

The Ware That
Lasts a Generation

You can cook the most easily scorched food in

with less fear of burning than in any other kind, because aluminum is a better distributor of heat and retains it longer. This means a saving in fuel. And it means a saving in wear-and-tear expense, too.

"Wear-Ever" utensils are light to handle and easy to clean. They cannot form poisonous compounds with fruit acids or foods.

"Wear-Ever" utensils are made from thick, hard sheet aluminum, 99% pure, without joint, seam or solder. You can let food burn dry without injuring them. Cannot rust—cannot chip or scale—are practically indestructible.

Replace utensils that wear out
with utensils that "Wear-Ever"

T. P. CALKIN & Co.
HARDWARE and PLUMBING

KENTVILLE
Mrs. Roy Calkin...
Thursday afternoon, Oct. 31, 1917,
home of Mrs. T. P. Calkin.

Mrs. W. B. Jordan went to...
last week and spent a few days with
her daughter. She returned on Saturday
and her daughter, Mrs. Corbett and
son Bligh Corbett came to Kentville to
see her.

Mrs. A. A. Thompson and Miss M. M.
licent Chase returned on Saturday from
Halifax. Miss Chase was appointed one
of the officers in the convention held
at Fort Massey Church.

Mrs. C. O. Allen of Halifax spent
Saturday to Monday in Kentville.

Mrs. William Young returned from
Halifax on Saturday. She had accom-
panied her son Bert who had been called
to report again for naval duties. Lieut.
Col. R. Innes on his return reports that
her son George's injuries are such that
he will likely be sent home for a time.

Major and Mrs. Brennan have left
Aldershot and returned to Halifax.

Miss Hattie Ogden of Bedford was a
guest of Mrs. Joseph Murphy last week.

Major and Mrs. F. L. Stephens have
returned to Bedford from Aldershot.

Harvest Thanksgiving Services Meth-
odist Church, Canning, Oct. 7th, 1917.

Special Display of Flowers, Fruit,
Vegetables and Grain.

Special Music.

"Come, ye thankful people, come,
Raise the Song of Harvest—Home."

The morning and evening train ser-
vice between Amapolis and Kentville
has been discontinued and starting yester-
day these trains will only run be-
tween Kentville and Halifax.

Mrs. F. J. Kite and family left on
Saturday for Bedford where they will
reside. She has been living here two
years since Mr. Kite enlisted and
now she will be near him. Mr. Kite
came from Halifax last week to move his
family.

Mr. George Milledge Salter, junior
member of the law firm of Roscoe, Ros-
coe and Salter, has been gazetted a notary
public.

Under the auspices of the W. C. T. U.
Rev. F. Feigens will lecture in the
Methodist Church, Canning, on his
personal experience in the Slums of
London—Silver offering to be entirely
devoted to the furnishing fund of the
Girl's Home, Truro.

Coffee Sherbets, Nougatines, Mar-
aschino, Cherries Stuffed Dates,
Coffee Cordial, Chips, Ginger Roman
Nougat, maple Walnut inside,
Sherbert Vanilla,
Turkish Delight, Pineapple Frit-
ters, Milk Carnells, Molasses,
Cocoanut, Chocolate and Tango
Kisses at 30 cents pound.

WEAVER'S

Mr Bert Grierson of Halifax spent a few
days home last week visiting his moth-
er before she left for Massachusetts.

The missionary society will meet in
St. Paul's S. S. room Friday afternoon
at 3 p.m. The word in response to evil
call is—Harvest. A report will be given
of the annual meeting of the W. F.
M. S. which met in Halifax last week.

The Red Cross Society this year have
made arrangements to give people a
chance to send parcels that will be de-
livered Xmas morning to our boys in
France. Anyone wishing to send must
have their parcels at the Red Cross
Rooms by Oct. 6th. Kentville has been
asked to remember especially the boys
of the 85th Highlanders but any parcel
for friends of other Battalions will be
forwarded through the Red Cross, free
The Xmas Stockings for our wounded
and sick soldiers in hospital are being
sent forward this week.

Miss Laura Yould who has spent the
past year in London with her sister Mrs.
Regan arrived home on Saturday night.
Her father Mr. James Yould met her at
Montreal and her mother at Truro. She
assisted considerably while away in
work at an Imperial Hospital and saw
much of the terrible work done by Hun
shells and rifle fire.

Mr. and Mrs. Lawrence Baird arrived
from New Glasgow on Saturday and
will spend a fortnight vacation in town.
Mrs. Baird is much better than when
she left here.

INJURY TO CARROTS BY THE RUST FLY MAGGOT

Many have experienced trouble during the past summer from the ravages of the rust fly to their carrots. Early in the season the young plants assumed reddish rusty appearance and, on examination the roots will be found to be blotched with rusty patches, especially towards the tips. Further examination will reveal the presence of small yellowish maggots burrowing in the roots.

Not only are the growing plants attacked but the maggot frequently continues its work in the stored roots, thus causing further damage. Besides the carrot, celery and parsnips also suffer.

Late planted carrots are most likely to escape serious injury and rotting of crops is beneficial. Sand, land plaster or ashes, impregnated with kerosene at the rate of 3 gals. of the diuterol to 1 pint of the kerosene, has been found to be of some value. Applications should be made three or four times at intervals of one week after the roots begin to form and especially after the carrots have been thinned.

A carefully study is to be made of this insect in order to discover, if possible, improved methods of control. To secure material for this purpose, the undersigned will be pleased to receive carrots infested with the maggots in lots of one half bushel or more, upon which shipping charges will be paid.

—W. H. Brittain, Provincial Entomologist, Truro, N. S.

Many Men Reach and Retain New Standard of Health in Camp and Field

Ottawa Sept. 28.—That the average healthy man grows quickly to enjoy military camp life has been proved up to the hilt since Canada entered the war. The outdoor exercises afford scope for much athletic enjoyment, so that many men become and remain more healthy after entering the army than they have ever been before.

Soldiers must be healthy, and one of the aims of military training pending service at the front is to bring the men up to the highest stage of physical efficiency. All their accommodations are designed to be most sanitary and healthful and they are constantly encouraged to take part in physical exercises.

LLOYD GEORGE PAID VISIT TO THE FRONT

London, September 27.—Premier Lloyd George, accompanied by General William R. Robertson, chief of the Imperial Staff, left London for France on Monday night, according to official announcement. He had a conference with M. Painleve the French Premier, on Tuesday, and afterwards visited Field Marshal Sir Douglas Haig at British Headquarters in France. He returned to London last night.

