CAMPBELLTON BOYS WRITE OF WAR.

Not Many of Old 26th Left—Many Changes—Has Seen Considerable of France

The two letters following were received by J. L. LeBlanc from his sons who are with the Canadians at the front.

Pete, LeBlanc is with 26th while Pat, J., is with the machine gun section of the 2nd Brigade.

France, Oct. 19, 1916.

Dear Father:
Received a letter from Florence a few days ago and also the tobacco, and thank you very much for same.

We did not have such a bad trip last time. Have seen two scraps and in one took part with the British troops and they are pretty nice fellows to see with, but they found it strange to see us with them. We went in for twenty-four hours for the scrap and before we got out we had been in for ten days, which was quite a while. We had to move about four times and dig in each time which kept us pretty busy but we were not located at all by Fritz so he did not give us much trouble, but he was not very far out and throwing very heavy stuff. We are back in billets just now and don't expect to be here long. I wrote a card last night to you as I thought I would be away this morning. We expect to be going further back of the line.

This morning one of the boys had the honor of getting the D. C. M., for doing good work up the line. One lad with his gun on "No Man's Land" held up a counter attack and Fritz tried to capture it but was sorry for it. The gun puts out over six hundred a minute. The other lad got his gun knocked out with the rest of the crew but he went on got another one and did some good work. The place I was in last time someone caught Fritz pretty bad with a machine gun for they were laying all over the place by the score, more than one could count. One could get all kinds of souvenirs and I took a saw bayonet which I will try to send to you if I can get it away.

Everything here as we advance shows that Fritz is very hard pressed in every way for he does not get a minutes rest for there is something doing here every day and Fritz has his picked men on this front and they don't line the tanks at all. His airplanes have only come over once since we arrived, they came by flocks but three were brought down that day. Fritz is not down very deep in and his troops can't fight in the open at all and I hardly think myself that he can stand much more of it. I was watching them the other day taking in the wounded with a white flag. I had glasses, got a pair issued to me when I got my pistol. They are handy for looking up things before fire also for ranging. Will write again soon, so with best wishes to all.

Your son, Pat. J. LeBlanc.

Field, Oct. 18, 1916.

Dear Father and all the Family:
There is no doubt that you have been wondering what had happened to me and that I had not written for some time. Well its like this, we have been touring the country for about a month and a half and now we do not know for sure if we shall remain here or not, however I have been quite well all the time and have heard from Pat once or twice since we moved here, and he is all right.

Well we did our little trick down in the — which was a regular hell

Annual Meeting

The Annual Meeting of the Caladonian Society of Restigouche will be held in the TOWN HALL at Campbellton on THURSDAY EVENING, NOV. 30th at 8 o'clock.

T. R. BUSTEED, President.
Nov. 14th-2 w.

NURSING SISTERS HOME FROM FRANCE

Arrived Here Saturday Morning Enroute to Homes—Speak of Canadian Wounded.

Nursing Sister J. E. Mann of Shigawake arrived here last Saturday morning, on the Maritime express, having landed from the S. S. Mauritania, Friday.

She visited her brother, Chief of Police, T. Mann, Saturday evening, a quiet entertainment was held at the home of Chief and Mrs. Mann, Arran St., in her honor.

Sister Mann, who is a graduate of the Montreal General Hospital went over with the McGill unit in May 1915 and has since been caring for the wounded soldiers in France. She was at one of the clearing hospital at the front and saw many of our Canadian boys, and is loud in her praise of the grit and spirit of even the severely wounded. All were cheerful and bore their suffering patiently.

Nurse Mann resigned her commission to come home and nurse her mother who has been seriously ill for sometime at her home at Shigawake. Nursing Sister Dickie of Charlott was also a passenger from the front on the same steamer.

for us all, but the boys in the old 26th kept their name up all the same, although our casualties were quite numerous on our first attack, next was not nearly so bad, simply because we did not have the men to lose. Believe me, there are very few of the old bunch left with us now, things are somewhat different about this Battalion at present.

Well now I have seen some of France and am not a bit struck on it, although the people are very nice to us most everywhere we go as they have never seen the Canadians before and find that they can speak some French. I met George Wallace a few days ago and he is all right, but have not heard a word about Frank Savoie yet. I guess there are no hopes of him now. It looks as though winter was setting in again and we have to stick it out again, as this war has no end for the present.

Well all goes well with me now and hope it is the same with you all at home. You have my best wishes for good luck.

Your son Pete.

SIR WILFRED LAURIER

75 YEARS OLD
Ottawa, Ont., Nov. 20.—Sir Wilfred Laurier is celebrating to-day the 75th anniversary of his birth. The former Premier is in good health and apparently better than a year ago. He spent the day quietly at his home on Laurier Avenue receiving numerous callers and messages of congratulations from distinguished people.

ANNUAL MEETING

The annual meeting of the Agricultural Society, District No. 1, will be held this evening at 7.30 o'clock in the office of Mr. D. A. Stewart. As business of much importance will be brought before the meeting, every member of the society is earnestly requested to be present.

Having installed an up to date skate sharpening machine we are prepared to serve the public at reasonable prices. Work Guaranteed. McRae's Shoe Store.

QUEBEC ORIENTAL RAILWAY COMPANY

NOTICE is hereby given that the Annual General Meeting of the Shareholders of the QUEBEC ORIENTAL RAILWAY COMPANY will be held at the Company's offices Temple Chambers, Temple Avenue, London, England on Thursday the 28th December 1916 at 2.30 p. m. for the transaction of the general business of the company.

By order,
E. S. ELVEY, Secretary.
London, England, 12th October 1916.
Nov. 15—4 w.

ATHOL BOY KILLED AT LACHINE, QUE.

Was Playing With Another Boy When he Received Severe Electric Shock.

An inquest will be held today into the death of fifteen-year-old Norman Reid, of Lachine, who died Wednesday in the Lachine General Hospital, as a result of burns received about a month ago. The victim who was an orphan, with no relatives in this country, was playing with another boy along the canal banks at Lachine, when he climbed a post belonging to the Canadian Light & Power Company. When he reached a cross arm he came in contact with a highly charged wire and was badly burned, and thrown to the ground. Little hope was entertained from the first, and he died late Wednesday night. The body was taken to the morgue yesterday.—Montreal Globe 9th Nov.

Enquiries made here have brought out the facts that he formerly lived at Athol.

In writing of the affair to Rev. H. Miller, Mr. Swan of the Presbyterian College, Montreal says: I may say that the little fellow bore his sufferings manfully and from conservation with the nurses learned that there never was a more easily managed or patient sufferer in the public ward.

FOREMAN INJURED AT McLENNAN SHOP.

Staging Gave away and John Norman is Thrown to Floor Right Arm Broken.

While attending to some work in the McLennan Foundry and Machine Works Tuesday morning the shop foreman, Mr. John Norman was thrown to the floor by the carrying away of a staging. He was rendered unconscious, and had his right arm broken above the wrist.

