

CANADA GIVES SLAP IN FACE TO IMPERIAL GOVERNMENT, SAYS WALL STREET JOURNAL

Powerful Financial Newspaper Suggests That English Investor May Grow Furious at Refusal of Gift or Loan of Battleships—Canada Needs Billions of Capital, and Has Been Receiving It From England.

NEW YORK, May 29.—The Wall Street Journal, the mouthpiece of Wall Street, gives a striking picture of what has happened in Canada over the Navy Bill and hints strongly that the refusal to implement a promise to contribute three Dreadnoughts will affect the sentiment of financial England toward the Dominion.

The Journal's article is published under the heading, "Canadian Senate is Told to Kill Dreadnoughts." It says that the House of Commons has rejected the plan to purchase three Dreadnoughts for \$35,000,000 and is as follows:

The Promise Was Given of Three Dreadnoughts.

"One year ago Premier Borden and other leading ministers of the Dominion entered into an agreement with the British Government to purchase three Dreadnoughts for the building of a fleet of three Dreadnoughts. These battleships were to be manned and maintained at England's expense and used by England till such time as Canada recalled them and their crews, when they were to be maintained at Canada's own expense.

"This agreement of the Government of Canada with the Imperial Government was submitted to the Canadian Parliament, and after six months of fierce and determined opposition on the part of the Liberals, led by Sir Wilfrid Laurier, the appropriation of the \$35,000,000 was passed by a large majority of the House. This bill is now before the Canadian Senate and by constitutional usage, it ought to pass. But the Canadian Senators are chosen for life, and they are not rotated for the time being, and Sir Wilfrid Laurier's 14-year term of power has expired. Upper House members are big game hunters and big game hunters are mostly rich men, and they are as faithful to the chief as the Highlander were to the Stuart kings.

A Slap in the Face of Imperial Government.

"Sir Wilfrid Laurier had ordered his henchmen in the Canadian Senate to repudiate the agreement between the Imperial government and the Dominion. And, as Laurier's henchmen

"Don't Do it Again" Said P. M. To Principal White in Court

Charge of Assault Was Dismissed—A Case of Unusual Interest Was Heard in the Police Court This Morning—Immoderate Beating of Kids is Not Permissible.

The charge against Mr. D. C. White, principal of King Edward school for assault on Albert Edward Phipps, aged 14 years, 11 months, was dismissed with the caustic advice of the magistrate to the school teacher: "When you feel like doing that sort of thing again—don't do it."

The boy called upon to give evidence stated his age and told his story. He said the alleged assault occurred Tuesday. He said he went to school with his home work not done. The teacher took him up to his office and back again, and because he smiled at some of the other children, took him back to the office. The boy said he was beaten about the legs, falling over the lounge and on to the floor in the struggle. The boy showed two or three bruises which were rather noticeable, and Sgt. Donnelly advised that the marks were pretty bad when the boy and his father came up to lay the charge.

Truant Officer Boylan produced a strap similar to that used by the defendant and which Mr. Woodvatt explained was the regulation strap used for the purpose of chastisement. Examined by Mr. Woodvatt, the boy admitted that he had told him to hold out his hands and that he had refused to be whipped. He had been punished before by the same teacher. Mr. White had written two notes to Mr. Phipps, Sr., and had received an impudent reply, said Mr. Woodvatt.

Mr. Phipps, senior, denied that he had written a note which was in any way impudent and asked Mr. White to produce it. Later he asked for a chance to speak.

Continuing, the boy said he had refused to stand in the hall after his thrashing as he could not learn any thing there. He and his father had complained to two trustees of the school board, Messrs. Geo. Ryerson

and A. E. Day, and they had said that the best place to settle the matter was in the police court. Mr. D. C. White, the defendant, said he had been principal of King Edward school for about three months. Prior to that he had taught for four years. He said he had whipped the boy for not doing his homework. All the others 22 in number had their done. He had written a note to the complainant, Mr. A. E. Phipps, Sr., but could not produce the reply as he had torn it up. The boy had frequently been absent from school, and had come without excuses, as his father had said excuses were not necessary. On being sent back the boy returned with the necessary excuses. On this occasion he had sent the boy up to be punished, but the boy had refused to hold out his hands. On the request of Mr. Woodvatt he called a school board regulation saying that pupils were to be chastised only on the hands, except in case of opposition.

To the question of Mr. Woodvatt: "Was it an undue punishment?" the witness gave the laconic reply: "It was necessary." Mr. D. C. White further examined, and said that the boy was defiant and acquiesced in the suggestion that he wanted to "run the school." Mr. Phipps, Sr., then interposed, and stated that the boy had been on a holiday to London and had arrived home late on Monday night. He said he thought that a single excuse for not having his home work done.

The Magistrate then asked as to the boy's standing in the class. Mr. White said he had no time to give monthly reports. He had only been at the school for three months. Mr. Phipps, Sr., then reported that the last monthly report he had received gave the boy's standing as second in the class, but he had received no monthly report since Mr. White had taken charge.

LINER STRUCK DAUNT'S ROCK

An Accident To-Day Near the Mouth of Cork Harbor

QUEENSTOWN, May 29.—The liner Haverford is reported to-day to have struck Daunt's Rock, near the mouth of Cork Harbor, where she remains fast. She sailed yesterday from Liverpool for Philadelphia.

Several tugs have been sent out to the assistance of the Haverford, which is said to have struck the rocks during a dense fog. She is commanded by Capt. Evans.

The Haverford suffered from a serious explosion on board at Liverpool in July, 1906, when twelve were killed and forty injured. She was built in 1901. Her length is 531 feet and her breadth of beam 59 feet. Her gross tonnage is 11,635 and her net tonnage 7,493.

