

Those Who Have Wished To Reign By the Sword, but Have Perished By It, Have No One To Blame

Pres. Poincare Says the Central Powers Were Destroyed by Their Own Blindness—In His Address at the Opening of Peace Conference He Pictures Germany Perfidy and Lauds Those Who Saved France—Pleads for Harmony and Justice as the Outcome of Deliberations.

Paris, Jan. 19.—The Peace Conference was formally opened yesterday afternoon with a speech by President Poincare, of France. President Poincare thanked the Allied nations for their having chosen Paris for their important work, and praised the valor of the Allied armies, which had preserved the capital of France from the enemy.

The President's speech was as follows: "Gentlemen: France greets and thanks you for having chosen as the seat of your labors the city which, for more than four years the enemy has made his principal military objective, and which the valor of the Allied armies has victoriously defended against unceasingly renewed offensives.

"Permit me to see in your decision, the homage of all the nations that you represent, toward a country which more than any other has endured the sufferings of war, of which entire provinces have been transformed into a vast battlefield, and have been systematically laid waste by the invader, and which has paid the human tribute in death.

"France has borne these enormous sacrifices, although she had not the slightest responsibility for the frightful catastrophe which has overwhelmed the universe. And, at the moment when the cycle of horror is ending, all the powers whose delegates are assembled here, may acquit themselves of any share in the crime which resulted in so unprecedented a disaster. What gives you the authority to establish a peace of justice is the fact that none of the peoples of whom you are the delegates has had any part in the injustice. Humanity can place confidence in you, because you are not among those who have outraged the rights of humanity.

"There is no need of further information, or for special inquiries into the origin of the drama which has just shaken the world. The truth, bathed in blood, has already escaped from the imperial archives. The premeditated character of the trap is today clearly proved.

"In the hope of conquering, first the hegemony of Europe, and next the mastery of the world, the Central Empires, bound together by a secret plot,

HON. MR. VENIOT QUITE VERSATILE Tells Montreal What His Government Has Done and What it Hopes to do.

Montreal, Jan. 19.—The views and aspirations of Liberals in the province of New Brunswick were set forth to members of the Montreal Reform Club by Hon. P. J. Veniot, Minister of Public Works in that province, who was the guest of the club at a dinner on Saturday evening.

Mr. Veniot reviewed the party's experiences and the coming into power two years ago. He attacked the late government of which the Liberals were making a bid for power in Federal politics. At the conclusion of his speech, which was made in English, Hon. Mr. Veniot addressed the audience in French.

NUMEROUS COMPLAINTS FROM SOLDIERS ON THE METAGAMA Medical Examination on Board Ship Severely Criticized—Claim Munition Workers and Their Wives Were Given Preference Over the Veterans—Lack of Cooperation Between the Authorities in England and Those in Canada.

Toronto, Ont., Jan. 19.—Numerous complaints were made by soldiers and their wives arriving here, Saturday, from the steamer Metagama, that while munition workers crossing from England had their passage paid, soldiers' wives and families had to pay their own way.

Private G. W. Graham, who was overseas for three years, and came back with his wife, makes several complaints of the treatment accorded the veterans. He says that soldiers' wives were forced to pay their passage, while the wives of munition workers were brought back free. He complains bitterly of the medical examination on board ship. He says the wives of soldiers and male munition workers were called before the doctor together, and the women were obliged to show their arms in the presence of the men. The veterans felt keenly about this. His wife complained that the baths were always dirty. Both said the munition work-

ers found the most abominable of pretenses for trying to crush Serbia and force their way to the east. At the same time they disowned the most solemn undertakings in order to crush Belgium, and force their way into the heart of France.

"These are the two unforgettable outrages which opened the way to aggression. The combined efforts of Great Britain, France and Russia were exerted against that man-made aggression.

"If, after long vicissitudes, those who wished to reign by the sword have perished by the sword, they have but themselves to blame. They have been destroyed by their own blindness. What could be more significant than the shameful bargains they attempted to offer to Great Britain and France at the end of July, 1914, when to Great Britain they suggested 'Allow us to attack France on land and we will not enter the Channel, and when they instructed their ambassador to say to France 'We will only accept a declaration of neutrality on your part, if you surrender to us Brisy, Toul and Verdun'?

"It is in the rights of these things, gentlemen, that all the conclusions you will have to draw from the war will take shape.

"Your nations entered the war successively, but came one and all to the help of threatened right. Like Germany, Great Britain had guaranteed the independence of Belgium. Germany sought to crush Belgium. Great Britain and France both were to save her. Thus from the very beginning of hostilities, there came into conflict the two ideas which, for fifty months were to struggle for the dominion of the world—the ideal of sovereign force, which accepts neither control or check, and the idea of justice, which depends on the sword only to prevent or repress the abuse of strength.

"Faithfully supported by her Dominions and her Colonies, Great Britain justly sought to crush Belgium. Great Britain and France both were to save her. Thus from the very beginning of hostilities, there came into conflict the two ideas which, for fifty months were to struggle for the dominion of the world—the ideal of sovereign force, which accepts neither control or check, and the idea of justice, which depends on the sword only to prevent or repress the abuse of strength.

Halifax, Jan. 19.—The Great War Veterans' Association in Halifax is working a campaign for a hall and headquarters building. They have obtained an option on a property on Barrington street for \$30,000 and a canvass is underway for the necessary funds. The association in Halifax displays considerable vigor, and the veterans profess to have no doubt that all the money will be forthcoming.

General Sir Sam Hughes, coming from Ottawa to Halifax to attend the funeral of a friend he admired and had known intimately since the war began, as he did in honor of the late Col. R. S. Low, is an example of that quality which has given Sir Sam Hughes many warm and steadfast friends. He was in uniform.

IMPORTANT BANK AMALGAMATION Bank of Nova Scotia and Bank of Ottawa Pool Their Interests.

Ottawa, Ont., Jan. 19.—An agreement, subject to ratification by the shareholders, has been entered into between the Bank of Nova Scotia and the Bank of Ottawa, whereby an amalgamation has been arranged of these two important institutions. The basis of the amalgamation is that the Bank of Nova Scotia shall exchange four shares of its stock for every five shares held in the Bank of Ottawa.

