## LIBERAL LEAD FOR SUPPORT OF ONTARIO VOTERS

Would Abolish Three-Fifths Local Option Clause, But Other Temperance Questions Are Shelved Until Next Election—New Ontario Development Given Most Prominence—Extension of Powers of Ontario Railway Board and Tax on Land Alone Are Planks.

After an exceedingly busy day at the courts, N. W. Rowell managed to find sufficient time yesterday evening to complete the policy on which the Liberal party will ask the support of the people on Dec. 11.

Mr. Rowell, it is said by his law colleagues, has worked with but very little time spent for sleep since Monday of last week, when he accepted the leadership of the party. Last night Mr. Rowell coupled his final forming of the platform with work on his law cases. He expects that by Friday of this week he will have his professional work entirely closed off, and will then be free to devote himself and his time completely to the Liberal cause.

His announcement was handed out last night at 11 o'clock, and is as follows:  
TO THE ELECTORS OF ONTARIO:  
By the action of the government the legislative assembly of this province has been dissolved before the expiry of the legislative term and the electors are called upon to bear the trouble and expense of an unnecessary general election during an inclement season of the year. Nominations take place Dec. 4, the election on Dec. 11.

The government of Sir James Whitney has disappointed the progressive forces in our province by its failure to grasp the urgency and importance of the settlement and development of New Ontario, by its failure to devise an adequate policy to promote the great agricultural interests of the province, and by its failure to manifest practical sympathy with progressive measures of social and moral reform.

The Liberal party considers the development of New Ontario one of the supreme opportunities and most urgent obligations of the government, requiring the whole time and thought of a responsible minister of the crown; and it believes that its successful development means increased prosperity to every citizen of Ontario. We recognize that agriculture is the basic industry of this province, and that an intelligent and far-sighted policy demands a great advance on all progressive lines.

More important than the successful material development of the province is the promotion of the social, moral and industrial welfare of the people and the development among us of the highest type of citizenship. The rapid growth of industrial centres has created new and important problems with

## APPEAL FOR SUPPORT OF ONTARIO VOTERS

### The Main Planks of the Liberal Platform

Progressive New Ontario agricultural development; minister of colonization and immigration; extension of T. & N. O. Railway to Hudson Bay; reduction of mining fees; delimitation of Ontario-Manitoba boundary.

Royal commission to investigate decline of rural population; technical farming instruction.

The granting of permission to municipalities to exempt improvements from taxation; tax railway and other public utility corporations equally with citizens.

Abolition of three-fifths clause; removal of political influence from license administration; workmen's compensation.

More progressive and adequate educational policy.

Public ownership of public utilities; utilization of water powers; conservation of timber and reforestation.

Enlargement of powers and reorganization of Ontario Railway Board.

Prevention of mergers and trusts and competition-stifling combines.

Civil service commission; promotion by merit alone.

Prohibition of corporations from making campaign contributions.

### Parturient Montes.

"Could kale het again!" will be the verdict of a good many people on reading Mr. Rowell's manifesto.

It was hoped that there would be a new departure, but apparently the same old carpenters have been at work, and Mr. Rowell has accepted the planks that have been given him to stand upon, instead of climbing a tree himself to see what was coming.

The Liberals have been looking for a new leader. It is evident they also need a new party.

## ISOLATION HOSPITAL AN ACTUAL DEATH-TRAP

Ald. McCarthy Makes Scorching Arraignment of Conditions Still Existing There.

"The death rate from scarlet fever and diphtheria in Toronto for the past five years, from figures I promised from 14 different cities, was higher than that of any other city on the continent, or in Europe. This is largely the result of our isolation hospital, which is literally a death-trap. Many children go into the hospital to die the same day."

This was the statement made last night by Ald. McCarthy, in addressing a meeting of the Northwest Ratepayers' Association, in Bredin's Hall, West Bloor-street.

He told the listeners how the morgue, in which the bodies of typhoid and diphtheria patients are placed, is directly opposite the pantry, where the bread and milk is kept.

"A new wing was built some years ago," he continued. "If there is any one thing necessary to a sick person, it is pure fresh air and sunlight. The second building was planted ten or twelve feet from the old building, com-

## TIMISKAMING TO HAVE NEW JUDICIAL DISTRICT

Premier Whitney Announces That Area From Timagami North Will Be Served.

At the first meeting of the Ontario Legislature after the elections on Dec. 11, legislation will be passed incorporating the country known as Timiskaming into a new judicial district.

The large expense of having all criminal and high court civil cases tried at North Bay has caused the residents of that northern part of the province to agitate for a new judicial district to be incorporated, so that they can be saved the large expenditure of travelling down south to North Bay whenever any legal tangle, no matter how trivial, crops up.

R. T. Shillington, M.L.A. for Timiskaming, has led this agitation on behalf of the citizens, and the matter has been under consideration by the Whitney government for several months, but a lot of preliminary details had first to be dealt with. All obstacles, however, have now been cleared away, and the formation of the new district is being officially notified.

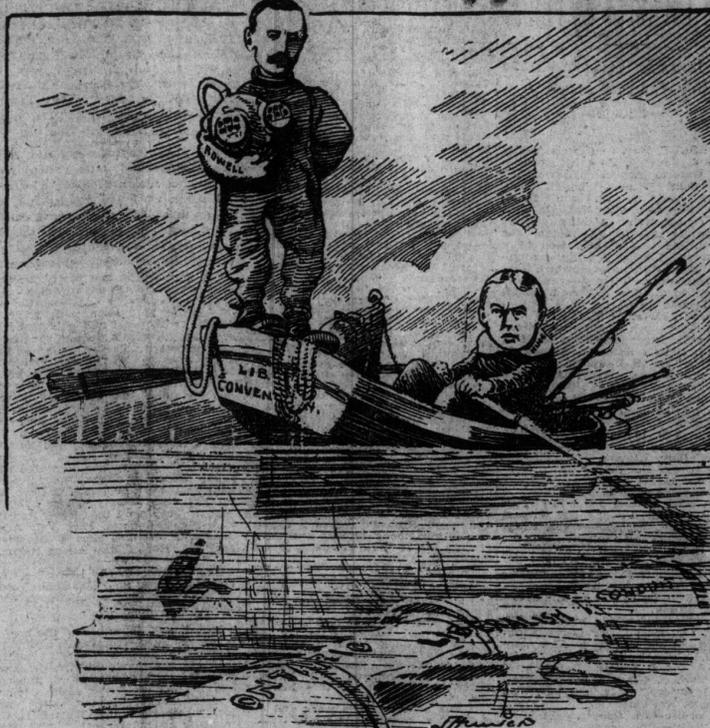

No Additional Judges.  
"We are merely making two judicial districts in that territory where up till the present there has been only one," said Sir James Whitney yesterday afternoon. "The change will not necessitate the appointment of any additional judges, but there will be a court-house or court-houses established in the newly formed section."

