ADVISES THE POOLING OF THE WORLD CREDITS

Sir George Paish Addresses American Financiers in Effort to Save Foreign Exchange.

Philadelphia, Jan. 7.—Sir George Paish, noted British financial expert, who is in this country to make arrangements, it is said, for the extension of credit to Europe, made an appeal to the American people here last night to prevent a breakdown in foreign exchange and to extend permanent credit to Europe.

STANDING ARMY OF 300,000 FOR GREAT BRITAIN

That is Likely, Says London Mail—Cost About 70,000,000 Pounds a Year.

London, Jan. 7.—The cabinet this week will decide the size of Great Britain's future army, says the Daily Mail. Military heads believe, according to the Mail, that the minimum compatible with national safety and bringing about fulfillment of obligations of the peace treaty will total 300,000. This compares with an army of 238,000 before the war.

TEACHERS' PAY IN NOVA SCOTIA

Halifax, Jan. 7.—A recommendation asking that a minimum salary of about \$300 be fixed by the provincial government for teachers in Nova Scotia, and that all those teachers who are at present receiving less than \$600 have their salaries increased by \$100, was unanimously passed by the school inspectors and other educational authorities at a conference here yesterday.

It was suggested that funds for the increase in salaries must be raised by increasing the county individual tax from thirty-five cents to \$1. L. A. DeWolfe, director of rural science in Nova Scotia, said that there were approximately ten per cent of the schools in the province for which no teachers were to be had, and probably another ten per cent whose teachers were unlicensed. He said there had been a large exodus of teachers to western Canada last year.

AMERICANS REPORTED KILLED BY MEXICANS

Washington, D. C., Jan. 7.—Earl Bowles and S. J. Roney, Americans employed by the International Petroleum Company have been murdered by Mexicans near Fort Lobos, according to private advice received here today by Tampico.

NOTED PHYSICIAN DEAD

Sir William Osler, one of the world's foremost medical authorities, who died in Oxford, England, he was born at Bond Head, near Port Hope, Ontario, seventy years ago.

Sir William Osler, one of the world's foremost medical authorities, who died in Oxford, England, he was born at Bond Head, near Port Hope, Ontario, seventy years ago.

SPEAKING OF STRIKES

—Chapin in St. Louis Republic.

Reds' Lawyer Raises The Religious Issue

Statement in Petition to Boston Judge

Some More Sent to Deer Island—Trouble Raised by Radicals at Ellis Island—Women Chase Guards Out of Building.

(Special to Times.) Boston, Jan. 6.—A baker's dozen Reds were rounded up yesterday to join the motley crowd on Deer Island. The religious issue has been dragged into the warfare. A writ was issued by Judge Anderson to the immigration commissioner to produce Peter Frank of Lynn this afternoon, the petitioner of the latter's counsel contending that Commissioner Sackleton "is a member of the United Americans," a body composed of 5,000,000 Catholics in this country, who are banded together for the express purpose of depriving all who disagree with them of their constitutional rights of free speech, free thought, free press, free assembly, and in furtherance of this unlawful conspiracy are now persecuting citizens of the United States, as well as aliens, and to destroy all law and authority, and to dole out to a free people by way of church dispensation." Then the lawyer thinks to fortify his argument by saying that "the Reds are ardent patriots and lovers of our country in comparison with this vile organization."

Make Trouble at Ellis Island

New York, Jan. 7.—Another raid was made late yesterday on the office of the Russian paper Novy Mir. Fourteen men and one woman, who were attending a meeting of the communist labor party, were arrested. The agents also found cards on which were the names of one thousand communists throughout the United States.

IN ONTARIO THEY ARE GETTING LIQUOR IN MORE LEISURELY

Montreal, Jan. 6.—Each day since the New Year approximately 800 cases of various kinds of liquor have been shipped to Toronto. All goes by express, not to be compared with the wild rush for liquor from Toronto just prior to the order in council of April 1, 1918, but at that time there was only certain time left to get liquor into Ontario, while now-a-days there is no limit of time. Only the ten importers or agents authorized by the Quebec Prohibition law are allowed to ship into Ontario, and that only private individuals may be supplied.

WINS COUNCIL SEAT BY FLIP OF COIN

Cobalt, Ont., Jan. 7.—By the flip of a coin Malcolm Campbell will sit in the Cobalt town council this year. Yesterday he and John Ough, who were tied for sixth place on the board, made a toss for the honors and Mr. Campbell won.

Fatality at Sydney

Sydney, N. S., Jan. 7.—George Spencer, aged sixty-seven, of Glace Bay, was knocked down and fatally injured by a car load of coal in Caledonia Mines here yesterday. His skull was fractured and he died.

As Hiram Sees It

"Well," said Mr. Hiram Hornbeam to the Times reporter, "Charley Lingley got a bolt o' me las' night an' come down to that there south end skatin' rink. There I seen George Hatfield, an' Frank Olive, an' Henry Elmore, an' Al Ellis an' Johnny Kearns an' a couple o' gals holdin' a' a' a' round a big stove in a little shack. Jist outside was the rink, an' I callin' the must-been three hundred people skatin'. The' was a full moon, an' the lights was an' I tell you everybody was havin' a good time. I seen one old feller skatin' there that must-been older than me. Yes, sir, an' when Frank Olive started in to tell about bein' on the Carlton rink the first night it was ever opened, an' about the carnivals they used to hev in them days—an' Johnny Kearns an' Henry Elmore got talkin' about the times when they used to skate on the old duck-pond skatin' ten miles or an evenin' an' then ten miles back. But I was thinkin' o' somethin' else, too. I mind a year ago last spring Charley Lingley took me down there to see a dozen fellers haulin' away stones an' manure an' tearin' down a big bank an' makin' a playground. I didn't see no chance to make a play ground out o' that place—but they done it—them same fellers I seen there las' night. They took off their coats an' done it. An' then in the fall they made a skatin' rink. An' las' summer they made a better playground. An' this winter I'll say it was the fellers that got the job, yes, sir. An' if I was throwin' around dollar bills I'd send one or two right down to help that rink along. I would—by Hen'!"

TEN MINUTES LONG ENOUGH FOR JURY

Frank J. Kelly, Negro, Convicted of Murder of Girl—Verdict Brings Smile from Him.

New York, Jan. 7.—One of the swiftest murder trials in New York state ended yesterday when a jury in Brooklyn, after ten minutes of deliberation, found Frank J. Kelly, Negro, guilty of the murder of the first degree for slaying Catherine Dunn, a maid in the home of Mr. and Mrs. Clarence Sperry Clark, on Dec. 13 last. On next Friday he will be sentenced to die in the electric chair at Sing Sing prison.

GIVES \$100,000 FOR AMERICAN HISTORY PROFESSORSHIP

New York, Jan. 7.—A gift of \$100,000 from Sir George Watson, noted British manufacturer, for the establishment of a traveling professorship in American history in the various universities of the United Kingdom was announced today by Lord Glenconner at a luncheon given in his honor by the Sulgrave Institution. The purpose of the donation is to cement more firmly the ties of friendship between the United States and Great Britain.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries, R. F. Stuart, director of meteorological service.

Synoptic—Pressure is high along the Atlantic coast and over the western portion of the continent while a shallow low area is moving slowly eastward across the Great Lakes. The weather is comparatively mild over the dominion and light snow is falling in western Canada.

Oil Wells Spout and Water Wells Dry up—Many Bodies Seen Being Carried Down Swollen Rivers.

HELP TO PAY THE PATRIOTIC POTATO BILLS

Government Using Part of Balance of Special Fund

Several Business Announcements from the Province Capital of Interest to St. John.

Fredericton, Jan. 7.—By the important matters taken up by the government at this session was the appropriation of the unexpended balance of \$118,000, which was the provincial portion of the patriotic fund of \$518,000 ordered to be assessed in 1918. Of this \$118,000 the amount of \$43,733 was expended for various patriotic purposes in 1918 and 1919, thus leaving a balance of about \$74,267.

It was decided to devote this amount, when fully collected, to the payment of interests upon the \$120,000 expenditure for patriotic potatoes for which ten year bonds were issued in 1918 due and payable in 1925. In addition to the interest, this \$75,000 will provide a sinking fund for the retirement of these bonds at maturity which, while it will not pay the obligation in full, it will assist greatly toward liquidating it.

This patriotic potato expenditure, which was authorized and incurred by the former government, was bonded for payment by a future government without any provision for a sinking fund, and quite naturally the government feels that the sooner all traces of it are obliterated from the books of the province, the better.

WHOLE VILLAGE IS ENGULFED

Mexico City, Jan. 7.—One of the most tragic features of Saturday's earthquake disaster was the engulfing of the entire village of Calcuttlan, which formerly nestled in the slopes of the mountains. Its 200 inhabitants were mostly families of the rebel leaders, and followers operating in the Gulf region. Natives from that vicinity report nothing left of the hamlet except a pit filled with debris which they were unable to even approach.

Hardly secondary in tragic interest is a story that comes from San Juan Coscomatepec, where, it is said, outlaws raided the ruins of the town, driving the survivors of the earthquake into the fields and jungles. An unaccounted number of victims is still beneath the ruins. Coscutlan, a village of 2,500 residents, was left with only two buildings intact. Death came not only from crumbling homes and churches, but from carrying scores of bodies down stream, were swollen by black sulphurous waters, which swept wrecked settlements along their banks, drowning the injured and carrying scores of bodies down stream, inextricably mixed with uprooted trees, dead cattle and other debris. From a point on the Mexican railway, known as Puente Nacional, bodies of men, women and children have been seen floating down stream with no chance of being recovered or identified or even counted.

THE MOONEY CASE

San Francisco, Jan. 7.—Three indictments against Thomas J. Mooney, two against Mrs. Helen Mooney, wife of Mooney, were dismissed yesterday in the superior court. All were on charges of murder growing out of a bomb explosion during the preparedness day parade in July, 1916.

Two indictments against Mooney, three against Mrs. Mooney and three against Warren K. Billings, also serving a life sentence with Mooney, for connection with the bomb murders, still are pending in another branch of the superior court.

CHILD TO MOTHER

A case regarding the custody of a child, its mother or father, was heard in the supreme court chambers this morning before Chief Justice H. A. McKinnon. After arguments on both sides had been presented, the court ordered that the mother should have the child. The father will appeal. S. B. Bastin appeared for the mother and B. L. Gerow for the father.

ILL IN ENGLAND

Sir Adam Beck, chairman of the Ontario Hydro-Electric Commission, who is ill of pneumonia in London, England, he had gone to England to see Lady Beck, who had been taken ill.

DEATH OF TRAVELER

Word of the death of Frank Hoar, a prominent commercial traveler, well known in the maritime provinces, was received from Montreal today. It is understood that his death was sudden.

Montreal, Jan. 7.—W. F. Hoar, of Bowmanville, Ont., who represented Thomas Limited, of Montreal, in the maritime provinces, dropped dead last night while sitting conversing with some fellow employees at the residence of F. H. Quick, Oxenden avenue. Mr. Hoar was about forty-five years of age.

THE SPINNER RESCUED

Quebec, Jan. 7.—The Canadian government marine steamer the Canadian Spinner, was released this morning by the Canadian government steamer Montcalm, and is under her own steam bound for Sydney.

FRASEE HAS EYE ON FELSCH OF WHITE SOX

Wants Outfielder Who Can Hit, to Take The Place of "Babe" Ruth.

(Special to Times.) Boston, Jan. 7.—"Babe" Ruth wouldn't play ball in any city except Boston. He said so, and in less than twelve hours reneged. A contract was signed yesterday in which he agreed to join the New York Yankees, but in order to let himself down he wanted the deal put off until he could get more money than his contract with the Boston club calls for, which was \$10,000 a year for three years, only two of which remain.

How much more salary Ruth will receive will probably remain a secret, as will also the price actually paid by the New York club for his release by the Red Sox, which papers of that city say was \$125,000.

One of the first things President Frasee of Boston wishes to do now is to get a hitting right handed outfielder of experience and known ability. There is no question but that Felsch of the Chicago White Sox would come up to that description, in Frasee's opinion. He will get Felsch if he can, or some man in his class. There are other deals in view, Ruth deal and some good trading material to work with some weak spots will be fortified.

CARPENTER WANTS IT SHORT

Ten Rounds, Not More Than Fifteen—Will Then Accept Coffroth's Offer.

Paris, Jan. 7.—Descamps, manager of Georges Carpentier, wired James J. Corbett, manager of the Tijuana race track, last evening accepting the latter's terms for a championship bout between Carpentier and Dempsey.

The only exception taken was relative to the length of the battle. Carpentier being unwilling to fight over fifteen rounds and favoring ten. Corbett's offer for the championship to accept Coffroth's offer of a \$400,000 purse came after a long consultation with French promoters in which the latter expressed their inability to meet the offer of the American.

Los Angeles, Cal., Jan. 7.—James J. Corbett recently obtained an agreement from Dempsey's manager, Jack Kearns, for the championship to meet Carpentier at Tijuana, Mexico, for a purse of \$400,000.

The agreement with Carpentier's manager probably means that a meeting of the two champions will take place at Tijuana in the near future.

FATE OF WHISKEY IN WAREHOUSES IN THE STATES

Cincinnati, Jan. 7.—George F. Dettler, a Cincinnati distiller, has been authorized to appoint a committee to go to Washington to discuss with the federal officials the problem of disposing of the bonded whiskey in the United States.

This was announced at the closing of the total of 60,000,000 gallons of bonded whiskey in the United States, 35,000,000 gallons are in warehouses of Kentucky.

No way of disposing of this immense quantity of liquor, valued at hundreds of millions of dollars, has been provided by congress, except by exportation and even that will be prohibited after Jan. 16 when the federal dry amendment goes into effect.

Bulgar Government Out, Says Sofia

Copenhagen, Jan. 7.—The Bulgarian government has resigned and Socialists are trying to form a cabinet under the leadership of Dr. S. Deneff, former premier and minister of foreign affairs, according to a Sofia despatch. A semi-official statement issued at the Bulgarian capital states that a Bolshevik band attacked Premier Stamboliski, when he was returning from Belgrade, where he failed in negotiations with the Roumanians.

BADLY SCARED BY HOLD-UP MEN; RUNS AND LEAVES PROPERTY

Montreal, Jan. 7.—So greatly frightened was the victim of a hold-up in broad daylight in the centre of the city yesterday afternoon that when the police arrested two of the men involved and salvaged the stolen property, its owner was nowhere to be found. He had run away while the police were effecting the arrests, and is now wanted in order that his property may be returned to him.

What Simms Started

Washington, D. C., Jan. 6.—The senate naval affairs committee voted ten to one to authorize investigation of the controversy over awards of medals to naval officers for war service.

Sir Adam Beck, chairman of the Ontario Hydro-Electric Commission, who is ill of pneumonia in London, England, he had gone to England to see Lady Beck, who had been taken ill.

BABY IRENE.

"Baby Irene" for whose possession two women have fought in the courts for three years. An appeal has now been lodged at Osgoode Hall by Mrs. Anne L. Matters of Chicago, who says the child is her own and declares her to be heiress in her own right to a fortune of \$300,000 left by the late Frederick Matters. In a recent judgment Mr. Justice Lennox, who heard the case at Ottawa, declared the baby's mother to be Margaret Ryan, a Montreal working girl. He found that the child was born in the Misericordia Hospital, Ottawa, and left the hospital as the child of Mrs. Matters. Margaret Ryan, whom Mr. Justice Lennox declares to be the real mother of Baby Irene.

ARREST MADE  
IN THE CASE OF  
STANLEY BROWN

Cousin of Widow of Slain Man Charged with Murder—May Be Second Man Taken.

Mount Clemens, Mich., Jan. 7.—At the request of Attorney-General Greesbeck, who headed the special grand jury investigation into the slaying of J. Stanley Brown, a warrant was issued yesterday for Lloyd Prevest, cousin of Brown's widow, charging first degree murder. Prevest has been in custody without a warrant since last week.

According to the authorities there is investigation has uncovered circumstantial evidence which completely upsets Prevest's alibi. The evidence also promises, the officers said, to involve a second man later.

Details of testimony taken at the inquiry made public yesterday relate to the pistol with which the officers believe Brown was shot while in his automobile several miles from here. This testimony, it was said, was given by a woman who had overheard a conversation between Stanley Prevest, a nephew of the accused man, and two companions, and was to the effect, the officers said, that young Prevest had turned a borrowed weapon to Lloyd Prevest, at the latter's request, on the night Brown was killed. This pistol, it was said, is now in the hands of the officers.

SMOKING OF  
CIGARETTES BY  
THE FAIR SEX

Decision of New York Judge Sets Them Talking in Boston.

(Special to Times.) Boston, Jan. 7.—The decision of a New York judge that the smoking of cigarettes by women is not immoral and does not provide ground for a divorce has started a lot of comment.

The mayor's wife said, "I think smoking cigarettes is far from immoral for women. I believe that any woman has a right to smoke if she wants to, and I think the judge was right when he said that some of the most representative women throughout the world smoke cigarettes."

Miss Alice Stone Blackwell, a suffragist on the contrary, considered that smoking is a bad habit for either men or women. "And it is a little bit worse for women than for men," she said, "although I don't think it is exactly immoral."

A Cleveland pastor, Dr. Paul Revere Frothingham, of the Arlington street Unitarian church, said: "There is nothing immoral about women smoking cigarettes. I personally don't like to see it done, but a good many estimable women smoke cigarettes. It is foolish to consider it a ground for divorce."

Miss Amy Lowell, a Brookline poetess, refused to be drawn into the controversy. Rev. Dr. A. Z. Conrad, pastor of the Park street church, said: "It is no more immoral for a woman to smoke cigarettes than it is for a man to smoke them, but its mighty unwomanly."

While cigarette smoking by women has for some time been customary in most of the prominent New York hotels and restaurants, it is not permitted in Boston, except in a very few hotels.

YELLOW SUGAR  
WAS SOON TAKEN

Ottawa, Jan. 7.—(By the Canadian Press, Limited)—The recent announcement by the Canadian trade commission that there was in Canada a large quantity of yellow sugar which would be released for export unless Canadian householders and sugar consumers generally made known their wish to utilize it, had an almost instant effect. Within twenty-four hours after the publication of the Canadian Press dispatch making the announcement, all the available supply of yellow sugar had been called for.

