## MARCONI WIRELESS PLANT NOW IN OPERATION

Marconi's Station at Cape Brador

Lieutenant Marconi

INVENTOR AND HIS PLANT

Thomas A. Marconi was born in Italy and came to Canada in 1894.

### ICY PLUNGE FOR WEST SIDE MEN

Boat Capsized in Squall, Throwing Them into Harbor.

Wm. Lord and Arthur Cobham Rescued by Tug Waring's Crew, but Lost Their Load of Fish.

A plunge into the icy waters of the harbor and the loss of a boatload of fish was the unpleasant experience of two West St. John men yesterday afternoon.

### GERMANY WILL WELCOME TREATY

Authorities See Wide Field for Mutual Benefit.

German Government is Prepared to Receive Any Approaches of Canadian Ministers Along This Line.

MONTREAL, Oct. 30.—A London cable to the Star says: No surprise is occasioned by the news from Ottawa, that following the Franco-Canadian treaty the Canadian government contemplates sending representatives to Europe to negotiate for preferential trade treaty with Italy and Germany next year.

### NOT EVEN SATISFIED WITH TWO WIVES

Lyons Man Arrested as a Fugitive from Justice and for Bigamy.

LYONS, Mass., Oct. 30.—George W. Boardman, aged 35, employed by a local express company as driver and who has made his home in Lyons for the past two years, was arrested here late today by a Lynn inspector as a fugitive from justice, for officers at Binghamton, N. Y. The warrant held by Binghamton officers charges that Boardman, on August 28, 1904, at Binghamton, N. Y., married on Nora Eleanor Baker while he had another wife living, an indictment being returned on the charge by the Broom county grand jury on October 28.

### WILL MAKE ANALYSIS OF THE STOMACH

Possible That F. B. Polson, of Polson Iron Works, May Have Been Poisoned.

TORONTO, Oct. 30.—Professor Ellis will make an analysis of the stomach of F. B. Polson, late president of the Polson Iron Works, who died suddenly Monday afternoon, to determine whether the prescription prepared by a Chicago specialist and which the deceased had been taking, had anything to do with his death. The post mortem examination revealed inflamed condition of the digestive organs, indicating poison, which, however, might have been generated in the organs themselves. One of the motives of the examination is the fact that Polson carried an accident policy of \$50,000, of which one of the conditions is that it is payable in the event of accidental poisoning. Of course there are no suspicions of suicide about the death. A certificate of death was given by Dr. J. E. Elliott, the family physician.

### MILLION DIVORCES GRANTED SINCE 1887

Census Bureau Finds That Number More Made Application—Obtaining Statistics.

WASHINGTON, Oct. 30.—Approximately 1,000,000 divorces were granted in the United States between 1887 and 1906, and something like a half million more pairs have got as far as the divorce court with marital unhappiness, according to the tentative calculations of the Census Bureau, which is preparing an elaborate report on divorces. The report will not be published till some time next spring, and the Census Bureau is not yet ready to make any official announcement of its results, but the total number can be approximated from the present status of the work.

### BISHOP KINGDON'S ESTATE

PROBATED AT \$8,094

Consists Chiefly of Real Property in England—Marriage at Capital.

FREDERICKTON, Oct. 30.—The last will and testament of the late Hollingworth Tully Kingdon, Lord Bishop of Fredericton, was duly probated this morning before J. H. Barry, K. C., Judge of probates for the county of York. The Eastern Trust Company is made executor and J. M. Robinson, the company's manager, took the necessary oath on its behalf. The estate was sworn at \$8,094 and consists of \$6,000 in real property situated at Exeter, England, and \$2,094 personal. The whole is left to the widow during her life and on her death to the daughter of the deceased. The will is dated the 25th of December, 1899, and is witnessed by Albert J. Gregory and Fred H. Peters, but as no executor is appointed under the will a codicil was added appointing the above named company. Codicil is witnessed by T. C. Allen and E. A. McKay; C. H. Allen is proctor.

### TWO MEN KILLED AND SEVERAL INJURED IN TRAIN WRECK NEAR REGINA

REGINA, Sask., Oct. 30.—Two men were killed and several more or less seriously injured in a train collision, which occurred at 3 o'clock this morning, six miles east of this city. The killed are Chas. Britt, fireman, Moosejaw; W. J. Robinson, express messenger, insured—St. Emile, mail clerk; T. H. Brown, conductor, Wainwright; T. Y. Cummins, slightly hurt. Emotive suffered acids on back, and Finlayson sustained cuts and bruises.

### PREMIER DENIES THAT HE ASKED BORDEN FOR RESIGNATION

OTTAWA, Oct. 30.—Sir Wilfrid Laurier made an exception to his usual rule against making any statement with regard to the sensational reports in an opposition paper by denying this morning, in response to an inquiry from your correspondent, regarding the dispatch from Ottawa to the World that Sir Frederick Borden had been asked to resign Sir Wilfrid's stated emphasis that the dispatch was entirely without any foundation.

## C.P.R. STEAMER IS FAST ASHORE

### S.S. Montreal Stuck in Mud in Lake St. Peter

Was Bound from Antwerp and Carried General Cargo—Steering Gear Probably Became Disabled.

MONTREAL, Oct. 30.—Aground in Lake St. Peter, the steamer Montreal of the Canadian Pacific Atlantic steamship lines is fast on the muddy bottom. The vessel lies in the channel, hard by lightship No. 2, which is opposite Louisville. No particulars as to the cause of the grounding of the steamer had been learned this afternoon. The general impression is that there was some defect in the steering gear.

## SHOCKING CRIME OF NOTED ACTOR

### Raymond Hitchcock Indicted for Criminal Assault

General Police Alarm for His Arrest—Three Little Girls Give Evidence Against Him.

NEW YORK, Oct. 30.—A general police alarm was sent out tonight for the arrest of Raymond Hitchcock, the actor, against whom he grand jury this afternoon returned six indictments for criminal assault and abduction, after hearing the testimony of three little girls.

### 1,500 PEOPLE BURIED ALIVE AT VLADIVOSTOK

Awful Result of Earthquake in Russian Turkestan

Little Town—Overwhelmed and Completely Destroyed by Landslide That Followed Shock—Reports Exaggerated.

TASHKENT, Russian Turkestan, Oct. 30.—The little town of Karatash, in the Hissar district of Bokhara, has been overwhelmed and completely destroyed by a landslide that followed the earthquake of October 21. According to the latest reports of the disaster a majority of the inhabitants of the Karatash lost their lives.

### MUTINOUS CREW AT VLADIVOSTOK

Men on Russian Torpedo Boat Cause Trouble

Number Killed and Wounded Before They were Subdued—Boat Capsized to Save Her from Sinking.

VLADIVOSTOK, Oct. 30.—An exciting little naval battle took place in the harbor today between the mutinous crew of a Russian torpedo boat destroyer and their loyal comrades. The mutineers finally were subdued, but not before a number of men had been killed or wounded.

### P. W. GORDON WEDS TRURO YOUNG LADY

Farmer St. John Boy Married to Miss Louisa Craig Yesterday—Will Live in Nelson, B. C.

