The Documents Arrived From Ottawa Yesterday and Mayor J. F. Wills Signed Them.

The Foley and Gleason contract for paving Front and Bridge streets is now fully signed. Yesterday the documents were received from the contractors with their names attached and last evening Mayor J. F. Wills affixed his signature. Everything is now in readiness for the turning of the "sod"

LIGHT AGREEMENT IS COMPLETED

Details of New Contract—Bylaw to be Submitted to the People in a Short Time—The New White Way.

The agreement for lighting the city by electricity has been completed between the Trenton Electric and Water Company and the Corporation of Belleville. The council last evening unanimously passed the second reading of the bylaw incorporating the contract and the electors of the city will vote on the bylaw some time within a month. It is expected that at the meeting were Mayor Wills, Aldermen Pantor, Woodley, Platt, Wallbridge, St. Charles, O'Flynn, McFee and Duckworth. The only absentee was Alderman Smith.

The contract with the Trenton Electric will be for a ten year term, the corporation having the privilege of renewing the agreement at its option in five year periods upon six months notice. Any change of rates at the end of any three years of the contract period, or at the end of any contract period thereafter will be adjusted. In case the parties cannot agree concerning the rates to be charged in the ensuing period, such rates shall be decided by arbitrators.

The contract calls for four renewals of lamps per year. There will be a minimum of 500 small lamps of sixty candle power each, for the residential districts. On Front and Bridge Streets (the sections to be paved) there will be 44 500 watt gas filled tungsten lamps each giving about 800 candle power.

The corporation agrees to pay the company for electric lighting service at the following rates: Ten (\$10.00) dollars per year per 60 c.p. Tungsten lamp supported on an iron bracket mounted on wooden poles; such candle power to be equal to 60 c.p. produced by a lamp of the type used as a standard and the comparison shall be based on standard photometric measurements.

And fifty-six dollars and fifteen cents per year for five hundred (500) watt gas filled tungsten lamp not less than eighteen feet above the sidewalk supported on ornamental iron standards and fed from an underground system.

The company also agrees to furnish to the corporation during the term of this agreement all the necessary electric power for the operation of the city pumping plant at the flat rate of twenty dollars per connected horse power per annum, plus a meter charge of one quarter of a cent per horse power of 746 watts.

This remains as in the old contract with the pumping station. The company also agrees to furnish electric power as required for a fifteen horse motor at the voltage required by the corporation for the City of Belleville quarry at the price of \$1.75 per connected horse power per month.

The company agrees to furnish free current and fixtures for the street illumination of the Town Clock during the term of this contract.

The details of the contract are practically the same as the old contract, but owing to a recent enactment, all contracts or renewals have to be voted on by the ratepayers.

The old residential street lamp was forty candle power. There were 280 of these. The new lamps in the same districts will number at least 500, each having a candle power of sixty. Each lamp will use sixty-five watts current. The contract agrees that as the scientific efficiency of the lamps increases the company shall provide higher candle power when they reach the same price as the old c.p. lamp.

DOG OWNERS VERY SLOW

500 Canines Inhabit Belleville—Only 164 so Far Wear 1914 Civic Decorations.

Only thirty-two per cent of the dog-owners of Belleville have been registered. Toward and Fido will soon be getting their owners into the hands of the authorities unless they persuade the canine fanciers to pay tribute to the city treasury.

City Treasurer Mr. D. Price states that the fees are slow in coming in, but that the usual steps are about to be taken to get out why only 336 of the 500 dogs in Belleville do not wear the brass decorations which the treasurer sells for two dollars.

ESCAPED CONVICT MAY HAVE BEEN KILLED

The Belleville police are in receipt of the description of a man named John Clarke alias Coates, who escaped from Peterborough jail by sawing through the bar of the window of his cell.

The local police are inclined to believe that this is the man who was killed on Monday afternoon in Toronto. There was a man named George Coates of 335 Thirteenth St. West, Toronto, Pa. On the body was a letter apparently from the man's mother. Coates apparently had been in trouble on two occasions and had served terms in jail. "This is only what you will get if you don't mend your ways," wrote his mother. "God does not sleep, neither does He strive with man. Go where you are not known, live a better life, and make a man of yourself," writes the parent, who had apparently become disheartened over her son's failures to keep his promises of leading a better life.

It is thought that the man sustained his injuries while beating his way to Toronto. Both legs were cut off, his head crushed and he was otherwise mutilated.

VERY NARROW ESCAPE OF TWO CHILDREN

Boat Moved Throwing Them into the Water.

Two little children living on the west side of Front street below the lower bridge had a narrow escape from drowning at seven o'clock last night. The children were a little girl and a baby that the former was carrying. The brother had tipped with a skiff at the foot of the wall and the little girl stepped down to the boat, which suddenly started to move to the water, where the depth is a foot or two. The mother who saw swim jumped in and seized his sisters and held them above the surface so that they were rescued.

LANDED SOME VERY FINE BASS

Mr. James Lynch entertained his friend Dr. J. J. Macdonald of Pueblo, Colorado, and party to a fishing expedition down the bay yesterday afternoon. The doctor proved himself an expert disciple of Izaak Walton by landing several fine specimens of bass. Had it not been for the hot air made use of by some real-estate agents and house and food merchants in this party, the catch might have been much larger. This is the doctor's first experience in fishing in Bay of Quinte waters and he is very greatly delighted with his success.

Mr. Wm. White of Chicago, paid our attention a friendly call yesterday afternoon. Mr. White is a native of Belleville and a graduate of The Ontario office. He left this city 35 years ago to reside in Chicago.

He neglected to get out of the trench near a blasting operation and was at hand when the dynamite was discharged. He was not hurt, the blasting being strong enough to prevent flying rocks escaping, but Tony's lugs felt the concussion.

MYSTERIOUS DEATH OF A FORMER RESIDENT OF COUNTY OF HASTINGS

Body of Albert Sherman Discovered in Badly Mutilated Condition at Saginaw, Mich.—Foul Play Suspected.

The following particulars of the death of Albert Sherman, of Saginaw, Michigan have been received. Albert Sherman was a brother of Mr. John Sherman of Plainfield.

"Deep mystery surrounds the finding of the body of Albert Sherman, superintendent of transportation of the Saginaw Bay City Railway Co. in a clump of bushes on the Doyle Road in Zilwaukee about a mile from the interurban tracks on a Tuesday morning in June.

Sherman had been missing from his home since the Friday before. He was seen walking past the house early Friday afternoon of those who found his body.

The discovered remains were badly mutilated. His mouth was cut and there was a long scar on his forehead. One hand and coat sleeve as far as the elbow were matted with blood. Dr. Ryan found a sharp wound on the scalp evidently inflicted by a sharp instrument. The coroner Dr. Alden believes there was foul play.

Only one of the injuries could have caused death. This was a bruise several inches in diameter over the left temple. As described by the physician a part of the periosteum which clings closely to the skull had been broken. The skull was not fractured by the shock of the blow which is believed to have been sufficient to kill.

Capt. Elmer E. Bishop said yesterday he traced Sherman up to 1.30 o'clock Friday afternoon. He claims to have found the man in a room in Zilwaukee and also went to Stalker's house there, wanting to pay a \$300 claim on a fire risk which belonged to the Grand Trunk and Michigan Central railroads and with which he had nothing to do. Capt. Bishop says this woman says Sherman talked as if he was crazy.

There were on Sherman's person a gold watch and chain, a small pocket book containing four dimes and memorandum books and other papers.

General Manager Furlong said last night "Mr. Sherman was a very valuable man to us. He had been with us three years, coming from Toledo, where he had been with the Toledo Railways & Light Co. for many years. He was a capable street car man, well liked by the company and the men. He was a man of good habits and a faithful workman. He was not excited or bad tempered. When I saw him last on Thursday he was in a normal condition."

Mr. Furlong knew of no trouble with passengers or others sufficient to cause any one to want to use physical force on the superintendent.

Mrs. Sherman at her home 2026 North Michigan avenue was consoled with friends and neighbors. She said that she could not think of any reason why her husband should make away with himself. "He has been one of the most cheerful of men and he left home Friday morning in his usual good humor. He and I visited a friend in the country on Thursday night. We took the livery rig back and walked home together.

"He was one of the finest men in the world. I know, because I have lived with him a good many years. I don't know of any faults he had."

The deceased was born in Canada January 7, 1867. He was 23 years when the Toledo Railway Company, twenty-four years ago he was married to Mary Mammert, a native of Toledo. He leaves a daughter, Mabel, 20 years old, and a son, Clarence, 14. A sister, Mrs. Frank McDougal, lives at 211 Sixth street. A brother, Edward, is in Toledo and another brother lives in Canada.

All traction officials believe Sherman was done away with, although the county officers so far are unwilling to make any positive statement that Sherman was slain. He had been threatened several times in the last year, and only two weeks ago engaged in a fight with two men he had discharged. Recently he arrested a man in Zilwaukee, who stole traction company goods. Ten months ago a discharged conductor followed and slugged him with a beer bottle. Sherman carried a book of transportation and it was missing from his pocket.

Clarence King, a conductor, said that Saturday afternoon four men approached him and inquired for Sherman, saying they were going to kill him.

COLLAR BONE WAS BROKEN

When Vehicle Upset—Walter Craig the Victim.

Mr. Hugh C. Nickle of Kingston drove up to the police station on Sunday night at ten minutes after ten in his automobile in which were two men whom he had picked up in a ditch two miles west on the Trent Road.

One of them was Walter Craig. A physician was called who certified that Craig had had his collar bone broken. Mr. Nickle took the injured young man to the hospital for treatment.

The other of the men picked up was John Gorman, who was under the influence of liquor. He was accordingly locked up at the police station.

The story as gathered by the police seems to be that Craig and Gorman with other young men said to be Harry Barnum, a stranger and James Craig had all been to Trenton while there one or more had indulged in liquor it seems. They party were on their way home when the rig was upset in the ditch on the Trent Road, a short distance west of the Belleville boundary.

CATHARINE ST. DRAIN CONDITION

Rockbed Being Chipped Into to Improve Situation.

Bright and early at seven o'clock this morning two men of the public works department began chipping their way into the wall of rock below the opening of the Catharine St. drain (used as a sewer) at the foot-bridge.

For some time nauseating odors have arisen from this opening and the council in answer to a complaint referred the question of improvement of conditions to the public works department.

The plan is to cut the rock, so that the sewage will fall directly into the river and not fall over small successive ledges of rock.

line was coiled in. Of course there were times when the fish gained some headway but he began to tire and Joe over on the alert seized each single point and turned it to his advantage. At last with one final intense effort Joe hauled the great shining beauty into the shoals from which it was but the work of a minute to haul him on the land where he lay panting, subdued, but not disgraced.

As he lay there glistening in the sun Joe measured him with a yard stick from tail to snout he measured and when later he was put on the scales he tipped the beam at pounds. TELLING THE PREACHER WHAT HE MUST DO.

It was a somewhat humorous feature of the recent election campaign to find pious politicians of the type of Bob Gamey and T. Herby Lennox, and religious newspapers of the Jack Canuck variety delivering solemn lectures to clergymen about their duty in the pulpit and outside the pulpit, and about the ethics of the ministerial profession generally.

We thought the election would dispose of these turgid tirades, but that seems only to have unloosed further the floodgates of misrepresentation, abuse, and calumny.

