Spread Sedition In India Now By Gramophone

VICTORIA, B.C., May 2.-Lord Fred Hamilton, son of the Duke of Abercorn, and a prominent British diplomat and traveler, has arrived here, returning from India where he attended his son's wedding to the daughter of the Gover-

nor-General Earl Minto. He said the seditious movement in India had been caused by the abolition of the censorship of the press, which allowed the Bengals to scatter their sedition broadcast. The leaders had ton on the 11.20 Grand Trunk train lately adopted gramophones to spread sedition, and the officials are in a wood-avenue, where they have been

Lloyd-George Said To Have Deliberately "Cooked" the

Revenue Estimates— Bitter Struggles Are Predicted.

Week-end London cables give some interesting opinions on the British budget, as extracts given herewith will show.

T. P. O'Connor, in The Chicago Tribune, says: Lloyd-George's budget is the most sensational for half a century. Already two political parties have heaped on it such a multitude of epithets of glowing eulogy or vehement denunciation that one newspaper describes it as the adjectival budget. It then collects some scores of adjectives hurled at it, beginning with great, human, democratic, and poor man's budget, and ending with virdictive, penal, red flag, plundering, Socialistic, and a last free trade bud-

get.

Its popularity with the English masses certainly is undoubted. Every enemy of radicalism is punished and the house of lords especially is defied and answered back by the taxation of everything it has succeeded in defending from legislation since the Liberals came into office. The licensing of land on its valuation—everything, in fact, which the Liberals tried to attack by legislation and the lords rejected—now is subjected to big if not attack by legislation and the lords re-jected—now is subjected to big if not vindictive taxation. More public houses of the smaller kind will be destroyed under the budget than under the licensing bill, and more money will be taken from the big land lords, es-pecially in the towns, than under the land or valuation bills passed by the commons and rejected by the lords. In short, this budget is the answer of the radical ministry to the tyranny contributes to make the house of lords the big dominating issue with the next

Trials at The Track Baseball Providence 13 : Marathon Time 2.39.47 : Woodbine

Note and Comment

P. T. Powers, president of the Eastern Baseball League and general Marathon promoter, was in Toronto on Saturday to look into the conditions and intention of his protege, Tom Longboat. They were interested spectators at the island race, the field being incidental to both sports which have aided in making Pat famous.

The versatile impressario declared that the ball grounds at Hanlan's Point are in the best shape of any in the league and further than declaring the Eastern clubs were all well matched, he preferred to talk Marathon.

President Merrick and Secretary Crow of the C.A.A.U. were interested spectators of the Canadian Derby. Both were relieved to see several of the suspicious amateurs take the skip, tho Abble Wood and Red Hawk Jackson had never given trouble.

Meadows ran under an assumed name in Quebec. Sellen and Coley were always referred to as old country pros. Charlie Petch ran under a Federation card in the east and Cumming was a bone of contention with the A.A.U. but bone of contentions are always as a bone of contention with the A.A.U. but bone of contentions are always as a bone of contentions are always are always as a bone of contentions are always are always as a bone of contentions are always are always are always as a bone of contentions are always tention with the A.A.U., but here he was held guiltless. Before turning to the money ranks Simpson and Marsh had the reputations of sending in top heavy expense bills.

SATURDAY SCORES.

Owing to the rain only two games were played Saturday in the three leagues, one each in the National and American and none in the Eastern.

At Detroit (Am.)—With snow driving during the greater part of the game Detroit with its colt pitcher, Works, on the firing line, defeated St. Louis for the second time. The score was 5 to 2. Works was hit harder than Bailey, but fast fielding behind the Detroit pitcher pulled him out of many holes. Moriarity's steal home in the seventh inning was the feature. When the game started the thermometer registered 37 degrees; at the finish it was 34. The score:

Connolly, p. ... 1 0 0 0 0 0 0 0 games from the Cubs to-day. Overall was poposed by Camnitz in the first game, the Pirates bupching hits with errors for enough runs to win easily. The second game was opened with a wild session, in which five runs were scored off Reulbach, while the Pirates connected with six stolen bases. Hagerman was substituted for Reulbach and did good work. Score:

At the Toronto Bowling Club Saturday night and before one of the biggest crowds of the season, Eaton's Rickeys and White & Co. clashed for supremacy in the return home and home series, the Rickeys winning out on the round by the season, but all records were broken in the big event, when that western farmer, John D. Marsh, romped home a winner by one and three-quarter laps over Abbie Wood, the Montreal Harrier. The time was 2.39.47, and firmly establishes Marsh as a runner of some class, and one who will bear watching when the cracks hook up at New York next Saturday.

