THE RUSSELL WATCH!

A FEW REASONS THAT MAKE IT SUPERIOR TO ALL COMERS.

1st.—It proves itself a reliable time-keeper beyond all question. 2nd.—The RUSSELL WATCH being made on correct and scientific principles, must follow as a natural consequence that it will keep time.

3rd.—Each part of which the RUSSELL WATCH is composed is a reflex of the perfect machine which, under skillful direction, it is produced. 4th.—Truth is the essential of each part.

5th.—Uniformity and conformity must therefore characterize the several parts in fulfilling the purpose for which they are made and brought together. 6th.—Reproduction, as regards watch work, is simply an application of the principle that "things which are equal to the same things are equal to one another," and if there is any merit, the RUSSELL WATCH possesses that merit to a demonstration.

7th.—The greatest variety of price, quality and size, that confidence and perfection will admit, afforded by the RUSSELL WATCH. 8th.—The RUSSELL WATCH stands pre-eminently above all competitors for public favor and patronage.

9th.—Proofs of the foregoing—the universal testimony of all Watchmakers who have sold, and the positive statements of the thousands in Europe, the United States and Canada, who have worn the RUSSELL WATCH.

To Robert Cuthbert, Watchmaker, Wyndham Street, Guelph. If Society was as perfect in its organization, and was as obedient to the dictates of truth as the RUSSELL WATCH I bought from you is in indicating time, evil would be swallowed up in good, and happiness would become monotonous. G. RENNIE, Guelph.

IMPORTANT! ROBERT CUTHBERT, WATCHMAKER, WYNDHAM-ST., GUELPH.

Evening Mercury.

SATURDAY EVE'G, SEPTEMBER 14.

Local News.

Mr. T. J. Day, bookseller, opposite the Market, Guelph, has received the English magazines for September.

The next fair at the village of Glenallan will be held on the 5th of October, and a good business is anticipated.

A man, named James Greer, of North Easthope, had his leg broken last week by the wagon wheel, while attempting to stop his horse which was running away.

Mr. Thos. Cox, of Mount Forest, has written to the Examiner, published in that village, denying that Mr. McKim ever offered \$300 to obtain the support of the Catholics; or that such a thing was ever hinted at by that gentleman.

A run has been made on the Commercial Bank, Stratford, owing to some reports that were circulated which called its stability in question. The Bank met all demands, and gave the lie to the rumour.

John White, Esq., M.P.P., gave a supper to the employees of the Champion office, and some of their friends, to the number of twenty, on Wednesday night last, in consideration of their extra exertion in printing reading matter for the electors during the contest in Halton.

POLICE COURT.—Last night the Chief Constable found Janet Leith, [of rooster-murder notoriety] in a state of helpless intoxication on Cork-st. He conveyed her to the lock-up, and on her appearing before his Worship this morning she was fined \$1 and costs.

A fire broke out in Branchton on the night of Monday, the 9th inst., by which the store of Mr. Wilcox, together with its contents were destroyed. The loss is heavy. The insurance amounted to \$1400. Origin of the fire unknown.

BATTALION BAND NOTICE.—Mr. Vale, Bandmaster of the 39th Battalion Band, having arrived to assume permanently his duties, the members of the Band are requested to meet in the Firemen's Hall on Monday evening first at half past seven o'clock.

PHOTOGRAPHS OF GREAT MEN.—Mr. W. Marshall has now for sale beautiful photographs—carte de visite size—of Dr. Guthrie, Thos. Carlyle and Tennyson.—They are copies from original pictures obtained in Britain. Mr. T. J. Day has copies also for sale.

The Courts of Assizes on the Oxford Circuit will be held before the Hon. the Chief Justice of Upper Canada as follows:—Simcoe, Tuesday, 10th Sept.; Brantford, Monday, 16th Sept.; Cayuga, Monday, 23rd Sept.; Guelph, Monday, 30th Sept.; Berlin, Monday, 7th Oct.; Stratford, Monday, 14th Oct.; Woodstock, Monday, 21st Oct.

NABSAWAWA VOLUNTEER COMPANY.—We find the following appointments for this Company in the last number of the Gazette:—To be Lieutenant, acting till further orders: Ensign Michael Lyons, vice Easterbrook, whose resignation is hereby accepted. To be Ensign, acting till further orders: Sergeant James Colquhoun, vice Lyons, promoted.

THE NEW DOMINION MONTHLY.—We noticed some time ago that the first number of a magazine bearing the above title had been published by Messrs. John Dougal & Son, Montreal. Mr. Day has now a large quantity on hand, and we can say of this magazine what cannot be said for all that are issued, that not one cent of the price may be lost, for it can be read with untiring interest from the first page to the last.

THE WELLINGTON, GREY AND BRUCE RAILWAY.—The township of Wallace, county of Perth, has by a large majority passed a grant of \$25,000 bonds to this railway. The Bill was submitted to the people of Normandy granting \$50,000 to the Guelph scheme and \$15,000 to the Durham and Angus road, was defeated; but it is said that a by-law will be at once introduced for a similar amount for the Wellington, Grey and Bruce road.

CHANGE OF PULPITS.—To-morrow (Sabbath) the ministers of the Synod of the Canada Presbyterian Church will change pulpits, by agreement, for the promotion of some object which will be defined. In accordance with this arrangement the Rev. Mr. McMillen of Woodstock will conduct the services in Knox's church in the morning, and the Rev. Mr. James of Paris, will do the same in the evening. In Mr. Torrance's church the same gentlemen will preach, but in reversed order. Mr. Ball goes to Paris for the Sabbath, and we have not heard whether or not Mr. Torrance goes to Woodstock, but it is probable he will.