The Bank of Nova Scotia was incorporated in 1852 and is one of the oldest and most successful banks in this country. It has about 200 branches, established in Canada, Newfoundland, the West Indies and the United States. The president is Charles Archibald of Halifax, and the general manager is H. A. Richardson of Toronto.

The Bank of Ottawa was established in 1874 and has made steady progress until its assets have reached the large total of about \$7,000,000. It has 55 branches, which, for the most part, are located in Eastern Ontario.

INDUSTRIAL UNREST CAUSING SERIOUS ANXIETY TO EMPLOYERS Postal Workers in England Demanding Shorter Hours With Present or Better Pay—Miners Want Wages Advanced, and Shipbuilders Are Agitating a Forty Hour Schedule—All Give Cause for Alarm.

London, Jan. 19.—(By the Associated Press)—The industrial unrest, prevalent throughout the country, is causing serious anxiety, not only to large employers of labor, but even to conservative labor leaders. J. H. Thoms, general secretary of the Railwaymen's Union, who on Friday warned a meeting of postal workers who were demanding a forty-two hour week, more holidays and curtailment of night work, says that "the industrial and economic position of this country gives cause for alarm." The postal workers are one of many trades unions, which are demanding shorter hours with the present or bet-

ter pay. Up to this time the demands of the miners have been embodied in the resolutions of Southport Miners' Federation, who, on Wednesday, demanded that the Government demobilize all miners in the army, and that wages, other than war wages, be advanced thirty per cent.

In addition to the miners the shipbuilders on the Clyde and in other countries are agitating for a forty-hour week with daily wages of one pound. The dock laborer is putting forth a demand for forty-four hours for day workers, and forty-one hours for night workers. They are also much agitated over the shortage of beer.

PEACE CONGRESS OFF TO GOOD START, SPEECHES INDICATING AMICABLE UNDERSTANDING Scene One of Solemnity During President Poincare's Address—Premier Clemenceau Declared the League of Nations Headed the Programme for the Next Full Session—Regulations Governing Conference Officially Announced

Paris, Jan. 19.—(By the Associated Press)—The Peace Congress, destined to be historic, and on which the eyes of the world are now centered, was opened yesterday afternoon in the great Salle de la Paix. The proceedings which were confined to election of Georges Clemenceau, the French Premier, as permanent chairman of the conference; an address of welcome by the President of the French Republic, Raymond Poincare, and speeches by President Wilson, Premier Lloyd George and Baron Sonnino, were characterized by expressions of lasting friendship, and the apparent determination of the representatives of the various nations to come to an amicable understanding with respect to the problems to be decided by the conference.

When President Poincare spoke, the entire assembly stood, and the fact that, according to custom, no applause greeted his utterances, gave greater solemnity to the scene.

In Premier Clemenceau's acceptance of the presidency of the Congress, he voiced both an expression of personal gratitude and a definite outline of the great questions immediately ahead. Three of the larger general subjects he defined as responsibility for the war, responsibility for crimes during the war, and international labor legislation. The League of Nations, he declared, was at the head of the programme for the next full session.

"Our ambition is great and notable," said M. Clemenceau. "We wish to avoid a repetition of the catastrophe which bathed the world in blood. If the League of Nations is to be practicable we must all remain united. Let us carry out our programme quickly and in an effective manner."

Referring to the authors of the war, he said he had consulted two eminent jurists on the panel as to the responsibility of the former German Emperor, and each delegate would receive a copy of that report.

In all seventy-two seats were provided for the opening session of the Peace Conference. On the outer side of the great horseshoe table were arranged the Japanese, the British

and Colonial delegates and the seat for the fifth British delegate. A chair for the fifth American delegate was reserved immediately to the right of the British honor.

The Italian, Belgian, Brazilian, Cuban, Haitian, Peruvian, Portuguese, Serbian, Czechoslovakian and Uruguayan delegates sat in the order named. Across at the left wing of the table sat the Siamese, Rumanian, Polish, Liberian, Hadjar, Guatemalan, Ecuadorian, Chinese and Bolivian delegations. As the delegations arrived they were met by fanfares of trumpets and accorded military honors by the troops. The Japanese were among the earlier arrivals and were followed by the Siamese and East Indians in picturesque turbans.

President Wilson arrived at ten minutes to three. He was conducted to the council room by M. Pichon, the French foreign minister, where greetings were exchanged with the British and many other delegates.

Just at three o'clock a ruffle of drums and blare of trumpets announced the approach of M. Poincare. The French Premier was escorted by the group of Premiers to the head of the table, while a hush fell upon the assemblage as the moment arrived for the opening of the congress.

It was exactly three minutes past three when M. Poincare began his address, and the Peace Congress came into being. The entire assemblage stood as the President spoke. M. Poincare spoke in an earnest, easy manner, without declamatory effect. M. Poincare spoke in French, and when he had concluded an interpreter read the presidential discourse in the English language. As M. Poincare closed he turned to receive the congratulations of President Wilson and Premier Lloyd George, and then withdrew, greeting each delegation as he retired. President Poincare closed his address at 3:25 o'clock.

President Wilson, as M. Poincare made his exit, nominated Premier Clemenceau for chairman of the Congress. The nomination was seconded by Premier Lloyd George in an earnest tribute to the French Premier.

FARM MACHINERY IS URGENTLY NEEDED IF FRANCE IS TO MAKE OCCUPIED REGIONS PRODUCTIVE

Government is Doing Everything Possible to Restore People to Land, But Horses and Oxen and Agricultural Implements Are Not to be Had.

Paris, Jan. 19.—The European edition of the Herald, in publishing the fifth of a series of articles on French devastation, explains what is being done to enable the land holder to re-establish himself after having suffered from German barbarity and describes the difficulties facing the farmers in the provinces of the Marne, Meuse and Moselle at Metz. There has been some permanent reconstruction by private contractors working under the direction of local engineers, some public works and a number of farm buildings in the region of Meaux and Chateau-Thierry have been built and repairs have been made to several towns and villages near the front.

In twelve or fifteen farming villages south of Chalons-sur-Marne and around Vitry-le-Francois the government has organized co-operative societies for reconstruction. In each case they have received the maximum advance on the eventual indemnity for their losses which allowed them to rebuild one-quarter of their necessary buildings. The technical service of reconstruction has placed orders with private contractors throughout France for about 25,000 demountable wooden houses with two rooms and a shed, costing from \$700 to \$1,000 each and for 10,000 demountable wooden farm buildings to cost \$150 to \$300.

