SIXTEEN FALLS HOTELMEN ADMIT BREAKING LAW TWO STAND OVER

Provincial Government Special Officers Forced to Reveal Themselves—Six St. Catharines Proprietors Will Appear To-Day.

Niagara Falls, Ont., Oct. 2.—(Special.)—Sixteen of the 18 hotelmen arranged before Police Magistrate Cruikshank at Niagara Falls, Ont., today, on a charge of violating the excise laws in selling liquor during the forbidden hours, pleaded guilty to the charge, and were fined \$50 each.

The case of the Clifton Hotel Company and that of Alexander McLeod of the Falls View House were enlarged the first for eight days, and the second until to-morrow at 10 o'clock. County Crown Attorney Cooper and F. W. Cooper appeared for the prosecution, and Wm. M. German, K. C., handled the cases for the defendants.

In most cases it was the second offence of the accused. They paid the fine and received an admonition to the effect that another offence of a like nature would cost them their licenses. Robert Stokes of Toronto, detective of the license department of Ontario, was the chief witness. He said he was at the St. Clair Hotel with Alex Cameron on Sunday, Sept. 16. He found Cameron drinking, and had no difficulty in buying two glasses of ale, for which he paid. Cameron is also a license detective. On the same day the witness got liquor at eight other hotels in the city.

Among those who entered pleas of guilty were: James Bamfield, Grand Trunk Restaurant; O. F. Cronkrite, Savoy; Nelson Timmer, Hotel; Mrs. Keating, Windsor Hotel; Mrs. Summers, Imperial Hotel; Louis Symmes, Arlington Hotel; Mrs. Crozier, Columbia Hotel; E. C. Smith, St. Clair Hotel.

RAID AT ST. KITTIS. St. Catharines, Oct. 2.—(Special.)—To-day six local hotelkeepers received notices to appear in police court on Friday to answer to charges of having sold liquor during prohibited hours on Saturday last.

Those accused are: the Grand Central, J. A. Lafrance; the International, Wm. Gordie; the Ellis, D. C. Vandusen; the New American, M. J. Slough; and the Russell, John Quinn. Proprietor Slough of the American has already pleaded guilty to the charge and has been fined \$50.

VOTE FALLS SHORT. Two Bylaws Fail to Receive Sufficient Sanction.

Peterboro, Oct. 2.—(Special.)—Voting on two industrial bylaws here today resulted in a majority of 272 for the Peterboro Rapid Tool Co.'s factory, and 223 in favor of the Peterboro Steel Rolling Mills Co.

Several Others Who Accepted Bribes Were Docked 50 Cents Each as Rake-Off—Two Witnesses Fall Foul of Magistrate—Some Readable Testimony.

The London by-election bribery case was continued yesterday in spite of vigorous protests from Mr. Robinson as to the magistrate's jurisdiction. A warrant was issued for Thomas Lewis, the London hotelkeeper, who is wanted as a witness for the crown, as most of the bribery occurred at his place. It is said he is in the city, and may be a witness to-day. Edward Sitton, one of the proprietors that has been secured to date, for the new site.

Col. Denison was inclined to be jocular, indeed, as the matter proceeded, the trial is illumined by flashes of humor. None of the witnesses seemed to think there was anything strange or out of the way in selling a vote.

MR. TARTE'S ACCESSION TO OFFICE MAY LEAD TO VIOLENT PARTY SPLIT

Montreal, Oct. 2.—(Special.)—There is evidence of great distress in government ranks in this city over the proposed appointment of Hon. J. Israel Tarte to the chairmanship of the new harbor board. At times it looks as if Hon. Mr. Brodeur's wish would prevail, and that the ex-minister will really preside over the coming commission, yet the opposition seems so strong within the government ranks that such a move will be very difficult.

PUBLICITY THE CURE.

Better Than Legislation for Evils of Insurance Management.

Washington, Oct. 2.—Insurance commissioners from all over the United States assembled here to-day in their 5th annual convention. In his address President James V. Barry said: "The time will never come when the companies will be successfully managed either by state or supervision. More actual good has been accomplished by the publicity incident to the Armstrong committee investigation than will ever be accomplished by the Armstrong laws, so-called, and this observation is not meant to be in any sense a reflection on the present New York enactments. I simply desire to emphasize my belief in publicity rather than in legislation directed to cover every detail, as an effective remedy for evils of whatever nature."

HAMILTON HAPPENINGS

CATARACT-MANAGER KICKS IS GRILLED BY ALDERMEN

Company Supplies 400 c.p. Lamp When Contract Calls for 2000 c.p.

HAMILTON, Oct. 2.—(Special).—The board of works decided this evening to have all the companies that are tendering for the contract of installing housing for lamps place sample lamps on the Central Market, so that they may be compared. The test will be made Friday evening and the contract awarded. There was a lively debate on the subject.

Chadwick Bros., one of the tenderers declared that when they went to install a sample lamp they were told that it was useless, because the Cataract Power Company would get the contract.

Manager Hawkins of the Cataract Company complained that his company had been unfairly treated. Some of the aldermen jumped on him, declaring that although the company was bound under the present contract to supply a 2000 candle-power arc lamp it supplied only a 400 candle-power lamp. They also complained that the company did not give the reduction that the city was entitled to, and Mr. Hawkins replied that the company was willing to go to arbitration on the matter at once as provided for in the contract.

The board will fix up the Stuart and Wellington-streets, and will spend \$3000 on a foot bridge over the G.T.R. tracks at Emerald-street.

The north-enders agreed that the city could do what it likes with all the remainder of the \$5000 that was set aside for the bridge at the corner of Wellington and Erie-streets.

Run Over by Trolley. Joseph Schuler, a man 60 years of age, who lives adjacent Hope, was run over by a street car in charge of Conductor Chase and Motorman McWilliams, at the corner of Gulse and Wellington-streets, this evening. One of the unfortunate man's feet was cut off, and he was taken to the City Hospital, where his condition is regarded as critical.

There was a small fire at the old immigrant wharf in the Stuart-street between the G.T.R. this evening. The firemen had to lay a hose from the Caroline-street dump and wait until several trains had passed out of the station before they laid the hose.

No Blame on Anyone. The coroner's jury, that investigated the death of Pearl Donnelly, the young girl fatally injured by being struck by a broken cable that was being used in moving a house, brought in a verdict this evening of accidental death, with no blame attached to anyone.

The jury on Charles Hurst's death adjourned this evening until Thursday, so that the jurors may inspect the scaffold from which he fell.

His Memory Poor. George H. Bowser swore Service and Hardy had told him to see Collins, but he didn't remember. He saw Collins in a room behind the Hyman committee room. "The money was put in an envelope and I was taken to the room where Jerry Collins was paying the money. Mulloy and others were there. McCoy had \$2.50 deducted from a dollar and a half would get it."

Who was there? He was asked. "I don't know." "What's your occupation?" asked Mr. DuVerne. "I just walk around for mere exercise."

"And vote," asked his worship, "if there is an election on?" "Sometimes."

Collins had got \$90 from him for election money. He was just "accommodating" Collins. "What interest had you in the election?" "None. He came to me one time and asked if I'd put a note thru for him."

McDonald added that he took the envelope from the bank to the Queen's Hotel. "Was Mulloy there?" "Did you see Mr. Reid about it?" "Never borrowed from him in my life."

"I didn't ask you that." "Ask me something I can answer, and don't be so stubborn," retorted McDonald. "Did you see Reid about the money?" "No."

"You are not a political worker?" "No. You are in a construction company."

"Know Mr. O'Gorman?" "Wouldn't know Mr. O'Gorman if he happened up in front of me."

"When you went to the bank did they have the money for you?" "What's the use of asking that? Yer fool to ask that."

McDonald said he got \$45 back. He was told by Mr. DuVerne to go back to the bank and get his bank-book and cheques. He said he wouldn't. "I've got to have my expenses," said he. "This is a criminal case," said the magistrate. "I can send you down for contempt."

"All right, yer worship can send me down." Mr. DuVerne stated that all expenses would be paid by the attorney-general.

Paid No One. James Malloch of London was next. He had been seen talking to the defendant, George Reid, in court, and Mr. DuVerne wanted to know what it was about. Malloch couldn't remember. Then he said, "How are you, George?" That was all. Malloch had worked in sub-division 12, wall four, in the election.

"Who held the money?" "I don't know. I do not know whether I paid for the committee-room, but I might have done so."

"I want you to go back to London and bring your bank books, cheques, and other papers connected with this election, and bring them here to-morrow," said Mr. DuVerne. "The magistrate hinted that he doubted Malloch's veracity."

"Will you swear that you didn't pay out \$100 in the by-election between Hyman and Gray?" queried Mr. DuVerne. "I do," returned the witness. "Will you swear you didn't pay \$50?" "Yes."

"I don't know what I paid the janitor, but I have it coming to me," he complained. "Whom did you get the money from?"

The Handy Doctor in Your Vest Pocket

It's a thin, round-cornered little Enamel Box— When carried in your vest pocket it means Health-Insurance.

It contains Six Candy Tablets of pleasant taste, almost as pleasant as Chocolate.

Each tablet is a working dose of Cascarets, which acts like Exercise on the Bowels and Liver.

It will not purge, sicken, nor upset the stomach.

Because it is not a "Bile-driver," like Salts, Sodium, Calomel, Jalap, Senna, nor Aperient Waters.

Neither is it like Castor Oil, Glycerina, or other Oily Laxatives that simply lubricate the Intestines for transit of the food stopped up in them at that particular time.

The chief cause of Constipation and Indigestion is a weakness of the Muscles that contract the Intestines and Bowels.

Cascarets are practically to the Bowel Muscles what a Massage and Cold Bath are to the Athletic Muscles.

They stimulate the Bowel Muscles to contract, expand, and squeeze the Digestive Juices out of food eaten.

They don't help the Bowels and Liver in such a way as to make them lean upon similar assistance for the future.

This is why, with Cascarets, the dose may be lessened each succeeding time instead of increased, as it must be with all other Cathartics and Laxatives.

Cascarets act like exercise.

If carried in your vest pocket, (or carried in My Lady's Purse), and eaten just when you suspect you need one, you will never know a sick day from the ordinary ills of life.

