

# THE BEACON

Interim Issue

St. Andrews, N. B., Saturday, July 12, 1919

## MY OWN FOUR WALLS

THE storm and night are on the waste  
Wild thro' the wind the herdaman  
calls.  
As fast on willing nag I haste,  
Home to my own four walls.  
Black, tossing clouds, with scarce a glim-  
mer,  
Envelop earth like sevenfold palls,  
But wifekin watches, coffee pot doth  
simmer,  
Home in my own four walls.  
A home and wife I, too, have got,  
A hearth to blaze whate'er befalls;  
What need a man that I have not,  
Within my own four walls?  
King George has palaces of pride,  
And armed with grooms must ward  
those halls,  
With one stout bolt I safe abide  
Within my own four walls.  
Not all his men may sever this,  
It yields to friend's, not monarch's, calls  
My whinstone house my castle is—  
I have—my own four walls.  
When fools or knaves do make a rout,  
With gignen, dinners, balls, cabals,  
I turn my back and shut them out,  
These are my own four walls.  
The moorland house, though rude it be  
May stand the brunt when prouder  
falls:  
I'll screen my wife, my books and me,  
All in my own four walls.

THOMAS CARLYLE.

## BEACON AGAIN STOPPED

While printing last week's issue, and before the run was completed, the press broke down. The damage, while not very serious, was such as to make it necessary to send the broken part to the makers, R. Hoe & Co., New York, to be repaired. It was shipped by Express on Monday morning, but through some unexplained delay had not reached New York on Friday. Thus it is that we are unable to complete the issue of July 5; and can only to-day print this best containing the local news and some of the correspondence that came in during the week. We sincerely hope, though we are not certain, that the broken part of the press will be repaired and turned to us in time to get out the issue of July 19 on its due date. And for the sake of our readers and advertisers, as well as for our own, we hope that we shall soon have our printing office again in condition, as to staff and machinery, to get out our paper in the usual form and on the regular dates of issue.

### HARVEST CLOVER AND TIMOTHY SEED

The Seed Commissioner has just returned from the International Convention of the Seed Trade Association held at Chicago, and reports that there is very real cause for prospective high prices in clover and timothy seeds for autumn delivery. Through the greater part of the clover seed districts of the United States and Western Ontario the new clover crop was destroyed by drouth in August of last year. The timothy acreage in the United States was also much reduced in order to grow wheat. There are practically no reserve supplies of clover seeds being carried over for next year, and timothy seed stocks are very low.

Prices are soaring in consequence. Red clover seed on the Toledo market was quoted on June 28th at \$24.74 per bushel for autumn delivery, which is an advance of almost \$5.00 since May 16th. Timothy seed was quoted at \$13.50 per hundred pounds, and is advancing steadily. Farmers in Eastern Canada who have clover or timothy crops, reasonably free from weeds with seeds difficult of separation, can depend on a strong demand for seed at unusually high prices. The Ontario Department of Agriculture is arranging to assist in the transportation of clover seed hullers, which can be spared from Western Ontario, to those counties in Eastern Ontario which have excellent clover crops for seed purposes. In Quebec, New Brunswick, and Nova Scotia clover seed hullers are available for the use of farmers.
