MAYOR GEARY.

Readers of the World will confer a favor upon the publishers if they will send information to this office of any news stand or railway train where a Toronto paper should be sold, and where The World is not offered.

With an incorrigible optimism The World continues to trust the people. The World believed that Controller Hocken was the better man to represent the interests of the people, but the people have decided differently, and we accept the result cordially.

Mayor-elect Geary has placed himself on record in the most positive way that he has had no connection with the Street Railway or the Street Railway interests. All that is necessary for him to do to please The World is to serve the people by confirming and fulfilling the pledges of his independence of all electrical corporation influence.

THE BRITISH ELECTION CAMPAIGN.

Neither Mr. Asquith nor Mr. Balfour is on the best of terms with the extremists of his party and for similar reasons. The prime minister will not commit himself to the abolition of the house of lords or its practical elimination from the constitutional triad.

Less than a fortnight will bring the first electoral contests of this memorable electoral campaign. On Saturday, the 5th, many borough constituencies will be polled—possibly there may be a few on the Friday.

MR. HOCKEN'S DEFEAT.
Controller Hocken may attribute his defeat to lack of sufficient organization as much as to any other cause. Among the 30,000 citizens who did not go to the polls there are probably many thousands who wished to see Mr. Hocken mayor, but who were quite satisfied to leave it to their fellows to accomplish their desire.

GERMANY'S PROVISION FOR WORKERS.
In one of his most recent speeches, Mr. Lloyd-George intimated that if confirmed in power the government would set about the betterment of the social conditions of the working classes and would improve upon the German institutions that have proved so successful in that country.

point far in advance of any point reached as yet by any other nation. That they have benefited the working classes is undoubted, and in addition they have been leading factors in Germany's industrial development. It is true, however, that they have not served Bismarck's primary purpose of staying the encroachment of socialism and democracy of the political field.

The three most important measures were intended to provide for compulsory insurance against sickness, against accidents and against invalidity and old age. According to statistics contained in an article by Rudolph Cronan in the December number of McClure's Magazine, there are 23,214 funds for insurance against sickness now in existence, all laborers earning less than 2000 marks (about \$76) a year, paying two-thirds and the employer one-third of the weekly premiums. In case of sickness, the insured worker receives half the amount of his wages for 26 weeks and doctors, hospital and medical fees are free. Up to the end of 1907, close on \$700,000,000 had been thus paid out, and the institution also supports numerous sanitariums and recreation grounds.

In the case of accident insurance, the premiums are wholly paid by employers, who are arranged in groups, according to class. Each of the 114 groups maintains an insurance fund and over 20,000,000 laborers are thus protected. Two-thirds of the wages are paid during disability and if death occurs, the family receives at once 15 per cent. of the annual wages and an annual support of 60 per cent. The institution of this system has greatly stimulated the adoption of measures for prevention of accident.

To the premiums for insurance against invalidity and old age, employers and employed contribute equally, differing in this from the British old age pension scheme. In Germany support is given to invalids without regard to age and to persons above 70 years, also to the widows and orphans of insured workmen. To every lawful pension the government contributes a fraction under 22 and at present about 14,000,000 persons are protected from want by this part of the German system. It is noteworthy that these insurance institutions are not run by the government, their management lying entirely in the hands of the working classes and the employers themselves.

Food Not Fit for Animals.
ATLANTA, Ga., Jan. 2.—John W. Todd, former overseer at the city prison or stockade, was the principal witness heard by the counsel investigating committee yesterday. In addition to corroborating the stories of cruelty to prisoners and of unsanitary conditions as told by other witnesses, he testified that the food served the prisoners was unfit even for the lowest kind of animals.

TRIUMPHAL PROCESSION ESCORTED MAYOR-ELECT

Joy Reigned in Geary Camp When Result of Vote Was Made Known.

One of the best vantage points for studying the progress of Saturday's election was the Geary committee room on Yonge-street. Soon after 6 p.m. the returns commenced to filter thru, and the earlier part of the evening there was only a sparse attendance, as the majority began to roll up for Geary and supporters drifted in by twos and threes, until the room was well packed, each fresh announcement indicating a gain, being enthusiastically cheered by the elated electors.

element. It seemed as though "The Ward" had transferred its thrifty tenants to Yonge-street, for Jews of every age, size and appearance were present, an ample proof of the pleasure felt by the Jewish colony in the election of Mr. Geary.

Addresses Supporters.
After a short address thanking everyone for the support tendered him through the contest, he left the committee rooms en route for The Star office. His walk along Yonge partook of the nature of a triumphal procession, a dense crowd of supporters flanking him on each side and cheering frantically. By the aid of the police he forced a passage into the building, where after receiving the felicitations of his mother and several personal friends, he addressed the huge crowd.

"Citizens of Toronto," he began, "I thank you for the great honor you have done me in placing me at the head of the poll. It almost passes my comprehension that I am elected by so large a majority. I have nothing but the kindest words to say of Mr. Hocken, and I am sorry that it was he who was called on to beat in the majority contest. The only regrettable feature has been the attitude of The World, but I am willing to let bygones be bygones. I once again thank you and wish every one of you, and the city of Toronto as well, a happy and prosperous New Year."