With regard to furniture, an indemnity law is about to be voted which provides for the paying of damages for furniture loss up to \$3,000, under a decree issued by the Minister of Liberated Regions, November 2, 1918.

TRYING TO DECIDE GERMANY'S STATUS

The Admission of Germany to League of Nations Subject of Much Discussion.

Paris, Friday, Jan. 17.—The admission of Germany to the league of nations is the subject of considerable discussion in peace conference circles. While they are as yet academic some interesting views have been developed. In the opinion of Leon Bourgeois, the French authority on the league of nations, the league for the present must be composed exclusively of the associated nations and those neutral states which, since 1917, have adhered to the rules of the second Hague peace conference, and who have during the war strictly obeyed the obligations of international rights.

A SLUGGISH LIVER CAUSED SEVERE HEADACHES

The duty of the liver is to prepare and secrete bile and serve as a filter to the blood, cleansing it of all impurities and poisons which enter it. Healthy bile in sufficient quantity is Nature's provision to secure regular action of the bowels, and when the liver is sluggish it is not working properly, and does not manufacture enough bile to thoroughly act on the bowels and carry off the waste products from the system, hence the bowels become clogged up, the bile gets into the blood, constipation sets in, followed by sick and bilious headaches, coated tongue, bad breath, heartburn, water brash, bad taste in the mouth in the morning, jaundice, floating specks before the eyes, etc.

Milburn's Lax-Liver Pills gently unlock the secretion, clear away all waste and effete matter by acting directly on the liver, and make the bile pass through the bowels instead of allowing it to get into the blood. Milburn's Lax-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Keep Them Smiling Soldiers Home Coming Campaign

The "Welcome" sign still hangs high on the doors of the Salvation Army Hostels. Help them to keep it there!

The Salvation Army appeals for a Million Dollars for the boys who won the Victory. This is the first time the Salvation Army has made a general appeal for its work.

Our men in Khaki may not all be home for another year. While there is a company of Canadians in uniform over there or over HERE, there is work for the Salvation Army Lassie.

The weary waiting and the relaxed discipline spell dangers that MUST be guarded against. A happy smile and a comfortable body help to keep trouble at a distance.

The Salvation Army Million Dollar Fund January 19th to 25th

"FIRST TO SERVE—LAST TO APPEAL"

A WORD ABOUT THE HOSTELS! Have you ever been inside a Salvation Army Hostel? If not, ask a returned man about the Hostels in Paris, London, Toronto, Hamilton, or any others that he has stayed in over HERE.

Let HIM tell you about the REAL beds, the home cooking, the fried eggs, and hot coffee—and hot baths. If he knows you very well, he may give you a hint about the spiritual comfort the Salvation Army Lassies give these men far from home and all it means!

Keep them smiling! We will not turn the men adrift after they have won so glorious a Victory! We will redeem our PLEDGE—"We will keep the home fires burning, till the boys come home!"

Next week the Campaign will be on! Help twice! First, by your liberal contribution—"To whom much is given, of him much is required." Second, urge upon your friends and neighbors the pressing needs of the soldiers, right up to the time they are safely settled once more into civilian life.

FARM SETTLEMENT.

Back some five or six years ago, when the Province of New Brunswick decided to assist prospective settlers in securing farms, what is now the Farm Settlement Board was established. As a working capital a bond issue of \$100,000 was authorized for the important branch, which amount was later increased by an additional \$50,000 of bonds. No interest was charged on this loan and the expense of administration was also chargeable to ordinary expenditures. The Farm Settlement Board was not regarded as a money-making concern, but simply a medium through which purchase and resale of farms might be made, and other business in connection therewith conveniently handled. Farms all over the province were bought and were resold on terms made easy to suit the purchasers. The various amounts received from these purchases which as a rule were 25 per cent of the purchase price at the time of the sale, and 10 per cent yearly thereafter, with interest on the outstanding balances, were turned over to the purchase of other farms, and in this way the working capital of the Farm Settlement Board was gradually increased with, of course, mortgages as security. Interest on the bonded loan and costs of administration were paid by the province and all funds received from the sale of farms were reinvested in new properties, so that there was a constant buying and selling whereby practically every cent of the funds available was kept on the move. In 1916 there was to the credit of the Farm Settlement Board a balance of about \$7,000.00, carried forward over the investment. In 1917 there was in the vicinity of \$12,000.00, but very much larger amounts than these had, of course, been paid out during the year in the purchase of farms. In 1918, it is shown by the financial statement of the province, that \$41,000.00 was received by the Farm Settlement Board from purchasers of properties in the way of 25 per cent down, 10 per cent, and interest yearly. Out of this forty-one old thousand dollars, the Farm Settlement Board paid out, presumably for the purchase of new properties, \$8,200.00, leaving a balance of \$32,800.00 not accounted for. Now this farm settlement account previous to 1918 had never appeared in the general statement of finances. The only mention ever made of it in that account has been in the case of administration, chargeable to ordinary expenditures, and, of course, the bond interest included in the main interest charge against the province. The actual operation of the Board in the buying and selling has always been a separate account, and in this way the \$7,000.00 and \$12,000.00 balances referred to have appeared as belonging to that Board for its own specific purposes.

Something very different has happened in 1918 because the Post-Office Government needed the money. By cancelling the separate account for the Farm Settlement Board it included in its provincial revenues the sum of \$41,375, charged against this \$42,110, which it has paid out, and has absorbed in its general revenue and, undoubtedly, spent for other purposes the sum of \$78,144.00, which does not belong to it, but belongs to the Farm Settlement Board for the purchase of new properties. This is how the Post-Office administration managed to let Peter Veniot and others run away with themselves in ridiculous expenditures on roads, to give reasonable employment to numerous friends, and to present a false surplus in its annual statement. That \$32,844.00 should never have appeared in the general statement of provincial finances and the transfer of this amount would itself be sufficient to wipe out the bonus surplus which has been shown.

MILITARY MATTERS.

