

BAY OF FUNDY  
DIED AT HAGUE?

Prodeur Replied That  
Always Been Regarded  
an Open Sea.

March 6.—(Special.)—The  
evolution of the Bay of  
Fundy has been the subject  
of marine and fish-  
eries of commons this  
morning to Messrs. Jameson  
and the bay has been ex-  
posed to the bay has been  
debate by Sir Charles  
Jameson a tribute to Am-  
erica. "He has come  
as the ambassador of  
the treaties in which Can-  
ada had been negotiated

It said it was strange that  
Government should have  
exclusion of the Bay of  
Fundy before the United  
Kingdom ratified the arrange-  
ment.

He contended that  
the history of the question  
had been regarded as an open  
sea from the Bay of Fundy  
treaty of 1888.

To Owners of Harness

Now is the time to put your Harness in good condition ready for Spring and Summer use. Harness should be oiled to make soft and pliable.

- Here are some good renovators at moderate prices:
- Frank Miller's Harness Oil, pints .25; quarts .50
- " " Dressing, pints .25; quarts .50
- Hollingshead Castle Cream Soap, 1 lb. .25; 2 1/2 lbs .50
- Also freshen up your buggy top by using Hollingshead Enamel Carriage Top Dressing .25 per half pint cans.

Harness Section—Basement.

Curtains That Possess Real Elegance and Refinement

The beautiful and luxuriously furnished room will have window hangings strictly in keeping if the curtains be selected from our extensive Spring showing of Arabian, Battenburg and Marie Antoinette designs; there are some of the most charming effects one could well imagine, and the variety shown is very gratifying; these are curtains much in demand where artistic furnishing schemes are sought, because the nets are all of the best quality, and trimmings all made by hand; you can imagine the distinctiveness this gives; cream or white, cream and linen shade; size 50 inches wide by 3 and 3 1/2 yards long. Priced at, per pair, from . . . . . 5.00 to 10.00

Two Items of Interest from the Drapery Section

English Chintz Art Cretonnes and Tafetas, 30 and 36 inches wide, in floral, stripe and conventional effects; all new goods for Spring, in a full range of colors, suitable for curtains, valances, cushion covers, and light upholstery purposes. Per yard . . . . . .25

Mercedized Tapestry Curtains, 45 inches wide, 3 yards long, with heavy knotted fringe top and bottom; large range, including crimson, red and green, two-toned green, and plain dark green; a beautiful hanging for doors, archways, hall and parlor. Extra value at, per pair . . . . . 3.00

—Third Floor—Yonge Street.

New Mesh Bags to See

We have the prettiest of new German silver bags to show. They have just arrived and are the latest styles. All have daintily designed floral patterns framed in the oxidized finish. The mesh is small and gathered, giving the bag a graceful hanging effect. They are lined with heavy white kid with a small change or ticket pocket. A most serviceable bag for dressy occasions or afternoon wear. In three sizes, at 2.95, 4.00 and 5.00.

—Main Floor—Yonge Street.

NO ABUSE OF PATRONAGE  
SAYS SIR FRED BORDEN

Selection of Officers for Coronation  
Criticized in the  
House.

OTTAWA, March 6.—(Special.)—  
Richard Blair of Peel read in the  
house of commons to-day an Ottawa  
despatch from a paper which alleged  
that there was an abuse of patronage  
in the selection of the officers for the  
Canadian coronation contingent. That  
the selection of the officers had been  
placed in the hands of the local pat-  
ronage committees, and that instead  
of a fine body of men the friends of  
the government would be represented.

Sir Frederick Borden replied that  
the selection of the men was entirely  
in the hands of the officers commanding  
the respective corps from which  
they were to be taken. The hon-  
orable member's statement was  
nothing whatever to do with it. No  
officers who had attended a similar  
function would be allowed to go  
over who had seen active service  
would be preferred. No officer would  
be allowed to serve in a junior rank un-  
less he was within the age limit.  
That rank and age would be  
allowed to go as subalterns or privates.

Force 700 Strong.

Some regiments had met and passed  
resolutions. One Ottawa regiment had  
selected its officers; if an officer was  
to go from that regiment. Forty-eight  
officers would be chosen, thirty-six

LACK OF PURE BLOOD

The Cause of Most Illness—The Cure,  
Enrich the Blood Supply.

Any illness caused by lack of blood  
will be benefited and cured by a course  
of treatment with Dr. Williams' Pink  
Pills. These pills increase the red mat-  
ter in the blood and enable it to carry  
to every organ and tissue an increased  
supply of oxygen, the great supporter  
of all organic life. This has been  
proved by cures in thousands of cases  
not only in Canada, but in all parts  
of the world. More people to-day owe  
health and happiness to Dr. Williams' Pink  
Pills than to any other medicine.

One of these is Mr. James Starr of  
Galahad, Alta., who says: "A few  
years ago I became ill and very weak.  
Some days I would have a hot dry  
fever and on others would be bathed  
in a cold sweat. I grew weaker and  
weaker until I could do no kind of  
work and was finally confined to my  
bed. I tried several doctors, who cost  
me considerable money, but did me no  
good, as I was still getting weaker and  
weaker. I asked the last doctor who  
attended me frankly if he could cure  
me, and he told me my case was so  
complicated that he did not think he  
could help me. I told him I had heard  
of a deal about Dr. Williams' Pink  
Pills and asked if he thought they  
would help me. His reply was: 'Well,  
they won't do you any harm and they  
may help you.' I sent for a half dozen  
boxes at once and began taking them.  
After taking three boxes there was no  
doubt they were helping me, and I  
continued using them for some time  
longer, with the result that I am now  
as strong and hearty and can do as  
good a day's work as any man in my  
neighborhood."

These pills are sold by all medicine  
dealers or may be had by mail at 50  
cents a box, or six boxes for \$2.50, from  
The Dr. Williams' Medicine Co., Brock-  
ton, Ont.

SAND DREDGING BLAMED  
FOR CLOGGING OF INTAKE

Fellowes Was Warned.

7. During the said period of time  
there were occasions when the sand  
was so thick in the water that it was  
impossible to work at a diver un-  
der the intake, and this I reported to Mr.  
Fellowes. I warned Mr. Fellowes that  
the sand was going back into the pipe,  
but no attention was paid to my com-  
plaint. When I reported that the sand  
had reached nearly the top of the in-  
take, a 12-foot sleeve was placed over  
the intake. This was in the early part  
of the summer. The said sleeve re-  
mained in position until Thanksgiving  
Day, when it was removed by me.

8. I continued to work as a diver un-  
der the intake, and whatever Mr.  
Leslie continued to pump sand from  
the neighborhood of the intake pipe.  
That sleeve has not been replaced.

9. From my experience as a diver  
engaged on work in deep water I am  
convinced that there is only one way  
in which the pipe which is said to be  
broken could have become detached  
and that is, by the outer end of the  
said pipe becoming plugged with sand  
and that the length near the store be-  
came empty and so buoyant that they  
rose, and in this way broke the bolts  
connecting them. Upon the breaking  
of the pipe the same would immerse  
diately fill with water and drop again  
to the bottom of the lake.

