Mrs. McBryde: John, I'm simply disgusted. While I was out this morning the cat got into the pantry and ate very single thing except a cake I had baked.

STORY OF ODESSA RIOTS AS RELATED OFFICIALLY

Revolutionary Committee Assured Sailors That Garrison and Entire Fleet Were in Revolt. St. Petersburg, July 4.—The government story of the events in Odessa, as published in The Official Messenger, after detailing the activity of the socialist revolutionary committee in stirring up the strikers ashore, and the arrival of the mutinous crew of the battleship Kniaz Potemkin at Odessa June 27, proceeds:

Revolutionary Committee Assured Sailors That Garrison and Entire Fleet Were in Revolt

"The mutiny of the warships provided the revolutionary committee with a good opportunity to influence the masses. The committee visited the battleship and assured the mutineers that the garrison of Odessa had laid down its arms, and that the whole Black Sea squadron had joined hands with the crew of the Kniaz Potemkin.

Revolutionary Committee Assured Sailors That Garrison and Entire Fleet Were in Revolt

"Several times during the night of June 28 the mob attacked the troops and sailors with revolvers, but each time they were scattered by a volley from the soldiers. The number of troops killed or wounded was not known but must exceed several hundred. The damage done was estimated in the millions of roubles.

Revolutionary Committee Assured Sailors That Garrison and Entire Fleet Were in Revolt

"The government report then proceeds to relate the arrival of Rear Admiral Kruger's squadron, during the morning of June 30, as follows: "As the squadron approached the Odessa pier the Kniaz Potemkin cleared the water, and the admiral's flag flew at the top of the mast. As she passed the mutineers received an ovation from the crew of the Kniaz Potemkin.

Revolutionary Committee Assured Sailors That Garrison and Entire Fleet Were in Revolt

"The government report then proceeds to relate the arrival of Rear Admiral Kruger's squadron, during the morning of June 30, as follows: "As the squadron approached the Odessa pier the Kniaz Potemkin cleared the water, and the admiral's flag flew at the top of the mast.

To Give You an Idea

of the way the July sale interests men we mention two lines for to-morrow, the fourth day. There isn't anybody in the family who's not benefited by this great event.

A Splendid Opportunity for Men to Stock Up on Handkerchiefs

100 and 12 1/2 Handkerchiefs 50 Each. Bought in the web from an Irish manufacturer who had too many. When they were made up and delivered to us we found that it just meant selling them, at the least, two for the usual price of one, some are even better value than that.

They are made with the real old fashioned tape borders, not all linen, but a combination that gives even better service, the welt linen and the warp cotton, which makes them very soft and much finer.

Each handkerchief is cut in a good large generous size, regular value 10c and 12 1/2c, Thursday, main floor .50 See Queen St. Window.

Men's Umbrellas—Less Than Half-price

In a serviceable combination of good looks and good quality ready for every day service rain or shine, made with extra heavy gloria cloth covers, steel rod and paragon frame, in assorted handles of Congo, horn and natural wood, regularly \$1.25, sale price Thursday .59

(Main Floor, Yonge-Street.)

CUBA - THE ISLAND OF SUNSHINE

CANADA-CUBA LAND AND FRUIT COMPANY, LIMITED

INCORPORATED UNDER "THE ONTARIO COMPANIES ACT."

Second Issue of Ten Thousand Acres Only Will Be Sold at \$20.00 an Acre

After this is sold a further issue will be sold at \$40.00 per acre. Buy Now and Save Money. You can't duplicate this land for less than \$50.00 per acre to-day in Cuba. Buy a business lot at \$50 to \$75 which will rapidly increase in value. Terms cash; or 25 per cent. cash and 25 per cent. each month till paid for.

Deeds of the Property Sold and For Sale All in Our Possession and Free From Encumbrance. Titles Guaranteed.

Cuba will be a favorite winter resort for the people of North America, because of its favorable location and uniform temperature. At the time when the Northern States are clothed with snow and ice this island has the climate of June. With its fine sandy beach for bathing, its land-locked harbor for yachting, the rolling lands in the background for beautiful scenery, and Canadian people for neighbors, Ocean Beach should be the most desirable as a winter resort. The scenery on Guadiana Bay is grand and inspiring. Our estate is covered with tropical foliage. The water is so clear that the gravelly bed from ten to twenty feet below can be seen distinctly, abounding in certain sections with Spanish mackerel, a species larger than the mackerel of our Northern markets and fully as palatable.