Site is one of the vessels of the American line of International Mercantile Marine company. Daunt's Rock is a pinnacle-shaped submerged rock, about five and a half miles southwest of the entrance of Cork Harbor. It lies under ten feet of water and rises from a rock bed of considerable size. It is usually carefully avoided by vessels bound for Cork harbor.

On May 24, 1911, the Cunard liner Ivernia struck Daunt's Rock during a fog, tearing a great hole in her forward compartments. She was carrying 775 passengers, none of whom were hurt. She got off without assistance. The Haverford has accommodation for cabin passengers and steerage passengers.

No Confirmation. LONDON, May 29.—No confirmation of the accident to the American Line steamship Haverford, off the coast of Ireland had reached here up to 4 o'clock this afternoon and Lloyds have received no report. Their last report by wireless was that she was 80 miles east of Brow Head at half past twelve o'clock noon.

Starts Campaign. CALGARY, Alta., May 29.—Acting Premier Mitchell for whom George Lane, Liberal victor in Bow Valley riding at the recent election resigned, left Calgary for Brooks to-day to start his campaign. It is understood that Harold Riley, who made the race against George Lane, will again stand in the constituency for the Conservatives.

The Unwritten Law. VALLEJO, Calif., May 29.—The unwritten law freed Joseph Hoversly, slayer of a man who had been too friendly with his wife, from a charge of murder here last night at his preliminary examination. He previously had been exonerated by a coroner's jury.

Followed Their Leader. Twenty five Italians who were working on the construction of the L. E. and N. Ry. near Gaywood, quit work yesterday and left for other parts. Contractor Johnson said this morning that this was a common occurrence among contractors' laborers. The boss Italian or the one who is leader of the gang did not like the surroundings and went away a couple of days ago and got work for the gang some place else and came back and told the others who followed him like a flock of sheep.

HAMILTON CONFERENCE IS IN FULL SWING TO-DAY WITH LARGE ATTENDANCE

Four Changes in Brantford Pastorates Announced in First Draft of Stationing Committee—The Year Has Witnessed Great Progress in Methodism in The District—Interesting Notes of Conference.

HAMILTON, Ont., May 29.—The meeting of the Theological Union in connection with the Methodist district conference to-day, Rev. Thos. Voaden, B.A., of Ponsnoby, spoke on Christianity and the social crisis. Taking the Socialist vote cast in the United States elections during the past four years, he showed that there had been an increase of over 100 per cent in that time. Socialism, he said, was making progress everywhere, and went hand in hand with Christianity. Two hundred million dollars a year represented profits from English railways, and he wanted to know why a few men should pocket this money when more than two million men in England were struggling along on less than a dollar a day.

"Socialism is coming," he declared, "because Christ is coming." Real estate speculation, which enriched the few, at the expense of the mass of the poor, he denounced as a curse. He advocated the government raising money by taxing land to secure cheap houses for poor people.

HAMILTON, May 29.—Hamilton Methodist conference during the church year recently closed experienced a net membership gain of 861. The total increase was 7,636, of whom 3,075 were received on probation or profession of faith.

This announcement just before the close of last night's session was applauded by the ministers. The following probationers were received into full connection: Howard Orvan Rogers, John T. Stapleton, J. T. Heslop, Hermans Walker, Gordon C. Raymer, Simon Edwards and Fred R. Henderson. These will be ordained next Sunday except Mr. Walker whose ordination has already taken place.

Rev. Mr. Merner of Camden, and Rev. Mr. Pissox, of Toronto, were received from the evangelical denomination. There is more than ordinary uncertainty this year regarding the identity of the new president to be elected and a contest is assured. The presidency of the Conference Laymen's association is also in doubt.

Members of the Board of Works Looking at Steam Shovel. Three members of the Board of Works, Ald. Suddaby, Ald. Minshall and Ald. Ward, with Engineer Jones and Overseers Howie and Unger, visited Buffalo yesterday for the purpose of inspecting a steam shovel and traction engine which it is proposed to buy. The Council some weeks ago authorized the purchase. The party motored to the town of Gowanda, some 33 miles the other side of the Bison City, in Erie county. Here both engine and shovel were found at work. The latter loaded a wagon with gravel in 1 1/2 minutes. Under the method at present employed in Brantford, it takes two men some 20 minutes to do the same thing.

The hauling feature of the traction engine, the famous Pitts make, is also a big consideration, and the engine is as useful for yard work as it is on the street.

The members of the deputation were greatly pleased with what they saw. The Board of Works is feeling its way carefully in connection with this expenditure, which will total over \$8,000. Yesterday's trip was not at the expense of the city.

WHEAT CROPS ABOVE GROUND

Growth in Western Fields is Looking Pretty Good.

WINNIPEG, Man., May 29.—According to reports from 318 points in the Canadian prairie west, say the average height of wheat is from 3 to 4 inches, and that progress has been fair since the hot weather came. Seventy-five per cent of the oats and barley are seeded and 50 per cent of these grains are up. Not more than 25 per cent of the flax acreage is seeded. Fully 178 points reports an abundance of moisture, nearly all having had heavy rains on the 23rd and 25th of this month. Thirty points report rain would be desirable and 10 points report rain badly needed. The weather is now reported warm over the entire western wheat belt, and progress since the rain and warmth set in on May 23rd has been very marked. Aside from the fact that the crop is undoubtedly backward, conditions at the moment could hardly be more satisfactory.

It will be noted from the comparison, that last year at the end of May wheat was on average 2 inches higher than this year. As has been pointed out before, when the season is late, ideal weather conditions would allow a considerable portion of lost ground to be recovered. At the present time, conditions are almost ideal, but it must be borne in mind in making any estimates of the output of this crop that the Canadian West has suffered from one of its longest coldest springs in its history, and this to some extent has affected the crop and will continue to do so.