10. There is whatever in  
my mind that the six-foot conduit pipe  
is filled with sand at the outer end, and  
I believe that this sand got there thru  
the sleeve being left off and thru at-  
tempts to remove the sand having  
been taken without due regard to pre-  
venting sand from getting into the  
pipe.

11. I have not yet sufficiently re-  
covered from my illness to enable me to  
return to my work as a diver, and  
consequently have been laid off work  
by the department. During the whole  
period of my employment no complaint  
was made of my work.

12. This statement is made by me  
voluntarily. I have not been requested  
by any member of the city council or  
any official of the City of Toronto to  
furnish information contained herein.

Rust Only Nominal Head.

In his motion to refer back the nom-  
ination of the experts, Controller  
Hockey declared himself as entirely  
in accord with Mr. McCarthy's resolu-  
tion. Engineer Rust was the nomi-  
nated head of the waterworks depart-  
ment. The present waterworks engineer had acted as the  
head of the department ever since Mr.  
Rust had assumed office, and must be  
held responsible for what has happened  
since.

"What has happened since?" queried  
Ald. McBride.

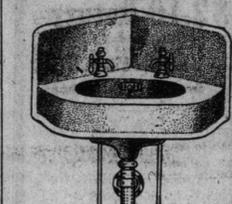

"He has handed us in blockades  
for our water supply," responded  
the controller. "From present indica-  
tions we are likely to get our supply  
from that source and from the shallow  
water at the shore of the lake for six  
months to come. The situation is so  
desperate that the matter should not  
be pushed any longer. The policy  
of covering up the mistakes of the  
waterworks department is a wrong  
one."

The theory that an anchor has had  
blocked the intake, the controller de-  
clared ridiculous.

"My theory, supported by expert evi-  
dence," said the controller, "is that the intake  
was plugged so tight with sand that  
the water could not get in. The water  
was drawn out of the pipe, which was  
placed below the intake, and was  
sucked from place. This sand got  
into the pipe through the dredging oper-

Cast Iron, Seamless Porcelain-  
Lined Enamelware

Surely the modern and sanitary idea of perfection in plumbing fixtures. In this ware we are showing a large assortment of the most approved designs. First quality goods, and guaranteed. You don't have to be an expert to select a dependable fixture, and the moderate prices are a very real inducement.

Corner or Wall Basin, with all taps and pipes complete to the floor 15.60

A Roll Rim Kitchen Sink, with back, all one piece complete with taps and bracket, size 18x30 . . . 12.50

RAILWAYMEN OVERWORKED

Some Employees Kept on Duty From 5.30 a. m. Until Midnight.

MORE PAY IN BREWERIES

Workers Ratify Three-Year Agreement on Advanced Wage Scale.

An enthusiastic crowd of 400 brewery workers gathered in the Labor Temple last night and ratified the three-year agreement made between their commit-tee and representatives of the brew-eries. Also there were a few disap-enting votes the agreement was carried practically unanimously. It gives a wage increase of \$1.25 to \$1.50 per week in the different branches of the work and reduced two and a half hours each seven days, making a 50-hour week.

The Toronto brewers are the first in Ontario to make this time concession to the men, and it has only been ac-complished after much hard work on the part of the officers and commit-tees.

Seven breweries and over 400 men are affected by the new agreement.

Doctor: You must put a porous plas-ter of the small of your back.  
Lady: That's impossible, doctor. I'm going to the opera to-night, how would I look—Toledo Blade.

Dr. Chase's Ointment is a certain and guaranteed cure for every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbor about it. You can use it and get your money back if not satisfied. 5c. at all dealers. Dr. Chase's Ointment, BATES & CO., TORONTO.

No Dymont Entry in Plate Valley Farm Has 5, Seagram 3

R. Davies of Thorncliffe, Strongly Represented With a Pair—Future Events Remarkably Well Filled

The entries to the stakes, which close March 1, and make their appearance to-day, will be eagerly scanned by lovers of racing throughout Canada...

The Valley Farm Stable of Hamilton is responsible for the largest entry, five in all, and beyond doubt holds a very strong hand...

Seagram comes next in point of numbers with three, to represent him. John Dymont, however, is still qualified to run and a year will have done much to help this filly...

Mr. Robert Davies has two entries and is said to hold a winning hand; for Central is reported sound again and is likely to train...

Mr. Ambrose Woods is known by his name, which reads like a Hendrie-bred entry. He may turn a trick as in 1907...

The Stanley Produce Stakes has the magnificent entry of 34, and in this race the winner is reported to be a colt...

The King's Plate, Value \$5000. The King's Plate, 30 guineas (the gift of His Majesty King George), with \$3000 added...

WELL-BACKED CHOICES WINNERS AT MONGRIEF

Jockey Phil Musgrave is Barred From Track Privileges for Best Interests of Racing.

JACKSONVILLE, March 6.—One of the best Monday cards of the meeting attracted a good crowd to Mongrief to-day, and well-placed favorites and second choices accounted for the races.

FIRST RACE—Selling, two-year-olds, 4 1/2 furlongs: 1. Nello, 102 (Gross), 5 to 1, 2 to 1, even; 2. B. W. 105 (Gross), 10 to 5, even; 3. 1 to 1.

SECOND RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. Goldrick, 10 (Gross), 8 to 1, 2 to 1 and 7 to 5; 2. 7 to 5; 3. 7 to 5.

THIRD RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

FOURTH RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

FIFTH RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

SIXTH RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

SEVENTH RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

EIGHTH RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

NINTH RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

TENTH RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Eleventh RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Twelfth RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Thirteenth RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Fourteenth RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Fifteenth RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Sixteenth RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Seventeenth RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Eighteenth RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Nineteenth RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Twentieth RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Twenty-first RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

Twenty-second RACE—Selling, three-year-olds, 4 1/2 furlongs: 1. 1 to 1; 2. 1 to 1; 3. 1 to 1.

CLUES TO "JOY RIDERS" FAIR

Attest of George Thomas Didn't Clear Mystery—Inquest on Victim Opened

Coroner Dr. A. J. Johnson opened the inquest into the death of Edward Jacobs, who was fatally hurt by an auto on Bloor-st., at Myrie's undertaking establishment last night.

After the adjournment was made until Thursday evening at the city morgue.

Much public indignation has been aroused over the case, as several accidents have lately resulted from the reckless practice of "joy-riding."

The police are still searching for the man who ran the automobile. They have been secured no clue to their identity.

Geo. Thomas, 55 West Bloor-st., was arrested yesterday by Detective Sockett, charged with the theft of an auto from J. Thompson.

He says that he had given the machine to repair and that on the night of the accident he left the machine outside a hotel at King and Church-sts., and that it was when he came out. It was at first thought that this machine, which was not recovered until the next morning, might be the one which had been in the accident, but it has no top and the one which ran the man down belonged to a Dundas man, has been abandoned after police enquiries.