"Mrs. Beggs, offended her husband's ear drums when she welcomed them to dinner."  
"How so?"  
"She told them it was a strictly private affair, and they're all officers."—Baltimore American.

METAGAMA BRINGS MANY PASSENGERS

The C. P. O. S. liner Metagama, which arrived here yesterday from Liverpool, had 1,122 passengers on board. Among the passengers were 100 girls, all natives of Great Britain and former members of the women's auxiliary army corps, who are coming to Canada to seek homes and employment. Many of them will proceed to Ontario and the western provinces. The party was met by Mrs. H. Lawrence and other members of the women's welcome committee. There were quite a number of children on board, the youngest being five days old, a son of Mrs. Edith M. Smith, who was born while the steamer was en route here. The mother and child were taken to the hospital where they will be cared for.

Among the passengers for this province were: J. Coule, St. John; Mrs. F. M. Folkins, 53 Simonds street, St. John; Lieutenant G. M. Hibbard, St. John; Captain J. M. Mendes, St. John; Major F. Rioux, St. John; Private Napoleon Ceto, 104th Battalion, St. John; Private William O'Keefe, 104th Battalion, Tracadie; Private John L. Smith, 20th Battalion, Elgin; Private Fred F. Folkins, pay corps, 53 Simonds street, St. John; Private Frederick T. Howard, wife and child, St. John.

For the Sick Place One Level Teaspoonful of GROVES O-PEN-TRATE SALVE in a hot saucer in the sick room. The Antiseptic Vapor rising from the heated salve circulates in the air and makes breathing easy for the patient. It induces sleep and is a great comfort to anyone suffering with Spasmodic Croup, Asthma, Bronchitis, Sore Throat, Coughs, Colds, Whooping Cough, Diphtheria or Pneumonia. The Healing Effect of the Vapor relieves the patient and is very comforting. Price 35c per box. SHE HOLDS THE JOB

Miss Minnie V. Walker, whose appointment as registrar for East and North Middlesex brought trouble to the new Deury government of Ontario. The appointment was made, the government contends, in furtherance of their policy of abolition of the patronage system.

SAYS GERMANY IS THREATENED WITH FAMINE

Berlin, Jan. 7.—Germany is heading for famine, despite reassuring statements made by the government, it declared by former Under Secretary von Braun who five years ago was directing the official national food bureau. He predicts a repetition in Germany of the tragedy which is now being enacted at Vienna and that Berlin, Dresden, Leipzig and the western industrial section will witness the same rate of mortality unless the government puts a halt to the heedlessness which now characterizes the whole food administration.

He sees relief only in the direct union of producers and consumer, as the government in his opinion is unable to solve the situation. He charges that official declarations are "mischievous" in that they are misleading abroad. "We are heading directly for an abyss which will prove the graveyard of millions, unless we turn about," is the warning he issues.

EYE STRAIN.

This is usually due to a defective formation of the eye ball, and not to a diseased condition. While glasses do not cure this defect, they correct it by restoring normal vision without strain. Eyestrain causes loss of nerve energy and physical disability. If bodily comfort is desired, together with ease in reading, glasses to correct this defect should be procured. If you are suffering from eye strain let us examine your eyes and fit you with the right kind of glasses. Why not arrange an appointment today.

D. BOYANER 111 Charlotte Street

For Further Particulars, Apply to 19 Waterloo St.

LOCAL NEWS

A still alarm was responded to last night by the chemical for a slight chimney fire in a house in City Road, owned by Mrs. B. Levine. Little damage was done.

With George A. Bustin presiding, the members of the machinists' union, at a meeting in Longshoremen's hall, decided to strike for an increase in wages to sixty-eight cents an hour. Their present scale is from thirty-five to fifty cents.

A Nova Scotia woman came to the city yesterday seeking her daughter, who had run away from home. She was found with a family of colored people under such deplorable circumstances that Police Matron Ross had her sent to the Municipal Home.

The North End fire department responded to an alarm early this morning for a slight fire in the rear of Sereinsky's grocery, 687 Main street. Smoke worked its way through the building, which is occupied by the owner, Barnett Jacobson and Julius Urdang.

The executive committee of the Commercial Club met last evening at the Union Club with C. H. Peters, first vice-president, in the chair. Plans and arrangements were discussed and these will be laid before the members at the next general meeting of the club.

Senor Andres Bonaday Ruiz has been appointed acting Cuban consul at this port. He was assistant here for about two years and a half. He enlisted in the 165th Battalion, but was discharged as being under age. For a time he was a clarinet player in the Opera House.

At a meeting of the commissioners of the St. John County Hospital, yesterday, the budget for 1920 was decided upon. It will be much the same as for last year. The commissioners will ask the county council to build a refrigerating plant, a workshop and a barn on the hospital grounds.

An unusually low tide last evening interfered with the condensing apparatus of the N. B. Power Co., and caused a suspension of the electric lighting system in parts of the city for about an hour. The lights went off just as the crowds from business were going home about six o'clock and caused much inconvenience. Candles and oil lamps were pressed into service, until the electric current was restored about seven o'clock.

Women and Cigarettes. New York, Jan. 7.—Smoking of cigarettes by women was judicially decreed yesterday as not immoral. The decision was made by Supreme Court Justice Mullen in a suit in which counsel for the husband tried to show that cigarettes had been found in the wife's dresser drawer and that this constituted evidence of "bad character."

SLEIGH DRIVE. An enjoyable sleigh drive was held last evening by the members of the Young Judaea Club. They drove as far as Torryburn and then returned to their rooms in Horsfield street, where a bounteous repast was served. Music and games were then enjoyed.

Escaped the Law

Henry Brown, charged in the police court with failing to support his wife and two children and who was remanded until today for sentence died, last evening in the Emergency Hospital.

There is a moral to the above story, and it is this:—

If you don't support your family while living, the law will compel you to do it, or send you to jail.

If you die and leave them without proper financial support, you escape the law. But what of your moral obligation?

How would your wife and children be fixed if you should die to-morrow?

Face the situation squarely. Then, if you haven't as much life assurance as you should have, write to us about it, and we'll tell you all about the best Imperial Life Policy to meet your particular need.

**FIVE AND DRUM BAND.**  
Meeting Thursday evening, 8th, Simonds street hall, to complete arrangements for social. 107344-1-9

**CLAN MACKENZIE**  
At the regular meeting of Clan Mackenzie, No. 96, Order of Scottish Clans, held in Orange Hall, German street, last evening, the installation of officers for the current year took place. The meeting was very well attended, a large number of members being present. The officers installed were as follows: Chief, Lieut-Colonel (Dr.) G. G. Corbett; tansist, S. R. Jack; chaplain, George McGeehan; secretary, Fred Z. Fowler; financial secretary, Roy H. Cameron; treasurer, John White; senior henchman, John Beech; junior henchman, Charles Murphy; steward, E. R. MacDonald; warden, Walter Chestnut; sentinel, Jas. Fraser; standardbearer, H. L. MacGowan; physician, Dr. Fred T. Dunlop.

**"LIV-RITE" CURED CARLETON WOMAN**

**Mrs. Ketch of Havelock Street Found Relief—Read What She Has to Say.**

A West St. John woman, Mrs. G. Ketch of Havelock street, has become one of the many who are using "Liv-Rite" Tonic and finding it a decided help in relieving them of various internal troubles. Her letter may be of interest to fellow sufferers:

"The Maritime Drug Co., 108 Prince William street, City:  
"Dear Sirs—I only wish I had known of your 'Liv-Rite' Tonic. I have just about finished my second box and feel ever so much better. For some time past I had been troubled with different ailments which were telling upon my system, and which I attribute to my liver not being in proper working order. I was inactive about the house, felt tired and listless, was a mopey after eating and was generally run down. Then someone recommended your 'Liv-Rite' Tonic and I tried it. I did so almost feeling that it would do me no good. Imagine my surprise and pleasure in finding after taking one box that I was beginning to feel better. I now feel convinced that it is 'Liv-Rite' which has made me so improved in health and you might please send me another box. I shall keep it in the house as a preventive."

With so many evidences being received of the good qualities possessed by "Liv-Rite" Tonic there is little hesitation in recommending it. If your druggist can't supply you send a dollar to the Maritime Drug Co., 108 Prince William street. You can get it in St. John at the following stores: Crockett-McMillan, Main and Union streets; The Ross Drug Co., King street; Short's Pharmacy, Wall street; the O'Neill Drug Co., Brussels street; Wasson's, Main street; Hazen Dick's, Charlotte street; Clinton Brown's, Waterloo street and the Moore Drug Store, Brussels street.—(Advt.)

**POLICEMEN ELECT OFFICERS.**  
The regular meeting of the Police Protective Association, No. 61, was held on Monday evening and the officers for the ensuing year were elected as follows: Harry Donahue, president; John Linton, vice-president; William Gibbs, recording secretary; Stephen Spinney, treasurer; John H. Saunders, warden; Patrick Bid- discombe, chaplain; and R. Hogg, guard. A strong committee of ten was appointed to look after arrangements for ice sports which will be held in the near future. The financial statement showed that the association was flourishing and in a much better condition than it was at this time last year. Regular routine business was also transacted.

**Doctors Recommend Bon-Opto for the Eyes**  
Physicians and eye specialists prescribe Bon-Opto as a safe home remedy in the treatment of eye troubles and to strengthen eyesight. Sold under money refund guarantee by all druggists.

**STEWART TRUCK NOW REPRESENTED HERE**

McGrath Harris Co., Ltd., Have Secured Agency and Look For Big Business.

The famous Stewart Motor Truck is now represented in St. John by McGrath Harris Co., Limited, 60 Cliff street, and this firm are now expecting a number of the trucks for local use.

Both Mr. McGrath and Mr. Harris are practical mechanics and searched the market for their ideal of a motor truck and feel they have found it in the Stewart.

"The Stewart has from 300 to 700 less parts than other motor trucks, thus eliminating weight," said Mr. McGrath, "and this feature also precludes the possibility of mishap in operation as the Stewart is practically 'fool proof'."

It is interesting to learn that during the reconstruction period in connection with Halifax disaster, two two-ton Stewarts worked steadily for eight months without a visit to the repair shop.

**"SYRUP OF FIGS" CHILD'S LAXATIVE**

Look at Tongue! Remove Poisons From Stomach, Liver and Bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. **Mother! You must say "California."**

**A DAILY ECONOMY.**  
The use of "Sweet Nut" Margarine is a substantial thrift saving every day in the year. At 41c a lb, this delicious dairy luxury has already replaced the butter in thousands of homes. Made of pasteurized milk and the crispy white meat of coconuts. For sale by E. Roy Robertson, 11 Douglas Ave.; H. C. Robertson, 141 Waterloo street; F. E. Williams & Co., Ltd., corner Charlotte and Princess streets, and Forestall Bros., corner Millidge and Rockland Road.

**LINE-UP OF THE NEW COUNCIL IN WINNIPEG**

Winnipeg, Jan. 7.—Winnipeg's 1920 city council was lined up yesterday, all standing committees being appointed. Labor men have a majority on the fire and light committee, health committee and legislation committee. Non-labor men have a majority on the finance, works, market, health and transportation committees. Labor men have twenty-six committee representatives and non-labor men twenty-eight.

**IMMODEST DANCES UNDER BAN.**  
Paris, Jan. 7.—The official organ of the Catholic Church publishes the following: "In order to put an end to uncertainty with regard to unsuitable dancing prohibited by its recent warning, Cardinal Amette, Archbishop of Paris, declares he intends to prohibit absolutely such dances as the tango and fox trot, although certain persons believe they are able to dance them decorously. His Eminence congratulates the women and young girls who have hastened to conform with his instructions."

**Bargains in Stock**  
Won't interest the man who is nursing a bunch of sore corns. Give him a bottle of Putnam's Corn Extractor. It is painless, takes out the corn, cures in one day. Beware of substitutes for "Putnam's," it is the best, 25c. at all dealers.

**POLICE COURT.**  
The case of Samuel Clifford, turnkey in the county jail, charged by Policeman Thomas with profanity and obstructing him in his duties, was dismissed in the police court yesterday afternoon. A hearing will be given today in a counter charge which Clifford is laying against Thomas, of using his baton with intent to do bodily harm. The charge of selling adulterated cattle, preferred against Stren Bros., was also dismissed.

**PLAN TO GET ALL POSSIBLE IN THE FEDERAL HOUSE**

**Farmers Resolve to Go Full Strength Into Elections**

**Resolutions Adopted in Winnipeg Set This Out and Name Their Platform "The New National Policy."**

Winnipeg, Jan. 7.—(By The Canadian Press Limited)—The all day conference of representatives of farmers' organizations in the prairie provinces and the east, called to complete plans for action in federal politics, concluded its business here last night by deciding that the organizations should continue on provincial lines, the different units being united on the new national policy.

This policy as set out in the resolution adopted, appeals for support to all classes in the community who believe in the principles it lays down. The conference did not discuss the question of action in provincial politics.

Neither was the subject of alliance with labor broached further than the call to all parties believing in it to aid the success of the new national policy.

The following final resolution embraced the result of the full deliberations:

Whereas, the cause of better government in Canada has been ever a principal consideration in the work and aspiration of the organized farmers' movement in all the provinces of the Dominion; and

Whereas, this cause has been the dominating feature of our work as organized farmers during the past twelve months; and

Whereas, the need of continued action to bring into effect the reforms recommended by the farmers' platform, which has been promulgated by the Canadian Council of Agriculture, is most urgently considered from the broadest national point of view; and

Whereas, this platform, which has been described as a new national policy for Canada, is based upon the principle of the greatest good to the greatest number of people living in the Dominion, without in any sense a demand for special legislation to benefit the few at the expense of the many; therefore, be it

Resolved, that we, the members of the Canadian Council of Agriculture, in conference with the accredited delegates of the federal electoral districts of Alberta, Saskatchewan and Manitoba, and the representatives of the rural districts of Ontario, here assembled in the city of Winnipeg on this day, Jan. 5, 1920, do declare our intention of electing as many representatives as possible to the house of commons at the next general election, who will endeavor to bring the farmers' platform into effect, and to this end invite the support and assistance of all citizens who believe in the principle enunciated in this platform.

Whereas, the political platform advocated by the organized farmers is in essence a vocational class platform; and

Whereas, it is the hope of those advocating this platform that those of all classes who believe in the principles enunciated in it will support candidates at the next federal election who will have been pledged to its support; therefore be it

Resolved, that this platform shall be known in future as the new national policy.

The Evening Times and Star

ST. JOHN, N. B., JANUARY 7, 1920

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE LIBERAL LEADER.

Hon. W. L. MacKenzie King announced last evening at Newmarket, Ontario, that the platform adopted by the Liberal convention at Ottawa would be his chart in expounding the policy of the Liberal party.

These words, the Oxford writer points out, "might have been written in 1917 when America was preparing to join the Allies against the encroaching despotism of the Hohenzollerns, and he adds:—

"Such were the words of the great President and such is the earnest desire of all sober-minded Englishmen today. For never was there a time when there was more cause to hope that the English-speaking fellowship might become a reality, and that the torch that Jefferson lit might still shine brightly, a guiding light through the chaos of the world."

There was no Dominion of Canada when Jefferson wrote, but now there is a virile nation here in the north to make still more powerful and powerful the fellowship so essential to the welfare of the world.

The "NEW NATIONAL POLICY." The New National Policy is the title given by the farmers to their political platform. This was decided yesterday at Winnipeg by farmers' representatives from four provinces. It was also decided to elect as many representatives as possible to parliament, to bring the policy into effect.

AN APPEAL TO JEFFERSON. In a plea for an English-speaking fellowship, Mr. Beverly Nichols, editor of the Oxford (England) Outlook, deprecates the harsh criticism of his country by Mr. O. F. Hershey, in a speech delivered before the Maryland State Bar Association after a tour of Europe.

MORE LYING DOWN WE DO THE TALLER WE BECOME (Tit-Bits) How many people are aware that when they are shorter when standing than when lying and taller in the morning than in the evening.

When George Bernard Shaw produced his play, "Androcles," the house rose at the fall of the curtain and the author was brought on the stage to bow to the storm of applause. A solitary man in the gallery shouted, "I call it rot."

SARCOPHAGI IN THE RHONE. An ancient story of the greed of kings has been resurrected by an erudite member of the Institut de France, Adrien Blanchet. The fact is there is some prescriptive work on hand for the utilization of the Rhone water power.

Rippling Rhymes by Walt Mason. (Copyright by Geo. Matthew Adams.)

IN OUTER DARKNESS.

We might as well be reconciled to Vital Truths, my fellow men; Old Booze is dead, and protests will not bring him from the dump again.

CANADA—EAST AND WEST

Domination Happenings of Other Days

THE BONSECOURS CHURCH.

Coming into the port of Montreal every tourist sees high above the harbor a great golden angel standing on the top of the spire of the old Bonsecours church.

It stands at the corner of Victor and St. Paul streets, a stone's throw from the famous old Bonsecours market, where the noise and bustle of modern life is incessant.

THE DEAR OLD FARM. (By M. Whelan.) Air: "Comin Thro' the Rye." When the spire is sweetly flowing From the maple tree, And the golden sunshine glowing On the snow we see.

With the golden sunlight's splendor On the fields and hills, And the moonlight, creamy, tender, On the streams and rills, Lovers then may gaily wander, Walking arm in arm, Poes' romances, then may ponder On the dear old farm.

With the harvest song, Farmers golden sheaves are bringing, Prices soaring strong, When the winter winds are blowing All within is warm, By the blessed home fires glowing, On the dear old farm, New Year's, 1920.

LIGHTER VEIN.

A Boston man who was passing the night at a hotel in a Southern town told the porter he wanted to be called early in the morning.

"See you ever by your typewriter ribbons at the stores?" asked the absent-minded reply, "but I bought her some cakes there yesterday."