Thus the judges will hold court there when northern residents are affected, instead of having these litigants travel such a long distance down to North Bay.

The new district will extend from Timagami, 72 miles north of North Bay, to James Bay, and will therefore take in every town of importance along the line of the government railway. Owing to the many unsettled parts of the new division it will be known as a district instead of a county.

Cobalt, Haliburton, Liskeard and Englehart are among its largest towns, and all of them are aspirants for the honor of having the court-house located there and thus becoming the legal centre of the district.

## SIR JOHN CARLING DEAD SUCCEEDED TO PNEUMONIA

Former Minister of the Crown Was in His 84th Year—His Part in the Work of Confederation—Prominently Identified With Public Life of the Dominion and of His Home City of London, Ont.

THE LATE SIR JOHN CARLING.

LONDON, Ont., Nov. 6.—Senator Sir John Carling, former postmaster-general and minister of agriculture, died of pneumonia at 4 o'clock this afternoon at his residence. He was in his 84th year. He had been ill for some time last spring, but during the summer rallied, but at all times weak because of his age. Early Friday morning pneumonia developed and from the first there was no hope.

His children, including Fred and Mrs. Nicholson of Ottawa, were present when the end came.

The funeral will take place Wednesday afternoon at 2 o'clock from St. Paul's Cathedral.

One of Canada's grand old men has passed away. Hon. Sir John Carling, K.C., M.G., while not exactly one of the fathers of confederation, was nevertheless an active participant in the political vicissitudes of those and certain days in the history of Canada. A fact not generally known in connection with Sir John Carling's life is that he was to a large extent responsible for the consideration of the Canadian provinces. On one occasion Sir John A. Macdonald and Hon. Geo. Brown, who were at loggerheads over the question of welding the provinces into one nation, happened to be on the same train and Sir John Carling was present also. He got the two statesmen to discuss the question and smoothed over their differences to such an extent that they finally agreed on the terms that resulted in the formation of this great Dominion.

Sir John was the youngest son of the late Thomas Carling, a native of Yorkshire, England, who came to Canada in 1815 and settled in Middlesex, Ontario. Born in the Township of London, Middlesex County, on Jan. 22, 1828, he was educated at the local schools and joined his father in business as a brewer. For many years he has been president of the Carling Brewing and Malting Company, which controls a large share of the Canadian trade.

He was elected to public office for the first time in 1859 as school trustee, and continued as a member of the board of education for four years. He became member of the town council in 1864 and afterwards served as an alderman when the town was incorporated as a city.

Elected to Parliament.

In December, 1857, he was first elected to parliament—the old parliament of Canada—and continued as a representative in that house until confederation. In 1862 he was appointed receiver-general in the Macdonald-Carter government of old Canada, and was returned by acclamation on accepting office. He continued in parliament after the defeat of that administration on a general appeal to the country, the late William McEbride being his opponent. At confederation dual representation being then in vogue, he accepted office as commissioner of agriculture and public works in the first Ontario Government, holding at the same time his

## HON. W. T. WHITE IS IN BY ACCLAMATION

Threatened Opposition to Minister of Finance by Leeds Liberals Did Not Materialize.

BROOKVILLE, Nov. 6.—(Special.)—The expected happened at Delta today, when at the by-election nomination for Leeds, Hon. W. T. White, the Dominion minister of finance, was returned by acclamation.

The talked-of opposition from the Liberal ranks completely fizzled out, the Leeds Reform Association, to which was left the choice of a candidate, deciding that it would be unwise to fight Mr. White.

The occasion was marked by a splendid speech of over an hour by the new M. P., who gracefully acknowledged the honor conferred upon him and his appreciation of being returned unopposed.

Mr. White covered much the same ground as in his addresses of the past week at Lansdowne and Gananoque, and received a most attentive and enthusiastic hearing from the audience of nearly 300 present. George Taylor, Rev. S. J. Robins, John Webster, M.P., and Rev. Frank Chisholm spoke briefly.

The last mentioned, a former Liberal candidate for Leeds, and still a staunch member of that party, spoke at the invitation of the chairman, John R. Dargavel, M.L.A. The veteran Methodist preacher, speaking for the Liberals, desired that it should be made plain that Mr. White was not opposed for lack of a candidate, but rather as a matter of courtesy to a cabinet minister.

Mr. White came to Brookville this evening and left shortly afterwards for Ottawa.

The Liberals of Brookville riding have called a convention for the 13th inst., to select a candidate for the provincial elections.

### PROMISE A SENSATION.

OTTAWA, Nov. 6.—A sensation is promised for meeting of the railway commission here on the 15th, when it is said evidence will be introduced by Fred W. Congdon, ex-M.P., to the effect that the White Pass and Yukon Railroad, an application concerning whose rates is to come during the meeting, has been maintaining a secret rebate fund.

The application is one made by the Dawson board of trade, complaining that the road is charging excessive rates.

### SIFTON FOR THE SENATE.

OTTAWA, Nov. 6.—(Special.)—The name of the Hon. Clifford Sifton is mentioned in connection with the vacancy created in the senate by the death of Sir John Carling.

## FALL OF PEKIN NOT CONFIRMED

Rumor Is Believed to Have Been Spread at Shanghai to Aid Rebel Cause—Revolutionists Organize Local Cabinet.