TIEN-TSIN RENDERS MILLION HOMELESS

Peking, Tuesday, Sept. 25.—(Delayed) The City of Tien-Tsin is threatened with destruction by flood. The Chinese City and portions of all the foreign concessions are under water, which is rising rapidly and which covers the great plain to the southeast of Peking. It is estimated that one million Chinese are homeless.

The railway embankment between Tien-Tsin and Nanking has been cut to permit the escape of the water. The Hoang-Hoover flow has spread to the northward and has broken the grand canal at many places.

The mud walls protecting Tien-Tsin are being strengthened under foreign supervision, but all the streams in Chi-Li Province are feeding the flood seeking the sea, making the situation desperate.

GENERAL MAURICE TALKS OF SITUATION IN FLANDERS

LONDON, Sept. 27.—On his return from a visit to the Italian front, Major-Gen. F. B. Maurice, Chief Director of Military Operations at the War Office today discussed the situation in Flanders with the Associated Press. "During the past month there has been a long pause, thanks to the rain and mud in Flanders," he said.

"The pause made necessary more ample preparations than ordinarily after a first advance — preparations equivalent to launching an entirely new battle. But the result amply justified the preparations and while on previous occasions we won our objectives only after protracted fighting, we yesterday were in possession of the whole of our objectives before eight a. m. The fighting yesterday was in the most vital area, the nexus of the ridge system dominating the plain of Flanders and the key to the whole series of ridges. There is a good deal more to be said about this battle than what we gained."

Officers who have been with the British army from the beginning all agree that since the first battle of Ypres there has never been a slaughter of the Germans comparable to that which occurred in the repulsed counter-attacks of the last few days. The German counter-attacks in masses and dozens of these counter-attacks were kept away by our fire with terrible German losses.

"Why couldn't Eve 'ave the measles, old boundah?" "Cawn't say that, P'know. Why?" "Because she 'ad Adam, old fellow."

FOR RENTAL—Good Office Room in Advertiser Brick Block, Main Street. Hot water heating for winter and electric lights. Possession at once. J. G. Harris. Kentville.

Planes Bomb Stations

London, Sept. 26th.—British seaplanes again dropped many tons of bombs on German military establishments in Belgium on Tuesday night.

The official statement issued today by the Admiralty says:— On Tuesday night our naval airplanes dropped many tons of bombs, making several direct hits, on the railway lines at the Thourout Junction, the Lichtervelde Junction and the Cotemarch Junction. All our machines returned safely.

Nova Scotia Apples For The West

Ottawa, September 27th.—Nova Scotia apples are already on their way to markets in Central and Western Canada under the direction of officers appointed by the Food Controller. The fruit and vegetables committee of the Food Controller's office has secured the services of H. H. Schafer, one of the most experienced freight traffic men in the Maritime Provinces, to assist in this movement. Mr. Schafer will make his headquarters at Kentville, N. S., and will work in co-operation with G. E. McIntosh, traffic officer of the Dominion Fruit Commissioners' office who will leave this week for the east with George Spencer, chief operating officer of the Dominion Railway Committee.

German Attacks Repulsed With Heavy Losses

London, Sept. 28th.—Another German counter-attack was made last night against the new British positions near Zonnebeke. The attack was broken up by the British, the war office announces. The statement follows:

Yesterday evening another counter-attack by the Germans against our positions in Zonnebeke was broken up by our rifle and machine gun fire and artillery. South of Tower Hamlets and south of Polygon wood isolated strong positions in which parties of the enemy were holding out close to our new positions, have been cleared up.

We killed or captured several Germans without loss to ourselves in carrying out a successful raid last night southwest of Cherisy.

The enemy's artillery showed considerable activity during the night south of Lens.

The artillery on both sides has been active on the battlefield. Paris, Sept. 28th.—The Germans made an attack last night in the Argonne region. To-day's official statement says they were repulsed three times, suffering heavy losses.

London, Sept. 28th.—An official communication issued by the admiralty says:— Naval aircraft carried out a bombing raid yesterday on the St. Denis Western airdrome. Bombs were dropped on the sheds and on fifteen Gotha machines lined up in the airdrome, direct hits being observed on the latter. All our machines returned safely.

AMERICANS FOUND HOMES IN CANADA WEST

OTTAWA, Sept. 27.—The movement of settlers from the United States to the Canadian West continues to be of considerable volume, according to the statement of officials of the Dominion Immigration Department. The entry of the United States into the war and adoption of the selective draft system has not affected immigration to the Western Provinces. This, it is explained, is due to the fact that the large majority of those who seek homes in Canada are well-to-do farmers above the military age with children too young to be affected by the conscription law. Since the United States came into the war, there has been increased rather than a decreased movement in the direction of Canada. When the United States was at peace there existed a natural disinclination on the part of many people to go a country at war. The handicap, in so far as Canada is concerned, has now been removed.

ASQUITH'S GREAT SPEECH AT LEEDS

LONDON, Sept. 27.—Former Premier under the auspices of the war committee at Leeds addressed nearly four thousand people and was received with great enthusiasm. Mr. Asquith reiterated his demand for a plain and simple answer from Germany as to her intentions towards Belgium and whether she was willing to restore Aisace-Lorraine, and declared that a definite answer to these questions was worth a column of points platinum and uncious generalities such as were contained in the German reply to the Pope.

CAPTURE OF ZONNEBEKE GIVES
HAIG'S TROOP'S COMMAND OF
VANTAGE POINT

Encounters Cost Germans Heavy Losses.

RUSSIAN FRONT

With all the objectives for which
Field Marshal Haig started his men
early Wednesday morning in a new of-
fensive near Ypres securely in their
hands, the English, Scotch and Aus-
tralian units are now tenaciously hold-
ing them, notwithstanding free Ger-
man thrusts that time and again have
effectually been launched in efforts
to regain the lost ground.

As had been expected by reason of
the contour of the territory over which
the battle has waged, the fighting
throughout has been of a most violent
character. Near the Polygon Wood,
where the Australians are facing the
foe, north and northeast of St. Julien
and northwest of Zonnebeke the en-
counters have been of a sanguinary
character, the Germans losing heavy
in their counter-attacks.