Dr. Price was called and after attending to the injuries, had the unfortunate man removed to his home. He will be obliged to remain off duty for some time, although he is up and about as usual to-day.

GOLDEN WEDDING

Mr. and Mrs. John Poirier of Charlott celebrated the fifteenth anniversary of their wedding on Monday, Nov. 13th. Mr. Poirier is one of the prosperous farmers of Charlott and his home was crowded with well wishers on this anniversary.

Children to the fourth generation were present, and these presented them with an address and a purse of gold. Many other tokens of respect were received by the couple.

Mass was celebrated in the church, which was crowded. Rev. Fr. Robichaud preached an eloquent sermon.

Among those who attended from Campbellton were Mr. and Mrs. Jos. Boudreau, Mr. and Mrs. Louis Cyr and Mr. and Mrs. John McIntyre. A sumptuous dinner was served to a large number of guests.

171st BATTALION

The 171st Battalion passed through Campbellton last night enroute to Amherst. A large number of relatives and friends of boys from Bonaventure were at the depot to wish them luck.

EARLY SKATING AT RINK

The management of the skating rink have laid a two inch plank floor at the Skating Rink and during the recent cold snap were able to make ice and last Saturday night the rink was thrown open to the public. This is the earliest in the history of the rink. Two nights skating were enjoyed, then the management found it necessary to close down for a few nights to thicken up the ice. It is probable the rink will be open again to-morrow night.

SALE AND TEA

The Mission Band of St. Andrew's church intend holding a sale and tea in the church hall about the 15th of December.

TWO RESTIGOUCHE BOYS AMONG THE KILLED.

Corporal Boyd Nichol and Private James R. Gallant Make Sacrifice.

Two Restigouche boys are mentioned in the casualties this week as having made the supreme sacrifice.

They are:—
Corporal Boyd Nichol of Glenora, killed in action.

Private James R. Gallant, died of wounds.

The following letter has been received by Mrs. Gallant:—

Ottawa, 17th Nov., 1916

Dear Mrs. Gallant,
It was with feelings of very great regret that I learned today of the death on Nov. 16th, of Private James R. Gallant.

I am writing this letter for the purpose of extending my very sincere sympathy to you in your sad bereavement. Nothing of course can lessen the effect of the blow and of the sorrow caused to you and his family and intimate friends, but at the same time it is a satisfaction to know that he died serving his country, fighting in defence of those who are left at home and of the free institutions that are so dear to the heart of every Canadian and Britisher.

Again expressing my very deep sympathy, I am,

Yours very truly,
J. D. Hazen

Mrs. J. R. Gallant,
Campbellton, N. B.

NOW OVER \$30,000

A telephone message from Fredericton this afternoon announced that the returns from the school children's effort on behalf of the Belgian children now exceeded \$30,000, and is still growing.—Globe.

An up to date shoe repairing machine installed at McRae's Shoe Store. When your shoes need repairs leave them here. Satisfaction guaranteed.

WINDSOR MAN REPUDIATES THE RUMOR

In connection with the report of the disturbance at Windsor, N. S., brought on by stories regarding remarks by alleged sympathizers, Mr. Koppel says he has commenced criminal action against the man responsible for circulating a false rumor regarding him. Mr. Koppel is the proprietor of a two and ten cent store in Windsor. "I have resided," said he, "thirty-five years in Canada and I am a British subject. Further than that I have one son in the firing line fighting the Huns and another son training with the 73rd of Montreal and preparing to go overseas and fight the Huns."

PATRIOTIC SUPPER

An oyster supper will be held in the St. Andrew's church hall on Thursday, the 30th inst. (St. Andrew's Night) under the auspices of the Women's Institute. Proceeds in aid of the Patriotic fund of the town. Supper will be served from 5.30 to 8 o'clock.

MENU.

Oyster Stew and accompaniments.
Also tea, coffee, brown bread, tarts, biscuits and cake. Price 50 cents.

CALEDONIAN SOCIETY

The Scotchmen intend to combine pleasure with business on St. Andrew's Night, Nov. 30th and held a social evening.

THE ROYAL NAVY WANTS CANADIANS

For immediate overseas service. Pay \$1.10 a day and upwards. Free Kit. Separation allowance, \$20.00 monthly. Apply nearest Naval Recruiting Station or Dept. of the Naval Service, OTTAWA

15 to 1

The above represents the number of years spent in fruitless efforts to cure a bad case of eczema with ordinary ointments, compared with the time it took Zam-Buk to effect a complete and permanent cure.

This was the experience of Mr. H. C. Buckley of 461 East Broadway, Portland, Ore. Writing to the Zam-Buk Co., he says: "For fifteen years I suffered with a bad case of eczema, and used all kinds of so-called 'cures' and treatments, but nothing was capable of curing me until I tried Zam-Buk. This wonderful balm, however, completely cured me in less than a year, and not only so, but I have had no return of the disease. I strongly recommend Zam-Buk to anyone afflicted as I was."

This is but one of the hundreds of cases where Zam-Buk has effected a cure when everything else failed. The reason is easily explained. Zam-Buk being unusually refined—containing absolutely no animal fats or mineral drugs such as are contained in ordinary ointments—is capable of penetrating to the underlying tissues where skin diseases have their roots. Ordinary ointments, on the contrary, never get beyond the surface skin and so are incapable of effecting permanent cures.

Zam-Buk is just as good for salt rheum, ringworm, boils, ulcers, abscesses, blood-poisoning, piles, cuts, burns, scalds and all skin injuries. All druggists or Zam-Buk Co., Toronto. 50c. box, 3 for \$1.25.

ANNUAL CONFERENCE OF PROTESTANT TEACHERS

The Annual conference of the Protestant Teachers in the inspectorate of Rev. J. M. Sutherland was held on Friday the 3rd inst., in the Academy, New Carlisle.

About forty teachers were in attendance, having come from Desdies in the west to Pasphebec in the East. The three grades of Diploma—Elementary, Model and Academy were all represented.

The conference opened with Devotional exercises conducted by Inspector Sutherland.

There followed an interesting address on Agriculture by Inspector Sutherland as follows:

Notes on Elementary Agriculture. By Rev. J. M. Sutherland, Inspector.

Nature study is expected to lead up to Agriculture. Agricultural instruction is now being introduced in all of our schools. In connection with many of our school it is not only taught by book but put in practice. There are school gardens and home gardens in connection with schools. We have not come to that yet in this country but we are stepping in that direction.

We expect teachers to speak well of farming in all our schools. Teachers can do something, perhaps indeed much, in the way of creating a favorable attitude of mind among our young people in regard to Agriculture.

We may say that it is the most necessary of all occupations. By it all people live. The King is fed from the fields. The products of other industries are important but we could live without them. Gold and silver are very valuable but we could not live on them. Agriculture is the one business that men can live on. So the farmer is the most independent of all workmen. He raises his own food. His own fields yield bread and meat and clothing.

