## BLUNDERING HALTS CITY WORK; OFFICIALS FOLD THEIR HANDS IN DESPAIR OVER THE DISRUPTION

With Records Strewn and Piled High Over Floors' Employees Are "Balled Up" for a Considerable Period.

## MAYOR ORDERED MOVE BEFORE NEW QUARTERS WERE IN ORDER

Another glaring example of the inefficiency of the Graham regime is the present condition of the Spencer block, called by courtesy "city hall quar-

For the past week, civic enterprise, save for the reconstruction work at the Fair grounds, has been a nonexistent quantity. For the next few weeks and possibly a month, it will be the same. Even the most sanguine of the city officials hardly hope for a resumption of anything like normal conditions before a fortnight.

#### In Awful Confusion.

Naturally the removal of city offices from one building to another would be accompanied by confusion and general inconvenience. By the action of Mayor C. M. R. Graham this confusion and inconvenience has been added to a hundredfold. Knowing that the buildings intended to house the municipal offices until the new city hall was constructed were still unfinished, the mayor ordered the removal

The fact that the temporary quarters were far from being ready for occupancy was common property. It was published two weeks before the removal was made. In spite of this fact, the mayor ordered the vacation of the old city hall by the end of August. There was no other alternative for the city officials. They moved. Now they are sitting idly by—unable to get at their books, straighten their offices prepare their records or accomplish the incompleteness of the Spencer even the most routine part of their block have occasioned.

work. Their offices are unfinished.

Completion a Month Away.

Piled in the centre of the floor, heaped in a confusion that will take days to straighten away, the records and books of the various departments are examples of what inefficiency can accomplish in a city administration. These records cannot be straightened away till the decorators have completed their labors, and even the carpentry is not yet done.

Every available carpenter at the city hall was transferred to the Fair grounds last week to assist in reconstructing the burned buildings. Some of them will return this afternoon to the city hall, but the carpenters are still two weeks away from completing

While it may be giving the city officials a "rest" now by preventing them from getting at their work, the said officials are far from pleased with conditions, for the "rest" will be followed by weeks of double work to make up for the lost time that the moving and

Attorney-General and Premier Gouin Intervene to End Present Farce.

Judges Decide to Reserve Decision-Thaw's Opponents Much Disappointed

[Canadian Press.]

Sherbrooke, Sept. 2.—Harry K. Thaw came face to face with a new force in the Province of Quebec today, and the days before his return to Matteawan are numbered. Sir Lomer Gouin attorney-general and premier, intervened in the case through Aime Geoffrion, as special representative, and demanded that steps be taken at once to bring a ut his liberation from the Sherbrooke jail, where for two weeks Thaw has defied deportation. His detention was branded as a scandal to the Dominion, the jail was described sarcastically as a "public boarding-house," Thaw as one who had boasted that he laughed at outwitting the authorities.

Case Must Go On. Mr. Geoffrion and Samuel Jacobs, representing the State of New York, expressed their sentiments before Superior Judge Hutchinson in pressing for an immediate hearing on the writ of habeas corpus obtained last week. The court conceded their point, and arguments were in progress at noon. Over the violent objection of Thaw's counsel, Judge Hutchinson ordered that the proceedings go on. Mr. Geoffrion then announced that the attor-ney-general had intervened, and that this matter must be decided at once "If he is not liberated on the writ, Mr. Geoffrion said, "other means will be taken. Thaw must not be harbored in the Canadian jail."
Thaw's Face Fell.

Thaw's face fell, and his lawyers, declaring that the writ was irregular, spoke in turn, pleading for an adjourn-ment until Friday. "We must go on," said the court. "I represent the attorney-general," said Mr. Geoffrion, "and the stables of the Temperance House fails are not public boarding\_houses. It is the attorney-general's desire that this matter be settled instanter by the liberation of Mr. Thaw. The prisons of the province cannot be used to shield a man from the federal law."

Reserved Decision. Arguments were concluded at one o'clock and to the great disappointment of those representing New York the court reserved decision, "It is a matter of such grave importance," he said, "that I would not care to decide this matter until I have given it careful consideration. Possibly tomorrow I shall announce my decision. I shall notify all counsel."

Palmerston, Sept. 1. - George A. Kilty, brakeman, of Palmerston, while crossing in front of an engine in the Galt yards, is supposed to have had his foot caught in a frog. He was run over and horribly mangled, resulting in instant death. He was a strong, well-built young man, a picture of health and strength. He leaves to mourn his loss and earning power his wife and two baby boys, aged 1 and 3 years. The widow was formerly Miss

OUR LADIES' TAILORING DEPT. IS OPEN FOR THE FALL SEASON.

# The Special Displays of New Fall Merchandise Throughout Main Floor Will Continue a Few Days More

To miss these displays of beautiful fall merchandise would be to lose a foresight and education of correct Paris and New York fashions for the coming season. Much care and time has been planned in bringing such an exhibition to this store, which has been doubly repaid by the admiration of those who so far have seen them. Come and see the finest and most exclusive stock ever attempted by this house.

## At the Linen Section

The latest novelties in Fancy Linen Pieces. New designs and shapes, comprising Doilies, Centre-Pieces, Scarfs,

## At the Colored Dress Goods and Suiting Section

The finest assortment and best selected stock of Novelties ever shown here, including the new Brocade Ratine, Stripe and Plain Velour, Eponge and fancy Tweed effects.

