SUGAR AND RUM.

(Port of Spain Gazette.)

"A Southern Peasant" writes asking ".....how is it that the present time, when through the world sugar is a luxury—although at the same time a great necessity—we are allowed to ship this precious article to Martinique to be manufactured into rum, leaving in our warehouses thousands of gallons of the latter article, which we cannot ship on account of imperial restriction? There is a certainty of sugar prices being in-

creased locally and elsewhere "owing to shortage" to an almost prohibitive price. Why should the government assist this expected shortage, when there is so much of the by-product available locally? It is greatly to be hoped that this fact will not be overlooked when the fixing of the price of rum is being considered, for the approaching crop. This shipment of sugar for rum-making passes the understanding of all concerned, especially in these days, when even the United States is conserving this stock of sugar."

HALIFAX REFUGEES

ARRIVE HERE

Are Being Cared For By Citizens—Women Making Garments.

Refugees from the Halifax disaster are being scattered all over the province. Two families have arrived at Campbellton and are being cared for. Sergt. Major Driscoll who was here on duty with the medical board was greatly alarmed as his wife and baby were in the wrecked district. He set out for Halifax, but fortunately his loved ones escaped and were enroute to Campbellton, passing the husband enroute. Upon arriving here Mrs. Driscoll was taken in charge by citizens and sent to the Hotel Desha hospital. She is suffering from shock and bruises, while the baby escaped. Sergt. Major Driscoll returned by the next train.

Mrs. Driscoll and baby are now at the home of Mr. and Mrs. Robt. McNair where they are receiving every attention. The ladies of the town have furnished clothing.

Another family, Mr. and Mrs. Green and five children arrived here Tuesday morning in charge of Mr. Havelock Sansom. They were taken to Mr. Sanson's home and provided for. While none of the family were severely injured all were suffering from shock. They have since returned to Tyuro.

DO YOUR HENS PAY?

A convenient and simple form to help tell whether the flock is paying or not, has been worked out by the Poultry Division, Experimental Farm, Ottawa.

This form, which may be hung up in the poultry house or the kitchen, provides space for marking down each day the number of eggs laid. It also indicates space for recording the number of eggs and poultry sold or eaten, also space to note the feed bought or taken from the farm, and columns for entering cash receipts, expenditures and balances.

The form is a convenient place to keep your poultry account each month, and may be had on application to the Poultry Division, Experimental Farm, Ottawa, free of cost, providing a duplicate copy is sent to the Poultry Division each month.

If you want to know what your hens are doing, write for them.

RESTIGOUCHE BOY

KILLED IN ACTION

Gordon Elmer Archibald of Archibald Settlement Made Supreme Sacrifice.

Word has been received by Mr. Alex. Archibald of Archibald Settlement, N. B., that his son Pte. Gordon Elmer Archibald has been killed in action on October 30th.

Pte. Archibald who enlisted on October 15th, 1915 with the 104th Battalion had been in the trenches eleven months when he made the supreme sacrifice for his King and Country.

The following is a copy of a letter received by his mother from the Captain of A. Company, 5th C. M. R.'s of which Pte. Archibald was a member when killed.

A. Coy. 5th C. M. R's.
Nov. 11th, 1917

To Mrs. Archibald,
Archibald Settlement,
Restigouche Co., N. B.

Dear Madam:

It is with the utmost regret that I have to inform you of the death of your son, during our last operations.

It is impossible for me to give you details of his death on account of the great confusion which necessarily reigned. I can only say that, knowing him as I did, he would meet his death like a man and would be in the forefront of the line.

I will endeavor to get some of his comrades to write to you, giving you if possible more details.

I have the honor to be, Madam,
Your obedient servant,
W. J. ATHERTON, CAPT.

O. C. A. Coy. 5th C. M. R. Battn.

DIED OF WOUNDS.

News has just been received by Mr. Mitchell of New Carlisle, P. Q., of the death of his brother from wounds received on Dec. 1st "somewhere in France." Pte. Wm. Mitchell enlisted in the 176th Batt. Medicine Hat, Alta., September 1916, and went overseas in the beginning of October. In England the battalion being broken up, he was transferred to the 51st Batt., which went to France in March of this year. He was wounded in the first battle of the Somme, and on being returned to duty recently acting as stretcher bearer when he received the wound from which he died.

CAN VOTE.

The statement has been made that all those who neglected to register under the Military Service Act would be debarred from voting in the election on Dec. 17th. This is not correct. The following is an extract from the Act:

Part 111, Sec. 67. (1) Every person who has been convicted of any offence against the Act respecting Military Service passed the year 1917.

It may be readily seen from this that disqualification does not result from neglect to comply with any of the provisions of the Act respecting military service, but results from conviction for an "offence against the Act," which is quite a different thing.

WHEAT PRODUCTION.

Farmers are being urged to grow wheat next year in either small or large quantities, the latter for choice. The need of such a course is undeniable, otherwise some of us are going to go hungry in the near future. The quantity of wheat grown in Western Canada is insufficient to supply the wants of the people, as well as provide for the needs of the Allied armies, and the latter will have to be attended to first. If every farmer will make a point of growing wheat enough to supply his own and at least one other family with flour, that will go some way to relieve the shortage; but if every farmer will grow enough to supply ten or twelve families, that will end the trouble. This year's potato land will do finely for wheat next spring.

