ALEX. MACKENZIE DEAD AFTER WEEK'S ILLNESS

Well-known Railway Man and Sportsman Succumbs From Heart Failure After Operation for Appendicitis.

Alexander W. Mackenzie, treasurer of the Canadian Northern Railway, and son of the president of the company, died about 8:15 o'clock last night, at his home, 97 Glen-road, Rosedale.

His death followed an operation for appendicitis which was performed on Saturday morning by Dr. A. Primrose, 100 College-street, assisted by Dr. James Cayen. The patient made satisfactory progress until yesterday afternoon, when he suddenly collapsed and the immediate cause of death was given as heart failure. Deceased, who was at the Woodbine meet a week ago Thursday afternoon, was taken ill on Friday, the operation being performed the following day.

Alexander Mackenzie was associated with his father in many of his great enterprises, and his position as treasurer of the Canadian Northern covered all the connections and was a most responsible one. Mr. Mackenzie was a director of the Sao Paulo Railway, and of the Inverness & Richmond Coal Co., and was connected with other important ventures.

He was born at Kirkfield, Victoria County, Dec. 5, 1877, and came to Toronto in 1889. He was educated at Ridley College and Toronto University, and was a member of the Bank of Montreal. He was also captain of the senior Rugby team. He had continued to take an interest in the university, and was a member of the Alpha Delta Phi Greek Letter Society. He was a player on the international cricket team that made a tour of the United States. He was also captain of the Highlanders' indoor baseball team. As a director of the Ontario Jockey Club Mr. Mackenzie took an active interest in its success and with his brother, Roderick J., owned and maintained the Kirkfield racing stable. He also owned the Toronto Golf Club and the Toronto Hunt, as well as the Toronto Club.

Mr. Mackenzie's active interest in military affairs continued for six years.

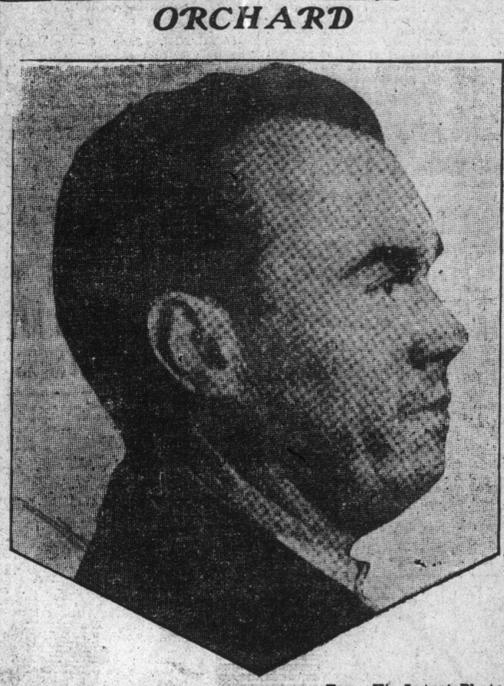

ORCHARD TELLS OF HIS FINAL CRIMES HOW HE TRACKED STEUNENBERG TO DOOM HIS DOMESTIC LIFE ALSO LAID BARE

Native of Wooler, Ont., He Deserted Family To Run Away With Another Man's Wife, Who Left Him in B. C.

SAYS HAYWOOD TOLD HIM TO GET AFTER JUDGES.

BOULDER, Idaho, June 6.—Harry Orchard crowned his admissions of grave crimes to-day when, continuing his case against Wm. D. Haywood, he made a detailed confession of the murder of Frank Steunenberg by an infernal machine, that directly opens the way for his own conviction and execution for the mortal offence. He swore that the assassination of Steunenberg was first suggested by Haywood, plotted by Haywood, Moyer, Pettibone and himself, was instigated by Haywood, and was executed by himself after the failure of an attempt in which Jack Simpson participated. Orchard, after the trial of his own victims by murder to 18, detailed the circumstances under which he tried to murder ex-Governor Peabody Judge man Bell, Dave Moffatt and Frank Herne. Incidentally, he confessed to a plan to kidnap the child of one of his former associates.

Under cross-examination, Orchard confessed the sordid social crimes of deserting his young child and wife in Ontario, fleeing to British Columbia with Hattie Simpson, the wife of another man, and committing bigamy by marrying a third woman at Crigler Creek.

Narrative Always Cool

Thru the shocking details of murder plots, secret bomb-making and man hunts, with a few words of the witness went on in the same quiet, unshaken manner that marked his earlier testimony. His voice dropped to lower keys as the pitiful story of the long dogging of Steunenberg in Cadwell narrowed down to the last day, and he told his race from the hotel to Steunenberg's home, to beat his victim, with the bomb, and his meeting with the doctor man in the morning, when he walked unaccompanied to his room.

HANES NOT EYE-WITNESS OF CROSSING FATALITY

Man Said to Have Seen Hart Jump Before Train Not Clear About It.

Corner Johnson opened an inquest last night into the death of Francis Hart, the second victim of the Bay-street fatality on Victoria night.

Dr. J. M. Cotton, who performed the post-mortem, told that Hart had died of blood poisoning. The doctor said the man had told him that he saw the man jump in front of an eastbound passenger train.

DR. HOEKIN PLAYS TRIBUTE

Dr. Hoekin paid his tribute to the subject of the portrait, as a member of the senate, the vice-chancellor and the other members of the faculty, who were gathered to-day, with the former post abolished.

