TURKISH FLOTILLA SCATTERED BY GUNS OF ITALIAN WARSHIPS

In First Clash Turkish Destroyer is Reported Sunk in Prevesa Harbor by Cruiser Which Landed Troops—Turkey's Fleet May Be Trapped by Enemy in Darda- nelles—Commander of Tripoli Refuses to Surrender.

Hostilities have begun in the Turko-Italian war by the invasion of the Epirus by an Italian squadron, and the blockade of Tripoli, which was summoned to surrender by the commander of the Garibaldi, the Turkish Governor of Tripoli refusing to accede to the demand. It is stated that the Italians will seize the whole coast.

It is believed in London that the grabbing of Tripoli by Italy is part of the program of the triple entente, whereby Austria took the Bosnia-Herzegovina provinces, Germany contemplated a share of Morocco, and Italy now seizes her portion. Germany is protecting Italian subjects in Turkey.

The Turkish government is said to have resolved not to oppose the occupation, and the ministry has resigned. The Turkish fleet, steaming for the Dardanelles, may be captured by the superior Italian squadron.

That England's hands are tied is admitted by the London press, but The Daily Graphic blames Sir Edward Grey for permitting the violation of treaty obligations which guarantee the integrity of Turkey.

SALONIKI, EUROPEAN TURKEY, Sept. 29.—(1 a.m.)—An Italian cruiser has destroyed a Turkish destroyer in the harbor of Prevesa, in Epirus, and landed troops. The Turkish authorities are sending a battalion of troops to Prevesa.

PARIS, Sept. 29.—The Matin Athens correspondent says that a naval battle occurred off Prevesa at 2 o'clock in the afternoon. Italian warships belonging to the Ionian squadron encountered a flotilla of Turkish destroyers cruising off the coast of Epirus. The Italians promptly attacked the flotilla, and two Turkish ships were badly damaged by shells. They have gone ashore in the Gulf of Arta.

CONSTANTINOPLE, Sept. 29.—Italian forces have landed at Tripoli and Benghazi.

The Turkish cabinet has resigned. Said Pasha, president of the senate, has been appointed grand vizier, and Mahmud Pasha, foreign minister.

The government has decided not to oppose an armed resistance to the occupation of Tripoli, and, further, to take no measures against Italian residents in Turkey. The government hopes by adopting that attitude that Italy will not treat the Tripolitans as a conquered people.

Italians Land With White Flag.

TRIPOLI, Sept. 29.—The Italian squadron, which has been cruising in the offing, came close in shore this morning and the Destroyer Garibaldi steamed into the harbor at noon flying a white flag.

Great crowds gathered and watched her approach. After reconnoitering, the destroyer launched a boat, which came to the beach. An officer landed. He was preceded by a bluejacket, carrying a white flag.

Turkish soldiers surrounded the pair. The officer asked for the Turkish commander. When taken to him he formally announced that the Italian fleet had been ordered to occupy the town.

He therefore demanded the instant surrender of the whole Turkish garrison. The Turkish commander replied that he was unable to comply with the demand, and emphatically refused to surrender.

Foreigners Cheered Italians.

The incident was witnessed by the foreign residents, who gathered around the Italian officer and cheered him enthusiastically. The boat then returned to the destroyer, which rejoined the fleet.

A great number of the residents of Tripoli spent his night camped on the beach, alarmed lest the Arabs should get out of hand and begin pillaging.

Arabs are constantly arriving from the country. The mosques are kept open and throughout the night were filled with praying Arabs.

Turks Sunk Two Barges.

CONSTANTINOPLE, Sept. 29.—The Turkish war ministry, according to the reports current here to-night, has received a despatch from the late Turkish military attaché at Paris, who assumed command of the forces at Tripoli, stating that the Italians began to disembark this afternoon, but the Turks succeeded in sinking the first two barges.

It is rumored also that Italian forces have landed both at Tripoli and Benghazi.

The Turkish cabinet has resigned, Said Pasha assuming the office of grand vizier and Kiamil Pasha that of foreign minister. Mahmud Shekiet Pasha continues as minister of war.

Italy May Seize Turkish Navy.

The Italian charge, Signor di Martino, handed the Porte this afternoon a communication intimating the intention of Italy to proceed with the measures foreshadowed in the ultimatum. This was tantamount to a declaration of war, and as a state of war would give Italy greater freedom of action in Turkey waters there is much apprehension regarding the Turkish war vessels at present steamers in the direction of the Dardanelles, lest they are captured by the Italian squadron, which is believed to be watching the movements of Turkish ships.

The British embassy here are concerned for the British officers with the Turkish squadron and are instructing the government for their recall. The question of the protection of Italian subjects in Turkey is engaging the attention of the Italian authorities.

It is thought that a request will be made to Germany to undertake the protection of the Italian subjects. The national emblems have been removed from the embassy, the consulate, the postoffice and the schools, with a view to preventing untoward incidents.

The Italian Declaration.

The newspapers publish the statement that Italian battleships have appeared off Smyrna and Saloniki.

Following is the text of the declaration:

Europe in a Ferment

All Europe is now on edge, wondering, surmising, dreading what the outbreak of war between Italy and Turkey may lead to. The relationship of many of the European nations is none too cordial at the present time, and the most tactful diplomacy will have to be resorted to on every occasion to preserve neutrality. France and Germany have happily reached an understanding regarding Morocco, but who can say that the dying embers of rivalry may not on slight provocation be fanned into flame?

In threatening an attack on Greece, the Turks evidently hope for the intervention of Great Britain, seeing that Greece is now something nearly akin to a British protectorate. Russia, too, is mobilizing troops along her southern frontier, and the smaller principalities of the Balkans are almost ready to turn hand-springs of fear.

It will take statesmanship of the highest calibre to preserve peace and concord among all the nations of Europe, now that war so long threatened has actually broken out between Italy and the Ottoman Empire.

SCHOOL BUILDING DEPT. IS BADLY DEMORALIZED

Special Committee Finds That Superintendent Bishop is Overworked.

A lengthy report of the investigation by Trustee McTaggart's special committee into the building department of the board of education was brought in at the meeting of the property committee yesterday, strongly censuring the present system.

The report suggested that the demoralization and delay found in the department were caused by the enormous increase in the work, and an unprogressive policy on the part of the board.

It recommended that Mr. Bishop be retained as superintendent of buildings, but that his duties be greatly lessened. All new work, it is suggested, should be placed in the hands of architects in the city in competition.

A properly qualified sanitary engineer should be employed in the case of heating, ventilating and plumbing, to furnish the architect with the necessary data, and to superintend that portion of the work.

Mr. Bishop would still have charge of the building and repair work of the system, and the selecting and purchasing of new sites.

Mr. Leves stated that as chairman of the board he was altogether dissatisfied with the department as at present constituted, but would not give his opinions of the new scheme. Mr. Ellis was decidedly in favor of it.

"It would mean that we would get the work done on time," he declared. "This year there will not be one contract finished on time."

Trustee Hodgson said that it would mean the saving of \$10,000, but the further expenditure of \$25,000 in the matter of fixing the work to architects. Mr. Ellis' pool-poohed this idea. The report will be dealt with at the next meeting of the property committee to which all the members of the board will be invited.

PORCUPINE BULLETIN

Snowfall and Frosts Reported—Fire Does Good Work.

PORCUPINE, Sept. 29.—(Special.)—Snow to the depth of two inches fell in Porcupine last night to disappear before to-night, leaving the ground in a wet state. The air is clearer and drier as a result of the storm. Heavy frosts occurred during the week. Government-road is made along the Tisdale-Whitney mines as far south as the Steel Dunn claims. Philadelphia mines and James syndicate will commence operations on completion of the road.

Fire has so completely cleaned Shaw on the west and Deloro on the east that many good lots are bare to view and mine men express the opinion that a great prospective mining section lies in this district. Formation is Kewatin schist with quartz veins more regular in many places than in Tisdale and Whitney. Fifty per cent of the country is exposed rock.

SHAKE UP IN G.T.R. OFFICIALS REORGANIZATION IS THORO

E. H. Fitzhugh Will Devote Whole Attention to Subsidiary Lines in Vermont—John Pule- n Succeeds C. M. Hays as President of Canadian Express Company.

MONTREAL, Sept. 29.—Announcement was made to-day of a complete reorganization of the executive domestic economy of the Grand Trunk Railway. The old offices of vice-presidents have been altered, so that they are no longer first, second and third vice-presidents, but a number of vice-presidents each in charge of a department. The official circles in the Grand Trunk Pacific are also somewhat changed.

According to the reorganization the new official list will be as follows: E. H. FITZHUGH, formerly vice-president of the Grand Trunk, becomes president of the Central Vermont, Central Vermont Transportation Company, Southern New England Railway Company and Montreal and Southern Counties Railway. As the headquarters of the Central Vermont are at St. Albans, it is expected that Mr. Fitzhugh will leave Montreal for that town.

The reorganization of the vice-president continues: WILLIAM WAINWRIGHT, formerly second vice-president of the Grand Trunk and Grand Trunk Pacific, becomes senior vice-president of the Grand Trunk and second vice-president of the Grand Trunk Pacific.

M. M. REYNOLDS, formerly third vice-president of the Grand Trunk and Grand Trunk Pacific, becomes vice-president of the financial and accounting departments, and third vice-president of the Grand Trunk Pacific. Chief Engineer is Promoted.

HOWARD G. KELLEY, formerly chief engineer of the Grand Trunk, becomes vice-president in charge of construction, transportation and maintenance departments.

J. E. DALRYMPLE, formerly freight traffic manager of the Grand Trunk Pacific, becomes vice-president of the Grand Trunk in charge of traffic, both passenger and freight.

R. S. LOGAN, formerly assistant to President Hays, becomes vice-president of the Grand Trunk in charge of land, tax, claims, and mail departments.

H. R. SAFFORD, formerly with the Illinois Central at Chicago, becomes chief engineer of the Grand Trunk with headquarters at Montreal.

D. E. GALLOWAY, formerly secretary to President Hays, becomes associate to the president.

CHARLES M. HAYS, having been elected chairman of the board of directors of the Canadian Express Company, is succeeded as president of that company by Mr. John Puleen.

J. E. DALRYMPLE is also appointed fourth vice-president of the Grand Trunk Pacific in charge of traffic with headquarters in Montreal.