FALL ADVERTISING.—The election excitement will soon be over; the successful and defeated candidates and their supporters will soon shake hands, and resume the even tenor of their respective ways; and the Fall business will ere long commence. This has, upon the whole, been a season of plenty, and there seems to be every indication of a good brisk autumnal trade. People will soon be on the qui vive to see where the best bargains can be obtained. They will scan the advertisements, and govern themselves accordingly. Let our merchants take advantage of the columns and circulation of the Daily and Weekly Mercury to display their wares in the public eye. Then come bills and posters, and "sixteenth sheets," Job printing of every description at the lowest rates and in the best style at this office.

Opening of the Temperance Hall.

The first services at the opening of the Temperance Society's new Hall, Mercury Building, are of a religious character (fittingly so), and to take place to-morrow (Sabbath) afternoon, and are to be conducted by the Rev. Mr. Griffin, Wesleyan minister, commencing at half-past two o'clock.

On Monday evening the ceremonies will be of a somewhat different nature.—Programmes will be issued on Monday, by which it will be seen that an imposing array of talent in the musical and oratorical line have engaged to entertain an audience that we are sure will be large. The new hall has been tastefully fitted up and decorated. It has been seated not with benches, as halls usually are, but with chairs; and a melodeon, manufactured by the Messrs. Bell, has been bought and placed in it by the Society. Thus it will be observed that the temperance men have resolved to draw their pleasures from a less dangerous and purer source than from the "sparkling bowl." Monday evening's performance will commence at half-past seven, and we confidently anticipate an extensive popular interest in the opening of the new Temperance Hall.

A PETITION of a curious nature has been presented to the Assembly at Melbourne in reference to the Education Bill. It was from a number of Chinese, and was written in Chinese characters, accompanied by the English translation. It was addressed "to the honorable and universally respected gentlemen in Parliament assembled, deliberating on the honorable affairs of State, in obedience to the dictates of heavenly reason, and for the furtherance of the well-being of the people." It then stated that the petitioners had heard that a proposal had been submitted for establishing among them Chinese schools for instructing them in their own and in English letters. They felt that the proposal indicated a benevolent heart and philanthropic principles; and, approaching the presence of Parliament with "profound prostration," they hoped that it would give effect to this laudable project, "seeing that it is one that will help to show an ignorant people that we are now to reject the old and to prefer the good."

World Wide Abundance.

Never in the history of the world, says the Galveston Herald, was the supply of food and clothing so abundant as it promises to be the coming fall. The grain crop of the United States is far the largest ever known. The cotton crop will be short, but the supply of the world is ample, nevertheless. The production is no longer confined to the valley of the Lower Mississippi. Cotton, in large quantities, is raised in Southern Utah, and the cotton yarn needed for the territory is manufactured there. This, we think, is to be the common custom—to manufacture a large portion of cotton in the country where it is raised. Not only is the supply increasing in various quarters, but the low price of wool is superseding the use of cotton for many of the objects to which it was formerly applied. From statements recently prepared in England it appears that while the production of wool in Australia had increased from 55,000,000 lbs. in 1859, to one hundred and fourteen and a half millions in 1866—or 108 per cent. that of the river Plate, where the same kind of wool is grown, increased from 40,000,000 to 150,000,000, or 269 per cent. English woolen manufacturers at present depend almost exclusively for their supply of fine wool upon the growth of Australia and the Cape of Good Hope. There is, doubtless, a surplus of cotton and wool, including manufactured goods, on hand, sufficient to supply the markets of the world for two years at least, if no more should be produced at that time, and the supply of wheat and corn appears to be almost as great. This will leave a great amount of labor to be appropriated to internal improvements, and other useful objects, as well as to allow much time to be devoted to intellectual and moral improvements.

CONFESSION OF AN ICKENIARY.

In the telegraphic summary of news published in the London Free Press of Friday, we find the following:—Elias Smith, a Georgetown, a mechanic, was taken to police court here on a charge of having got a man named Penton to sell a large hotel at Oil Springs, for \$50,000, paid the latter \$500. Smith says that the owner of the building, the Cousin, of Owen Sound, had a hotel burned down. Penton then went to the Oil Springs hotel, and on the 22nd ult., burned down the building and was paid \$50 for the same, and rested on suspicion until he was arrested and charged with the crime. Smith says that he is a mechanic, and that he is now to reject the old and to prefer the good.

FALL ADVERTISING.—The election excitement will soon be over, the successful and defeated candidates and their supporters will soon shake hands, and resume the even tenor of their respective ways; and the Fall business will ere long commence. This has upon the whole been a season of plenty, and there seems to be every indication of a good brisk autumnal trade. People will soon be on the qui vive to see where the best bargains can be obtained. They will scan the advertisements, and govern themselves accordingly. Let our merchants take advantage of the columns and circulation of the Daily and Weekly Mercury to display their wares in the public eye. Then come bills and posters, and "sixteenth sheets."

Opening of the Temperance Hall.

The first services at the opening of the Temperance Society's new Hall, Mercury Building, are of a religious character (fittingly so), and to take place to-morrow (Sabbath) afternoon, and are to be conducted by the Rev. Mr. Griffin, Wesleyan minister, commencing at half-past two o'clock.

On Monday evening the ceremonies will be of a somewhat different nature. Programmes will be issued on Monday, by which it will be seen that an imposing array of talent in the musical and oratorical line have engaged to entertain an audience that we are sure will be large. The new hall has been tastefully fitted up and decorated. It has been seated not with benches, as halls usually are, but with chairs; and a melodeon, manufactured by the Messrs. Bell, has been bought and placed in it by the Society. Thus it will be observed that the temperance men have resolved to draw their pleasures from a less dangerous and purer source than from the sparkling bowl. Monday evening's performance will commence at half-past seven, and we confidently anticipate an extensive popular interest in the opening of the new Temperance Hall.

