### TO OUR SUBSCRIBERS.

The address-label on the first page will show each subscriber the state of his account with THE SIGNAL, and (it may be hinted) that this is an appropriate season for making an alteration in the figures. There are other figures in our books, also, which might very appropriately be adjusted before the end of this month. "Owe no man anything," has been wisely enjoined upon all, and this injunction is especially binding upon all who do business with newspaper men. A word to the wise is sufficient, and we will say no more at present, for we detest dunning.

ONTARIO LEGISLATURE.

The Speech from the Throne.

The opening of the third session of the fourth legislature of Ontario drew a large and brilliant gathering to the parliament buildings yesterday afternoon.

SPEECH FROM THE THRONE.

Mr. Speaker and Gentlemen of the Legislative Assembly: It is with much pleasure that I once more bid you welcome to the metropolis of the Province, and that I congratulate you upon the encouraging circumstances under which you assemble for the performance of the responsible duties which, as the representatives of the people, you have been put in charge.

THE POPULATION OF THE PROVINCE has in the last decade increased by nearly 300,000, and amounts now to nearly two millions, notwithstanding the number of our people who, from various causes have during several years past left the province.

THE BOUNDARY QUESTION.

I regret that since your last session no progress has been made towards a recognition of the right of the province to that extensive portion of its territory our title to which, notwithstanding the award of the distinguished arbitrators appointed by the two governments, the federal authorities have continued to dispute.

DISALLOWED MEASURES.

I regret that I have to refer also to the disallowance of the act of last session for protecting the public interest in rivers, streams and creeks. The competency of the legislature to pass the act was not questioned, and the act was disallowed mainly upon the ground that the minister of justice did not approve of the mode or extent of the compensation which the act gave to owners of property affected by the act.

INSURANCE.

I congratulate you that recent decisions of the judicial committee of the privy council have set at rest all questions as to the right of the provincial legislature to legislate as our interests may from time to time require, on matters of internal trade, and in particular on the law of insurance.

ESCHEATS.

I regret that the right of the provinces to property escheated for want of heirs unanimously maintained by the highest courts in Ontario and Quebec, and acquiesced in by the federal government for several years—has, on a recent appeal to the supreme court of Canada by that Government in the name of the defendants in a well-known case, been negatively by a majority of the judges of the court.

AGRICULTURAL STATISTICS.

I congratulate you on the general favor with which the report of the commissioners appointed to inquire into the agricultural resources and requirements of the province had been received by all classes interested in agriculture. I have anxiously considered what further means may be employed to aid this great industry, and to promote the well-

fare of the population engaged in it. During recent years in Great Britain and other European countries, and also in the United States of America, and in the Australian colonies of Great Britain, great advantage has been found to result from the collection of reliable crop reports and other agricultural statistics.

OTHER SUBJECTS.

I have also to recommend to your consideration such changes in the law respecting the Agricultural and Arts Association as may increase the usefulness of that organization, and bring its operations into harmony with the present needs and circumstances of the country.

A bill respecting market fees will again be submitted for your consideration. Other measures which will probably be laid before you, and to which I invite your attention are, a bill for amending and consolidating the laws respecting line fences, ditches, and water courses; a bill to provide by a general law for the construction of water-works by cities, towns and villages; a bill providing for the crossing of railway tracks by streets and roads; a bill for the inspection of boilers, with a view to affording some additional security against explosions; a bill to make provision for maintaining and promoting the public health; a bill for further simplifying the laws concerning real property and conveyancing; a bill to remove some defects in the law of evidence; a bill to place on a more satisfactory footing the law of libel in certain cases; and a bill to facilitate the establishment of free libraries.

TIMBER SALES.

It having become necessary in the interests of settlement and revenue to place under timber license a few townships lying to the south of French River and Lake Nipissing, in the Parry Sound and Nipissing districts, the activity of the timber trade last year afforded a favorable opportunity of selling at public auction the right to cut the pine timber in these townships, covering the limited area of 1321 square miles; and it is gratifying to know that the result was most satisfactory, the sale having (among other advantages) increased the available means of the province by nearly three quarters of a million dollars, besides adding to the revenue the annual rent to which the purchasers are liable, and the duties on the timber which they may cut.

PROVINCE AND DOMINION.

In consequence of circumstances not within the control of either government the accounts between the Province and the Dominion are still unsettled; and the money coming from the Common School fund for local improvements in the counties in which the lands that produced the fund are situated, has not yet been received by the provinces. In view of the prolonged delay, I recommend the payment of the principal (about \$125,000) to the counties interested, out of the Consolidated Revenue of the Province, in anticipation of the receipt of the money from the Dominion.

NEW PROVINCIAL BUILDINGS.

adequate to the growing requirements of the province and the necessities of the public service, has continued to receive my attention during the past year. Much more time than had been expected was consumed in procuring necessary modifications to be made in the plans received previously to your last session and in the preparation of the specifications. This preliminary work has now been completed; tenders have been called for; and the result will be communicated to you.

PUBLIC ACCOUNTS.

The public accounts allowing the receipts and expenditure of this past year, and the estimates of monies required for the services of the current year, will be laid before you. The estimates have been prepared with every regard for economy consistent with the public interest.

GARFIELD'S DEATH.

I cannot allow the present opportunity to pass without expressing in my name, and in that of the people of this Province, the grief and indignation which, in common with the whole civilized world, we felt at the shocking and unprovoked murder of the late honored and lamented President of the United States. By no community was President Garfield's death more sincerely mourned than by the people of Ontario.