Here's a Cool Story.
HANOVER, N.H., Sept. 29.—The first snowfall here in September in 15 years was recorded to-day. Snow fell intermittently for three hours.

EXPRESS CLERK SUSPECTED OF THEFT

Hamilton Police Hold Geo. Ken- nough and John Hughes While Groping for Light on Sensational Robbery of Over \$8000 From Vault—Clerk Tells of Masked Robbers.

HAMILTON, Sept. 29.—(Special.)—Following the sensational discovery of the theft of more than \$8000 from the vault in the local office of the Canadian Express Company at an early hour this morning, Geo. H. Kennough, night clerk in the office, was taken into custody by Detective Cameron on suspicion of being implicated in the robbery, and the police claim they now have sufficient evidence to justify a charge of theft against him in connection with the affair.

John W. Hughes, a friend of Kennough, who had been in the habit of hanging around the express office while the latter was on duty, was arrested by Plainclothesman Goodman at his boarding house at 112 North Bay-st., on a vagrancy charge, and it is expected that he will be charged with complicity in the robbery.

Where Did the Money Go?
The police department to-night refuse to discuss the matter or to give out any further information, but it is understood that no clue has yet been discovered as to the whereabouts of the stolen money. The exact amount taken from the vault was \$8574.24. Of this sum \$5000 was contained in one parcel of bank notes, \$2000 in another, and the remainder was in small bills and silver.

The robbery was discovered by W. A. Robinson, local agent for the company, who was called to the office shortly before 7 o'clock this morning by one of the drivers, who was unable to gain admittance to the office, as usual. Kennough was found lying in the vault, bound hand and foot with two pieces of small grass clothes-line, which was quite new. The police department was promptly notified, and Detective Cameron went to the scene at once.

Helped Up by Two Men.
Kennough before being unbound, told a story to the effect that two men entered the office from James-street, and before he was aware of their presence one of them placed a revolver to his head and demanded the money in the vault. After securing their booty they tied Kennough's hands and feet and put him inside the vault, where he was later found by Dr. Robinson. Kennough said the robbers were masked and he was unable to give any description of them, other than they were short and stout.

The police say that Kennough's feet were very loosely tied together and that he was able to move about after being placed on his feet. It is also alleged that the rope which bound his hands was nearly united when he was found.

Clerk Wasn't Gagged.
Further suspicious circumstances are that he was not gagged, and could therefore have made an outcry, which would probably have attracted the employees of the G.N.W. Telegraph Company, whose office is just across the street. To-morrow the police will canvass all the stores in the city which sell rope, in an effort to discover the identity of the person who bound Kennough.

Two Hours Off Express Record.
MONTREAL, Sept. 29.—The office of the Canadian Pacific Railway Company's steamship lines here to-day received a cable that the Express of Ireland had arrived at Liverpool at 8 p.m. last night, thus breaking her record for the trans-Atlantic voyage by two hours. The record now stands at 6 days 10 minutes for the eastbound voyage from Quebec to Liverpool.

Food Reform League.
The annual meeting of the Toronto Food Reform League will be held on Monday, Oct. 2, at 8 p.m., at Dr. McCormick's rooms, 11th floor, Traders' Bank Building.

SIR WILLIAM IS HOME AND IN CHEERFUL MOOD

Central Ontario Line is Acquired and Outlook in West is Ex- ceptionally Bright.

Sir William Mackenzie, who returned from the west yesterday morning, expressed himself to The World as delighted about the program, which the Canadian Northern were making in the prairie provinces and British Columbia.

"How is the line from Yellow Head Pass to Vancouver progressing?" he was asked.

"Very well. The contractors are all in from the Fraser River Canyon to Kamloops, and they are making great headway. Of course it is a difficult task, but everything is going along well."

"Are there any new developments in the Winnipeg Street Railway situation?" he was asked.

"No. They are trying to settle what they will do, but as far as I am aware they have decided on nothing yet."

Asked about the company's proposal to take over the Intercolonial Railway, Sir William said that for the present there could be nothing further done. The company had considered the idea, and it was likely that negotiations would be carried on in the future.

Central Ontario Acquired.
"Yes! It has been taken over long ago" was the answer he gave to The World man's query as to whether the C.N.R. had actually acquired the Central Ontario Railway.

"Have you anything to say regarding the general outlook of the company's undertakings out west?" asked The World.

"Well no, except that everything is going along very well. The traffic has been very heavy. The wheat crop, of course, is very large. In Manitoba they have their crop pretty well threshed, but in Saskatchewan and Alberta they are a little behind."

Sir William stated that he would go to Ottawa last night, but he expects to be back in Toronto in a day or two.

SQUARE DEAL NOW ASSURED

Ontario Government Relinquishes Control of Immigration Affairs.

On and after Nov. 1 the Ontario immigration office on Front-st. will be under the control of the Dominion government.

The Whitney government was of opinion that Ontario was not being fairly treated as regards immigration, and the department was established with a view to looking after the province's interests. With the new regime at Ottawa, however, the provincial government are assured of better treatment.

Popularity of Musical Comedies.
There is no question about the popularity of musical "shows" in this city—that is, good musical comedies. The Beauty Spot Company, which is booked for the Princess the fore part of next week, is one that has "made good."

OUT OF THE ORDINARY OVERCOATS

We are selling for the Fall and Winter in addition to our large assortment of Overcoats, three patterns of registered cloths, imported from England, and made into the most handsome Ulsters it has ever been our good fortune to offer the well dressed men of Toronto. These Coats are made into a smart Ulster with big storm collars, sleeves and shoulders lined with silk, the fabric is 40 oz. double faced textures and beautifully designed. These coats are all hand tailored and without doubt the most desirable coat ever shown in Toronto. Although the prices are forty and forty-five dollars each, we consider them the cheapest coats, value considered, we have yet shown. Motorists are enthusiastic over them as soon as shown. We were only able to secure a very limited supply and quite a number have been sold already. We are sure that nowhere in Canada can you duplicate this splendid coat. The colors are in two handsome shades of grey and one brown mix, with an olive tinge. "Oh yes," you will be delighted all right. We have written this article all about these splendid coats—just because as one gentleman said: "They fill my eye completely."

This is a clothing store where you may expect to get "out of the ordinary" clothes for men and boys. Our fame has spread from coast to coast, and we have numbers of customers in all parts of the far west. There is nothing in a name if the garments do not back it up—ours do. That's why you can depend upon

WARDEN PLATT TO RESIGN BILLET EAGERLY SOUGHT

Customs Officials Strict—Father Spratt to Be Consecrated Archbishop—Kingston Gossip.

KINGSTON, Sept. 29.—(Special)—Alto he will not speak upon the matter, it is understood J. M. Platt, warden of the penitentiary, is about to resign. As a result there is much speculation as to who will be his successor. As it is one of the best billets in the gift of the government, many will be seeking it.

Albert J. Jackson, son of Charles Jackson, a prominent young man here, died suddenly of typhoid fever. He took a science course in Queen's. Suit has been entered by M. R. Reid, inspector of schools, North Frontenac, Lennox and Addington, for \$302 increase in salary which he claims he is entitled to. Judge Price will hear the case.

Peevish Over Election.
Reports have been received about officials of the United States customs being very strict in border towns since reciprocity was defeated, as regards goods sent to and carried in from this country. Some merchants have been called upon to verify the value of goods sent, their valuation being questioned. People with additional clothing have been held up and forced to pay duty under protest.

Arrangements have been made for the consecration of Rev. Father Spratt, Belleville, as Archbishop of Kingston archdiocese, in St. Mary's Cathedral, Nov. 30, the feast day of St. Andrew. The apostolic delegate to Canada, Mgr. Sifagne, Ottawa, will be consecrator.

This Dog Had a Pull.
Mrs. Edward Green, aged 50, had her right arm broken by a peculiar accident. She was going down stairs with her dog tied to a chain. The dog spied a cat and pulled to get away, and she fell with such force as to break her arm.

TO BE ILLUMINATED
Niagara Falls Will Twinkle Under the Electric Rays.

NIAGARA FALLS, Sept. 29.—Prominent citizens to-day held a conference with the Niagara Falls Power Company officials, opening negotiations for the permanent illumination of the Falls next year. Those at the conference expressed the belief that the Falls would be lighted by next Victoria Day.

After he spent several hours to-day endeavoring to fly in an airplane of his own building, Bruce Donald declared he would abandon aeronautics and return to his old job as a trolley car motorman. His machine refused to leave the ground.

Because of rain last night Stamford Fair races were postponed to-day for a week.

Dr. Norman Walker was to-night tendered a farewell banquet at Clifton by 200 friends. Dr. Walker goes to Toronto to practice next week. He resigned to-day from the General Hospital board.

A crowd about the Grand Trunk station to-day was horrified to see a stranger drain the contents from a four-ounce bottle, believing he was committing suicide. Officer Farrell, who arrested him, found the bottle had contained pure alcohol. The man is in a serious condition, and didn't know his name. Papers found in his pocket gave it as John Schuler, Rochester. How the man entered the country is unknown. He will be turned over to the immigration authorities when he recovers. He said he would like to die after seeing Niagara Falls.

THRU TRAIN TO PORCUPINE
Direct Connection Soon Between Toronto and New Gold Camp.

Within four weeks there will be direct railway connection between Toronto and New Gold Camp. Chairman Englehart of the T. and N. O. is going north next week to look over the situation and see how the arrangements for the running of the thru trains are progressing.

"It may be three weeks before the train direct to Porcupine is running," said Mr. Englehart yesterday, "but we expect to have it in operation within a month anyhow."

ENJOYABLE AT-HOME.
Court Loch Lomond, L.O.F., held their annual at home last night at Mrs. Meyer's, Sunnyside. Over 200 members and their friends were present, including a number of visitors from Hamilton and London. High Chief Ranger Bell was present and welcomed the guests, who, previous to the opening, were received by the officers of the court. Music was contributed by Boddy's Orchestra, who gave a splendid program of 20 selections. Supper was served in the dining room at midnight. A most enjoyable evening was spent by everybody present.

Cured of Shingles and Eczema

By Cuticura Soap and Ointment. Chest Raw, Bleeding and Itchy.

