CALGARY'S SPLENDID EXHIBITION IS A GREAT ADVERTISEMENT FOR WESTERN CANADA; ATTENDANCE YESTERDAY 22,577

Racing at Victoria Park will commence today at 1 o'clock. The live stock parade will start at 3:30 this afternoon.

CALGARY'S Industrial Exhibition draws to a close today. It has been the most successful fair ever held in Alberta and it has done more, perhaps, to advertise Alberta as a producing, active commercial and agricultural section than any other single demonstration.

Persons whose business duties confine them to the province of Alberta, cannot realize the advertising strength of the Calgary fair. Across the southern border line, where the people are wont to judge critically, Calgary is rated as a city of the first class financially, largely on account of the showing made at the exhibition.

Yesterday's attendance at the fair was 22,577. The Monday previous 37,000 persons passed through the turnstiles. Inclement weather kept thousands away but still the exhibition played to capacity on the good days.

To H. S. G. Van Wart, president, and to E. L. Richardson, general manager, and to the committee for the success of the fair. The detail of an exhibition of this magnitude is trying enough in itself and the complications that are bound to arise would try the patience of a saint. Messrs. Van Wart and Richardson, ably aided by a corps of intelligent assistants, made the 1912 fair one that will go down in history as an epoch maker.

It is only fair as the exhibition nears its conclusion to say a word of praise for the men who have labored faithfully to make the big show a success. President Van Wart, always inquiring and anxious to hear a suggestion for the betterment of the exposition, has officiated as umpire, referee and diplomat. Manager Richardson has had enough troubles to send an ordinary person to the home for the foolish, but he has ever been smiling and ready to correct any mistakes. It takes some real man to be a successful fair manager and Mr. Richardson has qualified. Diplomacy, tact, foresight and—let's call it horse sense—are needed to make a successful exhibition manager and Mr. Richardson, ever alert to the exigencies of the occasion, has proved himself capable.

Races Most Successful

The racing feature was eminently successful. Superintendent of Speed Trimble conducted the harness and running events in a satisfactory manner. The agricultural exhibits were far ahead of those of previous years and the mechanical devices were up to the minute.

To Chief Caddy, Inspector Natt and Sergeant Taylor especially is credit due to the excellent police arrangements. The fire protection was adequate, thanks to Chief Smart, and some more thanks because it wasn't needed.

Calgary is no longer looked upon as a "bush" fair town. Exhibitors from New York and concessionaires from the Eastern States—and they are the shrewdest and fastest in the business, are unanimous in declaring that Calgary is the premier city of the Canadian North West.

The attendance at the Calgary exhibition last year was 91,097 and the attendance to date has been 79,718. Considering the inclement weather, this is a remarkable showing. With one day to go, the Calgary fair of 1912 needs but a trifle over 11,000 persons to equal the banner record. With even a suggestion of fair weather today, a new mark will surely be established.

LACOMBE HEROINE MEETS DEATH IN RESCUE OF CHILD FROM BURNING BUILDING

Lacombe, July 3—Fire destroyed the home of John Doll, a farmer residing near Lacombe, Sunday evening, and Miss Doll, eldest daughter of the family received burns from which her death resulted on the day following the fire.

The girl died a heroine. Doll was away, an old lady, a child and Miss Doll were alone on the farm when the house was discovered to be on fire. Miss Doll went into the house to rescue the child, which she succeeded in doing, but was terribly burned, and died in intense agony about ten hours later.

CALIFORNIA COMES TO DEVELOP OIL FIELDS

ALBERTA has broken into the limelight of the financial world in a new role. I. E. Segur, for many years an active associate of Adolph Spreckels, of California, multi-millionaire in sugar and oil magnate, arrived in Calgary last night en route to a new field of prospective gushers of his own discovery, less than fifty miles from this city. Mr. Segur, who opened up some of the largest producing wells in California, is enthusiastic about the Albertan discovery. An analysis made at a Vancouver refinery showed that the quality of the oil found near Calgary is superb. It is too high grade for a fuel oil, the volatile substances contained in the crude oil rendering it extremely valuable as a refining oil.

Mr. Segur is recognized as one of America's most experienced oil experts. He is enthusiastic about the recent discovery and although he declined to outline his plans it is understood that development work is to be commenced immediately and rumor has it that Californian capital is to be interested in the work.

DENSMORE CAPTURES THOUSAND DOLLAR STAKE

Victor Finished Fourth in First Heat, Which Was Won by Mussel Shell

Ambassador Todd Was Victor in Three Year Old Race in Straight Heats

Densmore, the Hyant colt, owned by George Loomis of Minneapolis, captured the \$1,000 stake at Victoria Park yesterday. Kellar Hall was second, Mussel Shell third. The best time for the mile was 2:21 3/4.

Densmore got off to a bad start and could do no better than fourth in the initial heat. Mussel Shell, held at 2 to 1 in the betting, stepped away in brilliant fashion and won with two lengths to spare.

Midway Girl, not seriously considered in the betting, finished second, and Billie M. was third. Densmore, with Loomis himself in the sulky, struck his stride in the second heat, and won with plenty to spare. Kellar Hall was second, and Mussel Shell third. The third and fourth heats also went to the Minneapolis horse without much of a struggle. Loomis rated his charge nicely, and had something left after each heat.

Ambassador Todd took the three-year-old race in straight heats, barring the curtain raiser. Seneca Boy showed the early speed and clinched second position. The Fact was third. The best time was 2:35.

Lakeside Hal had little difficulty in annexing the purse in the 1 1/2 mile race. Sensibly driven by Hines, the son of Direct Hal, came home on the bit and won without much of a struggle. Gottlew was second, and Miss Jerusha third. The third heat was the fastest of the race, Lakeside Hal covering the distance in 2:19 3/4.

Danfield again demonstrated his superiority in the seven furlong event by winning from Rusty Coat with two lengths to spare. Burt was third. The time for the distance was 1:32.

Lady Renclair captured the six furlong chase, with W. V. Brunby second, and Miss Weilar third. Baroness Dixon, well liked by the talent failed to show.

Clodia won the mile race without much exertion. Jack Adama was second, and Miss Jerusha third. The books were hard hit on this race by money from the talent. Frank Ferris was second and Nellie Racine third.

Summary: First race—Densmore, 10 to 1, won; Kellar Hall, 2 to 1, second; Mussel Shell, 3 to 1, third. Time—2:21 3/4. 2 1/2 mile—Billie M., Burton, Midway Girl, Gold King, and Auto Zomero also started.

Second race—3-year-old trot or pace—Ambassador Todd, 4 to 1, won; Seneca Boy, 2 to 1, second; The Fact, 1 to 2, third. Time—2:40 1/2. 2:39 1/2. 2:38 1/2.

Third race—2 1/2 mile—Lakeside Hal, 2 to 1, won; Gottlew, 2 to 1, second; Miss Jerusha, 5 to 1, third. Time—2:29 1/2. 2:29 1/4. 2:29 1/4.

Fourth race—seven furlongs—Danfield, 1 to 2, won; Rusty Coat, 2 to 1, second; Burt, 4 to 1, third. Time 1:32. Nettie, Morrifield, and Miss also ran.

Fifth race, six furlongs—Lady Renclair, 1 to 2, won; W. V. Brunby, even money, second; Miss Weilar, 5 to 1, third. Time 1:48. Matador also ran.

Sixth race, five furlongs—Delcassy, 2 to 1, won; Frank Ferris, 5 to 1, second; Nellie Racine, 6 to 1, third. Time 1:44 1/2. Billy, Haynam, Keno, Truestep, Galantis, Outset, and Cyclops also ran.

Seventh race, three miles—Evil is on the increase in Toronto the good.

Toronto, July 3—In the first six months of last year 29,983 cases were before the Toronto police magistrates. In the same period this year there have been 45,536.