## Flannel Section

The German and French bath robe materials in ratine. Rich colorings in plain and brocade.

## At the Velvet Dept.

A display of French Silk Panne Suiting Velvet in newest shades of taupe, tan, royal purple, saxe blue and navy in the double width make.

## At Notion and Fancy Dept.

The new importations direct from Paris of beautiful Marabou Sets. Others in Marabou and Ostrich in muff and neck

## New Fancy Beaded Handbags

Various colored beads worked into beautiful designs.

Also the much-talked-of Moire Handbags in fancy colors. Many embroidered in pretty patterns.

## Black Dress Goods Section

A splendid display of the new wide Twill Suitings. Silk and wool dress fabrics in plain and brocade effects.

## At the Hosiery Dept.

All the high-grade and reliable lines in plain cashmere and lisle, lines such as have been carried by us for years, together with the many fancy lines just out in cashmere, lisle and silk.

In the Men's Department New Fall Models in Suits and Overco ats just opened. For smart appearance and hand-tailored work these high-grade suits are unsurpassed.

The new Hats for the coming season await your inspection. Special display of New Sweater Coats for men and boys.

## Bedding Sale Continues --- Fourth Floor

These should be interesting items, especially to every housekeeper in London as the Western Fair is drawing near, when many visitors will be with us and some new bedding will be required, and you will appreciate these special prices more, as these lines are all fresh, clean stock. Much of the goods have only been in the house a few

5-lb., 56x76. Pair .....\$4.50 

## At the Silk Section

Perhaps few departments are busier than this, maybe that silks are in such demand for so many purposes these days.

The novelty creations this season are beautiful, and are well worth a visit to the special dis-

plays. Brocaded Chiffon Velours for dresses and evening wraps. These are velvet designs on a ninon ground, so that contrasting colors may be used for lining if so de-

Charmeuse Brocaded Velour, similar to the above, only the velvet brocade is on a satin or char-

meuse ground. Silk Crepes, Crepons, Meteors and Crepe de Chine will be extremely popular this season. A big display of these now shown in plain

and brocade effects. Beaded Tunics and Coats-New short styles direct from Paris. See these on display.

## New Jewel Bandeau, Hair Ornaments and Fans for Evening Wear This stock is about complete.

with all the latest French ideas.

## At the Trimming Department

Dressmakers and customers will have little difficulty in selecting correct colorings and suitable styles in Laces and Trimmings this season from the present large and well assorted stocks now opened, which are larger in variety than any previous season.

#### LONDON, TUESDAY, SEPT. 2. OUR NEW CITIZENS

For many years the addition to Can ada's population by immigration seemed a more fitting field of operawhile its busy cities invited the artizan with a promise of plenty of work and good pay. Even our own people has been changed. With the advent of the inauguration of an energetic immigration policy, the people of Europe and especially of Great Britain, began for the settler. The Liberals advertised Canada, and the results are now seen

ion during the fiscal year ending March last was greater than ever beforenumber increased, the quality was improved. In the earlier days we were glad to take almost anyone and some But wiser counsels prevailed: stricter ter class of settlers were secured. The Britain, but of late years, there has been a remarkable influx from the States, Classifying the nationality of ed war usually means no war at all. our immigrants-or, more strictly Heads have time to cool. ceme-we find that for the last year they were as follows:

United States ...... 139,009 Other countries ..... 112,88

Total ..... 402,433 This record is very gratifying, showing that, as a result largely of the energetic and intelligent efforts of the late Government, Canada is now getting its full share of the best class of immigrants from the English-speaking sections of the world. That there is less desirable element creeping in, is very certain. It is difficult to prevent, ney's reply to the workingmen that even with all the care taken by the there will be no change in the assessdepartment. But it is comparatively small; and we may have good reason Government. The tax reformers now to believe that it will be assimilated, know what to do. Will they do it? and developed into good material for

future citizenship. With the fears of some people that this large inflow of immigration will cause our standard of public or private morals to deteriorate we have little sympathy. We notice that at the Synod of the Anglican Church of Rupert's Land last week, a delegate from Saskatoon denounced the character of jority of the citizens who promoted the the American immigrants, declaring that a large percentage of that class "is just as heathen as the Japanese and just as hard to evangelize. This stream of Americanism (he added) coming from the western states, is a distinct menace to our Canadian civilizationmenace politically, and emphatically so religiously." But he did not carry the synod with him. It declined to adopt his proposal that immigration should be further restricted, and some of the leading clergymen showed themselves far more optimistic in their view of the effect of American immigration on

But there is no doubt that while the per a f foreign immigration may not be great as some predict, yet the respons-Ibility that it devolves on Canada is unquestioned. The preponderance of the British element among our new settlers is very great. For it must be remembered that in addition to those who come from England, Scotland and Ireland, a large proportion of the American element is nothing more than tho return to the Dominion of our own people, who left us in the past to settle in the States, and who gladly resume their allegiance to British institutions. But with all this in its favor, the necessity for effort to be made in the Canadiankizing of our new settlers is not to be doubted. Upon national, provincial and ment will be lifted higher than ever religious authorities is placed the responsibility for this. Our new citizens brought back to power by the sense, will be just what we make them. A few cases may be incurably bad. But the great mass can be educated and trained to the Canadian standard, even to a higher standard than we now can honestly claim. We are not perfect ourselves, by any means. And in trying to elevate our new citizens we may be able to raise ourselves a little higher.