World Wide Abundance. Never in the history of the world, says the Galveston Call, was the supply of food and clothing so abundant as it promises to be in the coming fall. The grain crop of the United States is the largest ever known. The cotton crop will be short, but the supply of the world is ample, nevertheless. The production is no longer confined to the valley of the Lower Mississippi. Cotton, in large quantities, is raised in Southern Utah, and the cotton yarn needed for the territory is manufactured there. This, we think, is to be the common custom—to manufacture a large portion of cotton in the country where it is raised. Not only is the supply increasing in various quarters, but the low price of wool is superseding the use of cotton for many of the objects to which it was formerly applied. From statements recently prepared in England it appears that while the production of wool in Australia had increased from 55,000,000 lbs. in 1859, to one hundred and fourteen and a half millions in 1866—or 108 per cent. that of the river Plate, where the same kind of wool is grown, increased from 100,000,000 to 150,000,000, or 50 per cent. English woollen manufacturers at present depend almost exclusively for their supply of fine wool upon the growth of Australia and the Cape of Good Hope. There is, doubtless, a surplus of cotton and wool, including manufactured goods, on hand sufficient to supply the markets of the world for two years at least, if no more should be produced at that time, and the supply of wheat and corn appears to be almost as great. This will leave a great amount of labor to be appropriated to internal improvements, and other full objects, as well as to show much time to be devoted to intellectual and moral improvements.

Governors of AN INDIAN.—In the telegraphic summary of news published in the London Free Press of Friday, we find the following—Elias Smith, of Georgetown, a mechanic, was before police court here on a charge of "beating the people." It then stated that the petitioners had heard that a proposal had been submitted for establishing among them Chinese schools for instructing them in their own and in English letters. They felt that the proposal indicated a benevolent heart and philanthropic principles; and, approaching the presence of Parliament with "profound prostration," they hoped that it would give effect to this laudable project, "seeing that it is one that will help to show us ignorant people that we are now to reject the evil and prefer the good."

### HURRAH FOR SOUTH WATERLOO!

"POOR" COWAN DEFEATED.

The Coalition candidate par excellence for South Waterloo has been most unmercifully beaten. "Poor" Cowan has been elected to stay at home. Thus may it ever be with such base deserters from principle as Mr. Cowan has proved himself to be. Mr. Cowan was for many years a consistent Reformer, whose public character was unblemished, and who, until his sudden conversion to coalition principles, retained the confidence of the Reformers of South Waterloo. But his extraordinary conduct at the second Doon Convention, when he repudiated everything he had said in regard to the Coalition at the first Convention, opened the eyes of the Reformers, and afforded them unmistakable proof that Mr. Cowan had been tampered with, that he had sold himself to Macdougall, and that he was no longer to be trusted. They at once rejected him, and in his place brought out Mr. James Young, a young politician compared with Mr. Cowan, without half the influence that Mr. Cowan exercised, but possessed of great ability, untiring energy, and above all the recommendation of a good cause. The contest was entered into with spirit on both sides. Mr. Cowan, frightened at the opposition he had raised against himself, induced several members of the government to come to his assistance, which they readily did, and they left no means untried to gain over the Riding to the coalition side. It was no use. The electors of South Waterloo had too much independence, and too much discernment to be cajoled by promises or frightened by threats. The returns we publish below show that they are thoroughly disgusted with the coalition, and with its most obsequious tool, Mr. Cowan, who has been left at home to ruminate over his defeat, and to suffer the punishment that sooner or later is meted out to those who swerve from the straight path.

South Wellington greets the Reformers of South Waterloo, and congratulates them on the splendid victory they have achieved after such a hard fought battle.

Below are the full returns at the close of the first day's polling, received by special telegraph. It is almost impossible that Cowan can make up today. Even in Wilmot, which was thought to be his stronghold, Young yesterday gained a handsome majority. The only places which returned majorities for Cowan are the Tory villages of Preston and Hespeler:—

	YOUNG	COWAN	CLEMENS	GRONROSE
Wilmot	187	185	185	185
Hespeler	295	108	298	103
Preston	221	143	217	147
Waterloo Tp.	148	63	145	63
St. John's	22	114	23	112
Hespeler	13	60	12	61
New Hamburg	46	24	45	26
	932	697	923	697
Majority for Young	235			
Majority for Clemens		228		

Bad as Editors are, people seem inclined to make them worse, for they are sending them to parliament. An exchange says:—"The Editors are going to Parliament. Mr. Chamberlain, of the Montreal Gazette, Mr. Stephenson, of the Montreal Planet, Mr. Bowell, of the Bellefleur Intelligencer, are all returned to the House of Commons. There is also Mr. James Beaty, of the Leader, but he is more properly a publisher than an editor. Among the defeated editors are the Hon. Geo. Brown, of the Globe, and Mr. Thos. White, of the Spectator. The Hon. Wm. Macdougall and Mr. James Young are editors.

The credit system has been carried to a pretty fine point in some of the rural districts in the United States, if we may judge from the following dialogue, said to have recently occurred between a customer and the proprietor. "How's trade, quire?" "Wall, cash trade's kinder dull now, major." "Dun anything yesterday?" "Wall, only a little—on credit." "Aunt Betsy Pushald has borted an egg's worth of tea, and got trusted for it till her speckled pullet lays."

We understand that Mr. Clement intends to contest the election for North Brant, and that there is little doubt but Dr. Bown will be unseated.

Marianville said of Rebec, the adventurous theatrical director, "If you were to make him the porter of a house, he would soon become the proprietor."