In a vigorously spoken address, Dr. Hoekin said that no man is worthy a portrait until he is a portrait only. He said the speaker, "in the name of the friends and admirers of the chief Justice of Ontario, I hand over to you this portrait of the last vice-chancellor of the university," concluded Acting President Hutton.

USED EXPLOSIVES FREELY IN WHOLESALE MURDERING

The Federation, I was afraid to touch the old bomb, so I prepared a new one. As Judge Gabbert started out the next morning I rode ahead of him on a bicycle and fastened the pocket bomb to the wire. I rode away, heard an explosion an hour afterwards. A man named Wally was killed. Judge Gabbert had passed without noticing the pocket bomb.

WANTED TOO MUCH MONEY

Orchard said Moyer told him they should get rid of Johnny Neville, "who knew too much about the Independence Depot affair and was demanding again at Gov. Peabody, who was about to be re-elected. Steve Adams, Billy Ackerman and I made a bomb. We put it under the sidewalk at 12th-street and Grant-avenue in Denver. The governor walked along here every morning. The passage of two coal wagons and Peabody's car would get the same thing as Steunenberg from pulling the wire, and the bomb was thrown into the river. Attempts to shoot Peabody likewise failed. Orchard said Haywood also wanted him to shoot Frank Hearne of the Colorado Fuel and Iron Co., and Dave Moffatt, president of the First National Bank, who were being the fight against the Federation.

Produced Fatal Bomb

The state to-day began its corroboration of Orchard's bloody narrative by producing the head casing of the bomb designed to kill Peabody.

Orchard identified it and swore that he brought it from Canon City to Denver, where he met on Wallace, where he gave it to a man named Cunningham. It was thrown into the river, and the state promises to produce the Peabody and his kindred listened quietly to the long recital, and about their first show of being one opinion when Attorney Richardson began his onslaught by bringing out Orchard's domestic crime the same precautions and the same armed guards to-day to protect Orchard, and the same precautions, except that among the spectators, the women predominated. There was another rush for admittance and the doors of the court had to be closed.

Another Judge Named

"We were also to get after Judge Goddard, who, Haywood said, was instrumental in defeating the eight-hour bill which had been declared unconstitutional," Orchard continued.

"At the fall elections Peabody was succeeded by Gov. McDonald. Peabody went to live at Canon City, Col. Moyer, Haywood and Pettibone all told me to keep after Peabody. It was arranged that I should become a life insurance salesman."

Orchard declared he got recommendations for that position with one of the big agencies in Denver, from Mr. Hawkins, an attorney and partner of E. F. Richardson, one of the attorneys now representing Haywood, and F. J. Sullivan, president of the State Federation of Labor.

Orchard said he prepared a bomb in Pettibone's cellar, to place beneath Peabody's bedroom window at Canon City.

USED EXPLOSIVES FREELY IN WHOLESALE MURDERING

He would be deaf the remainder of his life. A Living Example.

"Pettibone said he was better than if I had killed him outright—that Bradley would now be a living example," continued the witness. Orchard said he asked for money and received \$15 from Pettibone.

Orchard said Haywood next asked him "to go to work on Judge Gabbert, the supreme court of Colorado."

"He said Judge Gabbert," Orchard went on, "had been rendering decisions against Moyer, whom we were trying to shoot. Peabody likewise failed. Orchard said he went to Judge Gabbert's house with Steve Adams and a shotgun, but we did not see the judge."

Haywood also wanted us to try to get out of Teahdale on false charges again at Gov. Peabody, who was about to be re-elected. Steve Adams, Billy Ackerman and I made a bomb. We put it under the sidewalk at 12th-street and Grant-avenue in Denver. The governor walked along here every morning. ADDED STATURE OF UNIVERSITY

New Convocation Hall Opened in Presence of Most Distinguished Graduates.

In the presence of many of the most distinguished graduates of Toronto University, and with the faculty and board of governors ably represented, the new convocation hall, built on the southwestern point of varsity campus, was formally opened last night.

The perfect acoustic properties of the building, which, modeled after the Sorbonne Theatre at Paris, is a distinct architectural and engineering advance on anything of the kind heretofore attempted in Canada, were demonstrated by the speakers distinctly audible in every part of the circular-galleried hall.

The dominating note of this hall is its simplicity. What decorations have been attempted are in perfect harmony with the character of the building. There are no doors in the galleries cut in the walls, but simple exits, thru which those in each section of the gallery may step to the short stairways.

Chancellor Sir William Meredith made an extended address, in which he referred to the added stature the university has attained, and the hold it has of late gained in the interest of the people as a whole. Daylight, he said, was now shining brightly for the success of the university, and the future should be smooth. He dwelt on the wisdom of the course adopted in providing funds and in governing the institution, and he and other speakers paid tribute to the service rendered in the cause of university education.

An oil painting of Vice-Chancellor Moss was unveiled in the course of the address.

The speaker announced that residences for male students would shortly be built, and that, in addition to the munificence of Mrs. Massey Treble, a new \$100,000 building would be added to the university establishment.

The following officers of the board of governors, or of the faculty, occupied seats on the platform: J. W. Phillips, Byron E. Walker, Dr. Hoekin, Thomas Moss, Prof. A. B. Macdonald, Prof. J. F. W. Ross, Prof. William Orling, Dr. S. West Mitchell of Philadelphia, and Vice-Chancellor Buzsach.