"I just want to say a good word for Cuticura Soap and Ointment. In November, 1906, I had what the doctors call shingles and eczema. My chest was raw and bleeding and itchy. It was that way all winter. It was not so bad in the summer. In September it got worse. I had the best doctors treating me, but did no good. I was all run down in health. In November, 1910, it got worse again. I sent you for a sample case of Cuticura Soap. You sent it to me and I got a box of Cuticura Ointment. I have used two boxes and on the third one it has cured me of shingles and eczema. I am delighted with these and feel pleased to think I have something I have confidence in. Should anyone be suffering as I did, I hope that they will do as I did, and I am sure of the result. I am recommending them from experience." (Signed) H. H. Jarvis, 7 Ann St., Kingston, Ont., May 30, 1911.

For more than a generation Cuticura Soap and Ointment have afforded the speediest and most economical treatment for itching humors, scaly and bleeding skin and scalp humors of young and old. A single case of Cuticura Soap and Ointment are sold throughout the world, but to those who have suffered much, lost hope and are without faith in any treatment, a liberal sample of each with 25¢ booklet on the skin chases will mail for an application. Address: Potter Drug & Chem. Corp., 6 Columbus Ave., Boston, U.S.A.

MRS. PATTERSON HALL.
Chosen President of Women's Auxiliary Thirtieth.

WINNIPEG, Sept. 28.—The Women's Auxiliary of the Church of England, in triennial conference here to-day, elected officers for the ensuing three years. The re-election to the presidency of Mrs. Patterson Hall by an unanimous vote was the feature of the sitting.

Other elections were: Honorary president, Mrs. Tilton, Ottawa; recording secretary, Mrs. Raynes, Montreal; corresponding secretary, Mrs. Rogers, Ottawa; Dorcas secretary-treasurer, Miss Halslo, Toronto; Junior secretary, Miss A. Gaviller, Hamilton; secretary-treasurer, Miss Edith Carter, Quebec; convener of Chinese work, Mrs. G. Greene, Ottawa.

Vice-presidents will be elected to-morrow. Mrs. Robertson of London, Ont., read a paper on conditions among the Indians and complimented the efforts of the Rupert's Land diocese in improving the condition of the Red Men.

JOINS TORONTO AGENCY.
Charles W. Fraser of Detroit Takes Position With Baker Advertising Agency.

On October 1, Charles W. Fraser associates himself with the Baker Advertising Agency of Toronto, Ont., an organization which was formed last June and has since enjoyed a healthy growth and taken its place among the leading Canadian advertising agencies. Mr. Fraser goes to Toronto to take charge of the advertising business handled thru the Baker agency. He is an agency man of wide experience, which began some years ago in Chicago. There he was a member of the Charles H. Fuller organization and was later with Williams & Cunningham. From Chicago he went to Detroit some time ago to take charge of the order and rate departments of the MacManus Company, which position he leaves to go to Toronto.

HELLO GIRL SURRENDERED.
NEW YORK, Sept. 28.—Miss Madeline Ruse, the telephone girl for the Jared Flag got-the-quick concern, who has been playing hide and seek with the federal officers since Flag and his associates were arrested a week ago, surrendered herself to the authorities to-day. After examination she was permitted to go to her home in White Plains, N.Y. The warrant for her arrest, however, was not cancelled.

Baptist V. P. Rally.
The fall rally of the Toronto Baptist Young People's Union will be held on Monday evening, Oct. 2, in the Devonport-road Baptist Church. "On the Race Track" will be the subject of an address to be delivered by the Rev. Charles H. Rust, pastor of the Second Baptist Church of Rochester, N.Y.

Rev. William Fetter of St. Petersburg, Russia, will tell of his fight for religious liberty. Mr. Fetter is now out on bail and on his return to Russia has to stand trial for preaching the Gospel.

"CEETEE" UNDERWEAR

"CEETEE" Underwear is made specially for those who appreciate and can afford "quality" and taste in their clothing.

The process of manufacturing it is expensive from start to finish—on account of the great care necessary to attain the "CEETEE" standard of excellence. Every garment is shaped to fit the form during the process of knitting—the edges are all knitted together (not sewn). Each garment is so soft and clean that a baby could wear it without injury to its skin.

Made in all sizes and weights for Ladies, Gentlemen and Children.

FIREMEN DODGED BULLETS.
To the firemen, who went to extinguish a fire in the hardware store of A. F. Carnegie, 106 Main-street, East Toronto, yesterday morning, it seemed as if they had been transported to Tripoli and that the war was already in full swing for they were compelled to dodge bullets when the flames had eaten their way to the ammunition supply. This they resented bitterly as they had not looked for such a demonstration upon the premises of a nameless of the great peace advocates.

YOU THINK IT'S RHEUMATISM

You Haven't Rheumatism!

It's only fallen instep—a breaking down of the foot arch—causing flat-foot brings muscular pains that feel much like rheumatism and are often diagnosed as such.

Scholl "Foot-Eazer" worn inside any shoe—gives just the right pressure at the right spot—and not only overcomes the strain produced by flat-foot—which is responsible for all the aches and pains of the feet and limbs—but also cures the feet, body and nerves and prevents flat-foot.

Get the Scholl "Foot-Eazer"—an imitation. Your health is too important to run any risks. Ask your shoe dealer or druggist to let you try a pair.

MICHAEL ANGELO WINS THE ROTHSCHILD CUP

Six Favorites First in the Mud at Woodbine Park—Schuttlinger Rides Three Winners.

The track was heavy and there was a drizzling rain on Friday at Woodbine Park. Still the horses ran best to form of the six days, no less than six first choices finishing in front.

The president's candidate was first to get going, and along the back stretch he looked like a winner, keeping ahead till the stretch was reached, and then Michael Angelo romped ahead on the outside and won at his own margin.

Cast Steel was a bang up third all alone, the public went down with a thud on the only beaten favorite, Mr. Seagram's Rockville. Whoever told them he could run a distance in the mud? It was the feature race, the first running of the Rothschild Cup.

The steeplechase was next in importance, according to added money. Wilhalla rewarded the well-placed confidence of the public by showing speed and ability to fence, winning all the way. Waterway, second choice, fell early in the first round. Highbridge finished strong for the place, with Broadsword third. Dr. Heard again dropped back at the finish.

Rye Straw won the opening event from post to wire, the Carrillon would have scored in another sixteenth, with Conroy K. third and Sir Edward always last.

Andy Chisholm was best of the three novice steeplechasers. Buckhorn was also good in the mud and looks about the best two-year-old at the track. He beat Tactics in the third race in a close duel, Cherry Seed third, and the rest nowhere.

LEGISLATION BY REFERENDUM.

How much the democracy of the United States may be hampered in adopting and applying new theories and principles of self-governance is illustrated by the pending litigation between the State of Oregon and the Pacific States Telephone and Telegraph Company, which is expected to be heard on appeal to the federal supreme court before the end of the year.

The point at issue concerns the legality of a tax of two per cent. on the gross income of the company imposed under a law enacted not by the legislature, but directly by the voters of the state on a referendum. It was contended unsuccessfully on behalf of the company before the state supreme court that the federal constitution does not recognize this method of enacting a law and that the act was therefore unconstitutional.

VALUE OF PREFERENTIAL TARIFFS.

When the representatives of the overseas dominions at the Imperial conference concurred in passing a resolution to the effect that the principle of preferential trade would stimulate and facilitate mutual commercial intercourse and would by promoting the development of the resources and industries of the several parts, strengthen the empire, they did not act without ample warrant. In 1904, two years after the conference of 1902, when this resolution was first adopted, New Zealand put it into effect by establishing a preferential tariff. Prior to that year a considerable and increasing export trade passed from the United States to New Zealand. After the introduction of the preferential principle it steadily declined and this year a United States vice-consul visited the lesser dominion on special service for the treasury department for the purpose of discovering the cause of the decline. This he had no trouble in doing. Nothing but the preference accounted for the fall in United States exports to the United Kingdom and from Canada.

In his report the vice-consul states that Oregon and Washington have now lost to British Columbia the greater part of their business in potted and preserved fish, which includes chiefly tinned salmon. In hardware products and in nails, New Zealand's imports have been showing considerable gain, but the United States, instead of participating in the increase, has lost ground. In these lines Canada, which eight years ago had practically no trade at all, is now taking an important position, as also in furniture, cabinets and upholstery. Imports of which from Canada now exceed those from the United States. An especially severe loss to American trade is that in boots and shoes, imports of which from the United States have declined in value from \$513,839 in 1903 to \$30,893 in 1910. Imports from the United Kingdom in the meantime have nearly doubled in value, from \$553,737 in 1903 to \$1,086,765 in 1910.

NORTH TORONTO GRADE CROSSINGS.

Corporation Counsel Drayton deserved a warmer reception at the hands of the railway board, if Chairman Leitch's remarks were correctly reported, when he introduced his plan for the relief of the grade crossing evil in North Toronto.

Most of the improvements in Toronto are introduced ten or fifteen years too late. Mr. Drayton's plan has been introduced before anything has been done to make it difficult or undesirable. On the contrary the improvement can easily be carried out, and it is absolutely necessary. The chief item of expense will be time.

DRINK CURE A MIRACLE?

No, Just Sound Science

Many drunkards are sent to jail when what they need is medicine. Drink has undermined their constitutions, inflamed their stomach and nerves, until the craving must be satisfied, if it is not removed by a scientific prescription like Samaria.

Samaria Prescription stops the craving, restores the shaking nerves, builds up the health and appetite and renders drink distasteful and nauseous. It is odorless and tasteless and dissolves instantly in tea, coffee or food. It can be given with or without the patient's knowledge.

A FREE TRIAL PACKAGE of Samaria Prescription with booklet giving full particulars, testimonials, price, etc., will be sent absolutely free and post paid in plain sealed package to any one desiring it and mentioning this paper, correspondence strictly confidential. Write today. The Samaria Remedy Company, Dept. 23, 49 Colborne-street, Toronto.

Also for sale at Bingham's Pharmacy, 100 Yonge-street. Also at Doak's Pharmacy, 1470 Queen Street West.

and even the railway board can afford to spend some time. The actual cost in money will be trifling compared with what, for example, the Grand Trunk and the city are now expending to remove grade crossings on the lake front.

Mr. Drayton's plan will remove the grade crossings in North Toronto to begin with, and if the people have their way, no one will say him nay.

PUBLIC-SPIRITED ALDERMEN.

Ald. McBride's obstructive tactics in the matter of the Humber boulevard will not deceive the public. Naturally he would not be so anxious to deprive Toronto of such an excellent opportunity to acquire a gift which every lover of the city has been wondering for years how it could be obtained. Nor does Ald. McBride really need to visit the Humber any more than he has already done to acquaint himself with the locality. The other aldermen know the situation at least as well as Ald. McBride, but they are not so anxious to postpone dealing with it.