PROFESSIONAL.

Dr. Pierce Crockett, eye, ear, nose and throat specialist, of St. John, will be at the St. Louis Hotel, Campbellton, Friday, Dec. 14th, where he may be consulted professionally.

ATHOL YOUNG

LADY KILLED

Miss Ayles met Death at Halifax—Campbellton Men At Halifax.

Word was received here Saturday that Miss Nettie Ayles of Athol had been killed in the Halifax disaster.

The body was brought home for burial and the funeral was held yesterday morning.

Miss Ayles was stenographer, and before going to Halifax worked with the late W. A. Treuman.

Many friends here will grieve to learn of her sudden death and sympathize with her family in their sudden bereavement.

A number of Campbellton citizens have visited Halifax since the disaster.

Mr. Harry Miller of the McLennan Foundry & Machine Works left the stricken city just a few minutes previous to the disaster.

Doctors Pinault and Martin left Friday on a special train for Halifax and helped tend many of the victims. Dr. Pinault returned this morning and said that it is impossible to describe the scenes at Halifax. It was bitterly cold with much snow.

Messrs. John Harquail, F. F. Matheson, E. J. Harker, Havelock Sansom, H. R. Humphrey and John M. McLean of Campbellton have returned from the devastated city and tell many heartrending tales of conditions there up to Sunday night.

A model town is that in which you see the citizens patronize the home merchant, the merchants advertise in the local papers, and the laborers spend the money they earn with their own tradesmen, and all animated by a spirit that they will purchase at home, the spirit of reciprocity between business and mechanics, tradesmen, laborers and manufacturers result every time in making the town a satisfactory one to do business in.

RELIEF WORK

FOR HALIFAX

Ladies Hard at Work Making Garments and Collecting Goods.

At the regular meeting of the W. C. T. U. on Tuesday afternoon a strong committee was appointed to take into consideration the making of garments for the Halifax sufferers.

Mrs. H. E. Mann was appointed convener and kindly offered the use of her home for headquarters for the workers.

A sum of money was donated by the ladies present and also flannellette. Mrs. Robert Nelson being the first to "sunteer giving a web. We trust there are others who will follow her example by either contributing cash or flannellette. The need is urgent and what is done must be done quickly.

A little talk given by Mr. Matheson and H. Sanson who have just returned from the scene of the disaster say that warm underwear for women and children is the great need at present.

We want volunteer workers. The garments, ready, cut out can be procured from Mrs. Mann, if the ladies prefer sewing at their own homes.

Donations in cash for the work will be gratefully received and can be handed to Mrs. J. W. Morton the treasurer who will acknowledge all donations through the press.

Will any ladies having patterns of underwear for children etc., sent them to Mrs. H. E. Mann, which will save the committee for the Halifax relief buying same.

AN ACCEPTABLE GIFT.

Stop and think—Wouldn't a year's subscription to The Graphic make a most suitable and acceptable Christmas gift for that absent friend or relative? Should he or she reside in Canada the paper will be mailed to address given us for one year at \$1.50, or if residing in the United States, the price will be \$2.00 per year. Send in the address today. The recipient will thank you throughout the whole year.

RUSHED GOODS FOR

HALIFAX RELIEF

Campbellton Sends Car Load Made up of Glass, Putty, Etc.

The disaster which has overtaken Halifax has brought the war our citizens than any other day, and all day Friday citizens discussed it, but without details as no daily papers had arrived, and the censors would not give the Graphic anything although we wired for same Thursday at noon.

Friday afternoon, it was decided to send forward a car load of bedding, blankets, building paper, Beaver board, glass and putty, and this was speedily loaded and forwarded, leaving here Friday evening.

Thursday night a crew of men of the Shives Lumber Co., with teams loaded railway ties all night for Halifax.

Monday afternoon a meeting of the citizens was held in the Victory Loan room, McLean building and it was decided that the most profitable way of assisting was to send twenty or so experienced men, with cars and food to help in repairing buildings wrecked.

Mr. John McLean of the Shives Co. left Tuesday morning to look over the ground and report just what was most required. He will have charge of the men when they go forward.

A motion that the citizens favored expending \$5,000 was unanimously carried.

WOMEN ELECTIONEERS.

The women can teach the men many points in winning elections. One woman who was a widow a few years ago had her name entered as such, then as she has married again her name is again on the list. These names appear in lists for different polling booths so that if not carefully watched she will have two votes.

The Graphic has lately printed a supply of deed forms. Price ten cents each or \$1.00 per dozen, post paid—tf.

LITTLE MANDY'S

(By James Whitcomb Riley)

Little Mandy and her Ma
The poorest folks you ever saw
Lived in poorest house in town
Where the smoke 'us all tore down.

And no front-door steps at all—
It a old box 'gainst the wall;
And no door-latch on the door
Outside—My! but they 'us poor!