At the Mail and Empire an enthusiastic reception was also accorded the mayor-elect, who, stepping on the balcony reiterated the sentiments of his previous speech to the cheering crowd. At 8.30, when the huge majority had assured him of his election, Mr. Geary left for the Albany Club.

mayor was only nine years old, and since then he has been the head of the family.

After attending the Sarnia public schools, followed by a year at a rural school, he entered at the age of 11 the Sarnia High School. A year later he was sent to Upper Canada College, where he studied until he was 15. Another year in the country followed, it being spent on a farm near London, and then Mr. Geary came to Toronto and took up the arduous dual task of a university course and a law course, taken simultaneously.

Graduating in law in 1884, Mr. Geary formed a partnership with a fellow graduate, the late J. T. Scott. Mr. Geary's total cash assets when he

TUBE VICTORY MUST NOW BE FOLLOWED UP

The Significance of Tremendous Majority in Favor of Better Transportation Service in Toronto.

What the Tubes Victory Means. Now that the people have carried the tube proposition, the city council has received instructions to go to the legislature and ask power to submit a bill to raise \$4,885,000 with which to carry out the work.

The victory is most gratifying in view of the strong newspaper campaign against the scheme. It is an evidence of uprising against the street railway, and it wouldn't be surprising if the company hastens to make concessions long denied.

The World stood alone in advocating the tubes. The Star was bitterly hostile, as was The Mail, The Globe, and The News. The Telegram and The Sun were friendly.

The whole strength of street railway influence was used against the referendum, but the people rose in their might and showed that they wanted rapid transit, and would have it.

The project contemplates the construction of 3.4 miles of subway and 13 miles of surface tracks. The outlines of the plan are familiar to all.

The defeat of the Bloor-stopped viaduct bill is due to the combination of five newspapers, who fought the project from the beginning and resorted to gross misrepresentation as to the cost, and exaggerated the size of the city debt.

The Guild of Civic Art or some other clique of individuals caused posters to be placed on the walls at the eleventh hour, knocking the viaduct.

Friends of the project are not discouraged. They know that the viaduct must be built and will be built in a few years at most.

People Support the Fair. Manager J. O. Orr is highly elated over the carrying of the exhibition improvements bill.

BEATTIE LONDON'S MAYOR MONEY BYLAW BEATEN

Citizens Took Stand That It Was Time to Economize—No Politics in the Campaign.

LONDON, Jan. 2.—(Special.)—In one of the most interesting and peculiar elections in the history of the city, Ald. J. H. A. Beattie, nephew of Major Beattie, M.P., was yesterday elected mayor by a large majority.

His opponent, Ald. Ferguson, was considered a sure winner. It was the first election in which politics were dropped entirely, none of the newspapers taking the issue for any candidate.

Some months ago an agitation was started amongst the citizens for cleaner and more economical government. Ald. Ferguson went on a tour to cost the city in the neighborhood of \$300, and this helped his defeat.

Beattie came out in favor of hydro-electric power after his lack of enthusiasm in the matter had threatened to cause a split in the party ranks.

The school board caused one of the most bitterly contested battles since the inauguration. Two sessions were at stake, compulsory vaccination, which is now in force, and double sessions for the kindergartens, a recently made rule.

Three money bylaws, one for \$70,000 for underground distribution; \$20,000 for a garbage disposal system, and \$60,000 for a sewer water sewer system, recommended by Engineer Chipman of Toronto, were snuffed under by large majorities.

The majority figures were: Beattie, 2824; Ferguson, 3321. Aldermen: Eckert, Hancock, Ashplant, Riecher, Pocock, Jeffries, Underwood, Koppin, Stevenson, Saunders, Fitzgerald, Ross.

School trustees: Weeks, Hunt, Balfour, Toadall. Utility commissioners: McMahon, Pocock, Wyatt.

The defeated bylaws were: For an underground conduit system, majority against 2369; for \$100,000 for a sewer system, majority against 1917; for a board of control, majority against 913.

INSISTED ON A FIGHT BLOW CAUSED HIS DEATH

Geo. Bulman of Thorold Picked Quarrel With Wm. Bradley of Merriton.

ST. CATHARINES, Jan. 2.—(Special.)—William Bradley of Merriton was last night remanded to jail till Friday next to appear before Magistrate Campbell on a charge of murdering Geo. Bulman of Thorold.

Bulman lost his life last evening as the result of a fracas with Bradley. Shortly after leaving the local line of the trolley on the Niagara, St. Catharines and Toronto Railway, following the Martin ten mile road race, the railroad company sent three special cars to Thorold to carry the people of Merriton and Thorold to their homes.

Bradley and Bulman were passengers on the centre car, which was so crowded that they had to stand on the rear platform. They were total strangers to each other.

In the course of the journey to Merriton Bulman was crowded over against Bradley, who pushed him away. This caused a slight altercation, in which Bulman called Bradley some ugly names.