SHANGHAI, Nov. 6.—A Chinese report that Peking has fallen and the emperor has fled has caused a wide sensation, but a private telegram from Peking, timed 2 o'clock this afternoon, makes no mention of such an occurrence.

It is thought here that the report is intended to assist the rebel cause locally.

LONDON, Nov. 6.—The Reuter Telegram Company's latest despatch from Peking direct, dated to-day, 7:33 p.m., makes no mention of the fall of the city.

### Court Terror-Stricken.

LONDON, Nov. 7.—A Peking despatch to The Times, dated Nov. 6, says that trustworthy information from the court shows that the court is paralyzed with fear. It will remain at Peking, whatever happens, says the correspondent, but many princesses and noble ladies have sought the protection of the foreign concessions.

A despatch to The Daily Mail from Rangoon, British India, gives reports that Chinese troops in Tengyueh, in the Province of Yun-Nan, which borders on Burma, mutinied on Oct. 21, killing Gen. Chang and other officers. The Taotai was either killed or committed suicide. The women members of his family were thrown into a well and the treasury was looted.

According to revolutionary accounts, Taifu, in the same province, was captured on Oct. 23, and Yung Chang and Yunnanfu on Oct. 27. All the officials were executed.

### Protection of Foreigners.

PEKING, Nov. 7.—3:41 a.m.—The U. S. and Great Britain have decided to take effective measures for the protection of their people in China, in event of danger to foreigners, which, however, does not yet appear probable.

It is suspected that the Regent's brother, Prince Tuan, has left the country as he has not been seen for three days.

A private letter from an officer of Yuan Shi Kai's staff says that the rebel leader, Gen. Li Yuenheng, makes 23 demands, the most important of which is that the imperial household shall proceed to Jehol, with the emperor, including the eunuchs, and shall remain there, receiving in return adequate pensions from the new government, which is to be republican.

A special secret meeting of the National Assembly yesterday afternoon decided to telegraph Yuan Shi Kai explaining the fearful conditions involved in the political situation at Peking, which require the immediate presence of the premier. Otherwise the assembly would be unable to tide over the difficulties. A member of the assembly explains that this is a fair warning, and that if Yuan does not comply, another premier possibly may be appointed.

### Fear a Massacre.

Consular reports from Mukden say that many Chinese are fleeing into the country, in the belief that the Manchus will retreat to Mukden and massacre the Chinese inhabitants.

Advices from Amoy say that that city is almost in a condition of anarchy. The Taotai has escaped on a foreign steamer, and the customs commissioner has taken refuge in the Japanese consulate. Two hundred and fifty British troops at Hongkong have been ordered to Shanghai, and 200 Russian troops to Tientsin. The Italians are establishing a wireless system between Peking and Tsingtao.

### Local Cabinet Formed.

SHANGHAI, Nov. 6.—The most interesting development in Shanghai today was the completion of the organization of a local cabinet by the revolutionaries. Wu Ting-fang, who formerly held the post of minister at Washington, has been appointed head of the ministry of foreign affairs; Wang Jih-ting, trade and commerce; Shen Wan-yung, finance; Li Ping-

### Persian Lamb.

There is really no fur so popular as Persian lamb in coats or small garments; but there is a very great difference in the quality of Persian lamb. An experienced buyer always throws out what is called "dead" fur—a pelt that feels hard to the touch and is lustreless. You may tell good Persian lamb by these ear-marks and by the neat curl it should possess.

The Dineen Company makes all its purchases of Persian lamb in the fine Leipzig market in Germany. In fact, the selection of pelts is made each year by the president of the company in person. Dineen's Persian lamb garments are guaranteed.

LABORITES HOPE TO TAKE THE WEST HAMILTON SEAT

Emphatic Criticism of Workingmen's Compensation Bill—Fire Escapes.

HAMILTON, Nov. 6.—(Special)—The Independent Labor Party held an enthusiastic meeting in Labor Hall last night and appointed ward committees for the coming fight for the West Hamilton seat in the provincial legislature.

Considerable time was devoted at tonight's meeting to a discussion of the workingmen's compensation bill, which has so long hung fire in the legislative halls at Toronto.

A large amount of routine business was transacted by the works committee, which met to-night instead of tomorrow night on account of Chairman Wallace's intention of being away from the city.

KILLED BY UNKNOWN MAN

Corner's Jury So Finds in Case of Late W. D. Dick—Detectives Hopeful.

The inquest into the death of J. Walter Dick has been held at the coroner's court with a verdict of death on Oct. 7, as the result of being struck by a man unknown to the jury, at the corner of Toronto and King streets.

Every clue has been followed, but without result. Several times the Toronto police have been called out by their man, but have not had sufficient evidence on which to proceed.

The provincial constabulary department, a fortnight ago, was commissioned to follow up every possible clue, whether it at first appeared to be well grounded or not.

It is quite possible that the two Toronto detectives working on the case will effect an arrest within a short time.

Rugby Referee's Rulings Lacrosse To Meet Nov. 18 Bowling League Scores

COMMENT ON ARGO GAME BY HAMILTON PAPERS

All Speak in Most Glowing Terms of the Work of Heavy Wing Line - Ben Simpson's Opinion.

Ben Simpson, the old Tiger half-back, reviews the Tiger-Argo game of Saturday. In one of the most interesting football events seen on the H.A.A. grounds, Tigers just managed to down the Argonauts in the last few seconds of the game. It was an ideal Rugby day, and the largest crowd of the season turned out to see the Jungla Kings perform.

Referee Hayes' Official Statement Tiger-Argo Game

Hamilton Herald: The beaten Argos were by no means disgraced. They proved to be the best team on the field that the Tigers have met here this year, and they will certainly be a hard team to beat for the championship. The team as it lined up on Saturday is about as well-balanced as any I have seen.

Hamilton Times: Saturday's was certainly one of the hardest games of football seen on the local grounds in a long time, and also there have been games in which better football has been seen. The Tiger-Argo Dominion Cup game played last year, few have been playing and never say die spirit of the Argos which enabled them to turn what looked like a sure defeat into a victory.