"Are you sure," an anxious patient once asked, "are you sure that I shall recover? I have heard that doctors have sometimes given wrong diagnoses and treated a patient for pneumonia who afterward died of typhoid fever."

He was an optimistic soul and a sportsman and his acquaintances, whom he infected with enthusiasm, followed his tips blindly, with more often than not disastrous results.

THE GLORY OF "THE SALIENT"

(Canada.)

It was appropriate that the first semi-official illustrated lecture to be delivered in the field of the Ypres Salient, should be given by a Canadian.

Colonel Beckles Willson gave the first of his lectures on this subject at the Centennial Exhibition, held in Ypres, Monday afternoon, under the auspices of the Gaumont Film Co., Ltd.

Colonel Beckles Willson outlined some of the military details of the battles of the Salient—the encircling which went on, with little intermission, from the commencement of the first battle in October, 1914, until the very end of the war.

BRITANNIC UNDERWATERS AGENCY Fire and Automobile Insurance F. LLOYD CAMPBELL 42 PRINCESS ST. 6-30

JAPANESE DIVERS MOST SKILLFUL IN THE WORLD. There is, at any rate, one post-war action in which Britons have to take a back seat.

That is as deep-sea divers in the work of salvaging vessels which have been sunk by mine or torpedo.

It is here that the Jap shows his superiority. The Japanese diver can descend to a greater depth than the British diver, and what is more, he will remain longer under the water without apparent injury to health.

This is not mere boasting claim by the Japanese themselves; it is the useful but truthful admission of an expert with a long association with marine salvage work.

Unexpected danger often confronts the deep-sea diver who has located a wreck which has been sent to the bottom by torpedo.

AGAINST PROFANITY. (St. Croix Courier.) One day last week we heard the proprietor of a barber shop in St. Stephen say to the men in his shop something like this: "It somebody will supply me with printed notices of 'The Holy Name Society' I will display them in my shop and after January first I will endeavor to enforce their observance."

DIAMONDS IN SOUTH AFRICA. Diamonds are not as important to the welfare of mankind as sugar, and the likelihood of a rise in the price affects a small proportion of the population, to whom, after all, diamonds are not so essential that the rest of the world feels any appreciable sympathetic apprehension.

GETTING GOLD OUT OF AUSTRALIA. Australia forbids the export of gold without a license, and the Chinese who go back to their consular office in a visit show considerable ingenuity in taking away the coveted sovereign. Recently customs inspectors made a rich haul in a raising jar, the back of a shaving mirror, an alarm clock, and the leather band of a hat.

## Distinction

Unusual brilliance is promised by the social season now at hand.

For the Dance, Opera and all Social events whether formal or informal, one's slippers should be carefully chosen.

## THE RECKONING OF GERMANY

State Finances in First Year of Peace — Tremendous Burdens Imposed by War and Reparations — Conditions on Which Recovery Can Be Predicted.

(Special Correspondence of N. Y. Evening Post)

Frankfort-on-Main, Nov. 29.—The enormous debts weighing on Germany as a result of the war are composed, without counting the provision to be made for those injured by the war, of two parts. One part, the so-called compensation according to the Treaty of Peace, and the interest and amortization of the relatively trifling foreign debt contracted since the beginning of the war, consists mainly in valdes which must be created by the people in order to be handed over to foreign creditors and therefore ultimately disappear from the German public wealth.

The other part, consisting of the domestic debts raised to cover the necessities of war, does not bring up the question of producing values but represents the value of the goods used during the war, to be divided properly among the people. The greatest and most important task is the sanitation of the German finances by a system of taxation resting upon property and income as never before. This task had to be settled quickly, so that nobody may picture how the recovery of our finances is feasible.

Some Official Figures.

In a review of Germany's financial position Dr. Dernburg, the former minister of finance, gives the following figures: Expenses of war up to end of 1918, one hundred and forty-five billion marks; expended to the end of the present year, one hundred and eighty-five billion marks; this alone means an annual amount of nine and one-quarter billions to cover the interest. Further expenditure of the republic has been eight billions, and necessities of the confederated states six billions, so that a total amount of twenty-four billion marks presses down upon the German national economy.

That means the taxpayers. This is one side of the picture of the present state of German affairs; the other side shows the following figures: Besides the national debt, there are not only virtual but also raw materials; shows the transformation of the stores into means of payment and claims against the government with the result that besides the many billions of the war debt, more than twenty-six and one-half billion marks of banknotes and eleven billions of treasury bills are in circulation.

According to another statement taken from reliable sources, Germany has to figure, without the sum asked in Versailles, with a public debt of about one hundred and sixty billion marks; that means in our diminished country 4,000 to 5,000 marks a head, in other words, ten times as much as in 1914.

The Indemnity. Really dreadful figures! To this enormous sum comes in addition the so far undetermined war indemnity which the Allies intend to place upon the unhappy German people. Thus Germany is left in uncertainty as to her future financial and economical programme, and may only suspect a gloomy future. Every German feels certain that tremendous sacrifices must be made and that they only can be made if the Allies offer a chance to do so. If the imposed burdens suffocate the German people, the victor will have the largest loss.

One of the most famous Frenchmen, Mirabeau, writes somewhere: "The day on which a people ceases to be free is a day of mourning for all mankind." This sentence will come true for Germany, whose people, oppressed by adversity, fell into an irremediable apathy, which must lead to a crisis if help from outside is refused.

If the states and communities are expected to recover, the economical body must itself receive strength and vigor and, furthermore, must not be packed with taxes for foreign countries which exceed the three-quarters of the amount above given, and only then if severely nourishing, lack of raw materials, demoralization and

## Vocational Committee Making Good Progress

At a meeting of the vocational committee held last evening in the school board room, much further business in connection with the opening of the vocational classes in the city next week was transacted. The subject of knitting was added to the course. G. P. Hennessy, convener of the industrial course, was unable to present a report of his branch, but a meeting will be held in the future and the details will then be available. Mrs. Raymond, of the home economics committee, recommended Miss Alward and Miss L. Harrison as head and assistant instructresses in dress-making, and Miss Murphy and Miss Carleton as head and assistant instructresses in millinery; Miss Gladys as instructress in knitting. These appointments were confirmed. The classes are opened to men and women and are not limited to scholars of the public schools. It is free to all. W. E. Whitney, formerly director and organizer of the Holyoke, Mass., vocational school, was recommended as director of vocational education in St. John, by Fletcher Peacock, director of vocational education for the province.

There were present at the meeting the chairman, Dr. A. F. Emery; Mrs. Richardson; Mrs. W. Edmond Raymond; Alexander Wilson, T. Nagle, J. D. P. Lewis and secretary, A. Gordon Leavitt.

## SCIENCE GAINING IN ATTACK ON CANCER.

Dr. Flexner Also Reports Dr. Noguchi Working on Yellow Fever Serum.

St. Louis, Mo., Jan. 6.—Science has not discovered a preventive of epidemic diseases, but a serum is being formulated that may eradicate yellow fever, according to delegates attending the convention of the American Association for the Advancement of Science, in session here. Delegates warned against influenza, spinal meningitis, and infantile paralysis. These diseases have not been wiped out, but are having "a recess," delegates asserted. Dr. Simon Flexner of the Rockefeller Institute for Medical Research, president of the association, explained that scientists were progressing in their fight on cancer, saying that medical research was gradually getting into a position of strategic superiority "in its attack on this malady." "It seems possible that yellow fever may be the first disease to be eradicated," he continued. "It is insect borne by a particular kind of mosquito. Dr. Noguchi, a Japanese scientist, is working on a serum that may rid the human race of this affliction."

## OLD WOOL DRESS NOW WORTH \$50

"Diamond Dyes" Turn Faded, Shabby Apparel into New.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings.

The Diamond Book with each package tells so plainly how to diamond dye over any color that you can not make a mistake. To match any material, have druggists show you "Diamond Dyes" Color Card.

"What is an idealist?" "Usually he is a man, my boy, who has high notions of what the other fellow ought to do."—Detroit Free Press.

## unwillingness to work have been

gone 30,000 plants, employing 800,000 workers, were razed by gun-fire, looted or badly disorganized. Officials consider the work done during the last year as creditable since the period between Nov. 11, when the armistice was signed, and the first of March, was occupied in getting ready for operations in such a way as to concentrate the bottom and build railways, houses and storage places for food and supplies, and to build roads capable of bearing motor vehicles before actual work on rehabilitating the country could begin. It was necessary, in addition, to aid all the sufferers in the war zone at one instead of concentrating efforts in one district. Energetic manufacturers, however, frequently were able to obtain results by co-ordinating their efforts with those of the government, their energy being an asset which enabled them to obtain advantages in the shipment of machinery and raw materials. There has been a notable increase in the resumption of plants, especially those turning out textiles, during the past few weeks, but it is estimated it will take three years for the majority of the principal trades such as glass-making, wood-working and sugar refining to resume production on a normal scale. Large mechanical plants such as the locomotive

## MANY FRENCH MILLS IN NORTH RESUME

Lille, Jan. 6.—Production has been resumed in about one-half the factories of Northern France, where the outbreak of the war paralyzed industry and where battles raged for four years. Of this number, however, about 13 per cent would be done in one month. Figures examined by the correspondent of The Associated Press show that in this re-

## ABOUT RHEUMATISM

What Thousands Have Found Gives Relief From This Painful Trouble.

Rheumatism is a constitutional disease, manifesting itself in local aches and pains, inflamed joints and stiff muscles. It cannot be cured by local or external applications. It must have constitutional treatment. Take a course of the great blood-purifying and tonic medicine, Hood's Sarsaparilla, which corrects the acid condition of the blood on which rheumatism depends and gives permanent relief. This medicine combines, with excellent alternatives and tonics, what is generally conceded to be the most efficient agent in the treatment of this disease. If a cathartic or laxative is needed take Hood's Pills. Purely vegetable.

## Quick, Harmless Way to Remove Wrinkles

This season brings wrinkles to many sensitive skins that are much exposed to winds and changing temperatures. To make an effective wrinkle remover, mix an ounce of powdered saxolite and a half pint of witch hazel. Bathe the face in the solution—immediately every wrinkle is affected. It acts wonderfully on sagging facial muscles, also, the lotion possessing remarkable astringent and tonic properties. Use it once a day for a while and see how it will improve your facial contour. This simple lotion cannot harm the most delicate skin. The treatment itself leaves no trace—no one guesses the secret of your increasing youthful appearance. But be sure to ask the druggist for the powdered saxolite.

## HORLICK'S THE ORIGINAL MALTED MILK

Avoid Imitations & Substitutes

works at Valenciennes and the companies about Lens will be under a handling for a longer time, and it is believed ten years must elapse before full speed ahead will be possible. Machinery and equipment weighing about 250,000 tons have been returned from Germany, and the French government has advanced to industrial firms credits totalling approximately 8,000,000 francs. This sum will be applied against damages estimated in the Chamber of Deputies to amount to 50,000,000,000 francs. It is generally admitted the industries receiving immediate aid have been those most essential to the rehabilitation of France, houses being constructed or repaired to shelter factory workers before ordinary dwellings received attention. In the matter of public utilities, individuals have fared best. Factories have been forced to close because of lack of gas or electricity, but private houses have been supplied.

## LOAD OF WHISKEY AFIRE

Toronto, Jan. 7.—Over forty cases of whiskey which arrived in the Canadian National Railway's yards here on Saturday afternoon were badly damaged by fire. A cartload of booze took fire a little before the train entered the city, but all was salvaged except the forty cases. The shipment consisted of Canadian and Scotch whiskey.

## RECENT DEATHS

The death of Lawrence Price took place at his home in Hartfield, Dec. 29, at the age of eighty-eight years. He has been ill for nearly two years as a result of a partial stroke of paralysis and during that time he has slept or seemed to sleep. He leaves his wife, two sons and two daughters.

Mrs. George W. Manning passed away at her home in Sussex yesterday after a short illness, caused from paralysis, at the age of sixty-five years. She leaves her husband and two sons.

The death of Professor Ebenezer Mackay, Ph. D., took place at the Halifax Infirmary last night, at the age of fifty-six years. He occupied the chair of chemistry and mineralogy in Dalhousie University for many years and also played an active part in the life of the community.

George A. Tingley died at his home, Leger's Corner, yesterday at the age of fifty-eight years. He was twice married. Three sons and one daughter survives. He leaves his wife and one daughter.

Joseph Brewster passed away at his home in Harvey, Sunday, after a short illness. He leaves besides his wife, three sons, including Captain Charles Brewster, and three daughters.

John G. Muse of this city, was drowned December 4 off Liscomb, N. S., being pitched overboard from the tail of the fishing schooner Reading.

## IRISH EVANGELIST COMING!

TO THE MANY WHO HAVE STOOD THE STRAIN OF THE WAR—

and the stress of these terrible times and are looking for rest, consolation, peace of mind and soul and to the untired young

AN OPPORTUNITY IS GIVEN NOW at the Revival Services of the Methodist community, commencing MONDAY, JANUARY 12, 1920, IN CENTENARY CHURCH.

THE LEADER WILL BE THE CELEBRATED IRISH SOLDIER

EVANGELIST DIXON OF BELFAST

Miss Dixon, daughter of the Evangelist, soloist, assisted by massed choir.

Come all ye souls by sin oppress, Ye restless wanderers after rest, Ye poor, and maimed, and halt, Return, ye weary wanderers, home, In Christ a hearty welcome find. —Charles Wesley.

Come to the living waters, come! Sinners, obey your Maker's call; Return, ye weary wanderers, home, And find my Grace is free to all.

See from the rock a fountain rise! For you in healing streams it rolls; Money ye need not bring, nor price, Ye laboring, burdened, sin-sick souls. —John Wesley.

THESE SERVICES are in charge of the ministers of Queen Square, Centenary, Exmouth, Garmarthen and Zion churches.

WILL THE READER make this Humble Prayer? Our Heavenly Father, grant Thy Blessing to this great undertaking, for without Thee we can do nothing. Be strong to help Thy servants that many souls may be saved, through Jesus Christ our Lord. Amen.

PLAN YOUR AFFAIRS TO BE FREE TO ATTEND THESE REVIVAL SERVICES

### DODGE APPEALS FOR NEAR EAST

Tells of the Conditions in Stricken Lands—Asks Aid for Orphans of Armenia and Syria and Funds for Reparation.

(New York Evening Post.)  
"The burden of an entire land sunk to the lowest level of despair; the cries of many widows and little children; the weals of thousands of little boys and girls crying from hunger by the roadside; the appeal of a host of orphans who are in the balance between decency and vice; such is the challenge of the Near East today," says Bayard Dodge, one of the active workers in the Near East Relief, formerly the American Committee for Armenian and Syrian Relief. Mr. Dodge is the son of Cleveland H. Dodge, of New York, recently back from months of work in the Near East. "There are thousands of widows with underfed children to rear," continued Mr. Dodge. "There are tens of thousands of orphans and half-orphans. The burden of the Near East Relief is the saving of these orphans. They stand on the threshold of life or rather at the entrance of two lives; that of noble use-

fulness or that of hopeless crime. "Even the schools and colleges will be of little avail unless the masses of the people, and especially the indigent children, can be started right in life again. No settled governments are in control. All turn to America for help. The Near East Relief is maintaining 500 workers and many hospitals and industrial centres are in operation, but this is only a small part of the work that must be done."

While Mr. Dodge, from first hand study, says the work of ministering to the sick and starving must go on, he is convinced the next greatest need of the Near East is education. For years the commercial, industrial and farming pursuits of these people have been demoralized by war, massacres, and deportations. Now industrial and technical training is needed, while medicine, law, engineering and other professions must be taught.

"There is the great problem of repatriation of the hundreds of thousands of these people who were driven from their homes," continued Mr. Dodge. "They are returning to find their homes and farms ruined, their shops and business gone, the fruits of their industry and thrift for generations wiped out and themselves penniless. In thousands of families the wage-earners have been killed and the widows and orphans must fend for themselves. "Among the first great questions is repatriation, the recovery of thousands of girls and young women from Moslem harems and the aiding of families to become self-supporting."

"It is not only the Armenians we must help. During the war the Syrian Christians suffered heavily at the hands of the Turks. On the sunny slopes of Mount Lebanon the funeral bells were forever

olling. Many a wife buried her husband and then attempted to keep her children alive by picking grass along the roadside or begging from door to door. "Today these people are absolutely poverty stricken. To buy the scantiest bit of food they have sold their furniture, their clothing, their bedding, even their cooking utensils. Their land is gone, their farming tools and animals also, and they are bare of even the absolute necessities of life."

"The Greeks along the coast of Asia Minor also are in desperate straits. Exposed to the revenge of the Turks at the first opportunity and the majority of them beggared by the war, their condition is pitiable."

"All through the Near East hundreds of thousands must be given clothing and food if they are to live through the winter. Other thousands, nursed back to health after years of starvation, must be given work. Clothing and raw materials for industry are a necessity. Farms must be re-established. "To maintain this work means generosity. The call is made to generous America in the appeal which is to be made by Near East Relief in the period Feb. 1 to Feb. 12 inclusive."

**WHALE KIDNAPPED IN ARCTIC BY SEAL**  
Man, Tangled in Harpoon Rope, Dragged Till "Catch" Dies.

London, Jan. 4.—Herman T. Stocker, a whaler, has returned to Leith from Arctic seas.

"Last spring," he says, "we were cruising about to the north of Canada, in Baffin Bay, between Greenland and Baffin Land, a shoal of large whales were seen 'spouting' and following for a considerable distance, the route of the northwest passage."

Maps and charts of portions of Victoria Land were made this summer by Arctic Explorer Making His Way from Victoria Land to Hudson's Bay.

Seattle, Jan. 7.—On his way out of the Arctic, Harold Noice, American explorer, is making his way, on foot, with a dog team, overland from Victoria Land, which lies in the Arctic Ocean, south-east to Port Nelson, in the Hudson's Bay country of Canada, according to letters received here by his mother from him. Noice is following for a considerable distance, the route of the northwest passage.

### HIT BY POLICE CAR; IS DYING

James F. Webber, aged sixty-seven, living at 75 Pearl avenue, Revere, is dying at the East Boston Relief Station of multiple injuries received New Year's Day, when he was knocked down by the police patrol of Station 7, East Boston.

