We cannot sint our eyes to the fact that the present Govt. has been the exact opposite of all they promised—from the "elevation of the standard" to the steel rails and Pacific Railway, pobling all has falsified their pledges—therefore the rule of contrary is the one most likely to be correct. Speaker Anglin is now in Gloucester, feeling the pulse of that County, and calculating his chances of re-election. It is said by those who pretend to be in his confidence, that if he is opposed, he will not offer for that County, but will be returned by a Montreal constituency. The Advance of last week hinted at a coming man in the interests of the fishermen. This must mean either the redoubtable D. G. himself, or his master. That D. G. should hope to carry this County does not at all surprise us, knowing the creature as we do, but that his master should seriously think of unseating our present representative does, we confess, excite our wonder. The Farmer's Corner.

WHEN TO SEED DOWN TO GRASS .-I have not a doubt that August is the best time. Grass sowed then looks well now, though it hardly started perceptibly before frost, and it appeared to grow but little after that. Even that sowed with late rye is starting now finely, and will stand a drouth much better than any spring sown grass possibly can. Oats seem WHOLESALE AND RETAIL so much a necessity to horses, that I have favoured seeding down with that crop, and raise generally only rye enough for what straw we need .-But last summer's experience is a warning. I met Mr. Barstowe, of WILL be ALLOWED TIME, English and Canadian CLOTHS Norwich, Ct., a life long dealer in implements and seeds for farmers, and he appealed to me to know what time of the year it was best to sow grass seed. With the manner of Sir Oracle I said August,—and, it THE STOCK seems, confirmed some advice which he had just been giving. For my part I was very glad also to be confirmed in my view by so experienced an observer. Rather than sow grass seed with oats, and take the chances of the summer, I think it will pay to plow the oat stubble, and sow the THE PUBLIC ARE INVITED grass and clover together as early as To call and examine for themselves. the oats can be gotten off the land. -Am. As their WITH CATALOGUE OF PRICES WILL numbers are probably decreasing rather than increasing each year, the profit to those who remain in the business is consequently greater, as the scarcity of an article always enhances its value.

They are in some respects of the nature of cattle, requiring grass as, their principal food, and of this an abundance. As they are apt to be noisy, and in some cases even a nuisance, it is best to confine them in buying your Goods from the Subscriber, who is prepared to give his customers a fenced field or pasture which con-From such ground they will be able to pick up much that would be otherwise of no account, and convert it into a valuable article of food, or into feathers, which are always of

REVERSE THE PLOUGH COULTER.—
Below I give what I consider one of the grandest improvements in using the grandest improvements in using as follows:—

DURING the obstruction of the navigation of the south West river, and until further notice the above Steamers will run as follows: the coulter on ploughs. A Shaker farmer at Mount Lebanon told me that in breaking up and deeply ploughing an old pasture, where he LEAVE NEWCASTLE. For restoring Gray Hair to its natural Vitality and Color. A dressing which is at once agrefable, healthy, and ef-

with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its COLONIAL FOUNDRY, occasional use will prevent the main from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm

it. If wanted merely for a

The Creat English Remedy! WILLIAM GRAY'S Before Taking. After Taking

SPECIFIC MEDICINE Cures all Nervous D'seases, such as Tremors, Debility, Prostration, etc., which are in many cases produced by over indulgence in the use of tobacco and alcoholic spirits; but the Specific Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhea, Impotency and all the diseases that follow as a sequence of all the diseases that follow as a sequence of Self abuse, as loss of memory, Universal Lassitude, Pain in the Back, Dimness of Vision, Premature Old Age and many other diseases that lead to Insanity or Consumption and a Premature Grave, all of which as a rule are first caused by deviating from the path of nature and over indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet we'ch we desire to send free by mail to every one.

The Specific Medicine is sold by all Druggists at \$1 per package, or six packages for es that follow as a se