Zonnebeke The Key

Of all the points of vantage sought
for and gained by Field Marshal Haig,
the village of Zonnebeke probably was
the most important, for six miles far-
ther on lies the Ostend-Lille railway,
the cutting of which by the British
would seriously interfere with operations
between German's naval bases at Ostend
and Zeebrugge and the southern part
of their line.

Only at two points during the fight-
ing were the Germans able to recap-
ture lost ground. This was east of St.
Julien, where two redoubts again fell
into the hands of the enemy. One
of these had to be relinquished by the
British and still remains in the Ger-
man's hands, but from the other the
Germans were scattered pell-mell by
a fresh British onslaught.

Thursday was spent by the captors
of the new positions in consolidating
them preparatory to starting another
vigorous offensive.

The German Crown Prince, along
the Aisne front and in the Verdun sec-
tor, has made several attempts to
break the front of General Petain, but
as on former occasions the attacks all
were repulsed with heavy casualties.
On the greater portion of the line held
by the French, artillery duels are in pro-
gress.

Prepare for Baltic Attack.

On the front in northern Russia and
in Roumania the activity of the Ger-
mans and Austro-Hungarians has al-
most ceased except for small outpost
operations, and here and there artiller-
y duels of slight proportion. The
Germans, however, apparently are re-
connoitering in the Baltic Sea, prepar-
ing for attacks against the Russian
fleet. Their naval airplanes also are
taking part in this work, but are fight-
ing high and keeping out of the range
of the Russian anti-aircraft and coast
batteries.

There has been no resumption by
General Cadorna of his intensive offen-
sive against the Australians along the
Isonzo front, where only minor en-
gagements have taken place. On the
Carso plateau the Austrians have be-
gun again a violent bombardment of
Italian positions, but the Italians are
effectively countering. Large quanti-
ties of explosives daily are being drop-
ped by the Italians on Austrian posi-
tions behind the fighting front.

In Belgium British and French air-
men also are keeping up their raids
against German naval bases, canton-
ments and other important objectives
and are scoring hits give visible indica-
tions of great damage.

MARRIED.

ISLEY—SKINNER.

BERWICK, N. S. Sept. 27—A very
quiet wedding took place yesterday
afternoon at the residence of John
Skinner, Weston, Kings Co. when his
only daughter, Evelyn A., was united in
marriage to G. Kenneth Isley of Ber-
wick. Both parties were unattended.
The ceremony was performed by Rev.
A. W. Robbins, pastor of the Baptist
Church of this town. Mrs. V. H.
Skinner played the wedding march.
The bride was dressed in a travelling
suit of navy blue broad cloth with hat
to match. Immediately after the cere-
mony Mr. and Mrs. Isley left for a
honeymoon trip through the Province.

New subscriptions will be re-
ceived till the end of year at
only 25 cents.

THE AD

WHY

Inhabitants of the park at Banff. (1) A solitary yak. (2) Buffalo.

THERE are a good many of us
who wish the war would hurry
up and be over, for one reason
and another. But Maggie has a rea-
son that's unique. If somebody would
just go and kill the Kaiser, she'd get
her mountain.

Maggie's second name is Mountain
and her last is Goal. She lives at
Banff, Alberta, together with two of
her friends, in a big sagged paddock
full of bushes, with a stone-built
house in the centre. You can gener-
ally see her up on top of it silhouetted
against the sky, gazing disconsolately
at the big trees, where the wretched lit-
tle gophers climb up and run under her
very nose and she's too mournful to
care!

You see, the Parks Commission,
which is the Supreme Court and the
Privy Council and Santa Claus and
the Board of Health to Maggie, had
decided that in 1914 the mountain
goats were to be transferred to a lo-
cally more in keeping with family
traditions. There were no more to
definite number of unattached moun-
tain goats Banff, inhabited only by
a score of Maggie's unattached relatives,
and the Commission was going to
send the big trees to give them exercise.
The judges would enable them to
rub their backs at the season indicated by
their primitive fashion mazes and
the men interested in wool pro-
blems would have better looking coat
specimens to judge from when they
figured as to whether it was or wasn't
worth while to try breeding them for

meat or plush.
And then came a con-
templative. Camp Hughes, Camp Dor-
valcarter and the rest of the kites
pastures ate up a million times over
the cost of wiring poor Maggie's hill
the heaven, which had to be pigeon-holed
until "after the war."

That's how it comes the cottage in
charge of all the wild wards of the
park at Banff will tell you unforget-
tably that the reason the goats look
like ladies in evening dress is because
they can succeed in rubbing the light
wool off their necks, but the heavy
matted body-growth won't come away
a-way off to where she can see that
mountain of hers, fur-trimmed and
full of gloriously impossible ledges.
She tries to pretend the ridge pole of
her present home is one of them.
But it's no go. The wretched little
gophers climb up and run under her
very nose and she's too mournful to
care!

There are plenty of wild ones on
the mountains hereabouts, but the
Germans have had on as yet left
the horses to eat the grass and come
back with a big horn. Last year I
trapped three in a
trap I made a hundred and twenty
by eighteen feet. It works with a

There are twenty-three sheep in

Lincoln Square Baptist Church, of-
ficiated at the marriage. George Mc-
Gregor Webster, Charles River, for-
merly of Aylesford, and Miss Carrie
M. Lutz, daughter of Mr. and Mrs.
Isalah B. Lutz, Aylesford N. S., at
the home of the bride's father-in-law
Mr. and Mrs. Frank E. Vachon, 5 Wat-
son avenue, Worcester Mass., on the
evening of September 8th, at eight
o'clock. The double ring service was
observed. A reception followed. The
bride was attended by her sister, Miss
Angie P. Lutz, and Joseph Albert Vachon,
Putnam, Ct., was best man. The bride
wore a white crepe-de-chine gown made
with the new overskirt effect, trim-
med with Viennese lace. The full length
white tulle veil was fastened with a
wreath of orange blossoms, and she
carried white carnations. Her orna-
ment was a pearl necklace, the gift of
her husband. The maid's gown was of
blue messaline. Mendelssohn's wed-
ding march was played on the victrola,
operated by Mrs. Vachon.

Decorations were of pink and white,
carnations being used on the dining-
room table. Mr. and Mrs. Webster left
later in the evening for their new home,
Charles River, where Mr. Webster is
employed by the Walker-Gordon Labo-
ratory Co. going away Mrs. Webster
wore blue satin with gray velvet hat,
ornamented with pearl garnitures.