Church Going in Montreal. MONTREAL, May 29.—A systematic attempt is being made to-day to determine what percentage of the citizens of Montreal attend religious services on Sunday and learn, if possible the reasons of non-attendance. The city has been divided up into districts, and three thousand visitors, representing all the Protestant denominations and Hebrew Synagogues in the city have been enrolled. They will leave a card which asks for information about a person's religion and extends an invitation to attend the nearest church or Synagogue in his or her district. The cards are printed in English, Hebrew and French.

Killed Five Men. PORT VENDRES, France, May 29.—A terrible explosion of dynamite in a factory just outside this port to-day killed five men and injured many others. The report was heard at a distance of 20 miles. The men killed were blown to pieces, and portions of their bodies were picked up over 100 yards out in the Mediterranean.

WILLIAMSTOWN, ONT., JULY 27th, 1910

"I have much pleasure in testifying to the almost marvellous benefit I have derived from taking 'Fruit-a-tives'. I was a lifelong sufferer from Chronic Constipation, and the only medicine I ever secured to do me any real good was 'Fruit-a-tives'. This medicine cured me when everything else failed. Also, last spring, I had a severe attack of Bladder Trouble coupled with Kidney Trouble, and 'Fruit-a-tives' cured these complaints for me, when the physicians attending me had practically given me up.

I am now over eighty years of age and I can strongly recommend 'Fruit-a-tives' for Chronic Constipation and Bladder and Kidney Troubles"

**"Fruit-a-lives" Cured
Kidneys and Bladder**

WILLIAMSTOWN, ONT., JULY 27th, 1910

"I have much pleasure in testifying to the almost marvellous benefit I have derived from taking 'Fruit-a-lives'. I was a lifelong sufferer from Chronic Constipation, and the only medicine I ever secured to do me any real good was 'Fruit-a-lives'. This medicine cured me when everything else failed. Also, last spring, I had a severe attack of Bladder Trouble coupled with Kidney Trouble, and 'Fruit-a-lives' cured these complaints for me, when the physicians attending me had practically given me up.

I am now over eighty years of age and I can strongly recommend 'Fruit-a-lives' for Chronic Constipation and Bladder and Kidney Troubles".

JAMES DINGWALL.
"Fruit-a-lives" is the only medicine in the world made of fruit juices—and is the greatest kidney, bladder and liver medicine ever put on the market.

erage of 132 per minister. To-day London's ten churches have 492 members. Taking the field as a whole there is three times the membership per minister. And brethren both ministers were giants. Yet many of those churches had two pastors. They had no Epworth League, Women's Missionary Society, Ladies Aid or Men's Club. All these things good in their place, demand time. Our fathers did not have some of the outside organizations that to-day knock at our doors. Ministers were not breaking down under the work forty years ago but they are to-day. It is not because of overwork but because after working 16 hours a day each week they find left sundry more work than they can do. I do not think the ministers of 40 years ago were better men but they had more time to meditate on the work of God, and they gave better service.

Had Help of Laymen.

"Then the class leaders were pastors in their own spheres. We have got to give our pastors larger support somehow. A. Y. M. C. A. has four or five paid workers. If a young man assistant cannot be provided, the church officials must do the work. We are falling down, not on organization but the personal touch in bringing men to Christ. And that is the solution of the problem."

"Stewardship" was the subject of an address by Rev. R. W. Woodworth, D.D., who said the money test was a good test of Christian character. The purse consecrated usually meant everything else placed on the altar. The immense importance of Christian stewardship is seen in the fact that it conditions the spread of the gospel. Money is absolutely necessary for maintenance and extension of God's cause. There was need for a great educational campaign along the line of stewardship.

Afternoon Session
Applications for superannuation, either for one year or permanently, were received from Rev. John H. Robinson, Rev. Alfred A. Bowers, Rev. Daniel Eckardt, Rev. Henry A. Cook, Rev. Thomas J. Smith, Rev. R. Walter Wright and Rev. Ephraim B. Stevenson.

Rev. J. W. Cooley of Hanover, president of the conference was in the chair in the afternoon and evening. Last night the report of the committee on conference relations was received.

Dr. Pascoe yesterday afternoon reviewed his ministerial career from its unique beginning in the old land; told how he came to remove to the Canadian field, and recalled some of the experiences of early days. He is now a member of Gentry Church, Hamilton.

Labour Not in Vain
Rev. W. Gould Brown said that his train journey east from the Detroit River had brought before him vividly his former field of labor.

"I praise God that labor was not in vain," he added. Mr. Brown recalled that he had borne two nicknames during his ministry. First he was known as the "Apostle of Hard Cash." Later, because of his love for a horse that could step along he was called "the Jehu Driver." Looking at the president of the conference, he was reminded of a remark of an old lady who saw a Methodist conference from a church gallery: "Bless the Lord, how fat they are." Mr. Brown referred feelingly to the many members now forever absent.

"If we but get a baptism of the Holy Ghost, our labors will be abundantly blessed," he concluded.

Rev. James Walker was formerly stationed at Markham, Gananoque, Varina and Kippen. Some years ago his sight failed him but he still conducts service at the Central Prison Farm, near Guelph, and the city hospital and jail. He recalled that he was the first missionary up at Tobemorey, opening that field from Harrison amid many hardships.

Rev. Moses Dimmick's ministerial career started when he left his father's house on May 10, 1862, on which eventful occasion he ran into debt for a saddle bag. His first sermon was a funeral sermon, and his latest appearance in a pulpit was to preach a funeral sermon.

"Not all my sermons have been funeral sermons," the venerable speaker added. Mr. Dimmick went to Portage la Proule, years ago from London, Ontario. He is now in Hamilton. In his Western experience he told of a Gaelic bridegroom who had no fee to spare for performance of the marriage ceremony, and was to send the money at his earliest convenience.