Purpose of the Company

Since Cuba obtained its independence, and since its favorable climate and fertile soil have become known, there is a growing demand among the people from "The States and Canada" for real estate holdings in this island. Naturally the desire is to be located among the Canadian people, and to know that titles are clear and valid. As the company's property is especially adapted for the establishing of a colony, and as it contains more acreage than the company could put under cultivation in many years, we have concluded to offer for sale fifty thousand acres of land divided into one-acre lots or upwards. The balance will be put under cultivation for the benefit of the company. This suggested establishment of a colony is especially desirable in order to make a port of entry at Ocean Beach. The part of the tract facing the ocean near Guadiana Bay is set apart for a business and residential site. The land which we are offering for sale is the best portion of the property, as regards location for shipping facilities, being nearest the water front. The quality of the soil also is all that can be desired. There is no tax on improved real estate in Cuba. In Cuba the conditions for intensive agriculture are ideal.

The staple crops of the island will be oranges, grapefruit, lemons, limes, early vegetables, coffee, tobacco, cotton, bananas, coconuts, mangoes and such products as olives, grapes, almonds, etc., which can be successfully raised. All of these are very valuable and yield most bountifully when cultivated intensively.

The labor required to plant, care for and harvest them is much less than farm labor usually is in Canada, and the climate is more temperate and pleasant. The soil is light and easily worked, and the opportunity for keeping bees and poultry and for dairying offered by the closeness of the large Havana markets, where products from these lines sell readily at high prices, gives the planter the sources of income for the planter and furnishes something for each member of the family to do—work both pleasant and profitable.

Balou, the historian, writing of Cuba, says: "Nowhere on the face of the globe would intelligent labor meet with a richer reward. Nowhere on the face of the globe would the worker receive a more liberal wage. And, finally, it may be added that the expenses of living are far less once a start is obtained.

Bearing these truths in mind, let us take up the undertaking and purpose which make up the present undertaking of those engaged in developing this favored spot.

Extract from "Commercial Cuba in 1903," published by the U. S. Department of Commerce and Labor, August, 1903:

"It will unquestionably be easy and natural for Cuba to export to the United States and other countries large quantities of vegetables, especially those of a tropical or semi-tropical habitat, and those which are in demand early in the year in northern communities. 'One great advantage possessed by the Cuban vegetable grower is that almost all kinds of vegetables enjoy in that island a perennial growth, one crop following its predecessor immediately.

"In this way the producer reaps the reward of two, and sometimes three, crops annually of all the different kinds of vegetables which he cultivates."

Extract from report of A. A. Quint of Quibra Hacha, Republic of Cuba:

"I planted a quarter acre with tomatoes; the yield was sixty crates of very large, fine tomatoes. The price in New York at time of picking was \$3.50 per crate."

LAND IS THE BASIS OF ALL WEALTH

As a permanent place of residence as well as a health and pleasure resort, Cuba, owing to its climatic and scenic charms, is attracting wide attention. Any person from a northern climate can live in Cuba in summer with as much comfort as in Canada, while the winter months are, of course, very much more comfortable than in a land of snow, sleet and blizzards.

Soil and Products of Cuba

In no part of the United States or Canada is found a soil so rich, so fertile and productive as Cuba. There is no garden like this favored spot. It is perfect in soil and climate. Three crops a year can be grown. Four hundred years of Spanish misrule prevented the development of more than a small portion of this beautiful island, and thousands of acres of virgin soil now await the thrifty and energetic Canadian to make it the most productive spot in the world.

Remarkable Growth of Orange Trees

In a letter recently received is the following item: "I visited a fruit farm and photographed an orange tree three years ago from setting. It was six inches in diameter at the base and about eighteen feet high, with branches five or six feet long and full of fruit. I also photographed a tree five years old with 5000 oranges last year. Before Cuba got its setting back during the war orange lands were selling from \$150 to \$200 per acre, and a three-year-old grove was worth \$1000 per acre. The oldest trees in Cuba are over 100 years old, and each year the crop is greater than the previous year. No limit is placed upon the age of the orange tree; so in beginning an orange grove, remember, if you are ever required to bring it into bearing, it will then continue to yield its golden harvest for generations to come, and when once in fruit you can sit beneath its shade almost in idleness and have an abundant crop."