ANNOUNCEMENT.

The lieutenant-governor then took his departure and the gathering soon followed, leaving the chamber alone to the legislature which transacted a little formal business and then rose.

Where Ignorance is Bliss 'tis Folly to be Wise.

Dr. Bliss, if not a success at probing for bullets, was highly successful in despatching bulletins; but the grandest bulletin of success is that which heralds the wonderful cures performed by Burdock Blood Bitters, that matchless tonic and blood purifier which acts at once upon the Bowels, the Skin, the Liver and the Kidneys, while invigorates and strengthens the whole system.

All Our Druggists.

Now heartily endorse the amazing success of Mack's Magnetic Medicine, and recommend it for both sexes in all cases of sexual weakness. See advertisement in another column. Sold in Goderich by Jas Wilson, druggist.

Have Hope.

Before you despair of curing a troublesome cough just verging on consumption try Hagyard's Pectoral Balsam; it has cured others, why may it not cure you. All dealers sell it.

Single Women.

A clever old maid once said that it was far better to be laughed at because you were not married than not to be able to laugh because you were. There is some logic in that. It is well for a woman to marry if she meets a good, true man who loves her and whom she loves; but if she be not suited, better, far better, that she remain single. The majority of old maids are helpful, lovable and sweet-tempered, and fill their allotted niche as acceptably as do their married sisters. Are they not more to be honored than they would have been had they married merely for a home or position? Our young ladies have erroneous ideas upon this subject. They feel almost disgraced if they have arrived at a mature age and are not able to write Mrs. before their names. Their whole ambition is to get a husband, by hook or by crook, but get him somehow they must. Consequently they take the first man who offers himself, whether he really suits them or not. Now, girls, do not marry in haste. Get the best education possible, help about domestic affairs, and enter upon some trade or profession for which you have a taste, and master it. Skilled labor is always well paid. Do not spend your time repining because you cannot see the coming man. If you never see him, you can live useful, happy lives. You think if you had a husband you would have a strong arm on which to lean, a sharer of sorrow and trouble. Alas! many a slender woman has had not only to stand alone, but also to serve as a prop for her children and husband, and very few wives find in their husbands all the sympathy and companionship they desire. If you are good for anything you will not be hurt by remaining single, neither will you be elevated by becoming "John's wife." Do your duty in life and you will count for one in the world whether married or single.

A Pen Picture of Florence Nightingale.

On the occasion of the recent opening for the season of the Washington Training School for Nurses, Dr. J. M. Toner gave an interesting account of an interview which he enjoyed during past summer, with Miss Florence Nightingale. He said: "Upon my care being sent to Miss Nightingale I was immediately conducted to her room on the second floor. Here I found Miss Nightingale reclining upon a lounge, by the side of which stood a small table with writing materials upon it; also the photographs of the nurses and the pamphlets and china I had sent her. She held my card in her hand, and addressing me by name as I approached, and without rising, extended her hand and bade me welcome. Florence Nightingale, though of English parentage, was born in Florence, Italy, in 1820, and is therefore sixty-one years of age, but she looked not a day older than forty-six. Miss Nightingale's features are regular, her face is smooth and unlined, her eyes are a deep blue, and her hair is a rich chestnut color, and she has an English complexion, large brown eyes and a well-nourished body, which would weigh 162 pounds, so that she is now the slight, fragile person which the engraved portraits taken just after the Crimean war, represented her to be. Though she sat upright on the lounge when I entered the room, and again several times during my stay, yet she did not at any time move her lower limbs, which were covered with a shawl. I do not know the character of her invalidism, but whatever it is, it in no way affects her mental energy or the sympathy with the work of educating nurses. She has enlarged, clear and distinct views on the subject of nursing and training of nurses, and expresses them forcibly and fluently.

The Gaze-at-the-Girls Young Man.

Among the curiosities of every large city, and especially about the holiday season, is the gaze-at-the-girls young man. That he finds his pursuit agreeable is evident from the way in which he sticks to his business and the rapidity with which he multiplies. There is no trouble in identifying him. He is his own identification. From shortly before noon until dusk the gaze-at-the-girls young man may be seen on the leading thoroughfares. Every pretty face that comes along claims his attention and he at once proceeds to investigate its charms. He does not do this quietly and unobtrusively, not he. The gaze-at-the-girls young man's chief stock in trade is power of gazing long and intently. Then the gaze does not go alone. With every gaze goes a smile, a peculiar smile, a sort of a cross between the lip-sidled smirk of a Gaiety and the aesthetic simper of a Bunthorne. This combination is bestowed lavishly. He brushes against the girls and fairly forces his gaze into their faces. The gaze-at-the-girls young man will stoop and look under a Gainsborough hat in order to discover what kind of a face is hidden beneath it. The gaze-at-the-girls young man is in his glory at the rink.

Ingenious Invention.

Some shrewd Yankee has invented a key that will suit any watch; it is a neat attachment to a chain, and it is said to work like a charm. So does that grand Key to Health—Burdock Blood Bitters, the greatest discovery of the age. It unlocks all the secretions, and cleanses and invigorates the entire system. Sample bottles, 10 cents; large size, \$1 of all medicine dealers.

What to Study.

Pope, the poetical philosopher said, "The proper study of mankind is man," and yet, how little is the real science of man studied. If people understood and heeded the laws of health, and if when out of sorts would resort to a common sense like Burdock Blood Bitters, many of the "ills that flesh is heir to" might be effectually remedied. It invigorates and regulates all the secretions to a healthy action.