#### SIR JAMES AND THE WORKERS.

"The sensible way is to let the Govnment interpret what is best for the eople and what the people want."

This is the gem of Tory logic handed out by Premier Whitney to the labor deputation which waited upon him to urge tax reform and the adoption of workmen's compensation act.

The Premier promised a compensation act next session, but the delay of this measure of elementary justice was long ago a scandal. Its postponement till next year means another addition to the sum of hardship and privation which the working classes have had to bear, through the absence of a modern law. The present state of things is as insatisfactory to employers as employees. The Government has prorastinated with this vital question beause it bristles with political difficul-

Sir James' response to the tax reform etition had not even a promise of beter things. He met it with the charcteristic plea quoted above-the divine right of the Government (Sir James himself) to interpret the will of the people to suit itself. Mr. James Simpson who introduced the deputation, put the ase for reform in a concrete shape by instancing the enormous increase of and values in Toronto, which went into private pockets while the products of

abor bore the burden of taxation. Sir James combatted local option in axation by the stock contention that t would lead to confusion, and would threaten municipal credit. This fear has been discredited by the experience of Australia, New Zealand and the Canadian West, but Sir James is not open to conviction. He began by pouring scorn on any suggestion of change in the assessment act which would permit communities to levy more largely on community-made values, and his mour propre stands in the way of conessions. Without the least doubt, the a church! najority of his followers of the Legisature would gladly see him give way. They believe reform is necessary, and they find Sir James' obstinacy politicaly embarrassing. But the Premier fears nothing from them; he has had too many proofs of their docility. If the workmen and manufacturers, who are agreed on this subject, combine to oring pressure on him at the polls, he vill listen, but not otherwise.

Here are some useful points to remember when pickling:

Use only pure vinegar in making pickles, catsups and sauces. Cider vinegar is usually considered the best for Cucumbers and gherkins may be

small lump of alum in the vinegar when first scalded, but it is injurious to the stomach if too freely used. None but porcelain-lined or granite kettles should be used for pickles, as the acid in vinegar acting on the lead in tinned vessels produces acetate of ead, and in brass or copper, acetate of copper or verdigris, both of which are poisons. Utensils of aluminum may also be used without danger, but the porcelain kettles are best. Wooden or granite spoons are preferable for

stirring to metal. If pickles show signs of becoming moldy at any time, pour off the vinegar, seald it, skim, add to each gallon of vinegar one handful of sugar, and pour it back again boiling hot. Pickles should be kept in a dry, cool

place, and are best in stone or glass.

Beebe and Howick Engage in Duel in Morning, the Former Winning by 2 to 0, While Heck and Wilkson Fight to an Eleven-Inning 0-0 Tie in the Afternoon-Record Crowd Attends Afternoon Contest.

London's pennant hopes and the 1913 Canadian League season passed away Barney, 2b Testerday simultaneous like. The Canadian League season ended at Tecumseh Park, when Umpire J. Ira Davis announced to 6,000 fans in the eleventh in- Gurney, 1b. ning of the afternoon game that the contest was called on account of darkness, neither team having scored by that time. London's pennant hopes caved in Barton, along about the second inning, when the scoreboard showed that Ottawa was Wilkinson, p beating Peterboro beyond recognition.

TWO GREAT GAMES.

Over at Tecumseh Park the season wound up in one grand blaze of glory, a blaze that could only have been exceeded had London actually captured the pennant. The afternoon crowd was the largest that ever witnessed a game Duniop, ss. in this city, beating Saturday's crowd by over a thousand, and the total attendance for both games must have been well over ten thousand. The games Deneau, 2b. themselves were as good as the best that have ever been played here, winning in the morning by 2 to 0, and the teams battling to an eleven-inning

Beebe Celebrates His Return.

The morning game marked the apcarance of Ben Beebe after nearly two weeks' rest with a sore arm, and Beebe celebrated his return to the game by giving one of the best twirling exhibitions witnessed here this season, outside of Heinie Steiger's great performance on Saturday. Beebe had lots of stuff and speed, and he was unsolvable for those St. Thomas gents. Only two hits were made off him during the game, and he struck out fourteen men, which is pretty near a record for this season in the Can-

Howick Was in Great Form Also. Handsome Harry Howick, who has been something of a lucky guy when pitching against this London club, was opposed to Beebe, and he also pitched a magnificent game. Only three hits were pried from his assortment, and had he not uncorked a wild pitch in the first inning and had his team given him perfect support, he, too, might have had a shut-out. After the third inning, he was air\_tight, and London only got one hit.

