stir about the city yesterday afternoon.

The Mayor left for Ottawa last evening. He told the reporters that he would be out of the city for a few days, but hoped on his return to be able to hand out a story of more than usual interest. R. B. Emerson, president of the Board of Trade, stated last evening that he had asked H. C. Schofield, A. H. Wetmore and Secretary Armstrong to go to Ottawa, and lay the views of the Board of Trade before the Government. Notice was very short, and he could not arrange to go himself.

The officers of the Commercial Club gave the N. B. Telephone Company an excuse yesterday afternoon for putting the system of measured service into effect at once. Strenuous efforts were made to get a large delegation from the Club to go to Ottawa. But business cannot always be at the service of the city at half an hour's notice, and the idea of sending a big delegation had to be abandoned. However, the Club which has made a noise heard at Ottawa and various other parts of the Dominion, will be represented when the St. John delegation appears at Ottawa.

Apparently the publicity given to the port congestion by the St. John Commercial Club has attracted attention at Ottawa as well as other parts of the country. About this time the Government is preparing estimates to be submitted to parliament. What estimate the Government had made for the port of St. John nobody knows, but there was an idea yesterday that the Minister of Marine had woken up and recognized that St. John was more

than a port of call and ought to be entitled to more consideration than it has received.

Telegrams were sent to Senator Thorne and J. B. M. Baxter asking them to go to Ottawa, but neither were able to go at such short notice. The St. John Water Front Council of Port Workers held a meeting the other evening, and the question was raised by two berths were idle. Up to a few days ago not more than seventy per cent of the members of the Longshoremen's Union were employed on the docks; the last few days a large proportion of the members have been employed, but last evening ten gangs of 150 men were laid off.

As a result of the congestion three steamers bound to St. John for grain have been ordered to Portland, Maine. A speeding up of shipment of lumber by means of lightering to vessels at anchor would relieve congestion not only at the docks, but in the railway yards, according to a statement yesterday by a transportation man. He said it would cost, roughly, \$1.50 per thousand additional to lighter deals, but that the cost would be justified in that it would obviate demurrage charges for steamers.

Commissioner Bullock, who was asked about the proposal, said that the question of having lumber transported from cars to vessels at anchor, through the medium of lighters had been called to the attention of the authorities who have charge of considerable quantity of lumber which is here awaiting export. It was also suggested that operations at the Government elevator be speeded up, as it is reported the plant is not being worked to its fullest capacity.

Commissioner Bullock advised that applications for use of the D. A. B. wharf by ocean-going vessels were being continued.

Vocational Board's Crusade Meeting On West Side

Ladies of Charlotte Street Baptist Church Held Yesterday Afternoon and Evening—'Silver Tea' Served.

The ladies of the Charlotte Street Baptist Church, West Side, held a Crusade Meeting in connection with the W. M. A. S. yesterday afternoon and evening. At the afternoon meeting, Mrs. George Bishop gave an interesting talk on missionary work and showed a number of pictures of work in mission fields. The meeting was presided over by Miss Clara Fuller, and the annual envelope collection taken at its close. Supper was then served in the primary department of the church.

The tables were arranged in banquet fashion, and presented a very attractive appearance, red geraniums prevailing in the decorating of the room. The snow white tablecloths and the white costumes of the serving girls presenting a very pleasing contrast.

Miss Clara Fuller, president of the W. M. A. S., and Mrs. W. F. Hoyt poured. Mrs. J. R. Webb served the tea. Those assisting were Mrs. H. B. Jenner and the Misses Clarke, Rogers, Hart and Thompson.

At the conclusion of the "Silver Tea," the guests, in passing out of the supper room, deposited their contributions in a large silver basket, which was placed on a pedestal, presided over by Mrs. T. N. Mott. A considerable sum was realized.

During the evening service an address on the Christian Mission was given by the Rev. Lawrence Teaford, the Charlotte Street Church Male Quartette sang "The Wayside Cross," and a musical offering was given by Mrs. Silas Gregg and Mrs. Jane Patterson. The whole affair was voted a grand success.

Death of Well Known Citizen

Frederick A. Peters Passed Away Yesterday—Member of Firm of C. H. Peters' Sons Ltd.—Loss Will be Regretted by Large Circle of Friends.

A very large circle of friends will be deeply grieved to learn of the death, which took place yesterday, of Frederick A. Peters, son of the late C. H. Peters, and a member of the firm of C. H. Peters Sons Ltd. There is left to mourn, his wife, formerly Miss Ella Graves, daughter of the late Valentine Graves, and four sons, Harold, James D., Gordon, and Daryl all of this city. There are also four brothers, John, Edmund, Charles H. and Frank L.

The late Frederick A. Peters was born in Gagetown in 1866, and spent his life in St. John. He was well and favorably known among a very large business connection. For several years he was president of the Union Club of St. John. Until his falling health some year and a half ago made it necessary for him to give up golf, he was an enthusiastic member of the St. John Golf Club, and he will be greatly missed among his associates there. Mr. Peters took a deep interest in all civic matters and during the war any appeal for patriotic purposes found in him a strong supporter.

Of a genial disposition and kindly nature Mr. Peters was the great friend and the sympathy of the community will go out to those bereaved. The funeral will take place on Friday at 2:30 p. m. from his late residence, 200 Germain street.

Technical School For Returned Men

Largest Technical School in Eastern Canada Will be Opened Shortly by Federal Government—Will Meet Decided Need.

One of the largest schools for the technical education of returned soldiers in Eastern Canada will be opened in St. John next week under the direction of Lieutenant J. Royden Foley, a local young man who returned from overseas last month, after lengthy service with the British air force. Mr. Foley has been in Ottawa, where he completed arrangements with the director of the Department of Soldiers' Civil Re-establishment for the instruction of returned men in all classes of motor mechanics, vulcanizing, oxyacetylene welding, mechanical electricity and the reading of mechanical drawings.

The new building in City Road has been taken over and is now being prepared for the establishment of the school. It contains about 10,000 feet of floor space and will be the largest school of this description in this part of the country. All discharged men who come under the scope of work of the D. S. C. R. will be eligible for any of the classes, provided application is made before February 1. Many of the departmental instructors in the new school will be local men.