The appeal of the clergy was in this case unsuccessful, therefore they would have us believe we should jump to the conclusion that the appeal was wrong.

In the election of 1905 a similar appeal against "the rotten Ross government" succeeded, therefore it was all right for the ministers to "bring politics into the pulpit," on that occasion.

This most of us are not so old that we do not remember prior to the election of 1905 the activities of Rev. D. C. Hossack, at that time a very gifted pastor in the Presbyterian church at North Toronto. His open letter to Hon. Geo. W. Ross was sent out in plate form and printed in all the conservative newspapers in Ontario. Mr. Hossack's sermons at that time were widely quoted and afforded excellent campaign material for James P. Whitney and his followers. The example set by Mr. Hossack was very generally followed by clergymen of all protestant denominations, anglican, methodist, presbyterian and baptist.

Keeping these facts in view, let us ask ourselves these questions—

If it was right for the ministers to "talk politics" in 1905 why is it wrong in 1914?

Were the ministers in 1905 prompted by any action of their church conferences, assemblies or synods, or were they taking their stand merely upon their own responsibility?

Were the ministers of 1914 carrying out the instructions of their church courts?

Who appoints the laymen that compose one-half the membership of the legislative bodies of the churches?

In the present campaign have the ministers been treated fairly, have their words been correctly quoted or their positions been honestly reported?

Has there been anywhere a straightforward attempt to meet the ministers' arguments, or have the issues been clouded by defamatory appeals to the baser passions of men?

Does a minister upon entering his profession relinquish the right of common citizenship in a free country?

Will anyone explain how a minister could be consistent in view of previously declared opinions and the resolutions of his church and remain silent when this question was brought to an issue?

Does anyone of his own knowledge know of an instance anywhere in which a minister used abusive language towards those who did not agree with him?

Does anyone know of an instance where a clergyman attempted to dictate to the members of his congregation as to how they should vote?

Is this alleged dictation of the pulpit anywhere as real or as pronounced as to the dictation of political heelets to their meekly submissive following?

Who is the more likely to offer disinterested and intelligent comment upon public issues, the clergyman with his wide reading, trained mind, and unbiased judgment, or the ward-boozepeddler who knows almost as much about the questions of the day as a cat knows about astronomy?

These are questions that all intelligent fair-minded men should try to answer, and not to jump at conclusions or to be rushed off their feet just because a lot of mud-heads and whiskey-soaks are shouting off the tops of their heads about "preaching politics," "clerical domination," "political pulpites," and "demagogic clergymen."

Leather-lunged, rubbishy ranting is too much a feature of Ontario politics to-day. It proves nothing beyond the stupid patience and easy gullibility of the befogged partisans who permit and listen to that sort of balderdash.

It is interesting to speculate upon the characteristics of this newly evolved parson of the Gooderham-Gamey-Lennox-Jack Canuck school of theology.

He must be a man without any opinions upon any subject of human concern whatever. Or if he holds opinions he must see that they are carefully suppressed or conveyed to the world through the milk and water medium, harmless alike to invalids, children, and sleek-coated politicians. He must tread carefully and lightly, lest the pussy-footed sound disturb the delicate adjustment of the ward-working machinery. His conscience must be of pure india-

rubber, elastic enough to cover and conceal any quantity of Elizabeth Gold Mines stock without destroying the fiber of the conscience. The pulpit we are told by this school is the place for "worship" and "preachin' the gospel" and not for politics.

Our own impression is that the Supreme Being is more concerned about man's living in the right relationship to his fellowmen than He is about man's worship or adulation.

"He prayeth best who loveth best
All things both great and small;
But the dear God who loveth us
He made and loveth all"

wrote the poet, Coleridge, and that little quatrain includes a whole library of theology. It may be that a minister should close his eyes for fear he should see the work of the drink traffic gathering its grisly harvest of blasted lives. Perhaps he should preserve a cowardly silence when he sees the brightest minds filched from the use designed by the Creator to become the slaves of the licensed bar.

This silent, suave, spineless theology may suit the convenience of smooth politicians, but it is not of the sturdy type that will make the church a real power in this Canadian north land, and Canada a power among the nations of the world.

SIR JAMES AND THE DEMOGOGUES

Sir James Whitney, following his Massey Hall speech and his post-election announcement, is again out in characteristic fashion after the offending "demagogic clerics."

There is one excellent feature about Sir James—he seldom leaves any doubt in the mind as to his meaning. In his statement issued to the newspapers yesterday he reiterates his previous assertion and seeks to prove that there is no analogy between the positions assumed by the clergy in 1914 and in 1905. Sir James in the course of his last statement says—

"It is suggested that previous to 1905 I called for the help of the clergy, and that it is inconsistent of me to object their action now. Let us see. Ballots had been switched, burned and otherwise destroyed. Government maladministration of the liquor law had been undisguised, and general devilment had been abroad with reference to the conduct of the election. There was no question of opinion; the facts were well known and had been proved in open day.

"What was the situation the other day? The evils of the liquor traffic and habit were undisputed, but men differed as to the methods to be used in dealing with it. Every person, clerical and lay, in the Province had an undoubted right to express his opinion on the subject, but our contention, and the opinion of the vast majority of the people, was and is that no clergyman was justified in going into his pulpit and denouncing in violent, intemperate and abusive language, all voters who did not see eye to eye with Mr. Rowell as to the remedy which should be applied."

Sir James in his statement misses the point entirely. He utterly ignores the previously declared position of the churches through their conferences and assemblies and of the individual clergymen through years of preaching.

It is quite true, as Sir James says, that "men differed as to the methods to be used in dealing with the traffic in intoxicating liquors. There are many thousands of earnest, sincere temperance men who do not believe in prohibition as a means of dealing with the drink evil. There is plenty of room for honest difference of opinion here.

But all this is entirely aside from the question at issue. Sir James forgets that the Methodist, the Presbyterian and the Baptist churches have not once, but many times, through conference, assembly, or union, declared in the most unequivocal terms in favor of the abolition of the licensed bar. Practically all the ministers in these three denominations have for years been advocating the same principle, because they recognized the bar as the most potent enemy of their work. In taking this stand they were very generally supported by the laymen of their congregations.

Among these three churches officially, among the clergymen and the most prominent lay workers of these three churches, there was no difference of opinion "as to the methods to be used." The only "method" advocated for years for dealing with the liquor traffic, by these churches and these men, was one of abolition and total extermination.

Since such was the case how could the churches and the clergy remain silent, without acting the coward's part, merely because the policy or principle they had collectively and unanimously advocated was introduced by a liberal?

The "method" was the churches' own method. Sir James Whitney refused, not once but many times, to accept that method. He told them to go on working with local opinion. N. W. Rowell took the churches and the clergymen, and the laymen at their word—that they wanted the bar banished.

To the everlasting credit be it spoken of

the ministers and of thousands of sincere temperance conservatives throughout Ontario, there was no shirking of the issue, no shilly-shallying, no hunting for impotent excuses. They faced the issue like men and did their duty.

Many thousands more, it must unfortunately be admitted of professed prohibitionists, found the party coils too tightly wrapped about them. They declared to the world their inconsistency and the emptiness of their professions. They did that very easy thing—they found excuses. "The shops," "the Ontario club," "a grit dudge," "the bilingual schools," "Rowell's insincerity,"—there were dozens of excuses lying all about. But after all was it worth while? You who did that sort of thing, argue the question honestly with yourselves and try to ascertain if you have been quite fair, and if all the excuses really out-weigh the sacrifice of a great principle.

When Sir James speaks of the clergy using "violent, intemperate and abusive" language, he cannot truthfully refer to any considerable body of the ministers. There may have been occasional indiscretions or lack of diplomacy upon the part of the clergymen, but as far as we have been able to ascertain the "violent, intemperate and abusive" language was mostly confined to those making slanderous and untruthful attacks upon the occupants of the pulpit. Sir James should either seek to justify his very general attack upon the ministers, or else withdraw it. As it is, it allows a most uncalled for and unfair imputation to go abroad.

MR. N. W. ROWELL

The one man who has a perfect right to be serene to-day is Mr. N. W. Rowell. He made a great fight; he advocated a good cause. He worked prodigiously throughout the campaign, travelling almost the entire Province, and delivering a series of public speeches surpassed in merit by these of no other public man, past or present, in either political party. For three years he has been the able leader of a small Opposition. With less than a score of men behind him in the Legislature he has divided authority with the Government, and has shaped and forced legislation.

The defeat of election day is not to be ascribed to the general, but to the army. For one thing the allies did not come up in time. Night fell and yet they did not come.

Again, let us add, that was not the fault of Mr. Rowell. Any liberal who may have been disposed in the route to direct blame towards the leader ought to bear in mind the fact that if all the temperance people of the Province did not rally to his support yesterday it was not through fault of his, but because the trifling of Liberal leaders in the past with the temperance issue weakened the force of Mr. Rowell's advocacy and enabled his enemies to gain a hearing when they declared that he, too, would trifle with it.

It is quite evident that Liberals who are not temperance men voted against their party, in large numbers, and it is equally evident that temperance men who are not Liberals did not come to the party in large numbers. It was not the leader, but the party, that was distrusted by the great bulk of those who are usually its opponents and who were invited to join with it on the temperance issue.

Mr. Rowell has come back with a slightly increased support in the Legislature. He has made the acquaintance of the people all over the Province, he is the ablest man in the party, he is young in years, and success is for him certain—Toronto Daily Star.

"THE WAR PRAYER"

When we pray for ourselves do we always see what effect the granting of our prayer will produce upon others? How hard it is for us to see more than one side! It remained for Mark Twain, gentle humorist that he was, to show us ourselves as we too often are.

In his article he tells of the young recruits about to march away to war, and of the final assembly in the church, where the minister prayed for victory to the nation's armies. As the prayer closes a white-robed stranger enters moves up the aisle and take the preacher's place then, after some moments of impressive silence he begins:

"I come from the throne—bearing a message from Almighty God! . . . He has heard the prayer of his servant, your shepherd, and will grant it if such be your desire after I his messenger shall have explained to you its import—that is to say, its full import. For it is like unto many of the prayers of men in that it asks for more than he who utters it is aware of—except he pause and think.

"God's servant and yours has prayed his prayer. Has he paused and taken thought? Is it one prayer? No it is two—one uttered the other not. Both have reached the ear of Him who heareth all supplications, the spoken and the unspoken. . . .

"You've heard your servant's prayer—the uttered part of it. I am commissioned of God to put into words the other part of it—that part

which the pastor—and also you in your hearts—fervently prayed, silently. And ignorantly and unthinkingly? God grant that it was so! You heard these words: "Grant us the victory, O Lord our God!" That is sufficient. The whole of the uttered prayer is completed in those pregnant words.

"Upon the listening spirit of God the prayer fell also the unspoken part of the prayer. He commanded me to put it into words. Listen!

"O Lord our Father, our young patriots, idols of our hearts, go forth to battle—be Thou near them! With them—in spirit—we also go forth from the sweet peace of our beloved firesides to smite the foe.