Oranges

It is claimed by the best authorities on citrus fruits that if all the available lands suited for the purpose in this part of the world were put into cultivation it would be more than twenty years before the market would be supplied to the same extent that it was previous to the freezes in Florida and California.

It must be remembered that an orange grove will mature here in one-third less time than in California or Florida.

Governor-General Charles H. Allen says: "A ten-acre orange grove once in bearing, gives a comfortable income, sufficient to support a family in the best country style. 'When an orange tree is in full bearing it is valued at \$100.'"—Florida Fruits and How to Grow them.

Profit on Oranges and Other Citrus Fruits

As an indication of the profits to be derived from raising oranges and other citrus fruits, I quote from an Official report on Cuba, recently published: "The person who raises an orange tree in a country free from frosts, the most independent and happiest person on earth. A full-grown orange tree will yield from 1000 to 5000 oranges yearly, and, like the lemon tree, begins to bear the third year. Before Cuba got its setting back during the war orange lands were selling from \$150 to \$200 per acre, and a three-year-old grove was worth \$1000 per acre. The oldest trees in Cuba are over 100 years old, and each year the crop is greater than the previous year. No limit is placed upon the age of the orange tree; so in beginning an orange grove, remember, if you are ever required to bring it into bearing, it will then continue to yield its golden harvest for generations to come, and when once in fruit you can sit beneath its shade almost in idleness and have an abundant crop."

Cattle Raising

Grasses in Cuba have a most wonderful growth. Green all the year and very nutritious. Cattle-raising has always been the chief occupation of the natives who have a natural disinclination to the labor necessary in cultivating the soil for market. Pasture always green and no winter storms or no feed to prepare, large numbers of cattle and hogs in the condition and good breed are found in all sections of the island. Havana and other points in Cuba furnish the market, the price being much higher since the Spanish-American war than in the United States.

Cost of 20-Acre Banana Plantation, Including Care of Same for Each Year

300 banana plants to the acre	
Selling price at plantation, 35 cents per bunch	
Cost of land, at \$20 per acre	\$400
Cost of clearing, at \$5 per acre	100
Cost of 6000 banana bulbs, at 3 cents each	180
Cost of planting bananas, at 2 cents each	120
Cost of care of land, at \$10 per acre	200
Total cost	\$1000

Estimated Income for a 20-Acre Banana Plantation at End of Each Year

Estimating 85 per cent. of plants bearing	\$1785
Cost of care and marketing products	800
Net profits	\$1485

"Note: An owner of a ten or twenty-acre banana plantation can largely reduce this cost of 'care' by doing much of the work himself."

Truck Growing in Cuba

Of all agricultural pursuits, that of growing vegetables, as a commercial venture, has hidden in the possibilities much to attract not only the tiller of the soil but many of those who have surplus money accumulated in other than agricultural pursuits.

It is easily within the bounds of probabilities to estimate that an orange grove in Cuba will produce during the winter months at a thousand to two thousand dollars' profit per acre, and if one takes into consideration the small vegetable places worked by the Chinese around Havana it would be reasonable to say into thousands of dollars per acre.

No Danger of Overdoing

Won't this fruit business be overdone? we are asked. It will, provided that the United States and Europe quit growing and our wide-awake transportation companies all get flat wheels and hot boxes. The United States is now buying millions of boxes of lemons yearly from Mediterranean ports. Cuba can grow every one of them. In 1894 Florida exported 250,000 boxes of early oranges to Liver-

Fish, Game and Animals

Seven hundred varieties of fish, also crabs, oysters, lobsters and turtles, are found in the waters surrounding the Isle of Pines. The sea and rivers which empty into it are literally alive with them. Sea-bass, red-snapper and pompano are the choicest eating.

Parakeets and beautiful humming birds, brilliant as winged jewels, quail and wild pigeons are found in the woods, and ducks along the coast. Such game is plentiful, as very few natives own guns, owing to the license of \$10 a year required of those who keep them.

There are positively no poisonous snakes or insects or dangerous wild animals on the island. The largest four-footed animal found is the "butia," about the size of a large squirrel. You can sleep in the open air in the woods or in a tent without the slightest danger from beast or reptile. Mosquitoes and even common house flies are never troublesome in summer.