TRURO, N. S., Oct. 30.—The wedding of Miss Louisa Craig, only daughter of the late William Craig, Young street, Truro and Peter William Gordon of Nelson, B. C., son of Rev. J. A. Gordon, Baptist minister of Montreal, was celebrated this afternoon at 3 o'clock at the home of the bride's mother by the Rev. Archdeacon Kaulbach, D. D. The bridesmaid, Miss Gertrude Cummings of Truro, and Frank Chipman, Kenville, was best man. The bride wore a gown of white tulle with white silk. The bride bouquet was of white roses. George Lewis, uncle of the bride, gave her away. The groom's present to the bride was a diamond ring. Other presents include a silver tea service and two hundred dollars from the bride's mother. A solid silver fruit dish and spoons from the members of the St. John's church, and a chair, of which Miss Craig is a member and valuable presents from the groom's relatives in Montreal. They left on the Maritime Express this afternoon to spend their honeymoon in the Province of Quebec, thence they will go to Nelson, B. C.

### WAS DROWNED WHILE DUCK SHOOTING

Moncton Police Committee Discussed Overcrowding of Picture Halls—Appropriation.

MONCTON, Oct. 30.—J. M. Lyons today said that he could not accept the appointment on the board of governors of the C. A. A. U., made to him at a meeting of the body on Saturday. Lyons has been connected prominently with the M. P. A. A. A. in several years past, as well as with the Moncton A. A. A., and his decision not to accept a position on the C. A. A. U. governing board will be learned with regret throughout the province.

# IN THE REVERIOUS WORLD

## THE CHILDREN OF OUR CITY

By the Rev. Dr. Newell Dwight Hillis.

Plymouth Church, N. Y.

Text: "Take Heed That Ye Offend Not One of These Little Ones"—Matt. 18: 20.

After a somewhat lengthy introduction, in which a street scene was vividly described, the preacher proceeded to speak of

### THE THREE RIGHTS OF EVERY CHILD.

What are the rights and what the claims upon the community of these 600 children? First is the right to a warm welcome and to enough food to build a good body that shall make the child strong and self-sufficient. No stout man has a right to say, "Society owes me a living," or to demand the inalienable right to demand a living during its helpless and growing years. But the condition of all prosperity in youth and maturity is a training which the body is the handle that holds it. The intellect furnishes ideas that are like arrows; the body sends them home. It is given to starve, drain away the vitality, to develop passions within themselves and then to put out this little capital of disease, and incompetency, and hand it on to a little child as a curse and a blight. Some parents have wasted all the physical reserves upon their own pleasures and had nothing left to give to their children. But, no matter how much of a body the child inherits, beneath the child through heredity, once a child is here it has the right to ask enough to finish the work of body building. Robert Hunter is confident that fully 80 per cent of our children go to school in the winter hungry. How pathetic that incident of the teacher who found that two of the little school children had too much to eat, and that they had come without breakfast, and, therefore, took them into the little dressing room, where, when the door was closed, upon the table were two starved, emaciated, and exhausted children. Come with me now to a longshoreman's house, or a workman's flat. I know them well; every detail of their lives. There are seven children living of the eleven born.

The father earns \$12 a week. The mother while she has been bearing and rearing these children has earned enough to pay the rent. Four dollars out of the father's twelve goes to clothes and shoes for nine people each week. The remaining \$8 for coal and food. One dollar a day, therefore, must buy the oatmeal and the milk for the morning, the macaroni and the simple soup for the luncheon, the vegetables and the thick soup for the night's dinner when the heavy steaks are eaten. The fat is scrupulously clean within, if the surroundings are black and squalid would. Thomas Aquinas asked how many angels stand on the point of a needle? The mother's work is in one of our great Easton street stores. Never was there a girl that had the basis of a better physique. But her blood was white and starved, the food thin and poor. In the drug store behind the counter, one day she bore a tiny vein in the lung; then a microbe in the air lodged in the congested spot; coughing followed, then a fever; the worth of good food the week before that accident happened, would have saved her health and perhaps her life. And this story is an illustration of the 150,000 poor children live in Brooklyn.

### THE RIGHT OF EXERCISE AND GROWTH.

Another natural right of the child is the right to play in order to grow during his non-productive years. Man maintains his position in the world by his work; for his profession is in reality his work. The child has an artificial occupation named play through games. Having the food as raw material for the body and the air as fuel, the child built into the physique into play through the free play of the legs and arms, through exercise and fresh air. In Prospect Park we behold the marble pushing out a soft growth, of one or two feet, and then the sap coursing through the young growth furnishes food; then comes the spring and summer winds to give the sap the tough it exercise, playing with the leaves in the air, bending it, twisting it, hardening the young growth, until it can stand up against the storms of winter. And not otherwise does the growing child need its exercise. The little boy flings out his arm with the ball, and so stretches the arm. Then, when the arm is stretched, along comes the angel of the blood, and drops in a little wedge, so that the stretched arm cannot draw back. Thus the growth is permanent. This is the function of all the games for little children, to stretch the blood into the body, and then by forcing the arterial blood into the extremities to make the stretching permanent. One thing, therefore, is vital, the playground. Given a dozen blocks of houses and stores, there should be one block, not for a park, but for play. A school house for the mind, with no playground for the body is a form of folly. Mental development is an after-growth of muscular and nerve tissue that have already unfolded. Athens had a law that required a room for playgrounds, running tracks and swimming pools.

Athens and Rome had their intellectual supremacy because they built a perfect body for boys and girls; and that a healthy mind would inevitably follow. If you could put a million and a half Greeks and Romans here, they would win dynamite and powder blow up four blocks on Broadway Heights, and at least forty blocks in Brooklyn for playgrounds, running tracks, ball games, swimming pools, parks for girls. As a matter of fact, the Greek pursued games by making the central building the gymnasium,

while we make the central building the school house for the intellect. Both views represent a perverted extreme. Brooklyn could keep all its splendid high schools, manual training school and institute, and then add the Greek and Roman method, making these grounds for exercise to be close to the children, within three minutes walking distance of the apartment and the flat, our educational system would approximate the ideal. For we must not forget that the Washington says his Waterloo on the playground at Eton College, where he built his body; that Germany by her military drill and her physical exercise in advance, won the boys reared in crowded Manchester and Birmingham, without exercise and air and light and food, were unfit for the Boer war. For we must remember that when England won her victory over the Dutch in Africa, she won it through Scotch soldiers and the Colonials. That perhaps also explains why little Scotland governs England. Mr. Gladstone was a Scotchman, the next Prime Minister, Balfour, was a Scotchman, the present Premier, Campbell-Bannerman, is a Scotchman; Lloyd George is a Welshman; other cabinet members are Scotchmen, and in short England is governed by people who are not Englishmen, all of which simply brings us back to the degeneracy of the physique of our children, and to the cause of it, through lack of exercise and air, of sunshine and nourishing food.