Because it begins in the Bowels, and paves the way for all other diseases.

"Vest Pocket" box 10 cents.

Be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "CCC."

The retail shoe dealer who cannot offer you the Slater Shoe will tell you that the American shoe is "just as good"—and then he asks you to pay the extra dollar duty which he had to pay to get a shoe which he claims is as finely made as the Slater Shoe.

The foreign shoe may be as stylish and good looking as the Slater Shoe, but it lacks the sterling quality and dollar-for-dollar merit of the Canadian-made Slater Shoe.

The custom-made shoe has disappeared before the scientifically-made Slater Shoe—and the foreign shoe will disappear when the people learn that the American shoe is offered them just because the dealer cannot get the Slater Shoe.

SWEDISH VICE-CONSUL MURDERED IN RUSSIA

Attacked While Driving Near Where American Vice-Consul Was Recently Slain.

Batum, Trans-Caucasia, Oct. 2.—M. Hager, the Swedish vice-consul here, was mortally wounded to-day while driving in a carriage in the outskirts of the city, and died in the hospital to which he was conveyed.

His murderers escaped. M. Hager, who was manager of the Nobel Naphtha Works, is the second consular officer murdered during the last five months, the first being Wm. E. Stuart, the American vice-consul, who was shot and killed at his country place near here May 30.

MURDERS JUDGE IN COURT.

Askaniad, Trans-Caucasian Territory Russia, Oct. 2.—During the trial yesterday of the second section of the troops who murdered the fur-trader, an unknown man entered the court room and killed the judge advocate, General Rinkevich, and attempted to shoot the president of the court, Gen. Ushakov, but was shot down by an officer.

PAYS THE PENALTY.

St. Petersburg, Oct. 2.—The assassin of the headquarter staff, who was murdered in the park at Peterhof July 14 last in mistake for Gen. Trepoft, was executed to-day.

A FATAL WEDDING.

Montreal, Oct. 2.—An unusual fatality occurred to-day when Mrs. P. C. Lemoine, the wife of a hotel merchant, dropped dead in front of a street car at St. James and Catharine streets. She had come to the city to buy her daughter's wedding trousseau, and was crossing the street when death overtook her. The street car was stopped quickly, the wheels being within a few inches of the woman's head.

WOULD-BE REGISTRAR OF P.E.E.L.

Applicants for the vacant registration of P.E.E.L. are already in evidence. Thomas G. Shepherd, the deputy registrar for 30 years, is said to be supported by the patronage committee. Robert Johnston, ex-M.P. for Cardwell, Dr. C. T. Moore, Brampton; Dr. A. G. Atton; James Jackson, Brampton; are other names mentioned.

Before Judge Winchester.

In Judge Winchester's court yesterday afternoon, Adam Ossellor, 347 York street, was arraigned in connection with the alleged theft of brass journals from the G. T. R. at London. The crown claims that he received the journals, knowing them to have been stolen. The case was not concluded and will be resumed at 9 o'clock this morning.

J. C. Cookburn elected to be tried without a jury when arraigned at the sessions before Judge Winchester yesterday, on a charge of having stolen and sold three guns. The trial was set for Oct. 24.

Pinky Patrolman Gets His Man.

New York, Oct. 2.—With three deep stab wounds in his back and so weak from shock and loss of blood that he could scarcely support himself, Pinky Patrolman Harry Hoert to-day shot and disabled the man who had wounded him and who was seeking to escape. Hoert had arrested an Italian and was leading him to a patrol box when another Italian crept up behind them and plunged a knife into the officer's back. After the third knife thrust Hoert, standing himself against the side of the building, took deliberate aim and fired, and the fleeing man went to the ground with a bullet in his ankle.

NOTHING AGAINST WEBSTER IN THAT FISHERIES REPORT

Hon. Dr. Reaume Intimates That There Will Be No Change in the Department.

John Armstrong, the new chief of the labor bureau, has not yet been able to consult Hon. Dr. Reaume respecting the new departure he contemplates. The minister of public works has been very busy and is leaving to-day for to-morrow for the north and west. Armstrong will not discuss the matters until he has seen his chief. He said yesterday, however, that he has no objection to the resignation of Mr. Webster, but that he would not make a decision until he found a man who suited him. With regard to Chief Clerk Webster, he did not think there was any evidence in the report of the commissioner that could be construed into an indication of actual wrongdoing on Mr. Webster's part.

Hon. Dr. Reaume intends on going north to visit those districts where new works are required to satisfy himself as to their necessity. He holds strong opinions on the subject of the building roads in the districts which should not be opened for settlement at all, but maintained as forest reserves. Only land where farming is clearly practicable should be permanently improved.

WANT LABOR FOR RAILWAYS.

Advertising in British Papers for Men for Canada.

(Canadian Associated Press Cable.) London, Oct. 2.—J. A. Smart, the former deputy minister of the interior for Canada, is advertising for laborers for Canada, and Canadian railways. Mr. Smart has placed the matter in the hands of Louis Leopold at No. 15 Strand. The name "James A. Smart" is affixed to the door of Leopold's office.

The Svenska Dagbladet, the leading Stockholm newspaper, has a leading article on the subject of the Swedish Army proposal to emigrate Swedish laborers to Canada. The Swedish government is urged to step to the rescue any attempt the Army may make in that direction.

WHERE RUSSIA GETS EVEN.

Compares Atlanta Outrages With the Jewish Massacres.

St. Petersburg, Oct. 2.—Several newspapers have published editorial articles on the events at Atlanta, Ga., comparing them with the anti-Jewish massacres in Russia. The "Novoye Vremya" expresses the hope that the United States will cease to attribute the Russian excesses to the Jews, but instead of admitting that they are the result of natural racial animosity.

MUST PAY SCHOOL TAXES.

Veterans Who Have Taken Land Not Exempt.

Veterans must pay school taxes on their land grants. At 5:30, in Railway street, a number of ex-soldiers have been sold for taxes of this kind. The first of the veterans who located under the Ross government, who seem to think they are exempt from all taxation. Considerable dissatisfaction has been felt in the districts where these locations have been made, as the other settlers have to bear all the expense of roads and improvements. The tendency among the veterans has been to wait for the unearned increment. Mr. Hilliard's estimate is one of a 10 per cent. increase in the value of the land. The act is quite clear about the liability for school taxes.

DREADED WINTER ILLS.

Warmth and Comfort for One's Feet is Vastly Important.

Society's decree taboos the fragile thin-soled shoe for street or outdoor wear in Canada. Ladies nowadays insist on the substantial undulating insole. Shoes and lace boots must have effect, which was slightly exaggerated. They before still appear, there is a demand for the flexible and finished style made popular by the "Dolly Varden" and "matted" styles. In the northerly temperate zones, where one meets all kinds of weather, shoes that will stand their particular rigors and still give the maximum of good style, are produced only by firms who know. The 14 new features of the "Dolly Varden" are all commendable and desirable. Mr. Mercer, who has charge of the Dolly Varden Bootshop at 110 Yonge street, says that the Post-rite shoe for men, with its 20 improvements, captures the fancy of every gentleman who visits the store. Well made shoes, which stand the wet weather of a Canadian fall, will do much towards the prevention of the dreaded winter ills.

Explosion at Political Caucuses.

Indianapolis, Oct. 2.—While twenty Republican precinct leaders of Hancock County were holding a caucus in the town hall last night at New Palestine, the gas in the hall exploded, killing one man and injuring eight others.

BULK MATTER OUT OF MAELS. BUT NOTHING IN A STOCKING

Change Recommended for Adoption to U.S. Commission. Golden Treasure of Woman Reclosed Hidden in Strange Places.

New York, Oct. 2.—Important changes in the laws governing the handling of second-class mail matter were recommended in a statement by John M. Hubbard, assistant postmaster of Chicago, which was read to-day to the postal commission, which is investigating that subject. They include: "That second-class mail matter be made self-sustaining. A law obliging bulk matter to be carried outside of the mails would go a long way toward solving the problem. "That if this proposition is rejected the rate on bulk packages be increased to two cents a pound to news agents and dealers, and to three cents a pound to subscribers, advertisers and exchanges.

"The abolition of the sample copy privilege, the transient rate of postage, the compulsory routing of second-class matter by publishers, and the passage of a stringent law to punish violators of the law."

The carrying of bulk outside the mails, the statement declared, would result in immense savings to the government, and it is thought that the publishers can make better terms with the transportation companies than with the department.

DOMINION LOAN FALLS DUE.

Amounts to Twelve Millions and Over Will Be Taken Up.

Ottawa, Oct. 2.—A Dominion 4 per cent. loan amounting to \$12,166,666 falls due on Nov. 1, and will be taken up, but in what manner the department of finance will not state. The present condition of the money market in London is unfavorable to fresh loans. Between now and 1913 about \$135,000,000 of Dominion loans, less \$50,000,000 of sinking funds, have to be provided for.

WHEAT ELEVATOR COLLAPSES.

DISORDERLY HOUSE PROVEN

Continued From Page 1.

will take her away." He did not know anything wrong of the women.

Butler said Hepburn had yesterday sworn that he (Butler) demanded money to settle this thing. That was not true. The fact was Hepburn had proposed to settle the thing. He was the man who brought the case on.

Mr. Cameron, Butler said he had never said to Hepburn that he could get \$1000 from the Conservatives, Mr. Andrews, Mr. Boughner, or any person else.

The statement was false, absolutely unfounded.

Butler was questioned as to what was said in reference to Hepburn staying with the other woman after he came back that morning. Butler said Hepburn told him about it, and what he wrote on the paper was yesterday in that regard was based on what Hepburn said. Butler denied what Hepburn said in regard to the interview with Boughner. Hepburn talked to Boughner on the night mentioned, and witness did not hear what was said.

All the charges stated in the report made that night were made by Kaiser heard witness say he had been offered \$1000 by Mr. Marshall or his friends were absolutely false. There was no conversation with Hepburn told of after they came back from Boughner's. Witness advised that Hepburn had told of Port Stanley Hepburn said: "You go and get it fixed and I will see what I can do," or words to that effect.