Many gifts were received by the
young couple, among which were ar-
cives of silver cut glass, china, linen
and mahogany.

The bride has been teaching in the
public schools of Nova Scotia for the
past seven years, and had been visit-
ing in Worcester for a few weeks.

Says a New Brunswick coal broker:
—"At the present time 24,000 cars of
anthracite coal are coming into Green-
burg, Ontario, the distributing point
for Canada, and from here are being
sent throughout Canada. The coal con-
signed to St. John will begin to reach
the city the middle of October in quan-
ties large enough to supply the de-
mand, but the price the consumer will
have to pay will be high."

MAY PUT A BAN ON ICE CREAM

Toronto, Sept. 26—Whether or not
Canadians will continue eating ice cream
in season and out of season, may de-
pend on the investigations being made
by Food Controller Hanna into the
charges that the extensive use of cream
in the manufacture of ice cream is re-
sponsible for the ever soaring price
of butter. Mr. Hanna has issued a
statement in regard to the increasing
price of fish here, to the effect that
at the seaboard is the cause of this rise,
extensive purchases of Canadian fish
this rise

Canning Advertiser ROBINSON'S Store

CANNING

CANNING

Florence Patterson of Pereauest of her cousin Mrs. Chas. Berwick, during the sessions of her institute.

Gracie Woodworth who has been in Canning for several weeks has again returned to Clementsport and taken charge of her former work again at the station.

Mr. Stanley Robinson has taken a most active hold of the business, commercial and civic life of Canning. He believes in printer's ink and knows how to draw trade to his busy store.

The Liberal Conservative Club of Ward 1 will not meet the first Friday in October as usual but the meeting is indefinitely postponed.

The tide has been very high of late and on Monday noon it overflowed the dyke at the east end of the town. It is thought that all the cattle and horses were safely removed.

Mr. Ira B. Soloman returned to Canning last week on a short business trip from his home in Ontario. He was welcomed by many friends.

Miss Dora Lewis and her friend Miss Downey both teachers at Kentville spent Saturday to Monday with Mr. and Mrs. C. A. Lewis.

Mr. R. W. North has moved his stock of goods to the store lately occupied by Eaton and Co. This will bring him nearer the other stores in the town and leave his former place to be used in ship-building business.

Victor E. North, Canning, has gone to Mount Allison University to enter the Freshman class in Engineering. His record at the Canning High School has been very satisfactory. This last term he led the "B" class in the Provincial Examinations, thereby securing the Sir Frederick W. Borden Scholarship. We wish Victor success.

CANARD

Rev. A. E. Armstrong of Toronto gave an able missionary address in the Presbyterian Church on Sunday last.

On Sunday next Rev. A. J. Prosser will preach an appropriate Thanksgiving sermon. The church will be tastefully decorated for the service and special music given.

Miss Marjorie Eaton who has been spending a fortnight at Dartmouth with her aunt Mrs. L. K. Payzant returned home on Saturday evening.

The Baptist Church is receiving a new coat of paint.

A special campaign through the duplex system in the 1st Cornwallis Church has resulted in the sum of \$843 being raised for missions on this field. This is the largest amount ever raised here and shows the church work to be in a healthy condition.

LONDON, Sept. 26—Andrew Bonar Law, Chancellor of the exchequer, has that his eldest son, Captain J. K. Law, R. F. C. is missing. His second son, Lieut. C. J. Law, has been prisoner of the Turks since last April and at third son, Anthony is private.

While it may be pardonable to estimate the weight of butter in churning which some are able to do with surprising accuracy, it is never a good plan to "guess" at its weight of the salt required for churning. On each dairy farm where butter is made there should be a scale that will weigh to ounces or finer, and both the butter and salt carefully weighed before the latter is added to the former.

DELHAVEN

The pie social under the direction of the Ladies Aid, was an unqualified success. The genial actioneer fairly himself, and every one was pleased over the sum of \$57.00.

M. N. Lyons, the veteran apple man of the community made a record trip to Parrsboro and Springhill last week calling on old customers, and making new ones. This makes about twenty-six years in the apple and small fruit business for M. N. in which time he has made a large circle of friends in Cumberland County.

Several of our foremost fruit growers have sold out their fruit tree-run to the apple buyers.

Speaking of apple buyers leads us to reflect on the changeableness of the times. To have our Sabbath quiet broken by these apple speculators in their high priced touring cars who are so pushed they can find no other day to inspect the orchards is enough to cause the dust of the departed to stir in their graves. Isn't it time the Lord's Day Alliance were getting to work.

G. S. Weaver of Grand Manan is visiting his parents for a few weeks.

Rev. F. H. Bone occupied the pulpit of the Perea Baptist Church Sunday morning.

Pleased to see our genial friend and old acquaintance, G. R. Thorpe with us once more.

J. W. Hubbard is away inspecting fruit in the vicinity of Horton. We are sorry to lose him from our midst but what is our loss is another's gain.

Rev. H. Carter who has been confined to his bed for some time past is reported to be improving. His many friends will be pleased to hear this.

Is the Progressive Class dead? Perhaps so or maybe the members are sleeping.

Middleton Outlook—Sun. Sept. 23rd a family reunion took place at the home of Mr. Alfred Phinney when he was surprised by a party of 14 relatives and friends from Aylesford and vicinity. Among those present were: Mr. Albert Bowlby of Boston, Mass.; Mr. and Mrs. S. B. Hicks and family, Mr. and Mrs. S. Hornell and family, Mr. and Mrs. Howard Bowlby, Mr. and Mrs. Fred Bowlby, Mr. and Mrs. Ingram Bowlby and Mr. Loring Reed.

KENTVILLE RECITAL

The recital in the the Methodist Church on Tuesday evening drew a good sized audience and though the program was not rendered complete, it was a most enjoyable evening. Hiawatha Band was present and rendered several selections to fill the place of absent performers.

Private Lyons, the tenor soloist, was detained at Aldershot and failed to reach town until after the audience had left. Some few returned to the church and heard his delightful voice.

Mrs. Clark played one selection under difficulties though much enjoyed by the audience. She was obliged to leave before filling the second number.

The readings by Mary Tenand Johnson were a rare treat. All her selections were well received and encores were called for. She has a good voice, pleasing manner and excellent delivery, and would draw a much larger house on a second appearance.

A beautiful Weber piano was used on this occasion by the courtesy of the N. H. Phinney Co.