THE BEST REMEDY FOR Diseases of the Throat and Lungs.

AYER'S CHERRY PECTORAL. In diseases of the pulmonary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL is such a remedy. It is a scientific combination of the medicinal principles of curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency, and uniformity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful. Low prices are inducements to try some of the many mixtures of syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated and incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is of acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it. The test of half a century has proven its certainty to cure all pulmonary complaints not already beyond the reach of human aid.

REFORM CIRCULAR.

Instructions to Our Political Friends.

Mr. Blake's Letter—Good Advice from the Leader of the Opposition.

Not long since we took occasion to publish the circular containing secret instructions to Tories which was circulated at the Convention in Toronto.

The Ottawa Citizen has chosen to publish a circular letter written by Mr. Blake, and we have much pleasure in reproducing the same.

It might be mentioned in passing that no Tory journal published the circular addressed to the faithful of its party.

Mr. Blake's letter will be found below:

TORONTO, Nov. 20th, 1881. DEAR SIR,—I take the liberty of laying before you the urgent need for immediate and effective organization by the Reformers in every riding, and of asking you to promote this work in your own locality.

I am most anxious to see in active operation, not merely riding and municipal organizations, but also committees in each polling sub-division.

I would beg your earnest assistance in procuring an early meeting of any existing organization, and promoting its action.

Allow me to suggest that the sub-division committee, if not already formed, might have a chairman and secretary, and be composed of from five to eleven members, according to the circumstances of the division, enlisting, where practicable, the services of some of the younger men of the party; that its members might bring in friends to its meetings; and that its first duty should be to look after the next assessments, on the basis of which the election is expected to take place.

For this purpose the committee should, in December, if possible, and at least in January, go over the voters' list, discuss the changes which have taken place in the sub-division, and see whether any names should be added or omitted; and the list of changes should be handed to the assessor immediately after his appointment, and, if needful, he should be formally notified.

Make the roll right, if you can, while in the assessor's hands.

The new assessment roll should, when complete, be examined with a view to make it correct for the purposes of the voters' list, and the Municipal Court of Revision may be expected to correct errors and omissions.

After the new voters' list is prepared it should be gone over, and the proper steps taken to correct it by appeal. I enclose a memo. of hints on these points for the service of the committee.

The committee should meet occasionally to discuss the political condition of the sub-division, with a view to its improvement, and should attend to the early and systematic canvass of the sub-division. Many voters may be won or lost, according as this work is done or neglected.

The committee should undertake (with the aid, if needed, of other voters of the sub-division), the bringing up to the poll of the Reform voters, each man becoming responsible for certain named voters.

By a systematic organization like this we can materially improve the condition of every sub-division, and produce surprising results.

In our Province where there are so many evenly balanced ridings, the victory depends mainly on organization.

The Conservatives are preparing to organize more thoroughly than ever before; they have warned their friends against all Reform assessments, and they propose to make the next assessment rolls the basis of a contest in every riding, and of a Conservative victory in Ontario.

They cannot do it, if we discharge our duty! Whether they are to succeed or fail depends largely on you and men like you, and I took to you and our brother Reformers in your locality to meet them with energy, determination and steady work. I am sure you will prove to me that I do not look in vain.

I shall be glad to hear from you on the subject of this letter, and to receive from the Secretary the names and addresses of the gentlemen appointed for his sub-division as officers and members (where there is no committee), the names of six influential Reformers of the sub-division, and some account of the work in the sub-division.

Your faithful servant, EDWARD BLAKE, Esq.

INSTRUCTIONS, ETC.

I.—While the recent improvements in the laws as to voters' lists have greatly facilitated the work of correcting them, it would be a mistake not to exercise every precaution, both in having the proper persons entered by the assessors upon the assessment rolls, and in having errors in the rolls rectified as far as possible by the Municipal Courts of Revision.

II.—The following dates are important in this connection:

(a)—The assessor is to begin making his roll not later than the 15th February, and to complete it by the 30th April, and to return it to the clerk on 1st May.

(b)—In cities and towns the Council may provide that the assessment may be made between the 1st July and 30th September for the following year.

(c)—County Councils may pass by-laws for taking the assessment in towns, townships and incorporated villages between the 1st February and the 1st July.

(d)—Notice of appeal from assessment roll to the Court of Revision must be given to the Clerk within fourteen days after the return of the roll.

(e)—The Court of Revision to sit only after ten days' notice has been given, and to be finished by the 1st July each year; except in cities, towns or villages, where the court shall be closed in six weeks from the time of returning the assessment roll.

(f)—An appeal may be had to the county judge from any decision of the Court of Revision.

(g)—Within thirty days after the final revision of the assessment roll the clerk shall make up from it, and print and post up and distribute, the voters' lists.

(h)—Notice in writing of objections to voters' lists shall be served on the posting up of the lists in his office.

III.—A committee, or branch Reform Association, for each polling sub-division shall have in charge the looking after the assessment rolls, as well as the subsequent correction of the voters' lists, and should first meet in good time to consider what new names can be properly handed in to the assessors, and to arrange for that being done.

IV.—The qualifications necessary to entitle a person to be entered upon the voters' lists are briefly as follows:—

(a)—To be of the full age of 21 years.