Acting President Hutton.

Dean R. A. Reevy, who presided, presented Acting President Hutton as the natural man for a pleasure in seeing the old alma mater in honored offices. The greatness of the university under the wisdom of the present vice-chancellorship of Charles Moss. He was followed by Carolus Magnus.

The commission of reconstruction felt that it had to follow the lead of other universities, and therefore the vice-chancellor of yesterday became the honored chairman of the board of governors to-day, with the former post abolished.

In a vigorously spoken address, Dr. Hoekin said that no man is worthy a portrait until he is a portrait only. He said the speaker, "in the name of the friends and admirers of the chief Justice of Ontario, I hand over to you this portrait of the last vice-chancellor of the university," concluded Acting President Hutton.

At this moment the curtains concealing the painting of the former vice-chancellor were drawn aside, and the large audience gazed at the delineation of the artist, and then spontaneously applauded.

Harness Horses at Wingham Opening of Canadian Circuit

King John in Five Heats and Collingwood Boy and Ella Nevada in Straights, are the Winners.

WINGHAM, June 6.—(Special).—The Canadian circuit races, which were postponed from yesterday, opened here today when three races were carded. The attendance was large and the track in good condition. Peter Miller, the day gelding, owned by A. H. Ketchum, was a red-hot favorite for the 2:40 pace, but was not good enough to carry for his backers. Collingwood Boy, who won the third, fourth and fifth heats. The winner is a 6-year-old by Sir John, and is owned by Wm. Fulkington of Bloon. Sidney Mack was the original favorite in the 2:15 pace, but he also fell by the wayside. Collingwood Boy landed the race in straight heats, but had to do his best to beat Jessie Rodgers in the last two. Ella Nevada, the day gelding, owned by the silver-tongued pool-seller, Wally Almae of Brantford, won the 2:40 trot in straight heats, the Toronto

SKEETERS TRIM TORONTO MONTEAL RACES IN RAIN THIRD DAY AT HAMILTON

WESTERFER'S FIRST LOSS MAIN CHANCE WINS STAKE BRINGS CLOSE FINISHES

TORONTO, June 6.—(Special).—The weather was fine and the attending crowd considerably improved. The Toronto visitors consisted of 550 on the G.R.R. special, besides another hundred that came up otherwise for the day. Favorable racing conditions in previous days. La Puella, at odds on, and Basal that was split with Conde Opera, being the money. In the first race Columbia Lad went to the post favorite, carrying a bunch of money, and proved a wise choice, landing the purse in good style, white Guard, at 10 to 1, and 3 to 1, was third. The second race of the day saw seven horses face the starter, Schroeder's Midway, at 3 to 1 and 1 to 2, beating the favorite, Aselina, who turned out all she could do to stall off Canadian. Only three starters faced the barrier in the third race, and Main Chance, picked to win and carrying the odds, gave a canter from Col. Jack. Monkey Puzzle never was a contender. Dr. Keith finished the jumping race alone, Kara, the favorite, falling on the first round and later Esterjoy, with Brazil up, who had his collar-bone broken in the fall, next to look Esterjoy over the bar. The cup stake race was a two-horse race, with Frank Somers in the better shape and beat the favorite in a race to the post. Kuro was mounted by a stable hand and took third money. Four horses faced the starter in the sixth race, Principia, favorite and heavily backed, and was well served by the money, while No Trumper and Abjure, two outsiders, finished first and second.

Revised Lacrosse Schedule No. 4 Intermediate C.L.A.

All-Canadians Trim Port Arthur, 11-3—Kalls Will Make his Home in Toronto—Gossip Here and There.

Owing to the withdrawal of Warton from No. 4 intermediate C.L.A. series, Durham, who won their section by default, were admitted at the representatives' meeting at Hanover on Wednesday, when the following double schedule was drawn up: June 10—Hanover at Durham. June 17—Durham at Chesley. June 24—Chesley at Hanover. June 30—Durham at Hanover. July 7—Chesley at Durham. July 14—Hanover at Chesley. July 21—Durham at Hanover. July 28—Hanover at Chesley. July 30—Chesley at Hanover. At Port Arthur yesterday, All-Canada lacrosse team played the Algonquins, winning handily by the score of 11-3. George Kalls, who has been living in Rochester, will arrive here today in time for the game at Rosedale to-morrow. It will be welcome news to the followers of Toronto to hear that Kalls will make his home here in the future. Bill Neely will figure on the Brantford team to-morrow when they play Hamilton down behind the dyke. The Crescents will play the Elks a League game on Saturday at 4 p.m. at Centre Island. The Crescents' regular grounds could not be obtained for this game. Woodbridge Juniors will open the new grounds at Toronto Junction to-morrow when they play the Shamrocks a C.L.A. match. Many prominent men, including Dr. Godfrey, W. H. Hall and several others will be present. F. C. Washburne referees the next C.L.A. game to-morrow at St. Kitts, between the home team and Brantford. Johnny Currie has not yet quit the game, and his presence will no doubt strengthen Chatham. There was quite a rush for tickets for the National-Toronto game, when the plan opened at Love's yesterday morning. Toronto Junction Shamrocks, champions of the intermediate C.L.A. series last season, play their first league game at Orangeville to-day. The other game scheduled in the intermediate series to-day is Southampton at Port Elgin. Young Torontos leave for Newmarket to-morrow.