EXPECT ANNOUNCEMENT OF PRINCE'S ENGAGEMENT

Berlin, July 3.—A local paper today says that the coming of the Kaiser and the Czár will result in announcing the engagement of Prince Adalbert, the Kaiser's third son, and the Grand Duchess Olga, eldest daughter of the Czár. Prince Adalbert is 27 and the Grand Duchess is 16.

WHAT THE GREAT WEST DID YESTERDAY

In Calgary: In building and banking statistics in centres of population, Western Canada betokens great prosperity. Every city shows a good increase in building permits and bank clearings for June over the same month in 1911. Bank clearings of the seven largest cities show an increase of 45 per cent; building permits in the same cities show an increase of nine per cent. (The

DEMOCRATIC NOMINEE SAYS LITTLE WHEN INTERVIEWED

Has Not Had Time to Think of Anything and Therefore Can Say Nothing

His Friends Say He Will Not Resign as Governor Until First of Next Year

Seagriff, N.J., July 3.—"I haven't had time to think of all these things," Governor Woodrow Wilson came out of the "Little White House," took an easy chair on his porch, crossed his legs, took off his glasses and thus replied today to a bombardment of questions hurled at him by a group of reporters. He was looking rather careworn and tired.

"I don't know yet whether I shall appoint Mr. McCombs my campaign manager or suggest him for the chairmanship of the national committee," he said.

Has Not Decided: "I haven't decided whether I shall resign as governor of New Jersey. I haven't time to read the platform, I have made no campaign plans, in fact, I have devoted all my time to morning callers and to my correspondence.

"These and other details I shall take up in due time with my friends. Poor fellows, they will have to get some rest."

"To all the thoughtful and generous friends who have sent me messages of congratulation I want to express my hearty thanks. I shall not be able to answer them individually, I am afraid, they were so delightfully numerous. I hope this inadequate acknowledgment will fall under their eyes. These messages of personal confidence help immeasurably to make public service seem worth while."

The Harmonious Ending: "Do you care to comment upon the convention's work," he was asked.

WORK OF RECONSTRUCTING DWELLINGS BEING RUSHED

Street Car Service Which Was Completely Stopped When the Wires Were Broken Now Running; Several Buildings Badly Damaged Can be Repaired

Regina, July 3.—Today plans are being laid for the rebuilding of the devastated capital of the province. It is stated that a new Crapper block would be erected as soon as the old site could be cleared. Speaking of the prospects for the rebuilding, a constructing company's manager said that he did not believe the recent calamity would have any material effect upon the building going on in Regina this summer. In this he agreed with others, who believed that the buildings which permits have already been issued would be erected this summer although it is possible that, with the additional work which the necessary repairing and rebuilding will entail, the construction of new buildings will be delayed.

Are Hard at Work: On Monday morning hundreds of carpenters, bricklayers and laborers started the work of clearing away the debris and repairing such structures that can be put in shape with a little work. On the north side, where the devastation was unusually severe, the work of re-construction is progressing in an admirable manner. The houses that can readily be made habitable are receiving first attention. Those with torn roofs and porches and shattered windows are being put in shape. From those completely demolished, such household goods worth saving have already been rescued. Many families living on Lorne and Smith streets have received such repairs as are needed to make their homes habitable. The Regina municipal street railway system is again in operation.

Fund Reaches \$99,000: Regina, July 3.—The relief fund is growing rapidly and tonight reached a total of \$99,000.

BRYAN, INGRATE, TRAITOR AND PHARISEE, SAYS COL. WATTERSON

Declares in Courier Journal He is a Rattlesnake; Will Not Support His Ticket

Louisville, Ky., July 3.—Henry Watterson, in the Courier-Journal today, compares Wm. Jennings Bryan to a rattlesnake and says he will not support his ticket. Writing of Bryan under the head, "Treachery Unspeaking," he says:

"The mask which in his unguarded fury Bryan has allowed to slip away from the sleek and smug visage that has so long deceived superficial observers into the belief that, though selfish and commonplace, he was still a sincere, amiable man, shows the prosperous hypocrisy.

"How shall we classify, and what shall be the measure of detestation, in not only all good morals, but all good men, who must hereafter and forever hold the cartoon figure of Baltimore in his rage and spleen, throwing off all disguise of prudence and showing himself in his true character of ingrate, traitor and pharisee; the baffled demagogue spitting upon hands that had befriended him, the beaten mountebank balked of his prey, the rattlesnake revealed, exuding poison that disease and death may follow in the wake of his tortuous course."

MANY PROGRESSIVES THINK THIRD PARTY IS NOT NECESSARY

Washington, July 3.—Several progressive Republican senators, conferring over the situation growing out of the presidential nominations at Chicago and Baltimore, have voiced the opinion that a third party in their states was unnecessary. Their several opinions are that electors in sympathy with former President Roosevelt will be on the regular Republican ticket in California, Washington, Kansas, Nebraska, and Minnesota and the Dakotas among others.

None of the progressive senators here have announced any intention of leaving the Republican party.

Senator Works of California, and Senator Brewster of Kansas have told their colleagues that the progressive element was in control in their states and that there would be nothing to gain by joining in a third party movement. Senator Poindexter of Washington said he believed that it would be necessary to organize a third party in his state.

A CELEBRATED BRITON COMES TO CALGARY TO INVESTIGATE

Would Look Into Investments Made by Britons in the Canadian West

Visited Calgary Several Years Ago and is Astounded at Its Growth

Says Many Britishers Heavy Holders of Calgary Real Estate

A large eastern electrical firm will establish a big manufacturing plant in Calgary, was the statement made to the Albertan last night by Benjamin H. Morgan, F.R.S., M.A., Member of Council Royal Colonial Institute; Chairman of the Trade Industry Committee of the Royal Colonial Institute; Vice-Chairman of the Canadian Chamber of Commerce; Vice-President of the Nottingham Society of Engineers; Member of the Imperial Chamber of Commerce; and Chairman of the Alliance Investment Company of Canada. Limited. Mr. Morgan is stopping at the Braemar Lodge hotel, and is in Canada with a view to investigating the investments made by British capital in the west.

He has large financial interests in Calgary and in a number of other towns in western Canada. "I was in Calgary about three and a half years ago and since then the growth of Calgary has been phenomenal," stated Mr. Morgan. "It is certain that Calgary must develop into an enormous city," he continued, "every condition points in that direction."

The objects of the committee of the Royal Colonial Institute of which Mr. Morgan is chairman are to encourage and arrange industrial conferences, attended by men of affairs from all parts of the Empire, in order to discuss points of common interest in the conditions of trade and industry.

The dominant note of the Royal Colonial Institute's work is concisely described in its motto, "United Empire." The Trade and Industry Committee exists to foster, stimulate and assist British commercial and industrial interests throughout the Empire.

"The strong committee which has lately been formed from the Canadian Chamber of Commerce in London, England, with the object of looking into western real estate propositions which are being floated in England, will be of immense use to Calgary," said Mr. Morgan. "A very large proportion of the Calgary real estate is held by British capital, and if the British investors are not treated scrupulously it will mean the closing down of capital from that source. A large amount of Calgary, Regina, Edmonton, and other western real estate has been sold in England; some of this has been misrepresented; it has not been worth the price in the agreement."

"The objects of the committee of the Canadian Chamber of Commerce will be to give advice to the prospective investors in England, and to induce all bona-fide western firms who wish to sell property in England to agree to their conditions and affiliate with them."

"In this way," continued Mr. Morgan, "not only will it prevent the British investor from being swindled, but it will also keep open a splendid market for western property in the British Isles."

"It is possible that I might be misunderstood in these remarks about the selling of Calgary real estate in England," stated Mr. Morgan. "Calgary has shown great enterprise in its efforts to interest British capital, of course there has been some misuse of the world wide reputation which Calgary enjoys, and some valuable property has been sold. Still, there are a number of the larger Calgary land firms directly represented on the English committee. This also applies to other western towns the best and largest firms all are represented on our committee."