This information, which leaked out in spite of the efforts of the police to hide the real facts, in accordance with the general order of Police Commissioner Edward U. Curtis, was brought to the attention of the newspapers by the relatives of the injured man and the facts were corroborated at the hospital.

Webber, who is employed as a storekeeper for the Boston & Albany Railroad, was on his way to work New Year's morning, at 6:30, when he was run down and injured by the fast-speeding auto patrol at the corner of Howe and Porter streets, East Boston.

The machine, it is alleged, did not stop, but sped away in the direction of Day square. A milkman who happened along later, found Webber's unconscious form in the gutter and carried him to the hospital where his name was placed on the dangerous list. Since his entrance to the institution Webber recovered consciousness once. Relatives are at his bedside continually.

### Dr. S. H. McDonald Heads Fourth Degree Assembly, K. of C.

At the annual meeting of St. John Assembly, 937, fourth degree, Knights of Columbus, in the rooms of the local council in Coburg street, last evening, officers were elected for the ensuing year and plans in connection with the assembly discussed. The officers elected are:

Dr. S. H. McDonald, F. N.; J. E. Quinn, F. C.; C. A. Owens, F. A.; F. J. McDonald, F. P.; P. J. Fitzpatrick, F. Comp.; J. L. McManus, F. I. S.; E. Haney, F. O. S.; Rev. Wm. Duke, F. P. W. J. Mahoney, master of the fourth degree for this jurisdiction, announced that there would be an exemplification of the degree in Moncton on January 22. Many members will go from St. John and other parts of the province to attend.

**BIGGEST OF AZTEC PYRAMIDS FOUND NEAR MEXICO CITY.**

Mexico City, Jan. 7.—Discovery at Teotihuacan of a third pyramid, larger than those of the sun and moon, which have long puzzled archaeologists and rival those of Egypt, is announced here.

Experts believe that in the new pyramid may be found relics which will be invaluable in the study of the age of the Toltecs.

Archaeologists have for many decades been interested in the two great pyramids located at Teotihuacan, a town twenty-seven miles northeast of Mexico City, the name of which means "City of the Gods," in the Aztec tongue. Their origin is buried in the remote past, and confused legends and traditions concerning them throw little light on their history. They were used as burial places, and in many ways resemble the pyramids of Egypt in their geometric lines.

**ELSIE JANIS ILL.**

(New York Times.)  
Elsie Janis, whose illness made necessary postponement to a Sunday late in the month of a performance she was to have given for the American Legion, was said at her home in Tarrytown last night to be suffering from nervous strain induced by overwork. She will appear at the George M. Cohan Theatre tonight with her soldier show, but will end her engagement in two weeks and take a rest.

Miss Janis broke down after the performance Friday night, and played twice Saturday with a physician in the wings.

It was at the suggestion of the Legion, her mother said, that last night's performance, at which ex-President Taft was to have spoken, was postponed.

After a rest Miss Janis will tour for a time and then appear in a revue in London.

**USING THE EARTH'S HOT WATER**

People in the western part of America who have to buy coal and oil for heating at constantly higher prices, naturally look somewhat longingly at the great hot springs in their vicinities. These hot springs appear in a broad path that stretches diagonally across several states, from such places as the meadows above the Yosemite, through Nevada, and taking in the Yellowstone Park in Wyoming. The great Constock mines at Virginia City, Nevada, have always been very hot, and even today the lower levels are filled with steaming water that would be sufficient to heat every building in a town of considerable size, if engineering ingenuity could devise the way to carry it to the near-by towns. Water boiling, bubbling, and bursting to the surface in miniature craters and geysers, is one of the curiosities of the western states. Even today a number of farmers have running hot-water and some few are heated, from this underground supply.

### ST. JOHN VOCATIONAL SCHOOLS

COMMITTEE—Dr. A. F. Emery, Chairman, A. Gordon Leavitt, Secretary, Mrs. W. Edmond Raymond, Mrs. Richard O'Brien, Alexander Wilson, J. D. P. Lewis, George P. Hennessy, Thomas Nagle.

Will give you a chance to get FREE training in the following:  
**FOR WOMEN AND GIRLS**  
(Tuesday and Friday Evenings)  
7.45 to 9.45  
Beginning Tuesday, January 13.

**DRY-MAKING MILLINERY DOMESTIC SCIENCE**  
FOR MEN AND BOYS  
(Evenings Yet to be Decided.)

**APPLIED MATHEMATICS ESTIMATING FOR BUILDERS ARCHITECTURAL DRAWING MACHINE DRAWING SKETCHING AND READING BLUE PRINTS SHEET METAL PATTERN DRAFTING LETTERING COURSE, INCLUDING SHOW CARD WRITING SIGN PAINTING**

**ELEMENTARY COURSE IN THEORY OF ELECTRICITY COURSE IN ELECTRIC WIRING COURSE IN ELEMENTARY MOTOR MECHANICS COURSE IN THEORETICAL AND PRACTICAL CHEMISTRY**

**ENROLLMENT**  
Any one interested in the above subjects and who desires to take a course may register Friday, Saturday and Monday, January 9, 10 and 12, at School Trustees' Office, 1 Hazen Ave. All courses are FREE but a registration fee of \$2 will be collected for each course, to be returned if the student attends the classes satisfactorily.

## THIN, NERVOUS PEOPLE NEED BITRO-PHOSPHATE

What It Is and How It Increases Weight, Strength and Nerve Force In Two Weeks' Time In Many Instances

SHOULD BE PRESCRIBED BY EVERY DOCTOR AND USED IN EVERY HOSPITAL Says Editor of "Physicians' Who's Who."

Take plain bitro-phosphate is the advice of physicians to thin, delicate, nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing. Clinical tests made in St. Catherine's Hospital, N. Y. C., showed that two patients gained in weight 23 and 27 pounds, respectively, through the administration of this organic phosphate; both patients claim they have not felt as strong and well for the past twelve years. This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright and pale cheeks glow with the bloom of perfect health. Physicians and hospitals everywhere are now recognizing its merits by its use in ever increasing quantities. Frederick Koller, M. D., editor of New York Physicians' "Who's Who," says: "Bitro-phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood."

Joseph D. Harrigan, Former Visiting Specialist to North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anemic, or run-down, take a natural, unadulterated substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance."

Bitro-phosphate is made entirely of the organic phosphate compound referred to in the National Standard Dispensary as being an excellent tonic and nerve and a preparation which has recently acquired considerable reputation in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance is beyond question, for every Bitro-phosphate tablet is manufactured in strict accordance with the U. S. Pharmacopoeia test requirements. Bitro-phosphate is therefore not a patent medicine and should not be confused with any of the secret nostrums, so-called tonics or widely advertised "cure-alls."

**CAUTION.**—Although Bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, owing to its remarkable flesh-growing properties, it should not be used by anyone who does not desire to put on flesh.

Factors in the Outlook

Boston, Jan. 6.—As the year begins, the main facts in the business situation are summarized as follows: Business is present at a high level of activity and the stock of unsold goods is at a minimum; foreign exchange rates, unless re-established by banking arrangements, seem likely to impair our foreign trade, the effect of which on domestic trade may not be vital; for a good many months owing to intensified demand by American consumers; further extension of credits may be precluded, which means a firm monetary policy; the holders of capital may be obliged to obtain a larger product from the turnover of capital, which may necessitate, among other things, a speeding up of labor or a lowering of wages; this would seem to point to a reduction in the cost of living, an easing of the burden on the money market, and a resumption of a just balance between the various factors of production and consumption. Barring the unforeseen, no one, however, is looking for any dramatic change in the general situation in the next few months.

FLAN MAMMOTH DAM IN SOUTHERN AUSTRALIA.

Thirty thousand acres of land will be submerged by the construction of a mammoth dam in southern Australia, the object of which is to form a great irrigation reservoir. Work has started on the structure, which will be located in the Murray river, a short distance below the confluence of Mitta Mitta creek with that river. It is estimated that the project will cost \$8,000,000 to complete. Approximate dimensions of the dam will be: total length of the dam will be 3,601 feet. This includes a concrete section an earth dam, 2,700 feet long; a concrete spillway, 740 feet long; and an outlet works of the same material, 151 feet long. The foundation of the dam will be nearly 100 feet in height. The foundation will extend down to a stratum of granite, 34 feet below the surface of the earth. Only a comparatively small portion of the dam will be situated in the river bed proper, as the greater part will extend across an alluvial flat on the left bank of the stream. In constructing the section, a concrete core wall will be built and covered with stone to reinforce the dirt embankment. Thirty-one sluiceway gates will be installed in the spillway section. Water turbines, placed in the labor of furnish power to operate these. The outlet works will be pierced by eight 6-foot pipes, equipped with valves and capable of discharging 3,000 cubic feet of water a second under a 29-foot head.—Popular Mechanics.

BRADSTREET MANAGER

C. A. B. Brown, who has been appointed general manager of Bradstreet's western Canada, Mr. Brown has been connected with Bradstreet's for forty years and for many years was a member of the Toronto Board of Education. He is prominent in sporting circles, particularly hockey and yachting.

FORD TO DISTRIBUTE \$10,000,000 BONUS

90,000 Employees Eligible to Share — Profit-Sharing Plan Elaborated — Other Plans for Aiding Workers Under Consideration.

An elaboration of its profit-sharing plan, whereby all employees will be enabled to purchase certificates of investment in the company, guaranteed to return 6 per cent a year, and a distribution of bonuses that will total between \$8,000,000 and \$10,000,000, is announced today by the Ford Motor Company, Detroit.

Approximately 90,000 employees of the Ford Motor Company and his other interests of Henry Ford and son Edsel, it is announced, will be eligible to participate. In a statement accompanying details of the new policy, it is announced that the two steps outlined constitute "only a beginning," and that "other plans for enlarging the income and increasing the purchasing power of the dollar of our employees are under consideration."

The amount of the bonuses, which will be in addition to the distribution of the original profit-sharing plan, will be based on an employee's day and length of service. They will range from \$50 in the case of a worker in the company's service three months and receiving the minimum wage of 86 a day, to \$270 in case of the worker with five years of service and receiving a wage of \$10.00 a day. Salaried employees receiving more than \$250 a month will participate proportionately, on the basis of the length and value of service.

The certificates of investment will be issued in denominations of \$100, \$500 and \$1,000, and are to be non-negotiable and non-assignable. They will be restricted to employees in the actual and active service of the company.

The investment certificates are to be purchased only with wages received from the company. The bonuses received, not more than one-third of the employee's wages may be thus invested. While the certificates are not negotiable and not assignable, they may be left standing in the name of a deceased employee at the discretion of the directors, to draw interest and payments for the benefit of his dependents.

In announcing the new policy, the Ford Motor Company states: "It is believed that simple economic justice demands that a greater portion of the earnings should go in part to the employees and in part toward enlarging the industry. This policy carried out will mean that more men will be given opportunity to work with the company and to participate in its benefits, and that those employees who remain with the company will share increasingly in its success."

"Self-Starters' Club" Good Membership Plan.

To be dropped from the membership rolls of a club usually nothing brings about. But to the "Self-Starters' Club" of the Reading, Pa., Chamber of Commerce it is a recognition of work "well done."

The "Self-Starters' Club" is a unique organization of prominent Reading business men, all members of the Chamber of Commerce. It originated in the summer of 1918, when a group of business men, all members of the Chamber of Commerce, got together to consider plans for increasing membership of the organization.

They were lured by the prospect of a number of members of the Chamber of Commerce getting together to consider plans for increasing membership of the organization. They were lured by the prospect of a number of members of the Chamber of Commerce getting together to consider plans for increasing membership of the organization.

REPORT ON TRADE

Holiday Business a Record—Jobbing Reorder Business Brisker Than Usual—Wholesale Lines Generally Firm.

(Bradstreet's, Dec. 27.) Holiday trade surpassing all previous years, a veritable orgy of buying, it is termed in some cities; more than ordinarily active jobbing trade pushed to all parts of the country; less than seasonal quiet in primary lines, where buying for stock-taking period, improved production and shipment of fuel, permitting of enlarged industrial activity; a drop in the food price level, in the fact of more strength in commodities as a whole, reported mainly due to the influence of alleged boycotts of high eggs and butter, but more likely to be due to a general tendency toward reducing consumption, and a very low total of year-end failures, are among the outstanding features in a more than usually busy week, year-end conditions considered. Accompanying these features were a renewal of reports of acute car shortages affecting shipments of corn from the country, and of lumber from large producing centres; a quieting down of stock speculation previous to the holiday with a resulting drop in prices, attributed to high call money rates (18 per cent maximum) and unsettled exchange market conditions, a sharp rally after the holiday on the president's return to the return of the railroads from Jan. 1 to March 1, continued liquidation of Liberty and foreign bonds with rather more strength in railroad securities, and to better feeling as to the outlook for the transportation industry; aggressive trading in iron and steel prices; lower prices for hogs, due to the largest receipts in any week for a year; quiet conditions in some primary lines, such as raw wool and iron, with no curtailment of strength in prices, however, and new high quotations made for staple cotton goods, which have been taken over by the market for spring or beyond, of trades hitherto reporting quiet and in some lines weakness, notably hides and leather, it may be said that hides are even weaker, some large sales being reported by big packers at the west. Relatively small supplies of leather available are credited with being a supporting element in this line, but quotations are easier where transactions, largely between dealers, have occurred. There is a question of shoe prices, which are reported being shaded in some markets on medium and low grades, but iron on high grades, where output is claimed to be all sold as far as spring and no weakness perceptible. The close of the year finds much discussion as to the future of prices on other lines but even less of an agreement as to quotations going lower immediately, notwithstanding the efforts of state and national authorities to reduce what has been termed unnecessary buying. That there may be a pause in wholesale trading materials, notably brick, and hardware, etc., reflecting past and prospective enormously active construction, are reported advanced this week, also higher. Coal is in active demand, and it is noted that some anthracite coal in the west is seeking a market in the face of cheaper bituminous product, resulting from the ending of the strike. The car shortage and lower hogs affect corn prices. Not all of the car scarcity is due to increased coal traffic. Many railroads are reported short because of past years' failure to provide equipment. The government estimate of the cotton crop, 11,000,000 bales, is a decrease of 33 per cent from a year ago, while the gaining

GROCERY PRICES IN SEVERAL CITIES

The following comment on the market situation as regards foodstuffs appeared in Canadian Grocer last week: The feature of the grocery markets this week was the bank's report on the Canadian Wheat Board, a jump of 50 cents a bushel in the price of wheat and the corresponding advance in flour, \$2.25 a barrel. The net advance in the price of the highest quality of wheat was moderate proportions. Prices are steady and firm. California raisins are still very scarce.

Montreal.—Of paramount importance this week is the advance of \$4.25 a barrel for flour. This came to the trade as a very welcome announcement, for while not altogether unexpected, it was thought possible that the advance would be so great. New quotations are \$18.25 a barrel for spring wheat flour and \$22.25 a barrel for winter. The net advance in the price of the highest quality of wheat was moderate proportions. Prices are steady and firm. California raisins are still very scarce.

It is far easier to sell an article when the prospect knows a great deal about it. People are not so apt to argue in the matter of price, when they are acquainted with the facts of production. It is the same with the customer, who has been neglected for many years, thus making a clerk work twice as hard to sell.

This principle was back of an ambitious campaign introduced by Revillon Freres, Fifth Avenue at Fifty-third Street, New York City, a year ago. The second series is just beginning, and was induced by the unqualified success of the previous advertising.

While other concerns in the same line are running to straggle merchandising talk and pictures of pretty women, Revillon Freres started a sort of serial story about furs in local newspapers. It is a continued narrative, in daily chapters, and takes back to the far places where furs are secured.

It may be the picture and story of a snow-covered trading post, or feds bringing in the pelts of a Young Hunter, beside his game, with the descriptive text.

"This bright young Cree boy has just shot his first bear and though hardly grown up he feels himself every inch of a man. A young Indian's ambitions are necessarily much more limited than those of a white man. He can look forward to his hunting on his own, the possession of an extra good gun and such luxuries as the post trader's store will afford him."

Women are being told the source of Revillon Freres' furs, that they may be sure of their quality and that they may understand why it is necessary to make certain charges for them.

SIX THERMOMETERS NEEDED IN EVERY HOME

Every home needs at least six thermometers—an outdoor thermometer, an indoor thermometer, a fever thermometer, a candy-making thermometer, a chandelier thermometer, a bath thermometer. Every home needs these six thermometers as dependable, trustworthy guides to health and comfort.

"Tycos" THERMOMETERS come in each of these six different styles. They are thoroughly dependable and accurate and are used wherever absolute accuracy in telling temperature is needed.

W. H. Thorne & Co LIMITED

LOCAL NEWS

ST. MALACHI'S BUILDING. The lower floor of St. Malachi's school is being remodelled. A plate glass front is being put in and provision will be made for a shop and show room.

DIED IN CAMBRIDGE. Mrs. Mary A. Nelson, 228 Waterloo street, received a telegram this morning stating her daughter, Mrs. H. McManus, died in Cambridge, Mass., leaving four daughters and one son.

AUTO LICENSES. Several men were reported by the policemen for operating their automobiles without 1920 licenses. The cases were set over until next Wednesday, when it is expected the numbers will be obtained.

ACCEPT CHALLENGE. The Y. M. C. U. Juniors accept the challenge of the Wolves Juniors to a bowling match to be played on the Waters' alleys on Saturday evening at 7.15.

AUTOMOBILE MATTERS. P. W. Thomson, F. A. Dykeman, R. D. Patterson and J. A. Tilton left noon today for Moncton as members of the New Brunswick Automobile Association to discuss matters of interest to motorists with a committee from the Moncton branch.

NORTH SHORE CASE. Carl Walls, who was arrested last night by the police for officials in Chatham, is said to be wanted in that town for the charge of breaking and entering. An official will arrive this afternoon on the Halifax train to take him away for trial.

FOR THIRD DEGREE. A delegation of thirty members of the Knights of Pythias, Frontier Lodge, arrived in the city this morning from St. Stephen to attend exemplification of the third degree this evening in the Pythian hall, German street.