As a consequence a scuffle took place on the car, and conductor Francis and some passengers separated the men. Words followed, but those who were on the car declare that Bradley was much quieter than Bulman, and took considerable verbal abuse. Some say Bulman was drunk, others declare that he was not, tho he had been drinking to some extent.

Bradley had also had a number of drinks during the afternoon. Got Off Car to Fight. Finally Bulman asked Bradley if he were going to Thorold to which he replied that he lived in Merriton and was going to get off the car near his home.

"That's all right!" Bulman said, "I'll get off at Merriton just to lick you." Bradley cautioned him against it, but when the car stopped near Lock 3 on the Welland Canal, a few doors from Bradley's dwelling, both men left the car.

Bradley was first. As he turned around, Bulman made a lunge at him with his right hand. Bradley struck him in the jaw, knocking him down. Bulman was in the act of getting to his feet when Bradley struck him a second time. This time Bulman fell back striking his head on the stone kerbing of the crossing. He did not attempt to arise. Bradley continued to his home. Passengers on the car who had witnessed the affair, went to Bulman's assistance.

High Constable R. E. Boyle of Lincoln County and Constable Moffat of Merriton had been spectators at the road race and were on the other special cars, and were among the first to render assistance. Bulman was carried to the power house of the Willson Carbide Co., a few yards away, and there Dr. Vandenburg of Merriton attended him. Bulman was bleeding profusely from the ears. In ten minutes he was dead.

Constables went to Bradley's house and placed him under arrest, and the body of Bulman was brought here. There are only two wounds, one a bruise on the back of the head, the other a laceration in the neck, evidently where he was struck.

Both Bear Good Reputations. Bulman came to this city from Nottingham, West England, on 23rd April, 1908. He always bore a good reputation. He is a carpenter by trade. Only Friday night he concluded a job at Niagara Falls on which he had been engaged for several months. He has a bride and year old boy. In his pocket was found a package of endeavor letters written to him by his wife previous to their marriage two years ago, and a due book for the Canadian Foresters, in which he had taken out a \$1000 policy in September last.

Bradley comes from a fine family in Merriton, and is a son of A. B. Bradley. He has always borne a good reputation. He is a carpenter by trade. Only Friday night he concluded a job at Niagara Falls on which he had been engaged for several months. He has a bride and year old boy. In his pocket was found a package of endeavor letters written to him by his wife previous to their marriage two years ago, and a due book for the Canadian Foresters, in which he had taken out a \$1000 policy in September last.

When arrested Bradley was about to offer himself to the officers. No evidence was taken, but in the presence of Crown Attorney Brennan and A. C. Kingstone, who has been engaged to defend him, he was remanded. Coroner Jory will hold an inquest.

RECEPTION AT SEE-HOUSE

Largely Attended Anglican Function on New Year's Day. The Bishop of Toronto and Mrs. Sweeney held a very largely attended New Year's reception at the See House from 3 until 6 o'clock on Saturday afternoon.

The host and hostess were assisted in the reception of their many visitors by Bishop Reeve and Mrs. Reeve.

Rev. Canon Dixon, Rev. Canon Cody and the Anglican clergy of the city attended the reception, also many leading representatives of the laity from the various congregations.

KAY'S The Largest House in Canada Devoted Exclusively to High-Class Furniture and Furnishings

KAY'S January Furniture Sale Commences To-Day AT 8 A.M.

It Will Be a Sale-Extraordinary Notable to the Point of Sensationalism

Every furniture maker of consequence in America has announced an advance in prices to take immediate effect. In the face of this material increase in cost, our entire stock of furniture will be on sale during January at prices from 10 per cent. to 50 per cent. below regular.

In anticipation of the advance now enforced by the manufacturers we bought heavily, crowding our immense warerooms to their utmost capacity with a careful selection of the newest designs in quality furniture.

Our plans for 1910 call for as complete a clearance as possible before inventory day, January 31st, and to this end we offer price inducements that will make it profitable to buy during this sale even if the furniture has to be stored for months.

Prices on everything are marked in plain figures. A few examples of how they have been reduced for this sale are listed below:

Table listing various furniture items and their reduced prices, including Hall Stand No. 37, Grandfather Clock No. 16, Dresser and Somnoe, Dressing Table No. 438, etc.

A Clearance of Made-Up Rugs at Greatly Reduced Prices

For weeks past all our carpet sewers that could be spared from regular ordered work have been busy making up stock rugs. A goodly lot now completed is stacked on our ground floor ready for inspection and purchase.

We want a speedy clearance of these rugs, which, in large part, are made up from carpets in discontinued patterns. They have been marked with this end in view at prices that represent a big saving to those fortunate enough to secure one or more of them.

We have space to list only fourteen of these splendid rugs. There are scores to choose from at equally close prices.

Table listing various rug models and their prices, including No. 310, Axminster, No. 121, Axminster, etc.

TORONTO'S BOARD OF ALDERMEN FOR 1910

MANY NEW FACES IN THE COUNCIL FOR 1910

Something Personal About the Men Who Will Look After the Affairs of Toronto Citizens.