"O Lord our God, help us to tear their soldiers to bloody shreds with our shells; help us to cover their smiling fields with the pale forms of their patriot dead; help us to drown the thunder of the guns with the wailing of the wounded in pain; help us to lay waste their humble homes with a hurricane of fire; help us to wring the hearts of their unoffending widows with unavailing grief; help us to turn them out roofless with their little children to wander unfriended through wastes of their desolated land in rags and hunger and thirst, sport of the sun-fumes of summer and the icy winds of winter, broken in spirit, worn in travail, imploring thee for the refuge of the grave and denied it—for our sakes, who adore thee, Lord, blast their hopes, blight their lives, protract their bitter pilgrimage, make heavy their steps, water their way with their tears, stain white snow with the blood of their wounded feet! We ask of One who is the Spirit of love and who is the ever faithful refuge and friend of all that are sore beset, and seek his aid with humble and contrite hearts. Grant our prayer, O Lord, and thine shall be the praise and glory now and ever. Amen."

"(After a pause.) 'Ye have prayed it; if ye still desire it, speak!—the messenger of the Most High waits.'"

Wealth in such quantities that its owner has to have armed guards during the day and sleep in an armored bedroom is burdensome rather than pleasurable. Yet while wealthy now to this point, and with not a grasp for more. Maybe when he gets on the other side he will reform, and not want more than his legitimate share.

Last summer, when the hot winds blew and wilted things on every hand, and when the sun in skies of blue, shone down and blistered all the land, we mortals raised a bitter wail, and cried, "In this there is no sense, for all our cherished crops will fail! Oh, drouth disastrous, get thee hence!" Had any moral high-brow guys attempted to convince us then that back of all was purpose wise, we should have jeered and jeered again. But now that theory is fulfilled, for we're informed ten thousand score Ben Davis apple trees were killed, by that fierce drought, to bear no more. Ben Davis trees are standing dead throughout this glad and fertile land, and we regret the things we said because we did not understand. So let's be patient after this when trouble dogs us, close behind, for sorrow's but a cloak of bliss and threatening clouds are silver-lined.

An American exchange printed the following editorial the other day, and it is so directly to the point that it is worthy of reproduction here:

"The most potent factors in the building up the city at the expense of the country are the mail order houses.

"The mail order houses are themselves built up and sustained wholly by the small town and the country.

"The mail order house does not depend on the support of the community in which it is located—because it meets the competition of the department and other stores that advertise. It meets little or no competition in the small town and country merchants do not advertise, while the mail order house does—both by newspaper and catalogue.

"Last year one mail order house did more than \$90,000,000 worth of business—an average of a dollar for each man, woman and child in the United States—and nearly all of it came from the small town and country—money sent away from home town never to return.

"None of the \$90,000,000 came from big cities, because mail order 'bargains' have no attraction for city people—they read so much of 'bargains' in the city papers.

"In a recent speech, Governor Hodges of Kansas told the business men of Kansas City that the best way to compete with the mail order house is by systematic, honest extensive advertising. And he laid down a rule that if every merchant would spend as much, in proportion, of his profits in honest advertising as the mail order houses do, they would have little trouble with the mail order business. "Advertise extensively, and then live up to your advertising," the governor says, "and you will not be troubled with mail order houses. You know you have the goods the people want. Tell them about them."

"The merchant who follows this advice does not fear the mail order house, but courts it as a trade stimulator."

Lesson II.—Third Quarter, For July 12, 1914.

THE INTERNATIONAL SERIES.

Text of the Lesson, Mark x, 32-45. Memory Verses, 43-45—Golden Text, Mark x, 45—Commentary Prepared by Rev. D. M. Stearns.

The first part of this lesson concerning His death and resurrection is recorded in Matthew, Mark and Luke, but the second part, concerning the request of James and John and their mother, in Matthew and Mark only. The words "in the way" of verses 17, 32, 52; xl, 8; Acts ix, 2, 17, 27, and elsewhere, while they may generally mean nothing more than on the road, are suggestive of Ps. l, 6; cxli, 1; John xiv, 6, and make one think of the way of peace, the way of the Lord (Luke vi, 10; iii, 4), and of what it really means, to follow Him in the way.

This is the third time that He speaks plainly of His sufferings and death and resurrection; but, although His words seem so plain to us, they understood none of these things (Luke xviii, 34), because they knew not the Scriptures concerning His death and resurrection (John xi, 5), having their own thoughts about the kingdom, just as many today know nothing of the second coming of Christ, the distinction between the church of the present age and the kingdom of the next age and the ages to come, because they will not take heed to what is written in the prophets concerning the Son of Man and the kingdom to be set up at His coming in glory to judge the nations and to reign in righteousness (Isa. xxxii, 1, 17; xxxiv, 8; xxxv, 4, 10), but persist in thinking that the kingdom is within us and that all that the great work of redemption is for is to deliver people from hell and get them to heaven.

This is the age of a kingdom postponed because of a rejected Christ and of gathering out from all nations a people to reign with Him, but who must be content now to suffer with Him, live separate from this present evil age, not conformed to it, but so manifesting in it the meekness, lowliness and love of Christ that we shall show something of His life in these mortal bodies and win people to Him. The Holy Spirit has been given especially in this age to testify of a crucified, risen and ascended Christ, who is waiting at the Father's right hand until the number of His elect, waiting, suffering ones, shall have been completed, when He will take us to Himself, reward us for services, appoint our places in His kingdom and bring us back with Him to reign (Acts xvi, 33-38; Thess. iv, 16-18; Col. iii, 4; Rev. v, 9, 10). This is no time for a believer to be seeking great things for himself or his church or his denomination or society or in any way to make himself a name, but with all meekness and meekness and long suffering and patience walk worthy of Him who has called us unto His kingdom and glory (Eph. iv, 1, 2; Col. i, 10, 11; I Thess. ii, 12), who came not to be ministered unto, but to minister and to give His life a ransom for many (verse 45).

Even Jeremiah in his day said to his scribe Baruch, "Seekest thou great things for thyself? Seek them not" (Jer. xiv, 5). As it is a case of self or God and cannot be both, we must persist in attaining to the fullness of the experience of "Not I, but Christ who liveth in me." "Not I, but the grace of God;" "In newness of life, dead indeed unto sin, but alive unto God through Jesus Christ our Lord;" "Delivered unto death for Jesus' sake, that the life also of Jesus might be made manifest in our mortal flesh;" "Risen with Christ and setting our affection on things above" (Gal. ii, 20; Cor. xv, 10; Rom. vi, 4, 11; II Cor. iv, 10, 11; Col. iii, 1-4).

Neither James nor John nor their mother seemed to understand when they came seeking preferment in the kingdom, and it did seem so out of place when He had just been speaking of His own sufferings and death. Even on the last night, at the passover, as he spoke of one of them betraying Him, they were striving as to which of them should be the greatest, giving Him occasion to say, "I am among you as he that serveth" (Luke xxi, 21-27). No teacher of man was ever so lonely, misunderstood or unappreciated. There is such a depth of meaning in His words, "No man knoweth the Son but the Father" (Matt. xi, 27); "I live by the Father" (John vi, 57). He spoke of the cup given Him to drink and the baptism of suffering which awaited Him, and asked if they could share it, and they thought that their devotion to Him was such that they could share anything with Him, even to dying with Him, as Peter said (John xiii, 37). They did not understand. How could they when they were so dull as not to receive His plain words about His dying? And when he was arrested that last night and was about to be bound and led away as a prisoner Peter would have delivered Him by his sword if he could.

Oh, how little we understand of what it means to follow Him, to manifest His life, to bear the burden of the meek and lowly One, who, when He was reviled, reviled not again; when He suffered He threatened not, leaving us an example that we should follow His steps (I Pet. ii, 21-23). When people sing, "Surely the captain may depend on me," "Fada, each earthly joy," "Thou, O Christ, art all I want," and other similar words they do not often consider what they are saying and to whom they are saying these words, nor how it would be if the last came.

It is wise to prevent disorder. Many causes lead to disorders of the stomach and few are free from them. At the first manifestation that the stomach and liver are not performing their functions, a course of Parke's Vegetable Pills should be tried, and it will be found that the digestive organs will speedily resume healthy action. Laxatives and cathartics are so abused in these pills that no other preparation could be so effective as they.

It had passed from a hamlet to a police village, from a police village to an incorporated village, and on June 30th, 1864 an act of the legislature council and assembly of Canada received the royal assent, whereby the village became an incorporated town from December 1st of the same year. FAREWELL GATHERING

At Sidney Circuit Parsonage—Presentation and Address to Pastor and Wife.

On the evening of June 24th the Sidney Circuit parsonage seemed to be a center of attraction for the people of the circuit. At about eight o'clock could be seen coming from all points of the compass a multitude of people, young and old, on foot, in carriages and autos, carrying baskets laden with edibles, all wending their way to one center—the parsonage—until that roomy structure was filled to overflowing and the surrounding grounds provided room for a larger crowd than that within. Chairs were brought from the adjoining church for the comfort of the ladies but the task of providing seats for so large a number of people had to be abandoned.

The purpose of this large gathering was to do honor to the esteemed pastor and his wife, and to bid them farewell before leaving for their new home at Selby. After lunch had been served the crowd repaired to the church which was comfortably filled and the Recording Steward of the circuit, Mr. C. J. Massey called the meeting to order.

Mr. Fred Spafford of Aikens' appointment was chosen to act as chairman of the meeting. After the chairman's address which was a review of the past four years, our duty to express in words of sincerity our high appreciation of your faithful services while laboring in our midst. Four years ago you came here, but you have by your courteous manner, your genial disposition, and your sympathy with all that is good in the esteem and affection of your people. Our circuit has been strengthened financially under your management and especially along missionary lines has it made long strides, year by year, until it now occupies a prominent place among the circuits of this district. You have the good wishes of your people for your future success, and for all that is highest and best for you and yours, and while it is to us a pleasure to express our good will, we do so with a feeling of

sadness, that a term, that has in every respect been characterized by harmony, is practically terminated. To you, Mrs. Cooke we tender our thanks for the help so cheerfully given to our circuit in our various entertainments and other services, through your talent of song.

We wish you both to feel as we believe you do feel, that you are being brought from the bosom of the church for the help so cheerfully given to our circuit in our various entertainments and other services, through your talent of song. We wish you both to feel as we believe you do feel, that you are being brought from the bosom of the church for the help so cheerfully given to our circuit in our various entertainments and other services, through your talent of song.

REPLY. The Reverend gentleman made a feeling reply expressing his heartfelt thanks for the many acts of kindness shown towards him and his estimable wife during his pastorate on Sidney circuit.

Short addresses, retrospective in nature were made by representatives from each of the four appointments, all speaking in highest terms of Mr. and Mrs. Cooke, and expressing the universal regret felt at parting with them.

The meeting was brought to a close by singing "Blest be the tie that binds" after which the congregation individually bade their pastor and his wife farewell.