The Meeting of Big Four Lacrosse League is Nov. 18

The story from Ottawa regarding the settling of the lacrosse war seems to be rather premature. When the three football clubs, Ottawa, Toronto and Montreal, met on Saturday, they were considered one of the four leagues ready to join and George Kenyon of the Ottawa Lacrosse Club was held in Toronto on Nov. 18, not on the 18th, as first supposed.

NEW BOWLING LEAGUE GETS UNDER WAY Public Utility League Given Good Send-Off-Bowling Scores of a Night.

The Public Utility League got away to a good start at the Toronto Bowling Club last night, when the Postoffice representatives and Canadian Northern Railway clashed in the initial contest. While no records were broken nor any unusually large crowds recorded, still the rolling was quite in keeping or a little better than might be expected from such a young organization.

LIBERAL LEADER'S APPEAL TO ONTARIO SUPPORTERS

Continued From Page 1. which our provincial government should deal. It is the duty of the government by wise measures to contribute to social, educational and moral reform. Holding this Liberal faith, as leader of the Liberal party of this province, I beg to submit the following statement of policy and to appeal to all electors, irrespective of party, to rally to its support.

NEW ONTARIO DEVELOPMENT.

In order that the government may enter seriously upon the problem of settlement and development of New Ontario, we propose the creation of a department of immigration and colonization, to be presided over by a minister of the crown, who shall devote his whole time and energies to this important work, among other matters, to the promotion of settlement, building of roads, insuring other necessary transportation facilities, providing drainage requirements, assisting pioneer settlers to secure the settlement of lands owned by the province on a term of years, giving special assistance to pioneer schools. Our further policy is the creation of a department of immigration and colonization, to be presided over by a minister of the crown, who shall devote his whole time and energies to this important work, among other matters, to the promotion of settlement, building of roads, insuring other necessary transportation facilities, providing drainage requirements, assisting pioneer settlers to secure the settlement of lands owned by the province on a term of years, giving special assistance to pioneer schools.

AGRICULTURE.

We believe that the people of Ontario view with grave concern the serious decline in the rural population of this province, as disclosed by the recent census, and we propose the immediate appointment of a royal commission to enquire into the causes thereof, and to suggest measures which in the opinion of the commission should be taken to promote the general agricultural interest of the province. The commission should be specially instructed to consider and report upon the following: (a) the technical instruction in farming in our rural schools, and special technical education in fruit growing districts; (b) the means we propose to adopt to secure the building of a good road system throughout Ontario by an issue of provincial bonds or by other assistance on an adequate scale, thereby facilitating the carrying of farm and garden products; (c) to extend in every feasible way public light, power and telephone services to the farms of the province. To provide for the establishment of suitable demonstration farms throughout Ontario to carry on the apple and general fruit growing industry by establishing demonstration orchards, and to advertise widely the same by holding an annual provincial apple show.

ADMINISTRATION OF JUSTICE.

It will be our duty to combat at all times by legislative enactment and administrative action such trusts, mergers and other combinations of capital as tend to increase the cost of living and impair political independence. We will abolish the right of the Ontario Railway and Municipal Board to grant franchises for the purpose of selecting a candidate for the approaching provincial election, and to elect officers. The officers selected were: President, A. A. Abbott of Trenton; secretary, C. P. Ketcheson of Sidney; treasurer, C. Bogart of Belleville.

ONTARIO RAILWAY AND MUNICIPAL BOARD.

There should be an enlargement of the powers and reorganization of the Ontario Railway and Municipal Board, so as to render it an influential and effective tribunal in the public interest.

ELECTORAL REFORM.

We will prohibit under adequate penalties all cooperation over which the province has jurisdiction from making campaign contributions; requiring the publication of all campaign contributions; and candidates and political organizations, and provide for the appointment of a public prosecutor in English, whose duty it shall be to investigate and report on the conduct of all elections, to see that all who are guilty of electoral fraud or corruption are duly prosecuted.

TAXATION.

Social justice demands the removal of existing inequalities in taxation and the amendment of the Assessment Act, to permit municipalities to exempt improvements from taxation either in whole or in part. To provide that the property of railway and other public utility corporations shall continue to be exempt from municipalities and the province on a basis of assessment and taxation in every respect equal to the assessment and taxation of the property of private citizens.

SOCIAL AND INDUSTRIAL BETTERMENT.

The betterment of the social and industrial condition of the masses of the people shall be one of our supreme concerns. The evils of intemperance constitute a grave social peril. During the ensuing parliamentary term, we will consider the best form of legislation to deal effectively with these evils and the passing upon our proposals at the following general election. We will immediately abolish the three-fifths vote in local option contests and substitute a simple majority. During the session of 1909-10, the province will secure the removal of its administration from political influence.

EDUCATION.

If the youth of this province are to receive an education to fit them for citizenship, a more progressive and adequate educational policy is urgently needed. To promote a more co-operative relation between the primary schools, the high schools and the universities; more liberal provision for the summary education; the promotion of industrial training and technical instruction in urban and rural communities; the restoration of model schools with a view to increase the supply and efficiency of teachers.

PUBLIC OWNERSHIP AND CONSERVATION.

We believe in and will support public ownership and operation of public utility and other enterprises in the interest of water power throughout the province for the generation and distribution of electricity; the acquisition and operation of telephone lines. A scientific policy of forestry, including the necessary reforestation of depleted lands in the province, and the protection of our timber resources by the re-planting of the crown of berths containing young pine timber; an adequate system of logging and the acquisition and operation of telephone lines.

Retirement of Jas. Doyle Led to Spirited Contest in North Middlesex. ALISA CRAIG, Nov. 6.—(Special.)—Duncan MacArthur, popular veterinary surgeon and cattleman of Alisa Craig, was to-day chosen by the Conservatives of North Middlesex to contest the riding in place of the former member, James Doyle, who on being tendered the unanimous nomination, announced that, thru ill-health, he would be unable to be a candidate. Despite the pouring rain, only five delegates failed to appear and enthusiasm ran high. J. P. Roberts, president of the riding Conservative Association, was chosen chairman.