To Merchant, Mechanic or Clerk

The condition under which the average mechanic or clerk exists to-day is one of ceaseless toil, from morning till night, year after year. If he has a family, after paying the landlord, grocer and doctor, and buying coal and clothing, there is little left to provide for an emergency or old age. Contrast this condition with that under which one can live in Cuba. The owner of ten acres of land under cultivation will have an income double that which is earned by most mechanics, with the expenditure of one-half the labor.

For a small sum he can construct a suitable house. His vegetable garden and fruits will supply a large portion of his food. There will be no rent bills, no coal bills and no winter clothing to buy. Under these conditions he can lead an independent, healthful, out-of-door life, having a sufficient margin between his expenses and income to enable him to put aside each year a portion for the future. His property, moreover, is constantly increasing in value.

Do you want a guarantee of independence in old age? Do you want insurance against poverty? Do you do, read every word of our Prospectus. It points the way to a comfortable income for life. It shows you how you can easily provide for the future. Give it your earnest attention. Read it carefully. Do it, today.

WHO WOULDN'T ACCEPT INVITATION TO PARIS?

C. M. A. Tourists Glad to Take Advantage of Hospitality of Parisian Chamber of Commerce.

(Canadian Associated Press Cable)

London, July 4.—The Paris Chamber of Commerce, thru the French ambassador in London, sends an invitation today to visit the French capital, and already over a hundred have accepted. The date of the visit will likely be Tuesday next. This will delay the great Elysee banquet until the 11th of July. Tomorrow the C. M. A. go to Edinburgh.

The Newcastle and Gateshead Chamber of Commerce and Mayor Baxter Ellis gave an enthusiastic reception to the manufacturers to-day. Luncheon was served in the famous Guild Hall chamber and Mayor Ellis and Sir Wm. Stephenson welcomed the visitors. R. C. Wilkins of Montreal and John M. G. Murray of Ottawa, and Sir Wm. Stephenson cabled to Earl Grey the greetings of the visiting Canadians to Newcastle and Gateshead Chamber of Commerce, as this is Earl Grey's home.

The visitors divided into four parties and made trips to the various works and shipyards on the Tyne. A reception was given to-night by the mayor in Laing's art gallery.

The Newcastle Chronicle, referring to the visit of the C. M. A., says: "From motives not quite disinterested the old country sometimes has been spoken of on the other side of the Atlantic as 'played out.' No intelligent citizen of the Dominion is likely to have believed the story of British decadence, but there is any such visit like this should serve to convince them there is no decay."

Just \$18.75, Sault Ste. Marie and Return.

A delightful trip for your summer holidays. Trains leaving Toronto for Grand Trunk Railway, connect at Sault Ste. Marie with N. N. Co. steamers for Sault Ste. Marie, returning March 10th. Free, illustrated literature and full information. Write to the nearest agent, corner King and Yonge-streets.

CHAMBERLAIN MAN WINS.

Elected in Kingsford Over Liberal Opponent by 603.

London, July 4.—The parliamentary election at Kingsford, Staffordshire, caused by the death of Col. W. G. Webb (Conservative), resulted in the return of Henry Strachey Hill (Liberal) by a majority of 603 over the Liberal candidate, Major Dunne.

No Liberal has been returned for the constituency since the Redistribution of Seats Act of 1885. At the last contested election, in 1892, the Conservatives had a majority of 1571. The electorate numbers 12,366.

The constituency in the southwest part of the county is well within the "sphere of influence" of Mr. Chamberlain.

Baker's Hotel, Gaspe Basin, P. Q.

Baker's Hotel, Gaspe Basin, P. Q., is the most popular hotel in the province. It is a beautiful and comfortable hotel, and is situated on the sea front. It is a favorite spot for health and sport. No more comfortable hotel exists in Canada, and those who once go to "Baker's" are always sure to return. The hotel is a jolly good fellow, who makes everyone feel at home, and spares neither time nor expense to insure the comfort of his guests. The scenery is beautiful, the sea bathing is excellent, and the fishing is first class. The hotel is a favorite spot for health and sport. LINCOLN CONSERVATIVES SORE.

Don't Like to See Liberals Holding Good Jobs.