### THE THIRD NATURAL RIGHT OF THE CHILD.

Another natural right of the city-born child is the chance to grow, and then to mature. The new science of education is based on the idea that the world is one world, that the life of the plants helps us to understand the life of animals, and the development of an animal through light on the natural history of man. That the children must know something about the world; something about what is the harvest, and what the soil is; what the harvesters are; what animals are burden bearers, and what forces are in river and wind, and fire and storm. All this information must be first-hand information. In the morning and again in the afternoon the cars carry the little children to the park for a half cent. Did you ever read the papers of London, at the harvest gathering up at the farm on Sixty-seventh street, New York? Professor Hanna, head of the department of education in the city of New York, said that in an open lot, some three hundred little garden plots, took these boys from the Bowers district, and the girls as well. Each child was given a plot of earth, and the mother's house and you will hear a voice whispering: "Seven angels have stood on the point of this mother's needle." At fourteen the eldest girl went to work in one of our great Easton street stores. Never was there a girl that had the basis of a better physique. But her blood was white and starved, the food thin and poor. In the drug store behind the counter, one day she bore a tiny vein in the lung; then a microbe in the air lodged in the congested spot; coughing followed, then a fever; the worth of good food the week before that accident happened, would have saved her health and perhaps her life. And this story is an illustration of the 150,000 poor children live in Brooklyn.

### THE CHILD AS A COMMERCIAL ASSET.

From this survey of the natural rights of the child, we must now consider the struggle to get possession of our child, not just as men struggle over oil, or iron, or coal, so they struggle to get hold of the children to make money out of them. Not that the Brooklyn condition of child labor is so alarming, as those that exist in certain other cities. The annual report from the southern cotton mills tells us that sixty thousand children under 14 years of age out of two hundred thousand textile workers are in the mills. More appalling still is the story of child labor in the glass industry. I have here also photographs of eight little boys from 10 to 15 years of age whose parents put them into the coal mines of Pennsylvania. One of these boys had lost an arm and one a leg, two other hands had been injured, and one suffered an injury of another kind. The superintendent in Lowell, Mass., told me that many years ago a boy had a "little girl" of 9 or 10 that took its broom out to wash in the river, and that the current pulled it into the river and that it drowned before help came. In the last weeks looking into these cigar factories, going into another building filled with the thunder of sewing machines, into stores and shops where children are crowded, the parents do not know that they are 14 when obviously it is untrue one remembers that the struggle against the avarice of man is an everlasting struggle, and for the reason of it, many machines can be tended by children quite as well as by men; second because a child's clothing and food are less, the employer can save money by hiring child labor. But third, if the child before 13 and 14 coins its life into work at 20 or 25 when the duties of fatherhood or motherhood approach, the youth takes its place among what are called "men"; that is, people who are nervously unequal to self-support. Fifth, out of these spent men come the hereditary losses that will be visited upon the children and grand children. Sixth, there follows the degeneracy of the national physique; but

seventh, the real wealth of a country is in the quality of the man and woman it produces and not in the things it possesses. The country gains only as or as new generation is stronger and better than its predecessor. But his upward growth and national gain is impossible under child labor conditions.

### WHAT WE CAN DO.

Now comes the practical problem: First, when you have found a factory or a sweat shop or a tenement house where children under the legal requirement are working, and being degraded and ruined, don't think that you have righted the wrong by public epithets or newspaper criticism. Go quietly and alone to the head man who is responsible and talk to him in a reasonable way about the whole child labor situation. Second, working plan. Take an afternoon and go to the jail and look at the crowd of prisoners who have been guilty of burglary and larceny and assault, and ask yourself the question: "What right have the people of Brooklyn to send these children to the jail when we never taught these boys how to keep out of jail?" There are several hundred thousand of these boys reared in crowded Manchester and Birmingham, without exercise and air and light and food, were unfit for the Boer war. For we must remember that when England won her victory over the Dutch in Africa, she won it through Scotch soldiers and the Colonials. That perhaps also explains why little Scotland governs England. Mr. Gladstone was a Scotchman, the next Prime Minister, Balfour, was a Scotchman, the present Premier, Campbell-Bannerman, is a Scotchman; Lloyd George is a Welshman; other cabinet members are Scotchmen, and in short England is governed by people who are not Englishmen, all of which simply brings us back to the degeneracy of the physique of our children, and to the cause of it, through lack of exercise and air, of sunshine and nourishing food.

### THE BAPTISTS.

REV. J. A. GORDON, formerly of this city, was elected president of the Baptist convention of Ontario and Quebec at its recent session in Woodstock, Ont.

REV. J. D. FREEMAN, late of Toronto, and some time ago pastor of the German street church in this city, has called to the Baptist church in Leicester, England.

THE RUSSIAN Baptist Church has opened a training school for ministers in the Baptist church at Loda in Poland, with Rev. Eugene Mohr and Rev. Martin Schmitt as principals. This school for which Baron Ukxull has been soliciting funds in the United States and Canada.

WHY ARE MINISTERS scarce leads a correspondent of the Maritime Leader to say, I have known pastors on a \$600.00 salary who have worked for three months without receiving a dollar and six months have received and that you were drowned in the depths of the sea.

### CHURCH NOTES FOR BUSY MEN.

In this department facts are given, not opinions, and as far as possible, the authorities are cited.

### ROMAN CATHOLIC.

THE PRIESTS of the Department of Ministers, having generally refused to quit their presbyteries, which reverted to the communes under the Church Law, are being expelled by the aid of gendarmes. At many places resistance was encountered. At Relevo the gendarmes were forced to break in the doors of the church in order to eject the priests, who were surrounded by weeping women, and at Pendera, after a tumultuous scene, the gendarmes took possession of the bell in the church, in order to prevent the crowd from arousing the people.

### IN ITALY THERE ARE MORE THAN 400 SEMINARIES.

THE ITALIAN episcopate has been directed to discuss the situation, and a commission of three members has been appointed to give momentum to the work. The commission has bustled itself with a plan for reducing the number of the seminaries. There will probably be great difficulty in reducing the number of the seminaries. In order not to offend local feeling the State is obliged to keep up universities in deserted towns like Ferrara, attended by a handful of students.

### "SACERDOTALS" IN LAST WEEK'S NEW FREEMAN, SPEAKING OF A VISIT HE PAID TO THE LATE BISHOP KINGDOM AND HOW MUCH HE "ENJOYED HIS BRILLIANT CONVERSATION," SAYS: "IN THE COURSE OF THE VISIT HE MADE FREQUENT REFERENCE TO A learned Jesuit, whom he persisted in calling a very intimate friend of his own. While I made no remark, the curiosity in my eyes did not escape him. He asked me to write for him the bishop's keen observation. 'You would not be surprised if I had a very dear friend among the Jesuits nor must you think that I am going home'ward. While this was very general he did not say that the Jesuits were made such frequent and kindly reference as 'gladly welcome back.' 'What he would not be surprised if I had a very dear friend among the Jesuits nor must you think that I am going home'ward. ## REV. DR. DOBSON PASSED AWAY AT CHARLOTTETOWN SUNDAY AFTERNOON

One of the Ablest Methodist Ministers in Canada and Was President of the New Brunswick and Prince Edward Island Conference—Had Accepted Call to Moncton—Once Pastor of Centenary.