Mr. Cameron: When you served Hepburn in his room at midnight, you say you took glasses. Why did you take more than one glass?

Witness: Water and whiskey.

To Mr. Cameron: I know that the report as to my being in a disorderly house, which led to the action, was not made by myself.

The magistrate endeavored to draw upon witness what opinion he formed of the character of the two women.

Witness declared he saw nothing wrong.

The magistrate assumed a stern attitude, but the witness stuck to his story. Witness said he did not see any woman there that night, and he was tight.

No Money Offered.

Mahlon Boughner, recalled, said Hepburn wanted him to keep the matter of his staying at Butler's house with Mrs. Glyro quiet.

Butler said he had offered him by Hepburn, Marshall or anyone else was false.

William Andrews, license inspector for East Elgin, said the charge that he had entered into a proposition to obtain money from Butler or anyone else in connection with this charge was false in every particular.

He did not know of any such conspiracy, and any statement to that kind was absolutely false.

Mr. Andrews said he had tried to find the woman (Glyro), also Mrs. (Singer), but he had not been able to find any trace of them.

To Mr. Sanders he said he had no personal acquaintance with the woman in question, he had seen one Mrs. Glyro, and the reports were not favorable as to her character.

Her general reputation was that of a woman who had been after the charge was laid that the woman in this case was the same woman.

The magistrate said this was a remarkable case. He had been anxious to find out who was lying, but had not been very successful, so far as he could see.

CLIMBS HIGHEST PINNACLE.

Brooklyn Doctor Reaches Summit of Mount McKinley.

New York, Oct. 2.—Satisfying a long cherished ambition, Dr. Fred Cook of Brooklyn has reached the summit of Mount McKinley, which towers 20,444 feet above the Pacific ocean, and is assumed to be the highest mountain of the North American continent.

Dr. Cook's feat is particularly notable in that it is the first ascent of the mountain on record and followed repeated failures.

News of his success was brought to friends here to-night in this telegram: "We have reached the summit of Mount McKinley by a new route from the north, and have mapped 300 miles of country. Return to Seattle by next steamer."

Coach Wray Again at Harvard.

Cambridge, Mass., Oct. 2.—The tailoring season for the Harvard team is today, when 20 men reported to Captain Bacon at the University Boat Club. The six members of the team who were away from Yale and Cambridge this year will be out with Wray, but their work this fall will be mainly as observers. The object of the fall work being to develop material for the spring campaign.

Markham Clippers Hockey Club.

The Markham Clippers A.C. organized last night by the late Mr. J. M. Money. President, F. Robinson; manager, N. Deadham; captain, S. Wallace; reporter, B. Wilson; secretary, J. M. Money. The Clippers propose to enter a junior hockey league.

NO POLITICS IN IT.

Ald. Church Denies That Vote on Park Purchase Was Influenced.

Ald. Church is indignant that his attitude on the purchase of the Leuty-avenue Park should be ascribed to politics.

"It was never approached by any officers of the Second Ward Conservative Association to vote the way I did, nor has Hon. Dr. Fyne spoken a word to me on the subject," he said yesterday.

He thought the property a good one for park purposes, if it could be had for a reasonable figure, but would not vote for any park east or west of an unreasonable figure.

Victoria had been first offered at \$50,000, and the price in time fell to \$30,000. The city, he said, was paying too high for its parks. Leuty-avenue Park last spring could have been had for \$10,000 or \$12,000. This was what several residents told him last May and June. He had not considered it until the owners were, but \$4000 an acre was too high, when others in the vicinity had sold for a fancy figure for the syndicate had paid a fancy figure for it.

He objected, also, to the city purchasing at a high price, which would be a loss to the city officials, who also blame the delay, as they had only reported on the day council met (Sept. 20). Their delay had helped to lose the park.

Any way the citizens would still be in a position to get the park, even under its private management.

ALEX. LESLIE DEAD.

Aged Resident of the City Dies at His Island Home.

The death occurred suddenly at the home of his daughter, at Fisherman's Island, last night, of Alexander Leslie, one of the oldest and most respected of the oldtime residents of the city.

Mr. Leslie had been in ill-health for more than a year, and his demise was not unexpected. Some time ago he disposed of his residence on Prince Arthur-avenue and purchased another on Avenue-road, which the family were making preparations to return, when the end came.

Deceased was in his 81st year, and is survived by two sons and two daughters. One of the sons is in the employ of the C.P.R. in Montreal, and the other in Detroit. He was a member of St. Paul's Methodist Church, and had for many years occupied prominent offices in the gift of the church.

At one time he was engaged in the boot and shoe business, but retired some years ago. Alex. Millard has charge of the funeral arrangements.

LIGHT BILLS TOO LIGHT.

Hence Charge of Tapping Wires is Laid Against Hotel Proprietors.

The Toronto Electric Light Co. have entered a charge against Alex and Adam Nelson, proprietors of the Rossin House, claiming that they have been tapping electric wires just above the meter, thus obtaining power that is not registered against them. The case will be heard on Friday.

The defence is that the hotel is receiving light from the Nordheimer Co., across the lane to the south, the Toronto Electric Light being called upon only at times to supply current. This, of course, has made the bills against it claimed and aroused an erroneous suspicion.

COMMENT ON COAL.

Editor World: Two letters from coal dealers have recently appeared in the columns of your paper, which have attracted some attention. Both your correspondents have had trouble with soft coal for steam purposes. Another soft coal I should have occasion to face the frown of the hard coal consumer.

Both seem averse to the use of "cheap" coal, the demand for which is fast increasing. Factories are giving more attention to that very considerable item of expenditure—the cost of fuel that they are finding good goods less costly in the end and much less troublesome, and they are rightly prejudiced against rubbish.

Of course there are different bituminous coals, whose chemical properties vary in preponderance, suited to different purposes, and were a user of soft coal I should by the kind that I suited my purpose, the kind I found good enough for me, which might or might not be expensive.

There is a diversity of opinion which is the better for steam purposes—semi-bituminous coal or anthracite. Another bituminous coal (volatile matter 20 per cent. or under) is more economical owing to its low cost and its more easy and perfect combustion. Another coal requires more care and generates more ashes and clinkers and costs about a third more per ton.

Rated anthracite properly constructed and efficiently operated, which is largely the secret of economy, anthracite coal is considered an objectionable fuel.

In some coals imported for threshing purposes for instance—there is great waste to the dealer. The coal is too friable and hasn't the tenacity necessary for economical transportation.

Very much depends on what purpose soft coal is to be used for. I was just wondering if "Country Dealer" had handled much steam coal with a heating value per pound of over 15,000 B.T.U., and ash within three per cent.

From which car of the cars and front yard part of said car would be a sample to show that analysis? He might get several cars from the same source, mark and each car with a different analysis—perhaps widely different. Samples taken from one car may show different analysis. Coal is not a fluid! A deal in coal based on rigid application of the B.T.U. test, as your correspondent suggests, might prove to be jug-jug-jug.

In whose interest would the analyst be working? Should be, in the interests of the seller, give credit for excess efficiency shown in some samples of distinct excellence, as well as note the inferiority of other cars in the interests of the buyer, the result might be satisfactory. But unless both interested parties had implicit confidence in the analyst, three of these would be necessary—one for the buyer, one for the seller, and a referee. When such interest engages the attention of those interested in big coal contracts, one doesn't wonder, but this B.T.U. test, in whose interest would the analyst be working? **A Reasonable Plea For the Stomach**  
If Your Stomach is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work—Especially When It Costs Nothing to Try?  
Not with drugs, but with a reinforcement of digestive agents, such as are naturally at work in the stomach. Scientific analysis shows that digestion requires pepsin, nitrogenous ferments, and the secretion of hydrochloric acid. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive apparatus.  
Stuart's Dyspepsia Tablets contain none of these natural elements necessary to digestion, and when placed at work in the weak stomach and small intestines, supply what these organs need. They stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.  
Stuart's Dyspepsia Tablets have been subjected to critical chemical tests at home and abroad and found to contain nothing but natural digestives. Chemical Laboratory, Telegraphic address "Difmidno," London, Telephone No. 11929 Central, 29, Cullum-street, Feanburgh-St., E.C.  
London, 9th Aug., 1935.  
I have analyzed most carefully a box of Stuart's Dyspepsia Tablets (a box of Stuart's Dyspepsia Tablets which I bought myself at a city chemist's shop for the purpose), manufactured by the F. A. Stuart Co., Temple Chambers, London, E. C. 4, and have to report that I cannot find any trace of vegetable or mineral poisons. Knowing the ingredients of the tablets, I am of opinion that they are admirably adaptable for the purpose for which they are intended.  
(Signed) John R. Brooke, F.I.C., F.C.S.  
There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water-brash, insomnia, loss of appetite, melancholia, constipation, dysentery, and kindred diseases originating from improper dissolution and assimilation of food, because they are thoroughly reliable and harmless to man or child.  
Stuart's Dyspepsia Tablets are at once a safe and a powerful remedy—one grain of these tablets being strong enough (by test) to digest 3000 grains of steak, eggs and other foods. Stuart's Dyspepsia Tablets will digest your food for you when your stomach can't.  
Ask your druggist for a fifty-cent package or send to us direct for a free trial sample package and you will be surprised at the result. F. A. Stuart Co., 84 Stuart Bldg., Marshall, Mich.

