ZAMPIRONI MOSQUITO
—AND—
INSECT KILLER.
No Camping or Fishing Party should be without this valuable destroyer. For it is comfort at last, either day or night, in the Camp, Bedroom or Country House.
These Pastils, composed of Genuine Vegetable Powder, are preferable to every other invention of a similar class; they burn without the inconvenience of producing bad smell or causing headache.
Take care before burning them to shut the doors and windows.
The Pastils burn very quickly and may be easily lighted with a match.
One Pastil is sufficient for an ordinary size room, for a large one it is better to use two.
The perfume is absolutely inoffensive, its effect Antiseptic and Disinfecting.
Sold in boxes of 25 Pastils, 50c. per box; \$5.00 for 1 dozen boxes.

THE FAIR IMPOSTOR.

CHAPTER XVIII.
A MODERN BONDAGE.
(Continued.)

ILLIAN sat with lowered lid, apparently listless almost to indifference; but her heart beat fast, and she felt the dark eyes, as they glanced at her now and again, as if she saw them.

'Ah!' cried Sir Talbot, suddenly. 'How well you have caught the bend of the head! Wonderful! And a few touches only!'

'Weak and impotent,' said Dawson Slade, quietly. 'It is kind of you to encourage me. My heart is heavy with doubt and dread.'

'Let me send for something to lighten it,' said Sir Talbot, and he walked away.

The moment his back was turned Dawson Slade drew a small square of prepared cardboard from under the larger canvas, and with quick, bold dashes began to make a little sketch.

Sir Talbot came back, followed by a servant with a tray of wine, and the sketch was slipped aside.

'Miss Woodleigh needs stimulant more than I,' he said, as Sir Talbot brought the wine forward; but she refused it with a smile and a shake of the head.

On the salver the servant had brought several letters. Sir Talbot took them, and with an apology, walked down to the other end to read them. Dawson Slade took out his sketch, finished it, and laid it down beside him out of sight; then he went on with the portrait.

The picture was finished, even to the rose and the frill round the white throat; but the face looked strangely incomplete, for it wanted eyes.

He waited a moment, pointing the crayon; then he said, quietly, 'Are you tired?'

She looked up, but there was no life in the eyes; the mask was upon her face. The crayon remained immovable.

'Not at all,' she replied. 'I must be careful not to weary you,' he said.

'It is in the bond that I am free when I please,' she said.

'At a moment,' he assented. 'Regard me as a slave to be dismissed at a word or a look—a mere slave!'

There was a subtle significance in his voice. She looked up fixedly, then her eyes dropped again; but they were outlined on the canvas.

'We have abolished slavery so long ago,' he went on, slowly, his words keeping time with the movement of his white hands, 'that we have almost forgotten the full meaning of the word. It is difficult to realize, is it not? A slave! One whose life has passed out of his own keeping into the hands of another—to be made happy or wretched by the word or look of one who perhaps regards him as a mere chattel—a machine—a block! Thus it is to be a slave! And yet they say that there are slaves who hug their chains and love their

bondage! Are grateful for a word or a look, cold though it may be, from their master or mistress; and have followed that master or mistress through trouble and sorrow, and even to death.'

His low, musical voice fell upon her ears soothingly—a faint touch of something that looked like self-pity sat upon his lips and shone in the dark eyes that dwelt dreamily on the canvas.

In silence she watched him, the strange fascination coming over her; a vague, uneasy sense of some hidden meaning in his words forcing itself upon her.

'Yes,' he said, 'we have abolished bodily slavery, but—and he turned to her with a strange smile in his eyes—'we are all slaves, nevertheless; in bondage to something or somebody—some to an idea.' Her hands tightened in their clasp, and a quick look covered her face. 'To an idea,' he repeated, looking at her dreamily, as if he were absorbed in his work. 'Some to a rash vow.'

With a sudden movement she turned her head from the light. He pushed as if she had thrown him out, and, as if by an effort, she resumed her former position.

'Thanks,' he murmured. 'I do not tire you? Some by a rash vow which, uttered in a hasty moment, may hold them fast in a lifelong chain; and some are slaves to a passion which, strive how they may, holds them in a stern grip, which never relaxes night nor day. Yes, of a slavery there be, that is the most complete and full. He is the bond servant of the sternest, hardest-tyrant on earth; his name—but this is too bad! I am trespassing on your good nature! You granted me permission to paint, and I have taken to moralizing. Forgive me!'

With a slight bend of the head she forced her lips into a smile. 'Pray go on,' dropped from her lips.

'I was going to say,' he continued, 'leaning back for a moment to survey his work and mix more color, his eyes glancing from the palette to her face musingly, 'that the name of this tyrant is Unrequited Love. He is the hardest of all taskmasters, and the

slave who has once felt his whip carries the mark to the grave. I once met with such a slave—but I weary you,' he broke off, with a deprecating wave of his white hand.

'She raised her eyes, and looked at him as if awakened from a trance.

'No,' she said, in a low voice. 'You once met—'

'With just such a slave. He was a man who you would have thought had won his freedom if any man had; the least likely person in all the wide world to fall into such a bondage. He had laughed at chains, and scoffed at servitude—a very rove, reckless and free from a thought or care. One day—I am a bad story-teller, Miss Woodleigh; it will never be my fortune to hold a group of children spellbound with a fairy tale—but this isn't a fairy tale; this is all true, as those same children would say—one day this man met with what he pleased to call his fate. Poor artist as I am, I could paint the face he described to me better than portray it in words. Suffice it that it was a very beautiful one. Poor fellow! It was the most beautiful in all the world to him. I remember that she had dark lustrous eyes that would hide beneath long lashes one moment, and then shine out with a glorious light—pray,

pray do not move, I implore you! Thanks!—and this goddess of his— for she was more goddess than mistress—had a great wealth of hair, soft and shimmering as silk, and with these eyes and this hair she caught his soul—all unwittingly—as some poor fly is caught in a silken web. Day by day, though it was never his fortune to exchange a single word or a look—for though he fed his love by looking at her, she never seemed to see him—he knelt at her shrine and drank of the mystic draught which, when once a man has tasted, robs him of his freedom forever, and makes him a slave, and this, my poor friend, became—a slave! Realize it!—the glare of light from this window annoys you. Let me move your chair, he broke off with, and rising, he put his hand on the chair; but with a slight gesture she declined, and shaded her eyes with her hand.

'A slave, sold body and soul! sold for a price—for, remember, she was scarcely conscious of his existence, and was certainly quite unaware of the thing which had fallen into her hands. And so it went on. Day and night the chains grew thicker and more unbreakable. He worked at them himself, ah, and hugged them when he had made them; and, stranger than all, the slave was happier in his state of bondage than ever he had been when he had roved careless and free. So it went on until the longing to make know his slavery—to lay it, as it were, as an offering at his mistress's feet—grew too intolerable to be borne. He waited for an opportunity; none came. At last he made one.

To be continued.

Said "She had no Blood."