(b)—To be the bona-fide owner, tenant, or occupant of real property assessed, in cities, for \$400; in towns, for \$300; in villages and townships, for \$200.

(c)—A joint rating must be double these amounts to give either party a vote.

(d)—An income, farm, trade, calling or profession, of \$400 per annum.

(e)—Farmers' sons resident on their fathers' or mothers' farm where the assessment is sufficient to allow votes.

V.—A copy of the assessment roll for each polling sub-division should be procured, and the voters' list shall be carefully gone over, name by name, by the committee, at a meeting thereof, to which as many reliable workers as possible should be invited to attend by the president and secretary of each municipal association.

VI.—Two or more persons who know the sub-division should be selected for each, and they should ascertain from the list the following:—

(a)—Whether the Christian and surnames of friendly voters are correct.

(b)—What persons on the list have ceased to be the owners or occupants of the property in respect of which their names are on the voters' lists, and whether they still reside or not in the electoral district.

(c)—What persons have, since the time of revision of the assessment roll, become residents in the district, and their names may be inserted, and the former owner or occupant's name struck off the list.

(d)—Ascertain and remove from list all persons who are under the age of twenty-one years, or are aliens, or are disqualified by law, such as all Judges, Customs and Excise Officers, Clerks of the Peace, County Attorneys, Registrars, Sheriffs, Deputy Sheriffs, Deputy Clerks of the Crown, Crown Lands Agents, Post masters in cities and towns.

(e)—Ascertain what friendly persons, especially farmers' sons, entitled to vote, have been omitted from the list, as the assessment is not conclusive as to the value of the property or income, in respect of which they may be entitled to vote, and the Judge can determine their value, on proper evidence offered.

(f)—Ascertain and have struck off all doubtful persons whose names have been entered on the list, and are not entitled to vote.

PROCEDURE. After due examination of the voters' list, and it has been ascertained that proper notices of each objection must be given to the clerk of the municipality, or left at his office or residence before the 30 days limited for this purpose. The notices should be given in the name of a person entitled to vote in the electoral district.

The forms requisite for each kind of objection are sent herewith, with only such blanks as are required for names, etc.

The Judge of the County Court will appoint a day for hearing the objections, which the committee and a legal adviser should attend, with witnesses and evidence to sustain their notices.

HEAVENISM OF THE BLOOD AND DEBILITY. Haverhill, Mass., March 17, 1881. Gentlemen,—Thirteen years ago I was troubled with rheumatism of the blood. My blood was in such poor condition that when I retired my arms would become so paralyzed that I could not move the clothes to cover me. I used various remedies, and tried rubbing, but nothing seemed to help me. At last PERUVIAN SYRUP was recommended, and on taking two small bottles I was completely restored to health, and had no occasion to use it again for ten years. About three years ago I was taken with kidney complaint, and had dreadful pains in my back and side. At times, when in the street, I would have such severe attacks that I would be obliged to sit down on a door step, and I would cry like a child. After suffering for some time I remembered what the PERUVIAN SYRUP had formerly done for me, and the use of one large bottle entirely cured me. A few years since my sister's health was completely broken down. She consulted Dr. Burke, Roxbury, who recommended PERUVIAN SYRUP. He said it was just the remedy to meet her case, and the only he knew of. The result proved the correctness of his opinion, for the use of one bottle completely cured her.

Yours very truly, MRS. CARIE A. DAVIS, No. 5, Nichols street.

Dr. Carson's Pulmonary Cough Drops are an excellent Expectorant, loosening the phlegm far more readily than any other preparation. For Coughs, Colds, Bronchitis, Tickling in the Throat and Soreness and Tightness of the Chest, they have no equal. In large bottles at 50 cents, Geo. Rhynas, agent.

"Puffing" at Auction Sales.

An interesting case, Burgess vs. Burgess, of the question of "puffing" at auction sales came up before his honor Judge Kingsmill, at Walkerton, on Thursday and Friday week.

The particulars of the case briefly as follows:—The plaintiff, a farmer residing in the township of Glenelg, claimed from the defendants, who are also farmers residing in the same township, damages for non-performance of an agreement to purchase certain land, alleging that the defendants had bought at auction sale in June last a certain parcel of land and had signed an agreement for the purchase of the same, which agreement they refused to carry out.

The defendants admitted having bought the land at auction sale, and of having signed an agreement for the purchase of the same, but contended that the sale was a void sale under R. S. O., chapter 93, as the land was offered for sale subject only to a reserve bid, and that plaintiff instead of confining himself to his reserve bid, employed persons commonly called "puffers" to bid at said sale, and that such "puffers" did attend said sale and bid against defendants. His Honor after hearing the evidence—which was very conflicting—and argument, reserved judgment until Monday last, when he gave same in favor of defendants, holding that there was sufficient evidence to show that one "puffer" had been employed by plaintiff, and therefore the auction sale was void.

Percheron Horses. Harper's Monthly for February has a lengthy and exhaustive article on this subject, from which we make the following extracts:—

The Percheron horse is undoubtedly the most symmetrical and powerful for his size, and possesses the finest action and greatest endurance of all the large breeds in Europe. His general type is also the most ancient of any of which we have record or tradition, and this is the principal reason why he is more prepotent than others in transmitting his superior qualities to his offspring.