The city council for 1910 introduces some new faces in the civic chamber, returns some once familiar there, and sees the retirement of a few well-known members of council.

F. S. Spence is back again on the board of control and leader of the poll. Experience has shown that Mr. Spence runs best in an off year for temperance issues. Moreover, his strong arraignment of the street railway did much to disarm the suspicions which led to his overthrow a year ago, and he had the church and blue blooded at his back. Mr. Spence has had a long civic record. He served many years as an alderman in the second ward and was defeated for the mayoralty by the late O. A. Howland in 1901. In 1904 he was elected to the board of control, and in 1908 was again defeated for the mayoralty by Emerson Coatsworth. In 1908 he came back to the board, but lost his seat last year.

Tommy Church Did Well. The meteoric campaign of Ald. T. L. Church has been crowned with success. He showed a speed hardly less than that of Halley's comet in getting about the city, and evidently made a hit wherever he went. There will be plenty of singer in the 1910 board of control meetings. In his five years as a second ward alderman Ald. Church has stood by the people loyally, and they now stand royally by him. He is a veritable dynamo of energy, especially along the line of getting new legislation, always in the interests of the masses. Mr. Church was brought up in Toronto and took his law course at Osgoode Hall. He is a Conservative, an Anglican and an Orangeman, and belongs to a number of societies. He is looked for parliamentary honors.

Ward Is Popular. Controller J. J. Ward's re-election to the board of control surprised few. It was figured by his admirers that, as his support given him yearly is of the solid, unchanging sort, the large field of candidates was all in his favor. Thus it has proved to be. The genial John is known as the sporting controller, and the sporting vote in Toronto is no small factor. His co-religionists naturally stand by him and the labor vote, as in other years, has lined up behind him.

"J. J." has been in council ten straight years. He was alderman in the sixth ward from 1900 to 1904 inclusive, and then graduated to the board, where he has remained ever since. He starts on his sixth consecutive year as a controller, a record in which he stands alone.

Wanted the "Watchdog." It was freely predicted that Ald. Thomas Foster would make the board of control, because of his firm stand as watchdog of the civic exchequer, and the outcome justifies the confidence. Mr. Foster made himself conspicuous during the year by challenging innumerable items in the accounts and fought bitterly salary increases to officials. His election will not be popular in official circles.

Foster entered the council in 1891, in old St. David's Ward, which was next year merged into the second ward. He had represented that ward for ten years, with intervals between. In 1905 he ran for the board, but was defeated. He retired from business some years ago, and has large real estate holdings.

Mr. Foster is a Conservative, an Orangeman, an Anglican and supporter of temperance.

Harrison Among the Fallen. The defeat of Controller W. S. Harrison, father of water filtration and the electric bath, is to be attributed to the presence in the race of Messrs. Bredin, Spence and Chamberlain. Liberals like himself and drawing support from the church and temperance forces. He was also weakened by the candidature of James Hales, whose campaign was made chiefly on an appeal to moral reform sentiment. Mr. Harrison represented civic life in 1902 as an alderman in the fourth ward. He served there for four years and was promoted to the board of control in 1907. His record as a defender of public rights has been good, but the combination of adverse influences proved too strong.

Ald. J. H. McBride did not make as good a run as his friends had hoped. The Conservative vote was not polled as strongly for him as his backers would have liked, being probably due to the fact that, altho a member of the central executive, he wasn't personally well known thruout the city. In his defeat, the council loses a prominent debater and the works committee its chairman for the past two years.

Ald. Bredin has fallen in the fight for the board of control, the graveyard of many an ambition. In his council loss one of its most practical men, equipped with sound business methods. The third ward, where he headed the poll last year, will miss him especially. He was two years in council.

Phelan's Great Victory. The election of T. N. Phelan in the first ward wasn't a surprise, having been largely discounted in advance. Mr. Phelan is a member of the "legit" firm of Robinson, Godfrey and Phelan. He was an East Toronto councillor before that municipality was annexed. He landed in fourth place in his aldermanic run a year ago with 178 votes. He is young, unusually fluent and his campaign has been a hustling one. Mr. Phelan is a Roman Catholic and a Liberal.

It was almost a foregone conclusion that Ald. Andy McMillin would lose his seat as alderman in the first ward. Mr. McMillin, who was mayor of East Toronto at the time of annexation, was a member of the "legit" firm of Robinson, Godfrey and Phelan. He was an East Toronto councillor before that municipality was annexed. He landed in fourth place in his aldermanic run a year ago with 178 votes. He is young, unusually fluent and his campaign has been a hustling one. Mr. Phelan is a Roman Catholic and a Liberal.

tions. He belongs to the Presbyterian church.

Weston's Great Run. George Weston, the new alderman in the fourth ward, is the well-known bread manufacturer of Phoebe-street. Altho he has lived in Toronto for 42 years, he never previously sought public office. He founded his bread business 28 years ago. Mr. Weston is a Conservative and a Methodist. He is without lodge affiliations. He replaces Ald. Vaughan, retired.