CHARLOTTETOWN, P. E. I., Oct. 31.—Rev. Dr. Wm. Wilson Dobson, president of the New Brunswick and Prince Edward Island Methodist Conference, and pastor of the First Methodist Church, Charlottetown, since 1904, died this afternoon at 2:30 o'clock, aged 74. The deceased clergyman was born at Beletique, P. E. I., and was ordained in 1870. He had been stationed at Sheffield, N. B., and Jacksonville, N. B., Portland, and Cranbury Church, St. John; Fredericton, Woodstock, N.B.; Bermuda, W. I.; Windsor, N. S.; Halifax, N. S. He represented the Methodist Church of Canada at the annual general conference which was held in California five years ago. His address on that occasion attracted widespread attention in the United States and in Canada. He was considered one of the ablest Methodist preachers in the conference, ranking high among the clergymen of Canada. The funeral will be held at Charlottetown.

Rev. Dr. Wilson last night said: "I was greatly distressed to hear tonight of the death of my much esteemed friend and brother, the Rev. Dr. Dobson. No words of mine can adequately express my appreciation of his qualities as a preacher, strong-minded, clear headed, of large gifts, a man whose eagle in the pulpit will be hard to find. As a man I rated him very highly, was very intimately acquainted with him, and feel in his removal I have lost a friend and the Methodist church one of her ablest sons."

REV. WILIAM DOBSON.

The late Rev. Mr. Dobson had many friends in St. John, who will hear with deep regret of his death. The deceased was a native of Beletique, P. E. I., and was the second son of William Dobson, who came from Yorkshire, England, in 1821. His mother was a Miss Moxley of Beletique. He entered the ministry of the Methodist Church in 1850, since which time he has filled some of the most important churches in this province. P. E. I., Nova Scotia, and Bermuda, among which were Centenary, Portland and Fredericton, Halifax, Digby and Charlottetown. He was elected to the chair of the Conference in 1906, and had accepted an invitation to the Wesley Memorial, Moncton, N. B., which was a Miss Moxley of Beletique, whose parents were of Loyalist stock, and came to Nova Scotia at the close of the Revolutionary War. He leaves three children, two sons and a daughter.

### A Splendid Tribute

Rev. James Crisp, president of the New Brunswick conference last night in the course of his sermon said that it was with surprise and regret that he learned of the death of Rev. Dr. Dobson, which took place about 4.30 p. m. "Truly man knoweth not what shall bring forth," Brother Dobson was a brother beloved. Having been acquainted with him for many years and following him in the office of president of the conference and having been with him in two general conferences and heard many of his public utterances one cannot but feel that he was kind and affable and possessed a mind of more than average calibre. His capacity of investigating difficult questions and stating his views in words carefully chosen. His gifts were of a high order and were combined with a high sense of the Divine sovereignty gives to him the power of power, to another of the wisdom and sometimes combines various talents that he may be glorified. His intellectual gifts were directed to the service of God and his chief delight was in expounding the truth in the pulpit. Truly a noted man among us has passed away. No man shall we see his tall and striking figure. Death hath claimed him. God hath taken him. He has gone to his reward."

### FAVORS COMPULSORY MEDICAL INSPECTION; TEACHERS' INSTITUTE CLOSED

NEWCASTLE, Oct. 28.—Teachers' Institute resumed yesterday morning with a talk on birds. Miss Victoria C. Wright of Chatham outlined her method of teaching Longfellow's poem.

During the morning Miss Agnes M. Alvord, Chatham; May E. Donovan, North Esk; E. M. Donovan, Hardwick, and Bertie L. Clarke, Derby, enrolled.

A paper on the Palmer System of Writing, by Sister O'Keefe of Chatham was read by Miss Walsh.

Dr. Baxter of Chatham in his paper advocated compulsory medical inspection. He gave the results of half a century's experience and thought on the subject. Consumption was due to germ-laden air and crowded rooms. Bad eyesight was produced by facing a strong light, and by overstrain while reading or studying at night. There should be few if any home lessons. School room walls should have no cornices, etc., to catch the dust. Pupils should have plenty of fresh air, light, exercise. To be healthy people must be clean, have pure air, pure food (more vegetable and less animal), pure cool water. They should avoid the man with medicine or medical appliances to advertise.

Dr. Baxter's paper was well received. T. B. Kiderer spoke strongly on the unsanitary condition and the bungled plans of many school houses. On the motion of H. H. Stuart and Principal R. D. Hanson, the following passed unanimously: Resolved, That in the opinion of this institute, it is desirable that the Board of Education enact a regulation making compulsory the medical inspection of all school buildings and pupils."

Major B. R. Armstrong of St. John

then addressed the institute on the question of Annuities. Regarding pensions, the following was adopted: His advice was that the institute approves of the principle of old age pensions now being considered by the government, and expresses the hope that the same will be crystallized into law at the next session of the legislature."

The following officers were chosen for the ensuing year: President, James McIntosh, Blackville (re-elected), president. Miss Helen MacLeod, Newcastle, vice-president.

Principal R. D. Hanson, Chatham, secretary. His advice was that the institute approves of the principle of old age pensions now being considered by the government, and expresses the hope that the same will be crystallized into law at the next session of the legislature."

## IMPORTANT SUBJECTS UNDER DISCUSSION AT TEACHERS' INSTITUTES IN NEWCASTLE AND RICHIBUCTO

NEWCASTLE, Oct. 25.—At the Teachers' Institute yesterday the following enrolled: Laura A. Mills, Glenelg; H. H. Stuart, Sable B. Hogan, S. M. Harriman, Mabel McGregor, Jessie B. Granley, Minnie Peolin, Leader Leighton, Mary Russell, Jennie S. Crammond, Annie Craig, Helen M. Leod, Ella Gray, Margaret J. Finwick, Mary Carmy, Annie E. Morrison, E. S. Steeves, John D. Kane, Newcastle town and parish; Annie M. Curran, Lettie M. Edmonds, Blisfield; May A. Ryan, Victoria, C. Wright, Nellie A. Keating, Laura S. Smith, Clara Cassidy, S. Raymond Weston, Elsie A. Edmonds, E. Jessie Powell, Stella T. M. Fisher, Muriel Ellis, Annie Hildebrand, Constance Anderson, R. D. Hanson, Chatham town and parish; Edith T. Wheeler, Edith M. Clarke, Margaret Flett, North Esk; Helen Flett, Lillie R. Bell, South Esk; Lizette M. McCarthy, Carrie M. Murdoch, A. Gertrude Gillis, Lotie E. Anderson, Brackley, Donald, Blackville parish; May L. Thompson, W. J. Kelly, A. Cella Fitzpatrick, Mary E. Campbell, Nelson parish; August G. Kelly, William W. Carruthers, Carrie Williston, Hildywick; Sphelia M. McKnight, Glenelg; Lenora A. R. McLean, Newcastle; S. Clara Walls, Lower Newcastle; Catherine J. McKnight, Mabel E. Chesnut, Ursula A. Flett, Laura M. Bryenton, Derby; May M. MacDonald, Chatham; Jas. Macintosh, Blackville.

Dr. Ingh, chief superintendent in charge of Charlottetown, read a paper on Pensions, saying in part: "New Zealand and Australia are, as regards legislation for the poor aged, much in advance of this country. The more conservative it is likely to become. In the Mother Country, because of ancient customs and vested rights, until quite late in early manhood he had displayed no feeling toward the church, but while Rev. Richard Smith was conducting revival services at Beletique young Dobson had been converted. His conversion marked an entire change in his life and he at once became an earnest worker in the church. He entered the ministry in 1850, and was known as one of the greatest preachers in the country. During his ministry in the early eighties Dr. Dobson had been in charge of Centenary for three years, which he voiced fearlessly. His style of speaking was logical, his manner of thought independent. His many friends in St. John would be grieved to hear of his death."