Tradition asserts that the first great improvement in refining the large horse was made by Barb stallions captured from the Moors. In 731 thousands of these fine Barb stallions were captured for the Moors ride such only, and never mares) and distributed among the French soldiers, who, on returning to their farms, bred them to their own large native mares. The best and most uniform of this produce were then selected and coupled among themselves, the result of which, together with other well-made crosses from time to time since that period, gives us the improved Percherons of the present day, described as follows:—

Head clean, bony and small for the size of the animal; ears short, mobile, erect and fine-pointed; eyes bright, clear large and prominent; forehead broad; nostrils large, open.

Neck a trifle short, yet harmoniously rounding to the body and gracefully carried.

Bread broad and deep, with great muscular development; shoulders sloping, withers high; back short; body well ribbed up; rump broad, long and moderately sloping to the tail, which is attached high; quarters wide, well let down, and swelling with powerful muscles.

Legs flat and wide, with hard, clean bones, and extra large, strong joints, cords and tendons short from the hocks and knees down; pasterns upright; hoofs full size, solid, tough.

Action bold, square, free and easy. Temper kind; disposition docile, but energetic and vigorous; hardy, enduring and long-lived; precocious; able to be put to light work at eighteen to twenty months old, possessing immense power for his size; never balking or refusing to draw at a dead pull; stylish, elegant and attractive in appearance; easy, elastic and graceful in motion.

No tendency to disease of any sort, and especially free from diseases of the legs and feet, such as spavin, splint, ring-bone, grease and founder.

An easy keeper and quick feeder.

Taking a photograph in a moment has been thought a great achievement, but it is nothing to what Monsieur Maybridge is reported to be doing in Paris. He takes a photograph in the hundredth part of a second, and is showing a series of six obtained during the leap of a clown, and the clown is exhibited as in motion, with all his changes of position.

Three American capitalists are on route for Emerson and Winnipeg with \$3,000,000 to invest in these towns and the North-west. Three Canadians, the Mayor of Listowel, and Mr. Cameron of Goderich, being two, are taking some \$300,000 to the same points for speculative purposes. The boom in Emerson is caused by a confirmation of the reported intention of the Syndicate to construct a branch from Winnipeg immediately to connect with their Winnipeg and Pembina Mountain Branch.

A good preventative for Fevers, Ague and Bilious Disorders is Dr. Carson's Stomach and Constipation Bitters, a strictly vegetable preparation. They tone the system, purify the Blood and increase the appetite, and render those taking them almost proof against disease. Should be used in every case instead of pills. Geo. Rhynas, agent for Goderich.

Never neglect a Cough or Cold as they are very apt to lead to serious Lung troubles. Dr. Carson's Pulmonary Cough Drops have a wonderful effect in relieving and curing Coughs, Colds and all affections of the Throat and Lungs. As Dr. Carson is a well known Canadian physician of over 25 years successful practice, there is little wonder that his Remedies are so popular with the Canadian people. Geo. Rhynas, agent for Goderich.

ANOTHER BIG CAT.—The heavy weight feline owned by postmaster Hayes, of Sheppardton, cannot come up to a big cat in the possession of Mr. Dunbar, of this place. Which weighs 134 ounces.

Morris.

We are sorry to hear of the illness of J. E. Stewart, teacher of S. S. No. 4, which compels him to resign his position. It seems to be a lung trouble with Mr. Stewart.

Considerable surprise and regret was manifested in this township, over the unexpected disappearance of Lewis Abbey, and worse than that putting in many of his friends in trouble by having to pay notes and bills of his. It is said he sold his horse, buggy and harness at Wingham for \$30 and then left for parts unknown. A young man named Hill is placed in a very disagreeable position by being put in for about \$800 by Abbey going away.

Stanley.

FARM SOLD.—Mr. Wm. Callender has old his farm, being lot 19, con. 2, consisting of one hundred acres, to his neighbor, Mr. J. McCowan, for the sum of \$6,800. As this is a first-class farm, Mr. McCowan may be congratulated on having secured a bargain. He now has a two hundred acre farm of his line land as there is in Canada.

SERIOUSLY ILL.—The many friends of Mr. Joseph Higgins, collector of the township of Stanley, will be glad to learn that he is recovering from a paralytic stroke on Friday last. He was on his way home from the residence of his daughter, who resides on the Sauble Line, when he became ill. A gentleman met him on the Bayfield Road and found him lying over the dash-board of the buggy perfectly senseless. He was at once conveyed to the residence of Dr. Wood, and under medical treatment recovered sufficiently to permit of his removal to the residence of Mr. Elliott, his son-in-law.

Colborne.

COUNCIL MEETING.—The members elect for the township of Colborne met in the township hall, on Monday, 16th January, 1882. The following gentlemen presented themselves and signed their declaration of qualification and office, viz: Wm. Young, Reeve; Anthony Allen, Deputy Reeve; Patrick Carroll, Joseph Beck and Archibald Malloy, Councillors. The Council then organized the Reeve in the chair. The minutes of last meeting read and adopted. Moved by Joseph Beck, seconded by P. Carroll, that the Council adjourn for dinner.—Carried. The members having again taken their seats, it was moved by J. Beck, seconded by P. Carroll, that Raby Williams be appointed auditor on behalf of the Council.—Carried. The Reeve appointed Donald M. Turchie as the other auditor. The clerk was instructed to notify the auditors to meet in the township hall, on Wednesday, 1st February, at the hour of 10 o'clock a.m., to audit the books of the township. Account of Charles Stewart, for building culvert, \$6, to be paid; account of Hart & Rawlinson for blank form for election purposes, to be paid, \$5.18. Communication from Seaforth Sun office, asking to be allowed an opportunity to tender for the township printing. Statute labor division No. 39, was amended by adding side road north between lots 4 and 5, 10th con. The Council then adjourned to meet again on Wednesday, 1st February, at the hour of 10 o'clock a.m., when the the pathmasters, poundkeepers, etc., will be appointed.