Ottawa Result Provided Excitement. While the duel between Howick and Beebe was affording the fans all kinds of excitement, the Ottawa-Peterboro score being posted on the score board also served to keep the feeling tense In the sixth when two runs were put up for Peterboro, the three thousand or so fans present stood up on their feet and threw their hats in the air so jubilant were they. The local game finished before the Ottawa one, but over a thousand fans waited to get the final score from Ottawa. When it came in and Peterboro had won, the greatest excitement prevailed. The news flashed all over the city, and London's pennant hopes seemed to take on a new appearance. It was not until Ottawa began to run up such a large score in the afternoon game that the ardor of local fans cooled to any extent. London was not really expect-

hoping.
Won It in the First Inning. London really won the morning game in the first inning. Owing to the fact that Eddie Linneborn had been called to Buffalo Sunday morning because of the illness of his wife, Rube Deneau was playing second and Cy Reidy was leading off in the batting order. Reidy was hit by a pitched ball the first time up, and Matteson sacrificed him along to second. Howick made a wild pitch and Reidy took third. The squeeze play was then pulled off between Bierbauer and Reidy, and while Looey was thrown out at first, Cy crossed the

plate with the first run.
St. Thomas Threatens. In the St. Thomas half of the second two men got on with two down, but Beebe struck out Howick and ended it. The third inning was the only one in which Beebe failed to strike out one of the Saints. In six different innings he struck out two of the three The Saints got two more runners on in the third, but Forgue's fly Neale prevented any scoring.
The Last Run of the Day.

In London's half of the third, the second and last run of the day scored. Beebe hit a grounder to Forgue, who threw the ball into the crowd, and Ben moved to second. Reidy sacrificed and Matty Matteson pulled off the celebrated squeeze play, scoring Beebe. Crowd Cheered Strike\_Outs.

After that the game was merely matter of retiring batsmen, neither team getting far enough to have a chance to score. The crowd began counting Beebe's strikeouts, and as cach section and bit the dust by the Totals ..... 28 0 2 24 14 3 Umpire—Flynn, Time—1:30.

have been heard in East London. It was a great exhibition of twirling. Second Game Draws Record Crowd.

Long before the second game was due to start, the stands and a good bit of the standing room was occupied. First base on errors—St. Thomas 1, London 2. Hit by pitcher—By Heck 1 (Forgue). Time of game, 2:16. Umpire, Davis. flow crowd must have numbered three thousand. It was undoubtedly the biggest day of baseball this city ever

There is not much to describe about the game. The fact that there were no runs scored takes much of the descriptive out of it. The hits were few and far between, and the errors did not amount to much from the fact that

they did not cost any runs. London Nearly Scores.

London's nearest approach to a run came in the fourth inning. After Reidy had grounded out, Matteson singled to centre, but was forced on Bierbauer's grounder to Barney, Forgue making a nice recovery of Barney's boot, Bier-bauer stole second and "Dad" Stewart hit to Gurney. The later did not have a chance to make a play at first because nobody covered the bag, but he threw to the plate to catch Bierbauer, who was trying to score from second. Looey made a nice slide and semed to have an even chance to being safe. Davis called him out, although the play was very close.

Wilkinson a Good Kid. Both Heck and Wilkinson pitching great ball all through, Wilkinson has only lost one game and the St. Thomas team, and although he is a frail-looking youngster he seems to have the goods. Heck was working in his same old I-should-worry style and in only one inning was he threat-ened with a run. This was in the ing a pennant, but everybody was tenth, when with two out, Gadsby got an infield hit and Barton hit to right Gadsby came all the way Matteson dropping the ball at the plate, but J. Ira Davis, the umps, sent the St. Thomas lad back to third and gave Barton a two-bagger, as the bal had gone into the crowd, and only two bases were allowed on a hit of

kind. The next batter lined to Bier Dunlop's Great Opportunity. George Dunlop had a great chance o break up the game in the sixth With Reidy on second and Stewart on first, and two gone, Dunlop came up and after fouling a couple, struck out. Both games were featured by fast off Stark 3. Hit by pitcher—By Stark elding and some pice estables were 1 (J. Murphy). Umpire—Flynn. the Canadian League here today by breaking even with Guelph. They won the morning game by 5 to 0, and dropped the afternoon contest, the score being 4 to 2. Cosy Dolan took up the twirling end of it for the Tigers in the morning and pitched an excellent game, having his opponents at his mercy through the greatest part of the game, they getting him in the final frame, when they scored their lone run. He received good support from his team-mates, who worked consist-ently behind him.

## Holiday Games' Odd Features—Cobb Now Led by Jackson

One of the odd features of the Labor Day baseball was that in no city of the American League was there one of those splittings of the bill that so often feature holidays. Detroit, Cleveland, Boston and the Athletics each won both contests that it played. Games of the holiday, taken in conjunction with those of Sunday, also made a change in the batting championship situation, Ty Cobb, who was leading Jackon on Saturday night, is now four points behind, the figures being: Jackson, .387; Cobb, .383. In the second game at Navin Field, Bush had the unique record of making every assist that was secured by the Detroit club.

Defeated Skip Jas. Reid'- Bowlers by Score of 13 to 7, in Finals for Glassware.

The Labor Day bowling tournament on the greens of the London Bowling Club brought together over a hundred and thirty devotees of the sport, members from all four city clubs—the London Rowing Club, Thistles Club, Elmwoods and Asylum clubs-all being represented. A drawing before beginning of play resulted in 34 rinks being formed, and the big elimination contest was on. The day was an ideal one for the tourney, fine and cool, and the lawns were in good shape. Six-end games were decided upon, and it took from 9 o'clock in the morning until after 10 at night to decide the winners, the honors going to the rink skipped by Dr. J. A. Wright, and composing Messrs. A. E. Chapman, Fred Hunter and Ed. Shea. ## Mid-Season Slump Put Hamilton Out of Business

Hamilton, Sept. 2.—"Had our team been doing as well two months ago as it has been for the last few weeks we would have been near the top of the heap. As it was, our infield went to pieces and our pitching staff weakened, and the usual story resulted, we lost too many games."

the tall catcher was ready for faster company, but that no longer do the local management expect to reap a harvest through a sale of Fisher. Killilea was slated for the Toronto team, according to Lee, but the little second baseman broke his leg several weeks ago and his usual story resulted, we lost too many games."