Now that military headquarters has secured all detailed information as suggested by The Standard with respect to the number of men employed as batmen by junior officers and others, it is to be hoped that some action of a definite sort will be taken. These men, or the majority of them, have been far too long on the job of waiting on others who are quite lethargic enough to wait on themselves, and should be released at the earliest possible moment in order to engage in some occupation worth while. At the present time they are non-producers, and their services are required for such employment as will make them of value to the country in these days, when the effort of every able-bodied man is of value. If it is imperative that they should be retained in the service, well and good, but if their sole duty is, as it has been in the past, then there should be no further excuse for detaining them. It is quite true that numbers of officers are so constantly occupied that batmen are really necessary, but in nine out of ten cases this is not so. And it is to be hoped that those who have been thus employed will be released from further service at once. It will all help in the work of reparation.

After War's Fiftal Fever, London Daily Express—When the war is over Marshal Foch will retire to a little white palatial chateau he bought some years ago at Bloujean, a Breton village in the far-away primitive district of Finistere. Seventy-five of the Bloujean villagers have been killed during the war. A list of their names hangs in the village church. The first two are Paul Bourgois and Germain Foch, the marshal's son-in-law and son. They both died on August 22, 1914.

used in Fredericton? There was at least the appearance of an excuse for the removal from St. John at the time when the returning men consisted almost wholly of invalids, for the principal hospital is in the capital, and as a matter of convenience the Discharge Depot was established there. But the men returning now are not invalids, and it is utterly ridiculous that soldiers belonging to St. John or other points should be compelled to report there as a matter of form when this is the natural place for such work to be done. For instance, on Saturday some twenty-five men belonging to this city, who landed during the day at the West Pier, spent a few hours with their families and had to take the evening train to Fredericton to go through the formula of letting the responsible officers—who already knew it—be informed that they had arrived. These men wanted to remain with their families, but they spent their first day in Canada away from home. It does not seem entirely necessary that this should be the case with the sooner that office is brought back here where it naturally belongs, the sooner will this inconvenience be overcome.

There is a hospital on Pitt Street. For a time it was used for general treatment, and to this there was no objection whatever. But quite a while ago it became necessary to establish some sort of an institution for the treatment of venereal diseases, and this hospital was selected. It is situated in the centre of an attractive residential section, and while there can be no fear of contagion from the presence of such patients, still the very existence of this sort of an institution just where it is forms an annoyance to people living in that district. There are many things which should be said about this matter, but it may be sufficient to point out that in the very nature of things no portion of a community wants such a place. The proper course in the first instance would have been to remove all such patients to the island, and this might yet be done. But in any event this hospital in its present character is not a desirable adjunct to the Pitt Street district, and should be transferred.

During the past few months military authorities have been endeavoring to enforce that law which provides very severe punishment for those who may be convicted of communicating disease to soldiers. Certain convictions have been secured and sentences imposed. The law is one-sided. It places too much in the hands of the one making information, and a charge such as is entered in cases of this nature is a very serious thing, involving as it does the whole future of the person against whom it is directed. The Standard is informed that in a number of instances of late charges of this kind, made in the form of sworn information, have later been withdrawn. And this paper knows of one case at least in which there was no foundation whatever for the sworn statements made by the complainant. Yet the effect of such a charge, the arrest and imprisonment of the person involved, has utterly ruined her future life in this community. This law may be a good thing, but it should work both ways, and suppose uttering false accusations such as this should be exposed to the severest possible penalty. In the case in question when the evidence of attending physicians is heard, perhaps some action may be taken which will tend to prevent such incidents in the future.

TEACHERS' SALARIES.

Now that the Mayor and City Commissioners have on two separate occasions stated that they will not oppose the request of the Board of School Trustees for increased assessment, it would seem that all needed to meet the request of the teachers for better salaries is the verdict of the Board. This will be considered at a meeting to be held this evening. Both male and female teachers have presented their cases, and the situation is fully understood. There is no question as to the justice of the request, but it should be a matter of money and if the council, as stated, is favorably inclined to an increase in the overdraft until such time as the additional revenue is secured, the last objection would appear to be removed. This evening's meeting should therefore settle the matter, and in the interests of all concerned it is to be hoped that this will be the case. Vote the increase. These men and women do deserve it. They are carrying on an important work, and are receiving too little for it.

WHAT THEY SAY

Bolshevism and Hunger.
Boston Globe—Not more guns, but food and shoes are the arguments that silence Bolshevism. It is reassuring that the Allied Governments are beginning to act on that principle.

After War's Fiftal Fever.
London Daily Express—When the war is over Marshal Foch will retire to a little white palatial chateau he

bought some years ago at Bloujean, a Breton village in the far-away primitive district of Finistere. Seventy-five of the Bloujean villagers have been killed during the war. A list of their names hangs in the village church. The first two are Paul Bourgois and Germain Foch, the marshal's son-in-law and son. They both died on August 22, 1914.

The Cradle of Democracy.
San Francisco Chronicle—Modern democracy was born in Poland, and now that democracy is supposed to be triumphant one of its first duties is toward securing justice for the Polish people. Russian, Prussian and Austrian Poland should be made a separate, independent, governed country, and if so it would not be long before the various Polish sections would accommodate their differences and live together harmoniously.

Coming to Power.
Detroit News—This is the first peace settlement which statesmen have taken the common people into their confidence and explained to their purposes. In other days those who thought of being politicians acknowledged no necessity of talking things over with the people. They made their wars and they ended them solely by the consent of their own expediency and all they asked of the people was to fight and pay expenses. We have taken on better times.

The Phrases of the Moment.
London Daily Chronicle—A phrase of the moment with our political speakers is "Egon so." Some little time back it was "Very well," which the Prime Minister popularized. "Orientation," "exploration," and "geography"—all employed in the political compass—have also been prominent. For the spread of the word "Orientation" used in this way, we have to thank the Germans, notably Bethmann-Hollweg, who "explored" and "explored" ("let us explore the possibilities"), as also "gesture," reach us from France.

Order Out of Chaos.
Cleveland Plain Dealer—Order must be restored in Berlin. If law respect to Germany is not completely the task within a reasonable time, they will be given assistance, however unpleasant the task may be for the Allies. It is a world concern to see that an orderly government is established in place of an overthrown authority, a government orderly as well as liberal, with which civilized people may conduct relations. Berlin's present terror is a logical result both of Germany's long struggle upon the German people and of Germany's desperate persecution of the Jews, Poles, Bohemians, but, however logical, it is too menacing to the rest of the world to be long permitted.