Dr. Sprague then referred to the loss of the Methodist church had sustained in the death of Dr. Dobson.

The first paper in the afternoon was that on The Systematic Study of History.

Principal James McIntosh, Blackville (re-elected), president. Miss Helen MacLeod, Newcastle, vice-president.

Principal R. D. Hanson, Chatham, secretary. His advice was that the institute approves of the principle of old age pensions now being considered by the government, and expresses the hope that the same will be crystallized into law at the next session of the legislature."

### SCHOOLS FOR CONSULTS

This combination of a model consulate and school for consults has been established in the State Department at Washington. The idea is to give every appointee to the service what sort of an office a representative of the United States should maintain.

Hetherington, Miss M. Cault McInerney, Miss Lovrie Mitchell. In the morning session the president read his address to the institute, and W. H. McLean, principal of the Harcourt Superior School, read a paper on Manual Training. A somewhat important discussion followed, participated in by L. R. Hetherington, O. E. Pearson, C. M. McCann, J. A. Edwards, Miss McInerney, Miss Chrystal and Miss Ferguson.

In the afternoon session a paper prepared by H. H. Stuart on Pensions was read by C. M. McCann, and R. B. Armstrong presented the pension scheme of the Annuity Company of Canada. Important modifications have been made in this plan as originally reported. The plan now advocated is to pay a pension of \$300 a year to all teachers reaching 60 years of age who have been actively engaged in teaching. The teachers have to make no contribution. It has been discovered that the number of teachers of the age of 60 is not nearly so great as was first anticipated. The Board of Education has no statistics on this point, and it was originally guesstwork, but the company's representatives, have with the aid of the latter, in possession of the names, phrens and pieces of deceased. One thousand dollars is left to each of the following religious denominations: Trustees of a Reformed Presbyterian Church, St. John; trustees of Reformed Presbyterian Church, Barnesville, Kings county; trustees of Baptist Church, Upper Jemseg; trustees of the Baptist Church, Gagetown, making \$4,000 in all. The residue of the estate is given to the N. B. Auxiliary Bible Society. The executors are Chas. H. Gunter, Gagetown; Jos. R. Dykeman, Cambridge parish; and Robert Ewing of St. John. Messrs. Barnhill, Ewing and Sanford, barristers, St. John, are the probators.

Rev. Horace E. Dibblee, for the past 15 years rector of Oromocto, leaves with his family tomorrow morning for Charlottetown, where he has accepted a lucrative parish. Mr. Dibblee preached farewell sermons today at both Moncton and Oromocto, and at the conclusion of the service at the former the retiring rector was presented with a handsome gold watch by the parishioners. The evening congregation presented a well filled purse some days ago.

HOPEWELL HILL, Oct. 24.—A reception in honor of Mrs. A. O. Copp and her daughter, Miss Anne Copp, of Riverview, who leave shortly for the west, was held at the residence of Captain H. A. Turner last evening. Some thirty guests were present and the evening's entertainment consisted of a pleasant time spent in music and games. Both Mrs. and Miss Copp have hosts of friends in Riverview and the neighboring villages, who will regret their departure, and extend best wishes for their future prosperity. Both ladies here had a prominent place in the life of the community, and will be greatly missed in their absence. They intend leaving on Wednesday next for Vancouver, B. C., where Mrs. Copp's husband, Captain A. O. Copp, is now located.

Word has been received from Rev. Mr. Worcester, pastor of the Baptist Church, who went to Boston to consult a specialist, that the reverend gentleman was found to be suffering from chronic appendicitis, and will require a surgical operation, being now in a fair way of recovery.

The thirteen-year-old daughter of Mr. and Mrs. Jonathan Robinson, of Riverview, has departed on Tuesday afternoon for Kingston, Jamaica, as a specialist, that the reverend gentleman was found to be suffering from chronic appendicitis, and will require a surgical operation, being now in a fair way of recovery.

The funeral of the late Levi Woodworth of Chemical Road, took place this afternoon, and was largely attended. Rev. Thomas Hicks, of Albert, N. B., officiated, and the Rev. H. H. Gregory, who is in very poor health at his home there. They will be absent the greater part of the winter.

W. D. Dickinson, manager of the Royal Bank of Canada at Woodstock, is spending his vacation here, the guest of his sister, Mrs. A. Jardine. Valentine De Ollong is on a visit to his home here. Miss Nan Hutchinson, who spent the summer here, the guest of her sister, Mrs. J. L. Hutchinson, left Friday on her return to Boston. Madame Yillies Harrison will sing in the Temperance Hall, Richibucto, Monday night.

Miss Nellie Ferguson of Richibucto returned Saturday from a visit to Boston and New York. A meeting of the Kent County Teachers' Institute is being held in the Richibucto grammar school yesterday and today. Our teachers are attending it.

John Stevens Appointed as Assistant to Professor Perrott at a Salary of \$1,000 a Year

FREDERICTON, Oct. 27.—The annual meeting of the University was held yesterday. The registrar's report showed that expenditures for the year amounted to \$17,000 and there was a surplus over the income of over \$600. Owing to the increased number of students in the engineering department, it was decided to engage an assistant to Professor Perrott for the coming year at a salary of \$1,000. Mr. John Stevens of Trinity College, Dublin, was appointed to the position and he is expected here within the next fortnight. Registrar Coy and J. H. Barry were appointed a committee to administer and look after the property donated to the university by the Fisher estate. It was nearly 2 o'clock before the meeting adjourned. In the afternoon the usual conference between the senate and faculty was held. The time was taken up mostly in hearing the reports of the professors which were of a most encouraging character for the coming year.

This was Harvest Sunday in the Episcopal churches. The edifies were beautifully trimmed and the sermons were appropriate to the occasion. At the Cathedral, Sub-Dean Street, this morning referred in feeling terms to the death of Mrs. Fraser, who died in St. John last week. The funeral of the late Mrs. Moore took place at Scotch Settlement today and was largely attended by people from the vicinity turning out in large numbers.

At the George street Baptist church this evening Rev. Mr. Rideout baptized two candidates into the church. St. Paul's Presbyterian church held its semi-annual communion service this morning, which was very largely attended.

## CHINESE COMING DESPITE THE FEE

During Last Nine Months 712 Have Arrived, Paying Nearly \$400,000

OTTAWA, Oct. 27.—The high wages and good opportunities in Canada are beginning to attract a steadily increasing number of Chinese. They are coming into Canada again. When the tax was a hundred dollars the rate of two and a half to five thousand a year. When the rate was put up to five hundred dollars two years ago only eight came. During the year all last year only 22 came. However, during the first nine months of the present year 712 Chinese have come in and paid \$281,000 for the privilege. It is expected that by the end of the year the amount will pass the half million mark.

The government has issued a proclamation bringing into force the law forbidding the sale of liquor in the vicinity of public works. The sale of liquor is forbidden within ten miles of the line of the national transcontinental railway, from the Quebec bridge to a point six miles west of Grand Falls and from six miles east of Grand Falls to the limits of Moncton. R. H. Haggan, appointed Canadian commercial agent in the place of G. E. Burke, who died a few weeks ago. Mr. Haggan is a Jamaican merchant and is largely interested in Canadian trade.

