

### School Board Special Meeting

#### Further Discussion on West Side School Site Last Night—Schools Will Not Re-open Until After Labor Day—Other Matters.

At a special meeting of the School Board held last evening, further discussion took place on the West Side school site. Nothing definite was done in the matter, and it will come before the board again at a special meeting on September 3. Other business before the board was the reopening of the schools, and it was decided that this would take place on September 7.

Dr. Emery, chairman of the board, presided, and there was a roll book present.

Dr. H. S. Bridges, superintendent of city schools, said that he had discussed the matter of the reopening of the schools with the different principals and they were very much in favor of postponing the opening until after Labor Day. The teachers seem satisfied to have them remain closed until after that date. They do not seem to care about the government's view.

On motion it was decided that the schools would not open until the day after Labor Day, with the understanding that the government grant will not be paid. It was suggested that the superintendent discuss the matter with the school teachers with a view to having the annual opening of the schools after Labor Day brought up for discussion at the Teachers' Institute, or at other teachers' meetings.

The remainder of the session was taken up with the report of the West Side school site committee. The secretary read the report of the committee recommending the purchase of seven lots fronting on Guilford and Duke streets and west of Albert school for a purchase price of \$16,000. A letter was read from W. I. Fenton, pointing out the special advantages of his lot at southwest of Winslow and Lancaster streets for a school site.

H. C. Smith said that they had considered two sites, the Courtney Hill site on the square opposite Albert school, the seven lots directly west of Albert school, the Fenton lot, the Robinson lots. The committee had met and the different sites had been considered. They had decided that it was only a question between the Hill site and the site west of the school. F. Nell Brodie had been present at the time and he had said that \$25,000 would be saved on excavation if the latter site was chosen.

E. R. W. Ingraham said that Mr. Brodie would not consider the Fenton site at all.

Geo. H. Day said that he was not in favor of the site recommended by the committee. It was very large, and he was very much opposed to such a thing. There would not be ample playground room for the children. Moreover, he was of the opinion that the final cost of the site would reach the vicinity of \$25,000. There was a large area for a site on Courtney Hill. There had been some opposition to this site, but he thought that it was only a one-man opposition. The site by his sister, Mrs. I. Petrie, of Fairville, interment will be at Glace Bay.

The funeral of Samuel Knowlton, who died at the General Public Hospital Sunday, will be held this morning at 10 o'clock from O'Neill's undertaking rooms to St. Peter's church.

Improvements on the dwellings. This suggestion met with the favor of the board, and on motion it was decided that the West Side school site committee be empowered to employ Edward Bates and James Myles to value the improvements and make a report to the board, and that F. Nell Brodie also make a written report to the board on the proposed site.

Both of these reports will be presented to the board at a special meeting, which will be held on September 3.

The visitors of Victoria were given power to purchase blackboards needed for Victoria school annex.

The West Side visitors were given authority to purchase thirty-nine blinds for the Albert school.

Dr. Bridges brought the matter of heating the Hazen avenue Synagogue which will be used this year to accommodate between thirty to forty High School pupils. It was decided that this matter be left with Dr. Bridges and the visitors of the High School.

### The Lancaster Highway Board

#### Meeting Held Last Evening at Fairville—Some Criticism of Street Railway—Request from Manager McCaulay Laid Over.

A meeting of the Lancaster Highway Board was held last evening in the court house at Fairville at which some criticism of the Street Railway was heard. Mr. McCaulay, manager of the St. John Street Railway, presented a request for permission to lay a loop at the terminus of the Fairville railway at Barnhill's Corner. Councillor Murray Campbell considered that before any concessions were made by the board, the Street car service to the West Side should be improved. The cars are most irregular causing long delays.

Mr. McCaulay stated that financial reasons prevented the company from giving any better service.

The matter was laid over, no definite agreement being reached.

### ONLY SIXTEEN WERE VACCINATED

Only sixteen children were vaccinated yesterday afternoon at the free vaccination clinic for school children. This brings the total vaccinated to date at one hundred children. Last year over two hundred and fifty were vaccinated, and there is every reason to believe that there are as many prospective scholars this year. It is absolutely necessary that the children be vaccinated before they can receive a permit. Parents should remember this and have their children vaccinated at once. There were only a few children in the last few days and it will be impossible to take care of all in time. The result will be that there will be a large number that will not have a permit for the opening, and the loss of several days at the opening of the school year means a serious setback.

### GEDDES COMING TO CANADA

Washington, Aug. 23.—It is announced that Sir Auckland Geddes, British Ambassador to the United States will visit Eastern Canada at the end of this week.

### OBITUARY.

The death took place on Sunday evening at his home, 122 Bridge street, after a short illness, of David H. Betts, a well known citizen. Mr. Betts was in the eighty-fourth year of his age. He is survived by his wife, three sons and three daughters. The sons are David H. and Harry Betts, of this city, and William at New Westminister, B.C. The daughters are: Misses Coriella and S. Ella Betts, at Moncton, and Mrs. W. P. Grey at Campbellton. The funeral will take place this afternoon at 2:30 o'clock.

### FUNERALS.

The body of Michael McDonald was taken to Glace Bay on the Halifax express yesterday afternoon, accompanied by his sister, Mrs. I. Petrie, of Fairville. Interment will be at Glace Bay.

### DECISION IN REGARD TO EGYPT'S INDEPENDENCE

#### Final Convention to Be Submitted to British Parliament—Sultan Will Still Retain Some Measure of Control However.

London, Aug. 23.—The Times says: The final convention for the independence of Egypt will be submitted for confirmation to the British Parliament and the Egyptian Assembly. It is probable the latter body will be asked to pass a new organic law embodying the new agreement and laying down the future constitution and relative responsibilities of the ministry and sovereign. The Times adds details will be worked out for a treaty of alliance which, it is hoped, will be negotiated as soon as the Egyptian delegation here returns home and reports the agreement to its country.

The matter was laid over, no definite agreement being reached.

### SOCIETY WEDDINGS

Special to The Standard

Martin-Franklin

Moncton, N. B., Aug. 23.—St. George's church was the scene of an interesting wedding event at noon today when Miss Constance Eugene, eldest daughter of Mr. and Mrs. J. W. Franklin, Clacton-on-Sea, Essex, England, became the bride of Edmund Byron Martin, Street Commissioner of the City of Moncton, and youngest son of W. D. Martin. The ceremony was performed by Canon Sism in the presence of immediate friends. The marriage of the young couple is the culmination of a romance of the late war. Mr. and Mrs. Martin left this afternoon on an auto-trip to P. E. Island.

Osmán-King

A wedding of much interest took place at twelve o'clock today in the Anglican church at Hillsboro, Albert Co., the principals being Conrad Osmán, only son of Mr. and Mrs. C. J. Osmán, and Miss Gladys Marie King, daughter of Fred J. King, Divisional Accountant of the C. N. R. at Campbellton. N. B. Rev. Mr. Andrews officiated, being assisted by Rev. Canon Smithers, Fredericton, and Rev. Mr. Langlois. The ceremony was witnessed by a large number of invited guests and friends of the contracting parties. Mrs. Macraux of Halifax was matron of honor and the bridesmaids were the Misses Peggy and Nancy Pytel of Moncton, and Miss Mildred Thompson of Hillsboro. The groomsmen were Gordon G. Steeves of Moncton. After luncheon and reception at the home of the bride's mother, Mr. and Mrs. Osmán left on an extended auto trip through Nova Scotia. On their return they will reside in Hillsboro.