OVERSEAS CLUB OFFICERS.

Last night the Union Jack branch of the Overseas Club met to install their permanent officers for the ensuing year.

R. Moody was elected as president; L. G. Pratt, vice-president; G. G. Fleming, secretary; J. R. Macdonald, historian; John Ryan, inner guard; and Messrs. Kirk, J. W. Snow, W. H. Wilson, E. W. Cartwright, J. Knight on the executive.

The president-elect, Mr. Moody, read an interesting paper on Lord Wellington, following his career from childhood to the battle of Waterloo.

At the next meeting a paper on Samuel Johnson, the diarist, will be given by Mr. Knight.

Natural History Study.

Last night the natural history section of the Canada Institute met to arrange for the summer work.

The Natural History Society of Toronto was organized in 1878, and has existed ever since that time, the most important work being the summer work.

This summer studying in natural science subjects has been greatly retarded by the increase in membership, and in order to offset this over-charge in membership, members were apportioned to the different branches of the work and it will go on under more specialized conditions.

Use Gibbons Toothache Gum.

SPECIAL GAS ACCOUNT NOTICE.

Gas accounts are now due and payable. Last discount day Wednesday, March 15. Take notice that the Dominion Bank find it impossible to receive payments of gas accounts on Saturdays and Mondays.

Gas consumers desiring to pay their bills thru the bank branches, are requested to do so on days other than Saturday and Monday.

THE WEATHER

OBSERVATORY, TORONTO, March 6.

The weather throughout Canada has been generally fair to-day, moderately cool from the lake region westwards and comparatively mild in the western provinces.

The disturbance mentioned last night moved rapidly eastward and has now passed over the coast. There are indications of development of a depression over the southwest states.

Minimum and maximum temperatures: Dawson, 16 below; Atlin, 20 below; Victoria, 40-55; Vancouver, 42-48; Edmonton, 10-34; Battleford, 10-29; Calgary, 22-46; Moose Jaw, 12-27; Qu'Appelle, 8-26; Winnipeg, 12-27; Port Arthur, 30-39; Perry Sound, 20-28; London, 22-39; Toronto, 15-28; Ottawa, 8-26; Montreal, 14-29; Quebec, 4-20; St. John, 18; Halifax, 18-22.

Probabilities.

Lakes and Georgian Bay—Easterly winds; fair; much the same temperature.

Ottawa and Upper St. Lawrence—Fair and moderately cool.

Lower St. Lawrence and Gulf—Fair and cold.

St. John's—Fresh northerly winds; fair and cold.

Superior—Fair; much the same temperature.

Manitoba and Saskatchewan—Fair and milder.

Alberta—Fair and mild.

USED HATCHET ON CHINAMAN

But Celestial Had Strong Rally and Chased Unknown Intruder.

The police are looking for a man with a cut in the back of his neck. They want him for the infliction of a number of cuts upon Yee Tuck, a Chinaman, employed in Charlie Yong's laundry at 209 Elizabeth-st.

The man entered the laundry at two o'clock yesterday afternoon armed with a hatchet. He attacked the celestial, who secured possession of the weapon and despoiled the fact of the work to do over at the Chinaman's. He was refused, but borrowed a hatchet from a small boy nearby.

SOCIETY NOTES.

Miss Wilson, 20 West Bloor-street, will receive on Wednesday and Thursday, March 8 and 9, and not again.

CEMENT'S USES APPEAL TO RAILWAYS MINISTER

Might Even Be Used for Breakfast Food, He Opined, at Opening of Show.

"The cement business is a hard one," said Hon. George F. Graham, minister of railways and canals, in opening the third annual Canadian Cement Show at the St. Lawrence Arena last night.

The exhibits were of a high character, but the speaker as a whole was not picturesque, to say the least, and Mr. Graham indulged his audience with a few humorous remarks apparently with little hope of giving the scene a more cheerful aspect.

Looking about the hall, he said there was every indication that cement could be used for any manufacture, excepting food, and he believed it possible that some enterprising breakfast food man might be able to work it in.

Speaking in a more serious strain, Mr. Graham said that, as the head of a department that used a considerable amount of it, he could say that quality and the department had found it paid to use it. Ten years ago the output was 600,000 pounds, and last year it amounted to 4,700,000 pounds.

Even Railways Use It.

Cement is now being brought into transcontinental railroad problems. He remembered the day when, if any one suggested its use in the construction of culverts, that person would be laughed at.

Practically however, has demonstrated that they are the best kind. Cement sidewalks were almost universal in use in towns and villages, and Mr. Graham said that many small villages, indeed, that preferred to lay a wooden sidewalk.

He also referred to the part cement had played in the construction of Halifax and stated that railway contractors were experimenting with concrete ties, so it was evident that concrete was rapidly taking the place of timber.

The band of the 48th Highlanders was in attendance at the opening ceremonies last night, and played an almost insubstantial account of the din of many gasoline engines and concrete mixers in operation.

The exhibits included cement-making machines, testing laboratories, wheelbarrows and cement publications.

EAST KENT LIBERALS APPROVE

Think Reciprocity Will Boost the Bean Industry.

RIDGETOWN, March 6.—That this meeting wishes to place itself on record as being most enthusiastically in support of the proposed reciprocity arrangement, including the bean industry, was the most decided sentiment of the agricultural interests and at the same time leaving the manufacturing interests in good stead.

The above resolution was passed tonight at the annual meeting of the East Kent Liberal Association, at which P. T. Cloutier, president, and D. A. Gordon, M.P. (East Kent) were the principal speakers.

It was pointed out that East Kent being close to the bean-growing belt would find a market in Detroit. Particulars was this so of beans, which are largely grown.

BONIFACES AT QUEEN'S PARK

Deputation Will Urge To-Day That Tax on Bar Receipts Be Dropped.

The imposition of a tax of 5 per cent upon bar receipts exceeding an average of \$40 per day will be opposed by a deputation of hotelkeepers, representing the trade in Toronto and throughout the province.

The Ontario government at 2 o'clock this afternoon.

The spokesmen of the deputation will urge that the proposed amendment be dropped, or at least modified, as otherwise they will feel obliged to adopt a general increase in rates.

A CHICAGO PASTOR'S WORK.

The pastor of twenty-five churches (without a vacation) in Chicago, Rev. R. A. John, of St. Paul's Lutheran, has the record of 2500 funerals, 3000 weddings, 4000 christenings and of extinguishing 17,000 candles.

His co-pastor all these years was his wife. He was the son of a Missouri minister who served in the office of the ministry and whose three sons are all ministers.

The building up of a big city church is illustrated by the changes in the office of St. Paul's Church. When Rev. Mr. John became pastor twenty-five years ago the Sunday-school had only sixty children, who were grouped in one division; the membership of the present Sunday-school is 1200, divided into four distinct divisions, which are directed by expert Sunday-school workers.