Another Carlisle President.
New York Post—One other presidential candidate, Wilson traced his line to Carlisle, England, for Zachary Taylor was fifth in descent from James Taylor of Carlisle, who emigrated to this country in 1638. Considering the fairly common British descent of our presidents, few indeed could have gone to the homes of really near ancestors in the British Isles. Andrew Jackson is the British descendant of one born there, the elder Jackson having come from Carrickfergus, Ireland, a decade before the revolution. "Grant is the British descendant of the first president in office to visit the mother country feels so intimately the ties of blood that originally gave it the name of mother country."

A Memory of Alance.
Westminster Gazette—The enthusiastic welcome which the French are receiving in Alance recalls a forgotten bit of history. So far as a portion of the province is concerned the plebiscite of self-determination, which even pro-Germans are now beginning to recognize as superfluous, was taken 50 years ago. At that date, in 1798, the Republic of Maltheau constituted a separate Republic, attached to the Swiss Confederation. Spontaneously, and by an almost unanimous vote, the Maltheau Republic joined in union with France, and wrapped their own red and white flag in a tri-color case, bearing the inscription: "The Republic of Maltheau respects the bosom of the French Republic." The incident was cited by the Mayor in his address of welcome to M. Poincaré and he had never since had any memory more happily repeated.

A BIT OF VERSE

By Thomas F. Porter.
The world is weary with its grief,
And stricken with deep woe and pain,
Yet it must seek its own relief,
And strive to be itself again.
The horrors of the warring years
Tears, vain and futile to review,
But through the mist of bitter tears,
It must at once start anew,
In there a man go base at heart
That he will not perform his part.
Nations, like men, their errors make,
And with the wrong their fortunes cast.
Though earth's foundations sway and shake,
The right is sure to win at last.
Evil has had its awful day,
And though it stretched from zone to zone,
Thank Heaven the curse has passed away,
And wickedness been overthrown.
Is there a man at heart so base
The future he will not help face?
Mankind has had a base attack,
From which it cannot soon revive,
True Progress, too, a long setback,
Still Christianity, wherever adjacent to St. John

The Supreme Court.
The case of the King vs. Kelly, Connell and Kane, charged with breaking and entering the property of J. O'Leary, on the Sandy Point Road, and stealing therefrom a number of geese, took an interesting turn in the Supreme Court Saturday morning. His Honor Judge Barry presiding. When the case came up for trial on Friday afternoon, William M. Ryan, for the defendant, moved that the second count, that of stealing the geese was quashed, on the ground that the geese were only valued at \$14, and the offence was also to have the first count, that of breaking and entering, quashed. In the crown, asked for a stay of proceedings, and the application was granted. The case was withdrawn from the jury and the jury discharged. Mr. Ryan moved to have the prisoners discharged from custody, and His Honor stated he would give a ruling next week.

REV. G. A. KUHRING PREACHED ABLE SERMON AT STONE

Manifestation of the Churches Unity Was the Subject Yesterday Morning — Called for Closer Relation Between Various Communion.
Rev. G. A. Kuhring, rector of St. John (Stone) church at yesterday morning's service, dealt with the growing movement in the churches for a closer relation between the various communions. He pointed out some of the results already obtained and the prospects for a closer relationship between the various members of the Church of Christ. His subject was the manifestation of the church's unity.
The sermon follows:
A matter of extreme importance is moving the minds and hearts of every true statesman in every communion of the Church of Jesus Christ. That question is "The manifestation of our unity or oneness in Christ." The Church or Body of Christ is one. We are all one in Christ Jesus. It is the blessed company of every believer in Christ Jesus. It manifests its life in different ways under different organizations, under various names, giving to the world a faulty witness and obscuring the very foundations of her existence. One Lord, one Faith, one Baptism, one God, and Father of us all. The weakness of the church through her unhappy divisions has, to a certain degree, been felt by all. Certain factors have, however,

REV. G. A. KUHRING PREACHED ABLE SERMON AT STONE

Manifestation of the Churches Unity Was the Subject Yesterday Morning — Called for Closer Relation Between Various Commu-nions.

lately entered into the question, and have with telling force compelled the various communions to take steps and see how far they (and not their neighbors) have been the cause of the schism they so deeply deplore. Instead of belittling the things possessed and enjoyed by these communions, there is, thank God, today a desire to bring all the contributions of every communion into one grand manifestation of the oneness and power and glory of the Body of Christ. No individual Christian, no separate communion desires to remain indifferent to the call to bring every contribution possible to fulfill the prayer of the Lord Jesus Christ "that we may all be one, visibly before the world so that the world might believe."

The actual meeting away of former so-called impregnable barriers, Psalm 133:1 Behold how good and pleasant it is for brethren to dwell together in unity—for there the Lord promised His blessing and life for ever. Men who have tasted of this blessing cannot rest content until it is the inheritance of the whole church.

to you two incidents which have occurred in the Old Land. An incident, unique in ecclesiastical history in Belfast, took place the other day when the Rev. Professor Cooper, D.D., Moderator of the General Assembly of the Established Church of Scotland, preached in the Cathedral Church by permission of the Bishop of the Division annual gathering at St. Paul's church, London, England.

bles in an effort to strike submarines and used other equally dangerous and futile devices. But the perfected depth charges, so arranged that they could be timed for explosion at any desired depth, solved the problem of the small chasers which were fighting the submarine. Trawlers with sufficient speed could drop these charges and get out of the danger zone. The mortality among submarine chasers immediately dropped and the seas became very unsafe for the sensitive undersea craft.

Are we wasting twelve million American Women?

TWENTY million housewives in America! Sixteen million of them able, energetic, eager women—doing the work that four million could do.—And the world is short-handed of workers!

Sixteen million women cooking, scrubbing, washing, tending children—all day long—in sixteen million homes.

What if twelve million of them could be released for the world's reconstruction!

Charlotte Perkins Gilman, America's sanest and foremost feminist, discusses this burning subject in Pictorial Review for February.

\$9,600,000,000, at a conservative estimate, would be released towards the world's shortage of money and labor, by releasing these twelve million women for gainful work. Think what that would mean in France, in Belgium, in Serbia!