### SETTLER IS GUIDED

#### IN FARM OPERATIONS

#### Board Throws Around Soldier Farmer Every Safeguard to Ensure His Success.

Guiding the soldier settler through farm operations and rendering assistance in overcoming the difficulties in pioneer life, especially in the early days, are important features of the wide activities of the Soldier Settlement Board. This branch of government work—one of the important problems of reconstruction for which the present Prime Minister is particularly responsible—has created a feeling of lively satisfaction throughout the country. The Soldier Settlement Board not only leads money, but it throws around the borrower every safeguard that human ingenuity can devise to make it possible for him to repay. It is the aim of the Board to neglect no opportunity to ensure the success of the man settled under its plan.

While the Soldier Settlement Board assists in establishing soldier farms or under the best conditions, the responsibility for success, of course, rests in large measure with the man himself. The selection of a farm home in his own particular case, but the Board endeavours to protect him as far as possible from failure by ensuring that his farm is good land, purchased at a price within the compass of his ability to repay, and to provide a competence for himself and his family.

Land Well Bought.

Many instances of most provident purchases put through by the Board for returned men are being reported. A Board Official on a recent tour of inspection has on a recent tour of inspection been met with a settler for whom the Board purchased land at approximately \$25 per acre. The returned soldier had been offered \$45 per acre for his farm which in itself would be splendid return on the money invested; but he refused the offer on the ground that it was well satisfied with his present. This same soldier farmer erected a picturesque little bungalow immediately adjacent to the station at Elmore, Alta. He did most of the work himself and the cost was \$500. The bungalow is said to be worth about \$1,500 and stands in the middle of an attractive garden of vegetables and fruits of about an acre. Another splendid example of a good purchase comes from the same office and refers to Geo. R. and F. W. Laycock brothers, each of whom took up a quarter section under the Soldier Settlement Board in Browning, Sask., in May last of this year. They are combining their activities, that is, working together on the 320 acres, and they have incurred a total cost of about \$14,000. The land cost them \$55 an acre, a splendid profit amounting to \$8,000, if they choose to sell immediately. They have been offered \$25 an acre. They have been offered \$55 an acre, a splendid profit amounting to \$8,000, if they choose to sell immediately. They have been offered \$25 an acre. They have been offered \$55 an acre, a splendid profit amounting to \$8,000, if they choose to sell immediately.

Not only does the Board assist in getting the returned man well established on his land but it offers him the advantage of co-operation and guidance in all his operations. This is the system of supervision which has been inaugurated by the Board—a progressive step in agricultural development. Field Supervisors are constantly in touch with settlers, with their interests and with their difficulties. They advise and direct and offer encouragement where that is necessary. This guidance is welcomed by the men; it has been found, to be sincere in his efforts to make a success of his operations has it been presented. Supervision carries with it numerous benefits. Possibly the settler needs advice as to seedling operations. He may be carrying too much stock; if so, Board officials will help him dispose of his surplus and in the purchase of his implements and the disposal of his produce.

The plan enables many soldier settlers located through last winter's influx to come to the Western provinces with a minimum loss of live stock. (Civilian farms in Alberta are said to have lost from seven to eight per cent of their stock owing to lack of feed.) The Soldier Settlement Board Supervisors were early in touch with their settlers and were able to assist them to dispose of surplus live stock, or to procure feed, while other farmers, so poorly situated, lost very heavily. So that in this one respect alone there was a tremendous saving in dollars to returned soldiers settled under the auspices of the government.

Early Adjustments Effected.

In some cases this close supervision and guidance has resulted in effecting adjustments which have been beneficial to the settler and to the Board. For instance, the Board is able to learn without loss of time whether the settler gives promise of success. There were 42 cases in one province, where it was necessary to effect adjustments and some of the causes given for the impending failure were: In six cases the soldier settler died; in ten there was domestic trouble; in thirteen the men had settled on free Dominion lands in districts where there had been successive crop failures and unusual weather conditions which discouraged them; nine men failed because of old wounds or illness caused by war service rendered. In all of these cases the Board assisted settlers or their dependents to sell out without great loss. It is the policy of the Board to advise an early adjustment, if the settler does not improve good results.

Improving Home Conditions.

In this connection it might be stated that the Home Branch gives special attention to the home conditions of the farm and is doing a splendid service in providing the dependents of returned soldiers with comforts and necessities in order to lighten their burdens and to encourage them in their work. A great many returned soldier settlers married overseas

## Is Plenty of Sleep a Waste of Time

WORK is pressing. Every man has about twice as much on hand as he ought to be asked to do.

Few men sleep long enough—or soundly enough. Even if there is nothing else to keep them awake, the average metal or wooden bed creaks just enough to prevent the nerves from complete relaxation.

No one can sleep deeply unless he is completely relaxed.

IT IS wonderful how the right kind of Bed Spring invites perfect relaxation and deep, sound sleep—and what a difference the right Bed, Mattress and Pillows can make.

The good spring is taut and flat, yet resilient. It supports the body at ease in any sleeping position—conforms to the contours—never weakens, humps or sags.

The sleep-inducing Spring is a Simmonds "Waldorf," of specially tempered spring coils. Fine springs that fit the contour of the body and support the spine in a straight line, insuring perfect circulation and restoring the energy used up in the fatigue of the day.

Simmonds Felt Mattresses are the result of twenty-five years' study of equipment for sound, natural sleep. Made of pure, new cotton in clean, sun-lit factories. Used in thousands of fastidious Canadian homes.

And Simmonds Pillows, which rest the head and neck exactly as they need to be rested.

Simmonds Limited is the maker of really noiseless Metal Beds—beds that stand sturdy and firm—not a shake, creak, or rattle anywhere.

And when you are selecting your Simmonds Beds with an eye to their appearance in the room, you will see that Simmonds has for the first time established beautiful and authoritative design in Metal Beds.

Sleep is a big subject! Write us for the booklet, "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep." Free of charge.

### What Every Woman Should Know About Her Blood

Physicians Tell How Red Blood, Rich in Iron, Lifts Women to Health, Strength and Happiness, While Thin, Watery Blood Lacking Iron Drags Them Down to a Sickly, Worn-Out Condition—Explain How Organic Iron, Like Nuxated Iron, Helps Build New Rich Red Blood.

"Strength and vitality of body and mind are derived from the blood and the blood in turn derives it from the food we eat and the oxygen contained in the air we breathe," says Dr. John J. Van Horne, formerly Medical Inspector and Chief Physician on the Board of Health of the City of New York. "But unless the blood is rich in iron to increase its oxygen-carrying power it cannot develop living tissue, muscle and brain, nor keep active the vital forces.

## A School of Scientific Tire Mending

*Goodyear Repairmen's School Trains Experts  
Who Add More Miles to the Life of Tires  
Which Have Reached the Apparent Limit.*

Most motorists would be satisfied with the generous tire mileage resulting from Goodyear quality plus Goodyear Service.

But we know that many tires which have given most generous mileage, still can be squeezed for more miles—a still lower cost-per-mile—if put in the hands of an expert repairman.

Hence the Goodyear Repairmen's School.

From this school every month goes a class of trained men—trained free by Goodyear—to preach and practise the basic Goodyear policy—making tires go farther and so cost less.