Twenty-five years ago there were no societies in the church, while to-day there are three, with an aggregate membership of over 1200—a woman's society with 855 members, a senior young people society with 255 members and a junior young people society with 325 members. In addition to the thoroughly organized Sunday-school the church has many other lines of service and a junior young people society with 325 members.

In addition to the thoroughly organized Sunday-school the church has many other lines of service and a junior young people society with 325 members.

Harper, Customs Broker, McKinnon Building, Toronto, edit

FIREMAN'S NARROW ESCAPE.

QUEBEC, March 6.—Fireman Domperre had a narrow escape from asphyxiation as a fire which occurred in a small house in St. Vallier-street this evening. After the fire had been extinguished he was found lying in a pool of water in an insensible condition.

Fireman Proulx was also overcome, but was not so seriously affected as the former.

Two New Records.

PARIS, March 6.—Louis Broquet set a record for a 100 kilometre flight of 100 kilometres (62 miles) in one hour and fifteen minutes. At Mournelle, Nieupert, with one passenger, they passed the 100 kilometres in one hour. Both are new records.

BRITAIN NEVER RAISED HER VOICE IN PROTEST

"An Astounding Situation," Said Lord Amphil, of Annexation Talk in Congress.

LONDON, March 6.—Lord Amphil raised a discussion of American and Canadian reciprocity in the house of lords this evening by strongly condemning what he termed the inaction of the government, which he declared, had forced Canada to abandon her national policy and offer to the United States some of the advantages which she had so freely given to Great Britain.

Commercial union between the U. S. and Canada, he thought, "must also mean political union."

That responsible statesmen in a foreign country have spoken openly in their parliaments of the future annexation of a portion of the crown's domains without a protest from this country," Viscount Morley warmly defended both the government and Ambassador Bryce, saying that criticism of the latter was grossly unjust.

The assistance which he had rendered Canada had been gratefully recognized, and he had not participated in the actual negotiations.

"The most responsible statesmen in both America and Canada," said Morley, "have led the way in the annexation." He added that the papers on the subject would be laid upon the table, and these would show that the action of the British ambassador was justified by a precedent and did not constitute a new departure.

On the promise that all the papers having to do with the negotiations between Washington and Ottawa would be produced, the discussion was dropped.

RUMORS OF CABINET CHANGES

Illness of Lord Crewe Has Set Gossip Going.

LONDON, March 6.—Lobby reports regarding cabinet changes arising from the illness of the Earl of Crewe, secretary for India, include the promotion of War Secretary Haldane to the peerage and possibly Reginald McKenna, the Canadian-born first lord of the admiralty, in order to strengthen the government in the house of lords.

Such changes were made by Lt.-Col. John B. Seely, under secretary for the colonies, here, he have it would become secret.

The Earl of Crewe, who is suffering from concussion of the brain, following a collapse after a fainting fit, is said to be progressing favorably.

CRAZE FOR AMULETS.

We have passed the era of superstition, so everyone declares, but it does not seem to diminish the sale of amulets to ward off disease.

Some women possess a collection of different forms for different evils, wearing the bunches as pendants from a chain or on a watch-chain.

There is a pink coral hand to ward off the evil eye, the amethyst, which brings immunity from war, and the turquoises, which protect the wearer from the impertinence of evil spirits and gives immunity from plague and cholera.

Those in the habit of wearing amulets are supposed to cure blindness and ward off its approach, and the diamond, which is supposed to cure insanity.

Among the cheaper amulets are the garnet, which keeps one well and likewise represses tendency to luxury; the topaz, which acts as a tonic on the system and makes the wearer optimistic; the agate, which is credited with all sorts of curative properties; the amulet of the stone for the stone, which is supposed to cure the stone; the amulet of the stone for the stone, which is supposed to cure the stone.

Anyone with a fear of being poisoned can change as the stone for his amulet a diamond, sapphire, ruby or garnet. The sapphire will also prevent fever and make the wearer pious and wise.

The luckiest amulet of all is set with the turquoise. According to the old belief, he who wears a turquoise will never want a friend.

It is not enough just now to possess one of these stones in any sort of setting; the amulet wearer has all sorts of antique forms and quaint designs in which her lucky stone can be had. The more unique the form the more desirable it is.

Want Him Back.

LONDON, Ont. March 6.—The city council to-night decided to offer ex-City Engineer Vanchee \$3250 per year if he will return to the city. Mr. Vanchee resigned on the first of the month.

Girl Accused of Theft.

Myrtle Pittman, 127 John-street, was arrested yesterday by Detective Cronin charged with theft of clothing from Lillian Gayatt of the same address.

ONTARIO RIFLE ASSOCIATION MEETING.

The annual meeting of the Ontario Rifle Association will be held at the city hall and court house, and erecting a building thereon which will not only serve as a police station and lockup, but provide accommodation for the police court, officers of the court and officials of the police department at present stationed in the city hall.

The motion was referred to the property committee.

THE TRADERS BANK OF CANADA

Dividend No. 60.

NOTICE IS HEREBY GIVEN that a dividend of two per cent upon the paid-up Capital Stock of the Bank has been declared for the current quarter, being at the rate of eight per cent per annum, and that the same will be payable at the Bank and its Branches on and after the 15th day of April next. The Transfer Books will be closed from the 17th to the 31st of March, both days inclusive.

By order of the Board.

STUART STRATHY, General Manager.

Toronto, Feb. 16th, 1911.

WON'T USE REVENUE TO BUY STREET RAILWAY

Higher Taxes Bogy Frightens City Council—Cautious About Up-Keep of Good Roads.

Ald. McMurrich's attempt to have the city provide for the purchase of the Toronto Railway at the expiration of the franchise caused a long argument in the city council yesterday.

The board of control recommended against the request that \$500,000 be set aside annually for this purpose.

Ald. McMurrich sought to have the report amended to favor the proposal. Controller Spence favored the motion, even if the taxes were raised to 19-1/2 mills, as the city treasurer intimated that they would be by diverting the street railway revenues.

The mayor declared himself decidedly opposed. He thought the railway should be able to pay for itself if taken over at the expiration of the franchise.

Ald. Graham declared the proposal iniquitous. The city would take over the street railway property at the expiration of the franchise at its actual value.

That the franchise, protected for the people until the agreement expired, would be sufficient value for the citizens still here ten years hence, was the opinion voiced by Ald. McCarthy. The value of the franchise at that time would be sufficiently in advance of the property to make the financing of the enterprise a comparatively easy matter.

"We now receive one-third of the profits," remarked Ald. Baldr. "Why tax ourselves for the benefit of the women, not to mention the higher three-thirds of the profit by the franchise being kept intact?"

Ald. Anderson opposed the proposal on the same grounds, and the same motion to refer it back was moved and carried by 13 to 6, and the suggestion of Ald. McMurrich that the council declare in favor of the scheme was supported by five members.

The report of the board of control was consequently sustained by a large majority.

Keep Roads in Repairs Five Years.