Was no window-shutters on,
And some of the windows gone,
And where they 'us broke they'd pass
It brown paper 'crust the place.

Tell you! when it's winter there,
And the snow is everwhere,
Little Mandy's Ma she say
'Spec' they'll freeze to death some day.

Wunst my Ma and Ma—when we
Be'n to church, and's goin' to be
Chris'mus purty soon,—ke went
There—like the Committee sent.

And Sir! When we're in the door,
Was no carpet on the floor,
And no fire—and heels—and—head
Little Mandy's tucked in bed.

And her Ma told my Ma she
Got no coffee but ist tea,
And fried mush—and's all they had
Sense her health broke down so bad.

Nen Ma hug and hold me where
Little Mandy's layin' there;
And she kiss her, too; and nen
Mandy kiss my Ma again.

And my Ma she told her we
Goin' to have a Chris'mus Tree
At the Sunday School, 'at's for
All the children, and fer her.

Little Mandy think—nen she
Say, "What is a Christmas Tree?"
Nen my Ma she gived her Ma
Somepin' 'at I saw.

And say she must take it,—and
She ist naked her keep her hand
Wie close shut, and nen she kiss
Her hand—shut ist like it is.

Nen we comed away and nen
When its Chris'mus Eve again,
And all of us children be
At the Church and Chris'mus Tree—

And all git our toys and things
'At old Santy Claus he brings
And puts on the Tree,—write where
The big Tree 'us standin' there.

And the things 'us all tooked down,

LEGENDS.

If you will go to the crossroads be-
tween eleven and twelve on Christmas
night you will hear what most con-
cerns you in the coming year.

If on Christmas Eve you make a
little heap of salt on the table, and it
melts over night, you will die the next
year, if in the morning it remains un-
diminished, you will live.

If a shirt be spun, woven and sewed
by a pure, chaste maiden on Christ-
mas Day it will be proof against lead
or steel.

If you are born at sermon time on
Christmas morning you can see spirits.
If you burn elder on Christmas Eve
you will have revealed to you all the
witches and the sorcerers of the neigh-
borhood.

If you eat a raw egg on Christmas
morning, fasting, you can carry heavy
weights.

It is unlucky to carry anything forth
from the house on Christmas morning
until something has been brought into
it.

If the fire burns brightly on Christ-
mas morning it betokens prosperity; if
smolders, adversity.

In the average man's opinion the
command "Thou shalt not steal" does
not apply to a kiss, a heart, an um-
brella, a hotel towel or an after dinner
story.

And the children, all in town,
Got their presents—nen we see
They's a little Chris'mus Tree

Write behind the big Tree—so
We can't see till nen, you know,—
And it's all ist loaded down
With the purtiest things in town!

And the teacher smile and say:
"This here Tree 'at's hid away
It's marked 'Little Mandy's Tree'
Little Mandy where is she?"

Nen nobody say a word.
Stillest place you ever heard!
Teachers' still awaiting there.

Nen the man he whispers, so
Ist the Teacher near, y's know.
Nen he tupt, a s s a s
Out the big door—ist as ale!

Little Mandy, though she don't
Answer—and Ma says "She won't
Never, though each year they'll be
'Little Mandy's Chris'mus Tree"

"Little Mandy's Tree" 'all be
Fer pore children"—my Ma says—
And Committee say they guess
Bigger than the other Tree!

To the Mothers, Wives, Daughters and Sisters of Restigouche County

At the coming Election you will have your first
opportunity of exercising your Franchise, and as all
who will have the right to vote will be Mothers, Wives,
Sisters or Daughters, it would seem only natural
that as your own loved ones left all that was dear to
them and went overseas to fight, and if need be lay
down their lives, so that you might be spared the
fate that befell those thousands of women, young
girls and little children in France and Belgium,
there would be no doubt that you would support the
Government that pledges you its word that rein-
forcements will be sent to help your boys continue
the magnificent record they have made up to the
present. It has always been said that the day that
Women would have the Franchise, that day would
see elections cleansed, so this is one of the greatest
opportunities ever opened to you to show you can
rise above petty politics. Strong enough to put party
to one side, and just enough, to acknowledge that
the Boys at the Front, Your Boys deserve all the
help, all the encouragement, and the rest that Con-
scription will be the quickest means of affording
them after all these weary months of waiting.

Mistakes have been made, and what has happen-
ed cannot now be undone, but YOU can give your
support and vote to those men who have been brave
enough to break away from their allegiance to their
old Chiefs and Party, have dropped politics until this
war is over and have but one object in view, that is
to win the war, bring the Dawn of Peace upon the
world, beat down this Prussian curse, and allow your
Boys to return to their Homes once more, and that
as soon as possible.

Don't allow your better judgement to be swayed
by one party or the other, follow the higher dic-
tates of your conscience, follow that love that will
carry you above all party politics and which knows no
obstacle too great, and see to it, that it can never be
said, that those Boys who went willingly to fight for
their Country were left by their Country their
Mothers and all dear to them to be beaten in the end,
for the want of reinforcements to carry them through
to Victory and Home.