PLEASURES OF LIVING IN TORONTO

This Toronto is some "burg," be lieve me. Got New York and Shawanville beat to a frazzle. New thrill due every fifteen minutes, (our) this every hour, nearly one hundred thrills per day. Mix these with the shills and ills that come naturally one's way, and you are getting a full and lavish experience with dangers unseen and unseen that will keep your nervous system carrying eighteen thousand volts, and the nails in your shoes striking fire at every step. The dangers which keep you keyed up to concert pitch twenty-four hours a day, are mostly encountered on the streets, where the rumbling, rattling trolley car, the stealthy skidding auto and the tricky sporting motor cycle, makes life one joyous carnival of death dodging athletics. Barring quakes, the safest place a Toronto citizen can be in, is the bed. And you can frequently find some of them there after midnight, but in the morning when he goes forth to resume his connection in the places of high finance his dexterity in sidestepping the ever present juggernauts is the only guarantee he has of taking another meal with his family. Away back in the dim and misty ages of the past, before electricity and gasoline had everything

backed off the board, (likewise the streets)—away back in the dark ages, some freak came forward with the proposition: "If you hesitate you're lost." If he had waited a few thousand years, and moved into Toronto, he would have learned that if you don't have a trolley, no doubt, caused Noah to sit up and N.B., and thereby served an extremely good purpose. But hesitation, however, is really the only chance one has for his life in a large city. If you go sprinting about the streets here same as you might on a country cross-road, some large dark object with a ninety h.p. motor concealed in its interior, is likely to hit you in the bump that will break you into more fragments than two men and a boy could pick up in an hour. And the man in the morgue would need a week in which to articulate that the bump that will break you into more fragments than two men and a boy could pick up in an hour.

If the writer ever gets back the nervous auto knocked out of him over a year ago, he's going to try that trolley-car stunt just to brown see if it can be accomplished. T. P. BROWN

CANOEISTS WELL ON THEIR WAY

The two Peterborough boys, Jack Davidson and Donald Cameron, who are accompanying Mr. Gordon Graham, of Lakefield, on a 1,000 mile canoe trip to New York City, are getting along nicely, although their progress has been a little slower than was expected. The bad weather of the past week impeded the boys, who were weather-bound on several occasions. Word was last heard from them at Belleville, but by this time they will be nearing Montreal, and soon will be starting the second half of their journey.

LIGHTING FRONT CONTRACTORS AND BRIDGE ARE ANXIOUS TO BEGIN PAVING

Committee Held Conference With the Trenton Electric Officials.

The Light Committee had a conference between ten and twelve-twenty last night, and this morning with representatives of the Trenton Electric and Water Company over the prices for lighting Front and Bridge Streets with electricity.

Would Like to Have Started Work on Front Street on Monday.

Messrs Foley & Gleeson, the contractors of Ottawa, who have been awarded the contract for Front and Bridge Streets' new asphaltic concrete pavements, are very anxious to begin work on Front Street.

Another problem in the way is the settlement of the light question. The new system of lighting the paved streets calls for standards to be erected at the corners with cluster attachments. These posts will have to be secured and placed in position before any of the concrete work is laid.

It is expected that local men who are anxious to work on the job will have opportunity for employment. This will be welcome to some for chances of labor are none too bright this summer.

YACHTS CALL HERE TODAY

On Their Way to Prinyer's Cove For Annual Races.

Yachts from Western Yachting Clubs are in the harbor today on their trip to Prinyer's Cove for the annual races at this famous course. Last evening there were no less than nine or ten fancy boats that called here.

Last night one yacht ran aground south west of the lighthouse on the "cut." This morning a vessel from Hamilton struck on the cut.

Men along the waterfront say that this condition could be remedied by placing a couple of barges in the locality to warn strangers. These vessels come here and would take on provisions were they not prevented by such mishaps.

TABERNAACLE CHOIR HAD A FINE OUTING

The trustees of the Tabernaacle Methodist church are to be congratulated for their appreciation of their most excellent choir, and for the very pleasant outing provided for the choir and their friends. It is only by giving much time and intense study that a church choir can be brought to a great degree of perfection, and the trustees by their kind acts, voice the verdict of lovers of good music in the city, in their estimation of the Tabernaacle choir.

The most refined and recherche description were provided and thoroughly enjoyed. It was a charming scene. The moon lent her magic radiance to the waters of the bay. Camp fires glowed and contributed their ruddy light to the white drapes of the ladies, the dark green of the foliage, the brilliant lights from the house, the red and white decorations, formed a most entrancing picture.

WELL KNOWN BRIGHTON MAN PASSES AWAY

Charles Albert Lapp, for twenty-seven years publisher of The Brighton Ensign passed away on Saturday morning last at his home in Midale, Sask., to which place he had removed four years ago.

Mr. Lapp was born near Grafton in the county of Northumberland 65 years ago. He first entered the profession of teaching at the age of 18. He became principal of Brighton public school, a position that he filled with marked success for several years. He then acquired The Ensign and continued to be its publisher until four years ago when he turned it over to his son Clarence and left to settle at Midale, Sask.

After some months in this western town the principalship of the public school became vacant and Mr. Lapp accepted this position. This position he continued to hold up to the time of his death.

Mr. Lapp was twice married. His first wife was Miss Martha Taylor daughter of the late Rev. John Johnson. She passed away twenty-three years ago. He was remarried last November to Miss Addie Wellington of Brighton. In addition to his wife, Mr. Lapp is survived by a family of three sons and five daughters. The sons are Clarence, publisher of The Ensign, Charles, principal of the public school at Braeside, Ont., and Clarke, foreman of the job department of The Ontario printing office. The daughters are Mrs. George McDonald, Markdale, Mrs. Wm. MacColl, Wooler, Miss Miss Mabel, teacher in the Industrial school at Virton, Man., Miss Aida of Midale and Miss Blanche, trained nurse at Guelph. He also survives by two brothers, Willis of Grafton and Dr. T. C. Lapp, of Cobourg.

CAPT. TOWNSEND TRANSFERRED TO CALGARY

Captain and Mrs. Townsend with their family spent a few hours in the city today visiting the Captain's mother, a resident of this city. Captain Townsend is on his way to Calgary, Alta., to which city he has been appointed a manager of the Army's Metropolitan.

The Captain and his wife have for the past two years been in charge of the Army's Metropolitan in the City of Quebec. Captain Townsend and family will go to Calgary with the best wishes of his Army comrades of Belleville within whose ranks they fought for several years prior to becoming officer some five and a half years ago.

An old that is Prized Every Where. Dr. Thomas' Eucalypti Oil was put upon the market without any flourish over it. It was pulled up to meet the demand, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this hemisphere. There is nothing equal to it.

Two dogs were killed in the city yesterday by automobiles. The second fatality occurred about 7:40 last evening on Bridge street hill in front of the armouries. A motorist was coming leisurely down the incline when a faint tan and white dog ran out from the walk and apparently snatched at the tire with disastrous results for he was caught and drawn under and run over at the shoulder of the owner of the dog, an Italian. The dog was picked up in a basket after it had died and carried it in a basket to the police station where he reported the tragedy to the department.

DOCTOR HAIG LOSES CASE

Chief Justice Falconbridge gave judgment at Osgoode Hall, Toronto, confirming the award of \$1,200 damages given by a jury to Charles H. Cassan, of Campbellford, against Dr. Andrew Haig, of the same town, for alleged negligence in his treatment of the plaintiff. The records it appeared that in June of last year Dr. Haig consulted the defendant for eye troubles. After examining the man's eyes Dr. Haig injected something, "presumably cocaine," into the eye instead of effecting a cure or relieving the pain, it was intensified. In fact the plaintiff alleged that he was temporarily deprived of his sight and the eye was permanently injured. The defence was that no mistake had been made, the treatment given being the usual one in such cases, and that the symptoms complained of were due to the progress of the malady, which might have been remedied by further treatment.

TROUBLES IN RACING BIKE

On Saturday a young fellow came into town and placed his bicycles in Mr. James Ballard's barn, Front St., paying a small fee for the privilege. When he was ready to return home he went to the barn and found that the wheel was gone and learned from Mr. Ballard that it had been given to another who had left his wheel there. The young man reported the case to the police who investigated the matter. The letter stated that Mr. Ballard denied that the boy had left the bicycle at the barn. Afterwards the other bike was found on the premises which the second boy had left in safe-keeping.

APPEARANCE OF NEW DOCK

The old is giving way to the new along the waterfront at Belleville. While the Queen Victoria Park side of the harbor wears the old look, the east side has been changed considerably. New dockage has been built near the foot of Wharf street for the gasoline yacht, the "Where Now."

Motorboat houses are huddling down the east side of the water and stretching south as far as the southern limit of the dock. The Macdonald dredge is engaged in excavating outside of the east side of the main part of the inverted-letter L dock has been marked out by stakes.

SWAM AFTER STR. CASPIAN

A lively time occurred at Swift's wharf, Kingston, on Sunday morning, at ten-thirty o'clock, when two firemen of the Steamer Caspian created an uproar over the non-payment of their wages. It appeared from all accounts that the two men were desirous of quitting the boat and demanded the captain to pay them the amount due them. The captain said that he would see about paying them upon arriving at Kingston. The two men hung around the wharf with the expectation, but no money came their way. Finally the Caspian left port for its trip down the river. The two firemen were not going to be undone and one of them stripped off almost every stitch of clothing and jumped into the water and began to swim after the steamer. However, the captain won out and the disappointed fireman had to swim back again.

In the meantime two policemen were summoned to take the disturbers of the peace in hand. But they were a little too much for the guardsmen. Upon arriving back at the wharf after his long swim, the policeman told him to hurry up and get out of the water. The fireman, knowing that it would not have a good result with him, swam away again and told the policeman to go to a better place than Swift's wharf on a sultry day.

MAKING AN EGG RECORD

Mr. E. B. Mullett, Bonjamen Street has a flock of hens of which he has every reason to feel proud. The flock numbers ten in all. Five are of the black minorca variety, and the remaining five white leghorns. All were hatched out in May, 1913. They began laying in December last. From January 1st to June 30th, Mr. Mullett has kept daily record of the egg production and of food costs. The total number of eggs produced was 1020. The lowest month was January with 75 eggs. The best month was April with 233. Two of the hens were setting in May and hatched out 23 chicks. This, of course, lowered the total egg production. After keeping all that were required for household use, Mr. Mullett disposed of eggs to the value of \$16.90. The food for the six months period cost a little less than \$9. The rations supplied consisted of wet shorts in the morning, dry whole wheat at night, with a generous supply of wheat bran always before them. Mr. Mullett considers that his little flock has established a local record for productivity and profitability, but if there are others who can make a better showing he would like to hear from them.

Always Serviceable—Most pills lose their properties with age. Not so with Parmelec's Vegetable Pills. The pill mass is so compounded that their strength and effectiveness is preserved, and the pills can be carried anywhere without fear of losing their potency. This is a quality that few pills possess. Some pills lose their power, but not so with Parmelec's. They will maintain their freshness and potency for a long time.

MR. CLARKE'S PROPOSAL

Of all the excellent presentations of the Temperance side in the recent election contest we heard none more logical or convincing than that brought forward by Rev. W. G. Clarke. No one who heard Mr. Clarke could fail to be impressed by his evident fairness and sincerity. And there was no one who did or could reply to his arguments for they were unanswerable. Mr. Clarke has been through the stress of several local option campaigns and is one of the best posted men in Ontario upon temperance issues. Politically Mr. Clarke is independent, having probably voted often on the conservative side than on the liberal.

If there was any one who indulged in the remotest suspicion that Mr. Clarke was animated by partisan zeal in taking the course that he did, that suspicion must now be entirely removed by the manly letter from Mr. Clarke published in Tuesday's Ontario.