Girls with an unhealthy pasty look are greatly to be pitied. The dark look underneath the eyes which accompanies this paleness, is a sure sign of an unhealthy body with anemic conditions of the system. The healthy girl has a fresh rosy complexion which is much admired. In the pale and sallow complexioned girls the blood is weak and impoverished and the body anemic.

Whitby, Ont.
Dear Sirs:—
Three years ago my daughter came home from college, and was in a very bad state of health. I took her to the doctor, and he said she had no blood, after using six boxes of your pills, I am glad to tell you the change in her was wonderful. I will always be loud in their praise. You can use this as a testimonial if you wish. You can forward me six boxes by return mail.

Itching Piles For 27 Yrs.

Despaired of ever getting relief until I cured myself with use of DR. CHASE'S OINTMENT.

Mr. John Johnson, Crawley, Alta. writes: "Three years ago I was cured of itching piles of twenty-seven years' standing by using Dr. Chase's Ointment. I used to think that death would be the only relief I could ever get from the terrible misery of piles."

"Dr. Chase's Ointment is worth six dollars a box instead of sixty cents I am a different man since using it. I am farming all the time now and never miss a day. Words fail to express my gratitude for the cure this Ointment made for me. I cannot tell half a much about it as it deserves. Any one doubting this can write direct to me."

Do not accept an imitation or substitute in place of Dr. Chase's Ointment for there has yet to be discovered a treatment which so promptly gives relief from itching and so thoroughly cures every form of piles. 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. Write for a free copy of Dr. Chase's Recipes.

JOB PRINTING Neatly EXECUTED.

The Evening Chit-Chat
By RUTH CAMERON

A man who signs himself "A Bachelor" has just written to ask me to settle a wager which a friend has made with him, to the effect that I am man.

Just think of it. My little letters have received the highest compliment from a man—he actually thinks they show sufficient intelligence to have been written by one of his own sex.

As "A Bachelor" puts it—"my friend insists that the writings which appear above your signature on account of their wisdom must emanate from a masculine mind."

I suppose I ought to be very grateful, but I am not.

On the contrary I think that it is just the kind of compliment that a woman should resent—the kind that flatters her personally at the expense of her sex.

I heard a man and woman arguing the subject of woman's suffrage the other day.

The man said, "I haven't a doubt YOU could vote just as intelligently as any man. But you are an exception. There are not many women with your brain and common sense."

And the woman said, "I suppose you think that I will be pleased by that flattery, but I am not. You can't buy me off with a bit of flattery to let you disparage my sex."

I wanted to say, "Hurrah!"

I think that is exactly the attitude that every woman ought to take. Never allow a man to disparage your sex unchallenged, no matter how

much personal flattery he may use to sugar coat his disparagement with. It isn't loyal.

One great reason why men have kept the position of masters, economically and socially, which they have so long held, is that they have always stood by each other.

Do you know one reason why women have begun to realize what a terrible menace immorality is to their home life and to demand a single standard of morality for both sexes? It is because there are now so many women physicians who are explaining these things to their sex.

In by-gone days when all the physicians were men, they stood by their sex and covered up and glossed over the sin of their brothers, even when it was wrecking homes. When a woman was made an invalid simply because her husband had "sowed his wild oats," she was kept in entire ignorance of the cause of her suffering, and perhaps her own daughter was exposed to the same danger. These things are beginning to be different now and I think there will be an even greater change in the next few generations.

Of course this is a case where loyalty was unjustifiable, but it shows what loyalty can do.

No woman should be contented even if she herself is mentally and socially and economically her old master's equal, unless she believes that her whole sex is on the high road to becoming the same.

And no woman should be pleased when a man, no matter how highly he professes to reverence her, adopts a slighting attitude towards her sex.

And now Mr. "A Bachelor," after that little talk, have you any further doubt to which sex I belong?

Ruth Cameron

A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles.

Every woman ought to know that she may obtain the most experienced medical advice free of charge and in absolute confidence and privacy by writing to the World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for many years and has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription.

IT MAKES WEAK WOMEN STRONG.

SECK WOMEN WELL.

The many and varied symptoms of woman's peculiar ailments are fully set forth in Plain English in the People's Medical Adviser (308 pages), a newly revised and up-to-date Edition of which, cloth-bound, will be mailed free on receipt of 50 one-cent stamps to pay cost of mailing only. Address as above.

HOUSEHOLD NOTES.

If fancy shaped croutons are used for garnishing, touch the under side with white of egg. They will then stay in place.

An old toothbrush or nailbrush is excellent for cleaning silver, but the final polishing should be done with camellia skin.

Macaroni, prepared in any of the various ways in combination with cheese, butter and tomatoes, is very nourishing.

Ten stale macaroons, mixed with stiffly whipped cream and sprinkled with pistachio nuts, makes an easily improvised dessert.

Meat loaf of chopped veal or beef can be made just before baking.

A variety may be secured by baking potatoes with a slice of bacon inside. The bacon is put into a hole made by an apple corer.

A French dainty possible from canned goods is sliced French green beans, served on lettuce, with either French dressing or mayonnaise.

A few tiny pieces of lemon rind added to a cream sauce for oysters, fish or lobster, give a decidedly piquant and dainty flavor.

Few skins can stand glycerine, and it should never be used without being diluted. Otherwise the skin will become dry and parched.

Washing soda should not be used upon china, as it will take off the glaze. Try clear hot water, but not hot enough to crack the china.

A few drops of paraffin added to the shoe blacking will impart a good polish to damp shoes and also help to preserve the leather.

When running dates, figs or raisins through the food chopper, add a few drops of lemon juice to prevent the fruit from clogging the chopper.

To make a tough steak tender, rub it on both sides with vinegar and olive oil, thoroughly mixed, and allow it to stand for two hours before cooking.

If table silver is placed in hot soapsuds immediately after being used, and dried with a soft clean cloth, much of the work of polishing will be saved.

A tasty salad is made of chopped celery, seasoned with chopped mint and mayonnaise. Put between slices

At Last an English Chemist Has Discovered How to Grow Hair.

McMURDO & CO. HAVE IMPORTED IT.

In England the ladies have entirely abandoned wearing hats, which is due entirely to this new discovery.

It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-looked-for article is proven every day.

The Americans are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale.

This preparation is called SALVIA, and is being sold with a guarantee to cure Dandruff and to grow hair in abundance. Being daintily perfumed, SALVIA makes a most pleasant hair dressing. McMURDO & Co., your druggist, is the first to import this preparation into St. John's, and a large, generous bottle can be purchased for 50c.

For sale by dealers everywhere.

Of bread, it makes a dainty supper sandwich.

To revive root vegetables that have withered, slice off the end of each and lay in cold water. In a few hours they will be as hardy and healthy as ever.

Always lower the temperature of the oven somewhat fifteen or twenty minutes after a roast has been placed in it. This will insure that the juices will be retained.

Water may be added to the beaten white or beaten whole egg used for tipping croquettes. The proportion is a tablespoonful for the white and vice as much for the whole egg.