WILL PROSECUTE OFFENDERS. Commissioner Thornton said this morning that complaints of violation of the traffic regulations at the corner of Adelaide and Main streets and at other points had reached him. He said that close watch would be kept and stringent action taken by the police.

ARE WELCOMED. Mr. and Mrs. A. J. Mason, of Wolfville, are in the city and are being welcomed. Mr. Mason is the proprietor of a motion picture theatre in Nova Scotia town. He is well remembered in musical circles here and friends will be pleased to know that he has been perfecting his singing, under instruction in Boston, and has made excellent progress.

MRS. AUGUSTA E. CLARKE. The death of Mrs. Augusta E. Clarke, wife of the late Robert Clarke, took place at the residence of her sister, Mrs. F. E. Law, 79 Macdonald street, this morning, at the age of seventy years. Besides her sister, she leaves one brother, George W. Crawford, of Boston. Much sympathy is extended to the bereaved ones.

HAD PLEASANT HOLIDAY. Joseph MacNamara, physical director at the Y. M. C. U., returned to the city at noon today from his home in Boston where he spent the holidays. He was accompanied from the Hotel de Ville by Jack Savage who continued today on his way to Halifax where he will meet Roddy McDonald in a boxing bout on Friday night.

HORSE INJURED. One of the horses owned by C. H. Peters & Sons was seriously injured on Monday evening when it was struck in the head by an automobile. The team was going toward Rothesay and the car was coming to the city when at Lawlor's Lake, as the two vehicles were meeting, the car skidded in a rut and struck the animal, injuring the muscles in its jaw. Dr. Boyce, veterinarian, summoned. It is said that the animal may have to be shot.

BUSY IN HARBOR. The harbor master and his staff are being kept busy these days and are forced to work night and day as a result of the rush of business caused by the large number of steamers coming to port. In addition to allotting the various berths to the steamers and making preparations for their accommodation, Mr. Alward has to collect the revenues, arrange for the transfer of the steamers, etc. At the present time there are twenty-one steamers in port, in addition to a number of sailing craft.

WANTED IN NEW GLASGOW. Clarence P. Roy was arrested last evening in McAdam for the police in this city. The detectives received information from Chief of Police Joseph Francis, of New Glasgow, N. S., that this man was wanted in that town on a charge of fraud. The detectives sent word to the immigration officials giving them the necessary information and their man was handed over to the C. P. R. police. The chief from New Glasgow will arrive on the Halifax train this afternoon to take the man back.

TO HAVE A RINK. Last evening a beginning was made to prepare a free open air rink for the youngsters of Fairville. Permission having been secured from the owners, W. J. Linton, of the committee, with several others interested and a band of willing youngsters, went down to Ready's reservoir in Ready street, and cleared off quite a large space. It is expected this will be flooded today and within a day or two there should be good skating. This is the first practical attempt made by the citizens to give the boys and girls wholesome recreation since the playground days of last summer, and those who have assisted in the work are deserving of much commendation.

LEYS-McLEAN. A wedding of interest was solemnized in Main street Baptist church this afternoon, when the pastor, Rev. David Hutchinson, D. D., united in marriage Miss Della McLean, a graduate nurse of Newport, N. S., hospital, and daughter of Mr. and Mrs. Angus McLean, of 200 Douglas avenue, and Lauderdale Leys, of Newport. Mr. Leys is a member of the firm of William Leys & Son, dry goods merchants, of Newport. The bride, who was given away by her father, was unattended. She was costumed in a very becoming tailored suit of navy blue serge with hat to match and mink furs, and carried a bridal bouquet of roses. During the ceremony Harry Dunlop presided at the organ and played the Wedding March. Mr. and Mrs. Leys will leave on the Boston train for Newport. They were the recipients of a large number of magnificent presents, which included cut glass, silver and household effects. The bride's parents gave her a beautiful chest of sterling silver.

NOTICE TO ADVERTISERS

The co-operation of advertising patrons is requested in the direction of getting "copy" into the business office on or before 4:30 p. m. on the day previous to publication. Very often the receipt of a large advertisement or even regular changes after that hour serves to dislocate the regular work of getting the paper made up in time to catch the mails—and not infrequently such are at the last moment left out. This situation is not of service to either the advertiser or our readers and we, therefore, request that copy be received in the business office Not later than 4.30 p.m.

PRIVATE STILL IN POLICE COURT

Demonstration is Given in Liquor Case—Variety of Matters Before Court.

The police court was given a practical demonstration of the manufacture of liquor this morning with a crude private still, which was seized a short time ago in a barn in Stanley street. Sergeant Journey explained the working. As a result of this seizure, Thomas Malory was charged with having liquor in his possession other than his private dwelling.

Sergeant Journey told of arresting the accused on Friday night in Acadia street and finding a bottle of liquor on him. He said that soon after he received information that led him to search the barn where the accused kept his horse, and the seizure of the still was the result. He also said he found two more bottles of liquor there. Inspector C. H. Keir told of taking the liquor to M. V. Paddock to be analyzed and he produced a certificate showing the following results: Bottle No. 1, forty-five per cent alcohol by weight; bottle No. 2, 28.5 per cent, and bottle No. 3, 61.4 per cent.

The magistrate read the certificate and remarked: "This stuff is all right to rub on but I cannot understand why a man will take it into his stomach." He continued: "I would like to have a photograph of the apparatus as a souvenir." Policeman Gibbs, in corroborating the evidence given by Sergeant Journey, said that he found a letter in a barn also. It was reported that the letter was from a man in Halifax who wrote that there was a great field for that sort of business. The accused was remanded as it is understood the inland revenue department are to take the matter up.

In a case against Thomas Petrie and George Drew charged with wandering about and not being able to give a satisfactory account of themselves and also on suspicion of breaking and entering the store of Sydney Isaacs, Mill street, Policeman Chisholm corroborated evidence given by Policeman Dykeman at the last hearing. Policeman Spinney said he was going home in the morning with Policeman Killen and they noticed the break in the cigar store. They also noticed two young men in the street at the time, and they hesitated on seeing the policemen. Killen corroborated the evidence. The case was postponed until tomorrow at twelve o'clock. J. A. Barry appeared for the defence.

The case against Wilfred Gormley, charged with having liquor in his possession other than his private dwelling, was resumed. As a result of the investigation by the liquor inspectors, Pierre Latture a sailor on the S. S. Farara, was charged with supplying liquor to Gormley. A fellow sailor said there was no liquor on the ship. He also said that Gormley went on board apparently under the influence of liquor, and did not get any from the accused. The magistrate dismissed the case. John DeAngelis acted as interpreter. A fine of \$80 was imposed on Gormley. Oscar Berg of Norway, Oscar Larson of Denmark, Thurston Enusston and Alfred Johnson of Sweden, were charged with loitering from the S. S. Scotian. They pleaded guilty and it was learned that they had shipped on another vessel. They were remanded to the S. S. Scotian. They pleaded guilty and charged with being absent without leave and refusing duty from the S. S. Cornish Point, was sent back to the steamer. Four men charged with drunkenness, pleaded guilty and were remanded to jail.

WERE 531 ALIENS ON REPORTING LIST AT ST. JOHN

It was announced at police headquarters this morning that at the time of the passing of the order-in-council discontinuing the order that all aliens must report to the police, 531 aliens in this province were reporting here. They were mostly Bulgarians, a few Austrians and very few Germans reported. The number varied from time to time as some of them would be transferred to Montreal and other parts of Canada. The aliens when reporting here were in the employ of the C. P. R. on the West Side and in McAdam, at Courtenay Bay and the Valley railway in Westfield.

E. ROSS TO STAY FOR TWO MONTHS

Arrangements were completed yesterday by Councillor John O'Brien whereby the Indian Point Ferry will be continued for the next two months at least with the steamer E. Ross remaining on the route. The ferry has been taken over by James Lunny of the North End, who made the agreement with Mr. O'Brien on behalf of the ferry commission. The steamer will be under the command of Captain John Gilchrist and will operate until ten o'clock at night instead of closing off at nine o'clock as formerly. Mr. O'Brien said this morning that the St. John Dry Dock & Shipbuilding Company had agreed to leave the boat on the route for two months with the option of purchasing the boat at the price they paid. In the meantime the commission has promised to obtain another boat if possible for the dry dock people. Credit is given to Councillor O'Brien for the active interest he has taken in this matter, and the success with which his work has been rewarded.

ARRANGING FOR EARLY VISIT OF LIBERAL LEADER

Hon. W. L. Mackenzie King and Other Prominent Speakers to be Heard Here—Members of Party Will Discuss Organization Plans

A meeting of Liberals, under the chairmanship of A. B. Copp, member of parliament for Westmorland, was held here yesterday to consider plans in reference to a public meeting to be addressed by Hon. W. L. Mackenzie King and other well known speakers in this city next week.

It was arranged that Hon. W. E. Foster, premier of the province, who was present at yesterday's meeting, will be chairman of the evening, but it is not known yet what other speakers will address the assembly.

It is proposed to take advantage of the presence of many prominent Liberals of the province in the city to hold a meeting the day following Hon. Mr. King's address for the purpose of discussing provincial Liberal organization.

ST. JOHN'S LODGE, F. & A. M. The new officers of St. John's Lodge, No. 2, F. & A. M., were installed last night by Most Worshipful Grand Master D. C. Clark, assisted by George D. Ellis, grand director of ceremonies.

UNIFORMITY OF TEXT BOOKS WILL BE DISCUSSED

For the purpose of consulting with the Nova Scotian authorities on the subject of uniform text books, Dr. W. S. Carter and Dr. H. S. Bridges are leaving for Halifax, where they will discuss the possibility of agreeing on certain standard books which might be used in common by the various provinces, and thus greatly reduce the cost.

text books, in such subjects as history and geography, more pressing, but there would be difficulty in securing immediately works which might be expected to stand the test of time.

At a recent meeting of the executive of the provincial school teachers it was decided that the next meeting of the teachers' institute should be held next year in Fredericton on the last three teaching days in June.

SHOULD MARRIED MEN BE MADE TO WEAR RINGS?

Chicago, Jan. 7.—Should married men wear wedding rings as a sort of signal like semaphores on railways to indicate to unmarried females that, as far as they are concerned, there is danger ahead?

The London woman chief, "would act as a great protection to gullible females of all ages who are easily deceived by the attentions of the married masquerader."

"Such a law wouldn't do any good," said a club woman. "Men will continue to be men, law or no law. Moreover, the law could not be enforced. What would prevent the married flirt from putting the ring in his pocket when he set out on a coo-quest?"

ON WHOM WAS THE JOKE?

Booth Tarkinton is said to tell with gusto this story concerning himself and another popular author: "I was strolling around an artist's Red Cross fair when two pretty 'flappers' of sixteen or so came up and asked me for my autograph."

## TWENTY YEARS' TROUBLE OVER

### Halifax Woman Suffered From Girlhood But Says Tanlac Quickly Restored Health.

"Although I have spent a lot of money and taken many different kinds of medicine for the rheumatism Tanlac is the only medicine that ever did me a particle of good," said Mrs. Sidie Welsh, 62 West street, Halifax, Canada, recently. Continuing, she said:

"I have been suffering from rheumatism for twenty years or more. When I was a girl I had my first attack and ever since that time I have suffered awfully. It was all over my body, in my arms and lower limbs. At times I had it so bad in my shoulders and arms I could not do any work, and at other times I could not get up out of bed. I have had a nurse for I couldn't even raise my hands from my sides, and at another time I was in a hospital for two months. The pain was almost more than I could bear. My knees and ankles would swell to twice their normal size, and I wouldn't be able to walk a step for days at a time and every move I made was torture. I could not sleep on account of the pain and would lie awake night after night without ever closing my eyes. Only the week before I started taking Tanlac my feet and ankles were so badly swollen I could not get on my shoes.

"Nothing I did seemed to do me a particle of good and I had just about given up all hope of ever getting any better when my husband, who was taking Tanlac for stomach trouble with remarkable results, urged me to try it also. Well, I took his advice and to my surprise I began getting better almost at once. I have taken only three bottles so far, but the rheumatism has just gone out of my feet and ankles and knees and I can get around without a particle of trouble or pain. In fact, I am enjoying the best health in many years I have in my life and am able to do all my own housework. I think Tanlac is the greatest medicine in the world and I tell everybody I can about it, and will continue to praise it as long as I live.

Tanlac is sold in St. John by Ross Drug Company and in W. Munro under the personal direction of a special Tanlac representative.—(Adv.)

### CHILDREN ENJOYED TREE

The primary department of the Charlotte Street United Baptist Sunday school held a Christmas tree entertainment in the Sunday school room yesterday afternoon. The singing, recitations and dialogues were much enjoyed by a large number of children and views, including pictures of St. John city and harbor, were shown. After this part of the entertainment had been concluded Santa Claus appeared and made the hearts of more than one hundred children happy by the gift of books, pictures, candy and nuts etc.

Four 2 1/2 ounce bottles of Pinex (50 cents worth) in a 10-oz. bottle; then fill it up with plain granulated sugar syrup, or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make 16 ounces—family supply—but costing no more than a small bottle of ready-made cough syrup. And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed passages, stops the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes. To avoid disappointment, ask your druggist for 2 1/2 ounces of Pinex, with directions and do not accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

### The Quick Way to Stop a Cough

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Pinex stops the ordinary cough or chest cold in 24 hours. Tastes pleasant; too—children like it—and it's pure and good.

The Pinex Co., Toronto, Ont.

Every falling woman in the United States is cordially invited to write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for special advice. It is free, ready to bring you health and may save your life.

### MONTHLY MEETING OF HEALTH BOARD

#### New Death Certificates Cause Trouble — Marsh Creek Matter Up Again.

At its first meeting since the arrival of the New Year, the board of health dealt with considerable important business, taking up matters which will have an effect on the work of the entire year.

W. H. Keltie was appointed clerk of the department of vital statistics, which is now associated with the board, his appointment being effective since January 1. Mr. Keltie was formerly on the staff of the government offices, Prince William street.

It was reported by Secretary Burns that a prominent physician in the city had refused to continue filling out the new forms of death certificates, and as this form is practically identical with those in use in the principal Canadian and American cities, it was decided by the board that this refusal would be reported to the provincial ministry of health for action.

Dr. F. Frejohnston, food and dairy inspector, reported that he had taken eight samples of milk for bacteria tests and thirty for butter fat test. He had made 148 inspections of dairies and milk cattle in Kings county, and had visited twenty-one cream producing dairies.

Miss S. E. Brophy, nurse at the free dispensary, reported that ninety adults and forty-three children had been added to her register; two adults had died during the past month, and two patients had been sent to the East St. John County Hospital.

It was reported by Dr. J. P. L. Brown, district health officer, and Richard Walsh, sanitary inspector, that a building in St. Patrick street had been condemned and closed as unfit for human habitation.

Chairman Kelly reported that Dr. William L. Ellis had reconsidered his decision to resign as a medical inspector under the board.

Province Will Pay.

Hon. W. F. Roberts, minister of health, notified the board that all expenses in connection with the child welfare meetings and exhibition held in the city last October, will be borne by the department of agriculture.

A formal application from Harvey P. Hayward for permission to keep a dairy cow in a barn on the south side of Queen square was received and will be considered at a later time.

Major Pugh, officer in charge of stores, military headquarters, wrote to the board for further information regarding an application from the department of health for certain stores. He wanted to know what the requirements were and what stores were needed.

A cheque for \$1,000, a grant from the city to the board in recognition of bacteriological services rendered, was sent to the department at Fredericton, in payment for services rendered in the testing of milk and water during the past year by Dr. H. L. Abramson.

A letter from Commissioner Donovan and Joshua Clayton to Dr. G. G. Melville, provincial health officer, was read by the chairman, wherein it was reported that J. A. Likely and Mr. Ellis, near St. John, were obstructing the Marsh Creek with damage and refuse, thus interfering with the regular cleaning and "scouring" of the stream, which serves so wide an area.

George Blake, in this connection, explained that the stream is important from the point that it serves as a drain for properties as far out as the Three Mile House and Dolan's Lake, and as far north as Ashburn lake, as well as the various cemeteries.

Chairman Kelly said that the sub-district board of health had jurisdiction over the stream, from a sanitary standpoint, and instructed the secretary to write the commissioners, and also to notify the offending parties that they must not interfere with the course of the stream.

The suggestion was made that some dredging at the Courtenay bay outlet of Marsh Creek, on the upper side of the bridge, would prevent a further deposit of sewage under the buildings in that locality.

A letter was received from the board of school trustees acknowledging the work of a recent survey made of the school buildings in the city, with regard to their area, capacity, lighting, ventilation and sanitary facilities.

**Victorian Order.**

The local Victorian Order of Nurses in the child welfare work report, showed that more than 100 visits had been made and some fifty new baby cases attended to. The report further alluded to the miserable condition of some of the families visited, certain of the families being very poorly housed and suffering many inconveniences during the cold weather.

Mrs. R. J. Hooper explained to the board her meeting with representatives of the various societies interested in financing child welfare work, under the direction of the board, and gave an interesting account of this new branch of public service.

The entire board as appointed a committee to wait on the Municipal Council when the yearly estimates will be taken up.

There were present at the meeting yesterday John Kelly, chairman of the board, F. M. Burns, secretary; Dr. L. M. Curren, Mrs. R. J. Hooper, George E. Blake and Walter H. Golding.

### MORNING NEWS OVER THE WIRES

The Princess Pats, under Colonel Willets, arrived in London, Ont., yesterday and entered into permanent barracks there.

Councillor Tabor C. Everett of Kingsclear was elected warden of York county yesterday afternoon.

Mrs. Ellen Conroy, seventy-two years old, of St. John, was saved from burning to death at the home of her daughter in Dorchester, Mass., yesterday. While sitting in the kitchen her shawl caught fire from a burning gas jet. Her daughter, Mrs. Margaret Hyland, extinguished the blaze.

The position of professor in the engineering department at Mount Allison University, recently made vacant by the resignation of Professor Crowell, has been filled by Frank L. West of Cole's Island, N. B., a graduate of Mount Allison in 1912. Mr. West served with the Canadian Engineers in France. He is a graduate of McGill University in engineering.