That was the opinion expressed by 'Knotty' Lee this morning, manager and part owner of the Hamilton Canadian Leaguers. There is little likelihood of any players being drafted or sold. For a while it was believed that Red Fisher,

## Brantford Wants Matteson To Manage Red Sox in 1914

[Special to The Advertiser.]

Brantford, Sept. 2.—There will be a new manager and an entirely new team of Brantford Red Sox in 1914. The announcement is made by President Nelson, who has long since been disgusted with the team's showing this year. There are only three or four players on the entire club worth keeping, according to he Red Sox president. As for a new manager, an effort will be made to secure a dividend proposition.

Eddie Holly, of Toronto, Holly is equally favored among the fans here, with Matteson, the London catcher, for the position. No other names have been mentioned, and it is not known whether the Holly or Matteson are available. The Red Sox disbanded this morning, Joe Keenan getting home late last night. Financially the club has lost about \$3,500 on the season, but it is figured that a first-division club would result easily on a dividend proposition.

## Guelph Not Satisfied With Louis Cook's Work

Guelph, Sept. 2.—President W. A. President Mahoney stated that in all probability both.

of the Leafs was concerned he was not entirely satisfied. He feels that he has a team that with proper management, would be at the top of the league, but that Manager Cook has not got the best out of the team during the season just closed. He stated further that Cook would not be with the team next year, but that a new manager would be secured at once.

There will be no change in Guelph."

President Mahoney stated that in all probability both Schaeffer and Wright would be drafted, while the Chicago Nationals have been making close observations of the work of Pitcher Dorbeck, and intimated that they might purchase him. The majority of the Leafs left for their homes from Hamilton last night. Kirley joined the Toronto team at Buffalo, and will finish the season with them.

Sporting Editor, Advertiser:

Dear Sir,-An item appeared in your paper on Thursday, Aug. 28, which was decidedly wrong, You give an account of a ball game Totals ...40 5 13 29 13 Totals ...37 6 9 30 14 between Cobourg and Bowmanville, and give the result as 10 to 2 in favor of Cobourg. It was the other way around, with Bowmanville on the big end, despite the fact that Cobourg had four of Peterboro's Canadian League players on their team. They were

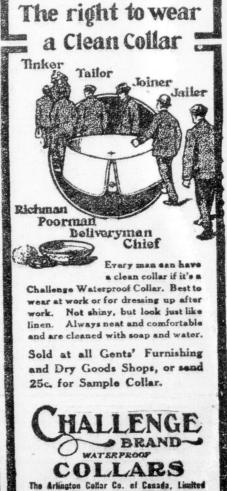

Chapdelaine, catcher; Brodie and Sterling, pitchers, and Penfold, left field. We knocked Brodie out of the box, and had no trouble in locating Sterling. We play the final in Port Hope with Cobourg today, and I am told that they have secured Marquard and Myers from the Giants as a last chance to Houck 3, Bush 2. Double plays — Fos. stop us. Well, they will need all they can get. We are just about closing up Bowmanville to go down to the game this afternoon.

Kindly make this correction in your paper, and see that your source of information receives the proper account. Very truly yours, CHAS. H. ANDERSON,

Bowmanville, Aug. 30.

BOWMANVILLE WON. Sporting Editor, Advertiser Dear Sir,—I thought you might be interested in the result of today's game between Bowmanville and Coours, in the final game for the Reach trophy and championship of the Lake Shore League.

Bowmanville won with a score of 4 to 3 in ten innings. Cobourg had Tracey, of Peterboro, pitching, Chapdelaine catching, and Donahue, of Hamilton, first base, also Brodie, of Peterbore, in fact nearly a whole Canadian League team. The best contested game of ball I ever saw.

When Rice returned, he reported the placating of Joe Brett.

"And now," said his master, giving the valet a look under which Rice squirmed, "I assume that someone in this house, probably you, knew that Mrs. Waverton would be in the park last night?"

"Yes, sir," came the honest answer.

"I thought so. Well, I forgive that sort of thing once, because it may have been inspired by good intent; but the next time I am trapped in such fashion those responsible for it, or helping it in any way, will leave my service. Is that clear?"

"Yes, sir."

Clancy meant to stop the growth of confidential relations between Claude Waverton and the bureau, because he had good ground for believing that the man might ground for believing that the man might yet figure in court side by side with Josephine Delamar. If that thrilling denouement came about, Mrs. Delamar would be charged with the murder of her husband, and Waverton would be called on to disprove that he was "an accessory before the fact."

Even if his innocence of that particular Even if his innocence of that particular crime were established, he might be inflied for another grave offence; and, in either case, he was officially undesirable as a friend. But, to understand Clancy's attitude on this point, it is necessary to follow the little man's adventures in

Florida.

He called first on the chief of police at Palm Beach, and persuaded that functionary to set on foot an inquiry as to whether any person had purchased a considerable quantity of crystals of nicotine from a local drug store during the last year.

