### TO ADVERTISERS.

The GAZETTE circulates in every neighbourhood in the County of Prince Edward, besides it has a large circulation outside, and is consequently a good medium through which the public can be reached. Is very complete, and we are now doing better work, at a cheaper rate, than can be done in this or adjoining Counties. Printing in Gold or Colors neatly and cheaply executed. We only ask a trial!

## PREFACE.

---

IN presenting this, the first Directory of the Town of Picton and County of Prince Edward, to its numerous subscribers, I have to acknowledge the uniform courtesy shown to myself and agents in collecting matter for the same, and thank the merchants and manufacturers for their liberal advertisements, which I hope will prove as remunerative to them as the work will prove useful to the thousands of readers whose interest or pleasure may lead them to consult its pages. To the latter I have only to say that advertisements were only received from the leading business men, so that the pages of this work are not only a guide to the merchant but also to the purchaser; the whole work having been corrected from proof sheets, which were sent throughout the County for correction. The general public may rest assured that neither pains nor expense have been spared to make it all that could be desired even by professed fault-finders.

To those whose names have been unwittingly omitted I only have to say that all the amends that it is possible to make will be done in the next edition.

HENRY BROCK.

THE DIRECTORS of the Colonial Life Assurance Company beg to request the attention of the public to the following TABLE of RATES for Assurances upon a very economical plan. This Table has been framed with the view to meet the objections continually made to the Half-Credit System, on account of the accumulating interest and debt to the Policy. It will be observed that the rates for the First Seven Years, under this New Table, are not much more than HALF the usual charge, while for the remainder of life they are still moderate.

Rates for British North America on a Reduced Scale for First Seven Years for an Assurance of £100 With and Without Profits.

**UNCONDITIONAL ASSURANCE.**

No Restriction as to Residence.

The Directors of the COLONIAL LIFE ASSURANCE COMPANY, being satisfied that it is unnecessary, in the case of Policies opened in British North America, to place a restriction on the residence of persons assured who are settled in life, and have no intention of proceeding to an unhealthy climate, are prepared to issue Policies without the usual Conditions as to residence in such cases.

The Colonial Company lately introduced this system into Life Assurance practice in Great Britain, and have now the pleasure of extending it to British North America.

These Premiums cannot be paid otherwise than annually.

LETTER RATES.

Letters posted in Canada addressed to any place within the Province pass, if prepaid, for 5 cents per  $\frac{1}{2}$  oz., but if posted unpaid such letters are charged 7 cents per  $\frac{1}{2}$  oz.

On letters to Nova Scotia, New Brunswick, and Prince Edward's Island, the rate is 5 cents per  $\frac{1}{2}$  oz., with optional prepayment.

The rate on letters to the United Kingdom is, by Canadian Packet,

Not exceeding  $\frac{1}{2}$  oz..... 12 $\frac{1}{2}$  cents.

Exceeding " and not exceeding 1 oz. 25 "

" 1 oz. and not " 2 oz. 50 "

And so on, increasing two rates of postage for each additional ounce,

And by Cunard Packet, 17 cents per  $\frac{1}{2}$  oz., &c.

Letters for the United Kingdom must be prepaid, or they will be charged a fine of 6d. sterling on delivery.

Letters for British Colonies and Possessions beyond sea, and Foreign Countries, via England, must be prepaid.

The rate on letters for the U. States, is 10 cents per  $\frac{1}{2}$  oz.

" to Cuba..... 20 cents per  $\frac{1}{2}$  oz.

The postage rate to British Columbia is,

Letters..... 10 cents per  $\frac{1}{2}$  oz.

Newspapers..... 2 cents each.

MAILS FOR CANADA FROM ENGLAND.

Two ocean Steamers, carrying mails for Canada, leave Liverpool in each week, viz : a Canadian Packet on every Thursday, via Derry, on Friday, sailing to Quebec in summer, and Portland in winter, by which the postage rate is 6d. stg. per  $\frac{1}{2}$  oz.; and a Cunard Packet every Saturday, via Cork, on Sunday, bringing Mails for Canada, alternately to Boston and New York, by which the postage rate to Canada is 8d. stg. per  $\frac{1}{2}$  oz.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet," or by "British Packet"—and in that case they are kept over for the packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever packet forwarded.