Halifax is asking the dominion government for a grant of \$100,000 a year to cover exemptions from taxes enjoyed by the government on its various properties there. They urge that the exemption places a heavy burden on the citizen.

Halifax is asking the dominion government for a grant of \$100,000 a year to cover exemptions from taxes enjoyed by the government on its various properties there. They urge that the exemption places a heavy burden on the citizen.

## Tired Overworked Men

We Guarantee Vinol is What You Need

You who are run down, nervous, lack energy and working strength, we know that Vinol is what you need. It creates strength because it is a non-secret combination of the most famous body-building and strength-creating elements known.

Here is Proof that is Indisputable

"I am a farmer and was overworked, run-down and weak. My druggist recommended Vinol. It built me up and made me strong. I also gained in flesh. Other members of my family have also used it with splendid results."—Joseph J. McDougall, Kelvin Glen, Cape Breton, N.S.

"I was weak, run-down and had no appetite so I could hardly keep about my work. I heard about Vinol and it was a blessing for me. I feel better than I have for many years."—Mr. Bartholomew, 12 Salisbury Ave., Galt, Ontario.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

Your money will be returned if Vinol fails—Leading Druggists.

## Vinol Creates Strength

### PATRIOTIC FUND WILL CONTINUE THROUGH WINTER

The executive of the New Brunswick patriotic fund, held in the committee rooms in Prince William street yesterday afternoon. It was decided that the former branch committees, with their executive, would continue to "carry on" for the next four months, so that all soldiers and dependents properly deserving assistance, may be cared over the rigorous winter season.

Hon. Josiah Wood, Sackville, presided at the meeting and also represented Westmorland county and there were also present: G. E. Balmann, Woodstock, representing the Carleton county executive; W. H. Price, Moncton, representing Westmorland; Rev. W. J. Bate, of Newcast, representing Northumberland; and Senator W. H. Thorne, Judge J. G. Forbes, General H. H. McLean, J. H. Frank, Thomas Bell, M. E. Agar, Mayor Hayes and C. B. Allan, of the local executive.

### SOUTH END NOW HAS LARGEST ICE RINK IN CITY

The executive of the South End Improvement League could not but feel a most justifiable pride when it met last night in a room near the skating rink in the South End. As the result of the efforts of the league, there were at the time of its meeting and just outside the side of the rink while they enjoy themselves on what is now the largest rink in the city, with a perfect sheet of ice. Up to the present time there has only been one checking room at the rink but tonight there will be separate checking rooms for the boys and girls, as the second room was completed yesterday and the electric light has been installed. Large crowds patronize the rink every night. Many people come to the rink in automobiles and park their cars by the side of the rink while they enjoy the pleasures of skating on a rink so well cared for and of such a splendid size. As may be supposed, the meeting of the executive was an enthusiastic one. It was decided that, if possible, arrangements would be made to have a band and a series of races at the rink some night soon, and at a later date to have an outdoor skating carnival. The executive will allow nothing to hinder it in arranging for these two events.

### WORK OF WOMEN'S AUXILIARY GOES AHEAD STEADILY

The first meeting of the diocesan branch of the W. A., held yesterday afternoon in Trinity church school room, was a very interesting one. Mrs. Thomas Walker, the president, was in the chair and the opening devotional exercises were led by Canon R. A. Armstrong. The subject of his address was the lessons of Epiphany.

Several members volunteered to represent outside branches. Two new life members were enrolled. Mrs. A. E. Belyea, of Westfield, and Mrs. Alexander Scott, of St. Luke's church, whose life membership was a gift from her son, Mrs. J. A. McAvity and Mrs. T. Corey were appointed as the Anglican members for the executive of the United Women's Missionary Society. Considerable discussion took place regarding the raising of the price of the official organ, The Leaflet.

Mrs. James F. Robertson spoke of twenty-five boxes of literature having been sent to the lumber camps this year. Miss Clara B. Schofield was appointed to take over the work as girls' branch secretary, replacing Miss Gladys Frink who has resigned. It was said that should the Empress of France dock in time, it would be possible for Miss Florence McNaughton, who is a passenger on Kangra India, in St. John. Special and appreciative reference was made to Miss Edythe Dyer, of St. Luke's parish, St. John, who has graduated from St. John's deaconess home in Toronto and is doing splendid work as a deaconess in that city, for the parish of St. Peter's.

Mrs. J. M. Hay, the Dorcas secretary, reported for that day, and Mrs. G. A. Kuching reported for the organizing committee. Mrs. Geo. P. Smith spoke of the forward movement and Mrs. James P. Robertson gave an account of the work being done by the Anglican deaconesses, Miss A. Robinson, who is doing good work amongst the poor and needy.

### WEEK OF PRAYER.

Religious education was discussed last evening at the services in the four groups into which the city has been divided for the week of prayer. In Carlton Methodist church, Rev. J. H. Heaney presided, and the preacher was Rev. Dr. Morrison.

The north end group met in Main street Baptist church and was led by Rev. Dr. D. Hutchinson. The speaker was Rev. H. L. Eisenor and others who took part in the service were Rev. Neil MacLaughlin, Rev. R. P. McKim, Rev. J. C. Appled and Rev. G. D. Hudson.

The full choir of the Main street church provided the music.

The south end group met in Centenary church with Rev. H. A. Goodwin as leader and was addressed by Rev. J. A. MacKeigan.

The east end group met in Ermouth street church. Rev. George Dawson, the

pastor was the chairman and the address was delivered by Rev. R. T. McKim. The layman's five minute talk was given by F. M. Kierstead.

## ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Neuralgia, Toothache, Headache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over ninety years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer".

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monrovia, California. While it is well known that Aspirin is a Bayer product, Bayer manufacturers, to assist the public against imitations, the Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

## WONDER HEALTH RESTORER

A herb preparation which has done remarkable work in relieving human suffering. Thousands of people who have used it testify as to the good it has accomplished.

WHEN you look for reasons WHY this WONDERFUL HEALTH RESTORER is so generally regarded as an exceptional remedy, you quickly discover that thousands of people from all parts of Canada, many in this vicinity, have been made well, and cheerfully recommend its use to all sufferers—it was made to cure, not merely to sell.

AFTERWARDS you will understand WHY these people are so glad to tell what this wonderful WONDER HEALTH RESTORER has done for them and WHY we publish their story herein—you may need this information.

THEN you will remember your past suffering as really unnecessary, a great waste of time, a loss of good health and pleasure which is so necessary to make life worth living. Think what you will have gained, think what you will have saved by taking WONDER HEALTH RESTORER.

THE FACT is that the good health giving properties of this great WONDER HEALTH RESTORER brought to your attention through the columns of this paper will prove an everlasting joy and life anew. It actually does make you well and strong, is also regarded as a household remedy, for it safeguards you against disease by keeping your system in perfect condition.

### What It Is and What It Cures

Made from the receipt of a great Scotch Herbalist and composed of distilled Herbs. (Has not the Great Creator of all things planted the herb to heal the suffering? It feeds the blood directly through the circulatory system, the beneficial properties of the herb are carried to the affected organs—there it deals with the ailment as only nature treatment can. It has permanently cured cases of Rheumatism, Sciatica, Lumbago, Nervousness and Stomach Trouble, Neuritis, Fevers, Asthma, Skin Diseases and Boils, Heart and Kidney Troubles, Catarrh, Constipation, etc. It is a never-failing friend when sickness is present in any form.

There is Not a Trace of Alcohol in Wonder Health Restorer—Neither Does it Contain Narcotic Drugs of Any Kind.

Three bottles constitutes what is termed an ordinary treatment. Price \$2.00 per bottle—three bottles for \$5.00, and with every \$5.00 treatment is included a 75c bottle of Wonder Thymus Bitter Tonic for regulating and strengthening the bowels. Full direction with each bottle.

Wonder Health Restorer or any information Concerning it may be secured at WASSONS DRUG STORE, 711 Main street, where it is on sale, or by

**Guarded His Game** (London Times) What is believed to be an unprecedented end to a combat between a fox and a terrier is reported from the Blake Country.

A stout hill fox hunted by the Leicesters hounds for three and a half hours on the mountain heights above St. John's-in-the-Vale sought sanctuary in a fissure of rock in a crag near the skyline of Wantwaste. Here he faced one of the gamiest terriers belonging to the packs, and scrambling to a shelf in the rocks, was able for some time to give as fierce punishment as he got. The terrier killed the fox, but refused to leave it, and followed around howling at last to quit the crags so that they might make the descent of one of the most dangerous ravines of the mountain range before darkness. When huntsman and whip returned next morning to the crags they found terrier as well as fox lying dead outside the borran.

An examination of the terrier showed that the fox had inflicted no mortal wound upon him. The terrier had dragged the fox out and then, loth to leave it had laid down beside it. It was clear that he had died from exposure during a bitterly cold night. No similar case has, so far as is known, occurred before.

**PILEs** Do not waste another day with itching, burning, or irritating Piles. No surgical operation required. Dr. Casary's Ointment will relieve you in one day and as a certain cure you see a box of this Ointment at Edouard, Hays & Co., Ltd., Montreal. **STENOGRAPHER—PERMANENT** position for one having the right experience. Box G 53, Times office. 11-21-17

**STORAGE OF ICE FOR SUMMER USE**

The storage of a few blocks of ice for summer use is a very simple matter where the ice is readily available. Any unoccupied corner of a shed will serve for the purpose. A rough board enclosure 10 feet square and eight feet high will hold enough ice to provide 50 pounds per day for 180 days, after allowing for a reasonable amount of wastage. The less, 10 sets heavy working harness, every known kind carriage. Match prices against your judgment Cairns, 264 Duke street. 107124-1-10

The bottom of the enclosure should be kept open to the ice for ventilation. Any slush in the ice should be melted. If the soil underneath is impervious clay it will be all the better if there is a few inches of gravel under the sawdust. In putting in the ice for storage, it should be taken away from one side and replaced after the ice is in position. A space of one foot should be left between the ice and the boards to be filled with sawdust, and the ice should be covered with the same thickness. It is the sawdust which keeps the ice from melting. The drier the sawdust the better the ice will keep, and it is a good plan, as the ice is removed during the summer, to throw out from time to time the sawdust where it will be under cover and continue to dry out and thus be in better condition to be used the following year. The ice should be cut in blocks of uniform size and packed as closely together as possible.

If it is necessary to erect a special ice house the roughest kind of a shed that will keep out the weather is all that is necessary. Poles may be driven into the ground and lined up on the inside with rough lumber, or slabs, leaving a space of about one-half inch between each board, and the whole covered with a roof of rough lumber, and, if a lined inside with rough lumber, and, if a good covering on the outside with clapboards or other siding. There should be plenty of ventilation above the ice. The same procedure should be followed in storing the ice and covering it with sawdust as advised in the preceding paragraph.

If sawdust cannot be obtained, planer mill shavings may be used for packing the ice, or in cases where neither is available hay may be used as a packing or covering material.

Marsh or "slough" hay or any fine wild hay which grows in low places gives the best results. If hay is used, the space around the ice or between the ice and the walls instead of being only one foot, should be two feet. The ice should also be covered with about two feet of hay.

Praises Negroes of South. (Boston Globe). Prof. R. C. Woods, president of the Virginia Theological Seminary, was the chief speaker at the emancipation celebration in the First Universalist church, Cambridge, last evening.

Prof. Woods declared that "this day marks the beginning of a new life in this

beaver (not silk plush) hat, and we will pay a good price. These hats were made about 1850 in St. John by the late David Magee, and your grandfather probably has one. Ask him. Address any inquiries to D. Magee Sons, 63 King Street, St. John, N. B. 12-31-T.F.

country. We celebrate the birth of a new freedom, not only of the colored people, but of the nation. The curse of slavery rests with the South and will do so for generations. Whatever hindrances and setbacks the South has suffered is due to the fact that the spirit of liberty, charity and philanthropy is throttled there.

"The South has not produced a philanthropist since 1865 or a leader of such a character that his doctrines have been acceptable to the world. This is due to the fact that the South is still in slavery. The nation cannot survive with the divided spirit which exists today. Either the South must accept the spirit of the North or the North that of the South.

"The negroes have made remarkable progress since emancipation, considering the conditions under which they have lived. It has been charged that they are shiftless yet 60 per cent of the work in the South is carried on by negroes, and if it were not for the negroes in industrial life the South would amount to nothing."

BRITISH FOOD CHIEF ASKS AID

Says Central Nations Are Crumbling—Sir William Goode Declares Immediate Assistance Is Needed to Prevent Chaos.

Central Europe is on the verge of crumbling, and the only remedy immediately at hand is the early declaration of peace, according to Sir William Goode, British Director of Relief in Austria, who recently outlined the situation at the American Luncheon Club in London. "Until peace is ratified Central Europe will be a patchwork of ethnological dislocation," the speaker is quoted in a report in the Liverpool Daily Post and Mercury. "An over-prolonged armistice, following upon four years of war, has knocked away almost every pillar of the economic chaos and the suffering which can be traced directly to their own political actions. You cannot blame the new Allied States because they exhibit a nervous in-

IF GRIPPED WITH A LAME BACK READ THIS

Tells All About a Safe Medicine That Relieves After One Dose.

That throbbing pain at the base of the spine is caused by improper kidney action. Fits up the kidneys and the backache goes in a hurry. The most wonderful kidney medicine ever made is Dr. Hamilton's Pills. They contain the juices of certain herbs which soothe and heal all kidney illness. It's a pleasure to use Dr. Hamilton's Pills. They relieve the most distressing ailments, such as backache, correct urinary disorders, stop headaches, and vague pains through the muscles and joints. Forty years of success stand behind Dr. Hamilton's Pills, which are prepared in the laboratories of the famous Caxton Chemical Company, and can be depended upon as a safe, swift, and certain cure for Backache, Kidney, Liver, Stomach, or Bladder Troubles. Sold every where in 25c. boxes.

After a Hard Day's Work

Rub the tired muscles with a few drops of the soothing, refreshing, antiseptic liniment, Absorbine, Jr. You will find it pleasant and convenient to use and remarkably efficacious. This liniment invigorates jaded muscles, limbers the joints and prevents second day soreness. It is especially adapted for use after any kind of strenuous, tiresome day of sport or work. America's best athletes and trainers use Absorbine, Jr. to relieve strains and sprains, and also as a rub-down before vigorous exercises to prevent such conditions. Absorbine, Jr. is concentrated and therefore economical—only a few drops are required at an application. One or two drops on the neck, forehead, or wrists, will relieve a headache. It is also a valuable rub-down and general purpose liniment. \$1.35 a bottle at druggists or postpaid. Send 10c. for liberal trial bottle or prospectus. Regular use from your druggist today. W. F. Young, Inc., 317 Lyman's Bldg., Montreal, Can.

REAL ESTATE

Owners of Property

To the property owner we ask the question: DO YOU WISH TO SELL? If that is your purpose you could do better than communicate with us at once. We have a constant stream of inquiries for all classes of property, and yours may be just the property that some one is looking for. We make no charge for listing or advertising your only outlay is in paying the commission if we make a sale. Don't wait till after the first of February as the buying is by that time fairly well cooled off. Please see for appointment and it will be a pleasure to call upon you and give you any further detailed information desired. This is our best season for the real estate property. It is because the purchaser is certain of occupancy by May 1st on account of February being "Agincourt Month."

Notice, surely the first of the new year is to permanent time to make as one of your resolutions to be your own landlord. Phone Main 2536.

Suffered With Boils Last 5 Years

Boils are simply a breaking out of bad blood, and anyone who has suffered from them, knows how sick and miserable they make you feel. Just when you think you are cured of one, another seems ready to take its place and prolong your misery. All the poulticing and lancing you can do will not get rid of them. While the skin appears to be the cause of the irritation the real disease is rooted in the blood and is manifested in the necessity to get right at the seat of the trouble. When the blood is purified, cleansed and vitilified, by Burdock Blood Bitters, the boils will quickly disappear, and your misery is at an end, and health and strength come back again. Mr. Robt. Johnson, Barkeley, Ont., writes: "I have suffered very much during the last five years from boils having at one time five at once. I tried different remedies without any relief. I was advised to try Burdock Blood Bitters, which I did, and after taking just one bottle I have had no more boils."

B. B. has been on the market for over 40 years and is manufactured only by The T. Milburn Co., Limited, Toronto. The key to the economic arch is organization of credits for food and raw materials and the export of manufactures on a regular and ascending scale from the countries receiving such credits. With the pound sterling only worth about \$4, and with the present position of Great Britain has already borrowed, in partnership with France and Italy, \$48,000,000 from the United States to feed Austria.

One thing I am quite certain and that is that if Central Europe and the new nations are allowed to stew in their own juices, the whole world will suffer. In any case, whatever remedy may be accepted, it will involve on both continents a demand for common sacrifice for common stimulation of production. I think I am authorized to say that if the United States can see its way to take part in some such comprehensive

MR. OR MRS. DYSPEPTIC

Get rid of Indigestion and Stomach Worries with "Pape's Diapepsin"

"Really does" put weak, disordered stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness due to acid fermentation—that—just that—makes Pape's Diapepsin the largest selling stomach anti-acid and regulator in the world. If you belch gas and eructate undigested food or water; head is dizzy and aches; breath foul; tongue coated; remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness. A box of Pape's Diapepsin tablets costs so little at drug stores too.

Yes, Cold Gone—Not A Bit of Cough Left

Feel great this morning. As soon as I felt it coming on, yesterday I used Gray's Syrup and nipped it in the bud. Just couldn't miss an hour at the office, we are so busy and short-handed. Gray's Syrup is a habit in our family. I always buy the Large Size.

A simple, safe and effective treatment avoiding drugs. Used with success for 40 years. The air-carrying, antibiotic vapor, inhaled with every breath, makes breathing easy, soothes the throat, loosens the chest, assures restful nights. Cresolene is invaluable to mothers with young children and to those who suffer from Asthma. Send for our descriptive booklet.