ONE WHO HAS A BOY AT THE FRONT.
Inserted by the Union Committee.

HALIFAX SWEEP BY GREAT EXPLOSION

Thousands of Lives Blotted Out
and Thousands Injured Last
Thursday.

Halifax, Dec. 6.—The great disas-
ter which occurred here to-day was
due to a collision between two steam-
ers which took place near the point of
the harbor known as the Pier 8—a
French munition ship, the Mont Blanc,
and the Norwegian steamer Imo. The
Mont Blanc lies in the narrows, a bat-
tered smoke-torn wreck, while the
Norwegian steamer is beached on the
Dartmouth side of the harbor near
Tuff's Cove. The disaster occurred
about 9 a.m.

Suddenly came an explosion. From
one end of the city to the other glass
fell and people were lifted from the
sidewalks and thrown flat into the
streets. In the downtown offices,
just beginning to hum with the usual
day's activity, men and women covered
under the shower of falling glass
and plaster which fell about them.

The collision was a terrific one, the
munitions boat being pierced on the
port side practically to the engine
room. The steamer, which was prac-
tically uninjured, kept going ahead
with the wounded craft, and when fire
was seen to break out aboard her
lacked away as the crew started to
abandon her.

Seventeen minutes after the collision
the explosion occurred. Under
the force of the explosion houses
crumpled like deck of cards, while the
residents were swept to death.

In the main portion of the city,
where the buildings are more or less
of stone or concrete, the damage was
confined to the blowing in of windows,
and the injuries sustained by the citi-
zens were in the main due to cuts by
flying glass. Proceeding south to the
extreme end of the city the same thing
was observed.

In the west end and northwest end
the damage was more extensive and
the walls of houses were in places
blown to atoms and the plaster and
laths strewn on the streets.

The main damage, however, was
done in the north end of the city,
known as Richmond, which was op-
posite the point of the vessels collision.

Told By a Survivor.
A graphic story was told by Mr. I.
J. Soy, general manager of the Maple
Leaf Lumber Co. Mr. Soy said he
was sitting in the Queen Hotel and
heard the first explosion. He was
thrown out of his chair and at once in-
quired as to what was wrong. Going
into the street he found the cars stop-
ped. It was impossible to get quick
communication with any part of the
city. There was no panic in any part
of the hotel, guests and domestics
alike thinking the disturbance was
caused by an aeroplane raid which
they had been long expecting. Mr. Soy
hastened to the North Station, where
he found the immense iron and glass
roof had been carried away and pos-
sibly twenty-five killed.

Halifax, N. S., Dec. 8.—Five thou-
sand and casualty, two thousand dead,
three thousand others injured. This
is the latest estimate of the toll exacted
in human lives and suffering by the
explosion and fires of Thursday. If
anything were needed to add to the
horrors of the tragedy it was the
heavy fall of snow which began early
yesterday morning and continued all
day, reaching the proportions of a
blizzard last night, with the wind
blowing forty miles an hour. It was
a heavy, damp snow that clung to the
clothes, blinded the eyes and impeded
the movements. Relief automobiles
were progressing by inches merely and
those still working among the ruins
suffered intensely from the cold and at
times were forced to cease work en-
tirely.

NOW AND—1911.

"Somehow this 'Canada first' senti-
ment has not such a pleasing sound
now as it used to have. It has a self-
ish ring, and we have been learning
recently that selfishness does not pay,
to put the matter on higher basis. We
are finding out a lot about the inter-
dependence of the nations on one an-
other. We have discovered, in partic-
ular, that Canada and the United
States are more closely related in an
economic way than most of us cared
to suppose.

VINOL MAKES GOOD BLOOD

Positive—Convincing Proof

Many so-called remedies for ane-
mia are only so in name. Their in-
gredients are afraid to prove their claims by
telling what their medicines contain.
The only way to be honest with the
people is to let them know what they
are paying for. Here is the Vinol
formula. When the doctor knows
what a medicine contains, it ceases
to be a "mystery" medicine.

In Old Liver and Beef Potatoes, Iron and
Manganese Pyrophosphate, Iron and An-
timony Citrate, Calcium and Soda Glyc-
erophosphate.

Any doctor will tell you that the in-
gredients of Vinol, as named above,
will enrich the blood and banish ane-
mia and create strength. When the
blood is pure and rich and red, the
body is strong and robust.

You can prove this at our expense
because your money will be returned
if Vinol does not improve your health.

POOR COF

LOWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female troubles, backache, nervous spells and the blues. My children's food talking and rumbling would make me so nervous I could just tear myself apart. I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."

—Mrs. ROSE, Sporn, Moore Avenue, Washington Park, Illinois.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound. If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

MRS. E. ATHERTON SMITH ADDRESSES CROWDED HOUSE

Pleads With Electors to Vote for Union Government.—What Union Government Will Do.

Campbellton has on several occasions heard Mrs. E. Atherton Smith St. John, but we doubt if that esteemed lady, a daughter of Restigouche, has ever been greeted with a larger or more attentive audience, fully half of which were women, at the Opera House last Thursday evening.