The following were nominated: John D. Drummond, W. T. Uelen and John McIntyre of McCallivray Township; James W. Cameron, Stratford; Duncan MacArthur, Alisa Craig; James Brown, West Williams, and A. K. Hodgins, Biddulph. After five ballots had been taken Mr. MacArthur was declared the choice, which was then made unanimous. Speeches were made by George Elliott, M.P., R. R. Gansay, M.L.A., and Mr. Doyle.

PRESCOTT LIBERALS.

VANKLEEK HILL, Nov. 6.—The Liberals of Prescott County met in convention to-day and nominated James V. Vankleek Hill to contest the riding in the forthcoming provincial election. He received a majority of 43 votes over Mr. J. J. Gendron, Conservative. J. M. Lapointe and Fournier presided and nearly 50 delegates were present from all parts of the riding. The Prescott Conservative convention will take place at Alfred on Thursday next.

SIR JOHN CARLING DEAD

DECEASED DUE TO PNEUMONIA

Continued From Page 1. seat in the commons. In the contest of that year he was opposed by the late James Durnan for the local legislature, and the late James Peacock for the commons. He continued in office in the local legislature after the election of 1908, in which the late Frank Cornish was his opponent, still holding his seat at Ottawa. He resigned with the government, however, in the fall of that year.

He was Minister of Agriculture. In 1882 he entered Sir John A. Macdonald's government as postmaster-general and became minister of agriculture in 1885, an office he continued to fill under Sir John Abbott, but ceased to hold under Sir John Thompson. He was called to the house of commons as a candidate for the house of commons in 1886.

He was created a K.C.M.G. in 1888, and called to the senate for the second time in 1898. Prominently identified both in his public and private life with the material progress of London, Sir John was the chief factor in bringing the C. P. R. to that city. As minister of agriculture in the local legislature, he established at Mimico the first experimental farm in Canada, but the site was subsequently changed to Guelpy by his successor in office. While commissioner of public works he directed the building of the London Insane Asylum, the City of London Asylum for the Deaf and Dumb, and the Brantford Asylum for the Blind. He also carried out the extensive scheme of drainage, which renders so large a portion of the western peninsula of Ontario fit for settlement.

Had a Wide Outlook. Physically Sir John Carling was tall and erect, with a bearing that marked him as a man of culture and wide outlook. Sir John Macdonald used to say that no man could be as honest as John Carling looked. His health doubtless gave him many advantages, but he was always possessed of an urbanity of manner and kindness of heart that won him a host of friends, not only in his home city, but indeed, with all with whom he came in contact, wherever he went.

Regret Expressed at Ottawa. OTTAWA, Nov. 6.—(Special.)—The news of the death of Sir John Carling was heard to-night with the greatest regret. Premier Borden paid a high compliment to his work, which he rendered so large a portion of the western peninsula of Ontario fit for settlement.

TORONTO NEEDS EXPERTS TO PLAN ITS FUTURE

City Springing Into Commercial Prominence, at Parting of Ways, Says Thos. Mawson

Thomas H. Mawson, the distinguished English authority on town-planning, was in Toronto yesterday, giving a lecture on problems in connection with town-planning and civic-improvement schemes. He was accompanied by his wife, Mrs. Mawson, and a number of other persons.

Home is the Crucial. Above all things, he laid stress on the importance of the home, and the health to the population. These problems should be given every consideration in the young town just springing into commercial prominence. The task required in every branch, for a slight mistake might involve the most momentous consequences.

BROCKTON VETERAN DEAD

The old town of Brockton, long since annexed to the city, lost its oldest resident yesterday evening, in the person of Bartholomew Sullivan, who passed away at his daughter's home, 770 St. Lawrence-ave., in his 95th year. Mr. Sullivan was the best known resident of that locality, having lived there from his early childhood.

By religion Mr. Sullivan was a Roman Catholic and Father Walsh of St. Helen's parish will conduct the interment will take place in St. Michael's Cemetery. A large family survive.

Wheat Breaks Into New Ground Further Sharp Decline Shown

Chicago Market Semi-Demoralized on Resumption of Heavy Liquidating Movement—Corn and Oats Follow the Movement

CHICAGO, Nov. 6.—In another wild flurry wheat to-day sold lower than at any time since the W. S. Steel Corporation suit, which caused the market to break in price was a false report that a federal indictment had been returned against the Armour Grain Co. as an alleged conspirator in the suit.

The descent from the high point of the day in the wheat pit to the bottom level touched was 2 1/2 cts. for December, and the price paid for the contract was not even in question.

Confidence Suffered Shock.—The descent from the high point of the day in the wheat pit to the bottom level touched was 2 1/2 cts. for December, and the price paid for the contract was not even in question.

Corn Aids Erode.—Corn after selling higher on account of wet weather, suffered a break with wheat. In addition there was a forecast of returning sunshine and warmer weather.

Provisions had a strong undertone, due to good investment inspired by the stronger market for hogs. The market came only from long, who desired to secure positions. In the end pork was up 30c to 35c.

European Markets.—The European market closed to-day 1/2 cts. higher than Saturday on wheat and 1/2 cts. higher on corn.

Winnipeg Grain Market.—Winnipeg receipts of wheat to-day were 1,200 tons, against 1,000 tons last week.

World's Shipments.—World's shipments of wheat to-day were 1,200 tons, against 1,000 tons last week.

Visible Supplies.—A comparison of the visible grain supplies in the United States to-day and on the corresponding dates of the past two years, is as follows:

ST. LAWRENCE MARKET.—Receipts of farm produce were 100 bushels of barley and 200 bushels of hay.

GRAIN.—Wheat, full bushel, \$0.90 to \$0.91; Wheat, good bushel, \$0.87 to \$0.88.

SEED.—Alaska, No. 1, bushel, \$1.00 to \$1.05; Alaska, No. 2, bushel, \$0.95 to \$1.00.