## WOMAN BURNED TO DEATH IN PRAIRIE FIRE

VERMILION, Alta., Oct. 27.—Mrs. Ed. Farrell of Campbell Lake district, was burned to death in a prairie fire Friday night.

SWIFT CURRENT, Oct. 27.—The prairie fire which raged northwest of here Friday did great damage to the cattle ranches. Several homesteads also lost their winter's supply of hay.

The mission which was held in the Catholic Church here this week was very largely attended. The eloquent sermons, which were preached by Rev. Fr. Maurice, of the Capuchin or Franciscan order, were most beneficial and greatly appreciated by the congregation.

Miss Kate O'Donnell of Richibucto is seriously ill with typhoid fever. Alexander Thompson, post office inspector of St. John, was in town this week. Mrs. A. McGregor and Miss Annie Palmer returned Monday from a visit to Beletique. Most homesteads also lost their winter's supply of hay.

PORTLAND ANTICIPATES  
A BUSY WINTER

BOSTON, Mass., Oct. 29.—The foreign export trade of Boston and Portland, the leading deep-water ports of New England, is expected to show a gradual increase in the next few months, as a large amount of western produce passes through this territory on its way to Europe each fall and winter. The grain traffic to this port has been handicapped during the past year or two, but as wheat is now in great demand abroad, due to short crops, increased shipments are anticipated. The demand for other commodities is also brisk and large shipments of corn and flour are on their way here.

My head would feel heavy and dizzy, and many a time I got so blind I just had to drop down or else I would have fallen.

FARMERS' INSTITUTE

KINGSTON, N. B., Oct. 28.—A public meeting in the interest of farming was held in the public hall here on Saturday evening under the auspices of the Farmers' Institute of this place. Leonard Crawford, president, occupied the chair, and made a few introductory remarks. F. E. Sharp of Midland, N. B., was the first speaker to be introduced. He spoke at some length upon the improvement of farm crops by careful selection of seed. J. Standish, V.S., of Walkerton, Ont., followed Mr. Sharp and spoke for over an hour on the Breeding and Training of Horses. His address was much appreciated and certainly very profitable. The speakers have gone to Long Reach, where they are to speak this evening.

DECLARES P. E. I. ACT IS  
ENTIRELY SATISFACTORY

G. W. Patriarch Flemington in His Address at the Annual Meeting of the Grand Division, S. of T., Made a Strong Argument in Its Favor—Also Said Temperance People Were Ready for Battle if It Came in Westmorland—Election of Officers—Reports.

The sixtieth annual session of the Grand Division, Sons of Temperance of New Brunswick, met in Temperance Hall in the Market Building last night. Reports from the various officers, showing the work to be in a healthy condition, were received and referred to the respective committees and officers were elected for the coming year.

G. W. Patriarch's Report  
Grand Worthy Patriarch Flemington said: "There can be no doubt that the cause of total abstinence and prohibition is making great if not rapid progress throughout the world. In the older countries there is a marked decrease in the consumption of intoxicating drinks, and this is accom-

panied by a decided growth of public opinion in favor of temperance legislation. Total abstinence societies of every name report progress along the line, and there never was a time when the churches were more outspoken and energetic in their advocacy and furtherance of temperance principles than they are today. This, together with the fact that in both week day and Sunday schools special attention is being given to the subject, should convince us that the future is with us.

HOPEWELL HILL, N. B., Oct. 28.—Albert county has never been considered an ideal field for searchers after game, but the results this season so far have shown that a considerable number of the antlered monarchs have had tramping grounds on the Albert hills, particularly in Hillsboro, Elgin and Alma parishes. Since the beginning of the open season ten moose have been killed in the county so far as heard. The first one of the season was secured in New Ireland by Zeno Graves, an action, however, being taken in the parish of Tracy Lake, and another was shot on the Morrissey road. Four animals were killed in the vicinity of Sabon, and another at Longville, Green. Back of the Albert Mines the Turner boys of Baltimore, secured two big moose, which were shot while they were resting after a terrible battle on the Shepody marshes, but they were taken and bushes torn from the ground. Several deer have also been shot. Partridge are plentiful. Great quantities of plover are reported on the Shepody marshes, but very few have been taken. The question of fowling the Shepody marsh was deliberated upon at a meeting of the proprietors held here on Saturday evening, but it is understood that the owners of the Salsbury and Harvey railways, who are rated as proprietors, as their road crosses the marsh, and possibly a few others, are opposed to the fowling, the railway people opposing it on the ground that the tide would be disastrous to their bridges and the abutments over which the track crosses. It was decided at the meeting that action be taken to endeavor to obtain an amendment of the marsh laws, so that a certain number of proprietors could do the work, without a unanimous vote being necessary.

Back of the Albert Mines the Turner boys of Baltimore, secured two big moose, which were shot while they were resting after a terrible battle on the Shepody marshes, but they were taken and bushes torn from the ground. Several deer have also been shot. Partridge are plentiful. Great quantities of plover are reported on the Shepody marshes, but very few have been taken. The question of fowling the Shepody marsh was deliberated upon at a meeting of the proprietors held here on Saturday evening, but it is understood that the owners of the Salsbury and Harvey railways, who are rated as proprietors, as their road crosses the marsh, and possibly a few others, are opposed to the fowling, the railway people opposing it on the ground that the tide would be disastrous to their bridges and the abutments over which the track crosses. It was decided at the meeting that action be taken to endeavor to obtain an amendment of the marsh laws, so that a certain number of proprietors could do the work, without a unanimous vote being necessary.

Grand Scribe's Report  
Rev. C. W. Hamilton, grand scribe, said that his report was brief, owing to the illness of his wife. During the year 18 deaths had taken place among the members of the order. He had received 25 division reports for the quarter ending June 30th and 30 for the quarter ending 30th September. During the last six months 335 members had been initiated; 13 admitted by card, and 9 reinstated; 78 had withdrawn, 110 were suspended, and 5 expelled for violation of pledge. This made a net gain of 210. The gain for the previous six months was 19, making a total for the year of 330. He referred to the expenditure for propagation work and said that the

treasury should have been used for the same purpose. The Grand Scribe's financial statement showed receipts as follows: From semi-annual session, \$115; and exhibition tax, \$254.88; sale of supplies, \$30.19; propagation work during May and June, \$24.38; total, \$434.90. He paid out \$206.35, and transferred \$128 to the Grand Treasurer, leaving a balance of \$128.55. The financial report of the Grand Worthy Patriarch, Rev. Chas. Flemington, showed receipts of \$115, and expenditures of \$58.69, leaving a balance of \$56.40. T. H. Lawson, Grand Treasurer, reported a balance on hand at May of \$182.24; receipts, \$236.25; expenditures, \$31.01; balance, \$197.48. Chas. S. Hamilton, District Worthy Patriarch, of St. John County, reported an increase of 67 during last year. Six divisions were in working order, and a Band of 64 Crusaders is also at work. A company of Cadets of Temperance has been formed in West St. John.

The resolution that a grand lecturer be appointed was referred to propagation committee. The next semi-annual session will be held in Sackville in May. The session was adjourned until 2 o'clock this afternoon. The morning will be devoted to committee work.