For the hundreds of tire repairmen who cannot attend our school, we have published a very complete Tire Repair Manual—a correspondence course.

So the Goodyear Repairman is working hand-in-hand with the Goodyear Service Station Dealer and the Goodyear Tire Conservation Course to make Goodyear Tires go so far that their cost-per-mile will be much below that of any tire which sacrifices quality or service to achieve a lower price or "special discount."

### Grand Circuit Races Yesterday

Charley Valentine Took  
Lion's Share at Open  
Day at Ploughkeepsie  
Yesterday Afternoon.

Poughkeepsie, N. Y., Aug. 23.—Charley Valentine took the lion's share of the honors at the opening day of Poughkeepsie's 1920 grand circuit meeting this afternoon, piloting three winners in four events. He drove Bogalusa to a victory in "Duchess" trot for two-year-olds, won the second and third heats by following Favorian home the first, and also scored with Lancelot and Peter Colby, in Hudson Valley and "The Knickerbocker," 2:08 pace and 2:08 trot respectively.

The fourth event on the day's program, the Union 2:16 class trot for three-year-olds, went to Lucille Harvey in eyelash finishes with Emmavester in the last two heats. O'Brien, the favorite, behaved poorly, placing seventh in the first heat, being distanced in the second.

The weather was a little cool, racing and the track not at its best, but the three-year-olds recorded heats at 2:10 or better. Lucille Harvey stopping the final mile 2:08 1/4. Red Lancelot made the time of the day, 2:04 1/4, in the final heat of the 2:08 pace.

A break-out Peter Colby, victor in the first heat, E. Colorado slip through to win, but Peter, the gelding, came back impressively in the last two miles, winning with urging.

### Welterweights Go Twelve Round Dr

Bridgeport, Conn., Aug. 23.—Britton, champion welterweight, and Louis Bogash, Bridgeport, Conn., welterweight champion, fought twelve rounds to a draw here tonight. The decision was given Harry Stout, Milwaukee, who refused the match. The announcement met with favor with many of the large crowd present and shouts of approval marked the wind-up exhibition.

Sporting writers at the ringside of the opinion that Britton has the advantage in but one round, the fight, and that Bogash, outbox champion in many of the other rounds.

### FOUGHT TWELVE ROUNDS TO DR

Jersey City, N. J., Aug. 23.—Burke, the New Orleans heavy and Bartley Madson, New York, fought twelve rounds to a draw tonight. Burke was the aggressor in the early rounds and scored with a jab and an occasional hook, but improved as the contest progressed and evened up honors. The winners were: Madson 150 and Burke 150.

## Grand Circuit Races Yesterday

### Charley Valentine Took the Lion's Share at Opening Day at Ploughkeepsie Yesterday Afternoon.

Poughkeepsie, N. Y., Aug. 23.—Charley Valentine took the lion's share of the honors at the opening day of Poughkeepsie's 1920 grand circuit meeting this afternoon, plotting three winners in four events. He drove Bogalusa to a victory in the "Duchess" trot for two-years-old, with the second and third heats handsomely after following Favorian home in the first, and also scored with Red Lancelot and Peter Coley, in "The Hudson Valley," and "The Knickerbocker," 2:08 pace and 2:08 trot, respectively.

The fourth event on the day's card, the Union 2:16 class trot for three-years-old went to Lucille Harvester in a galeish finish with Emma Harvester in the last two heats. Great Britain, the favorite, behaved poorly, placing seventh in the first heat and being distanced in the second. The weather was a little cool for racing and the track not at its best, but the three-year-olds recorded three heats at 2:10 or better. Lucille Harvester stepping the final mile in 2:08 1/4. Red Lancelot made the second heat of the day, 2:04 1/4, in the second heat of the 2:08 pace.

## BRITISH AND ITALIAN PREMIERS' AGREEMENT

Have Resolved on Action to Be Taken by Allies in Regard to Poland's Use of Danzig.

Lucerne, Switzerland, Aug. 23.—Premier Lloyd George of Great Britain and Premier Giolitti of Italy have adopted proposals to be submitted to the League of Nations in regard to Danzig, and its communications in accordance with the Versailles Treaty. It was officially announced here today.

The conference between Mr. Lloyd George and Signor Giolitti concluded this evening, when the Premier sent the following telegram to M. Millerand, the French Premier: "In finishing our Lucerne conference we send you a cordial salute and look forward with pleasure to the earliest occasion when both of us can meet. Your Excellency."

## Orphans' Friend Here From Cuba

### J. D. O'Connell Again Ready to Please the Youngsters—Talks on Conditions in Cuba.

J. D. O'Connell, known in six different countries as the orphans' friend, is in the city at present making arrangements for his annual picnic for the orphans. Mr. O'Connell came direct to this city from Cuba and the first of his picnics in the Maritime Provinces will be held in this city this year.

To a Standard reporter last evening he told some of the details of this year's picnic. Unlike last year, he is throwing this year's picnic open to all children in the city. All can come along and enjoy the treat. However, Mr. O'Connell is only making arrangements for convalescents for the children from the orphanages. Though all other children are cordially invited, their parents will have to make the arrangements for getting to the picnic grounds for them. Moreover, though special treats will be given to all the children, only the orphans or other children partly dependent on charity will share in the money gifts or will be allowed to take part in the penny scramble.

### WESTERN GRAIN CROP LOOKS GOOD

Reports from Several Districts Indicate That Mouth of It is Already Cut and Quality Excellent.

United States Senate Committee Decide That Some Investigation is Necessary.

Chicago, Aug. 23.—Chairman Will Hays and George White, of the Republican and Democratic National Committees respectively, the treasurer of each committee and the treasurers of the Senatorial and Congressional campaign committees of each party today were ordered to appear before the Senate Committee investigating campaign expenditures here next Monday.

## FRENCH OFFICERS TO BE SHOT

Paris, Aug. 23.—A wireless message was received here from Moscow today declaring that, inasmuch as France is not in a state of war with Russia, any French officer taken prisoner on the Warsaw front will be shot summarily, intransigent says.

## Good Words For St. John Athletes

### Ex-Mayor MacIreth Spoke Kindly at Halifax on Saturday—Prizes Presented Immediately After Finish of Programme.

A lover of athletics could not be otherwise than pleased by the manner in which the North West Arm Club regatta was conducted on Saturday morning at the Halifax express yard. Speaking of the people in the sister city, Mr. O'Connell said that there was not one moment during the time that he and his brother Harry were in Halifax that they were not well looked after, and he speaks in the very highest terms especially of the rowing club officials and the Halifax oarsmen. Le Pluck, the big aftermid of the North West Arm crew, placed his automobile at the disposal of the Belyea and looked after the shells. President Hoyt and Secretary Ryan, of the Arm Club, along with the old reliable "Bill" Scriven, were also very attentive to the St. John oarsmen and left nothing undone to make the visit in Halifax one of real pleasure.

In addition to looking after the oarsmen, these gentlemen, as well as the officials and members of the St. Mary's Club and the Waegwolk Club, were most generous in showing hospitality to the visitors from St. John who attended the regatta; each and every visitor was welcomed to the quarters of the clubs during Saturday and Sunday.

## IL STRUCK NEAR ARCTIC CIRCLE

Flow So Far Only Small, But Find Regarded As Significant.