"That convenient time has never come," said Mr. Dimmick, sadly, but he followed with a more astounding narrative of a Gaelic bridegroom who handed him a \$10 bill. "The outlook is hopeful," he said. "Sometimes I like that doctrine of the survival of the fittest. Our Christianity is surviving; other faiths are being overcome by the light of the Gospel of the Son of God. England's flag floats over every sea, and above the flag is the cross of Jesus Christ." An event not on the program, but which provoked great interest, was an address from Rev. Thos. Jeffries of Oakville, now in his 90th year, and the 71st year of Gospel work. President Cooley, in introducing him remarked that Mr. Jeffries had officiated at his own baptism. Mr. Jeffries remarked in opening that his own grandsons were, that his own grandsons were, that his own grandsons were, that his own grandsons were.

"When I look back upon all the fields in which I have labored," he said, "I thank God there was not a field in which he did not give me souls for my hire. I have been with out bread. Within three miles of where you are sitting, I and my

THE CITY OF IT

Apart from the grossly meddling interference of the Senate with reference to a bill sent them by the Commons, whose members represent the people, the action of the Upper House in stifling the Navy measure must be regarded as having a most disastrous Empire effect.

The Pall Mall Gazette of London, England, rightly declares that the moral is the big loss in the matter, while in the States the "Wall Street Journal," the financial mouthpiece of New York, publishes a notable article, which will be found in full elsewhere in this issue.

And what has it all been for? An alternative scheme, which is on the face of it utterly crazy and impracticable.

BOUNDARY EXTENSION

The preliminary report of City Engineer Jones with reference to boundary extension abundantly demonstrates, that this paper has from the first contended, that with such an increased area, although 4150 persons would be added, the increase in the general expense rate would be very great—in fact, out of all proportion to the increased revenue secured.

Anyone can realize at half a glance what increase, streets, fire and police protection, schools, sewers, waterworks, flood prevention, etc., would involve.

Those four thousand odd people are excellent neighbors all right, and they are, to all intents and purposes, now citizens. They are living in the county because that course suits them best, and those of us who are paying our taxes within the city have quite enough to do for a long time yet without adding any further to that financial obligation.

IMPERIAL HOME REUNION ASSOCIATION

A correspondent, who states that he is "much interested," asks the Courier for further details with reference to the above project, of which it is hoped to start a branch in Brantford.

As before related, Winnipeg first inaugurated the scheme some two years ago, and other places having flourishing organizations are Brandon, Regina, Calgary, Vancouver, Ottawa, Hamilton, Toronto, Montreal, and so on.

Figures might be given with regard to all of these, each of a most gratifying nature, but perhaps the story of the parent organization will be of most interest.

The method adopted was to secure the names of a number of men as guarantors for a fund of \$25,000, and on the basis of that a loan was secured at one of the banks. The report of the directors for last year shows that once more "there will be no call made upon the guarantors for any expense or loss in the year 1912."

The fund is used to purchase prepaid tickets for bringing out the wives and families of workmen of British nationality only. The applicants must show themselves to be steady and reliable and have a certificate from their employer to that effect. They are required to put something down, and then enter into a pledge to return so much monthly. This is Winnipeg's record for the two years:

Amount paid for tickets.....	\$57,443
Wives and children brought to city.....	1,591
Children under 12.....	814
Over 12.....	367
Wives.....	410

The report says: Careful enquiry has been made among applicants for assistance as to the amount of money they had been regularly remitting to Great Britain for the support of their families, and as a result we have ascertained that \$100,000 a year, which must necessarily have been sent to the Old Land, will now remain and be expended in Winnipeg.

And of course, in addition to that and beyond that, there is the

reuniting of families and the acquisition of many young citizens whose parents are of proved worth.

Enquiry at the Brantford Post Office shows that each week many of our British-born citizens remit the bulk of their wages to the wife and kiddies at home, and for that reason cannot save enough to bring all out at one time, and to do so by piecemeal necessarily presents many undesirable features.

It is not, of course, desirable to make the Brantford fund as large as that of the Prairie City, but surely among the manufacturers, merchants and others there can be found enough guarantors, say, at \$100 apiece. The risk is practically nil, and the cause thoroughly worthy.

NOTES AND COMMENTS
Would-be-Czar Laurier must be shown where he belongs.

Laurier and Ross constitute a fine pair of Imperialists, don't they?

The movement to sell eggs by weight is a commendable one. If meat and other things that way, why not hen fruit?

Yesterday was "transportation day" in the House of Commons. It would be glad news if there was an actual date of the kind with regard to the hidebound Grit Senate.

A Kentucky paper hastens to announce: Miss Pocohontas Morris, after a slight spell of love fever, has about recovered.

And as to that, any fatal attack has yet to be reported.

Sir Wilfrid is hitting just as much at the Empire by his attitude regarding the navy bill as he did when he tried to ram Reciprocity down the throats of the people.

The Galt Reporter is boasting that it is the oldest business institution in that place, having been established in 1846. In Brantford the Courier holds the ribbon, having been continuously printed since 1834.

It may be a surprise to some people to know that last year there emigrated to Canada some 2041 French people and 1563 Belgians. As a rule they take to the farm, and the official report states that they are capable and industrious.

Right now it is just as well to remember that when Premier Borden asked the Asquith Government in what form they most required navy assistance, he received this written reply:

The Prime Minister of the Dominion, having enquired in what form any immediate aid that Canada might give would be most effective, we have no hesitation in answering, after a prolonged consideration of all the circumstances, that it is desirable that such aid should include the provision of a certain number of the largest and strongest ships of war which science can build or money supply.

What the Other Fellow Thinks.

As to An Emergency
Montreal Star: Senator Loughheed's sane and moderate statement of the case for the Navy Bill was admirably attuned to a judicial body—if it turns out to have been a judicial body which he was addressing. Much of it was a condensed historical review of the events which made the Bill an obvious and imperative necessity; and there is no better argument for the Borden Naval Policy than an appeal to recent history. It takes its place as an essential and logical part of a new international development; and no man who ignores recent international movements, is in a position to judge at all fairly a measure which has not only grown out of them, but will, we trust, become part of them.