Three Times and In. Twice did J. T. V. May fail to get elected in the fifth ward. This time he succeeds. He is a builder and has lived in the ward twelve years. Mr. May is proud to call himself a Tory of the old school. He is a Methodist, and has been for 25 years a member of the Orange and Masonic orders, as well as an Oddfellow. Last year he was fifth with 212 votes.

Three New Men in Six. Jesse O. McCarthy, alderman-elect in the sixth ward, is an acquisition to the debating strength of the council. He is an exceptionally fluent speaker. Mr. McCarthy is provincial manager of the Great West Life Assurance Co. His home is in South Parkdale. Mr. McCarthy, who is a Methodist, is prominent in church circles, and was active in the license reduction campaign of a year ago. It is his first aldermanic run. Ald. Adams, who vacated his seat, threw his influence in Mr. McCarthy's favor.

James A. McCausland has shown a stick-to-it-iveness which deserved success. He ran in 1908, and again in 1909, and while polling a strong vote didn't contrive to win out.

Mr. McCausland, who is a young man, is a member of the brokerage firm of Smiley, Stanley & McCausland, and his home is in Parkdale. He belongs to the Sixth Ward Conservative Association, and is well-known socially. He is a Presbyterian.

David Spence, elected alderman in the sixth ward, is a wholesale merchant. He has lived in Toronto for twenty-two years, with residence in the sixth ward during the whole period. He is a prominent Conservative, being on the executive of the Sixth Ward Association, and also a member of the Central Association of the same ward. He is an Anglican, a strong Orangeman, and a vice-president of the Irish-Protestant Benevolent Association. It is his first bid for the honors.

BOARD OF EDUCATION.

Three of the four candidates on the "Protestant slate" for the board of education were successful—Messrs. Agnew, Davis and Hodgson.

C. A. B. Brown now enters upon his twenty-eighth year as a member of the board, he having been first elected "way back in 1882. Mr. Brown took a firm stand against the "slate," and it was feared by his friends that it might weaken him, but he is still on deck.

R. R. Davis (re-elected) is one of the "slate" candidates. He entered the school board in 1897, and has had an in-and-out career on that body. Altogether, he has served eight years.

W. W. Hodgson has had previous experience, he having served on the old school board from 1892 to 1900. He is a "Protestant slate" candidate and a Conservative. Mr. Hodgson, who is 66 years of age, was born in Toronto, and has lived here all his life. For more than twenty years he has been connected with the live stock trade, and was manager of Union Stockyards, but retired within the past year.

R. G. Agnew, one of the new men, is a barrister. He figured on the "Protestant slate." Mr. Agnew has had experience on the school board of West Toronto, and should be a capable member. He is a prominent Conservative, being president of the Seventh Ward Association; is an Orangeman and a member of a number of fraternal organizations.

Dr. W. F. Bryans (re-elected) has served only two years on the board. He opposed the "slate" and his return to the board had been regarded as doubtful.

Of course, Clara Brett Martin was returned to the board, of which she has been a member since 1901. Miss Martin doesn't worry much about campaigning, trusting to the gallantry of the male electorate. Her policy of putting out the truth is evidently popular.

William Hodgson, who loses his seat on the board of education, is a veteran educationist. He served twelve years on the old high school board and was elected to the board of education two years ago. He spoke vigorously against the "slate." He traces his defeat to his influence. He is a journalist on The Globe staff.

H. E. Smallpiece, who failed of re-election to the board of education, seems to have fallen a victim to the "slate." He was elected in 1908 for the two-year term, and didn't seek re-election. He was appointed last year to fill the vacancy caused by the death of H. A. E. Kent.

well liked around the city hall and his departure will be regretted.

New Men in Ward Two. H. A. Rowland, who steps into one of the vacancies in the second ward, is a Gerrard-street druggist. Strong personal popularity has won him a place. He came to Toronto in 1894 and has since lived in the ward. He is a staunch Tory, a Mason and Oddfellow. He is an Anglican. M. Rowland should make a capable alderman.

To be elected alderman on his initial attempt is the pleasant experience of W. J. Hambly. Mr. Hambly is a financier of ability, being a director of the Eastern and Western Land Cor-

poration, Ontario and Saskatchewan Land Corporation and Darby Mines, Limited. He was born in Toronto and served on the old high school board for several years. He is prominent in Conservative circles. Altho for many years a resident in the ward, his home is now at the Beaches.

McBride Back in Three. Sam McBride, who returns to the council as an alderman in the third ward, sat for that ward previously for four years, but was defeated last year. Ald. Maguire winning third place from him by a narrow majority. Mr. McBride is a lumber merchant, a prominent horseman and a Conservative. Ill-

ness prevented him making an active campaign, but his friends stood by him loyally. The genial Sam's return will be hailed with a good deal of satisfaction.

Norman G. Heyd, who takes a seat in the third ward, is a clever young lawyer, being junior member of the firm of Heyd and Heyd. Mr. Heyd was born in Toronto, lived some years in Brantford, and returned to Toronto fifteen years ago. He studied law at Osgoode Hall, graduating in 1904. It is his first time out for aldermanic honors. He is a Liberal, belongs to McKinley L.O.L. and fraternal organiza-

Mining Market Experiences Dullness of Holiday Routine, But Prices Show Good Resiliency in General.