Toronto, Aug. 23.—Oil has been struck by the Imperial Oil Company, Limited, at a point just within the Arctic Circle, north of the Great Slave Lake, and close to the Mackenzie River, according to announcement made today. The flow of oil is small and possibly cannot be made use of economically, but it is regarded as significant that oil has been found there. The flow is ten barrels a day.

## RED SOLDIERS ARE READY TO LAY DOWN ARMS

Do Not Want to Fight Against Poles Whom They Call Their Brothers.

London, Aug. 23.—Lord Mayor Terence MacSwiney, Cork, who is in Brixton Jail, London, on a hunger strike, was reported weaker today but still determined not to abandon the strike.

## THE CHAMPIONSHIP CRICKET GAMES

London, Aug. 23.—By Canadian Associated Press.—In championship cricket today Lancashire beat Worcestershire by an innings and 99 runs. The losers only scored 68 runs in the 2nd inning. C. J. Tyldesley took seven wickets for 74 runs. Gloucestershire beat Leicestershire by an innings and 55 runs, the scores being Gloucestershire 180; Leicestershire 54 and 53. Parker took 14 Leicestershire wickets for 57.

## Carsmen Return Greatly Pleased

### Trip to Halifax One of Success and Pleasure—Speak Highly of Excellent Treatment Received.

Hilton Belyea, Grenville McCavour, the senior and junior scullers, along with the Renforth, four-oared crew, also the St. Peter's baseball team, along with their followers, arrived home on the Halifax express yesterday morning, and all speak highly of the excellent treatment received at the hands of the people in the sister city. Speaking of the trip, Hilton Belyea told The Standard that there was not one moment during the time that he and his brother Harry were in Halifax that they were not well looked after, and he speaks in the very highest terms especially of the rowing club officials and the Halifax oarsmen. Le Pluck, the big aftermid of the North West Arm crew, placed his automobile at the disposal of the Belyea and looked after the shells. President Hoyt and Secretary Ryan, of the Arm Club, along with the old reliable "Bill" Scriven, were also very attentive to the St. John oarsmen and left nothing undone to make the visit in Halifax one of real pleasure.

## Carpentier and Battling Levinsky

New York, Aug. 23.—As a large majority of the members of the International Sporting Club have signified their preference for a contest between Battling Levinsky and Georges Carpentier, as against a proposed bout between Dempsey and Brennan, the management have decided to stake the former match at Ebbett's Field, Brooklyn, in October, on a date to be selected later.

The International Club recently came to an agreement with the owners of Ebbett's Field, whereby the matches made by the club prior to the completion of their club-house, will be staged in that enclosure.

### LORD MAYOR OF CORK ON HUNGER STRIKE

Though Earnestly Entreated to Give In, He Firmly Refuses "To Give Away Cause of Irish Liberty."

London, Aug. 23.—Lord Mayor Terence MacSwiney, Cork, who is in Brixton Jail, London, on a hunger strike, was reported weaker today but still determined not to abandon the strike.

REPRESENTATIVES: THE STANDARD IS SOLD BY: Windsor Hotel, Montreal, Ottawa, Portland, St. John, N. B., Canada

ST. JOHN, N. B., TUESDAY, AUGUST 24, 1920.

THE PLEA OF SEX.

In common, we presume, with all other newspapers in Canada, The Standard has received a copy of a letter written from the Canadian Prisoners' Welfare Association, whose headquarters are at Montreal, explanatory of a petition at this time in the hands of social workers and kindred societies in the country.

The petition is a question, after claiming that the law of capital punishment should be abolished, especially in the case of a woman or a minor. It presents the situation of Marie Anne Heude (Mrs. Gascon) of Quebec, under sentence to be hanged on October 1 next, for the killing of her step-child.

By the action of the Tennessee Legislature, 23,000,000 fresh votes are added to the electoral register in the United States. For nearly a century, says the Montreal Gazette, groups of advanced women in the United States have labored for an object which has just been consummated by the action referred to—the right to vote upon terms which place them on a par with the men.

It is very seldom that the lady in the case is a homely woman. Timely Warning. Signboard in an English river. "When this board is covered with water it is dangerous to attempt to cross the ford."—Boston Transcript.

THE LAUGH LINE. It is very seldom that the lady in the case is a homely woman. Timely Warning. Signboard in an English river. "When this board is covered with water it is dangerous to attempt to cross the ford."—Boston Transcript.

FOR A NEGRO NATION. President Wilson, who did something to bedevil the world with his phrase, "self-determination," must be rather astute when he contemplates the latest application of the idea.

League of Nations could be made an instrument for world peace, as President Wilson insisted, it should be supported. Chiefly, there is a new and important political element injected into the life of the United States—somehow uncertain, but, broadly, on the side of the highest ideals (which women, in the main, pursue), to give grace and moral health to the public life of the great republic.

WHAT OTHERS SAY

Liberals and the Tariff. (Leithbridge Herald, Lib.) The Liberals certainly have a low tariff platform, but very few pretend to think that the Liberals would entirely abolish protection. In the east, there are almost as many Liberal protectionists as Conservative protectionists, and this element would defend the tariff against any onslaught that would cripple the protection of certain industries.

The Vicious Circle. (Hamilton Spectator.) When D'Arcy Scott told the railway commission that the time had come to break the vicious circle of rising prices, he said what most of the people think. But, unfortunately, Mr. Scott, like the rest of us, has no feasible plan to prevent what the vicious circle was to be broken without doing great damage somewhere. And that is the great trouble.

"Middle" of the Road. (Calgary Herald.) Macdonald King does not like Premier Meighen's suggestion to some Canadians that they should walk along the middle of the road in these days of the world unrest. The opposition leader tries to score on it by referring to the parable of the Good Samaritan, in which, according to him, the Pharisee walked along the middle of the road. Macdonald King should study his Bible again. The Pharisee passed on the other side, according to the Bible text.

A BIT OF VERSE

THE ROCKIES. High thy craggy crests forever Rise, like ideas of endeavor, Overlooking plain and sea; Who shall look on these uplands in Washington which will be modelled on the lines of the Sinn Fein embassy, and from this centre will direct a propaganda to rouse the negroes of the world to a sense of their racial unity so that they may throw off the white man's yoke and clear him out of Africa. Though the movement is doomed to futility it is interesting as showing how fanatical is the interpretation put upon Mr. Wilson's demand that every nationality should have the right of "self-determination."

WOMEN WIN.

By the action of the Tennessee Legislature, 23,000,000 fresh votes are added to the electoral register in the United States. For nearly a century, says the Montreal Gazette, groups of advanced women in the United States have labored for an object which has just been consummated by the action referred to—the right to vote upon terms which place them on a par with the men. Every sort of discouragement was endured, including the indifference of women themselves; but the action of the Legislature supplies the thirty-sixth state which was necessary to the carrying of the amendment to the constitution, and automatically the right of women are enfranchised. It has been complained that women are not sufficiently informed to vote on great issues with knowledge; and it has been urged especially that in the case of so-called "foreigners," who could be easily seduced by either of the great political parties, the public life of the country would be degraded instead of uplifted by the granting of the vote to women. On the other hand, it is said that all that is wanted is experience, which has just been bestowed upon them. The great political emancipation ought to have striking and beneficial effects. Naturally, women are on the side of the finer things of life. The sense of protection and safeguards is early theirs, because mature, maturing their peculiar functions as the mothers of the race, suggests the thought of shelter. For this instinctive reason, the women would naturally be found espousing moral and uplifting causes. At the same time, in countries where women have enjoyed the vote for years, no great reform has been accomplished. The women have ranged themselves with the existing parties to a great extent, content to receive party favors and not assuming the name or the colors or the ideals of a separate party in the community or the State. As far as the United States is concerned, both the candidates for the presidency express the conviction that the giving of the vote to women means a great political and social uplift.