DEATH FROM SLEEPING SICKNESS IN SASKATOON

Saskatoon, Sask., Jan. 7.—A death from sleeping sickness has been reported here. So far there have been only three recognized cases here. W. C. T. U. DAY OF PRAYER. The W. C. T. U. observed its annual Day of Prayer at the meeting held yesterday afternoon, and, owing to the illness of the evangelist superintendent, Mrs. Seymour, the president, Mrs. David Hipwell, conducted the service. Mrs. Hanspacker and Mrs. W. H. Humphrey asked the blessing. Mrs. B. D. Christie reported having visited Mrs. Seymour and found her a little improved in health; she also brought Mrs. Seymour's thanks for flowers sent. Mrs. J. J. Davis reported on visiting the hospital and taking fruit. Mrs. Hanspacker and Mrs. Humphrey told of their part in the distribution of Christmas cheer. Mrs. Hanspacker read an interesting paper on temperance. She spoke of the admission of liquor to the province being legal and showed how this would effect the work of the union. There was a good attendance of members at the meeting.

ASSESSORS' NOTICE

The Board of Assessors of Taxes of the City of Saint John

HEREBY Require all persons liable to be rated for the year 1920 forthwith to furnish to the Assessors true statements of all their personal estate and income, which is assessable under "The St. John City Assessment Act 1918," and true statements of wages or salaries paid to employees, and hereby give notice that blank forms on which such statements may be furnished may be obtained at the Office of the Assessors, and that such statements must be perfected under oath and filed in said office within thirty days from the date of this notice. Dated this fifth day of January, A. D., 1920.

E. MURRAY OLIVE, Chairman. TIMOTHY T. LANTALUM, JAMES COLLINS, JOHN ROSS, Assessors of Taxes

EXTRACTS FROM "THE SAINT JOHN CITY ASSESSMENT ACT 1918"

30. (1) Every person liable to taxation under this Act, shall make the following returns: (a) A return of his personal property located in the City of St. John and taxable under section 6 of this Act. (b) Income taxable under section 6, and the particulars thereof, except when the total taxable income is included in the return of an employer as provided in sub-section 2 of this section. (c) Earnings or receipts taxable under section 8 and the particulars thereof. (2) Every person employing the services or labor of another person or of other persons shall make a statement giving the name and address of every person employed by him and the amount of wages, salaries, or other compensation paid to such employee or employees. Every firm, co-partnership, or corporation shall make a statement of the salaries, allowances, or other compensation of partners or officers. (3) The return or statement required by this section shall be made on or before the tenth day of February in each year, in such form as the assessors shall from time to time prescribe, and shall be made under oath which may be sworn to before any assessor, or any Justice of the Peace of the City and County of Saint John, or any Notary Public; and for the purposes of this Act, and of all other laws relating to the levying, assessing and collecting of rates and taxes in the City of Saint John, any assessor and any Justice of the Peace of the City and County of Saint John, and any Notary Public shall have full power and lawful authority to take affidavits and affirmations, and administer oaths, in any matter whatsoever relating to rates, taxes and assessments in the City of Saint John. 32. If no return, or a fraudulent, incorrect or insufficient return, has been filed by a person required to file a return under the provisions of this Act, and the person so in default refuses or neglects, after notice, to file a proper return, the assessors shall determine the personal property or income of such person taxable under this Act, according to their best information and belief, and shall assess the same at double the amount so determined. In the case of sickness, absence, or other disability of a person liable to the tax the assessors may allow such further time for filing the return as they may deem necessary. 33. If the assessors discover from the verification of a return filed under this Act, or otherwise, that the income of any person subject to taxation under this Act, or any portion thereof, has not been assessed, they may at any time within two years after the time when such assessment should have been made, assess the same, first giving notice to the person to be so assessed of their intention, and such notice shall thereupon have an opportunity within ten days after such notification to confer with the assessors in person or by counsel or by other representative as to the proposed assessment. After the expiration of ten days from such notification the assessors shall assess the income of such person subject to taxation, or any portion thereof which they believe has not theretofore been assessed, and they shall thereupon give notice thereof to the person so assessed, and the tax shall be payable fourteen days after the date of such notice. The provisions of this Act in respect to the collection of taxes shall apply to a tax so assessed. 47. No person shall have an abatement unless he has filed with the assessors the statement under oath within the time required; nor shall the Common Council or the Board of Revision in any such case sustain an appeal from the judgment of the assessors unless said Common Council or Board of Revision shall be satisfied that there was good cause why the statement was not filed in due time as herein provided. 107102-1-8

BRITISH ARE TO BE PROMINENT IN THE OLYMPICS

Military Life Has Produced Many Athletes.

Some Sprinters Who Can Do Ten Seconds or Better — The Next Sculling Race for Championship of World.

New York, Jan. 7.—Reports from England indicate that the English athletic authorities are actively engaged in preparing for active participation in the Olympic games to be held at Antwerp, Belgium, next summer.

Very few of the Olympic team of 1912 will be available for the coming games. Some of these men are dead, and others are too old to compete.

England is not, and never has been, particularly enthusiastic over the Olympic games, although she proposes to go in to win if possible.

It is too early to forecast what Cambridge and Oxford Universities will produce in the way of athletes, as they have just resumed work interrupted by the war.

Among the promising sprinters is W. A. Hill, a youngster who recently captured the English championship for the 100 and 220 yards.

The Daughters of Israel at a meeting last night in the rooms of the Y. M. H. A., Horsfield street, Mrs. J. Goldman presiding, voted \$150 to charitable purposes.

BABE RUTH STILL COMING IT

"Babe" Ruth of the Boston Red Sox. He is playing in the winter league in California and has his own "secretary" to count the gate. He will clean up about \$10,000 in the winter.

ish championship for the half mile and the mile. He has done the half in 1.55 and the mile in 4.15 4-5.

Having won the title of world's sculling champion from Ernest Barry of England, on the Thames late in October, Alfred Felton of Australia now has the right to name the course on which the next race shall be decided.

National track and field championships may be fought out in Los Angeles in 1921, providing a stadium, seating 100,000 persons or more, has been constructed there by that time.

Great expectations are placed in A. G. Hill, an old-timer, who holds the Eng-

SPEED ICE SKATING RESUMED IN FORCE

(New York Evening Post.)

Ice skating, especially speed competition, felt the effects of the world war more than any other pastime.

The spirit of good will, he said would have to be carried also into all our international and international relations.

Mr. King entered into an exhaustive review of the work accomplished by the Borden government during the last two years, claiming that affairs had been allowed to drift.

One of the things that will do much to help skating is the alliance of the hockey and skating associations of the United States and Canada.

The Western Skating Association, which directs the skating activities in the middle west is making extensive changes in its rules and regulations.

More rinks are in operation in New York this winter than for a dozen years past, and Irving Brokaw and others interested in the development of skating are forming the New York Skating Club.

Carl Walls was taken into custody last evening by the police department and held for the Chatham authorities, on instructions received from the North Shore police.

LIBERAL LEADER IN STRONG APPEAL

MacKenzie King Heard in Stirring Speech at Newmarket Last Night.

Newmarket, Ont., Jan. 6.—At a banquet tendered him in this city tonight by the North York Liberal Association, Hon. W. L. Mackenzie King leader of the opposition in the House of Commons, in an able address reviewed the Canadian political situation.

The Liberal leader made practically no reference to the platform adopted at the Ottawa convention last summer, but said in his forthcoming tour he would deal with it in detail.

"If we are to be a united people, we must look at all sides of a question, and to respect the views of others whose opinions differ from our own.

Dealing with the Ontario election he maintained that while many Farmer candidates were returned, the overthrow of the Heast government was essentially a victory for those who differed with them.

Mr. King entered into an exhaustive review of the work accomplished by the Borden government during the last two years, claiming that affairs had been allowed to drift.

One of the things that will do much to help skating is the alliance of the hockey and skating associations of the United States and Canada.

The Western Skating Association, which directs the skating activities in the middle west is making extensive changes in its rules and regulations.

More rinks are in operation in New York this winter than for a dozen years past, and Irving Brokaw and others interested in the development of skating are forming the New York Skating Club.

Carl Walls was taken into custody last evening by the police department and held for the Chatham authorities, on instructions received from the North Shore police.

A Prejudice Overcome

The health of her sixteen-year-old daughter blains with constant source of worry to Mrs. Caxton.

"What's the matter, Florence?" her sister asked. "It's Marian," Mrs. Caxton replied. "She has caught another cold, and I am so afraid of pneumonia."

"Do send out for a twenty-five cent box now and let Marian take them," Mrs. Caxton gave a sobbing cry.

"The spirit of good will, he said would have to be carried also into all our international and international relations.

Mr. King entered into an exhaustive review of the work accomplished by the Borden government during the last two years, claiming that affairs had been allowed to drift.

One of the things that will do much to help skating is the alliance of the hockey and skating associations of the United States and Canada.

The Western Skating Association, which directs the skating activities in the middle west is making extensive changes in its rules and regulations.

More rinks are in operation in New York this winter than for a dozen years past, and Irving Brokaw and others interested in the development of skating are forming the New York Skating Club.

Carl Walls was taken into custody last evening by the police department and held for the Chatham authorities, on instructions received from the North Shore police.

NEW BILL AT THE OPERA HOUSE

Treat for Baseball Lovers—Five Entertaining Specialty Acts as Well.

Five good vaudeville acts and two interesting reels of motion pictures comprise the new programme, which was presented at the Opera House last evening before capacity houses.

Following an interesting and instructive picture baseball fans were given a real treat. Some of the chief players of the New York Giants were seen in action. Their plays were photographed at normal speed and then the action was slowed down eight times.

Archie Onri then entertained the audience. After painting a very pretty scene he gave a demonstration of comic dancing, after which he amused the audience with some comic juggling.

Jack and Jessie Gibson conclude the programme with a difficult, but highly entertaining uccy performance. They were given hearty applause.

The retiring members of the Philadelphia select and common councils voted themselves 145 mahogany desks and chairs for which the city paid \$38,000, but the two presidents have announced that they will not take the "souvenirs."

At a meeting of the directors of the Victorian Order of Nurses last evening at the home of Mrs. H. A. Powell, it was reported that two more nurses had been added to the staff in St. John.

"GENERAL" DIXON.

Leader in the Great Mission in Centenary church next week.

PRESENT PRIZES TO BOY SCOUTS

In Trinity church school room last night prizes were presented in the Wallace Nesbitt junior first aid competition in Boy Scouts' work.

Dr. Skinner then presented the prizes to the winning teams. The first team from St. Jude's troop was composed of the following boys who each received a wrist compass: Lorimer Kierstead; William Edwards, Preston Jennings, and Reginald Connor.

When a brick fell on the head of an inventor during the San Francisco earthquake, the man set to work to devise an earthquake-proof brick and succeeded as well that several large plants in California and Arizona now have dies for making his bricks.

At a meeting of the directors of the Victorian Order of Nurses last evening at the home of Mrs. H. A. Powell, it was reported that two more nurses had been added to the staff in St. John.

Advertisement for Master Mason tobacco. It features an illustration of a man in a top hat and a pack of 'Master Mason' cigarettes. Text includes: 'MASTER MASON is the sportman's choice. It contains the choicest fully matured tobaccos, pressed into a solid plug. MASTER MASON Plug Smoking Tobacco is convenient, handy, easy to carry and makes the sweetest, coolest, smoothest smoke obtainable. Say MASTER MASON to your dealer—he knows. Price 20 Cents EVERYWHERE.'

Advertisement for 'Few Folks Have Gray Hair Now'. Text: 'Few Folks Have GRAY HAIR NOW. Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur. Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful, dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.'

Advertisement for 'Direct Service Between Brazil and Dominion'. Text: 'DIRECT SERVICE BETWEEN BRAZIL AND DOMINION. Montreal, Jan. 6.—Direct and regular service between Canadian ports and Brazil is the latest development in connection with the rapidly expanding system of the Canadian Government Merchant Marine. The intention is that the Canadian Pioneer or the Canadian Splendor shall sail for Buenos Aires about January 20, and if sufficient cargo offers call at Pernambuco, Rio De Janeiro and Santos. MANTOBA TO HAVE MOUNTED POLICE FORCE. Winnipeg, Jan. 7.—A provincial mounted police force is to be organized in Manitoba to enforce law in the new Rice Lake and Pas mining camps and other remote sections. A horse owned by Thomas Hayes, 17 Sydney street, backed through one of the windows of Ungar's Laundry yesterday afternoon. It was frightened by something in the street.'

Advertisement for 'Macdonald's Tobacco'. It features a large illustration of a tobacco field with a sign that says 'TOBACCO SERIES No. 1 Drawing from an actual photograph of a typical Tobacco field in the "Old Belt" (Virginia and North Carolina)'. Below the illustration is the text: 'MACDONALD'S TOBACCO Smoking and Chewing The Tobacco with a heart'. At the bottom right, it says 'By "BUD" FISHER'.'

MUTT AND JEFF—YOU CAN'T BLAME MUTT FOR HANGING THE SIGN ON JEFF'S FACE By "BUD" FISHER

A multi-panel cartoon strip titled 'MUTT AND JEFF—YOU CAN'T BLAME MUTT FOR HANGING THE SIGN ON JEFF'S FACE' by 'BUD' FISHER. The cartoon depicts two characters, Mutt and Jeff, in a livery stable. Mutt is holding a sign that says 'A MUTT, LIVERY STABLE'. Jeff is looking at the sign and saying, 'LOOK, I HAD A SIGN PAINTER PAINT A SIGN FOR ME. HE GOT A GOOD LIKENESS OF ME, DON'T YOU THINK SO?'. Mutt replies, 'BUT WHO'S THE MAN ON YOUR BACK?'. Jeff says, 'QUITE SO, QUITE SO. IT LOOKS LIKE YOU'. The cartoon is signed 'FISHER' in the bottom right corner.

Local hockey fans must feel blue when they read of the exciting games being played in upper Canada. If there was a rink available in this city some good teams could be organized as many crick players from Montreal and Toronto are working here in various steamship offices. Perhaps next year some enterprising citizen will come forward and build a new rink, which would undoubtedly be a good paying proposition.

Local fans are watching with interest the doings of the big leagues. The sale of "Babe" Ruth to the Yankees should strengthen the team considerably. The owners of the New York club are evidently out to win the pennant next year and money is apparently no object when a desired player is available.

The physical advantages of wrestling are evidently being appreciated by those in charge of athletic associations throughout the city. Classes have been formed and the members are taking quite an interest in the sport.

As announced in these columns yesterday the annual meet of the International Skating Union will be held on Lake Placid, N. Y. in February. There is no reason why an elimination contest should not be held in this city and the skater winning the championship sent away to represent this city. Thorne, a former St. John speed skater, who is now in Toronto, has made quite a name for himself during the last two years. He has met some of the fastest skaters in America and won several events. St. John has produced some of the best skaters in the world and at the present time there are some who give promise of following in their wake.

Huggins said that he and Ruth has come to satisfactory terms. He declined to say just what sum was paid to the Boston club for Ruth, but it was said to be about \$125,000. Ruth, according to Huggins, had expressed his satisfaction with the change, and said he would try to break his batting record this season for New York.

**Wagner Not With Red Sox.**  
Boston, Jan. 7.—President Frazer of the Boston American League Baseball club announced last night that Hel Wagner, former shortstop of the Red Sox, would not be with the team next season. Wagner was assistant to Manager Barrow during the latter part of the 1919 season. No statement was made as to his plans.

**Toledo Gets Dubuc.**  
Toledo, Ohio, Jan. 6.—Outright purchase of Pitcher Jean Dubuc from the New York Nationals, was announced today by Roger Bresnahan, president of the Toledo club of the American Association. This gives Bresnahan four pitchers.

**THE RING.**  
**Object to Battle.**  
New Haven, Conn., Jan. 6.—A citizens' committee formally protested to Mayor David E. Fitzgerald today the proposed Leonard-Dundee boxing match her on Jan. 16. The allegation was that while advertised outside of Connecticut as a "championship match of twenty rounds to a decision."

**HOCKEY.**  
**N. H. L. Standing.**  
The following is the standing of the N. H. L.:

	Won	Lost	For	Agst
St. Patrick's .....	3	1	16	7
Ottawa .....	3	1	11	6
Canadiens .....	1	2	13	12
Quebec .....	0	3	11	22

**Games Wednesday.**  
St. Patrick's at Quebec.  
Canadiens at Ottawa.

**New Attendance Record.**  
That Toronto is hockey crazy is shown by the remarkable crowd that greeted the Ottawa-St. Patrick game Saturday night, the paid attendance of 7,353 being a record for professional hockey in Toronto, and is only thirteen below the rink record, which was established in 1915, when 7,366 paid to see Victorias and St. Michael's clash in the first game for the senior O. H. A. championship. However, Saturday's crowd was probably a larger one than that which witnessed the Victoria-St. Michael game, as the different military hospitals around the city always send down a quota of patients for each game. This list varies for every game, as on certain nights some of the patients may not be able to come owing to sickness, but the allotment generally runs from 180 to 200. These are admitted free, and therefore are not counted in the paid attendance.

**RING.**  
**Langford to France.**  
Milwaukee, Wis., Jan. 6.—A cabled offer by Messrs. Vene and Decol, French promoters, to bring Sam Langford, negro heavyweight, to Paris for a series of bouts, was accepted today by Howard Carr, of Chicago, Langford's manager. Carr was here conferring with B. F. Steinel, Milwaukee representative of the French promoters. According to plans the series of bouts would lead up to a battle with Georges Carpentier.

Steinel said that the Langford's plans indicated a possibility that Jack Dempsey may lose his chance for the quarter of a million dollar purse offered him for a bout with Carpentier. Jack Keenan, Dempsey's manager, in a letter received today by Steinel, said he had the number offers under consideration and did not intend to close with any at present.

**Cleveland Bout.**  
Cleveland, Jan. 7.—Matt Brock, a Cleveland lightweight, won a newspaper decision over Frankie Brown in a ten-round contest here last night.