World Office, Saturday Evening, Jan. 1.

Speculation in the listed Cobalt mining securities during the past week has been of a decidedly holiday nature. Sentiment in connection with the market has at no time savored of enthusiasm, and transactions, save in a few exceptional cases, have been about as diminutive as possible. The participation in the dealings from day to day has been practically a nonentity, but despite this fact, securities have in nearly every instance held their own remarkably well. That the market has maintained its former levels is due entirely to the fact that, while the absorbing power has been generally weak, there has been a continuous paucity of liquidating orders in the hands of local brokers, tho it has been evident that on any appreciation in values, stock has been forthcoming in sufficient volume to check any material advance in prices.

The only exception to the above is in the case of Kerr Lake, but in this instance an outside factor has come into play and has had a distinct influence marketwise to instill a certain amount of bullish enthusiasm into followers of the stock, with the inevitable result, in a market of this kind, that the stock will respond to little that has been displayed. The announcement emanating from New York to the effect that the dividend—disbursement would be raised to 40 cents per share—has apparently been accepted in its entirety by traders, and their clients, tho it must be said official confirmation is as yet lacking. It has been the policy of this company to keep its dividend action as known in advance of the formal declaration, and since it is known that in the face of recent entirely justifiable reports has been accepted as true. The meeting of the Kerr Lake directorate will in all probability be held the third Thursday in January, altho it is possible that a dividend action be an earlier date. Meanwhile any action which may be taken has been pretty well discounted in the market, and it is highly probable that the stock will respond to little that the outcome, whatever it may be.

The strength displayed by Kerr Lake stock has been reflected in Crown Reserve which, in the rate is buoyant for some time. That this attitude is but momentary is generally believed, however, and local interests which have been distributing the stock resume their operations in this respect, the recent easy tone might once more be experienced. The

GOOD DIVIDEND YIELDS ARE STILL AVAILABLE

Toronto Brokers Point Out That Much Deposit Money is Still Awaiting Investment.

Playfair, Martens & Co., in their weekly letter, say:

At this time of year many people are on the lookout for investments. First, there is the class who do not wish to risk their money, and who favor gilt-edged bonds, bank stocks and securities which are considered safe. Second, there are the speculative investors, who are content with a respectable market rise in order to be able to purchase a prospective upward swing in prices, but who are not prepared to stand on a narrow standpoint. Third, there is the large class of casual traders and speculators who buy and sell securities in a hurry, and who do not care to take the trouble of going thoroughly into the affairs of the companies whose securities they trade, relying chiefly on the advice of their brokers to keep them from loss.

Since the date of our last letter, conditions have been about as expected, pronounced holiday dullness, with a strengthening of levels established early in the month. Underlying sentiment is distinctly optimistic, and shows a tendency to grow and develop as the end of the holiday season approaches. The money situation is regarded as being fairly satisfactory. The Bank of England shows a considerable falling off in cash reserve, but the proportion of reserves to deposits is still greater than it was at this time in 1908 and 1907. Call money in New York touched 7 per cent yesterday, but this money is justly regarded as being at a discount in money was to be expected on account of the year-end demand. It is generally held that it did not become serious in Canada, the November bank statement showed a surplus of \$20,000,000. The remarkable expansion of Canadian bank deposits this year is certainly a good indication that great expansion in business will take place in the year now before us. The amount of deposits subject to notice, \$38,000,000 at Nov. 30, which is largely made up of savings, if distributed, would allow \$3 to every man, woman and child in Canada.

This striking illustration of the prosperity of Canada opens up a most interesting field for study. The prevailing rate of interest in Canada at the present time is 7 per cent, which may be considered a good income to be derived from municipal bonds, which may be considered a safe investment. A large proportion of these deposits is made up of small savings accounts, special deposits of institutions, cash reserves, trusts, and other money, money which is not a valuable investment. A great part of the balance is money representing the savings of professional men, farmers, business men, clerks and wage-earners, and might just as well not be taking advantage of the higher income yield to be derived from safe investments.

The banks are advertising widely nowadays the advantages of saving and thrift, they are opening their offices at all hours, some cases to receive deposits, and are opening branches in every new locality exhibiting the slightest promise of business.

ALL RECORDS BROKEN FOR MINERAL PRODUCTION
United States Exports for the Year Show Record Yields of Copper.

WASHINGTON, Dec. 31.—All the records of production in this country of copper, refined lead, spelter and tungsten were broken during the year which closed to-day, according to a report of the Geological Survey. The output of blister and lake copper was 1,177,000,000 pounds, and that the consumption of copper in the United States almost completely absorbed by the market, but spelter imports broke records.

J. P. Morgan Believed to Have Secured Strong Hold.
The total outstanding common stock of the Lehigh Valley is \$40,334,800, issued in 806,698 shares of \$50 par. All told, the connecting lines held 208,000 shares of a par value of \$10,000,000. The Lehigh Valley held 10,000, the Central of New Jersey 32,000, the Erie 20,000 and the Lake Shore 114,000 shares. Reports have appeared at various times to the effect that the Lehigh Valley had been parted with in the open market or to interests closely associated with the road.