Brown bread, cut into thin slices and spread with strawberry jam or each marmalade, and covered with a layer of cream cheese, makes novel and delicious luncheon sandwiches.

A dry shrapoo of cornmeal is very leavening if properly done. The meal should not be allowed to get too close to the scalp, and should be brushed out with a gentle, lifting stroke.

When Your Watch Gets Magnetized.

Very often a traveller on one of our electric railways discovers after a few days that his watch is losing a half hour a day, or more, from becoming magnetized by the dynamos, a newer stations where the most modern machines are used there is so much danger from these "stray" magnetic fields as there is around older types of machines.

The apparatus used by jewellers or correcting this trouble consists of an elliptical piece of soft iron with a hole in the centre large enough to admit the watch to be inserted. Over the iron are wound a number of layers of fine insulated wire. Alternating current is sent through the wire, and if there is none handy an additional device, known as a polarity changer, must be used with direct current.

With very little trouble and no expense anyone may demagnetize his watch by a simpler method. Take a heavy thread or a light string, about 1 foot long, and tie the ring of the watch to it. Hold the string with one end and turn the watch around until the string is twisted about fifty turns. Allow the string to unwind, and as the watch revolves pass it slowly back and forth about two inches above the fields of a motor or dynamo, not smaller than a quarter horse-power, while the machine is running. Great care must be taken to keep the watch revolving constantly while it is over the motor.

A Deaf Man's Courtship

The "Deaf Times" prints a story of two men who were seen talking on their hands on the top of an omnibus. Their conversation ran thus:—"I want your advice."

"I shall be happy to oblige you."

"Well, you know, I'm in love with Mabel. At last I made up my mind to propose to her. Last night I made the attempt."

"And she refused you?"

"That is what I am coming to. I don't know whether she did or not. You see, I was somewhat embarrassed, and the words seemed to stick on my hands. And there she sat, as demure as a dove. Finally my fingers stuck together, and I could not say a word. Then Mabel got up and lowered the gas."

"Well?"

"Well, what is bothering me is this: Why did Mabel lower the gas—to encourage me and relieve my embarrassment, or so that she could not see the talk and so stop my proposal?"

Mr. Turnbull Disclaims Declaration Attributed to Him by Judge Prowse

On Tuesday Judge Prowse contributed an article in which he made the following statement:—

"The quality of our coal is universally admitted to be the best in America. The mines are near the water, and the railway, and the latest investigator, Mr. Turnbull, C.E., declares that the quantity is unlimited."

Mr. Turnbull called into the office this morning in reference to the part of the statement we have printed in black type. He disclaims the statement. He says that Judge Prowse's statement is absolutely unauthorized. He has seen Judge Prowse only once, and that was months ago, before he left St. John's in May last to prospect for coal. He has made no statement to Judge Prowse in reference to the coal he prospecting, nor has he had any communication whatever with him in reference to it. Nor has he made any report whatever to anybody in reference to the matter. He was engaged to prospect a certain area for coal, and has not yet sent to London his official report, which he had with him, in his pocket, and which no one has seen, nor does anybody know what is in it. He is not prepared to say anything about the result of his prospecting. He is not authorized to make any statement on the subject. Mr. Turnbull returned to St. John's yesterday morning and has not been in St. John's since last May.

Reckless statements like the above, absolutely unauthorized and without foundation, can only harm the Standard of Empire, London, appeared a message from St. John's stating that Mr. Turnbull had uncovered a seventeen foot seam of coal and that there were millions of tons there. Mr. Turnbull disclaims this report also. It is not we were also surprised to learn from the same journal that in June fish struck in in immense quantities from St. John's to Northern Labrador, and in another message we learn that fish had struck in from Cape Race to Northern Labrador.

Enlarging His Business

Mr. B. Friedman has taken over and will occupy the store next to the one he has already occupied on Water St. He will now conduct business at 295 and 301, the latter having been formerly held by C. L. March. Mr. Friedman is having the place fitted up in first class style and will lay in a large stock of furniture and dry goods. He has two car loads of freight on the road. Mr. Friedman is a hustler and deserves to succeed.

The Ter-Centenary.

Now that the regatta is over and the Day of the Races has been celebrated with all its old time fervour, the way is clear for the celebration of the most important historic events in connection with the founding of our Island Home. The people of Cupids and those of Harbor Grace, assisted by the members of the Historical Society and other friends at home and abroad have long been up and doing to celebrate in a fitting way the founding of Cupids and Bristol's Hope. The old port of Bristol has also done its part in sending a delegate and a tablet. We have already mentioned that the Rev. Mr. Stacey is here as the representative of Bristol. It was a happy idea to send a Newfoundlander long resident in the old country to keep up the memory of the old association of Bristol with the early attempts at settlement in Newfoundland. As the people of Conception are doing their part and the townsmen of Bristol theirs, it is desirable that the people of other parts of the Island shall not be backward in supporting the efforts which have already been made.

Drowning at Torbay.

Capt. North of the Lunenburg banker, "The Standard" of the city this forenoon and reported the drowning of one of his crew at Torbay at midnight. The vessel has 1,200 qts. of fish to date for dories, and arrived at Torbay Tuesday evening. The drowned man's name was Freeman Risher, of Lunenburg. He slept in the forenoon, about midnight, and his messmates discovered that he was missing and reported to Capt. North. The man had been drinking yesterday and came on board under the influence last night. It is believed that when he awoke he went on deck to get the air and while sitting on the rail fell overboard, no outcry was heard by the rest of the crew, and the captain reported the matter to the authorities. Risher was a married man, 45 years of age, and leaves a wife and two children at Lunenburg. The captain will, if possible, get the people of Torbay to sweep the waters of the harbor with seines and thus recover the body.

ACCIDENT ON FLORIZEL—One of the cranes of the Florizel met with an accident between here and New York and Halifax. The door of one of the smoke boxes fell on him and crushed both his arms very badly. There were a couple of doctors on board as passengers and they attended to the man who will not be able to work for some time to come.

DAVIS & LAWRENCE CO., Montreal.

Off for British Columbia

By the express on Tuesday the Newfoundland delegates left for Victoria, B. C., to attend the General Conference of the Methodist Church which opens its proceedings on the 17th inst. The contingent left by special car under the direction of Mr. Lambton of the Intercolonial Railway. They are expected back in September.

Amongst them were, Rev. T. B. Darby, B. A., President of the Nfld. Conference, and Mrs. Darby; Rev. W. H. Dotechin, Rev. Geo. Faine and Mrs. Faine, Rev. Dr. Curtis, Mr. A. A. Holmes, Judge and Mrs. Penney, Hon. H. J. B. Woods, Mr. and Mrs. Arthur Mews, Mr. and Mrs. John Leamon, and Mrs. Stovey, at Pleasant Junction, where the train was kept waiting for nearly three hours the party was joined by Mr. and Mrs. G. A. Buffett of Burnt.

Florizel Arrives.