HAY AND STRAW.—Hay, mixed, \$15.00 to \$16.00; Straw, bundled, \$10.00 to \$11.00.

FRUITS AND VEGETABLES.—Potatoes, bag, \$0.50 to \$0.55; Apples, bushel, \$0.75 to \$0.80.

WHEAT MARKET STILL IN HANDS OF THE DEARS

Disappointing Trend for These Who Looked for Merit in Lower Prices—Brokers' Comment

J. P. Bickell & Co. from Logan & Bryan at the close of a decidedly disappointing wheat market to-day for those who thought they were in for a better situation at the close of last week.

Wheat—Unexpected renewal of liquidating movement in the wheat market, which had been expected to be a temporary advantage of the bear clique to raid the market, and as a result prices were forced to a new low level.

EASIER FEELING IN MONTREAL STOCK YARDS

Decline in Prices Due to Big Supplies From This Province—Hogs Higher

MONTREAL, Nov. 6.—At the Montreal Stock Yards west end market the receipts of live stock for the week ending Nov. 4 were 2700 cattle, 3000 sheep and lambs, 400 hogs and 50 calves.

An easier feeling prevailed in the market for butchers' cattle, and prices ruled 10c to 25c lower than last week ago, which was due to the increased supplies which came forward from Ontario points.

The gathering of buyers on the market was fairly large, including some from the West, and they all wanted good beef, the demand was fair, and the market fairly active trade was done.

Choice steers sold at \$23.00 to \$25.00, heavy steers at \$20.00 to \$22.00, and the lower grades at \$18.00 to \$20.00.

On the other hand, the market for cauling stock was stronger, owing to the increased demand from packers, and prices advanced 10c to 25c per 100 pounds.

Since this day week a stronger feeling developed in the market for hogs, and prices have advanced 10c to 40c per 100 pounds.

Supplies of hogs were good, and the market was active, and prices advanced 10c to 25c per 100 pounds.

Butcher cows, 3000 lbs. each, at \$10.00 to \$12.00; 2000 lbs. each, at \$8.00 to \$10.00; 1500 lbs. each, at \$6.00 to \$8.00.

Feeding steers, 1000 lbs. each, at \$10.00 to \$12.00; 800 lbs. each, at \$8.00 to \$10.00; 600 lbs. each, at \$6.00 to \$8.00.

Feeding hogs, 100 lbs. each, at \$10.00 to \$12.00; 80 lbs. each, at \$8.00 to \$10.00; 60 lbs. each, at \$6.00 to \$8.00.

Chicago Live Stock.—Chicago market closed to-day 1/2 cts. lower than Saturday on wheat and 1/2 cts. lower on corn.

Market Quiet Trading in Mining Stocks, But Still a Responsible Trend

Market Holds in Waiting Mood But Some Strength is Shown

Porcupine Issues Generally Hold Their Own in Face of Profit-Taking Movement—Timiskaming Fails to Hold Its Advance.

World Office, Monday Evening, Nov. 6. The mining markets did little more than hold their own at firm prices in the initial session of the week, a more pronounced realization disposition at the advances which were realized on Friday and Saturday of last week putting in an appearance in the early trading to-day.

In the first hour's trading it seemed as if the market could not successfully hold the liquidation which was taken care of without more than a few fractional declines being forced. Immediately the accumulation of profit-taking orders near the week-end holiday were filled, a firmer trend developed, and such loss as occurred was quickly made up.

Demand Falls Off. The big Porcupine were in no special demand, trading in these issues being about on a par with that of late, few dealings being put thru on account of the rather sparse demand in evidence. Hollinger sold off from its previous figures, the shares falling to 20, a loss of five points from Saturday's close.

Has shown a better trend than its sister issue, the shares being a small advance on a few scattered buying orders. The top price for the day was 14 1/2, but the gain was not held through, some resistance late in the session wiping up the early advance.

Cheaper Issues Firm. The cheaper issues generally showed a firmer attitude and some small advances were recorded. Dome Extension made a small fractional gain, setting up to 7 1/2, and continuing in good demand around that level. Crown Chart touched a new high point for the movement at 4 1/2, a gain of half a point. Preston on the other hand was down to 1 1/2, the stock getting below Saturday's level under realizing sales.

The bulge in Timiskaming which followed the report of the company's liquidation of a Porcupine interest did not hold to-day, and the shares sold back again to 4 1/2, and closed around that figure, as compared with 5 at the close of last week.

The market, on the whole, was in a waiting mood, but showed signs of firmness which would only be taken as indicative of a strong technical position. Sentiment was favorable to higher prices.

THE GROWTH OF PORCUPINE.

The marvelous growth of Porcupine is amply demonstrated by the ever-increasing list of business establishments in the principal towns and the camps. Commercial and service enterprises in South Porcupine alone and those in North Porcupine, Timiskaming, Pearl Lake and Metagam, combined would amount to an equal number, which are:

- 1. Large hotels and numerous small ones.
2. Drug stores.
3. Hardware stores.
4. And more up-to-date general stores.
5. Furniture stores.
6. Stationery and light goods stores.
7. Bagged soft, light saloons.
8. Theatres.
9. Churches.
10. Livery stables.
11. Jewelry stores.
12. Barber-shops.
13. Office buildings.
14. Newspapers.
15. Electric light plant.
16. Laundries, blacksmith shops, shoemakers, etc.

THREE NATIONS BELT

Active Development on Several Properties Showing Good Results. PORCUPINE, Nov. 4.—(From Our Man Up North.)—The Three Nations district looks more into prominence as work progresses.

The compressor plant at the Three Nations property will be in place within a few weeks and the shaft work started. Preparations for big work this winter are being made.

To the north the LaPalme Mining Company have a large crew at work laying open the ridges and finishing the summer prospecting, with a view to getting at depth their work soon.

In addition to the work of the two organized companies, syndicates are being up the east and blasting in rock, following veins and testing for values.

On the Haasset claim, to the south of the LaPalme, a strong quartz lead with free gold showings is frequently this week. A conglomerate and schist contact of very much the same character as that which shows at the Dome. Slate outcroppings are also visible. Free gold values are noticeable at the contact of the slate and quartz.