"But our homes? Our men? Our babies? If they must suffer we have no right to change." It is the old, old cry that has kept millions of women the world over "non-gainful."

Out of the world's necessity has been born the answer that is electrifying women the country over. Wherever you are, whoever you are, you cannot escape its contagion.—Greater usefulness to the world, greater well-being for the home and family, decreased cost of living.

Already the astounding change is making its way into our everyday life. The cooking, the laundry and cleaning, the care of the babies in sixteen million homes—how can it be done by four million women? How can individual household drudgery be abolished?

In detailed, practical fashion, Mrs. Gilman tells. What she has to say about this most extraordinary development in the world's history, no forward-looking man or woman can afford to miss. Read "The Work and Waste of Women" in Pictorial Review for February.

Specially good fiction in this issue

Her wifely duty—
Ugh! How Mattie hated it
NOT to be "wifely" was to be in Jacob's eyes, unsexed, a Jezebel, a monstrosity.
But to Mattie, ugh! That word "wifely" stood for so many delightful things you had to deny yourself. Movies and soda fountains and frilly clothes!
Dishwasher for Jacob's family, that's all she was now. And so she rebelled! A feminist revolution in a Pennsylvania Dutch community!
Inimitably, and with rich humor, Helen R. Martin has told this rare story.

Your enemy's wife—
the enemy you had killed!
ONCE, before the war, they can and the German aviator. And at Kiebor's home, Kiebor's kids had climbed over his lap, rubbed their cool little faces against his—
Then they had met as enemies—and Culbertson, "cicest man antagonist."
But the wife and children you feel toward the family of Flame?—Will Livingston Com-fort has written a big story in a big way.

How about clothes?
Lingerie, Embroideries, Frocks, Blouses, Suits—Pictorial Review's Fashion Department for February shows a wealth of practical chic styles. And color pages featuring charming varieties of the season's mode!
All these pretty and useful things can be made easily and economically with Pictorial Review Patterns.

Babies! more babies wanted!

Who will keep the cradles filled?
THREE hundred thousand babies in this country alone die unnecessarily every year—and the world is crying for more babies!
The appalling waste of it! Think! And what is being done to stop it?

KATHLEEN NORRIS
Author of "Mother", "The Luck of Geraldine Laird", etc.
answers this imperative question in Pictorial Review for February. In the same issue, *Helen Ring Robinson*, first woman state senator, discusses this vital problem.
Four years of war have brought home to the world that, more important even than the bearing of babies is the *saving* of babies. Uncle Sam, too, among the nations has learned what sorrow-stricken mothers who sit beside empty cradles knew long ago; that a baby is worth more than a mine, a forest, a municipal building.
Just what is being done, what you must begin at once to do, Mrs. Norris tells you. Her article, and Helen Ring Robinson's keen analysis of the issue, are thrilling commentaries on America's splendid baby-saving achievements and plans up to the minute.

Wrapped in Silk

The greatest mystery story of the year
DOWN the fire-escape the figure came. Slowly, cautiously—a veiled unrecognizable feminine figure. And in the dead of night in Washington!
The woman spy! ... Which of the two girls was this—the two who had so spectacularly boarded the ocean liner in mid-ocean from a German submarine? *Renée*? Or *Rachel*? Which?
With consummate skill Clarence Budington Kelland has sustained in this second installment the breath-taking mystery of his vivid novel.
A regular \$1.50 book in three issues. A million and a half men and women are following breathlessly this greatest mystery story of the year.

Birthday cards for the youngsters! Color cut-outs

Such amusing ones—that the children will love cutting out and sending to little friends. A whole dozen of them. No wonder the kiddies are enthusiastic over this novelty introduced by Pictorial Review. And there are adorable studies of the Twelve-trees babies.

REMARKABLE SERIES OF GREAT WAR PICTURES

BEGINNING with the February issue, Pictorial Review will publish month after month a new series of stirring full-page War Pictures. You would gladly pay \$1.00 for any of these remarkable full color reproductions.
"Taking the Guns", from the masterly brush

of F. Matania, tells you more graphically than any words could how the German gun nests were broken up by our brave boys. You will want to frame this picture and those that are to follow for their historic record of the Great War as well as for their artistic value.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

Look, Mother! Is tongue coated, breath feverish and stomach sour? "California Syrup of Figs" can't harm tender stomach, liver, bowels.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

"I SUFFERED SEVEN YEARS"

Was Eventually Cured by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I suffered for seven long years with a lame back, irregularities and pain. I had one physician after another but they did me no good. I read about Lydia E. Pinkham's Vegetable Compound and gave it a trial and in a short time I felt benefited and am now feeling fine, and without weakness or pain. Many of my friends have also taken Lydia E. Pinkham's Vegetable Compound and been helped by it."—Mrs. MARGARET NESS, 1846 E. Hazzard St., Philadelphia, Pa.

Women who suffer from displacements, irregularities, inflammation, leukorrhoea, headache, backache or "the blues" should not rest until they have given this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. If complications exist, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for special suggestions. The result of its long experience is at your service.

AROUND THE CITY
FAIR AND MILD

THE DOMINION FAIR.
Miss Marion C. Shield won the door and fancy locker prizes, H. Lacey won the bowling alley prize, and H. Smith won the shooting gallery and bean board awards Saturday night at the fair held in the North End by the Dominion L. O. L. 141. The fair is being continued all this week.

REV. MR. MACPHERSON ILL.
Rev. D. J. MacPherson, pastor of the Central Baptist Church, was unable to fill his pulpit yesterday owing to a sudden illness which seized him on Saturday. His place was taken by Rev. W. R. Robinson, of the Ludlow Street Baptist Church. The many friends of the stricken clergyman will be glad to know that last night there was an improvement in his condition.

AT SEAMEN'S INSTITUTE.
Mrs. Mary Seymour presided at the evening service at the Seamen's Institute last night when the Rev. F. E. Boothroy delivered an excellent address to a large audience of sailors. During the evening the Zion Methodist church choir gave several enjoyable selections and refreshments were served to the congregation at the close of the service.