The council has a fine opportunity to distinguish itself by putting the Humber scheme and North Toronto annexation thru at next council. That will leave the Bloor-street improvements as the only portions left to complete the plans that have been before the citizens since January last for the betterment of Toronto.

A NEW SOCIAL CENTRE.

A social settlement, to be known as the Central Neighborhood House, has been opened at 84 West Gerrard-street, and it desires to enlist the sympathy and co-operation of citizens in this latest venture along philanthropic lines—the establishing of a social centre in the heart of Toronto's foreign population.

BOGUS MARRIAGE CERTIFICATE.

George Franklin Dove was brought into the sessions yesterday on a charge of uttering a forged document purporting to be a marriage certificate signed by Rev. C. O. Johnston. At the last session Dove was acquitted on a charge of luring a young girl away from her parents, and the present charge arises out of his admission that he procured a friend of his to fill out a marriage certificate to satisfy the parents.

Ball was allowed until Monday, when he comes up for trial.

Circumscribing His Activities.

SEA FORTH, Sept. 29.—W. Somerville, who has been agent of the Canadian Express Company here continuously for the past 22 years, has resigned, but he still retains the G. N. W. Telegraph and Grand Trunk ticket agencies.

Re Farmers Co-Operative Store, Limited.—H. E. Rose, K.C., for the company. Motion by the company for a winding up order. Order made. A. H. Held appointed provisional liquidator. Reference to the local master at Belleville.

Court of Appeal.

Before Moss, C. J. O.; Garrow, J. A.; Maclean, R. A.; Meredith, J. A.; Magee, J. A. A.; Meredith, J. A.; Marshall v. Gowans.—E. F. B. Johnson, K.C., for defendant. I. B. Lucas, K.C., for plaintiff. An appeal by defendant from the judgment of Latchford, J., of Nov. 7, 1910. This was an action by Margaret Marshall, administratrix of estate of John Marshall, to recover damages for the death of John Marshall, occasioned by reason of the running away of a team of horses with which he was engaged, it being alleged that the running away was caused by the negligence of defendant in operating his motor car. At the trial judgment was given plaintiff for \$2000.

Judgment: Judgment set aside and new trial ordered. Costs of former trial to be costs in the action. Costs of appeal to be costs to defendant in any event.

Hasley v. Canada Life Assurance Co.—G. H. Watson, K.C., for plaintiff. W. Nesbitt, K.C., and B. Osler for defendant. An appeal by plaintiff from the judgment of Teetzel, J., at the trial of Jan. 24, 1911, whereby he found that the plaintiff was not entitled to the sum of \$3000 and profits claimed by plaintiff under the policy issued to him by defendant, and that defendant was entitled to rectify said policy. This was a tontine policy and it is alleged that defendant had appropriated to it \$675.33 profits, which plaintiff claimed. Multiple defendant asks that the policy be reformed by striking out \$3000 and inserting in lieu thereof \$1422, and for a declaration that the amount withdrawable is \$1422.33.

Judgment: Appeal dismissed with costs.

Re Henderson and West Nisour.—J. M. McEwen (London) for Henderson. G. S. Gibbons (London) for the council. T. G. Meredith (London) and W. F. Meredith (London) for the appeal board of the township. An appeal by Henderson from an order of a divisional court of 5th January, 1911, dismissing an appeal from an order of Middleton, J., of 20th October, 1910, refusing to grant a writ for establishing a continuation school in the Township of West Nisour.

Judgment: Appeal dismissed with costs.

Carne v. Laidlaw Lithographing Co.—J. M. Godfrey for defendants. S. F. Washington, K.C., for plaintiff. An appeal by defendant from the judgment of Mulock, C. J., of 22nd March, 1911, whereby he directed judgment to be entered for the plaintiff for \$1300 and costs, and stated to the court that this case had been settled, so appeal struck from list.

Stevens v. C. P. Ry. Co.—I. F. Hellmuth, K.C., and J. Scott (Ottawa) for defendants. J. A. Macintosh for plaintiff. An appeal by defendants from the judgment of the chancellor of the Exchequer, in this was an action for damages for the loss of plaintiff's foot, which was taken off at the ankle by a train of the defendant company on 26th November, 1910, at a public road crossing about three-quarters of a mile west of Vankeek Hill station. At the trial judgment was awarded plaintiff for \$2300 and costs. Appeal argued and judgment reserved.

Glesing v. The T. Eaton Co.—I. F. Hellmuth, K.C., and G. W. Mason for defendants. T. N. Phelan for plaintiff. An appeal by defendants from the judgment of the divisional court of 11th April, 1911, dismissing an appeal from the judgment of Teetzel, J., awarding plaintiff \$750 and costs. An action to recover \$5000 damages for injuries to plaintiff, Alice Glesing, alleged to have been caused by some large rolls of cloth, standing on end in defendant's store, toppling over and falling upon her. Defendants set up a settlement with plaintiffs and the payment of \$100 in December, 1909, for a release of all right of action before this action was begun in June, 1910. At the trial plaintiffs recovered judgment for \$750 and costs. The divisional court dismissed defendant's appeal from that judgment and they now appeal to this court. Appeal argued and judgment reserved.

PEASE FURNACE QUALITY IS ECONOMY.

Which is the sole reason for the unparalleled success of 'PEASE' Furnaces and Boilers. All the materials are carefully and accurately tested before being used—also during each process through which the materials are put until they are turned out as finished products, the same care and accurateness obtains. The result is that the 'PEASE' Furnaces and Boilers have earned a reputation for wear, durability and economy, which is unequalled.

Licence Commissioner Lamb Defines Position—Transfers Allowed. There will be no all bar hotels in Toronto if Daniel Lamb, of the licence commissioners, has any say about it. He had a little say about the matter yesterday at the board meeting when application was made to transfer Free Tremble's Victoria Exchange licence to John F. London. But Mr. Tremble was able to convince the board that the hotel was doing a fine dining room business as well as in room accommodation, so the transfer was granted. The licence changes hands at \$25,000. The transfer of the licence of the Saratoga Hotel at the corner of Queen and St. Nicholas, from Mrs. Phos. Hooper to H. N. Jennings for \$40,000, was allowed. The shop licence of Edward Hyland's store at the corner of Markham and Robinson-sts., was transferred to J. F.

SURE TO BE IN CABINET

But Otherwise Uncertainty Prevails and Genuine Surprises May be in Store.

OTTAWA, Sept. 29.—Up till to-night two men and no more than two had been definitely slated for places in the Borden cabinet. The world is informed as to what should be the best authority for the cabinet, but the published news is wide of the truth and that the authentic list of Borden ministers, when finally announced, will surprise most closely to the premier-elect.

Mr. Borden is making his own cabinet, and is taking the advice of his own men, as Sir James Whitney, it will not be, according to the best information available to-night, composed of the greatest of men who have been known in the political world, or who have done party service.

Mr. Borden's right hand man, but the British Columbia premier has not yet replied.

The Laurier government might have highest honor at afternoon, but must wait for the arrival of Hon. Frank Oliver.

The resignation is likely to go to his residence, Monday or Tuesday.

J. L. Borden will be summoned to government house at once and will announce his government almost immediately.

Sir James Whitney and Hon. J. J. For left for Toronto, to-night. Mr. Cochrane is still in Ottawa, and Hon. Robert Rogers is also here.

F. D. Monk is confident of preference by Mr. Borden, and his inclusion, no obstacle in the way of his inclusion.

Stephenson, World's Champion Billiardist, comes in October. Seats by subscription only. List at C. H. Hanson's, 108 1/2 Young St. List closes next Wednesday. Subscribe now.

Chicago & Omaha Expenses Up. ST. PAUL, Minn., Sept. 29.—The thirtieth annual report of the Chicago, St. Paul, Minneapolis and Omaha Railway, made public to-day, shows that the cost of labor for operating the road was \$100,548 more than last year. Of the increase \$198,463 was due to the increase in the rate of compensation, and \$282,082 to the increase in number of men employed. The net operating revenue for the year was \$5,438,737, an increase of \$201,009 over the previous year.

TURKISH FLOTILLA SCATTERED BY ITALIANS

Continued From Page 1.

government to gain popularity may induce the government to show that it also can play the same game of aggression, and demand that Greece give up her claims on Crete.

Planned by Triple Entente. British officials are more concerned over the possibilities of trouble in the Balkans and Greece than with the actual conflict over Tripoli. The theory is that the powers of the triple entente planned the program agreed upon by the powers of the triple entente, that it was arranged that Austria took Bosnia and Herzegovina, Italy only awaited an opportune moment to carry it into execution.

Austria's acquisition of the two provinces in Morocco and Italy's compensating campaign nearby are interpreted by British officials as too logical to be considered mere independent acts.

England's Hands Tied. England's hands are tied officially in the present situation in Europe. The government cannot afford to incur the enmity of either belligerent by taking sides with the other. Yet, England's hands are tied by the treaty obligations, which make the treaty of the Ottoman Empire a European affair, in which no one power has the right to interfere.

Germany Will Protect Italians. BERLIN, Sept. 29.—Germany, which is watching the Turco-Italian situation with the keenest interest, is directing her endeavors towards concerted action with the other powers to limit the area of hostilities. Germany may be the strongest effort to prevent an outbreak of war, and only gave up hope at the last moment. It is announced that she has consented to undertake the protection during the hostilities of the property and lives of the Italians in Turkey, who number 50,000.

Naval Movements. PARIS, Sept. 29.—An unconfirmed rumor has reached Paris from Malta, by way of Tunis, to the effect that the British cruiser Medina has left to occupy Benghazi, a natural harbor between Derna and Alexandria.

Toulon, Sept. 29.—The French armored cruiser Ernest Arden, sailed from here this afternoon for Tripoli.

Italian Enthusiasm. CHIASSO, Switzerland, on the Italian Frontier, Sept. 29.—Despatches from the important Italian cities tell of much enthusiasm over the expedition to Tripoli, the various regiments composing which are now centred at various ports. All the officers have volunteered for longer and more difficult duty. The Italian press approves the action of the government, but some of the Socialist papers oppose it, while the Milanese, the organ of the Radicals, strongly criticizes the moment and means chosen for occupation.