REGISTRATION OF LETTERS.

Persons posting letters containing value, should be careful to require them to be registered, and to obtain from the postmaster a certificate of receipt of registration.

The charge for registration, in addition to the postage, is as follows, viz :

|                                                                        |                    |
|------------------------------------------------------------------------|--------------------|
| On letters to any other place in Canada, or British North America..... | 2 cents.           |
| On letters for the United States.....                                  | 6 "                |
| On letters for the United Kingdom.....                                 | 12 $\frac{1}{2}$ " |
| On letters for British Colonies or Possessions, sent via England.....  | 25 "               |

On letters for France and other Foreign Countries, *via* France, an amount equal to the postage rate.

Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a registered letter can be traced when an unregistered letter cannot, and the posting and delivery or non-delivery can be proven. A registered letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an unregistered letter.

#### MISCELLANEOUS CHARGES.

The charge on parcels by the parcel post, which is limited to place within the Province, is 25 cents per lb. (with 3 cents additional if registered).

One cent per oz., payable in advance by postage stamp, is the rate on printed circulars (printed circulars, if sent in envelopes, whether *sealed* or *unsealed*, are liable to letter postage), prices current, hand-bills, and other printed matter of a like character, and on books, bound or unbound, when posted at a Canadian post office, addressed to any place in Canada, British North America generally, or the United States.

The postage upon prices current addressed to the United Kingdom is *two cents each*, which must be prepaid by postage stamps, or they will be sent to the dead letter office to be returned to the senders.

#### BOOK POST WITH ENGLAND.

The charge on books, &c., by book post to England, is 7 cents on packets not exceeding 4 oz. in weight; 12½ cents on ½ lb. packets; and 12½ cents additional for every additional ½ lb. These charges must be prepaid. Photographs, *provided they are not upon glass or in cases containing glass*, may be forwarded to England at the *book rate of postage*.

#### BOOK POST WITH FRANCE.

For a packet of printed matter, or single newspaper,

|               |                       |            |
|---------------|-----------------------|------------|
| book, &c..... | not over 2 oz.        | 4 cents.   |
| Do.           | exceeding 2 oz. and “ | 4 oz. 8 “  |
| Do.           | “ 4 oz. and “         | 8 oz. 17 “ |
| Do.           | “ 8 oz. and “         | 1 lb. 3¼ “ |

And so on increasing 17 cents for each additional ½ lb.

The book post regulations between Canada and England apply to matter between Canada and France.

#### NEWSPAPERS AND PERIODICALS.

Newspapers published in Canada may be sent by post from the office of publication, addressed to any place in Canada at the following rates, *if*

*paid quarterly in advance*, by either the publisher at the post office where the papers are posted, or by the subscriber at the delivering post office.

For a paper published 6 times a week, 40 cents per quarter.

|   |   |   |   |    |   |   |
|---|---|---|---|----|---|---|
| " | " | 3 | " | 20 | " | " |
| " | " | 2 | " | 13 | " | " |
| " | " | 1 | " | 6½ | " | " |

When the above rates are not paid in advance by either publisher or subscriber, such papers are charged one cent each on delivery.

#### TRANSIENT NEWSPAPERS.

*Transient Newspapers*—that is to say, Canadian Newspapers posted otherwise than from the office of publication, and American or British papers posted or re-posted in Canada, must be prepaid one cent each, by postage stamps, or they cannot be forwarded—except only *British newspapers* distributed to regular subscribers by Canadian booksellers or news agents—such papers pass free as they would do if received in the Canadian packet mails.

#### NEWSPAPERS BY MAIL FROM ENGLAND OR UNITED STATES.

Newspapers received from England by the Canadian Packet Mails are delivered free.

Newspapers from England by the Cunard Packet Mails are charged 2 cents each on delivery. (This is the American transit charge.)

United States newspapers, brought by mail into Canada, are charged one cent each on delivery.