KIDNEY DISEASE FOR TWENTY YEARS.  
Mrs. Caswell Reid, Orville, Muskoka, Ont., writes: "For twenty years I was troubled with kidney disease and have recently been completely cured by giving three boxes of Dr. Chase's Kidney-Liver Pills. I had tried many remedies, but nothing seemed to do me much good until I used this splendid family medicine."

GOUIN GETS LETTER  
FROM DE JARDIN

QUEBEC, Oct. 28.—In reply to a letter sent Oct. 16th, the prime minister, Hon. Lomer Gouin, has received this morning the following sensational cablegram, which needs no comment: Received at Quebec, Oct. 28th, 1907, 10 p. m., from Albert Gouin, Hon. Lomer Gouin, Prime Minister, Quebec:

Having read in the Montreal Star of the 24th anniversary report of the speech made by Mr. Ladamme, I am anxious to protest against the accusations which it contains, and to declare energetically that in the course of my negotiations with you, the Hon. Adjeard Turgeon, the only minister with whom I have been in connection on the Abitibi matter, there has never been any mention whatsoever of an electoral subscription or fund or anything like it. There has never been the least allusion to it.

(Signed) FERNAND DEJARDIN  
The Premier's letter to Mr. DeJardin written on Oct. 18, was as follows: Dear Mr. DeJardin—you are aware, no doubt, of the slanderous campaign which has been going on since the Baron De Lepine gave his evidence in the Provost-Asselin case. I therefore, go straight to the point without other preamble. Until within the last few days our political adversaries had not dared to accuse me personally. But, as you can observe by the report of the newspapers herewith enclosed, it is now pretended that I discussed with you the payment of an electoral subscription. Such an accusation is naturally prejudicial and I cannot content myself by treating it with contempt. This is why I write to request you to read the report in question and to state if ever at the Place Viger Hotel, in Montreal, or elsewhere, an electoral subscription or anything of that nature, was in question between you and me. I regard you, dear Mr. DeJardin, as a man of honor, and this is why I put this question to you in all confidence, being convinced that you will give me a categorical reply that will leave room neither for ambiguity, nor for equivocation. I shall be very much obliged to you if you will cable me immediately and at my expense, your reply, no matter how long it may be and to confirm it by letter.

# SPRINGHILL MINES SUFFERED MUCH DAMAGE DURING THE LONG STRIKE

SPRINGHILL, N. S., Oct. 27.—Hiram Donkin, deputy commissioner of mines, and Neil A. Nicholson, inspector of mines at the Nova Scotia Steel and Coal Co., were in Springhill Saturday in regard to the inspection of the mine. The inspection of the mine was completed by Monday afternoon. The deputy commissioner states that the government had ordered the inspection to be made so as to have complete knowledge of the condition of the mine. The mines had suffered considerable damage since the strike began. No. 3 mine had fallen in badly. In No. 2 mine the back sections of 2 1/2 and 3,000 levels, and the condition was now such that it would not be long before the damage would be much worse. The better condition, and the company has succeeded admirably in keeping the mines comparatively free from water. The deputy commissioner was not in a position to state what action the government contemplated in regard to mines, neither did he know whether inspection had been made as the suggestion of Engineer Cowans. Mr. Donkin stated that Premier Murray instructed him to inquire into the strike situation and if there was any possible way by which anything could be done that the Premier would be more than willing to endeavor to accomplish it.

The deputy commissioner said that he did not see anything in the dispute that need involve the prolonging of the strike. He stated that if the men had adhered to the strike after the conference in Halifax and had then returned to work nothing would have been lost to them, so far as the decision of the court was concerned. His own view of the matter was that the decision did not apply to outside of Nos. 25 and 9 chutes and the attorney-general's view was that he had done successfully and had in fact, already been done in New York by one of the largest newspapers in that city.

According to a careful computation of experts, there are more than 40,000 men in London who are at Christmas time whatever.

# A WOULD-BE ROYAL KIDNAPPER

The King of Saxony with his family.

The news that the Indian Government is so confident of the success of the gyroscopic train, has directed the attention of authorities of most of the colonies to the possibilities of the gyroscopic train. It is reported that the world have lately visited Mr. Brennan and inspected the model railway which runs round the ground of his Kentish home.

A party of the representatives of African railway companies and the Trade Commissioners from the Cape watched the trial, and saw a full grown man whirled safely to and from in a tiny gyroscopic train, but the carriage balanced on a rail never once lost its stability for a moment, even when running at express speed.

The Countess of Stratford, one of the noblest ladies in the kingdom, is going to co-operate with Lady Henry Somerset towards providing Christmas gifts for the children of the poor. On Monday of last week, the Countess of Stratford said: "The distribution of gifts to such a large number of children will be a successful affair, but it can be done successfully and has in fact, already been done in New York by one of the largest newspapers in that city."

According to a careful computation of experts, there are more than 40,000 men in London who are at Christmas time whatever.

# PROVINCIAL NEWS.

CHARLOTTE, N. C., Oct. 18.—John  
Charles, 60 years old, and rector,  
died yesterday at his home in Scotland  
County, aged 33 years. He was a gradu-  
ate of Wakeforest College and for  
some time had been professor of Eng-  
lish in Mercer University at Macon,  
Georgia.

NEW YORK, Oct. 18.—James W.  
Westcott, one of the most successful  
gamblers in America and brother of  
Mrs. Katherine Tingley, head of the  
Theosophical Organization, is dead at  
his home here. Westcott, who was  
Richard Canfield's most formidable rival  
at Saratoga, was stricken with  
pneumonia and Bright's disease on  
Oct. 10. He left a fortune valued  
at nearly \$500,000.

MONCTON, N. B., Oct. 18.—More  
complications are likely to arise, over  
the secret a few days ago of Ex-Con-  
sable Blair Leblanc. He was taken into  
custody by Police Officer Hanson  
and McDermott. The instance of Con-  
sable Stevenson, who had a capias for  
Leblanc, the latter resisting. Leblanc  
has announced he is going to sue the  
officers who seized him. There was no  
aidout as keeper of the lockup. Now  
Stevenson says he will sue the Chief  
of Police for allowing Leblanc to go af-  
ter being placed in jail. There was no  
charge laid against Leblanc at the  
time of his arrest and the Chief gave  
him freedom a few hours after he was  
placed in jail.

SYDNEY, N. S. W., Oct. 18.—Des-  
patches from Newcastle state that a  
serious "creep" has occurred in the old  
mine workings under the residential  
quarter of that city. Buildings on an  
area of 15 acres are affected, and the  
damage so far is estimated at half a  
million dollars. There have been no  
casualties.