The Scioles says: "If the principle is established that it is enough to say to Turkey 'you will start for Tripoli in disorder and abandonment; therefore we take it and bring civilization there,' any power left stronger and more able than Italy might say to her, 'you left the south crushed under poverty, illiteracy and superstition; therefore we seize it.'"

WASHINGTON, Sept. 29.—The declaration of war by Italy upon Turkey, coming as it did with practically no notice, created a great sensation in official Washington. The state officials here are already well posted.

The Sultan and the self-apparent sat in council with the ministers all night, when it was finally decided that Turkey should yield to force and not oppose the Italian landing at Tripoli, but hold influential Italian agents in the city.

Ultimatum Stipulates. The Chronicle's Milan correspondent, who sends his dispatches from the city, says: "The vast preparations for war which the government has been vigorously engaged in, and the worst ethics of Sicilian brigandage, rather than by the cabinet of a Christian king."

As during the recent ravages of the cholera, the minister has resorted to his favorite device—wide scale stoppage of telegraph and telephone messages, even forbidding the sending of cables by Italian correspondents arriving at Tripoli, who found everything calm there and nothing in the attitude of the natives to justify a panic or an exodus."

London Economist View. LONDON, Sept. 29.—The Partition of North Africa, says: "Undoubtedly Italy has as much right to a protectorate over Tripoli as France has over Tunis. We dare say that the public opinion of Tripoli and the Italian colonies in that somewhat hazy country are at least equal to the public opinion that served France as a pretext in Tunis or Morocco. Italy stands to lose heavily in any case."

British Foreign Office embraces the Young Turks, and as Italy's only British ally, the British foreign office has directed, it would naturally be expected that the British office would exert itself to prevent this unprovoked attack on a Turkish province.

If Italy feared Austrian aggression, she would not look up its picked army in a hasty and costly expedition to a country offering so few attractions.

Ontario Cabinet Probabilities

R. R. Gagey, M.L.A., from Manitoulin; W. H. Hearst, M.L.A., from Sault Ste. Marie, and Capt. H. A. C. Machin, M.L.A., of Keona, are the three names suggested from which a choice will be made for a successor to Hon. Frank Cochrane, as minister of lands, forests and mines in the Ontario cabinet.

This is, of course, providing that Mr. Cochrane accepts a portfolio in the Borden cabinet, and all indications point that way at present.

The excellent record of the provincial minister of mines has practically made it a certainty that only members from Northern Ontario, who are conversant with the conditions and requirements of the province, will be considered by Sir James Whitney as eligible for the portfolio.

The World Learned yesterday that both Sir James Whitney and Hon. Mr. Cochrane would be offered portfolios, but that Sir James would not under any circumstances consent to vacate the membership of Ontario, Hon. Mr. Cochrane's presence in the federal cabinet is, therefore, deemed a certainty, and while Mr. Cochrane has no personal desire to relinquish his present portfolio, nevertheless he will do so if Mr. Borden and Sir James consider the change imperative.

Reports were read in different appointments of missions in the several provinces, and all bore a tone of pessimism. Dr. Woodcock presented the report for Manitoba. Dr. Darwin told of the work in Saskatchewan. Dr. White spoke for the general interest of the provinces. Dr. Marshall told of how the maritime provinces are losing members and young ministers owing to the call of the west, and Rev. C. E. Manning also spoke of the work.

All new missions started during the next five years must be self-supporting. This is in order that the present donations may be devoted to the general interest of the present missionaries.

It was decided to grant \$500 to each of the superintendents for use in supply work.

Up Go Salaries. All unoccupied men in the Methodist ministry in Canada are to receive an increase in salary of \$50 per year. The minimum salary for Ontario is to be \$900, for the prairie provinces \$1000, and for British Columbia \$1100 for ordained men, so it was decided.

Any contributions sent to the board of superintendents for use in salaries to the pastors brought in to the west, where they have established their homes, but after expenses, they have been given by several of those present to be used to postpone the visit for at least a year, owing to the impaired condition of the missions are in just now.

NEW YONGE-STREET BRANCH. E. J. Humphrey, Popular Undertaker, Opens Branch at 359 Yonge-street, in the Premises Formerly Occupied by Mr. Alex. Millard.

The E. J. Humphrey Burial Co. has leased the premises formerly occupied by Mr. Alexander Millard of 359 Yonge-street, where they have established the third of their series of undertaking parlors, the others being located at 407 East Queen and 510 Spadina-avenue. The new branch is a most fortunate in securing the premises at 359 Yonge-street, as they have for years been used for their present purposes, and are especially adapted for the undertaking business. A special feature will be a private mortuary. Mr. Humphrey has one of the best undertaking establishments in Canada, the stock of caskets, including cloth, solid oak and mahogany finish. He has a motor-casket delivery car, which is the only one of its kind in use in this city. A private ambulance, with experienced men in attendance, is maintained. Mr. Humphrey, in addition to his motor-casket delivery car, has a fine lot of horses as could possibly be found in any undertaking business on the continent.

THE VICTORIOUS TYPOS. At a meeting of the Labor Day committee held last night in the Labor Temple, it was announced that the Typographical Union had gained the most points in the athletic competition of the third successive year, and honors have gone to this union, and hence the Firemen's Cup hereafter be longed permanently to the union.

BROADVIEW BOYS' FALL FAIR. A greater success than ever before was the 10th annual Broadview Boys' Fall Fair, which opened yesterday afternoon in their grounds on Broadview-avenue. The fair was in fact a veritable miniature of the exhibition, its features were as numerous and as varied, and the whole affair reflected the greatest credit on Secretary C. J. Atkinson and his associates.

The various exhibits attracted a great deal of competition, and the exhibition in general was a most successful one. The fair was well patronized, and the proceeds were used for the benefit of the boys.

Women's Missionary Officers. LINDSAY, Sept. 29.—At the annual meeting of the board of managers of the Women's Missionary Society of Canada, the following officers were elected: President, Mrs. W. E. Ross, Hamilton; vice-president, Mrs. Dr. Carman, Toronto; recording secretary, Mrs. A. M. Phillips, Toronto; corresponding secretary for foreign fields, Mrs. E. S. Strachan, Hamilton; corresponding secretary for home fields, Mrs. George Kerr, Toronto; secretary for studies and special objects, Mrs. N. A. Powell, Toronto; treasurer, Mrs. Wilkes, Toronto; treasurer of rest fund, Mrs. W. F. Onden, Toronto; editor of "Outlook," Mrs. A. Logden, Toronto; editor of "Palm Branch," Miss Stewart, Sackville, N.B.

BEACHES CELEBRATION. "Bob" Garvey and W. F. Maclean, M.P., will speak at a "victory" concert on Woodbine-ave. on Wednesday night next.

Body Found in Bay. A body found floating in the bay at the foot of John-street yesterday was later identified as that of Frederick Hamilton, of 42 Richmond-st., London, Ont., by C. W. Yates, 31 Victoria-avenue. The body was removed to the morgue.

Markham Township Deal. Mr. S. Willis sold east part of lot 21 in the 5th concession of Markham town to E. J. G. Yates, 1485 Main Street, Toronto.

Methodism Logging? Reports Do Not Cheer

Ratio of Membership Increase Not What It Once Was—More Pay For Ministers.

It could not be said that the Methodist mission board last evening struck a very optimistic note, but rather one of dissatisfaction at the disappointing low ratio of increase which has marked the growth of that church through the Dominion since the uniting of the individual churches in 1853.

In that year the increase in membership was a little over 1 per cent. of the total membership, but in 1910 the increase was only 1-1/2 per cent. It appears that thousands of names are dropped from the roll during each year, and that the number added barely keeps pace with the falling away.

So alarming is the situation considered by a committee of members searching from coast to coast has been appointed to look into the matter, and to report to the general conference at the next sitting.

Reports of Provinces. Reports were read in different appointments of missions in the several provinces, and all bore a tone of pessimism. Dr. Woodcock presented the report for Manitoba. BOUNCING BABY'S ECZEMA CURED

By Morrissey's No. 4. Prescription 47 Years Old.

Pictou, N. S., July 8, 1910. "When my baby was only two weeks old I noticed a slight rash on his body, and the little fellow would cry and fret night and day. I was greatly worried about him, and tried everything to relieve him, but without any success. The rash kept getting worse and worse until his little face and body was a mass of scabs. When he was about six months old I was advised to try Father Morrissey's No. 4 Eczema medicine, which I did. In about two months' time the scabs had disappeared, and the baby was as healthy and strong. I most thankfully recommend it to anyone suffering from Eczema."

The above prescription is not a "Cure-All" or so-called patent medicine. Dr. Morrissey prescribed it for 47 years, and has cured thousands after other doctors failed.

FURS DOUBLE IN VALUE

OTTAWA, Sept. 29.—Among the many articles the prices of which are advancing, may now be added that of furs. It will see a rise of from 10 to 100 per cent. in almost all lines of these comfortable garments.

The reason given for the demand for fur during the last four years has been a hundredfold, and owing to the districts where fur was formerly very plentiful, being rapidly settled, it is becoming difficult to get.

This is particularly true of Canada, where the tide of immigration has lately been very great, and the country is trying where the most valuable fur animals were plentiful.

MRS. JEFFERY'S SUDDEN DEATH. Suddenly last evening Mary Jeffery, wife of Frank P. Jeffery, 97 Alexander-street, died from heart failure. Mrs. Jeffery was born in this city, and is survived by her husband and two children, Frank and Florence, both of Toronto. She was a member of the Northern Congregational Church. The funeral will take place on Monday at 2:30 to Mount Pleasant Cemetery.

LEWIS—SMITH.

A pretty wedding was solemnized at St. Bartholomew's Church by the Rev. Mr. Taylor on Wednesday evening last when Miss Lillian, eldest daughter of Mr. and Mrs. William Smith, was married to Walter E. Lewis. The bride wore a handsome dress of duchesse satin with Brussels lace overdress, and carried a bouquet of white roses. Miss Eva Smith, the bride's sister, acting as bridesmaid, wore a very becoming dress of Alice blue silk, also a pearl brooch, the gift of the groom, and carried a shower of pink roses. A reception was afterwards given at the house of the bride's parents, 245 Ontario-street. Sixty-five guests sat down to the repast. The presents were both numerous and valuable.

JAMESON—HOLMES.