ROSE DWORKIN TO SERVE FIVE YEARS

Woman Who Killed Cleveland Contractor Sentenced to Penitentiary

Cleveland, O., July 2.—Five years in the penitentiary was the sentence given Mrs. Rose Dworkin, who pleaded guilty in criminal court to killing Jacob Horwitz, whom she claimed had wronged her years ago in Russia, and whom she shot down on the streets of Cleveland, having followed him here after, as she alleged, he told her husband stories which resulted in his leaving her.

Many women of Northern Ohio had interested themselves in the case when a child was born to the prisoner in the county jail. She has five children. Her attorney pleaded before Judge Neff for a light sentence because of the children.

Mrs. Dworkin's husband, who had been reunited with her since the trouble caused a sensation in court after the sentence had been passed by striking his sister-in-law, Mrs. Elsie Dworkin in the mouth. Her prominent social life in Cleveland, were in the court room when sentence was passed.

TO ASK FOR LEGISLATION PROHIBITING BOXING IN ALBERTA

Calgary Ministers Will Apply to Government to Forbid Public Bouts

Application will be made to the provincial government by Calgary ministers for such legislation as will prevent the giving of public exhibitions of boxing throughout the province. The matter was taken up at the meeting of the Calgary Presbytery yesterday, when a strong resolution was passed and a committee appointed, with power to add a number of influential laymen to its number, to take this matter up at once and secure speedy action.

When the Baltimore convention annulled the unit rule in states where direct primaries are held, it in effect killed that relic of bossism. To modify a convenience of that kind is to pronounce its doom. The convention should complete the job before adjournment.

There have been many excuses and only one true reason for the unit rule. It has magnified the power of bosses. Obstinately designed to give dignity to states, it in fact has degraded states and people. Naturally enough, its overthrow found every boss in the country throwing his delegation as solidly as he could in its favor. Even on the question of their own emancipation the unit rule held men like the 90 from New York in bondage. They had nothing to say on the subject of their deliverance. It was Chas. Murphy who spoke for them, for the unit rule and for himself, as he spoke as the boss. A more ghastly object lesson never faced a free people. In this demonstration in behalf of a dying abuse Democrats should see very clearly the inexorable logic of the direct primary. The bosses recognized it long ago. Direct primaries will not usher in the perfect day, but they will destroy our political cars, they will reduce the number of traders and hucksters at conventions and they will safeguard the minority as well as majority rights. Of dubious origin and infamous in the unit rule bosses as the first notable Democratic victim of a reform which greatly enlarges Democracy's opportunities and responsibilities. —New York World

THURSDAY, JULY 4, 1912
TORONTO-CALGARY-LOUISVILLE

"Calgary is engaged in town planning" for an expected population of 200,000. The outstanding features of the scheme are a civic center, playgrounds for children in the residential quarters, adequate railway terminals and trees everywhere.

The above "pat on the shoulder" is given this city in an editorial note which appears in The Toronto Globe of recent date, and serves to show how the news of Calgary's projects is spreading through the East.

Reports from Louisville, Ky., which has been the scene of a great real estate convention, show that Secretary Watrous, of the American Civic Association, in talking town planning to the realty brokers gathered there from all parts of this continent, mentioned specifically "the enthusiasm of Calgary citizens", adding that, in many respects, "the small cities in Canada are setting a notable example to American cities for the interest they have taken in city planning."

In another exchange, The Christian Science Monitor, of Boston, the following reference to Alberta appears, in an editorial advocating the endowment of chairs of city planning: "Endowment of a chair at Harvard, Columbia or Chicago University would be a strategic move, meeting the needs of students that are likely to be drawn from the regions adjacent to these schools, for interest in city planning is generally diffused throughout the United States and newer sections of Canada. One of the keenest attendants on the recent National City Planning conference held in Boston, came from Alberta, and another represented the City of Seattle."

Any movement which links Calgary with cities as far removed as are Louisville, Boston and Toronto, and identifies us with a great continent-wide movement for the betterment of urban conditions, is surely worth promoting with energy. This city should throw its whole heart into city planning. The council should in every way encourage the local commission, whose members, all of them busy men, are giving so much of their time gratis for the advancement of Calgary. In its plans this city stands today in the very forefront of Western cities; we cannot afford to be behind in the speedy realization of those plans, or of such of them as are now attainable.

NOT YET ANNEXED

The doctrine so earnestly preached by the Conservatives in September last, which may be summed up in the statement that if you purchase goods for your household at a corner store run by an Italian you will develop an olive complexion, a taste for garlic and a desire to take part in the Hala-Turkish war, is brought into disrepute by the figures given in the government report of Canada's trade, just issued.

The figures in the report show that during the last fiscal year our trade with the United States increased by eighty millions, or twenty-eight per cent. of the figures for the previous year. During the same period our trade with Great Britain has increased only seven per cent.

If the doctrine of the opponents of reciprocity were sound, a steady alienation of our loyalty from the British Empire and a growing attachment to the United States should have been observable throughout the year, culminating about this time in the annexation of Canada by Uncle Sam. It might be suggested that the necessary formalities have been delayed only by the interest of Uncle Sam in the presidential nominations, but for the fact that the most sensitive observer fails to detect any marked lessening of the love of the Canadian people for the Union Jack.

It is possible that Mr. Borden and his associates were wrong, and that one can buy tea from a Chinaman without developing a feeling of enmity towards the Manchus, toys from a German without transferring one's loyalty to the Kaiser, or anything from an American without desiring to see the Stars and Stripes floating from the Panama to the North Pole?

A LIVELY CORPSE

The feverish persistence with which the Conservative press is assuring its readers that reciprocity is dead is in itself the best possible evidence of the liveliness of that issue. If it was killed in September last, when they held their wake over the supposed corpse, there would be

no need to give it so prominent a place in the obituary notices at this late date.

If they were content merely to make repeated announcements of the death, their action might be accounted for by distrust of the intelligence of their readers or a ghastly delight in the contemplation of death. Their references to the matter, however, are in the style of the poetic declaration which the little girls recite to audiences of admiring relatives:

"I tell you my dolly is dead,
And its no use saying she isn't,
With a crack like that in her head."

There is an especially assertive emphasis which denotes the presence of contradiction and a note of tremulous excitement which suggests fear lest the forces of contradiction may be able to make good their assertions. The extreme nervousness of the Tory press is attributable to the fact that signs are not wanting which suggest that the "dead issue" was only "playing possum" after all. At the present moment, particularly in Saskatchewan, it is kicking up the dust in a fashion so lively as to be positively indecent in a nine-months-old corpse. Our own R. B. Bennett has been called to Saskatoon in the hope that his persuasive eloquence may be effective in inducing "our late lamented friend" to recognize that he is "a has been" and to lie quiet under the flowers of eloquence which were flung with lavish hand on the grave prepared for him in September last. Life is dear, however, and the instinct of self-preservation strong; so that there is reason to fear that it may prove obstinate.

Looked at from some points of view it would seem unreasonable in the creature, once killed, not to stay dead. On the other hand, when the poor thing feels the rich red blood pulsing through its veins, it is scarcely fair to expect it to rest content in the society of the departed.

The Conservative party is deserving of every sympathy as there is every indication that it is in the pitiable plight of the man who, having rejoiced over the news of the demise of a particularly aggressive mother-in-law, receives a wire from the old lady saying: "All well. Am coming by first train to stay."

EDITORIAL NOTES

"It is thought that, but for the presence of mind of the officer, Jusinski might have done considerable damage with his revolver as he talked incoherently when taken into custody," said the Edmonton Journal in its account of a recent shooting incident. When a man cannot "shoot off his mouth" properly there is apparently some reason to fear that he may display more skill in the use of a revolver.

When Colonel Carstairs headed an assault on the windows of the street car that was not stopped at his order did he imagine that he was Chrissy Fankhurst heading an army of militant suffragettes in an attack on the windows of an English post office building?

"The pace in Ottawa is just about as fast as in the larger cities," says The Ottawa Free Press in the course of a plea for the Saturday half holiday. "Faster, surely! Do not these gay old senators invade the town and paint it red when parliament is in session? The Free Press is too modest in its claims."