The good roads question took up a considerable time, as members opposed the clause in the board of control's report that the city bear 20 per cent of the cost of maintenance of the city's roads for all time to come.

It was contended that if this was the meaning of the recommendation, the most important of the two questions of the county good roads scheme had not been submitted to the people when they voted \$100,000 for the improvement of the roads leading into the city.

It was argued on the other hand that if the original expenditure was good business the expense of keeping them in repair would be equally good business.

The report went thru the committee stage last night when it came up in council. It was decided to limit the responsibility for repairs to a period of five years. This was claimed to be a concession to the taxpayers.

Ald. McBrien was the only speaker in his motion to merge the fire and light committee with the property committee, and one particular member of the sparrow family are apt to be misleading when considered as sure hangers of "approaching" milk.

Dr. Samuel Lockwood, who died some years ago at Freehold, N. J., was not only a warm friend of birds, but an expert on their habits as well as an old letter to the present writer now recalled, says that birds are apt to be mistaken with their weather. The bird's weather is not the weather of the bird, but the weather of the bird's world.

One of the most delightful little volumes that the writer has in his natural history collection is a bird book written by Dr. Lockwood. It is not only informing, but the style of an always pleasing writer and former companion in from every point of view admirable and winning.

As supplemental to the view of Dr. Lockwood upon the unreliability of birds as weather prophets, the writer might recall several instances coming under his own observation. But as they were all similar, he will refer to a few of them.

On a bright sunny morning in February, some years ago, one of the sparrow family, native and of the manner born, to his credit be it said, known to the scientific bird man as the megalops, was seen and heard in a maple tree in the main street of an Ocean County village. The tree was quite bare of foliage, but the air was balmy—almost warm, in fact. This clever and dainty little fellow, whose acquaintance is well worth making when he will consent to become acquainted with mere man or woman, as he will upon proper and discreet advances being made in the quiet of proving the star with his own eyes, was leaning about unembarrassed among the bare limbs of the tree awaiting the first bird to take special cognizance in any of the rural settlements—in a grove of cedars near Point Pleasant in January.

The most reliable of the matter has been casual observers that the early bird brings news of approaching spring, is it not true? A lesser member of the eagle tribe, if birds may be called tribes, and they safely may. When the fish hawk makes his appearance with his wife along the New Jersey coast, as he does about the twentieth of March, he comes to set up housekeeping, and does a tempting for the season. In addition to being a safe spring weather guide and friend, the fish hawk is reliable. He is also something of a philosopher, but is generally outwitted by the more indolent bald

'EVERITT' \$1450

BUY A Car that is built right, by a known concern with a good name of fifty-six years behind it. It is wisdom to buy "by the maker," as well as by the car itself.

In design, the "Everitt" double-drop frame, unit-cast motor, aluminum clutch, nickel-steel transmission, big wheels, big brakes, gives longest service with least wear and tear, because the "Everitt" is ingeniously simplified throughout and built to a hair's-breadth of accuracy.

Weight saved means added capacity with lessened tire wear, lessened gasoline, increased power, increased service.

You get it in the "Everitt" at \$1450 at Orillia.

Send for Catalogue U.

TUDROPE MOTOR CO., Limited ORILLIA

TUDROPE MOTOR SALES, Limited 168 King St. West, Toronto

Commercial Deliveries with this car in half the time taken to take, and at half the cost; low floor; wide rear doors. Price \$1450 at Orillia.

"Everitt" Pure-Door Touring (850 extra), has low, graceful lines, lots of width and foot room, with 4 x 6 1/2 "wheels" and carry five passengers easily.

Here is a "pure-door" touring—easy to enter, roomy and comfortable; full and complete equipment, and extra tire. Price \$1450, at Orillia.

BIRDS AS WEATHER PROPHETS.

Careful observers with even fairly good memories do not regard their friends, the birds, as reliable weather prophets. It is probably pretty well known to ordinary bird men and bird women, not to mention the higher grade known as ornithologists, that the late winter and the too-early spring visits to this land of the bluebird and one particular member of the sparrow family are apt to be misleading when considered as sure hangers of "approaching" milk.

Dr. Samuel Lockwood, who died some years ago at Freehold, N. J., was not only a warm friend of birds, but an expert on their habits as well as an old letter to the present writer now recalled, says that birds are apt to be mistaken with their weather. The bird's weather is not the weather of the bird, but the weather of the bird's world.

One of the most delightful little volumes that the writer has in his natural history collection is a bird book written by Dr. Lockwood. It is not only informing, but the style of an always pleasing writer and former companion in from every point of view admirable and winning.

As supplemental to the view of Dr. Lockwood upon the unreliability of birds as weather prophets, the writer might recall several instances coming under his own observation. But as they were all similar, he will refer to a few of them.

HENDERSON DIDN'T KNOW SKULL WAS FRACTURED

Man Who Died in Hospital on Saturday Received Injuries Last Thursday Night.

That James J. Henderson of 3 Bishop-street walked around for a day with a fractured skull, was disclosed in Coroner W. A. Young's inquest in the General Hospital yesterday. Henderson died on Sunday after an operation, and the understanding concerning him was that he had fallen off a street car on Thursday night. On Friday he was up and about and even came down town. Saturday morning he was taken with convulsions and was removed to the hospital. Evidence presented yesterday from the superintendent, house surgeon, the surgeon who operated upon the man's head and Dr. Mabee, who conducted the post-mortem, revealed that the man had a fracture at the base of his skull and there were two large blood clots on his brain. There are no records that the police nor street railway company to show that there was such an accident on the whole system Thursday night. The enquiry was adjourned until the 14th inst.

NOVA SCOTIA WATER POWERS

A Brief Summary of the Present Situation in the Province.

The Province of Nova Scotia has no large rivers and the watersheds on which water may be collected are comparatively small. Six hundred square miles is about the area of the largest watershed in the province, but the writer is aware of, and the average watershed area of streams is probably not more than one-third that amount. This is compensated for to some extent, however, by the fact that many of our streams have a rapid descent and offer fairly high heads for the utilization of the water. In the province there are powers to be found of from 100 to 400 feet, although in every case where such high heads exist the watershed is limited in extent. I may say in this connection that I have investigated one water-power having but ten square miles of watershed, which is well worth development, as there is a total fall of 275 feet in a little over two miles, as well as practically unlimited opportunities for storage of water on the watershed.

In all parts of the province there are water-powers which are well worth development and which have not yet far received attention. On others of our streams the development is fairly well advanced, and some few on the rivers, particularly the Murray and St. Croix, are at present generating quite an amount of power. At the same time no one of our streams has the development of its full power completed, and in general it is true that so far our power developments have been on the streams which have the greatest amount of natural storage in the shape of lakes, practically nothing has been done in the way of creating storage artificially in order to improve the powers on streams having a deficiency of natural reservoirs.