Work was also started on the Fraser claim to the west of the Haasset, where strong values are frequently occurring in very much the same kind of a formation. Chas. Fox.

UNITED STATES MINERALS.

Nearly a third of a billion dollars was added to the wealth of the United States from the mineral production of the western states during 1910, according to the figures of the United States geological survey. This includes about \$66,000,000 worth of coal, the remaining production, principally metals, having a value of practically a quarter of a billion dollars. The total figures of western mineral production as compiled by the survey are \$329,944,881.

DOMESTIC EXTENSION SHAFT GOES DOWN RAPIDLY

Has Already Reached 155 Feet Level—Proceeding Along Lines of Big Dome.

PORCUPINE, Nov. 4.—(The Dome Extension main shaft, which is being sunk about 25 feet off the Anchor vein, reached a depth of 155 feet on Saturday night. It is expected that it will be down 175 feet at the end of this week.

From the 200 foot level a cross-cut will be run in to cut the vein and it is the expectation that an enormous body of first-class milling ore will be disclosed.

To the east about 400 feet another shaft is being sunk beside the Little Dome, which is about 100 feet wide and is a bulge in the vein similar to the Big Dome on the Dome property.

The putting down of these two shafts in the principal vein now being carried on, day and night shifts are employed to drive them down as rapidly as possible.

All surface work has ceased, as good milling ore and rich showings have been located in so many places that further expenditure on the surface would be wasteful. Rich ore can be blown out from the veins at numerous points.

Last week a party of twenty visitors went over the property, and the management put in a few shots in different places and the visitors were told to gather up the ore that was blown out. They carried away with them twenty small bags full of handsome samples as over weight of Porcupine. Every one of them was filled with "sparklers."

While the existence of such rich ore is important, the management do not consider it of as great importance as the uncovering of large bodies of ore that will average 60 to 75 tons, as it is well known that when such ore bodies are disclosed the asset value of the property will be increased by millions of dollars.

For instance it is computed that if the Anchor vein is 25 feet wide at the 200 foot level, and values are maintained at an average of \$17 a ton, ore to the value of \$4,000,000 would lie in the vein if it extended only 500 feet each way. Numerous samplings of this vein on the surface have shown average values of from \$20 to \$22 to the ton.

The main shaft is about 300 feet in diameter and is being driven east. The main bulge is 400 feet further east. The most spectacular values on the property exist on the Little Dome, where the ore body at this point is fully 100 feet wide.

The Rhault Vein. The new vein known as the Rhault vein is eight feet wide on the surface and shows visible gold in the white quartz. There is no doubt that this vein carries ore of high milling grade. It is so important that work will be started on it as soon as there are men and power available.

When the main shaft beside the Anchor vein is down 200 feet another cross cut will be run north to cut two other veins that are known to carry good values. The shaft started, and the two veins are about 150 feet to the north, and it is the expectation that they will form a junction at the 200 foot level.

The Dome Extension is now actively proceeding along the lines followed by the Big Dome, which has made that property so valuable. The Big Dome now has only \$25,000,000 of ore in sight. Within the next three weeks the Dome Extension will begin to bring ore bodies definitely in sight, and it is expected that the asset value of the property will increase with great rapidity.

Municipal Debentures.

Messrs. Wood, Gundy & Co. advise having yesterday received a cable from their London office stating that the issue of \$2,000,000 of the Twin City Rapid Transit debentures at par has been fully subscribed, the lists coming ahead of time.

The issue was arranged by Messrs. Wood, Gundy & Co., who are the fiscal agents for the city.

Twin City Earnings.

For the last ten days of October the earnings of the Twin City Rapid Transit Company were \$206,235, an increase over the corresponding period last year of \$232,000.

M'ARTHUR TOWNSHIP BEGINS TO LOOK GOOD

Engineers Impressed With Possibilities of Newly Opened District—Formation Mainly Schist

PORCUPINE, Nov. 2.—(From Our Man Up North.)—McArthur Township as a mining centre is not one of the impossibilities, and, indeed, according to the report of mining engineers who visited the district this week, comes squarely in the probable list.

A. B. Stewart, Peter McLauren and George Dewar, all engineers of high standing in matters pertaining to mining, spent one week in McArthur. They have no written opinions to hand out, but state that the district has the appearance of a mining spot and that the chances for the formation of rich veins are good.

They want to see more work done before venturing an opinion. The country rock is Kaeswain schist, with the vein matter carrying what the Dominion geologists call pegmatite and a changed porphyry, the whole very materially bearing the appearance of a granite, but lately decomposed.

McArthur is far ahead of any of the western camps, and A. B. Stewart, an art and has every indication that great riches lie underneath. Of all the new districts opened I think McArthur is the most attractive. It is a three-mile beaten a mile. The rock looks right, and I would like to see work done on it. The depth is made.

Engineer Stewart made an examination of the country to the west, including the Cripple Creek, which he found to be not impressed with the rock in the western belt, he is much pleased with what he saw in the south.

McArthur is in the Timagami Forest Reserve, three townships immediately south of Tindale. Chas. Fox.

PROMISING RESULTS AT DOBIE PROPERTY

Two Shafts Going Down—Main Vein Drifted on at 58 Feet Level.

PORCUPINE, Nov. 4.—(From Our Man Up North.)—Charles E. Watson, manager at the Dobie, and also a member of the McArthur interests in the district, who resigned to become manager for the Pienarium mine, has been succeeded by Engineer George Watson, who went down to the mining world.

During Mr. Watson's reign at the Dobie prospect, the shaft has been pushed forward with an unflinching hand. Surface prospecting laid bare several outcroppings that have been tested out and found to be of sufficient value to warrant work being done from the underground to explore the rock at depth. This work can now be continued this winter from the main shaft.

At present all the efforts of a big mining force are centred on deepening the No. 2 shaft, which stands about 300 feet from the No. 1 shaft on the main vein, where the golden ridge was laid open last fall.