It is said that Mr. Oakes Ames has contracted to build the mountain section of the Pacific Railway, some six miles, receiving therefor over \$500,000. This is the largest single contract ever made in this coun-

## THE HON. E. B. WOOD.

South Brant has elected Mr. Wood and has done herself little credit by the action. We heard some time ago that the gentleman had a great weakness for something stronger than water, and the report seems to have rested on no uncertain foundation. We might have been inclined to believe that rumor had made Mr. Wood more culpable than he really was had he only stayed at home, but his late visits to both ridings of the County of Waterloo, and his conduct on these occasions have left him without one plea for lenient consideration, and given us grounds for entertaining the belief, that much as we had heard concerning conduct unbecoming a respectable member of society, peculiarly disgraceful to a minister of the crown, all had not been told. Conviction is created by the power of concurrent testimony, and we generally accept as truth the corroborative evidence of two or more respectable witnesses. The Dumfries Reformer says:—"The people of Waterloo had an opportunity of witnessing a performance given by the Minister of the Treasury on the hustings at Preston. We must confess that we were disappointed—his friends were chagrined—everybody was disgusted. We expected to see a courteous, gentlemanly, well-behaved person. The Hon. E. B. Wood presented himself before the electors of Waterloo to advocate Mr. Cowan's cause in a condition positively disgraceful. We must extend our sympathies to a constituency which could so demean itself as to elect such a man as its representative."

Mr. Wood may be a politician, but he is most undoubtedly devoid of policy, or he would have endeavored to look his best when visiting a county like Waterloo, where he well knew that the government of which he is a member is by no means popular. The Berlin Telegraph copies the Reformers' paragraph, and adds the following, the language of which is most unequivocal:—"This same E. B. Wood paid a visit to the North Riding on Saturday last, intending, we believe, to take the stump in behalf of Mr. Zoeger, but so utterly disgusted did such of the electors as came in contact with him feel at witnessing a Minister of the Crown reeling through the streets in a state of beastly intoxication that his friends were obliged to shunt him off the track. He was to have spoken at a meeting of Mr. Zoeger's friends at Bridgeport on Saturday last, but although in the neighborhood at the time he failed to file an appearance. Could anything show more clearly the straits to which Sanfield Macdonald was reduced when constructing his combination government than the necessity which compelled him to select such a man as one of his colleagues?"

### "Triumphs upon Triumphs."

The Cobourg World gives our contemporary a notice for which he should be duly thankful. It says:

The following explosion took place about a week ago in the columns of a daily newspaper, not the Mercury, published in a certain town called Guelph:—"Vox Populi, vox Dei! All hail the voice of the people of Ontario!—FACIATION, staggered by the fall of its chief, has been broken and crushed beneath the iron heel of JUSTICE! The fealty of Upper Canadians—the integrity of British intellect—remain unshaken—firm as a rock before the Stygian waves of prejudice and discord and the noisy billows of Sedition!—Thirty-two Unionists have been elected from Ontario to the House of Commons, and only one Brownite factionist; and twenty-two Unionists to the Legislature of Ontario, against four extremists and one Independent!"

"TRIUMPHS UPON TRIUMPHS" pour in—the political heavens are beclouded in startling profusion, while new won victories thicken crowd up the horizon, to join the splendid clusters and constellations which beam in brightest glory from the meridian sky. "Down with the Ghoul of Faction and Sedition! Rally to the Polls and rebuke Faction, Bigotry, Intolerance, and a subsidized Press! Vote for the Union ticket, and rescue the Riding from the cold shades of opposition! Serve Stirton and Gow as South Ontario served their chief!"

Electrified magnetism! We wish that man had been hung up at our four corners during the weeks we were short of gas. The inconvenience from the failure of the works would have been easily counterbalanced, with a few puffs of vapor to spare. We suggest that the fustian writer of the above be made into a "constellation," or somewhere else in the "political heavens" where the wind can get a fair sweep at him. Such an expedient would, we guarantee, produce and diffuse "hifalutin" enough for the whole dominion. Both of the candidates supported by this morsel of "the integrity of British intellect" were badly beaten at the polls only two days after this thunderbolt fell with such a crash in the midst of "sedition's" herd. We suppose the simple electors of South Wellington were afraid our friend's candidates, if elected, would talk as terribly and as pointlessly in parliament as he does out of it. The "Stygian waves," therefore, rolled up rather too heavily for him and them; and we almost think, considering the tragic nature of the circumstances, it is about as well they did. Our contemporary will have to turn his coat again, or else the "iron heel of justice" will want a new shoe in that part of the horizon!

### Nominations for Peel.

The nominations for the county of Peel took place yesterday (Friday).—Messrs John Hillyard Cameron and Robert Barber were nominated for the Commons, and Messrs Jno. Coyne

## THE ELECTIONS.

### MORE REFORM VICTORIES.

Mr. M. C. Cameron has been badly beaten in North Ontario. Mr. Mathew was very active in trying to defeat Mr. Brown in South Ontario. He took the stump against him. He canvassed the Riding, and exerted every possible means to secure Mr. Gibbs' return. North Ontario has simply repaid him for his work, for it has rejected him by a handsome majority. This ought to teach Mr. Cameron a salutary lesson. While running all over the country helping his colleagues and bolstering up the "patent combination" of the people of North Ontario were nursing their revenge, which has now been poured without stint on poor Matt's head. On the first day Mr. Thompson's majority over Mr. Cameron was 414, and Mr. Paxton's 356 over Mr. Gillespie. By telegraph received at Toronto at four o'clock this morning, we learn that at the close of the second day's poll the vote stood:—Thompson's majority over Cameron 266; Paxton's [Reformer] majority over Gillespie 526.

On the first day of polling in West Durham, Mr. Blake had a majority of 483 over Mr. Milne, or nearly two to one of the gross poll, and Mr. McLeod's majority over Mr. Martin was 807, nearly four to one. Both Blake's and McLeod's election are thus placed beyond a doubt.

The returns from Victoria indicate the election of Messrs. Morrison and Cockburn, the Reform candidates, by a majority of 250.

In South Perth at the close of the second day's polling the figures stood:—For Macfarlane, 1,443; for Guest, 1,352—majority for Macfarlane, 91. For the House of Assembly the vote stood: for Trow 1511, for Donovan 1153—majority for Trow, 358.

Mr. Springer has been returned for the Local Parliament in North Waterloo. At the close of the second day's polling the vote stood thus:—For Springer in Waterloo Village, 83; Berlin, 54; Waterloo Township, 170; Woolwich, majority 167—total 474. For Zoeger in Berlin, 205; Waterloo Village, 58; Waterloo Township, 112; Wellesley, majority 75—total 450. Majority for Springer 24.