TIME FOR CLEANSING. When Sir Wilfrid Laurier returns to Canada he must overhaul and purify his ministry.

The wrongdoers, whether of the "wine and women" or "grat" order, are "holding together" as against those in the party who would force them out; and these offenders are also willing to "saw off" their sins as against the like sins of political opponents if they can get an understanding to that effect.

PEAT ALCOHOL. For some time past the problem of distilling alcohol from peat has been under investigation in Europe, and a despatch from London, England, announces that the process has at last been discovered.

amended so as to admit of the freer distillation of alcohol by private persons for industrial purposes. This was accomplished by the virtual adoption of the German practice, which permits farmers to utilize their waste and surplus products for its manufacture, the spirit passing into locked and sealed tanks, and being returned after treatment at a central denaturation plant. Experts are agreed that there is a great future for denatured alcohol as a source of power, and the interests of Canada require that no further obstruction be placed in the way of its manufacture than is necessary for the protection of the public revenue and morals.

A FINANCIAL LEMON.

Also the purchase price of the new issue of Consumers' Gas Company's stock shows an average reduction of about 10 per cent. from that reached at the immediately preceding sale, and a far more pronounced financial situation, the wonder is not that a decline occurred, but that it did not reach greater proportions. Indeed, it can scarcely be said that the commonly reported tightness of money had any direct effect at all, the significant point being that with the high interest rate now current in call loans, mortgages and other classes of investment, plenty of buyers were found for gas stock at a return of little over 5 per cent. This is a striking commentary on Mr. Byron E. Walker's somewhat rash statement that money could not be found to take up the public utility securities of municipalities.

Undoubtedly the prevailing sentiment along local financial experts, influenced perhaps by the opinion of Mr. Walker, and by the abnormal stringency of the general market, was that the gas stock would have to be disposed of at a sacrifice price. The result entirely upsets the calculations of the talent, and clearly indicated the public preference for investments in propositions where they know their interests are safeguarded.

The Gas Company is a quasi-municipal enterprise, and is under sufficiently strict control to ensure freedom from stock manipulation. It seems plain enough that the conditions under which the company operates have produced a strong feeling of confidence in the minds of the shrewdest investors. If it exists under partial municipal control, the fair inference is that this measure of confidence would be still more increased by full public operation. The object lesson of the sale is that private funds are readily available for really substantial securities, but not for such as are under suspicion of having been watered for the benefit of promoters.

THE QUEBEC BANK.

On Monday was held the eighty-ninth annual meeting of the shareholders of the Quebec Bank. It is a long record, and the fact of its existence testifies to the substantial nature of the institution. That the verdict of history has been fully maintained is shown by the fact that the profits for the last year, amounting to \$90,011.15, after deduction of the expenses of management, an ample allowance for bad debts, and for unearned interest on bills discounted, is indicative of the conservative quality of the management, that after allowing for the declaration of a dividend at the rate of 7 per cent. per annum and the usual amount of \$8000 set apart for the pension fund, a sum of \$10,000 has been set aside for depreciation on account of the recent shrinkages in American railway bonds. In addition, \$10,000 has been credited to the rest account, this payment bringing that fund up to 50 per cent. of the paid-up capital of the bank.

Of the bank's trading liabilities, amounting to \$10,457,865.35, close on half a million are represented by readily available assets. This can scarcely fail to be gratifying to, the shareholders, testifying as it does to the careful quality of the management. That the directors are not disposed to drift with the times is shown by the opening of new branches at Cache Bay, Ont., and at Inverness, Que. With \$100,000 added to rest account and a balance of \$70,848.46 carried forward, the financial statement of the Quebec Bank cannot be regarded as otherwise than satisfactory, and will no doubt so commend itself to the shareholders.

Those Who Bought Shares. The purchasers were: G. M. Reynolds, J. W. Knox, J. K. Niven, Capt. Jessop, E. Frysens, J. R. Strachan, T. Gilmore, J. T. Franks, W. H. Pearson, National Life, John Laxton, J. W. Beatty, A. G. Strathay, William Robertson, A. E. Ames, John Stewart, Walter Gillespie, Larratt Smith, Wm. Langlois, W. T. White, Frederick Wyld, Ferguson & Blackie, W. D. Taylor, W. R. Johnston, J. J. Malton, Robert Innes, W. K. George, James Henderson, M. Kingston, Brouse, Mitchell, H. C. Hammond, H. O'Hara, Mr. Walde, J. W. Spencer, C. M. Gifford, L. A. Hamilton, A. B. Patterson, A. J. Naden, W. G. Trethewey, Mr. Townsend (father of the auctioneer), J. O. Buchanan, James Kinneair, Edward Cronyn, J. S. Tomlinson.

The par value of the shares was \$50 each, and the price realized was about \$95 per share, so that while the par value of the lot was \$200,000, the gas company took in about \$350,000 from the sale. The bidding was on the basis of par being 100.

SEDITION IN ARMY.

Socialists to Send Circulars to the Soldiers at Aldershot.

LONDON, June 6.—"You are Pariahs, benefit of rights of citizens"; "Trial by court-martial is a mere farce and mockery"; "Military law is rotten." These are among the phrases in a circular headed "Appeal to Soldiers" which was distributed at Aldershot by the Social Democratic Federation.