With regard to any ordinary drug of a poisonous nature, such a wide cast of the net might have defeated its own purpose; and arbiters, not counsel and prosebut crystals of nicotine was a rare poison. It was more than likely that the great majority of the Palm Beach druggists had never so much as heard of it, while those

who did recognize it, and dispensed it, would surely have some record or memory of the customer.

Then he set forth to interview Drs.
Bentley and Mercier. Dr. Bentley was a
fussy little man, a Bostonian, a wonderfully adroit surgeon; but so full of the
present that he could only deal in generalities as to the present

alities as to the past.

He remembered the Waverton accident, of course; but was inclined to dismiss it in a sentence. It had no points. The man had been stunned, and his cuts demanded had been stunned, and his cuts demanded a stitch or two, but the affair was nothing serious, a mere bagatelle. Now, he had a case the other day, when a rock fell on an Italian at work in a quarry, in which a splinter of granite had lodged itself between the paracentral lobule and the processors now that was a most beau-

Clancy was most polite, and bowed himself out with fluent apologies for wasting the time of a busy practitioner; but he came away with the poorest estimate of Dr. Bentley's paracentral lobule; he even went so far as to despise the doctor's precuneus. But Dr. Mercler he found a man of different metal—a thin, lanternjawed, hollow-eyed Southerner, hailing from New Orleans, like Clancy himself, a half Frenchman, and one who could theorize and give chapter and verse for his ize and give chapter and verse for his

beliefs.

Yes, he had conducted the post-morter examination on the body of Scott, tutor to the family of on Miguel Santander, formerly of Rosala, in Argentine. The man's head had been flattened like a

Was the paracentral lobule damaged? Clancy could not help asking.

Dr. Mercier had busy eyebrows, and they curved now disdainfully. "My dear sir," he snapped, "the man's brain was in sir," he snapped, "the man's brain was in a pulp down to the corpus callosum."
Clancy looked grave. "In that event."
he said, "he must have been struck while the car was travelling at terrific speed."
"The doctor brightened again at that remark. "It was an amazing injury." he cried, "the sort of complete organic obliteration one would expect to find after

"Yes, sir."

Waverton said no more. He went to the typewriter and rattled off a brief note to Steingall, in which he recounted the incidents of the meeting and pointed out that he could not think of interfering further in Mrs. Waverton's affairs.

"This attempt has been a sad bungle," he wrote. "I thought it better to appeal temperately to her than raise a row with Tearle, but I was wrong. "I have never understood women, and, as the outcome of my disinterested endeavor to save Mrs. Waverton from another scoundrel, I found of my disinterested endeavor to save Mrs. Waverton from another scoundre, I found myself compelled to lie to her this morning. He considered that there are not possible for nations more isolated and lacking identity of history and

A Single Society.

Canada, Great Britain and United States, with common language, common interests, common ends, resemble a single society, which might develop a foundation for international faith of a kind new in the history of the world. The English visitor urged lawyers to assist in the freshening of the conventional atmosphere which surrounds men in public life by omitting no opportunity to think rightfully, and to contribute to the fashioning of a more hopeful and resolute kind of public opinion. It was the chance of laying before the audience at the American Bar Association at Montreal this thought that induced him to obtain permission from King George V. to visit this meeting. # Members of the London Harriers' Club

Holds Its Opponents to Four Runs in Last Eighty-Four Innings-Only Two in One Game.

In the last 84 innings of baseball played by the London club, only four runs were made off the local pitchers. This is a new record for the Canadian League and one that will remain for some time without record for the Canadian League and one that will remain for some time without being broken. Starting with the 12-inning shutout game at Ottawa a week ago last Saturday, London pitchers made this remarkable performance. Every pitcher on the club worked during that time, Steiger and Heck working in three times. In all nine games were played. games. In all, nine games were played, seven of which were won by London and two were tied. Considering that four of these games were played with Ottawa these games were played with Ottawa and two of them with St. Thomas, the end of the first mile, but took a stitch next strongest teams in the league to lend of the first mile, but to slow London this record is all the more credition has side, and after that had to slow able. Only two of these runs came in one down.

#### M'CORMICKS BEATEN BY ORIENTS BY 18-8

Game Was a Farce, McCormicks Making a Pile of Errors.

The Orients trimmed McCormicks at Springbank on Saturday by the score of 18 to 8 for the championship of the Commercial League. The game was a farce. McCormicks making a pile of errors. Watts was only touched up for one hit, but errors behind him let in ten runs. Armstrong also pitched good ball, but with such awful support, could not keep the Orients from scoring. Mc-Cormicks hit Callahan frequently, bu could not overcome such a big lead.

sengers on it seemed to know very little of the collision until after their train had stopped. The engineer of the White Mountain express stuck to his post, and was not badly hurt. The most seriously hurt appeared to have been in the third sleeper, which was thrown over the embankment. Two passengers said they were thrown from their berths and found themselves fully 40 feet from the overturned car. Mass of Splinters.

The two sleepers which were crushed by the impact from engine No. 1337 were a mass of splinters a few minutes after the accident. The engine ran on top of the wreckage and remained almost upright for a considerable time. The engine was one of the new super-heaters of the type that figured in the wreck at Stamford.

Clear Track.

The collision occurred on a clear stretch of track, but the fog was very dense at the time, as a mile below are the North Haven meadows, which run down to the tidal waters of the sound, and over which at this season of the year come banks of fog nearly every morning.