**MAGISTRATE TO BE ASKED TO EXPAIN JUDGMENTS**  
Punishments for Violation of the Local Option Law Unsatisfactory to N. Toronto Council.  
Toronto Junction, Oct. 2.—There is a meeting of the patrons of hockey called for Wednesday night, at the Rangers' Club room, Dundas-street, for the purpose of organizing a senior and junior league.  
The youngest child of James McLean, 470 Campbell-avenue, died at noon to-day. The funeral will take place to Prospect Cemetery on Wednesday afternoon.  
Edward and McGowan, who shot at H. M. Woolson last night, appeared before Magistrate Ellis to-day and were fined \$5 and costs.  
The Gun Club are making great preparations for the annual shoot, on Oct. 10, which promises to be the most successful in the history of the club. The secretary wishes to remind the members who have not sent their entry that they must do so before Friday next, if they intend competing.  
Last Saturday William Sire, a carpenter of Oshawa, disappeared, and his friends commenced a search later, the result being the finding of the body in the Sixteen-Creek, Sire's car, which was very near the creek, and it is supposed that he stumbled and fell over the embankment, was struck by a tree and killed. The deceased formerly lived in Toronto Junction, and the funeral will take place to-morrow from 79 Hoskins-avenue to Prospect Cemetery.  
**North Toronto.**  
Samuel Gaston, a market gardener of Eglington-avenue, had a narrow escape from injury yesterday afternoon. Gaston was driving home and at St. Clair-avenue, Deer Park, crossed the Metropolitan track. His rig was struck by a north bound car and badly smashed, but the occupant escaped with only a bad shaming. Motorist Humphrey claims to have given sufficient warning for Mr. Gaston to have avoided the collision.  
The town clerk received the month's returns of fines and fees of the police court for the month of August. One fine is given for \$2000 costs, of which the town received \$310.  
A court of revision was held last night, and the local improvement of the roads and sidewalks on Yonge-street, east side, from Eglington-avenue to the southern boundary of the town, was approved of by the St. Clement's Literary and Musical Society president, Rev. T. W. Powell, who deplored the want of agencies in the town for the mental improvement of young people, which makes such organizations so valuable. A creditable program was then tendered, in which the following took part: Messrs. Tronch-Frith, Grundy, Wagh, Baker and Messrs. F. Roberts, H. Frogley and Robert Boudin, accompanist.  
The town council last night had to endure sharp criticism at the hands of several ratepayers, who wanted sidewalks and other road improvements. The council members stated their inability to get up a petition for a sidewalk on Davisville-avenue on the local improvement. Mr. Coombs, chairman, stated that property owners on the street were unwilling to sign for the improvement, while they were perfectly satisfied to have the land improve in value. He asked the council to put a walk down on the initiative, and Dr. Bond and other members of the council thought the request a reasonable one. In order, however, to get the feeling of most of the owners on the street, it was decided before taking arbitrary proceedings, to allow them to signify their willingness to pay for the improvement. James Gillespie thought the town is doing nothing to improve its work. He had presented a petition for a sidewalk on Soudan-avenue nearly six months ago, and nothing had yet been done towards the construction of the work. The mayor explained that the commissioner's department was overworked and on the authority of the commissioner, he assured Mr. Gillespie that the initial work on the sidewalk would be commenced in a few days. He decided to side-track laid, and tenders for the removal of the old water tank and trestle work were considered, but the prices were regarded as excessive. The board of works will deal with the question before making any award.  
W. Tomlinson asked for the use of the town hall for a concert for the benefit of the local hockey team, and also for electric lights for the rink. The disposition of this application was left in the hands of the water, fire and light committee.  
H. R. Duke, on behalf of the citizens' committee, wrote decrying the improper carrying out of the local option by-law and the leniency (apparently shown by the police magistrate in trying the cases of violation of the by-law. Councillor Lawrence thought it time that a magistrate who would perform his duties should be procured. Councillor Pears could not understand why the fines imposed should grow smaller with each offence. Councillor Douglas thought the constable should be assisted in carrying out the law, and the name of W. White of Eglington was suggested for the purpose. The magistrate will also be requested to explain the supposed anomalies in his penalties.  
Dr. Wood asked the privilege of placing a professional sign at the south corner of Castlefield-avenue, but did not get complete assent to his proposition.  
The property owners of Merton-street petitioned for a nine-inch sewer. Their petition was granted.  
Richard Hinds of Soudan-avenue on Monday evening was thrown out of his rig at Bedford Park. He was stung, and his right ear was nearly severed, requiring fifteen stitches.  
Yesterday morning David Murray of Gordon-street while assisting bricklayers on Merton-street was struck on the head by a brick falling from the scaffold. Dr. Bond sewed up the wound.

**NOT ONTARIO FURS.**  
Hudson Bay Co. Satisfies Government That Law Wasn't Broken.  
The seizure of skins made last spring from the Hudson Bay Co. has been finally settled, the company having satisfied the government that the pelts were taken in Keewatin and not in this province. There were 123 beaver and 128 otter skins, directed to London, and they were only released on the understanding that the company would pay their value, \$3000, should illegality be proven. The bond has now been released.  
Upon another lot of skins valued at \$1000, seized from another firm at the same time, the full value has been exacted in fines, the firm having been unable to show that the skins were not taken in Ontario.  
The close season in these animals continues for two years more.

**Wychwood.**  
Harvest thanksgiving services were held at Zion Methodist Church on Sunday and Monday evening. The aim of the congregation was to reduce the church mortgage from \$2600 to \$2000, and when the gold evening tree was stripped on Monday evening Miss Coatsworth, daughter of Mayor Coatsworth, Toronto, the envelope totaled \$355. One man contributed \$150, and his wife \$100.

**East Toronto.**  
East Toronto, Oct. 2.—The purchase of the Leuty property by the Dominion Amusement Co. of Montreal has aroused a strong opposition on the part of the residents of the area, who are situated close proximity to the land acquired. It is urged that the permit allowing it to be used for the purpose indicated, as an extension of the fire hall, or for the use of the land for a fire hall, should be refused. Chief Constable Thompson, however, is opposed to having a public meeting in the fire hall. The concert in aid of the funds of the St. Saviour's Church, held in the Y. M. C. A. Hall, was well attended.

**Stouffville.**  
W. J. Stark has sold his brick residence here to Veterinary Surgeon J. T. Story, who takes possession at once. Ex-Councillor Armstrong returned on Monday last from Saskatchewan Province, where he has been spending the summer with his three sons, who are largely interested in wheat growing there.  
Lawyer Frank Sangster is home again after a lengthy business trip through Alberta and British Columbia.  
Isaac Reaman, J.P., spent the past few days on a business trip to St. Catharines and Welland, from where Herbert Hainer left a few days ago for McMaster University to begin his E.A. course.  
Norman Thompson of the Sovereign Bank here has received a license as lay reader in the Anglican Church. He occupied his official position for the first time last Sunday.

**RHEUMATISM**  
Back Pains, Sciatica, Lumbago, Kidney Pains, Nervousness and General Weakness.  
My Electric Belt cures these troubles. It has cured thousands of cases in the past few years. It is curing scores every day. My mail is full of letters of gratitude from cured patients. Have you Rheumatism or any pain or weakness? If so, lay aside those drugs and plasters which long experience tells you will never cure, and enjoy the warm, glowing vitality from my  
**DR. McLAUGHLIN'S ELECTRIC BELT**  
It will not fail; it cannot fail; for it pours life into the blood, loosens up the stiff joints, limbers the muscles, and gives snap and vim to all organs. Pain cannot exist where my Belt is worn. If you are in pain it will relieve you in three hours.  
Dr. McLaughlin, Dobbington, Ont.  
Dear Sir: It is about three years since I purchased your Belt, and it is the only medicine I have used since getting it. Before I got it I could not work with rheumatism in my shoulder and back.  
Yours truly,  
H. C. ARMSTRONG.  
**RHEUMATISM CURED FOUR YEARS AGO.**  
Dr. McLaughlin, Copper Cliff, Ont., Dec. 2, 1935.  
Dear Sir: Four years ago I had rheumatism and I could not move in bed. But your Belt cured me completely, and I can now say that I have not had a touch of it since that time. I consider your Belt a permanent cure in my case, and will recommend it to everybody.  
Yours truly,  
J. T. WHITE.  
My Belt cures Varicocoe, Rheumatism, Kidney Trouble, Lame Back, Sciatica, Stomach Troubles, Nervous Debility, Lost Vitality, and every indication that you are breaking down physically.  
If you are skeptical, all I ask is reasonable security for the price of the Belt, and  
**PAY WHEN YOU ARE CURED.**  
If I don't cure you, my Belt comes back to me, and we quit friends. You are out the time you spend on it—wearing it while you sleep—nothing more.  
If you will come and see me I'll explain to you. I am the only man in the world who has confidence enough in his remedy to wait for his pay until you are cured.

## Our Friend From Cannington Muses Upon Wine and Women

Chilly mornings—a cold breath that fans all the blood of your body to your heart, to pulse out again with colder meanings. Again, winter and the old pre-eminence of the north—that hand ever of strong, independent manhood and pure womanhood. The croaking in the frog ponds has grown more melancholy; in the far north the ice dogs are already baying; and your lady of the snows smiles softly thru her autumn at us as behind her foliage she discards with a silken rustle her summer gown. And away up there, where lives the Arctic day, that greatest of all modulates, nature, is preparing for the rusest arms, the brown breast bare to the winds, that mantle of furry white down that has made her beauty a by-word with poets.

A Lady of the Snows, indeed! But in her heart burns fire, the purest, the noblest in all the world. And, hark! Just now she is whispering to herself, sometimes she laughs softly—sometimes she sighs. She is remembering the summer glories, the triumphs that were hers—the nature songs sung in the long days in golden wheat fields, the lilt of ripening orchards, and the quieter enchantment of flower-scented nights pitched in the soft light of spangled skies.

good—and he enjoys living for its own sake. To him happiness is the first duty, and he thrusts pecuniary matters away with a suave hand and a shrug of his shoulders. One touch more to the character, and it would have been made effervescent. But, happily, he escaped "the gift of madness." Nothing outward would ever mean more to him than himself. And while he prefers to nibble them leisurely at the board of good-fellowship.

Sometimes she even sobs—the rose that was on her breast, now gone, but the meaning of the little boy god is still warm at her heart, and she smiles again. How pleasant is winter after all—the keen air, the brittle fire in the grate, and most of all the sublime production of home!—what a word to conjure by! And that's what makes our lady of the Snows the greatest little woman on earth. She is the queen of home and hospitality.

In appearance he looks himself. The face is fleshy, good-looking, somewhere near the forties, but with no deep lines, and the blonde mustache. On the whole it's a square, softened by flowing lines, and that's about what the man himself is, too.

And, again, you can enjoy immensely by his chat on Europe—from where he has just returned—as he whiffs it to you in the puffs of a cigar.

