Tom Tripe prided himself on the quality of the "weed" which he carried.

What did eight eighths of a lump of sugar to melt away in his mouth, however such a thing might suit the taste of women and babies?

He wanted something solid - so did not buy the "weed" of the most profane contempt.

He wanted something that indicated low taste, depraved association and extreme mental imbecility there could be no doubt.

Local and General News.

Dr. J. H. Arnold, may now be consulted at his office, over Mr. Street's Drug Store, Newcastle.—Advt.

An Assembly in connection with Prof. Colby's Newcastle dancing class will be held on Friday evening next.

DANCE.—Professor Colby has two valuable prizes to be competed for between his Newcastle and Chatham classes to be presented to the best lady and gentleman waltzers.

LARGE STOCK.—Attention is directed to the large stock of Foreign Wines and Spirits advertised by D. Patton of St. John. He is one of the largest and most reliable dealers in his line in this city.

A COURSE OF LECTURES under the auspices of the Y. M. C. A. of Chatham has been commenced. A notice of the opening lecture, a very interesting one by Rev. Wm. Wilson, will be found in another column.

THE ANNUAL MEETING of the Miramichi Religious Tract Society will be held in the Temperance Hall, Chatham, on Tuesday evening next. Addresses will be delivered by the Rev. Messrs. Anderson, Crisp, Smith, and Wilson.

THE CONCERT referred to in our last issue has been postponed and will now be held on Thursday evening next, 16th inst. The choruses as well as other parts of the programme will be new to a Chatham audience. Chairs for reserved seats will also be introduced, choice of which can be secured at the Miramichi Book Store.

LABOR FEDERAL.—Mr. Richard Fairman who died on Sunday last was buried on Tuesday at St. Paul's Churchyard. St. George's Society attended the funeral wearing their sashes and badges in mourning. They were preceded by the 73rd Band which was in attendance as a mark of respect to deceased who had been an old soldier and at the time of his death, was a pensioner. The attendance of citizens generally was also large.

SEAS.—We have received from Mr. W. H. Marson, Seed Merchant, Guelph his Illustrated Seed Catalogue and Guide for 1877. It is a very bright and up to date work and would recommend our readers who are in want of fresh reliable seeds to send for a copy. Mr. Marson's reputation as a Seedman stands high, as shown by the many testimonials received by him. We notice that he is also manufacturing Bone-Dust for manures.

SKATING.—The skating competition which was to have taken place at the rink on Saturday last was postponed until Monday evening next. It is not a match between two individuals as announced by us last week, but will be open to all ticket holders wishing to compete.

A competition between lady skaters will also be held on Monday, 19th inst. The rink is silver up, gold, and ready for business. Desires that the other side give.

SPRING GOODS.—Our merchants will see, on referring to our advertising columns that the Anchor Line Steamship Company is making every effort to meet the requirements of the importers of the Maritime provinces. In addition to sailings formerly advertised they have put the Tyrion on from London as an extra vessel. She will leave that port on 3rd March, thus affording opportunity for the dispatch of goods from the other side at a date which will meet the convenience of a large number of patrons. The delays of sailing ships have heretofore, been found to interfere very materially with our merchants' transactions for the Spring trade and we have no doubt that the Steamers will be well patronized.

Bank of Montreal.—We referred, some time since, to the removal of F. E. Winslow, Esq., Agent of the Bank of Montreal, from Chatham, but it required time to fit up that portion of the building leased by the Agency here which is to be devoted to the Bank's business. The work is now completed and it reflects credit on the taste of the management. One of the bank's best and safest has been provided and is now in the vault which is itself, fire proof, and the arrangements, generally, are in keeping with the reputation of the Bank of Montreal.

The New Brunswick is now the sub-agent, but as the same business facilities are afforded there as here, and we hope nothing will occur to destroy or weaken the confidence which results from the success which has attended the institution since its establishment. As will be seen by advertisement the removal to the new office takes place on Monday, next.

Lecture.—The Rev. Wm. Wilson delivered the opening lecture of a course got up under the auspices of the Chatham Young Men's Christian Association, on Tuesday evening last.