JUST ASK THE BOYS.
"The Salvation Army folks are the best people to the boys over here—just ask any of the boys who are coming home." That is the message received in the city yesterday from a Canadian soldier who has "come his bit" in France and is now recovering in an English convalescent camp. That message is borne out by practically all the boys who have spoken on the subject.

SOLDIERS AND SAILORS.
After the regular services at the German street Baptist church last night about sixty soldiers and sailors were entertained with a musical program, social hour and refreshments which were served by the young ladies of the congregation. Many of the soldiers are those who have been detained in this city while on their way home to Ontario and Western Canada by the illness of dependents who have crossed over from England with them.

APPEAL FOR ARMY.
Saturday night at the Empress Theatre, Slave Matthews delivered an address in the interests of the Salvation Army drive. In his own inimitable way he laid before those present the claims of the Army on their generosity. Tonight the speaker will be Rev. W. R. Robinson. These meetings have been arranged by Capt. A. J. Mulcahy and the people seem much interested.

THRIFT STAMP SALE.
The "Thrift Stamp" campaign is bearing fruit and on Saturday the merchants reported a big increase in the sale of them, many persons taking their change or a part of it in the stamps. This week the educational lectures to the employees of the business houses will be continued. Today at noon Sir Douglas Hazen will address a combined meeting of the Rotary Club, Canadian Club and Retail Merchants' Association, on "Thrift Stamps."

JAMES McCOURT ARRESTED.
James McCourt was arrested on Saturday by Inspector Robert Crawford on the charge of stealing. Some time ago the defendant with two brothers were taken into custody for stealing a rifle from the McDonald residence, Woodman's Point. McCourt appeared in the Kings County court and was discharged as it was claimed he could not be tried there. He will now appear before the court at St. John. It is alleged that the defendant accepted the stolen rifle from others, brought it to St. John and sold it to a second hand store.

Pellewe-Smith.
A quiet but pretty wedding took place in Trinity church Saturday afternoon at 3.30 o'clock when Rev. Canon Armstrong united in marriage Edith Margaret, daughter of Mr. and the late James Pellewe, of Windsor Terrace, Rockland Island, to Arthur Robertson Smith, son of W. H. Smith of the firm Robertson, Foster and Smith. J. S. Ford, the church organist, rendered appropriate music during the service. The bride entered the church on the arm of her brother, Lieut. William Pellewe, who only reached home from the front on Saturday morning after four years' service overseas. The bride looked very winsome in a navy blue suit with black hat and carried a bouquet of white bridal roses. Her attendant, Miss Florence Pellewe, wore a sand colored suit with black hat and carried a bouquet of pink carnations. Harold Vincent supported the groom, while James Hoyt was usher. After the ceremony Mr. and Mrs. Smith left for a short honeymoon trip through the provinces, and on their return will reside in the city, as Mr. Smith is in the employ of C. H. Peters Sons, Ltd.

ELOPEMENT OF
HALIFAX COUPLE

Wife of William Boulton Complained He Skipped Out With Stenographer Couple Arrested Here Friday Evening.

Good work on the part of the St. John police nipped in the bud an attempted elopement of a Halifax couple, and William Boulton is now at the central station waiting to be taken back to his home, where he will face a charge of wife desertion.

On Friday afternoon a young woman called at the office of detective Kennedy at Halifax police headquarters and informed him that her husband had eloped with a stenographer employed in the same office as Mr. Boulton. The detective immediately wired several points, and among them this city, to be on the lookout for the eloping couple. On the arrival of the Halifax train, which pulled in about seven o'clock Friday evening, an hour and a half later, detectives Biddiscombe and Donahoe were on the job and soon located the eloping couple.

The man was placed under arrest, as had been requested by the Halifax authorities, but as no request had been made for the arrest of the young lady, who had been smitten by his charms, she was allowed her freedom.

A wire was sent to detective Kennedy that his man had been landed, and it is expected he will arrive in the city this morning to take the prisoner back to Halifax to stand trial.

FINE VESSEL

Four-masted Barkentine T. H. Macdonald Took Water at Meteghan Thursday Comes to St. John for Cargo

The four-masted barkentine T. H. Macdonald, built by Dr. T. H. Macdonald, was very successfully launched at Meteghan on Thursday last. This vessel is one of the best built in Nova Scotia during the present shipbuilding boom, and surpasses in every particular the requirements of the French Vortias, in which Bureau she is classed for twelve years.

The T. H. Macdonald measures 221 feet over all, 176 keel, 40 wide, 19 deep, registers 1,138 gross and 1,088 net tons. In the construction of this vessel Dr. Macdonald and his master-builder, Jules Robichaud, are to be highly commended, not only for her excellent build, but also for the record time in which the vessel was put afloat, it being less than nine months since the keel was stretched.

Her cabins and officers' quarters are beautifully finished and the vessel is modernly equipped in every particular. As soon as the rigging is complete the ship will be towed to St. John, where she will load lumber for the River Plate, at \$65 per 1,000. Captain George L. Westmore, of Yarmouth, will command the T. H. Macdonald.

Miss Florence was a valued member of the Fredericton teaching staff. In July last she resigned charge of the Government school at Kingsclear and has since been the guest of her sister, Mrs. W. T. PERMANENT STREETS

If the Legislature will grant the necessary permission, it is the intention of the Highway Board of the Parish of Lancaster, to lay in that district permanent streets, and a bill asking permission to expend in this way an amount not exceeding \$100,000 will be recommended to the Municipal Council at its meeting on Tuesday by the bills and by-laws committee. Another bill will ask the provincial government to grant the sum of \$1,000 per year as a subsidy to the Indian Ferry, the city and Lancaster to make up any deficit or to pay this amount.

R. A. Danie's store, King street, and the Imperial Theatre. The cartoons will be changed each day so the public is advised to watch these papers keenly.

FORMER ST. JOHN
BOYS MAKING
GOOD IN STATES

J. Warren White and A. Gideon Milne Appointed to New Offices With Sisson Drug Co., Hartford, Conn.

That J. Warren White and A. Gideon Milne, two former St. John boys are rapidly climbing the ladder of success can be seen from the following articles that appeared in "The Hartford Courant," of Tuesday, January 7th in Hartford.

At a meeting of the directors of the Sisson Drug Company held late yesterday, J. Warren White, purchasing agent, was elected assistant treasurer, and A. Gideon Milne, head bookkeeper, was chosen assistant secretary. Each of these offices have been created recently. Both men have been with the company about ten years and now they become officers of the oldest drug concern doing business in the state.