The Senator found himself at a loss to find "proof" of the existence of an "emergency" which would convince the invincible skeptics of the Opposition. As he phrased it with delightful irony, "they would want to hear the booming of the guns, the tearing noise of the shell, the swish of the torpedo," before they would confess that they had been persuaded that an "emergency" existed. And in the case of some of them, the Senator was guilty of precious little exaggeration.

Banks and Real Estate
Peterboro' Review: In the changes in the Bank Act, as passed on the second reading, there is one clause that ought not to escape attention. Some of the members suggested that the real estate holdings of the banks should be limited to 5 per cent. of their capital. But such a hard and fast rule was thought inadvisable. Hon. Mr. White, however, had a clause inserted calling for an annual report from the banks as to their real estate, showing a fair valuation. This is a measure of checking on the banks that they may have a rather far reaching effect. Many of the

stronger institutions bought a lot of property for premises and other bank purposes years ago, when prices were low. They have to-day an immense profit. But in their annual statements of real estate holdings, these must now be fairly valued, and the public will be able to see partially, at least, how much the concealed assets amount to. It may very possibly mean a considerable difference in the value of bank shares.

BLOODY DEFEAT WAS ENCOUNTERED

The Arabs Defeated Italians Decisively—Scandal Has Arisen Over Battle.

NEW YORK, May 29.—A cable from London to The Tribune says: Bit by bit, a story of a bloody defeat of the Italian army by Arabs before Derna on May 16 has been finding its way to Italy, and has led to stirring protests in parliament, while creating a sense of deep humiliation throughout the country.

The first official announcement which reached the Rome Government on May 18, was laconic enough and recounted the affair as an Italian victory. General Mambretti's troops had occupied the enemy's strongly held trenches after a sharp combat at Sidi Garba and Ras El Ain Theo. While the troops were resting the Bedouins had delivered another vigorous attack which had ended in their retreat at the entry of the reserves, and at eventide the Italian troops had entered Derna in an orderly manner. Later came tidings of 2 killed and 247 wounded. Another couple of days passed before the correspondents were allowed to cable anything even under the stern working censorship the war correspondents are absolutely forbidden to follow the army, but on this occasion two managed to break through. It is thought from their narrative and from letters sent home by survivors, as well as from the lips of 17 officers and 531 men, King Victor Emmanuel went down to cheer and interview on their arrival, in a military hospital ship at Naples, that the real truth is becoming known.

Yesterday the Rome journal, L'avanti, summed up the situation in a leading article of protest against the lying official communications relating to the number of dead and we cited and those made prisoners, complaining of the renewal of the methods of deliberate deceit resorted to from the very outset of the Italo-Turkish war. Fortified with documentary testimony on which it challenges denial, "L'avanti" states that 400 were killed, more than 700 wounded and more than 100 others including many officers, were taken prisoners by Arabs. Very many of the wounded were abandoned on the field.

The government, altogether con-

Constipation is Cured by HOOD'S PILLS

cealed the fact. Besides these losses more than three hundred Ascaricocals perished or fell wounded. The 17th infantry regiment alone had 350 casualties. The massacre of artillerymen was such that only twelve officers and men survived, and their guns fell into the enemy's hands at the moment of disastrous retreat. Practically all the officers and men of the Maxim corps were piled in heaps dead and dying around their guns.

UNIONISTS WON BY-ELECTION

Recent Results in Old Land Point to Defeat of the Government.

[Canadian Press Despatch]
ALTRINGHAM Eng., May 29.—The Unionist candidate G. C. Hamilton, defeated his Liberal opponent, Hon. Lawrence U. Kay-Shuttleworth in the bye-election held here yesterday by a majority of 1,282. The Unionist majority at the previous election was only 119.
 The former member, John R. Kebley-Fletcher, resigned his seat on account of ill-health. It was he who challenged the Chancellor of the Exchequer Lloyd George to explain his transactions in Marconi shares.
 Hamilton received 9,409 votes and Kay-Shuttleworth 8,147. The polling was much heavier than at the last election, most of new voters casting their ballots in favor of the Unionist candidate.
 Although the result does not affect the party membership in the House of Commons the greatly increased majority of the Unionists coming after the recent Unionist victory at Newmarket election is supposed in political circles to be significant of a reaction against Premier Asquith's administration. In both these recently polled constituencies dissatisfaction over the enactment of Chancellor of the Exchequer Lloyd-George's legislation, making insurance compulsory against old age, sickness and infirmity appears to have been the principal cause of the loss of the Liberal votes.
 Premier Asquith promised during the election campaign here soon to introduce a bill amending the insurance act, but this promise was apparently too late. Many of the farm laborers whose wages range from \$3.25 to \$4.00 object to being compelled to pay the eight cents weekly fees for insurance.

Five Suspects.

VANCOUVER, May 29.—Five suspects are under arrest on account of the murder of Police Constable James Archibald, who was found dead in a vacant lot yesterday, with several bullets in his heart and his revolver missing. The police decline to give information, but say one suspect had a revolver when arrested.

Hunger Strike Again.

LONDON, May 29.—Mrs. Emmeline Pankhurst, the militant suffrage leader, had taken no food since she was re-arrested and taken again to Holloway jail. She is said to be in a very weak state owing to her reduced vitality consequent on her previous "hunger strikes" which lessened her power of resistance. According to other suffragette leaders her release may be expected at an hour, Reginald McKenna, the Home Secretary, in the House of Commons, confirmed the statement to-day that no steps had been taken to approach the French Government concerning Miss Christabel Pankhurst whose extradition it was reported was to be asked for.