Great Work Done By The Airmen

"On September 28 artillery and photographic work was continued by our airplanes. Over four tons of bombs were dropped on the enemy's airdrome at Controde and Carnieres and on hostile dumps, billets and railways. Another six tons were dropped on similar targets, including airdromes at Controde, where the enemy's anti-aircraft guns, machine guns and searchlights were not active. In spite of the heavy barrage which was put over the airdromes all our machines returned.

LOSE NINE PLANES.

"During the raids our airplanes again used machine gun fire to good effect against all the enemy troops and transports seen.

"As a result of the air-fighting nine German machines were brought down and four others were driven down out of control. One enemy machine was brought down by the anti-aircraft guns. Three of our airplanes failed to return.

KINGS COUNTY MAN MAY LOSE EYE

Arthur L. Ogilvie who had his eye severely injured by splinters flying from a saw in his mill near Morden, was brought to the city Saturday night by C. A. Burns, of Harborville. The injured man is now at Victoria General hospital, where last night he was resting more comfortably, but still suffering severe pain. Mr. Ogilvie is an enterprising lumber operator of the North Mountain and his mill has a heavy contract for the supplying of apple barrel staves as well as of heavy timber. Mr. Burns returns home this morning.—Herald, Oct. 1st.

COLLISION IN HARBOR

Halifax, N. S., Sept. 28—During thick vapor off the harbor today an incoming steamer crashed into the tug W. H. Murray, the steamer cut right through the tug which sank in two minutes Captain Sittland and four of the crew were rescued by the steamer. All were thrown into the water and John Brown a deck hand was unconscious when picked up. The tug registered about 75 tons, was owned by Hendry's Ltd. and was recently brought here from St. John, N. B.

RETURN OF LIEUTENANT COLONEL
ROBERT INNES

Lieut. Col. Robert Innes arrived at
Halifax a week ago and has been spend-
ing most of the time since at his former
home at Coldbrook with his parents Mr.
and Mrs. Peter Innes. Mrs. Innes and
child returned from England with him.
Colonel Innes organized and com-
manded the 106th Battalion, now com-
manded by Colonel Frost. He is on two
months sick leave having been injured
in the firing line. Colonel Innes was
invalided to London then home. He
was six months in the trenches and in
hospital eight weeks.

The attention of Canadian exporters
of poultry is drawn to a report receiv-
ed by the Dept. of Trade and Com-
merce from J. E. Ray, Trade Commis-
sioner in Birmingham, England. "There
is every indication," Mr. Ray writes,
"that an unusual demand for poultry
will take place during the next few
years in the United Kingdom, and
Canadian exporters of poultry should
make a note of this. Poultry dealers
state that the chickens are being slaugh-
tered injudiciously and that a serious
demand cannot be avoided. Naturally,
a shortage of eggs will also result.
Some idea of prices during the next
winter may be gathered from the fact
that new-laid eggs at the present time
in Birmingham are readily sold at 25
cents for four."

Miss Ida Freeman and sister, Mrs.
Annie Illey and two children, of Ber-
wick, having visited friends at Clements-
port and Upper Granville, spent the
past week with Mr. and Mrs. W. E.
Illey, and also visited friends at Para-
disse and Nietaux West. -North Wil-
liamston Cor.

WOLFVILLE

Miss Hortense Spurr of the teaching
staff spent Sunday at her home, Mel-
vern Square a week ago.

Mrs. A. D. Elderkin was in Halifax
last week attending the Presbyterian
convention.

Mrs. H. A. Flemming of Halifax is a
guest at Kent Lodge for a few weeks.

Mrs. H. L. Dennison who was visiting
her sister Mrs. Charles Fitch returned
to Digby last week. Mrs. Fitch and her
brother, Mr. Arthur Forrest were at
Digby visiting Mrs. Dennison recently.

Rev. C. W. Robbins, pastor at Digby
was in town a week ago on an auto trip
through the valley accompanied by his
mother and sister.

Rev. H. T. DeWolfe preached at
Bridgetown on Sunday of last week and
left the next day for St. John.

H. Pineo, Wolfville, Optometrist will
be at Newcombe's store, Thursday, Oct.
4th, Waverley, Canning, Oct. 5th. Home
office Mondays, Tuesdays, Saturday.

Mr. and Mrs. W. W. Clarke and son
and Mrs. L. H. Crandall of Bear Riv-
er, were in Wolfville a week ago, Mrs.
Crandall formerly resided here.

Mrs. A. Smith came to town a week
ago from Margareville accompanying
Mr. and Mrs. Robie Tufts from that
place and she is visiting at their home.

Mrs. O. D. Harris has returned to Den-
ver.

Mrs. J. B. Tingley went to Canning
on Saturday to visit her sister Mrs.
Joseph Harris.

Miss Flora Roop of Middleton spent
Sunday 23rd, in town.

Dr. Tufts and daughter Hilda,
Mrs. Robie Tufts and Miss Andrews,
Wolfville, motored to Albany re-
cently, and were the guests of Mr.
and Mrs. Edwin Merry and Jon-
athan Woodbury. -Outlook.

Bird life in the Land of Evangeline--

No part of Nova Scotia has a
greater variety of bird life than the
marsh lands, the fertile meadows
and the back-lying woods of the
region of Grand Pre. Robie Wil-
frid Tufts, of Wolfville, before the
Nova Scotia Institute of Science,
read a classified account of these
birds and his exhaustive and inter-
esting work has now been pub-
lished. The observations cover careful
and painstaking field work.

KENTVILLE

Mrs. Jacques of Parraboro and daugh-
ter Mrs. Murray Baird arrived in town
today to spend a few days with Mrs.
C. L. Baird.

Mr. and Mrs. W. P. Shaffner and
daughter who have been spending the
summer at Granville Ferry have re-
turned to Kentville and occupy their
home again.

Gasoline has been very scarce during
the last week and at times we were
unable even to get sufficient to keep our
Linotype running. This week the tanks
have been restocked and the wheels of
industry are running and automobiles
galore are again on the road.

The death and burial of Mrs. Jones,
wife of Mr. Charles Jones took place
at Kentville last week. We will give
an obituary notice next issue.

