The action has been taken in view of the extraordinary conditions that exist in the two provinces. A great proportion of the crop has still to be threshed, and it is felt that at a time like this there is justification in the decision to allow the farmers to work on Sunday. NEW LONDON, Coun.. Nov. 1.—Capt. Paul Koenig, master of the German commercial submarine Deutschland, which arrived here early this morning on its second trip to America, in an interview this afternoon said that he did not know where the other undersea boat, the Bremen, was. It sailed September 26 and had sixty days' supplies on board. The captain said there were only two merchant submersibles, the Deutschland and the Bremen. The Amerika did not exist. Capt. Koenig said that while approaching the coast he saw a British patrol boat a leng way off and submerged for a time. The course from Bremen, he said, was off the Scottish coast and to the north of the Orkney Islands. It was uneventful and submergence was not more than 100 miles in all. The trip was without incident, he claimed. The captain thought he mould begin his return trip within a forteight. tain thought he would begin his return trip within a fortnight. He found the German people during his stay, he said, believing the war would last at least another year