Dear old Don Quixote, tilting at windmills, is not "in it" with Lieut-Colonel Carstairs charging an oncoming street car at the head of the 101st Edmonton Fusiliers for the 1,500 metres.

"Is ice cream healthy?" asks The Winnipeg Free Press in the course of a discussion of some of the problems suggested by the hot weather. Truly, a difficult question to answer. We might suggest that vanilla and water ice look pale, but then we are checked by the thought that strawberry ice has quite a ruddy complexion. We give it up.

Stories of the Streets

(By HARRY F. BURMESTER)

This one has to go without the identity of the victim being made public but you all know him. He sells real estate. The first person sending in the correct diagnosis will be entitled to the Little Gem oil stove and a sack of flour. Wives of club members are barred from competition. Don't crowd, ladies!

At 4 a.m. he reached the family stoop and carefully removed his shoes in order to make a noiseless entry. With the cleverness born of smoochy Scotch and sweet soda, he Columbused the keyhole and made his way to his boudoir without awakening his better half or any of the servants. He chuckled as he pulled the coverlets about him and snuggled down for a refreshing sleep.

In the morning his wife wouldn't speak to him. He stalled after the manner of the guilty but his air of injured innocence didn't win him any encouragement.

"I say, Alice, you appear to be peeved this morning. Have I done anything to offend you. I've given up the club and am doing everything I can to please you, yet you don't appear to be happy."

"Alice" was some regular young lady herself. Her dainty nose was tilted in scorn as she exclaimed:

"I should be happy with a derelict like you for a husband. I don't care how late you stay at the club nor what your condition of inebriation is when you reach home but I must, for the sake of my own self respect, insist that you carry your boots inside instead of leaving them on the front porch for the benefit of the neighbors."

Inspector Nutt, one of the most popular police officers in the local service, tells this one about a new patrolman:

"Calgary was rather small then and there were not many crooks in the city. This patrolman, we'll call him Constable Green, was walking a beat in the residence district when he saw a man entering a house through a front window. Green promptly collared him and asked what he was doing."

"Sh," came the whispered answer. "I was out with the boys and I'm trying to get in without awakening my wife."

"Green, being a married man himself, took pity on the late wayfarer and boosted him through the window and helped him out—or rather, in."

"Next day the police department received a complaint that the house had been entered by a burglar and practically everything but the cook stove removed. Investigation proved that the house was owned and occupied by a widow and Green had unwittingly compounded a felony by boosting the burglar through the window."

SOUTH CAROLINA

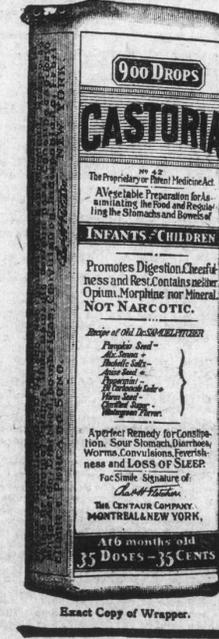

South Carolina is a state of perpetual irritation, situated between Georgia and North Carolina and somewhere between the Revolution and the civil war. It is the fightingest state in the union, and it is the unfairest spot between the Atlantic and the Pacific in which to discuss the emancipation proclamation or to edit a newspaper with a trenchant pen.

Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First—The indisputable evidence that it is harmless; Second—That it not only allays stomach pains and quiets the nerves, but assimilates the food; Third—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—Hall's Journal of Health.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory."
Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."
Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."
Dr. R. J. Hamilton, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."
Dr. Wm. J. McCrann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every name."
Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."
Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my exception. I have prescribed your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

WEAK NECK AND HEADACHE

Exercises that Will Restore Energy and Clear the Brain

A thin weak neck is the frequent cause of headaches. With such a neck the blood supply to the brain is weak, the result of which is a head that is easily fatigued and then you have a headache.

Then when the neck muscles are weak the head is rarely carried in its proper position. It is allowed to droop forward or to one side, the proper circulation of blood being interfered with, and headache is again the consequence.

Further, when the head is not held properly there is a jar when walking or taking other exercise, and once more headache is the inevitable result.

The best exercises for the neck are had bending and head lifting.

In the former the head is bent backward and forward and to one side or the other, the under jaw being thrust out when bending backward and pulled down into the chest when the head comes forward.

Head lifting is really neck-stretching, the neck being stretched as far upward as possible.

Brain workers who feel fatigue coming on will find that a few minutes of head bending will clear their brain and wonderfully restore their energies.

According to physicians at the hospital the man and girl will probably die.

GIRL SHOT IN TAXI

On refusal to marry her Companion Her Fires on Her and Himself

Grand Rapids, Mich., July 2.—Insane with jealousy, I. H. Schuerman, a manufacturer of Carrollton, Kentucky, early today shot and perhaps fatally wounded Miss Elizabeth Morse, 28 years old, of Lyons, Mich., while she was riding in a taxi.

Schuerman jumped from the auto in an attempt to escape and when about to be taken by the police, mortally wounded himself.

According to physicians at the hospital the man and girl will probably die.

DUBIOUS

About What Her Husband Would Say

A Michigan woman tried Postum because coffee disagreed with her and her husband. Tea is just as harmful as coffee because it contains caffeine—the same drug found in coffee. She writes:

"My husband was sick for three years with catarrh of the bladder and palpitation of the heart, caused by coffee. Was unable to work at all and in bed part of the time.

"I had stomach trouble, was weak and fretful so I could not attend to my household—both of us using coffee all the time and not realizing it was harmful.

"One morning the grocer's wife said she believed coffee was the cause of our trouble and advised Postum. I took it home rather dubious what my husband would say—he was fond of coffee.

"But I took the coffee right off the table and we haven't used a cup of it since. You should have seen the change in us, and now my husband never complains of heart palpitation any more. My stomach trouble went away in two weeks after I began Postum. My children love it and it does them good, which can't be said of coffee.

"A lady visited us who was usually half sick. I told her to make her a cup of Postum. She said it was tasteless stuff, but she watched me make it, boiling it thoroughly for 15 minutes, and when done she said it was splendid. Long boiling brings out the flavor and food quality." Name given by Canadian Postum Co., Windsor, Ont.

Look in place for the famous little book, "The Road to Wellville." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

DAINTY DRESS FOR A LITTLE GIRL

The sketch depicts a particularly chic model of pale blue dress, with oversleeves of flowered similar material. The lower front portion falls gracefully in Pleats and Valenciennes lace cuffs edge the oversleeves. A chape finish is given if black velvet bows are added to the costume.

The world is beginning to abhor physical weakness, and the feeble, fainting beauties of the early nineteenth century are being replaced by the rosy, laughing products of hygienic condition. Emerson says: "It costs a beautiful person an exertion to paint her image on our eyes, yet how splendid is that benefit!"

A race whose national mentality is not impoverished by the habitual use of liquor would find strength in peace as in war. Its pleasures would be expressed in industry. Its religion would be expressed in the care of health, in kindness and justice to every living work of nature. The drink habit is a poison as superfluous as it is dangerous.

Surely men and women cannot know or realize what a danger the drink habit is to the future generations or they would "stop, look and listen" before being a party to the paralyzing of the most delicate and wonderful of all mechanisms, the human body. The action of giving or taking a drink of liquor as stimulant is starting a progressive habit, for there is no such thing as a "safe" stimulant.

It is the first stage of a progressive disease and the disease of drink is the most dangerous of all to humanity.

Families that serve wine at meals are doing the greatest injustice to their children, for instead of allowing them to drink anything but non-intoxicating drinks, they are starting that progressive disease that may end in their premature death or disgrace. To see a beautiful young girl drink a cocktail or even a glass of sherry offends health aristocrats, but they know that poison is contained in every drop.

The misfortune of all poison taken lies not only in the always advancing appetite, but in the fact that it is a cumulative poison. When once the imagination becomes diseased with the idea that an artificial stimulant is necessary, downward is the result. What a handicap, alcohol, or drugs! No woman can be beautiful who indulges in them.