#### PERIODICAL PUBLICATIONS.

The rate on all periodicals, other than Newspapers, passing by mail in Canada, save such as may be addressed to or received from the United Kingdom, and such as are exempted from postage by statute, will henceforth be one cent, per oz. weight of package containing periodical matter, whether the package contain one or more numbers.

Any fraction of 4 oz. to be charged as a full rate.

On periodicals posted from the office of publication or by news agents or booksellers, to regular subscribers within the Province, this rate may remain to be collected on delivery, and must in such cases be marked upon the packages and charged in the letter bills; but when mailed to go out of the Province, such periodical matter must be prepaid by postage stamp. British and United States periodicals may be posted in Canada by news agents and booksellers to regular subscribers in the Province under this regulation.

Transient periodical matter posted in Canada must in all cases be prepaid by postage stamp.

The above rate will be payable on delivery on all periodical matter received from the United States, except that Canadian editors may receive exchange periodicals from the United States free of Canadian postage.

Periodicals, printed and published in Canada, may be posted addressed

to any place in the United Kingdom by Canadian packet, on prepayment by postage stamp of two cents each number.

This rate will be applicable to all classes of Canadian periodicals posted as above for the United Kingdom, the exemptions to which certain classes of Canadian periodicals are entitled, extending to such numbers only as are addressed from the office of publication to places within the province.

#### POSTAGE RATES ON MISCELLANEOUS MATTER.

Packages of seeds, cuttings, bulbs, roots, and scions, or grafts, may be posted in Canada for delivery within the Province, or to an address within the United States, on prepayment by postage stamp of a rate of one cent per oz.; and when received from the United States addressed to any place in Canada, such packages may be delivered on payment, by the person addressed, of a like rate.

The limit of weight for such packages will be one pound. No communication, whether written or printed, must be enclosed in them; and they must be so put up as to be easy of examination, for the purpose of verifying the alleged contents. If put up in bags, the bags must be simply tied at the neck, so as to admit of inspection; and in the case of such packages mailed in Canada, the nature of the contents, such as "seeds," "roots," &c., as the case may be, must be marked on the package by the sender, as a statement of the claim to pass at the reduced rate hereby made applicable to such matter.

Book manuscript, and printers' proof-sheets (whether corrected or not), maps, prints, drawings, engravings, photographs, when not on glass or in cases containing glass, and sheet music (whether printed or written), may pass in covers open at the ends or sides, and provided that no letter, or other communication intended to serve the purpose of a letter, be enclosed therein, on pre-payment, when posted in Canada, by postage stamp of the ordinary printed matter rate of one cent per oz.; or upon payment of that rate on delivery of such matter when received in the mails from the United States.

#### POSTAGE OF BOOKS, PATTERNS, AND SAMPLES.

Patterns of merchandise and samples may be forwarded between Canada and the United Kingdom, by the Canadian Packet Mails, at book post rates, and subject to the following conditions:

The patterns or samples must not be of any intrinsic value; and this rule excludes all articles of a saleable nature, and whatever may have a value of its own, apart from its mere use as a pattern; nor must the quantity of any material or article sent as a pattern or sample be so great that it could have on this ground an intrinsic value.

The patterns, &c., must be sent in covers, open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and such like, which cannot be sent in open covers, may be enclosed in bags of linen or other material, simply tied at the neck; but bags closed against inspection, although transparent, must not be used for the purpose.

There must be no writing or printing other than the address of the

person for whom the packet is intended, the manufacturer's or trade mark and number, and price of the article.

Any infringement of the above regulations will render the packet liable to be treated and charged as a letter.

The rule which forbids the transmission through the post of any article likely to injure the contents of the mail bags, will apply to patterns and samples; and any package transgressing this rule is to be sent to the Postmaster General.

The book post rate between Canada and the United Kingdom, remains unaltered at 7 cents for a packet weighing not more than 4 ounces.