The Florizel arrived in port from New York via Halifax at 8 o'clock this morning, after a fair run. She brought about two thirds cargo and the following passengers:

Rev. P. V. Keating, Mrs. J. Lawrence, M. Knight, J. Forbes, Mr. and Mrs. F. W. Main and child, Mr. and Mrs. J. H. Sherholz, Miss M. Baxter, W. B. Johnson, L. M. Slack, W. D. Shields, Dr. W. McMurd's Store News

THURSDAY August 4. Many ladies will to-day be looking for something to remove the effects of yesterday's sunshine. We strongly recommend our Cream of Lilies. This will give instant ease to the skin, relieve the burning and redness and restore the skin to its natural color. Price 25c.

Common Sense Exterminator for Rats and Mice bids fair to supersede all other things of the kind. It is quick and certain, it bounds and destroys the vermin, and they will not die in the house. Altogether, it is better than anything else we carry, for the purpose, and we never fail to recommend it. Price 30c a bottle.

Notes of Thanks.

On behalf of the Grand Falls boys I beg to offer my sincerest thanks to the Regatta Committee for the many kindnesses shown our swimmer, Mr. Johnstone.

On behalf of Mr. Johnstone I wish to thank Mr. John P. Grace for his very kind attention to Mr. Johnstone preliminary to the race. MORTIMER SKINNER, Chairman Grand Falls Regatta Excursion.

CAPE REPORT.

Special to the Evening Telegram. CAPE RACE, To-Day. Wind W.S.W., gentle weather, fine; the steamers Kilkool and Thyra, passed in and Sygna west yesterday, the Florizel passed in at 6.30 to-day; several schooners are travelling out here and appear to be doing fairly well. Bar. 29.60 Ther. 59.

Racing Records.

Yesterday's date in 1890 saw our annual regatta in progress and the Amateurs in the Iris did the course in 10.02; nine seconds better than yesterday's time. The Iris was a fine boat, built by Mr. Philip Mahoney, and her crew were: C. Webber, cox.; W. H. Rennie, stroke; W. J. Martin, F. Barnes, F. Hayward, A. R. Hayward and Geo. Mackay. The Glance, which went on the lake for the first time on Regatta Day, August 7th, 1895, took nine first prizes. Like the Guard did yesterday. One of her first places was one without opposition when a crew of four-oared fishermen rowed the course alone. In 1898 she also won 9 first prizes, and in '97 and '99 she was first in 7 races. The Myrtle in her second year won eight first prizes, and in 1889 her Amateurs did the course in 10.02.

Obituary.

It is with deep regret we chronicle to-day a very sad death in the person of Mrs. L. Lawlor, wife of Mr. L. Lawlor, engineer, Reid Nfld. Co. The cause is peculiar so much so that she was but married in January past and that her husband who is engaged on the new Branch Railway was not at home when she died. Mrs. Lawlor was familiarly called, was head milliner for years with the firm of Hon. G. Knowling and was a general favorite with all the employees. She was a daughter of the late Patrick Duffy, who pre-deceased her some two years ago. To her husband, mother, brother and sister, we tender our heartfelt sympathy in this their hour of trouble.

More Bankers Arrive.

The banker Russel H. Penty, Capt. Penty, arriving from the Grand Banks Tuesday evening after a two weeks trip with 300 qts. fish. She the Gibraltar at South Branch. Mr. Wagstaff caught a ten pound salmon yesterday at Black Duck River.

Judge Prowse Complains.

I send you the editorial comments from the Manitoba Free Press on my article about the Hudson Bay route. You can see that it will when initiated give valuable employment to our sealing steamers. My attention has been drawn to an attack on your humble servant in the Western Star, copied by P. T. McGrath in the Chronicle. No one enjoys abuse more than I do; the humor of the thing tickles me. The author of the article is rather candid and disgraced in doing good work for the Colony, such as writing her history and saving her from ruin by carrying the Bank Act, which everyone declared was impossible. No doubt I shall catch it now for trying to get our coal operated on a commercial scale. It is rather a scandal and disgrace to the Colony although coal has been known for 150 years it still lies idle and unworked. D. W. P. Aug. 4, 10.

TWO CABLE SHIPS.—Two cable ships are now in Bay Roberts where they will land the cable, to-day.

Fishermen on Strike.

Friday last saw 22 vessels fishing out of Grand Bank in port after the caplin school had finished. They had from 200 to 600 qts. of fish, and among the three hundred fishermen of these vessels there was quite a future. These men who naturally have a great interest in the price of fish contend that \$4.50 and \$5.50 according to grade, which the vessel owners are offering for that part of the voyage which is already marketed is not a satisfactory figure. They claim that from \$6 to \$6.25 has been paid for all the fish caught between Cape Race and Cape Bay since the opening of the voyage. The owners of these vessels in this case are exporting their own fish and are allowing the men \$4.50 to \$5.50 per qt., which the fishermen consider too low. Saturday morning last all hands struck, and the few crews who remained on the vessels were forced to abandon their work, though no breaches of the peace occurred. There was a formal protest made against the action of the Grand Bank vessel owners as regards the price given. It is alleged that these people paid \$6 for what fish they bought to others, and the fishermen now refuse to accept \$4.50 and \$5.50 for their catches.

Police Doubt Story

That Chicago R. R. President Was Killed by a Burglar—Advance Theory That He Shot Himself.

Chicago, July 26.—Ira G. Rawn, President of the Chicago, Indianapolis and Louisville railroad, died of a bullet wound at his summer residence in Winnetka, 15 miles north of Chicago, early to-day.

Members of Mr. Rawn's family says that he was killed by a burglar. The police are working on a theory that Mr. Rawn killed himself. As a basis for the suicide theory, the police advance the following reasons:

They point to the fact that Mr. Rawn was operating vice-president of the Illinois Central railroad at the time fraudulent car repair contracts were put through, and that recently he has been drawn into Illinois Central graft investigation as a chief witness.

They say that the action of Mr. Rawn's relatives in refusing the aid of the Chicago detective department to search for the alleged murderer is suspicious. They declare that there exists a lack of convincing evidence that the intruder had actually been in the Rawn residence.

Mrs. Rawn, widow of the dead man, R. G. Colburn, his son-in-law, Mrs. Colburn and two children and three

maids, were in the house when the tragedy occurred.

Mrs. Rawn says that her husband was aroused from sleep at 1.30 o'clock by a noise on the first floor of the residence.

Dr. de Van's French Female Pills

A reliable regulator; never fails. While these pills are exceedingly powerful in regulating the generative portion of the female system, they are strictly safe to use. Refuse all cheap imitations. Dr. de Van's are sold at \$3.00 and \$5.00 a box. Mailed to any address. The Scobell Drug Co., St. Catharines, Ont.—this

residence. She says Mr. Rawn picked up a revolver in his room on the second floor, started down stairs and was shot on a landing half way down. A minute search of the front hall and adjoining rooms of the residence, however, show but one bullet, that fired from Mr. Rawn's revolver, and which apparently had passed through Mr. Rawn's body just below the heart.

