THE VERDICT OF THE JURY

MACWHERRELL AND WALKER TO BE TRIED FOR MURDER,

see that it was obeyed.

Before the jury went out Crown Attorney McFadden informed them that in his opinion MacWherrell and Walker were implicated and principals in the crime, and that Buchard was an accessory to the fact.

When the verdict of the jury was being read the prisoners did not show any agitation except Buchard, who seemed to have an idea that he would be discharged. Unfortunately for him the jury did not take much stock in his story. They thought it was too fluent and that he was still keeping something back.

Bargaining With the Enemy.

In reviewing the political situation in Ontario The Globe extracts comfort for its assumption that the "new forces" now at will operate with equal disaster upon Mr. Will operate with equal disaster upon Mr. Will operate with leadership of the next.

When property is being taxed of the property is being taxed of the resolution and of the property is being taxed of the resolution and of the pople. The plaintiff of the people of the pe work in politics, although they may be directed primarily against Sir Oliver Mowat, will operate with equal disaster upon Mr. Meredith. The situation is more serious reason why the former should look about than merely rebuking Sir Oliver. If the lesson which the Patrons are bent on teaching the politicians is to be effective it must be thorough. The author of the iniquity they are fighting must be decapitated. As for Mr. Meredith the Patrons cannot charge him with nepotism or the dual office robbery, or centralization of power that rightly belongs to the counties and municipalities. Mr. Meredith has never been given an opportunity to show what sort of a Premier he would make. As the case now stands Sir Oliver has been proven guilty and the sentence must be pronounced accordingly. e Constable Chariton Gives His raion of the Craigmile Legacy Fake —A Heartless Piece of Business. If the story Police Constable John A. harlton told the Magistrate yesterday ith respect to the Craigmile legacy is true ne is not the knave that the relatives of raigmile claim him to be, but he is shown have been guilty of a heartless piece of

deception and of having perpetrated the most clownish piece of "detective" work ever recorded in the courts.

The charge against Charlton was that he falsely represented himself to be Philip Vernham of Todmorden and that he claimed to be executor of the satate of Alexander to be executor of the estate of Alexander Craigmile, who was reported to have died in Rangshare, New South Wales, in 1892, leaving an estate valued at £5633 for dispublications and the contraction of the

The case was remanded for a week with a view of seeing if Charlton can furnish corroboration of his story.

Meantime the Magistrate has advised Charlton to pay James Craigmile his expenses, as it was through Charlton's tomfoolery that he came here.

After Charlton has paid his lawyer and his dupe he will probably come to the conclusion that he is not cut out for a description.

Dear Sirs,—

It is with much satisfaction that I learn that you have decided to establish a branch office in Toronto, believing as I do, that the more widely your Acetic Acid remedy is made known, the greater will be the gratitude accorded to you for the relief experienced by many sufferers in Canada. We have used your Acid for over eighteen years, and are now prepared to state that it is worthy of a place in every family. We have found it thoroughly safe and effective and have commended it to many,—for which we have been thanked. We wish you success in your new quarters, as we feel sure your successfull bring relief here as it has already done to large numbers in the old land and other countries. Much will depend on the patient and persevering use of the Acid as set forth in your little book.