Mr. Fox, stock broker on Scott-street, was born a day late, so that he is always in pretty much of a hurry to catch up to things. But he keeps a sweet temper just the same, and if you had him out for a day's fishing, where he could make no spasmodic grasps for a telephone or anything of that sort, he would be a mighty good fellow. For he is a fish story—well, he could do pretty well, then turn his whistles to merriment again with a laugh. But he would not be apt to carry a joke into business. He likes moving, not so much for the money that is in it, as because he feels better than stay. He is the kind of a fellow that enjoys cleaving a path out with his own hand—no not savage. His cheerfulness is similar to that of a newboy with a newly acquired ideal working away like a captain of industry and with little knowledge of the sharp practices which sometimes makes the latter toirk his soul. Like a newboy, also, he is on to the matter of calling his wares, and he believes in himself and them.

Something of a Bohemian, something of an epicurean, and considerable of a latitudinarian, you can enjoy immensely by his chat on Europe—from where he has just returned—as he whiffs it to you in the puffs of a cigar.

### Dr. Agnew's Cure for the Heart

A cure that has stepped to the bedside of a sufferer in the clutch of death. A cure that has unloosed the grip and stopped the pain in 30 minutes and gently led the heart-wracked soul out from the darkness and despair to the brightness and happiness that comes to one whose heart beats true, whose blood tingles with life and vigor. Dr. Agnew's Cure for the Heart is not heralded as a miracle worker, but it has many miraculous cures to its credit. Weak heart—weak blood—weak nerves travel hand-in-hand, and you find the symptoms in such sensations as palpitation, fluttering, shortness of breath, weak and irregular pulse, smothering spells, chills sensations, fainting spells, swelling of feet and ankles, weariness, tired feeling; all these presage heart disorder and you cannot afford to neglect them. Dr. Agnew's Cure for the heart is a tried remedy—the sure remedy—the quick acting remedy—a real life savor.

## HAS MEDICAL COUNCIL

### Dr. Hunter's Strong Plea for New Blood in Personnel of Council.

Editor World: Another term of the Ontario Medical Council has expired, and the physicians of Ontario will soon be called upon to elect their representatives. Hitherto altogether too much apathy has characterized these elections. The medical council is not an exception to other legislative bodies, and all history teaches us that insatiable lust for office by those in power, and sluggish indifference and cowardice on the part of the electorate are most potent and baneful influences in straddling government. The medical council on the shores of corruption or uselessness. There are not wanting critics—medical and lay—who say that the medical council is practically stranded on the latter shore. Whether this be so or not the best way to prevent the stranding is to elect strong and to divert such a disaster is for the electors in every district to have a contest, not for factious opposition but to create and stimulate a desire for progress.

There are very important problems pertaining to public health, as well as many bearing more directly on medical education and practice seeking solution. Probably 75 per cent of the physicians in Ontario are between the ages of 25 and 50, and medical legislation is pre-eminently in the interests of these young practitioners. Why then should the usefulness of the council be impaired by allowing a few men to retain office for life? There is not a member in the present council whose place could not be at least equally well filled by any one of the thousands of men to be found in every electoral district. The mere fact that the present member may be a "good fellow" is not a sufficient reason for his retention. The only reason why he should be given another term is that he has been shown to have served a second term, and especially if he has been given that privilege by acclamation. The council should be made representative of the evidence some special work that he is better qualified to do than anyone else. Toronto has a large population, and ample for East Toronto and every other riding in Ontario. In Dr. J. S. Hart it has a representative of the west, where the interest of the younger men in the professional culture, capacity, courage and energy of the present council is represented. Dr. A. A. Macdonald has as yet never shown an insatiable thirst for office, and as a result has been elected representative of two electors by acclamation and the presidency of the council he will doubtless gladly represent the interests of his friends by retiring on his well-earned honors and allow the mutual friends of both to extend to Dr. Hart the same courtesies extended to Macdonald.

### THEY COMMAND SUCCESS.

Splendid Progress Made Since Their Introduction in Canada.

Mr. Frank Mercer, the managing partner of the Dolly Varden and Foot-rite Bootshop at 110 Yonge-street, Toronto, says that there are 17 well-equipped stores and agencies throughout the Dolly Varden in Canada alone. The Montreal store in St. Catherine-street is controlled by Thomas Hickey, an insurance man, who took up the study of the shoe trade some six years ago. In Winnipeg a fine new store has been built expressly for the Dolly Varden and Foot-rite Bootshop, and it will be a very successful one. In Ontario a fine new store has been built expressly for the Dolly Varden and Foot-rite Bootshop, and it will be a very successful one. In Ontario a fine new store has been built expressly for the Dolly Varden and Foot-rite Bootshop, and it will be a very successful one.

### "WILD WEST" BURNED OUT

ONE MAN IS CREMATED

Geneva, Ohio, Oct. 2.—Cunningham's Wild West Show, owned by Walter L. Main, was destroyed by fire in winter quarters here to-day. One man was burned to death. Most of the animals in the building were also burned. The loss will be about \$40,000.

### DESERTER'S BOY ON TRAIN.

Sault Ste. Marie, Ont., Oct. 2.—Leslie Ferguson, 10 years old, is stranded in the Soo because his father mysteriously deserted him at Saxon, a station on the south shore in Wisconsin. The boy and his father were traveling from the Canadian Northwest to Collingwood on a line of boats, when he two dollars and got off the train, after telling the boy to come to the Soo and wait for him.

### Presentation to Ex-Inspector.

A pleasing event at the city hall yesterday afternoon was the presentation of a solid gold watch, locket and chain to ex-inspector Somerville of the police force. He has retired after thirty-four years' service. Previous to joining the local force, Nov. 18, 1872, he served for nearly ten years in the Royal Irish Constabulary. Chief Grasset made the presentation, speaking in high terms of Mr. Somerville's long and faithful service. The class of such men as the retiring inspector, he remarked, was far too scarce. Deputy Chief Stark also spoke, and Inspector Somerville made a reply.

## PLEASANT BALLOON TRIP ACROSS ENGLISH CHANNEL

### Yankee Soldier is Winner of the Big Race for the Bennett Cup.

Paris, Oct. 2.—All the uncertainty regarding the result of the balloon race for the James Gordon Bennett Cup, started from here on Sunday afternoon, was ended at noon to-day, when a despatch was received by the Aero Club, announcing that H. C. S. Rolis and his companion, Col. Capper, in the balloon Britannia, landed at Sandringham Upland at 6.30 last night, thus establishing that Lieut. Frank P. Lahm, 8th Cavalry, U.S.A., the American competitor in the race, who descended near Whitby yesterday afternoon in the balloon United States, is the winner.

Signor Von Willer, Italy, is second; Count de la Vauc, France, third, and H. C. S. Rolis, Great Britain, fourth. Some anxiety was felt on account of Mr. Rolis, it being feared that he had attempted to cross the North Sea. The delay in reporting his descent is not yet explained.

Lahm has devoted much attention to aerostatics, and his rapid advances as an aerial pilot has already attracted considerable attention. He made a successful ascension during the summer, the longest voyage being from Saint Cloud to Saint Briac. The lieutenant took the place of his father in the race, the latter, who is the best known American aeronaut in Paris, being called home on Saturday. Signor Von Willer, his nearest competitor, the lieutenant and Major Hersey, his companion, describe their voyage as having been delightful. At the start a westerly wind carried the balloon over Western France, and then, veering northward, took her across the Channel. They had a beautiful moonlight night for crossing, and greatly enjoyed the experience. The balloon was so low and maintained her equilibrium so well that the aeronauts were enabled to see persons on the decks of the Channel steamers. After crossing the Channel, the wind took the balloon almost directly north, along the coast, until a strong wind was encountered which threatened to carry them seaward, so they made a leisurely descent at Whitby, the lieutenant climbing down the guy ropes to enquire the way to the station. As the wind was favorable they continued their journey towards the railway, descending not far from the station. The beautiful cup presented for competition by James Gordon Bennett becomes a trophy of the Aero Club of America. The first cash prize of \$2000 was given to Lieut. Lahm and the endurance medal to Mr. Rolis, who was the longest in the air.

### HOLD UP IN THE WARD.

Four Men Attacked Englishman—One is Arrested in Dirt Heap.

James Crane was in police court yesterday charged, with assault and robbery of Henry Fryer, at London and Chestnut-streets late Monday night. A silver watch and \$17.75 were taken. Fryer declared that four men attacked him, two holding him and the other two searching him. He followed two and got P. C. McKinney to search a house, where four men and two women were found out, but none identified. McKinney then found Crane hiding in a rubbish heap in the yard, and Fryer said he was one of the quartet. Crane was remanded till to-morrow. Charles Phillips will serve 30 days for theft. Jacob Singer was discharged with a warning on a charge of having bought gold nuggets that had been stolen.

**MINE DEALINGS AT COBALT  
 TALK IN BIG FIGURES**

**Col. Thompson's Share in Nipissing Said to Have Been Purchased for \$800,000.**

**Cobalt, Oct. 2.**—(Staff Special.)—Considerable excitement prevails throughout the district. The sale of the Foster property has created rumors of many changes in the holdings of the camp.

It is known that the Watt property has been acquired by a leading official of one of the old shipping mines. This property adjoins the McKinley-Darragh-Savage, and the Silver Queen lies opposite it, on the other side of the railway track. It is thought that these shipping properties will be traced on the Watt.

The price paid is said to be over one hundred dollars. The Green-McCreehan property, in Bucke, where the recent rich find was made, is another property which has changed hands, it is said. It is already an owner of \$125,000 has been refused.

**The T. & N. O. Railway** is reaping rich rewards. Every train brings in one, two or three private cars.

**Capt. De la Mar** and **Dr. Hugo Von Haden**, president of the Bearwell Coal and Railway Co., New York, and a young of traction, came were in camp for nearly a week.

It is stated here that on his visit, **Capt. De la Mar** secured the interest in the Nipissing, paying \$800,000 for the same. It is also believed that the same gentleman secured a lot of smaller and undeveloped properties.

It had been whispered that **T. F. Barrie**, president, was to be frozen out of the Nipissing, the which has been attracting so much recent attention. Mr. Barrie was the first foreigner to back in capitalistic ventures here, and has many warm friends, who would much regret his retirement from the field.