St. Catharines, July 4.—(Special.)—A good deal of indignation is being shown here in the Conservative ranks because of the return of Mr. Whitney to office. It is felt that the government is turning out of office present holders of lucrative positions in this county. Months ago the patronage committee decided to give the job to Fred Best of Niagara, and their decision was communicated to the government. Some time previous the late Mr. Whitney had been appointed to the position of collector of customs, and as this was an eleven month appointment it was conceded that he would not be in office. Mr. Whitney and several of the other office-holders deputations went to Toronto and saw Mr. Hanna and other members of the government. They wanted a decision quick, but the government was not in a hurry to return. Mr. Whitney was also in a hurry, and being met in the corridor of the parliament buildings said he had no time to lose. He attempted to brush aside, but Dr. Jessop took him firmly by the arm and curtly observed, "Look here, Mr. Whitney, you will see me, right away, too." Mr. Whitney consented to grant an interview, but nothing came of it. Other interviewers met with the same cold reception, and over this way the Conservative workers are saying that there is no use going to Toronto. One of the most active party men in St. Catharines told The World correspondent today that if an election were brought on now the government candidates would be defeated in Lincoln. Several others spoke in the same strain. It looks as if the dissatisfaction is growing, and that the government is not overly popular with its own followers.

Raised a Pay Cheque.

Montreal, July 4.—V. Malrois, an employee of the Canadian Pacific Railway Company at Montreal, who was arraigned this morning in a charge of forgery, having raised the amount of one of the company's pay cheques, was sentenced to two months' hard labor.

Montreal's Airline Station.

Montreal, July 4.—Cerebral meningitis continues epidemic in parts of Germany, although it attracts little attention now outside of the localities where it is epidemic. Some cases occurred this week among sailors at Kiel and caused the government to order the evacuation of the barracks.

Germany is Hot.

Berlin, July 4.—The heat, which has now continued four days, is so intense that it has caused more than 100 deaths in Germany. At midday in the shade the temperature has been recorded as 107. In the forests the ground is littered with fallen dried leaves.

TWO FACTIONS IN LINCOLN AFTER POSTMASTERSHIP

Loveless May Give It to Himself Unless Senator Gibson is Unforgiving.

St. Catharines, July 4.—(Special.)—A lively fight is on here in the Liberal camp over the appointment of a postmaster to fill the vacancy caused by the death of Robert Lawrie. There are more than a score of applicants, but the real contest for the job lies between E. J. Loveless, editor of the Journal, Donald Robertson and H. J. Johnston. It is now regarded as certain that Mr. Loveless will get the job, because it is a part of the same party control or attempts to control the patronage of the riding. Politically he appears to be the natural choice, because it is a part of the party control or attempts to control the patronage of the riding. Politically he appears to be the natural choice, because it is a part of the party control or attempts to control the patronage of the riding. Politically he appears to be the natural choice, because it is a part of the party control or attempts to control the patronage of the riding.

INSURANCE APPOINTMENT.

Arthur R. Stell has been appointed Inspector for Ontario of the British America Assurance Co. Mr. Stell recently severed his connection with the Western Assurance Co. after a service of 18 years, to take a position on the staff of the British America. There is no more wide awake insurance man in the province than Mr. Stell, whose eye along the street, and thinking he was and business ability have placed him in the front rank in the insurance world.

MY FREE ELECTRIC BELT

FOR MEN ALL AGES

Never before has another person made a free offer such as this. I do not distribute cheap samples broadcast, but am daily sending out dozens of my full power Dr. Sanden Electric Belts absolutely free of charge, and they are the same in every respect as though full cash prices were paid. The position is simple. If you are ailing, call at my office and take a Belt home with you. Or, if at a distance—no matter where—send your name and address, and I will at once arrange to deliver to you one of my Belts, with supplementary or other attachment needed. Use same according to my advice until cured, then pay me—many cases as low as \$5. Or, if not cured, simply return the Belt, which will close the transaction. That's all there is to it. If you prefer to buy for cash, I give full wholesale discount.