Agriculture is the most healthful of all occupations. It is healthful to work in the soil, in the fresh air. The farmer has a chance to be a healthy man and to live long. Farming is a safe work. In other occupations there are many accidents. The lumberman, the miner, the fisherman and manufacturer are exposed to accidents; the farmer is not so much exposed. I should think that the calling of the farmer is favorable to character and to piety. He is in constant communion with the works of nature, which are the works of God. All people have need of sunshine and show, of cold and warmth. The farmer more than other sees these changes of nature blessing his fields, prospering his works, filling his store-houses and crowning the year with goodness.

There is no place so wholesome for raising families as on the farm. In dusty factories, in dark mines and crowded streets there is exposure to bacilli and bacteria and various forms of germs that cause lung disease and other fatal maladies from which the farming population is comparatively free. Agriculture is also an easy occupation to start with. Land is plentiful and cheap. A young man who is able to work can easily make a start in cultivating land whether he has much capital or little.

It is also a safe occupation in regard to success. It is seldom that crops fail. If crops get a chance they will grow. It is seldom that there is any general failure in this country. The common failures are owing to preventable causes. The soil was not sufficiently tilled, or it was not manured or weeds were allowed to crowd other plants.

Now we shall speak for a few minutes on fertilizers. What do we mean by fertilizers? Simply plant foods. You all understand quite well that plants need food. You would not expect calves, or lambs or little pigs to grow without food. No more can crops grow without food. Some books name ten elements that crops need in order to prosper. But it is a mercy that the farmer does not need to provide these ten elements there are only three that the farmer has to look after. These three are found in new soil but are easily exhausted by continual cropping. When we see crops in fields not looking well, perhaps poor color, thin and light, we know there has been something wanting in the soil which the farmer could have supplied. That is the reason that the crop is not heavy in quantity, richly green in color and covering the ground thick and heavy as a good crop would do.

When fields are run out, as we say, and crops are thin and light the farmer should think that it is his own fault. He did not treat these fields in the right way. They needed to have more plant food. What can he do in order to have a better crop next year? The three kinds of food that I spoke of are named nitrogen, phosphoric acid and potash. Now perhaps the farmer never saw these things to his knowledge and never associated them in his mind with his fields or his crops. However, it simplifies the matter very much to know that these strange and precious substances are all contained in barn-yard manure. This common fertilizer contains all the plant-food required to enrich the fields so as to yield good and rich crops. If the farmer has or can get plenty of this fertilizer and take the trouble to put it on his fields he will have rich, heavy crops of all kinds over all his fields. In that case he could keep plenty cows and horses, sheep and hogs and poultry. Then he could have plenty butter and cheese, plenty beef, mutton, pork, poultry and eggs to sell. He would be well off. Some of our progressive farmers are in that condition now and the number will increase from this out more rapidly than in the past.

There is one drawback here, namely that the farmer has not enough of this fertilizer to enrich all his fields. Well, in many cases, I believe in all cases farmers could increase this kind of plant-food. Men who know, tell us that the liquid part of barn-yard manure is as rich in plant-food as the solid part. This is often forgotten and the liquid part is allowed to run away and be wasted.

There are different ways in which this waste might be avoided. If animals were well bedded with saw-dust, or straw, or dried muck from swamps, or ried sods from the roadsides these substances would serve two useful purposes, they would absorb the liquids, they would greatly enlarge the manure pile and keep the animals comfortable and clean.

Farmers on the seaside have some advantages which these inland have not. Sea weed is a good fertilizer. It is fairly rich in three elements I have spoken of nitrogen, phosphoric acid and potash. On this account it may be classed with stable manure as a perfect fertilizer.

There is another very important way of keeping land in good condition, at least of helping to do so. I refer to the use of leguminous crops. We are familiar with the pods of peas and beans; we do not notice so readily

NOTED MUSICIAN OF MONTREAL

Advices The Use Of "FRUIT-A-LIVES", The Famous Fruit Medicine.

MR. ROSENBERG
689 Casgrain St., Montreal.

April 20th, 1915.

"In my opinion, no other medicine in the world is so curative for Constipation and Indigestion as 'Fruit-a-lives'. I was a sufferer from these complaints for five years, and my sedentary occupation, Music, brought about a kind of Intestinal Paralysis—with nasty Headaches, belching gas, drowsiness after eating, and Pain in the Back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try 'Fruit-a-lives', and now for six months I have been entirely well.

I advise any one who suffers from this horrible trouble—Chronic Constipation with the resultant indigestion, to try 'Fruit-a-lives', and you will be agreeably surprised at the great benefit you will receive". A. ROSENBERG.

50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

the pods of clover, but clover is one of the leguminous family of plants. All plants of this order have a remarkable quality. They do not exhaust land as other crops do. That was noticed long ago by occasional farmers, but the reason was not known. It was quite recently that scientific farmers came to understand the facts regarding the effects of clover on land. The explanation is on this wise. Clover roots have small balls on them about the size of pin-heads some larger, some smaller. These balls are composed of microbes or small germs containing nitrogen. In this way clover roots have the power of taking nitrogen from the air and laying it up in these small root-balls. When these roots rot they leave the nitrogen in the soil. Nitrogen is the plant food that is most quickly exhausted in the soil by crops. Clover then, is a crop which has the opposite effect; it restores nitrogen to the soil.

Farmers knowing this raise clover not only as a good hay crop for animals but also as a fertilizer. The usual way is to sow clover seed with wheat or barley or oats, as a clover crop one year. Next year the crop would be clover. This is cut down for hay. In a month or so there is a considerable growth of clover which we may call a second crop. This crop may be plowed down. It helps the soil in two ways, the roots impart nitrogen and the green clover helps in the way of humus. The next crop might be oats. Then the field should get a good dressing of stable manure and be planted with potatoes. Next year again it should be sowed with wheat and clover seed as before. This would make a four year rotation. In this rotation stable manure was used only once and with the help of the clover crop the land was kept in good condition all the time. The other three years the stable manure could be applied to other fields. In this way all the farm could be kept in good condition all the time, yielding good crops every year—wheat, clover, oats, potatoes. If there were a dressing of sea-weed or some other top-dress two crops of clover might be cut making a five year rotation.

I mentioned the word Humus. This word is used very often now, in connection with Agriculture, much oftener than even a few years ago. What is Humus? It is decayed or decaying vegetable matter. You see it in woodland. In the woods, if you turn up the soil you find two or three inches of rotted leaves and rotting branches. That dark soil is humus. If you dig down, through the surface soil in garden or field one or two feet you see the soil is hard and harsh and lighter in color than on the surface. No crops could grow in it. The surface soil is finer and softer to the touch and darker in color because there is humus in it. That is one benefit in stable manure, it contains plant-food, besides that, as humus, it makes the soil soft and loose and friable. In such soil as this it is easy for the roots of plants to spread all around and reach out on all sides for the food they require.