Your correspondent wired to **New York** the other day, asking if there were any truth in the rumor. As a consequence, he is able to say on the highest authority that the report is absolutely without foundation.

**A Gold Strike.**—New discoveries are being made throughout the district. **Gordon Benson**, formerly a newspaper man in Montreal, but now a mine operator, claims to have discovered a striking gold find yesterday on the east half of the south-west quarter of the north half of lot 2 in the third concession of Coleman, just south of the Beaver and the Temiskaming. A quartz vein high-ly charged with gold was carefully covered and bagged and is awaiting the arrival of the inspector next Wednesday. Other parties are eagerly looking for a discovery on the same lot. Associated with Mr. Benson are **Fred Day**, a Haliburton lawyer; **R. J. Rowell** of Montreal, and **W. A. New** of Lake Umbagog.

Another syndicate, composed of **Messrs. Latchford** (of Latchford, McGill & Daly), **J. A. Grey** and **J. Marder** claim to have struck a vein of cobalt and silver a foot and a half wide on their property just north of the Bearwell mine, and an early inspection has been asked.

The **Town of Cobalt** steadily grows. Both the Prospect and Cobalt House are being reconstructed. The latter is a band has been organized, under the able leadership of **J. B. Sybil**, president. Here is getting financial assistance for the erection of a large rink and professional hockey may be looked for in the near future. The town has had enough of amateur hockey last winter, and the prevailing desire seems to be to get good professional players to play and give the public value for their money.

It is stated that a daily newspaper will shortly appear in Cobalt.

**THERE WAS NO CONTRACT.**

**Secretary's Signature Was Not Blatant on Company.**

An interesting case was disposed of at the non-jury sittings of the high court yesterday afternoon. The **Copland Brewery** was sued by **Mr. Livingston** for breach of contract in connection with an alleged agreement of sale of a piece of east end property. It appears that whatever agreement existed had been entered by **Mr. Porter**, secretary of the company. The court held that there was no contract.

The preliminary list for the non-jury sittings of the high court today is **Hobson v. Fox**; **Copland v. Business Systems** and **Western Commission Co. v. Moore**.

**Just a Friendly Call.**

**Commissioner Coombs** of the Salvation Army told **The World** last night that his interview with **Minister of Agriculture** **Monteth** and **Eon**, **Frank Cochrane** at the parliament buildings yesterday had had bearing on the subject of land grants for the Salvation Army immigrants in New Ontario.

"I just dropped in to shake hands with them," he said. "We had no conversation about land at all. That matter has not yet been decided, although the work is progressing favorably."

contents of the ore house, where Superintendent McMillan has stored seven carloads of rich ore as ever left a camp. The average value per car, a conservative mining man recently expressed the opinion that the ore stored at the Foster would easily average \$35,000.

At the Buffalo, Superintendent Jones has a car of No. 1 high-grade and 2 cars of No. 2 high-grade, recognized as the best in the district.

**Ex-President Palma** departs from scene of brief, but turbulent regime—Business improves.

Havana, Oct. 2.—It is believed tonight that all the revolutionists about Havana will have been peacefully dispersed in three days. Generals Guerra and Del Castillo are actively co-operating to this end.

Together with Guzman, the commander-in-chief of the rebels in Santa Clara Province, they called at the American legation to-day and renewed their promises of assistance.

They also thanked Governor Tarr for his courtesy and discussed the projected American amnesty proclamation. Governor Tarr told his visitors that he would take up this subject later, not having time now to attend to the necessary attention, and said that when the matter did come up he would investigate personally and give his attention to it.

While the departure to-day from Havana of **Ex-President Palma** was the most important event of the last 24 hours, the former president left the capital so quietly that the public did not realize he had gone until the news was given in the afternoon papers.

Only his cabinet members and a few intimate friends accompanied the ex-president and his family to the railroad station.

**Business** is picking up wonderfully. Contracts are being renewed, enterprises of all sorts are being revived, and the confidence of the business elements in the provisional government is apparently unbounded.

**AMATEUR FLORIST'S CHANCE**

Has Good One in Competition With Local Professionals, Says One.

The question was asked in the meeting of the Horticultural Society last evening why no provision was made in the prize list of the "mum" department at the coming Flower and Fruit Show, for the amateur growers. Some one suggested that it was a poor way to encourage careful cultivation, which was the very object of the exhibit.

**Tommaso Mantovani** of Eglington explained that when a department for amateurs was run every year in the Horticultural Gardens, exhibitors resorted to dishonest tactics, and placed cuts obtained from professional florists in the exhibit.

Another syndicate, composed of **Messrs. Latchford** (of Latchford, McGill & Daly), **J. A. Grey** and **J. Marder** claim to have struck a vein of cobalt and silver a foot and a half wide on their property just north of the Bearwell mine, and an early inspection has been asked.

Governor Tarr told his visitors that he would take up this subject later, not having time now to attend to the necessary attention, and said that when the matter did come up he would investigate personally and give his attention to it.

While the departure to-day from Havana of **Ex-President Palma** was the most important event of the last 24 hours, the former president left the capital so quietly that the public did not realize he had gone until the news was given in the afternoon papers.

Only his cabinet members and a few intimate friends accompanied the ex-president and his family to the railroad station.

**Business** is picking up wonderfully. Contracts are being renewed, enterprises of all sorts are being revived, and the confidence of the business elements in the provisional government is apparently unbounded.

**AMATEUR FLORIST'S CHANCE**

Has Good One in Competition With Local Professionals, Says One.

The question was asked in the meeting of the Horticultural Society last evening why no provision was made in the prize list of the "mum" department at the coming Flower and Fruit Show, for the amateur growers. Some one suggested that it was a poor way to encourage careful cultivation, which was the very object of the exhibit.

**Tommaso Mantovani** of Eglington explained that when a department for amateurs was run every year in the Horticultural Gardens, exhibitors resorted to dishonest tactics, and placed cuts obtained from professional florists in the exhibit.

Another syndicate, composed of **Messrs. Latchford** (of Latchford, McGill & Daly), **J. A. Grey** and **J. Marder** claim to have struck a vein of cobalt and silver a foot and a half wide on their property just north of the Bearwell mine, and an early inspection has been asked.

The **Town of Cobalt** steadily grows. Both the Prospect and Cobalt House are being reconstructed. The latter is a band has been organized, under the able leadership of **J. B. Sybil**, president. Here is getting financial assistance for the erection of a large rink and professional hockey may be looked for in the near future. The town has had enough of amateur hockey last winter, and the prevailing desire seems to be to get good professional players to play and give the public value for their money.

It is stated that a daily newspaper will shortly appear in Cobalt.

**F. B. Mosure.**

**THERE WAS NO CONTRACT.**

**Secretary's Signature Was Not Blatant on Company.**

An interesting case was disposed of at the non-jury sittings of the high court yesterday afternoon. The **Copland Brewery** was sued by **Mr. Livingston** for breach of contract in connection with an alleged agreement of sale of a piece of east end property. It appears that whatever agreement existed had been entered by **Mr. Porter**, secretary of the company. The court held that there was no contract.

The preliminary list for the non-jury sittings of the high court today is **Hobson v. Fox**; **Copland v. Business Systems** and **Western Commission Co. v. Moore**.

**Just a Friendly Call.**

**Commissioner Coombs** of the Salvation Army told **The World** last night that his interview with **Minister of Agriculture** **Monteth** and **Eon**, **Frank Cochrane** at the parliament buildings yesterday had had bearing on the subject of land grants for the Salvation Army immigrants in New Ontario.

"I just dropped in to shake hands with them," he said. "We had no conversation about land at all. That matter has not yet been decided, although the work is progressing favorably."

**Presbyterian Sunday Schools.**

Some 26 Sunday schools, under the auspices of the Central Presbyterian Church, met in Erskine Church last night to discuss ways and means for promoting the interest in Sabbath school generally. **Mr. G. H. Christie**, superintendent of College-street Presbyterian Church, presided, and, following the discussion, refreshments were served.

**CARS SHOULD CARRY JACKS  
 TO BE USED IN ACCIDENTS**

**Coroner's Jury** makes recommendation following enquiry into **Reade Boy's** death.

"We, the jury, called to find out the cause of the death of **Maaklein Reade**, find that the lad in some way or other was struck by the corner of the fender of car 382, and rolled between the fender and the steps of the car, and came by his injuries by coming in contact with the machinery under the car. The wheels of the car did not run over the body of the child, but death was caused by being under the car."

"We think the motorman did all in his power to avert the accident."

"We would recommend that all railway officials use some means whereby it would be impossible for any person to fall between the fender and the wheels; also that one or two jacks be kept on each car."

The above verdict was reached by **Coroner's inquest** last night, after **Motorman Wilson** and about a dozen witnesses had been examined.

The boy was the 5-year-old son of **Dr. R. J. Reade**, whose office is at Yonge and Beaver-streets.

**GALLERY APPEAL HEARD.**

**Asks Supreme Court to Remove the Disqualification.**

Ottawa, Oct. 2.—Justice **L. P. Duff** of British Columbia took his seat on the supreme court bench to-day.

There was a large array of legal talent present on account of the five election cases which were on the list.

**Chief Justice Fitzpatrick** referred to the **Justice of the Peace** **Sedgwick**, which, he said, was a loss to the legal world, and that some motions were discussed.

The **Gallery election case** was the first on the list. The argument was not concluded at adjournment.

The appeal was from the finding of the trial judge, who held that the candidate elected, was guilty of personal corruption, which involved his disqualification for seven years. The appellant relied in support of his appeal on the fact that none of the personal charges were proved, and only one, in which \$1,000 were paid, was proved. The hundreds of charges of bribery by agents, that only \$500 was spent, and whereby the appellant was elected, were not proved, and that the appellant had committed no offence, but only that there was general corruption with his consent.

**MOLESTED YOUNG WOMAN.**

**Daniel Smith Locked Up for Following and Striking Her.**

There is a young man in the custody of the police at No. 1 station who has been severely criticized. He says his name is **Daniel Smith**.