1,200 Strike.

BOSTON, May 29.—Twelve hundred employees of the B. F. Sturtevant Company, and the Becker Milling Company at Hyde Park, struck to-day. Both companies are controlled by Gov. Eugene N. Foss. The strike, which was voted last night, is to enforce a demand for a 20 per cent wage increase and improved working conditions.

A Maiden Trip.

VICTORIA, May 29.—Bringing 636 passengers and 3500 tons of cargo, the Canadian-Australian Royal Mail Steamer Niagara, 1300 tons, docked here yesterday on her maiden voyage, and was greeted by a deputation. Among the passengers were the members of the Australian cricket team.

Where Women Run Cars.

The suggestion that women may be employed as street car conductors in Philadelphia has brought out the fact that the women of Latin America, usually thought of as sheltered, retiring and unprogressive, have been during this kind of work for years. During the war between Chili and Peru, when all the men of Chili, were needed at the front, the women took their places on the street cars, and Santiago, Valparaiso and several other cities have had women conductors ever since.

CLOSE CALL FROM DEATH

Automobile Plunged Through Port Ganway at Sarnia Ferry

SARNIA, Ont., May 29. — F. A. Bowen of Petrolia, narrowly escaped death last night when his automobile plunged through the port ganway of the Ferry Boat Hiawatha on the St. Clair River. Mr. Bowen motored yesterday from his home accompanied by his family. Last night he brought his car down to the dock about 7.30 to cross to Port Huron. He drove his machine across the starboard ganway with the engine still running. Asked to set his brakes he became confused and touched the wrong lever, the machine sprang forward and shot out the port ganway into the river, carrying Mr. Bowen with it. To the horrified spectators it seemed that he must have been caught in the car as it was nearly a minute before he came to the surface. Unable to swim he was rescued by the crew of the boat who threw him a line. The Reid Wrecking Company's lighter and a diver are at work this morning endeavoring to raise the car.

Martin Rowley, making his first appearance since Tuesday, was charged with being "drunk" again. There was some doubt at first as to his fate. Sergeant Donnelly suggested Guelph, but Mr. Rowley said that when the Magistrate had sent him down for six months last fall, for stealing a watch, Guelph had refused to take him in. He pleaded hard for a chance to go on the Indian list and the Magistrate obliged him.

John Kenton, a first offender, was allowed to go, the Magistrate incidentally remarking that enough first offenders seemed to come before

MOURNERS WERE ALL SURPRISED

An Unusual Case at Hatchley When a Funeral Was Held On Saturday, Last.

A rather peculiar but sad incident occurred in the village of Hatchley on Saturday. Mr. Robinson, a well-known resident of the village had received information from Hamilton that his brother had passed away, and communicated with friends in Hamilton to have the remains sent on to Hatchley. Big Chief Garlow Tied and Struck Out

Big Chief Garlow had all his paint on yesterday and was of the war path. He kept the Red Sox on their own hunting grounds for seven long innings kept Brants from even getting a look at the plate.

Chief Garlow took 6 of the Scaps and allowed them 7 hits. The Chief was in great and would have beaten any team in the league to-day, according to form he showed. Garlow had a mighty narrow escape in the first and ninth innings of having his game game snatched away from the luck was with him and he out a win for Knotty Lee.

The game came within an inch of being one of the ninth inning stand finishes which the local light so much to see.

There was a slim attendant the game and the Brants did not at all themselves until it was too late to pull the game out of the Coose replaced Orcutt at third and gave a very good account himself and when he gets accustomed to his new position fill the bill all right.

Clermont, who pitched the eight innings was inclined to little wild and seemed to be off color.

The Game.

Big Chief Garlow was Lee's for the day and the Indian was to get even with the Brants by beating they gave him last Saturday. The Tigers got away to a start, scoring two runs right off reel.

As a curtain raiser to the noon performance C. Murphy and was sacrificed to second, other Murphy. Thomas sent to with a single and he came home big Red Fisher hit safe to the field. Corns did a single and Thomas.

The Tigers were not satisfied the two run lead, so increased one in the second.

Tesch let Tyson's grounded away from him and the runner safe. Garlow was given free transportation. C. Murphy went Clermont to Ivers. J. Murphy ped a slow one down half way third which Coose could not fast enough to catch Tyson's plate and he scored although threw Murphy out at first.

Corns hit the ball over the field fence in the third giving ton their fourth and last run.

Brantford Scores

For seven long innings kept out of trouble but in the the Red Sox put two men on plate, Coose started the batting out a short infield hit. English flew out. Lamond batted for Clermont, was at out.

Then followed singles by and Wagner which resulted in ford scoring two runs. Knotty Roy Collins in to finish the game had no trouble in getting rid of Tigers in their half of the ninth.

The Ninth—If?

The faithful fans had their of a win raised to the highest acle in the ninth, only to be to the ground again and be with a 4 to 3 lose.

The horseshoes were certain Lee's team.

Automobile Plunged Through Port Gangway at Sarnia Ferry

SARNIA, Ont., May 29. — F. A. Bowen of Petrolia, narrowly escaped death last night when his automobile plunged through the port gangway of the Ferry Boat Hiawatha on the St. Clair River. Mr. Bowen motored yesterday from his home accompanied by his family. Last night he brought his car down to the dock about 7.30 to cross to Port Huron. He drove his machine across the starboard gang plank to the boat and shipped with the engine still running. Asked to set his brakes he became confused and touched the wrong lever, the machine sprang forward and shot out the port gangway into the river, carrying Mr. Bowen with it. To the horrified spectators it seemed that he must have been caught in the car as it was nearly a minute before he came to the surface. Unable to swim he was rescued by the crew of the boat who threw him a line. The Reid Wrecking Company's lighter and a diver are at work this morning endeavoring to raise the car.