Friends and business associates of the dead man say he had been looking badly for several weeks. Some attributed Mr. Rawn's worried expression to the investigation of the conspiracy by which the railroad claims it was muled out of hundreds of thousands of dollars. This

is now going on in court.

Mr. Rawn left the Illinois Central railroad November, 1909, and became president of the Monroeville early this spring the Illinois Central frauds came to light. Though the investigation is not in such shape that any criminal responsibility for the frauds is fixed, it is declared that the railroad reputation of some persons involved would be ruined and their futures blotted out.

At the first hearing before Master in Chancery, Thomas Taylor, jr., Mr. Rawn testified that the car repair contracts all came under his supervision. He admitted that he was responsible for farming out the cars to the various repair companies.

Special to the Evening Telegram. PARIS, Aug. 3. King Alfonso of Spain and his Queen, Victoria, who are stopping here en route to England, were the guests of President Fallieres at luncheon to-day.

Special Evening Telegram. PARIS, Aug. 3. King Alfonso, who with his Queen is the guest of the French Republic, had a long conversation with Premier Briand last night. It is presumed that the religious situation in Spain formed the subject of discussion.

Special Evening Telegram. WILHELMSHAFF, Aug. 3. It is reported in naval circles that Turkey is negotiating for the purchase of two German warships in addition to the battleships Brandenburg and the Kurfurst Friedrich. These are the battleships Weissenberg and the Worth.

Special Evening Telegram. HAVANA, Aug. 2. At a meeting of the Liberal Club last night held to ratify the municipal nominations, Gen. Asbert, Governor of Havana Province, and Diaz de Villegas, Sec. of Finance, in the Cuban Cabinet, exchanged blows. A band of negroes armed with clubs broke into the building and a general fight ensued in which many persons were injured.

Special to Evening Telegram. BRUSSELS, Aug. 3. Falling from a great height Nicholas Kinet, the Belgian aviator, was instantly killed to-day. Kinet was flying at a height of about 600 feet when he was caught in a squall. The machine crashed to the ground and Kinet was crushed under it.

Special to the Evening Telegram. MADRID, Spain, Aug. 2. The Liberal press officially denies the insinuations of the Vatican that it only demanded the withdrawal of the bill prohibiting further religious orders until the Concordat has been revised, and also points out that the bill in question did not violate the Concordat which recognizes only light orders. The Liberal says:—"Pope Pius X. is now awaiting what will be reported in following the advice of two Spanish Cardinals."

Special Evening Telegram. COWES, Isle of Wight, Aug. 3. The American schooner Westward won the race for the Kaiser's Cup this morning over a course of 47 miles. The breeze was light, and all the boats set every yard of canvas which would draw. The Westward crossed the line too early under an over eager skipper and was forced to put about and recross the line behind its opponents. Sailing with remarkable speed, however, the Westward soon made up its disadvantage.

Special to Evening Telegram. LONDON, Aug. 3. Parliament will adjourn early next week until November. The event of the past week in the House of Commons was the passage of the King's Declaration Bill. The Government was apparently unable to jam the original bill through without amendment but the deletion of the offensive phrase "As by law established", drew the teeth of the Opposition. The Government triumphantly carrying the Bill by a majority of 342. After all its threats the Opposition proved weak in argument and numbers. Under the amended bill, the Sovereign merely asserts his Protestantism and that he is not in communion with the Church of Rome.

Special to Evening Telegram. MADRID, Spain, Aug. 3. The agitation among the Roman Catholic population in Northern Spain who are in great part siding with the Vatican in the pending conflict with the Spanish Government is steadily assuming larger proportions. The organizers of the proposed manifestation at San Sebastian against the Cabinet of Premier Canalejas and its policy toward the Vatican declared that the demonstration will take place. In spite of the refusal of the authorities to grant permission for it. They expect 100,000 "Churchmen" to visit the summer capital and take part in the demonstration before the King's Palace, Aug. 7th. The prohibition of the demonstration was issued. It is said, upon the representations of tradesmen that it might easily develop into serious disorder.

Special to Evening Telegram. SAN SEBASTIAN August 2. Carlos Prieto, the Minister of Foreign Affairs, in an interview to-day in which he recited the history of the negotiations between Spain and the Vatican, denied that the Holy See had adopted a conciliatory attitude. He added, "The Government asked only two things: first the suppression of the Convents and Monasteries which entered Spain illegally, and which entered the Papacy, and second that the Pope should authorize the Bishops to suppress or transform the establishments unnecessary to the aid of the priests in their administration. The Government offered a year for the transformation, which was desired by the secular clergy whose existence was gravely compromised by the monks." Senor Prieto declared that Cardinal Merry Del Val the Papal Secretary of State had adopted dilatory tactics from the first, alleging that the speech from the Throne contained points against the Catholic religion. "We protested our good faith and desire to reach an agreement," said the minister, when we informed the decree of 1902 which neither Curia nor Bishops had protested. Cardinal Merry Del Val demanded that the decree remain a dead letter, although the Vatican has since that date granted numerous authorizations without the sanction of the Spanish Government.

Became Insane.

One of the crew of the Susu, the boatswain of the ship, became violently insane at Mrs. Gibbons' boarding house yesterday. The unfortunate man about 9 years ago accidentally caused the death of another man while out shooting down north and this so affected him that it drove him insane. It took the united efforts of Inspector Collins and Consts. Devine and Fagan and another officer to get a straight jacket on him. He was taken to the Lunatic Asylum.

He must surely be a pessimist who asserts that interest in our great national fête day is on the wane. Mention Regatta Day or "the day of the races" and he will be designated a callous Newfoundlander, who hearing the words will not feel or thrill of pleasurable anticipation. This applies to all necessarily so. Our rock begirt island defies old Atlantic when her mood is unpleasant; her stormy billows beat in vain against her rugged sides, but when placid wavelets lave her strands old Terra Nova smiles serenely and still stands an ocean sentinel, reeking not of storm or calm but nurturing a race who must perforce reflect in themselves attributes which bespeak their nationality. What though they be the scions of the Celt or Saxon they prefer the little Newfoundlander. In this the blood of the races merge, and if they live by the sea they feel no shame in owning the fact. Looking at the record of the race it is not surprising that their pastimes should be associated with the sea, and it is conceivable, therefore, that Newfoundland's national pastime should be any other than aquatic, and long must it be so. Yesterday the people of St. John's witnessed the personification, so to speak, of what we have outlined in a brief way above. It was the day of the races—a day which all, rich and poor, gentle and simple, enjoy. The excellent committee, over which Hon. John Harvey presides, left no stone unturned to make the 1910 a memorable regatta, and that they succeeded in doing so is admitted on all sides. The regatta has been looked forward to for weeks past, and yesterday the whole city was en fête. The morning broke cloudy but calm, and it looked like an unfavorable day. Still the glamour of the races was over all, and by 9 o'clock the avenues leading to historic Quidi Vidi were blocked with people of all ages, classes, and professions making for the lakeside. By 10.30 o'clock fully 10,000 people, it was roughly estimated, had assembled on the course, and few of these returned home before the last race was witnessed. The weather was ideal and the gleam of the morning gave way to bright sunshine and blue skies. The course presented an animated scene. The "head of the pond" was occupied by tents from which bunting flew gaily; the north side also held many bunting bedecked marquees, and private tents were set all over the landscape on the south side of the lake. It was indeed a pretty sight, and a marvellous feature was the order which prevailed. The dancing galleries were well patronized, and all throughout the day, the tents did a splendid trade. The band of Prof. Power discoursed a splendid programme of music and the events went off in the following order:—