J. Warren White was born in Fairfield avenue he was born in St. John, N. B., on December 3, 1882, son of Mrs. M. J. White of No. 162 Collins street, and his early life was spent in St. John. He attended the public schools, and as a young man entered the service of Clinton Brown's drug store, the largest in that city. He learned the drug business there and later was employed by the National Drug and Chemical Company, a large corporation of St. John, in 1907. Mr. White came to Hartford and entered the service of the Sisson Drug Company and has acted for some time past as purchasing agent. He was married in June, 1918, to Miss Helen A. Wylie of Hartford.

A. Gideon Milne is also a native of New Brunswick as he was born in St. George in April, 1884, the son of Alexander Milne. He attended the public schools there, and afterwards studied at a business college. Before coming to Hartford in 1907 he was an accountant and clerk in a stockbroker's office in St. John. He has been for some time past in charge of the bookkeeping department. Mr. Milne was married in May, 1915, to Miss Alma E. Risley, of East Hartford. He lives in that town, at No. 440 South Main street.

The Sisson Drug Company has been doing business at the same location since 1814. It was originally a dwelling house with stores on the ground floor. The present company succeeded the old time apothecary shop in 1814 and for many years it was known as Lee & Butler. This concern was one of the best known drug houses in the city and state, and its name was changed in 1858 to Lee, Sisson & Co., as Thomas Sisson had then become a partner. In December, 1864, George P. Chandler, now president, entered the office of the concern and started his career which placed him in charge of the company. The firm name was changed in 1865 to Sisson & Butler, and remained as such until 1871 when it became T. Sisson & Co. Thomas Sisson died in 1907, and then Chandler, who was another of the Sisson Drug Company. The present officers of the company are: President and treasurer, George P. Chandler; vice-president, William E. Parsons; secretary, George A. Chandler; assistant treasurer, J. Warren White; assistant secretary, A. Gideon Milne.

THE BIGGEST TAX
RATE IN HISTORY

Citizens May Look for Rate as \$2.60 Per Hundred Dollars—Heavy Increase in All Estimates.

The citizens of St. John are facing the biggest tax rate in its history and it is altogether likely this rate will be as high as \$2.60 per hundred dollars. Last year the rate was \$2.27, for the year 1917 it was \$2.18 for the general taxation, and 30 cents for patriotic, making a total of \$2.48. Last year the patriotic tax was bonded for and this year there will not be any assessment for this purpose, all the tax being for general purposes.

Assuming that these figures are correct, and they will not be far out of the way, this means, on the same valuation as last year, an increase of 23 cents in the rate, bringing it up to \$2.60 per hundred dollars. Should there be any material increase in the valuations, it would reduce the rate somewhat, but in either case the total the city will have to pay will be nearly \$170,000 larger than it was for 1918.

EVENING SERMON
AT CENTENARY

Rev. H. A. Goodwin Preached to Large Congregation, Taking for His Subject, "The Three Sins Our Love Hates Most."

At the evening service yesterday, Rev. H. A. Goodwin, pastor of Centenary church, delivered a most inspiring message on the "Three sins our love hates most," outlining those which had done the most to prevent the coming of the "Kingdom of God" to earth. He chose as his text the 13th chapter of Matthew: "So likewise shall my heavenly Father do also unto you, if ye love your hearts forgive not every one his brother their trespasses."

The three sins which Christ hated most and had been the greatest obstacles to the coming of His "Kingdom" were, hypocrisy, selfishness and worldliness. The man who in reality was another of the Sisson Drug Company. The present officers of the company are: President and treasurer, George P. Chandler; vice-president, William E. Parsons; secretary, George A. Chandler; assistant treasurer, J. Warren White; assistant secretary, A. Gideon Milne.

Selfishness was sin that struck at the foundation of the Kingdom. This sin made forgiveness impossible. There could be no justice where self was paramount, and this sin was behind all the injustices which had round down the toilers of the world in all ages. Worldliness was the third of the sins that our Lord hated most, and had spoken most against. This was simply an organizing of the activities of life and leaving God out of the scheme and thus preventing the coming of His Kingdom.

These three, while not always classed as cardinal sins, were really at the root of all sin, and until they were wiped from the Golden Rule could not be universally adopted on earth.

THE ARMY IS
OUR AGENT

Thursday's Drive Does Not Represent Charity, Simply Practical Business Methods—Army an Agent for Worldwide Good—St. John Awake to the Possibilities Thursday.

St. John pulpits rung yesterday with praise for the Army. Every local passer told his flock of the reasons for assisting in the big drive Thursday when it is expected to raise twenty-five thousand dollars. They told how the Army might be regarded as an agent of ours for good work, impossible probably through any other agency and that the amounts subscribed Thursday will be impossible to invest more advantageously. Fifty energetic men will canvass the business section of the city Thursday and about one hundred women the homes and next Saturday will be held the tag day, details of which will be published Thursday. While it is hoped that every intending giver to the Army will be canvassed Thursday this is impossible and the Rotary Club are urging all good friends of the Army to send their subscriptions to Rev. E. P. Loose, Salvation Army Headquarters, 64 Prince William St.

THE ARMY AND
ADVERTISERS

Every advertiser in the local papers is supposed to receive a communication from the Rotary Club today, and the latter are particularly anxious that the request made therein may be acceded to, as an opportunity thus presented itself to greatly benefit the Salvation Army's drive Thursday.

It is a combination of Bassinet, Safety Crib and Play Pen, and is without a doubt the most practical and economical piece of Baby Furniture ever invented.
A Kiddie-Koop saves washing because it keeps baby up off the floor and allows Mother time for other things without further thought for baby's welfare. It folds into a very small space, 24x42 inches, and is very light, so can easily be moved up and down stairs, out of doors, etc. It has no iron bars, which have proven so disastrous to Kiddies; instead, the sides and ends are covered with galvanized wire screening THAT DOES NOT RUST.
It permits baby to sleep and play out of doors with lots of room to romp, and is so arranged that a tumble cannot hurt him. The frames are made of lumber that has been specially selected and carefully put together. Patented method of lowering and raising spring is safe, and very easily arranged.