With The Police

John Petrie was charged in the Police court this morning with procuring liquor, he being on the Indian list, and Charles Lovejoy, vigorously chewing gum, was charged with supplying it. On the application of Mr. W. A. Hollinrake, the case was adjourned till Monday.

Martin Rowley, making his first appearance since Tuesday, was charged with being "drunk" again. There was some doubt at first as to his fate. Sergeant Donnelly suggested Guelph, but Mr. Rowley said that when the Magistrate had sent him down for six months last fall for stealing a watch, Guelph had refused to take him in. He pleaded hard for a chance to go on the Indian list and the Magistrate obliged him.

John Keaton, a first offender, was allowed to go, the Magistrate incidentally remarking that enough first offenders seemed to come before

SPORTING COMMENT

By FREE LANCE

If President Nelson secures Pitcher Bates from the New York Giants he will probably land a star pitcher. As yet, however, terms have not been settled, although Bates is willing to come to Brantford. He has been with the Giants all spring and wrote to President Nelson from Boston, where he was sojourning with the club. He referred President Nelson to Larry Doyle, Wilbur Robinson, McGraw and all the other stand-bys, as to his ability. An answer as to terms is expected from Bates to-day.

St. Thomas only got six hits for which they accumulated eight runs off Ottawa. What kinds of demons are these Saints anyway.

(Cleveland Plain Dealer.)
Clarke Griffith cannot see the Naps. with the best telescope manufactured in Cleveland, and there are some good glasses made here at that.

"The Naps are a bunch of morning glories," said Griffith yesterday morning. "They may be winning a few games now, but they will drop as soon as they hit the road. Win the pennant? Ha! I makes me laugh. They haven't a chance. They will not finish in the first division. The fight for the championship is between Washington, Philadelphia, Boston and Chicago. Detroit ought to beat out Cleveland. St. Louis and New York are the only clubs in the league that are not stronger than Cleveland."

"The Naps are playing far over their heads. Joe Jackson and Larry are your only legitimate .300 hitters."

Ryan, Johnston and the others who are hitting the ball now will fade away when they hit the road. Cleveland is winning now because of brute strength. I never saw a club that pulled off as much bone-headed stuff as Cleveland. It does nothing the right way. Chasing a runner home the other day was an example.

"To win a pennant a club must use brains and the Naps seem to forget that brains are good for only the ball field. They have been getting away with a lot of poor baseball because of their batting, but when the hits come scarce, as they will, those bone-headed plays will cause Cleveland to drop into the second division where it belongs."

"As to pitchers, Falkenberg is the only pitcher you have, and we will murder him the next time we tackle him. Gregg was good last year, but last year is not this year. None of the others has shown us anything.

"One thing that surprises me is the animosity shown by the Naps to the visiting team. You would think we had no right to come here, much less trying to win a game. But Birmingham has got his players keyed up so they won't speak to you decently. I thought that kind of baseball was done away with a good many years ago. Birmingham is a nice young fellow and I would like to see him get by, but I don't think those tactics will land him anywhere except in a sanitarium."

Griffith will probably be able to see differently, pretty soon as the Naps are crowding Philadelphia for first place.

MOTOR CLUB ELECTS OFFICERS

Enthusiastic Meeting Was Held in City Council Chamber Last Night

A meeting of the Brantford Motor Club was held in the Council chambers last night. Among those present were President, Lloyd Harris, who occupied the chair, Secretary-Treasurer C. Harris, F. Grobb, H. W. Fritton, C. E. Ellis, G. Ellis, C. E. Waters, L. Waters, M. C. McEwen, D. Gibson, R. Scarfe, G. Harp and others.

The Secretary-Treasurer read the minutes of the previous meeting, which were adopted.

The scrutineers declared the following motorists elected to forty by the Executive of the club along with the officers, as a result of the election: John S. Dowling, H. W. Fritton, Franklin Grobb, Geo. Matthews, W. R. Preston, John H. Spence, Gordon Scarfe, L. Waters and J. F. Schultz.

Matters of importance pertaining to the club were then discussed and several new names were enrolled on the club roster. Many owners of automobiles in the city have signified their intention of joining the club while others could not see their way clear to do so. A thorough canvass of automobile owners in the city will be made and it is expected that the percentage of motorists in the city, who in the near future do not belong to the club will be very small.

Consumer Benefits
St. Thomas Times: The reduction in the duty on raw sugar as a result of the West Indies agreement has already resulted in practical benefits to the Canadian consumer. The reduction is from 53½ cents per hundred pounds under the British preference to 40¼ cents, and from 83¼ cents under the general tariff to 57½ cents.

The Canadian sugar refiners have already announced a reduction in price to the consumer of 20 cents per hundred pounds or \$4 per ton.

And Brantford?
Galt reported: Guelph followed Galt's great Old Boys' Reunion in 1907 with a similar celebration in 1908 that lasted one week. Now the Royal City is arranging for another Reunion for the coming summer. Where stands Galt?

The Head

By HOWARD L. RANN

The head is a round, bullet-shaped attachment to the human body which has several important functions, the most important of which is to store up thought and let go of it with a loud noise. Some heads store up vast quantities of thought which is not noticeable on the outside unless the owners' conversation and lead in the direction of their hobby.

Commonly speaking, people have nothing to say about the shape of their heads. If they did, there would be fewer peaked promontories with hair on the outside and one large air chamber inside. Probably the greatest head ever produced in this country was owned by the late Daniel Webster, who had to sit for his hats with the same care that a passe spinster sits for her photograph. Mr. Webster's head assayed 94 per cent brains and 6 per cent waste, but none of the waste was allowed to creep into his orations. A great many

people have tried to grow a head as large as Mr. Webster's, but after they got one they found they didn't have anything to put in it except rarified atmosphere. The average head is decorated with three pleasing projections, known as the ears and nose, together with the double chin, which we shall describe more at length to-morrow. If it were not for this equipment it would be hard to tell some heads from a croquet ball, whether they were silent or vocal.