THE LAUGH LINE

It is very seldom that the lady in the case is a homely woman. Timely Warning. Signboard in an English river. "When this board is covered with water it is dangerous to attempt to cross the ford."—Boston Transcript.

FOR A NEGRO NATION

President Wilson, who did something to bedevil the world with his phrase, "self-determination," must be rather astute when he contemplates the latest application of the idea. In the past of negroes, who declare that Africa belongs to the negroes and that all the whites should be expelled therefrom. A few days ago a negro convention assembled in New York, under the leadership of Marcus Garvey, a colored man from Jamaica,

I had 5 cents yesterday and I got a grate floor for saving up a lot of money, thinking, Gosh, in about a few months or a few years I awt to have about 100 dollars saved up. And I went up in m's room and m's was setting there darnin' holes out of stockings, and I sed, Ma, I think I'll start to save up my money from now on. Im glad to hear it, if you save it half as industriously as you spend it you'll soon be a rich man, sed ma, and I sed, Yes ma, well ma, will you join a contract to give me a cent every time I save up 5 to make 6? Wy yes, I suppose so, I think it would be a real good thing, sed ma, and I sed, Well I got 5 now, ma. Well upon my word, sed ma. Meening she thawt I bin talkin' about the future instead of the present, and I showed her the 5 and she gave me a cent, and I went in the setting room and pop was in there smokin' with his feet up, mo sayin', Pop, wat would you think if I started to save all my money instead of spendin' it all? Wat would I think? I dont think I'd ever be able to think agen, sed pop, and I sed, Well I got a pritty good of a stor, pop, I can save quick as anything if you'll join a contract to give me 4 cents each time I save up 6 to make 10, will you, pop? Your mullage of high finance is amazin' and sed, pop, and I sed, Well will you, pop? and he sed, Yes, and I sed, Well I got 6 now pop. The dooce you have, J. P. Morgan is a 4 fluster compared with you, I mite of know you had sumthin' up your sleeve, sed pop. And I showed him the 6 cents and he gave me 4, and I put the hole 70 in my bank and after suppr I took it all out and sen with a dhatin' room nite and went to the movies with Puds Simkins, wich as soon as ma and pop found it out they both sed the contract was all over.

CANADIAN FORESTRY CAR. The Canadian Forestry Association's Exhibition Car, containing a minute presentation of the products of New Brunswick forests, will be at St. John from noon Saturday, August 28th, until the following Monday evening and will be thrown open to the public. This year the Forestry Association has added greatly to its exhibits of previous years and will be able to show the people of St. John many interesting sights which are not commonly familiar. At a score of points along New Brunswick railway lines the car has been visited daily by hundreds of men and women who have displayed deep interest in the arrangement of forest products and have praised the beauty of the car's interior. An effort will be made to present Indian pictures during the evening. Mr. Gerald Blyth and Mr. Blanchard, who are in charge of the car for the Forestry Association, will be in attendance from noon Saturday until 10 p. m., and a hearty invitation has been extended to all interested in the welfare of New Brunswick to be on hand.

Mr. Prince pointed out the great loss that has resulted from forest fires in the past, and how that much of the loss was due to carelessness which was avoidable. He also pointed out the importance of maintaining the forests in producing capacity from the standpoint of provincial revenue and general prosperity of the New Brunswick people.

# Common Council Special Meeting

Matter of New Water Main to Spruce Lake Disposed of Yesterday and Canada Lock Joint Pipe Co. Get Contract at \$15.50 Per Foot.

Yesterday afternoon, at a special meeting of the Common Council, the matter of a new water main to Spruce Lake was finally disposed of, and the Canada Lock Joint Pipe Co. got the contract for the job at \$15.50 per foot. Some opposition to various phases of the contract was voiced, but after explanation of the contract by the city solicitor, J. B. M. Baxter, K. C., the vote passed with only one dissenting voice, that of Commissioner Prink.

Mayor Schofield presided, and there were present Commissioners Bullock, Thornton, Jones and Frink; G. G. Hare, city engineer; Dr. J. B. M. Baxter, city solicitor; President Chase and Vice-President Hirsch and C. J. Bruce, of the Pipe Company, and N. P. McLeod.

Mayor Schofield called the meeting to order and Commissioner Bullock moved the Council go into committee to discuss the contract drawn up by the city solicitor. Carried.

The city solicitor then noted the changes made in the specifications. The first was in regard to time of completion, the new clause requiring the company to complete the contract in two years from date of beginning regardless of time allowed for winter storms, the company to give a surety bond for half the amount of the contract for the carrying out of this part of the agreement. In regard to leakage, the specification was altered to allow for the company giving a surety bond for one-third of the amount of the contract for three years and a further guarantee for an additional two years for the maintenance of the pipe in good order.

The contract called for completion in two years, the work to cost \$15.50 per lined foot for the excavation, making of the pipe, laying of it and refilling, \$8 per cubic foot for rock excavation, and \$2.50 per cubic yard for extra excavation over seven feet. It also provided that if the contractor should unduly hold up the work, the city might take it over any time and finish the work, and no extra would be allowed unless certified to by the city engineer.

Commissioner Thornton thought the matter of extras should come before the Council, as they were the ones responsible to the electors, and this change was made in the contract. Commissioner Thornton also called attention to the letter of the Atlantic Construction Company, and asked if their tender was in conformity with the specification except for the cash deposit. The city engineer said so far as he knew it was not, although he had not seen it.

The Council then rose and went into committee.

The report of the committee of the whole recommending the adoption of the agreement with the Nashuaak Pipe and Paper Co., passed at the last meeting of the committee, was then received, and on a vote adopted, Commissioners Thornton and Frink voting nay.

Commissioner Jones then moved the following resolution: That the agreement prepared by the city solicitor with the Canada Lock Joint Pipe, Limited, be approved and entered into under the common seal.

This was seconded by Commissioner Bullock.

Commissioner Prink called attention to the fact that a wood stove pipe could be laid for \$126,000, while the concrete was going to cost \$357,000. He called attention to the fact that the tender was practically the amount given in the estimate of the city engineer in June last.

Commissioner Thornton thought the Lock Joint Pipe Co. had gone the limit in their tender, and said he was in favor of throwing the whole thing out.

On the vote being taken the motion carried, Commissioner Prink voting nay.

Council then adjourned.

# Police Court Cases Yesterday

The usual Monday rush was on at the police court yesterday. Victor Plessant, an Italian, pleaded guilty to being drunk on Pond street. He was also charged with impeding young girls, but he denied this charge.

Policemen Linton and Dykeman testified that they had received complaints from the girls when the accused stopped them. When asked what he was doing by the policeman he had replied that he was a Thiel detective. The accused told the court that he had questioned a child in regard to information about a friend of his. # AUGUST FUR EVENT

St. John's Only Exclusive Fur House is offering at its annual August Fur Sale an opportunity that the fur-buying public will appreciate when it visits our "Fur Parlors" and sees for itself the wonderful values being shown. These values will not be duplicated later in the season as the retail prices we are asking are in many cases below the figures the wholesaler is receiving for the same goods today.