It is most unfortunate that so far no data as to stream flow in the province of Nova Scotia is obtainable. The only information to be had bearing on the subject is the rainfall records taken at a few places in the province. It is not often that even the rainfall records for the immediate locality of the streams are to be got, and recourse must be had to records for other places, distant sometimes over a hundred miles. It is evident that calculations based on such data must be after all only an approximation, the accuracy of which will depend in large measure on the judgment and experience of the one who is making them.

At this date so little demand for water-power has been in evidence that all the facts in connection with some of the best Nova Scotia water-powers are not even fully known. It is found that, as a rule, the majority of our large factories are located in the large centres of population, and for many of the different factories there are considerations which make this imperative. At the same time there are very many uses to which our scattered powers could be put, of which the most vigorous prosecution of our industrial development is only one. Besides, many of our powers are sufficiently large to warrant the expense of quite lengthy transmission lines in order to utilize the power at some more convenient point where manufacturing can be done more economically carried on—W. O. Young, C.E., in The Canadian Forestry Journal.

DISPOSED TO SHOW LENIENCY

Jurors Averse to Passing Death Sentence on a Woman.

ALBANY, N. Y., March 6.—That a woman charged with a capital offence should receive more consideration at the hands of a jury than a man similarly charged, and ought not to be put to death for murder, was the opinion expressed by more than one juror to-day at the trial of Mrs. Edith Meibor of Schenectady, charged with having poisoned her 5-year-old son, George, in a lonely swamp near Albany last January. Twenty-four talesmen in all were examined during the day, and when court adjourned to-night all had been challenged or excused, but Wesley Smith, a Bethlehem farmer, who was accepted as the first juror, and the first question put by Mr. Dugan to talesmen was whether or not they were married and had children. An extra panel of 100 jurors was drawn to-day, and counsel on both sides hope to have the jury selected before to-morrow's session ends.

Oyster Shells in Westminster. Oysters must have been plentiful at the time of building Westminster Abbey, when the remains of the remains of the more ancient stonework of the Abbey it is always found that the large stones are set or levelled with oyster shells. In the way that oyster shells have been discovered. It appears that builders formerly used these shells in the bedding of large squared stones in the way that masses of stone are used at the present time—London Chronicle.

AMUSEMENTS.

**The Wonderful Possibilities of Concrete**

are only in part understood today. Continually new phases of its use are being brought to light. Without concrete, where would be our modern skyscrapers, our deepport factories, our farm improvements, and our artistic residences?

**Learn More About Concrete by Coming to the Toronto Cement Show.**

Next week this Show will be held at the St. Lawrence Arena. All week you may see there the latest improvements and inventions that have an influence on concrete construction. Come and see the exhibits and listen to the music.

The first meeting will be reserved for ladies and their escorts up till 7:30.

The Band of the 48th Highlanders will render music from 7:30 to 8 p.m.  
Z. A. Leach, Chairman of Committee.

**A FOXY SCHEME**

Ottawa Chinaman Accused of Trying to Get Sons into the Country.

OTTAWA, March 6.—The so-called "Tong war" between the local factions of the Chinese Reform Associations and the Chinese Free Masons, is still being carried on with the utmost bitterness. The latest phase is a complaint to F. C. T. O'Hara, chief commissioner of Chinese immigration, by Tom Hamilton, the leader of the Free Masons, that Hum Quom, the head of the Chinese Reform Association, is using his firm name of Wing On & Co., as a means to bring Chinese children into the country by an evasion of the head tax of \$50.

It is alleged by Hamilton that Hum Quom has as nefarious partners 12 or 13 local Chinamen, who, posing as merchants in active business in the firm of Wing On & Co., are thus enabled to bring in their sons free. Hamilton claims that there were only three men in the firm, Hum Quom, Hum Yon and Him Muoy, and that the balance were mere figureheads, who paid a certain sum to Hum Quom, he agreeing to bring out their sons from China, and allowing them to pose as merchants under his firm name.

Constable Exonerated.  
NIAGARA FALLS, Ont., March 6.—(Special.)—Superintendent Joseph Rogers has dismissed the charges brought by Sgt. Cole, tailor dealer, against Provisional Officer John Jay, alleging that Jay exceeded his duty and induced Cole to purchase liquor from a brewer's company, to the detriment of Cole's business.

York County and Suburbs

THORNHILL

Made a Great Fight for Life, The Unsuccessful.

THORNHILL, March 5.—(Special.)—The death of Warren, the eldest son of Lewis Page of the second concession of Vaughan, and who received such frightful injuries from the bursting of a circular saw a few days ago, took place on Saturday morning.

CROSS ROAD IS ALL RIGHT

East to West Line Will Serve a Big District

There is some complaint out in York County over the schedule of roads adopted in connection with the expenditure of the \$100,000, not so much that the sum is excessive, as that the money ought to be more judiciously expended.

DEATH OF MRS. WATSON

Reeve Watson is Bereaved by Death of His Mother

The death occurred on Sunday afternoon on Barton-avenue of Mrs. Watson, relict of the late Joseph Watson, in his day one of the best known and respected of the pioneers of York Township.

NORWAY

Evening Services in St. John's Church Increase in Interest

NORWAY

The special services now being held in St. John's (Anglican) Church, in connection with the mission, by Rev. P. I. Barber, are daily growing in interest.

YORK TOWNSHIP COUNCIL

Absence of Reeve Defers the Naming of Commissioners

First Deputy Reeve, Barker, presided over Monday's meeting of the York Township council in the absence of the reeve, who was absent on account of illness.

PUTS ONUS ON COUNCIL

J. F. H. Usher Charges That It Has Stood in the Way

In a letter to The World on Monday Mr. Usher of Victoria-avenue, North Toronto, takes exception to the statements appearing in The World of a few days ago, regarding the trouble over the extension of the eastern parallel road through his property, and incidentally charges that the council and not he himself have been derelict in the matter of arriving at an amicable settlement of the long standing dispute.

ONE THROUGH APPLICATION

Zam-Buk at night will bring ease by morning. Zam-Buk stops the smarting, heals the cracks, and makes the hands smooth.

PROOF—Miss Hattie Iverand, Galesburg, Ont., writes—

My hands and arms and nothing ever seemed to heal them thoroughly until we found Zam-Buk. It has cured them. My father has also used it for several skin troubles and injuries, and thinks there is nothing like Zam-Buk.

MOTHERS SHOULD USE

Zam-Buk daily, as there is nothing like prevention. A little Zam-Buk lightly smeared over the hands and wrists, after washing, will prevent chaps and cold sores.

GETTING POINTERS

OTTAWA, March 6.—(Special.)—Admiral Kingsmill and Commander Roper of the Canadian naval service will leave in a few days for Annapolis, Maryland, where they will visit the United States Naval Academy, and acquaint themselves with the system of instruction in vogue in that institution.

BE TEMPERATE. IF YOU DRINK, DRINK

Jewell's Whisky AND USE COMMON SENSE. THEY SHOULD GO TOGETHER.