Sea-weed as it rots forms humus, straw, potato tops, turnip tops and all refuse of that kind should be returned to the land because in rotting it imparts the soil in two ways, it contains plant-food and makes the soil soft and friable.

Crops are sometimes light for want of what we call by the word tilth, that is sufficient working of the soil. If the soil is packed hard or is humpy plant roots have not a good chance to spread and seek their food, and the crops do not prosper. Root crops especially need friable soil in which stems and tubers can grow large.

In some places farmers are so careful to increase the manure pile that they plow up the roadsides and gather the soil and sods into compost heaps. After laying a while to rot this soil makes good top-dress for hay fields. In other places, especially on the shores of tidal rivers, farmers are able to enrich their fields with mussel weeds. (Continued on page 7)

Local Items of Interest

Newsy Notes of Town and Country Happenings Gathered by Graphic Reporters.

COMMENCED WINTER SAWING
The Shivers Lumber Co's skid mill is sawing from the winter log pile now.

GOOD SKATING
The boys and girls have been enjoying the skating on the Doherty mill pond for the past week.

MILK PRICES ADVANCE
Some of the milk dealers have advanced the price of milk from 8 to 10 cents a quart. Others are still holding to the old price.

NO SNOW YET
While sleighing has been general throughout the province and parts of Nova Scotia, here in the far and frozen north we have as yet had little snow, not enough to make sleighing.

CURLERS MEETING
The adjourned meeting of the Campbellton Curling Club will be held in the rink Friday evening, Nov. 24th at 8 o'clock. A full attendance is requested as skippers are to be elected. Any one wishing to join should give their name to any member of the club.

FERRY FROZEN IN
The steam ferry was frozen in at the wharf at Cross Point, Friday and has not been able to cross since. The small boat has made a few trips, but the heavy ice makes the crossing difficult. The need of a bridge is keenly felt.

EYE GLASSES STILL HERE
Although a large number of people have called or have written about the eye glasses which we recently stated were left here for the owners, the owners have not as yet been found. Both are in cases, one of the pinch nose variety.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

GAS BUOYS UP
The gas buoys which mark the channel between here and Dalhousie have been placed in winter quarters.

CARD OF THANKS
John Geraghty and sisters wish to thank their many friends for the kindness and sympathy shown to them in their recent sad bereavement.

SENT MANY DELEGATES
St. Andrew's Sunday School had the distinction of sending more delegates to the Sunday School Convention at Chatham than any other school in the province.

FLOUR DROPS IN PRICE
St. John, Nov. 21.—The unexpected happened this morning, when local wholesalers announced that Manitoba flour had dropped 20 cents per barrel, the first decline for months.

WILL SERVE SUPPER
The ladies of the Methodist Church will serve a hot supper in the Oddfellows' Hall on Thursday evening, December 14th. A sale of fancy articles, candy, etc., will also be held.

AN EXAMPLE TO MEN
A young lady of Matapedia in writing to the Graphic says she would like to be a boy so that she could join the N. B. Militia. She also asks us to advocate the raising of a battalion of ladies so that she may have a chance of doing her bit.

FIRE PROTECTION
From a fire protection standpoint the Grammar school is being put in first class shape. Besides the hose connections, which have been properly connected with the town water service, chemical extinguishers have been placed in the halls. A fire alarm box has been placed at the main entrance, and the iron fire escapes are on the ground ready to be placed in position.

WAS DOING A MAN'S WORK
William Currie, Jr., the seven year old son of Mr. Wm. Currie says he is going to sue the Graphic for libel for stating that he was playing with an axe when he unfortunately cut off his finger. He wishes the Graphic to know that he was doing a man's work cutting wood, and doing it in a man's way, holding the stick with one hand and then bringing the axe down upon it. The only trouble was his aim was not good and his finger suffered. We offer our apologies to Billie and wish him better luck next time.

EARLY CROSSING
Jon. E. Olscamp crossed with a horse from Mission Point to Campbellton on the ice Friday, Nov. 17th. This is the earliest date for a number of years.

ADVERTISING BRINGS RESULTS
To three people were restored lost articles through the medium of the Graphic's lost and found column. A lady was able to have her hand-bag restored to her, another a small sum of money, and a gentleman has a bunch of keys returned. It pays to advertise in the Graphic.

OUR CHRISTMAS EDITION
The Special Christmas Edition of the Graphic will be issued Thursday, December 14th and as usual will have a beautiful cover, printed in colors. Merchants throughout the Bay Chaleur district who desire space should speak at once as the amount of advertising space will be limited this year.

STUDY YOUR LINE
Every clerk in our stores should study the advertising matter in the papers respecting their various lines and be able to discuss such matters. Recently a lady went into one of our stores and spoke of a line which was very extensively advertised in all the papers Saturday, but the clerk was entirely at sea, had never seen the advertisement and consequently could not talk intelligently on the subject.

GRAMMAR SCHOOL FUND
The net proceeds of the entertainment and "World's Fair" held in the Assembly Hall amounted to \$357.85 made up as follows:—
Alex. McPherson 10.00
Mrs. A. F. Chamberlain 5.00
Jas. Alexander 1.25
Contribution from children 11.03
Proceeds of Fair 358.07
Total 385.35
Expenses 27.50
Net proceeds 357.85

MORE CAMPBELLTON BOYS ENLIST
A number of Campbellton boys have enlisted in the artillery. The following are among those who have enlisted in the 12th Battery draft under Lt. Lawlor at Newcastle:—Chas. Killam, Sydney Robinson, Westley Dobson and James Joudry. The following Campbellton students of the U. N. B. have joined the 9th Heavy Siege Battery at St. John:—Lyman Richards, Whitney Stevens and James A. Adams of Matapedia.

OBITUARY
We deeply regret to announce the death of Mrs. Christopher Geraghty widow of the late Christopher Geraghty which occurred at Oak Bay on Friday the 17th inst. Deceased who was 70 years of age had been in failing health for a short while, and her death came as a shock to her large circle of friends and relatives. She leaves to mourn her loss three daughters, Christina of Toronto, Helen and Katharine at home, and five sons, Alfred, Patrick, and William of San Francisco, Peter of Cross Point and John at home. The funeral took place on Monday and was largely attended. The Requiem Mass was celebrated by the Rev. Father Plegias. The pall-bearers were Matthew Geraghty, John Doyle, Joseph E. Olscamp, Christopher Keane, Thomas Geraghty and Wilfred Olscamp. Much sympathy is felt for the family.

Your Child's Cough

Is it nothing? Is it to be neglected until it leads to that terrible scourge consumption? Peps stand between winter coughs and colds, and serious consequences. Peps are tablets made up of Pine extracts and medicinal essences, which when put into the mouth turn into healing vapors. These are breathed down direct to the lungs, throat and bronchial tubes—not swallowed down to the stomach, which is not alling.

Try a box of Peps for your cold, your cough, bronchitis or asthma. All druggists and grocers sell Peps Co., Toronto, will supply.