It urges the soldiers to be dissatisfied with their lot, and demands the abolition, root and branch, of the national army as at present organized.

POLITICAL CUSTOMS OFFICER BORDEN: "I'd like to run him in and search him. I believe he's smuggling in an election date and a new policy."

SMART BIDDING FOR CONSUMERS' GAS STOCK

Six Thousand Shares Sold at Average of 190 3-4, Netting Company \$550,000.

A large crowd of brokers, investors and company managers hustled into Townsend's auction rooms yesterday, prepared to buy 6000 shares of Consumers' Gas Co. at bargain prices.

"Shouldn't wonder if I'll grab ten shares at 180 or a little higher," said one man, going in.

Everyone knew money was tight, and they figured that even if their own funds weren't tight, they would not have to do so much of it to buy gas stock.

Auctioneer Townsend mounted his rostrum shortly after noon, and he warned everyone not to loiter in the expectation of snap lots at the end, as frequently closing quotations were higher than original bids.

"How much now," asked the man who had the hammer.

WASHINGTON, June 6.—Secretary of State Root has informed the government of France that he is prepared to extend to the French chambers of commerce the same privileges relative to the certification of invoices in the case of goods exported to America as are accorded to the German chambers of commerce under the recent modus vivendi.

ADVISORS TO COUNCIL TO BEAUTIFY THE CITY

B. E. Walker Suggests Appointment of Board of Commissioners.

Byron E. Walker, in discussing the future of Toronto before the Guild of Civic Art members, yesterday, expressed the opinion that a permanent board of commissioners should be appointed by the people to act as advisers to the city authorities as to plans for the general beautification of the city.

A city council, he said, had not the continuity to carry out any definite plan, which required years to complete. The matter of recommending such a commission will be taken up by the advisory board later.

W. A. Langton reviewed the plans of improvements as prepared by the guild. Streets could be widened by the widening of a certain line beyond which future buildings must not be erected. The present old buildings would in time be of necessity supplanted by new, and the object would in time be realized.

The largest outlay in connection with diagonal streets would be the widening of the York street line, and for old property would be handed back for new. The trunk sewer could be worked upon at the same time, and plans need not clash. Money had to be spent. Why not spend it systematically?

That the society is arousing interest among influential men was shown by the large number of new faces around the festive board. Seventy-five were present.

Cayuga Runs Saturday. The steamer Cayuga, the latest addition to the Niagara Navigation Co.'s fleet, will make her first regular trip to-morrow, leaving Toronto 7.30 a.m., and 2 p.m. A special rate of 75 cents will be in effect for the afternoon trip, and a limited number of book tickets are on sale at city office, 63 Yonge-street, Traders Bank Building.

Technical School at the Soo. A grant of \$5000 was made by the provincial government yesterday towards the establishment of a technical school at Sault Ste. Marie. The building, which is now under way, and the site will be given free by the town.

Ward Five Conservatives. Ward 5 Conservatives will meet in Euclid-avenue Hall on Friday evening to elect delegates to the north and west riding conventions.

YORK COUNTY LOAN LEASE. Justice Mabee has handed out judgment in the action brought by one McCarter against the York County Loan Co. as liquidator, over the option to purchase contained in a certain lease of land in the county, claiming to be paid \$175, which he had paid on account of the shares. The case was tried before Judge Winchester, who gave judgment in favor of Archibald against R. J. Copeland and A. E. Chatterton. The defendants' appeal came before the divisional court, but was allowed to stand until after judgment in the appeal is given in Copeland v. Business Systems. If Archibald desires, the defendants are to pay into court \$175 to abide further orders.

Rank Against the Estate. The National Life Assurance Co. obtained from Chief Justice Falconbridge in single court a judgment in their action against the Trusts and Guarantee Co., declaring them entitled to rank against the estate of the late Samuel Ritter Ickes for the sum of \$438.40 and interest and costs.

Short 300 Chickens. Thomas Henry Kendry, factory superintendent, residing in Peterboro, and John L. Richmond, a photographer of the same place, entered into an agreement for the sale to Richmond of certain premises that Kendry had been using as a chicken farm. When

Richmond took possession he was told there were 300 chickens, but a few days afterwards, he found there were only 500, and refused to carry out the agreement. He left the premises and brought an action for \$1000 damages. At the trial in Peterboro judgment was given in Kendry's favor for the full amount of claim. The appeal to the divisional court has been dismissed with costs.

Slender Action. Mrs. Jane C. McPherson, a widow, engaged in business at Summerstown Station, Glenagarry County, brought an action for slander against D. D. Grant, a retired farmer of the same place. At the trial the action was dismissed with costs. The divisional court, on the appeal, allowed the action, and Mrs. McPherson pays the costs of the former trial and the appeal. If she does not do this, the appeal is dismissed with costs.

Hamilton Races. For fast, comfortable service, racegoers should take C.P.R. trains, leaving Toronto at 7.50 a.m., 9.30 a.m., 1.15 p.m., 2.40 p.m., 3.55 p.m., 5.20 p.m. and 7.15 p.m. Tickets are on sale every race day until June 14 at special rate of \$1.55, good returning day of issue only, and on each Saturday return tickets are only \$1.25. Full particulars following Monday. Call at C.P.R. city ticket office, corner King and Yonge-streets.