THE TREK TO PORCUPINE
Those Who Are Going In Are All Expert Prospectors.
COBALT, Jan. 2.—(Special).—It is very noticeable that a large proportion of the men who are going into Porcupine at the present time are educated with the technical training necessary to make an intelligent appreciation of the chances of the camp's making good. E. B. Decamps, who has been in nearly the rushes in northern Ontario, has been spending Christmas in Cobalt, but has now gone back to Porcupine.
"Of all intelligent," Larder Lake was the possible exception of that down to Portage Bay and West Coleman, and Porcupine is the most intelligent. By least intelligent I mean that the very great majority of those who were in the rush had not weighed the chances at all, but followed the reports of strikes blindly, with no investigation previously as to its probability of making good. On the other hand, an intelligent rush included many men who have seen specimens, weighed expert evidence for and against, and are quite able to sift the grain from the chaff in the many stories that come down from a new country. It is very remarkable also that the men with degrees and experience, practical and theoretical, that one meets on the trail. That in itself

TENDERS
Tenders will be received until noon, Wednesday, January 5th, 1910, for the clearing of present site and excavation required for the Union Bank, southeast corner Bay and King Streets. All information may be had at the office of the architects.

is a mighty good augury for the future of the camp."

Russian Professor Sentenced.
ST. PETERSBURG, Jan. 2.—Prof. Maxim Kovalevsky, a member of the Council of the Universities for the universality, was sentenced to two months' imprisonment because of an article on sanitary conditions published six months ago in the now defunct newspaper, Strana, of which he was the editor.

At Frosen Bananas, Died.
BLADON, Neb., Jan. 2.—After eating 16 bananas, John Clausen, 19 years old, became ill and died at his home here yesterday. With a number of companions, Clausen entered a restaurant. For a cash payment of five cents the proprietor offered the boys all the bananas they could eat. It is said the fruit had been frozen.

MONDAY JAN. 3, 1910

January White Sale

Corsets

D. and A. Corsets, Regularly \$1.00 a pair, Tuesday Sale Price 75c. Fine white or grey coutil, medium bust, long back, hips and front, fine steels, four wide side steels, four elastic garters, lace and ribbon. Sizes 15 to 26 inches.

JUST as Christmas time may be robbed of the Christmas spirit, so a White Goods Sale may be devoid of the essence of economy, viz., quality. When you read these items and study and compare the prices, keep this prominently in mind, the goods are Simpson quality, which means not made merely to sell, but made to give satisfaction. Third Floor, Richmond Street.

Whiteware Sale

Lengths 54, 58, 60 inches. Corset Covers, Regularly 65c Each, Tuesday Sale Price, 45c. Fine nainsook, Dorothy style, prettily trimmed with Valenciennes lace and embroidery insertions, beading, silk ribbon and frills of lace. Sizes 32 to 42 bust measure. Corset Covers, Regularly \$1.75 Each, Tuesday Sale Price, \$1.00. Beautiful all-over embroidered cross-bar lawn, run around neck with silk ribbon, lace on arms. Sizes 34 to 44 bust measure.

Five New Waist Styles--Prices Clipped for Tuesday

THE new designs that are brought out at this season from our Waist Department are as eagerly sought after by Toronto women as the new fashion sheets—they are authoritative. We have five new numbers to show on Tuesday morning, and, as they make their appearance during the Whiteware Sale, we are pricing them far below their normal value. Waist Department, Third Floor. Five new numbers in Lawn Waists at marked reductions for our Great Whiteware Sale.

- 1—Fine White Cambric Shirt, with triple hairline of black; the whole front and back of cluster tucking; box pleat front, with three very large pearl buttons; shirt sleeve, with cuff, and white linen collar. Regular \$1.95. Whiteware Sale, \$1.25. 2—A Clear White Organdy Muslin Waist, with black pin spot, graduated tucks back and front, embroidered box pleat, exceedingly small bishop sleeve, with shaped cuff, trimmed lace, insertion and tucking. Regular \$1.95. Whiteware Sale, \$1.25. 3—A Very Fine White Mull Waist; the whole front of solid tucking, cluster tucking at back, sleeves of the new bishop style, with deep shaped cuffs, lace edging and three pearl buttons. Regular \$1.95. Whiteware Sale, \$1.25. 4—A Very Handsome Waist of Hairline Check Muslin, trimmed in front with three rows of 1 1/2-inch Irish insertion, new bishop sleeve, shaped cuff, trimmed insertion and lace, group tucking at back. Regular \$2.25. Whiteware Sale, \$1.45. 5—A Very Dainty White Mull Waist, yoke back and front of several rows of Irish insertion, three rows of same down front, cluster tucking at back, new bishop sleeve, with deep shaped cuff, trimmed insertion. Regular \$2.48. Whiteware Sale, \$1.48.