The effects are practically the same of all three poisons. The skin becomes yellow and dry; the delicate breath, which should be like the perfume of a spring flower, becomes obnoxious by pollution. The eyes and lips become swollen and parched, and youth is gone completely.

There is far more stimulant in a bracing walk in the open air than in all the wines ever made, more life and health in a glass of water of pure milk than in any cocktail or high ball. More beauty of skin and complexion in a glass of hot water or pure milk than in any wine.

And the knowledge that the mind is clear and the equilibrium perfect gives an expression of youth and beauty that no manufactured concoction can bring.

Remember: A clear brain must see farther than the great temptation.

CLYDE: There is nothing better for chapped lips than a good cream. Do you use your lips? This may be the cause for them being rough all the time. If you do, use a little will power and stop this beastly destroying habit.

FRANCIS: I cannot give you the

length of the road of clandestine love should come to an end when the exchange of the avowals of affection takes place.

There is no excuse for reticence after that. By declaring himself openly a lover shows his worthy intentions and joy is the result.

Where clandestine wooing continues there is danger such as a hidden rock in a smiling sea. A man is the first to weary of a clandestine wooing, carried on after romance has taken flight.

It is apt to take his fancy who bars strictly a clandestine love-making.

I am lost in maze of wonder over a letter from a young woman who writes me if I think that there is any wrong in clandestine love-making.

At the beginning of the courtship her lover spoke of marriage, and now, after three years, he laughs it off whenever she broaches the subject.

I would say to her, make no delay in bringing the matter to the attention of your parents. Secrecy in love-making is never to be commended. It causes more broken hearts and loss of faith than anything else I know of.

No Boy Friend
"Dear Miss Libbey: I was going to a dance one night last week. Now, I didn't have any boy friend to go with, so I thought it was all right to go with two girl friends. When called at those girls' house, one of them had fellow there to escort her. We three girls went out together with the boy, and of course, the boy underwent all expense, which made me feel much ashamed, as I had never met him until that night, and I didn't expect it from him. I intended to pay my own way on coming home. I was the first to get on the car and I paid the fare for the four. The boy got sore and gave me back my money. Since then my girl friends have acted coolly toward me and said they were ashamed of how I acted.

Now, did I do right in paying the fare, never meeting the boy before and feeling that he should not pay my expenses, as I had money as plentiful as his? Also I went with a boy for some months. At the time he seemed to think a great deal of me, but for some unknown reason quit coming to see me and with one of my girl friends. I haven't seen him since; neither have I called him up or written to him, as I do not want the boys to think I am running after them. I like my girl friends just the same. Now I know I shall meet this boy soon. What shall I do? Ignore him, act friendly toward him, or act coolly toward him?"

ANXIOUS?
"You were placed in an embarrassing position. I think you were honorable not to want the boy to incur all that expense. However, as I have often said in this column, men do not appreciate a woman's efforts to help them save money as far as entertainment goes. Act as friendly as possible toward the fellow. There is no reason why you should be on the defensive with him.

What Shall She Order?
"Dear Miss Libbey: What is the proper thing to order at a little supper in a cafe after the show?"

MISS B.: "Undue moistness in the palms of the hands is often an expression of extreme nervousness or lack of nerve tone, or it may be purely local. Eau de Cologne, containing 3 per cent. of dilute acetic acid, sprinkled on the palms and allowed to dry may be all that is required, but in addition a dusting powder may be used, and one made of powdered French chalk and hydrocodium scented with a few drops of essential oil is excellent.

I shall be glad to send you the instructions for manufacturing if you will send me a stamped addressed envelope.

VIVIAN: There is a witchery in long, curling hair, and an artfully detached eyebrow showing delicate arches. If you will set to work and devote a few minutes each day to training the hair, you will find that you are easily trained to an attractive man of growth. Remove the hair that grows out of the brows with lavender. Night and morning smooth the brows with a little yellow brush.

Press a drop of the French eyebrow ointment on them. Then gently pinch them, starting at the corners and working toward the nose. A little pinch of flesh is taken between the thumb and first finger, and the little hairs matted in a line through the centre. This treatment arches the brows and keeps the hair where it should grow. The tonic nourishes the follicles and keeps the hair glossy and fine. The lashes should be brushed daily, the strokes turning upward so as to curl them. A little almond oil placed on the finger tip, the lid lifted with the other hand, and the little rim of delicate hairs touched several times, going backward and forward.

I shall mail you a recipe for the French tonic for eyebrows and for a tonic to strengthen the eyes, for weak eyes, as a rule, have thin, straggling lashes and the eyebrows are scant and dull looking.

TO WHOM IT MAY CONCERN:
Some women write to ask how they can prevent their feet from swelling. I would suggest that they wear shoes large enough to allow the foot full play and thin enough to allow the air to get to them. Much bathing of the feet with warm water and a plentiful amount of soap will strengthen the muscles and reduce the swelling of the feet. Changing the shoes once or twice during the day will rest the feet.

When reclining upon a lounge or sofa the feet should recline also. The old-fashioned footstool, which is the present day knows nothing of—that of resting the feet. Most people who have their grandmothers' footstools keep them as ornaments only, whereas if they were to imitate the dear old ladies and use the footstools occasionally they would see what a comfort they are.

COSE: Better is something when applied to the feet. The feet should be powdered with borated talcum powder before putting on the stockings and shoes. A little kindness and consideration for the feet will prevent much discomfort as well as pinched and unbecoming faces.

"The Lady He's Moving With"
"Dear Miss Libbey: Could you kindly render some assistance to a fellow in my circumstances? The lady I am moving with is to me a wonderful creature. My one and only objection is that she will not accept my proposal of marriage. She thinks I'm too flighty, too eager, and none too well financially fixed. Could two people live conveniently on a monthly \$75? That is my present earnings.

Her agreement is that if I prove my worth she will willingly dare anything with me. Would this be called petting or coquetting in her or me? We are both living in the same circumstances, have the same likes and dislikes, and as to inheritance we may as well forget that, as our parents are strongly opposed to our getting married. Should this make a difference in our happiness or do you think perhaps her heart is in the hands of her mother?"

She has other admirers, but keeps no secrets from me, and is always over the matter.

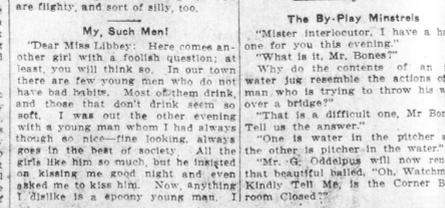

I am of medium build, with sunburn brown hair and a rosy complexion, while she is small and lovely with lighter hair, blue eyes, and altogether beautiful. Now, are we mated? Don't say no if you think there is the slightest chance of my developing into the character that could make this lady love me—at present a most bewildered fool.

AGAMEMNON?
I think the girl shows her good sense in refusing a proposal from such a fellow as you are. No, I would not call it petting in her. I would call it plain, ordinary common sense. No, the ordinary objections should not make any difference providing you have sense and ability enough to make a living for yourself. I agree with the girl. You are flighty, and sort of silly, too.

My, Such Man!
"Dear Miss Libbey: Here comes another girl with a foolish question; at least, you will think so. In our town there are few young men who do not have bad habits. Most of them drink, and those that don't drink seem so soft. I was out the other evening with a young man whom I had always thought so nice—fine looking, always goes in the best of society. All the girls like him so much, but he insisted on kissing me good night and even asked me to kiss him. Now, anything I dislike is a spoony young man. I room closed!"

By-Play Minstrels
"Mister interlocutor, I have a hat one for you this evening."
"What is it, Mr. Bones?"
"The contents of an 80 water jug resemble the actions of a man who is trying to throw his wife over a bridge?"
"That is a difficult one, Mr. Bones. Tell us the answer."
"One is water in the pitcher and the other is pitcher in the water."
"Mr. G. Odolopus will now render that beautiful ballad, "Oh, Watchman, Kindly Tell Me, is the Corner Bar-tilike me a spoony young man. I room closed!"