At the present time the No. 2 shaft is being sunk at the rate of two shifts a day. The drilling at this point showed that a body of ore of considerable proportions lies at about the 80-foot depth.

Should the shaft open up what the management has every reason to believe exists at the 80 foot level, new body of ore should be added to the Dobie accumulations before the week is out. Chas. Fox.

WILL RESUME WORK

Porcupine United to Reconnoitre Active Development Operations. PORCUPINE, Nov. 4.—(From Our Man Up North.)—Porcupine United is to start out again, and P. S. Halstrom, head of the company, is here planning the work. T. S. Jenkins, who had such success on the Powell shaft last year and at present manager of the Eldorado, will have charge of the work.

Mr. Jenkins will act in the dual capacity of valuer and geologist. He is to be assisted by Messrs. P. S. Halstrom and P. S. Jenkins, as the properties lie side by side in the same belt.

Bush work, stripping and trenching along the new belt opened by Mr. Jenkins on the Eldorado, and traced to the United, will be done. Sampling will follow and when the values are ascertained, sinking started.

No work has been done on the United since the July 11 fire, when four men met death in the flames. Formerly the United was owned by Messrs. The Flynn Bros., who barely escaped alive, have returned. They are well acquainted with the plans that were followed out last year.

The United on the first lot of 160 acres has several mineralized ridges from which good values were taken last summer. Chas. Fox.

WHITNEY TOWNSHIP

The more Whitney Township is prospected the more the richness of the country is shown. The Eldorado and United Porcupine in South Whitney have under development shown up remarkably well and we consider the shares of these companies particularly worthy of the consideration of investors and speculators at present market prices. Interest in Porcupine is widening every day and the demand for gold stocks consequently broadening. Among the higher priced shares we regard Crown Charted, Vipond and Dome Extension as good purchases. All orders promptly executed on the Standard Stock Exchange.

MARKET ADVANCES STEADILY—RAILS IN LEAD

Continued From Page 10. The market. A large block of reading is alleged to have been liquidated during the last several days by an important banking interest.

Chas. Mack & Co. to R. R. Bonnard. Anyone who has taken pains to study the course of prices during the past week cannot help but be struck by the unsatisfactory way in which quotations fared. Extremely few securities, valued to score a rise in value which in some instances reached 50 per cent.

As in the case of U. S. Steel, Lehigh Valley and Canadian Pacific, London prices came fractionally lower, but this had little effect upon our market, which opened strong and immediately climbed upward. London sold approximately \$20,000 shares on balance. Closing prices were strong at highest for the day, with the bull sentiment in the ascendant.

Ald. Vird in Port Arthur. PORT ARTHUR, Ont., Nov. 6.—The independent labor party last night nominated Alderman Fred Vird as candidate for the legislature. This makes a three-cornered fight almost certain as the Liberals are expected to place I. L. Macfarlane in the contest. The Conservative Party already having named Dan Hogarth.

MONTREAL STOCK MARKET

Movements Irregular on Eastern Exchange—Trading Fairly Active. MONTREAL, Nov. 6.—Price movements on the local stock market today were somewhat irregular, there being some reaction, but in other cases prices were strong.

Steel Co. of Canada stock, which was again the most active issue, with transactions of 1400 shares, after selling at 26 1/4, eased off to 25 1/2, but advanced at the close to 26 1/2, with 25 1/2 bid and 26 asked at the close.

Another active issue was Canadian Converters, which opened at 37 and advanced to 42, closing sharp, being offered at 41, with 40 1/2 bid.

Shawinigan was strong, advancing to 113. Canadian Pacific was strong, advancing to 24 1/2, with 24 bid and 24 1/2 asked. Richelieu sold as high as 124 1/2, with the last sale at 124 1/2. Montreal Power, after selling at 173 1/4, weakened to 172 1/2, recovering to 173 1/2. Cement common weakened to 29 and the preferred sold at 31 1/2 and 30. Steel Corporation, after advancing to 59, eased off to 58 1/4.

Canadian Issue Over-Subscribed.

LONDON, Nov. 6.—The Bank of Montreal has closed in advance the list for the Montreal issue of \$2,000,000 for the year, bonds at par, the issue having been over-subscribed.

To Force Rate Reduction.

NEW YORK, Nov. 6.—Gov. Smith of Alabama has directed that suit be brought against Nashville, Chattanooga and St. Louis as lessee, to compel Western and Atlantic Railroad to adopt Georgia standard freight tariffs, even on interstate business.

U. S. Bank Failure.

KARON, Ind., Nov. 6.—The Citizens Bank, with \$100,000 capital and deposits of more than \$100,000, had been closed on the order of the state auditor. Cashier and bank president said to have admitted a shortage of between \$25,000 and \$55,000.

Worst Situation Seen.

Henry Closes, the New York broker, comments on the situation as follows: The stock market has been pounded and squeezed more severely than at any time since the panic of 1907. In today's recent over-production of merchandise and of securities, money is abundant and cheap. Confidence is beginning to rise because the worst has already been seen or discounted. Much of the recent depression has been due to a state of mind.

Demand Receivership.

OMAHA, Neb., Nov. 6.—Suits have been filed in district court, Clay County, Neb., asking that a receiver be appointed for St. Joseph and Grand Island Railway, petitioning for an injunction to restrain Union Pacific from further expending any of the funds of St. Joseph and Grand Island Railway.

## Just in---This Blue Wolf Set, \$50

We want you to see to-morrow one of the best values in furs that it has ever been our pleasure to offer.

These sets of blue wolf have just arrived from London England—the moment you see them you'll note the vast difference between these and the domestic dyed. The stoles are 72 inches long, and very new in design, finished with heads and brushes. Muffs are large pillow and rug shapes, lined with soft silks that match color of stoles.

To-morrow these magnificent sets will be offered at, **\$50** each

## There Are Still a Few Men

who are trying to bluff out Jack Frost. They are so rugged that they don't need a heavy overcoat, so they say. But last week's wintry weather made the bluff look rather sick, and these hale and hearty chaps should now be on the lookout for just such a coat as we can offer them to-morrow.