Long before one hour set for the meeting the Opera House was crowded to the doors, every available inch of space being occupied and hundreds of men and women stood during the entire evening.

At 8 o'clock His Worship Mayor Andrew took the chair and a choir sang "Oh Canada."

His Worship gave a brief political address in the interests of Union government and then introduced the speaker of the evening.

Mrs. E. Atherton Smith.

Mrs. Smith is a speaker renowned for her earnestness and eloquence, but we doubt if she ever had a theme more to her liking than that of last Thursday evening. Every word came from a heart overflowing with tender thoughts of the boys at the front and the wives and mothers of Canada. At many periods in her address she was enthusiastically applauded, while at others there was profound silence, and many eyes misted with tears were in evidence throughout the large audience. It is impossible in a printed column to reproduce the eloquent appeal made by Mrs. Smith, and we do not pretend to do this as we have space for only a very brief report of an address which took over one hour to deliver, an address which was listened to with deepest attention by all.

Mrs. Smith prefaced her remarks with a glowing tribute to Restigouche and Campbellton for the manner in which she had responded to the call of war. She said, "When I look into your faces to night, look into so many which were my girlhood friends, my heart goes out to you for the noble work you have done and are doing. I was born in Restigouche and I am proud of it. I am proud of the dear brave boys who she has sent, and of the dear brave mothers and wives who remain behind."

She never belonged to trifling society and never before spoke at a political meeting, but this is not a political meeting in the strict sense of the word. She detested party politics. Would you believe it men, that for the first year or two of the war the system of patronage and political influence was an offensive to her as German Militarism. It was her privilege to address many of the regiments which left Canada. At Valcartier camp she saw the thousands of earnest young faces, faces of our brave boys who were going to do their duty. At St. John she also saw many of the boys leave their native shore. "Have you ever seen a troop ship sail?" she asked. Oh the brave boys and the braver mothers!

In appearing here to-night she was only doing her duty. She came to ask the dear mothers and the dear men to stand behind those boys, to cast aside party feelings and vote for Union Government. You ask why? In her opinion Union of the two parties are the only means of government at the present time. It would do away with all those political vultures who during the past three years have made money out of the blood of our dear boys.

"Ladies and gentlemen, Union government will do away with political patronage and political parties, and

END STOMACH TROUBLE. GASES OR DYSPEPSIA

"Pape's Diaphepsin" makes sick, sour, gassy stomachs surely feel fine in five minutes.

If what you just ate is scouring on your stomach or lies like a lump of lead, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach-headache, you can get relief in five minutes by neutralizing acidity. Put an end to such stomach distress now by getting a large fifty-cent case of Pape's Diaphepsin from any drug store. You will find from individual dyspepsia or indigestion, and from food fermentation, and from excessive acid in stomach, and from

terances should be allowed his freedom. If he was in the United States he would be interned. If he was in Germany he would be shot.—Applause.

The present Military Service act is a very fair measure. By its provisions no man is taken that has any one depending upon him alone, and no one is taken who can serve the state to better advantage at home. Thus the farmer, the munition maker and many others are exempted. But Canada had a Military Service Bill on the statutes previous to the one passed this year. It was enacted shortly after Confederation and was amended by Sir Wilfrid Laurier in 1904. But this act took every man irrespective of work or dependents. It was done by a sort of drawing. The present act of selective draft is much more equitable.

We owe a great deal of sacrifice to the boys in the front line trenches and behind the guns, and the only sacrifice you are being asked to make today is to throw aside your party politics. Dear women, when you go to the polls don't do much talking. If your husband wants you to vote the Liberal ticket don't say anything but just go to the poll and mark your ballot for the Union government on Dec. 17th. You will be doing just what that boy or husband in France or Flanders wants you to do.

Mrs. Smith here recited "In Flanders Field."

Men and women of Campbellton. Oh, how well she knew what they had done for the beloved cause.

Men and women of Canada what will the Christmas message be to the dear boys at the front. Will it be a tale of party strife or will it be that we fight in unity.—Applause.

His Worship Mayor Andrew made a few remarks and then introduced Major McArthur of the Fighting 26th. Major McArthur was greeted with prolonged applause.

The policy of the Union government is to reinforce the heroes in the front line trenches. We are face to face with the fact that four hundred thousand of our brave boys went overseas, secure in the thought and assurance that we at home would never desert them. Now we must do our duty and see that the reinforcements are sent. It sometimes seems as though we at home are getting somewhat hardened and indifferent. We go about our pleasures much as if there was no war, as if our boys in far off France and Flanders were not giving their lives for us. If we forget them and do not answer the Macedonian cry we are then unworthy of this great Canada of ours.—Applause.

The Union government has promised to prosecute the war to the utmost; to care for the wounded, the wives, mothers and children of the soldiers and to deal with after war problems in a generous manner.

Sir Wilfrid Laurier's manifesto says that no more boys will go overseas for a whole year.

She was sure that the women of Canada would not favor this, but would vote for the government which would send reinforcements.