**Miss Alice White** was standing in front of **Shea's Theatre** yesterday afternoon, when the fellow spoke to her. She walked away, and he followed.

When she got to the doorway of an office building on Victoria-street, near Adelaide, he went in after her. She protested against him annoying her, and the complaint is that he therupon struck her on the face with a brick.

**Frank Hall** and another citizen called the attention of **Policeman McKee** to the situation, and Smith was arrested. He was charged with assault, and a similar episode, but the offender eluded the police.

**OBITUARY.**

**John H. Little.**

**Guelpo**, Oct. 2.—**John H. Little**, deputy postmaster of Victoria, died this morning, after an illness of over a week from paralysis. He was unconscious for the last three or four days. He leaves a widow and two children, besides his aged father, **James Little**; two brothers, **David** and **William**; and three sisters, **Mrs. (Rev.) D. McCrae**, **Wilhelmina**, and **Miss Lizzie** and **Maggie**, at home.

**Dr. Archie Gray.**

**Sarnia, Oct. 2.**—**Dr. Archie Gray**, a dentist of **Marine City, Mich.**, died here to-day at the home of his parents of typhoid fever. He came up on a visit a week ago.

**GERMAN B. S. OFFICERS.**

The **German Benevolent Society** last night elected the following officers: **President**, **H. Gunther**; **vice-president**, **Charles Wurd**; **corresponding secretary**, **J. Lehmann**; **financial secretary**, **A. J. Seyler**; **trustees**, **C. A. Werner**, **F. Ebach**; **auditors**, **A. Heintzman**, **F. Schock**; **J. Jurasschak**, **physician**, **Dr. Lehmann**.

**James F. Riddell of Chatham** accidentally shot on duck hunt — **Barnardo** Boy Killed.

**Regina, Sask., Oct. 2.**—Two men named **Richen** and **Moffat**, natives of **Fergus, Ont.**, and **Cape Breton**, respectively, were suffocated by gas, twenty-five miles south of here, last night.

They were sinking a well on the farm had gone down to adjust some of the machinery.

When he did not give the signal to haul up, his comrade followed him into the well, and both were dead when they were hauled up this morning.

A heavy flow of gas had been encountered, and when lanterns were lowered into the depths of the shaft they were immediately extinguished by the fumes.

**SHOT ON DUCK HUNT.**

**Chatham, Oct. 2.**—**James F. Riddell**, a popular young man of 25 years, was found dead near **Eric East** of this city, last night, with a gunshot wound in his head.

More Deal Expected But Not Yet Announced - Local Stocks Dull and Inactive

The Toronto stock market showed absolutely no distinguishing characteristics today. The trading was apathetic and sellers were as free or freer than buyers.

There were no new influences at work, at least the impression of cheaper money brought about a small number of new purchases. Steadily firm, perhaps, best sizes up the market, and only in the case of Northern Navigation were offerings at all scanty.

FOSTER COBALT ATTRACTING ATTENTION.

World Office, Tuesday, Oct. 2.

The Cobalt stocks continued to be the engrossing topic around the new quotation on one or other of these various notations, and many with capital are looking about to secure options on properties not already engaged.

Today the stock sold as high as \$24 a share, with 25 cents a share dividend deducted. This property is now sized up as a Standard Oil proposition, and no one will attempt to limit the extent of its advance.

Especially the Foster Cobalt stock, next to Nipissing, is attracting more attention than any other issue. The capitalization of Foster is generally viewed as conservative, being only \$1,000,000. It was definitely stated today that control of this property will remain in the hands of Canadians, although attractive offers have been made.

Mr. Cronyn had a small nugget procured at a 70 foot level of this property, assayed in Toronto. The nugget was only about the size of a macadamizing stone, but the return to him was fine silver, equal to \$12.15, after \$2 had been extracted for assaying charges.

Mr. Cronyn is using the product amounting to 100 lbs. of silver, by the hands of Canadians, although attractive offers have been made.

TORONTO HORSE MARKET PRICES ABOUT STATIONARY

The Intentions of the Provincial Minister of Agriculture Favorably Regarded.

Horsemen of the province have reason to be thankful that at last they have a minister of agriculture of broad mind, who is disposed to consider their interests as at least equal in importance to those of other branches of live stock.

Mr. Monteth has decided, in view of the growing matter to be dealt with by his predecessors, to enquire into the subject, and from the evidence collected, to form a definite policy. He recognizes that he has entered upon no easy task, that horsemen are divergent and exceedingly various in their views, and that, as a consequence, it will be somewhat hard to reconcile them and to bring out of the whole something that will be of practical benefit to the entire province.

He has been greatly pleased with what he has seen at the various fairs he has visited. Especially he was delighted at the horses he saw at St. Mary's. He would like to visit every fair, but it is not hard to understand that the multifarious duties of his department necessitate that a large part of his time must be spent in Toronto.

At present he is rather inclined to favor registration and inspection, but before entering upon any definite policy in that direction or any other, he desires to obtain the opinions of everybody practically interested. One thing he has especially pleased to see, is the manifest disposition everywhere visible to breed to type, Clyde to Clyde, Hackney to Hackney, roadster to roadster, hunter to hunter, carriage horse to carriage horse, standard-bred to standard-bred, and so on down the entire catalogue. He recognizes that only in this way can the best results be obtained, but at the same time, he is especially desirous of bringing about the greatest benefit to the many. The vastness of the horse interests has surprised him. In fact, he does not believe that there has been any deterioration whatever, but that, on the contrary, in all directions there has been vast improvement. Of the heavy horse this is particularly true. Another thing that has impressed him is the growing recognition of the difference between the carriage horse and the roadster. He was especially struck by the uniformity of the large classes of roadsters exhibited at Toronto Fair. He spent some time in looking the horses over and was exceedingly well pleased. Altogether, it is apparent that, thru Mr. Monteth, the government propose giving the right kind of information.

COBALT IMPORTANT TO YOU!

FOR A SURE THING Peterson Lake Silver Cobalt Mining Company, Limited.

REASONS: Because his company owns one of the largest and best locations in Cobalt.

Because it is surrounded by and almost in the centre of the great Nipissing Mines, the largest shippers in the district, and most necessarily be a rich property. It also carries the veins of the Nova Scotia Mines, which has shown such good results lately.

Because the stock of this company has not yet been offered to the public, being practically a close corporation, but when it is offered, which is likely to be soon, the same sharp advance may be looked for as in the Nipissing stock.

Secure a little of this stock without delay and make quick money. This is not considered a speculation. Only a small amount can be had for a very short time at par. In 1887 Veterinary Major Smith of the British army published the result of his investigation into the question: "What weight should a horse be asked to carry?" The method adopted was to ask an independent observer to estimate the horse's carrying capacity, test that in practice, and then weigh the horse; in this way the proportion which the estimated weight-carrying capacity bore to the actual weight was ascertained. Veterinary Major Smith's system was applied to two groups of horses belonging to light and heavy cavalry, and the result was, as we might expect, broadly speaking, the heavier the horse the more it could carry. The weight on which the horses were weighed was not sensitive within 25 lbs. It was found that thirteen horses per cent. carried more than was estimated at an average of 170 lb. carrying each 962 lb.; that ten horses carried 879 lb. but were estimated to carry 175 lb. weighed each 980 lb.; that ten horses carrying power had been put at an average of 175 lb. weighed each 980 lb.; that ten horses carrying power had been put at an average of 175 lb. weighed each 980 lb.; that ten horses carrying power had been put at an average of 175 lb. weighed each 980 lb.

**Russian General and Fugitive Partner Cross in Mid-Ocean.**

New York, Oct. 2.—In pursuit of his wife and the man with whom she fled from St. Petersburg, Gen. R. Ouchacoff of the Russian army arrived here to-day, to find that the fleeing couple had eluded him and were now approaching the shores of France.

Gabriel Escoffier and a woman, said to be the wife of Gen. Ouchacoff, arrived from Europe last Thursday, and were met by M. Loydgenki and Immigration Commissioner Watchorn. They decided to return to Europe, and within an hour were on board the French liner La Savoie, en route for Havre.

Meantime, General Ouchacoff, who had missed them at Gibraltar, had called on the Kaiser Wilhelm.

He will return on La Provence on Thursday.

**MANSLAUGHTER CHARGED.**

**Conductor and Engineer of Fruit Train Men Stand Trial.**

Quebec, Oct. 2.—(Special.)—The grand jury at the fall assizes in progress here returned a true bill of manslaughter against Conductor Joseph Thompson and Engineer M. B. Reed of the fruit train, in whose negligence the fatal head-on collision on the Grand Trunk at Gourock was attributed by the coroner's jury. They will be indicted to-morrow morning.

Thompson and Reed were before Magistrate Saunders this morning and committed for trial. It is likely they will be haled out until the spring assizes.

A true bill of manslaughter was also returned by the grand jury against Peter Wilson, who shot and killed little Berdina Swackhammer in Erin Township. His trial will take place to-morrow.

**What Does It Mean?**

**Dr. Hamilton Gives a Full and Satisfactory Explanation.**

Look at your tongue! Sometimes it's heavily coated, sometimes it's clear and red. Study this and you'll find some interference with the functional activity of the body.

This means the bowels are not regular, the liver is sluggish and the blood is contaminated.

Strong cathartic pills act so destructively on the intestines as to provoke deadly sickness; this often frightens people from taking medicine when they badly need it.

To the multitude of dangerous purgatives now on the market, Dr. Hamilton's Pills are a notable exception; they neither gripe, cause sickly feeling or headache, yet they cleanse and purify the entire system in one night. No other laxative acts with such mildness and certainty. Giving proper stimulus to the liver and kidneys, strengthening the stomach and lending valuable aid to digestion, it's small wonder that such marvelous results accompany Dr. Hamilton's Pills.

Mr. George O'Hagarty of Amherst, N. S., writes, "Last winter I worked in a lumber camp and neglected my health. I was dreadfully constipated and had a headache that fairly made me reel at times. I was sick and miserable, and hadn't the slightest ambition to work or stir around. I felt heavy and dull and had a bad taste in my mouth. I sent in the city for Dr. Hamilton's Pills, which I knew were good for my condition. They acted on me up very quickly and have kept me in good condition ever since. There are other men in the camp that use Dr. Hamilton's Pills also. They say they wouldn't be without the pills for ten times their price."