As "Exclusive Furriers" we have many buying opportunities not offered to merchants handling furs only as one department of their business. A visit to our Fur Parlors will convince you that our statements are ones of fact.

We would call your special attention to our Hudson Seal garments, of which we have the largest showing in the Maritime Provinces.

## WESTERN NURSE WINS SCHOLARSHIP

Miss Jean Browne of Saskatchewan Goes to University of London as Canada's Representative—Sent by Red Cross.

The Canadian Red Cross Society has awarded to Miss Jean E. Browne, of Saskatchewan, a Scholarship of \$1,500.00 in Public Health Nursing, to be held for one year at the University of London, England. Similar scholarships are being given by the other countries which are included in the League of Red Cross Societies, a world-wide organization, which is one of the first fruits of the League of Nations. The League of Red Cross Societies is providing scholarships in the countries where Public Health Nursing is not yet established, so that the course will be truly representative and cosmopolitan.

Miss Jean Browne, who goes as Canada's representative, says the Toronto Mail and Empire, has already attained prominence in the field of Public Health Nursing in Canada. She is an honor graduate of the Toronto Normal School and of the Toronto General Hospital Training School for Nurses, in the latter institution winning the General Proficiency Scholarship in the final year. In 1911 she organized the health work of the Regina Public Schools, in Saskatchewan, and since 1917 she has been director of school hygiene for the Department of Education of Saskatchewan.

This international course in Public Health Nursing has the double object of giving post-graduate instruction and encouraging the interchange of ideas current in the countries represented by the students.

## THE MODERN GIRL EXPLAINS HERSELF

(In the London Daily Express.) Is the modern girl so very modern? Is it not only a pose she puts on, but a cause she thinks it is expected of her? I am supposed to be a modern girl. I go about unadorned, I smoke cigarettes, I even have bobbed hair. A great many people thoroughly disapprove of me. And I don't blame them. But I am not really modern. Not in the least. For one thing I adore children. And, frankly, I want to get married. I am thoroughly domesticated. I am never so happy as when pottering about the house. I like my needle, I love a kitchen. I adore shopping. My desires are all old-fashioned. I should be perfectly willing to give up smoking (I'm far better without it), let my hair grow, and give up my profession if only some one cared enough to take it worth while trying to please him. And I am sure that nine modern girls out of every ten feel exactly the same. We are only modern to try to put a brave face on our "manliness."

## A JUNGLE AT BURROUGHS' HOME

The palatial home of Edgar Rice Burroughs will be the setting of a large number of scenes for "The Son of Tarzan," now being produced for David P. Howells at the west coast plant of the National Film Corporation of America, in Hollywood, Cal. Mr. Burroughs lives at Tarzana, a "bit of jungle" situated in the San Fernando Valley, only a short distance from the National studios. In teaching his two young sons jungle lore Mr. Burroughs conceived the plan of surrounding his home with plants, flowers and other vegetation which he brought with him from Africa. It is the author's intention to make an explorer of the oldest and a historian out of the other.

Mr. Burroughs' home is a small bit of wonderland. The portions that are densely overgrown and which contains a small private zoo will be the settings of several important scenes of "The Son of Tarzan" serial, according to advices from the National studios.

## "The Island of Regeneration"

Is Different from Other Films—Leaves Lasting Impression.

There is an inexplicable something about "The Island of Regeneration" which was shown at the Unique Theatre yesterday that holds the spectator to the final close out and leaves a lasting impress in the memory. It is similar to hundreds of other stories dealing with shipwrecks and the South Sea Islands. Yet it is entirely different. It is peculiar to itself and to be appreciated it must be seen. The luxurious tropical backgrounds, the simplicity of the players, the naturalness of the action and the intense dramatic moments, offset by bright spots of character development or atmosphere make this film a screen classic.

"The Island of Regeneration" gives expression to the suppressed desire of many mortals who would like to abandon conventionalities of society, the rush and hurry of modern business and seek the solitudes of a lone island, where they might commune with nature and live as they pleased. This is the secret of the popularity of "The Island of Regeneration." It gratifies the personal desire. It is like living in the environment so often pictured. It appeals to the simpler emotions and rests the nerves. Thus one might say, "The Island of Regeneration" is refreshing and practically every one will say that it is one of the best pictures produced in a long while.

## PAULINE FREDERICK ASKS FOR DIVORCE

Was Married to Willard Mack, Actor and Playwright—Husband Divorced from Marjorie Rambaau.

In the County Clerk's office, New York, Pauline Frederick, the motion picture actress, filed papers in a suit for divorce from Charles W. McLaughlin, better known as Willard Mack, actor and playwright. The plaintiff in her complaint, which was filed by her attorney, Geo. Edwin Joseph, charges her husband with misconduct and mentions "an unknown woman."

Accompanying the complaint was a report filed by a referee recommending that an interlocutory decree be granted, which was based on testimony previously taken from the witnesses.

Pauline Frederick married Willard Mack in Washington, D. C., on Sept. 25, 1917, shortly after he was divorced from Marjorie Rambaau, who named Miss Frederick as co-respondent in her suit. Miss Frederick and Willard Mack have been separated for several months.

## HER CASE SEEMED HOPELESS

But "Fruit-a-tives" Brought Health and Strength.

29 St. Rose St., Montreal.  
"I am writing you to tell you that I owe my life to 'Fruit-a-tives.' This medicine relieved me when I had given up hope of ever being well. I was a terrible sufferer from Dyspepsia—had suffered for years, and nothing I took did me any good. I read about 'Fruit-a-tives' and tried them. After taking a few boxes of this wonderful medicine made from fruit juices, I am now entirely well."

TRY THE FOG FIRST.

Oh, Corlella, have a heart. Advising us to rub 'ordinary sweet cream' on the face to correct sunburn! When there are blueberries and cereals that have to be eaten, 'cause we can't afford, owing to the cost of the H. C. of F., even what the milkman calls cream. Guess we'll let the sunburn stay and trust to the old-fashioned complexion remedy, which we don't have to pay for around here the meek breeze, which blow in with a southerly wind.

Joseph Kilgour plays the role of the wealthy New Yorker in the manner which has won him popular recognition in the motion picture world. Emory Johnson, who has had a successful career as leading man for a number of screen favorites, plays the part of the Kentuckian and Darrell Foss has been cast in the part of Kathleen's brother, Clary Du Broy and Yvonne Davis have been assigned to important parts.

## May Allison In Society Play At Imperial

"The Walk-Offs" Affords Metro Star Chance to Display Her Beauty and Grace.

The beautiful May Allison in "The Walk-Offs," a comedy in satirical mood of New York society, is the feature attraction at the Imperial Theatre just now. The production has been made by Screen Classics, Inc., from the big Broadway stage success by Frederic and Fanny Hatton, which was produced by Oliver Morosco. The action of the play takes place in and about the homes of wealthy society leaders in New York City and in the studios of those who are more interested in art for the sake of diversion than for itself. A magnificent court scene with its setting and action carried through in satirical vein is one of the earlier and most amusing scenes of the production.

When 4 Days Old. Cross and Cried. Cuticura Heals.

"My baby brother had eczema which began when he was about four days old. It came in little pimples and then a rash, and he was covered. He was so cross that he could not sleep, and he cried.