PARTED WITH AN ESTATE

OF \$1,250,000 FOR \$250

How Seattle Syndicate Got Ahead of a Saddler Who Resided in Dublin.

DUBLIN, March 6.—Timothy Healy appeared today as counsel for the petitioner in lunacy proceedings, in which an effort was made to establish that American lawyers had obtained for themselves the greater part of a large estate to which a Dublin saddler was legally entitled.

DEATH OF MRS. WATSON

Reeve Watson is Bereaved by Death of His Mother

The death occurred on Sunday afternoon on Barton-avenue of Mrs. Watson, relict of the late Joseph Watson, in his day one of the best known and respected of the pioneers of York Township.

# COBALT MINING STOCKS

## Porcupine Stocks to the Fore Cobalts Are Inclined to Drag

Gold Mining Issues the Feature on Mining Markets—Hollinger at New Record—Timiskaming a Weak Spot.

World Office.  
Monday Evening, March 6.  
Porcupine stocks were in the lead on the mining exchanges to-day, the gold mining shares being especially in demand, and monopolizing the speculative interest to a great extent. Trading was more active than for some time, the day sales on the Standard Exchange alone amounting to nearly 200,000 shares, the major portion of this being in the unlisted department, which comprises the Porcupine issues.

In so far as the gold mining stocks were concerned, the market was in a frenzied condition almost from the opening call. Hollinger opened up 35 points above Saturday's close, and the shares sold as high as \$8.16 in the first hour. This was the highest figure reached, the stock easing off under the profit-taking sales, which were in evidence at the market's close. The quotation sagged back gradually to \$8.40, and the close was made around that point.

Preston East Dome was traded in for the first time to-day. This issue was also an active spot in the dealings, and gave promise of doing a good deal of business in common with the other gold stocks. The shares sold as high as \$6 during the session, or six points in advance of the opening transactions.

The Cobalt issues were somewhat irregular. Beaver held between 23 and 24 points, Cobalt Lake advanced two points to 21 1/2, and Right of Way was also active, selling off a point to 8. Timiskaming was a weak spot, losing two points at 85, these shares being liquidated and the proceeds being placed elsewhere in the market. West-Porter dropped three points at 90.

An advance of three points in Great Northern, which sold as high as 14, was the leading feature of the Cobalt list. The movement in this issue was due to the fact that the concern has made several investments in Porcupine properties, which are understood to be of good promise. It is reported that the company have already made a large profit on one of their holdings which has been turned over.

The markets throughout were given over to a large extent to the trading in Porcupine issues. The demand for these was responsibly heavy, and this was accepted as a good omen for the future of the gold mining securities.

# PORCUPINE GOLD CAMP

## PRESTON EAST DOME GETS OUT OF HAND

Demand for the Shares From All Quarters Changes Syndicate's Plan.

It was the intention of the managers of the Preston-East Dome underwriting syndicate to list the stock next week, but the success of the Hollinger developed such a heavy demand for the stock that active trading set in yesterday morning in the brokers' offices, and during the day it was active and strong of the unlisted departments of the Toronto and Standard Exchanges. Orders came in from New York brokers and for clients in many points in the United States. In view of the unexpected situation, it has been decided to list the stock at once.

The Preston-East Dome starts operations with \$150,000 cash in its treasury. For several weeks past the machinery necessary for permanent and economical mining operations has been going in and as men had been stationed at points along the route to see that it would not be side tracked, the company have been successful in getting in their machinery and an ample supply of provisions for eight months. The railway will be into the camp, it is expected, in four months. Active mining operations will, therefore, go on continuously. The equipment com- plete, the six drill Sullivan compressor will be supplied with power by two fifty h.p. Jencks boilers. Another twenty-five h.p. Jencks boiler will supply power for the pumps that will operate the fire protection outfit. The water for this will be pumped by a Martin steam pump. Two other steam pumps will be available for pumping water from the shafts. A complete sawmill outfit, including a portable engine will supply power for a complete assaying plant, and a sixteen h.p. Comstock engine will develop power for general purposes.

A large force of men are actively at work and the plant is being assembled as rapidly as the spring will allow. The Golden Rose vein will be opened first. This vein is ten feet wide and the engineers who examined it for the syndicate, reported that the average value of mixed quartz and porphyry taken from six different openings was slightly above \$100 to the ton. Many high assays that they made were not included in their reports, but sent on to the syndicate managers and ore on file.

A Nissen stamp mill of the same capacity as that operating on the Hollinger, will be set up in the near future.

It is reported that the average value of mixed quartz and porphyry taken from six different openings was slightly above \$100 to the ton. Many high assays that they made were not included in their reports, but sent on to the syndicate managers and ore on file.

# A HEAVY SHIPPER

## BEAVER SHIPPED IN 1910, 240,317 POUNDS OF ORE

BEAVER shipped in first two months 1911, 551,500 pounds of ore. BEAVER stock should be watched. At the 300-foot level the mine is working in excellent ore and a strike is expected any day at the 350-foot level. We say strongly: Buy BEAVER and hold for a big rise.

Porcupine is coming to the front fast. Hollinger and Preston East Dome have only commenced to rise. Ask our information and quotations for these or any other Porcupine stocks.

J. T. EASTWOOD - 24 King St. West  
PHONE M. 2445, 2446. MEMBER STANDARD STOCK EXCHANGE.

12 GOLD CLAIMS - GREAT NORTHERN - 12 GOLD CLAIMS

Great Northern own upwards of eleven hundred acres of mining lands of value. Twelve of those claims are Porcupine gold claims. What will happen to Great Northern stock when the speculating public realize that Great Northern is a real gold proposition? Hollinger has advanced from \$2.50 to \$8.00 per share. Swastika from 10c to 70c per share. Preston-East Dome was listed yesterday at 40c per share and advanced to 49c. Will Great Northern advance from 14c per share?

Better buy a few thousand shares at the market and chance it. Great Northern, with a modest capitalization of \$100,000 in liquid assets, and upwards of 400 acres in Porcupine looks like a good thing. Buy it.

INVESTMENT EXCHANGE CO.  
75 YONGE ST., TORONTO, ONT.

WE TOLD YOU SO  
PRESTON-EAST DOME closed yesterday afternoon at 48c bid, 50c asked, and no one anxious to sell at 50c. The best buy in Porcupine at the market. Prompt and careful attention will be given to the execution of your order.

COBALT  
Now that Porcupine stocks are booming, it is only reasonable to expect the better class of Cobalts to advance with them. Beaver is now a big shipper and will do better. Cobalt Lake, Peterson Lake, Gould and Union Pacific will also improve.

With the exception of Hollinger and Swastika, these stocks are not advancing because of any results of mill runs, but because they are being manipulated, and great care must be exercised.

Preston East Dome is advancing because the company owns what appear to be exceptionally rich claims, and because they have plenty of money with which to operate them, but there are those which have not such advantages, and advice should be secured before purchasing them.

We will buy or sell any Cobalt or Porcupine stock. Wire any orders.

