Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

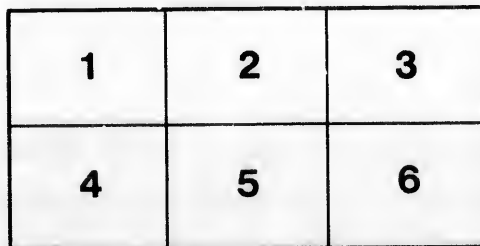

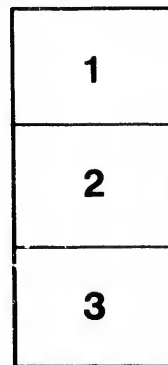

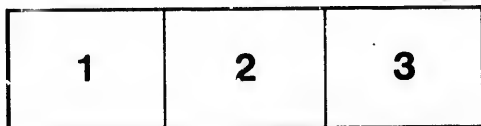

Bibliothèque nationale du Québec

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Québec

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

OPINIONS OF THE WORK:

CUSTOM HOUSE, HALIFAX, OCT. 17TH, 1887.

DEAR SIR,—I have only time to examine a few of the calculations as they appear in your manuscript copy, but from my personal knowledge of your care in preparing previous statements for facilitating general business, I am warranted in believing that your present Book can be relied on as correct in all its details. In this age, of concentrating work into as short a time as possible, your projected publication will be found of much value, and particularly to those who have to do business with the Customs. I have no doubt but Officers of the Customs will find it of much value to them in lessening their work in figures when often pressed for time. I shall feel pleased when you are enabled to publish the Book, on which you have bestowed so much labour and care, and hope that it will receive that patronage from men in business which it justly merits.

J. B. STRONG, Esq.,  
*Publisher, &c.* (Signed), WM. ROSS, *Collector.*

HALIFAX, FEB'Y 7TH, 1885.

SIR,—I have not had leisure to go into the calculations in your "Customs Ready-Reckoner and Importers' Guide," but from my knowledge of other publications of this sort, of which you have been the author, I feel convinced that it will be of great service to the business public.

Your obed't servant,  
W. H. HILL, *Inspector of Ports.*

We have hastily glanced over the manuscript of a Book, prepared by Mr. J. Bennett Strong, entitled "Customs Ready-Reckoner and Importers Guide," and consider it will be found when published, a very use ul work for those having business with the Customs Department.

*J. B. Strong, Esq.:*

DEAR SIR,—Having examined the MS. of the work you propose to publish, we think it will greatly facilitate the business of passing Entries through the Custom House, and will prove of great assistance in reducing the labor entailed through the want of such a publication.

DEAR SIR,—We have examined some of the calculations in the manuscript copy of your work, and have found them correct. We recommend it to all importers who have business with the Custom House as offering peculiar facilities in preparing Entry Papers for Duties.

APPLICANT'S OFFICE, HALIFAX, N. S., 14TH OCT., 1887.

SIR,—I have examined some of the calculations in your Manuscript Book. I could not undertake to verify every sum, but so far as I have gone I have found the calculations correct. It is a work of great value to all importers. The original of the sterling and equivalent value in dollars has been in use in the Custom House here for some years. You have extended the Tables, and, therefore, lessened the work of preparing Entries for Duty, so much, that no clerk who has once used it would be without it. I hope that you may get the work published, as I feel certain that it will command a wide sale among all persons who have business with the Customs.

Yours truly,  
(Signed), D. BLACKWOOD.

I have read the foregoing Certificate and fully concur therein.

**\* NOTICE \***

**I**N addition to the explanation given in the Preface to the DOMINION CUSTOMS READY RECKONER, the Compiler thinks it is necessary to add, that the apparent discrepancy in the Sterling Column can be explained by a few words; i.e. that there is One Dollar, in Sterling Money, between each amount of Invoice, corresponding with the even Dollar (Canadian Currency) in the next column; and should any difficulty arise in finding a given sum in the Sterling Column, it must be borne in mind—that should the Invoice exceed one Penny, any of the amounts in those Columns, the next larger sum will have to be taken, which is the LIMIT of that Dollar, and so on to the end of these calculations. FOR SPECIFIC DUTIES, :— Take the Dollar Column for Numbers or Weights, and the Percentage Columns for the Rates; multiply and the remainder is the Duty in Dollars and Cents. *See Tables*

## EXPLANATION.

---

In using the following Table it will be necessary to bear in mind, that the practice of the Custom House is to take the nearest even Dollar to the amount in the Invoice, viz:—

From 2s. 1d. stg. to 6s. 1½d. the Importer will have to pay duty upon One Dollar only; but if the sum should be 6s. 2d. he will be required to pay Duty upon Two Dollars.

Again, £1. 6s. 8d. is equivalent to \$6.49; the 49c. are thrown off, and Duty is paid upon \$6. But if the amount should be £1, 6s. 8½d., or not exceeding £1. 10s. 9½d., the value for Entry would be \$7.

---

The Tables have been computed with great care, and will be found correct. It will be observed that where a half cent is found in any amount, the whole cent must be taken, as the Custom House does not recognize half cents.

The simplicity and convenience of the Table will be demonstrated by a few minutes trial. It contains the double work, of exchanging Sterling into Currency, as also giving the Duties at the different rates imposed. It is of equal value to use when goods are imported from any country where the Currency is Dollars.

The Publisher acknowledges, with thanks, the valuable suggestions and kind assistance of the Officials of the Custom House; as also the encouragement given by the Merchants and Importers of this City, by subscribing to the work previous to publication. He trusts that the use of the Customs Ready-Reckoner will facilitate business, and ensure accuracy and uniformity in carrying out the requirements of the Department of Customs.

## REGULATIONS.

Dockage of vessels to be paid previous to leaving the wharf; light vessels to move for loaded ones; and all vessels to move, if requested by the Proprietor, unless actually engaged in loading or discharging cargo. Vessels lying in an outside berth to pay half dockage. No vessel to stop a dock or extend fasts from one wharf to another, except in stress of weather, then to pay the same dockage as at the wharf she may lie at, and damages, should any occur. Vessels making fast to a wharf, to pay one day's dockage, unless it may be for the purpose of warping from one wharf to another, and not remaining over one hour. Vessels to be accountable for all damages arising from the want of proper and sufficient fenders and fasts whereby the proprietor of the wharf may be injured.

## STORAGE RATES.

Storage Rates are the same as Wharfage Rates, an extra rate being charged for labor—receiving and delivering; and if trucked into Warehouse from the wharf at the expense of the Proprietor of the Warehouse an additional rate is charged making in all *three* Wharfage Rates, for example:—The storage on 1 case for 1 month would be 10 cents; labor, receiving and delivering, 10 cents; Truckage from Wharf to Warehouse 10 cents—30 cents or three rates. Lighterage 20 to 40 cents per ton.—*Note*, ships generally discharge and load off the wharves. Ballast, stone 40 cents; clay, 30 cents per ton. Water delivered on board, 50 cents per 100 gallons.