Every dealer in the land sells Dr. Hamilton's Pills—six per box, or five boxes for \$1.00. By mail, from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

"I never had the slightest interest in or connection with the purchase of these lands or any other lands in the west of Canada. Messrs. Pope, Fowler, Bennett and Lefurgey, or some of them, told me of their proposed venture and asked me to join them. My discussion of the proposal with any of these gentlemen was during our trip to the west in 1902 before any details of the purchase had been made. The discussion was of a very casual and general character, and I matter that gave it very little consideration. I returned to Halifax from the west about the end of October, 1902, and on the 7th of the following month Mr. Pope telegraphed to me that he was leaving for the west, and on the same date I replied by telegram that I would not take any interest."

**SPECIAL TRAIN CARRIES CROPS TO BOLTON FAIR**

**Glorious Weather and a Fine Lot of Exhibits Make This Old Fair a Success.**

Bolton, Oct. 2.—(Special.)—The sixty-fourth annual fair of Albion and Bolton was held here to-day. A beautiful, sunny October day, with a general air, favored the directors. The fair grounds are situated on the high banks overlooking the Humber Valley, where nestles the staid little Town of Bolton, almost unchanged during the whole history of Albion's township fair. The farmers surrounding the town took a whole holiday, and all day the generous rigs from the farmsteads creaked with their good-natured freight. The fair was conducted as an agricultural one. A few events in the trials of speed took place.

The Highlanders' Band of Toronto occupied the band stand, and by their generous contributions, bagpipe music and Highland flings, added much to the day's enjoyment.

The strong points in the exhibits were the horses, the ladies' work and the roots and vegetable display in the floral hall. There were numerous entries of carriage, roadster and general-purpose agricultural horses, all of which showed very good animals.

The display of cattle was weak. Thos. Watson and Goodfellow Bros. were the only exhibitors of Shortborns. R. K. Johnston, Henry Bannister and George McKenzie exhibited Jerseys, while D. Wilson, A. Norton and G. McKenzie had several fine grades. Davidson, 1st prize, red Shorthorn grade cow, was a very well-made animal, with a good disposition.

In the sheep pens some very choice Cotswolds were to be seen. They were well-wooled, strong-limbed and of fine appearance. Messrs. Watson and Goodfellow Bros. were the exhibitors. In Leicester, Messrs. C. Jeffs & Son and Head, and J. Mitchell of Toronto had fine, well-covered animals. A few Southdowns from J. A. Hunter's farm completed the sheep entries.

**Not One White Pig.**

In swine it was a noteworthy fact that not a single white pig was on the grounds. The Berkshires and Tamworths had their own way. W. Wilson of Bolton won in sow. He had a beautiful Tamworth sow, with ten pretty yellow juniors at her side, John Cherry and Jos. Renton won in boar. J. A. Hunter of Holly Park was the only Berkshire man.

The display of dairy products was not a single white pig was on the grounds. The Berkshires and Tamworths had their own way. W. Wilson of Bolton won in sow. Men's Fall Weight Single-breasted Chesterfield Overcoats, a dark Oxford grey cheviot, made single-breasted with deep vent at back and good Italian cloth linings and trimmings, a splendid fitting coat, made in three-quarter length, on sale Thursday, \$8.00.

Men's High-Grade Silk-lined New Fall Overcoats, a rich black vicuna, in the fashionable three-quarter single-breasted Chesterfield style, broad shoulders, extra well tailored and perfect fitting, Thursday, \$15.00.

**MEN'S \$2 AND \$1.50 HATS, 98c.**

SOME STRAWS are still to be seen without a telescope, pre-announcing on the streets, among the stiff felts and the soft fedoras. Let us in all sincerity and earnestness remind Men's Store customers of the date—Oct. 3. Don't make yourself conspicuous by "clinging to a straw." All the fall felts are in—half of them are sold. Here's a special chance to-morrow:

Men's Derby and Fedora Hats, up-to-date dressy shapes, in fine grade of English fur felt, color black only, about 300 hats in this lot, worth \$1.50 and \$2.00, Thursday, 98 cents.

**SHOW OF ASSES TO THE WILT AS CALLED FOR BY THE LAW**

**Daniel Defoe of Court of Revision Would Make it Ruling Principle.**

A rather interesting discussion grew out of the session of the court of revision yesterday afternoon, when the appeals from assessment in ward five, numbering about 130, were disposed of.

In dealing with the assessment of a number of small houses, Mr. Defoe laid down as a general principle that all property should be assessed up to the bill.

Chairman Proctor held that it would be unfair to the small property owners to assess more than about 80 per cent. on the value of his holdings.

Mr. Defoe maintained that the law provided for a full assessment.

The chairman declared it was not the practice to assess more than about 80 per cent. and his testimony corroborated this statement was advanced by a real estate dealer, who said that the prices realized from 100 sales he had managed indicated the assessment was only about 60 per cent. of the selling value.

**Object to the Chinaman.**

The yellow peril was brought before the attention of the board of control yesterday, a deputation from Avenue Road and residents at Market, protesting against a Chinaman having been granted permission by the police commissioners to erect a laundry on a new road. The visitors were referred to the commissioners.

**Storm Sewers Needed.**

The building of a system of storm sewers as an auxiliary to the regular sewerage system is recommended by the city engineer as a means of obviating the overflowing of sewers during heavy rainfalls. Numerous complaints of flooded basements have been made of late, and Mr. Rust estimates it will cost \$300,000 to relieve the situation.

**Root is Leaking.**

Property Commissioner Harris reports that there are a number of leaks in the city hall roof, and pending his being made properly watertight, the still due the contractors for work done at the hall.

**Not a Meeting Place.**

Toronto is in the midst of a growing time. Even St. Lawrence Market shows it. The property commissioner's figures for attendance at the market are:

Farmers	498	832
Hucksters	212	285
	967	1200

**Galt Council to Approach Hydro-Power Commission.**

Galt, Oct. 2.—(Special.)—The matter of the corporation acquiring the gas and electric light plant was again before the special committee of council to-day.

Ald. Fryer said, under the act, the hydro-electric power commission were at the service of any municipality to put a value on any plant they thought of purchasing, and to say what parts would be necessary, or to take charge of taking Niagara power. He had written Hon. Adam Beck, and had his reply to the effect that he would be in Toronto on Oct. 5, when he would take the matter up with his colleagues.

Mr. J. A. Hunter of Holly Park was the only Berkshire man.

The display of dairy products was not a single white pig was on the grounds. The Berkshires and Tamworths had their own way. W. Wilson of Bolton won in sow. He had a beautiful Tamworth sow, with ten pretty yellow juniors at her side, John Cherry and Jos. Renton won in boar. J. A. Hunter of Holly Park was the only Berkshire man.

**Now Works Full Time.**

Health is the capital of the man who depends on his wages, and with prices as high as they are these days few men can afford to lose much time. Kidney disease and resulting backache seem to be the greatest cause of lost time, and this letter tells how this trouble is overcome by the use of Dr. Chase's Kidney-Liver Pills.

Mr. J. Peacock, moulder, in Fleury's Foundry, Aurora, Ont., states: "Before using Dr. Chase's Kidney-Liver Pills I was off work for about five weeks on account of my kidneys being so badly out of order. It was about a year ago that I began taking this medicine, and since that time I have not lost a day from work."

"Before that I used to be very sick at times. I would work for a few days and then have to lay off on account of kidney disorders and severe backache. Thanks to Dr. Chase's Kidney-Liver Pills I am real well now, and able to work full time."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

**Look for a Fireman and Then Sympathize With Him in His Trouble**

Headed by a band, Rescue Hose Company of York, Pa., marched via Yonge and King-streets to the Arlington Hotel yesterday afternoon, and they spent the rest of the day sight-seeing.

The company numbered about forty men in full uniform, and flying a standard, they marched to the New York Hotel, where they were met by Corbett of Aerial 1, and Firemen Best and Henderson of Bay-street station.

Residents at Kew Beach complain that there is no fire alarm box down by the lake shore. A water tower fire broke out in a tent on the beach, residents had to run a quarter of a mile to the New York Hotel.

The firemen yesterday walked around with that same feeling of abasement that a boy experiences when he goes out in long trousers and a red cap. They were ordered to don the new service cap of the department, and it's no wonder they felt mad. The cap was supposed to have been in the New York fire department model, but it's far from being the very neat headgear used in that department. A water tower fire broke out in a tent on the beach, residents had to run a quarter of a mile to the New York Hotel.

**THE ORIENT AT MASSEY HALL**

**Georgic Display of Rugs and Other Eastern Furnishings.**

Over one thousand people visited Massey Hall yesterday to inspect the permanent exhibit of Turkish, Persian and Indian rugs and other curiosities. The scene presented was one of Oriental luxuriance, and the color scheme is so admirably arranged that the tout ensemble is restful to the eye and induces the visitor to linger and enjoy the magnificent luxury.

Among the many beautiful rugs—some of them woven from camel's hair—are Egyptian handwoven brass jennies, inwrought tables of ebony and mosque chandeliers of old open-worked brass. But the rugs, including those of royal Tabriz, have excited the interest of the 400 and there will be some spirited bidding to-day when they are offered for auction.

Brayfield quit while yet about a third of his slab remained. Justen went a little further. Miller, to make victory certain, struggled thru to the crumbs and was carried away while his friends cheered.

Next day all three were in the hands of physicians. Miller's case was the worst. It looked like appendicitis to the doctors, and they operated. The operation did no good, and he died this morning. It was only after he died that the doctors learned of the cheese eating contest.

More remedies were resorted to in the cases of Justen and Brayfield. The latter is out of danger, but Justen's recovery still is doubtful.

**Why Chest Colds Are Dangerous.**

They lead to pleurisy and pneumonia. The advice of W. H. Powell, of Powell's Corner, Ont., was: "I used to be subject to attacks and although I used most everything, nothing relieved quickly till I discovered Nerviline. I have used it for pleurisy and sore chest, and found it just the proper thing. For a lungbo, or Neuric it's just as lightning."