It is stated that the Bar Harbor express had stopped inside a block until the engineer could make sure of his clearance signals. The rear coach was just inside the limit. The signals had cleared for the Bar Harbor express, and the engineer had just applied steam and the train was mov-ing when the White Mountain express bore down. The grade is slightly descending. This is a very fast stretch No Statement.

No statement is as yet made as to the speed at which the White Mountain express was running or whether the engineer had disregarded signals. It was stated at the scene of the wreck that the engineer of the latter express held his engine under control but the track was slippery and the grade one on w hich it was difficult to hold the train. The Dead.

Among the identified dead at the cene of the wreck are: R. A. Hotchkiss, son Hotchkiss, of C. W. Scranton & Co. Albert Green, of New York.

#### Parcel Post Will Help the Farmers

Ottawa, Sept. 1.-The extension of the parcel post system so as to provide a means of direct transportation of farm produce between producer and consumer will be considered by officials of the postoffice department, who are planning the system. The handling of such articles as eggs, poultry, butter, etc., by parcel post has been done with success in South Africa, and the system is being invesligated in Australia by the Commonyealth Government. It is considered in Australia, according to a report received by the trade and commerce department, that the farmer would benefit by receiving higher prices for his produce, while the consumer would also be able to obtain his supplies at less cost through the elimination of the distributors' profit

Presbytery of London Welcomes H. W. Lyons to Work for Federation.

The Presbytery of London convened in its regular September meeting this morning at 10:30 o'clock, Rev. W. L. Nichol, B. A., of Dunwich, was elected moderator by rotation. The new moder. ator thanked the presbytery, and Rev. D. MacKay, of Cowal, the retiring moderator, was commended for his conduct of the business.

The names of a number of students within bounds having the ministry in view were reported. The augmentation grants were adopted. Mount granted leave to purchase a manse property, the mortgage not to exceed \$1,000. Mr. H. W. Lyons, B. A., a graduate of Toronto University, and Knox College, was introduced. Mr. Lyons is the new secretary of the Men's Federation of London. Dr. Ross and Dr. McCrae were appointed to consider the question of Mr. Lyons' ordination. Rev. A. R. McRae, the minister, of Kintyre, who has been ill for ten months, sent a letter saying that he would be able to resume work Sept. 21. The presbytery expressed gratification at Mr. McRae's restoration to health, and their high appreciation of the fine spirit of the congregation of Kintyre. Mr. Robert Hornal, of Kintyre, being present, was asked to express the presbytery's sentiments to the peo-

#### ST. THOMAS MAN SAYS WATCH WAS STOLEN

Says He Was Locked Up When He Told Police.

A visitor in London from Thomas appeared in police court this morning charged with being drunk. He admitted having a few drinks, but said that he had been robbed of watch and \$18 in money, and that when he went to the station to report it he was locked up.

When questioned as to where he was when the money and watch was taken, he replied that he did not know on account of being a stranger in the city. He was allowed to go, and in-structed by the magistrate to go to the detectives and inform them of his

BLENHEIM FUNERAL

Austin Turrell Had Resided There for

Many Years. [Special to The Advertiser.]

Blenheim, Sept. 2.—The funeral took place here yesterday from the family residence of Austin Turrell. Some time ago he sustained a stroke, and never fully recovered. He was 70 years old and had resided in Blenheim for the eries past seven years. Prior to his residence here he lived at Ouvry and in Chatham Township for over 35 years, and before that in St. Thomas. He was farmer for the greater part of his life, but in later years he carried mail from the trains to the postoffice. In politics he was a Liberal and was a member of the Masonic order. He is survived by a widow and two married daughters.

## HORTON ST. PLANT FORMALLY TAKEN OVER BY LONDON

Banquet Follows Ceremony at Pumping Station in Morning.

Intense Eulogy Given Expression To By a Number of Speakers.

The Horton street artesian wells vere formally taken over by the city it a program arranged by General Manager Glaubitz and Chairman Pocock, of the water commissioners on Monday morning. A test of the wells eing pumped together, was made and tablet commemorating the coming hydro was unveiled by Mayor Gra-Addresses were given by Hon. dam Beck, Mr. Pocock, and Mr. raham, after which a luncheon was eld at the Tecumseh House, at which nembers of the city council and repesentatives of the labor unions of ondon and St. Thomas were guests. though the public had been invited o the ceremonies at the Horton street pumping station, there were not many present beyond the guests invited to he banquet. Salute the Carts!

In accepting the waterworks plant, Mayor Graham referred to the occason as a history-making morning for condon, and said that in the plant the citizens had a monument to the foreht of a great fellow-citizen, Hon. Adam Beck. Even the watering carts, with the words "Use Hydro" painted them, were deserving of salutes in bricklayers; H. Rymill, B., M. and P. his honor. In unveiling the tablet which chronicles the connection of the ity lines with hydro-electric power, Hussey, tailors. 30, 1910, and bears the names of ex-Mayor J. H. A. Beattie, Chairman Philip Pocock, Commissioners J. H Chapman F. J. Darch, William Wyatt and Engineer H. J. Glaubitz, Mr. Granam styled hydro "the people's bes friend," and Mr. Beck the "people's best numan friend."