Sellen and Ifarsh set all the early pace, but after sixteen miles had been reached, the former dropped by the wayside, Marsh, who had the stamina as well as the early speed, taking the lead, which he maintained to the end. Wood tried often to start a sprint that would reduce Marsh's lead, but the latter stuck like glue, and the real race developed into a race for second place which Wood lagded by a lap over Meadows who was a lean alread of the waddows who was a lean alread of the mild the stam and the stam and the stam as well as the early speed, taking the lead, which he maintained to the end. St. Yves to Run Here.

The distance runner who created a sensation by his victory in the Marathon Derby at New York, Henri St. Yves, will be seen in action here on the night of May 22, when he will run at Hanlan's Point. His opponent will be the winner of the big race in New York this week, or the man who looks most like having the ability to take down the great French runner's number. This was decided after a conference with P. T. Powers of New York, who was a visitor to the Marathon at the island on Saturday. This is not the only big attraction in the running line that Manager Solman is providing for the island grounds, and he has practically completed the details of a race on the night of May 24, that will bring together the most famous men now on the path.

Bitter Rivals Will Meet Again.

Art. Edmunds and Young Muldoon will meet in the Labor Temple Thursday, May 6. This match promises to be very fast, as these men are bitter rivals and Muldoon thinks he can throw Edmunds in very short order, as he says he has greatly improved since their last meeting. The match will be best two falls in three, strangle hold barred, and the agreement was made between them that no Toronto referee officiate. Edmunds beat Muldoon once, and once at the Labor Temple the police stopped the bout at 12 o'clock on Saturday night of their second meeting.

BALTIMORE, May 1.—Threatening skies and generally disagreeable weather spoiled what would have been the banner day of the Pimlico meeting. About 5000 braved the wind and rain and saw a good day's sport, replete with Yeatures.

The big event of the day was the Claburgh Monorial, the Maryland classic for 2-year-olds. It went to the favorite, The Monk, in easy style. The Green Spring Valley Steeplechase was scratched down to rife starters and resulted in a betting upset, Sir Wooster, the favorite, losing his rider on the second turn of the field, 100 yards from the wire. Kara suffered the same mishap, leaving Algie and Grandpa to finish; alone, with Bell the Cat cantering in an eighth of a mile behind.

The Carrollton Cup, a gentleman's affair, went to Carrollton Cup, a gentleman's affair to Carr QUANTICO, 15-1 - - -

Toronto Club v. Imperial Bank—J. W.
Bain, K.C., for defendants, on motion for a better affidavit on production by plaintiff. W. E. Middleton, K.C., for plaintiffs, contra. Judgment (B.). The plaintiffs seem to have been perfectly willing to give all proper discovery in the action. It does not appear at present that there is any ground for a further affidavit, When the examination has been concluded the motion can be renewed if defendants so desire. If not renewed the costs of this motion will be in the cause.

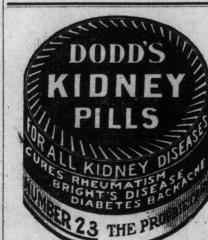

Gillies v. Smith—C. A. Moss, for Alice A. Smith, applicant, on a motion to set aside a foreclosure. G. S. Hodgson, for plaintiff, contra. Judgment (B.). Alice A. Smith was made a party in the M.O. on a foreclosure, and consented to be foreclosed. This was under the idea that the defendant would not redeem and by arrangement with the plaintiff the applicant would have become owner. This mortgage was on three separate parcels, and on one of them with other land the applicant holds a second mortgage under a deed absolute in form, which is now being dealt with by the master at St. Catharines. The first mortgage was redeemed by the father of the defendant and the mortgage was accordingly directed to be assigned to him by defendants, but owing to applicant's clalm, this has not yet been done. The applicant was (and perhaps is) the wife of the defendant, tho they do not appear to be in friendly relations at present.