In Prince Edward, Ross (Reformer) has been elected by a very large majority over McCuaig, so likewise has Greely (Reformer) for the Local Parliament over Solmes.

TOO TRUE.—The London Advertiser says:—"Never in the history of Canada have Governments abused their power so shamefully as the temporary Cabinets of Canada and Ontario. The opposition have been hounded down with a ferocity almost surpassing belief. Every influence has been brought to bear, including an unlimited expenditure of the people's own money. We have seen the disgraceful spectacle of Ministers of the Crown stumping back townships, and spouting in favor of creatures whose one virtue consisted in promising a thick-and-thin support to the government of John A. Macdonald. We have seen new candidates like Mr. Edward Blake and Mr. Adam Crooks, Q. C., opposed by brainless government candidates, simply because they were young men of ability and unimpeachable character, and likely to take prominent positions in the House. Will John A. Macdonald or any of his admirers deliberately assert that it is to the interest of the country that men such as these should be kept out of Parliament, and their places filled with A. P. McDonalds and James Beatus? But our rulers want pious tools, not men of talent and integrity in the House."

GOT HIS DESERTS.—The Brockville Recorder, speaking of Ogle R. Gowan's defeat for North Leeds and Grenville, by a majority of 214 in favor of H. D. Smith says:—"This, we trust, will put an end to the aspirations of Mr. Ogle R. Gowan. This gentleman, in defiance of the opposition of the great majority of the electors in the Riding persisted in forcing himself on their attention. He has now received his deserts, and we trust this is the last we will hear of him in this district. Let him stick to the taverns of Toronto in future. It is a more congenial occupation for him than that of a legislator for the Province of Ontario. We congratulate Mr. Smith on his success."

ANOTHER VICTIM TO TIGER SHOOTING.—We regret to state that Lieut. Keith, of the Royal Artillery at Kamptoe, when out shooting tigers in the Wurdah district, on the 22nd April, was mauled by one he had shot. About a fortnight previously this gentleman, with two brother officers, was hunting a large boar, which suddenly charged Lieut. Keith, bowled him and his horse over. He had his right arm and side paralyzed by the fall, was insensible for about thirty hours, and totally disabled for sport for ten days. On the 22nd, the party were in a boat in a high jungle; the two other gentlemen got up into the trees, but Lieut. Keith had not the strength to climb the one allotted to him. He constantly stood at the foot in the high grass. A large tiger bounded by, which Lieut. Keith mortally wounded. It passed him about twenty yards off, but having es-

## Business Education!

A practical business education has now become a necessity to every young man contemplating a business career. Without this education you are at a disadvantage of the first requisites to success.

The business education of the British American Commercial College of Toronto imparts, and it is a source of pride to the proprietors that their graduates are at the present time filling positions of honor and responsibility in some of the highest Mercantile Houses and Banking Institutions of our country. Stronger testimony to the thoroughness of this education could not be given than the following letter from J. G. Worts, Esq., President of the Board of Trade:—

TORONTO, Dec. 19, 1865. Messrs. Musgrove & Wright.—Dear Sirs—I can not express my strong appreciation of your efforts to establish a model house of business. I consider that such a system as yours is of the greatest importance both to the employer and the employed, as it saves the former the time and labor of teaching every new hand, and the latter the waste of time involved in a long apprenticeship. Your admirable system of real business is a complete remedy for this defect, and your great success in this department is made clearly manifest by the air of reality that your students display in their model transactions, and by their downheartedness when they fail to meet their engagements. I can testify to the excellence of your system from personal experience, having at the present time in the employment of the firm I belong to three young men who were educated at your establishment. Wishing you every success in your laudable enterprise.

I remain, dear Sirs, yours, &c. J. G. WORTS.

The first prize for Business Penmanship was awarded this Commercial College at the late Provincial Exhibition in Toronto. Graduates are examined and their diplomas signed by a Board of Examiners composed of practical business men. Graduates are also assisted in the selection of a profession. A circular is regularly published, giving a detailed account of system, regulations, terms, &c., and may be had by enclosing stamp and addressing

### HURRAH FOR SOUTH WATERLOO!

#### "POOR" COWAN DEFEATED.

The Coalitionist candidate for excellence for South Waterloo has been most unmercifully beaten. "Poor" Cowan has been elected to stay at home. Thus may it ever be with such base deserters from principle as Mr. Cowan has proved himself to be. Mr. Cowan was for many years a consistent Reformer, whose public character was unblemished, and who, until his sudden conversion to coalition principles, retained the confidence of the Reformers of South Waterloo. But his extraordinary conduct at the second Doon Convention, when he repudiated everything he had said in regard to the Coalition at the first Convention, opened the eyes of the Reformers, and afforded them unmistakable proof that Mr. Cowan had been tampered with, that he had sold himself to Macdougall, and that he was no longer to be trusted. They at once rejected him, and in his place brought out Mr. James Young, a young politician compared with Mr. Cowan, without half the influence that Mr. Cowan exercised, but possessed of great ability, untiring energy, and above all the recommendation of a good cause. The contest was entered into with spirit on both sides. Mr. Cowan, frightened at the opposition he had raised against himself, induced several members of the government to come to his assistance, which they readily did, and they left no means untried to gain over the Riding to the coalition side. It was no use. The electors of South Waterloo had too much independence, and too much discernment to be cajoled by promises or frightened by threats. The returns we publish below show that they are thoroughly disgusted with the coalition, and with its most obnoxious tool, Mr. Cowan, who has been left at home to ruminate over his defeat, and to suffer the punishment that sooner or later is meted out to those who swerve from the straight path.

South Wellington greets the Reformers of South Waterloo, and congratulates them on the splendid victory they have achieved after such a hard fought battle.