SOME FINE AUTO EXHIBITS AT THE EXHIBITION MANY MAKES ARE REPRESENTED

That Calgary is fast becoming recognized as one of the best automobile cities in the Northwest is attested by the number of exhibits at the fair grounds this week. Practically every make of car manufactured in the United States or Canada is represented in this city, and the demand for machines keeps the agents worried and the railroads puzzled to make deliveries. Perhaps one of the most unique exhibits to be seen at Victoria Park is the grade-climbing stunt arranged by Charles Jewitt, local sales manager for the Carter car. Jewitt had constructed an incline of alarums steepness, and several times daily a demounting car has made the climb. The vehicle used was a Carter car with fraction transmission. The Winton company has one of its popular six-cylinder, self-starting machines on exhibition in the garage of the Southern Alberta Motor company. Throughout the United States and in Eastern Canada, the Winton is represented as one of the most satisfactory cars on the market. The Winton "six" so-called because of the six-cylinder engine, is perhaps the most popular medium-priced car in the show. The Abbott-Detroit is another medium-priced car that is on exhibition

NATURAL GAS MAY BE USED AS FUEL IN LOCAL SCHOOLS

Proposition Is Considered at Yesterday's Meeting of School Board. May Go in With the City in Order to Get Minimum Rate Offered. Cupid Playing Havoc in the Ranks of the Instructors--Many Resignations. Natural gas may be used in the public schools of Calgary for fuel purposes. The matter received the consideration of the board at yesterday afternoon's meeting. The representatives of the natural gas company were present and advocated its use in place of other fuel. The statement was made that at a cost of 1,000 feet it would be cheaper than coal; unfortunately they were not supplied with facts and could not give comparisons or exact estimates. There are three rates for consumers in Calgary: 50c for the ordinary consumer, 20c for those who use the gas for generating power, and 15c a thousand for the consumer who uses more than half a million feet a day. The gas company wish to charge the school board at the 50c rate. After some discussion it was decided to refer the matter to a committee. It was thought that the school board might join with the city and consume enough gas to take advantage of the minimum rate. A number of resignations of teachers were accepted by the board. Among those who have resigned are Miss Erwin, Miss Beattie, Miss Sutherland, and Miss Sinclair. Many letters were read by the secretary offering to sell school sites to the board. A committee was appointed with power to act with regard to the putting of a stone front in place of the metal one of which the high school facing at present consists. At the time when the school was built it was not known by the board that the metal facing had been used. The work will cost about \$5,000. The caretakers of the various schools will be allowed two weeks holiday in August on condition that they make arrangements for the necessary work on the grounds to be continued.

JERSEY CITY ELKS SEE CALGARY ON WAY TO COAST

A special train of seven cars arrived in Calgary at 12 o'clock last night, carrying the motto "Coast to Coast, Jersey City Lodge of Elks." The party consists of about 100 people. They are on their way to the grand lodge meeting of the Order of Elks to be held in Portland this month. The train started out last Saturday from Jersey City and came to Calgary via St. Paul. "Although we are going out in less than an hour," said J. B. Payton, excited ruler of the lodge, "I had to get up and have a look at Calgary. We have heard so much about it back home. You have a fine city here," he continued, "the only one this side of St. Paul." The party will spend today at Banff, and then go on to Vancouver. There they will leave their train and go by steamer to Seattle. The train will return there and they will proceed to Portland.

PASTOR, PERSECUTED BY GOSSIP, LEAVES CHURCH

Angered at Rumors Linking His Name With Politicians' Wife, He Will Abandon Ministry; Husband Sympathizes With Clergyman. Hartford, Conn., July 3.—Rev. A. E. Carpenter will resign Sunday his pastorate of the Cromwell Baptist church, which he has held since October, 1911. He will not only leave Cromwell but the Baptist ministry as well, he announced today. His resignation is the result of bitter experience with gossip and busy-bodies. Formerly, some of them members of his congregation, who appear to have formed secret societies and doggedly followed and marked every move and visit of the young clergyman in the past few months. Spies Trailed Him. An illustration of the tactics employed by the gossips who have practically forced Mr. Carpenter to give up the ministry in sorrow is supplied by the records known to have been kept by the elite of Berlin, supported Count Boardman, the young and handsome wife of Arthur Boardman. She is a character in the church and greatly interested in church work with her husband. "Lookouts" were established in the neighborhood of Mrs. Boardman's home, and the date of Mr. Carpenter's visits to her and the length of time he remained there while her husband was absent at business were carefully noted. He said they published the fact that he had remained at Mrs. Boardman's home three hours. Husband Sides with Pastor. Mr. Boardman, a prominent Republican politician, only recently learned of the watch over his home and of the real reason for Mr. Carpenter's determination to resign. He is 4 feet 5 and militant, and he freely denounced the gossips and sympathized with Mr. Carpenter. He said today after he had sent for Mr. Carpenter and they had had a long conference, that he begged his friends to aid him in discovering the identity of the persons who had put a watch on his home and started the ugly rumors based thereon which would have explained to him upon what grounds they had based their work in the church and other church matters. Sometimes he found Mrs. Boardman engaged upon office work to assist her husband in his business, and while discussing church matters aided her in making out bills and typewriting letters. On such occasions his visit was somewhat prolonged and the "spies" eagerly published the fact that he had remained at Mrs. Boardman's home three hours.

KAISER CHECKS DUELS THAT MENACE RACING

Prospective Combats Threatened to Decimate Clubs Behind Sport--Grave Affair of Honor. Berlin, July 3.—The Kaiser is said to have participated not only in trying to avert the duels of Count Koenigsmarck, a prominent ex-cavalry officer an da member of the Union Club of Berlin, and the stewards of the Hamburg Racing Club, but also in arranging a settlement between the two clubs whose animosity threatens a serious setback to racing in Germany. The row grew out of an incident on Derby Day, June 23, when the police at the instance of Steward Kaemmerer, ejected Count Koenigsmarck from a box at the Hamburg Club racetrack at Hamburg, because he refused to get out of a chair on which he was standing in the box which had been rented by the Union Club. Count Koenigsmarck immediately sent challenges for a heavy pistol duel at short distance to each of the seven stewards. The challenges were promptly accepted. Each club held a meeting to discuss the affair. The Union, which includes the elite of Berlin, supported Count Koenigsmarck solidly. Mediators have been on their way from Berlin to Hamburg all through the week in an endeavor to settle the matter on the basis that the Hamburg Racing Club should apologize to the Count, who would thereupon withdraw his challenges. The Racing Club and the Count refused to accept, Koenigsmarck insisting that only blood could wipe out the insult. It looked bad, as further challenges were feared from other mem-

bers of the clubs, most of whom are soldiers. The Kaiser finally took the matter up. He appealed first to the two clubs to stop the row in order to save racing, of which they are the mainstay. It was announced on Wednesday that Steward Kaemmerer had resigned from the Hamburg Racing Club. This is taken as an indication of the first step toward a settlement of the row, and it is believed that as a result of pressure and advice by the Kaiser the incident will be closed without any duels, which in Germany, unlike France, are usually of tragic ending.

GASOLINE, A MATCH, AUTO, FIRE, FRIGHT, EXPLOSION

"Ah just can tell that there is gasoline alippin' out of that tank. Can't you hear no smell?" Clinton B. Ford, colored, an automobile driver with a William J. Burns sense of detection made the above remark to a fellow negro. Then Ford to prove his assertion lighted a match and dove into the inner workings of the engine to locate the trouble. It was a most accommodating leak and Ford didn't have the slightest trouble in discovering the source of the trouble. Scarcely had he lighted the match when an explosion occurred. This was followed a second later by another explosion. Speaking of the occurrence afterward, Ford said: "There was two explosions just like this--boom, boom. The first one I recollect distinctly for I was just crossing Ninth avenue, but the second one I didn't hear quite so well for I was looking for a fording place on the Bow river." The fire department was called out and saved the machine from total destruction. The explosion occurred near the C.P.R. depot.