He assumes, very fairly, that Monday's vote was an endorsement of the local option method of proceeding to prohibition. Owing to the very large majority given in Belleville (over 600) Mr. Clarke thinks that now would be a favorable time to launch a local option campaign in this city. Such a movement would, he believes, have the effect of uniting temperance workers of all parties again in a common cause. Local option has no partisan bias, and therefore church members who have been somewhat divided over the Abolish-the-Bar policy, owing to the affiliations of party, could unite and become harmonious again in fighting the common enemy.

There is much in Mr. Clarke's plan to commend it. Certainly there can be no fault found with his idea about restoring harmony among the churches.

We are not quite so sanguine as Mr. Clarke appears to be about the enthusiasm of all those who made up that big majority for Mr. Johnson for the cause of local option. They were all, or nearly all, diating upon the excellences of the local option scheme of temperance reform up to Monday afternoon. Since that time the subject has not, as far as we have been able to ascertain, been among them a leading topic of conversation.

However it is not for us to question their sincerity or their motives. If Mr. Johnson and his supporters will now become active in bringing about a local option campaign, the Ontario will not place one straw in their way. In fact we cannot see how they can consistently refuse to do so. Definite action along that line now would do more than anything else to convince everybody that their pre-election professions represented their true attitude towards reform. Deeds speak louder than words.

HIS DUTY TO THE PUBLIC

Apparently a new duty has dawned with undertakers. A false attitude has been demolished. The undertaker has arrived at the modern conclusion that it is not bad taste for him to advertise.

For many years the undertaker has thought that he ought to wear a certain look on his face and occupy a certain attitude toward his customers. The old type of undertaker was a demure, somewhat sad looking man who went around in the community softly, not caring to lift his voice above that certain carefully modulated tone which through all time has been chosen as the proper tone in which to express sympathy.

He has lived in an atmosphere of dense sadness to which he tried to give outward expression by somber manners.

There is nothing wrong about an undertaker getting away from this atmosphere and we are glad he is doing it.

It is his duty to be modern and business-like.

It is his duty to instruct the public as to the legitimate facts of his business in which the public is interested. We are glad the day seems to have arrived when undertakers are coming into the sunlight of publicity and telling us what their goods are worth, what the modern advantages are.

This belongs to the new day demanding intelligence.

The effect of this publicity will be good in the undertaking business. It is not wrongful in any way to keep before people the thought that some day they must patronize the under-

taker. It is the one legitimate necessity of human existence that cannot be evaded. That being the case, it follows naturally and logically that the purchasing public should have an intelligent understanding of what ultimately it follows naturally and logically that the purchasing public should have an intelligent understanding of what ultimately it will have to buy. The undertaker is not an assistant mourner; he is the man who supplies you with the necessities for the last sad rites. The thing you are interested in concerning him is not his mock professional orthodoxy, but his efficiency and the price he is entitled to charge for his services and for the various classes of his goods.

Some day the legitimate doctor will quit leaving the field of publicity to the quack and the fake, and the public will be benefited by sensible and logical instruction from creditable practitioners.

Even the churches have begun to advertise and the monopoly which the devil once had on the very useful modern agency of publicity thereby has been demolished.

AFTER THE BATTLE

It is interesting, in view of the importance of the recent election contest to read some of the comments upon the result in the Liberal press. The Toronto Globe delivers itself in this emphatic way:—

Speaking to-day for itself alone, The Globe says, with definiteness and emphasis, that the campaign for social industrial, and moral reform is only in its initial stage. The fight against the barroom is a good fight. Yesterday's voting shows that on the part of the allied liquor interests it is no sham fight. The facts of the campaign alike on the platform and in the Press have made it plain that the weight of argument, economic, social and moral, is wholly on the side of reform. The alliance of an organized political party and the entrenched and powerful liquor traffic has won the verdict from the constituencies. But that verdict is not final. To-day the bar-room stands in a whiter, fiercer light than ever before. That light will not fade. In its revealing brightness many a man who yesterday voted party and not principle will find the threshold of the liquor trade over his political party intolerable.

The Globe has taken its stand. It will not go back. More unreservedly, more immovably than ever, it will fight against the liquor traffic and against all the injustices and evils which rejoiced in yesterday's verdict. Time is on the side of righteousness and justice and social progress. Yesterday's election was only a skirmish. The real fight is on. It will be a fight to the finish.

The Toronto Daily Star foresees a long campaign of education.

The advocates of tax reform and of woman suffrage are accustomed to being in a minority, and will not therefore be greatly troubled by one more temporary reverse. The case is somewhat different with the advocates of the abolition of the bar, who had some reason to believe that a majority of the people were with them. That belief is apparently not well founded. We have no sympathy with the view that such great issues as temperance reform should be "kept out of politics," but it may be that, in addition to working for legislation, it may be that, in addition to working for it may be necessary to carry on a vigorous and perhaps lengthy campaign of education, so as to broaden and strengthen the foundation for political agitation. The Ontario of to-day is not the same as the Ontario of a decade or two ago, and a new survey of the field seems to be required.

In Guelph where the liberals won a notable victory The Mercury feels encouraged to say:—

Until Mr. Rowell makes his announcement it would be unwise to comment at length on the future policy of the Liberal party. There is so to be said though, that there is no reason to change it. Its one fault is that it may be a few years ahead of the times, but time itself will quickly remove that defect. The Liberal party can't turn back. Such reforms as the abolition of the bar, tax reform and the granting of the municipal franchise to married women must come. Mr. Rowell's statement, when he makes it, will not bear the note of the down an out. It's not in his make up. The cause for which he fights is bigger than himself or any other man, and it must go on until victory perches on its banner.

From the sister province of Quebec comes this word from the Montreal Herald and Telegraph:—

Although Mr. N. W. Rowell's policy, to abolish the bar throughout Ontario, has been decisively defeated at the polls, there can be no doubt that the stirring campaign which our sister province has experienced will have far-reaching results. Never before has such a fluttering of the doves been experienced over the liquor question in any province in Canada; never before have the liquor interests been in such open alliance with a political party as it has been with the Conservatives in Ontario. Despite the fact that the Conservatives plus the liquor interests have won the fight, we look for an immense advance in temperance to result from the campaign.

The Woodstock Sentinel-Review, published in Mr. Rowell's constituency complains of the failure of temperance men to vote as they

"resolved":—

One of the lessons of the campaign is that for a great many people party association is a stronger tie than organized Temperance. It is easy enough to talk against the liquor traffic and to denounce its evils and to pass resolutions for its abolition; but to vote against the liquor traffic, when that means to vote against one's political party—that is quite a different thing from talking and passing resolutions. That was the test to which many electors who had been strong and loud in their temperance professions were subjected, and it was a test which many of them failed to stand.

Somewhat similar in tone is the following deliverance from The Stratford Beacon:—

The temperance people apparently approve of the three-fifths vote, if the poll at large is any indication of their feeling in this matter. They must also look with approval upon the manner in which Sir James promised to introduce anti-treating, and then dropped it like a hot potato. It is quite apparent, unless some other unknown force was at work in the province, that many temperance people are quite willing to pass resolutions after resolutions condemning the growth and attendant evils of the liquor traffic, and then pocket their convictions when the party whip cracks and fall in line, forsaking the man who have staked their political lives on the sincerity and genuineness of their high sounding resolutions.

In Peterborough the temperance forces gained another notable victory and the remarks of The Daily Examiner have an optimistic tone:—

Mr. Rowell may not have made great numerical gains, but the moral and social interests he championed, and the economic interests incidentally included have, though temporarily obscured, been advanced to a permanent place among the great questions whose solution is the business and concern of the near future. People have been set thinking and will continue thinking upon these problems, and in this regard the educational features of the campaign acquire a very large importance.

The London Advertiser published in Sir Adam Beck's constituency thinks the liberal party is on the right side of the greatest public question:—

The result of the election may be taken as a verdict that, advanced as public sentiment is, it is not yet ready for the abolition of the bar by a political party. The temperance sentiment of Ontario need not be cast down. It will continue to grow, until in the natural progress of the home sentiment and its sacred character, the chief offender against the highest ideals of home happiness will be a matter of history remembered only by the oldest inhabitant. Those who have fought need not be dismayed. They are on the right side of a question that is greater than any other question in the public mind of Ontario.

Not all the comments are optimistic as to the future of the Abolish-the-Bar policy. From the Halifax Chronicle published away down by the sea we clip this note:—

It was a straight issue and a plain choice. The voting tells the story. Either the "temperance" sentiment of Ontario has been greatly overated, or the "temperance" people of Ontario placed party above principle, went to the polls and cast their ballots for the candidates of their own political faith. There may be another explanation of the vote against the abolition of the bar, but to us the vote in Ontario goes to strengthen the conviction which we have long held that there is no real political strength behind the prohibitionists. The Liberal gains, we believe, are due to the growth of Liberalism in the Province, which under Mr. Rowell's leadership has taken on a new lease of life.

The Stratford Beacon has this further remark to offer:—

The outcome was a small gain in the strength of the Opposition in the Legislature, but almost futile against the immense strength of the forces arrayed in support of a dictatorial administration which exacts the most subservient response to its behests. The result of it all is that the reform long sought for by the temperance forces is given a serious set-back.

The Windsor Record, which has offered some opposition to the Rowell policy frankly advises the dropping of the plank:—

"If Mr. Rowell is to continue as leader of the Liberal Opposition he must realize the futility of making abolition of the bar chief, or even minor issue in any more elections. The only logical thing for Mr. Rowell to do is to drop the temperance question issue and devote his energies to preparation of a more constructive platform that will lead him to attain the Matterhorn of political success in this province."

They do say that local banks were horribly scarce of \$1 and \$2 bills election day. There's a reason—Guelph Mercury.

Mr. Rowell fought a gallant fight against overwhelming odds. He goes back to the Legislature with a following nearly twice as strong numerically as he had in the last House, and although he has met defeat, he is the rising figure in the public life of Ontario. —Halifax Chronicle

The South African Provincial Councils, whose abolition is reported to be under consideration by the Union Government, were brought into being four years ago by the Act of Union. There are four in number, and represent the

four original Colonies. The franchise for the electors is the same as for the Union Parliament, and automatic redistribution is provided for. The Councils are elected for a period of three years, and the second election since the Union took place last March. On that occasion the Transvaal gave a majority of one to the Labor Party and thus returned the first Labor Assembly that South Africa has known. The Administrator of the Province takes the place of the Governor-General in opening the Council. The Councils correspond to our Provincial Legislatures.

M. Vivinai, the new French Premier, a man of great eloquence and force of character, is in every way the dominant personality in his Cabinet but there are in it several other Ministers of considerable distinction. Prominent among them is Mr. Augagneur, who became Minister of Public Instruction. Years ago he was Mayor of Lyons at the time when that city was carrying out some bold experiments in municipal socialism. He gave up the position to become Governor of Madagascar, where some of his acts excited controversy. A man of marked ability, he is rather provocative, and is not loved by the more conservative elements in France. He is a doctor by profession, like M. Gauthier, the new Minister of Marine. But at least half the members of the new Government are lawyers.