## COUNTY OF PRINCE EDWARD.

---

WHEN the thirteen American Colonies forcibly severed themselves (with the assistance of England's ancient rival and enemy) from the protection of the mother country, a large number of the colonists would not allow the illjudged legislation of a political party, who for a time held the reins of power at home, or the still more wicked, insane and ungenerous conduct of their unthinking fellow-subjects in America, to deprive them of their proud birthright as British subjects, and of the benefit to themselves and posterity of that excellent constitution and those just laws, which in their minds were associated with and hallowed by every sentiment that tends to the elevation and advancement of humanity. Preferring to live under the old flag in a strange and comparatively unexplored country, than to remain in their old homes, where the great mass of the people had thrown off allegiance to the British Crown, they came to Canada, bringing with them those high principles of loyalty and honor which their descendants yet retain, many of whom still live on the same property in Prince Edward County which was bestowed by a grateful Sovereign in appreciation of their unwavering loyalty.

The County is one of the forty-two which, combined, constitute Canada West. It contains six Townships, namely, Ameliasburg at its extreme western part, which connects it at the carrying place with the Township of Murray, County of Northumberland; Hillier, lying south of Ameliasburg on the Lake side; Sophiasburg, which includes Big Island, lying on the Bay side; Hallowell, which is south of Sophiasburg, east of Hillier, and running from the Bay to the Lake; Marysburgh, east of Hallowell, composing the extreme eastern portion of the county; Athol, south of Hallowell and Marysburgh, the smallest and most southern Township in the County.

According to the census returns of 1861, Prince Edward contained 20,869 inhabitants. It now contains probably 24,000.

It is fifty-five miles in length by about fifteen in breadth; bounded on the north and east by the beautiful Bay of Quinte, on the south and west by Lake Ontario, which contributes to the wealth of the county by means of its valuable supply of fish, quantities of which are annually caught (particularly on the far-famed Wellington beach) and disposed of at remunerative prices in the Kingston, Montreal, and American Markets.

The County has fine harbour accommodations; the largest are Consecon, Picton, Wellington, and Prince Edward or South Bay. The last is truly a harbour of refuge; in it all Lake craft can ride at anchor in perfect security from the effects of the most violent storms. Point Traverse, or, as it is sometimes called, Long Point, breaks Ontario's rage, and vessels once rounding it are then perfectly safe.

The County exports immense numbers of horses, cattle, and sheep, which command the highest prices, and are eagerly sought for on account of their superior condition and breed.

The County and Township municipalities are entirely free from debt. This is owing, in a great measure, to the geographical position of the County, which is almost an island, being only connected with the main land by a neck at its north-western extremity, of about three-quarters of a mile in width. On account of its peculiar position the railway maniacs could not get sufficient local support to establish a road in opposition to the lake trade. The roads are in great part natural turnpikes, requiring little or no outlay. There are consequently no tolls collected.

As an agricultural County, Prince Edward stands high, which, with its extraordinary facilities for transportation and other important advantages, presents to the capitalist desirous of establishing manufactories, the most favorable inducements.

As regards oil, there are three lots in the County whose occupants are sanguine of becoming oil princes at some future day.

The high tone of morality which characterizes the By-laws of the County, and the strict manner in which they are enforced, may

fairly stand as an index to the good habits and principles of the inhabitants generally. Other counties would do well to follow their example in this respect.

The inhabitants of the County, though they have literally covered it with good, substantial, and well-conducted schools, are still determined not to stop there, but are engaged in the laudable competition of outvieing each other with liberal individual contributions, as a subsidy to induce the Church of England to establish a college in Picton, to be called the Ontario College, conducted under the auspices of the Established Church, but free from sectarianism, and open to all denominations. A large number of the citizens of Montreal have agreed to make up any deficit that may exist after the county subscriptions have reached a certain figure. All will unite in wishing this laudable enterprise every success.

On account of the County standing as it does out in the lake, considerably beyond the rest of the shore, and being insufficiently provided with light-houses, vessels, more or less, are wrecked here every fall. This last has been a peculiarly unfortunate one, as I regret to say that not only has a large amount of property been damaged, but valuable lives have been lost. Cannot a life-boat association be formed, organized on the principle of those in Great Britain.