WHEN NOSTRILS ARE PLUGGED YOUR CATARRH IS BAD

BY ACTING TODAY YOU CAN QUICKLY CURE CATARRH AND AVOID BRONCHITIS, PERI-PHAPS CONSUMPTION. Most Agreeable and Surest Cure is Catarrhazone, Which Cures Every Curable Case. Catarrhazone proves especially good in those chronic cases where mucous drops down the throat, stinks the stomach, and pollutes the breath. When the nostrils are stuffed, only a few breaths through the inhaler are needed to clear the passages, and where there is coughing and sore bronchial tubes the soothing, healing properties of Catarrhazone act almost as magic. Once you stop taking medicine into the stomach and get the healing oils and pure balsams of Catarrhazone at work you can be sure of quick and lasting cure for nose colds, catarrh, weak lungs, bronchitis, and speaker's sore throat. 19 YEARS OF CATARRH CURED. "As Catarrhazone has cured me of a Catarrhal Cough and Asthma that lasted thirteen years, I feel I can honestly recommend it. I really used all kinds of medicine, but Catarrhazone was the only one that did any real good. I am entirely cured--have no cough, no bad breathing spells, not a sign of a cold or catarrh about me. But I will always use Catarrhazone." E. L. Osgood, Johnson P.O., Ont. "I occasionally use Catarrhazone, I prize it so highly. Mrs. E. L. Osgood, Johnson P. O., Ont." The complete 1 1/2 oz. outfit of Catarrhazone is sufficient for two months' treatment, and is guaranteed. Smaller size, 50c, at all dealers. The Catarrhazone Co., Buffalo, N. Y. and Kingston, Ont.

NO, FUNK DID NOT WIN AWAY WIFE

Cleared by Jury of Charge of Alienating Affections of Mrs. J. C. Henning. Chicago, July 3.—Clarence S. Funk, the wealthy general manager of the International Harvester Company, was cleared of the charge of having alienated the affections of Mrs. John C. Henning by a jury in Judge Sussler's court today. It took the jury less than twelve minutes to decide the case. Henning had sued for \$25,000 damages, alleging that Funk had enticed his wife at hotels. Rumors of impending arrests of witnesses on charges of perjury flew about the court room as the trial of the case reached a point where the jury were about to retire. An assistant state's attorney and several detectives from the prosecutor's office were in court during the final stage of the trial. Attorneys for Henning pictured Funk as a man who believed his wealth about 200,000. He alleged that in their talks to the jury they frequently referred to the size of Funk's fortune and compared it to the poverty of the complaining husband. Counsel for Funk, on the other hand, denounced Henning for taking part in an alleged plot to blacken the name of Funk, who was one of the principal witnesses in the Lorimer case, connected with the name of Edward Hines, with an alleged \$100,000 "blush fund." Mr. Funk said: "The question of arrests for perjury and conspiracy is now in the hands of the state's attorney and my lawyers."

THE DIFFERENCE BETWEEN PROMISING AND MAKING GOOD

Is as Great as the Difference between Day and Night.

We have been telling you what we were going to do in improving **LAKE VIEW PARK** -- 40 acres -- in the center of

Lake View Heights

and now we are doing it -- **MAKING GOOD**. We have told you that **LAKE VIEW PARK** will be the Beauty Spot of Calgary and

Lake View Heights

Calgary's Highest Class Residential Section
and we will make good every statement we make.

Stop and Consider These Facts a Moment--- a firm that will build a bridge and donate it to the city -- which we are now doing -- furnish free automobile service to the car line -- which we guarantee to do -- will spare no *expense to make good.*

No, we are not Philanthropists, just simply wise enough to know that the wise buyer appreciates these things and that is why our customers are **CALGARY'S BEST PEOPLE**

Furthermore, while we have sold a number of lots, we have a number left, and every dollar we spend is increasing the value of ours and at the same time *increasing the value of those we are selling*

Consider these facts well before making your investment, or buying that homesite. Investigate

LAKE VIEW HEIGHTS

And remember that so far we have made good on every statement we have made and that we will continue to do so until **LAKE VIEW PARK** is the pride of every Calgarian.

Also remember that when these improvements are made -- and according to our contract, that can not be later than Oct. 1st, 1913 -- that there will not be a lot in **LAKE VIEW HEIGHTS** that is not worth at least double what we are now selling them for.

THE MARKETS

Winnipeg Grain Market

Winnipeg, July 3.—The rains which visited Manitoba last night in quantity only sufficient to freshen the blade without getting to the roots, with reports of good rains in the Dakotas, had the effect of weakening wheat futures on the market today. Options were unchanged to 1-8 cent lower on opening and declined fractionally with a very light volume of business transacted.

American markets were steady, with Liverpool closed 1-8 lower to 1-4 higher.

The cash demand was improved for the lower grades with a continued good demand for contract wheat and offerings fairly liberal while export enquiry was more active and positive in tone.

Winnipeg options closed 1-4 to 1-2 cents lower. The closing price was 7 1-8 cents over the corresponding date last year.

Minneapolis closed with July 3-4 cents higher but September and December 1-2 to 3-4 lower, while Chicago wheat was 1-8 cents higher for July and 1-2 cents lower for September and December. There was quite a decided weakness in corn and oats.

The demand for cash oats was quiet and prices for both cash and options were lower.

Flax was dull and weak and at the close went down with a dull thud. July closing six cents below yesterday's close. October flax however, was unchanged.

Receipts were 320 cars today. Today's transactions: Wheat all, Oats 57,000 bushels. Feed oats 13,000 bushels. Flax, 5,000 bushels.

Grain inspection—No. 1 Northern 5, No. 2 Northern 17, No. 3 Northern 53, -56, Feed No. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

CHICAGO WHEAT

Chicago, Ill., July 3.—The wheat market had a further break owing to holiday liquidation. The close was steady, all wheat net lower, at 1.03 1/2 and 1.03 1/4.

NEW YORK STOCKS. New York, N.Y., July 3.—The stock market's initial response today to the resolution reached by the Democratic national convention was a sudden rise of from one to two points in such stocks as Reading, Union Pacific, Canadian Pacific, and U. S. Steel, while half a score of the less suspended issues gained as much and more. Then came news from Washington of the resignation of the assistant secretary of the treasury under circumstances that pointed to serious differences of policy with his chief, and the market speedily reversed, until losses were out of all proportion to early gains.

From this level the flat made partial recovery, some stocks selling higher than at yesterday's close. The speculative favorites remained steady, except those comprising the Hill group, which gained materially as a result chiefly of the very favorable crop prospects for the northwest. Later, the traders also bettered their position for several reasons and O. & W. advanced in price above that quoted last week.

Today's dividend was suspended. American Tobacco was decidedly heavy with reaction in other shares of that group.

Minneapolis, St. Paul, and Sault Ste. Marie reported excellent earnings for May. As did also O. & W., while D. & R. G. ran considerably better.

Bonds rallied after early irregularity. Total sales, par value, \$2,640,000. United States governments were unchanged on call.

Montreal Live Stock

Montreal, July 3.—At the C.P. live stock market the receipts of live stock for the week ending June 29, were 1,150 cattle, 1,250 sheep and lambs, 1,120 hogs and 100 calves, while the offerings on the market this morning for sale were 1,100 head of cattle and lambs, 1,400 hogs and 130 calves.

A weak feeling developed in the market for cattle today and prices scored a further decline of 100 pounds and 100 pounds. This was attributed to the large increase in the supply of common and inferior stock, which had a depressing influence on the better grades although supplies of such were not heavy.

The warm weather tended to curtail the demand to some extent, and this is coupled with the above reduction in values.

The top price realized for choice steers was 750, but the bulk of the trading was done in good stock at 600, 650 and 700 per hundred pounds, while the common and inferior stock sold from 350 to 400 per hundred pounds. Choice butchers' cows sold at 500 at 550, and the lower grades at 400 and 450 per 100 pounds. There were no bulls on the market, and the prices realized for what were offered, ranged from 300 to 350 per 100 pounds. The market for sheep and lambs was weaker, and prices ruled lower with sales of the former 400 at 450 per 100 pounds, and the latter 400 at 500 each. The supply of hogs was much larger than expected, and the market in consequence was weaker and prices declined 25 cents per 100 pounds. Sales of selected lots were made at 850 at 875 per 100 pounds, and mixed lots as low as 700 per 100 pounds. Demand for calves was good, at prices ranging from 300 to 400 each.