OBITUARY

Clayton C. Cogswell
Clayton C. Cogswell, of Belcher St.,
Cornwallis died early Friday morning
of pneumonia after a four days' illness
at the age of 60 years. He leaves a widow
(nee Miss Margaret Burgess), a son and
two daughters. Mrs. C. O. Harris of
Belcher Street a sister, and William
Cogswell of Yarmouth, a brother, sur-
vive him. Mr. Cogswell was a prominent
farmer in the county of Kings. He has
been president of the Port Williams
Fruit Company since its organization.
He was an active supporter of the
Kings County Temperance Alliance
and was continuously for a long time
a member of the executive of the Al-
liance. He was a faithful member of St.
Paul's Presbyterian church, Kentville,
serving on the board of trustees for
about 25 years and on the session for
over 15 years. He was widely esteem-
ed and will be greatly missed in the
many spheres through which his influ-
ence extended. The funeral took place
Saturday at 2 p.m. at his late resi-
dence, and was very largely attended, con-
ducted by Rev. Mr. Layton.

Deane Pineo while standing on the
beach at Huntingdon Point noticed
an usual splashing in the water. On
going closer he found the water alive
with herring and so near the beach
that he caught one in his hand.

EXEMPTION BOARDS
COMPLETE

As yet the four men to be appointed
appointees of His Honor Judge Wainwright
on the Exemption Boards at Wolfville,
Kentville, Canning and Aylesford have
not been selected. These four men
are appointed by the Provincial
Commission composed of G. A. Campbell
of Halifax and D. A. Cameron of
Sydney, who will appoint in the
Opposition.

NEW MACHINERY WILL
BE NECESSARY

Ottawa, Sept. 29 - Fifteen thousand
enumerators will have to be appointed
before the next general election in Can-
ada. In every polling sub-division
throughout the country there will be an
enumerator to check up the voting lists,
to add the names of female relatives of
soldiers entitled to the franchise under
the war-elections act and to strike
off the roll the names of dis-franchised
aliens. Under the military voters act also
a complete electorate machine will be
created overseas for taking the votes
of all members of the expeditionary
forces both in France and England.

There are more than three times as
many dogs as sheep in Montgomery
Co., Kansas. It is estimated that it
costs \$34 to feed a dog one year. On
this basis some farmers could keep two
more cows or ten more sheep with no
more general expense to the farm, if
they dispensed with their dogs, as
it only costs about \$60 or \$70 to feed
a good cow, and five sheep can be
kept on the same amount of food as
one cow. The neighbors sheep would
be safer, too.

A model ration for 1000 pound daily
cow giving 25 pounds of milk testing
four percent fat is suggested by E. S.
Archibald Dominion Animal Husband-
man, to be the following: Clover hay
10 lbs., corn silage 30 lbs., meal 1 lb.,
composed of wheat bran 2 lbs; dried
distillers, gains, 2 lbs gluten feed, 1 lb;
oil cake 1 lb. The above ration fills
all requirements as to cheapness and
richness of feeds, also as to proper
balancing nutrients.

D.A.R. FREIGHT SHED AT WINDSOR

Work has commenced at Windsor on
the platform and in preparation for a
new freight shed at Windsor. It is to be
completed by the middle of December.
For a time there was misunderstanding
and hostile feeling on the part of Wind-
Graham, and the City of Windsor. The
D.A.R. Board of Trade leads toward
Manager Graham on account of delays
in the starting of this building. But
now all has been adjusted satisfactorily
and Windsor and the D.A.R. will soon
have a proper building for handling
freight at that important town.

LOCAL NEWS

Mr. Rufus Lockhart son of William
Lockhart, Forrest Home, with a com-
panion shot a fine moose a week ago.

Rev. Father Walsh, who has been
parish priest at Prospect for seven
years has been transferred to Windsor
and was in the city yesterday on his
new parish. He was much honored and
beloved by the people of Prospect who
expressed great regret at his departure.
He will be succeeded there as parish
priest by Father Horne.

On Friday Sept. 21, Mr. and Mrs.
David Sutton held a reception for the
bride and groom Mr. and Mrs. Ansel
Scott. Mrs. Scott's old friends were
delighted to see her again and renew
old acquaintance ship.

Mrs. John M. Cross is slowly improv-
ing since her return from the Infirmary
at Halifax. On her return she stopped
off nearly a week at Windsor.

Mrs. Charles O. Allen and Mrs.
Brooker of Halifax spent Saturday
Monday afternoon with Mrs. Captain
Graves, Mrs. Allen has not had any
recent news from her husband or from
Charles Allen, Jr., now in hospital for
the third time.

Sergt. K. H. McNeil of Melvern
Square is under treatment at the N. S.
Sanatorium.

There will be a large gathering of the
Western Counties Board of Trade at
Kentville on Tuesday, Oct. 9th.

The heavy timbers for the New Strand
Theatre building are now being erected.

BROOKLYN - CORNER

Miss Blanche Porter, who has been
visiting her sister and niece returned
to Boston on the 21st inst.

Miss Lila Rockwell went back to her
school at Edmonton in August. Enroute
she spent a very pleasant day at the
Toronto Exhibition. Among the many
interesting things shown, were some
splendid exhibits of the new fall cos-
tumes by T. Eaton & Simpson.

Mrs. R. S. Rockwell who has quite
recovered from her recent illness, is
the guest of friends in Amherst.

Mrs. John Ross and daughter have
been visiting Mr. and Mrs. R. S.
Newcombe. Mrs. Ross' many friends
were much pleased to meet her again.
Miss Ethel Thorpe who came from
Boston to attend her sisters marriage
is the guest of Mrs. Gordon Irving.

Miss Laura Marchant our teacher, is
winning the respect and esteem of
her pupils.

NEW EDITOR.

The directors of the Mining Journal
Company, Limited, have pleasure in
making announcement today of the
taking over of the management and
editorial control of The Springhill
Record and Mining Journal by Mr.
A. C. Mills, a newspaper man who has
had considerable experience and who
is well known in newspaper circles in
the maritime provinces -Springhill
Record.

ANOTHER LONDON AIR RAID

London, Sept. 28 - Hostile airplanes
attacked the southeast coast of England
this evening. A few of them attempted
to reach London, but failed. No reports
of casualties or damage have been
received as yet.

The official report issued by Field
Marshal French, in charge of aerial
defence of Great Britain, follows:
"Hostile airplanes attacked south-
east coast of England this evening.
The raiders were reported from various
points along the coast in Suffolk, Essex
and Kent.