**THE AUTOMOBILE SHOW IN NEW YORK**  
(New York Times, Saturday.)  
In the opening today of New York's twentieth annual automobile show, one is impressed not so much by the wonderful progress of the horseless carriage within the first two decades of this century, but rather at the rapid adjustment of the motor-car industry from its extensive war work activities barely a year ago to its present condition of optimism. The exhibition is more complete than any former national automobile show in that passenger cars and commercial vehicles are displayed for the first time during the same week, each type in its separate building. In this respect the New Year show presents a convincing object-lesson of the wide field of efficiency and utility of the motor car. The passenger cars, with their countless refinements in mechanical and body design, are less characteristic of luxury than of convenience. It is self-evident that, with more than 7,000,000 cars in this country at the close of 1919, the automobile long ago became indispensable to the American public, and figures show that the greatest increase in use during the last two years has been in the agricultural districts of the Middle West and the South. The motor trucks, represented by an output of seventy different factories, portray even more vividly the necessity of motor use for the country's needs. They have given an impetus, immensely stimulated by the war, to highway transportation which, under more normal conditions, would hardly have been possible for several years to come. To provide good thoroughfares for proper transportation new bond issues and large appropriations have been authorized by more than half the States in the Union, and it is estimated that nearly one billion dollars, including the Federal Aid moneys, will be available for new projects this year, which means the opening up of an area of highway construction such as has never before been seen in the United States. By far the most encouraging as well as surprising fact illustrating the stability of the American motor-car industry is that during its first post-war year more cars were made than in any previous year. The year 1917 had held the record with a total of more than 1,800,000 cars, but the authorized figures just compiled by the National Automobile Chamber of Commerce show that 1919 exceeded this by a small margin, the total production being nearly 1,892,000 cars. Of these, 1,686,000 were passenger motor cars, about 300,000 short of the 1917

### Osler's Great Influence On Medical Profession

Exercised Through High Scientific Attainments,  
Notable Qualifications as Teacher and Writer  
and Winning Personality—Osler's Career in  
Two Countries.

(By Richard C. Cabot, M. D., professor of medicine in Harvard University.)  
Although it is fourteen years since Sir William Osler left America, his extraordinary and beneficent influence upon American medicine is still a dominating factor for good in our profession. His death leaves in the medical profession no figure of equal size and importance for English-speaking people.  
His period of fame and power in this country dates chiefly from the period of his service at Johns Hopkins, and covers, therefore, the last thirty years. He was one of the group of remarkable men who had planned and organized the medical school at Johns Hopkins. Other medical schools at that period had grown up either on a purely commercial or semi-fraternal basis or else were burdened with long historical traditions which made it impossible for any man or group of men to mould them definitely towards an ideal standard of medical teaching and medical practice. But Professor Osler, together with Professors Wm. H. Welch, F. P. Mall and Wm. H. Howell, had the great and joyful fortune to be able to organize a medical school from the ground up and on principles as nearly ideal as the richly endowed nature of this group permitted. Of financial endowment, indeed, the school never had any very large share, but this was made up by the devotion, industry and enthusiasm of the original group of remarkable men who founded it and shaped it.  
Very shortly after this time appeared the first edition of Dr. Osler's famous textbook of medicine which it is difficult to speak justly without seeming to exaggerate. Founded as it was upon Dr. Osler's own extraordinary voluminous and painstaking observations of medicine in his previous twenty years, as well as upon his very wide knowledge of French, German, English and American literatures, this book achieved at once a prominence in medical literature which has never been approached since. Indeed, no other single volume testifies so completely in any language has ever approached it in value.

Still more important, I think, has been the influence exerted through the students who after their graduation have occupied teaching positions in almost every medical school in the country, where they have consciously continued his traditions and zealously aimed for his ideals. Every student of Osler's feels it incumbent upon him to spread the Osler spirit in medicine and thus succeeding classes of medical students in schools scattered all over the country have felt the impress of Dr. Osler's standards, psychological and moral.

Still further, however, his influence has extended over this country owing to his rather extraordinary personality habits. He was a great traveller and wherever he went he made medical addresses and attended medical meetings, establishing cordial and intimate relations with physicians and students of all ages. In these journeys, as in his later and final journey to England, his minute and painstaking studies in medical biography assured him a welcome. Thus he would go into the Mississippi Valley and deliver addresses on some of the local worthies of medical fame, showing an appreciation of their work and position in the community which almost stupefied his audiences. He had no provincial narrowness and seemed to consider each section of the country particularly his own. Naturally each section returned the feeling. Moreover, he persistently attended national gatherings of physicians, at a time when most of the wise and great of our profession thought it best to hold aloof from these meetings. Here he read papers or freely and frankly discussed the papers read by others, and by his scholarship and bonhomie won hearts everywhere.

Spread through these four channels, I think it is no exaggeration to say that his always good influence over American doctors and American medicine was something never equalled in our profession. Indeed, I doubt if any single man has ever so deeply influenced any other profession. Countless men who, like myself, had never been among his students, were followed and helped individually by him, no matter how widely separated they and he might be.  
The character of his own work, as a teacher and practitioner of medicine, combined the best traits of English and German schools. He was the first American medical scholar, in an international sense, the first medical teacher who embodied and kept abreast of medical progress in all the important medical centres of the world. In relation to medical research, he did no experimental work with animals, but he greatly increased our knowledge of the natural history of disease by his multitudinous and accurate observations at the bedside and after death. He was the first of American teachers who combined the laboratory discipline with bedside practice and observation. Since his times such a combination is universally sought after by medical teachers, but before him most teachers did their work either at the bedside or in the laboratory—almost never in both places.  
From the beginning of his service at Johns Hopkins he became in spirit (though not literally) a full-time medical teacher; that is he always thought of his medical teaching and hospital work as his first duty and pleasure and made practice secondary. Before him, and to a large extent since his time, the work of a professor of medicine has been more or less of an avocation, thrown into the

spare moments of a busy practitioner's life. But his influence was as much upon the moral life as upon the scientific enthusiasm of his pupils. Parallel with his thorough and scholarly medical work he always stimulated and encouraged as honest, liberal and humane ideal for medical men. He founded and inspired a club for medical biography at Johns Hopkins, wherein he endeavored, through studies of the noblest figures in medical history, to cultivate in his students and associates a veneration for nobility of character in medical men. Many of his addresses (afterwards published in volumes called "Aequanimitas," "Counsels and Ideals," "An Alabama Student and Other Essays") dealt with the ethics of the profession and especially tended to broaden the historical and cultural background of the student. In 1906 he gave at Harvard the Ingersoll lecture on Science and Immortality, confessing there his adherence to this long-cherished human hope.

Few men have ever equalled him in the power to inspire industry and research in other men. Indeed, a large portion of his scientific output has been published under the names of some of his pupils to whom his constant generosity, he furnished the germinating ideas and the necessary checks and warnings that made their work valuable. Of course, his generosity in this respect set an example that sank very deep into the lives of his disciples.  
He was twice married and by his second wife became the father of two sons after their marriage, of a son who was the apple of his eye. One of the most entrancing pictures of Dr. Osler that my memory retains is of him and his small son playing cricket in his back garden at Oxford, Osler bowing to a small boy not much taller than the wicket. The death of his son in the recent war was a blow which Dr. Osler never got over. From that time until his death he never was quite himself.

At Oxford the hospitality extended by Sir William and Lady Osler—not only to all American physicians and medical students but to all Americans of every kind—was almost incredible. Into and out of his house there was a constant stream of Americans, all of whom seemed to be his intimate friends. To all he and Lady Osler gave themselves with cordiality that seemed to have no end. This was possible because from the time of his removing to England he always took life comparatively easily; that is, he relaxed to a considerable extent only the furious activities of his American years. At Oxford his academic duties were few. He saw but few patients and settled himself swiftly and comfortably into his Oxford life. There, as in America, he knew more about local history than the Oxonians themselves and so became at once a powerful and permanent influence.

No one who has known him will ever forget his merry, dark eyes, his swift, alert movements, his constant flow of jokes and anecdotes, his warm, ready affection for his innumerable friends and acquaintances, his inexhaustible enthusiasm in medical scholarship, his steady honesty and his hatred of sham and pomposity. An influence such as his never dies out, for it is implanted in the lives of those who loved and followed him and through them extends from generation to generation.

### WOMEN'S COUNCIL TAKES THE LEAD

Will Raise Funds to Maintain  
a Psychiatric Clinic in Halifax.

The following circular letter has also been issued by the Halifax Local Council of Women:  
The Local Council of Women of Halifax have been asked to raise a fund for the purpose of starting and maintaining a psychiatric clinic in Halifax. Its ministrations will be free to all-comers. Its benefits will be far-reaching.  
1.—Nervous and mental cases will be diagnosed and treated advisedly, by avoiding much unnecessary suffering, and in many cases helping to arrest a mental breakdown, which would otherwise result in confinement in the hospital for the insane.  
2.—The clinic will be in close co-operation with the juvenile court of Halifax, giving that body splendid opportunities for helping the delinquent boy or girl, by determining their mentality, so that suitable reformatory measures may be taken.  
3.—Parents, teachers, social workers and others will send to the clinic children of doubtful mentality, so that their present and probable future capacity may be determined and the education of the most unresponsive child may be adapted to its capacity and its needs.  
4.—Students of the medical college and of the classes in psychology may, by attending this clinic, gain practical experience in a subject of vast importance in the modern world of curative effort.  
It is estimated that the yearly cost of upkeep of this clinic will be about \$2,500; and we feel that it is but necessary to call your attention to the establishment of so valuable an asset to our community to insure your sympathetic and immediate help.  
Sincerely yours,  
The L. C. of W. of Halifax.  
M. K. Stead, Cor. Sec'y, pro tem.

An old sea captain retired to a country cottage, was very proud of his watch, which for nearly thirty years had never once gone wrong.  
Early one morning he roused a visitor who was staying with him and together they set out to see the sun rise. The host kept consulting his watch and then the calendar which gave the times of the sun's rising and setting.  
There was a long wait in the pale, vague dawn. Presently, tapping his watch with his forefinger, the mariner said:—  
"If the sun ain't over that hill in a minute and a half he'll be late."

LINE UP OF UNEMPLOYED RETURNED SOLDIERS  
Waiting outside the Ontario Government Employment Bureau for an interview. If the men could not be given immediate work they were given an order on the patriotic fund to tide them over the Christmas season.

### Plan to Settle U. S. Labor Disputes Proposed by Industrial Conference

Regional Boards of Inquiry and Adjustment, With National Tribunal of Appeal—Strikes by Public Service Employees Opposed.

Tentative recommendation for the establishment of machinery to prevent or retard labor conflicts in private industry are announced by President Wilson's Industrial Conference, with a view to obtaining constructive criticism before a final plan is adopted.  
The plan as outlined, contemplates the creation of a National Industrial Tribunal and regional boards of inquiry and adjustment, which would move to the settlement of disputes before there was any stoppage of production. Decisions would have the full force and effect of a trade agreement between the parties to the dispute.  
Regarding that some public utilities, such as railroads, are essential to the very existence of the people, the conference's tentative statement expressed the opinion that the "interposition of such essential public utilities is intolerable." But the conference states that further consideration is required of the problem whether some method can be arrived at that will avert all danger of interruption to service.  
Government employees, the third class into which the wage-earning public is divided, should have the right to associate for mutual protection, the statement declared, but no interference by any group with the continuous operation of government functions through concerted cessation of work or threats thereof can be permitted.

Hearings to Begin January 12.  
When the conference reconvenes on January 12, public hearings will be held to obtain expert advice as to the drafting of the final recommendations in the light of such criticism of the tentative report as may be received.  
While stating that at this time it was believed more essential to devise machinery for averting conflicts than to undertake a discussion of the causes of unrest, the conference indicated clearly the general principles on which it has based its recommendation.  
"Our modern industrial organization," the tentative report said, "if it is not to become a failure, must yield to the individual a larger satisfaction with life."  
Not only just the theory that labor is a commodity to be abandoned, but the concept of leadership must be substituted for that of mastership. Human fellowship in industry must either be an empty phrase or a living fact.  
"Pending the growth of better relationships between the employers and employees, the practical approach to the problem is to devise a method of preventing or retarding conflicts by providing machinery for the adjustment of differences. To be successful such tribunals must be so organized as to operate promptly as well as impartially."  
The plan fact is that the public has long been uneasy about the power of great labor organizations. The community must be assured against domination by either. The plan which follows does not propose to do away with the ultimate right to strike, to discharge or to maintain the closed or the open shop."

National Industrial Tribunal.  
The national industrial tribunal, suggested by the conference, would consist of nine members appointed by the president, three each representing the employers, employees and the public. The tribunal would, in general, be a board of appeal, whose decisions must be unanimous, but provision was made for public majority and minority reports in cases where no agreement was possible.  
Industrial regions probably twelve in number conforming to the federal reserve system, would be outlined and a regional chairman appointed for each by the president. Vice-chairman would be named by the tribunal, if the work in any region required it. Panels of employers and employees for each region

would be prepared by the secretary of commerce and the secretary of labor, respectively, after conferences with the employers and workers of that region. Each panel, approved by the president, would be classified by industries, with sub-classification into crafts, among the employees. Lots would be cast to determine the board of inquiry for each panel.  
When a dispute arose in any region, the chairman would request each side to submit to a regional board of adjustment, consisting of the chairman, one representative chosen by each side, and two unchallenged members of each panel. Appointment of representatives of both sides to any dispute could constitute an agreement to continue the status that existed when the trouble arose. Decisions of such regional board would have to be referred by unanimous vote to an umpire, whose decision would be final, or to the national tribunal.  
Refusal by any side to a controversy to submit to adjustment would result in the constitution of a Regional Board of Inquiry, consisting of the chairman, two members of each panel and the representative of either side that agreed to adjustment before the inquiry was completed, the board of inquiry would become a board of adjustment by appointment of the remaining members. The board of inquiry would investigate the dispute and make public its findings for the benefit of the public.  
"In the presentation of evidence," the preliminary statement said, "each side shall have the right to present its position through representatives of its own choosing. All the properly constituted boards would have the right to subpoena witnesses, examine them under oath, and to require the production of papers pertinent to the case.  
Cases of adjustment and conciliation whether Federal or State, or established under mutual agreements of workers and employers in any industry, would not be affected by the creation of the system suggested by the conference.

Regarding Public Utilities.  
With regard to public utilities the conference made the following statement:  
"The plan here proposed presents greater difficulties in application to certain public utilities than to competitive industry. The continuous operation of public utilities is vital to public welfare. As the capital invested is employed in public use, so is the labor engaged in public service, and the withdrawal of either with the result of suspending service makes the people the real victim."  
The conference believes that a plan of tribunals or boards of adjustment and industry should be applied to public utilities, but in the adaptation of the plan two problems present themselves: First, governmental regulation of public utilities is now usually confined to rates and services. The conference considers that there must be some merging of responsibility for regulation of rates and services and the settlement of wages and conditions of labor. Such coordination would give greater security to the public, to employee and to employer. Second is the problem whether some method can be arrived at that will avert all danger of interruption to services. These matters require further consideration before concrete proposals are put forward."  
After declaring that the government could not permit its functions, conducted in the interests of all the people, to be interrupted by concerted cessation of work, the conference further affirmed that government employees concerned with the administration of justice or the maintenance of public safety or public order should not be permitted to affiliate with any organization which authorized the use of the strike. An essential part of the application of these principles, it was added, was the establishment of tribunals to remedy

promptly any grievances submitted by Government workers.  
"Legislation of the nation, the states and the municipalities," the conference said, "should be improved to prevent delay in hearings and to enable speedy action when there are grievances."  
When President Wilson summoned the conference, of which Secretary Wilson is chairman and Herbert Hoover is chairman, it was expressly denied the right to consider any existing industrial disputes, which was the question which wrecked the first industrial conference. While no specific references to recent industrial troubles were made, several recommendations and statements of the conference reflected the experience of the steel strike and the Boston police strike.  
Other members of the conference are Martin H. Gynn, Thomas W. Gregory, Richard Hoover, Stanley King, Samuel W. McCall, Henry M. Robinson, Julius Rosenwald, Oscar S. Straus, Henry C. Stuart, F. W. Taussig, William O. W. Welkesham and Owen D. Young, with Dr. Henry R. Seager as executive secretary.

### NEW POWERS FOR CONTROLLER OF PRINT PAPER

Ottawa, Jan. 6.—(By Canadian Press Limited).—The minister of customs is empowered, under an order-in-council, signed today by the governor general in council, to refuse licenses for the export of news print paper from Canada, the product of any mill which has refused or is refusing to comply with any order of the controller of paper, R. A. Pringle, K. C.  
Another order-in-council gives the paper controller power to requisition and distribute to Canadian newspaper publishers any quantity of news print paper which the manufacturers refused or failed to deliver to such publisher at the order of the paper controller. The controller is given the right to enter premises and call upon any sheriff or peace officer to assist him in taking over the paper in question "in whose possession whatsoever it may be found."  
To Franklin C. Gardner, "Brooklyn" Blind Man on the Corners" who stands on the street daily selling papers, a local merchant gave as a Christmas present a small strong wooden platform, covered with heavy carpet to stand on through the winter months.

### Shirriff's ORANGE Marmalade

Before anybody knew about marmalade, nature perfected Seville Oranges and Cuban Sugar Cane.  
Shirriff's Orange Marmalade combines the perfection of both.  
Tartness of Seville, sweetness of Cuba, blended in the Shirriff way! Just try it.  
For sale everywhere in glass or large tins.

## MOTOR TRUCKS

### Fleet Owners Prove Stewart Quality

Hundreds of firms own fleets of Stewarts—Dexter's Bakery, Springfield, Mass., bought their first in 1916 and now own 27; H. J. Ball of Milwaukee, bought his first truck in June, 1917, and now owns 22; Rothenberg & Co., one of New York's largest department stores, purchased a Stewart in November, 1918, and now operate 16.  
The low operating and upkeep expense of Stewart Trucks has established for them a remarkable economy record in over 600 American cities, on hundreds of farms, and in 27 foreign countries.  
Perfect Stewart design has eliminated hundreds of needless parts, reducing the weight of the truck and making it stronger, simpler to operate and more economical as to gasoline, oil and repairs.  
Quality Trucks since 1912