Exquisite Tea Gowns at Greatly Reduced Prices

SUCH dainty Tea Gowns as these are rarely advertised — they're veritable works of art, that are worth their original price the year round. All their lovely companions went at Christmas time, and, rather than let the delicate beauty of these last few be marred by much handling in the department, we're offering them on Tuesday at the following prices:

- Artistic Tea Gown, shell pink crepe, embroidered in self shade and Val. lace. Regular \$50.00, for \$35.00. Cream Crepe Tea Gown, embroidered in gold, dull gold girdle and gupure lace. Regular \$50.00, for \$35.00. Tea Gown, of nun's veiling, trimmed with soutache braid, touches of velvet and cream soutache. Regular \$38.50, for \$19.00. Chiffon Tea Gown, trimmed with Chantilly lace and touches of cream satin. Regular \$30.00, for \$20.00.

Silks in the White Sale

TIME was when Canadian and American looms contributed most of the fabrics for our White Sale, but now France, Switzerland, China and Japan have caught the contagion, and there's nothing too good to take part in this great New Year's event. We call these four items to witness if we exaggerate:

- 1000 yards Duchesse Satin, rich, heavy quality, extra fine finish, suitable for wedding gowns, etc. Special Tuesday, 85c yard. 700 yards French Finished Habutai Silks, extra heavy quality, fine, even weave, bright, lustrous crepe de chine finish, 38 inches wide, in ivory and cream. Sold regularly at \$1.00 yard. Special Tuesday, 75c. 1000 yards French and Swiss Taffeta Silks, in white or ivory, stately qualities for dresses, slip linings, etc., chiffon or rustling finish. Regular selling price, 85c yard. Special Tuesday, 62c. 800 yards One-yard-wide Ivory Japanese Habutai Silk, first choice quality; bright, firm, even weave; extremely lustrous; note the width. Regular selling price, 50c yard. Special Tuesday, 39c.

The Houses, Hotels and Institutions of Toronto

that value their reputations should not let slip the opportunity of re-furnishing offered this month by our New Housefurnishing Club. Our fourth and fifth floors have been spoken of as the best example to be found in Canada of a high-class housefurnishing department. You now have the opportunity to purchase any merchandise on these floors at the marked price (which is a close cash one), and yet spread the payments into the future as you may arrange with the Club Secretary.

Our offer to do all re-upholstering work free, except for the price per yard of materials, means from fifteen to fifty per cent. saving on the total cost.

N. B.—As wagon loads of furniture are being brought in daily to take advantage of the offer, we cannot promise prompt delivery unless we receive your furniture before the middle of January.

Paris Fashions for Evening Wear

(Trimming Dept., Main Floor.) Novelties showing for the first time, and confined to us in Canada. The great novelty is the "Arabian Burnous," a graceful shawl-like evening wrap, thrown loosely over the shoulder, and caught at back by a large tassel; made in the new dew-drop crystal net; bound with a 3-in. strip of satin. Every new color and black, \$15.00. Everyone just returned from Europe has been amazed at the astounding popularity of the scarf as a dress accessory. These must not be confounded with the ordinary evening wrap scarf, but are things apart. We are showing the best assortment of these goods outside of London and Paris, at prices ranging from \$7.50 to as high as \$25.00, in black, white and some most gorgeous Russian effects. Colored Garnitures, in panel effects, others in Moven age, others in "Punchinello" pointed ends, in every variety of style and color, at \$7.50, \$10.50, \$14.50, \$17.50, \$20.00, \$25.00 to \$100.00. Some items now in stock: Silver and Gold Cloth, of tissue, superb Heavy Gold Cloth, Gold and Silver Fish and Tosca Nets, Dewdrop Crystal Nets, in all the pale evening shades.

Linen and Staple Department

Besides three items ready for use of which the quantities are so limited and the prices so extraordinarily attractive that they will be sold out early, this department contributes to the White Sale sheeting and longcloth for home sewers. In addition to the satisfaction and economy of home-made articles, you'll take pleasure in knowing that the market price of cotton to-day would put these fabrics far above our regular figures, to say nothing of the special sale inducements.

Important Sale of Embroideries

OUR last January record of Embroidery selling was the largest in the store's history. But large and varied as our stock was at that time, it cannot compare with the tremendous variety we have prepared for your inspection on Tuesday. We have more space at our disposal, more help at your disposal, so we've counted on selling far more embroideries, and thus have been able to offer better values.

Here we mention a few of the many features you'll find ready on Tuesday.

- 28,000 yards 17-inch Dambric Corset Cover Embroidery, embroidery work 3 inches. Per yard, 10c, 15c, 17c, 22c and 25c. 27,000 yards Cambric Edgings, 2 1/2 to 5 inches wide, also insertions, to sell at special January prices, 5c, 6c, 8c, 10c, 12 1/2c. 1870 yards Flouncings, 25 inches wide, with 12 inches of embroidery work, four patterns to choose from. Regular 30c yard. January Sale price, 23c. 8500 yards Swiss Embroidered Blouse Lengths, 25 inches wide, 22 1/2 inches long, very pretty open work designs. January Sale price, each, 25c and 29c.