While the head is fastened on with considerable security, some people have the habit of losing it on the slightest provocation and forget what they came down town for. There is nothing more aggravating than a husband who is always losing his head and ordering brick cheese in place of loaf sugar.

The head is connected with the rest of the body by the neck, which enables it to wag back and forth and make emphatic gestures. It is an alarming sight to see the head of a drowsy man pitch toward the floor on the dead run and then bring up with a short jerk and stand erect with an apologetic look.

To The Editor

PARIS SCOUT RALLY.

Dear Sir—Permit me to call your attention to many inaccuracies in the Paris Scout Rally report of last night. Reading this report, the public of Brantford would be apt to imagine that the Scout Movement in this city is only represented in an excellent headquarters patrol—anyway that this was the case at Paris on Saturday last. As a matter of fact Colborne Street troop put in an excellent cycle ambulance display while Brant Ave. troop turned out strong and gave scouting displays of great quality. Grace Church troop was also represented and very fine first aid displays were given by Wesley troop and Trinity troop. Wellington St. were also on

We, in Brantford, of course, are proud to think that the judging awarded the shield (given by a member of our Scout Council) to the headquarters patrol of this city, but no one on the field on Saturday who understood Scouting, could gain-say that our hosts of the day—the first of the Paris Scouts—were the finest troop in Canada. Their displays were excellently carried out in every detail and much credit is due to Scoutmaster Scott for the way in which that troop has been brought along. I point these details out because such inaccurate reports as appeared in yesterday's press are misleading and discouraging to the boys whose real interest we should have at heart in this great movement.

JUST ONCE MORE WOMAN RISES

To Tell Her Sisters They Can Find Relief in Dodd's Kidney Pills
Mrs. John Cabot After Six Years' Suffering, Tried Dodd's Kidney Pills and Found New Life and Energy.

WHITE HEAD PERCE, Que., May 26.—(Special)—One more woman has risen to tell her suffering sisters they can find relief in Dodd's Kidney Pills. That woman is Mrs. John Cabot, well known and highly respected here, and she expresses her enthusiasm in these words: "I certainly recommend Dodd's Kidney Pills. There is nothing better." Asked to give her experience, Mrs. Cabot continued: "My trouble started in a cold, and I suffered for six years. Rheumatism, neuralgia, stiffness of the joints, and general weakness and listlessness were among my symptoms, and finally Bright's Disease developed. It was then I started to use Dodd's Kidney Pills, and they helped me almost from the start. After taking four boxes I feel like a new woman. Dodd's Kidney Pills cure the kidneys. Healthy kidneys strain all the impurities and poisons—all the seeds of disease—out of the blood. Dodd's Kidney Pills not only cure the disease but by ensuring good blood give new life and energy to every part of the body."

One More Merger

Moving Picture Men Combine For Bigger Profits.
The latest thing in mergers is Amalgamated Moving Picture Shows, limited, a \$500,000 company just organized under the Ontario Company's act, for the purpose of acquiring a number of the largest and most profitable moving picture theatres and kindred theatrical projects in this country.

The company is being launched under very favorable auspices, and, as will be seen from a perusal of the prospectus appearing in another part of this issue, same is going to include such well-known theatres as the "Orpheum" of Cobalt, the "Grand Opera House," St. Thomas, the "Why? Theatre" of Toronto, as well as the new "Behemian" and "Teck" theatres at present being constructed in Toronto. Each of these theatres have an unusually large seating capacity, and from a point of dividend production, would seem to offer a splendid inducement for the investment of capital.

To quote from the prospectus: "Moving pictures are rapidly proving to be as profitable an investment, as the telephone, gramophone or sewing machine." The shares are being offered at \$1 par, payable to per cent at 30 days, 10 per cent at 60 days and the balance within 90 days from the date of application, which terms will bring the investment within the reach of all.

Your Furs are Safe in our Vaults!

Why send them out of town when they can be stored just as well in Brantford?
Furs are so highly prized by everyone, it follows that great care must be taken to protect them from the ravages of moths. It is a fact that more furs are ruined by these pests than by actual wear.
The cold, dry air system of storage is a positive safeguard against moths. Much work and worry can be avoided by simply telephoning us at 819, and we will call for your furs and other winter apparel. You place your own valuation on each article, and we are responsible to you for that amount in case of loss by fire or moths. Our charge for storage and insurance is 3 per cent of the value—a moderate charge when it is remembered that we carefully dust each article, and hang them in a vault that is intensely cold.
Nothing is packed or folded. Everything is kept on hangers, so that the most delicate article will not become creased or unsewed, and will carry no odor of moth preventatives.

SENATE KILLS THE NAVY

Upper House of Parliament Votes to Naval Aid Bill
The Majority Was 24
Vote at 10

OTTAWA, May 30.—The responsible House of the Parliament this morning killed the Bill. This was accomplished by passage on division of the on Senator George W. Ross's motion for the second reading of the bill. The vote which was taken at 10 o'clock, resulted in a majority for the Opposition. The votes for and against were: 27 against and 24 in favor.

There were two break party lines. Senator E. J. McLaughlin, who voted in favor of the Bill, and Senator J. J. McLaughlin, who voted against it. The Speaker of the Senate, the main motion of Senator Ross, was carried by the vote of 27 to 24. The Senate adjourned.

This is the end of the so far as this session is concerned, unless the government make provision for their disbursements in some other way. Senator Cloran declared money provided by the bill to "the coal barons, iron princes of finance in London, popes, moderators, ministers, priests and bishops for peace and politics to prepare for war. The politicians talking for the interests who would honor of the Empire and its citizens for their advantage. Canada has no navy than the sum of a star to give it light."