These sunny days bring forth the snakes from holes in quarries, cliffs and brakes. The gentle bullsnake, mild and meek, sets forth his proper prey to seek; of all good snakes he is the best, with high ambitions in his breast; he is the farmers' truest friend, because he daily puts an end to mice and other beasts which prey upon that farmer's crops and hay. He is most happy when he feasts on gophers and such measly beasts; and, being six or eight feet high, when stood on end, you can't deny that forty bullsnakes on a farm are bound to do the vermin harm. The bullsnake never hurts a thing; he doesn't bite, he doesn't sting, or wrap you in slimy folds, and squeeze you till he busts all holds. As harmless as a bale of hay, he does his useful work all day, and when at night he goes to rest, he's killed off many a wretched pest. And yet the farmers always take a chance to kill the grand old snake. They chase three miles or more to end the labors of their truest friend. They'll hobble from their beds of pain to hack a bullsnake's form in twain, and leave him mangled, torn and raw—which shows there ought to be a law. —Walt Mason

"OUR BIRTH IS BUT A SLEEP."

Our birth is but a sleep and forgetting:
The soul that rises with us, our life's star,
Hath had elsewhere its setting,
And cometh from afar.
Not in entire forgetfulness,
And not in utter darkness,
But trailing clouds of glory do we come
From God who is our home.
Heaven lies about us in our infancy.
Shades of the prison-house begin to close
Upon the growing boy.
But he beholds the light, and hence it flows,
He sees it in his joy.
The youth, who daily farther from the east
Must travel, still is nature's priest,
And by the vision splendid is on his way attend-
ed.
At length the man perceives it die away,
And fade into the light of common day.

A NERVOUS BREAK OWN

Can be Averted by Feeding the Starved Nerves With Rich, Red Blood.

Nourish your nerves—that is the only way you can overcome life's worst misery, nervous exhaustion. The fits of depression and irritation, the prostrating headaches, the weakness and trembling of the legs, the unsteady hand and the imperfect digestion that mark the victim of nervous weakness, must end in nervous breakdown, neglect.

Nourish your nerves by the natural process of filling your veins with rich, red, health-giving blood. Your nerves are crying out for pure blood and the mission of Dr. Williams' Pink Pills is to make new, rich blood. This explains why these pills have proved successful in so many cases of nervous disease that did not yield to ordinary treatment. For example, Mr. W. H. Walden, Annapolis, N. S., says: "In the strenuous life I have to follow the drain on my system was so great that my nerves became shattered, the blood impoverished and my whole system undermined. I tried a number of so-called remedies without deriving any benefit. Finally having read so much about Dr. Williams' Pink Pills I decided to try them. The result was beyond my expectation. I regained my energy; the blood and nerves were rebuilt; but the sense of constant tiredness I had felt and was filled with new life and energy. I have since used the pills with beneficial results in my family and will always have a word of praise for them."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail postpaid at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

ELECTRICAL EFFECTS

Will be Striking Feature of This Year's Canadian National Exhibition.

Do you remember how the tiny electric lights twinkled like fireflies amid the foliage of the trees at the Canadian National Exhibition last year? That was the foundation of a wonderful system of electrical ornamentation that is being completed for this year's Exhibition. The Grand Plaza will be enopied with electric stars, and the fountain will be illuminated, while various devices symbolical of Peace Year will help to beautify the grounds.

One Man Taken to Hospital for Treatment—Another Under Arrest.

From Thursday's Daily. A serious fight occurred last evening at six-forty near Carlaws mill on Moira street. The trouble had arisen in a barroom, it is believed, and was transferred to the place where the scene was enacted. Officer Ellis of the police department answered a call and found that two men had been fighting. He took into custody a young man named Berry who had been badly beaten. The constable went with him to a physician who considered his condition serious and advised his removal to the hospital. The injured man was thereupon taken there.

A letter a youth named Barnum was arrested on a charge of assaulting and beating, there was removed until Saturday and later admitted to bail.

Berry is in custody while at the hospital on a charge of disorderly conduct. The wildest stories were floating around about the fight, one having it that Berry was given four hours to live. This fortunately was grossly exaggerated. This morning his condition was much improved and he will be able to leave in a short time.

PRESENTATION AT HAROLD

On Friday afternoon the pupils and a number of the ladies and gentlemen of the section met in the school room to enjoy an hour with Miss Fleming from girls who have resigned as teachers here. Mr. Thomas Cook called for order and invited Miss Fleming to the front when an address was read by Miss Rosina Cook and she was presented with a beautiful silver basket. Although taken by surprise Miss Fleming very suitably replied. A number spoke of the interest she had shown in her work and expressed their sorrow at her leaving. A cap shot was taken of the children then bade their teacher good bye.

Following is the address—Harold, July 26th. Dear Miss Fleming—We, the pupils and friends of Harold public school have met together this afternoon to express in a slight measure our sorrow at losing you as a teacher.

During your stay here we are sure there has been no occasion for murmur as you have pointed out lessons worthy of memory. We no doubt as pupils have often by our childish, thoughtless actions, made you many needless worries of which we are sure we are all very sorry for. Yet through it all we could never see that you lost patience, love or interest in us. We are sure that your untiring efforts have also planted in our minds the lesson of perseverance which is the key to all high aims. And now dear teacher as we are about to part we ask you to accept this small token as a slight reminder of our love and esteem for you. And as years roll on and miles divide us, you will ever be reminded of your last as teacher in our midst. In conclusion we would say there will ever remain a welcome in our hearts for you and we hope to have the pleasure of often entertaining you. Our good wishes for health, happiness and prosperity go with you to your new home.

Of all the lives well spent in serving. The best interests of mankind. None of praise are more deserving. Than the one who trains the mind. Signed on behalf of Harold school, Rosina Cook, Elsie Martin.

HAPPILY WEDDED IN LEAFY JUNE

One of the prettiest and most interesting weddings of the season was celebrated at Latta on Wednesday, June 24th, 1914 at the residence of Mr. and Mrs. John Sherman, when their daughter, Della Irene, was united in marriage to Mr. George Nelson Beatty of Sidney, formerly of Toronto by Rev. S. Kemp, of Canadara. Ferns, evergreens, daisies and pond lilies in profusion adorned the veranda where the bride was married under a large white bell and arch of evergreen and banked at the back with evergreen and daisies. Promptly at 11:30 the bride appeared, leaning on the arm of her father, while Miss Annie McCullough played the wedding march from Lohengrin. Miss Eva Shorey, cousin of the bride acted as bridesmaid, dressed in a pale pink tulle silk gown draped with shadow lace and trimmed with seed pearls and carried carnations and maiden hair fern. The bride looked very winsome and dainty in her wedding gown. Large duchess satin trimmed with seed pearls and a large butterfly of pearls, rhinestones and sequents and carried white carnations. She wore a beautiful hand embroidered veil from England, gift of the groom's mother, caught up with orange blossoms. She wore the groom's gift, a beautiful pendant set with pearls and emeralds. Mr. Stanley Beatty, brother of the groom acted as groomsmen. The groom's gift to the bridesmaid was a gold necklace set with emeralds, rubies and pearls, to the pianist a gold brooch set with pearls and to the groomsmen a set of gold carved cuff links. During congratulations, Miss Ida Pitman sang "Love you truly," Miss Edith Latta received the guests, looking very graceful in a pale blue satin dress trimmed with lover's knots and shadow lace. The bride's morning dress was black satin, trimmed with baby Irish lace and rhinestones. The groom's mother was gowned in a hand embroidered dress. After the ceremony the guests repaired to the dining room where dejeuner was served, the tables being decorated with daisies and pond lilies. After the marriage ceremony a photograph was taken of the bridal party and the guests.

The bride donned a smart, black and white striped wedding suit and a white hat trimmed with clusters of pale blue moss roses and a French ostrich plume. Those from a distance were Mr. and Mrs. E. McDougall of Saginaw, Mich., Mrs. B. J. Forman, and son Devere, Mrs. C. Hoard and son Blake of Rochester, Mr. and Mrs. C. H. Boardman of Havelock, Mr. and Mrs. G. Beatty of Toronto, Mr. and Mrs. Peter Mather of Coburnville, Mr. D. Montgomery, Misses Thompson, Mr. Leigh and Eva Shorey of Belleville and a number of others. In all there were about 150 guests.

FIRES TOO FREQUENT; CITIZENS ANXIOUS

Marmora Alarmed Over \$25,000 Fire Loss—Want Better Protection. Marmora, July 1.—Worried by the frequency of fires, residents of Marmora realize the necessity of some system of fire protection. Business men and other residents have been considering the matter for some time, and a proposition is to be submitted to the ratepayers. Last year the fire loss was \$85,000, which is a tremendous amount for a town of this size. In most of the cases these fire losses could have been greatly reduced if there had been a system of fighting the fires. There have also been serious fires this year, the most serious being on May 24, when several thousand dollars' worth of property was consumed.

A.O.U.W. PICNIC.

The A.O.U.W. picnic held at the Scuttle Hole on the Moira River, near Plainfield, Dominion Day was a splendid success. Members and their friends came in considerable numbers from the surrounding district and after a bountiful repast from over-flowing baskets in real old fashioned picnic style, Alex Moore (the District Deputy Grand Master Workman) assembled those present and made a few well chosen remarks stating that this picnic was to be an annual affair. Grand Master Workman W. C. Mikel, K.C., F. E. O'Flynn and W. Jeffers Diamond of Belleville and Dr. Moore of Shannonville, all members of the Order also made short addresses. A number of interesting and amusing races were then held in which many of the younger people present took part. E. G. Billingsley, manager of the Union Bank who was present, assisted in the management of the races. By the kindness of Senator Corby, who has been a member of the order for many years, all present were served with ice cream during the dinner as well as the prize winner in the races. A number of Belleville people motored out to enjoy the picnic at this interesting place where nature in the past produced such curious upheavals.

CITY FATHERS HELD SPECIAL SESSION TUESDAY EVENING

From Thursday's Daily. The city council held a special meeting on Tuesday evening. The members present were Mayor Willis, Aids, Panter, Wallbridge, Platt Smith, St. Charles, Duckworth and McFee. The usual grant was given to the Belleville Agricultural Society. A new contract between the city and McCoy Bros. was authorized. A petition for water services on Moira and Earle streets were referred to the engineer for approval. Monday August 3rd was requested as civic holiday. After some discussion the prayer of the petition of members of the Retail Merchants' Association was granted. Ald. Woodley—Why had not the motion relating to the closing of Station and Mill streets been carried out? Ald. Platt said he had spoken to the street foreman several times. Mayor Willis said the difficulty of pumping oil into the wagon had been overcome. Ald. Platt said he would speak to Mr. Henderson. Ald. Woodley—Why could not arrangements be made to fill holes on Pinnacle street with refuse from Front? His idea was to use some of the small stone. Ald. Platt said Mr. Henderson thought the stone would have to be crushed. Ald. Panter thought the first six or eight inches picked up would be of use. Ald. Platt said no reports were made to him of road repairs. Ald. St. Charles thought the engineer and surveyor should be allowed to use their discretion in the matter of repairs. Ald. Woodley asked how it was that so many of our taxpaying citizens which had teams were not employed on the streets. Mr. Henderson said he had difficulty in securing teams and had secured two teams from the outside. Ald. Woodley mentioned the names of two citizens "who had been turned down." Mayor Willis said it would be impossible to promise steady work to teamsters. Mr. Henderson had undoubtedly used his best judgment. If the council went interfering there would be trouble. Ald. McFee said Mr. Henderson had been acting in accordance with the council's suggestion to employ city men. Mr. Henderson stated that he had to look three hours one day for a team. Mr. Evans, city engineer said that Mr. Henderson had told him so and that on his suggestion, the outside team was hired. Bylaws were passed to provide for the watering of certain streets. Ald. Panter under the head of unfinished business "asked if the contract between the city and Foley & Gleason for Front and Bridge Street paving was ready. Engineer Evans said it was ready. The company had signified its intention of signing it. The clerk produced the contract. The council returned to order "motions." Ald. Panter moved that council signify its approval of Foley & Gleason contract as drawn—carried. No mention is made in the contract for screening the surface of Front St. Ald. Panter said the estimates were prepared and the aldermen were privileged to look over them and make any changes if necessary. He requested that the council adjourn until Monday, July 6th to pass the estimates. Ald. McFee said he had received no information from the Trenton Electric or Hydro-Electric. He would write again or wire. Mayor Willis said the chairman and engineer should inspect the upper bridge. The cost of repairing the upper bridge will come out of this year's appropriation.