Peps

NEW RICHMOND BOY SEVERELY WOUNDED

Word was received by Mr. R. H. Montgomery of New Richmond that his son Sergeant Arthur R. Montgomery of the Artillery was severely wounded on Nov. 10th. Many friends along the coast join with the Graphic in the wish that the wounded will have a speedy recovery.

"Do the Germans ever leave any thing valuable behind them in the trenches?"
Veteran—"Never a drop, mum."

IMPROVEMENT NEEDED.

Of late Campbellton citizens have been obliged to go without their evening mail until the following morning and St. John and other papers are thus twenty-four hours old and of little value when received, besides important letters are often delayed.

The reason for this delay is the late arrival of the Local express due here at 6.45.

When this train reaches here at 7.45 or later the mail does not reach the office until after 8 o'clock, when all the clerks have gone for the day.

Last Saturday evening the Local arrived here at 8 o'clock, but box holders got no mail until Monday morning.

At the present time all the mail, except that from the west Limited, for Campbellton post office arrives between 6 p. m. and 6 a. m. The present staff, consisting of the Postmaster and four clerks, are required to be on duty at 7 o'clock a. m. to sort the mail before 8 o'clock. A clerk also has to be at the office each night from 9 to 12 to sort the letters from the letter boxes and make up the mails for outgoing train.

At the present time the staff are working long hours, and it does not seem possible to put more work on their shoulders.

As nearly all the work could be done at night, the suggestion has been made that perhaps the Post Office department could make a change whereby one or two clerks would be on night duty all night and do away with some of the day clerks.

Some improvement is needed and we suggest that the Board of Trade take up the matter and endeavor to have a change made.

CORRUPTING THE ELECTORATE.

There seems to be no shortage of news print paper in St. John as the Tory organ of that city is sending hundreds of copies free to Restigouche ratepayers in an endeavor, no doubt, to corrupt the morals of the electorate. Many copies are refused at the post office, but they keep on coming. We hope the surplus will find its way to the Red Cross so that some good may result from the wilful waste of good material, if it is only as old paper.

AND CANADA PAYS!

Information comes from Dalhousie that the Dalhousie Lumber Company has sold all its pulp wood to the International Paper Co., an American concern, and that it will need 400 cars to transport it to the purchasers. How long are foreigners going to be permitted to rob the people of this country of their natural resources? They take our lumber, leaving us nothing but the stumps and the tops; they take our nickel, and sell it to our enemies. They juggle with our wheat, and fix the price we shall pay for it, they rob us of our cattle, and our people have to pay through the nose for meat, and also for boots and shoes. The Liberal party will not alter this state of things, because their sentiments are those of Free Trade; the Conservatives will not alter this because they do not.

VIRGINIA FARMER

Restored To Health By Vinol
Atlix, Va.—"I was weak, run-down, no appetite, my blood was poor, I could not sleep nights and was rapidly losing flesh, but I am a farmer and had to work. Medicines had failed to help me until I took Vinol. After taking three bottles my appetite is fine, I sleep well, my blood is good and I am well again."

—OLAND W. BOWERY.
Vinol, which contains beef and cod liver oil, iron and manganese, is guaranteed for run-down conditions. A. McG. McDonald, Druggist, Campbellton. Also at the best druggists in all New Brunswick towns.

Be Safe!

KENDALL'S Spavin Cure
Don't take too many chances with spavin, which is a dangerous, very painful, swelling and of course, the shoe would not hold.
In the hands of horse men, veterinarians and farmers for 35 years it has proved its worth in hundreds of thousands of cases.
St. Feriole, Dec. 4th, 1915.
Will you please mail to my address a copy of your *Treatise on the Horse*. I have been using your valuable remedies for some time, and found them safe and reliable.
JOSEPH L. BAZINGER.
\$1 a bottle—4 for \$3 at druggists—or write for copy of our book, *Treatise on the Horse*, free.
Dr. B. J. KENDALL COMPANY
Enosburg Falls, Vermont, U.S.A. 118

Want to offend the capitalists who control these matters, and the Canadian people are the sufferers.

This 400 car of pulp wood will be made into paper in the United States, and the people of that country will reap all the profits therefrom, Chatham Commercial.

SAWDUST.

What about that prize for good work at the Grammar school. Don't all speak at once.

The Conservative press is preparing the country for an election, and of course the Liberals will be blamed for forcing an election in war time.

The managers of the St. John Tory organ state that copies sent free to Restigouche electors are paid for. The public asks by whom. Can it be possible that a part of the Woodstock corruption fund is finding its way to St. John instead of Fredericton.

Potatoes have at last listened to conscience and have dropped to a reasonable price.

That bridge at Campbellton would be very handy just now.

Morrissey built a bridge at Newcastle, his home town, why not follow his example, D. A. and have one erected here. It would be a lasting monument.

No! Campbellton does not want a pulp mill. It is looking for larger things. The mill can go to Newcastle or Fredericton.

Anything which you get for nothing and that is forced upon you is usually worth the price. This applies most fittingly to the Tory St. John paper which is being sent to hundreds of ratepayers in Campbellton.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires "constitutional" treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

ANNUAL CONFERENCE OF PROTESTANT TEACHERS

(Continued from Page 7)

Text books in use at present in Quebec represent a curriculum that is either perhaps than anything else in Canada, even the Catholic Church. Also in our Latin courses as at present arranged, there is far too great a jump between the Fabular Faciles and the easiest Caesar. This is being solved in England by sources to simplified texts, in these texts, the chapters regularly increased in difficulty. Often times stories in Latin are too long for beginners. One danger which more than another threatens the continuation of the study of Latin for practical purposes, is surely pedantry.

In conclusion, I would state that Latin, especially if it is associated with French, is the language which offers the greatest opportunities of linguistic training for the average student. And that, both from its practical connection with English and from its usefulness as a means of mental training, is an ideal study from the educational point of view. And that, in order to secure the best, speediest, and most lasting results, the language must be studied on proper principles.

BANKS TAKE MANY OF OUR BOYS AND GIRLS

Our records show a decided increase in the percentage of young men and women graduates of the Moncton Business College who are finding successful employment in Banking institutions.

Aside from the fact that such positions are very desirable it is particularly pleasing to note that it carries with it very gratifying endorsement of our instructions. Banking is a signally specialized business and necessitates exact knowledge of accounting principles.

And it speaks well for the caliber of our students.

10 CENT "CASCARETS"
IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Stagnant Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

BON VOYAGE, 171ST.

The news of the early departure of the 171st Battalion from this city will be received with genuine regret by most citizens.

staff is well known locally, in fact the prime mover, Sir William Price, is a Quebecer. The excessive amount of work put into the organization of the 171st, speaks volumes, and will be a lasting tribute to those responsible for its consummation. Few men have given as much for King and Country as Sir William Price, who, as is well known, is identified with important business interests in the city. He has given up everything to share the honor of fighting the Allies' cause, and has collected together as fine a body of leaders and men as could be obtained in the Dominion.