"The majority of the raiders did
not venture far inland. A few of them
headed toward London, but failed to
reach the Metropolis.
"Bombs were dropped in Suffolk,
Essex and Kent, but no report regard-
ing casualties or damage have been
received as yet."

When the air raid warning was is-
sued in London, everybody took to
cover in the usual way. They waited
two hours without hearing the sounds
of a defensive gun or the bomb of a
raider, and it became evident that the
German airmen had been headed off
from the London area.

For Sale or to Let
In order to close the estate of the
late M. P. WOOD, Port Williams, the farm
formerly occupied by him containing
156 acres of land is offered for sale
Said farm consists of 25 acres of
dyke and twenty-five acres of
orchard and the remainder in tillage
land, this is one of the best stock
farms in Kings County, and at
this stage in our history, when mixes
farming is so essential to success it
offers to the right man a golden op-
portunity to make good. If not
sold it can be rented with a view to
purchasing. This farm is offered at
a bargain. Apply to
G. A. CAMPBELL, Agent
Port Williams

For Sale
Part of the Real Estate of the late
HOWARD BLIGH
namely: Forty-five acres of orchard
and woodland (known as the
Coleman Property) situated on
Brooklyn Street, Kings Co., about
two miles from Cambridge Station,
one mile from Woodville Station,
also fifty acres of orchard, meadow
and woodland (known as the
Eagles Farm) situated on Brooklyn
St., Kings Co., about 1/2 mile east
of the above named property. This
property will be sold cheap in order
to settle up the estate. For further
particulars apply to **Howard Bligh &**
Co., Limited, Halifax.

SON OF BONAR LAW MISSING.

Law, Chancellor of the executive, has
that his eldest son, Captain J. K. Law,
R. F. C. is missing. His second son
Lieut. C. J. Law, has been prisoner
of the Turks since last April and at
third son, Anthony in private.

Up-to-date Silo and Barn in the West.

FOR many years Western Canada has not been thought of as a silo country. The enormous areas of unoccupied land, on which cattle roamed at will, or the settler cut his year's supply of native hay, to a large extent met the fodder problems of the country. With closer settlement and more intensified agriculture, however, a change is coming about. Particularly on account of the rapid advance of the dairy industry the farmers are becoming more interested in the various means of caring for their herds, especially during the winter months. The silo has been found to solve one problem, and is making its appearance in many parts of the country.

From experiments that have been undertaken at the various experimental farms it would appear that the silo method of feeding dairy stock is one of the very best. Superintendent G. H. Hutton, of the Dominion Experimental Farm at Lacombe, Alberta, claims that winter silage is one of the best means of keeping the farm stock well fed during the winter, and has solved the problem of securing succulent feed for the dairy cattle.

In his report Mr. Hutton says that the growing of roots has met with many objections among them being the high cost of labor and the difficulty of storing. Where these difficulties can be overcome roots add very materially to the rations for the dairy cow and are a means whereby the milk production can be increased in its first flow after freshening and maintained at a higher daily

average throughout the winter months. He believes that the solution lies in the silo since it can be erected at a comparatively low initial cost, considering the tons of material that can be stored, and considering also that silage can be made from peas and oats, or oats alone, a crop which can be universally and successfully grown, and which will yield a green weight of from eight to twelve tons per acre. The crop intended for the silo is cut while the oats are in the milk stage and is at once run through the cutting box and cut as fine as possible, going into the silo absolutely green. It is important that the silage be thoroughly tramped. A silo 20 feet high and 12 feet in diameter will hold from 80 to 90 tons, according to the amount of moisture in the crop at the time it is cut. At the Lacombe Experimental Farm some bulky fodder, as hay or oat straw, is usually fed in conjunction with the silage as well as the usual grain ration. When so fed cows on full flow of milk will consume around 40 pounds per day.

Experiments which have been conducted at the farm during the past two years to determine the feeding value of this silage as compared with the same feed cured in the ordinary way in the shock of green feed, show results very decidedly in favor of ensiling the crop. It shows also a saving in the cost of producing one pound of butter of as much as four cents per pound, and as much as seven cents per pound with silage made from corn.

HELP FROM THE PATRIOTIC FUND
Men Selected Under the Military Service Act are Assured of It by Resolution

Ottawa, Sept. 28.—It is now known that, so far back as June, 1917, the executive committee of the Canadian Patriotic Fund had decided to grant the same assistance to the men selected under the Military Service Act as to the men already enlisted, in the matter of payments to dependents. On June 14, 1917, at a meeting in Ottawa, the executive committee of the Fund passed a resolution providing that in the event of the Government passing and enforcing legislation providing for a measure of selective drafting, the dependents of the men so selected be entitled to the same assistance as the dependents of the men who have volunteered. Under the Military Service Act of 1917, of course, with the first-class unmarried men and widowers without children, not a great many are expected to require assistance for dependents from the Patriotic Fund, although each case will be considered considered carefully.

With assistance, where needed, from the Patriotic Fund, the men selected under the Military Service Act will receive every convenience and right of the men already enlisted. Their status will be assured.

BUSINESS PROFITS TAX NOT TO BE DISCONTINUED

Representations are being made by the liberal Press that the Business Profits Tax is not to be continued. This is absolutely incorrect as is shown by the following statement made by Sir Thomas White as it appears in Hansard: The Business Profits Tax, by its terms comes to an end on December 31st of this year.

Toronto, Sept. 26—Alexander Auer a Finlander was sentenced by Magistrate Denison to two years in penitentiary for making seditious statements contrary to the defence of the realm act.

Chicago, Sept. 26—A cable despatch to the Chicago Daily News from its correspondent dated at the Hague, Holland today says—"I am informed a responsible resource that the Australian governments is exerting pressure on Prussia to make peace along the lines suggested by the Entente.

There are more than 800 members of the United States flying corps in training with the Canadian branch of the Imperial (Royal) Flying Corps in Canada. They are nearly all graduates of U. S. A. universities, including Princeton Harvard and Yale.

Queen Eleanor, of Bulgaria, died last week, after a long illness.

HOME-MADE DRIER

Dimensions—height 36 inches, width 36 inches, depth 18 inches. The sheet rests on two pieces of perforated galvanized sheet iron. Two inches above the bottom is placed a solid sheet of galvanized iron, three inches less in length and width than this prevents the direct heat from com-wires fastened to the sides of the drier.

The first tray is placed three inches above the radiator. The trays rest on the cleats three inches apart. A drier of the given dimensions will hold eight trays. The frame of the tray is made of one-inch strips on which is tacked galvanized screen wire, which forms the bottom of the tray, the tray is 21-5 inches.