Not One Penny in Advance Nor on Deposit

Not a cent unless you are made well. I make this offer to show men what faith I have in my own remedy, and I can afford to take the risk because one in a thousand, when cured, will cheer me out of the small amount asked. It pays me and my patient. My business more than doubled last year. Each Belt embodies all of my exclusive inventions (latest patent March 7th, 1905), and all patients receive the benefit of my 40 years' experience, a knowledge of inflexible value, and which is mine alone to give. I am the originator of the Electric Belt treatment, and all followers are imitators. This I will prove by any guarantee you ask. You wear my Belt all night. It sends a soothing current (which you feel) through the weakened parts, curing while you rest. Let me take charge of your case at once. I will put new life into you in two weeks' time. Don't you do the worrying. Put that on me. I will take all the risk. I have something to work for. Unless you are cured I get no pay. Address

STOCKS ARE SLUGGISH ON THE LOCAL EXCHANGE

Toronto Electric Makes Some Response to Bullish Gossip—New York Market Closed.

World Office, Tuesday Evening, July 4. With New York and Montreal closed, the local market made a speculative display to-day.

Canadian Pacific Railway land sales for June were 64,908 acres, for \$20,729,720.

A Montreal wire says: The first payment of the new underwriting of the Mexican Light & Power Company was \$1,000,000.

New York News:—In connection with the line are opposed to an increase in common dividends, it is claimed that the stock is not held by western interests to any great extent.

The rate of exchange for the dollar is 100 to 75.70.

WESTERN CROP PROSPECTS.

Railway and Other Reports Are All to the Good.

Optimism is still rife in the crop reports received in Toronto from the west. The detailed reports from the agents and experts on the spot go to show that every section of the Northwest is doing its best to out-weigh its neighbor in the production of a bumper crop.

The heavy rains received during the week past have done no material damage to the crops, but they have retarded the crops, but not damaged them entirely.

In spite of the cut worm and the rain and other grains, barley, etc., look fine, and the "oldest settler" even is now optimistic and praying for continued fine weather.

The C.P.R. experts, who closely watch Alberta and the territory, have nothing but good things to say.

Not Properly Placed.

Colonel Gravelly Objects to Disposition of Guns.

The city's disposition of the cannon presented to it by the government was explained in a letter from Col. Gravelly, read before the committee on parks and exhibitions yesterday.

City Had an Offer of \$1200 for the Polar Bear.

Can the city's Riverside zoo be turned into a revenue producer?

The question arises out of the tempting offer that has been made for the time to time for particular private property of the manager upon whom private property is promised a cash case on his eyes.

The round figure of \$1200 was offered some time ago for the polar bear, the gift of Chester D. Massey, and to the proprietor of the Mundy house the lions looked good, and made a substantial bid, which was turned down by the city.

Germany Assists Farmers.

There are a number of experiment stations for agriculture, namely, at Halle, Jena, Darmstadt, Göttingen, Berlin, Bremen, Posen, Koenigsberg, and at Mookern, near Leipzig, says a circular report from Berlin.

THE **SIMPSON** COMPANY, LIMITED
 H. H. FUDGER, President. J. WOOD, Secretary.

SOMETHING ENTIRELY NEW A HOUSEFURNISHING CLUB

The persistent development of this business and strengthening of our resources enable us to plan things on a large and liberal scale, which will show to exceptional advantage this month in connection with Carpets and Furniture. The hundreds of new homes going up all over Toronto are to share in a new plan of housefurnishing that will revolutionize all ideas of liberal methods and discount the best that you or we have ever known. There is nothing visionary about it and no experiment. We propose to sell an extra \$100,000 worth of Furniture and Carpets during July, and do it in a new way. We COMMENCE TO-MORROW, THURSDAY, MORNING to organize what will be known as the

Simpson Housefurnishing Club

LIMITED TO JULY.

LIMITED TO 500 MEMBERS

which will enable responsible persons in Toronto or anywhere in Canada to buy anything they want in Carpets, Curtains, Furniture and Pictures now, and arrange for payment, extended over remainder of the year. It costs nothing to join the club; with no extra charge in any way.

All we ask is reasonable assurance of your ability to do as you agree. All we expect is the small profit that would come in the regular course of cash business. The biggest and best stores in the States and in England make similar concessions to people who own homes, in direct competition with credit houses who charge roundly for the accommodation. It means adapting ourselves to constantly changing conditions and giving Toronto

the full benefit of selling as well as buying facilities.