The 171st will be greatly missed in certain, and lamentations and regrets will be manifested from less enthusiastic quarters after the departure of the battalion.

To Sir William Price, Major Gibson, Colonel Talbot, Captain McGreevy, of ficers, and men, the Telegraph wishes them God Speed and a safe return.

Of one thing Quebecers may rest assured, and that is, that the 171st will uphold the traditions of the fighting stock of this country, and their achievements will be watched with more than ordinary interest.—Quebec Telegraph.

CHURCH DAMAGED BY FIRE AT BATHURST.

Coolness of Father Wheten Enabled Congregation to Escape in Safety.

Bathurst, N.B., Nov. 20.—Because of the coolness and quick thinking on the part of the pastor, Rev. Father Wheten, and members of his parish, the entire congregation of the Sacred Heart, Roman Catholic Church, escaped in safety when a fire started during high mass Sunday forenoon. No person was injured except one woman who was slightly hurt. The beautiful granite edifice, one of the most beautiful in New Brunswick, was damaged by fire, smoke and water to the amount of \$10,000.

The mass began at ten o'clock and was largely attended, many women and children being present. The service had been in progress about half an hour when dense smoke suddenly bursting from the basement permeated the edifice and alarmed the large congregation. Rev. Fr. Wheten and others calmed the frightened ones and a serious panic was averted, all escaping without injury, except in one case. The church bell was rung and within five minutes the fire department had several streams on the fire, which originated near the furnace in the basement.

BIG BUSINESS FOR C. G. RAILWAYS.

To Handle 100,000 Tons Freight Monthly for the English Government.

Ottawa, Nov. 20.—Arrangements for the despatch of overseas traffic by the Canadian Government Railways were considered to-day at a conference between Hon. Frank Cochrane and F. P. Gutelius, general manager of the system.

Big business is looked for as the British government has asked the road to be prepared to handle 100,000 tons of freight a month. In addition there will be a large movement of troops. The road is well equipped with rolling stock and expected to be fully equal to the test.

Mr. Gutelius stated to-day that the Transcontinental has had a satisfactory season's business, the volume of traffic eastbound by the National Express on the Intercolonial.

WILL PRESENT DRAMA AT JACQUET RIVER

Campbellton Dramatic Club Will Visit Jacquet River Tuesday Night.

The Campbellton Dramatic Club will present the four act comedy drama "A Soldier's Sweetheart" in the C. M. B. A. Hall, Jacquet River, on Tuesday evening, November 28th.

The proceeds of this entertainment will go to the Red Cross Fund to enable the Red Cross Society to look after the soldiers that are being wounded every day in the defence of our homes.

The following is the cast of characters:—

Victor Belmont, A Soldier and Elsie's Lover, M. A. Kelly.

Joseph Sprackling, A Villain, H. A. Daley.

Benjamin Lovell, An Old Man, W. J. McNeil.

Teddy O'Malley, From America, J. Lahey.

Thomas Blake, Joseph's Friend, and James, Servant, A. Keely.

Elsie Lovell, Benjamin Lovell's Daughter, Miss M. Henry.

Kate Tysen, Lovell's Ward, Miss G. Hayes.

Matilda Dobbins, An Old Maid, Miss O. Boulet.

Everybody should help this worthy cause along and enable the Jacquet River Red Cross to make a good showing among the other towns that are doing everything to boost this fund.

Depression!!

—Despondency—
—The "Blues"—

Yours is a case for Wincarnis

Depression is not natural in a healthy body. It arises from a state of lowered vitality, a weak condition of the blood.

It is then you need the revitalising power of Wincarnis. A few wineglassfuls of this wonderful tonic and blood maker will send the thrill of life, health and optimism tingling through your body.

Wincarnis

Don't remain "run down" and "out of sorts." Wincarnis possesses a four-fold power. It is a Tonic, Restorative Blood Maker, Nerve Food, all combined in one delicious, refreshing medicine. Begin to get well now, at once. You will feel Wincarnis do you good from the first wineglassful.

POLICE COURT

The past week has been an unusually quiet one in police circles. Not an entry on the book. The chief reports no disorder in the streets.

DIED AT BROADLANDS

The death of Mr. Robert Thompson took place at the home of his son-in-law, James McLeod at Broadlands, Wednesday. Deceased was a very old man. He recently visited Campbellton and made the assertion that he was born in 1810 at Eel River. He was quite talkative and conversed intelligently of old times on the Restigouche. While possible there may be some mistake in reference to his age, it is admitted that he was a very old man, and all his brothers lived to be very old.

Local Druggist Repairs What Famous Surgeons Cannot Touch

Shattered nerves are beyond the reach of the Surgeon's knife. What will repair them? Dozens of people right here in your home town will bear testimony to this fact that Zoetic—the health tonic—has set them on their feet again. This famous combination of glycer-phosphates—the actual element of the human body—Cod Liver Oil and delicious tonic wine, supply the very elements that worn out nerves require. In a quiet way the action of Zoetic is truly marvellous. Without a trace of narcotic it induces sound sleep. And following that, better and better digestion. And following that a final and complete rebuilding of the nervous system drained of vitality. Two weeks' faithful use of it will convince you. Because you have been so often misled, expecting much and receiving little, we offer outright to refund the purchase price of Zoetic if at the end of two weeks you cannot report real progress toward better health. Start trying it to-day. Sold by Thomas Wran, Distributing Agent.

"The All-Purpose Sugar"

KEEP THE KIDDIES WELL

Buy Rubbers and Overshoes For Their Little Feet and at the Same Time Save the Expensive Shoes From Injury by Water, Ice and Snow

The woman who has several little tots to provide with shoes will welcome the announcement that, through the efforts of the British Government, the price of rubber has been reduced so that the rubber shoes that keep the little ones' feet dry have not advanced in price, as other footwear has. Here's an opportunity for the mother to keep the kiddies dry-shod and, at the same time, save the expensive little shoes, that have almost doubled in price. Mothers should buy rubbers this fall, not only to keep the children's feet dry, but to keep the fall rains and the snow water from rotting the expensive leather in their shoes. The economical woman will appreciate this and at the same time she will be a patriotic act, a service to the British Government, every time she buys a pair of rubbers.

A Dead Shot Thevalor and candid simplicity of our Indian Babou is proverbial. A story goes of one agent the German East campaign, who (in the words of a contemporary) was about the most laconic, competent, deadly earnest station-master and marksman combined that ever lived. A regiment of men like him would end the war, for this is the wire he sent: "One hundred Germans attacking steadily earnest station-master and hundred rounds ammunition."

Gatheted by Graphic Correspondents.—Contributions to this Column are Solicited from every District of the Bay Chaleur.