MATEURS.
This was the first race for the day, and the Guard, Red Lion and Blue Peter contested. At 9.45 p.m. the boats were started and it was a pretty sight to see them go down the pond. It was nip and tuck, to use a local phrase, and opposite the Committee tent the Blue Peter led, with the Guard a close second and the Red Lion third. It was a pretty race on the "downward" course. Opposite Croker's river the Lion was in the lead, but at the buoy the Peter was first to turn, followed by the Lion and Guard in the order named. Coming home, when above Croker's river, the Peter led the others, the Red Lion came next and the Guard last. The Blue Peter reached the winning post fully three lengths ahead of the Red Lion which was second, and the Guard came last. Time, 10 mins. 11 secs.

TRADESMEN.
Three boats took their positions at the winning posts in this race—the Red Lion, Blue Peter and Guard. The boats were pretty steady, the crew of each taking the water together. Shortly after passing the Committee tent the Guard boys put on a spurt and forged ahead, followed by the Lion and the Peter third. They turned their buoys in the same order, and for a while it looked as if the fight for first place would be between the Lion and Guard. The Peter gained considerably when the boats started to come home. The Lion had an ac-

cident shortly before taking the buoy, the stroke, Brown, springing his oar, so that he could not put his whole weight on it afterwards. The Peter made a game fight coming up the pond for second place, and it looked as if she would push the Lion. Before they came opposite the Committee tent the Lion's crew spurred, their stroke broke an oar and had to finish using a half one. The Guard won the race "hands down," coming first by fully four lengths, while the Peter and Lion had a hard struggle, and the former finished about a half length ahead of the latter. Time, 10 mins. 6 secs.

MERCANTILE.
Bowring's crew in the Pink-Un and the Royal Stores in the Blue Peter entered for this race. Both boats made a good start and it looked as if the race would be a dead heat for a time. The boats turned together, but the Pink-Un made the turn quicker and straightened well before the Peter. Coming home the Pink-Un had it all their own way and finished more than three lengths ahead of the Peter. Time, 10 mins. 08 secs.

SOCIETY.
In this very interesting race four boats lined up. These were the Pink-Un (People's Club), Guard (N.B.S.), Peter (C.E.T.S.), and Red Lion (S.U.F.). These four fine boats, manned by excellent crews, made a very good start. Down the lake they went almost neck and neck with the crews pulling a very quick stroke. When just about the Committee tent the steady stroke of the Guard's crew, well sustained, began to tell and she shot ahead, and getting to the buoys was fully two boat lengths ahead of her nearest opponent, the Red Lion. The Blue Peter was third and the Pink-Un last. The boats finished up in the order named with the British in the Guard the winners. Time, 9 mins. 54 4-5 secs.

PRESS.
Like the subsequent Fishermen's Race the Press Race was certainly a surprise. The Chronicle crew were the favorites and it was impossible to get a bet against them. Three boats entered, the Blue Peter (Chronicle), Guard (Herald), and Red Lion (Mixed). The boats made a pretty start and going down the course until the Committee tent was reached it looked as if the Peter would capture the race. The Herald boys, however, were to be reckoned with, and the course was not half run in the row for the buoys before the Guard had overhauled her antagonist and led at the turn by fully a length. The Lion up to this time had put up a plucky fight and had pushed the Peter, but made a bad turn and lost headway as a result, so that she could not recover the distance which she lost by the bad turn. The Herald led in the Guard made a splendid race of it and people were surprised when they saw them coming home with such a good lead. She finished fully four lengths ahead of the Peter, which led the Red Lion by a couple of lengths. Time, 10 mins. 30 secs.

There is only one medicine that can prove thoroughly satisfactory in complicated ailments of the liver and kidneys, and that is Dr. Chase's Kidney-Liver Pills.
They begin by regulating the bowels and awakening the action of the liver, thereby effecting a thorough cleansing of the excretory system. By thus removing the poisons from the system they lighten the work of the kidneys and gradually restore them to health.
Nobody who once learns of the definite and certain action of Dr. Chase's Kidney-Liver Pills in regulating and purifying the kidneys, liver, and bowels, is willing to take chances by experimenting with other medicines.
Such ailments as biliousness, constipation, chronic indigestion, liver complaint and kidney disease yield readily to this treatment.

betting was freely indulged in over it. The favorite crews were the Guards and C.L.B. with odds slightly in favor of the latter. With a splendid team and undoubtedly the best boat it would be hard to get a bet against the Guard before the race started. The Guards in the Guard, Highlanders in the Red Lion, C.L.B. in the Pink-Un and C.C.C. in the Pink-Un made a good start and to the T. A. boat house the four boats kept together. Shortly after this, though, the Guard could be seen forging ahead, and turned well clear of the Peter. She kept well ahead coming up the pond and beat the Peter by over four lengths, with the Pink-Un third and Lion in the rear. Time, 10 mins. 01 sec.

SWIMMING.
This was a race in which much interest centered, as the general public were eligible to enter, and at the same time the Brigades had men in the contest also. There were 8 general contestants, while the Highlanders entered 3 lads, the C.C.C. 5, M.G. B. 1, and C.L.B. 4. Thos. Johnson of Grand Falls won but was hard pushed by C. Stanley of the city, who came second. Johnson, though quite a young chap, is a powerful and fast swimmer, and won in 4 mins. 58 2-5 secs.

The winner of the Brigade section gave the assembled multitude a surprise. This was W. St. George, a lad who is not yet 14 years old, and a member of the Catholic Cadet Corps. He showed excellent grit for one so young and certainly proved himself to be a splendid swimmer. Snelgrove of the C.L.B. followed St. George second. Johnson won a handsome cup and St. George the handsome MacGregor shield.