Liberality is the new gospel of trade, and liberal methods are bringing us a constantly increasing measure of your good-will. Our system of buying back anything not absolutely satisfactory shows our confidence in the goods we sell, and we intend to enlarge your good opinion of us by such broad-gauge methods as these:

Any responsible homeowner, hotelkeeper, church or corporation can get anything they want in Carpets, Curtains, Furniture and Pictures, if bought and delivered during July, and arrange terms of payment spread over remainder of the year to suit their convenience. NOT ONE CENT OF EXTRA CHARGE IN ANY WAY, SHAPE OR FORM.

Special July values will appear in our Store News, with all prices marked in plain figures—the same to one and all. The Club plan is limited to 500 members and to one month, with the distinct understanding that all goods must be bought and delivered at once. Cannot agree to hold over a single purchase—haven't the room. And in order to make sure of a Club Membership those who're at all interested should make application at once. If inconvenient to visit the store within the next day or two, cut out and mail attached coupon, giving your address. All names to be filed in the order as received.

THE **SIMPSON** COMPANY, LIMITED
 Toronto, Ont.
 Will you kindly enroll my name as a member of your Housefurnishing Club, details to be arranged later.

SHOULD HAVE COLONIAL TRAINING.

Advice for Englishmen Entering on Local Church Work.

Rev. R. Titley Gardner, M.A. of England, met at the synod office yesterday the Anglican clergy and representative laymen of the Toronto district. Mr. Gardner is commissioned by the Archbishops of Canterbury and York to collect information regarding the colonial churches for the consideration of the next Lambeth Conference, which meets in 1908. His mission is to a large extent an outcome of the recent visit of Archbishop Davidson. Rev. Canon Sweeney presided in the absence of Bishop Sweatman. About 50 were present, and the gathering became, in a large measure, a conference, in which a majority of those present spoke. The matters upon which the Rev. Mr. Gardner is seeking information are as follows: It was the general opinion that the English Colonial Clergy Act was passed in circumstances which, at the present

time, had not the same application, and it was realized also that difficulties would arise just now if an attempt to revise the act was made. It was believed, however, that a liberal and reasonable application of the provisions of the act by the English bishops would remove many of the objections. Provost Macklem thought a colonial training before ordination was eminently desirable for those Englishmen who intended taking up work in the colonies. Lawrence Baldwin considered that the vocation of a clergyman should be urged upon their sons by parents and that the subject should be specially brought before congregations. Rev. Cooper Robinson thought there was no shrinkage in the number of men offering themselves for the ministry. Rev. Dr. Tucker considered that it was not the right time for the great English societies to withdraw their grants to the Canadian church, when the mother country is sending annual grants of \$6,000 to the Northwest. Among those who also joined in the discussion were Canon Welch, Rev. Dr.

Largry, Rev. Dr. Clark, Canon McNab, Rev. Dr. Broughall, Rev. P. Wilkinson, Rev. W. Hayes Clarke, Mr. Summerhayes, Captain Vennel and Mr. Ward. It was resolved that the following subjects be brought before the different deaneries in the diocese: 1. What is the most important thing for the church to do in your own regions? 2. What is the most important work for the church to do, in your opinion in other regions? 3. What should the Anglican Communion do in its corporate capacity, acting as one body? Rev. Mr. Gardner expressed himself as much gratified with the conference. He left yesterday for the west.

A PROTECTIONIST MINISTRY.
 (Canadian Associated Press Cable.)
 London, July 4.—A Melbourne correspondent states that Lord Northcote refused Premier Reid's request for dissolution, and that Deakin is now engaged in forming a strictly protectionist ministry. Deakin hints that the question of preferential trade will be the first to gain attention.

PUBLIC NOT TO SEE HIM.

Face of John Hay is Not Exposed to View.

Cleveland, O., July 4.—The remains of John Hay now lie in state in the spacious chamber of commerce building of this city, guarded by a detail from Troop A, of which the illustrious dead man was an honorary member. Mrs. Hay wished, above all, that the body should not lie in state for public view. The people of the city will therefore have no opportunity of seeing the face of the dead secretary of state. The body will lie in state in the hall of the chamber of commerce, building for two days, but exposed only to the eyes of the troopers, who will stand guard over the coffin. Even the funeral services themselves will be like those of one of the last words will be spoken over the body of the dead in the privacy of his nearest relatives and closest friends in life.