WOODSTOCK, Oct. 17.—A meeting  
of business men was held in the Town  
Council chamber last evening to dis-  
cuss the local telephone situation. J.  
C. Henty occupied the chair, and  
A. D. Holyoke presided.  
Those present included His Worship  
Mayor Munro, Ald. W. B. Sutton, E. W.  
Denison, A. B. H. Frank Atherton,  
Herbert Atherton, E. K. Connell,  
J. Douglas Carey, George W. Upham,  
Arthur L. Burpee, W. F. Gilden, John  
H. Thompson, H. N. Payson, Frank O.  
Anns, R. E. Holyoke, Thomas Pe-  
ter, Ben. Griffiths, Fred Davidson, Wm.  
Balmalin, J. Rankin Brown, John A.  
Windsor, A. B. H. Frank Atherton, T. Ste-  
venson, Arthur Stevens, George Syll,  
H. V. Dalling, Samuel Parsons, J. H.  
Harvey, H. G. Noble, H. A. Seeley, J. A.  
Doak, I. E. Sheagren.  
The chairman said he had been ap-  
proached by many citizens who were  
of the opinion that instead of a pri-  
vate company immediately coming  
into existence to compete with the N.  
B. concern, it would be better to have  
a plebiscite taken to ascertain whether  
the citizens are not in favor of in-  
stalling a municipal exchange. He  
suggested the holding of such a vote  
in connection with the town election in  
January.

A. D. Holyoke, for the committee on  
the sale of stock, reported progress  
and asked further time. He said the  
citizens were practically unanimous  
in supporting the proposal, and when  
the stock is placed on the market there  
will be no difficulty in selling it.

Mayor Munro, in addressing the  
meeting, expressed himself in favor of  
a municipal plan. He cited the case  
of Port Arthur, where a municipal  
telephone system drove the Bell Com-  
pany from the field. In his opinion  
the proper way to deal with the ques-  
tion generally is with independent  
companies. He doubted if much low-  
er rates can be obtained, but stands  
ready to take stock if a private com-  
pany be started, or if the system is  
to be owned by the town, will give it  
his hearty support.

J. D. Carey feared the loss of long  
distance connections in the event of  
the citizens abandoning the N. B. com-  
pany. R. E. Holyoke said he thought  
it no use to apply to the legislature  
for relief, as many of the chief mem-  
bers on both sides are interested in  
the monopoly as stockholders. H. V.

When he was not seen during the re-

quainted with the woods. When he did not  
return in the evening in time to catch  
the high up near the cliff and an attempt  
was made to send a line ashore by ty-  
ing a flag to it and letting the wind  
carry the flag and line. This failed so  
the bucket and line was used. The line  
was made fast to John A. Robertson,  
who came to their assistance and the  
captain and crew got safely ashore after  
a thrilling experience. The cook the

HALIFAX, N. S., Oct. 24.—At the  
Conservative convention held at West-  
ville today to nominate a candidate for  
Pictou County for the next federal  
election the expected happened, when  
A. Bell, ex-M. P., was elected to stand  
aside in favor of Sir Hibbert Tupper  
by vote of 20 to 98. It remains to be  
seen, however, if Sir Hibbert will con-  
tinue to stand in the breach. The Lib-  
eral party are splendidly organized, and  
not worrying. They believe that Sir Hib-  
bert, who lives and says he will con-  
tinue to live in British Columbia, is not  
the Sir Hibbert of old, or he would not  
need to give the Pacific province.  
Mr. Bell, it is said, fully expected to  
get the party nomination. When Sir  
Hibbert deserted the county and ran  
away to British Columbia, Mr. Bell  
was left to be elected. Mr. Bell remained  
to bear the brunt of a losing fight.  
This is the second time that Mr. Bell  
has been sacrificed for Tupper. When  
Martino was looking for a seat for  
Charles Hibbert on the latter's intro-  
duction to public life, he went to Pic-  
ton, then took refuge, conservative, Mr.  
Bell was the logical candidate of his  
party, but at the instance of the elder  
Tupper he was set aside and the berth  
was given to young Tupper. Again he  
has met the same fate. He accepted  
the nomination at the convention, but  
it is unlikely that he and his friends  
will be enthusiastic over the reap-  
pearance of the man who twice snuffed out  
his political life.

FREDERICTON, N. B., Oct. 24.—At  
St. Anthony's Church this evening a  
most interesting service took place,  
when the new bell was blessed. Bishop  
Casey conducted the service and was  
assisted by Revs. Fathers Carney, Le-  
Blanc, McGill and Hamilton. Bishop  
Casey preached an eloquent sermon.  
He congratulated the congregation on  
their energy and zeal, and spoke at  
some length on the doctrine of the Cath-  
olic Church, and exhorted them to  
live in such a manner  
as to reflect credit upon their  
religion. After the sermon the  
benediction of the blessed sacrament  
was given. His lordship then an-  
nounced that he would give the bell a  
ring, which was accordingly done, each  
member of the congregation following.  
The marriage took place at the Bas-  
tard Church, Kingsclear, this morning,  
of George Kilburn, lumber scaler for  
John Kilburn, and Miss Pearl Long,  
daughter of Benjamin Long. Rev. Mr.  
Westmore tied the nuptial knot in the  
presence of some sixty guests. The  
newly married pair left for Quebec on  
their honeymoon.

morning. Well's coal special ran off  
the track about a hundred yards west  
of Westchester and fifteen cars were  
derailed. None of the train hands was  
injured, but some of the cars were  
badly broken up. The roadbed was  
badly torn up and traffic will be block-

**MAINE MAN SHOT  
AND INSTANTLY KILLED**  
MILLINOCKET, Me., Oct. 27.—At 5.30  
o'clock on Sunday afternoon, Angus  
Graham, formerly of Bangor, was shot  
through the head and instantly killed  
in the door-yard of Fred Peluso's place  
in the settlement known as "Little  
Italy," in Millinocket. The murderer,  
an unidentified Italian, escaped.  
As nearly as the authorities can as-  
ertain, Grant, accompanied by three  
men—Charles McKenzie and Ronald  
McDonald, two fellow-laborers and an  
unknown Italian, who subsequently  
fled, hastily assembled in the barroom  
of Peluso's boarding house, and de-  
manded drinks. The Italian volunteered  
to get beer elsewhere.  
"Go and bring me a gallon," Grant is  
alleged to have replied, "and I'll pay  
you anything in reason for it."  
A bargain was struck and the Italian,  
followed by Grant, McKenzie and Mc-  
Donald, hastily ascended the stairs and  
opened up doors. He had moved only  
a few steps from the doorway when he  
turned angrily.  
"What are you following me for?" he  
cried, "I don't want you hanging around."  
Exactly what followed, the authori-  
ties have not yet been able to dis-  
entangle from the disconnected stories  
of the event. Grant and the Italian  
quarrelled. Then before any one  
could prevent it, the latter whipped  
out a revolver and fired one fatal  
shot. It struck Grant in the left  
breast, and he fell through the door-  
way, and came out at the back of the  
skull. He fell dead and the murderer,  
with one frightened glance around,  
darted into the nearby woods and dis-  
appeared. Deputy Sheriff Gates and  
other officers are now in search of the  
fugitive.  
The men who were drinking with him  
Sunday afternoon profess not to know  
his name or anything about him.  
Grant came to Bangor about a year  
ago from New Hampshire, renting a  
house at 20 Pleasant street and work-  
ing with a section crew on the main  
Central. Late in July he moved with  
his family to Millinocket, where he ob-  
tained employment with the Great  
Northern Paper Company. He was  
about forty years old and is survived  
by a wife and one child, two sisters  
somewhere in Massachusetts and his  
father, who resides in Yarmouth. He  
was known as a temperate and peace-  
able man.