Below are the full returns at the close of the first day's polling, received by special telegraph. It is almost impossible that Cowan can make up today. Even in Wilnot, which was thought to be his stronghold, Young yesterday gained a handsome majority.

The only places which returned majorities for Cowan are the Tory villages of Preston and Hespeler:

	COWAN	YOUNG
Wilnot	187	185
Waterloo Tp.	255	108
Preston	221	132
Hespeler	118	63
New Hamburg	46	21
Total	632	607

Majority for Young 255  
Majority for Cowan 228.

Bad as Editors are, people seem inclined to make them worse, for they are sending them to parliament. An exchange says: "The Editors are going to parliament. Mr. Chamberlain, of the Montreal Gazette, Mr. Stephenson, of the 'Latham Press', Mr. Bowell, of the 'Belleville Intelligencer', are all returned to the house of Commons. There is also Mr. James Beatty, of the 'Leader', but he is more properly a publisher than an editor. Among the defeated editors are the Hon. Geo. Brown, of the 'Globe', and Mr. Thomas White, of the 'Spectator'. The Hon. Wm. Macdougall and Mr. James Young are exiles."

The credit system in our country is a poor, five-point system in some of the rural districts in the United States, if we may judge from the following dialogue, said to have recently occurred between a customer and the proprietor: "How's trade, partner?" "Wall, cash trade's kinder dull now, partner." "Dan anything yesterday?" "Wall, only a little on credit." "Aunt Betsy Pughard has got an egg's worth of ten, and got trusted for it till her speckled pullet lays."

We understand that Mr. Clement intends to contest the election for North Brant, and that there is little doubt but Dr. Bown will be unseated.

Martiniuzzi said of Rebel, the adventurous theatrical director, "If you were to make him the porter of a house, he would soon become the proprietor."

It is said that Mr. Oakes Ames has contract to build the mountain side of the Pacific Railway, some six miles receiving therefor over \$1,000,000. This is the largest single contract ever made in this country.

Fort Sedgwick, Colorado, gov. for \$1,300,000. The article is so scarce only one is standing in a distance of 100 miles from the post.

Mr. ... of the Atlas Works, Sheffield, ... He began one of the world's ...

## THE HON. E. B. WOOD.

South Brant has elected Mr. Wood and has done herself little credit by the action. We heard some time ago that the gentleman had a great weakness for something stronger than water, and the report seems to have rested on no uncertain foundation. We might have been inclined to believe that rumor had made Mr. Wood more culpable than he really was had he only stayed at home, but his late visits to both ridings of the County of Waterloo, and his conduct on these occasions have left him without one plea for lenient consideration, and given us grounds for entertaining the belief, that much as we had heard concerning conduct unbecoming a respectable member of society, peculiarly disgraceful to a minister of the crown, all had not been told. Conviction is created by the power of concurrent testimony, and we generally accept as truth the corroborative evidence of two or more respectable witnesses. The *Dunfries Reformer* says: "The people of Waterloo had an opportunity of witnessing a performance given by the Minister of the Treasury on the hustings at Preston. We must confess that we were disappointed—his friends were chagrined—everybody was disgusted. We expected to see a courteous, gentlemanly, well-behaved person. The Hon. E. B. Wood presented himself before the electors of Waterloo to advocate Mr. Cowan's cause in a condition positively disgraceful. We must extend our sympathies to a constituency which could so demean itself as to elect such a man as its representative."

Mr. Wood may be a politician, but he is most undoubtedly devoid of policy, or he would have endeavored to look his best when visiting a county like Waterloo, where he well knew that the government of which he is a member is by no means popular. The *Berlin Telegraph* copies the following paragraph, and adds the following language of which is most unequivocal: "This same E. B. Wood paid a visit to the North Riding on Saturday last, intending, we believe, to take the stump in behalf of Mr. Zoeger, but so utterly disgusted did such of the electors as came in contact with him feel at witnessing a Minister of the Crown reeling through the streets in a state of beastly intoxication that his friends were obliged to slant him off the track. He was to have spoken at a meeting of Mr. Zoeger's friends at Bridgeport on Saturday last, but although in the neighborhood at the time he failed to file an appearance. Could anything show more clearly the straits to which Sanfield Macdonald was reduced when constructing his combination government than the necessity which compelled him to select such a man as one of his colleagues?"

### "Triumphs upon Triumphs."

The Cobourg *World* gives our contemporary a notice for which he should be duly thankful. It says:

The following explosion took place about a week ago in the columns of a daily newspaper, not the *Mercury*, published in a certain town called Guelph:—  
"For *Papoli, our De!* All hail the voice of the people of Ontario!—FACTION, staggered by the fall of its chief, has been broken and crushed beneath the iron-heel of JUSTICE! The reality of Upper Canadianism—the integrity of British intellect—remain unshaken—firm as a rock before the Stygian waves of prejudice and discord and the noisy billows of Sedition!—Thirty-two Unionists have been elected from Ontario to the House of Commons, and only one Brownite factionist, and twenty-two Unionists to the Legislature of Ontario, against four extremists and one Independent!"

TRICUMPHS UPON TRICUMPHS pour in—the political hegemon are tumbled in startling profusion, while new won victories thickly crowd up the horizon, to join the splendid clusters and constellations which beam in brightest glory from the meridian sky. "Down with the Ghouls of Faction and Sedition! Rally to the Polls and rebuke Faction, Bigotry, Intolerance, and a subsidized Press! Vote for the Union ticket, and rescue the Riding from the cold shades of opposition! Serve Stirton and Gow as South Ontario served their chief!"