"This lasted about two months before we used Cuticura. It helped him, so we bought more, and he was all healed after we had used two cakes of Soap and two boxes of Ointment." (Signed) Miss Almida Williams, Youngs Cove, N. B., May 22, 1918.

Use Cuticura Soap, Ointment and Talcum for all toilet purposes. Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Dept. of Commerce, Limited, St. Paul St., Montreal. Cuticura Soap shaves without soap.

## Luxurious Furs at Economy Prices

HUGE coats, magnificent capes and shawl collars, smart coats, chic chokers and a wonderful array of miscellaneous smaller pieces of unsurpassed beauty and luxuriousness. Dozens of distinctive designs representing the latest creations of the Fur Garment world are now offered at prices far below what we will have to ask later in the season.

One glance at our wonderful display will quickly convince the most skeptical of the unusual opportunity offered in

Our August Fur Sale

Never before have conditions equalled the present. Every Fur trading center reports a scarcity of skins, while an increasing demand makes the situation still more complex.

Such acute conditions are what makes rigid economy vitally important with all of us. An appreciation of these facts is the chief reason for the present unusual offer of our entire line of Fur Garments at Pre-Season prices.

The savings we realize on overhead costs is passed along to you in sharp price reductions you cannot afford to overlook.

## THE GREAT IMPERSONATION

(Continued from page eleven.)  
"I demand again," Schmidt shouted, "to know by what right I am treated as a criminal!"

"Because you are one," Eddy answered coolly. "You and Von Ragsstein together planned the murder of Sir Breward Doniney in East Africa, and I caught you creeping across the floor just now with a knife in your hand. That's do for you. Any question to ask, Seaman?"

"None," was the early reply.  
"You are well-advised," the young man remarked coolly. "Within the last two days your house in Forest Hill and your offices in London Wall have been searched."

"You have said enough," Seaman declared. "That has gone against me. I thank God that our master has abler servants than I and the strength to crush this island of popinjays and fools!"

"Popinjays seems severe," Eddy murmured, a hurt tone. "However, to get on with this little matter," he added, turning to one of his two subordinates. "You will find a military ensign. Take these men over to the guardroom at the Norwich Barracks. I have arranged for an escort to see them to town. Tell the colonel I'll be over later in the day."

The Princess rose from the chair into which she had subsided a few moments before. Doniney turned towards her.

"Princess," he said, "there can be little conversation between us. Yet I shall ask you to remember that Von Ragsstein planned my death in cold blood. I could have slain him as an assassin, without the slightest risk, but I preferred to meet him face to face with the truth upon my lips. It was his life or mine. I fought for my country's sake, as he did for his."

The Princess looked at him with glittering eyes.

"I shall hate you to the end of my days," she declared, "because you have killed the thing I love, but although I am a woman, I know justice. You were chivalrous towards me. You treated Leopold perhaps better than he would have treated you. I pray that I shall never see your face again. Be so good as to suffer me to leave this house at once, unattended."

Doniney threw open the window which led on to the terrace and stood on one side. She passed without a glance at him and disappeared. Eddy came striding along the terrace a few moments later.

"Nice old ducks, those two, dear heart," he chuckled. "Seaman has just offered Pershy, my hundred ruffian, the blue serge suit, a buried pound to shoot him on the pretence that he was escaping."

"And what about Schmidt?"  
"Instead on his rights as an officer and demanded the front seat and cigar before the car started! A pretty job, Doniney, and neatly cleaned up."

Doniney was watching the dust from the two cars which were disappearing down the avenue.

"Tell me, Eddy," he asked, "there's one thing I have always been curious about. How did you manage to keep that fellow Wolff when there was a war on, and he wasn't breaking the law?"

"The young man grinned.  
"We had to scratch a picture of the 'old man' as he admitted. Plans of forces, eh?"

"Do you mean to say that he has plans of a fortress upon him?" Doniney asked.

"Picture post-card of Norwich Castle," the young man confided, "or keep it dark. Can I have a drink before I get the little car going?"

The turned of the day was over and Doniney, after one silent but passionate outburst of thankfulness at the passing from his life of the unusual restaurant, found all his thoughts absorbed by the struggle which was being fought out in the bedchamber above. The old doctor came down and joined him at dinner time. His man Doniney's eager glance lit a little.

"She's doing all right," he declared. "No fever or anything?"

"None yet," Doniney said, as near possible to perfect health physical. A different woman from what she was this time last year. I can tell you when she wakes up, she'll either herald again, without a single illness of any sort, or—"

The doctor paused, sipped his wine, emptied his glass and set it down approvingly.

"Or?" Doniney persisted.  
"Or that part of her brain will more or less permanently affect. However, I am hoping for the best. Thank heavens you're on the spot. They finished their dinner almost silence. Afterwards, they smoked a few cigarettes upon the terrace. They made their way softly upstairs. The doctor gazed at Doniney the door of the latter's room.

"I shall remain with her for an hour or so," he said. "After that I shall leave her entirely to herself. You'll here in case 'she's a change'?"

"I shall be here," Doniney replied. The minutes passed into hours.

## Cocoanut Oil Fine For Washing Hair

If you want to keep your hair good condition, be careful what you wash it with.

Don't use prepared shampoos anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful (which is pure and entirely germless), is much better than anything you can use for shampooing, this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two spoonfuls will make an abundance rich, creamy lather, and cleanses hair and scalp thoroughly.

It is very easy to remove every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves fine and silky, bright, fluffy and easy to manage.

You can get refined coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family months.

YEARS ADDED TO HER LIFE SAYS MRS. KEDDY

Friends Amazed at Wonderful Improvement in Halifax Woman Since She Began Taking Tanlac.

"My health and strength have returned so rapidly that all my friends are amazed," declared Mrs. E. Keddy of Cogswell street, Halifax, in relating her remarkable experience with Tanlac, recently.

"No one will ever know," said Mrs. Keddy, "how terribly I have suffered from indigestion for the past eight years because I can't just fully describe it. Even the lightest food would upset my stomach and make me miserable for hours. The worst kind of pain would come in the pit of my stomach and I would bloat up with gas until I could hardly breathe and my heart would palpitate at such a fearful rate that I had to sit down."

"I often had headaches that kept me in bed and always left me as weak as a baby. I would roll and toss in my bed, unattended. Doniney sat in his easy-chair, stirred by a tumultuous wave of passionate emotion. The memory of those earlier days of his return came back to him with all their poignant longings. He felt again the same tearing at his heart-strings, the same strange, unerving tenderness. The great world's drama, in which he knew that he, too, would surely come to a close, seemed like a thing far off, the concern of another race of men. Every fibre of his being seemed attuned to the magic and the music of one wild hope. Yet when there came what he had listened for so long, the hope seemed frozen into fear. He sat a little forward in his easy-chair, his hands gripping its sides, his eyes fixed upon the slowly widening crack in the panel. She came to him with her arms outstretched and all the wonderful things of life and love in her shining eyes. That faint touch of the somnambulist had passed. She came to him as she had never before. She was a very real and a very live woman. "Overard!" she cried.

He took her into his arms. At their first kiss she thrilled from head to foot. For a moment she laid her head upon his shoulder. "Oh, I have been so silly!" she confessed. "There were times when I couldn't believe that you were my Overard—mine! And now I know."

Her lips sought his again, his purchase with the desire of years. Along the corridor, the old doctor tiptoed his way to his room, with a pleased smile upon his face.