MONTEAL PRODUCE

Montreal, July 3.—Demand for butter fair and some is being bought and stored for winter accounts. Cheese, quiet but steady. Eggs fairly active.

Cheese—First western 13 1/2c. First eastern, 12 1/2c to 12 3/4c. Butter—Choice, 25c to 26 1/2c. Seconds, 24c to 24 1/2c. Eggs—Selected, 25c to 26c. No. 2 stock, 15c to 16c.

Pork—Heavy Canada short mess, 25c to 26c. Light Canada short mess, 24c to 25c. Side short cut back, barrels 45 to 55 cents, 2 1/2c.

London Stock Market

London, July 3.—The stock market was quiet but cheerful, especially British securities, which advanced under investment demands. Prices rose 1-2 to 1-1 1/2 points. Consols gained 1-16 on the conclusion of the settlement. Rubber and Oil shares were steady and Foreign rails and Coppers ruled easy.

American securities appeared irregular, but declined on poor support. Prices improved later, but fell sharply in the afternoon under the lead of U.P. and the Steel stocks on New York selling. The close was stronger, with quotations a fraction above the lowest.

Montreal Stocks

Montreal, July 3.—The local market looked as though it was in for a weak turn today, but it did not develop very far.

Rio and Sao Paulo were again outstanding in strength, particularly in the early trading. Toronto is still reported bullish and a predicted rise in prices. Some issues looked weak around the opening but the strong features outweighed them and the market closed firm.

Rio went up as high as 154 1-2 and Sao Paulo 241 but Rio closed considerably under the lead, showing a net gain.

Power went off to 214 1-4 but rallied to 215. Richelieu was stronger at 134 but closed 116 1-2.

C.P.R. was strong at 265 1-8, while steel was a small fraction better. Quebec railway sold down to 32 and Laurentide eased off to 192.

Rio was active in the afternoon at 152 1/2 with a subsequent rally to 153 1-2. Sao Paulo held at 240.

Bulls were firm at 141 1-2, Richelieu 117 1-2 and Car 51 1-4.

C.P.R. was stronger at 266 7-8 but Laurentide again declined to 190, fourteen under the best.

URGES BOXING FOR BOYS

Dr. Holmes Says They Can Work Off Instinct to Fight

Providence, R.I., July 3.—As an outlet for the barbaric instinct in boys to punch and fight with one another, Dr. Arthur Holmes, of the University of Pennsylvania, at today's session of the American Association to Promote the Teaching of Speech to the Deaf, suggested that to the boys big boxing gloves be given and that they be allowed to work off this fighting impulse. He immediately qualified this statement, however, by saying that he did not advocate having a public school hold prizefights in the assembly hall, and refused to have the girls of the school as spectators.

It was speaking on "The Psychology of Childhood." He said it was instinctive in boys to throw stones.

TOWN DOES NOT LIKE THE SINGLE TAX SYSTEM

Barons Does Not Know How to Raise Revenue Under New System

Special to Albertan. Barons, Alta., July 2.—The Legislature did not do Barons a good turn when it passed a law entailing single tax. At least, that is the view held here. Barons needed the assessment on land and buildings to raise the necessary revenue.

It is claimed that the assessment last year placed the market value on real estate and buildings does not see where the assessment is to come from upon which to make the necessary levy.

A crisis has been precipitated by the resignation of Councillors Welsh and McKay, who refuse to serve under the circumstances. This leaves the council without a quorum and it is said that no one else will consent to run. The feeling is in favor of appealing to the new minister of municipalities, asking the minister to step in and solve the perplexing problem.

Barons is in one of the finest agricultural districts in the province and with the rain now falling, a bumper crop is assured. It is not a question of finance, the much as how to adapt the existing civic conditions to the new law. Barons has been borrowing money to make improvements and a larger revenue is needed this year.

AVIATION CIRCLES WARSHIP

Lieut. Rogers Features Biplane's Usefulness for War Time

Baltimore, July 3.—Lieut. Rogers of the United States army drove a Curtiss biplane this morning from the Aero Station near Annapolis to the battleship Louisiana. Ascending at eleven o'clock the aviator shot his plane flying ahead at an altitude of about 400 feet and lighted on the starboard side of the battleship, about 35 minutes later.

In sight of the big war vessel he altered his straight course and performed evolutions above them, that brought out every feature of the air craft's usefulness in time of war. The aviator's flight, and gradually rising for his final plunge to the side of the Louisiana, the ship.

The aviator subsequently performed a number of evolutions and returned to the experiment station opposite Annapolis this evening at 4 o'clock.

\$56,000 THEFT DID HIM NO GOOD

Mues Stole Quantity of Blank Banknotes That Were Worthless Unsigned

With ninety-five sheets of the \$56,000 unsigned Brazilian banknotes that he is alleged to have stolen from the American Bank Note Company, wrapped tightly around his body, Louis Mues, 35 years old, of 87 Marston street, Hoboken, was arrested yesterday by detectives from police headquarters, who have been trying to detect the theft of the foreign banknotes of the company's plant at Tiffany street and Ount's Point Road, The Bronx.

Confronted with the evidence, Mues, who is married and has one child, is alleged to have confessed. Detectives Fitzpatrick, Glover and Conroy, who took him into custody as he was leaving his place of employment, say he told them that the remainder of the missing certificates could be found at the home of his mother, at 227 Jackson street, The Bronx. The prisoner was taken to that address by the detectives. In a wooded lot near the rear of the place, in a suitcase, the remainder of the Brazilian money was found.

One of the peculiar features of the arrest of Mues and the recovery of the missing certificates was that the American Bank Note Company, according to the detectives, was unaware that a theft was at work in their place. They were surprised when told of the arrest of Mues and the recovery of the certificates. The prisoner had been in the employ of the company nine years.

Mues said he didn't know why he had the certificates, although he has many years it was only within the last few days that he had taken any of them. The certificates had been manufactured for a bank in Brazil. They were worthless until signed by the bank officials.

MAGDALENA BAY SCARE REVIVED IN MEXICO

Rebel Customs Official Says Japan Has Agreed to Pay \$5,000,000

El Paso, Texas, July 2.—The old Magdalena Bay nightmare, sprung several months ago and denied by both Mexico and Japan, was revived today. Through Castillo Herrera, in charge of customs affairs for the rebels, it was said that the Japanese government had leased the Bay.

"The Japanese have secured an agreement from the rebel chiefs for a lease on Magdalena Bay and have agreed to pay \$5,000,000 for the lease," he said. "The money has not yet been paid for the formal papers drawn, but the agreement has been reached."

"Gustavo Madero, brother of Francisco I. Madero, Mexican president, went to Japan some time ago as Mexican ambassador, and it was through some arrangement has been concluded between the Japanese and the Mexican government and that the Japanese, not desiring to have overturned if the revolution is successful, getting to make peace with the rebels by getting the rebels to give up the bay, I do not know that the Japanese government has concluded any deal with the Mexican government, but I presume that is the case because of the deal with the rebels."

The federal army has succeeded in crossing the Ortiz bridge over the San Pedro River, south of Bachimba. The fighting cannot be postponed many hours, as the two main armies are now face to face and the federal fighters have gained the rear of the rebels to prevent a retreat to Chihuahua.

Milo and Raul Madero, brothers of the president, with 800 cavalry, are quartered at the Humboldt ranch, near Mexqui, east of Ortiz, while a similar number consisting of infantry, is holding forth at Santa Cruz de Rosales, four miles west.

Gen. Orozco, the rebel chief, has begun a distribution of forfeited lands to homesteaders, giving title in the name of the rebel government to 40 today.