The applicant asks to set aside the foreclosure to be left in to redeem and

did over the naval scare. Yet with the exception of the proposal to tax land values and dimineral royalties, the budget simply extends principles already recognized in British finance. The grading of income tax and the death duties, stamp duties on stock exchange contract notes and transfers, excise and customs duties on spirits and tobacco all figure now in the balance sheet. No doubt the new scales mean material increases, but to call the excheduer, has evidently proceeded on the conviction that taxation should be heavised on the classes best able to bear it. Rev. J. E. Starr, pastor of Berkeleystreet Methodist Church, gave the higher critics an uncomfortable half hour in his sermon last night. The speaker likened their interpre tation of things Scriptural to King

Jehoakim's use of the knife in the Bible. He wondered if they would surprised to be told that their advanced thought was antedated 200 years ago in Paine's "Age of Reason." They call it advanced thought and rational Christianity, but it's rational nonsense," said Rev. Mr. Starr.

MANY DON'T KNOW HEART AFFECTED.

More People than Aware of It Have Heart Disease. "If examinations were made of every-

one, people would be surprised at the number of persons walking about suffering from heart disease." This startling statement was made by a doctor at a recent inquest. "I should not like to say that heart disease is as common

as this would imply," said the expert, "but I am sure that the number of persons going about with weak hearts must be very large."
"Hundreds of people go about their daily work on the verge of death, and yet do not know it. It is only when the shock comes that kills them that the unsuspected weak-

ness of the heart is made apparent."
"But undoubtedly heart weakness, not disease, is more prevalent nowadays. I should think that the stress of living, the wear and rush of modern business life, have a lot to do with heart trouble." There is no doubt but that this is correct,

and we would strongly advise any one suffering in any way from heart trouble to try a course of Milburn's Heart and Nervo

improved by the recent financing and by the report of a recent strike on the property. Peterson Lake was in good demand by insiders, who were trying to replace their stock, which they lost in the effort to depress this issue, in view of the annual meeting. Temiskaming was simply the sport of traders themselves in efforts to scalp profits from fellow dealers and this was thoroly unsuccessful. The mine is reported to be in better shape than ever before.

Green-Meehan had somewhat of a sensational rise on the news of a good strike, but lost half of its gain thruselling by speculative holders. Silver Bar showed an advance of some nine points from last Saturday's close, on a small demand. This stock seems somewhat scarce.

NEARLY NINE PER CENT

When the Slater Preferred and Common Both Pay Dividends.

"Slater Preferred" has paid seven per cent. dividends continuously since it was first issued more than ten years ago. Slater Shoe Common has paid 7 per cent. dividends almost continuousincrease. that the new stamp taxes will hamper London seriously in its competition with other markets for international loans. This misgiving, in my judgment, is not at all chimerical, especially in the case of high-class American bonds, whose flotaly, dividends being passed only in lean

tract notes will tend to throw speculative business abroad. Under the old arrangement, a speculator running a hundred thousand sterling in consols for six months paid f14 in stamp duties. Now he is taxed f80. On American securities, the change is even more striking. "Rank socialism" is the description applied to the budget thruout the city.

We are rather disposed to credit predictions of impending return of good times in the United States, but are always suspiciously watchful lest the promising outlook be marred, as it has been before, by excessive and premature Wall-street speculation. The Turkish situation is still viewed cautiously in good quarters, but actual sympathy here is entirely with the Young Turks. Both France and England stand ready to finance their governmental requirements shortly. On the whole, the budget is, the only factor likely to impair a generally, hopeful outlook for stocks in May. If there are no riots in Paris around May Day, mine shares will probably boom after the holiday.