Carlov.

Rev. J. A. Tarabull, of Goderich, will preach in the Presbyterian church here on Sunday next at 2.30 p.m. HYMENAL.—On Wednesday the 11th inst., at the residence of the bride's father, the marriage of Maggie, daughter of Mr. Gordon Young, 9th con. Colborne, to Mr. Peter Binsett, also of Colborne, took place. The marriage ceremony was performed by the Rev. J. Pritchard, of Auburn. After this the more elderly friends and relatives partook at the good things of this life, and cracked their jokes to their hearts content. As the bride is well known and highly thought of in this vicinity, many valuable articles were presented. As the shades of evening approached the young folk gathered to spend a pleasant while together. As the bride's parent spared no pains to provide everything necessary, the anticipations of all were fully realized. When the clock pointed to the "sma' hours about the twal," the company dispersed, with best wishes for the happy pair, who are just about to enter "the vale of life's domains."

LITERARY SOCIETY.—The following is an account of our Friday's entertainment. The President in the chair. The minutes of last meeting were read and adopted. The first on the programme was singing by Ida and Frank Sallows and Albert Downie entitled "The Jasper Walls"; 2, recitation by Charlie Oke, "The flags together"; 3, reading by Etta Potter, "The Cobbler's Starling"; 4, dialogue by Eliza Howell, Phoebe Smith, Clara Robertson and Etta Potter, entitled "The Force of Imagination"; 5, singing by Eliza Howell, Phoebe Smith, Charlie and Bertie Oke, "Gathering Home"; 6, recitation by Agnes Jones, Home; 7, reading by Miss Cunningham, "The Bridal Wine-cup"; 8, reading by Willie Edward, "The Alarm"; 9, Editor's Selections; 10, singing by the school, "The National Anthem." Moved by Mr. Strang, seconded by Miss Cunningham, that the meeting be adjourned until Jan. 20th.

Bay.

The new bell for the Catholic church of the Sauble Line, arrived last week, and will shortly be raised to its place in the steeple by Mr. J. C. Kalbfleisch. It has been brought from Cincinnati, weight hundred and seventeen pounds, and has a very fine tone, when the wind blows over the lake the sound will be carried over a great extent of country.

Millburn.

VISITORS.—Miss Low, of Montreal, and Miss Cox, of Goderich, were guests of Mrs. Allen last week. Miss Ivers, of Wawanosh, is visiting Mrs. H. Horton. Mrs. Young has returned from a week's visit to Dungannon, and Mrs. Cumings has just spent a fortnight among old acquaintances in Kingsbridge. Mr. A. H. McQuarrie, has resumed his duties here, after a three weeks visit to friends in Londonboro.

Leeburn.

The many friends of Mr. P. Kelly will regret to learn that he has had to go to Toronto for medical advice, owing to poor health. He has been unwell for about five months.

The gallant Joe Mayweed was the escort of five married ladies at a recent Goderich Tp. teaming. The drive was a long one, but the Millburn cavalier and his fair freight arrived home in safety and enjoyed the trip.

Webster Brown.

Benmiller.

VISITING.—Miss Helen Gibson, of Goderich, is visiting friends here.

PERSONALS.—Mr. Edward Flanigan and Mrs. F. have left for Detroit.—Mr. D. Rodgers has taken charge of the mill since Mr. Flanigan left.—Mr. John Fisher has been appointed superintendent of the M. E. Sunday school for the present year.

A HEARTY SURPRISE.—On Wednesday evening, January 11th, a party of seventeen young folk from the Maitland con., drove to the farm of Mr. R. Jennings, Goderich township. It would have been a surprise, but the cheekiest one in the crowd first gave notice of their coming.

Slyth.

The new coucil met for the first time this week. Mr. L. Thorne was appointed village clerk instead of Mr. Metcalf, salary, \$60.

CURIOSITIES.—Rev. W. Birks, of this place, has three curiosities in his possession, in the shape of three small images, or "Chinese gods," which were presented to him some time ago by a missionary. Two of them being figures of men, dressed and painted to represent, one a soldier, the other apparently an ordinary person, and are in a good state of preservation. The third figure is much more worn than the others, and has apparently been the object of much adoration, as the arms and face are entirely worn off. This one was known to be in Chinese families for 300 years, and looks like a very ancient block of wood yet without any signs of decay. All the figures are of wood.

Brussels.

Last Saturday Miss Ella Kay left Brussels for Hamilton where she will attend the Wesleyan Female College.

SOLD.—Duncan McIntosh has disposed of his interest in the woollen factory to his partner, Mr. Service, who will now have sole charge of the same. Mr. McIntosh has had charge of the mill for over ten years. He intends going to the North-west. Mr. Service has also purchased the handsome brick residence of Mr. McIntosh.

NEW ENTERPRISE.—Messrs. Bennett & Smith, of Brussels planning mill, have decided to enter upon the manufacture of furniture for the North-west trade. A crying kila for seasoning lumber is being arranged and in the course of a month or so work will commence. All their old customers can have work done as in the past, as they will be in a position to attend to both. This is what Brussels wants, energy and determination on the part of the promoters of her industries.