A quiet wedding took place at the residence of Rev. Dr. Taylor, Toronto, when Miss Mary Elizabeth Holmes, daughter of John and Elizabeth Holmes, formerly of Scarborough, became the wife of James Jameson. The bride, who was unattended, was attired in a cream serge, trimmed with green lace and pearls, wearing a picture hat trimmed with ostrich plumes.

Mr. and Mrs. Jameson left last night for Niagara Falls and other points, and will be at home at Westmount, Montreal, Nov. 1.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 85, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Under Which FLAG?

(During the campaign the Anti-Reciprocity articles in The Montreal Star attracted widespread attention. They were admired by the vast multitude who read them, and copied all over the Continent. Those who had no opportunity to do so, have it now. These articles will doubtless become historic.)

THE TWO FLAGS

that flank the caption of this article are twin standards of Christianity, of civilization, of progress throughout the world. Each of them is a flag of which a great people is justly proud. It is entirely true—as the advocates of Reciprocity say so frequently—that these flags stand for much the same principles, much the same ideals, much the same standards of living. Moreover, the nations which float them have much the same ambitions—both love power, prestige and prominence among the nations.

We do not print these flags in contrast to praise our own and the little that of the United States. Our readers, who have followed the opinions we have ventured to express from time to time in these columns, know us well enough to be sure of that before we say it. We admire the American people. They have some institutions which we do not like as well as our own; but these institutions are not at all the consequences of their national character—they are the inevitable results of the stupendous and daring attempt of the founders of the American Republic to strike off at a single blow a Constitution and an entire system of government.

OUR FORM OF GOVERNMENT.

Our advantage lies in the circumstances that our constitution and system of government is a growth—not a manufacture. If we had been making our own governing machinery, we might, for instance, have thought it a wise and democratic step to cause our judges to be elected. We might have argued that no stream can rise above its source and that the selection of the judges should be left to the people. But, fortunately, our judicial system was grown for us. Under the guiding hand of Providence, it emerged slowly out of the conditions which followed the development of the monarchical idea. The consequence is that our judges are still appointed—nominally by the Crown, but really by an Executive responsible to the people—and this system of appointment for life has given us a judiciary which is the envy of our American neighbors.

Another example of our good fortune is our sensitively responsible government. If our American neighbors had stayed "under the flag" they would have had it as well as we. It is not our virtue or superior judgment which has given us this boon and denied it to

the Americans. It is the "accident" that they tried—very humanly—to make something quite different from the government whose rule they were fleeing. They feared to leave the executive and the legislative power all in the hands of one group of men. They distrusted their politicians; and we might have distrusted ours in the same way, had we had the chance. But fortune favored us. Our constitution was ready-made for us. It was made by the slow, sure hand of development, under pressure of hard trials and great difficulties. And the work of experience proved to be better than the hasty "creation" of the American Convention.

We might go on citing other examples of this sort. But the sum total of it is that we have certain institutions and methods of government which we greatly prefer to those in operation across the line; and we propose to keep them. If we can preserve the independence and distinct nationality of Canada, we can keep them; but if we throw in our lot with "the Continent to which we belong," then we lose them and receive in their stead the very American institutions and methods which the American people admit to be inferior to ours.

RETAINING OUR IDENTITY.

Now, we want to say, with the full sense of the responsibility which attaches to such a statement, that we believe it will not be easy for Canada to retain its identity. Human nature must have changed and the teaching of history must be discounted if a nation of eight, or even eighteen millions, finds it easy to share a Continent with a nation of ninety or a hundred millions—and keep its feet. We must assume that the Americans are not ambitious—that they are not as selfish as other people—if we are to convince ourselves they do not and never will, covet Canada. Yet, if they covet Canada, they are ten to our one; and it is pure nonsense to talk as if it were like saying "good day" for us to decide to remain independent.

If we keep our national identity, we will have to defend it. A very little consideration will show any thoughtful person how the crisis is likely to arrive. The United States and the British Empire are two great English-speaking powers. They are in much the position which Prussia and Austria occupied in the time of Bismarck. Just as Prussia and Austria were rivals for the hegemony of the German-speaking world, so Great Britain and the United States must presently be rivals for the hegemony of the English-speaking world. Austria was the greater power; but Prussia won. Great Britain is to-day the greater power; but shall the parallel be completed?

CANADA WILL DECIDE.

Canada will have the casting vote. That is why our position is so critical—and so perilous. When we get—say—thirty or forty millions of people here, if we go in with the United States, the enlarged American Republic will then contain between 150,000,000 and 175,000,000 people. The British Isles will carry little more than 50,000,000. They, and Australia and South Africa, will be isolated English-speaking communities, whose fat empire the hungry nations of the world will watch with watering mouths. It will be plain enough that the entire English-speaking race must then stand together, or fall separately into the maws of its rivals. But if this agreement of nations comes together and agrees upon a leadership, will that leadership rest with the 50,000,000 or with the 150,000,000?

On the other hand, if Canada, with its 40,000,000, stays by the Motherland with its 50,000,000, and finds ten to twenty millions more in Australia and South Africa, the hegemony of the race will easily remain in British hands; for the people of Britain, Australia and South Africa will be better equipped for war, on a per capita basis, than we on this peaceful Continent are at all likely to be. That having been secured, the next step beckons. Canada has by far the broadest opportunity for development.

Our vast country will fill up. We will grow from forty to eighty millions. We will be the largest of the British nations. Then, the hegemony will come to us; and a Canadian city will be the capital of the British Empire.

Without the support of Britain, Australia, South Africa and our "far-flung Empire," we would always be overshadowed by the Americans. United with these other British communities, we will control and guide the destinies of our race. It is this proud position that we are asked to sell. We are invited to declare now—before the competition has fairly begun—that Washington and not a Canadian city is to be the Anglo-Saxon Capital. That is the issue which is at stake in this election; and, compared with it, the petty game of matching markets, at which the politicians are playing so eagerly, shrinks into insignificance.

With this broader vision before our eyes, perhaps one or two other things become clearer. Can we not say that we have already seen at least two preliminary strategic "moves" in this impending struggle for the leadership of the English-speaking world? The first "move" was sought to be made in Britain. A section of her people proposed to bind the Empire—and especially Canada and the Motherland—more closely by means of a system of tariff pre-

ference. That "move" so far, has failed. The people of the United Kingdom have refused to make it.

TAFT WAKES UP.

But the suggestion that it might be made, has had its effect at Washington. President Taft is engagingly frank on this point. He tells his people that there are "forces at work in England and Canada" which seek to "separate her (Canada) by a Chinese wall from the United States, and make her part of an Imperial commercial band reaching from England around the world to England again by a system of preferential tariffs"; and that, consequently, this is a "critical" time for Reciprocity, and that "we (the Americans) must take it now or give it up forever."

In this, we wholly agree with President Taft. His political precience is undeniable. The basis for his conclusion is not as broad as it should be, however. There is another force at work far more fatal to American Reciprocity than the preferential proposal; and that is the mounting growth of Canada. Give us a few more years; and our people would laugh Reciprocity out of court without even a hearing.

But, in any event, President Taft has made his "move"—the second "move" in this great and world-shaking game. He has offered Canada the preference over which Britain hesitates. We are to have free access to his market; and everybody else is to be taxed. It has a most tempting sound. The life-long Reciprocity-arians in the Liberal Government fell victims to it; and they were the most astonished men in the world when they found that the whole country did not hail their "bargain" with delight. They thought that all Canada was for Reciprocity in natural products.

It was, at one time! but now Rip Van Winkles have no business in politics. The world has moved in the last two decades. Conditions have mightily changed—and changed for the better. Now that the storm has risen, these men have tried to hide in the grave of Sir John Macdonald. But that grave has been closed for fifteen years; and is closed on a man who fought his last fight against a form of Reciprocity which he feared would rob him of his proudest possession—the privilege of dying "a British subject."

CONDITIONS HAVE CHANGED.

Of course, every farmer knows that a preference in the United States is quite a different thing from a preference in Britain. The United States is an exporter of farm produce; the United Kingdom is an importer. There we have the thing in a nutshell. A British preference would be a bonus to every Canadian farmer;

and if it is, perhaps, just as well to remember that, in voting for Reciprocity, we are putting the possibility of that bonus away from us forever. An American preference is—to use an American expression—"an option on a fight." That is, we can send our farm produce into a market which has a constant surplus of its own growth, where it can "fight" for a chance against the home-grown article.

However, that is an economic question; and we are inviting your attention just now to the subject of our political future. We believe, for our part, that this is a greater matter than the rise and fall of markets. Whether our readers agree with us on this point or not, the men who have made history in the past have always been of this opinion. When the Empire Loyalists left their comfortable and oft-times luxurious homes in the new American Republic for the long "trek" into what was then the wilderness of Canada, they did not do so in search of the dollar. It would have paid them better to stay and accept the American flag. They would have been richer, more comfortable, lived longer and given their families far greater advantages. But—right or wrong—foolish or sublime—they chose the Union Jack for their flag and followed it into peril, hardship, suffering and death.

THEY CHOSE THE UNION JACK.

The Union Jack has been accustomed to fly over such sacrifices. "The flag that braved a thousand years, the battle and the breeze," has seen men die in its defence under every sun that shines and by every sea that has borne its ships. If British subjects had always counted the cost before they faced death under its folds, it would not be our flag today—it would not, in truth, be a flag at all. Wolfe dying at Quebec; Brock dying at Queenston Heights—the soldiers and pioneers and Empire-builders who have planted Canada where she stands, would have found more personal profit in other paths.

These signal names which fire our blood are by no means all of those who have made their real sacrifices to keep the flag flying which faces the Stars and Stripes at the head of this article. Literally thousands of Canadians who are alive to-day, or who have not been long in their graves, have known what it is to choose the smaller pay, the more limited chance in life, the narrower outlook, that they might stay "under the flag" and help build up a Canada of which their children and their children's children could be proud.

The blood-letting of the "exodus" has not long ceased. We

have all seen our companions leave for the more dazzling lure of "American prosperity." They went to seek their fortunes where fortunes were being found. But we stayed by the ship. We may have been foolish—many said we were—but we had the faith in our country and a belief in the ability of our people to build up a mighty and lasting nation here on the northern half of this great continent. So we stayed. We took pence when we could have got dollars; and we chose the northern—the less brightly gilded—the more storm-tossed flag. Perhaps we were inspired by the feeling of that patriotic Canadian poet who wrote:—

THE MEN OF THE NORTHERN ZONE.