The interval now occurred. Just before the Brigade Race went off the Administrator, Sir E. D. Shea, accompanied by the acting Premier, Hon. R. Watson, arrived on the ground and were greeted by the strains of the National Anthem from Prof. Power's band. After the Swimming Race the trophies were presented to the fortunate winners, a list of which are given below. A dense mass of spectators surrounded the grand stand and Hon. Jno. Harvey, the President, welcomed the public on behalf of the Committee, and especially the guests of that day. He thanked those who had supported the Regatta by subscriptions and otherwise, was glad to see such a spirit of friendly rivalry, and was glad to see the boat owners take such a great interest in our great Derby Day. He made particular reference to Mr. George Marshall, who helped in every way possible to make the Regatta a success, and was one of the principals in having the few and beautiful racer, Guard built. He spoke of the prize given so generously by Lord Brassey, and told the fishermen if they were not satisfied with the result of their coming race that their revenge in the final race. Here the President paid a deserved word of praise to Hon. W. C. Job, whose aid to the Committee in running a successful Regatta each year he highly appreciated. Mr. Job's name was received with a storm of applause, and when his good lady was called on to present the prizes she was the recipient of an ovation. As each crew went forward to get their premiums Mrs. Job had a kindly and encouraging word for them, and as the

men left the stand they gave her hearty cheers, in which the President shared with Mayor Ellis and the Committee. After the presentation the Committee adjourned to Mr. Joseph-Ross's hotelery where they partook of a capital luncheon, excellently served and which brought congratulations to Mr. Ross from all the participants. President Harvey made another short but eloquent address, felicitating the Committee on the success of the sports and for which they had so earnestly worked. Amongst the guests besides Hon. R. Watson was Mr. John McLea, father-in-law of K. R. Prowse, Esq., an old time oarsman, who had rowed the Underline when the late King Edward was here as Prince of Wales. Mr. Harvey's kindly references brought from Mr. McLea a very happy speech, which all applauded. After luncheon the programme was continued and the next race to start was the

FISHERMEN'S.
"Greek met Greek" in this. Four boats manned by splendid crews lined up at the winning posts. These were the Guard (Torbay), Red Lion (Bell Island), Blue Peter (Outer Cove) and Pink-Un (Flatrock). This race was a surprise, for the crew expected to win were the Outer Cove men, the champions of many aquatic fights. A splendid start was made, and going down opposite the Committee tent the boats with their crews rowing a quick stroke presented a pretty spectacle. To this point the Pink-Un led, but soon Outer Cove in

the Peter overhauled and went ahead of them only to be in turn caught by the plucky Torbay men, who in the Guard turned the buoy first with the Peter second, Lion third and Pink-Un away behind. The Torbay men made a splendid race of it, rowed a dashing stroke and beat the Peter by about three boat lengths. The Lion came third and the Pink-Un dropped out. Time, 9 mins. 36 2-5 secs., which was slightly better than last year's.

LABORERS.
The Lion, Peter and Guard entered for this race. The start was good and the boats went down the course neck and neck. Shortly before taking the buoys the Guard forged ahead, turned first and was brought home in capital style, beating the Lion, which was second, by two lengths, with the Peter last. Time, 10 mins. 18 2-5 secs.

FOOTBALL.
Only the Blue Peter (B.I.S.) and Pink-Un (C.E.I.) rowed in this race and both boats made a pretty race of it going down and coming up the lake. Neck and neck they came up, but just before the finish the institute boys spurred and won by little less than a length. Time, 10 mins. 13 secs.

JUVENILE.
The Red Lion (C.C.C.), Guard (M.G.B.), and Blue Peter (C.L.B.) rowed in this race. They made a capital start and were together at about half the pond. In shaping for the buoys the Peter shot ahead with the Guard a good second and the Lion last. On

the home stretch the Guard gradually overhauled the Peter and beat her by a third of a length. Time, 10 mins. 53 secs.

FACTORIES.
The Pink-Un (Standard), Blue Peter (Imperial), Red Lion (Mercantile Coopers) and Guard (Tab Factory) got away in good shape when this race started. Down the lake the boats went with very little difference between them and they turned the buoys practically together. After the turn the Guard's crew put on a quick stroke and reached the winning post first, beating the Peter by a length. The Pink-Un came third and Lion last. Time, 10 mins. 08 secs.

TRUCKMEN.
The Lion, Peter and Pink-Un ran in this race, and a close race it was going down the Lake. The buoys were reached with nothing to brag of on the part of either boat, but after the turn the Lion's crew of East End teamsters took the lead and kept it, running in two lengths ahead of the Peter, with the Pink-Un last. Time, 10 mins. 15 secs.

NAVAL.
The last race on the programme, the Naval Race, was no less interesting than its predecessors. The Lion (Calypso), Guard (South Side), and Pink-Un (Naval Reserve) entered and the boats put up a splendid race. The three boats rounded the buoys together, and after turning the Pink-Un dropped astern, but an exciting struggle was that between the Guard and Lion. The Guard won the Lion following over a length behind. Time, 10 mins. 53 secs.

CONCLUSION.
After the last race the Torbay men in the Guard rowed the course to try and lessen the Outer Cove men's time of 9.13 2-5 and win the Lord Warden prize. They did the course in 9.35 and clipped one and three-fifths of a second off the time they made in the Fishermen's Race. The greasy pole was a feature of much interest, and Mr. P. F. Moore and Mr. Stein made it a complete success. Several prizes were won and the affair created much amusement.

The Regatta of 1910 has now passed into the realm of history, but it is safe to say that not a more enjoyable day has been afforded the public for many years. Hon. Jno. Harvey and the able Committee associated with him worked with a will and never spared themselves devoting time and energy to the task of affording the public a splendid sports day. While such men as Mr. Harvey are interested in our Regatta it must always hold first place in public estimation. The Telegram congratulates the Committee on the great success of this year's Regatta.

A Satisfying Food.

Appetite is Nature's signal for fuel and repairs.

Healthy appetite calls for the simple food elements that supply the natural requirements.

Healthy appetite is satisfied when the proper kind and amount of food is taken into the body at stated intervals. But the wiles of the modern chef and caterer have created in most of us a false and often unnatural appetite which leads into all the different degrees of indigestion, dyspepsia, etc.—food insanity.

Grape-Nuts

is a satisfying food—it is composed of the natural elements to satisfy the natural appetite and restore order in the digestive machinery which may have been thrown out of gear by improper though often "fashionable" foods.

The crisp, firm, "nutty" granules of Grape-Nuts make honest mastication necessary. Its wholesome flavour makes it appetizing, and the albumens, carbohydrates and Potassium Phosphate from the whole wheat and barley, makes it a satisfying food—both to the sense of taste and to the body needs.

Ten days' trial will convince any one that

"There's a Reason" for Grape-Nuts.

More Stray Fishermen

Two of the crew of the schr. "N. E. Smith," J. Keeping and R. Dodge, were picked up by the U. S. Banker Marguerite last Monday evening and brought into Bay Bulls. They were four days adrift in their dory without food or water, when Capt. Derrick came across them, and had they not been sighted that evening it is believed that they would not survive another night. They were overhauling their trawls about 170 miles S.E. of Cape Race last Monday, and when about to return a dense fog settled down over the ocean shutting out every object a gunshot around. They had no food and no water and suffered terrible agonies under the broiling sun. Saturday the fog lifted, but they saw no sign of any vessel. They managed to save a little rain water to quench their thirst by spreading their sail to catch it. It allayed their sufferings only for a short time. They rowed for a whole day and night without stopping in the direction where they thought the land lay, but they became exhausted on Sunday and lay down to die. When the Marguerite bore down on them they were unconscious and knew not that rescue was at hand till they were roused up by the men from the Marguerite. Capt. Derrick and his men treated them with great kindness and by giving them small quantities of food at a time brought them around all right. Hon. C. H. Emerson to whose District Dodge and Keeping belong, made all the necessary arrangements for their comfort on arrival here, and accompanying them to the railway station got their tickets for Harbor Breton. The schr. N. E. Smith belongs to John Smith of that place, and is in command of Capt. House, of Catalina, this summer.