Ashfield.

ORITARY.—The following notice we copy from the Catholic Record: To record the demise of an old and much esteemed resident of Ashfield, John Sullivan, becomes to me a painful task. The subject of this notice was a native of county Kerry, who left his native land in '49 and emigrated for this country, bringing with him many interesting reminiscences of the land he left, a land of which he was passionately fond until the day of his death. The primeval state of the town of Ashfield, when the deceased entered it, with five sons and one daughter, held out no promise of ease for some time to come; but on the contrary continued hard labor ere a home could be hewn out of the forest. Few can realize the hardships, privations and difficulties with which the pioneer has to contend; those brave pioneers of Ashfield were no exception to the general rule, still their indomitable courage, their honest and persevering efforts, their desire to secure a home out of the reach of the tyranny of landlords and cruel and unjust laws buoyed them up, and enabled them to surmount obstacles from which thousands would shrink in dismay. The death of his son Michael and the peculiar circumstances that attended it, gave the deceased and his faithful consort a severe shock, which calamity caused other difficulties to disappear or fall into insignificance. This brave and generous Michael by this time had settled on a lot of his own and was collector of the township in the year of his death. One day while engaged in his own clearing a rabid wolf made its appearance and attacked the defenceless man. A desperate struggle ensued between Michael and his fierce antagonist which lasted for some time, but finally ended in the death of the furious beast and the apparent triumph of the man who risked so much to save his wife, his neighbors and their stock from the ravages of so terrible an enemy. All recollection of this incident was about to be forgotten; but in due time the sorrow and alarm of

relatives and neighbors became very great upon observing unfortunate Michael manifesting unmistakable signs of hydrophobia, which resulted in the poor man's death. This, as already stated, was a severe shock to the subject of my remarks. However, Mr. John Sullivan toiled and lived on in his own unobtrusive way, enjoying the love and esteem of all who knew him. In his case the force of habit could be seen with remarkable clearness; for the habits of industry adhered to him to the last, and notwithstanding his circumstances he seldom could be found unemployed. A singular example of prescience was in the language of which he made use three weeks before his decease. While attending the funeral of his brother-in-law, Mr. Buckley, another old settler, his remarks were on that occasion—"I'm the next will be laid in this cemetery," which proved true. The large concourse of people that followed his remains to the grave showed in some degree the respect in which the deceased was held. The general regret at the loss of so worthy a citizen and so sincere a friend was modified by the recollection that few reach the ripe age at which he arrived, for he died in his 90th year. Mrs. Sullivan, who is considerably his junior, still lives. Many will miss the departed, for the most conspicuous in church was the venerated wife locks of old Mr. John Sullivan, and in spite of age there were few who attended more regularly. Requiescat in pace.

COMMUNICATIONS.

We do not hold ourselves responsible for the opinions of our Correspondents. Contributions to this department must conform themselves to public questions, and be brief.

Dungannon, Jan. 13th 1882.

Mr. Editor.—We find in your journal of the 6th inst., a letter from this neighborhood signed by one "Snodgrass." Had he subscribed himself "Snake in the Grass" he would have given a better index to his true character and design. He informs your readers that there was a terrible confusion on the 28th of Dec. last, over the election of a trustee for this section, and then declares the cause to have been religion. This statement shows how little this one of the "very few" of the right minded and unprejudiced of this community, knows about religion, of course he means the Christian religion, and that teaches its professors to love their neighbors as themselves, so that if there was an unseemly and improper feeling manifested, it was for want of religion. He seems to think that men cannot differ in their views regarding the eligibility of a candidate for trusteeship without demonstrating their religion to be worthless. This unseemly feeling was created for party purposes we do not deny, but we do not emphatically deny that it originated with any member in good standing in either the Presbyterian or Methodist Churches. The animus of "Snodgrass" against all true religion displays itself very glaringly in his fing at our Union Prayer meetings, and his vile and false attempt to drag into this party strife the parties who originated and sustained the said prayer meetings. If we are not mistaken, the facts in the affair were Snodgrass and Co. A more malicious attempt to blacken the characters of the ministers and members of the Christian churches in this place we have rarely met with, than this of "Snodgrass," and it becomes the duty of this abolitionist production to cry "O, consistency, thou art a jewel." A fine example he set to the young people of Dungannon and neighborhood. Whatever of sectarian fire was kindled in the locality before, he has done his best to fan; and his lecture to Presbyterians and Methodists will only excite disgust in the minds of the really right-minded and unprejudiced of the community. My early insertion of this letter will oblige. Respectfully yours, JAMES CASWELL, Pastor of the Methodist Church, Dungannon.

Postal cards on the backs of which are pasted slips cut from newspapers are frequently posted. These postal cards go to the D. L. O. There is a regulation concerning this description of postal matter that it will not have anything attached or gummed to it. On Sunday a rather impressive ceremony was performed in the Basilica by Bishop Fabre, on Montreal. On Friday a lunatic committed suicide in the sacred edifice, which is considered by the church an act of desecration, and necessitates a special service to restore it to its consecrated purity. Owing to the absence of Bishop Duhamel in Rome, Bishop Fabre was telegraphed for, and to-day celebrated a special mass.

GUITEAU'S GUMPTION.

The Assassin's Argument in favor of Immunity—Close Reasoning With Intent to make I look appear White.