NEW RICHMOND

The angel of death has again visited our neighborhood and taken Edward Cormier the eldest member of our community away to the "Land of Rest". The late Mr. Cormier was born here in New Richmond in March 1820, consequently was in his 97th year. He belonged to one of the first "Acadian" families that settled in New Richmond, his father Aime Cormier had the unique distinction of being the first white or Christian child born here. As a young man, deceased worked in the shipyard of William Cuthbert & Co. in the capacity of Caulker, being a strong, healthy man, never indulging in intoxicating liquor, he made a mark in his vocation. He married Rose Lambert of Maria and settled on a farm and raised a large family, his grandchildren and great-grandchildren now foot up to the respectable number of one hundred and forty-one.

Notwithstanding his extreme age he retained his mental faculties to the end and could conserve intelligently about the local events of any importance in the last eighty years.

PASPEBIAC

Mr. Charles LeMarquand who has been agent for Robin Jones & Whitman at Magpie for the last two years arrived here last week via Gaspe. He will be shortly leaving here for his home in Jersey, C. I.

Mr. F.M. Gibaut spent the week-end in Grand River returning on Monday accompanied by Mrs. Gibaut and daughter who have been visiting there for the last week or so.

Mr. and Mrs. W. J. Jardine and family spent the week-end in Port Daniel. Among the commercial men here this week were Messrs. Hellam, Trudelle, Descelles and Kerr.

CANADIENNE

"CHILDREN'S DAY" IN

UPSALQUITCH Nov. 21.—The Concert and Basket Social held here by the school children on Children's Day was a decided success financially an otherwise, considering the few pupils, the size of the district, and the unfavorable condition of the roads, the amount of the proceeds—\$29.00—is quite a snug sum. Most of the credit must be given to our energetic and popular teacher, Mrs. Munroe, who was so enthusiastic in the work, that it was almost impossible not to catch her spirit. Small as the sum is, comparatively, it will supply a day's rations to quite a number of starving children.

PROVINCIAL S. S. OFFICERS

The following officers were elected at the meeting of the N. B. S. S. Association at Chatham last week:—

President, Rev. H. C. Archer, Fredericton.
1st. Vice Pres. Rev. W. McN. Matthews, Bathurst.
2nd Vice Pres. J. C. Mills, Sussex.
Recording Sec. R. S. Stephenson, St. John.
Asst. Recording Sec. Arthur D. Rouse, Cornhill.
Treasurer, Robert Reid, St. John.
Gen. Secretary, Rev. W. A. Ross, Dept. Supts.
Elementary, Mrs. W. A. Ross, Moncton.
Adult, Rev. F. C. Orchard, Woodstock.
Secondary, Rev. P. R. Hayward, Fairville.
Home, Mrs. D. J. Bruce, Campbellton.
Teacher Training, E. R. Machum, St. John.
I. B. R. A., Mrs. R. T. Mawhinney, Macas Bay.
Temperance, Rev. R. H. Staver, Norton.
Missionary, Miss Mabel Keith, Campbellton.

The Night-hawks—Mrs. Alice White has a beautiful night-blooming series which bloomed several times last week. Several of the neighbors stayed up to see it come out in full bloom at ten o'clock.

PORT DANIEL

Mr. and Mrs. A. Gillis left on Saturday last for Montreal where they intend spending the winter. They were accompanied by their son James and daughter Winnifred.

At a meeting of the I. O. G. T. Lodge the following officers were elected for the ensuing quarter:

C. T.—Bro. E. A. Sweetman, re-elected.
V. T.—Sis. Ada McKenzie.
Sec.—Sis. Edith Lawrence, re-elected.
P. C. T.—Sis. Mrs. A. Lawrence, re-elected.
M.—Sis. Ella Dow.
D. M.—Sis. Eva Lawrence.
C.—Sis. Bernice Blatch.
G.—Bro. G. McKenzie.
S.—Bro. G. Bebee.
A. S.—Bro. Ernest Lawrence.
F. S.—Sis. S. Miller, re-elected.
T.—Bro. J. Dow, re-elected.

Mr. James Bajrd met with a serious accident on 24th Oct. and has been confined to the house ever since. He is now reported out of danger and it is to be hoped that he will be around soon.

Mr. and Mrs. C. H. Nadeau have left on a trip to New York.

A meeting of the Red Cross was held at Mrs. C. H. Sweetman's on Monday. These ladies are doing excellent work. They will soon have another shipment to send to our brave boys. They bought over 20 lbs of wool, picked same and sent it to the carding mill at Maria, the rolls will be spun by the ladies and some of their friends and will be knitted into socks through the winter.

Potatoes are very plentiful this fall, several cars have been loaded here, the prices from \$1.50 to 2.50 and we hear they are now offering \$3.00. One car is now loading with oats. A. D. Le Grand is buying a carload of horses, one carload of cattle and sheep went out two weeks ago.

ANOTHER SHIPMENT

FROM SOLDIERS COMFORTS The shipment from the Soldier's Comfort Association was made Nov. 17th, consisting of 266 pairs of socks and 13 individual parcels. The following socks have been received from the following knitters:—

Mrs. Wm. Andrew, 6 prs. socks; Mrs. Chas. Bennett, 3 prs. socks; Mrs. J. D. Bruce, 2 prs. socks; Miss Dawson, 6 prs. socks; Mrs. H. B. Mair, 1 pr. socks; Mrs. Albert Mann, 1 pr. socks; Mrs. Murray Gerrard, 1 pr. socks; Miss Jean Gillis, 1 pr. socks; Mrs. Wm. Firth, 1 pr. socks; Mrs. Chas. Killam, 3 prs. socks; Mrs. H. H. Bray, 1 pr. socks; Mrs. Andrew Adams, 1 pr. socks; Mrs. Jas. Adams, 1 pr. socks; Mrs. Frank DeRoche, 2 prs. socks; Mrs. Alex. Ferguson, 5 prs. socks; Mrs. John Reid, 1 pr. socks; Mrs. Magnus Firth, 1 pr. socks; Miss Bella Kierstead, 1 pr. socks; Miss Blanche Cooling, 1 pr. socks; Mrs. Melvin Adams, 1 pr. socks; Mrs. B. B. Lutz, 1 pr. socks; Mrs. M. A. Currie, 1 pr. socks; Mrs. Alex. McBeath, 1 pr. socks; Mrs. J. F. Chamberlain, 3 prs. socks; Mrs. Walter Smith, 1 pr. socks; Mrs. Grace McAllister, 3 prs. socks; Mrs. Grace McAllister, 1 pr. mitts; Mrs. Jos. Stevens, 4 prs. socks; Mrs. Auley Matthews, 3 prs. socks; Upper Charlo Circle, 20 prs. socks.

The following donations also: Miss Dorothy Dawson, 12 cakes chocolate, Lt. Alfred Gillis for a donation of soap.

This box was consigned to Lieut. Col. A. E. G. McKenzie for the 26th Battalion.