She quoted the king of a Spartan city who likened his brave soldiers to bricks of a great wall which would save the city in the time of strife and continued "now you dear men who have a vote, and you dear women who have a vote, throw aside your old party politics, be a brick and vote for Union government.—Applause.—

Sir Wilfrid Laurier wants to take a referendum. To do this would take a year and a half, a year at the least before we would get a consensus of opinion. She loved the French people, they are a lovable, simple people, and she was sure that had the leaders of these people gone to them and stated clearly the facts in regard to this great war, Quebec would have responded nobly. She blamed the leaders of thought in Quebec for not doing this. She named Sir Wilfrid Laurier.

Sir Wilfrid Laurier was a statesman for whom she always had a profound respect, whom she had honored and admired, but he missed the opportunity of his long and honorable career when he declined to have any part in the Union government. I often wonder if his fine intellect, this intellect which has done so much for Canada, has not become impaired. Oh if he is not dominated by those Middlesex Journeymen. She thought that it was deplorable that the great name of Sir Wilfrid Laurier should be so misused.

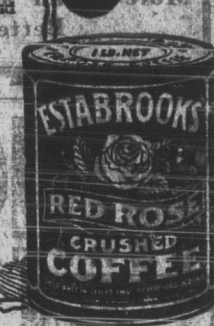

What is Crushed Coffee?

Briefly, Crushed Coffee is coffee that has had the beans crushed between steel rollers with just enough pressure exerted to break the beans into clean, even grains from which the bitter chaff and dust are easily separated by air suction.

Resulting in a coffee as pure as the egg is needed to make the Red Rose Coffee as easy to make as Red Rose Tea, and its flavor, aroma and smoothness are a delight as compared with the ordinary ground coffee.

Sold only in double-sealed air-tight cans to keep it good.

The same price as it was three years ago.

RATIONS RATES RAISED.

The officers and soldiers of Canada are wearing a smile of satisfaction at the announcement made Thursday at Ottawa that the ration rates had been raised from 25 to 50 cents per day. The increase is greatly appreciated in view of the alarming increase in cost of living. All men living outside of barracks are now allowed 50 cents per day for rations.

Chinese officers are in France and England arranging for a Chinese expeditionary force. If the Chinese

The Gift Supreme

Let Your Christmas Gift Spread Joy All The Year Round.

SURELY that is ideal Christmas gift—one that not only gives supreme pleasure at Christmas time, but stands to radiate the joy and cheerfulness of the Christmas spirit at your bidding each day of the whole year and for many years to come.

Such a gift is the **Pathophone**. It is like the purse of Fortunatus, that no matter how much drawn upon was inexhaustible in its wealth. The **Pathophone** is inexhaustible in its wealth of music and good cheer. Moreover, as the **Pathophone** is the supreme gift as a maker of music, so is it the supreme achievement of all musical instruments.

The **Pathophone** is the result of over twenty years' study and the culmination of the inventive genius of the famous **Pathé Freres**. It possesses all the best features of all other phonographs, but it has

also additional advantages exclusive to the **Pathophone**. For instance, the **Pathophone** plays with a Sapphire Ball instead of digging, tearing needles. This smooth, highly polished Sapphire Ball, gliding over the larger surface of the **Pathé** discs not only enhances the beautiful tonal effects of the **Pathophone**, but it also eliminates the nuisance of ever-changing needles. Moreover, it and the records are permanent. The **Pathé** Record will play over 1000 times.

Another outstanding feature of the **Pathophone** is its wonderful tone; the fullness, the mellowness, the depth of the music as it pours forth is rich, natural and indescribably sweet. It is due to a combination of scientific principles in its construction.

Consider these big **Pathé** advantages:

- 1st. The Permanent Sapphire Ball—no digging, tearing needles to change.
- 2nd. Records that will wear thousands of times.
- 3rd. An all-wood tone chamber (on the principle of a viola).
- 4th. **Pathé** tone control—regulates the volume of sound.
- 5th. Plays perfectly all makes of records, as well as the **Pathé**.
- 6th. The exclusive period design cabinets. Expensive furniture for every home.
- 7th. A complete line of instruments to meet every purpose.
- 8th. A repertoire of double disc records, unique, comprehensive and artistically perfect.

The **Pathé** Period Design Cabinets will appeal to those who take pleasure in good furniture for their homes. They are designed after the most famous periods of furniture history. These new creations demonstrate that the **Pathophone** is not only a perfect musical instrument, but also a beautiful and artistic piece of furniture which will harmonize perfectly with the most exclusive furnishings in your home.

In conclusion, let us suggest that as Christmas time is drawing near, you see your **Pathé** dealer NOW. He will gladly demonstrate the **Pathophone** and, if desired, he will tell you about all plans of easy payments most convenient to yourself.

Be sure and get the **Pathé** Art Catalogue, with full description of the **Pathophone**, and interesting charts on period furniture.