AVIATOR'S TERRIBLE FALL

Port Hope, July 3-H. W. Blackley, a New York aviator, was badly hurt Wednesday when his biplane collapsed.

The biplane, manufactured by Capt. Baldwin of New York, was an 80 h.p. 8 cylinder one, weighing 1,200 lbs. He made one successful flight at two o'clock in front of a holiday crowd, and at 4.20 ascended again.

At a height of about 200 feet he was on the ground. He was found with the engine resting on his chest, and unconscious.

His own story of what caused the accident has not been learned but some accounts blame the rain which fell for causing water to get into the valves, and another version is that the gasoline he brought near was not pure enough.

His wife lives in San Francisco and has been notified.

MAGISTRATE'S BUSY DAY

Many Cases in the Police Court This Morning.

From Saturday's Daily Magistrate Masson had the largest docket before him today in police court annals for many a month. No less than over a dozen men were charged including four charges in connection with the famous fight on Moira Street East on Dominion Day.

Five charges of vagrancy, two charges of "disturbances" having liquor in their possession, a charge of indecent assault, and at least a dozen cases dealing with breach of the statute law bylaw of Thurlow.

ASSAULT CASES The charges of assault were laid over until next Friday. These arose out of the fight on Moira St. East on July 1st. Two Barnum boys and Philip Thrasher are charged with assault on a man named Berry who is himself charged with disorderly conduct.

Mr. Patrick Donovan, G.T.R. detective, arrested five men last evening at the depot on charges of vagrancy, lodging in freight cars. They were in court this morning and all pleaded guilty-Sidney Holt, Henry Clifford, James Ryan, who all said they wanted work but could not get it. It had been the hardest summer in their experience. They were strangers in this part of the country. The magistrate said they might have a week in jail in order to get references as to their work in Montreal.

They were remanded a week for judgment and sentence.

Thomas Johnson was charged with vagrancy having lodged in a freight car. He said he came from Toronto and pleaded guilty. He had been committed at Kingston for following the circus. So with Geo. Brommer. Both were remanded for references. Johnson, aged 17, said he could not get any recommendations.

ASSAULT AND RAPE CASE Harry Graine, charged with indecent assault and rape, was remanded until Friday next.

STATUTE LABOR Thurlow Statute Labor cases occupied a certain amount of time in the police court this morning before Magistrate Masson. John Graves was charged with unlawfully refusing to do roadwork after the notice contrary to the bylaw. He pleaded not guilty and said he had not told the pathmaster that he would pay the amount in his taxes.

LITERS IN COURT John Potts was charged with having liquor in his possession. He is on the prohibited list and pleaded not guilty.

John Rushlow made a similar plea on a similar charge.

The informant in the cases of Potts and Rushlow did not appear and the men were let off with costs.

J. Graves for breach of the by-law regarding Thurlow statute labor was fined on dollar and costs.

Quebec Man Who Suffered From Kidney Disease for Years is Again a Robust Healthy Man.

L'Anse-a-Vallou (Gaspie Co., Que., July 6.)-(Special)--"I am happy to tell you Dodd's Kidney Pills made me well." So says Jean Baptiste Tapp a well known and highly respected resident of this place.

And so thank you Mr. Tapp for the benefits he has received from Dodd's Kidney Pills that he wants the whole world to know it. He wants others who suffer as he did to know the cure.

"For many years I suffered from kidney disease," Mr. Tapp says. "It started from a cold and gradually grew worse. My skin had a harsh dry feeling, my appetite was fitful and I was troubled with the slightest exertion. I had flashes of light before my eyes and I was always tired and nervous."

"Finally rheumatism was added to my troubles while attacks of sciatica and neuralgia followed. The doctor who attended me and the medicines I tried failed to help me till I decided to use Dodd's Kidney Pills. I took four boxes in all and to-day I am a robust man in excellent health."

All Mr. Tapp's troubles came from sick kidneys. That's why Dodd's Kidney Pills cured them.

The Heart Songs of 100,000,000 People

Many of the songs cannot be found in any other collection. They came in yellow, time-worn, tear stained sheets—that had been secretly treasured from childhood—others were written out from memory—some were given by titles only—or remembered verses, involving a long search to obtain the whole.

Of the thousands received it is safe to say that the several hundred finally selected—having the largest number of votes and the highest endorsement—represent today the taste of the American people in its choice of music.

We believe that the distribution of this unrivalled song collection will bring more happiness into the homes of our readers, will do more to make them attractive to young and old; do more to inculcate a love for music into soft, elevate, and refine the home life; to cultivate the nobler and higher virtues of the fireside—than any other means we could adopt.

BIG CONVENTIONS END IOWA, OHIO, JERSEY

9,000 Delegates Participated in Sessions.

CREATION DRAMA MAKES HIT

Pastor Russell, Association's President, Was In Attendance at Each—In Discourse He Discussed, "Church of Christ a Living Temple"—Solomon's Temple a Type of Temple of God, the Church of Christ—Quarry Under Site.

Clinton, Iowa, July 5.—One of the big conventions of the I. B. S. A. closed its sessions of eight days here to-day in the Coliseum with an address by Pastor Russell in the afternoon and the exhibition in the evening of Part IV. of the Pastor's famous Photo-drama of Creation.

The other Conventions have been in session throughout the week at Ashbury Park, N.J., and Columbus, Ohio, the close of the Gospel Age. Just as in the construction of Solomon's Temple, all the materials were first prepared, and then the building began, so it will be with the antitypical Temple. Our great Master Workman has been getting ready the "living stones," supervising their preparation under strict rules as to shape, size, quality, etc. This work has been going on throughout this Gospel Age, and not until the full number of stones shall have been made ready will the construction of that glorious Temple begin. This construction will be the Resurrection change—"Changed in a moment, in the twinkling of an eye," for "flesh and blood cannot inherit the Kingdom of God."

Pastor Russell then showed that since we are now living in the close of this Age, the stones for the antitypical Temple must practically all be finished. Therefore he inclined to believe that the work of construction of the Temple has already begun. This does not imply, however, that the final polish has been given to all of the stones. Those long since prepared could be put in place while the last ones were ready for the finishing touches. He declared that the Scriptures so intimate when they say that "the dead in Christ shall rise first"—beforehand—and that "then we who are alive and remain shall be caught up together with them in the clouds, to meet the Lord." The fact that some are not yet "caught up to meet the Lord," but are still in the place of polishing and preparation, indicates that the Temple is not yet completed.

After every living stone has been placed in the great antitypical Temple, the glorification of the Temple will follow. In the type, King Solomon, type of our Lord Jesus, offered the sacrifice, and God accepted it; then the glory of the Lord filled the Temple. So in the antitype, the Church in glory will not be the Temple of God until the Heavenly Father Himself shall have recognized it. It is the work of our Lord Jesus Christ, the great Master Workman, to receive and polish these living stones, to receive them to glorious conditions by the resurrection change, and to build the Temple. Then, when all is finished, not a stone lacking, He will await the Father's acceptance. The glory of the Lord God will fill this living Temple.

The Pastor then showed the purpose for which this glorious Temple of God is being constructed. Back in the Law Dispensation the required information was pictorially set forth in types and shadows. The Prophet Isaiah had foretold that God's House was to be called a House of Prayer for all nations. This was what the Temple at Jerusalem was, and its purpose was to be a place of prayer, representing various classes, as it were. First in importance was the Most Holy, then came the Holy, then the Court into which Jews might come, next the Women's Court, last the Court of the Gentiles. This was depicted the Millennial Age—after the glorification of the antitypical Temple.

God will be in that Temple—the entire Church of Christ glorified. The Divine Power will operate through it, and as nations will begin to draw near to God. But in order to do so, they must draw near to this Temple for the glory of God will be therein displayed. All nations, both Jew and Gentile, will come to the Heavenly Father through this Temple.

Another Old Testament picture which the Pastor explained was that of the typical priesthood. The Priests of this New Temple of the future will be Jesus, the great High Priest, and His Church, the under-priests. Jesus will be both King and Priest—"a Priest upon His Throne"—after the Order of Melchizedek. Our Lord is not yet upon His Throne, but remains awaiting at the right hand of the Father on High, until the antitypical Temple is completed. The Father's right hand signifies the place of chief favor, next to the Father Himself. As it is written, "Sit at My right hand, until I make Thine enemies Thy footstool."

During this period of waiting, the "living stones" of the Temple have been prepared; those who will constitute the Royal Priests have been in training for the duties of their office. As yet there is no Royal Priest-

HOOD; FOR ONLY THOSE WHO SHALL BE DECLARED WORTHY TO SIT WITH OUR LORD IN HIS THRONE WILL CONSTITUTE WITH HIM THAT PRIESTHOOD. AGAIN, IT IS WRITTEN, "BLESSED AND HOLY IS HE THAT HATH PART IN THE FIRST RESURRECTION; ON SUCH THE SECOND DEATH HATH NO POWER, BUT THEY SHALL BE PRIESTS OF GOD, AND SHALL REIGN WITH CHRIST A THOUSAND YEARS."

The Pastor then declared that these future Priests are also Knights of the Temple. While at present they do not wear white plumes, they only wear white robes, and they shall wear white plumes, but white raiment. Our Lord has said, "They shall walk with Me in white; for they are worthy."

Various New Testament references to the Church of Christ as a Temple were then explained. One of these was St. Paul's question addressed to the Corinthian Church: "What? Know ye not that your body is the temple of the Holy Spirit which is in you?" It was shown that this question does not apply to the world, for they are still under condemnation—"children of wrath"—according to Scripture. God has not yet begun to deal with them, nor to give them the blessings which He has purposed for them. During this Gospel Age He is dispensing blessings only to the Church class, to those who have received of the Holy Spirit.

Pastor Russell then pointed out that beyond the veil the Church class will receive the Holy Spirit without measure, when all the "living stones" constituting the Temple of God will have been glorified. But on this side of the veil, those who give up their will to the Lord and who are accepted and begotten of the Holy Spirit as New Creatures in Christ, receive that Spirit in measure; and so the bodies of these may be said to be the temples of the Holy Spirit. "Wherever God's Spirit is, there is a temple," said St. Paul's question sets forth. Again, the Apostle declares that we have this treasure in earthen vessels, that the glory may be of God. God's Holy Spirit constitutes its recipient a Temple of God.