Estrildid magnetism! We wish that our man had been hung up at our four corners during the weeks we were short of gas. The inconvenience from the failure of the works would have been easily counterbalanced, with a few rails of gas to spare. We suggest that the fustian writer of the above be made into a "constellation," and stuck in the "meridian sky" or somewhere else in the "political firmament" where the wind can get a fair sweep at him. Such an expedient would we guarantee, produce and diffuse "infidelity" enough for the whole dominion. Both of the candidates supported by this morsel of "the integrity of British intellect" were badly beaten at the polls only two days after this thunderbolt fell with such a crash in the midst of that "sedition" herd. We suppose the simple electors of South Wellington were afraid our friends' candidates, if elected, would talk as terribly and as pointedly in parliament as he does out of it. The "Stygian waves," therefore, rolled up rather too heavily for him and them; and we almost think, considering the tragic nature of the circumstances, it is about as well they did. Our contemporary will have to turn his coat again, or else the "iron heel of justice" will want a new shoe in that part of the horizon!

### Nominations for Peel.

The nominations for the county of Peel took place yesterday (Friday).—Messrs John Hillyard Cameron and Robert Barber were nominated for the Commons, and Messrs Jno. Coyne and Robert Smith for the Legislature.

## THE ELECTIONS.

### MORE REFORM VICTORIES.

Mr. M. C. Cameron has been badly beaten in North Ontario. Mr. Mathew was very active in trying to defeat Mr. Brown in South Ontario. He took the stump against him. He canvassed the Riding, and exerted every possible means to secure Mr. Gibbs' return. North Ontario has amply repaid him for his work, for it has rejected him by a handsome majority. This ought to teach Mr. Cameron a salutary lesson. While running all over the country helping his colleagues and bolstering up the "patent combination" the people of North Ontario were nursing their revenge, which has now been poured without stint on poor Matt's head. On the first day Mr. Thompson's majority over Mr. Cameron was 414, and Mr. Paxton's 256 over Mr. Gillespie. By telegraph received at Toronto at four o'clock this morning, we learn that at the close of the second day's poll the vote stood—Thompson's majority over Cameron 266; Paxton's [Reformer] majority over Gillespie 526.

On the first day of polling in West Durham, Mr. Blake had a majority of 483 over Mr. Milne, or nearly two to one of the gross poll, and Mr. McLeod's majority over Mr. Martin was 807, nearly four to one. Both Blake's and McLeod's election are thus placed beyond a doubt.

The returns from Victoria indicate the election of Messrs. Morrison and Cockburn, the Reform candidates, by a majority of 250.

In South Perth at the close of the second day's polling the figures stood:—For Macfarlane, 1,443; for Guest, 1,352; majority for Macfarlane, 91. For the House of Assembly the vote stood:—For Trow 151, for Donovan 115;—majority for Trow, 38.

Mr. Springer has been returned for the Local Parliament in North Waterloo. At the close of the second day's polling the vote stood thus:—For Springer in Waterloo Village, 83; Berlin, 54; Waterloo Township, 170; Woolwich, majority 167—total 474. For Zoeger in Berlin, 205; Waterloo Village, 58; Waterloo Township, 142; Wellesley, majority 75—total 450. Majority for Springer 21.

In Prince Edward, Ross (Reformer) has been elected by a very large majority over McCraig, so likewise has Greely (Reformer) for the Local Parliament over Solmes.

Too True.—The London *Advertiser* says:—Never in the history of Canada have Governments abused their power so shamefully as the temporary Cabinets of Canada and Ontario. The opposition have been hounded down with a ferocity almost surpassing belief. Every influence has been brought to bear, including an unlimited expenditure of the people's own money. We have seen the disgraceful spectacle of Ministers of the Crown stumping back townships, and spouting in favor of creatures who were no virtue consisted in promising a thick and thin support to the government of John A. Macdonald. We have seen new candidates like Mr. Edward Blake and Mr. Adam Crooks, Q. C., opposed by brazen government candidates, simply because they were young men of ability and unimpeachable character, and likely to take prominent positions in the House. Will John A. Macdonald or any of his adherents deliberately assert that it is to the interest of the country that men such as those should be kept out of Parliament, and their places filled with A. P. McDonalds and James Beattys? But our rulers want pliant tools, not men of talent and integrity in the House.

GET HIS DESERTS.—The Brockville *Recorder*, speaking of Ogle R. Gowen's defeat for North Leeds and Grenville, by a majority of 211 in favor of H. D. Smith says: "This we trust will put an end to the aspirations of Mr. Ogle R. Gowen. This gentleman, in defiance of the opposition of the great majority of the electors in the Riding persisted in forcing himself on their attention. He has now received his deserts, and we trust this is the last we will hear of him in this district. Let him stick to the taverns of Toronto in future. It is a more congenial occupation for him than that of a legislator for the Province of Ontario. We congratulate Mr. Smith on his success."

ANOTHER VICTIM TO THEIR SHOOTING.—We regret to state that Lieut. Keith, of the Royal Artillery at Kamptoo, when out shooting tigers in the Wardah district, on the 22nd April, was mangled by one he had shot. About a fortnight previously this gentleman, with two brother officers, was hunting a large bear, which suddenly charged Lieut. Keith, bowled him and his horse over. He had his right arm and side paralyzed by the fall, was insensible for about thirty hours, and totally disabled for sport for ten days. On the 22nd, the party were in a beat in a high jungle; the two other gentlemen got up into the trees, but Lieut. Keith had not the strength to climb the one allotted to him. He constantly stood at the foot in the high grass. A large tiger bounded by, which Lieut. Keith mortally wounded. It passed him about twenty yards off, but having es-

cape from the business, and on to him and his down named duties. Inan, at Stratford, has been placed in my hands to be wound up. The Machinery, Tools, Lumber and Furniture will be sold in one block, and comprise the following:—One ten horse power engine, running several machines, complete, and in perfect running order; together with the building, in which the said engine and machines are put up. About 100,000 feet of seasoned lumber, assorted kinds. A large number of unseasoned common kinds, and about 81,000 worth of furniture, all quite new. By virtue of the power vested in me, under the said Act, I will offer all the above property for sale by

## Business Education!

A practical business education has now been established in Guelph, Ontario, for the purpose of educating young men in the principles of business.