WASHINGTON, Jan. 15.—Guiteau was apparently in the best of spirits this morning when the reporter called at the jail. "I have decided not to sell my speech for money," he remarked, "but to give it the widest circulation through the press, for opening his speech in precisely the same language used in his Christmas greeting, Guiteau says, 'In shooting the president I deny I violated any law human or divine; nothing that the Deity directs a man to do can violate any law. I stand here as the agent of the Deity. The political situation is just what I knew it would be last June, if Garfield was removed. Everything on this case so far has gone about as I anticipated last June, which is evidence of the Deity's confirmation of my act. The assassin rehearses his history as heretofore given by himself and continues:—Soon after Robertson's appointment the republican party began to heat up. This was about the middle of May; by the 1st July it was white-hot; and if this spirit had not been killed by the president's removal the nation would soon have been in the flame of civil war. To prevent a repetition of the late war and its desolation, the removal of the president was necessary. By his removal the republican party was cemented and the nation to-day is happy and prosperous. And to-day I suffer in bonds because I had the inspiration and nerve to remove the president that the nation might live. When I saw Garfield under Blaine's uninductive spirit, and that he was proving a traitor to the men that made him, it grieved me to the heart and I prayed over it. If Garfield was out of the way I thought one night in my bed every thing would go well. For two weeks I prayed over the feasibility of the president's removal. The more I prayed about it and the more I looked at the political situation, the more I saw the necessity for his removal. Finally after two weeks of earnest prayer I decided the Deity had called me to do it, and I commenced preparation for it. This was about the 1st of June. I shot him on July 2nd. Not being a marksman he lingered till September 9th, when he passed quietly and gently away, the Lord thereby confirming my inspiration. There was a special providence in his dying in New Jersey. I undertake to say the Deity allowed him to die there to protect me from the possibility of legal liability for simply executing his will. The Deity has probably fixed the law so that their verdict cannot be legally enforced. I would have done the act at any time after June 1st if I had known I was to be shot dead the next moment. High toned people are saying 'well, if the Lord had not wanted him he would not have departed.' Physical death is nothing. All men have died, all men will die. The president might have been taken by a railroad accident or slipped on an orange peel and broken his neck. Providence would have provided why I should not be a hero and the equal of Washington and Lincoln and Grant. Many people are beginning to see I have saved the nation. If there be in this assembly any dear friend of Garfield's, to him I say Guiteau's love to Garfield was not less than his. If that friend demand why Guiteau removed Garfield, this is Guiteau's answer. Not that Guiteau loved Garfield less, but he loved his country more. Had you rather that Garfield was living and die in war than that Garfield was dead to live in peace. No, as Garfield loved Guiteau, Guiteau weeps for him; as he was a good man Guiteau honors him; but by the Deity's inspiration Guiteau removed Garfield for the good of his country. Beware, ye Americans, for you do not know the worth of the Deity by dealing unwisely by me, for I tell you the truth and lie not when I say I am here as God's man. Put my body into the earth if you will; that's all you can do; but thereafter comes the day of reckoning. The mills of the gods grind slow but sure, and they will grind to atoms every man that injures me. The American slaveholders put John Brown's body in the ground, they paid Guiteau during the war in blood and desecration. Life is an enigma, and this is a strange world. The judge should charge as follows: 'That if they believe I believed it right for me to remove the president because I had special divine authority for so doing, they will acquit me on the ground that I was empowered by the Deity in that I was suffering from transitory mania.' To the jury he says: 'Two months ago you left your homes and loved ones to listen to this case. I have no doubt you have given it your most solemn and prayerful attention, and that your verdict will be not guilty, as charged in the indictment. To hang a man in my mental condition on the 2nd July, when I shot the president, would be a lasting disgrace to the American people, and I am sure you so understand it. The mothers and daughters of the republic are praying that you will vindicate my inspiration and their prayers I expect will prevail. Woman's instinct is keener than man's, and I pray you to listen to the prayers of these ladies. How would your mother and wife and daughter vote on this case. Have you any doubt but they would vote for acquittal and why should you not do likewise. Physical death is no terrors for me. Suppose it possible that I should be sentenced to be hung in thirty days, I may die in twenty-four hours. I shall not go until my time comes. Anyway I have always been a praying man and I think I stand with the Deity. In our western domain thousands of Mormons are daily and nightly violating the law, but the government don't hang to vindicate the dignity of the law. During the last decade Mormonism had spread with frightful rapidity, and to-day nothing but another war can suppress it. The federal government is responsible for Mormonism; let president and congress suppress this gigantic, spiritual and social despotism. If I were president I would clean out these detestable Mormons in some way and right speedily. Perhaps in 1884 I shall get a chance at them. Now, gentlemen, I leave this case with you. At the last great day you and all men will stand in the presence of the Deity arguing for mercy and justice. As you act here so will your final abode in the great hereafter.' (beg

you do not get the Deity down on you by meddling with this case. I beg for your own sakes and for the sake of the American people, and for the sake of generations yet unborn, that you let this case alone. You cannot afford to touch it. Let your verdict be that it was the Deity's act, not mine. When the president was shot his cabinet telegraphed to foreign nations that it was the act of a madman, and it will be far better for everybody that it be officially decided it was the act of a madman.

His Excellency the Governor-General sailed from Liverpool for Halifax on Wednesday. At a farewell luncheon given in his honour by the Mayor of Liverpool, His Excellency stated that the Princess Louise remained in England at his desire, in the hope that she would be perfectly restored to health. He trusted, however, that she would be able to rejoin him in the spring.