Oh, we are the men of the Northern Zone!
Shall a bit be placed in our mouth?
If ever a Northerner lost his throne,
Did the conquerer come from the South?
Nay, nay—and the answer blent
In chorus is southward sent
"Since when has a Southerner's conquering steel
Hewed out in the North a throne?
Since when has a Southerner placed his heel
On the men of the Northern Zone?
Our hearts are free as the rivers that flow
To the seas where the north star shines;
Our lives are free as the breezes that blow
Thro' the crests of our native pines.
We never will bend the knee,
We'll always and ave be free,
For liberty reigns in the land of the leal,
Our brothers are round her throne;
A Southerner never shall place his heel
On the men of the Northern Zone." The Khan.

But now, at last, the tide has turned. The brothers who left us are coming home again. The hard, stubborn fight we have made to prove the essential pre-eminence of Canada has won. We have secured the suffrage of the entire world in support of our claim that Canada is the land of greatest opportunity under the wide sky. We have routed indifference, we have conquered contempt, we have baffled jealous hostilities, we have convinced scepticism itself. We have filled our cities with industries; we have banded our half-continent with railways, we have laughed at leagues of wilderness and leaped over mountains; and we have drawn to our prairies, and the fat fertile land of our older provinces, the sturdiest army of farmers in the world.

No one now doubts the possible future of Canada. We have made it sure. We are not a boastful people; but we may be forgiven if we boast a bit of our

determination, our faith in the face of discouragement, our unyielding loyalty to our native land. We have believed in Canada; and she has justified our belief. She is the richest, most promising, most prosperous country in the modern world.

BELIEVED IN CANADA.

We have believed, furthermore, in our people. We have been confident that they would "make good." And they have. They are the possessors of the El Dorado of the twentieth century; and they have proven their capacity to guide its development and carry it forward to its high destiny.

The capacity we have. Have we the courage? That is the issue to-day. Just at the climax of our success, we are asked by the shrewd nation which scorned us when we were weak and scouted us when we sought her favors, to give it all up—to abandon the ideal for which our fathers faced the bleak north—to share with her the rich harvest which we sowed in bitter hardship and cherished through long years of suffering and lonely sacrifice.

Shall we do it?
Shall we surrender just when the battle is won?

Shall we let the men, who deserted us in the dark days, now come in as full-fledged "American citizens" and take over the country they did not think worth living in?
Shall we give it to them to say that they have judged better than we have all along—that they cleverly escaped the digging and the planting, the dull days of rain and deadly days of drought, but that now they get a Prodigal's share of the feast? They will have reversed the parable. They went abroad and found—not a diet of husks—but the richest living, leaving the "lean commons" to us; and, now they come to us as citizens of a foreign country, expecting that the "fatted calf" will be served to them.

Shall we give up, too, the glorious future which beckons us—the chance that we will become the chief state in the British Empire and the most powerful nation in the world?

Shall we bring the sacrifices of the Fathers to naught?
Shall we re-tread the path, with apology on our lips and our price in our hands, that the United Empire Loyalists trod with stern lips and a priceless loyalty in their hearts?

Shall we admit to the refuge they found, and made sacred, the very flag whose intolerance they defied?
The answer to these questions will all be given on polling day. This is not a party election. It is a national crisis. We are, in truth, "at the parting of the ways." We will either continue to march on the highway toward national greatness with the flag of Canada floating in our clear northern air over our heads; or, we will turn aside toward absorption in the "great and glorious Republic," to the south of us, surrendering to a calculating smile what we have long defended from hostility in every form—armed invasion, tariff persecutions, bullying over boundaries, even insolent disregard of treaty obligations.—*Montreal Daily Star, September 16th, 1911.*

DOUBLE TRACKS FOR TOWN SWITCHES FOR RAILWAY

This Was Undecided Problem Before Ontario Railway Board Yesterday.

The dispute between the Town of North Toronto and the Metropolitan Railway Company with regard to the disposition of the latter's switches on Yonge-street, was adjourned yesterday afternoon before the Ontario Railway Board.

The differences between the parties in dispute are of a complex character, the town wanting one and the railway another.

The town of North Toronto wants a five-minute service of the Metropolitan cars in North Toronto and the railway company is willing to do this, on condition that it gets permission to increase the length of the existing five switches and put in two additional ones.

A. Gibson, K.C., counsel for the town of North Toronto, objected to this proposal of the Metropolitan Railway Company, claiming that lengthening the existing switches and adding two new ones would be an objectionable procedure, and would involve as much trouble and inconvenience to the public as the laying of double tracks would.

Mr. Gibson said he thought the town would consent to the laying of double tracks, but that the Metropolitan Railway Company would not consent to the laying of double tracks, and that the Metropolitan Railway Company had not the right to run freight cars on the tracks within the city limits.

Mr. Gibson presented the argument for the town, summarizing the whole situation.

The Town of North Toronto was represented by T. A. Gibson, K.C., and J. F. Thomas, K.C., the Metropolitan Railway by J. H. W. Pedley, K.C., and H. L. Drayton, K.C.

WEST TORONTO, Sept. 29.—The following pupils of the Humberdale Collegiate have been recommended by the Senior Principal Dr. Emery: H. J. MacCormack, B.A., local principal, for scholarship awards; Form I, Helen Phillips, Harry Clarke, Myrtle Branscombe, Gordon Agnew, Gavin Hamilton, Kenzie Joseph Breen, Form III, Harry Agnew, Leslie Kilborn, Form IV, Jonathan Sharpe, Gavin Hamilton.

The collegiate first team played their first game of Rugby football this afternoon on the Trinity College campus, and were beaten by Parkdale Collegiate by a score of 20-0. The Humberdale team is exceedingly light this year and it was placed in the senior league. The game was rather unfortunate that they were placed in the senior league. This prevented any very good plays, but they played an excellent game, and Heintzman all played an excellent game.

Hollinger and Rea Lead in General Move to Lower Levels

Sharp Declines in Mining Issues Rea Down to a New Low Record

Perceives Tara Weak on Liquidation from Tired Holders Cobalt Quiet, With Five Point Decline in Temiskaming.

World Office.
Friday Evening, Sept. 29.
Marked weakness characterized the mining exchanges to-day the Porcupine plunging into another wave of liquidation, which enforced recessions upon the whole speculative market. Trading continued of a decidedly sluggish nature, there being little call for securities, and offerings being larger than usual, traders were forced to sell out stocks at a sacrifice in order to get their selling orders filled.

In accordance with usage the higher Porcupines led in the backward movement, Hollinger and Rea being the features of the day. Big declines in both of these issues probably have something to do with inspiring the selling of the cheaper stocks which took their cue from the higher priced stock of the list, and followed their lead in the trough.

Hollinger sold as low as \$11, a decline of 50 points for the session. There was no news out in reference to the shares, but in usually well-informed quarters it was stated that the decline was due to forced selling in order to raise funds, and this was the general opinion prevalent among the trading fraternity.

A sharp slump in Rea, brought about in the same way, caused considerable comment in the market. The shares sold as low as \$2.64, a loss of 10 points from last night's close, and today practically at the bottom of the market. This constituted a new low record for the stock, the previous low having been \$2.80, touched during the mid-August decline.

Traders were somewhat at a loss to explain the big decline in Rea, but it was noted that manipulatory activity was not altogether lacking, and the movement bore signs of the fine hand of an English syndicate, who have had a large interest in the company since the latter part of the year. The motive in this case was the weak spot of the cheaper issues, and the closing of about that price, this and the others shown in this section of the list were purely a reflection of the action of the big securities.

In the Cobalts declines were shown by both Beaver and Temiskaming, the latter of which dropped six points at 34 after heavy liquidation.

STATEMENT CONFIRMED

Crown Chartered Co. Sends Out Notice of Purchase of New Holding.
The Crown Chartered Mining Co. has issued the following statement concerning the taking over of the Davidson claims.

The Crown Chartered Co. has for the past six weeks been engaged in the showing of one of the Davidson claims, adjoining the No. 1 claim of the Crown Chartered Co., which disposes of with front of 200 feet of shaft has been sunk to a depth of 60 feet. Work is continuing night and day, with three shifts. Visible gold has been found on this vein for 200 feet length, and the values are holding at the bottom shaft.

The directors were much impressed by the unusual richness of the objects in making a large payment on the Davidson claims and giving the Crown Chartered Co. the right to purchase the same, as the latter requires to demonstrate the value of the property before committing themselves to the purchase.

CROWN CHARTERED TAKE OVER DAVIDSON CLAIMS

Aggressive Development Proves Up the Property and Option is Exercised.

One of the most important deals yet made in Porcupine was that consummated yesterday in Montreal, when the directors of the Crown Chartered company exercised the option giving them two weeks since on the Davidson property and formally took over the claims from the syndicate of Toronto mining men by whom they were recently purchased for the company.

The Davidson claims, five in all, immediately adjoining the property of the Crown Chartered estate situated in the North Tiedale, and add 200 acres to the 200 acres already held by the company. Seven of the claims are located in North Tiedale, an almost contiguous group, while the other three are located in the southwestern part of the district.

Immediately after securing the option on the Davidson property, the Crown Chartered Company put a force of men to work on the claim adjoining their No. 1 claim, and for the past six weeks the most aggressive work has been carried on at this point.

SCENIC VIEWS

on MATTAGAMI RIVER and the PORCUPINE GOLD DISTRICT
We have on the press an illustrated booklet, known as "MATTAGAMI HEIGHTS" to be sent free on request. There is an EMPIRE BUILDING in Northern Ontario. MATTAGAMI HEIGHTS is destined to be the LARGEST MANUFACTURING and DISTRIBUTING point in the new PORCUPINE DISTRICT.

MATTAGAMI HEIGHTS is the key of the situation. It controls the strategic position, location is high, DRY, RIGHTLY WELL DRAINED, and has a COMMANDING VIEW of the surrounding country. It will be the PREMIER CITY of the PORCUPINE DISTRICT.

There are working to-day several thousand people at good wages within a radius of ten miles from MATTAGAMI HEIGHTS, and considering the development of the territory immediately adjacent, it is probable there will be ten thousand people working within that same radius before the year is out. The MATTAGAMI HEIGHTS is situated within a quarter of a mile from the Mattagami Landing, the principal shipping point on the Mattagami River, and is located in a beautiful spot of a mile from the DEPOT, which for many years to come will be the terminus of the N. & N. Railway.