The schr. Banshee arrived here yesterday from Oporto to A. S. Rendell & Co., in ballast, 30 days out. The vessel met with thick fogs and contrary winds 200 miles off this coast and had a tedious time making land.

The Direct Cable Co. had 100 men employed yesterday landing the cable at Harbor Grace. The men struck for twenty cents an hour and not long after their wishes not being complied with, the whole gang was knocked off.

DIED AT HUTCHINGS STREET.—Miss Kate Murphy, daughter of the late Mr. John and Margaret Murphy, died at her late residence, Hutchings Street, Wednesday night. The funeral will take place to-morrow at 2.30 p. m.

PRESBYTERIAN CHURCH.—The mid-week service of the Presbyterian Church will be held in the hall at 8 o'clock this Thursday evening. The Rev. John McMillan, D. D. of Halifax will conduct it, and a large attendance is looked for.

We have been requested to remind the men of St. Michael's Congregation of the meeting to-night for the purpose of giving free labour in finishing the excavation of the site for the new channel. As the contractor wishes to begin the work next week it is hoped that as many as possible will lend a hand this evening.

Made Night Hideous.

A gang of young men, one of whom had an accordion, collected on Maxse Street last night and disturbed the residents in their beds by playing, singing and shouting up to 1.30 in the morning. Nobody in the neighbourhood could possibly sleep while they were carrying on. They would not dare do the like on the down-town streets of the city, the police would not let them act so one minute. It is strange that they should expect the people of the back streets of the city should endure such conduct. The police would do well to make a circuit of Georgetown every night and turn such disorderly gangs into the country, so that they would not disturb peaceful citizens.

S. S. Portia Arrived.

The S. S. Portia, Capt. Fitzpatrick, arrived here from the West at 3.30 p.m. Tuesday. Capt. Fitzpatrick who went as far north as Bonne Bay, reports the trap fishery over all along the coast, and the catch below the average. Fairly good work is now being done with the hook and line and trawls from Burgeo to Trepassay. Ten Newfoundland bankers arrived on the coast last week seeking squid bait. They report fish not so plentiful on the Banks the last ten days of July as it was all the season.

Schooner Robbed.

Thieves went on board the schooner Mermaid in the stream yesterday morning, broke open the cabin and stole everything portable while the crew were on the fishing ground outside the Narrows. A valise belonging to one of the crew was broken open and a suit of clothes taken. The police are now on the trail of the thieves.

Notes From Harbor Grace.

Mrs. Gothrope, wife of the manager of the Direct Cable Co., and five children arrived in town last week and took up their residence at Ridley Hall. We welcome our new residents and wish them much happiness in their new home.

We were shown yesterday a specimen of early potatoes grown by Mr. James Cody, Harvey Street. The one shown us was three inches broad and four long, and was a very good potato.

Mr. R. T. Parsons, the popular photographer took a stroll countrywards last evening equipped with camera, &c., securing some pictures of the delightful scenery in this neighbourhood. Many of the visitors to our town will be glad to have some of these views to take to their friends, thus helping to change the opinions of foreigners that Newfoundland is a bleak, barren rock, with an abundance of fog. Mr. Parsons' camera is a truthful little machine, and will reverse that opinion.

The Harbor Grace Volunteer Fire Brigade were out for a practice last evening. A good force of water was found in all places visited, and the men, under the direction of Mr. John

Tapp, each took the places assigned them, as if a genuine fire was being fought.

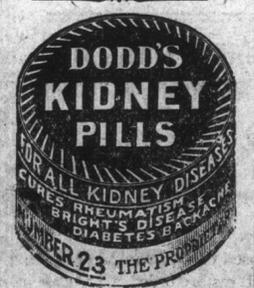

Molasses kisses are now much indulged in by our lads and lasses, particularly on account of the latter part of the name. Formerly if "Pa" or "Ma" were in the house or near by a kiss was impossible, but through the kindness of Mr. Wood, of St. John's, the delightful little things can now be tossed from one to another without fear of detection.

The Cable Company's steamer Talconia, Capt. Hood, arrived here at 9 o'clock this morning, and the welcoming toot! toot! of the factory whistles was the first intimation many of our citizens had of her arrival. Preparations were at once begun for the landing of the cable, and crowds of citizens were soon on their way to the scene to witness the interesting event. The British Band also paraded to the landing place, to the east of Point of Beach, playing in their usual good style. Church, town, fire and other bells were soon clanging merrily in honor of the event. In fact business of every description was at a standstill while the work of landing the shore end of the Direct Cable Company's line was going on. Quite a number of our citizens succeeded in getting a "pull" at the cable, and some little tots who had their hands to the rope will feel proud in years to come to be able to say "I helped to pull the cable ashore on the day of its

landing in Harbor Grace." May the company have much success and the genial local manager and all connected with the company here have a most pleasant stay amongst us.

Mrs. Edward Grace, daughter of Mr. J. C. Ash, arrived last week on a visit to home and friends. Mrs. Grace is from Everett, Mass., and is accompanied by her three children. The visit will likely extend over several months. It is nine years since last Mrs. Grace was in her native town. May her visit be a pleasant one.

THE BIG FURNITURE STORE.

WE are now showing the very latest amusement for children in the shape of a **DOUBLE PATENT SWING**—the first of the kind to be made in the country. It is adjustable and can be used in or out of doors, set up in 5 and taken down in 2 minutes. Just the thing for the country during the summer months. The beauty of this Swing is that it requires no exertion whatever to put it in motion, you sit in and the Swing does the rest. Just call round and see the one we have on exhibition in our Western Window. It will cost you nothing and we will be pleased to demonstrate how it works and give any other information free. **PRICES RIGHT.** jy15,10

Amazon Roofing,

The smooth-surfaced, so called "**Rubber**" Roofing, manufactured by the Barrett Manufacturing Company.

As this Company has a long standing reputation for making the best, this means that **Amazon** is without a superior in "Rubber" Roofings. And further, it means continued and increasing sale to the dealer who pushes this Roofing.

**THE GREATEST INVENTION OF THE AGE,
Family Butter Merger.**

Every Family and Farmer should have one of these MONEY SAVERS. It takes one pint of milk. It takes one pound of butter.

It merges the two together making Two Pounds, that is sweeter and healthier than any creamery butter, giving you TWO POUNDS for the price of ONE POUND that looks the same, gets just as hard, and is for the same purposes as the best butter, that would cost you twice as much for the same amount.

PRICE: \$6.00.

Sent to any address in the Island on receipt of price.