The business education the British American Commercial College of Toronto imparts, and it is a course of pride to the proprietors that their graduates are at the present time filling positions of honor and responsibility in some of the highest Mercantile Houses and Banking Institutions of our country. Stronger testimony to the thoroughness of this education could not be given than the following letter from J. G. Woods, Esq., President of the Board of Trade.

Toronto, Dec. 10, 1865.

Messrs. Musgrove & Wright.—Dear Sirs—I cannot express too strongly my appreciation of your efforts to establish a model house of business. I consider that such a system as yours is of the greatest importance both to the employer and the employed, as it saves the former the time and labor of teaching every new hand, and the latter the waste of time involved in a long apprenticeship. Your admirable system of real business is a complete remedy for this defect, and your great success in this department is manifestly manifested by the air of reality that your students display in their model transactions, and by their downheartedness when they fail to meet their engagements. I can testify to the excellence of your system from personal experience, having at the present time in the employment of the firm I belong to three young men who were educated at your establishment. Wishing you every success in your laudable enterprise.

I remain, dear Sirs, yours, &c.

J. G. WOODS.

The first prize for Business Penmanship was awarded this Commercial College at the late Provincial Exhibition in Toronto. Graduates are examined and their diplomas signed by a Board of Examiners composed of practical business men. Graduates are also assisted to situations, if required.

A circular is regularly published, giving a detailed account of system, regulations, terms, &c., and may be had by enclosing stamp and addressing

NORAH CUSHALEEN

HAUNTED CASTLE.

'Bedad, but it's a long way they've taken him to, observed Terry, as he cast his eyes forward to the distant mountains.

Andrew was not so impatient but he saw that this would be the wisest plan. They therefore returned to the village, and after partaking of supper, retired to bed, that they might be fresh for the morning start.

Andrew was installed in his master's own room where everything belonging to Hargreave had been untouched. His portfolio lay open on the table just as he had left it; and the coat he threw off on quitting the house hung on the back of the chair where he had placed it.

But as darkness, silence, and motionlessness are calculated to increase and intensify thought in an anxious mind, so Andrew had not been long in bed when he found he could not sleep.

'This comes o' fa'in' in love in a heathen kinty,' he said to himself, after lying for several hours with a harassed mind. 'At home, noo, when twa lads wad wane the same lass, she jist takes the one she likes best, and the ither has to be pit up wi' the best way he can.

It was a low, scraping noise which fell on Andrew's ear, and lifting up his face from the coverlet, he looked towards the window and saw a man outside trying to open it. The window faced the east, and the first streaks of dawn sent a faint light into the apartment.

It was a lattice window, which opened from the centre, and was secured in the inside by an iron hasp. This hasp the man was endeavoring to lift by inserting the blade of a knife between the compartments, and this was the low scraping sound that drew Andrew's attention.

The latter's first impulse was to spring upon the floor, and prevent the entrance of the robber, but the thought flashed on his mind that the fellow, and his presence there, might have something to do with his master's disappearance.

He therefore resolved to lie quite still, and discover his object before he gave the alarm, or took any kind of action.

In less than a minute the hasp was lifted and laid quietly down on the other side. This released one half of the window, and the man had only to insert his arm to unfasten the other division, when he pushed both sides back, and the way of access was clear.

Andrew moved not, breathed not; and satisfied that the chamber was empty, the burglar crept noiselessly through the window and alighted on the floor.

The Father and his Daughter.

The following beautiful and pathetic lines are said to have been suggested by reading a newspaper paragraph describing the scene between Ethan Allan and his daughter, when the latter on her death-bed asked the stern infidel in whose faith he would have her die—his or her mother's:

'The damps of death are coming fast, My father, o'er my brow; The past with all its scenes have fled, And I must turn me now To that dim future which in vain My feeble eyes descry: Tell me, my father, in this hour In whose stern faith to die.

'In thine! I've watched the scornful smile, And heard thy withering tone, Whom'er the Christian's humble hope Was placed above thine own; I've heard thee speak of coming death Without a shade of gloom, And laugh at all the childish fears That cluster round the tomb.

'Or is it in my mother's faith? How fondly do I trace, Through many a weary year long past, That calm and saintly face! How often do I call to mind, Now she is neath the sod, The place, the hour, in which she drew My early thoughts to God!

'Twas then she took this sacred book, And from its burning page Read how its truths support the soul In youth and falling age; And bade me in its precepts live, And by its precepts die, That I might share a home of love In worlds beyond the sky.

'My father, shall I look above, Amid this gathering gloom, To Him whose promises of love Extend beyond the tomb? Or curse the Being who hath blessed This checkered path of mine, And promises eternal rest, And die, my sire, in thine?

The frown upon that warrior brow, That passed like a cloud away, And tears coursed down the rugged cheek That flowed not till that day. 'Not, not in mine,' with choking voice The skeptic made reply, 'But in thy mother's holy faith, My daughter, may'st thou die!'

The India and China Tea Company beg to call the attention of the Canadian community to their directly imported Teas, which for purity and excellence will be found unequalled. The Company have made arrangements whereby they have secured the entire produce of some of the best plantations in Assam and on the slopes of the Himalayas, and by a judicious blending of these magnificent Teas with the best varieties of China produce, they are enabled to offer to the public Tea of quality and flavour hitherto unknown to the general consumer. These Teas are in high favour in England and France, and a simple trial will prove their superiority.

The Company supply two qualities only, either Black, Green or Mixed. The above can be had either Black, Green or Mixed. To be had in packets of Quarter Pound Half Pound, One Pound, and upwards, or in tin canisters of 5 lb. and upwards, from the Company's Agents in all the chief towns of Canada.—N.B. All the packages are lined with tin foil paper, and the Tea will consequently retain its flavour any length of time. Observe.—All packages have the Company's trade-mark, without which none are genuine.