The subject of the lecture was the "Rise, progress and aim of the Young Men's Christian Association." The lecturer commenced by showing how from unlikeliest sources great results often follow and instanced this by examples taken from intellectual discourses, mechanical inventions, political movements and moral reforms. He then applied the principle to the small beginning of the first association in London, founded by Mr. George Mills in 1844. So insignificant appeared the first association that no one thought that its power would become so great in so short a time. The lecturer gave next a sketch of the description of the rise and progress of the association in Europe and America; sketching particularly the career of Mr. Moody, who was simply the lay delegate—the agent of the Y. M. C. A.—and never assumed the position of the clergyman, but who always solicited their assistance and co-operation, and concluded with a most stirring appeal to young men to join this excellent institution, the best moral reform agency of the present day.

Bathurst Correspondence.—Although writing from Bathurst I will endeavor to steer clear of fish, your readers will relish a piece of local news. The poor men's meeting was done to death long ere this, they never could stand such distinctions and so many of them as have been served up by Messrs. Venning, Hickson, & Co. come genna. Well, let me say a little now, as indeed they have for the past two weeks. I have not yet heard of their return as prophesied by the Inspector.

What about that lateral canal appendage, that ridge sidewalk? Well we have got an installment of it finished, the other is to be finished. Of course it is the half-mile to town for the great man (in sidewalk) lives in town. The reason why it is not finished so far as I can hear is or was some trouble, as indeed they have for the past two weeks. I have not yet heard of their return as prophesied by the Inspector.

Mr. Lawler to explain, but that gentleman failed to do so. A motion was made that Mr. Smith be Secretary but that gentleman declined the nomination and a similar course was followed by Mr. A. W. Peterson who was also nominated as Secretary.

Mr. Smith pointed to the evident fact that Mr. Lawler had come to the meeting determined to make the proceedings as disagreeable as possible and spoke warmly on the subject of that person's attacks on the Chairman, without his being either able or willing to make good statements impugning the Chairman's conduct.

Mr. Lawler referred to something concerning "strangers" and "smells" and considered Mr. Smith's remarks concerning himself entirely unavailing. Mr. Donald McLaughlin also referred to some "strangers" who were trying to force their new-fangled notions on a place they had lived in but not a short time by bringing up a bill that was not needed. He characterized the remarks as being a waste of energy and thought they had better get on some industry that would give employment to themselves and other people also.

Mr. McLaughlin concluded his remarks by alluding to "a bag of paper," which he did not bear distinctly. Mr. Gillespie replied on behalf of the Committee showing that he, himself, was a large employer of labor and he said that other members of it, with two or three exceptions were similarly interested in the industrial interests of Chatham, and he could tell Mr. McLaughlin, when that gentleman told him that he, as a member of the Committee, had no energy, that he had the energy which had been mainly instrumental in providing the site for an Alma House, which he could not say had been any too successfully managed since it passed into other hands.

After some further discussion on points raised by Mr. Lawler—it being agreed that the present, including most of the non-repayers and boys, were not prepared to deliberate on the bill got up at their request by their Committee—Mr. Gillespie moved that the further consideration of the question of incorporation be postponed for one year. Several voices cried out, "make it five years" while others, with solicitude for future generations, suggested, "forever."

Mr. James Desmond denounced incorporation and those who were moving in it and said it would be better for them to use their talents and energies in reviving some of the industries of the place during the winter season. He and others were willing to work, but there was nothing for them to do.

Mr. James Carter deprecated the references which two of the speakers had made to "strangers" and thought those gentlemen should be in mind that they, themselves, came to Chatham as "strangers." He was as much interested as anyone else in the place and he too was "a stranger." He would vote for Mr. Gillespie's motion although he believed in the principle of incorporation.

Mr. Daniel Crisp also spoke in a very practical way on the question, and thought it would be better to change the motion so that the postponement would be indefinite, the present meeting having authority only to deal with the matter so far as it was itself concerned.

Mr. Potheringham, referring to the bill as published, said that its essential provisions could be secured without incorporating the town, he himself, as Mr. New Richmond, and the statement made by the Rev. Mr. Russell, who was present at the meeting, and he would vote for the motion to receive the incorporation as one of the charges within the bounds and under the authority as presently can be in the circumstances.

Rev. J. R. Keane, at present laboring in connection with the Presbytery at New Brunswick, spoke in support of the motion simply to postpone the question of incorporation, the vote going to the right and by a two-thirds of those present going to the right and the meeting closed.

A lengthy discussion took place in reference to the adjoining boundaries between Dalhousie congregation and that of the Rev. Mr. Lawler. At the last meeting of the Presbytery a declaration had been made to which it appears had not given satisfaction to the parties concerned. A petition was laid before the Presbytery asking them to re-consider the whole matter and let former arrangements continue.