Canadian Loans as Precedent. LONDON, June 6.—In the house of commons, Mr. Asquith offered the loans for the construction of the Halifax-Quebec Railway in 1867, the loan to purchase Rupert Island in 1869, and the loans for the construction of the Pacific Railway in 1873 as precedent for guaranteeing the Transvaal loan of \$5,000,000.

NUMBERS OR NAMES? Editor World: Has any definite scheme ever been published for substituting numbers for the present names of the city streets? If so, where may it be seen or bought? E.H.M.

(No such plan has as yet been brought forward. The argument advanced against such a system is that the city's streets are too irregular in length.)

Colonel Cartwright Resigns. OTTAWA, June 6.—Col. Cartwright, C.M.G., inspector of musketry, has resigned his position owing to ill-health.

STOCKYARDING & LIVE STOCK EDITION

THE IMMIGRANT.

All over the province there is a scarcity of farm labor, both outside and in. Many farmers are working along under difficulties to keep the work within limits. This year finds farm labor more difficult to secure than last year, altho the number of immigrants coming here is much larger. The railways, the manufacturers and the commercial enterprises are absorbing the major portion of the new arrivals. Many of these would rather take a less wage and be in the city than to go onto the farm and have to take a less wage than a better living in the minds of some, this will be hard next winter for the cities, who will need several well-combined bureaus. However overdrawn that may be, the fact remains that agricultural production is not keeping pace with consumption. These men ought to secure some lot of land and begin intensive cultivation. They would have a much better time and gradually work into affluence. Moreover a greater willingness to go on to the farm and get into the neighborhood life would be a distinct visor move than hanging on to the ragged edge of a great city. Fair wages, good board and decent accommodation is assured on the farm. All the year labor can be secured in many cases and an independence established that is as far ahead of the industrial conditions prevailing in many parts, as can be. Go to the farm and take a resolve to make farm life attractive. It is the best of places.

SPRAY THE ORCHARDS.

The inevitable loss that occurs yearly to the farmers of our province thru the low quality of fruit and poor arrangement for distribution, cries loud for redress. To all appearances Ontario is going to have a bumper crop of apples and smaller fruits. Nature has cut off many a promising crop, but the carelessness of man has lost more to the economic world than ever came about by wind and rain. There is plenty for all if the yield is well cared for. Unless a man will work, neither shall he eat.

This is a law of nature. Constant attention brings success. Just now it is all important to spray well. The hundred and one enemies of the orchard are thus held in check and the quality of the fruit enhanced greatly. The next spraying should be done as soon as the blossoms fall. Use the Bordeaux mixture. In the case of apple trees some insecticide should be used with the Bordeaux. Four ounces of paris green or five ounces of arsenic of lead, to every 50 gallons of water is about right.

The Vermont legislature, by a recent act, has established at the experiment station a nursery for growing forest tree seedlings. The law specifies that these seedlings are to be furnished at cost for planting in the state. Prices range according to size from \$1 to \$12 per 1000. A crop of second-growth Vermont pine cut last year produced \$800 per acre. While much seedling comes naturally, it is deemed best to assist by judicious planting of young trees. The reckless and wasteful methods of lumbering in the past, together with the "prosperous times," have enhanced the value of all kinds of timber. Reforestation cannot be commenced too soon or pursued too extensively to supply the legitimate demands for building material. _____
Where hawks and crows are most plentiful, a few game cocks and game hens are a protection. Few hawks or crows are successful in capturing young chickens in care of game hens that have their freedom. The farmers in the country should be impressed with the fact that it pays to breed the right sort, the demand for this kind being practically unlimited. Any one of the above would pay a farmer well to raise, and he can always find a ready sale. _____
Millions are paid annually by Great Britain for eggs. During 1906 the estimated sum paid for eggs to foreign countries was nearly \$5,000,000. Of this Russia received one-third, Den-

mark one-fifth, while the rest went to Germany, Belgium and France. Canada and the United States sent less than a million dollars worth of eggs to Europe. So long as the cold countries of Russia and spare 12 million dollars worth of eggs to England, the people of America must blame themselves for so slight a production as not to be able to supply the home market.

Mark Twain was talking about this business in Hannibal, Mo. "I hated to work in those days," said my father, "but I was poor, and I had to work. I examined the task ahead of me, and I saw more I looked at it, the bigger it seemed to grow. Certainly I had never seen so many weeds in all my life. 'Wouldn't it be a simpler operation,' I said to my father, 'to flower out the weed bed?'"

The Montana Agricultural College is to take charge of a model dry farm near Great Falls, business men of that place having raised funds for purchase. Atkinson says there are 35,000,000 acres of land in the state on which it is possible to raise crops. Of this about 12,000,000 can be irrigated, leaving 24,000,000 that might be cultivated if dry farming proved to be practicable.

J. K. Barnes of Des Moines, Ia., has bought all the walnut timber on the lands of the Meramec Iron Co. in Phelps and Crawford Counties, Mo., about 2,000 acres of 10,000, paying \$20,000 therefor. Mr. Barnes has contracted to furnish the government with stocks for its guns. The timber to be cut is two-foot diameter and sent to Des Moines for making up. It is estimated that 4,000,000 gun stocks can be cut from the trees, not including the most valuable and which are to be delivered to the Martin Arms Co. of Massachusetts. With a mill at St. James and 150 men employed, the job will take two years. This is said to be the finest body of walnut timber outside of Arkansas.