ELECTION CARD.
To The Electors Of The Electoral District of Restigouche and Madawaska
Ladies and Gentlemen:—
On December 16th 1915, at a convention held at Saint Leonards, I had the honor of receiving the nomination as a liberal candidate for the united counties of Restigouche—Madawaska. On the occasion I laid before you my political platform and it received your unanimous approval. Since, owing to certain circumstances, the political life of our country has been somewhat changed and the party lines have been altered. I think that it is my duty to give some explanations in regard to the stand which I take on political issues now before the country.
I approve of and support the political platform of Sir Wilfrid Laurier as laid down in his Manifesto to the people of Canada.
My views in regard to conscription are well known to you. I voted in the House of Commons against the conscription Bill of Sir Robert Borden and supported the resolution of Sir Wilfrid Laurier asking that the question should be decided by the people by a Referendum before it should be put into force. To-day, I remain the same attitude which I took in Parliament, and if I am elected as your representative, I hereby undertake to vote in Parliament for a Referendum to the people of Canada on the important question of conscription.
I do not approve of Union Government as presently constituted as I believe that this Union has not been brought about with a view of uniting Canada but I believe it is a Union of big interests against the laboring classes. The main object of this Union is to cover the tracks of the misdeeds and scandals of the late Tory Government since its formation on the 21st day of September 1911. You are well aware that during the last three years, the Borden Government has most obviously maladministered the public funds of the country, has burdened the poor under heavy taxes and has favored solely the Big Interests while our soldiers were offering their lives on the battle field and enduring hardships, for the defence of liberty, justice and freedom. Unfortunately, the political Manifesto of Union Government does not offer any remedy for such abuses. I promise, if I am elected to support all measures tending to better the conditions in which our gallant soldiers now live, and also to establish the finances of the country on a solid basis and remove the same from the hands of a few political friends of the present Government.
You are all well aware that since our beloved Canada. The principles

of constitutional Government have been forgotten and the pages of our the Borden Government has taken

power, the cost of living has been increasing out of all proportion. This is due largely to the fact that the Cabinet was made up of millionaires who were more attentive to their own business than to that of the country. The C. N. R. deal is a flagrant outrage to the people, and if I am elected I hereby promise to support any measure that would help the country out of this entanglement.
Union Government has not the support of the people of the country and to avoid defeat they are endeavoring to prevent the people from expressing its disapproval at the next election by imposing candidates of their choice in the different constituencies of the country. The War Time Election Act is a most outrageous piece of legislation and the like cannot be found on the Statutes Book of the wicked Germans. Hundreds, thousands of our women have been deprived of the right to say who is going to govern this country, while the franchise was granted to thousands of people who had never set a foot on the soil of constitution have been torn to pieces in order to prevent the people from expressing its voice. Sir Wilfrid Laurier, the greatest Canadian Statesman, had always respected the voice of the people and in power as in opposition, he has always stood for the principles of Government of the People, for the people and by the People, and to-day he stands for the same principles and asks you to endorse him. I offer myself as a candidate to the electors of the united counties of Restigouche and Madawaska standing on the platform above outlined, and I am confident that I will receive the support of all who stand for justice, union and freedom.
Yours obediently,
P. MICHAUD.

B. GOODMAN,

Next Door to Bank of Nova Scotia,

BEGINNING OF CHRISTMAS.

When did Christmas begin? So old a festival is it, so intimately have we been associated with it from earliest childhood, so completely do its associations and activities and spirit pervade the world that it seems as if it must be as old as the very earth itself.

Of course, we know that it is an anniversary of the birthday of Jesus of Nazareth, and that it is not nearly so old as that event, for in the early days of the Christian Church there was no such celebration. The very word Christmas is of comparatively late origin. The word is first used in 1038, its form then being Christes-Mæsse, the mass of Christ. Arigen, an early father of the Church, said that in Scriptures it was the sinners alone, not the saints, who celebrated their birthdays. Another early writer referred to the fact that the birthdays of the pagan gods were kept by the people. The very first evidence of a feast having been held in honor of the birth of Christ was in Egypt about the year 200. Clement of Alexandria said: "Certain Egyptian theologians over curiously assign, not the years alone, but the day of Christ's birth, placing it on May 25th." Another date assigned to the event was March 28th, because on that day the material sun was created.

The double commemoration of the Epiphany and the Nativity became popular partly because the apparition of the shepherds was considered as one of the manifestations of Christ's glory.

Because of the increase of merry making King Canute gave order about 1110 that there should be fasting instead of feasting from Christmas to Epiphany. At various times both civil and ecclesiastical authorities condemned various forms of celebration, many of them because they had been carried to excess. In England in 1644 all Christmas observance was forbidden by Parliament. The day was to be a fast, a market day, and the shops were compelled to be open. Worse than all, plum puddings and mince pies were condemned as heathenish. Lovers of Christmas resisted the measure and at Canterbury and some other places there was bloodshed. After the Restoration all of the lovers of old Christmas customs revived them to the full and the dissenters contented themselves with dubbing Yuletide Footlode.

To Cure a Cold

PROMPTLY and SURELY
THERE IS NOTHING LIKE

TAROL

It is a time tested and scientifically compounded remedy composed of Norwegian Cod Liver Oil, Wood Tar and other choice elements approved and recommended by the faculty of medicine for the immediate relief and ultimate permanent cure of all ailments of the **Throat, Bronchi and Lungs.**

TAROL is therefore the logical remedy to use for the relief and cure of

Coughs, Colds, Bronchitis, Grippé

and all affections of the respiratory organs.