The lowest tray when placed in the drier is pushed to the back, leaving the three-inch space in front. The next tray is placed even with the front, leaving a three-inch space in the back.

The principal construction is that currents of heated air pass over the product as well as up through it, gathering the moisture and passing away. The movement of the current of air induces a more rapid and uniform drying. The upper trays may be shifted to the lower part of the drier and the lower trays to the upper part as drying proceeds, so as to dry the product uniformly throughout.

If drying is done a cookstove oven, leave oven door ajar. Note temperature of oven often. Trays for use in the oven may be made by using a convenient-sized piece of galvanized wire screen and bending the edge one or two inches.

Queen Eleanor, of Bulgaria, died last week, after a long illness. She was the second wife of King Ferdinand. She was Princess Eleonore of Russia-Kostritz and as born Aug. 22, 1869. She was married to King Ferdinand, Feb. 23, 1908.

URUGUAY MARINES BOARDED

Uruguay marines boarded all the German ships in the harbor of Montevideo, the government having heard of plans to sink the vessels. The crews of the eight interned German steamers were brought ashore and the authorities took charge of the vessels. Many loose pieces of machinery which the crews had been unable to hide were found on board of the steamers.

Strong opposition was met from the enemy's shelling machine guns. The day was a very hot one and the men were tired from the day's work. The enemy's shelling machine guns were fired from a position about a hundred feet and the men were tired from the day's work.

The water was very muddy and the men were tired from the day's work. The enemy's shelling machine guns were fired from a position about a hundred feet and the men were tired from the day's work.

Seven hostile machines were brought down in air fighting three were driven down out of control, and five others were brought down by infantry fire. Thirteen of our machines are missing.

This is to certify that I have used MINARD'S LINIMENT in my family for years and consider it the best liniment on the market. I have found it excellent for horse flesh.

Signed W. S. PINEO, Woodlands, Middleton, N. S.

DISCOVER ANTHRACITE COAL IN N.B.

Tests Made Show it to Produce Intense Heat and is Almost Odorless and Clinkerless

FREDERICTON, N. B., September 28—Anthracite coal discovered fifty miles from the city is the joyful news floating about here today. Captain Russel Bellamy of New York city, a student and geologist has had a license from the New Brunswick government to explore for silver which, he believed was to be found in the Salmon river district of Queens county. His investigations brought him to a strata which proves to be coal very closely resembling the anthracite of Pennsylvania fields. Tests made show it to produce an intense heat. It ignites quickly and burns slowly. It is estimated conservatively that there is at least a half a million tons in sight. Underlying is a strata of black-smith coal.

Lady—Put the brakes on quickly James. Chauffeur—(formerly tank driver) —They're jammed, me lady, but don't you worry. We shall go through that house at the bottom as clean as a whistle.

Do not cover soft jelly with paraffin until it hardens; when it does pour melted paraffin over the top to prevent it getting any harder, and to prevent moulding. It can be lifted off when the jelly is wanted for use.

Many will not jelly alone. With these, a mild flavored but sour apples should be used, half and half, as apples have as much jelly making properties as any known fruit.

You can see apples whole for jelly simply washing them clean, but quinces should always have the stones removed for these possess a certain property that prevent anything from jellifying. Without the stones, JAONNNUUNN and makes one of the most delicious jellies known. The juice from cooked quince parings when added to apple juice, will flavor the apple jelly richly. Peach juices and apple juice is a combinations on that makes delicious jelly. Also combinations of pineapple and apple, raspberry and currants, and so on.

Measure as much sugar as you have juice and put this in the pot to heat. Let the juice come to a quick boil uncovered. Let it boil exactly 20 minutes then add the sugar and let it boil up. Do not cook it two minutes after it boils up again if the sugar is all melted by this time. Skim and pour into glasses and you are done. Many times the jelly will get hard almost at once, but in some cases it will not be real hard for some days after it has been made, and it is better so, for jelly that hardens at once is apt to get too solid when it is kept any length of time.

Measure as much sugar as you have juice and put this in the pot to heat. Let the juice come to a quick boil uncovered. Let it boil exactly 20 minutes then add the sugar and let it boil up. Do not cook it two minutes after it boils up again if the sugar is all melted by this time. Skim and pour into glasses and you are done. Many times the jelly will get hard almost at once, but in some cases it will not be real hard for some days after it has been made, and it is better so, for jelly that hardens at once is apt to get too solid when it is kept any length of time.

FOR YOUR CAR
 It is not Economical to economize on Lubricants
 You more than pay for what you might save on lubricating oil in increased cost of overhauling and in the shortened service life of your motor.
TIOLENE is the most trustworthy and hence the most economical lubricant to use.

 Telephone connection.

JAPAN'S AIM TO MAKE IT HOT FOR THE HUN.
 NEW YORK, Sept. 28.—Japan is in the war to "make herself as unpleasant to the enemy as her physical make-up will permit or her ingenuity conceive," declared Viscount Ishii, head of the Imperial Japanese commission, at the New York Chamber of Commerce here today. His country, he said, is ally and partner in the war which could be brought only "by the complete utter physical defeat and humiliation of Germany," and Japan will do her share "in such manner as to justify her in claiming a place in the company of honest men."

HANTSPOUT
 Mr. Robert McLatchey, son of Mr. Reginald McLatchey has completed a bombers course at Halifax and a sergeants course at the R. S. I., Aldershot.
 Capt. Albert Lawrence left a week ago for New York to take command of the schooner G. F. Lockhart.
 Dr. Harold Lawrence was recently visiting former friends here.
 A noble example which will benefit many was the donation by Mr. Stevenson here of \$100 to the fund of the Baptist Church library. The gift is as a memorial to his little daughter Elizabeth.

BERWICK
 Those who have recently been guests of Mrs. Roy B. Chute, Berwick—Mrs. James Stenson, Mrs. Emily Killam, and Miss Neily have returned to Massachusetts.
 After a period of treatment at the Victoria General Hospital, Mrs. D. S. Dalrymple has returned home much improved.
 Mrs. Thomas Lloyd and Mrs. Charles Lloyd have had a pleasant visit from their mother Mrs. Annie Mahoney of Amherst.
 Mr. Dykeman of St. John has been visiting with Mr. Wm. Hazlewood, Somerset.