### Spring Suits and Coats

For the "Uncertain, Coy and Hard to Please."

Here are four typical examples of style, workmanship, quality of material and reasonableness of price, which characterize the spring showing at Simpson's. It is quite time you bought your spring suit. We do not advise you purchase these. Very likely we have a spring suit much more suitable for you than either.

We do advise you to read the particulars. Come to the department if you like the description; come if you do not like it.

We can only give details of two suits and two coats here out of hundreds. We cannot pick one out for you—come and do it yourself. Every facility for getting exactly the suit you want is afforded, and we are satisfied that our 1911 showing is complete enough, up-to-date enough and reasonable enough to send the most hard to please Toronto woman away satisfied enough. Enough said.

A very effective looking skirt in all-wool stripe serge, coat lined throughout with rich satin, new mannish collar and lapels, inlaid with black satin, and cuffs to match, deep overlaid piece of self around lower part of coat, fastens with three large black buttons; skirt has full length front and back panel, which fastens to left side at back, has deep bias self-piece around bottom of skirt from knee line down, colors are the new shades of nickel, silver and iron grey, with pin stripes. . . . . 25.00

A desirable and fashionable Women's Suit, made of all-wool French serge. Coat is semi-fitting, lined throughout with silk, notched collar, fastens with four buttons, tailored pockets and cuffs. Skirt has front and back panel to knee line, continued to bottom with overlaid self-piece and side tabs. Colors are black, brown, navy and green. 27.50

A stylish Spring Coat of light grey tweed, made up in a smart style, with tailored collar and long revers, a new vest effect of reseda green broadcloth gives a very dressy appearance to this coat; sleeves are plain trimmed with buttons and broadcloth to harmonize with vest. Price is . . . . . 17.50

Smart Coat of French Serge in navy only, in one of the latest tailored styles, with mannish collar and revers. Collar is overlaid with natural shade of tussore silk, edged with a narrow piping of silk in coronation blue shade, sleeves are plain with cuffs, which are trimmed with buttons, smart flap pockets give a nobby effect to this coat. Price is. . . . . 12.50

### Medium Width Ribbons for Dress-makers

The home or professional dressmaker's attention is called to the fact that our color range, in all our medium width ribbons, is now complete.

Dressmakers' Duchesse Satin, perfectly woven, with a beautiful rich finish. Width, 1 in., per yard 7c; 1 1/2 in., per yard 10c; 2 in., per yard 12 1/2c.

Dressmakers' Taffeta Ribbons, of fine weave, heavy quality, purissima. Width, 1 in., per yard 5c; 1 1/2 in., per yard 8c; 2 in., per yard 10c.

### Advice as to Millinery

During the height of the millinery season (that time will soon be here) our milliners are rushed to their utmost to keep our stock well up and to fill their great number of orders. We are taking warning, and preparing at once a large number of hats at these popular prices, and the values will induce quick and early buying. Wednesday's showing: 100 Trimmed Hats at \$5.00 each, 50 Trimmed Hats at \$6.00 each, 50 Trimmed Hats at \$7.50 each.

### Book Department

500 The Advance Library, bound in cloth, and printed on good paper. Regular 25c each. Special, each . . . . . 21

A few of the titles: "Adam Bede," by Eliot; "Arcturion," by Correlli; "Beatrice," by Rider Haggard; "Called Back," by Hugh Conway; "House of the Wolf," by Stanley J. Weyman.

### Travelling Goods Department

25 only heavy, smooth, cowhide leather Club Bags, covered frame, with brass lock and side catches, sewed edges, leather bottom corners, neatly lined with inside pocket. Size 18 in. Regular price \$4.95. Wednesday . . . 3.95

20 only medium weight cowhide leather Suit Cases, all made on steel frame, double bolt locks in brass, and single lock, and side catches, linen lined, with pocket and without, strong leather handle. sizes 24 in., 26 in. Regular price up to \$5.75. Wednesday . . . . . 3.95

## A Speciality

What is it? In this case it is a \$15 suit of clothes. Like any other speciality, it is something in which a pride is taken, and to which care, attention, work and thought have been devoted. For years our Men's Department has tried to sell a suit at \$15 which will compare favorably with those for which other stores usually charge from \$20.00 to \$25.00. Volume of business is here to back us, and lack of it often accounts for the \$5.00 or \$10.00 difference in price between the Simpson Suit and the other.

Here are particulars of a couple of suits at \$15.00 which have helped to build up for our Men's Department a reputation and impress it upon the wearer that the \$15.00 suit from Simpson's outlasted its \$20 rival from elsewhere both in appearance and wear.

You will judge that we are proud of our \$15 suit. We have a right to be—it is a good thing.

Navy Blue Worsted Suits, made of English clar twill, a soft, smooth-finished material, cut from the latest single or double-breasted models, slightly conforming to the figure, carefully tailored in every possible way, and finished with extra quality linings and trimmings; sizes 36 to 44 . . . . . 15.00

West of England Worsted Suits, in the new season's popular brown and grey shades, with self and faint fancy colored thread stripes; cut in a 3-button single-breasted sack style; body lined with the fine twill mohair lining, fronts reinforced with thoroughly shrunken canvas and hair-cloth, beautifully tailored and perfect-fitting; sizes 35 to 44 . . . 15.00

### BOYS' HIGH-GRADE SPRING SUITS.

Boys' Two-Piece Suits, English fancy worsted in mixed grey pattern showing a self stripe; cut in double-breasted style, with close-fitting collars and neat lapels; nicely tailored and perfect-fitting; pants bloomer style; sizes 37 to 43 . . . . . 9.00

Boys' Two-Piece Suits, high-grade English tweed, in the fashionable grey and fawn shades, with neat fancy colored thread stripes; cut from the latest American double-breasted models; splendidly tailored in every way, and finished with extra quality linings and trimmings; pants bloomer style, with strap and buckle at knee; sizes 26 to 34 . . . . . 10.00

Men's fine black Hose, fine quality cashmere, no seams in sole, extra soft close finish, medium weight, good wearing yarn, close fitting ribbed top, reinforced heel and toe, worth 30c, Wednesday . . . . . 19

### Paris Model Blouses at One-third Regular Prices

Yes, this is a sale of 50 Model Blouses, secured by our buyers in Paris, and consisting of the very latest for the coming season. The price we quote for these charming garments has no connection with the value and style. We consider this an opportunity for one of the best investments ever offered Toronto women.

The Blouses are nearly all hand-made, as well as hand-embroidered. Most of them come from the maison "Armandias," the Paris specialists in hand-made goods. Materials are satin duchesse, crepe de chine, ninons, chiffons, and other soft materials. Some are trimmed with real Irish insertions and motifs. Others are elaborately hand-embroidered. There are also some embroidered overslips so fashionable just now. These garments

selling regularly would be \$10.50, \$12.50, \$15.00 and \$17.50. Our price on Wednesday is . . . . . \$5.00

### Two Inducements to Visit the Fancy Needlework Dept.--Main Floor