TAROL acts as a soothing agent to the irritated mucous membrane, as an expectorant and as a tonic to the bronchi and lungs. It is agreeable to the taste, easily digested and perfectly harmless. It is therefore suitable to the young and old; to the strong as well as to the weak. Use it at the start of a cold, when you feel its first effects and it will save you from many annoying symptoms and unpleasant and often fatal complications—

Always have a bottle of it on hand.

PERSONALS

Miss Bertha Boucher has returned from Halifax where she was a student at the Ladies' College.

Dr. Pinesault came back last night from Halifax where he spent five days giving medical assistance to the wounded.

Mr. Herbert Travers spent a few days at his home here. He came through the Halifax disaster without being hurt.

Gunner Jack Clemens left on Tuesday evening for Woodstock where he is with the 6th Battery, after spending a few days in town.

Miss Jane Dewar passed through here Tuesday with the Military nurses from Montreal enroute to Halifax. This is the sixth member of this family who have enlisted to serve their country.

WAR-TIME CHRISTMAS.

First of all, there are the children. No one would wish the children's Christmas to be less merry than of yore. The great feast of childhood, with its deep and blessed traditions, is a unifying influence in the world. The clean, clear breath of the woods is brought into the house with the Christmas tree. The rapturous anticipation of little boys and girls irradiates the atmosphere of care. Their joy leaps sorrow. In war or in peace, in lean years or in fat years, the last luxury we would willingly forego is the children's Christmas Day.

Then there are the soldiers—our soldiers in camp, or in the trenches. Their Christmas is secure. From families, from friends, from churches, from clubs, from patriotic organizations of every kind, Christmas boxes are faring forth to assure "the boys" a good and cheerful time. The country is keen to show them honor and to give them pleasure. Whatever may be lacking at home, the soldier will want nothing that good will or money can provide on Christmas Day.

Finally, there are our friends. We love them as well this winter as we did last. We are as deeply enmeshed in the snares of habit this winter as we were last. There is the same anticipatory feeling in the air, the same compelling appeal in the shop windows this winter, that there was last. Are we to ignore old customs and old companions, are we to close our hearts and our purses because the nation is at war? Or is there not more call than ever for proofs of affection and remembrance?

By this time it seems that our Christmas must inevitably be the same hurried, tumultuous, weary and costly thing that it has always been. We must rush hither and thither, dashed by a strange medley of undemorable objects and daunted by the prices asked for them. We must storm post offices, and stand in line before the dingy desks of express companies. We must waste money and strength and time and temper, making the great feast of the Christmas year into a mad scramble for gifts. We must walk down the streets and ask ourselves what is to be done. We must return for the utilities we need forth. We must do what we have always done, and wonder, as usual, why we do it.

Here at least is room for practical

reform. The call for nation-wide economy is not a meaningless word. It represents a real and bitter need. Waste of money, waste of raw material, waste of man power and woman power, all help to bring disaster. We might as well should resolve that this Christmas we will buy—for adults—nothing absolutely useless. The fact that useless things have been made for sale is no real reason why they should be sold, and certainly no reason why we should purchase them. Useful gifts are more difficult to find and to fit; they are more homely than the glittering trumpery spread on the Christmas counters; but their purpose is known, their dignity apparent, their welcome well assured.

PAT FOUND A WAY.

A Scotchman and an Irishman once set out together on a holiday, and Sandy entrusted all of his money to his friend with the strict injunction not to give him more than a stated sum for expenses each day.

After a few days Sandy pleaded for an increase but in vain. Afterwards he confessed to Pat that, on the latter's refusal to comply with his wish, he got out of bed every night when the Irishman was asleep and searched for the cash, but could never succeed in finding it. "Where did you keep it?" he asked.

"Well," said Pat, "I let you go to bed first every night, and every night when you weren't looking I put my purse into one of your pockets. I was always first up in the morning, and took it out again."

NEWSPAPERS IN OUR SCHOOLS.

We believe that physical culture, military training and current events should receive some attention in our schools, and now some American states are beginning to give the matter a more definite turn and are advocating the reading of newspapers for this purpose. On this subject the Toledo Chronicle recently said:

"Newspapers are beginning to be used in rural schools as substitutes for textbooks, more especially furnishing current reading in place of library books and magazines. This step will be a benefit in two ways. First, it will be a means of instructing the pupils in current events, and, secondly, it will make the newspapers better. No paper will be tolerated unless it is clean and wholesome, and the publisher who prints a paper that meets the demand will be the one to enjoy patronage."

How many of our young people keep up with the current events of the day? You frequently hear a young lady admit her ignorance on some minor public question with the flippant remark, "Oh, I never read the newspapers," as though this is a suitable excuse for the lack of knowledge of every day happenings, except all the gossip of the town. The young women of France, England or the United States would never think of moving around in company of educated people, without a full knowledge of current events.