The Stopper

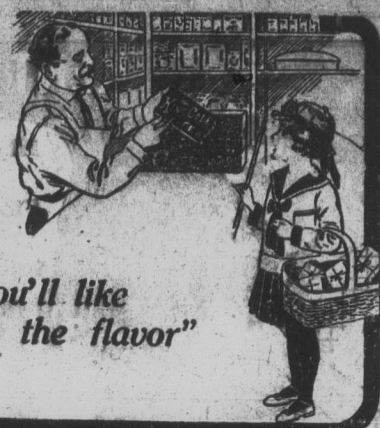

Lottie—He wore my photograph over his heart, and it stopped the bullet. Tottie—I'm not surprised, darling; it would stop a clock.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Get it! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Dandruff.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Dandruff. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice, healthy hair if you have dandruff. This destructive scourge robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Dandruff from any drug store and just try it.

ed a number of geological specimens. Miss Gallant's work was well and neatly done, and does her credit.

Convention re-assembled in the afternoon.

Mr. Gill, Principal of the Academy, New Carlisle, read a paper on Latin, which was of interest to many present. His careful presentation of subject here follows, as Mr. Gill kindly granted the request of the writer to allow his paper to appear in this report.

LATIN

By Mr. Gill
We live in an utilitarian age. It must now be conceded that the average parent is naturally somewhat over inclined to minimize the advantage of any form of education which does not lead to obvious and immediate results. Moreover the trained mind must always work more rapidly and more effectively than the untrained one, and to produce the very result of success desired, some form of training which does not seem at first sight relative to the particular object in view, must often be adopted. Another question often asked is "Will a knowledge of Latin be in any way useful to my children in their adult life?"

At present plain useful information and mental description seem to be crowded out of the schools by manual training, fancy work, folk dancing and smatterings of various mechanic arts. The tendency of the pupils to-day is to choose the "soft electives" in the high schools and academies and hail joyfully the elimination of the sterner branches as classics and mathematics.

Even the slightest and briefest study of Latin is of real practical value. To have given, however, grudgingly, several hours to Caesar is to have laid, even though unconsciously, the foundation for a better and more accurate knowledge of the English language.

At the revival of learning in the middle ages, European scholars used the Latin language as a medium of international intercourse. In our own mother country, Milton wrote Latin prose as well as he wrote in his native tongue. With rare exceptions the English poets have belonged to the upper middle classes of society and have received, as part of their environment, a classical education. English prose and English verse are alike the repositories of a language which though dead, lives in them. In actual words the English language is permeated with latinity and this to such an extent that some knowledge of Latin becomes necessary for a real understanding of our own tongue.

Now we will turn to the advantages of the study of Latin in schools. There is no grammar like that of the Latin language to produce an orderly

logical and accurate habit of mind. Also no progress can be made without a solid, though not necessarily wide, foundation of grammatical accuracy. Another great advantage is that most of the best Latin literature is contained in comparatively small bulk. By the mere mechanical study of the language the student must inevitably acquire an accurate and scientific knowledge of his own tongue. The translation of Latin into English must necessarily make him qualified in the habit and faculty of English composition. Another striking advantage is possessed by Latin in its intimate and paternal relation to French which should be taken up simultaneously in schools.

Latin is no dead language but living and modern to appeal to the very modernists. It has its literature where flowers of beauty and fruits of pleasant knowledge may be gathered. It has been proven that the members of the Latin classes have been the flower of the student body, in effort, perseverance, judgment, trustworthiness, scholarship, and disciplined mind and character. This may be because the flower of the students to elect Latin. Latin offers its numerous forms, exceptions and rules for efficient mental gymnastics strengthening memory and will, its delicate syntactical relations to arouse languid attention and cultivate careful habits of thought. Latin enriches the student's English vocabulary and cultivates his taste and style. It trains the halting memory and uncertain judgment, braces the flabby will to brave effort and arouses the debilitated mental faculties to sound, vigorous habits of action.

If Latin is taught at all, it should be well taught. Although Latin is an optional subject on our curriculum, yet it is required for the Model School diploma. Latin is therefore an essential element in an academy curriculum. It should be made more interesting for the pupil. Latin should be taught de-

CHAMBERLAIN'S TABLETS

ANNUAL CONFERENCE OF PROTESTANT TEACHERS

(Continued from Page Two)
It is very likely that all along the shores of this Bay in small creeks and inlets mud of this kind is to be found, and this is work which could be done in winter as well as in summer.

We do not expect all our teachers to turn out to be farmers, but we do expect them to be wide-awake in regard to the resources of our country and to be watchful to produce a favorable impression among the young people in their schools as to the wealth lying all around them and waiting to be developed.

An interesting discussion followed taken in by Mrs. West, Mr. Gill, Mrs. Millar, Miss Hall and Mr. Sutherland. The next subject on the programme was "School Discipline". A very interesting and useful discussion was opened by an earnest, helpful paper by the Inspector, and taken up afterwards by Mr. Gil, Mrs. West, Mrs. Dupan, Miss Hall, Mrs. MacWhirter and Miss Gertie Cooke.

An interesting and pithy report of the Provincial Convention, held in Montreal was read by Miss Clara Cooke. Useful information regarding tickets was given while her report of the work of the Convention was very concise. She expressed herself as very pleased with the re-election of Miss Amy Norris as president.

Miss Hilda Gallant exhibited her nature study collection, which includ-

Fawcett

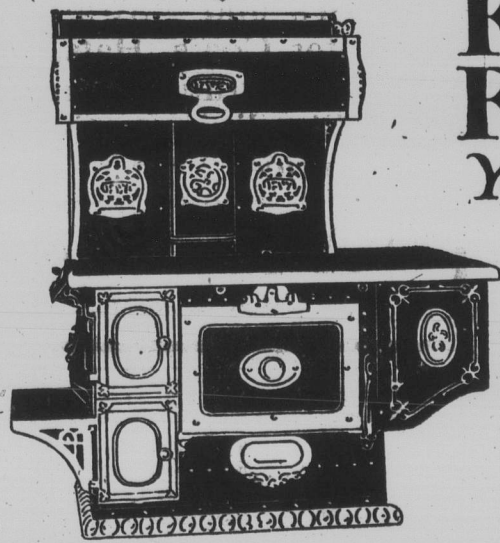

Ranges, Heaters
and Hot-air Systems
guarantee you this

HOW? WHY?

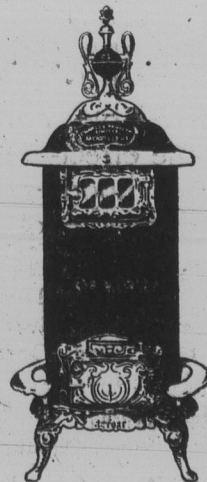

Fawcett Grates are all made to admit an immense amount of air from below the fire which forces, the fuel to burn entirely to a white ash. Fuel burns longer and the gases and smoke are converted into fuel, because the fire boxes in Fawcett Ranges and Heaters are all built with hot-blast, smoke-consuming devices which burn the hot gases and smoke, thereby saving half the fuel.

These are only a few Fawcett features. Others can only imitate.