A medical practitioner of high standing in his profession (Dr. H. B. Evans), has noticed, and is desirous of turning to advantage, a praiseworthy characteristic which is peculiarly marked in the domestic life of the people of this County, viz., their habit of adopting as members of the family, children, and boys and girls whose parents have been removed by death, leaving them destitute of the means of support. The position of these children is thus raised above that of the menial. They are, by means of a good English education, placed in a position to become useful and respected members of society. The Doctor has published in a circular, a letter addressed by him to Thomas D'Arcy McGee, Minister of Agriculture and Emigration, and sent a copy to the different County Councils, requesting them to give the subject their consideration, and if it meets with their approval, to pass a resolu-

---

tion to that effect, and send a copy of the same to him for future action. The scheme is simple, practical, and self-sustaining, and will, if acted upon in a proper manner, and not abused, supply the agricultural community with a steady and reliable, because interested class of co-operatives, the want of which is felt more and more every year in developing the great productive resources of the country.

Following will be found a large amount of statistical information compiled from the census returns of 1861.

 WELLINGTON,

## WELLINGTON.

This is an incorporated village, situated partly in the Township of Hillier, the balance in Hollowell, and lying on Lake Ontario.

The village is principally built on one long street, about one and a half miles in length, running parallel with the lake.

It contains several stores, carriage shops, blacksmith shops, &c. Mail daily to Picton and Brighton.

It stands next to Picton as regards trade and population, though, owing to the partial failure of the fine fishery on which its prosperity in a great measure depends, the mercantile and manufacturing interests of the place are only partly represented in our advertising columns. The Episcopal Methodists have a fine brick church built on the Main street. Having an extensive farming country on three sides and a good fishery south of it, the future prosperity and growth of the place will depend in a great measure on the energy displayed by the inhabitants in improving and profiting by these natural advantages. There is, certainly, a good opening here for practical men with moderate capital.

Population, about 800.

## CONSECON VILLAGE

Lies partly in the Township of Hillier, and partly in Ameliasburgh, being divided by a creek of the same name, which empties the waters of Lake Conseocon into Weller's Bay, in which harbour the largest lake vessels can safely ride at anchor during the most severe storms, being protected from the roughness of the lake by an extensive sand bank.

The Government have decided, we believe, upon enlarging the mouth and dredging the harbour, which, when done, will add to the trade of the village by inducing many vessels to take advantage of its superior accommodations, and winter there.

The village contains three stores, two blacksmith and two carriage shops, four shoemakers, two doctors, &c.

Mail daily to and from Brighton and Picton per Patterson's Royal Mail stage line. Population, about 350.

## VILLAGE OF MILFORD.

Is situated on Black Creek, in the Township of Marysburgh, two and a half miles from Prince Edward or South Bay, where is located a customs port of the same name. A considerable amount of the trade done here is derived from the vessels wintering over in the bay. It has excellent water privileges, and contains two grist mills, a post office, two stores and three taverns. Nearly every trade is here represented. Mail from Picton twice a week. Church of England service every Sunday; Methodist do.

Population, about 250.

## BOOKBINDING.

Owing to the difficulty of procuring first class Bookbinders, and the high wages they demand not being warranted by the amount of support accorded, together with the heavy duty (20 per cent.) on binding material, *while the bound book is admitted free*, the undersigned is under the necessity of declining to execute further orders in this branch, and will hereafter confine himself to binding connected with his own business, and the manufacture of Blank Account Books.

## ENLARGEMENT OF PREMISES.

The undersigned has greatly enlarged, and otherwise improved his premises, which he has adapted, in every respect, for carrying on an extensive Book and Job Printing and Blank Book Manufacturing business. The Compositors' Rooms are well stocked with a large variety of Plain and Fancy Types, embracing the newest designs. The Establishment is furnished with twelve Steam Printing Presses, nine Steam Smashing, Sawing, Cutting, Stamping and Hoisting Machines, six Hydraulic and Hand Presses, together with Rolling-Backing and Paging Machines, all in thorough working order, which enables the subscriber to turn out large quantities of work at very short notice. 150 persons are employed in this Establishment.