Further rise in high-grade investment issues is scarcely expected, because continuance of easy money is distrusted and

issues is scarcely expected because con issues is scarcely expected, because con-tinuance of easy money is distrusted and impending loans are large. For instance, treasury bills for three millions sterling are announced by Japan. A municipal loan for three millions has been covered

Fluctuations Restricted Locally and at Wall Street

Short Traders Given Little Encouragement at Larger Exchang -Local Market Somewhat Narrow.

World Office, Saturday Evening, May 1. Fluctuations have been restricted at the New York stock market during the week and less business has therefore developed both from the outside and on the floor of the exchange. Matters of market moment have had little effect except the Steel Trust statement, which was used as a strong stimulant the day following the publication. Turkish difficulties and the unfavorable British budget were without effect, and it must be admitted that the market is still proof against unfavorable incidents. Short traders are given little encouragement and the technical condition eliminating the support of inside cliques is therefore weak and the en: The market was fairly strong, with

Money is displaying signs of hardening, but even admitting that this is not the case, most of the dividend paying stocks are selling at more than full value, regarded alone from this standpoint. A good many issues show less than a four per cent. return, at present levels, and there are few really great stocks which will produce five per cent. Wall-street has a habit of becoming ridiculous in two directions. Panic prices were as much unwarranted as the quotations which

An element of the biggest importance from now on will be the crop record. The first government statement of the state of last fall's seeding and this spring's operations will be available in a few days. It is generally accepted that the former was not anywhere near original expectations, but this spring's work may have made amends for this. Considering the value of the crop to An element of the biggest importance work may have made amends for this. Considering the value of the crop to the stock market and the range of prices now ruling for securities commitments should be minimized until it has been seen how the outlook for the season's crop is viewed. The general trend of prices is undoubtedly upward, but in the absence of any broad speculation the movement will be necessarily slow and advantage only those who are in more from an investment standpoint than from the view of a speculative quick turn. Investment securities in the market have been decidedly dull now for some time, but this has not brought about any weakness in prices, and there are very few of these securities in actual need of liquidation. Tho the market for domestic securities has been somewhat inactive, the undertone to prices has had a decided firmness and in several cases the absence of real stock in the market has afforded an easy opportunity for puting the prices of such securities up. Special instances of this are seen in Canadian General Electric, Northeri Navigation and the milling stocks. Complaints are heard of the absence of realizing. This has narrowed the market down to a small compass, in which speculators close to the market have seen a chance to make favorable turns in semf-peculative securities, of which the floating market supply is extremely small. The rise in Diy is extremely small. The rise in Diy is extremely small. The rise in Diy is extremely small. The rise in Canadian General Electric and Northern Navigation, as has been pointed out prejously, its justly warranted on the showings of the two companies and the dividends which they are able to has.

A good deal of enquiry has developed in connection with Porto Rico stock on account of the favorable record made by propositions of a similar character previously, listed on this exchange, and these shares have held firm on the advance which has occurred within the last two weeks. London buying is said to be responsible for the revival of the expeculation in the Rio stocks, and theremay be some connection with the ad-

ket; conditions are good for trading, and we are likely to see frequent fluctuations with the prevailing trend in the direction of higher prices. The British budget, which showed an almost startling increase, had a depressing influence in London. It is the distinct product of militarism and socialism, and can only be considered as placing undue burdens upon capital and discouraging to enterprise. It will drive capital away from England and possibly stimulate the demand for American bonds. History proves that excessive taxation always leads to national decay, and herein lies a lesson for Americans.—Henry Clews.

"Create within me a clean heart, O Lord, and renew a right spirit within me" (Psalm ii. 10). The man or woman who begins reformation of life by vowing to himself to live according to his best natural ability will find himself disappointed still; because of the impossibilities of harmonizing all the impossibilities of harmonizing all the various qualities of his mind under present conditions connected with the reign of sin and death in the world. He will find that to will may be present with him, but to perform the will of his nobler mind will be an impossibility; because thru heredity, and thru commercial customs, and thru his own habits of life, his lower organs are fully developed and stronger in their combination, while the organs respecting his nobler sentiments are relatively weak, inexperienced and out of accord with the sin and death conditions which prevail on every hand.