Farm help is so scarce thruout Connecticut that farmers are unwilling to pay the expense of advertising for and bringing to some central point men and women from the seaports where immigrants are obtainable. The Grange has reported that an active agent has been sent to New York and Boston any number of able-bodied Swedish and Polish immigrants, having landed, are in search of work, and would accept work to city employment. The wages offered have never been higher, premium and board, any net profit from help has been obtained to do the spring planting.

Mr. A. Stewart has bought a quarter section at Red Lodge, says The Calgary Herald. He has come to the conclusion that they are the only things that pay in this part. As a matter of fact, he has all come to the same conclusion, altho before winter, everyone swore by cattle and pigs. Now we stang a different tune, when we stroll round our land and come across some sort of a dead animal every few feet. One cannot admire the river, timber or mountains (or even the living animals), with these dead creatures under our very noses. We are seriously thinking of selling out.

NEW ADVERTISEMENTS.

On this page will be found an advertisement of John Lahmer's Berkshires and farm stock at Vine south of Barrie. J. E. Boyde of Woodstock, whom we announced in our issue of June 1st, is advertising his fine farm near Woodstock as the purchaser of the celebrated stallion Baron Kitchener. FARMERS UNITE.

President Roosevelt hits the nail on the head when he advises the farmers to combine among themselves as the best means of protecting their interests against the highly-organized interests which surround them on different sides. We should be better without any organized interests, which at best save us from being crushed by the commonwealth; and to that state of things it is to be hoped the world will some day return. But the existing state of the present situation must be met. The unorganized interests, that is to say, the whole of the middle class, are the farmers alone, but all tradesmen and those in general employments, are in danger of being crushed between the alliance of capitalists on one side and that of the trade unionists on the other. It looks as the society might at least be reduced to a contest, or perhaps a combination, between these two powers. That the world will find way out of such oppression may be assumed, but the middle class generally, not the farmers alone, needs at present to be upon it guard.—Bystander.

HOLLOW CEMENT WALL.

Fred Richardson, the noted horse breeder of Columbus, Ont., is erecting a large barn, 110 by 50, with a horse stable 60 by 40, on his farm here. The walls are being constructed of cement, with an open space of three inches. The wall is tied every six feet by concrete bars six inches thick. Mr. Richardson is not pulling down the old church, which he used as a stable, as he claims he has such good luck with all animals entertained there.

TELEPHONE MEETING.

A mass meeting of the farmers is being held in the Grange Hall, Pickering, on Thursday evening, June 13, to discuss the telephone question. The Bell Company are offering a phone line to the farmers on low terms. The farmers will likely build their own line and keep it free for their use.

THE CROP OUTLOOK

The Cold Weather Has Made the Farmers Feel the Scarcity of Fodder--Backward Conditions Generally--Good Outlook for Ontario Fruit.

The exceptionally cold weather that has prevailed in Ontario all spring has produced many misgivings as to the crop outlook. The coldness has kept back the blossoms and tender plants from appearing very early, which fact is a good thing for the country.

And this backwardness is not alone confined to Ontario. It is just the same over the whole of Canada and the United States and the European countries. The fruit and vegetable growers of the United States have suffered much already. Those in Ontario are looking anxiously hopeful for warm weather. The wheat sower has passed his worst and it is conceded everywhere that water weather will yet ensure a normal supply.

The dairy farmers of Ontario are, perhaps the worst sufferers from the weather. The early pastures, the high price of hay, which has been selling at \$10 per ton at the barns all winter, and the unusually high-level values of milkfeeds, are causing the feeders of live stock much concern. One of the worst that they are encountering is the scarcity of early pastures. Hundreds of animals are turned out to the pasture farms by drovers and others and the grass has been so slow of growth, and the weather so cold, "that the animals look worse than they did the month ago," says James McBrady of Pickering Township. Low lying farms, which usually supply abundance of fodder, are already close cropped.

The Hay Meadows.

Old meadows are not far advanced in many places. The meadows which were the same story of poor timothy fields. The meadows will be light at best and many farmers have plowed up their meadows. Reports from Simcoe County, which is one of the best in Ontario, show the same story. Even in Essex County the hay prospects are not very bright. Reports from Simcoe County show the hay prospects are not very bright. Reports from Simcoe County show the hay prospects are not very bright.

Large Agriculture.

President Roosevelt, at Lansing, Speaks for Higher Life on Farm.

The president of the United States has another, and as he says, larger field of usefulness for the department of agriculture, and that is to assist in bringing about the best kind of life on the farm for the sake of producing the best kind of men.

To study and properly treat the problems of farm life alike from a social and economic standpoint the proposed, among other things, closer cooperation between federal and state departments of agriculture. This can be done without additional legislation, and under the instructions of the president it will be done by Secretary Wilson. The effort will be to guide and give impetus to the movement which has already begun.

There is no doubt the standard of living among farmers is steadily rising. The farmer-to-day is a traveler. He has a telephone, his daily mail, and his newspaper. The president wants the life of the farm family to be made less solitary, fuller of opportunity, and more comfortable and more attractive. In the view of Secretary Wilson, the economic growth of agriculture has added to it new dignity, and there is less desire than was formerly the case to seek the social diversions of the city.

Wants General Uplift.

The president wants to go a step farther and to develop a high social organization which shall include such advantages as ease of communication, better educational facilities, increased comfort of living, and those opportunities that social and intellectual life and intercourse of special value to young people and to women, which are yet wholly to be had in centers of population. He also wants cooperation between farmers.