Elsewhere the Apostle calls the bodies of those begotten of the Holy Spirit tabernacles. The difference between a tabernacle and a temple is that the former is a temporary structure, while the latter is permanent. So St. Paul calls the present condition of the Church in which the Holy Spirit dwells merely in our hearts, a tabernacle condition. It is not to last forever; it is only for the present, trial-time. If we are rightly exercised by this power of God within us, these we shall be made ready for the Temple condition. These are blended pictures of the Apostle's thought, which is this: If the Holy Spirit dwells in us, we should regard our bodies very sacredly.

In that same connection the Apostle goes on to say, "What communion hath light with darkness?" and again, "What harmony is there between the Temple of God and the temple of idols?"—between the purity that belongs to the Temple of God and the impurities that belong to the world, the flesh and the Devil! Those who have been made the recipients of the Holy Spirit of God should be clean and pure, as becometh a temple of God. They are to be made ready for the Temple condition. These are blended pictures of the Apostle's thought, which is this: If the Holy Spirit dwells in us, we should regard our bodies very sacredly.

Then the speaker showed that Solomon's Temple was a type, or figure, of this greater Temple which God is erecting. Solomon's Temple had several peculiarities connected with its construction. One very special peculiarity was that the great stones were taken out from underneath the site of the Temple. Another peculiarity was that each stone was made to fit exactly the place in which it was to be located, and then numbered and marked with signs which the builders understood. This method is followed by modern builders also; and when a building is constructed, every part is put in place quite in order—no confusion whatever. So it was in Solomon's Temple! The stones were made ready before they were brought thither, so that there was neither hammer nor axe nor any tool of iron heard in the house while it was being built.

After having described the Temple of Solomon as a type, the Pastor proceeded to discuss the antitype—the Church of the living God. The Builder and Maker is God, he declared. The quarry is the world in general. The living stones are taken out of the world, separated from the world, but are chiseled and polished in this antitypical quarry, made ready for their proper place. For more than eighteen hundred years this work of preparation has been going on. Jesus was put in place quite in order—before He came there were no stones prepared; none could be accepted until He had come and died, "the Just for the unjust."

Then the process of cutting, chiseling and polishing the "living stones" of the Temple was explained. Each consecrated Christian has had experiences of such a nature as to separate him from the world. It was a difficult matter to block out character and to bring each to the place where he would be separated from his surroundings. Still more difficult in some respects have been the chiseling, trial after trial, in order that each living stone might be shaped, fitted and prepared for its place in that glorious Temple which is yet to be constructed. The polishing process has also been going on. As the Scriptures express it, the living stones are polished others. Each living stone polishes others.

The Pastor here drew a lesson for those who are following in the steps of Jesus. He pointed out that while various severe experiences, trials and tests may come from the world, yet the very finest polishing is produced by contact with the brethren. Therefore whoever learns to love the brethren and to endure all their various weaknesses and imperfections, and is rightly exercised by those experiences, will receive a fine polish—that which our Lord through His Word describes as the fruitage of the Holy Spirit. "The fruits of the Spirit are manifest, which are these: meekness, gentleness, patience, long-suffering, brotherly kindness, love. If these things be in us in abundance, we shall be neither barren nor unfruitful in the knowledge of the Lord. And so it is that an entrance shall be ministered unto us abundantly into the everlasting Kingdom of our Lord and Saviour."

THE PASTOR THEN DECLARED THAT THESE FUTURE PRIESTS ARE ALSO KNIGHTS OF THE TEMPLE. WHILE AT PRESENT THEY DO NOT WEAR WHITE PLUMES, THEY ONLY WEAR WHITE ROBES, AND THEY SHALL WEAR WHITE PLUMES, BUT WHITE RAIMENT. OUR LORD HAS SAID, "THEY SHALL WALK WITH ME IN WHITE; FOR THEY ARE WORTHY."

Various New Testament references to the Church of Christ as a Temple were then explained. One of these was St. Paul's question addressed to the Corinthian Church: "What? Know ye not that your body is the temple of the Holy Spirit which is in you?" Concrete Roads Exceed Farmers' Expectations

THIS LETTER FROM MR. GEO. W. BURT, of Redford, Wayne County, Michigan, shows how well satisfied the farmers of that section are with concrete roads. Nearly one hundred miles have been built in Wayne County.

"Mr. Edward N. Hines, Board of County Road Commissioners, Wayne County, Detroit, Mich.

Dear Sir:— Our concrete roads are far ahead of the expectations of the majority of us farmers. Where we used to be two days marketing fifty bushels of produce, we now market twice as much in one day, and can go to the city anytime we want to. We do not have to wait till the roads are good so we can go. Also, our horses and wagons will last twice as long.

Hoping you will keep right on building these roads, and that the county will stand back of this movement, I remain,

Yours truly, (Sgd.) Geo. W. Burt

Redford, Wayne County, Mich.

Concrete Roads

are the best, cheapest and most satisfactory roads that can be built. Best, because they permit bigger loads, increase land values and improve conditions generally. Cheapest, because they are permanent and require practically no repairs, which permits road taxes to be spent in building more good roads. Most satisfactory, because they are open to traffic every day in the year, lower cost of marketing and cost of living and increase the farmer's profits.

Good Roads literature telling all about concrete roads will be sent, free, to everyone interested. Write to

GARDEN PARTY ON ST. AGNES GROUNDS

Successful Affair Given by Quinze Chapter I.O.O.F. for Shelter.

From Saturday's Daily The spacious and shaded lawn of St. Agnes school was even more beautiful than usual on Friday afternoon and evening, when the members of Quinze Chapter Imperial Order of Daughters of the Empire gave a garden party and afternoon tea from 4 until 8 o'clock. Numerous booths and been erected in places of vantage and the school grounds had been decorated under the direction of Miss Clarke. The Oddfellows' orchestra stationed in a pavilion rendered music. The event had as its object, sweet charity in behalf of the Children's Shelter.

Yesterday's function was a very successful affair, financially and socially. The gate receipts alone reached seventy dollars. Here were stationed Miss Clara Yeomans and Miss Fraeek. The tea room was located beneath the shade of the trees on the east side. Here Mrs. C. M. Stock and Mrs. H. Corby poured tea. The refreshments were in charge of Mrs. Dolan and Mrs. Henry Sneyd, assisted by Mrs. Marshall, Mrs. Jenkins, Mrs. Kinnear, Mrs. Walter Lingham, Mrs. Earle, Mrs. McKeown, Mrs. Lockwood and Mrs. Coughlin. The seventeen young ladies who served were Miss Georgie Springer, Miss Jean Clinton, Miss Jessie McGie, the Misses Phippen, LaVoie, Miss Hamby, Miss M. Stork, Miss Kate Laidier, Miss Pantor, the Misses Anderson, Miss Kathleen Milburn, Miss Carlaw, Miss Dot Farrow, Miss Jones, and Miss Monica Livingstone. The refreshments included ices, lemonades, orangeades, sandwiches and everything of a cooling nature.

The candy counter decorated in pink and white was presided over by Mrs. Fred B. Smith assisted by Miss Marjorie Johnson, Miss Helen Morrison, Miss Helen Rathbun, and Miss Marjorie Warren.

Mrs. E. Robertson and Miss Hurley were in charge of the homemade cooking department. The sales included bread and jams.

The fancy work booth was copiously decorated with flags. The delicate fabrics and articles of beauty were in charge of Mrs. D. M. Waters, Mrs. E. G. Porter and Mrs. A. Gillen. Fortune telling was one of the features of the affair. The three ladies who held the hands of the curious were Mrs. Ginegas, who saw destiny in the turn of the cards; Miss Waters, in gypsy garb who looked at the palm and saw lines and therein reasons for hopes and fears of future days and Miss Campbell who in a cup of dregs could read the riddle of fate and the innermost secrets of nature's heart. Many patronized these innocent amusements and paid toll to the expert local palmists and seers.

Mrs. P. J. M. Anderson, regent of the Quinze Chapter, received the visitors to the grounds.

The Rev. David Wren, of Brussels, Ontario is visiting Mrs. Wren's parents, Mr. and Mrs. B. Mallory.

The Band Concert that was to have taken place on West Belleville Playgrounds last night, is postponed until Friday night.

Mr. Geo. A. Kingston, publisher of The Campbellford Herald, was a guest at the home of Mr. and Mrs. S. O. Herity yesterday.

AUTO SMASHED INTO BUGGY

Two Men Thrown Out on Kingston Road Last Evening.

An automobile smash occurred on the Kingston road last evening at 7.40. Two men, Alexander Bales and William Rawlinson, were driving in a buggy towards the city, when they say, without a moment's warning, an automobile owned by a man in Kingston ran into them, smashing their buggy and throwing them both out of the vehicle. The men were considerably injured.

The police were notified at 7.50 and an officer went to Hotel Quinze where the Kingston man was putting up and interviewed him as to the accident. He satisfied the policeman as to his name and address and later accompanied Sgt. Hartman to the police station. He came to a settlement with the men for \$20, which he paid them.

WHY 12TH JULY IS CELEBRATED

The question has been asked why the 12th of the Boyne is celebrated on the 12th of July, when English history says the battle was fought on July 1st. On the first of July, 1690, a decisive victory was won by King William over the Irish and French who led by King James, Tyrconnel and Laurier, made a stand behind the Boyne. William's army forced the passage after a sharp struggle. William himself leading his cavalry through the river, and with his sword in his left hand—for his right arm was crippled by a wound—showing himself wherever a fight was hottest. His best general, Marshall Schomberg, a German Protestant, who had once been in French service, was killed while rallying the Huguenots in William's army.

King James, when he saw the day going against him, galloped off, and reproaching his troops with cowardice made his way to the coast, whence he sailed for France.

The reduction of Ireland to England was effected the next year by the Dutch general, Ginckel, afterwards created Earl of Athlone, who gained, July 12th, 1691, the battle of Aghrim, over the Irish and their French allies. Sir Ruth, who fell in the fight.

In 1751 was passed the statute for the reform of the calendar. The Julian Calendar called because it owed its origin to Julius Caesar, was in vogue so long at the rate of nearly three days in four hundred years. In the 16th century the error had been corrected under a regulation of Pope Gregory XIII, and the alteration of the calendar had been generally accepted by most Christian countries. But in the British Dominions people still went on with the old style, until at length the day they called the first of the month was in fact eleven days wrong in their reckoning. By the statute of 1751, these nominal days were dropped out of the month of September, 1752, and the new style was adopted. By the same statute the legal year, instead of beginning as formerly, on the 25th March is reckoned from the 1st of January.

In Russia to-day the old style is still in vogue, and there are now twelve days difference.

Some forty odd years after the change in calendar, the Royal Orange Association was formed and the leaders of the Association having been young men when the change in the calendar was made, decided to celebrate the anniversary of the Battle of the Boyne, on the day of the month it was fought according to the new style, which would be really the 12th of July. In fact, French histories and German histories give it as being fought on the 12th, as those countries had accepted the new style before the Battle of the Boyne was fought.

The first regular Lodges were founded in 1795, but the system existed earlier. The orange flowers of the Lillium bulbiferum are worn on July 1st and on July 12th—the anniversaries of the Boyne and of Aghrim but by celebrating the anniversary of Boyne by the new style and Aghrim by the old style calendar both would fall on July 12th and so it has come to be almost universal among Orangemen to keep the one day as the anniversary of the event, although still at the present day the orange flowers are worn in Ireland by Orangemen both the 1st and the 12th of July.