Mr. Beck Speaks. Hon, Mr. Beck said he rejoiced with all in the accomplishment of the great bject of securing an adequate water upply. Owing to the growth of London, the city had been confronted during his term as mayor, with the sericus problem of increasing the water for the sake of the health of the citizens, and as a prevention against the menace of tire. He spoke of the water commissioners of that lay, mentioning especially the late Col. ttle, as men who had zeal for the ettling of the water question, and who were a great factor at that time. That he, Mr. Beck, had been able to ntroduce the plan that solved the blem was, he said, not due to his ingenuity but to coincidence. As a trustee of the hospital he had had experience with an artesian well. and had mechanical training himself, and had the services of expert enincers, but without the unanimou surport of the citizens, London would not be in the enviable position it was oday. In this solution of the water roblem he pointed out there was the ement of chance, as no one could retell the amount of water or esults that were to be obtained from inking the wells. It had turned out right, and all had been benefitted. Welcomes Criticism.

London, he said, was looked upon by any places as a controversial comnunity, but he himself always welomed criticism, and it was well that hey should see both sides of every

uestion.
Turning to hydro-electric power, Mr. Beck said that the figures of the hydroelectric department were proof of its uccess and the confidence the people had placed in it.

Urges Council to Hurry. Passing to the proposed electrificaon of the Port Stanley Railroad, he ontended at some length that it would equally as successful as the hydro or the water system.

In conclusion, he thanked the citizens or their confidence in his artesian wells scheme, and declared that he had been amply rewarded for the anxiety ne had had, and that despite the buildng deficit, the city was under no obligation to him.

Mr. Pocock referred to Mr. Beck first oming forward with a practical cheme to furnish an ample supply of oure spring water at a cost not to exceed \$100,000. The citizens had had onfidence in Mr. Beck's proposal, and nstead of the 1,500,000 gallons per 24 ours promised by him, the wells were actually yielding more than 2,500,000 gallons, as determined by tests made ecently, four years after the wells were sunk. The water pressure had been in- gary or Edmonton. Returning, \$18 creased, and the citizens were saving from Winnipeg, plus ½-cent per mile annually between \$120,000 and \$150,000 from points east of MacLeod, in insurance rates. The operating ex- gary or Edmonton to Winnipeg. enses for the two plants, Horton street and Springbank were only \$55,000 as compared with \$51,000 in 1909, when pringbank plant alone was operated. This year the water rates had been reduced about \$20,000, and yet the reeipts would amount to \$10,000 more than in 1909.

The only regrettable feature of the wells proposition had been a financial oss to Mr. Beck of \$11,195.52. Without

doubt Mr. Beck's public-spirited action had resulted in saving hundreds of dol lars to the citizens of London.

The Banquet. At the banquet Chairman Pocock asked Mayor Graham to propose the toast to the labor men of Canada. Mr. J. Harry Bastla, president of the London Trades and Labor Council, said that the labor men were always ready to uphold and work for all that went towards the upbuilding of their cities. Mr. James Watt, of Toronto, a representative of the Dominion Labor Council, declared the labor men were behind everything that meant the betterment of the homes and cities of their country. One of the principles or which they stood was public ownership. Mr. Charles M. Dorritty, president of the St. Thomas Trades and Labor Council, replied on behalf of the St. Thomas labor representatives

oresent. Mr. J. H. Bastla proposed the toast to Mr. Beck. The latter wished the labor men success in all their efforts to uplift labor and their fellow men, which efforts must go to the benefit of the country.

Mr. Pocock said that credit for the uccess of the water and hydro depart\_ ments was due to the heads of departments, to ex-Mayor Beattie, Mayor Graham, and the other water commissioners.

Those present at the luncheon were Ald. Johnston, Spittal, Bennett and Moore, Commissioners Wm. Wyatt and Dr. H. A. Stevenson; Mayor Graham, Chairman Pocock, ex-Mayor J. H. A. Beattie, —. Clare, M. P. P. Preston; Hon. Adam Beck; Commissioner Sanders, St. Thomas; General Manager H. J. Glauzitz, Secretary Oliver Ellwood; J. Harry Bastla, president London Trades and Labor Council; J. Epworth League and Sabbath School Enjoy Selves Down River.

A pleasant time was spent at Springbank Monday, when the Adult Bible Class of the Sunday school and the Epworth League combined at the Ridout Street Methodist Church picnic. About 110 of the members and friends gathered at the park to enjoy themselves. A program of races and sports was un off, headed by a feature ball game, in which Mrs. Prust and Mrs. Hadden were the respective captains. After the excitement caused by the strenuous ontest had subsided the umpire declared Mrs. Prust's team victors by a 12 to 8 score. The battery for the winners was H. E. Spettigue and Clara

Westland, and for the losers, A. E. Lloyd and F. Heddington. The races, which were hotly contested, evoked vigorous applause from the spectators. At their conclusion, the nungry party sat down to an appetizing supper, which had been tastefully laid out by the ladies.

The picnic broke up about 7:30 clock, everybody feeling tired, but all declaring that they had had a most enjoyable time.

The committee who had charge were: Mr. Carter (chairman), Mr. H. E. Spettigue (secretary), Mr. G. Brown, Mr. W. Sent, Mrs. & Brown, Mrs. T. Wilcox, Mrs. L. Westland, Mrs. A. E. Lloyd, Mrs. A. Hogg, Miss M. Hansen.