To the west of Mattagami Landing there are thousands of prospectors in the Township of Mountain Godfrey, Turbulla and Bristol, with big leads and big strikes being struck daily. There are hundreds of prospectors in the Chippewee District, and the Mattagami Gold Fields, the north-west and southwest. All of this vast territory will pour in the TRADE and the COMMERCE, and will look to MATTAGAMI HEIGHTS for its SUPPLIES.

Adjacent to the Mattagami River there are millions of dollars worth of STANDING TIMBER and the great amount of sunshine, with abundant water power. At Mattagami Landing there is already in operation a large sawmill and lumber industry.

In the wake of the large manufacturing, mineral and other developments in the neighborhood of MATTAGAMI HEIGHTS there will be the DISTRIBUTING AND EXPORTING FACILITIES covering a large and prosperous territory. MATTAGAMI HEIGHTS is 525 miles from Toronto and 500 miles from Montreal, and is a rapidly developing district.

The farming land in MATTAGAMI HEIGHTS will be developed rapidly. Clover, timothy, small grain and all the root crops, owing to the rich soil and the great amount of sunshine in the summer season, are grown in the greatest profusion. Truly, nature has been liberal in bestowing her gifts upon Northern Ontario.

The better lands of PORCUPINE and COBALT stocks are good purchases, but the SAFEST and BEST PURCHASE OF ALL is the MATTAGAMI HEIGHTS, a rapidly growing town, surrounded by resources such as are assured around MATTAGAMI HEIGHTS.

Wheat Market Turns Strong As Result of War Declaration

Outbreak of Hostilities Between Italy and Turkey Regarded as Bullish Factor—Corn and Oats Share in Movement.

CHICAGO, Sept. 29.—War by Italy against Turkey made a strong active movement to-day for wheat. The close was 1-8c to 1-4c to 1-2c higher than last night. Latest trading left corn 1-8c off to 3-8c up; oats at 1-4c to 3-8c advance, and hog products varying from the same level as 24 hours before to 7-10c gain.

The theory of those who bought wheat on account of the war news was that the clash would be likely to disturb political affairs generally throughout Europe. Most of the active speculators here were caught on the short side of the market when the actual break between the two nations was announced, and it was the scramble of the unlucky dealers to get even that caused prices to bulge.

Three Years' Trial

has proven the "Safe Lock" fence to be, without a shadow of a doubt, the strongest and most serviceable wire fence on the market in Canada.

Look at the illustration herein. There is absolutely no kink required to prevent the stay from slipping on the strand, therefore the horizontal wires are as strong at the point where the stay is attached to it as at any other place along the wire.

The "Safe Lock" is the only fence made of No. 9 wire throughout that has no kinks or sharp bends in the strand wires.

An ordinary kink, such as is frequently put in wires to prevent the stays from slipping, weakens the wire to the extent of approximately two hundred pounds. By this you can appreciate the advantage gained by not being required to kink the strands, as the strain of a fence is all put upon the strands.

Write us for the name of our nearest agent and for our catalogue. We still have some territory open for live agents. Write us for agent if you can handle a good line of fencing and gates.

Jim Holden, Head of a Big Railway, Revisits His Native Town.

WHITBY, Sept. 29.—(Special.)—Jas. T. Holden, chief executive of the Kansas City Southern Railway Co., was here this week attending his sister Clara's wedding to Reeve Albert W. Jackson.

Mr. Holden is an old Whitby boy who went west a generation ago. He is the eldest son of the late James Holden, who was manager of the railway since absorbed by the G. T. R., and runs north from here to Mandla Junction.

When the Kansas City Southern Railway runs from Kansas City south to the Gulf of Mexico, 1000 miles. It is owned by Hollanders, who have recently put \$15,000,000 into improvements on the road.

He entertained in his private car the friends of his father.

GRAIN IN PRESCOTT ELEVATOR.

PRESCOTT, Sept. 29.—At 8 p.m. to-day there were 18,550 bushels corn, 6070 bushels wheat, and 256,466 bushels oats in the Prescott elevator.

When the notification from Chief of Police Grasset informing the board of control yesterday that the police commissioners had passed the recommendation made by the board six months ago that first-class constables get a 25c raise in wages was received, some sarcastic remarks were made by the board as to the expedition of the commissioners.

On the Relation of Clothes to Colds

How many men do you meet in the course of a day—especially these Woodbine days—dressed in the height of fashion, yet taking no pleasure out of life, *thanks to a bad cold?*

Of course it's a "bromide" to say that the exercise of a little common sense will prevent most colds. But the particular phase of this common sense that we would like to see exercised is in the matter of *seasonable* clothes.

Few and far between are the men of this town who have come through September without an Overcoat *and* without a cold. It's still more dangerous to tackle October without one. Exercise your common sense by coming here to-day or Monday and purchasing one of the following:

A New Fall-Weight Overcoat—Made from a specially fine English grey cheviot cloth, in single-breasted fly front style, beautifully tailored and finished with silk facing; a very desirable coat for good dressers. Price 13.50

A Heavy Winter Overcoat—Made from a heavy English tweed overcoating, in good shade of brown diagonal weave, made single-breasted style, with convertible collar, draw straps on sleeves, slash pockets. This coat is very warm, yet not too heavy, and has satin lining through shoulders only. Price 28.00

A Heavy Ulster—Made single-breasted style, with the two-way convertible collar, from an English dark grey ulstering in diagonal weave; full ulster length, with centre vent, good linings, perfect fitting, and one that will give entire satisfaction. Price 15.00

Nearly Five Dollars Saved On a Blue Suit

A blue suit of English twill worsted would probably suit you just a little better than any other suit you could buy. It's a safe investment at regular prices. What do you say, then, to this opportunity of buying one for **eight-ninety** on Monday? Mostly single-breasted, three-button sacques, but a few double-breasted. Sold in the regular way up to \$13.50. Monday 8.90

Hunters' Coats

After a man has taken out an extra insurance policy he then wants a good warm hunting coat, made from a heavy brown duck, corduroy collar, large game pockets, and lined with warm wool lining; an extra well-made coat. Monday 3.50

Boys' Double-Breasted Overcoats

The style is a double-breasted, with collar made to button up to the neck. The cloth is an imported Scotch tweed, in a medium grey shade. This coat is well tailored and trimmed with first-class linings; sizes 25 to 31, Monday, 7.00; sizes 32 to 35, Monday 7.50

Boys' Fancy Overcoats at \$4.50

Fancy Overcoats, in a dark, rich grey, with black stripe and faint touch of green; the cloth is a Scotch tweed, in a heavy weight; the black velvet collar, fancy buttons, cuff on sleeve, and general get-up makes this a popular coat for the boy from 3 to 9 years; sizes 21 to 27. Monday 4.50

The New Silk Hat

"The correct thing" for the races this afternoon, or for church to-morrow. If you didn't win one on the recent election, the next best thing is to get one here, where the following striking values will be found.

Christy's English Make, finest finish, in the new Fall shape, with medium or heavy brim 5.00 and 6.00

Correct American Blocks, very dressy hats, and exceptionally light in weight 3.50 and 5.00

"Ah-Tchoo!"

Whether or not this is the acknowledged onomatopoeic representation of a sneeze, here, at least, is the acknowledged accompaniment, at prices that are difficult to match.

If you're a devotee of the "All-Linen" Handkerchief, you'll be glad to note the savings here indicated. The Irish lawn and the mercerized ones are proportionately good value.

Men's Genuine All-Linen Handkerchiefs, 1/4 and 1/2-inch hem; full size, and with fine, smooth Irish bleach 3 for .38

Other qualities at 3 for .50 and 3 for .68

Men's Mercerized Handkerchiefs, with floral (colored) borders, also blue and white polka dot borders 3 for .25

5000 dozen Men's Irish Lawn Handkerchiefs 5 for .25

New Styles in Collars and Ties

The changes from year to year in Men's Collars are very subtle, but never neglected by good dressers. Most of the changes are in the direction of comfort—ties now slip through good double collars without difficulty, yet the collar preserves a neat snug appearance.

The new Austrian collars fit well and look superior to any other collar yet made; the tie slips easily through the double folds; they are made from pure four-fold linen, and the finish of them is perfect in every detail; a large range of styles to choose from at the popular price of 3 for .50

Both shapes and shades are new in the Autumn Neckwear; the new Ties in the paddock are as easily picked out as the new Millinery in the enclosure.

There is now a new range of Fancy and Plain Silk Neckwear in stock. All the new shapes and styles for Fall wear are represented. The knitted neckwear is specially noticeable. Prices from 1.00 to 2.50; Silks50 to 1.50

COLONIAL Drapery Fabrics

The Opening Display

The making of the fine Colonial fabrics, the perfection of the process of dyeing fast colors, the reproduction in an inexpensive material of the most beautiful decorative cloths of this and former periods, marked a new era in home decoration. Formerly the home beautiful was possible only for those procuring the most costly block printed and finely woven fabrics. Now one's taste and the amount of pleasure one takes from beautiful surroundings alone restrict the possibilities of the most artistic furnishings.

For the Living Room

For Hangings, Monastery Cloth in the fine rich verdure effects reproducing the beautiful colorings of old French tapestry at 65c the yard.
For Coverings, Chair coverings, couch coverings, cushions or willow chair pillows, the Osman tapestries are a most effective and durable material—and the price for 36-inch width is 65c the yard.
For Loose Covers, Curtains and Cushions, exact copies of the beautiful old English block printed taffetas and reps; the colorings and designs are unusually beautiful. The price, 40c and 50c the yard.

For the Bedroom

For Curtains, French Volles made with plain centre and shadow printed borders for window curtains, the daintiest effects to match any color scheme at 50c the yard.
For Over Curtains, taffetas and dimities in pink, blue, mauve, rose, green and yellow, a beautiful collection of dainty and yet effective materials, 40c the yard.
For Bedspreads, plain white dimities, taffetas and reps, to be trimmed with band decorations and appliques to match the draperies. Dresser covers and bedroom boxes may also match perfectly.
For the Dining-room, the heavy double printed serims with stencilled borders make inexpensive but most effective curtains, 30c the yard.
A special display showing the many effective treatments in which these materials may be used will be made in our department during this week.
These fabrics are obtainable in Toronto only at The Robert Simpson Co.'s Drapery Department, 4th Floor.