(The End.)

nervousness and misery at night until I had to get up and walk the floor. I feel of in weight until I was a mere shadow of what I used to be and lost strength until everything I tried to do was a burden to me. Nothing helped me and I became so discouraged and down-hearted that I often felt like I would rather not live at all.

"But Tanlac helped me right from the start and I prize it above every medicine, even that which was prescribed for me. I can eat any kind of food now and never feel a touch of indigestion. I haven't had a headache for a long time and my sleep is so sound and restful at night that I get up every morning full of strength and energy. I have also gained a great deal in weight, for all my clothes are getting too small for me. In fact I just feel like years have been added to my life and I am so thankful for what Tanlac has done for me that I feel it my duty to tell everybody I can about it."

"Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro under the personal direction of a special Tanlac representative.—Adv't.

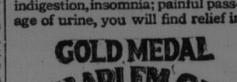

I couldn't believe that you were my Overard—mine! And now I know."

Her lips sought his again, his purchase with the desire of years. Along the corridor, the old doctor tiptoed his way to his room, with a pleased smile upon his face.

## SPANISH RIVER CO. ANNUAL STATEMENT

Expected to be Unusually Good and Therefore is Being Awaited With Much Interest.

Toronto, Aug. 23.—The annual statement of the Spanish River Pulp and Paper Mills Limited, which should be out in the next week or ten days is being looked forward to with greater interest than ever before. The phenomenal rise that has occurred in the price of the securities alone would be sufficient to make the shareholders anxious to see the statement, interested who are in a position to know just what the statement is likely to show.

On this account the statement will indicate what the company is going to be able to show in the year 1920. New York funds in Montreal are quoted at 13 1/4 per cent. Sterling in New York is easier at 5.58 for demand, and 5.58 1/4 for cables, making a decline in Montreal 4.56 for demand and 4.56 3/4 for cables.

## A NASTY JAR FOR PROHIBITION

Asheford, B. C., Aug. 23.—As a result of drinking nearly half a quart of methylated spirits, John G. Kirkpatrick, Asheford, aged 40, died yesterday. The jury brought in a verdict of accidental death after the consumption of a quantity of methylated spirits and asked the rider that "had saloons been in business deceased would not have had to resort to methylated spirits."

Asbestos Used For Spinning.

The earliest use of asbestos was for spinning and weaving, so make incombustible thread and yarn, rope and cloth, and this has continued to be the most important use of asbestos ever since the days of the Greeks and Romans. Only the best grades can be used for this purpose. Thread can now be spun so fine that it will run about 22,000 feet to the pound.

## IRREGULAR TONE IN WALL STREET

Shorts Being Very Active—Money Market Steered An Even Course—Rails Showed Up Strong However.

New York, Aug. 23.—Probably on the assumption that last week's rally was not warranted by technical conditions, shorts renewed their aggressive tactics in the stock market today, an irregular to heavy tone ruling at the close.

The reversal occasioned surprise in some quarters, however, because many of the developments over the week-end were distinctly favorable to the long account. The one noteworthy exception was the clearing house statement, which disclosed a severe contraction of actual reserves.

Advices received throughout the session pointed to the further marked success of the Polish offensive. This was neutralized in part by cables which leded to confuse latest political phases of the Eastern European conflict.

The money market steered an even course, inferior banks lending moderately of time funds, regardless of further prospective withdrawals of cash for crops and Federal payments. The loan is being handled entirely by gold, money was offered in round amounts at seven per cent, and additional purchases of commercial paper were reported.

Rails were the only sustaining feature. Reading coming forward with a burst of speed in the final declines, with a fair demand for Southern Pacific, Norfolk, and Western and several of the secondary coals, notably Baltimore and Ohio.

Shipings, Oils and Equipments were under intermittent pressure, notably Mexican and Pan American Petroleum, Houston Oil, Atlantic Gulf, Eastwin Loco, the Motors and their accessories and numerous specialties in the food, tobacco and leather divisions. Sales amounted to 400,000 shares.

Virtually no branch of the foreign exchange market was exempt from the recession which were caused by more extensive offerings of grain bills on London, the French rate also falling sharply.

Liberty and other active bond issues were irregular on light trading. Internationals also easing. Total sales per value aggregated \$6,350,000. Old United States coupons 2 1/2 rose 1/4 per cent on call.

## CITY OF HALIFAX FLOATS NEW LOAN

Halifax, Aug. 23.—The City of Halifax has floated another loan of \$500,000 bearing interest at six per cent per annum and redeemable in ten years. The loan is being handled entirely by Halifax brokers, and will be offered at 98.16, giving a return of 6.43 per cent.

FAIRBANKS-MORSE INCREASE CAPITAL

Ottawa, Aug. 23.—Amendments to letters patent of the Canadian Fairbanks-Morse, Ltd., increase the capital stock of the company to 125,000 shares of a nominal par value provided the company shall carry on business with a capital stock of \$2,750,000.

CHARLES EDWIN MUSGRAVE.

One of the outstanding figures of the Ninth Congress of Chambers of Commerce of the Empire, which meets in Toronto on September 16th, is the Honorary Secretary, Charles Edwin Musgrave, who, as the Secretary of the British Imperial Council of Commerce, is the convener of the Congress. He was Assistant Secretary at the first Congress, which was held in 1886 in London, as an outgrowth of the Colonial and Indian Exhibition, which was held in that year. He has been in the service of the London Chamber of Commerce since 1882, and is a Freeman of the City of London.

## TRADE VERY DULL IN MONTREAL MARKET

Smallest Day Since Last March, and General Range of Prices Very Narrow.

Montreal, Aug. 23.—Trading in listed securities on the local exchange today was the dullist for many months, it being the smallest day since March 16 last. Brazilian was the least active stock, followed by Laurentide and the Spanish Rivers. The trend of the market was irregular with, however, gains exceeding losses.

The largest gains went to Dominion Glass, four points up at 47; Tuckett's up two to 49; and Ontario Steel, which moved up 1 1/2 points to 75. Losses went to Spanish River and the two banks, Montreal and Nova Scotia, which sold off 2 1/2 points to 116 1/2, but recovered to 118, a net loss of a point. Molson's Bank lost two points to 18, and Bank of Nova Scotia a point at 248. Spanish preferred was fractionally lower.

Except for the Spanish Rivers, the paper securities were inclined to firmness. The utility stocks were irregular, the cotton stocks were neglected, the steel, were higher with the exception of Canadian, and in the general list sugar and steamship were lower, and cement and Shawinigan higher.

The range of prices was narrow, no stock, save the ones cited above, showing a range of more than a point. Total trading listed 6,584; bonds, 435,609.

## NEW RUBBER PLANT TO BE COMMENCED

Wolland, Ont., Aug. 23.—The Joseph Stokes Rubber Co., of Trenton, N. J., have bought three acres of land at Wolland and will commence the erection of a factory at once. The product of the company will be hard rubber goods, plates and cells for batteries, etc. Manufacturing operations are expected to commence by December first.

## SUGAR PLANT IS TEMPORARILY CLOSED

Toronto, Aug. 23.—The plant of the Dominion Sugar Company at Chatham, Ont., is being closed down as the run on raw sugar has been completed. The factory will reopen as soon as the year's crop is ready, which will be much earlier than usual. Yield is the best in the history of the beet industry.