H. H. Rogers, in an interview from Paris, has been inconsistent in the president's advice to farmers to combine and in his efforts to break up corporate combinations. It is pointed out, however, that the president advocated combination not for the purpose of violating the law, but as the most efficient means of protecting the farming industry from the predatory operations of highly organized interests in some of which Mr. Rogers doubtless has a financial stake.

In connection with the co-operation of the federal and state governments, attention is called to the fact that congress has enabled action of this character thru its passage of a bill providing that each state and territory shall annually receive from the national treasury a grant of money to extend and strengthen the experimental work of the agricultural stations.

HEAVY HORSES HIGH.

San Francisco is Using Up Many Draughts--Big Prices in West.

The northwestern states are experiencing a horse famine, says the Portland Journal. Horse breeders do not know how to meet the difficulty. Ordinary second-class animals sold at an average of \$216 last week, and heavy teams are selling from \$600 to \$1000.

San Francisco has claimed a lot of them, as it is said from 10 to 20 horses are bought each day in the construction work in that city. The sharp iron projections and uncertain pavements of the streets are doing \$1 in damage to the horses very bright for the farmer, who has them to sell.

CATTLE STARVED TO DEATH.

OSHAWA, June 6.—(Special.)—Pasture has been so poor on many of the farms to the east and north of Oshawa, and feed so high, that it is reported that several cattle have died during the last week. One man is reported to have lost six head, and six other it is hard to understand such a case, when feed could be secured in town, even if money were not paid down.

THRESHING SYNDICATE.

A new farmers' threshing syndicate has been formed at the townline, Whiteby and Pickering. H. E. Webster is president, and Richard Loney is manager. A new machine has been purchased from the Waterloo people.

HILLVIEW WILKES SOLD.

William Hoar of Myrtle, sold his 2-year-old Hillview Wilkes to W. F. Disney of Greenwood, recently. This colt is a full brother to the first prize 2-year-old at Toronto last year, and gives much promise.

Appropriation is Refused.

ROME, June 6.—A parliamentary commission has refused to recommend the appropriation of \$40,000,000 asked by the war office for the reorganization of the artillery and for fortifications. Instead it recommends a grant of \$6,000,000 for artillery, provided the funds required are furnished by Italian factories, and \$6,000,000 for fortifications.

The commission's refusal is significant, as it amounts practically to a reduction of armament on the eve of the meeting of The Hague conference.

"HINGE-STAY" MAKE DILLON TWICE AS STRONG

Short, stiff, hard, steel wire stays make a "hinge-like" joint at every lateral wire on the Dillon fence. These "Hinge-stays" give our fence a greater degree of elasticity—enable it to withstand greater strain. They break into shape after receiving a heavy blow, or the unusual pressure caused by a furious bull or other animal endeavoring to push his way through to freedom. Catalogue tells more about "Hinge-stays" and "Hinge-stay" fence.

RALLY AND REACTION IN NEW YORK STOCKS

Early Advance on Wall Street Not Held—Toronto Investors Buy Good Securities.

World Office, Thursday Evening, June 6.

The feature of the local financial situation today was the auction sale of Consumers' Gas stock. This was forecasted or attempted to be forecasted by a sale of the stock at the exchange at 185. The judgment of Toronto investors was that the stock would sell at around 180, but in this they were badly mistaken.

On Wall Street.

the staunchest, strongest, neatest fence made—every strand of heavy
(No. 9) galvanized high-carbon steel wire, coated with permanent
snow-white paint, the whole thing twelve inches high, and every
sixth wire projecting just enough to anchor the fence firmly into
the ground. Anybody can erect it perfectly, and it fits any shape
or size of flower bed. Ten cents a running foot for this fence, and
you can get it from—

FACULTIES OF MEN AND WOMEN EQUAL

Ambassador Bryce Talks on Education of Women—Would Not Talk of Political Life.

PHILADELPHIA, June 6.—James Bryce, the British ambassador, was the orator today at the commencement exercises of Bryn Mawr College, taking for his subject, "Has the Education of Women Distinctive Aims?"

He said that the faculties of men and women are practically equal, and held therefore that the intellectual training for the one is fit for the other.

As to women in political life, he said he claimed the privilege of declining to give an opinion on a topic so highly controversial for an Englishman to answer, but he added that so far as he could judge, the majority of American women, at least in the eastern and middle states, do not desire a change.

The ambassador suggested to women two fields of work which the average male citizen does not find time to enter. One is the cultivation of a thorough knowledge and a fine taste in literature, the habit of reading that which is not ephemeral and the other field includes the study of how to mitigate the contrasts between wealth and poverty—how, in various ways, to help those who need help.

TIGER FOR THE ZOO.—Contributed by Kemp Manufacturing Company, and Will Arrive To-Day.

Daniel Lamb has written the mayor announcing the donation to the Riverdale Zoo, by the Kemp Manufacturing Company of a handsome young Bengal tiger. Word was received from New York last night that the animal was en route. It should reach Toronto to-day.

The animal should prove quite an attraction. Riverdale Zoo, assuming proportions, and it is only a short time since a local firm contributed a polar bear. There can be no more popular gift to the citizens than some rare specimen of the animal world to the zoological gardens, which on Saturdays, Sundays and holidays are visited by thousands of people.