That a Committee consisting of the Revs. Messrs. Wilson, Houston, and Johnston, be appointed to draw up a plan in reference to the irregular boundaries and report at next meeting; the same Committee to reply to the resolutions laid before the Presbytery by the parties.

Some other presbyterial appointments were then made. Rev. Mr. Fogo to preach in the Baptist Church on 11, 13, and 25, and at Kouchibouguac, March 4, and Mr. Robertson to preach at Black River on Sabbath March 4, and April 1.

After various remarks from the general assembly had been considered and disposed of the Presbytery adjourned to meet in St. Andrew's Church, Newcastle, on the first Tuesday in May, being the first day of the month.

St. Andrew's, Newcastle.—One of the most enjoyable entertainments ever held at the Miramichi took place on Thursday last under the auspices of the Rector and the congregation of St. Andrew's Church at Newcastle. In the afternoon the public were admitted to the Masonic Hall where there was an attractive display of many articles, such as well as refreshments, and tea was served from 5 to 7.30, the patronage given by the public being large. Tea being over the tables were moved and the seats placed in position for the accommodation of the audience that gathering to be present at a concert by lady and gentlemen amateurs. Shortly after eight o'clock the rendition of the following programme was commenced:

- 1 Piano-forte Duet.
2 Glee—"Hail Smiling Morn."
3 Song—"We'll better bid a wee."
4 The Hand-Bell.
5 Song—"Come back to Erin."
6 Glee—"The Shepherd's Call."
7 Song—"The Piper's Tune."
8 The Hand-Bell.
9 The Hand-Bell.
10 Song—"List to the Convent Bells."
11 Piano-forte Duet.
12 Glee—"Rule Britannia."
13 The Hand-Bell.
14 Glee—"Rule Britannia."
15 The Hand-Bell.

Criticism of a concert is not within the scope of the present notice, but were it otherwise it would be our pleasant duty to speak in very flattering terms of the efforts of all the performers, and in particular to commend the excellent execution of the hand-bells used cracked during the second appearance of the gentlemen who performed on them and marred what, judging from the manner in which they were played at first, promised to be a decidedly meritorious feature of the entertainment. To say that everybody was pleased is but a commonplace and, we believe, inadequate expression of the good impression left upon

the audience, and Rev. Mr. Barber, who has been Rector but a short time, who has been so congratulated himself upon the success which has, thus far, crowned his administration of the affairs of a parish in which, under Providence, he appears to be awaking a lively interest in Church matters. The entertainment of Thursday evening, so successful in its result, and so hearty accord with the ladies and gentlemen of the congregation entered into the Rector's plans, and the fact that some \$250 were realized, out of which some \$200 will be netted for the benefit of the Sunday school building fund is a matter over which all concerned have reason to feel amply satisfied.

The Great Showmaker Remedy.—Is an Indian vegetable compound, composed of the juices of a variety of remarkable medicinal plants and herbs; the various properties of these different ingredients when combined, so constituted as to act simultaneously upon the Blood, Lungs, Liver, Kidneys, Digestive Organs, Nervous System, &c., restoring their function, to healthy action, and being purely vegetable, is harmless as Nature's own beverage. This medicine is a decided benefit in all, and a permanent cure in a large majority of diseases of the blood, such as Scrophula, Erysipelas, Salt Rheum, Canker, Ulcers, &c. It is prescribed in all cases of skin disease, and it always performs a cure; but this we do not say, that it purifies the blood, and restores the system, curing a large majority of diseases arising from its impurities. It stands far ahead of all other remedies, and is a decided benefit in all cases of skin disease, and it always performs a cure; but this we do not say, that it purifies the blood, and restores the system, curing a large majority of diseases arising from its impurities.

A general news of this morning is meagre.

A gross outrage was committed, on Monday, on a woman named Savio in Montreal by two carmen who drove her around the city in a cart, and she was subjected to a Constantinian despatch, says—The Sultan issued a decree yesterday appointing Edhim Pasha, Grand Vizier, and making other changes in the ministry. He then sent an aide-de-camp to notify Midhat Pasha, his dismissal and requesting him to repair to the Palace. From thence he was conveyed on board the Italian yacht which sailed for the Mediterranean with orders to land him beyond Turkish territory.
